Contact Center Americas, a Leading Outsourcer in Colombia, Chooses NICE Call Center Solutions to Provide Value-Added Services to its Customers

New 600 seat call center is Contact Center Americas` third site using NICE

Ra`anana, Israel, March 1, 2004 - NICE Systems (NASDAQ: NICE), a worldwide leader of multimedia recording solutions, applications and related professional services for business interaction management, today announced that Contact Center Americas, a leading call center outsourcer in Colombia, has selected NICE in cooperation with Avaya for quality management and recording solutions within its latest 600-seat call center.

While enabling high customer service levels, the NICE solutions enhance Contact Center Americas` value proposition as the outsourcer looks to maintain its leading position and fully benefit from strong ongoing growth in its regional marketplace. Drawing on the wide experience gained from supporting a large diversified customer base spread throughout the World`s focal points for outsourcing, NICE is able to offer Contact Center Americas tools that deliver training and quality while simultaneously generating additional revenues.

Such revenue-generating tools include web-based applications that enable the outsourcers' clients to receive important information on their end users in real time. Contact Center Americas is making particular use of software from NICE that automatically initiates customer interaction recording based entirely on agent desktop activity. By integrating this NICE application with its own in-house applications, Contact Center Americas is able to capture valuable business

information for its clients, such as which of their end users are receptive to up-selling, or why complaints keep coming in from a particular region.

"We chose NICE to help us deliver world-class value-added services to our clients," said Luis Eduardo Niño, Director of Technologies, Contact Center Americas. "The NICE solution, coupled with our other services, enables us to present a very powerful value proposition to our customers, and NICE is a vital ingredient of our overall offering moving forward."

"Outsourcing is by some distance the largest call center vertical in Latin American today," said Gabriela Koren, NICE director for the Caribbean and Latin America. "Our leading position within all of the key regional outsourcing markets across the world gives us wide-ranging experience and expertise with which to support major players such as Contact Center Americas in Colombia to achieve their business objectives, and keep them ahead of the competition."

About Contact Center Americas

Contact Center Americas is a leading contact center outsourcer, based in Colombia and offering services in various Spanish speaking countries including Mexico, Colombia, Venezuela, Spain and the Latin community in the United States. Two companies, Publicar and ETB, invested over US\$8 million to merge and create Contact Center Americas, between them bringing together over 10 years of experience, particularly in the customer care arena. Contact Center Americas has over 2000 employees, operating 24 hours a day, located in 2 sites and serving over 25 customers.

NICE Wins Contract at Major International Airport Worth More Than \$3 Million

Digital video surveillance system to provide enhanced security with reduced total cost of ownership

Ra'anana, Israel, March 10, 2004: NICE Systems (NASDAQ: NICE), a worldwide leader of multimedia digital recording solutions, applications and related professional services for business interaction management, today announced that it has been awarded a substantial contract for its digital video security solution at one of the largest airports in the United States, to be mostly delivered in 2004.

The new contract is NICE's largest-ever in the digital video arena, and it confirms the strength of the NICE value proposition for major airports worldwide, which have been under public pressure to improve security. NICE delivers increased efficiency to significantly reduce the chances of security incidents such as terminal evacuations via utilization of its advanced video capabilities.

The NICE solution provides high video quality, a wide range of storage options and the ability to monitor and record data from thousands of cameras simultaneously. NICE also delivers advanced video analysis capabilities for enhanced monitoring of critical security zones. All of these features are delivered at affordable total cost of ownership.

"This decision to invest in NICE is strong additional proof that our solution is considered to be the optimal technological and financial answer for major airports worldwide," said Doron Eidelman, corporate executive VP and president of NICE's digital video security division. "NICE is very well-positioned to continue delivering comprehensive solutions across the World as the global trend to equip airports with digital technology continues unabated."

NICE Systems and Dimension Data Expand Their Relationship with Global Distribution Agreement

Ra'anana, Israel, and London, UK - March 16, 2004: NICE Systems (NASDAQ: NICE), a worldwide leader of multimedia digital recording solutions, applications and related professional services for business interaction management, and Dimension Data (LSE: DDT), a leading global technology company providing solutions and services that optimize and manage the performance of IT infrastructures to enable business to build competitive advantage, today announced that they have signed a global distribution agreement.

This agreement expands upon an existing local relationship through which Dimension Data has been delivering NICE solutions to the South African marketplace since 1997 as an award-winning member of the NICE Partnership Program. The expanded collaboration enables both NICE and Dimension Data to enhance the value of their respective offerings by building upon the expertise and reputation that each enjoys in its respective field. The two companies have already benefited from the new agreement with recent joint customer wins in Europe and Asia.

"Our close relationship with NICE is extremely important to us, as we look to extend our solutions offering, and we are proud to be joining the NICE Partnership program as a Gold-level member," commented Neville Cousins, technology director of customer interaction solutions global division, Dimension Data. "NICE is integral to our ongoing efforts to help our clients create contact centers that perform."

"Dimension Data and NICE can bring significant added value to our joint customers, thanks to our worldwide presence and market leadership," said Koby Huberman, NICE's corporate vice president for business development and strategic alliances. "Moreover, as we lead the migration to VoIP recording and analytics, our mutual expertise and close relationship with VoIP technology vendors such as Cisco and Avaya, further strengthen our partnership with Dimension Data."

About Dimension Data

Dimension Data Holdings plc (LSE: DDT) is a leading global technology company. The Group provides solutions and services that optimise and manage the performance of IT infrastructures to enable business to build competitive advantage. To achieve this, the Group delivers solutions using its proprietary 'Application Network' architectural framework and its expertise in networking, application integration and managed services.

Dimension Data's Customer Interactive Solutions delivers integrated management of customer interaction across channels to retain and grow the value of companies' customer bases. It offers a unique combination of contact centre

outsourcing, customer relationship management, technology and operational consulting capabilities. Dimension Data has CIS practices around the world and draws upon over 20 years` experience to advise, build and integrate leading-edge contact centres.

Dimension Data, founded in 1983, had revenues of \$2.1 billion in 2002 and operates in 30+ countries with over 8,000 employees. (Dimension Data website: www.didata.com)
