TO THE STOCKHOLDERS OF NETWORK PERIPHERALS INC. AND FALCONSTOR, INC.

A MERGER PROPOSAL--YOUR VOTE IS VERY IMPORTANT!

Network Peripherals Inc. ("NPI") and FalconStor, Inc. ("FalconStor") have entered into a merger agreement. In the merger, holders of FalconStor capital stock will receive shares of NPI common stock in exchange for the shares of FalconStor capital stock they own. Upon completion of the merger, the former stockholders of FalconStor capital stock will own more than a majority of the combined company's outstanding common stock, and the name of the combined company will be changed to FalconStor Software, Inc. NPI common stock is listed on The Nasdaq National Market under the trading symbol "NPIX," and the NPI common stock closed at \$ per share on May , 2001. After completion of the merger, the common stock of the combined company will trade under the symbol " ".

NPI is requesting that its stockholders approve the adoption of the merger agreement and the approval of the merger. As part of the approval of the merger, NPI stockholders will approve the issuance of shares of NPI common stock in the merger, as well as the amendment and restatement of NPI's restated certificate of incorporation to increase the authorized number of shares of NPI common stock from 60,000,000 to 100,000,000 and change NPI's name to "FalconStor Software, Inc." The exact number of shares to be issued in the merger is calculated pursuant to an exchange ratio. The precise exchange ratio will be determined at the closing of the merger and will depend, in part, on the amount of cash, cash equivalents and short-term investments of NPI minus any cash payments due under certain agreements with NPI's management plus \$25,000,000. Assuming that these assets remain at \$, as stated in NPI's Form 10-Q for the quarter ended March 31, 2001, and that shares of NPI's common stock remain outstanding, the aggregate number of shares of NPI common stock to be issued to the FalconStor stockholders in the merger would be . This number of shares would result in FalconStor stockholders owning % of NPI's capital stock.

In addition, in the event the merger is not completed, NPI is requesting that its stockholders (i) elect two Class I Directors to serve for three-year terms and (ii) ratify the selection of PricewaterhouseCoopers LLP as NPI's independent accountants.

FalconStor is requesting that its stockholders vote to adopt the merger agreement and approve the merger with NPI.

The board of directors of NPI unanimously recommends that you vote in favor of each of its proposals as outlined above. QUESTIONS AND ANSWERS ABOUT THE MERGER

Q1: What is the merger transaction?

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

A: In general terms, the merger transaction involves the merger of Empire Acquisition Corp., a wholly-owned subsidiary of NPI, into FalconStor, Inc. with FalconStor as the surviving corporation. Holders of FalconStor common stock will receive shares of NPI common stock in exchange for the shares of FalconStor common stock they own, including common stock issued upon conversion of FalconStor preferred stock immediately prior to the merger. As a result of the merger, the former stockholders of FalconStor will own more than a majority of NPI's common stock immediately after the merger. Following the merger, FalconStor's management will be the management of the combined company. NPI is evaluating strategic alternatives for its existing hardware business, which may include selling its NuWave technology and its related inventory and equipment.

Q2: What am I being asked to vote upon?

A: NPI stockholders are being asked to approve the adoption of the merger agreement and approval of the merger. Approval of the adoption of the merger agreement will include approval of all transactions contemplated thereby, including, without limitation:

- . the issuance of approximately shares of NPI common stock in the merger;
- . the amendment to NPI's restated certificate of incorporation to increase the authorized number of shares of common stock to 100,000,000 to allow for the issuance of the shares of NPI common stock to the current holders of FalconStor stock and to allow for a sufficient reserve of authorized shares following the merger and to change NPI's name to FalconStor Software, Inc.

The amendment to the restated certificate of incorporation will take effect only if the merger is completed.

In addition, NPI stockholders are being asked to approve two further proposals in the event the merger is not completed:

- . the election of Michael Gardner and James Regel as Class I Directors to serve for three-year terms; and
- . the ratification of the selection of PricewaterhouseCoopers LLP as NPI's independent accountants.

FalconStor stockholders are being asked to approve the adoption of the merger agreement and approval of the merger. Approval of the adoption of the merger agreement will include approval of all transactions contemplated thereby, including, without limitation, the conversion of all of the outstanding shares of each series of preferred stock immediately prior to the merger.

Q3: Why are we proposing the merger?

A: The boards of NPI and FalconStor believe that the combination of NPI and FalconStor will create a stronger, more fully developed company by providing substantial financial resources that will enable FalconStor to continue developing and enhancing its storage networking infrastructure software.

A discussion of additional reasons for the merger appears on pages 37 to 39.

Q4: Why has NPI decided to discontinue its Ethernet switching business?

A: NPI has decided to discontinue its Ethernet switching business because of the unanimous conclusion of NPI's board of directors that the strategic

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

repositioning of the company as an emerging leader in storage networking infrastructure software, with a significant cash position, a public-company currency, leading-edge technology, a shipping product and a strong, proven management team was a superior alternative to being in the Ethernet switching business.

1

Q5: Why does the merger agreement provide for the amendment of NPI's restated certificate of incorporation?

A: If the merger is approved, NPI's restated certificate of incorporation will be amended to increase the authorized number of shares of its common stock because NPI will be issuing approximately _____ shares of common stock in connection with the merger. NPI currently has approximately 45,000,000 shares available for issuance. The increase in the authorized number of shares by 40,000,000 will assure that sufficient shares are available to be issued in connection with the merger, and that an adequate number of shares of common stock will be available for future issuances under the combined company's equity compensation plans, and in the event the combined company's board of directors determines that it is necessary or appropriate to issue additional shares in connection with a stock dividend, the raising of additional capital, the acquisition of other businesses, the establishment of strategic relationships with corporate partners, or for other corporate purposes. FalconStor's management is not currently contemplating any of these transactions, other than issuances pursuant to its or NPI's stock option plans. The name of the combined company will be changed to FalconStor Software, Inc. to reflect the combined company's new business focus.

This amendment to NPI's restated certificate of incorporation will take effect only if the merger is completed.

Q6: What will I receive in the merger?

A: NPI stockholders will not receive any consideration in the merger, and the number of shares of NPI common stock that they hold will be unaffected. However, NPI will be issuing approximately _____ shares of common stock to FalconStor stockholders in connection with the merger, which will have a dilutive effect on the percentage ownership of each NPI stockholder.

FalconStor stockholders will receive shares of NPI common stock for the shares of FalconStor common stock they hold. Based on _____ shares of NPI common stock outstanding on _____, 2001, _____ shares of NPI common stock will be issued to FalconStor stockholders. As a result, the holders of FalconStor common stock will hold approximately _____ % of the outstanding common stock of NPI. However, the price of NPI common stock fluctuates. Therefore, the closing price as of any date in the past provides no assurance as to the value of NPI common stock that FalconStor stockholders will receive upon completion of the merger.

Q7: What restrictions will apply to the shares of NPI common stock that I will receive in the merger?

A: All shares of NPI common stock received by the officers, directors and stockholders of FalconStor in the merger will be subject to transfer restrictions pursuant to lock-up agreements for a period of 365 days following the effective date of the merger. Following the merger, the board of directors of the combined company may, in its sole discretion, release any or all of the shares from the lock-up restrictions.

Q8: On April 2, 2001, NPI purchased 9,792,401 shares of FalconStor Series C

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

preferred stock for \$25,000,000. What effect will NPI's purchase of shares of Series C preferred stock of FalconStor have on the merger?

A: All shares of FalconStor Series C preferred stock issued to NPI prior to the merger will be canceled and the proceeds received by FalconStor from that sale of stock will remain in FalconStor for use in ongoing operations after the merger.

Q9: What are the tax consequences of the merger?

A: Subject to the discussion in "Tax Consequences" below, NPI and FalconStor have structured the merger so that, for federal income tax purposes, FalconStor stockholders will generally not recognize a gain or a loss upon the receipt of NPI common stock in the merger, except with respect to cash received in lieu of fractional shares or in connection with the exercise of appraisal rights. NPI stockholders will not recognize taxable gains or losses as a result of the merger. NPI and FalconStor have conditioned the merger on receipt of legal opinions regarding the tax consequences of the merger.

2

Q10: If I am a holder of FalconStor capital stock, how should I send in my stock certificates for exchange?

A: Do not send in your stock certificates with your proxy card. You must keep your stock certificates until after the merger has been completed, after which you will receive a letter of transmittal describing how you may exchange your FalconStor stock certificates for certificates representing shares of NPI common stock. At that time, you will have to submit your FalconStor stock certificates to the exchange agent with your completed letter of transmittal.

Q11: How does my board of directors recommend that I vote on the proposals?

A: NPI stockholders: The NPI board of directors unanimously recommends that you vote FOR the proposals submitted by the NPI board.

FalconStor stockholders: The FalconStor board of directors unanimously recommends that you vote FOR the proposal submitted by the FalconStor board.

Q12: What vote is required to approve the proposals?

A: NPI stockholders: Assuming a quorum is present, each of the proposals regarding the merger submitted to NPI stockholders will require the affirmative vote of holders of at least a majority of the shares of NPI common stock entitled to vote at the NPI annual meeting. If you abstain or do not instruct your broker how to vote, your abstention or broker non-vote will have the same effect as a vote against the proposal to approve the merger agreement and the proposal for the amendment of the restated certificate of incorporation. Abstentions and broker non-votes will have no effect on the election of directors. Abstentions will have the same effects as a negative vote on the ratification of NPI's selection of its independent accountants.

The directors shall be elected by a plurality of votes cast. Ratification of the selection of NPI's appointment of PricewaterhouseCoopers LLP as its independent accountants requires a majority of votes cast.

FalconStor stockholders: Assuming a quorum is present, the proposal requires the affirmative vote of holders of at least a majority of the outstanding voting power of the common stock and the preferred stock voting together as a single class, and a majority of the outstanding shares of Series A preferred

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

stock, two-thirds of the outstanding shares of Series B preferred stock, and a majority of the outstanding shares of Series C preferred stock, each series voting separately. If you abstain or do not vote, your abstention or non-vote will have the same effect as a vote against the merger proposal.

Q13: What do I need to do now?

A: After you read and consider the information in this document, mail your signed proxy card in the enclosed return envelope as soon as possible, so that your shares may be represented at the appropriate stockholders' meeting. You should return your proxy card whether or not you plan to attend your stockholders' meetings. If you attend your stockholders' meeting, you may revoke your proxy at any time before it is voted and vote in person if you wish.

Q14: What do I do if I want to change my vote after I have sent in my proxy card?

A: You can change your vote at any time before your proxy is voted at the appropriate stockholders' meeting. You can do this in one of three ways. First, you can send a written notice stating that you would like to revoke your proxy. Second, you can complete and submit a new proxy card at a later date. If you choose either of these methods, you must submit your notice of revocation or your new proxy card to NPI or FalconStor, as the case may be, before your stockholders' meeting. Finally, you can attend your stockholders' meeting and vote in person. Simply attending your stockholders' meeting, however, will not revoke your proxy. If you have instructed a broker to vote your shares, you must follow directions received from your broker to change your vote.

3

Q15: If my shares of NPI common stock are held in "street name" by my broker, will my broker vote my shares for me?

A: Your broker will vote your shares only if you provide instructions on how to vote. If you do not provide your broker with instructions on how to vote, your broker's non-votes will have the same effect as votes against approval of the merger. You should follow the directions provided by your broker regarding how to instruct your broker to vote your shares. Abstentions and broker non-votes will have no effect on the election of directors. Abstentions will have the same effects as a negative vote on the ratification of NPI's selection of its independent accountants.

Q16: What constitutes a quorum at the stockholders' meetings?

A: A quorum is a majority of the outstanding shares entitled to vote which are present or represented by proxy at the stockholders' meetings. A quorum must exist for the transaction of business at the stockholders' meetings. If you submit a properly executed proxy card, even if you abstain from voting, your shares will be considered part of the quorum. Broker non-votes, which are shares held by a broker or nominee that are represented at the stockholders' meeting, but with respect to which the broker or nominee is not empowered to vote on a proposal, are also included in determining the presence of a quorum.

Q17: Who can I call with questions?

A: If you have any questions about the merger or how to submit your proxy, or if you need additional copies of this joint proxy statement/prospectus or the enclosed proxy card or voting instructions, you should contact the individuals listed below:

SUMMARY OF THE JOINT PROXY STATEMENT/PROSPECTUS

This summary highlights selected information from this document and may not contain all of the information that is important to you. Even though we have highlighted what we believe is the most important information, we encourage you to read the entire joint proxy statement/prospectus for a complete understanding of the proposed merger of a wholly-owned subsidiary of NPI into FalconStor. You should also review the other available information referred to in "Where You Can Find More Information" on page 146.

The Companies

Network Peripherals Inc.

Until recently, NPI designed and sold Ethernet switching solutions designed for local area networks, or LANs. In response to unfavorable market conditions and in order to take best advantage of the opportunity presented by FalconStor's technology and market opportunity, NPI is evaluating strategic alternatives for its existing hardware business, which may include selling its NuWave technology and its related inventory and equipment.

NPI's principal executive offices are located at 2859 Bayview Drive, Fremont, California 94538. NPI's telephone number is (510) 897-5000.

FalconStor, Inc.

FalconStor is a provider of storage networking infrastructure software.

FalconStor's principal executive offices are located at 125 Baylis Road, Suite 140, Melville, New York 11747. FalconStor's telephone number is (631) 777-5188.

Risk Factors

The "Risk Factors" beginning on page 16 should be considered carefully by both NPI and FalconStor stockholders in evaluating whether to approve the adoption of the merger agreement and approval of the merger. These risk factors should be considered along with any additional risk factors in documents incorporated by reference in this joint proxy statement/prospectus and any other information included or incorporated by reference herein, including in conjunction with forward-looking statements made herein.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Reasons for the Merger (page 37)

The NPI and the FalconStor boards approved the merger based on a number of factors, including, among other things, their belief that the combination of NPI and FalconStor will create a stronger, more successful company, with enhanced prospects for continued viability, by:

- . establishing the merged company as a publicly-listed, well-capitalized emerging leader in storage networking infrastructure software; and
- . providing the stockholders of both companies with the potential for more financial success than either company has on its own.

The two boards of directors also considered separate reasons for the merger as well as various risks associated with the merger.

The Structure of the Merger (page 47)

Merger. At the closing of the merger, a wholly-owned subsidiary of NPI will merge into FalconStor and FalconStor will be the surviving corporation. Immediately prior to the merger, each share of FalconStor preferred stock shall be converted into that number of shares of common stock for which each share of preferred stock is then convertible. Each share of FalconStor common stock then will be converted into the right to receive shares of NPI common stock.

The Merger Agreement

The merger agreement is attached as Annex A to this joint proxy statement/prospectus. We encourage you to read the merger agreement, as it is the legal document that governs the merger.

Conversion of Securities; Adjustment of Exchange Ratio (page 57). In the merger, each share of FalconStor common stock will be converted into the right to receive shares of NPI common stock. Immediately prior to the effective time of the merger, all shares of FalconStor preferred stock will

5

be converted into shares of FalconStor common stock at the then applicable conversion price. The number of shares of NPI common stock that each FalconStor stockholder will receive will be determined by an exchange ratio set forth in more detail beginning on page 58. The precise exchange ratio will be determined at the closing of the merger and will depend, in part, on the amount of cash, cash equivalents and short-term investments of NPI minus any cash payments due under certain agreements with NPI's management plus \$25,000,000. This figure will be calculated as of the end of the calendar month prior to the effective time of the merger without giving effect to expenses NPI incurs in connection with the merger. To the extent this amount is less than \$90,000,000, the number of merger shares shall be increased by an equivalent percentage.

NPI Common Stock (page 55). The NPI common stock that holders of FalconStor common stock will receive as a result of the merger is traded and quoted on The Nasdaq National Market under the market symbol, "NPIX." Following the completion of the merger, the name of the company will be changed to FalconStor Software, Inc. and the common stock of the combined company will trade under the symbol " ."

Treatment of Options (page 46). All outstanding options to purchase FalconStor common stock will be assumed by NPI. Each option shall remain subject to the same terms and conditions set forth in FalconStor's stock option plan. Such options will be exercisable for the number of shares of NPI common

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

stock that is equal to the number of shares of FalconStor common stock subject to the option immediately prior to the merger multiplied by the exchange ratio. The exercise price of the assumed options will be correspondingly adjusted by dividing it by the exchange ratio.

Conditions to the Merger (page 64). The completion of the merger depends upon the satisfaction of a number of conditions, including:

- . approval of the merger agreement and the transactions it contemplates by the stockholders of NPI and FalconStor;
- . the receipt of clearance for the merger under the Hart-Scott-Rodino Antitrust Improvements Act of 1976;
- . approval for quotation on The Nasdaq National Stock Market of the shares of NPI common stock to be issued in the merger;
- . NPI's maintenance of at least \$55,000,000 of cash, cash equivalents and short-term investments exclusive of estimated cash payments due under retention agreements with certain members of NPI's management as a result of the merger and \$25,000,000 of Series C preferred stock of FalconStor owned by NPI; and
- . receipt by each of NPI and FalconStor of an opinion of counsel to the effect that the merger will be treated as a tax-free reorganization under the Internal Revenue Code of 1986.

No Solicitation (page 61). Subject to certain exceptions, neither NPI nor FalconStor may solicit or support any proposal for a merger or similar transaction involving any third party, participate in negotiations or discussions concerning any proposed acquisition by a third party, provide any non-public information to any third party relating to any proposed acquisition, or approve or recommend any proposed acquisition by a third party. Prior to the effective time of the merger, however, NPI has the right to sell its assets related directly to its Ethernet switching business.

Termination (page 65). Subject to certain exceptions, either NPI or FalconStor can terminate the merger agreement if the merger is not completed by September 30, 2001, and in various other circumstances.

Termination Fees and Expenses (page 65). In general, all fees and expenses incurred in connection with the merger agreement and the transactions it contemplates shall be paid by the party incurring such expenses, whether or not the merger is completed.

NPI and FalconStor have agreed that if the merger agreement is terminated by NPI or FalconStor and the termination is not a result of any breach by FalconStor, NPI will pay FalconStor \$3,000,000.

6

Treatment of NPI Stock Options and Restricted Stock (page 46)

NPI's equity plans include its 1993, 1996, 1997 and 1999 Stock Plans and its 1994 Outside Directors Stock Option Plan, each as amended. The merger constitutes a "change of control" or "transfer of control" of NPI under its employee stock plans. The following is a description of the effect of the merger on those plans.

- . All options held by employees, directors or consultants under the various

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

stock option plans will remain outstanding and the vesting of certain options will accelerate as a result of the transfer of control. See "Interests of Certain NPI Persons in the Merger."

- . The 1994 Outside Directors Stock Option Plan provides that, in the event of a transfer of control, any unexercisable or unvested portion of the outstanding options shall be immediately exercisable and vested in full as of the date 10 days prior to the date of the transfer of control.

Treatment of FalconStor Stock Options and Restricted Stock (page 46)

All outstanding FalconStor options shall remain subject to the terms and conditions of the existing FalconStor stock option plan, including any restrictions on the exercisability of each option and the term, exercisability and vesting schedule, except that:

- . each option will be exercisable for that number of shares of NPI common stock equal to the product of the number of shares of FalconStor common stock that would be issuable upon exercise of the option immediately prior to the effective time of the merger multiplied by the exchange ratio;
- . the per share exercise price for the shares of NPI common stock issuable upon exercise of each option will be equal to the quotient determined by dividing the exercise price per share of FalconStor common stock at which the option is exercisable immediately prior to the effective time of the merger by the exchange ratio; and
- . further adjustments may be made in the case of incentive stock options, if required under U.S. federal tax laws.

Under the terms of the merger agreement, NPI has agreed to assume all FalconStor options, whether vested or unvested.

Interests of Certain Persons in the Merger (page 45)

Interests of Certain NPI Persons in the Merger

Certain NPI executive officers are parties to an executive retention plan pursuant to which the merger constitutes a change of control and according to which such officers are, upon the closing of the merger, entitled to a minimum bonus that is a combination of cash and vested stock appreciation. The ratio of cash to vested stock is determined by subtracting the amount of an officer's in the money stock from the total minimum bonus payable to the officer under the executive retention plan.

In addition, certain officers have offer letters, salary continuation agreements, separation and release agreements or employment agreements pursuant to which the merger constitutes a change of control and according to which, upon the closing of the merger, a specified percentage of the executive officers' stock options will become 100% vested. In addition, if the combined company terminates the employment of any of these executive officers, pursuant to the terms of their respective agreements, following the closing of the merger such officers are entitled to a combination of severance pay and benefits.

On October 18, 2000, Glenn Penisten, chairman of the board of directors of NPI and an NPI employee, purchased 17,500 shares of FalconStor Series B preferred stock at a purchase price of \$25,000.

As a result of these interests, the officers and directors of NPI who are parties to these agreements or who own stock of FalconStor may be more likely

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

to vote to approve the merger agreement than if they did not hold these interests. NPI's stockholders should consider whether these interests may have influenced these directors and officers to support or recommend the merger.

7

Interests of Certain FalconStor Persons in the Merger

Under the merger agreement, NPI has agreed to honor any indemnification provisions of FalconStor's certificate of incorporation and bylaws for a period of six years from the completion of the merger. NPI has also agreed to provide for indemnification provisions in the certificate of incorporation and bylaws of the surviving corporation of the merger. In addition, NPI has agreed to provide director and officer liability insurance for any claims arising in connection with the merger agreement for a period of not less than six years following the completion of the merger.

The chairman of the board of directors of FalconStor is a member of a "group," as defined by the Securities Exchange Act of 1934, that is the largest beneficial owner of NPI common stock.

As a result of these interests, the directors and officers of FalconStor may be more likely to vote to approve the merger agreement than if they did not hold these interests. FalconStor stockholders should consider whether these interests may have influenced these directors and officers to support or recommend the merger.

Board Composition (page 46)

Upon the closing of the merger:

- . NPI's board of directors will have four directors with one vacancy;
- . four existing directors, James Regel, Thomas Brown, Michael Gardner and Charles Hart, will resign; and
- . Barry Rubenstein, ReiJane Huai and Irwin Lieber will be appointed to the NPI board.

At the closing, the NPI board will be Glenn Penisten, Barry Rubenstein, ReiJane Huai and Irwin Lieber. The term of Irwin Lieber shall expire at the annual meeting of stockholders to be held in 2002. The terms of Barry Rubenstein and Glenn Penisten shall expire at the annual meeting of stockholders to be held in 2003, and the term of ReiJane Huai shall expire at the annual meeting of stockholders to be held in 2004.

Relative Percentages of Ownership

The final exchange ratio shall be determined using the number of shares outstanding of NPI and FalconStor two days prior to the date of the stockholders' meetings. Consequently, the exact percentage ownership immediately following the merger cannot be determined as of the date of this joint proxy statement/prospectus. Based on the number of shares outstanding for each of NPI and FalconStor on , 2001, immediately after the closing of the merger, the holders of FalconStor common stock would hold approximately % of the outstanding common stock of NPI. The holders of NPI common stock would hold approximately % of the outstanding NPI common stock immediately after the closing.

Fairness Opinion of NPI's Financial Advisor

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Opinion of NPI's Financial Advisor (pages 41 through 45). In deciding to approve the merger, the NPI board of directors considered the opinion of its financial advisor, Lehman Brothers Inc., that, as of the date of its opinion and subject to the considerations and limitations set forth in its opinion, the aggregate consideration to be paid by NPI in the merger is fair, from a financial point of view to NPI and its stockholders. The full text of this opinion is attached as Annex B to this joint proxy statement/prospectus. NPI urges its stockholders to read the opinion of Lehman Brothers carefully and in its entirety.

Recommendations of the Boards of Directors

NPI stockholders (page 40): The NPI board of directors believes that the proposed merger is fair to, advisable for, and in the best interest of NPI and its stockholders, has unanimously voted to approve the terms and provisions of the merger agreement, and unanimously recommends that you vote FOR the adoption of the merger agreement and approval of the merger, including all transactions contemplated thereby.

8

FalconStor stockholders (page 40): The FalconStor board of directors believes that the merger is fair to, advisable for, and in the best interest of FalconStor and its stockholders, has unanimously voted to approve the merger agreement, and unanimously recommends that you vote FOR the adoption of the merger agreement and approval of the merger, including all transactions contemplated thereby.

Stockholder Approvals

NPI stockholders (page 28): For NPI, the affirmative vote of at least a majority of the shares of NPI common stock entitled to vote at the annual meeting of stockholders is required for approval of the adoption of the merger agreement and the approval of the merger. If you abstain or do not vote, your abstention or non-vote will have the same effect as a vote against the merger proposal. As of the record date, NPI directors and officers beneficially owned in the aggregate approximately % of the outstanding shares. Pursuant to voting agreements, each NPI officer and director has agreed to vote all of his shares in favor of the merger proposal.

The directors shall be elected by a plurality of votes cast. Ratification of the selection of NPI's appointment of PricewaterhouseCoopers LLP as its independent accountants requires a majority of votes cast.

FalconStor stockholders (page 30): For FalconStor, the proposal requires the affirmative vote of holders of at least a majority of the outstanding voting power of the common stock and the preferred stock voting together as a single class, and a majority of the outstanding shares of Series A preferred stock, two-thirds of the outstanding shares of Series B preferred stock, and a majority of the outstanding shares of Series C preferred stock, each series voting separately. If you abstain or do not vote, your abstention or non-vote will have the same effect as a vote against the merger proposal. As of the record date, the directors and executive officers of FalconStor beneficially owned in the aggregate approximately % of the outstanding voting power of FalconStor stock. Pursuant to voting agreements, each FalconStor officer, director and certain other FalconStor stockholders have agreed to vote all of the shares beneficially owned by them in favor of the adoption of the merger agreement and approval of the merger. The stockholders who have delivered voting agreements control a sufficient number of shares to approve the merger.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

The Stockholders' Meetings (pages 27 and 30)

The annual meeting of the stockholders of NPI will be held on _____, 2001, at _____ a.m., local time, at the Marriott Hotel, 46100 Landing Parkway, Fremont, California.

The special meeting of the stockholders of FalconStor will simultaneously be held on _____, 2001, at _____ p.m., local time, at the offices of FalconStor, 125 Baylis Road, Suite 140, Melville, New York 11747.

Tax Consequences (page 47)

NPI

The parties have structured the merger so that neither NPI nor its stockholders will recognize gain or loss for U.S. federal income tax purposes in connection with the merger.

FalconStor

The parties have structured the merger so that neither FalconStor nor its stockholders will recognize gain or loss for U.S. federal income tax purposes in connection with the merger.

Accounting Treatment (page 48)

The business combination will be accounted for under the purchase method of accounting. Although NPI will be acquiring FalconStor, after the transaction, FalconStor stockholders will hold a majority of the voting interests in the combined enterprise. Accordingly, for accounting purposes, the acquisition will be a "reverse acquisition" and FalconStor will be the "accounting acquiror." As FalconStor will be the accounting acquiror, its accounts will be recorded at historical cost and the assets and liabilities of NPI will be recorded at their estimated fair value as of the closing date.

9

Regulatory Approvals (page 55)

The merger is subject to the provisions of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, or the HSR Act.

Appraisal Rights (page 31)

Under Delaware law, the holders of common stock (including the common stock issued upon conversion of FalconStor preferred stock immediately prior to the merger) of FalconStor will have appraisal rights and may be entitled to receive cash equal to the fair market value of their FalconStor common stock. To do so, they must follow the procedures set forth under Section 262 of the Delaware General Corporation Law. Section 262 is attached as Annex C to this joint proxy statement/prospectus.

SELECTED UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION (In thousands, except per share data)

The selected unaudited pro forma condensed combined financial data set forth below gives effect to FalconStor's proposed acquisition of NPI as if the acquisitions had been completed on January 1, 2000 for statement of operations purposes, and as of March 31, 2001 for balance sheet purposes, and is derived from the unaudited pro forma condensed combined financial statements included elsewhere in this joint proxy statement/prospectus. This pro forma financial information should be read in conjunction with the unaudited pro forma condensed combined financial statements and related notes, which are included elsewhere in this joint proxy statement/prospectus, and the separate historical financial statements and related notes of FalconStor and NPI which are also included in this joint proxy statement/prospectus.

The pro forma financial information includes adjustments, which are based upon preliminary estimates, to reflect the allocation of the purchase consideration to the acquired assets and liabilities of NPI. The final allocation of the purchase consideration will be determined after the completion of the merger and will be based on appraisals and comprehensive final evaluation of the fair value of NPI's tangible assets acquired, liabilities assumed, identifiable intangible assets and goodwill at the time of the merger. The final determination of tangible and intangible assets may result in depreciation and amortization expense that is different than the preliminary estimates of these amounts.

The selected unaudited pro forma condensed combined financial information is presented for illustrative purposes only and does not purport to represent what the actual consolidated results of operation or the consolidated financial position of FalconStor would have been had the merger occurred on the dates assumed, nor are they necessarily indicative of future consolidated results of operations or financial position.

RISK FACTORS

You should carefully consider the risks described below regarding the merger, together with all of the other information included in this joint proxy statement/prospectus, before making a decision about voting on the proposals submitted for your consideration.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the information in this joint proxy statement/prospectus and in the documents that are incorporated herein by reference, including the risk factors in this section, contains forward-looking statements that involve risks and uncertainties. These statements relate to, among other things, consummation of the merger, future financial and operating results of the combined company and benefits of the pending merger. In many cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential," or "continue," or the negative of these terms and other comparable terminology. These statements are only predictions. Actual results could differ materially from those anticipated in these forward-looking statements as a result of a number of factors, including the risks factors described below, elsewhere in this joint proxy statement/prospectus and in NPI's periodic filings with the Securities and Exchange Commission, or SEC, incorporated herein by reference. NPI is not under any obligation (and expressly disclaims any such obligation) to update or alter its forward-looking statements, whether as a result of new information, future events or otherwise. Before making a decision regarding the merger, you should be aware that the occurrence of the events described in these risk factors could harm NPI's business, operating results, and financial condition.

Risks Related To The Merger

The merger will result in substantial dilution of the ownership interests of current NPI stockholders.

Upon completion of the merger, each share of FalconStor common stock will be exchanged for approximately _____ shares of NPI common stock. As a result, the current stockholders of NPI will own approximately 33% of the outstanding common stock of the combined company. This represents substantial dilution of the ownership interests of the current NPI stockholders. However, the number of shares of NPI common stock that each FalconStor stockholder will receive will be determined by an exchange ratio. The precise exchange ratio will be determined at the closing of the merger and will depend, in part, on the amount of cash, cash equivalents and short-term investments of NPI minus any cash payments due under certain agreements with NPI's management plus \$25,000,000. This figure will be calculated as of the end of the calendar month prior to the effective time of the merger without giving effect to expenses NPI incurs in connection with the merger. To the extent this amount is less than \$90,000,000, the number of merger shares shall be increased by an equivalent percentage. Any adjustment to the calculation of the exchange ratio will cause further dilution to NPI stockholders.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

The volatility of the market price of NPI common stock may reduce the value of the NPI shares received in the merger by FalconStor stockholders.

The market price of NPI common stock is by nature subject to the general price fluctuations in the market for publicly traded equity securities, and has experienced significant volatility. This fluctuation is, or in the future may be, caused by many factors including:

- . quarterly fluctuations in operating results;
- . announcements of new products by the combined company or its competitors;
- . gains or losses of significant customers;

16

- . changes in stock market analysts' estimates;
- . the presence or absence of short-selling of its common stock; and
- . events affecting other companies that the market deems comparable to the combined company.

Accordingly, you should obtain recent market quotations for NPI common stock in order to assess the market value of the NPI shares that will be issued in exchange for the FalconStor shares.

NPI cannot predict or assure FalconStor stockholders as to the market price of NPI common stock before the closing of the merger. If the market price of NPI common stock declines prior to the closing of the merger, the value of the NPI common stock to be received by holders of FalconStor common stock in the merger will be reduced.

Failure of the merger to achieve potential benefits could harm the business and operating results of the combined company.

NPI and FalconStor expect that the combination of NPI and FalconStor will result in potential benefits for the combined company. Achieving these potential benefits will depend on a number of factors, some of which include:

- . retention of key management, marketing and technical personnel after the merger;
- . the ability of the combined company to increase its customer base and to increase the sales of FalconStor products; and
- . competitive conditions in the storage networking infrastructure software market.

Neither NPI nor FalconStor can assure you that the anticipated benefits will be achieved. The failure to achieve anticipated benefits could harm the business, financial condition and operating results of the combined company.

The combined company's reported financial results will suffer as a result of purchase accounting treatment and the impact of amortization of goodwill and other intangibles relating to the merger.

The business combination will be accounted for under the purchase method of accounting. Although NPI will be acquiring FalconStor, after the transaction, FalconStor stockholders will hold a majority of the voting interests in the combined company. Accordingly, for accounting purposes, the acquisition will

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

be a "reverse acquisition" and FalconStor will be the "accounting acquiror." As FalconStor will be the accounting acquiror, its accounts will be recorded at historical cost and the assets and liabilities of NPI will be recorded at their estimated fair value as of the closing date.

As described in the Unaudited Pro Forma Condensed Combined Financial Statements, intangible assets of approximately \$23,500,000 are expected to be recorded with respect to the business combination and will be amortized over a period of three years following the closing of the business combination; however, because the number of shares to be exchanged in the business combination is subject to change based on an exchange ratio formula, the final determination of the purchase price will not occur until the closing of the merger, and will be based upon the fair market value of NPI's stock on that date. The amount of the purchase price allocated to intangible assets, including goodwill, may fluctuate significantly as a result.

If goodwill and other intangible assets were amortized in equal quarterly amounts over three years following completion of the merger, the accounting charge attributable to these items would be approximately \$2,000,000 per fiscal quarter or \$7,800,000 per fiscal year.

17

The financial results of the combined company could suffer as a result of the costs of the merger.

NPI and FalconStor expect to incur one-time and other charges, including direct transaction expenses, of between \$ and \$ in connection with the merger. FalconStor is expected to allocate the costs it incurs to FalconStor. If the benefits of the merger do not exceed the costs associated with the merger, including any dilution to NPI stockholders resulting from the issuance of shares of NPI common stock in the merger, the combined company's financial results, including earnings per share, could suffer, and the market price of the combined company's common stock could decline.

The rights of holders of FalconStor common stock will change as a result of the merger.

Following the merger, holders of FalconStor common and preferred stock outstanding immediately prior to the merger will become holders of NPI common stock. There are differences between the rights of NPI stockholders under NPI's restated certificate of incorporation and bylaws and the rights of FalconStor stockholders under FalconStor's certificate of incorporation and bylaws. As a result of these differences, the holders of FalconStor common and preferred stock may have less control over corporate actions proposed to be taken by NPI than those holders had over corporate actions proposed to be taken by FalconStor. The following is a description of some of these differences:

- . NPI's certificate of incorporation provides for a classified board of directors where only a portion of all of the members of the board of directors are elected at each annual meeting of stockholders;
- . NPI's certificate of incorporation provides that the holders of at least two-thirds of the shares of NPI common stock must approve changes to some of the provisions contained in NPI's certificate of incorporation;
- . NPI's bylaws may only be amended with the approval of a majority of the total number of authorized directors or the approval of the holders of at least two-thirds of the shares of NPI common stock;
- . NPI's certificate of incorporation does not permit holders of NPI common

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

stock to cumulate their votes in electing members of NPI's board of directors;

- . The holders of NPI common stock may not approve any action by written consent; all actions must be approved at a stockholder meeting.

For more information, see "Comparison of Rights of Holders of NPI Common Stock and FalconStor Common Stock," beginning on page 68.

Officers and directors of FalconStor will receive benefits that may have influenced them to support or approve the merger.

Some of the directors and officers of FalconStor have continuing indemnification against liabilities that give them interests in the merger that are different from the interests of the stockholders of FalconStor, including the following:

- . NPI has agreed to honor any indemnification provision of FalconStor's certificate of incorporation, as amended, and bylaws for a period of six years from the completion of the merger;
- . NPI and FalconStor have agreed that Barry Rubenstein, ReiJane Huai and Irwin Lieber, who currently serve on the board of FalconStor, will be appointed to serve on the combined company's board of directors following the merger.

For the above reasons, the directors and officers of FalconStor could be more likely to vote to approve the terms of the merger than if they did not have these interests. FalconStor stockholders should consider whether these interests may have influenced these directors and officers to support or recommend the merger. See "Interest of Certain FalconStor Persons in the Merger," beginning on page 45.

18

Officers of NPI have certain conflicts of interest that may influence them to support or approve the merger.

Some officers of NPI participate in arrangements that give them interests in the merger that are different from the interests of the stockholders of NPI. Certain NPI officers will receive payments in connection with the merger. In addition, certain officers of NPI are entitled to severance benefits if they are terminated by NPI as a result of the merger. Furthermore, Glenn Penisten, the chairman of the board and an employee of NPI, owns 17,500 shares of FalconStor's Series B preferred stock. For the foregoing reasons, some of the officers of NPI could be more likely to vote to approve the terms of the merger than if they did not have these interests. NPI stockholders should consider whether these interests may have influenced these officers to support or recommend the merger. See "Interest of Certain NPI Persons in the Merger," on page 45.

If the merger is challenged by governmental authorities, the merger may not occur or may occur on terms imposed by the governmental authorities, which terms may not be favorable to the combined company.

Before the merger may be completed, various approvals must be obtained from or notifications submitted to governmental authorities in the United States. These governmental entities may attempt to prevent the merger from occurring or attempt to condition their approval of the merger on the imposition of certain regulatory conditions that may have the effect of imposing additional costs on NPI or of limiting the combined company's revenues. The imposition of

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

regulatory conditions may make it more difficult for FalconStor to continue developing and enhancing its storage networking infrastructure software.

Failure to complete the merger could cause NPI's stock price to decline and could harm NPI's and FalconStor's business and operating results.

The merger agreement contains conditions which NPI and/or FalconStor must meet in order to consummate the merger. In addition, the merger agreement may be terminated by either NPI or FalconStor under certain circumstances. If the merger is not completed for any reason, NPI and FalconStor may be subject to a number of risks, including the following:

- . since NPI has ceased substantially all of its business activities, NPI will have no revenue on a going forward basis;
- . depending on the reasons for termination, NPI may be required to pay \$3,000,000 to FalconStor;
- . the market price of NPI common stock may decline to the extent that the relevant current market price reflects a market assumption that the merger will be completed;
- . many costs related to the merger, such as legal, accounting, financial advisor and financial printing fees, have to be paid regardless of whether the merger is completed;
- . there may be substantial disruption to the businesses of NPI and FalconStor and distraction of their workforces and management teams; and
- . NPI will hold \$25,000,000 worth of unregistered, preferred stock of FalconStor.

In addition, in response to the announcement of the merger, customers or suppliers of NPI and/or FalconStor may delay or defer product purchase or other decisions. Any delay or deferral in product purchase or other decisions by customers or suppliers could harm the business of the relevant company, regardless of whether the merger is completed. Similarly, current and prospective NPI and/or FalconStor employees may experience uncertainty about their future roles with NPI or FalconStor until the merger is completed. As a result, the ability of NPI and/or FalconStor to attract and retain key management, sales, marketing and technical personnel could suffer.

19

A liquidation of NPI, instead of the proposed merger with FalconStor, might result in increased returns for NPI's stockholders.

NPI currently has total assets with a book value of approximately \$100,000,000. While NPI's board has determined that it is in the best interests of NPI and its stockholders to enter into the merger, it is possible that, if the merger is completed, the holders of NPI common stock immediately prior to the merger may hold shares of the combined company's common stock worth less than the dollar amount they would have received if NPI's assets had been distributed among NPI's stockholders.

Failure to consummate the merger could adversely affect NPI's cash position and attractiveness to acquirors.

On April 2, 2001, NPI purchased \$25,000,000 of FalconStor's Series C preferred stock. If this merger is not consummated, NPI will hold \$25,000,000 of unregistered preferred stock of a privately-held company with limited resale

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

opportunities. This will reduce its operating cash and may reduce its attractiveness to potential acquirors.

Tax Risks Related to the Merger

A successful IRS challenge to the tax-free reorganization status of the merger could result in FalconStor stockholders incurring substantial tax liability with respect to their FalconStor stock exchanged in the merger.

Risks Related to the Combined Company's Business Following the Merger

In addition to the risk factors related to the merger set forth above, after the merger, the combined company will be subject to the following risks:

NPI and FalconStor have a history of losses, and the combined company may not achieve or maintain profitability.

Due to the early stage of FalconStor and its product, FalconStor has limited visibility into future revenues. FalconStor currently has signed contracts with resellers and original equipment manufacturers, or OEMs, to begin shipping products. FalconStor's business model depends upon signing additional OEM customers, developing a reseller sales channel, and expanding FalconStor's direct sales force. Any difficulty in obtaining these OEM and reseller customers or in attracting qualified sales personnel will negatively impact FalconStor's financial performance.

The market for IP-based storage solutions is new and uncertain, and FalconStor's business will suffer if it does not develop as FalconStor expects.

The rapid adoption of internet protocol (IP)-based storage solutions is critical to FalconStor's future success. The market for IP-based solutions is still unproven, making it difficult to predict its potential size or future growth rate, and there are currently only a handful of companies with IP-based storage products that are commercially available. Most potential customers have made substantial investments in their current storage networking infrastructure, and they may elect to remain with current network architectures or to adopt new architectures in limited stages or over extended periods of time. FalconStor will need to convince these potential customers of the benefits of FalconStor's IP-based storage products for future storage network infrastructure upgrades or expansions. FalconStor cannot be certain that a viable market for its products will develop or be sustainable. If this market does not develop, or develops more slowly than FalconStor expects, FalconStor's business, financial condition and results of operations would be seriously harmed.

20

FalconStor's products may not be accepted by customers or may become obsolete if FalconStor does not respond rapidly to technological and market changes.

The storage networking infrastructure software market is characterized by rapid technological change and frequent product and service introductions. The combined company may be unable to respond quickly or effectively to these developments. If competitors introduce products, services or technologies that are better than FalconStor's or that gain greater market acceptance, or if new industry standards emerge, FalconStor's products and services may become obsolete, which would materially harm the combined company's business and results of operations.

If FalconStor's new product introductions are not successful, its operating

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

results will suffer.

To become a significant supplier within the rapidly evolving storage networking infrastructure software market, the combined company will need to respond quickly to develop new products or enhanced features and capabilities in its current product offerings to effectively satisfy customer expectations. Although FalconStor's current products are designed for one of the most significant segments of the storage networking infrastructure software market, demand may shift to other market segments. Accordingly, the combined company will need to develop and manufacture new products that address additional storage networking infrastructure software market segments and emerging technologies to remain competitive in the data storage software industry. Neither NPI nor FalconStor can assure you that the combined company will:

- . successfully or timely develop or market any new storage networking infrastructure software products in response to technological changes or evolving industry standards;
- . not experience technical or other difficulties that could delay or prevent the successful development, introduction or marketing of new storage networking infrastructure software products;
- . successfully qualify new storage networking infrastructure software products with its customers by meeting customer performance and quality specifications;
- . quickly achieve high volume production of storage networking infrastructure software products; or
- . achieve market acceptance of its new products.

Any failure of the combined company to develop, introduce and integrate successfully new products for its existing customers or to address specifically additional market segments could harm its business, financial condition and operating results.

FalconStor's complex products may have errors or defects which could result in reduced demand for its products or costly litigation against the combined company.

FalconStor's IPStor platform is complex and designed to be deployed in large and complex networks. Many of the combined company's customers will require that its products be designed to interface with customers' existing networks, each of which may have different specifications and utilize multiple protocol standards. Because FalconStor's products are critical to the networks of its customers, any significant interruption in their service as a result of defects in the combined company's product within its customers' networks could result in lost profits or damage to its customers. These problems could cause the combined company to incur significant service and warranty costs, divert engineering personnel from product development efforts and significantly impair the combined company's ability to maintain existing customer relationships and attract new customers. In addition, a product liability claim, whether successful or not, would likely be time consuming and expensive to resolve and would divert management time and attention. Further, if FalconStor is unable to fix the errors or other problems that may be identified in full deployment, it would likely experience loss of or delay in revenues and loss of market share and its business and prospects would suffer.

The loss of one or more of FalconStor's significant customers would harm its business and operating results.

FalconStor expects to sell most of its products to a limited number of

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

customers. FalconStor's management expects that a relatively small number of customers will account for a significant portion of the

21

combined company's revenue after the merger, and the proportion of its revenue from these customers could continue to increase in the future. These customers have a wide variety of suppliers to choose from and therefore could make substantial demands on the combined company. Even if the combined company successfully qualifies a product for a given customer, that customer generally will not be obligated to purchase any minimum volume of products from it and generally will be able to terminate its relationship with the combined company at any time. The combined company's ability to maintain strong relationships with its principal customers is essential to its future performance. If it loses a key customer or if any of its key customers reduce their orders of the combined company's products or require it to reduce its prices before it is able to reduce costs, the combined company's business, financial condition and operating results would suffer.

FalconStor's business would be adversely affected if it fails to manage its growth properly.

The combined company plans to expand its operations rapidly to execute FalconStor's business plan. This growth will place a significant strain on the combined company's management, systems and resources and will force the combined company to incur increased operating expenses. In order to grow and achieve future success, the combined company must:

- . retain existing personnel;
- . hire, train, manage and retain additional qualified personnel; and
- . effectively manage relationships with its customers, suppliers and other third parties.

Because FalconStor will need to continue to expand, train and manage its workforce worldwide, the combined company will incur increased operating expenses. If the combined company does not manage this growth, or if Falconstor's revenues do not grow as fast as planned, the combined company's results would be adversely affected.

The combined company's quarterly results may fluctuate significantly which could cause its stock price to decline.

NPI's quarterly operating results have fluctuated significantly in the past and the combined company's quarterly operating results may fluctuate significantly in the future. The combined company's future performance will depend on many factors, including:

- . the average unit selling price of its products;
- . changes in product or customer mix;
- . existing competitors introducing better products at competitive prices before it does;
- . new competitors entering its market;
- . its ability to manage successfully the complex and difficult process of qualifying its products with its customers;

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

- . its customers canceling, rescheduling or deferring significant orders for the combined company's products, particularly in anticipation of new products or enhancements from it or its competitors;
- . import or export restrictions on its proprietary technology;
- . the availability of adequate capital resources;
- . increases in research and development expenditures, particularly as a percentage of revenue, required to maintain its competitive position;
- . changes in the combined company's strategy;
- . personnel changes; and
- . other general economic and competitive factors.

22

Many of NPI's and FalconStor's expenses are relatively fixed and difficult to reduce or modify. As a result, the fixed nature of the combined company's operating expenses will magnify any adverse effect of a decrease in revenue on its operating results. As a result of these and other factors, NPI believes that period to period comparisons of its historical results of operations and FalconStor's operations are not a good predictor of the combined company's future performance. If the combined company's future operating results are below the expectations of stock market analysts, its stock price may decline.

The storage networking infrastructure software market is highly competitive and intense competition could negatively impact FalconStor's business.

The storage networking infrastructure software market is intensely competitive even during periods when demand is stable. FalconStor's management believes that it competes primarily with:

- . DataCore; and
- . StorageApps.

Many of FalconStor's potential competitors have a number of significant advantages, including:

- . preferred vendor status with customers;
- . extensive name recognition and marketing power; and
- . significantly greater financial, technical and manufacturing resources.

As a result, those competitors may be able to establish rapidly or expand storage networking infrastructure software offerings more quickly, adapt to new technologies and customer requirements faster, and take advantage of acquisition and other opportunities more readily.

FalconStor's competitors also may:

- . consolidate or establish strategic relationships among themselves to lower their product costs or to otherwise compete more effectively against it;
- . lower their product prices to gain market share; or

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

- . bundle their products with other products to increase demand for their products.

In addition, new competitors could emerge and rapidly capture market share including some OEMs with whom FalconStor does business, or hopes to do business, that may enter the market directly. If the combined company fails to compete successfully against current or future competitors, its business, financial condition and operating results may suffer.

The loss of any of FalconStor's key personnel could harm the combined company's business.

The combined company's success depends upon the continued contributions of FalconStor's key employees, many of whom would be extremely difficult to replace. FalconStor does not have key person life insurance on any of its personnel. Many of FalconStor's senior management and a significant number of its other employees have been with FalconStor for a short period of time. Worldwide competition for skilled employees in the storage networking infrastructure software industry is extremely intense. If the combined company is unable to retain existing employees of FalconStor or to hire and integrate new employees, the combined company's business, financial condition and operating results could suffer. In addition, companies whose employees accept positions with competitors often claim that the competitors have engaged in unfair hiring practices. The combined company may be the subject of such claims in the future as it seeks to hire qualified personnel and could incur substantial costs defending itself against those claims.

23

If FalconStor is unable to raise more capital in the future, its business, financial condition and operating results may suffer.

FalconStor's business is capital intensive and the combined company may need more capital in the future. The combined company's future capital requirements will depend on many factors, including:

- . the rate of its sales growth;
- . the level of its profits or losses;
- . the timing and extent of its spending to support facilities upgrades and product development efforts;
- . the timing and size of business or technology acquisitions; and
- . the timing of introductions of new products and enhancements to its existing products.

Any future equity financing will decrease the combined company's stockholders' percentage equity ownership and may, depending on the price at which the equity is sold, result in significant economic dilution to the combined company's stockholders.

If the combined company is not able to raise sufficient capital through equity financings, the combined company may be required to borrow money to meet its capital requirements. However, NPI and FalconStor believe that current market conditions for credit facilities are not as favorable as they have been at certain times in the past and that the terms on which the remaining potential lenders are willing to offer such facilities, in many cases, are restrictive and/or costly. Consequently, the terms and conditions under which the combined company might obtain such a facility are uncertain. Any failure to

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

obtain adequate credit facilities on acceptable terms could harm the combined company's business, financial condition and results of operations.

The board of directors may selectively release shares of NPI common stock received by the former FalconStor stockholders from lock-up restrictions.

The board of directors of the combined company may, in its sole discretion, release any or all of the shares of NPI common stock received by the former FalconStor stockholders from lock-up restrictions. Any release of such shares from lock-up restrictions may be applied to FalconStor's former stockholders on a proportionate or selective basis. If the release is selectively applied, the stockholders whose shares are not released will be forced to hold such shares while other stockholders may sell their shares. As a result, stockholders whose shares are not selectively released prior to the end of the one-year period may be adversely affected.

Future sales of the combined company's common stock may depress its stock price.

The shares of NPI common stock issued to FalconStor's former stockholders will become freely tradeable in the public market no later than one year after the merger. The market price of the combined company's common stock could fall in response to sales of a large number of shares of its common stock in the market after the merger or in response to the perception that sales of a large number of shares could occur. In addition, these sales could create the perception by the public of difficulties or problems with the combined company's products and services. As a result, these sales also might make it more difficult for the combined company to sell equity or equity-related securities in the future at a time and price that its board of directors deems appropriate.

NPI's certificate of incorporation and bylaws and Delaware law contain provisions that could inhibit a takeover that stockholders may consider favorable.

Certain provisions of NPI's certificate of incorporation and bylaws may discourage, delay or prevent a change of control or changes in our management that stockholders consider favorable. These provisions include:

- . authorizing the issuance by its board of directors of "blank check" preferred stock without any action by its stockholders;

24

- . providing for a classified board of directors with staggered, three-year terms;
- . prohibiting stockholder action by written consent;
- . limiting the persons who may call special meetings of stockholders; and
- . establishing advance notice requirements for nominations for election to the board of directors or for proposing matters that can be acted on by stockholders at stockholder meetings.

Delaware law also imposes limitations on persons proposing to merge with or acquire the combined company. If a change of control or change in management is delayed or prevented, the market price of the combined company's common stock could decline. See "Comparison of Rights of Holders of NPI Common Stock and FalconStor Common Stock," beginning on page 68.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

If FalconStor is unable to protect its intellectual property, its business will suffer.

FalconStor has applied for patent protection on some of its proprietary technologies. After the merger, the combined company may not receive patents for its pending or future patent applications, and any patents that it owns or that are issued to it may be invalidated, circumvented or challenged. Moreover, the rights granted under any such patent may not provide the combined company with any competitive advantages. Finally, the combined company's competitors may develop or otherwise acquire equivalent or superior technology.

NPI and FalconStor also rely on trade secret, copyright and trademark laws, as well as the confidentiality and other restrictions contained in their respective sales contracts and confidentiality agreements to protect their proprietary rights. These legal protections afford only limited protection. The combined company may have to litigate to enforce patents issued or licensed to it, to protect trade secrets or know-how owned by it or to determine the enforceability, scope and validity of its proprietary rights and the proprietary rights of others. Enforcing or defending the combined company's proprietary rights could be expensive and might not bring it timely and effective relief.

The combined company may have to obtain licenses of other parties' intellectual property and pay royalties. If the combined company is unable to obtain such licenses, it may have to stop production of its products or alter its products. In addition, the laws of certain countries in which it sells and manufactures its products, including various countries in Asia, may not protect the combined company's products and intellectual property rights to the same extent as the laws of the United States. The combined company's protective measures in these countries may be inadequate to protect its proprietary rights. Any failure to enforce and protect the combined company's intellectual property rights could harm its business, financial condition and operating results.

FalconStor's technology may be subject to infringement claims which could harm its business.

The combined company may become subject to litigation regarding infringement claims alleged by third parties. Even if the combined company has valid defenses to such claims, the results of any litigation are inherently uncertain. Neither NPI nor FalconStor can assure you that the combined company will be able to defend itself successfully against any such lawsuit. A favorable outcome by a third party could result in the issuance of an injunction against the combined company and its products and/or the payment of monetary damages equal to a royalty, the third party's lost profits or statutory damages. In the case of a finding of a willful infringement, the combined company also could be required to pay treble damages and the third party's attorneys' fees. Accordingly, a litigation outcome favorable to a third party could harm the combined company's business, financial condition and operating results.

FalconStor has received correspondence from a third party claiming that some of FalconStor's employees formerly employed by that third party may have disclosed proprietary information of the third party in violation of certain agreements or other obligations to that third party. This third party has also asserted that FalconStor's intellectual property may be based on or utilizes its intellectual property. As of the date of this joint proxy statement/prospectus, no formal action has been taken by the third party. FalconStor believes these claims are without merit. However, if an action is

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

commenced against FalconStor, its management may have to devote substantial attention and resources to defend these claims. An unfavorable result for FalconStor could have a material adverse effect on the combined company's business, financial condition and operating results and could limit its ability to use its intellectual property.

Voting Rights and Solicitation of Proxies; Expenses

This solicitation of proxies is made on behalf of the board of directors of NPI and the cost thereof will be borne by NPI. NPI has retained the services of MacKenzie Partners, Inc. to aid in the solicitation of proxies. NPI estimates that it will pay this solicitor a fee not to exceed \$10,000 for its services and will reimburse the solicitor for reasonable out-of-pocket expenses. The board of directors may use the services of NPI's directors, officers, and others to solicit proxies, personally or by telephone and may arrange with brokerage houses and other custodians, nominees, and fiduciaries to forward solicitation materials to the beneficial owners of the stock held of record by such persons and NPI may reimburse them for the fees and reasonable out-of-pocket expenses incurred in doing so.

On _____, 2001, NPI had outstanding _____ shares of common stock, all of which are entitled to vote as a single class with respect to the proposals presented in this joint proxy statement/prospectus. Each stockholder of record at the close of business on _____, 2001, is entitled to one vote for each share held. NPI's bylaws provide that a majority of all shares entitled to vote, whether present in person or by proxy, will constitute a quorum for the transaction of business at the meeting.

Purpose of the NPI Annual Meeting

The purpose of the NPI annual meeting is to vote upon proposals for:

- . the approval of the merger agreement and the transactions contemplated by the merger agreement, including the issuance of shares of NPI common stock in the merger;
- . the amendment of NPI's restated certificate of incorporation to increase the authorized number of shares of NPI common stock from 60,000,000 to 100,000,000 and to change its corporate name to FalconStor Software, Inc.;
- . if the merger is not completed, the election of Michael Gardner and James Regel as Class I Directors to serve for three-year terms; and

The amendment to NPI's restated certificate of incorporation to increase the

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

authorized number of shares of NPI common stock and to change its corporate name to FalconStor Software, Inc. would take effect only if the merger is approved and completed.

Record Date and Outstanding Shares

The close of business on _____, 2001 has been fixed by the NPI board of directors as the record date for determination of the stockholders of NPI entitled to notice of, and to vote at, the NPI annual meeting or any postponement or adjournment of the NPI annual meeting. Holders of record of NPI common stock at the close of business on the record date are entitled to notice of, and to vote at, the NPI annual meeting. As of the record date, there were approximately _____ stockholders of record holding an aggregate of approximately _____ shares of NPI common stock. See "Stock Ownership of Management and Certain Stockholders" on page 28.

27

Stock Ownership of Management and Certain Stockholders

As of the record date, the directors and executive officers of NPI collectively owned approximately _____ % of the outstanding shares. As of the record date, the directors and executive officers of FalconStor collectively owned beneficially approximately _____ % of the outstanding shares.

Vote Required

Each stockholder of record of NPI common stock on the record date is entitled to cast one vote per share, exercisable in person or by properly executed proxy, on each matter properly submitted for the vote of the stockholders of NPI at the NPI annual meeting.

Approval of Proposal 1 and Proposal 2 which are related to the approval of the merger both require the affirmative vote of holders of at least a majority of the shares of NPI common stock entitled to vote at the annual meeting of stockholders. Pursuant to voting agreements, each officer and director has agreed to vote all of his shares in favor of NPI's merger proposal.

In order to comply with the rules of The Nasdaq Stock Market pertaining to the issuance of new shares, approval for issuances of 20% or more of NPI's outstanding stock is required by the stockholders of NPI. By approving this proposal, the stockholders are approving the issuance of more than 20% of the outstanding shares of NPI's common stock upon the closing of the merger.

Approval of Proposal 3 to elect the two nominees as Class I Directors, if the merger is not completed, each requires a plurality of the votes cast at the annual meeting of stockholders.

Approval of Proposal 4 to ratify the appointment of PricewaterhouseCoopers LLP as the independent accountants for NPI, if the merger is not completed, requires the affirmative vote of holders of at least a majority of the shares of NPI common stock entitled to vote at the annual meeting of stockholders.

Quorum; Abstentions; Broker Non-Votes

The presence, in person or by proxy duly authorized, of the holders of a majority of the outstanding voting shares of NPI common stock will constitute a quorum for the transaction of business at the annual meeting and any continuation or adjournment thereof. Broker non-votes (i.e. shares held by brokers or nominees which are represented at the meeting, but that such broker or nominee is not empowered to vote on a particular proposal) and abstentions

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

will be counted in determining whether a quorum is present at the annual meeting. Abstentions and broker non-votes will have the same effect as a negative vote on each of the proposals related to the merger.

Abstentions and broker non-votes will have no effect on the election of directors. Abstentions will have the same effects as a negative vote on the ratification of NPI's selection of its independent accountants.

Voting of Proxies; Revocation of Proxies

Please complete, date, and sign the accompanying proxy and promptly return it in the enclosed envelope or otherwise mail it to NPI or its solicitor. All properly signed proxies that NPI receives prior to the vote at the meeting and that are not revoked will be voted at the meeting according to the instructions indicated on the proxies or, if no direction is indicated, will be voted FOR the approval of the merger agreement, the issuance of shares in the merger, the amendment to NPI's restated certificate of incorporation, the election of NPI's nominees for directors and the ratification of PricewaterhouseCoopers LLP as NPI's independent accountants for the fiscal year ending December 31, 2001.

28

You may revoke your proxy at any time before it is exercised at the meeting by taking any of the following actions:

- . delivering a written notice to the secretary of NPI by any means, including facsimile, bearing a date later than the date of the proxy, stating that the proxy is revoked;
- . signing and delivering a proxy relating to the same shares and bearing a later date prior to the vote at the meeting; or
- . attending the meeting and voting in person, although attendance at the meeting will not, by itself, revoke a proxy. Please note, however, that if your shares are held of record by a broker, bank, or other nominee and you wish to vote at the meeting, you must bring to the meeting a letter from the broker, bank, or other nominee confirming your beneficial ownership of the shares.

NPI's board of directors does not know of any matter that is not referred to in this joint proxy statement/prospectus to be presented for action at the meeting. If any other matters are properly brought before the meeting, the persons named in the proxies will have discretion to vote on such matters in accordance with their best judgment.

Rights of Dissenting Stockholders

The Delaware General Corporation Law grants appraisal rights in the merger to the holders of FalconStor's common stock and preferred stock. Under the

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Delaware General Corporation Law, FalconStor stockholders may object to the merger and demand in writing that FalconStor pay the fair value of their shares. Fair value takes into account all relevant factors but excludes any appreciation or depreciation in anticipation of the applicable merger. Stockholders who elect to exercise appraisal rights must comply with all of the procedures to preserve those rights. We have attached a copy of Section 262 of the Delaware General Corporation Law (which sets forth the appraisal rights) as Annex C to this joint proxy statement/prospectus.

Section 262 sets forth the required procedure a stockholder requesting appraisal rights must follow. Making sure that you actually perfect your appraisal rights can be complicated. The procedural rules are specific and must be followed completely. Failure to comply with the procedure may cause a termination of your appraisal rights. We are providing you only a summary of your rights and the procedure. The following information is qualified in its entirety by the provisions of Section 262. Please review Section 262 for the complete procedure. Neither NPI nor FalconStor will give you any notice other than as described in this joint proxy statement/prospectus and as required by the Delaware General Corporation Law.

Appraisal Rights Procedures

If you are a FalconStor stockholder and you wish to exercise your appraisal rights, you must satisfy the provisions of Section 262 of the Delaware General Corporation Law. Section 262 requires, in part, the following:

- . Your written demand for appraisal: You must deliver a written demand for appraisal to FalconStor before the vote is taken at the special meeting of stockholders. The written demand must be separate and apart from any vote against the merger.
- . You refrain from voting for approval of the merger: You must not vote for approval of the merger agreement. If you vote in favor of the merger agreement, your right to appraisal will terminate, even if you previously filed a written demand for appraisal.
- . You continuously hold your FalconStor shares: You must continuously hold your shares of FalconStor stock from the date you make the demand for appraisal through the closing of the merger. You should read the paragraphs below for more details on making a demand for appraisal.
- . A written demand for appraisal of FalconStor stock is only effective if it is signed by, or for, the stockholder of record who owns such shares at the time the demand is made. The demand must be signed as the stockholder's name appears on its stock certificate(s). If you are the beneficial owner of FalconStor stock but not the stockholder of record, you must have the stockholder of record sign a demand for appraisal.
- . If you own FalconStor stock in a fiduciary capacity, such as a trustee, guardian, or custodian, you must disclose the fact that you are signing the demand for appraisal in that capacity.
- . If you own FalconStor stock with more than one person, such as in a joint tenancy or tenancy in common, all of the owners must sign, or have signed for them, the demand for appraisal. An authorized agent, which could include one or more of the joint owners, may sign the demand for appraisal for a stock holder of record; however, the agent must expressly disclose who the stockholder of record is and that he is signing the demand as that stockholder's agent.
- . If you are a record owner, such as a broker, who holds FalconStor stock as a nominee for others, you may exercise a right of appraisal with

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

respect to the shares held for one or more beneficial owners, while not exercising such right for other beneficial owners. In such a case, you should specify in the written demand the number of shares as to which you wish to demand appraisal. If you do not expressly

31

specify the number of shares, we will assume that your written demand covers all the shares of FalconStor stock that are in your name.

- . If you are a FalconStor stockholder, you should address the written demand to FalconStor, Inc., 125 Baylis Road, Suite 140, Melville, New York 11747, Attention: Jacob Ferng. It is important that FalconStor receive all written demands before the vote concerning the merger agreement is taken. As explained above, this written demand should be signed by, or on behalf of, the stockholder of record. The written demand for appraisal should specify the stockholder's name and mailing address, the number of shares of stock owned, and that the stockholder is thereby demanding appraisal of such stockholder's shares.
- . If you fail to comply with any of these conditions and the merger becomes effective, you will only be entitled to receive the merger consideration provided in the merger agreement.
- . Written Notice: Within ten days after the closing of the merger, FalconStor must give written notice that the merger has become effective to each stockholder who has fully complied with the conditions of Section 262.
- . Petition with the Chancery Court: Within 120 days after the closing of the merger, either FalconStor or any stockholder who has complied with the conditions of Section 262, may file a petition in the Delaware Court of Chancery. This petition should request that the chancery court determine the value of the shares of FalconStor stock held by all of the stockholders who are entitled to appraisal rights. If you intend to exercise your rights of appraisal, you should file such a petition in the chancery court. FalconStor has no intention at this time to file such a petition. Because FalconStor has no obligations to file such a petition, if you do not file such a petition within 120 days after the closing, you will lose your rights of appraisal.
- . Withdrawal of Demand: If you change your mind and decide you no longer want appraisal rights, you may withdraw your demand for appraisal rights at any time within 60 days after the closing of the merger. You may also withdraw your demand for appraisal rights after 60 days after the closing of the merger, but only with the written consent of FalconStor. If you withdraw your demand for appraisal rights, you will receive the merger consideration provided in the merger agreement.
- . Request for Appraisal Rights Statement: If you have complied with the conditions of Section 262, you are entitled to receive a statement from FalconStor. This statement will set forth the number of shares that have demanded appraisal rights, and the number of stockholders who own those shares. In order to receive this statement, you must send a written request to FalconStor with 120 days after the closing of the merger. After the merger, FalconStor has ten days after receiving a request to mail the statement to the stockholder.
- . Chancery Court Procedures: If you properly file a petition for appraisal in the chancery court and deliver a copy to FalconStor, FalconStor will then have 20 days to provide the chancery court with a list of the names

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

and addresses of all stockholders who have demanded appraisal rights and have not reached an agreement with FalconStor as to the value of their shares. The chancery court will then send notice of the time and place fixed for the hearing of the petition to all of the stockholders who have demanded appraisal rights. If the chancery court decides it is appropriate, it has the power to conduct a hearing to determine whether the stockholders have fully complied with Section 262 of the Delaware General Corporation Law and whether they are entitled to appraisal rights under that section. The chancery court may also require you to submit your stock certificates to the Registry in Chancery so that it can note on the certificates that an appraisal proceeding is pending. If you do not follow the chancery court's directions, you may be dismissed from the proceeding.

- . Appraisal of Chancery Shares: After the chancery court determines which stockholders are entitled to appraisal rights, the chancery court will appraise the shares of stock. To determine the fair value of the shares, the chancery court will consider all relevant factors except for any appreciation or depreciation due to the anticipation or accomplishment of the merger. After the chancery court determines the fair

32

value of the shares, it will direct FalconStor to pay that value to the stockholders who are entitled to appraisal rights. The chancery court can also direct FalconStor to pay interest, simple or compound, on that value if the chancery court determines that interest is appropriate. In order to receive the fair value for your shares, you must surrender your stock certificates to FalconStor.

- . The chancery court could determine that the fair value of shares of FalconStor stock is more than, the same as, or less than the merger consideration. In other words, if you demand appraisal rights, you could receive less consideration than you would under the merger agreement.
- . Costs and Expenses of Appraisal Proceeding: The costs and expenses of the appraisal proceeding may be assessed against FalconStor and the stockholders participating in the appraisal proceeding, as the chancery court deems equitable under the circumstances. You can request that the chancery court determine the amount of interest, if any, FalconStor should pay on the value of stock owned by stockholders entitled to the payment of interest. You may also request that the chancery court allocate the expense of the appraisal action incurred by any stockholder pro rata against the value of all of the shares entitled to appraisal.
- . Loss of Stockholders' Rights: If you demand appraisal rights, after the closing of the merger you will not be entitled to:
 - . vote your shares of stock, for any purpose, for which you have demanded appraisal rights;
 - . receive payment of dividends or any other distribution with respect to such shares, except for dividends or distributions, if any, that are payable to holders of record as of a record date prior to the effective time of merger; or
 - . receive the payment of the consideration provided for in the merger agreement.
- . However, you can regain these rights if no petition for an appraisal is filed with 120 days after the closing of the merger, or if you deliver

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

to FalconStor a written withdrawal of your demand for an appraisal and your acceptance of the merger, either within 60 days after the closing of the merger or with the written consent of FalconStor. As explained above, these actions will also terminate your appraisal rights. However, an appraisal proceeding in the chancery court cannot be dismissed unless the chancery court approves. The chancery court may condition its approval upon any terms that it deems just.

- . If you fail to comply strictly with these procedures you will lose your appraisal rights. Consequently, if you wish to exercise your appraisal rights, we strongly urge you to consult a legal advisor before attempting to exercise your appraisal rights.

NPI AND FALCONSTOR PROPOSAL NO. 1

APPROVAL OF ADOPTION OF THE MERGER AGREEMENT AND THE MERGER CONTEMPLATED THEREUNDER

THE MERGER

This section of the joint proxy statement/prospectus describes the proposed merger. While NPI and FalconStor believe that the description in this section covers the material terms of the merger and the related transactions, this summary may not contain all of the information that is important to you. You should carefully read this entire document and the other documents NPI and FalconStor have referred to in this joint proxy statement/prospectus for a more complete understanding of the merger.

Background of the Merger

In December 1999, NPI engaged Lehman Brothers Inc. to identify potential strategic merger opportunities for NPI. During the first half of 2000, NPI and Lehman Brothers held preliminary discussions with a number of companies in the networking equipment industry regarding potential combinations, but none of the discussions proceeded beyond preliminary information exchanges.

In the second quarter of 2000, as part of their independent partnering strategies, NPI and FalconStor began working together to evaluate each other's technology. In September 2000, James Regel, NPI's current chief executive officer, took responsibility for managing NPI's relationship with FalconStor. Subsequently, NPI and FalconStor held a number of meetings and discussions about integration of FalconStor's software with NPI's switching technology. As a result of his favorable impression of FalconStor's technology and market opportunity gained in the course of these discussions, Mr. Regel consulted with Glenn Penisten, NPI's chairman of the board of directors, about the possibility of merging with FalconStor. Mr. Penisten contacted Barry Rubenstein, FalconStor's chairman of the board of directors, in November 2000 to inquire about FalconStor's interest in a merger with NPI. Mr. Rubenstein indicated that FalconStor would consider a merger with NPI, but that FalconStor was currently focused on raising capital in a private financing. Mr. Penisten instructed Mr. Regel to continue working with FalconStor to evaluate the advisability of a merger. In December 2000, NPI began development of a switch platform for FalconStor's storage networking infrastructure software, and NPI's management began to focus attention on means to enter the growing storage networking market.

In January 2001, NPI's management commissioned an independent consulting firm to evaluate NPI's opportunities in the Ethernet switching and storage

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

networking markets. Mr. Regel communicated the preliminary results of that evaluation to Mr. Penisten in early February. The report concluded that NPI's current and planned technology lacked features and pricing that would make it competitive. The study also concluded that, although the storage networking market was a rapidly growing market with a number of compelling opportunities, NPI as a stand-alone company lacked the resources and reputation to exploit those opportunities. As a result, Mr. Penisten contacted Mr. Rubenstein in early February to discuss the terms of a merger of NPI and FalconStor. Mr. Penisten and Mr. Rubenstein had several telephone conversations during February about the proposed terms. During the same period and continuing through February, Mr. Regel had several meetings and discussions with ReiJane Huai, FalconStor's chief executive officer, and other members of the FalconStor management team, at which they discussed potential benefits of the proposed merger transaction. As a result of progress made in these discussions, NPI requested that its outside counsel, Gray Cary Ware & Freidenrich LLP, prepare a preliminary term sheet. The initial draft of the term sheet was delivered to FalconStor during the week of February 11, 2001.

Over the following two weeks, Mr. Penisten and Mr. Rubenstein had several telephone conversations during which they discussed the proposed terms. In the course of these conversations, Mr. Rubenstein indicated that FalconStor was in discussions with various investors to raise additional capital to facilitate the implementation of its business plan. Mr. Rubenstein told Mr. Regel that FalconStor had received indications of interest from certain venture capital sources and at least one term sheet from a proposed venture capital

34

investor for a convertible preferred stock financing on terms similar to those that were negotiated by FalconStor and NPI. Mr. Rubenstein suggested that NPI consider an equity investment in FalconStor at the same time that NPI continued to evaluate whether a merger of the two companies would be in the best interests of NPI's stockholders. Mr. Rubenstein and Mr. Regel continued these discussions, and NPI agreed to a \$25,000,000 equity investment by NPI in FalconStor. As a result of these discussions, NPI requested that Gray Cary prepare a revised term sheet reflecting the proposed investment.

On February 27, 2001, the NPI board of directors held a telephonic meeting attended by all of the NPI directors, as well as James Williams, NPI's chief financial officer, and a representative of Gray Cary. Mr. Penisten informed the other directors about the substance of the discussions held with FalconStor over the preceding months and described the terms of the proposed transaction. Both Mr. Penisten and Mr. Regel expressed their views that, based in part on the challenges facing NPI in executing its current business plan, the merger transaction would be beneficial to NPI's stockholders. The other members of the NPI board asked a number of questions about the proposed terms, and Scott Stanton of Gray Cary led a discussion concerning the fiduciary duties of the board in considering a strategic combination. At the conclusion of the meeting, the board authorized management to complete negotiation of the term sheet and to prepare and negotiate definitive transaction documents reflecting those terms, subject to further approval of the NPI board.

Between February 27 and March 8, 2001, NPI management, FalconStor management and their respective legal advisors continued to negotiate the specific terms of the preliminary term sheet. On March 8, 2001, NPI and FalconStor executed and delivered a letter agreement pursuant to which both parties agreed to negotiate exclusively with each other for 30 days in good faith to enter into definitive legal agreements on substantially the terms outlined in the preliminary term sheet. The parties concurrently entered into a mutual non-disclosure agreement.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Beginning in the week of March 12, 2001, legal advisors for NPI and FalconStor began their respective due diligence investigations. On March 14, 2001, Gray Cary delivered the initial draft of an option agreement to Olshan Grundman Frome Rosenzweig & Wolosky LLP, FalconStor's outside counsel, pursuant to which NPI would have the exclusive right to require FalconStor to merge with NPI pursuant to the terms of the merger agreement to be negotiated between the parties. The option agreement is attached to this joint proxy statement/prospectus as Annex F. On March 15, 2001, Olshan Grundman delivered the initial drafts of the agreements governing NPI's purchase of \$25,000,000 of FalconStor Series C preferred stock. Also on March 15, 2001, Mr. Regel and Mr. Williams met with representatives of Lehman Brothers to inform them of the proposed transaction and to begin negotiations regarding a formal extension of Lehman Brothers' engagement as NPI's financial advisor in the transaction. On March 19, 2001, NPI and Lehman Brothers executed an engagement letter pursuant to which Lehman Brothers agreed to act as NPI's financial advisor with respect to the transaction.

On March 19 and 20, 2001, representatives of NPI, FalconStor, Lehman Brothers, Credit Suisse First Boston, Gray Cary, Olshan Grundman and PricewaterhouseCoopers LLP, NPI's accounting advisor, met at Lehman Brothers' offices in Menlo Park, California, to conduct financial, technical and market due diligence investigations.

Also on March 19 and 20, 2001, legal advisors for NPI and FalconStor negotiated the terms of a waiver letter pursuant to which FalconStor agreed that NPI would not violate the terms of the exclusive negotiation agreement if it solicited offers to purchase its Ethernet switching business. This waiver letter was signed on March 21, 2001.

On March 20, 2001, the NPI board held a telephonic meeting attended by a majority of the NPI directors, Mr. Williams and representatives of Gray Cary and Lehman Brothers. The board was provided with a status report on the results of the negotiations and due diligence investigations conducted since the last NPI board meeting on February 27, 2001. The Lehman Brothers representatives updated the board on their strategy to find a purchaser for NPI's Ethernet switching business. Also on March 20, 2001, Gray Cary delivered to Olshan Grundman the initial draft of the merger agreement to be attached to the option agreement.

35

During the period from March 20 through March 30, 2001, representatives of both parties continued negotiating the terms of the option agreement, the related voting agreements, the Series C preferred stock financing documents and the merger agreement. On March 28, 2001, Gray Cary distributed to each member of the NPI board a package containing drafts of all the transaction documents along with explanatory material. On March 29, 2001, the parties exchanged draft disclosure schedules to the merger agreement.

On March 29, 2001, the FalconStor board held a telephonic meeting, at which representatives of Olshan Grundman and Credit Suisse First Boston also attended. The board was provided with a status on the results of the negotiations and due diligence investigation of NPI. The board of directors analyzed the principal terms of the private placement and merger agreement and various alternatives FalconStor could adopt. During this meeting, Steven Wolosky of Olshan Grundman made a detailed presentation to the FalconStor board concerning its fiduciary duties in considering the private placement and the merger. The FalconStor board held a full discussion of the merits of the private placement and the option agreement and proposed merger agreement. The FalconStor board unanimously approved the option agreement, unanimously found the merger to be fair to, advisable for, and in the best interests of,

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

FalconStor and its stockholders, unanimously approved the terms of the merger and the merger agreement and resolved to recommend that the stockholders of FalconStor adopt and approve the merger agreement and the merger in the event that NPI exercised the option.

On March 30, 2001, the NPI board held a meeting at NPI's offices in Fremont, California, together with Mr. Williams and Mr. Stanton of Gray Cary, to review the principal terms of the proposed transaction, including the status and timing of the transaction. Mr. Stanton made a detailed presentation to the NPI board concerning its fiduciary duties in considering the investment in FalconStor and the merger. Mr. Stanton also reported to the NPI board on the results of the legal due diligence investigation of FalconStor. Representatives of PricewaterhouseCoopers joined the meeting by telephone and made a presentation to the NPI board concerning the results of their due diligence investigation of FalconStor. Representatives of Lehman Brothers then joined the meeting and reviewed with the NPI board Lehman Brothers' financial analysis of the exchange ratio and delivered an oral opinion on behalf of Lehman Brothers, confirmed by delivery of a written opinion dated as of March 30, 2001, the effective date of the option agreement, to the effect that, as of the date of the opinion and based on and subject to the matters described in the opinion, the aggregate consideration to be paid by NPI pursuant to the terms of the merger agreement attached to the option agreement to acquire all the capital stock of FalconStor, was fair, from a financial point of view, to NPI and its stockholders. After excusing the Lehman Brothers representatives, the NPI board held a full discussion of the merits of the proposed investment, the merger, the merger agreement and the option agreement. The directors then unanimously concluded that it was in the best interests of NPI to approve the investment and the option agreement. Following the meeting, members of NPI and FalconStor management and their respective legal and financial advisors concluded final negotiations of the transaction documents and the parties executed the Series C investment documents and the option agreement.

On April 2, 2001, the parties announced the investment and the option agreement, and NPI transferred \$25,000,000 to FalconStor as payment of the purchase price for the shares of FalconStor Series C preferred stock.

Prior to NPI's exercise of the option, FalconStor continued to discuss its private placement with potential investors. On May 3, 2001, FalconStor closed its private placement, which raised approximately \$8,150,000 for FalconStor in addition to the \$25,000,000 previously received from NPI. Additional investors in the private placement included Accton Technology Corporation, Accura Ventures, Odeon Capital Partners, Systex Corporation, Taiwan-Sok Shin Kong Security Co., Ltd. and Taiwan Special Opportunities Fund III.

On May 3, 2001, the NPI board held a meeting at NPI's offices in Fremont, California, together with Mr. Williams and Mr. Stanton to consider the advisability of exercising the option and approving the merger agreement. Mr. Stanton again reviewed for the board its fiduciary duties in considering the proposed merger as well as the specific terms of the option agreement and merger agreement. Representatives of Lehman Brothers joined the meeting and orally reconfirmed their opinion delivered at the March 30, 2001 board meeting that, as of the date of the opinion and based on and subject to the matters described in the opinion, the aggregate

consideration to be paid by NPI pursuant to the terms of the merger agreement to acquire all the capital stock of FalconStor, was fair, from a financial point of view, to NPI and its stockholders. After a full discussion, the NPI directors unanimously concluded that the merger was in the best interests of NPI and its stockholders and declared the merger advisable, and unanimously

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

approved the exercise of the option, the terms of the merger and the merger agreement and resolved to recommend that the NPI stockholders vote to adopt the merger agreement and approve the merger. On May 4, 2001, NPI exercised the option, and the parties executed and delivered the merger agreement.

Reasons for the Merger

General

The board of directors of NPI, at a meeting held on May 3, 2001, unanimously approved the merger agreement, unanimously found the merger to be fair to, advisable for, and in the best interests of, NPI and its stockholders, and unanimously resolved to recommend that the stockholders of NPI adopt and approve the merger agreement and the merger and the transactions related to the consummation of the merger. The board of directors of FalconStor, at a meeting held on March 29, 2001, unanimously approved the option agreement granting NPI the right to cause the merger to occur pursuant to the merger agreement, unanimously found the merger to be fair to, advisable for, and in the best interests of, FalconStor and its stockholders, and unanimously resolved to recommend that the stockholders of FalconStor adopt and approve the merger agreement and the merger in the event that NPI exercised the option.

In reaching its separate decision, each board consulted with its senior management, and financial and legal advisors, and considered a number of factors. In view of the complexity and wide variety of information and factors, both positive and negative, considered by each board, neither board found it practical to qualify, rank or otherwise assign any relative or specific weights to the factors it considered. In addition, neither board reached any specific conclusion with respect to each of the factors it considered, or any aspect of any particular factor. Instead, each board conducted an overall analysis of the factors it considered. In considering those factors, individual members of each board may have given weight to different factors. Each board considered all of those factors as a whole and believed that those factors supported its decision.

The factors considered by each board were not identical to the factors considered by the other board. However, both boards identified certain material benefits, common to both companies and their respective stockholders, that both boards expect will result from the merger, as well as certain risks affecting both companies in connection with the merger and certain other considerations common to both companies. These benefits, risks and other considerations are described immediately below. Following the discussion of those matters, the separate factors, both positive and negative, that each board separately considered are described. This section, read as a whole, includes the material factors considered by each board in approving the merger.

Joint Reasons for the Merger

Both boards believe that the combination of NPI and FalconStor will create a stronger, more fully developed industry participant, with enhanced prospects for continued viability, by:

- . allowing the combined company to leverage the financial resources of NPI and the products, partners, technology and business plan of FalconStor; and
- . providing FalconStor with access to public equity markets to enhance stockholder liquidity and the combined company's ability to use equity compensation to attract and retain talented technical and management personnel to build FalconStor's market presence.

Both boards also recognize the risks inherent in the transaction, including:

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

- . the risk that the combined company may not be able to realize, fully or at all, the potential benefits of the combination;

37

- . the possibility that even if the merger is approved by the stockholders of both companies, it may not be completed;
- . the possibility that potential disruption to existing and prospective relationships could result from the announcement or completion of the merger;
- . the significant adverse impact to the potential future net income of the combined company that will arise due to the non-cash charges for the amortization of goodwill and other intangibles resulting from the impact of purchase accounting on the merger;
- . the substantial charges to be incurred in connection with the merger, including transaction expenses, and employee retention and severance costs; and
- . the other risks described under "Risk Factors Related to the Merger" beginning on page 16.

Both boards determined that the potential benefits of the merger outweigh the potential risks. In the course of their separate deliberations, each board also considered the following factors:

- . historical information concerning the businesses, operations, financial condition, results of operations, technology, management, competitive positions, and prospects of NPI and FalconStor as stand-alone businesses, including results of operations during their most recent fiscal periods;
- . the current and historical economic and market conditions and industry environment in the business of each company, including market prices, volatility and trading data for NPI common stock;
- . the analyses presented by their respective financial advisors; and
- . the results of their respective due diligence process.

Each board also determined that the provisions of the merger agreement, including the exchange ratio, the parties' representations, warranties and covenants, and the conditions to their respective obligations, were the reasonable product of vigorous arms-length negotiations. Each board also considered the provisions of the merger agreement that prohibit solicitation of third-party bids and the acceptance, approval or recommendation of any unsolicited third-party bid, and the provisions which require NPI to pay FalconStor \$3,000,000 upon certain termination events. Each board concluded that the provisions of the relevant documents reasonably protected the interests of the applicable company's stockholders and did not present any significant impediments to proceeding with the merger considering all of the circumstances.

Reasons of the NPI Board

In the course of its deliberations, NPI's board of directors took the following additional actions:

- . the board evaluated the significantly diminished prospects for NPI on a

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

stand-alone basis in light of:

- . the overall decline in spending on information technology infrastructure products;
- . increasing competition from larger companies;
- . NPI's continuously declining operating results; and
- . the substantial investment of time and financial resources that would be required for NPI to develop and market next generation switching products that would enable NPI to gain market share and reach profitability;
- . the board evaluated NPI's ability to maintain a sufficient amount of assets to satisfy the closing conditions in the merger agreement and determined that discontinuation of NPI's existing Ethernet switching business, either through a divestiture or closure, would be required;
- . the board evaluated the value NPI stockholders would receive if NPI's business were wound up and dissolved and its liquid assets distributed to stockholders; and

38

- . the board took into account that, as a result of the exchange ratio, the former stockholders of FalconStor would, immediately following the completion of the merger, collectively own more than a majority of NPI's outstanding shares. However, the board of directors considered that this was acceptable because:
 - . the merger would provide NPI's existing stockholders with a significant potential for increased share value; and
 - . the board received the written opinion of Lehman Brothers dated as of March 30, 2001, and updated as of May 3, 2001, that as of May 3, 2001 and based upon and subject to the assumptions, qualifications and limitations stated in that opinion, the aggregate consideration to be paid by NPI for the FalconStar equity was fair to NPI and its stockholders from a financial point of view. See "Opinion of NPI's Financial Advisor" beginning on page 41.

Reasons of the FalconStor Board

In the course of its deliberations, FalconStor's board of directors considered the following additional factors, among others:

- . that the merger is expected to be tax-free to FalconStor and its stockholders;
- . the cash on hand that NPI would provide to FalconStor to continue executing its business plan;
- . the increased value to holders of FalconStor capital stock that was likely to result from allowing the combined company to leverage NPI's financial resources to fund the development of FalconStor's business; and
- . the potential benefits of public ownership at a time when access to the public equity markets is more difficult.

The board also considered the following potentially negative factors in its

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

deliberations concerning the merger:

- . the risk that the merger might not be consummated;
- . the risk associated with fluctuations in NPI's stock price prior to the closing of the merger that the per share value of the consideration to be received by holders of FalconStor capital stock might be significantly less than the price per share implied by the exchange ratio immediately prior to the announcement of the merger because the exchange ratio will not be adjusted as a result of changes in the market price of NPI common stock;
- . the risk that the transaction would not be viewed by the Internal Revenue Service as meeting all requirements to qualify as non-taxable to FalconStor and its stockholders; and
- . other applicable risks described in this joint proxy statement/prospectus statement under "Risk Factors" beginning on page 16.

The board concluded that the potential benefits of the merger to FalconStor's stockholders outweighed these factors.

RECOMMENDATIONS OF THE NPI AND THE FALCONSTOR BOARDS OF DIRECTORS

Recommendation of the NPI Board

The NPI board of directors has unanimously determined that the terms of the merger are fair to, advisable for, and in the best interests of NPI and the NPI stockholders. Accordingly, the NPI board of directors recommends that NPI stockholders vote FOR the proposal to adopt the merger agreement and approve the merger. Approval of the proposal to adopt the merger agreement will constitute approval of all transactions contemplated by the merger agreement.

Recommendation of the FalconStor Board

The FalconStor board of directors has unanimously determined that the terms of the merger agreement and the merger are fair to, advisable for, and in the best interests of FalconStor and the FalconStor stockholders. Accordingly, the FalconStor board of directors recommends that FalconStor stockholders vote FOR the proposal to adopt the merger agreement and approve the merger. Approval of the proposal to adopt the merger agreement will constitute approval of all transactions contemplated by the merger agreement, including, without limitation, the conversion of all outstanding shares of FalconStor preferred stock to FalconStor common stock immediately prior to the merger.

Vote Required

The affirmative vote of a majority of all outstanding shares of NPI common stock is required for approval of this proposal.

The affirmative vote of at least a majority of the outstanding voting power of the common stock and the preferred stock of FalconStor voting together as a single class, and a majority of the outstanding shares of Series A preferred stock, two-thirds of the outstanding shares of Series B preferred stock, and a majority of the outstanding shares of Series C preferred stock, each series voting separately, is required for approval of this proposal.

Abstentions and broker non-votes will each have the same effect as a negative vote on this proposal.

Opinion of NPI's Financial Advisor

General. Lehman Brothers Inc. has acted as financial advisor to NPI in connection with the merger. On March 30, 2001, Lehman Brothers rendered its opinion to the NPI board of directors that as of such date, and based upon and subject to certain matters stated therein, from a financial point of view, the aggregate consideration to be paid by NPI for the FalconStor common stock in the merger is fair to NPI and its stockholders.

At the time Lehman Brothers delivered its opinion, it understood that all of the issued and outstanding shares of capital stock of FalconStor and all outstanding, unexpired and unexercised options, warrants, convertible notes, and other rights to acquire or receive shares of FalconStor common stock (collectively, the "FalconStor Equity") would be converted into the right to receive, in the aggregate, between 68.9% and 71.5% of the shares of common stock of NPI on a fully-diluted basis (the "Aggregate Consideration"). Lehman Brothers further understood that the exact percentage of shares to be paid by NPI would vary depending (1) the amount of cash, cash equivalents and short term investments held by NPI at the time of the Proposed Transaction and (2) the amount of proceeds received by FalconStor from the sale of its Series C preferred stock to investors other than NPI.

The full text of Lehman Brothers' written opinion dated March 30, 2001 is included as Annex B to this joint proxy statement/prospectus. Stockholders may read such opinion for a discussion of the assumptions made, procedures followed, factors considered and limitations upon the review undertaken by Lehman Brothers in rendering its opinion. The following is a summary of Lehman Brothers' opinion and the methodology that Lehman Brothers used to render its opinion.

40

Lehman Brothers' advisory services and opinion were provided for the information and assistance of the NPI board of directors in connection with its consideration of the merger. Lehman Brothers' opinion is not intended to be and does not constitute a recommendation to any stockholder of NPI as to how such stockholder should vote with respect to the merger. Lehman Brothers was not requested to opine as to, and Lehman Brothers' opinion does not address, NPI's underlying business decision to proceed with or effect the merger.

In arriving at its opinion, Lehman Brothers reviewed and analyzed:

- . the merger agreement and the specific terms of the merger;
- . publicly available information concerning NPI that Lehman Brothers believed to be relevant to its analysis, including NPI's Annual Report on Form 10-K for the fiscal year ended December 31, 1999 and NPI's Quarterly Reports on Form 10-Q for the quarters ended March 31, June 30, and September 30, 2000 and NPI's earnings release for the quarter and fiscal year ended December 31, 2000;
- . financial and operating information with respect to the business, operations and prospects of NPI furnished to Lehman Brothers by NPI, including projections for the next five years prepared by the management of NPI (the "Company Projections");
- . a trading history of NPI's common stock over the past one year and five years, and a comparison of that trading history with those of other companies that Lehman Brothers deemed relevant;

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

- . financial and operating information with respect to the business, operations and prospects of FalconStor furnished to Lehman Brothers by NPI and FalconStor, including projections for the next three years prepared by the management of FalconStor (the "FalconStor Projections");
- . a comparison of the historical financial results and present financial condition of NPI and FalconStor with those of other companies that Lehman Brothers deemed relevant;
- . a comparison of the financial terms of the merger with the financial terms of certain other transactions that Lehman Brothers deemed relevant;
- . a possible liquidation of NPI, including the cash that would be distributed to NPI's stockholders in connection with such liquidation; and
- . the results of Lehman Brothers' efforts to solicit indications of interest from third parties with respect to a purchase of NPI or its operating business.

In addition, Lehman Brothers had discussions with the managements of FalconStor and NPI concerning the business, operations, assets, financial condition and prospects of FalconStor (including the FalconStor Projections) and discussions with the management of NPI concerning its business, operation, assets, financial condition and prospects, and undertook such other studies, analyses and investigations as Lehman Brothers deemed appropriate.

In arriving at its opinion, Lehman Brothers assumed and relied upon the accuracy and completeness of the financial and other information used by it without assuming any responsibility for independent verification of such information. Lehman Brothers also relied upon the assurances of the managements of NPI and FalconStor that they were not aware of any facts or circumstances that would make the information relied upon by Lehman Brothers inaccurate or misleading. With respect to the Company Projections, upon advice of NPI, Lehman Brothers assumed that such projections were reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of NPI as to the future financial performance of NPI and that NPI would perform substantially in accordance with the Company Projections. With respect to the FalconStor Projections, upon advice of FalconStor and NPI, Lehman Brothers assumed that such projections were reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of FalconStor as to the future financial performance of FalconStor and that FalconStor would perform substantially in accordance with the FalconStor Projections. In arriving at its opinion, Lehman Brothers

41

did not conduct a physical inspection of the properties and facilities of NPI or FalconStor. Lehman Brothers also did not make or obtain any evaluations or appraisals of the assets or liabilities of NPI or FalconStor. Lehman Brothers' opinion was necessarily based upon market, economic and other conditions as they existed on, and could be evaluated as of, the date of such opinion.

In arriving at its opinion, Lehman Brothers did not ascribe a specific range of value to NPI or FalconStor, but rather made its determination as to the fairness, from a financial point of view, to NPI of the aggregate consideration to be paid by NPI for the FalconStor common stock in the merger on the basis of the financial and comparative analyses described below. The preparation of a fairness opinion involves various determinations as to the most appropriate and relevant methods of financial and comparative analysis and the application of those methods to the particular circumstances, and therefore, such an opinion

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

is not readily susceptible to summary description. Furthermore, in arriving at its opinion, Lehman Brothers did not attribute any particular weight to any analysis or factor considered by it, but rather made qualitative judgments as to the significance and relevance of each analysis and factor. Accordingly, Lehman Brothers believes that its analyses must be considered as a whole and that considering any portion of such analyses and factors, without considering all analyses and factors as a whole, could create a misleading or incomplete view of the process underlying its opinion. In its analyses, Lehman Brothers made numerous assumptions with respect to industry performance, general business and economic conditions and other matters, many of which are beyond the control of NPI and FalconStor. None of NPI, FalconStor, Lehman Brothers or any other person assumes responsibility if future results are materially different from those discussed. Any estimates contained in Lehman Brothers' analyses were not necessarily indicative of actual values or predictive of future results or values, which may be significantly more or less favorable than as set forth in the analyses. In addition, analyses relating to the value of businesses do not purport to be appraisals or to reflect the prices at which businesses actually may be sold.

The following is a summary of the material financial analyses used by Lehman Brothers in connection with rendering its opinion to the NPI board of directors. Some of the summaries of the financial and comparative analyses include information presented in tabular format. In order to fully understand the methodologies used by Lehman Brothers and the results of its financial and comparative analyses, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the financial and comparative analyses. Accordingly, the information presented in the tables and described below must be considered as a whole. Considering any portion of such analyses and of the factors considered, without considering all analyses and factors as a whole, could create a misleading or incomplete view of the process underlying Lehman Brothers' opinion.

In order to calculate the transaction multiples for the merger, Lehman Brothers estimated the implied enterprise value of FalconStor based on NPI's closing price of \$6.97 as of March 29, 2001 and based on the amount of cash contributed by NPI to the combined company. Under these two scenarios, Lehman Brothers used the mean of FalconStor's pro forma ownership percentage calculated based on the minimum and maximum Series C preferred stock investment of \$0 and \$20,000,000 and the minimum and maximum NPI closing cash balances of \$80,000,000 and \$90,000,000 and estimating the number of outstanding, in-the-money options for both NPI and FalconStor to calculate the transaction multiples.

Lehman Brothers used two projections cases in the analyses below, namely the Base Case and the Conservative Case. The Base Case was computed using the FalconStor Projections through 2003 and Lehman Brothers estimates thereafter. The Conservative Case was computed by Lehman Brothers after considering certain somewhat more conservative assumptions and estimates, which resulted in certain adjustments to the FalconStor Projections.

Comparable Company Analysis. Using publicly available information, Lehman Brothers compared selected financial data of FalconStor with similar data of selected companies engaged in businesses considered by Lehman Brothers to be comparable to that of FalconStor. Specifically, Lehman Brothers included in its review the following storage companies: VERITAS Software Corp.; BMC Software, Inc.; Computer Associates, Inc.; Compuware Corp.; Legato Systems, Inc.; OTG Software, Inc.; and Gadzoox Networks, Inc.

For each of the selected companies, Lehman Brothers calculated the ratio of

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

the enterprise value to the mean revenue estimates for the calendar year 2002 reported by First Call Corporation. The enterprise value of each company was obtained by adding its short and long term debt to the sum of the market value of its common equity, the value of any preferred stock and the book value of any minority interest, and subtracting its cash and cash equivalents. Lehman Brothers also calculated the ratio of the revenue multiple to the estimated five-year revenue growth rate. The following table presents the earnings and revenue multiples:

Enterprise Value / Calendar Year 2002E Revenue Multiples	Calendar Year 2002E Revenue Multiple / Revenue Growth Multiples	
	Growth Rate	
	25%	45%

Comparable Company Analysis (as of 3/29/01):

FalconStor/NPI Merger--Base Case (Based on NPI 3/29/01 Closing Price).....	7.0x	0.28x	0.16x

Mean of Selected Storage Comparable Companies.....	2.8x	0.19x	
Median of Selected Storage Comparable Companies.....	2.6x	0.15x	

Because of the inherent differences between the businesses, operations, financial conditions and prospects of FalconStor and the businesses, operations, financial conditions and prospects of the companies included in its comparable company groups, Lehman Brothers believed that it was inappropriate to rely solely on the quantitative results of the analysis, and accordingly, also made qualitative judgments concerning differences between the financial and operating characteristics of FalconStor and the companies in its comparable company group that would affect the public trading value of FalconStor and the comparable companies. In particular, Lehman Brothers considered markets served, rates of growth and profitability of FalconStor and each of the companies in the comparable company group. Lehman Brothers concluded that such analysis was supportive of its opinion.

Comparable Transaction Analysis. The comparable transaction analysis provides a market benchmark based on the consideration paid in selected comparable transactions. For this analysis, Lehman Brothers reviewed publicly available information to determine the purchase prices and multiples paid in 11 acquisitions of public and private storage software companies since January 1, 1996.

Lehman Brothers divided the enterprise value of the acquired company in the relevant transactions by the total revenue for the following four consecutive quarters, or Forward 4Q. In addition, Lehman Brothers analyzed the value per employee for private storage companies. The following tables show the revenue

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

multiples and value per employee for the selected transactions:

	Enterprise Value / Forward 4Q Revenue Multiples	
	Base Case	Conservative Case
Comparable Public Transaction Analysis:		
FalconStor/NPI Merger (Based on NPI 3/29/01 Closing Price).....	12.4x	15.5x

FalconStor/NPI Merger (Based on Cash Contributed by NPI).....		\$3.1
Mean of Selected Comparable Private Transactions.....		\$5.4
Median of Selected Comparable Private Transactions.....		\$5.5

Because the reasons for and the circumstances surrounding each of the transactions analyzed were so diverse and because of the inherent differences in the businesses, operations, financial conditions and prospects of FalconStor and the businesses, operations, and financial conditions of the companies included in the comparable transactions group, Lehman Brothers believed that a purely quantitative comparable transaction analysis would not be particularly meaningful in the context of the merger. Lehman Brothers believed that the appropriate use of a comparable transaction analysis in this instance would involve qualitative judgments concerning the differences between the characteristics of these transactions and the merger which would affect the acquisition values of the acquired companies and FalconStor. In particular, Lehman Brothers considered markets served, rates of growth, and profitability of FalconStor, and each of the acquired companies, as well as business and market conditions existing at the time of the merger as compared to those existing when these transactions were executed. Lehman Brothers concluded that such analysis was supportive of its opinion.

Discounted Cash Flow Analysis. As part of its analysis, Lehman Brothers prepared a discounted after-tax cash flow model that was based upon financial projections prepared by the management of FalconStor. Lehman Brothers used an

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

after tax discount rate of 30% and a terminal value based on a range of forward revenue multiples of 3.0x to 4.0x. Lehman Brothers concluded that such analysis was supportive of its opinion.

Lehman Brothers is an internationally recognized investment banking firm and, as part of its investment banking activities, is regularly engaged in the valuation of businesses and their securities in connection with mergers and acquisitions, negotiated underwritings, competitive bids, secondary distributions of listed and unlisted securities, private placements and valuations for corporate and other purposes. The NPI board selected Lehman Brothers because of its expertise, reputation and familiarity with NPI and the communications equipment industry generally and because its investment banking professionals have substantial experience in transactions comparable to the merger.

NPI has agreed to pay Lehman Brothers customary fees for the advisory services rendered by Lehman Brothers in connection with the proposed merger. In addition, NPI has agreed to reimburse Lehman Brothers for reasonable out-of-pocket expenses incurred in connection with the merger and to indemnify Lehman Brothers for certain liabilities that may arise out of its engagement by NPI and the rendering of Lehman Brothers' opinion. Lehman Brothers has previously rendered investment banking services to NPI and received customary fees for such services. These services included being lead manager on NPI's initial public offering in June 1994, a follow-on offering in November 1994, and a follow-on offering in February 2000.

In the ordinary course of its business, Lehman Brothers may actively trade in the debt or equity securities of NPI for its own account and for the accounts of its customers and, accordingly, may at any time hold a long or short position in such securities.

Interests of Certain NPI Persons in the Merger

Certain NPI executive officers are parties to an executive retention plan pursuant to which the merger constitutes a change of control and according to which such officers are, upon the closing of the merger, entitled to a minimum

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

bonus that is a combination of cash and vested stock options. The ratio of cash to vested stock is determined by subtracting the amount of an officer's in the money stock from the total minimum bonus payable to the officer under the executive retention plan. The executive retention plan entitles such officers to a minimum bonus ranging from \$250,000 to \$1,000,000. The executive retention plan is creditable against all other compensation payable to an officer upon a change of control of NPI. However, the executive retention plan operates independently from any compensation payable to an officer upon termination after a change of control.

In addition, certain officers have offer letters, salary continuation agreements, separation and release agreements or employment agreements pursuant to which the merger constitutes a change of control and according to which, upon the closing of the merger, a specified percentage of the executive officers' stock options, ranging from 50% to 100%, will become 100% vested.

In addition, following the closing of the merger, if the combined company terminates the employment of any of these executive officers pursuant to the terms of their respective agreements, certain officers are entitled to severance pay and benefits for a specified period. In general, each executive officer's severance pay is for a period of six months at the officer's then current base salary. Certain officers are entitled to continued employment with NPI as non-officers for a severance period, generally one year, and are entitled to continued medical coverage under NPI's standard employee medical insurance coverage and continued benefits under NPI's vacation, holiday and business expense reimbursement policies for their respective severance periods.

Glenn Penisten, chairman of the board of directors of NPI and an employee of NPI, owns 17,500 shares of FalconStor Series B preferred stock.

Interests of Certain FalconStor Persons in the Merger

Under the merger agreement, NPI has agreed to honor any indemnification provisions of FalconStor's certificate of incorporation and bylaws for a period of six years from the completion of the merger. NPI has also agreed to provide for indemnification provisions in the certificate of incorporation and bylaws of the surviving corporation of the merger. In addition, NPI has agreed to provide director and officer liability insurance for claims arising under the merger agreement for a period of not less than six years following the completion of the merger.

The chairman of the board of FalconStor is a member of a "group," as defined by the Securities Exchange Act of 1934, that is the largest beneficial owner of NPI common stock.

Treatment of NPI Stock Options and Restricted Stock

NPI's equity plans include the 1994 Outside Directors Stock Option Plan, as amended, the 1993 Stock Option Plan, as amended, the 1996 Nonstatutory Stock Option Plan, the 1997 Stock Plan, as amended, and the 1999 Stock Plan, as amended. The merger qualifies as a "change of control" or "transfer of control" of NPI under certain of its employee stock plans. The following is a description of the potential effect of the merger on those plans:

- . All options held by employees, directors or consultants under the various stock option plans will remain outstanding but the vesting of certain options will accelerate as a result of the transfer of control.

- . 1994 Outside Directors Stock Option Plan provides that, in the event of a

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

transfer of control, any unexercisable or unvested portion of the outstanding options shall be immediately exercisable and vested in full as of the date 10 days prior to the date of the transfer of control.

- . The NPI board of directors has adopted resolutions that extend the exercise period of directors' options to one year following termination.
- . See "Interests of Certain NPI Persons in the Merger" on page 45.

Treatment of FalconStor Stock Options

All outstanding options shall remain subject to the terms and conditions of the existing FalconStor stock option plan, including any restrictions on the exercisability of each option will continue in full force and effect, and the term, exercisability, vesting schedule and other provisions of each option will remain unchanged, except that:

- . each option will be exercisable for that number of whole shares of NPI common stock equal to the product of the number of shares of FalconStor common stock that would be issuable upon exercise of the option immediately prior to the effective time of the merger multiplied by the exchange ratio;
- . the per share exercise price for the shares of NPI common stock issuable upon exercise of each option will be equal to the quotient determined by dividing the exercise price per share of FalconStor common stock at which the option is exercisable immediately prior to the effective time of the merger by the exchange ratio; and
- . adjustments to incentive stock options may be required pursuant to U.S. federal tax laws.

Under the terms of the merger agreement, NPI has agreed to assume all FalconStor options, whether vested or unvested.

Board Composition

Upon the closing of the merger:

- . NPI's board of directors will consist of four directors with one vacancy;
- . four existing directors, James Regel, Thomas Brown, Michael Gardner, and Charles Hart, will resign; and
- . Barry Rubenstein, ReiJane Huai and Irwin Lieber will be appointed to the NPI board.

At the closing, the NPI board will be Glenn Penisten, Barry Rubenstein, ReiJane Huai and Irwin Lieber.

Employee Matters

Pursuant to the merger agreement, NPI has agreed to honor FalconStor's obligations under all employee benefit plans and employment arrangements that are disclosed to NPI in connection with the merger. However, the combined company will maintain the right to amend any such plans in accordance with the terms thereof. After the effective time, FalconStor employees may become employees of the combined company at its sole discretion. Each employee's service with FalconStor prior to the merger may be counted for purposes of determining periods of eligibility to participate or to vest in the benefit plans offered by the combined company. In addition, NPI has agreed that the merger will constitute a change of control with respect to any NPI management

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

agreements and all payments due thereunder shall be paid after the expiration of the payee's lock-up agreement. See "Interests of Certain NPI Persons in the Merger" on page 45.

46

Structure of the Merger

Each share of FalconStor preferred stock outstanding immediately prior to the closing, other than preferred stock held by NPI, will be converted immediately prior to the closing into FalconStor common stock. At the closing of the merger, Empire Acquisition Corp., a wholly-owned subsidiary of NPI, will merge with and into FalconStor whereupon the separate corporate existence of Empire Acquisition Corp. shall cease to exist and FalconStor will be the surviving corporation. Thus, as a result of the merger, FalconStor will be a wholly-owned subsidiary of NPI. Each share of FalconStor common stock will be converted into the right to receive shares of NPI common stock based on the exchange ratio set forth in the merger agreement.

Material Federal Income Tax Consequences of the Merger

The following is a discussion of the material federal income tax considerations relevant to the exchange of shares of FalconStor common stock for NPI common stock pursuant to the merger that are generally applicable to you. This discussion assumes that you hold your shares as capital assets for investment. This discussion is based on currently existing provisions of the Internal Revenue Code of 1986, as amended, the existing and proposed Treasury Regulations promulgated under the Code, current administrative rulings and court decisions, all of which are subject to change. Any such change, which may or may not be retroactive, could materially affect the conclusions expressed herein. You should also be aware that the following discussion does not deal with all U.S. federal income tax consequences that may result from the merger and does not deal with all U.S. federal income tax considerations that may be relevant to particular stockholders in light of their particular circumstances, such as stockholders, if any, who are dealers in securities, banks, insurance companies, tax-exempt organizations, or are foreign persons, stockholders who acquired their stock through stock option or stock purchase plans or in other compensatory transactions, or who hold their stock as part of an integrated investment (including a "straddle") comprised of shares of stock and one or more other positions, or stockholders who have entered into a constructive sale of their stock under the constructive sale provisions of the Code.

No ruling from the Internal Revenue Service, or IRS, is being requested concerning the federal income tax consequences of the merger. The obligations of the parties to the merger agreement are conditioned on the receipt by FalconStor of an opinion from its counsel, Olshan Grundman Frome Rosenzweig & Wolosky LLP, and on the receipt by NPI of an opinion from its counsel, Gray Cary Ware & Freidenrich LLP, to the effect that the merger will constitute a reorganization within the meaning of Section 368(a) of the Code. The opinions of Olshan Grundman and Gray Cary will be subject to limitations and qualifications and will be based on representations made by FalconStor and NPI. None of the opinions, nor the tax consequences set forth in the following discussion, are binding on the IRS or the courts and no assurance can be given that contrary positions may not be successfully asserted by the IRS or adopted by a court.

The following discussion does not address the tax consequences of transactions effectuated prior to, at the time of, or after the merger (whether or not such transactions are in connection with the merger), including, without limitation, the exercise of options, warrants or similar rights to purchase stock, or the exchange, assumption or substitution of options, warrants or

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

similar rights to purchase FalconStor stock for rights to purchase NPI common stock. The discussion below assumes that the amount received in the merger with respect to each share of FalconStor common stock is approximately equal to the fair market value thereof. Accordingly, you are urged and expected to consult your own tax advisor as to the specific tax consequences to you of the merger, including the applicable federal, state, local and foreign tax consequences and applicable tax return reporting requirements.

Federal Income Tax Consequences of the Merger to FalconStor Stockholders

The tax discussion set forth below is included for general information only. It is not intended to be, nor should it be construed to be, legal or tax advice to any particular stockholder. The merger is intended to

47

constitute a tax-free "reorganization" within the meaning of Section 368(a) of the Code. If the merger qualifies as a reorganization, you will have the following federal income tax consequences:

(a) You will recognize no gain or loss based solely upon your receipt of NPI common stock in exchange for FalconStor common stock in the merger (except to the extent of cash received in lieu of a fractional share of FalconStor common stock).

(b) A holder of FalconStor common stock who receives cash in lieu of a fractional share of NPI common stock will be treated as if the fractional share had been issued in the merger and then had been redeemed for cash. If you receive cash in lieu of a fractional share, you will recognize gain or loss measured by the difference (if any) between the amount of cash received and your tax basis in such fractional share.

(c) The aggregate tax basis of the NPI common stock you receive in the merger will be the same as the aggregate tax basis of your FalconStor common stock surrendered in the exchange.

(d) The holding period of the NPI common stock you receive in the merger will include the period during which the FalconStor common stock surrendered in the exchange for the NPI common stock was considered to be held.

(e) If you exercise your appraisal or dissenters' rights with respect to a share of FalconStor common stock and receive payment for such stock in cash, you will recognize capital gain or loss measured by the difference between the amount of cash received and your adjusted tax basis in such share, provided such payment is neither essentially equivalent to a dividend within the meaning of Section 302 of the Code nor has the effect of a distribution of a dividend within the meaning of Section 356(a)(2) of the Code (together, a dividend equivalent transaction). A sale of your FalconStor shares incident to an exercise of appraisal rights will generally not be a dividend equivalent transaction if, as a result of such exercise, you own no shares of NPI common stock (either actually or constructively within the meaning of Section 318 of the Code).

A successful IRS challenge to the tax-free reorganization status of the merger could result in FalconStor stockholders recognizing substantial taxable gain or loss with respect to each share of common stock of FalconStor surrendered. This gain or loss would be measured by the difference between (i) the sum of the value of the NPI common stock received by FalconStor stockholders and any cash received in lieu of a fractional share of NPI common stock, and (ii) the adjusted tax basis in the shares of FalconStor common

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

stock surrendered. In such event, the aggregate tax basis in the NPI common stock received by the FalconStor stockholders would equal its fair market value and the holding period of such stock would begin on the date following the merger.

Federal Income Tax Consequences of the Merger to NPI Stockholders

NPI stockholders will not recognize any gain or loss as a result of the merger.

Federal Income Tax Consequences of the Merger to the Companies

The merger will not result in taxable income for any of FalconStor, NPI and Empire Acquisition Corp.

The preceding discussion does not purport to be a complete analysis or discussion of all potential tax effects relevant to the merger. Again, you are urged to consult your own tax advisor as to the specific consequences of the merger to you, including tax return reporting requirements, the applicability and effect of federal, state, local, and other tax laws, including the effects of any proposed changes in the tax laws, and your obligation to retain information regarding the transaction.

48

Anticipated Accounting Treatment of the Merger

The business combination will be accounted for under the purchase method of accounting. Although NPI will be acquiring FalconStor, after the transaction, FalconStor stockholders will hold a majority of the voting interests in the combined company. Accordingly, for accounting purposes, the acquisition will be a "reverse acquisition" and FalconStor will be the "accounting acquiror." As FalconStor will be the accounting acquiror, its accounts will be recorded at historical cost and the assets and liabilities of NPI will be recorded at their estimated fair value as of the closing date.

Intangible assets of approximately \$23,500,000 are expected to be recorded with respect to the business combination, and will be amortized over a period of three years following the closing of the business combination; however, because the number of shares to be exchanged in the business combination is subject to change based on an exchange ratio formula, the final determination of the purchase price will not occur until the closing of the merger, and will be based upon the fair market value of NPI's common stock on that date. The amount of the purchase price allocated to intangible assets, including goodwill, may fluctuate significantly as a result.

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL STATEMENTS

The following unaudited pro forma condensed combined financial statements are presented to illustrate the effects of the merger on the historical financial position and operating results of FalconStor and NPI. The pro forma statements were prepared as if the merger had been completed as of January 1, 2000 for statement of operations purposes and as of March 31, 2001 for balance sheet purposes. The pro forma statements have been derived from, and should be read in conjunction with, the historical financial statements, including the notes thereto, of each of FalconStor and NPI included in this joint proxy statement/prospectus. For NPI, those financial statements are also included in NPI's Quarterly Report on Form 10-Q for the quarter ended March 31, 2001, and its Annual Report on Form 10-K for the fiscal year ended December 31, 2000.

The pro forma statements include adjustments, which are based upon

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

preliminary estimates, to reflect the allocation of purchase consideration to the acquired assets and liabilities of NPI, before any integration or restructuring adjustments. The final allocation of the purchase consideration will be determined after the completion of the merger and will be based on appraisals and a comprehensive final evaluation of the fair value of NPI's tangible assets acquired, liabilities assumed, identifiable intangible assets and goodwill at the time of the merger. The final determination of tangible and intangible assets may result in depreciation and amortization expense that is different than the preliminary estimates of these amounts.

The pro forma statements are provided for illustrative purposes only and do not purport to represent what the actual consolidated results of operations or the consolidated financial position of FalconStor would have been had the merger occurred on the dates assumed, nor are they necessarily indicative of future consolidated results of operations or financial position.

NOTES TO UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL STATEMENTS

1. BASIS OF PRO FORMA PRESENTATION

On May 7, 2001, NPI announced its agreement to merge with FalconStor in a transaction to be accounted for as a purchase. Under the terms of the merger, the number of shares of NPI common stock to be exchanged for each share of outstanding FalconStor capital stock at the closing date of the merger will be determined two days prior to the NPI Annual Meeting, as defined. In addition, NPI assumed all outstanding FalconStor options. Although NPI will be acquiring

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

FalconStor, after the transaction, FalconStor stockholders will hold a majority of the voting interests in the combined company. Accordingly, for accounting purposes, the acquisition will be a "reverse acquisition" and FalconStor will be the accounting acquiror. As FalconStor will be the accounting acquiror, its accounts will be recorded at historical cost and the assets and liabilities of NPI will be recorded at their estimated fair value as of the closing date.

The estimated purchase price is based on NPI common stock and options outstanding at March 31, 2001. The actual purchase price will be based on the actual shares of NPI common stock and options outstanding on the closing date. The market price per share of NPI common stock of \$7.76 was the closing market price as of May 4, 2001, the date NPI and FalconStor entered into the merger agreement. The actual market price to be applied will be determined based on the average closing market price at and around the date the exchange ratio is fixed. The value of outstanding NPI options was estimated by applying the Black-Scholes valuation model.

The purchase consideration is estimated as follows (in thousands):

Common stock.....	\$100,000
Assumption of options.....	17,000
Estimated transaction costs.....	5,000

Total consideration.....	\$122,000
	=====

The purchase price allocation is estimated as follows (in thousands):

Tangible assets acquired.....	\$101,806
Goodwill and other intangible assets.....	23,496
Deferred compensation related to unvested options.....	280
Liabilities assumed.....	(3,582)

Total consideration.....	\$122,000
	=====

2. PRO FORMA ADJUSTMENTS

The pro forma statements give effect to the allocation of the total purchase consideration to the assets and liabilities of NPI based on their respective estimated fair values and to the amortization of intangible assets at their fair values over the respective useful lives. The following pro forma adjustments have been made to the Unaudited Pro Forma Condensed Combined Financial Statements:

- (A) To record goodwill and other intangible assets of \$23,496,000; however, because the number of shares to be exchanged in the business combination is subject to change based on an exchange ratio formula, the final determination of the purchase price will not occur until the closing of the merger, and will be based upon the fair market value of NPI's common stock on that date. The amount of the purchase price allocated to intangible assets, including goodwill, may fluctuate significantly as a result.
- (B) To record merger related expenses of \$5,000,000. Merger related expenses include fees for financial advisors, legal advisors and accountants, printing costs, registration and transfer fees, and other nominal charges.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

(C) To eliminate NPI historical stockholders' equity, record the purchase consideration of \$117,000,000 and reduce stockholders' equity for deferred compensation of \$280,000. The pro forma combined stockholders' equity, after appropriate reclassifications, comprises the following (in thousands):

Common stock.....	\$	46
Additional paid-in capital.....		127,150
Deferred compensation.....		(280)
Deficit accumulated during the development stage.....		(4,792)
Accumulated other comprehensive loss.....		(16)

Total stockholders' equity.....	\$	122,108
		=====

(D) To record deferred compensation charges related to the unvested options assumed in the merger.

(E) To record the amortization of goodwill and other identifiable intangible assets related to the merger as if the transaction occurred on January 1, 2000. Goodwill and other intangible assets are expected to be amortized over three years.

(F) Shares used to calculate pro forma basic and diluted loss per share were determined by adding approximately 30,100,000 unrestricted shares assumed to be issued (or 67% of NPI) in exchange for the outstanding FalconStor shares to NPI's weighted average shares outstanding. Shares used to calculate pro forma diluted earnings per share excluded the anti-dilutive effects of NPI's stock options.

Regulatory Filings and Approvals Required to Complete the Merger

The merger is subject to the requirements of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, which prevents specified transactions from being completed until required information and materials are furnished to the Antitrust Division of the Department of Justice and the Federal Trade Commission and specified waiting periods are terminated or expire. NPI and FalconStor filed on _____, 2001 the required information and materials to notify the Department of Justice and the Federal Trade Commission of the merger, as amended. The waiting period will expire on _____, 2001 unless extended by a request for additional information. If the Federal Trade Commission issues a request for additional information and documentary materials, such request extends the waiting period until the date that is 20 days after the companies have substantially complied with the request, although the Federal Trade Commission may terminate the waiting period at any time after it has completed its review.

The Federal Trade Commission may challenge the merger on antitrust grounds, either before or after expiration of the waiting period. Additionally, at any time before or after the completion of the merger, any state could take action under the antitrust laws as it deems necessary or desirable in the public interest, or other persons could take action under the antitrust laws, including seeking to enjoin the merger. We cannot assure you that a challenge to the merger will not be made or that, if a challenge is made, we will prevail.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

NPI and FalconStor conduct operations in a number of foreign countries, some of which have voluntary or mandatory pre-merger or post-merger notification systems for transactions that satisfy certain thresholds. FalconStor intends to provide the requisite notification in all foreign jurisdictions in which a failure to do so would likely have a material effect on the merger or on the combined company following the merger, or where the filing would otherwise be in the best interests of the combined company following the merger.

Registration and Listing of NPI Common Stock

NPI common stock is currently listed on The Nasdaq National Market under the symbol, "NPIX." This joint proxy statement/prospectus is part of a NPI registration statement on Form S-4 to register under the Securities Act the shares of NPI common stock to be issued as consideration in the merger. NPI has agreed to list the shares of NPI common stock to be issued in connection with the merger on The Nasdaq National Market prior to the closing date of the merger. After the merger, NPI's name will be changed to FalconStor Software, Inc. and will change the symbol under which its common stock is traded to " ."

Restrictions on Resale of NPI Common Stock

The shares of NPI common stock to be issued to FalconStor stockholders in the merger will be registered under the Securities Act. All shares of NPI common stock received by the officers, directors and stockholders of FalconStor in the merger will be subject to certain restrictions pursuant to a lock-up agreement each such individual will enter into with NPI. A form of the lock-up agreement is attached to this joint proxy statement/prospectus as Annex D. Under the lock-up agreements, these parties agree not to sell, transfer or otherwise dispose of the shares of NPI common stock they receive in the merger for a period of one year following the effective date of the merger. Following the merger, the board of directors of the combined company may, in its sole discretion, release any or all of the shares from the lock-up restrictions. The merger agreement requires FalconStor to cause each officer and director of FalconStor to execute a lock-up agreement prior to the effective date of the merger.

All shares of NPI common stock held by any officer, director or employee stockholder of more than 30,000 shares of NPI common stock shall be subject to certain restrictions pursuant to a lock-up agreement each such party will enter into with FalconStor. A form of the lock-up agreement is attached to this joint proxy statement/prospectus as Annex D. Under the lock-up agreements, such parties agree not to sell, transfer or otherwise dispose of the shares of NPI common stock they hold for a period of 365 days following the effective date of the merger. Following the merger, the board of directors of NPI may, in its sole discretion, release any or all of the shares from the lock-up restrictions. Additionally, if such party is terminated by NPI without cause or voluntarily resigns for good reason after signing the lock-up agreement, then the shares of NPI

55

common stock held by such individual shall be released from the lock-up restrictions. The merger agreement requires NPI to cause each officer, director and stockholder who holds more than 30,000 shares of NPI common stock to execute a lock-up agreement prior to the effective date of the merger. Currently the only employees of NPI who hold more than 30,000 shares of NPI common stock are also officers of NPI.

Shares of NPI common stock issued to any person who is or becomes an affiliate of NPI will also be subject to restrictions on transfer. Persons who

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

may be deemed to be affiliates include individuals or entities that control, are controlled by, or are under common control with the combined company and may include some of their respective officers and directors, as well as their respective principal stockholders. Affiliates may not sell their shares of NPI common stock acquired in the merger except pursuant to (1) an effective registration statement under the Securities Act covering the resale of those shares, (2) an exemption under paragraph (d) of Rule 145 under the Securities Act, or (3) any other applicable exemption under the Securities Act.

56

THE MERGER AGREEMENT

The following is a summary of the material provisions of the merger agreement between NPI and FalconStor dated as of May 4, 2001. This summary may not contain all of the information that is important to the stockholders of NPI and FalconStor and thus this description is qualified in its entirety by reference to the merger agreement attached as Annex A hereto, which you are urged to read carefully and in its entirety. This summary is qualified in its entirety by reference to the full text of the merger agreement.

The Merger

At the closing of the merger, Empire Acquisition Corp., a wholly-owned subsidiary of NPI, will merge with and into FalconStor. FalconStor will be the surviving corporation and shall continue to be governed by its certificate of incorporation and bylaws that are currently in effect and, as a result of the merger, will become a wholly-owned subsidiary of NPI.

Date of Closing

The merger agreement provides that the merger will close no later than the third business day following the satisfaction or waiver of each of the conditions to the merger, including the approval and adoption of the merger agreement and the approval of the merger by the stockholders of FalconStor and NPI and the approval of the share issuance in the merger and the amendment to NPI's restated certificate of incorporation by the stockholders of NPI.

Certificate of Incorporation and Bylaws of NPI

Upon the closing of the merger, the amended and restated certificate of incorporation of NPI and the bylaws of NPI will remain in full force and effect; however, Article FIRST of the certificate of incorporation shall be amended to state that the name of the corporation will be FalconStor Software, Inc. and Article FOURTH shall be amended to increase the number of authorized shares of common stock to 100,000,000.

Management of NPI Following the Merger

The merger agreement provides that, upon the closing of the merger, NPI's board of directors shall consist of one director to be designated by NPI and three directors to be designated by FalconStor. The officers of the combined company will be:

Name	Positions
----	-----
Barry Rubenstein.....	Chairman of the Board

Conversion of Securities; Adjustment of Exchange Ratio

Upon completion of the merger, each share of FalconStor common stock will be converted into the right to receive the number of shares of NPI common stock equal to the exchange ratio set forth below.

$$E = \frac{2(X + O) + B - CB [2(X + O)]}{Y + V}$$

57

where E = the exchange ratio

X = all shares of NPI common stock issued and outstanding as of two days prior to the NPI stockholders meeting

O = all shares of NPI common stock issuable under outstanding, vested, in-the-money options to purchase such stock as of two days prior to the NPI stockholders meeting

C = NPI's cash, cash equivalents and short-term investments calculated in accordance with GAAP minus any estimated cash payments due under agreements with certain members of NPI's management resulting from the merger plus \$25,000,000, calculated as of the end of the calendar month immediately prior to the effective time of the merger, without giving effect to reductions in cash for payment of transaction expenses related to the merger by NPI prior to the effective time; provided that for purposes of this formula, this amount shall not exceed \$90,000,000. For purposes of this paragraph, estimated cash payments due under the management agreements mentioned immediately above shall be determined (a) using the closing sales price of one share of NPI common stock on Nasdaq two days prior to the NPI stockholders' meeting and (b) by giving effect to any acceleration of vesting of options caused by the closing of the merger

B = \$90,000,000

Y = all outstanding shares of FalconStor common stock (assuming conversion of all outstanding shares of FalconStor preferred stock into shares of FalconStor common stock) minus shares of FalconStor common stock or FalconStor preferred stock owned by NPI or FalconStor, calculated two days prior to the NPI stockholders' meeting

V = all shares of FalconStor common stock issuable under outstanding, vested, in-the-money options or warrants to purchase such stock or other securities convertible or exchangeable for shares of FalconStor common stock, calculated two days prior to the NPI stockholders' meeting

NPI will not issue any fractional shares. Instead of receiving a fractional

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

share, a FalconStor common stockholder will receive cash equal to the product of (a) such fractional share multiplied by (b) the reported closing sale price of NPI common stock at the effective time of the merger.

Assuming that NPI's cash, cash equivalents and short-term investments remain at \$, as stated in NPI's Form 10-Q for the quarter ended March 31, 2001, and that the trading price of NPI common stock remains at \$, the closing price at , 2001, the aggregate number of shares of NPI common stock to be issued to the FalconStor stockholders in the merger would be . This number of shares would result in FalconStor stockholders owning % of NPI's outstanding capital stock.

Exchange of Certificates

Promptly after the completion of the merger, an exchange agent will mail a letter of transmittal and exchange instructions to each holder of record of FalconStor common stock to be used to surrender and exchange certificates evidencing shares of FalconStor common stock for certificates evidencing the shares of NPI common stock (and cash in lieu of any fractional share) to which such holder has become entitled. After receipt of such transmittal forms, each holder of certificates formerly representing FalconStor common or preferred stock will be able to surrender their certificates to the exchange agent, and each such holder will receive in exchange therefor:

- . a certificate or certificates evidencing the number of whole shares of NPI common stock to which such holder is entitled; and
- . any cash which may be payable in lieu of a fractional share of NPI common stock.

58

Such transmittal forms will be accompanied by instructions specifying other details of the exchange. FalconStor stockholders should not send in their certificates until they receive a letter of transmittal and other transmittal forms.

After the completion of the merger, each certificate evidencing FalconStor common stock, until so surrendered and exchanged, will be deemed, for all purposes, to evidence only the right to receive:

- . the number of whole shares of NPI common stock which the holder of such certificate is entitled to receive; and
- . any cash payment in lieu of a fractional share of NPI common stock.

The holder of such unexchanged certificate will not be entitled to receive any dividends or other distributions payable by the combined company until the certificate has been exchanged. Subject to applicable laws, such dividends and distributions, together with any cash payment in lieu of a fractional share of NPI common stock, will be paid without interest.

No Solicitation

The merger agreement provides that NPI will not, directly or indirectly, through any officer, director, employee, representative or agent:

 - . an acquisition of or tender offer for 20% or more of the voting securities of NPI;

 - . any sale of shares of capital stock of NPI after which NPI stockholders immediately prior to such sale would hold less than a majority of the outstanding capital stock of NPI;
 - . any sale, lease, mortgage, pledge or disposition of all or substantially all of the assets of NPI, except for assets of NPI related directly to NPI's Ethernet switching business;
- . make any public announcement of a proposal, plan or intention to do any of the foregoing or any agreement to engage in any of the foregoing (any of the foregoing offers or proposals is referred to as an NPI acquisition proposal);
- . participate or engage in negotiations or discussions regarding, furnish any nonpublic information relating to, or take any other action to facilitate, the making of any NPI acquisition proposal;

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

However, nothing contained in the merger agreement shall prevent NPI or its board of directors from providing non-public information to, or entering into discussions or negotiations with, any person or entity in connection with an unsolicited bona fide written acquisition offer to purchase all of the outstanding NPI common stock that the board of directors of NPI reasonably determines to be more financially favorable to NPI's stockholders than the merger, if and only to the extent that:

- . neither NPI nor any of its representatives has violated the non-solicitation provisions of the merger agreement;
- . NPI's board of directors concludes in good faith, after consultation with its legal counsel, that such action is necessary in order for the board of directors to comply with its fiduciary duties to NPI's stockholders;

61

- . NPI gives at least two business days' notice to FalconStor prior to providing any nonpublic information to, or entering into discussions or negotiations with such person or entity, and NPI receives a customary confidentiality and nondisclosure agreement from such entity; and
- . at least two business days prior to NPI providing any nonpublic information to such person or entity, NPI provides such nonpublic information to FalconStor.

The merger agreement provides that FalconStor will not, directly or indirectly, through any officer, director, employee, representative or agent:

- . solicit, initiate, encourage or induce any offer or proposal relating to:
 - . an acquisition of or tender offer for 20% or more in interest of the total outstanding shares of FalconStor common stock;
 - . any merger, consolidation, share exchange or similar transaction involving FalconStor;
 - . any sale of shares of capital stock of NPI after which FalconStor stockholders, immediately prior to such sale, would hold less than a majority of the outstanding capital stock of FalconStor;
 - . any sale, lease, mortgage, pledge or disposition of all or substantially all of the assets of FalconStor;
- . make any public announcement of a proposal, plan or intention to do any of the foregoing or any agreement to engage in any of the foregoing (any of the foregoing offers or proposals being referred to as a FalconStor acquisition proposal);
- . participate or engage in negotiations or discussions regarding, furnish any nonpublic information relating to, or take any other action to facilitate the making of any FalconStor acquisition proposal;
- . approve, endorse or recommend any FalconStor acquisition proposal; or
- . enter into any letter of intent or other commitment contemplating or relating to any alternative acquisition transaction that would satisfy one of the thresholds set forth above.

However, nothing contained in the merger agreement shall prevent FalconStor or its board of directors from providing non-public information to, or entering

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

into discussions or negotiations with, any person or entity in connection with an unsolicited bona fide written acquisition offer to purchase all of the outstanding FalconStor common stock that the board of directors of FalconStor reasonably determines to be more financially favorable to FalconStor's stockholders than the merger, if and only to the extent that:

- . neither FalconStor nor any of its representatives has violated the non-solicitation provisions of the merger agreement;
- . FalconStor's board of directors concludes in good faith, after consultation with its legal counsel, that such action is necessary in order for the board of directors to comply with its fiduciary duties to FalconStor's stockholders;
- . FalconStor gives at least two business days' notice to NPI prior to providing any nonpublic information to, or entering into discussions or negotiations with such person or entity, and FalconStor receives a customary confidentiality and nondisclosure agreement from such entity; and

Further, nothing in the merger agreement will prevent the board of directors of either party from withdrawing or modifying its recommendation in favor of the merger if such party receives an acquisition offer that its board of directors determines in its reasonable judgment to be more favorable from a financial point of view to that company's stockholders than the terms of the merger, and such board of directors determines in good faith after consultation with legal counsel that in light of this superior offer the board must withdraw or

62

modify its recommendation in favor of the merger in order to comply with its fiduciary obligations to the company's stockholders.

Meetings of Stockholders

NPI and FalconStor agreed to take all action necessary in accordance with Delaware law and their respective charter documents to convene meetings of their respective stockholders, to be held as promptly as practicable after the registration statement of which this joint proxy statement/prospectus is a part is declared effective, for the purpose of voting on a proposal to approve the merger and merger agreement, and, in the case of NPI, other specified matters relating to the consummation of the merger. Subject to the limitations set forth below, NPI and FalconStor agreed to use commercially reasonable efforts to solicit from their respective stockholders proxies in favor of their respective merger proposals and to take all other action necessary or advisable to secure the vote required to approve such proposals.

Subject to the limitations set forth below, NPI's board of directors must recommend that NPI stockholders vote in favor of the merger proposals, NPI must include a statement to this effect in this joint proxy statement/prospectus and NPI's board of directors must not withdraw or modify its recommendation. However, nothing shall prevent NPI's board of directors from withholding, withdrawing or modifying its recommendation in favor of the merger proposals if:

- . NPI receives an unsolicited, bona fide written offer to purchase all of

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

NPI's outstanding common stock; provided, however, if financing is required for such offer, such financing must already be committed or must be reasonably capable of being obtained by the third party making the offer, and such offer is not withdrawn;

- . neither NPI nor any of its representatives has violated the non-solicitation provisions of the merger agreement; and
- . NPI's board of directors concludes in good faith, after consultation with its legal counsel, that such action is necessary in order for the board of directors to comply with its fiduciary duties to NPI's stockholders.

None of these limitations will limit NPI's obligation to convene and hold the meeting of NPI stockholders for the purpose of voting on the merger proposals, regardless of whether the recommendation of NPI's board of directors has been withdrawn or modified.

Subject to the limitations set forth below, FalconStor's board of directors must recommend that FalconStor stockholders vote in favor of the merger proposals, FalconStor must include a statement to this effect in this proxy statement and FalconStor's board of directors must not withdraw or modify its recommendation. However, nothing shall prevent FalconStor's board of directors from withholding, withdrawing or modifying its recommendation in favor of the merger proposals if:

- . FalconStor receives an unsolicited, bona fide written offer to purchase all of the outstanding common stock of FalconStor; provided, however, if financings is required for such offer, such financing must already be committed or must be reasonably capable of being obtained by the third party making the offer, and such offer is not withdrawn;
- . neither FalconStor nor any of its representatives has violated the non-solicitation provisions of the merger agreement; and
- . FalconStor's board of directors concludes in good faith, after consultation with its legal counsel, that such action is necessary in order for the board of directors to comply with its fiduciary duties to FalconStor's stockholders.

63

None of these limitations will limit FalconStor's obligation to convene and hold the meeting of FalconStor stockholders for the purpose of voting on the merger proposals, regardless of whether the recommendation of FalconStor's board of directors has been withdrawn or modified.

Employee Benefit Plans

At the effective time of the merger, all outstanding options to purchase FalconStor common stock will be assumed by NPI and converted into options to purchase NPI common stock based on the exchange ratio. All restrictions of the exercisability of FalconStor stock options shall continue in full force and effect and the term, exercisability, vesting schedule and other provisions of the stock option will remain unchanged.

The combined company will file a registration statement on Form S-8 for the shares of NPI common stock issuable with respect to options assumed in the merger.

obligations under the voting agreement:

- . by the mutual written consent of NPI and FalconStor duly authorized by the boards of directors of each company;
- . by either NPI or FalconStor if the merger shall not have been consummated by September 30, 2001, provided that if any closing condition has not been satisfied or waived prior to September 30, 2001 and remains reasonably capable of satisfaction, the termination date will be extended to December 31, 2001;

The merger agreement does not include any provision for termination based on fluctuations in the price of NPI common stock.

Termination Fees and Expenses

Except as described below, whether or not the merger is consummated, all fees, costs and expenses incurred in connection with the merger agreement and the transactions contemplated thereby shall be paid by the party incurring such expenses, except that all fees and expenses, other than attorneys' fees, incurred in connection with the printing of this joint proxy statement/prospectus shall be paid by NPI.

If the merger agreement is terminated by FalconStor for any reason, then NPI shall pay a termination fee of \$3,000,000 in cash in immediately available funds to FalconStor; provided, however, NPI will not be required to pay the termination fee if FalconStor is in material breach of any of its obligations under the merger agreement.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

If the merger agreement is terminated by NPI for any reason other than:

- . any representation or warranty of FalconStor is inaccurate at the time of the merger agreement or becomes inaccurate after the date of the merger agreement and is not cured within 10 business days' notice of the breach;

65

- . any of FalconStor's covenants set forth in the merger agreement are breached;
- . FalconStor's board of directors has withdrawn or modified its recommendation in favor of the merger; or
- . since the date of the merger agreement there has been a material adverse effect on FalconStor;

NPI shall be required to pay FalconStor a termination fee of \$3,000,000; provided, however, NPI will not be required to pay the termination fee if FalconStor is in material breach of any of its obligations under the merger agreement.

Amendment and Waiver

The merger agreement may be amended at any time by action taken or authorized by the respective boards of directors of NPI and FalconStor, but after approval by the stockholders of FalconStor of the matters presented in connection with the merger to them, no amendment shall be made which changes the amount or form of the merger consideration or which by law requires further approval by such stockholders, without such further approval. NPI and FalconStor by action taken or authorized by their respective boards of directors, may extend the time for performance of the obligations or other acts of the other parties to the merger agreement, may waive inaccuracies in the representations or warranties contained in the merger agreement or may waive compliance with any agreements or conditions for the benefit of each party contained in the merger agreement.

Voting Agreements

The following describes the material terms of the voting agreements between FalconStor and NPI, on the one hand, and each of the officers and directors of NPI and each of the officers and directors and stockholders of FalconStor that beneficially own in excess of 68% of the outstanding voting power of FalconStor's capital stock, respectively, on the other hand. The voting agreements were entered into to induce FalconStor and NPI to enter into the merger agreement. A form of each of the voting agreements is attached to this joint proxy statement/prospectus as Annex E.

Voting of Shares

From the date of the voting agreement through the earlier of the date when the merger agreement is terminated or the merger becomes effective, the parties to the voting agreements each agree that, at every meeting of stockholders and on every action or approval by written consent of the stockholders:

- . it will cause all securities owned by it to be voted in favor of the adoption of the merger agreement and the other transactions contemplated by the merger agreement;
- . it will cause all securities owned by it to be voted against any proposal

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

for any merger, consolidation, sale of assets, recapitalization, or other business combination involving the other party (other than the merger) or any other action or agreement that would result in a breach of any covenant, representation, or warranty or any other obligation or agreement of the other party under the merger agreement or which would result in any of the conditions to the other party's obligations under the merger agreement not being fulfilled; and

- . it will cause all securities owned by it to be voted in favor of any other matter relating to the consummation of the transactions contemplated by the merger agreement.

Proxy and Waiver

To carry out the intention of the voting agreements, each officer and director of NPI has delivered to FalconStor and each officer and director and stockholders of FalconStor that beneficially own in excess of % of the outstanding voting power of FalconStor's capital stock has delivered to NPI an irrevocable proxy with respect to the securities owned by such person in respect of the matters described above. Furthermore, each party gives any consent or waiver that is reasonably required for the approval of the merger under the terms of any agreements to which such individual is a party.

66

Restrictions on Transfer of Securities and Voting Rights

The officers and directors of NPI and FalconStor and each stockholder of FalconStor that has executed a voting agreement also agree that during the same period, he, she or it will not:

- . tender any of his, her or its securities or any securities convertible into or exchangeable or exercisable for such securities to any person;
- . sell, transfer, distribute, pledge, encumber, assign or otherwise dispose of (or enter into any transaction or device that is designed to, or could reasonably be expected to, result in the disposition by any person at any time in the future of) any of his, her or its securities or any securities convertible into or exchangeable or exercisable for such securities;
- . enter into any swap or other derivatives transaction that transfers to another, in whole or in part, any of the economic benefits or risks of ownership of any of the their securities;

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

However, each party is allowed to take any of the above actions if NPI or FalconStor, as the case may be, approves such action or if the proposed transferee executes a counterpart of the voting agreement and agrees to hold the securities subject to all of the terms of the voting agreement.

No Solicitation

Each party agrees that from the date of the voting agreement through the earlier of the date on which the merger agreement is terminated or the merger becomes effective, it will not, directly or indirectly, solicit, initiate, or knowingly encourage any inquiry, proposal, or offer from any third person or negotiate with any third party regarding any acquisition or purchase of NPI or FalconStor, as the case may be, by a third party and it will cease all existing discussions and negotiations. Each party further agrees to notify either NPI or FalconStor, as the case may be, immediately upon receipt of any proposal for, or inquiry regarding, the purchase of NPI or FalconStor. Prior to the effective time of the merger, however, NPI has the right to sell its assets related directly to its Ethernet switching business.

Termination

The voting agreements and the accompanying proxies, and all obligations of the parties thereunder, shall terminate immediately, without any further action being required, upon the earlier of the date which the merger agreement is terminated or the merger becomes effective.

COMPARISON OF RIGHTS OF HOLDERS OF NPI COMMON STOCK AND FALCONSTOR CAPITAL STOCK

This section of the joint proxy statement/prospectus describes material differences between the rights of stockholders of NPI common stock and the rights of stockholders of the FalconStor capital stock. The rights compared are those found in the respective companies' charter documents and corporate law provisions for Delaware, which is the state in which both companies are incorporated. While NPI believes that these descriptions address the material differences, this summary may not contain all of the information that is important to stockholders of NPI and FalconStor. NPI and FalconStor stockholders should read this entire document and the documents referred to in this summary carefully for a more complete understanding of the differences between the rights of NPI stockholders, on the one hand, and FalconStor stockholders, on the other.

Size of the Board

The size of the NPI board is fixed from time to time by resolution of the board of directors. Currently, there are five directors. There will be four directors and one vacancy at the time of closing. See "Board Composition" commencing on page 46.

The size of the FalconStor board is fixed from time to time by resolution of the board of directors. Currently, there are three directors.

Classification

The NPI board is divided into three classes, with each class serving a staggered three-year term.

The FalconStor board of directors is not classified. Each director is up for election every year.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Removal of Directors

The NPI certificate of incorporation provides that directors may be removed with or without cause by the majority vote of all the outstanding shares entitled to vote in an election of directors.

Any FalconStor director or the entire board may be removed, with or without cause, by holders of the majority of the capital stock entitled to vote in any election of directors, voting together as a single class, subject to the rights of the holders of any class or series of preferred stock.

Vacancies

The NPI bylaws provide that vacancies may be filled either by a majority of directors in office or at a special meeting of stockholders held for that purpose.

The FalconStor bylaws provide that vacancies may only be filled by a majority of the remaining directors.

Limitation on Director Liability

The NPI certificate of incorporation precludes a director's liability for monetary damages unless the director:

- . breaches the duty of loyalty to the corporation or its stockholders;
- . commits acts that are not in good faith or which involve intentional misconduct or a knowing violation of the law;
- . pays an illegal dividend or makes an illegal stock purchase; or
- . receives an improper personal benefit from a transaction.

68

- . the conduct of the business and the affairs of NPI;
- . the number and election of directors;
- . the amendment of NPI's bylaws and certificate of incorporation; and
- . the limitations on personal liability for the directors.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

The FalconStor certificate of incorporation requires the affirmative vote of at least a majority of the outstanding voting power of the common stock and preferred stock, voting together as a single class, in order to amend or repeal any provision of the certificate of incorporation and a majority of the outstanding shares of Series A preferred stock, two-thirds of the outstanding shares of Series B preferred stock, or a majority of the outstanding shares of Series C preferred stock in order to amend certain provisions of the certificate of incorporation, including any amendment that adversely affects the relevant series of preferred stock.

Amendments to Bylaws

The NPI board of directors has authority to amend the bylaws. NPI stockholders may also amend the bylaws, but only by a two-thirds vote of the then outstanding shares voting together as a single class.

The FalconStor board of directors has authority to amend the bylaws by a majority vote. Stockholders may also amend the bylaws upon the affirmative vote of at least a majority of the outstanding shares of Series A preferred stock, two-thirds of the outstanding shares of Series B preferred stock, or a majority of the outstanding shares of Series C preferred stock, if any amendment adversely affects the relevant series of preferred stock.

The NPI certificate of incorporation authorizes the issuance of up to 60,000,000 shares of common stock, par value \$.001 per share, and 2,000,000 shares of preferred stock, par value \$.001 per share. The NPI board of directors is authorized, without further action by the stockholders, and subject to any limitations prescribed by law, to determine, alter or eliminate any or all of the rights, preferences, privileges and restrictions granted to or imposed upon any wholly unissued series of preferred shares, and to fix, increase or decrease the number of shares comprising any such series and the designation thereof, or any of them, and to provide for the rights and terms of redemption or conversion of the shares of any such series.

As of _____, 2001, _____ shares of NPI common stock, and no shares of NPI preferred stock, were issued and outstanding.

If the merger is approved, the NPI certificate of incorporation will be amended to authorize the issuance of an additional 40,000,000 shares of common stock. The total number of shares of NPI common stock that would be authorized after the merger would be 100,000,000.

stock, _____ shares of Series B preferred stock and _____ shares of Series C preferred stock) were issued and outstanding.

Dividends

Delaware law provides that the directors of a corporation may declare and pay dividends on capital stock. Dividends may only be paid out of surplus, which is the excess of net assets of the corporation over capital, or, if the corporation does not have adequate surplus, out of net profits for the current or immediately preceding fiscal year, unless the net assets are less than the capital of any outstanding preferred stock.

The NPI certificate of incorporation and the FalconStor certificate of incorporation place no additional restrictions on its board's ability to declare dividends.

Stock Repurchases, Redemptions, and Conversions

In general, a corporation may not purchase or redeem its own shares if its capital is impaired or if the purchase or redemption would cause its capital to be impaired. A company may, however, purchase or redeem preferred shares out of capital if the shares will then be retired, thereby reducing the capital of the corporation.

The NPI certificate of incorporation provides that NPI's common stock is not redeemable.

The FalconStor certificate of incorporation provides that FalconStor may not redeem or repurchase shares of its common stock or of any other capital stock of FalconStor ranking junior to any series of preferred stock then outstanding of FalconStor as to the payment of dividends or the distribution of assets upon liquidation, dissolution or winding up, unless all declared and unpaid dividends on such series of preferred stock of FalconStor have been paid. Holders of a majority of the Series A preferred stock and Series C preferred stock, and holders of two-thirds of the Series B preferred stock of FalconStor, when applicable, must consent to the purchase, redemption or acquisition of any shares of FalconStor's common stock, or of any other capital stock of FalconStor ranking junior to such series of preferred stock as to the payment of dividends or the distribution of assets upon liquidation, dissolution or winding up.

Election of Directors

NPI stockholders and FalconStor stockholders do not have cumulative voting rights.

Appraisal or Dissenters' Rights

Under the Delaware General Corporation Law, a stockholder of a corporation participating in certain major corporate transactions may, under varying circumstances, be entitled to appraisal (or dissenters') rights pursuant to which such shareholder may receive cash in the amount of the fair market value of his or her shares in lieu of consideration he or she would otherwise receive in the transaction. Such rights are not available (a) with respect to the sale, lease or exchange of all or substantially all of the assets of a corporation, (b) with respect to a merger or consolidation by a corporation, the shares of which are either listed on a national securities exchange, such as Nasdaq, or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or are held of record by more than 2,000 holders if such stockholders receive only shares of the surviving corporation or shares of any other

corporation which are either listed on a national securities exchange or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or held of record by more than 2,000 holders, plus cash in lieu of fractional shares, or (c) to stockholders of a corporation surviving a merger if no vote of the stockholders of the surviving corporation is required to approve the merger because the merger agreement does not amend the existing certificate of incorporation, each share of the surviving corporation outstanding prior to the merger is an identical outstanding or treasury share after the merger, and the number of shares to be issued in the merger does not exceed 20% of the shares of the surviving corporation outstanding immediately prior to the merger and if certain other conditions are met. Because NPI's stock is listed on a national exchange, NPI stockholders are not entitled to appraisal rights in this merger. FalconStor stockholders, however, do have appraisal and dissenters' rights. See "Appraisal or Dissenters' Rights."

Action by Written Consent

The NPI certificate of incorporation prohibits the stockholders from acting by written consent. All stockholder actions must be taken at a duly called annual or special meeting.

FalconStor stockholders may act by written consent, provided the written consent is signed by holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted.

Annual Meeting

The annual meetings for both NPI and FalconStor are held on the date and at the place fixed by their respective boards of directors.

Special Meeting of Stockholders

The NPI bylaws provide that special meetings of the stockholders may only be called by the board of directors or by the holders of not less than 10% of all shares entitled to cast voted at the meeting, voting together as a single class. The meeting shall be held at the time and place designated by the persons calling the meeting and the business transacted at the special meeting shall be confined to the purpose or purposes stated in the notice of the meeting.

The FalconStor bylaws provide that special meetings of FalconStor stockholders may be called by two or more directors or the chairman of the board, or by one or more stockholders entitled to cast a majority of the shares of stock that would be entitled to vote on the proposed matter at the special meeting. The place of the special meeting shall be fixed by the body or person calling the special meeting.

Advance Notice Requirements of Stockholder Nominations

In order to nominate an individual for election to the board of directors, NPI bylaws require a stockholder to provide written notice of the nomination to the corporation secretary at least 120 days before the first anniversary of the date written notice of the previous year's meeting was given.

FalconStor's bylaws do not contain any similar provision.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Advance Notice Requirements of Stockholder Business

In order to raise business before the annual meeting, a NPI stockholder must provide written notice of such intent and a brief description of:

- . the issue and why it is to be brought before the meeting;

71

- . the name and address, as they appear on the corporation's books, of the stockholder proposing such business;
- . the number of shares of NPI common stock the stockholder owns; and
- . and any material interest the stockholder may have in the matter. The information must be delivered to NPI's corporate secretary at least 120 days before the first anniversary of the day written notice of the previous year's meeting was given.

FalconStor's charter documents do not contain comparable provisions.

Rights of Inspection

The certificate of incorporation and the bylaws of NPI do not provide for inspection rights.

Stockholders of FalconStor may inspect its books and records during normal business hours as long as such inspection is for a proper purpose, and as long as the stockholder has made proper written demand stating the purpose of the inspection. A proper purpose is any purpose reasonably related to the interests of the inspecting person as a stockholder.

Transactions Between the Corporation and its Directors and Officers

Delaware law provides that a transaction between a corporation and one of its directors or officers or between the corporation and an entity with which a director or officer is affiliated shall be valid if:

- . the director/officer discloses the material facts to the board of directors and the transaction is approved by a majority of disinterested directors; or
- . the director/officer discloses the material facts to the shareholders and the shareholders approve the transaction; or
- . the transaction is fundamentally fair to the corporation as of the time it is authorized, approved, or ratified by the directors or the shareholders.

The NPI certificate of incorporation and the FalconStor certificate of incorporation generally track Delaware law.

Stockholders' Rights Plan

Neither NPI nor FalconStor has a stockholders' rights plan.

BUSINESS OF NPI

Until recently, NPI designed and sold Ethernet switching solutions designed

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

for local area networks, or LANs. In response to unfavorable market conditions and in order to take best advantage of the opportunity presented by FalconStor's technology and market opportunity, NPI is evaluating strategic alternatives for its existing hardware business, which may include selling its NuWave technology and its related inventory and equipment.

Provided below is a description of the business of NPI during the fiscal year ended December 31, 2000.

Overview

NPI designs and sells Fast Ethernet and Ethernet switching solutions for local area networks, or LANs. All of its switches are based on highly flexible NuWaveArchitecture, built with its proprietary application-specific integrated circuits, or ASICs. This architecture is designed to enable NPI to deliver standards-based switches that can work with a variety of existing LAN infrastructures and technologies. NPI is directing its sales and marketing resources evenly toward original equipment manufacturers, or OEMs, and value-added resellers, or VARs.

As the Internet and complex applications, such as storage area networks, or SAN, network attached storage, or NAS, enterprise resource planning and data backup, have become pervasive, the volume of data traffic over LANs has increased dramatically, often creating bottlenecks on LANs that degrade network performance. Enterprises have historically implemented Layer 2 switches and software-based Layer 3 routers to manage increased traffic and to provide the intelligence necessary to process increasingly complex multi-protocol traffic. However, increasing bandwidth requirements and transmission speeds combined with multiple traffic types, such as voice, data and video, have strained the performance capabilities of software-based Layer 3 routers. In response to these developments, LAN managers have begun to implement hardware-based Layer 3 switches in their networks to replace both Layer 2 switches and software-based Layer 3 multi-protocol routers.

Despite the performance improvements of Layer 3 switches versus Layer 3 routers, many of today's Layer 3 switching solutions still have limitations, such as traffic blocking. NPI addresses this issue and others through its proprietary NuWaveArchitecture, which enables it to deliver the following benefits to its customers and end-users:

- . High performance at low cost. NPI believes its architecture and modular design enable it to deliver products with price/performance advantages regardless of scale or configuration.
- . Scalability. NPI's wire-speed, non-blocking Layer 3 switching solutions enable enterprises to expand their LANs without creating bottlenecks or impacting network performance. Modular expansion units can connect to master units via internal high bandwidth channels that do not block traffic or reduce switching resources.
- . Flexibility. NPI's proprietary technology enables it to create new product configurations using the proprietary ASICs that form the core of its switches. In addition, NPI's architecture enables it to add software-based Layer 4-7 capabilities or port third-party software to its switches to develop new products.
- . Manageability. NPI believe its products reduce the complexity of network management, thereby lowering overall cost of ownership.

NPI initially focused on networking products based on fiber distributed data interface, or FDDI, technology, and obtained a significant share of the market for FDDI adapter products in the early 1990s. Because the market for FDDI-based

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

products declined significantly beginning in 1995, NPI developed a new line of Layer 2 Fast Ethernet switching products that first shipped in early 1996. By 1998, the market for NPI's FDDI-based products and its Layer 2 Fast Ethernet products (together, legacy products) declined substantially, and NPI committed nearly all its resources to the development of a new line of Layer 3 Ethernet switches founded on its NuWaveArchitecture. NPI commenced limited commercial shipments of the first product in this line, the Keystone24g in December 1999, followed by the remainder of the product line in 2000. Because the life cycle of

73

its legacy products reached maturity, NPI ceased production of these products during 2000 in accordance with the decreasing demand and profitability in this market.

Products and Technology

All of NPI's Ethernet switches are based on NPI's flexible NuWaveArchitecture, which combines advanced design and proprietary ASICs to deliver standards-based switches that are intended to work seamlessly with existing LANs. This architecture offers a 64 Gigabit per second, or Gbps, crosspoint switching fabric. In addition, the NuWaveArchitecture is designed to eliminate blocking with multiple input buffers, separate queues for unicast and multicast traffic and other special queuing and buffering techniques. Further, NPI's architectural approach gives it the capability to increase functionality and reduce cost in future generations of NuWaveArchitecture.

Standalone LAN Switching Solutions

Keystone24g. The Keystone24g was the first commercially available Gigabit Ethernet switch based on NPI's NuWaveArchitecture. It is a fully managed standalone switch with 24 fixed Fast Ethernet ports and two optional Gigabit uplinks. The Keystone24g features advanced, traffic-enhancing capabilities, such as wire-speed IP routing and protocol-based virtual LANs.

Stacking LAN Switching Solutions

Keystone24mg Stack Master. The Keystone24mg Stack Master is a highly scalable, fully managed Layer 3 switch that supports high capacity Gigabit Ethernet, Fast Ethernet and WAN interfaces. The Keystone24mg incorporates a powerful, non-blocking 64-Gbps switching fabric. The Keystone24mg Stack Master has 24 fixed Fast Ethernet ports and in a stacked environment can provide up to 96 Fast Ethernet ports without blocking. The use of dedicated, separate channels for user data and management and control information is designed to ensure wire-speed performance even under sustained periods of high traffic volume while maintaining network integrity.

Capstone24t Stack Slave. Commercial shipments of NPI's Capstone24t Stack Slave commenced in the first quarter of 2000. The Capstone24t connects to the Keystone24mg over an advanced stacking interface that connects the Capstone24t directly to the Keystone24mg's 64-Gbps switching fabric. The Capstone24t has 24 fixed, full-duplex, auto-negotiating Fast Ethernet ports. One Capstone24t and one Keystone24mg create a 48-port stack, while a combination of one Keystone24mg and three Capstone24t switches creates a 96-port stack. Two optional Gigabit uplinks on the Keystone24mg can expand the stack functionality and extend price/performance advantages.

Backbone Switching Solutions

Cornerstone Switches. The Cornerstone6g provides up to 12 Gigabit ports and

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

16 Fast Ethernet ports. The Cornerstone6g is a fully managed standalone switch that supports high capacity Gigabit Ethernet and Fast Ethernet port configurations. The base unit has six fixed Gigabit Ethernet ports. Customers can also choose an additional six Gigabit Ethernet ports and a 16-port Fast Ethernet option. Gigabit Ethernet ports on the Cornerstone6g are available in short-haul fiber (SX) and long-haul fiber (LX).

The Cornerstone12g is identical to the Cornerstone6g except that the base unit has 12 fixed Gigabit ports instead of only six. The same 16-port Fast Ethernet option card is available on the Cornerstone12g as on the Cornerstone6g. This combination of port options makes our Cornerstone switches suitable for a range of high performance applications, including data centers, network backbones and power workgroups.

Problems encountered with NPI's operating software resulted in unforeseen delays in commercial shipments, as well as returns, beginning in the second quarter of 2000. Although NPI believes these problems have been corrected in subsequent software releases, lost time and expense adversely affected its operating results and market penetration throughout the year.

74

Management Software

NuSight GEMS is NPI's Ethernet management software that it bundles and ships with its NuWaveArchitecture products. The initial version was shipped with Keystone24g, followed by enhanced versions for each of its NuWaveArchitecture products as they have been produced. NuSight GEMS provides advanced and easy-to-use management capabilities that simplify user configuration of NPI's products as well as diagnostic and management tools. NuSight GEMS is based on widely accepted industry standards and operates with a variety of management software applications.

Marketing, Sales and Support

NPI focuses its sales and marketing efforts on OEMs, VARs, system integrators and distributors. As of December 31, 2000, its worldwide sales and marketing organization included 38 full-time technically trained marketing, sales and support personnel located in the United States, the Netherlands and Taiwan. NPI has domestic sales offices located in Fremont, Los Angeles, Boston, Chicago and Denver, as well as Reston, Virginia and Sarasota, Florida.

OEMs. NPI is leveraging the flexibility of the NuWaveArchitecture to integrate its products into OEMs' product lines in traditional LAN markets and emerging markets such as SAN/NAS, Video, Voice over IP and others. OEMs can exercise significant influence in the development of its target markets because they use NPI's products to deliver complete, factory-configured solutions that are installed and field-serviced by the OEM's technical support organizations. In 2000, NPI entered into agreements with a number of OEMs to introduce new products and develop new markets. Its sales personnel, in addition to traditional marketing and sales functions, are responsible for initiating and developing relationships with OEM leaders in the computer networking industry. While NPI does not generally obtain long-term purchase commitments from OEM customers, NPI enters into contracts with OEM customers to establish the terms and conditions of sales made pursuant to orders from OEMs. Further, the OEM customers typically provide NPI with a rolling forecast up to three months in advance of shipment.

VARs, System Integrators and Distributors. NPI has existing relationships with a number of distribution channel customers due to its experience with its legacy products. NPI's technically trained staff is responsible for initiating

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

and developing relationships with these customers by providing insight into the evolution of the network environment and facilitating the development and deployment of optimal network solutions, domestically and internationally.

In 2000, 74% of NPI's sales were in North America, with the balance of the sales to Asia and Europe representing 15% and 11%, respectively. NPI has experienced fluctuations in the volume of activity with individual customers and changes in its customer base and expect such fluctuations and changes to continue. The loss of a major customer, reductions of a major order or delay in a major shipment could adversely affect NPI's business and financial performance.

Research and Development

The successful development and introduction of new products is subject to a number of uncertainties, including its ability to recruit, train and retain adequate numbers of professional engineers, successful design of proprietary ASICs and computer software, design, development and verification testing to confirm that the products meet NPI's standards for quality, reliability and interoperability, availability of components, pricing actions by competitors that may render it unprofitable to introduce the products, unanticipated technical obstacles or delays, and the emergence or wide acceptance of new technologies that could render its products obsolete.

NPI works closely with its OEM partners, reseller customers and research organizations to identify new solutions to meet the current and future needs of enterprises and Internet service providers. NPI designs its products consistent with industry standards to ensure interoperability. NPI designed the NuWaveArchitecture

75

based on common ASICs and management software to serve as the foundation of all new models in its product line. This enables NPI to reduce product design and development cycles providing for fast time to market for new products and features.

As of December 31, 2000, NPI employed 51 personnel in research and development, including ASIC design, software development and quality assurance. NPI also engages third party consultants to expedite development efforts of certain projects when appropriate. In 2000, NPI's research and development expenses were \$11,200,000.

In October 2000, NPI opened a new software development center at Research Triangle Park in Durham, North Carolina. This location enables NPI to tap into the pool of software engineering talent in the Durham area and to extend its abilities to deliver superior partner and customer care. Software as well as hardware development will continue to be conducted at its research center in Bohemia, New York, in close coordination with NPI's new software development center in North Carolina.

Customer Service and Support and Quality Assurance

NPI's customer service and support organization maintains and supports products sold by NPI's sales force to end users and provides technical support to our VARs and OEMs. Generally, our VARs and OEMs provide installation, maintenance and support services to their customers, and NPI assists them in providing such support. Questions and problems from end users, VARs and OEMs can be handled via telephone, e-mail and facsimile. NPI's website is continually updated to enable its customers to download the latest technical information and tips, along with firmware, software and product manuals. This

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

same group also conducts new product Beta testing to ensure that its new products will meet customer requirements when those products reach the marketplace.

NPI's quality assurance organization is tied to its customer service and support organization in order to maintain its focus on satisfaction of customer requirements and expectations. This group conducts network testing, OEM and third party testing, problem reproduction and resolution and validation of manufacturing tools in order to ensure compliance with industry standards, product performance and interoperability with its customer's existing equipment.

Manufacturing

NPI's manufacturing operations consist of procurement of components and the assembly, testing and quality assurance of finished goods for shipment to customers. NPI purchase the components of its products, including its proprietary ASICs, circuit boards, integrated circuits and power supplies, from third parties. NEC is the sole manufacturer of its ASICs. NPI monitors the quality of the purchased components through quality assurance procedures at its headquarters in Fremont, California.

In January 2000, NPI entered into an agreement with Solectron Corporation, a major contract manufacturer with global capabilities, located in Milpitas, California, to assume all manufacturing responsibilities for NPI. This arrangement enables NPI to manufacture its products near its North American customer base and accommodate significant increases in production volume, if necessary. Under this contract, Solectron purchases the components for NPI's products and assembles them to NPI's specifications. This further enables NPI to leverage Solectron's established relationships with suppliers to procure materials at reduced costs and mitigate potential supply constraints. NPI also uses Solectron's extensive resources and expertise to assist it in manufacturing engineering, repair and product testing, and burn-in. NPI continues to perform all component and supplier qualification, quality assurance and document control at its facilities.

NPI selects suppliers on the basis of technology, manufacturing capacity, quality and cost. NPI's agreement with Solectron affords it the opportunity to have redundant manufacturing locations for each component. Nevertheless, NPI's reliance on third party suppliers and manufacturers involves risks, including

76

possible limitations on availability of products due to market abnormalities, lack of control over delivery schedules, fluctuating manufacturing yields, and high production costs. The inability of its suppliers to deliver products of acceptable quality and in a timely manner, or its inability to procure adequate supplies of its products could have a material adverse effect on NPI's business, financial condition or operating results.

Competition

The markets in which NPI competes are intensely competitive and are characterized by frequent new product introductions, changing customer preferences and evolving technology and industry standards. NPI's competitors continue to introduce products with improved price/performance characteristics, and NPI must do the same to remain competitive. Increased competition is likely to result in significant price reductions and may result in lower than expected revenues or profit margins, any of which could harm NPI's business, financial condition or operating results.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Many of NPI's current and potential competitors have significantly broader product offerings, greater financial, technical, marketing and other resources, and larger installed bases of customers than NPI does. While the Layer 3 switching market is still in the early stage of development, competition in this market comes from companies such as Extreme Networks, Foundry Networks, Nortel Networks, Cisco Systems, 3Com and others. NPI believes that this market will consolidate over time and that this consolidation could adversely affect its ability to compete effectively. A number of companies developing technologies similar to NPI have been acquired by NPI's larger competitors. These acquisitions are likely to permit NPI's competitors to devote significantly greater resources to the development and marketing of new competitive products and the marketing of existing products to their customer bases. NPI expects that competition will increase as a result of these and other industry consolidations and alliances. Some of NPI's current and potential OEM customers could develop products internally that would replace NPI's products. The resulting lost sales of our products to any such OEMs, in addition to the increased competition presented by these OEMs, could have a material adverse effect on NPI's business, financial condition and operating results.

NPI believes that the principal competitive factors in the LAN equipment market include the completeness of product offerings, product quality, price and performance, adherence to industry standards, the degree of interoperability with other networking equipment and time to market for new products. NPI believes that NPI competes favorably with respect to each of these factors.

Intellectual Property

NPI's success is dependent upon its proprietary technology. The core of NPI's proprietary technology is the NuWaveArchitecture and NPI's ASICs. NPI relies principally upon copyright, trademark and trade secret laws to protect its proprietary technology. NPI generally enter into confidentiality or license agreements with employees, suppliers, customers and potential customers, limiting or prohibiting their disclosure of NPI proprietary information. Although NPI holds five U.S. patents covering technology of NPI's legacy products, NPI does not own any patents or have pending patent applications associated with NPI's NuWaveArchitecture.

NPI seeks to protect its proprietary rights and other intellectual property through a combination of copyright, trademark and trade secret protection, as well as through contractual protections such as proprietary information agreements and nondisclosure agreements. NPI also believes that factors such as the technological and creative skills of its personnel, new product developments, frequent product enhancements and reliable product maintenance are essential to establishing and maintaining a technology leadership position.

NPI generally enters into confidentiality or license agreements with its employees, consultants and corporate partners, and generally control access to and distribution of its software, documentation and other proprietary information. Despite NPI's efforts to protect NPI's proprietary rights, unauthorized parties may attempt to copy or otherwise obtain and use NPI's products or technology. Monitoring unauthorized use of NPI's products is difficult, and there can be no assurance that the steps taken by it will prevent misappropriation of NPI's technology, particularly in foreign countries where the laws may not protect its proprietary rights as fully as do the laws of the United States.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following section should be read in conjunction with NPI's consolidated financial statements and related notes and other financial information included elsewhere in this joint proxy statement/prospectus. This discussion contains forward-looking statements that involve risks and uncertainties. NPI's actual results could differ materially from the results contemplated by these forward-looking statements as a result of certain factors, including those discussed below and elsewhere in this joint proxy statement/prospectus, particularly under the heading, "Risk Factors."

Overview

We were incorporated in California in March 1989 and were reincorporated in Delaware in 1994. Our initial business focus was on networking products based on fiber distributed data interface, or FDDI, technology, and we obtained a significant share of the market for FDDI adapter products in the early 1990s. Because the market for FDDI-based products declined significantly beginning in 1995, we developed a new line of Layer 2 Fast Ethernet switching products that we first shipped in early 1996. By 1998, the market for our FDDI-based products and our Layer 2 Fast Ethernet products (together, our legacy products) declined substantially, and we committed nearly all of our resources to the development of a new line of Layer 3 Gigabit Ethernet switches (together, our NuWave products) founded on our NuWaveArchitecture, which combines our advanced design and our proprietary application-specific integrated circuits, or ASICs. We commenced limited commercial shipments of our first NuWave product in December 1999 and volume shipments of all NuWave products in 2000.

Cost of revenue is comprised principally of payments to our materials suppliers and contract manufacturers, final assembly costs, costs associated with manufacturing and quality functions, inventory management costs and certain other product costs. Our gross profit has been affected by many factors, including:

- . declines in the average selling price of our products;
- . fluctuations in demand for our products;
- . the volume of products sold;
- . the mix of products sold;
- . the mix of sales channels through which our products are sold;
- . new product introductions both by us and our competitors; and
- . provision for inventory reserves for potential excess inventories.

Generally, we realize higher margins on sales to the reseller channel than on sales to OEMs. Any change in the mix between the channels or the loss of a major customer could adversely affect our gross margin, operating results and financial condition. We experienced significant erosion in the average selling prices of our legacy products, and the average selling prices of our NuWave products have also decreased from their levels at introduction.

In transitioning from our legacy business to our NuWave business, we incurred significant losses in the past four years primarily reflecting declining revenues of legacy products in conjunction with substantial investments in research and development to bring NuWave products to market. The losses continued through the first quarter of 2001 due to a recent slowdown in the economy, the failure of our NuWave products to achieve significant market penetration and continuing high levels of research and development expenses.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

On March 30, 2001, we entered into a series of related agreements with FalconStor, pursuant to which we purchased 9,792,401 shares of FalconStor's Series C preferred stock for an aggregate price of \$25,000,000, and

78

obtained an exclusive option to merge with FalconStor. On May 4, 2001, we exercised the option to merge with FalconStor and entered into a merger agreement with FalconStor. See more details of this transaction in Notes to Consolidated Financial Statements. In connection with this merger, our board of directors has approved a proposal to reposition the company as an emerging leader in network storage infrastructure software and discontinue all of our existing NuWave and legacy businesses. As such, we are currently seeking potential buyers for our NuWave business, including the related technology, inventories and equipment. However, there can be no assurance that we can successfully secure a buyer for our NuWave business. Furthermore, the announcement of the merger with FalconStor and our exit from the NuWave business may cause delay in product purchases by our customers and may also adversely affect the average selling prices of our NuWave products. Although we have adopted and announced our plan to discontinue our existing NuWave and legacy businesses, we have not yet determined the method of disposal, and the estimated gain or loss may vary significantly depending on the ultimate method selected. Accordingly, we have not presented the NuWave and legacy businesses as discontinued operations because our plan is not sufficiently developed to permit the determination of the gain or loss with sufficiently reasonable accuracy.

Results of Operations for the Three Months Ended March 31, 2001 and 2000

Net Sales

Net sales for the three months ended March 31, 2001 (the quarter) were \$2 million, compared to \$3.3 million for the three months ended March 31, 2000 (the comparable quarter). The decrease in net sales was primarily attributed to an overall slowdown in the economy, resulting in delayed spending on communication infrastructure by most enterprises and a significant build-up of capital equipment inventories in the marketplace and, consequently, causing our OEM and reseller customers to postpone their purchases. In addition, the decrease in net sales was partially due to the winding down of the legacy business.

Net sales to OEM customers were \$1.2 million for the quarter, which decreased from \$1.8 million for the comparable quarter. Net sales to the reseller channel decreased to \$779,000 for the quarter from \$1.5 million for the comparable quarter. Following a similar downward trend, net sales to North America and international customers were \$1.4 million and \$601,000 for the quarter, compared to \$2.2 million and \$1.1 million for the comparable quarter, respectively.

Gross Profit (Loss)

We had a negative gross margin for the quarter, compared to a 24% gross margin for the comparable quarter. The negative gross margin for the quarter was primarily attributed to a charge of \$4.5 million to provide additional reserves for potential excess inventories as a result of adverse business conditions described above.

Research and Development

Research and development expenses were \$3.8 million for the quarter,

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

compared to \$2.4 million for the comparable quarter. The increase in research and development expenses was primarily attributed to the hiring of additional engineers throughout 2000 and increased spending in professional fees related to enhancing existing NuWave products and developing new ASICs and products.

Marketing and Selling

Marketing and selling expenses were \$3.1 million for the quarter, compared to \$2.0 million for the comparable quarter. The increase in marketing and selling expenses was primarily attributed to the hiring of additional sales personnel across the U.S. and increased spending in advertising, trade shows and other marketing activities, in an effort to penetrate the reseller channel and seek additional OEM customers.

79

General and Administrative

General and administrative expenses were \$1.3 million for the quarter, compared to \$1.0 million for the comparable quarter. The increase in general and administrative expenses was primarily attributed to increased spending in investor relations, recruiting activities and information technology related services. In addition, we incurred higher insurance expenses as a result of an overall tightening of the liability insurance market.

Merger Related Expenses

In connection with the investment in and the proposed merger with FalconStor, we incurred \$1.1 million of merger related expenses, primarily related to legal, accounting and investment banking services specifically provided for this transaction during the quarter.

Interest Income

Interest income for the quarter was \$1.4 million, compared to \$779,000 for the comparable quarter. Such increase in interest income was due to a higher average balance of cash, cash equivalents and short-term investments throughout the quarter, compared to the comparable quarter during which the net proceeds of \$165 million from the follow-on public offering were received in early March 2000.

Income Taxes

We did not record a tax benefit associated with the net loss incurred, as the realization of deferred tax assets is deemed uncertain based on evidence currently available. Accordingly, a full valuation allowance against deferred tax assets has been provided.

Results of Operations for the Years Ended December 31, 2000, 1999 and 1998

Net Sales

Net sales were \$7.5, \$10.2 and \$28.6 million in 2000, 1999 and 1998, respectively. The decrease in net sales was primarily attributed to the winding down of the legacy business throughout 1999 and 2000, as the demand for our legacy products experienced rapid decline. The decrease in net sales in 2000 was partially offset by volume shipments of NuWave products started in early 2000.

During the second quarter of 2000, the software used in our NuWave products displayed instability in certain network environments. This software

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

instability problem caused delay in shipments and product acceptance testing, reduced orders from customers in the second quarter and negatively impacted our customer demand in the third quarter and, to a lesser extent, the fourth quarter of 2000. Consequently, total net sales in 2000 were substantially lower than originally estimated.

We believe that the software instability issue we experienced during the second quarter of 2000 has been resolved. However, software and hardware errors may occur from time to time in new or enhanced products after commencement of commercial shipments. These potential problems may adversely affect our future operating results by causing delays in recognition of revenue and causing us to incur significant warranty and repair costs, diverting the attention of our engineering personnel from our product development efforts and causing delay or loss of market acceptance of our products.

Net sales to OEM customers decreased to \$4.8 million in 2000 from \$5.2 and \$19.4 million in 1999 and 1998, respectively. Net sales to the reseller channel, following the same trend, decreased to \$2.7 million in 2000 from \$5.0 and \$9.2 million in 1999 and 1998, respectively. Net sales to customers in North America were \$5.6, \$5.7 and \$19.7 million in 2000, 1999 and 1998, respectively. The balance of net sales of \$1.9, \$4.5 and \$8.9 million in 2000, 1999 and 1998, respectively, were to Asia and Europe.

80

Gross Profit/Margin

We had a negative gross margin in 2000, compared to 8% and 40% in 1999 and 1998, respectively. The negative gross margin in 2000 was primarily attributed to the lower than expected sales volume and a one-time charge of \$1.5 million to provide reserves for potential excess inventory. We expect our gross margin in the future periods to improve from the current level to the extent sales volume increases. The decrease in gross margin in 1999 compared to 1998 primarily reflected the competitive pricing pressures on the Fast Ethernet products as this market reached the commodity stage. In addition, the decline in production volume of all legacy products resulted in under-utilization of our manufacturing facilities and excess overhead charges.

Research and Development

Research and development expenses were \$11.2, \$7.8 and \$11.5 million in 2000, 1999 and 1998, respectively. The increase in research and development expenses in 2000 compared to 1999 was primarily due to the hiring of additional engineers and increased spending in professional fees and prototype expenses related to enhancing existing products based on the NuWaveArchitecture and developing new products and technologies. The decrease in research and development expenses in 1999 from 1998 primarily reflected reduction in compensation, overhead costs and project costs associated with the termination of legacy product development, including the divestiture of our research and development office in Taiwan in June 1999.

Marketing and Selling

Marketing and selling expenses were \$10.7, \$6.4 and \$6.0 million in 2000, 1999 and 1998, respectively. The increase in marketing and selling expenses in 2000 compared to 1999 was primarily due to increased spending in advertising, trade shows and other marketing activities in conjunction with the launch of NuWave products. In addition, during the second half of 2000, we rapidly expanded our sales organization by adding sales personnel across the U.S., in order to effectively penetrate the reseller channel and seek additional OEM customers. Beginning in the latter part of 1998 and continuing throughout 1999,

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

we added staff to the sales and marketing group, including technicians and senior management, and launched advertising campaigns to draw OEM interest, which was reflected in the increased spending in 1999 compared to 1998.

General and Administrative

General and administrative expenses were \$4.7, \$3.5 and \$3.2 million in 2000, 1999 and 1998, respectively. The increase in general and administrative expenses in 2000 compared to 1999 was primarily attributed to increased professional fees incurred for recruiting activities, investor relations and information technology related services. In addition, we incurred higher insurance expenses starting the fourth quarter of 2000 as a result of an overall tightening of the liability insurance market. In 1999, we incurred higher professional fees, which was the primary factor resulting in increased expenses in 1999 compared to 1998. These professional fees included the engagement of an investor relations firm and increased fees paid to information system consultants to prepare our systems for year 2000 issues.

Restructuring

In August 2000, we approved and announced a plan to divest our manufacturing facility in Taiwan. Solectron, our contract manufacturer, has agreed to manufacture all of our products after the divestiture. The objective of this divestiture is to reduce manufacturing overhead and improve gross margins by utilizing Solectron's advantages in materials procurement and production capacity. The divestiture plan consisted of terminating 57 employees in the manufacturing and the general and administrative functions, selling manufacturing equipment and closing the manufacturing facility. These actions resulted in a restructuring expense of \$600,000, which included \$550,000 for severance and \$50,000 for facility related charges. As of December 31, 2000, we have paid \$410,000 in total for severance and facility related charges. We completed the divestiture in the first quarter of 2001.

81

Loss (gain) on Sale of Assets

During the fourth quarter of 2000, we recorded a net loss on sale of assets of \$620,000 in connection with the closure of the manufacturing facility in Taiwan discussed above. In June 1999, we completed the sale of our research and development facilities in Hsin-chu, Taiwan, and recorded a gain of \$1,055,000, net of payments of broker fees and severance of \$216,000. We divested this research and development facility to reduce our investment in the legacy products and to focus our resources on the commercialization of NuWave products.

Interest Income

Interest income was \$7.3 million in 2000, compared to \$908,000 and \$1.5 million in 1999 and 1998. The increase in interest income in 2000 was due to a net increase in the aggregate balance of cash, cash equivalents and short-term investments, of which approximately \$165 million was received in March 2000 from our follow-on public offering. The decrease in interest income in 1999 from 1998 was primarily due to the declining balance of cash, cash equivalents and short-term investments throughout 1999 and 1998.

Income Taxes

We did not record a tax benefit associated with the net loss incurred in 2000, 1999 and 1998, as we deemed that it was more likely than not that the deferred tax assets will not be realized based on evidence available and,

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

accordingly, a full valuation allowance was provided. During 1998, we received an income tax refund of \$4 million as a result of the carryback claim of the 1997 net operating loss to offset net income recognized in 1995 and 1994. The related tax benefit was fully recognized in 1997.

Euro Conversion

We have a wholly-owned subsidiary in the Netherlands, which is one of the 11 European countries participating in the adoption of a common currency, the Euro, on January 1, 1999. Following the introduction of the Euro, the legacy currency in each participating country remains as legal tender until January 1, 2002. During the transition period, either the Euro or the legacy currency may be used to pay for goods and services. Beginning January 1, 2002, participating countries will issue new Euro-denominated bills and coins, and the legacy currency will no longer be the legal tender for any transactions after July 1, 2002.

Our subsidiary in the Netherlands is a sales office for the entire European region. Sales made to all European countries are denominated in US dollars. Expenses incurred by this subsidiary are currently paid in guilders, the legacy currency. Sales to all European customers accounted for 11%, 14% and 10% of our total sales in 2000, 1999 and 1998, respectively; and 6% of our total operating expenses in 2000, 1999 and 1998 were attributed to this subsidiary. Due to the immateriality of expenses of the Netherlands subsidiary relative to our operations as a whole, we believe the Euro conversion will not have any significant impact to our results of operations during and after the transition period.

Liquidity and Capital Resources

The aggregate balance of cash, cash equivalents and short-term investments was \$87.6 million at March 31, 2001, compared to \$96 million at December 31, 2000. The decrease of \$8.4 million was primarily due to the use of cash in financing our operations, capital expenditures and the repurchase of our common stock.

Net cash used in operating activities for the quarter was \$7.4 million, which was primarily attributed to our net loss of \$12.3 million and decreases in accounts payable and accrued liabilities of \$1.2 million in total, partially offset by depreciation and amortization of \$723,000 and decreases in accounts receivable, inventories and other assets of \$6.1 million in total. Our capital expenditures totaled \$602,000 for the quarter, primarily related to purchases of test equipment and related software for research and development activities.

82

In 2000, our board of directors approved a common stock repurchase program, pursuant to which we are authorized to repurchase up to five million shares of our common stock. As of March 31, 2001, we have repurchased 3,595,000 shares of our common stock with a total purchase price of approximately \$54.5 million.

Net cash used in operating activities in 2000 was \$26.0 million, which was primarily attributed to our net loss of \$22.2 million and increases in accounts receivable and inventories of \$1.1 million and \$6.8 million, respectively, partially offset by depreciation and amortization of \$2.5 million and increases in accounts payable and accrued liabilities of \$1.9 million in total. We expect negative cash flows from operations to continue until we realize operating income. In 1999, net cash used in operating activities was \$13.7 million, which was principally attributed to the net loss of \$15.0 million, partially offset by a decrease in accounts receivable of \$3 million.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Our capital expenditures totaled \$3.8 million in 2000, which included approximately \$640,000 of leasehold improvements and furniture and fixtures added to the new research and development facility in Long Island, New York. The relocation to this new research and development facility was completed in November 2000. The balance of the capital expenditures in 2000 was primarily related to purchases of test equipment and related software for research and development activities. In 1999, capital expenditures totaled \$2.6 million, of which approximately \$650,000 was related to capital expenditures for the corporate headquarters in Fremont, California.

On April 2, 2001, we paid FalconStor \$25,000,000 to purchase 9,792,401 shares of FalconStor's Series C preferred stock at a price of \$2.553 per share, and, on May 4, 2001, we entered into a merger agreement with FalconStor. In connection with the merger, we engaged an investment bank to explore strategic alternatives for our NuWave and legacy businesses, which may include selling our NuWave technology and its related inventories and equipment, terminating some or all employees, office leases and contracts with certain vendors, including Solectron, our contract manufacturer. We expect to incur additional merger related expenses, such as legal, accounting, financial advisor and printing fees. Although we have adopted and announced our plan to discontinue our existing NuWave and legacy businesses, we have not yet determined the method of disposal, and the estimated gain or loss may vary significantly depending on the ultimate method selected. Accordingly, we have not presented the NuWave and legacy businesses as discontinued operations because our plan is not sufficiently developed to permit the determination of the gain or loss with sufficiently reasonable accuracy.

Our principal sources of liquidity are our cash, cash equivalents and short-term investments that are expected to be used for general corporate purposes, including expansion of operations and capital expenditures. We may also use these capital resources to acquire or invest in businesses, technologies, products or services that are complementary to our business. From time to time we have discussed potential strategic acquisitions and investments in third parties. Other than as disclosed in this joint proxy statement/prospectus, we currently have no agreements or commitments regarding any acquisitions or investments. In addition to our cash, cash equivalents and short-term investments, we also have a \$5.0 million revolving bank line of credit, which expires on June 1, 2001, and is renewable on an annual basis. Borrowings under the line of credit bear interest at the bank's prime rate. There were no borrowings under the line of credit as of March 31, 2001.

We believe that our current balance of cash, cash equivalents and short-term investments will be sufficient to satisfy our working capital and capital expenditure requirements for at least the next 12 months.

Recent Accounting Pronouncement

In June 1998, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 133, "Accounting for Derivative and Hedging Activities." SFAS No. 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. SFAS No. 133 requires an entity to recognize all derivatives as either assets or liabilities on the balance sheet and measure those instruments at fair value. In June 2000, SFAS No. 133 was amended by SFAS No. 138, which amended or modified certain issues discussed in SFAS No. 133. We adopted SFAS

No. 133 and SFAS No. 138 during the quarter ending March 31, 2001. To date, we have not engaged in derivative or hedging activities. The adoption of SFAS No.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

133 and SFAS No. 138 did not have any material impact on our results of operations or financial condition.

Quantitative and Qualitative Disclosures about Market Risk

Our cash equivalents and short-term investments are exposed to financial market risk due to fluctuations in interest rates, which may affect the interest income and the fair values of our investments. We manage the exposure to financial market risk by performing ongoing evaluation of our investments and investing in short-term, high quality debt securities, of which the majority mature within 12 months. In addition, we do not use investments for trading or other speculative purposes. As of December 31, 2000, the average rate of return on the investments was approximately 6.4%. A hypothetical 10% fluctuation in interest rates would change the interest income by approximately \$614,000 per annum. In addition, due to the relative short maturities of our investments as of December 31, 2000, we expect that the impact of fluctuations in interest rates on the fair values of investments is immaterial. However, from time to time, we may adjust the average maturity of our investments, in order to maximize the rate of return on investments considering the overall market condition, as well as when our liquidity requirement changes. Such adjustment to the average maturity may affect the magnitude of the fluctuation in the fair value of our investments in the event interest rates increase or decrease.

BUSINESS OF FALCONSTOR

Overview

FalconStor, Inc. is a provider of storage networking infrastructure software. FalconStor's open software approach to storage networking enables companies to capture and manipulate the expanding volume of enterprise data and existing storage solutions, without rendering those solutions obsolete. By moving the "intelligence" of storage management from hardware to software, FalconStor allows companies to adopt Fibre Channel technology while maximizing their prior investments in Ethernet information technology, or IT, infrastructure and taking full advantage of the ubiquitous connectivity of the industry-standard internet protocol, or IP. FalconStor's software technology can rapidly embrace various input/output, or I/O, interface, communications standards and innovative storage services as they are introduced. FalconStor's flagship IPStor product began shipping in May 2001. IPStor is a software solution that combines industry-standard connectivity with next-generation network storage services, offering large, widely-dispersed enterprises a complete storage management solution that includes all four of the key service categories: universal connectivity supporting both Fibre Channel and IP/iSCSI-based storage provisioning; virtualization; storage services such as fail-over, mirroring, replication and snapshot; and unified storage area network, or SAN, and network-attached storage, or NAS. FalconStor's commitment to open standards and universal connectivity has been endorsed by industry leaders such as Adaptec, Cisco, Crossroads, Emulex, Gadzoox, IBM, NEC and QLogic.

FalconStor, with principal executive offices in Melville, New York, is a Delaware corporation that was incorporated in February 2000.

Industry Background

Rapid Growth of Enterprise Data and Development of Storage Management Solutions

The rapid growth of data-intensive business applications has increased the

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

amount of mission-critical enterprise data and, consequently, the need for dedicated storage. Enterprises are frequently discovering that their existing storage infrastructure has become inefficient and unable to address evolving storage requirements. Business enterprises have historically attempted to support and manage data requirements by directly attaching storage devices to the individual servers on a local area network, or LAN. Servers communicate in this direct attached environment using the small computer systems interface, or SCSI. The SCSI protocol, however, has several drawbacks, including a short transport distance and an inability to support more than a limited number of connections. According to IDC, an industry research firm, advances in technology increased LAN transmission speeds by 100 times during the 1990's, while storage-to-server data transmission speeds utilizing the SCSI interface have increased less than 20 times during this period. The result has been significant congestion at the point of communication between storage systems and servers.

In order to address these increased storage needs, enterprises are deploying large RAID devices that are capable of handling multiple Terabytes, or TB (one trillion bytes), of data. According to Gartner Dataquest, an industry research firm, average desktop consumption of storage space has grown from 1.4 Gigabytes, or GB (one billion bytes), in 1997 to 3.5 GB in 1999 and is projected to reach 14.0 GB in 2003. For corporate data centers, the global storage capacity of RAID devices is expected to grow to 1,300,000 TB by 2003 at a compounded annual growth rate of 79%. This growth in data storage capacity has been driven by a number of factors including:

- . the rapid expansion of data intensive applications such as e-mail, data mining and enterprise resource planning;
- . the increase in complexity of enterprise computing environments and use of multiple, incompatible servers and operating systems;
- . the need to store redundant copies of enterprise data for business;
- . the increase in the number of users accessing computer networks;

85

- . the rapid growth of web hosting, digital video and other multimedia applications; and
- . the decline in the cost of storage (on a per bit basis) as a result of advances in storage technology.

Accordingly, storage network management has become increasingly more complex and costly, reflecting the shortcomings and inefficiencies of existing storage architectures. A locally-attached storage system requires that the storage devices be managed individually at each server. Also, backup must be done locally at each server, resulting in high hardware, software and management costs. Alternatively, it is possible to deploy a single, central backup server that uses a software agent at each individual server to move data over the local area network, or LAN, and into the central storage device. However, this backup process causes network congestion on the LAN, and thus is only performed during off-peak business hours. Many enterprises operate continuously, which makes this type of backup procedure impractical. In addition, other servers cannot share storage space available locally to one server. The space requirements of various application servers are unpredictable and often cause IT professionals to over-estimate the amount of storage space required. Constantly over-estimating storage requirements can be expensive. However, increasing the amount of data storage space of a particular server that has run out of storage space is labor intensive and causes service interruption.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Storage area networks, or SAN, and network-attached storage, or NAS, are two solutions that allow enterprises to reorganize a storage system into a separately managed storage farm and server farm. The separation of the storage and server farms creates a more efficient storage network and eventually leads to a reduction of overall network management complexity. However, SAN and NAS solutions are two distinct approaches to storage management and address two separate storage needs.

A NAS appliance is a storage device with a built-in network interface, network operating system, and storage allocation software. A NAS appliance can be connected directly to the corporate LAN, making itself accessible through the use of standard file transport protocols. Users and groups are assigned read/write privileges and space quota. As the number of users grows, and as free space becomes low, additional NAS appliance can be plugged in. NAS simplifies how storage is allocated among clients, however, it does not address enterprises' need for data backup. Enterprises are still required to run data backup procedures from a central backup server or to perform backup procedures unconventionally, such as using proprietary software supplied by the NAS vendor. Using additional proprietary software leads to increases in management overhead. In addition, NAS still does not solve the enterprise customer's need for rapid and scalable data access.

The most effective solution for data-intensive servers is a SAN. In a SAN, the storage devices are detached from the server, centralized in a storage farm, and re-connected to the server through a high-speed path. This configuration increases the overall speed of the network and works well for data-intensive application servers.

86

SAN

NAS

Pros:

- . Increased data availability
- . Increased scalability
- . Independent server & storage management
- . Scalable architecture
- . Reduced LAN congestion
- . Increased data transfer rates
- . Any-to-any connectivity

Cons:

- . High cost of installation
- . Vendor interoperability
- . Separate Fibre Channel infrastructure & components
- . Security concerns

Pros:

- . Lower management costs through simplified storage process
- . File sharing capabilities across multiple platforms
- . Allows storage subsystems to connect directly onto the LAN

Cons:

- . Inefficient scalability
- . Constrained LAN data transmission speeds
- . Additional proprietary hardware and software

Some corporate data centers are using Fibre Channel to fill their need for centralized storage management. In 1992, Fibre Channel emerged as a way to implement a SAN because it was the only viable gigabit-speed transport at that time. Fibre Channel protocol is an ideal solution for storage traffic because it can reliably move large blocks of data at high speeds. Fibre Channel can efficiently move megabytes of data in a single transaction.

Fibre Channel was designed as a network connection tool and did not address many storage management issues such as:

- . quality-of-service;
- . snapshot;
- . replication;
- . mirroring; and
- . virtualized storage.

Fibre Channel is essentially an enhanced transport delivery mechanism among distant hosts and storage devices. Additionally, there is no way to supervise the data activities or perform data moving operations from a central location. This presents a security problem for enterprises that want to control a particular host's ability to access a particular drive. Fibre Channel SANs are also subject to proprietary standards that reduce the ability of different storage devices to communicate with each other. This incompatibility raises the total cost of a storage network because enterprises often use storage infrastructure from a single vendor.

Fibre Channel SANs also require additional hardware or software to improve access control and to provide disk sharing.

Storage appliance makers have also started to make high-end, sophisticated RAID devices, large cabinets with many drives and virtual volume managers to divide their storage space into individually addressable virtual drives. Virtual drives enable the storage space to be shared effectively by many hosts. However, virtualization is only within one cabinet; it is impossible to virtualize storage resources across multiple cabinets.

There are many fundamental storage security and connectivity issues that are not addressed by Fibre Channel SAN that require complicated solutions to address these inefficiencies. Enterprises have been forced to accept a highly complex, multi-vendor solution with disjointed management tools, reports, and maintenance procedures to manage their network storage needs.

Market Opportunity

There is a market opportunity emerging for storage networking infrastructure software that can address the shortcomings of current solutions. As storage area networks continue to grow in popularity and complexity, innovative software products will be required to improve the management and transport of data within an enterprise. Gartner Group estimates that the overall market for storage management software will grow from \$4.2 billion in 1999 to \$14.7 billion in 2004, representing a compounded annual growth rate of 28.5%.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Storage virtualization software addresses many of the shortcomings of current storage network solutions. This software is used to divide available storage space into virtual volumes without regard to the physical layout of the actual storage devices. Virtual volumes are not physical storage devices, and they can be created, expanded, deleted, moved, and selectively presented, independent of the storage subsystem on which data is actually stored. Storage virtualization software will allow enterprises:

- . to consolidate small computer systems interface, or SCSI, Fibre Channel and IP storage devices from multiple vendors into a universally accessible storage pool;
- . to connect heterogeneous servers and storage devices and provide greater functionality and scalability in network storage environments; and
- . to preserve investments in legacy storage devices and facilitate the more cost effective deployment of SANs from different vendors.

In addition, storage virtualization software will provide a storage operating system for advanced management applications including snapshot, remote mirroring, and virtual tape.

The storage management challenge led to the development of NAS and SAN systems, two innovative ways of addressing the storage problem. These two storage systems do not compete; both are needed by corporate data centers. NAS represents a quick and simple solution to add general purpose, shareable, storage space to users and groups and to some application servers that are not access-intensive. SAN represents a way to separate the server and storage into two independently managed systems, thereby simplifying the complexity of the overall information technology, or IT, infrastructure. Fibre Channel, a high-speed network connection system, has emerged as a viable means to implement a SAN. However, a pure Fibre Channel SAN alone does not address all the problems in the areas of connectivity, storage virtualization and storage services.

In order to realize the full potential benefits of storage networks, storage infrastructure software must also provide connectivity with existing data networking protocols such as TCP/IP. Enterprises have made substantial investments in developing their IP networks, and IT professionals are quite familiar with this networking technology. Storage transport protocols such as iSCSI, which is compatible with TCP/IP, are emerging to address the enterprise requirement for convergence between storage and data network technology. IP compatibility will allow enterprises to connect Fibre Channel SANs across IP-based wide area networks, and will allow enterprises to leverage their knowledge of this technology to lower the cost of storage networks. The Company believes that a market opportunity exists for an intelligent storage networking software platform that can provide virtualization coupled with advanced management applications, unified SAN and NAS access and IP connectivity.

FalconStor's Solution

FalconStor's IPStor, an IP/iSCSI-enabled storage networking infrastructure software, combines the best features of first-generation SANs, such as high data availability and performance, with the best features of IP networks, such as product compatibility, proven standards, familiar technology and network scalability. FalconStor offers fully interoperable products that allow enterprises to build their storage networking system, using existing infrastructure, with high-performance, high-availability, manageability and scalability. By utilizing the connectivity of IP via Ethernet (Fast and/or Gigabit), FalconStor's IPStor solution greatly expands the reach of the Fibre Channel SAN while providing the ability to include NAS file sharing under a unified

management system and delivering the expected benefits of SAN and NAS without requiring significant hardware purchases. FalconStor's objective is to leverage IT departments' familiarity with IP to reduce network management costs and to allow customers to optimize the benefits from existing storage devices. Linking servers and storage devices over IP network environments creates the benefits of having a homogeneous network capable of handling all storage traffic. FalconStor's IPStor is positioned to take advantage of existing IP infrastructure but also allows enterprises to utilize Fibre Channel and other emerging storage industry devices and protocols to deliver a comprehensive storage solution. In addition, IPStor provides the following features:

- . Boundless Virtualization. IPStor virtualizes all storage resources across device, RAID, vendor/brand, and interface boundaries. Any number of cabinets and/or drives can form a large virtual drive, and a large RAID drive can be divided into any number of smaller virtual drives to facilitate sharing across servers or platforms. This enables multiple application servers to share a single large RAID subsystem. Current Fibre Channel storage applications cannot do this.
- . Rapid Deployment. IPStor is built on open industry standards to provide easy consolidation of current storage resources and platform neutrality across operating systems and storage devices. Preserving data allows for IPStor's rapid deployment because it eliminates the need to perform migration tasks involving backing up, reformatting and restoring existing data. IPStor enables IT departments to leverage their expertise in designing and managing IP networks to solve the storage access problem. Since IPStor supports both Fibre Channel devices and SCSI devices without requiring converter boxes, existing data found on the storage devices can be preserved.
- . Scalable Performance. IPStor's IP-based transport mechanism and device-independent architecture enable IPStor's performance to scale according to the speed of the processor, the underlying network, the peripheral interface and the storage device, which will allow users to take advantage of technological advancements (e.g., Fibre Channel moving from 1 to 2 GB, Gigabit Ethernet evolving from 1 to 10 GB, SCSI bus accelerating from 160 to 320 MB/s). IPStor enables enterprises to adapt to rapid changes within the storage market.
- . Centralized Management. IPStor provides a Java-based management console to enable an administrator to manage physical devices, create/manage virtual drives, define storage management policies, perform end-to-end diagnostics, and generate reports. IPStor provides centralized end-to-end monitoring and diagnostics for the entire storage network so that an IT professional can efficiently operate and manage a heterogeneous storage network.
- . Enterprise-wide Mirroring/Replication with Snapshot. By leveraging IP and Fibre Channel connectivity, IPStor can perform volume mirroring and replication across the SAN, LAN, and wide area network, or WAN. Since IPStor is optimized for data-movement, the mirroring and replication can be performed without relying on expensive "intelligent controllers" found only on high-end storage cabinets. The IPStor server's snapshot capability allows the replication to be performed with integrity, which addresses the need for rapid backup of enterprise data that is used by multiple people.
- . Zero-impact Backup and Restore. The IPStor server can run industry-standard backup software to perform ultra-fast, server-free and LAN-free

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

backup and disaster recovery with zero impact on the application server. This is essential in a traditional direct attached storage, or DAS, architecture.

- . High-Availability Configuration. IPStor uses two servers to connect to the storage devices, providing dual-path connections. Both IPStor servers can be configured to serve requests from different IPStor SAN clients (running on the application servers) and verify the operational status of the other IPStor server. If one IPStor server fails, the other alerts the network supervisor and assumes the additional workload from the failed server automatically without operator intervention. This configuration allows constant access to enterprise data, which is critical to successful operations.
- . Advanced Storage Network Security. IPStor offers key-based authentication to provide comprehensive data network security and prevent application servers from accessing unauthorized disk space.

89

Furthermore, because IPStor offers end-to-end storage services using the standard IP protocol, any off-the-shelf IPsec compliant VPN products can be used to provide encryption to ensure end-to-end data security. Currently, Fibre Channel SANs lack a centralized device that supervises data movement activities, which presents a security problem for enterprises that want to control specifically a network user's access to a particular drive.

- . Quality of Service. Since SAN or NAS storage services are provided by the IP server over the Gigabit Ethernet switch, the IPStor server can be configured to maintain network traffic flow and prevent an aggressive server from monopolizing the communications bandwidth.

Business Strategy

FalconStor aims to become a leading IP storage networking infrastructure software provider to enterprises worldwide. FalconStor strives to achieve this objective through the following strategies:

- . Maintain Leadership in IP Storage Networking Infrastructure Software. FalconStor strives to play a significant role in creating and defining the IP storage networking infrastructure software market. The storage networking infrastructure software market is defined by rapid change, and FalconStor plans to continue to focus its research and development efforts to create innovative solutions.
- . Increase Market Penetration and Brand Recognition Through Enhanced Sales and Marketing Efforts. FalconStor plans to increase its sales force and to promote its brand aggressively by:
 - . advertising in key business and trade periodicals;
 - . participating in industry events, conferences and trade shows; and
 - . targeted promotions and public relations campaigns.
- . Expand Internationally. FalconStor recently opened its European headquarters, and plans to build rapidly its operations capabilities in Europe. FalconStor also opened headquarters in Asia and believes that it is developing a strong business presence in the Asia/Pacific Rim.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

- . Expand Technologies and Capabilities Through Strategic Acquisitions and Alliances. FalconStor believes that opportunities exist to expand through acquisitions its technological capabilities, product offerings and services. When evaluating potential acquisitions, FalconStor will focus on transactions that enable it to:
 - . acquire important enabling technology;
 - . acquire complementary applications;
 - . realize marketing, sales, customer and technological synergies; or
 - . add key personnel.
- . Seek OEM Relationships with Industry Leaders and Storage Service Providers. FalconStor intends to establish original equipment manufacturer partnerships with switch, storage, appliance and operating system vendors. In addition, FalconStor will seek relationships with storage service providers to broaden the market for its product. These relationships will offer storage service providers access to FalconStor's proprietary technology to improve upon their service offerings and enable FalconStor to participate in the growing market for outsourced storage services. In addition, FalconStor's IP-based solution is intended to simplify the hardware requirements of storage service providers and allow them to deploy rapidly outsourced storage services for clients without being subject to distance limitation.

FalconStor's Products

FalconStor products utilize off-the-shelf, industry-standard components such as Gigabit Ethernet, Fibre Channel/SCSI storage devices and the Linux operating system to construct IP-based storage networking infrastructure. Under this open architecture, the storage network consists of the following components:

- . IPStor Server. The FalconStor IPStor server software runs on a standard Linux appliance, which virtualizes the storage devices attached to it using a Fibre Channel or SCSI interface. The server receives data input/output requests from remote IPStor SAN Clients over IP, Fibre Channel, and/or iSCSI, and carries out the operations on the target device. To support mission-critical computing, IPStor server supports active cluster configuration for fault tolerance and mirroring/replication, and snapshot operations for redundancy. An optional NAS module can be installed to provide IP-connected application servers or user clients with file level shares.
- . IPStor SAN Clients. The IPStor SAN client acts as a virtual SCSI adapter to enable a network's operating system (e.g., Windows NT 4, Windows 2000, Linux, Solaris) to access the virtualized SAN storage resources attached to IPStor server. As the network's operating system accesses the storage resources, the input/output requests and data are routed to the IPStor servers using FalconStor's SAN/IPTM transport protocol. SAN/IP is an IP-based, high performance transport mechanism with windowing and flow control to ensure end-to-end reliability. FalconStor also plans to support the emerging iSCSI standard protocol when it becomes available.
- . NAS Clients. Since IPStor provides standard SMB/CIFS and NFS file shares, any Windows/Unix client can access the share (if authorized) on the LAN via the standard network redirector of the OS. No FalconStor software driver is necessary at these clients.

- . IPStor Java-based Manager Console. A single GUI console provides a system supervisor with reporting, device discovery, security, SAN/NAS resource mapping, event notification and end-to-end diagnostics capability.

Research and Development

The storage networking infrastructure software services industry is subject to rapid technological advancements, changes in customer requirements, developing industry standards, and regular new product introductions and enhancements. As a result, FalconStor's success, in part, depends upon its ability to continue to improve its existing solutions and to develop and introduce new products at a cost-effective and timely basis. There can be no assurance that FalconStor will be able to successfully develop new products to address new customer requirements and technological changes, or that such products will achieve market acceptance.

FalconStor believes that its continued investment in research and development is critical to its ability to continue to develop and introduce new and enhanced products addressing emerging market needs.

FalconStor's research and development staff consisted of 44 employees as of December 31, 2000. Research and development expenses, primarily consisting of personnel expenses, were \$1,363,668 in 2000. FalconStor anticipates that research and development expenses will increase in 2001.

Sales, Marketing and Customer Service

FalconStor plans to sell its products primarily through relationships with original equipment manufacturers, resellers and distributors, and a direct sales force.

- . Original Equipment Manufacturer Relationships. These original equipment manufacturers will collaborate with FalconStor to integrate FalconStor's products into their own product offerings or resell FalconStor's products under their own label.
- . Reseller and Distributor Relationships. FalconStor currently plans to enter into reseller and distributor agreements to help sell its product in various geographic areas. FalconStor's resellers and distributors will market the entire IPStor product suite and receive a discount on products sold.

91

- . Direct Sales Force. FalconStor is currently building a direct sales staff with responsibilities for pursuing and managing larger customers, as well as providing support to distributors, resellers and original equipment manufacturers. FalconStor has been hiring additional salespersons and expects to continue to do so.

FalconStor's marketing department consists of marketing professionals dedicated to advertising, public relations, marketing communications, events and channel partner programs. FalconStor's marketing efforts focus on building brand recognition and developing leads for the sales force.

A dedicated team of FalconStor professional services people are also available to hand-hold customers and partners through out the product life cycle of IPStor deployments. The professional services team includes seasoned storage architects who can assist in the assessment, planning/design, deployment, and testing phases of an IPStor deployment project, and a technical

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

support group for post-deployment assistance and on-going trouble-shooting.

Competition

As the demand for IP-based network storage services increases, more competitors will enter this high-growth market segment. There is no single entity that directly competes with FalconStor. Although there are several companies attempting to fill specific needs for SCSI-IP connectivity, Fibre Channel-IP connectivity and SAN storage management, these solutions require their own management platform, thereby potentially increasing overall system complexity. Currently, FalconStor is the only software-based solution that has a comprehensive architecture providing SAN, NAS and simplified storage management in a single, well-managed storage system using standard, off-the-shelf components. However, some of FalconStor's product capabilities are in competition with a number of significant players with substantially greater financial and other resources, including DataCore and StorageApps. Additionally, Cisco Systems and Nishan Systems both announced IP-based storage solutions. However, both of these are hardware solutions designed to provide IP-to-SCSI and/or IP-to-Fibre Channel conversions, thereby giving application servers the ability to access SCSI or Fibre Channel storage devices. FalconStor's product provides not only IP-based connectivity to application servers, but also "storage virtualization" and "storage services" such as high-availability, mirroring, replication, snapshot, and fast backup/restore enablers. In fact, both Cisco and Nishan are potential OEM customers to FalconStor's virtualization and storage services software. There is currently no other known software company providing all of IP-based connectivity, virtualization, and storage services. FalconStor believes that the principal competitive factors affecting its market include product features such as scalability, data availability, ease of use, price, reliability, hardware/platform neutrality, customer service and support.

FalconStor's success will depend largely on its ability to generate market demand and awareness of our IPStor software suite, as well as to develop additional or enhanced products in a timely manner. FalconStor's success will also depend on its ability to convince potential partners and customers of the benefits of its software. FalconStor's future and existing competitors could introduce products with superior features and existing competitors could introduce products with superior features, scalability and functionality at lower prices than its products and could also bundle existing or new products with other more established products in order to compete with FalconStor. Increased competition is likely to result in price reductions and reduced gross margins, which could harm its business.

Intellectual Property

FalconStor's success is dependent upon its proprietary technology. Currently, the IPStor software suite is the core of our proprietary technology. FalconStor currently has three pending patent applications and pending trademark applications related to its IPStor product.

FalconStor seeks to protect its proprietary rights and other intellectual property through a combination of copyright, trademark and trade secret protection, as well as through contractual protections such as proprietary

information agreements and nondisclosure agreements. The technological and creative skills of its personnel, new product developments, frequent product enhancements and reliable product maintenance are essential to establishing and maintaining a technology leadership position.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

FalconStor generally enters into confidentiality or license agreements with its key technical employees, officers, consultants and corporate partners, and generally controls access to and distribution of its software, documentation and other proprietary information. Despite FalconStor's efforts to protect its proprietary rights, unauthorized parties may attempt to copy or otherwise obtain and use its products or technology. Monitoring unauthorized use of its products is difficult, and there can be no assurance that the steps taken by FalconStor will prevent misappropriation of its technology, particularly in foreign countries whose laws may not protect its proprietary rights as fully as do the laws of the United States.

Properties

FalconStor's principal development center and executive and administrative offices are located in a 6,721 square-foot leased facility in Melville, New York. FalconStor also has leased offices for development, sales and marketing personnel which total an aggregate of approximately 6,200 square feet in Paris, France; Taipei, Taiwan; and Tokyo, Japan. Initial lease terms range from one to four years, with multiple renewal options.

Legal Matters

FalconStor is not currently a party to any material litigation. From time to time, however, FalconStor may be subject to claims and lawsuits arising in the normal course of business.

Steven Wolosky holds 25,000 shares of Series A preferred stock. Mr. Wolosky is a member of Olshan Grundman, FalconStor's general legal counsel since February 2000.

Employees

As of March 31, 2001, FalconStor had 83 full-time employees, including 18 in sales and marketing, 57 in research and development and eight in general administration. FalconStor is not subject to any collective bargaining agreements and believes its employee relations are excellent.

FALCONSTOR'S MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following section should be read in conjunction with FalconStor's consolidated financial statements and related notes and other financial information included elsewhere in this joint proxy statement/prospectus. This discussion contains forward-looking statements that involve risks and uncertainties. FalconStor's actual results could differ materially from the results contemplated by these forward-looking statements as a result of certain factors, including those discussed below and elsewhere in this joint proxy statement/prospectus, particularly under the heading, "Risk Factors."

Overview

FalconStor was incorporated in Delaware in February 2000 for the purpose of developing, manufacturing and selling data storage network software. Our unique open software approach to storage networking enables companies to better capture and manipulate the expanding volume of enterprise data and existing storage solutions, without rendering those solutions obsolete. By moving the intelligence of storage management from hardware to software, we allow companies to adopt the state-of-the-art Fibre Channel technology while at the same time, leverage their prior investments in Ethernet information technology

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

(IT) infrastructure, taking full advantage of the ubiquitous connectivity of the industry-standard Internet Protocol (IP). Our software technology can rapidly embrace various input/output (I/O) interface, communications standards and innovative storage services as they are introduced. Our unique architecture has been recognized and licensed by partners in Ethernet Switch, SCSI-to-Fibre Channel Router, Disk-Subsystem and Appliances spaces. Our flagship IPStor product, which began shipping May 2001, is today the only available all-software solution that combines industry-standard connectivity with next-generation network storage services, offering large, distributed enterprises a complete storage management solution that includes all four of the key service categories: universal connectivity supporting both Fibre Channel and IP/iSCSI-based storage provisioning; virtualization; storage services such as fail-over, mirroring, replication and snapshot; and unified SAN (storage area network) and NAS (network-attached storage).

In March 2000, we raised \$3,000,000 from the issuance of 3,000,000 shares of Series A preferred stock and raised an additional \$7,000,000 in September 2000 from the issuance of 4,900,000 shares of Series B preferred stock. Our operations since inception were mainly comprised of the development of our core data storage network software product. During 2000 and the first quarter of 2001, we were in the development stage of operations, as a result there were no significant revenues generated from our planned principal operations. The revenues generated in 2000 were from network consulting services.

On March 30, 2001, we entered into a series of related agreements with NPI pursuant to which NPI purchased 9,792,401 shares of our Series C preferred stock for an aggregate price of \$25,000,000, and obtained an exclusive option to merge with us. On May 4, 2001, NPI exercised the option and entered into a merger agreement with us.

Results of Operations for the Three Months Ended March 31, 2001

Since FalconStor did not begin operations until February 10, 2000, there were no significant activities for the three months ended March 31, 2000. As a result the following management discussion and analysis does not include comparisons to prior periods.

Revenues

We did not generate any revenues for the three months ended March 31, 2001 since our software was still in the development process and we did not yet begin shipping our product. Future revenues are expected to be derived from software licenses and maintenance fees related to the software.

94

Cost of Revenues

For the three months ended March 31, 2001 we did not incur any cost of revenues since we did not begin shipping our product. In the future, cost of revenues are expected to be mainly comprised of production costs and shipping costs related to software licenses and personnel costs related to technical support.

Software Development Costs

Software development costs were \$873,534 for the three months ended March 31, 2001 and were mainly comprised of personnel related expenses. Costs incurred during the quarter were related to the development of our core storage networking infrastructure software product. Through March 31, 2001, no software development costs were capitalized. Software development costs are expected to

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

increase in the future as we continue to modify and enhance our product.

Selling and Marketing

Selling and marketing expenses were approximately \$1.1 million for the three months ended March 31, 2001 and were mainly comprised of personnel costs, travel and entertainment, public relations expense, trade shows and costs associated with our sales offices in Taiwan and France. Selling and marketing expenses are expected to increase in the future as additional sales personnel are hired and marketing efforts are initiated in order to sell and promote our software. Additionally, we will incur commission expense, and increased travel and entertainment and public relation expenses.

General and Administrative

General and administrative expenses were \$870,795 for the three months ended March 31, 2001. These expenses were mainly comprised of personnel costs, professional fees and rent. General and administrative expenses are expected to increase in the future to support our overall growth.

Interest Income

Interest income was \$78,652 for the three months ended March 31, 2001. Interest income was earned on cash and cash equivalents, which was raised from the issuance of Series A and B convertible preferred stock.

Income Taxes

We did not record a tax benefit associated with the pre-tax net loss incurred from the period from inception (February 10, 2000) through March 31, 2001, as we deemed that it was more likely than not that the deferred tax assets will not be realized based on our development stage operations and, accordingly, we provided a full valuation allowance against the deferred tax asset.

Results of Operations for the Period From Inception (February 10, 2000) Through December 31, 2000

Since 2000 was our first year of operations, management's discussion and analysis does not include any comparisons to prior periods.

Services Revenues

Services revenues were \$143,294 for the period from inception (February 10, 2000) through December 31, 2000. These revenues were comprised of network consulting fees, which were billed on a time and materials basis and recognized as revenue when the services were performed. We do not expect network consulting fees to comprise a significant percentage of revenues in the future. Future revenues are expected to be derived from software licenses and maintenance fees related to the software.

95

Cost of Revenues

Cost of revenues in 2000 were \$209,053 and were comprised of salaries of personnel working on network consulting contracts. The cost of salaries were greater than the revenues generated from these contracts, which resulted in a gross loss for 2000. In the future, cost of revenues are expected to be mainly comprised of production costs and shipping costs related to software licenses and personnel costs related to technical support.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Software Development Costs

Software development costs were \$1,363,668 in 2000 and were mainly comprised of personnel related expenses. Costs incurred in 2000 were related to the development of our core data storage network software product. Through December 31, 2000, no software development costs were capitalized. Software development costs are expected to increase in the future as we continue to modify and enhance our product.

Selling and Marketing

Selling and marketing expenses were \$326,609 in 2000 and were mainly comprised of personnel costs. Selling and marketing expenses are expected to increase in the future as additional sales personnel are hired and marketing efforts are initiated in order to sell and promote our software. Additionally, we will incur commission expenses, increased travel and entertainment and public relation expenses.

General and Administrative

General and administrative expenses were \$472,400 for the period from inception (February 10, 2000) through December 31, 2000. These expenses were mainly comprised of professional fees and rent. General and administrative expenses are expected to increase in the future to support our overall growth.

Interest Income

Interest income was \$225,551 for the period from inception (February 10, 2000) through December 31, 2000. Interest income was earned on cash and cash equivalents, which was raised from the issuance of Series A and B preferred stock.

Income Taxes

We did not record a tax benefit associated with the pre-tax net loss incurred from the period from inception (February 10, 2000) through December 31, 2000, as we deemed that it was more likely than not that the deferred tax assets will not be realized based on our development stage operations and, accordingly, we provided a full valuation allowance against the deferred tax asset.

Recent Accounting Pronouncement

In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities, which is effective for all fiscal quarters of all fiscal years beginning after June 15, 2000, as amended by SFAS No. 137. In June 2000, SFAS No. 138 was issued which amended certain provisions of SFAS No. 133. SFAS No. 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. In accordance with SFAS No. 133, an entity is required to recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. SFAS No. 133 requires that changes in the derivative's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. Special accounting for qualifying hedges allows a derivative's gains and losses to offset related results on the hedged item in the

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

income statement and requires that a company formally document, designate and assess the effectiveness of transactions that receive hedge accounting. The implementation of SFAS No. 133 did not have a significant impact on our consolidated financial statements for the quarter ended March 31, 2001.

Liquidity and Capital Resources

Our cash and cash equivalents at March 31, 2001, was \$5,483,685. Between April 1, 2001 and May 4, 2001 we received an additional \$33,150,000 from the sale of 12,986,079 shares of Series C preferred stock.

Net cash used in operating activities for the period from inception (February 10, 2000) through March 31, 2001 was approximately \$3,500,000, which was primarily attributed to our net loss of approximately \$4,800,000 and increases in accounts receivable and prepaid expenses and other current assets totaling \$306,625. These amounts were partially offset by depreciation and amortization, non-cash professional services expense, equity-based compensation earned and increases in accounts payable, accrued expenses and deferred revenue, which totaled approximately \$1,600,000 in the aggregate.

Net cash used in investing activities for the period from inception (February 10, 2000) through March 31, 2001 was approximately \$1,000,000, which was related to the purchase of property and equipment of \$784,679, and the payment of a security deposit of \$220,099 related to our office space lease.

Net cash provided by financing activities was approximately \$10,000,000. We raised net proceeds of approximately \$10,000,000 through the issuance of Series A and B preferred stock. Additionally, we raised \$55,000 through the issuance of common stock.

Our principal sources of liquidity are cash and cash equivalents, which are expected to be used for general corporate purposes, including expansion of operations and capital expenditures.

We believe that our current balance of cash and cash equivalents, along with the \$33,150,000 we received between April 1, 2001 and May 4, 2001, will be sufficient to satisfy our working capital and capital expenditure requirements for at least the next 12 months.

These financial statements and financial statement schedule are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for the opinion expressed above.

NETWORK PERIPHERALS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. The Company

Network Peripherals Inc., a Delaware corporation (the "Company"), designs and manufactures Layer 2 and Layer 3 functionality Ethernet and Ethernet switching products, which it markets primarily to original equipment manufacturers, distributors, value-added resellers and system integrators. The Company's switching products are designed for use in workgroups, wiring closets and network backbones.

As discussed in Notes 13 and 14, on March 30, 2001, the Company entered into a series of related agreements with FalconStor, Inc. ("FalconStor"), a privately held company, whereby, among other things, the Company made a \$25 million investment in FalconStor, and obtained an exclusive option to merge with FalconStor. On May 4, 2001, the Company exercised its option and entered into a merger agreement with FalconStor.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.

Interim Consolidated Financial Statements (Unaudited)

The financial information as of March 31, 2001 and for the three months ended March 31, 2001 and 2000 is unaudited and includes all adjustments, consisting only of normal recurring adjustments, that management considers

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

necessary for a fair presentation of the Company's financial condition, operating results and cash flows as of such date and for such periods. Results for the three months ended March 31, 2001 are not necessarily indicative of the results to be expected for the year ending December 31, 2001 or for any future period.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash, Cash Equivalents and Short-Term Investments

The Company considers all highly liquid investments purchased with an original or remaining maturity of three months or less to be cash equivalents. The Company's short-term investments consist of marketable debt securities, substantially of which have maturities between three months and one year. All marketable debt securities included in short-term investments have been classified as available-for-sale and are carried at fair market value, and the unrealized gains or losses on these investments are included as a separate component of the stockholders' equity. For the years ended December 31, 1999 and 1998, there were no material unrealized gains or losses on investments.

Concentration of Credit Risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of cash, cash equivalents, short-term investments and trade receivables. The Company maintains its cash, cash equivalents and short-term investments with high credit quality financial institutions and limits its investments to those that are short-term and low risk. Concentration of credit risk with respect to trade receivables is generally limited due to the Company's on-going evaluation of its customers' credit worthiness and the established long-term relationship with certain customers.

NETWORK PERIPHERALS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(Continued)

Revenue Recognition

Revenue from product sales is recognized when pervasive evidence of an arrangement exists, delivery has occurred, the price is fixed or determinable and collectability is probable. The Company provides to certain distributors limited rights of return and price protection on unsold inventory when specific conditions exist. Provisions for estimated costs of warranty repairs, product returns, and retroactive price adjustments are recorded at the time products are shipped based on past experience. Allowances for uncollectible accounts receivable are provided at the time such receivable is deemed uncollectible.

In December 1999, the Securities and Exchange Commissions issued Staff Accounting Bulletin No. 101 ("SAB 101"), "Revenue Recognition in Financial Statements." SAB 101 summarizes certain of the Staff's views in applying

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

generally accepted accounting principles to revenue recognition in financial statements. The adoption of SAB 101 in the fourth quarter of 2000 did not have a material effect on the Company's results of operations or financial condition.

Inventories

Inventories are stated at the lower of cost, using the first-in, first-out method, or market.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation and amortization is computed using the straight-line method over the estimated useful life of the asset, typically three years. Depreciation of the Company's enterprise resource planning systems, its information systems infrastructure, and certain manufacturing equipment is based on an estimated useful life of five years. Amortization of leasehold improvements is computed using the remaining lease term.

Goodwill

Goodwill represents the excess of the purchase price over the fair value of the identifiable net assets acquired and is amortized on a straight-line basis over the expected period of benefit, generally five years. Periodically, the Company evaluates the goodwill for impairment and estimates the future undiscounted cash flows of the acquired business to ensure that the carrying value has not been impaired. As of December 31, 2000 and 1999, goodwill, net of accumulated amortization, was \$53,000 and \$93,000, respectively, and was included in other assets.

Software Development Costs

The Company's software products are integrated into its hardware products and are typically available for general release to customers within 30 days after technological feasibility has been achieved. Accordingly, the production costs incurred after the establishment of technological feasibility and before general release to customers are immaterial. The Company has not capitalized any software development costs to date.

Advertising Costs

The Company expenses all advertising costs as incurred. Advertising costs totaled \$2,293,000, \$634,000 and \$381,000 in 2000, 1999 and 1998, respectively.

Income Taxes

The Company accounts for income taxes under the asset and liability method, which recognizes deferred tax assets and liabilities for the expected tax consequences of temporary differences between the tax basis of

assets and liabilities and their financial statement reported amounts, and for net operating loss and credit carryforwards. The Company records a valuation allowance against deferred tax assets when it is more likely than not that such assets will not be realized.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Foreign Currency Translation

The functional currency of the Company's subsidiaries in Taiwan and the Netherlands is the U.S. dollar. Accordingly, gains or losses arising from the translation of foreign currency financial statements and transactions are included in determining consolidated results of operations.

Employee Benefit Plans

The Company has stock option plans and offers a 401(k) plan covering all of its U.S. employees. The 401(k) plan provides for matching contributions determined at the Company's discretion. The Company matched 50% of each employee's contribution up to \$3,000 in 2000 and \$1,000 in 1999. The matching contributions totaled \$202,000 and \$59,000 in 2000 and 1999, respectively. No such matching contributions were made in 1998.

Stock-based Compensation

The Company accounts for stock-based awards to employees using the intrinsic value method in accordance with Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees", as permitted under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation." Under APB Opinion No. 25, if the exercise price of the Company's employee stock option equals the market price of the underlying stock on the date of grant, no compensation expense is recognized.

In March 2000, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 44 ("FIN 44"), "Accounting for Certain Transactions Involving Stock Compensation." FIN 44 clarifies the application of APB Opinion No. 25 regarding (a) the definition of employee for purposes of applying APB Opinion No. 25, (b) the criteria for determining whether a stock option plan qualifies as a noncompensatory plan, (c) the accounting consequence of various modifications to the terms of a previously fixed stock option or award, and (d) the accounting for an exchange of stock compensation awards in a business combination. FIN 44 became effective on July 1, 2000, but certain conclusions cover specific events that occurred after either December 15, 1998, or January 12, 2000. The adoption of FIN 44 did not have a material impact on the Company's results of operations or financial condition.

Net Loss Per Share

Basic earnings per share are computed as net earnings divided by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur from common shares issuable through stock-based compensation including stock options, restricted stock awards, warrants, and other convertible securities using the treasury stock method. During 2000, 1999 and 1998, the Company incurred net losses, such that the inclusion of potential common shares would result in an antidilutive per share amount. Accordingly, no adjustment is made to the basic net loss per share to arrive at the diluted net loss per share.

Comprehensive Loss

For the year ended December 31, 2000, the Company's comprehensive loss included net loss and the change in unrealized gain on investments. There were no reconciling items between the Company's net loss and comprehensive loss for the years ended December 31, 1999 and 1998.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

NETWORK PERIPHERALS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(Continued)

Recent Accounting Pronouncement

In June 1998, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative and Hedging Activities." SFAS No. 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. SFAS No. 133 requires an entity to recognize all derivatives as either assets or liabilities on the balance sheet and measure those instruments at fair value. In June 2000, SFAS No. 133 was amended by SFAS No. 138, which amended or modified certain issues discussed in SFAS No. 133. The Company will adopt SFAS No. 133 and SFAS No. 138 during the year ending December 31, 2001. To date, the Company has not engaged in derivative or hedging activities. The adoption of SFAS No. 133 and SFAS No. 138 will have no material impact on the Company's results of operations or financial condition.

Reclassifications

Certain reclassifications have been made to the prior years' amounts in order to conform to the current year's presentation.

The Company has elected to continue to follow APB Opinion No. 25 to account for its employee stock options and adopted the disclosure-only requirements of SFAS No. 123. SFAS No. 123 requires the disclosure of pro forma net income and earnings per share as if the Company had accounted for its employee stock options under the fair value method in accordance with SFAS No. 123. The fair value of these options is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions: expected volatilities of 110% in 2000, 93% in 1999 and 82% in 1998; risk-free interest

Had compensation cost for the Company's employee stock-based plans been determined based on the fair value at the grant date for awards consistent with the provisions of SFAS No. 123, the Company's net loss and net loss per share would have been as follows (in thousands, except per share amounts):

NETWORK PERIPHERALS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(Continued)

Deferred tax assets consist of the following (in thousands):

	December 31,

Management believes that, based on a number of factors, it is more likely than not that the deferred tax assets will not be realized, such that a full valuation allowance has been recorded.

As of December 31, 2000, the Company has federal net operating loss carryforwards of approximately \$44 million, which will expire beginning in 2013. For state tax purposes, the Company has net operating loss carryforwards of approximately \$15.5 million, which will expire beginning in 2002.

Note 9. Restructuring

In August 2000, the Company approved and announced a plan to divest its manufacturing facility in Taiwan. A turnkey manufacturer will manufacture all of the Company's products after the divestiture. The objective of the divestiture is to reduce manufacturing overhead and improve gross margins by taking advantage of the turnkey manufacturer's economies of scale in materials procurement and production capacity. The divestiture plan consisted of terminating 57 employees in the manufacturing and the general and administrative functions, selling manufacturing equipment and closing the manufacturing facility. These actions resulted in a restructuring expense of \$600,000, which included \$550,000 for severance and \$50,000 for facility related charges. The Company completed the divestiture in the first quarter of 2001. The following table summarizes the activities of the accrual for restructuring expense in 2000 (in thousands):

In June 1999, the Company sold its research and development facility located in Hsin Chu, Taiwan, for a total of \$1,620,000, of which \$900,000 was received in 1999, and the remaining balance of \$720,000 was received in July 2000. In connection therewith, the Company recorded a gain of \$1,055,000, net of payments of broker fees and severance of \$216,000.

Note 12. Concentrations

The Company's proprietary ASICs (Application-Specific Integrated Circuits) are currently manufactured by a single foundry. In addition, subsequent to the closure of the Company's manufacturing facility in Taiwan in the fourth quarter of 2000, all of the Company's products are manufactured by one turnkey manufacturer. In the event that the foundry or the turnkey manufacturer fails to deliver the expected volumes or meet the required quality standard, the Company may experience delay in production of its products and loss of revenues, which could adversely impact the Company's operating results.

The following table summarizes the percentage of net sales accounted for by the Company's significant customers with sales of 10% or more:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(Continued)

Note 13. Subsequent Event

On March 30, 2001, the Company entered into a series of related agreements with FalconStor, pursuant to which the Company purchased Series C Preferred Stock of FalconStor having an aggregate purchase price of \$25,000,000, and obtained an exclusive option to merge with FalconStor. FalconStor develops and markets network storage infrastructure software that enables storage over IP using standard industry components such as Gigabit Ethernet, Fibre Channel and SCSI, with planned support for iSCSI and Infiniband. The investment agreements provide that the Company has the right to designate one member of FalconStor's board of directors and entitle the Company to liquidation, registration, voting

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

and preemptive rights customary for venture capital style investments.

The option agreement gives the Company the right to merge with FalconStor. The form of merger agreement provides that, as consideration for all outstanding shares of FalconStor's stock, the Company would issue a number of newly issued shares of its common stock determined in accordance with a formula. The number of shares issuable in the merger would depend upon a number of variable factors, including the trading price per share of the Company's common stock at the time of the merger, the Company's assets at the time of the merger and other factors. The actual number of shares is expected to result in the Company's current stockholders having a one-third interest in the combined entity. In addition, the Company would assume all outstanding options to acquire shares of FalconStor's common stock, which would result in the potential issuance of approximately 4,500,000 shares if those options vested and were exercised. The merger would be structured as a tax free reorganization and would be accounted for as a purchase. Completion of the merger would be subject to the expiration of the applicable Hart-Scott-Rodino waiting period, stockholder approval and other customary closing conditions. In the event that the Company does not exercise the option, and under certain other circumstances, the Company may be required to pay FalconStor a penalty of \$3,000,000.

Note 14. Subsequent Event (Unaudited)

On April 2, 2001, the Company paid FalconStor \$25,000,000 to purchase 9,792,401 shares of FalconStor's Series C Preferred Stock as discussed in Note 13 above. On May 4, 2001, the Company exercised the option to merge with FalconStor and entered into a merger agreement with FalconStor. In connection with the merger, the Company engaged an investment bank to explore strategic alternatives for its Ethernet Switching business, which may include selling the Company's NuWave technology and its related inventories and equipment, terminating some or all employees, office leases and contracts with certain vendors, including the Company's contract manufacturer. Although the Company has adopted and announced a plan to discontinue its NuWave and legacy businesses, the Company has not yet determined the method of disposal, and the estimated gain or loss may vary significantly depending on the method selected. Accordingly, the Company has not presented the NuWave and legacy businesses as discontinued operations because the plan of disposal is not sufficiently developed to permit the determination of the gain or loss with sufficiently reasonable accuracy.

During April 2001, as a result of general business conditions and also due to the pending merger with FalconStor, the Company cancelled substantially all of its outstanding purchase orders with Solectron, its contract manufacturer. According to the contract between the Company and Solectron, the Company may be liable for certain cancellation charges, and such charges could be significant. The Company has begun discussions with Solectron to resolve this matter; however, the Company cannot reasonably estimate its liability at this time.

FALCONSTOR, INC. AND SUBSIDIARY
(a development stage enterprise)

Notes to Consolidated Financial Statements
December 31, 2000

(1) Summary of Significant Accounting Policies

(a) The Company and Nature of Operations

Falconstor, Inc. (the "Company") was incorporated in Delaware on February 10, 2000 for the purpose of developing, manufacturing and selling storage networking infrastructure software. The Company also provides network consulting services in the metropolitan New York area.

As of December 31, 2000, the Company was in the development stage, as operations from inception through December 31, 2000 consisted primarily of the development of the Company's core data storage network software product, and no significant revenues were generated from the Company's planned principal operations. In April, 2001, the Company completed the development of its principal product, and anticipates releasing it for sale and commencing the generation of software license revenue.

(b) Unaudited Interim Financial Information

The unaudited interim financial statements of the Company as of and for the three months ended March 31, 2001, and the period from inception (February 10, 2000) through March 31, 2000 and the period from inception (February 10, 2000) through March 31, 2001, included herein have been prepared, without audit, pursuant to the rules and regulations of the SEC. Certain information and note disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations relating to interim financial statements.

In the opinion of management, the accompanying unaudited interim financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the financial position of the Company at March 31, 2001, and the results of its operations and its cash flows for the three months ended March 31, 2001 and the period from inception (February 10, 2000) through March 31, 2000 and the period from inception (February 10, 2000) through March 31, 2001.

(c) Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Falconstor, Ltd., Taiwan, which was primarily involved in development activities during 2000. All significant intercompany transactions and balances have been eliminated in consolidation.

(d) Cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash equivalents,

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

consisting of money market funds, amounted to \$7,548,124 at December 31, 2000

(e) Revenue Recognition

The Company recognizes revenue from software licenses in accordance with Statement of Position ("SOP") 97-2, Software Revenue Recognition. Accordingly, revenue for non-customized software is recognized when persuasive evidence of an arrangement exists, the fee is fixed and determinable and the software is delivered, provided no significant obligations remain and collection of the resulting receivable is deemed probable. Software delivered to a customer on a trial basis is not recognized as revenue until a permanent key is delivered to the customer. Software maintenance fees are deferred and recognized as revenue ratably over the term of the contract. The cost of providing technical support is included in cost of revenues. The Company had no revenue from software licenses or maintenance fees in 2000.

124

FALCONSTOR, INC. AND SUBSIDIARY
(a development stage enterprise)

Notes to Consolidated Financial Statements--(Continued)
December 31, 2000

Network consulting fees, which are billed on a time and materials basis, are recognized as revenue when the services are performed. Costs of providing these services are included in cost of revenues.

The Company has entered into various distribution, licensing and joint promotion agreements with OEM's, whereby the Company has provided the OEM a non-exclusive software license to install the Company's software on certain hardware in exchange for royalty payments based on the number of products distributed by the OEM. Nonrefundable advances received by the Company from an OEM for software engineering services are recorded as deferred revenue and recognized as revenue when the services are complete and the software product master is delivered and accepted. Deferred revenue related to such arrangements amounted to \$133,000 at December 31, 2000.

(f) Property and Equipment

Property and equipment are recorded at cost. Depreciation is recognized using the straight-line method over the estimated useful lives of the assets (3 to 7 years).

(g) Software Development Costs

Costs associated with the development of new software products and enhancements to existing software products are expensed as incurred until technological feasibility of the product has been established. Based on the Company's product development process, technological feasibility is established upon completion of a working model. Through December 31, 2000, no software development costs were capitalized.

(h) Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

differences are expected to be realized or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(i) Long-Lived Assets

The Company reviews its property and equipment for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. If the sum of the expected future cash flows, undiscounted and without interest, is less than the carrying amount of the asset, an impairment loss is recognized as the amount by which the carrying amount of the asset exceeds its fair value.

(j) Accounting for Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with SFAS No. 123, Accounting for Stock-Based Compensation. The Company has elected to record compensation expense for stock options and warrants granted to employees and directors only if the then-current market price of the underlying stock exceeds the exercise price on the date of grant, in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, Accounting for Stock Issued to Employees, rather than the fair value based method of measuring compensation cost under SFAS No. 123. Accordingly, the Company has disclosed the pro-forma net loss as if the fair value method of SFAS No. 123 had been used to measure compensation cost. Transactions in which options and warrants are granted to other than employees and directors are accounted for at fair value.

125

FALCONSTOR, INC. AND SUBSIDIARY
(a development stage enterprise)

Notes to Consolidated Financial Statements--(Continued)
December 31, 2000

(k) Financial Instruments

As of December 31, 2000, the fair value of the Company's financial instruments including cash and equivalents, accounts receivable, accounts payable and accrued expenses, approximates book value due to the short maturity of these instruments.

(l) Stock Split

In July, 2000, the Company's Board of Directors declared a five-for-one stock split to be effected in the form of a common stock dividend. For purposes of the accompanying consolidated financial statements, all share and per share information has been adjusted for the stock split.

(m) Foreign Currency

Assets and liabilities of foreign operations are translated at rates of exchange at the end of the period, while results of operations are translated at average exchange rates in effect for the period. Unrealized gains and losses from the translation of foreign assets and liabilities are classified as a separate component of stockholders' equity. Realized gains and losses from foreign currency transactions are included in the statement of operations.

(n) Earnings Per Share (EPS)

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Basic EPS is computed based on the weighted average number of shares of common stock outstanding. Diluted EPS is computed based on the weighted average number of common shares outstanding increased by dilutive common stock equivalents. Due to a net loss, all common stock equivalents were excluded from diluted loss per share. As of December 31, 2000, potentially dilutive common stock equivalents included 6,559,500 stock options outstanding and 24,800,000 shares issuable upon the conversion of convertible preferred stock.

(o) New Accounting Pronouncement

In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 133, Accounting for Derivative Instruments and Hedging Activities, which is effective for all fiscal quarters of all fiscal years beginning after June 15, 2000, as amended by SFAS No. 137. In June 2000, SFAS No. 138 was issued which amended certain provisions of SFAS No. 133. SFAS No. 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. In accordance with SFAS No. 133, an entity is required to recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. SFAS No. 133 requires that changes in the derivative's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. Special accounting for qualifying hedges allows a derivative's gains and losses to offset related results on the hedged item in the income statement and requires that a company formally document, designate and assess the effectiveness of transactions that receive hedge accounting. The Company does not believe that the implementation of SFAS No. 133 will have a significant impact on its consolidated financial statements when adopted on January 1, 2001.

(p) Comprehensive Income (Loss)

Comprehensive income (loss) includes the Company's net income (loss) and foreign currency translation adjustments and is included the consolidated statement of stockholders' equity.

(a development stage enterprise)

Notes to Consolidated Financial Statements--(Continued)

(q) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2) Liquidity

As shown in the accompanying financial statements, the Company incurred a net loss and negative cash flow from operations during the period from inception (February 10, 2000) through December 31, 2000. Management has formulated plans that it believes will provide the Company with sufficient

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

liquidity to meet its cash obligations at least through January 31, 2002. Such plans include (a) the availability of \$7,727,182 in cash and cash equivalents as of December 31, 2000, (b) the commencement of the marketing of its core data storage network software, and (c) the receipt by the Company of \$25,000,000 from the sale of Series C Preferred Stock (note 9).

(3) Property and Equipment

Property and equipment consist of the following at:

Notes to Consolidated Financial Statements--(Continued)
December 31, 2000

The difference between the provision for income taxes computed at the

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Federal statutory rate and the reported amount of tax expense attributable to loss before income taxes for the period from inception (February 10, 2000) through December 31, 2000 is as follows:

Tax recovery at Federal statutory rate.....	\$ (681,000)
Increase (reduction) in income taxes resulting from:

Non-deductible expenses.....	34,700
Non-deductible expenses of foreign operations.....	18,400
Increase in valuation allowance.....	775,200

	\$ --
	=====

For the period from inception (February 10, 2000) through December 31, 2000, the Company had a pre-tax loss of \$1,951,000 in the U.S. and a pre-tax loss from foreign operations of \$52,000. As of December 31, 2000, the Company has U.S. net operating loss carryforwards of approximately \$1,150,000, which expire in 2020. At December 31, 2000, the Company has established a valuation allowance against its net deferred tax assets due to the Company's development stage losses and the resulting likelihood that the deferred tax asset is not realizable. The utilization of certain of these tax loss carryforwards may be subject to annual limitations imposed by the Internal Revenue Code Section 382 due to the Company's various equity transactions which may result in a change of control.

(5) Stockholders' Equity

Upon the incorporation of the Company on February 10, 2000, the Company issued 15,000,000 shares of its common stock for proceeds of \$30,000.

In November 2000, in connection with a three year consulting agreement, the Company, in addition to agreeing to pay a monthly consulting fee, sold 100,000 shares of common stock to the consultant for \$25,000. The consultant's rights to such shares will vest for 33,000 on each of November 1, 2001 and 2002 and 34,000 on November 1, 2003. If, prior to November 1, 2003, the consultant ceases to provide consulting services for any reason, the Company has the right to repurchase any unvested shares at \$0.25 per share. The excess of the fair value of the common stock over \$0.25 will be recorded as consulting expense each period until the services are performed and the common stock vests.

In March 2000, the Company issued 3,000,000 shares of its Series A convertible preferred stock ("Series A") at \$1.00 per share for net proceeds of \$2,976,329. Each share of Series A is convertible, at the option of the holder, into five shares of common stock. The Series A will automatically convert into common stock upon the affirmative vote of the holders of a majority of the outstanding shares of Series A and upon the closing of a public offering under certain circumstances. The holders of Series A are entitled to receive cumulative cash dividends at the same rate as dividends are paid with respect to the common stock. The Series A is not redeemable at the option of the holder and has a liquidation preference equal to the greater of \$1.00 per share plus all accumulated unpaid dividends, or the amount that the Series A holders would have received had they converted all Series A into shares of common stock. The holders of the Series A are entitled to elect two directors of the Company.

In September 2000, the Company issued 4,900,000 shares of its Series B convertible preferred stock ("Series B") at \$1.43 per share for net proceeds of \$6,997,116. Each share of Series B is convertible, at the

option of the holder, into two shares of common stock. The Series B will automatically convert into common stock upon the affirmative vote of the holders of a majority of the outstanding shares of Series B and upon the closing of a public offering of the Company's common stock under certain circumstances. The holders of Series B are entitled to receive cumulative cash dividends at the same rate as dividends are paid with respect to the common stock. The Series B is not redeemable at the option of the holder and has a liquidation preference equal to the greater of the amount that the Series B holders would have received had they converted all Series B into shares of common stock, or the aggregate purchase price paid for the Series B plus all accumulated unpaid dividends.

At December 31, 2000 the Company had reserved, authorized and unissued common shares, for the following purposes:

	Shares

Conversion of Series A preferred stock.....	15,000,000
Conversion of Series B preferred stock.....	9,800,000
Stock options.....	8,000,000

(6) Stock Options

As of May 1, 2000, the Company adopted the Falconstor, Inc. 2000 Stock Option Plan (the "Plan"). The Plan is administered by the Board of Directors and provides for the issuance of stock-based compensation to employees, consultants and non-employee directors. The maximum number of shares which may be awarded under the plan is 8,000,000. Options may be incentive ("ISO") or non-qualified. Exercise prices of ISOs granted must be at least equal to the fair value of the common stock on the date of grant, and have terms not greater than ten years, except those to an employee who owns stock greater than 10% of the voting power of all classes of stock of the Company, in which case they must (a) have an option price at least 110% of the fair value of the stock, and (b) expire after five years from the date of grant.

During 2000, the Company granted its employees ISOs to purchase an aggregate of 6,245,000 shares of common stock at an exercise price of \$0.25 per share. Such options generally vest over a period of three years and are exercisable for a period of ten years from the date of grant. As of December 31, 2000, no options were exercisable. No options were exercised or canceled during 2000.

Also during 2000, the Company granted options to certain non-employee consultants to purchase an aggregate of 274,500 shares of common stock in exchange for certain professional services received during 2000. These options have an exercise price of \$0.25 per share, vest over a period of three years and are exercisable for a period of ten years from the date of grant. The

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

aggregate fair value of these options as determined using the fair value method under SFAS No. 123, amounting to approximately \$52,155, was recorded as general and administrative expense with a corresponding credit to additional paid-in capital.

In addition, in November 2000, the Company granted options to certain non-employee consultants to purchase an aggregate of 40,000 shares of common stock in exchange for certain professional services which are to be performed during the period from November 2000 through November 2001. These options have an exercise price of \$0.25 per share, vest over a period of three years and are exercisable for a period of ten years from the date of grant. The aggregate fair value of these options as determined using the fair value method under SFAS No. 123, amounts to approximately \$7,600, \$1,267 of which was recorded as general and

129

FALCONSTOR, INC. AND SUBSIDIARY
(a development stage enterprise)

Notes to Consolidated Financial Statements--(Continued)
December 31, 2000

administrative expense during 2000 with a corresponding credit to additional paid-in capital. The expense related to these options will be adjusted to fair value until performance of the services has been completed.

The per share weighted average fair value of stock options granted during the period from inception (February 10, 2000) to December 31, 2000 was \$0.14 on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions: expected dividend yield of 0%, risk free interest rate of 6%, expected stock volatility of 60% and an expected option life of five years for options granted to employees of the Company, and an option life of ten years for options granted to non-employees.

The Company applies the provisions of APB Opinion No. 25 in accounting for stock-based employee compensation. Had the Company determined stock-based compensation cost based upon the fair value method under SFAS No. 123, the Company's pro-forma net loss and diluted net loss per share for the period from inception (February 10, 2000) through December 31, 2000, would have been \$2,154,172, and \$0.14, respectively.

(7) Commitments

The Company has an operating lease covering its primary office facility that expires in September, 2005. Upon inception of this lease the Company was required to pay a \$201,596 security deposit to the lessor. The Company also has an operating lease covering its office space in Taiwan that expires in November, 2001. The following is a schedule of future minimum lease payments for these operating leases as of December 31, 2000:

Year ending December 31,	

2001.....	\$141,791
2002.....	146,831
2003.....	152,072
2004.....	157,523
2005.....	84,146

\$682,363

=====

These leases require the Company to pay its proportionate share of real estate taxes and other common charges. Total rent expense for operating leases was \$68,571 for the period from inception (February 10, 2000) through December 31, 2000.

The Company is a party to various claims arising in the ordinary course of its business, the resolution of none of which, the Company believes will have a material adverse effect on the Company's liquidity or results of operations.

(8) Subsequent Event

On March 30, 2001, the Company entered into an agreement with Network Peripherals Inc. ("NPI"), a public company that designs and manufactures Ethernet switching hardware, whereby on April 2, 2001 the Company issued 9,792,401 shares of its \$0.001 par value Series C convertible preferred stock ("Series C") at \$2.55 per share to NPI for gross proceeds of \$25,000,000. Each share of Series C is convertible, at the option of the holder, into one share of common stock. The Series C will automatically convert into common stock upon the affirmative vote of the holders of a majority of the outstanding shares of Series C and upon either (i) the closing of a public offering of the Company's common stock under certain circumstances, or (ii) the

consummation of a merger or consolidation of the Company with or into another company. The holders of Series C are entitled to receive cumulative cash dividends at the same rate as dividends are paid with respect to the common stock. The Series C is not redeemable at the option of the holder and has a liquidation preference equal to the greater of \$2.55 per share plus all accumulated unpaid dividends, or the amount that the Series C holders would have received had they converted all Series C into shares of common stock. The holders of the Series C are entitled to elect one director of the Company.

In connection with the sale of the Series C, on March 30, 2001 the Company and NPI entered into an irrevocable option agreement whereby NPI received an exclusive option to merge with the Company. The option may be exercised through April 27, 2001, unless extended by written consent of NPI and the Company. The merger agreement provides that, as consideration for all outstanding shares of the Company's common stock, NPI would issue a number of newly issued shares of NPI common stock as determined in accordance with the merger agreement. Based on the agreement, the number of NPI common shares to be issued would result in the Company's stockholders having at least a two-thirds ownership in the combined entity. The merger would be structured as a tax free reorganization, and would be accounted for as a purchase transaction. Completion of the merger would be subject to the expiration of the applicable Hart-Scott-Rodino waiting period, stockholder approval and other customary closing conditions. In the event that NPI does not exercise the option, and under certain other circumstances, NPI may be required to pay the Company a penalty of \$3,000,000. There can be no assurance that the merger will be consummated in a timely manner, if at all.

131

NPI PROPOSAL NO. 2

AMENDMENT OF RESTATED CERTIFICATE OF INCORPORATION

Under Delaware law, NPI may only issue shares of common stock to the extent such shares have been authorized for issuance under NPI's restated certificate of incorporation. The restated certificate of incorporation currently authorizes the issuance by NPI up to 60,000,000 shares of common stock. However, as of _____, 2001, _____ shares of NPI common stock were issued and outstanding and _____ shares of common stock were reserved for issuance under NPI's stock option plans. Approximately _____ shares of common stock are proposed to be issued to holders of FalconStor capital stock pursuant to the merger, and, in addition, approximately _____ shares of NPI common stock must be reserved effective as of the closing of the merger for options exercisable for FalconStor common stock assumed by NPI pursuant to the merger agreement. As a result, without an increase in shares, NPI would not have sufficient shares available in order to issue the required number of shares in the merger. The merger agreement provides for the amendment of NPI's restated certificate of incorporation to increase the number of shares of common stock authorized for issuance to 100,000,000 shares.

The purpose of the proposed amendment to the restated certificate of incorporation pursuant to the merger agreement is to authorize additional shares of common stock which will be available for issuance in the merger, for

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

a reserve for issuance upon exercise of stock options assumed in the merger, and also in the event the board of directors determines that it is necessary or appropriate to issue additional shares in connection with a stock dividend, additional equity incentives to employees and officers, or for other corporate purposes. The availability of additional shares of common stock is particularly important in the event that NPI needs to undertake any of the foregoing actions on an expedited basis and wishes to avoid the time and expense of seeking stockholder approval in connection with the contemplated issuance of common stock. NPI has no present agreement or arrangement to issue any of the additional authorized shares other than in connection with the merger and the exercise of options assumed in the merger.

The increase in authorized common stock will not have any immediate effect on the rights of existing stockholders except the effects of the merger described in this section. However, the board will have the authority to issue common stock without requiring future stockholder approval of such issuance, except as may be required by applicable law. To the extent that additional shares are issued in the future, they may decrease the existing stockholders' percentage equity ownership and, depending on the price at which they are issued, could be dilutive to the existing stockholders.

The increase in the authorized number of shares of common stock and the subsequent issuance of shares could have the effect of delaying or preventing a change in control of NPI without further action by the stockholders. Shares of authorized and unissued common stock could, within the limits imposed by applicable law, be issued in one or more transactions which make a change in control of NPI more difficult, and therefore less likely. Any such issuance of additional stock could have the effect of diluting the earnings per share and book value per share of outstanding shares of common stock, and such additional shares could be used to dilute the stock ownership or voting rights of a person seeking to obtain control of NPI. The board of directors is not currently aware of any attempt to acquire NPI. While it may be deemed to have potential anti-takeover effects, the proposed amendment to increase the authorized common stock is not prompted by any specific effort or takeover threat currently perceived by management.

In addition to the increase in the authorized shares of common stock, in connection with the merger, NPI has proposed to amend its restated certificate of incorporation to provide for the change of the corporate name to "FalconStor Software, Inc." Since the combined company will be adopting and pursuing Falconstor's business strategy, changing NPI's name to FalconStor will allow the name of the combined company to better reflect the business of the combined company on a going-forward basis.

132

Vote Required and Board of Directors Recommendation

The affirmative vote of a majority of all outstanding shares of NPI common stock is required for approval of this proposal. Abstentions and broker non-votes will each have the same effect as a negative vote on this proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE PROPOSAL TO AMEND NPI'S RESTATED CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF NPI'S COMMON STOCK FROM 60,000,000 SHARES TO 100,000,000 SHARES AND CHANGE THE CORPORATE NAME TO FALCONSTOR SOFTWARE, INC.

NPI PROPOSAL NO. 3

THE ELECTION OF DIRECTORS

The board of directors fixes, from time to time, the number of directors authorized by the NPI's bylaws. There are currently five members of the board of directors. NPI's bylaws provide that the directors shall be divided into three classes, with the classes of directors serving for staggered, three-year terms. If the merger is not completed, the two Class I Directors to be elected at the annual meeting are to hold office until the annual meeting to be held in 2004 and until their successors have been elected and qualified. Unless otherwise instructed, the proxy holders will vote the proxies received by them for NPI's two nominees named below, who are presently directors of NPI. In the event that any nominee of NPI is unable or declines to serve as a director at the time of the annual meeting, the proxies will be voted for any nominee who shall be designated by the present board of directors to fill the vacancy. In the event that additional persons are nominated for election as directors, the proxy holders intend to vote all proxies received by them in such a manner as will assure the election of the nominee listed below, and, in such event, the specific nominee to be voted for will be determined by the proxy holders.

The following information sets forth the names and ages of the nominees, and each director of NPI whose term of office continues after the annual meeting assuming that the merger is not completed, the principal occupation of each during the past five years, and the period during which each has served as a director of NPI:

NPI PROPOSAL NO. 4

RATIFICATION OF APPOINTMENT OF ACCOUNTANTS

In the event the merger is not completed, the NPI board of directors has selected PricewaterhouseCoopers LLP as the independent accountants to audit the financial statements of NPI for the fiscal year ending December 31, 2001. PricewaterhouseCoopers has audited NPI's financial statements since 1989. A representative of PricewaterhouseCoopers is expected to be present at the annual meeting with the opportunity to make a statement if he or she so desires, and is expected to be available to respond to appropriate questions.

The following table sets forth the aggregate fees billed to NPI for the fiscal year ended December 31, 2000 by PricewaterhouseCoopers:

Audit Fees.....	\$138,000
-----------------	-----------

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Financial Information Systems Design and Implementation	
Fees.....	\$ --
All Other Fees.....	\$170,000

The audit committee has considered the role of PricewaterhouseCoopers in providing information technology, business consulting and tax services and other non-audit services to NPI and has concluded that such services are compatible with PricewaterhouseCoopers' independence as NPI's auditors.

Vote Required and Board of Directors Recommendation

The affirmative vote of a majority of the votes present or represented by proxy and entitled to vote at the annual meeting of stockholders, at which a quorum representing a majority of all outstanding shares of common stock of NPI is present, either in person or by proxy, is required for approval of this proposal. Abstentions and broker non-votes will each be counted as present for purposes of determining the presence of a quorum. Abstentions will have the same effect as a negative vote on this proposal. Broker non-votes will have no effect on the outcome of this vote.

The board of directors has conditioned its appointment of NPI's independent accountants upon the receipt of the affirmative vote. In the event that the stockholders do not approve the selection of PricewaterhouseCoopers, the board of directors will reconsider the appointment of the independent accountants.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS NPI'S INDEPENDENT ACCOUNTANTS.

136

BOARD OF DIRECTORS MEETINGS AND COMMITTEES

The board of directors of NPI held a total of seven meetings and acted by written consent on six separate occasions during 2000. No current director participated in fewer than 75% of all such meetings and actions by the board of directors, if any, and the committees, upon which such directors served, at the time they were directors of NPI.

The board of directors currently has an audit committee and a compensation committee. It does not have a nominating committee or a committee performing the functions of a nominating committee. The functions of a nominating committee are performed by the board of directors as a whole.

The audit committee recommends the engagement of NPI's independent accountants, reviews and approves the scope of an annual audit and other services performed by the independent accountants, and reviews and evaluates NPI's accounting principles and its systems of internal accounting controls. The audit committee held four meetings in 2000 and currently consists of Mr. Gardner (chairperson), Mr. Brown and Mr. Hart. See "Report of the Audit Committee."

The compensation committee reviews and approves the compensation policies applicable to NPI's executive officers, and reviews and approves grants of stock options pursuant to NPI's stock option plans. The compensation committee held five meetings in 2000 and currently consists of Mr. Hart (chairperson), Mr. Brown and Mr. Gardner. See "Report of the Compensation Committee of the Board of Directors on Executive Compensation."

(2) The stated amounts for all Named Officers, except for Mr. Rosenberger, were NPI's matching contributions to NPI's 401(k) plan. Mr. Rosenberger's amount for year 2000 included a payment of \$83,333 based on the terms of his separation agreement and \$3,000 of NPI's matching contributions.

(3) Bonus paid to Mr. Rosenberger in 1998 was pursuant to "sign-on" provisions in the employment contract.

Option Grants in Last Fiscal Year

The following table sets forth details regarding stock options granted to the Named Officers in 2000. NPI granted no stock appreciation rights in 2000. In addition, in accordance with the SEC rules, the table shows the hypothetical gains or "option spreads" that would exist for the respective options. These gains are based on assumed rates of annual compound stock price appreciation of 5% and 10% from the date the options were granted over the full option term. The actual value, if any, an executive may realize will depend on the spread between the market price and the exercise price on the date the option is exercised.

Name	Individual Grants				Potential Realizable Value at Assumed Annual Rates of Stock Price Appreciation for Option Term (1)	
	Number of Securities Underlying Options Granted	Percent of Total Options Granted to Employees in Fiscal Year	Exercise or Base Price Per Share	Expiration Date	5%	10%
James Regel.....	250,000	11.95%	\$13.375	08/01/2010	\$2,102,866	\$5,329,076

James Sullivan.....	10,000	0.48%	24.375	04/18/2010	153,293	388,475

(1) The potential gain is calculated based on the fair market value of NPI's common stock on the date of grant, which is equal to the closing price reported on The Nasdaq National Market. These amounts only represent certain assumed rates of appreciation as established by the SEC. Actual gains, if any, on stock option exercises are dependent upon the future performance of NPI and overall stock market conditions. There can be no assurance that the amounts reflected in this table or the associated rates of appreciation will be achieved.

Aggregated Option Exercises in Last Fiscal Year and Fiscal Year-End Option Values

The following table sets forth certain information concerning options exercised by the Named Officers during 2000, including the aggregate value of gains on the date of exercise. In addition, this table includes the number of shares covered by both exercisable and unexercisable stock options as of year-end. Also reported are the values for "in-the-money" options, which represent the positive spread between the exercise price of any such existing stock options and the year-end price of NPI's common stock.

Employment Contracts, Termination of Employment and Change in Control Arrangements

In September 2000, NPI entered into an employment agreement with James Regel whereby Mr. Regel agreed to become the president and co-chief executive officer. Pursuant to the employment agreement, Mr. Regel's annual base salary is \$250,000, and Mr. Regel is eligible to earn an annual bonus of \$100,000, of which \$75,000 is guaranteed during the first 12 months of his employment and the payment of the remaining balance is based on the attainment of performance objectives determined by the compensation committee. Mr. Regel was granted an option to purchase 375,000 shares of NPI's common stock with a vesting period of four years. If a change in control occurs during the first six months of Mr. Regel's employment, 50% of his unvested stock options will immediately vest; if a change in control occurs between the seventh- and the twelfth-month of employment, 75% of his unvested stock options will immediately vest; and if a change in control occurs after 12 months, all of his unvested stock options will immediately vest. If Mr. Regel is terminated without cause or resigns upon constructive termination following a change of control, he is entitled to receive the following: (i) an amount equal to his annual base salary at the time of termination, (ii) medical insurance coverage for one year, and (iii) immediate vesting of all unvested stock options which remain exercisable for one year following the termination. In October 2000, the compensation committee approved an increase in Mr. Regel's annual base salary to \$350,000, retroactively effective as of the commencement of his employment with NPI, and any guaranteed bonus already paid was considered part of the increased salary.

In October 2000, NPI entered into an employment agreement with Ronald Rutherford whereby Mr. Rutherford agreed to be the vice president of worldwide sales. The employment agreement provides that Mr. Rutherford's annual base salary is \$155,000 and that his annual target commission is set at \$100,000. Upon the commencement of his employment with NPI, Mr. Rutherford was granted an option to purchase 160,000 shares of NPI's common stock with a vesting period of four years. If a change in control occurs during the first 12 months of employment, 50% of Mr. Rutherford's stock options will immediately vest, and if a change in control occurs after 12 months, all of Mr. Rutherford's stock options will immediately vest. If Mr. Rutherford is terminated without cause, he will receive a severance payment equal to his six-month base salary.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

In December 2000, NPI entered into an employment agreement with James Williams whereby Mr. Williams accepted the position of senior vice president of finance and administration, secretary, treasurer and chief financial officer. The employment agreement with Mr. Williams provides that his annual base salary is \$225,000. Upon the commencement of his employment with NPI, Mr. Williams was granted an option to purchase 175,000 shares of NPI's common stock with a vesting period of four years. If a change in control occurs during the first six months of employment, 50% of Mr. Williams' stock options will immediately vest; if a change in control occurs between the seventh- and the twelfth-month of employment, 75% of Mr. Williams' stock options will immediately vest; and if a change in control occurs after 12 months, all of Mr. Williams' stock options will immediately vest. If Mr. Williams is terminated without cause, he will receive a severance payment equal to his six-month base salary.

In December 2000, NPI also entered into an employment agreement with James Baker whereby Mr. Baker agreed to be the senior vice president of engineering and chief technology officer. The employment agreement with Mr. Baker provides that his annual base salary is \$235,000 and that he is eligible to earn a bonus of \$150,000 based on the performance objectives set forth in the bonus plan. Upon the commencement of his employment with NPI, Mr. Baker was granted an option to purchase 200,000 shares of NPI's common stock with a vesting period of four years. If a change in control occurs during the first 12 months of employment, 50% of Mr. Baker's stock options will immediately vest, and if a change in control occurs after 12 months, all of Mr. Baker's stock options will immediately vest. If Mr. Baker is terminated without cause, he will receive a severance payment in the amount of his six-month base salary.

NPI has entered into a separation and release agreement with Joseph Botta. Pursuant to the agreement, upon the closing of the proposed merger with FalconStor, Mr. Botta shall receive a severance payment of \$500,000 in total (in the form of cash payment from NPI and proceeds from sales of NPI's common stock upon

140

exercise of his vested stock options). In addition, in exchange for his signing of the agreement, Mr. Botta waives his right to the severance benefits set forth in the salary continuation agreement that was previously entered into with NPI.

NPI has also entered into a salary continuation agreement with Robert Zecha. Such agreement provides that in the event Mr. Zecha is terminated, including a constructive termination or a termination within a specified time period around a change in control, as those terms are defined in each agreement, he shall be entitled to continued salary and bonus payments for a period of one year. Mr. Zecha shall also be entitled to continued medical coverage by NPI during the period of salary continuation unless he is covered by another employer's group health plan. In the event of a change in control, all stock options granted to Mr. Zecha shall become exercisable 30 days before the consummation of such change in control.

NPI's 1997 Stock Plan provides that the board of directors may, in its sole discretion, accelerate the vesting and the ability to exercise options in the event of a change of control.

Compensation of Directors

Directors who are not employees of NPI are considered outside directors. Outside directors are entitled to receive a director fee of \$4,000 per fiscal quarter so long as they remain directors of NPI. Directors do not receive any additional or special remuneration for their services on any of the committees

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

established by the board of directors.

An outside director is eligible to participate in NPI's 1994 Outside Directors Stock Option Plan. The Outside Directors Plan, as amended, provides for the automatic granting of nonstatutory stock options to outside directors of NPI. Each new outside director will be granted an option to purchase 15,000 shares of NPI's common stock on the date of election. Each continuing outside director will be granted an option to purchase 5,000 shares of common stock on the date of each annual meeting of stockholders.

Compensation Committee Interlocks and Insider Participation

During 2000, no member of the compensation committee was an executive officer or employee of NPI. In addition, no executive officer of NPI has served on the board of directors or compensation committee of any other entity that has an executive officer serving as a member of NPI's board of directors.

Certain Relationships and Related Transactions

During 2000, no member of the compensation committee was an executive officer or employee of NPI. In addition, no executive officer of NPI has served on the board of directors or compensation committee of any other entity that has an executive officer serving as a member of NPI's board of directors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires NPI's executive officers, directors and persons who beneficially own more than 10% of NPI's common stock to file initial reports of ownership and reports of changes in ownership with the SEC. Such persons are required by SEC regulations to furnish NPI with copies of all Section 16(a) forms filed by such persons.

Based solely on NPI's review of such forms furnished to NPI and written representations from certain reporting persons, NPI believes that all filing requirements applicable to NPI's executive officers, directors and more than 10% stockholders were complied with, except that Ronald Rutherford and James Baker were late with respect to filing one form each.

141

Report of the Compensation Committee of the Board of Directors on Executive Compensation

The compensation committee of the board of directors is comprised of non-employee directors. The compensation committee is responsible for setting and administering policies governing compensation of executive officers. The compensation committee reviews the performance and compensation levels for executive officers, sets salary and bonus levels and makes option grants under NPI's 1997 Option Plan.

Compensation Policies

The goals of NPI's executive officer compensation policies are to attract, retain and reward executive officers who contribute to NPI's success, to align executive officer compensation with NPI's performance and to motivate executive officers to achieve NPI's business objectives. NPI uses salary, bonuses and stock options to achieve these goals. The compensation committee reviews various available data, including compensation surveys, to enable the compensation committee to compare NPI's compensation package with that of other high technology companies of similar size and growth rates in NPI's geographic area.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Compensation Components

Salaries are set for each executive officer with reference to a range of salaries for comparable positions among high technology companies of similar size, growth rate and location. Annual salary adjustments take into account achievements of individual executive officers during the prior fiscal year as measured against key company-wide objectives set each year by the board of directors, as well as the executive officers' performance of their individual responsibilities. Each compensation committee member weighs objective and subjective performance factors, and a consensus is obtained through discussion. The compensation committee also considers relative levels of responsibility among executive officers in attempting to reach equitable and appropriate projected compensation levels.

Cash incentive compensation is provided through participation in NPI's executive bonus plan. The compensation committee determines the amount of an individual's bonus based on subjective judgment of NPI's financial performance and the achievement of established goals. A performance bonus of \$200,000 was paid to William Rosenberger in 2000.

The compensation committee strongly believes that equity ownership by executive officers provides incentives to build stockholder value and aligns the interests of executive officers with the stockholders. The size of an initial option grant to an executive officer has generally been determined with reference to comparable equity compensation offered by high technology companies of similar size for similar positions, the responsibilities and expected future contributions of the executive officer, as well as recruitment considerations. In determining the size of subsequent grants, the compensation committee has considered the individual executive officer's performance during the previous fiscal year, the expected contributions during the coming year, the amount of options already held and the level of recent grants. Stock options granted to executive officers during 2000 were based upon available data concerning option grants to executive officers of companies of similar size, growth and location and a review of recent grants. The compensation committee believes that future subsequent option grants, with vesting schedules of up to four years, will provide strong incentives for executive officers to remain with NPI.

Chief Executive Officer Compensation

The compensation of the chief executive officer is based upon the same criteria outlined above for the other executive officers of NPI. While the chief executive officer makes recommendations about the compensation levels, goals and performance of the other executive officers, he does not participate in the discussions regarding his compensation or performance.

142

Qualifying Compensation

The compensation committee has considered the potential impact of Section 162(m) of the Internal Revenue Code ("Section 162(m)") adopted under the Federal Revenue Reconciliation Act of 1993. Section 162(m) disallows a tax deduction for any publicly held corporation for certain executive officers' compensation exceeding \$1,000,000 per person in any taxable year unless it is "performance based" within the meaning of Section 162(m). Since to date the cash compensation plus restricted stock vesting of each of NPI's executive officers has been below the \$1,000,000 threshold and since the committee believes that any options granted under NPI's option plan will meet the requirement of being performance-based under the provisions of Section 162(m),

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

the committee believes that Section 162(m) will not reduce the tax deduction available to NPI for fiscal year 2000 or prior years. NPI's policy is, to the extent reasonable, to qualify its executive officers' compensation for deductibility under the applicable tax laws.

Report of the Audit Committee

The audit committee of the board of directors consists of three independent directors, each of whom has been determined to be "independent" under the current listing standards of National Association of Securities Dealers. The audit committee acts pursuant to the audit committee charter adopted by the board of directors in July 2000, a copy of which is attached as Annex G to this joint proxy statement/prospectus.

Management is responsible for NPI's internal controls and the financial reporting process. The independent accountants are responsible for performing an independent audit of the NPI's consolidated financial statements in accordance with generally accepted auditing standards and expressing an opinion on the conformity of those audited financial statements in accordance with generally accepted accounting principles. The audit committee's responsibility is to monitor and oversees these processes.

The audit committee has reviewed and discussed NPI's audited consolidated financial statements for the year ended December 31, 2000 with management. The audit committee has discussed with PricewaterhouseCoopers LLP, NPI's independent accountants, the matters required to be discussed by Statement of Auditing Standards No. 61 which includes, among other items, matters related to the conduct of the audit of NPI's financial statements. The audit committee has also received written disclosures and the letter from PricewaterhouseCoopers LLP required by Independence Standards Board Standard No. 1, which relates to the accountant's independence from NPI and its related entities, and has discussed with PricewaterhouseCoopers LLP their independence from NPI.

Based on the review and discussions referred to above, the audit committee recommended to NPI's board of directors that NPI's audited consolidated financial statements be included in NPI's Annual Report on Form 10-K for the fiscal year ended December 31, 2000.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 20. Indemnification of Directors and Officers.

Section 145 of the Delaware General Corporation Law permits indemnification of officers, directors, and other corporate agents under certain circumstances and subject to certain limitations. NPI's certificate of incorporation and bylaws provide that NPI shall indemnify NPI's directors, officers, employees, and agents to the full extent permitted by Delaware law. These indemnification provisions may be sufficiently broad to permit indemnification of NPI's officers and directors for liabilities (including reimbursement of expenses incurred) arising under the Securities Act of 1933, as amended.

NPI has a policy of directors' and officers' liability insurance that insures NPI's directors and officers against the cost of defense, settlement or

At present, there is no pending litigation or proceeding involving any of NPI's directors, officers, employees or other agents in which indemnification is being sought. (a) By action of the holders of the outstanding shares of Series A Preferred Stock, Series B Preferred Stock and Series C Preferred Stock (collectively, "Company common stock"), each share of Series A Preferred Stock, Series B Preferred Stock and Series C Preferred Stock outstanding immediately prior to the Effective Time shall be converted immediately prior to the Effective Time (subject to the satisfaction of the conditions set forth in Section 6.1 and Section 6.3) into that number of shares of Company's common stock, par value \$0.001 (the "Company Common Stock") into which one share of Series A Common Stock, Series B Preferred Stock and Series C Preferred Stock is then convertible.

(b) At the Effective Time, each outstanding share of common stock, par value \$.001 per share, of Merger Sub shall, by virtue of the Merger and without any action on the part of the Company, NPI or Merger Sub, be converted into one fully paid and non-assessable share of common stock of the Surviving Corporation.

(c) At the Effective Time, each share of Company Common Stock, issued and outstanding immediately prior to the Effective Time (individually, a "Share" and collectively, the "Shares") (other than (i) Shares held by the Company, (ii) Shares held by NPI or Merger Sub or (iii) Dissenting Shares (as hereinafter defined)) shall, by virtue of the Merger and without any action on the part of NPI, Merger Sub or the Company or any holder thereof, be converted into and be exchangeable for the right to receive the number (rounded to the nearest ten thousandth) of fully paid and non-assessable shares of NPI Common Stock equal to the Exchange Ratio.

(d) For purposes of this Agreement, the "Exchange Ratio" shall be determined in accordance with the following formula:

$$E = \frac{2(X + O) + B - CB [2(X + O)]}{Y + V}$$

where E = the Exchange Ratio

X = all shares of NPI Common Stock issued and outstanding as of two days prior to the NPI Stockholders Meeting

O = all shares of NPI Common Stock issuable under outstanding, vested, in-the-money options to purchase such stock as of two days prior to the NPI Stockholders Meeting

C = NPI's cash, cash equivalents and short-term investments calculated in accordance with GAAP minus any estimated cash payments due under agreements with certain members of NPI's management resulting from the Merger (the "Management Agreements") plus \$25,000,000, calculated as of the end of the calendar month immediately prior to the Effective Time, without giving effect to reductions in cash for payment of transaction expenses related to the

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Merger by NPI prior to the Effective Time (the "Closing Cash"); provided that for purposes of this formula, Closing Cash shall not exceed \$90,000,000. For purposes of this paragraph, estimated cash payments due under the Management Agreements shall be determined (a) using the closing sales price of one share of NPI Common Stock on Nasdaq two days prior to the NPI Stockholders' Meeting and (b) by giving effect to any acceleration of vesting of options caused by the Closing

B = \$90,000,000

Y = all outstanding shares of Company Common Stock (assuming conversion of all outstanding shares of Company Preferred Stock into shares of Company Common Stock) minus shares of Company Preferred Stock or Company Common Stock owned by NPI or the Company, calculated two days prior to the NPI Stockholders' Meeting

V = all shares of Company Common Stock issuable under outstanding, vested, in-the-money options or warrants to purchase such stock or other securities convertible or exchangeable for shares of Company Common Stock, calculated two days prior to the NPI Stockholders' Meeting

All such shares of NPI Common Stock issued pursuant to this Section 2.1, together with any cash paid in lieu of fractional shares of NPI Common Stock to be paid pursuant to Section 2.7, are referred to herein as the "Merger Consideration."

(e) At the Effective Time, each Share of Company Common Stock owned by NPI, Merger Sub or the Company immediately prior to the Effective Time shall be canceled and extinguished without any conversion thereof and no consideration shall be delivered in exchange therefor.

(f) If, between the date of this Agreement and the Effective Time, either (i) the outstanding shares of Company Common Stock, Series A Preferred Stock, Series B Preferred Stock or Series C Preferred Stock shall have been changed into a different number of shares or a different class by reason of any stock dividend, subdivision, reclassification, recapitalization, split, combination or exchange of shares, or any similar event, or (ii) the number of shares of Company Common Stock issuable upon conversion of each share of Series A Preferred Stock, Series B Preferred Stock or Series C Preferred Stock shall have been changed pursuant to contract, an anti-dilution adjustment provision contained in the Company's certificate of incorporation or otherwise, the calculation of the Exchange Ratio shall be correspondingly adjusted to the extent necessary to reflect such stock dividend, subdivision, reclassification, recapitalization, split, combination or exchange of shares, change in conversion ratio or such similar event.

(g) If, between the date of this Agreement and the Effective Time, the outstanding shares of NPI Common Stock shall have been changed into a different number of shares or a different class by reason of any stock dividend, subdivision, reclassification, recapitalization, split, combination or exchange of shares, or any similar event, the calculation of the Exchange Ratio shall be correspondingly adjusted to the extent necessary to reflect such stock dividend, subdivision, reclassification, recapitalization, split, combination or exchange of shares, or such similar event.

Section 2.2 Stock Options. At the Effective Time, the Company Stock Options, whether vested or unvested, will be assumed by NPI ("Assumed Stock Options"). Section 2.2 of the Company Disclosure Schedule hereto sets forth a true and complete list as of the date hereof of all holders of outstanding

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

options to purchase shares of Company Common Stock ("Company Stock Options"), including the number of shares of Company Common Stock subject to each such option, the exercise or vesting schedule, the exercise price per share and the term of each such option. On the Closing Date, the Company shall deliver to NPI an updated Section 2.2 of the Company Disclosure Schedule hereto current as of such date. Each such option so assumed by NPI under this Agreement shall continue to have, and be subject to, the same terms and conditions set forth in the Company Stock Option Plan ("Company Option Plan") and any other document governing such option

A-4

immediately prior to the Effective Time, except that (a) such option will be exercisable for that number of whole shares of NPI Common Stock equal to the product of the number of shares of Company Common Stock that were issuable upon exercise of such option immediately prior to the Effective Time multiplied by the Exchange Ratio and rounded down to the nearest whole number of shares of NPI Common Stock, (b) the per share exercise price for the shares of NPI Common Stock issuable upon exercise of such assumed option will be equal to the quotient determined by dividing the exercise price per share of Company Common Stock at which such option was exercisable immediately prior to the Effective Time by the Exchange Ratio, rounded up to the nearest whole tenth of a cent and (c) any restriction on the exercisability of such Company Stock Option shall continue in full force and effect, and the term, exercisability, vesting schedule and other provisions of such Company Stock Option shall remain unchanged. Consistent with the terms of the Company Option Plan and the documents governing the outstanding options, the Merger will not terminate any of the outstanding options under the Company Option Plan or accelerate the exercisability or vesting of such options or the shares of NPI Common Stock which will be subject to those options upon NPI's assumption of the options in the Merger. It is the intention of the parties that the options so assumed by NPI following the Effective Time will remain incentive stock options as defined in Section 422 of the Code to the extent such options qualified as incentive stock options prior to the Effective Time, and the parties hereto shall use their commercially reasonable efforts to carry out such intention. Within 10 business days after the Effective Time, NPI will issue to each person who, immediately prior to the Effective Time was a holder of an outstanding option under the Company Option Plan a document in form and substance reasonably satisfactory to the Company evidencing the foregoing assumption of such option by NPI. NPI agrees to file with the Securities and Exchange Commission ("SEC") after the Closing a registration statement on Form S-8 covering the shares of NPI Common Stock issuable pursuant to Assumed Stock Options. The Company shall cooperate with and assist NPI in the preparation of such registration statement.

Section 2.3 Exchange Fund. Prior to the Effective Time, NPI shall appoint a commercial bank or trust company reasonably acceptable to the Company to act as exchange agent hereunder for the purpose of exchanging Shares for the Merger Consideration (the "Exchange Agent"). At or prior to the Effective Time, NPI shall deposit with the Exchange Agent, in trust for the benefit of holders of Shares, certificates representing the NPI Common Stock issuable pursuant to Section 2.1 in exchange for outstanding Shares and an estimated amount of cash sufficient to pay the cash payable in lieu of fractional shares pursuant to Section 2.7. NPI agrees to make available to the Exchange Agent from time to time as needed, cash sufficient to pay cash in lieu of fractional shares pursuant to Section 2.7 and any dividends and other distributions pursuant to Section 2.5. Any cash and certificates of NPI Common Stock deposited with the Exchange Agent shall hereinafter be referred to as the "Exchange Fund."

Section 2.4 Exchange Procedures. As soon as reasonably practicable after the Effective Time (and in any event within three business days after the Effective

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Time), NPI and the Surviving Corporation shall use their commercially reasonable efforts to cause the Exchange Agent to mail to each holder of a certificate or certificates which immediately prior to the Effective Time represented outstanding Shares (the "Certificates") (a) a letter of transmittal which shall specify that delivery shall be effective, and risk of loss and title to the Certificates shall pass, only upon delivery of the Certificates to the Exchange Agent, and which letter shall be in customary form and have such other provisions as NPI may reasonably specify; and (b) instructions for effecting the surrender of such Certificates in exchange for the Merger Consideration. Upon surrender of a Certificate to the Exchange Agent together with such letter of transmittal, duly executed and completed in accordance with the instructions thereto, and such other documents as may reasonably be required by the Exchange Agent, the holder of such Certificate shall be entitled to receive in exchange therefor (i) shares of NPI Common Stock representing, in the aggregate, the whole number of shares that such holder has the right to receive pursuant to Section 2.1 (after taking into account all Shares then held by such holder) and (ii) a check in the amount equal to the cash that such holder has the right to receive pursuant to the provisions of this ARTICLE II, including cash in lieu of any dividends and other distributions pursuant to Section 2.5 and cash in lieu of fractional shares pursuant to Section 2.7, and the Shares formerly represented by such Certificate and the Certificate so surrendered shall forthwith be canceled. Until surrendered as contemplated by this Article II, each

A-5

Certificate shall be deemed at any time after the Effective Date to represent only the right to receive the Merger Consideration payable upon surrender of the Certificates. No interest will be paid or will accrue on any cash payable pursuant to Section 2.5 or Section 2.7. In the event of a transfer of ownership of Shares which is not registered in the transfer records of the Company, shares of NPI Common Stock evidencing, in the aggregate, the proper number of shares of NPI Common Stock, a check in the proper amount of cash in lieu of any fractional shares of NPI Common Stock pursuant to Section 2.7 and any dividends or other distributions to which such holder is entitled pursuant to Section 2.5, may be issued with respect to such Shares to such a transferee if the Certificate representing such Shares is presented to the Exchange Agent, accompanied by all documents required to evidence and effect such transfer and to evidence that any applicable Transfer Taxes have been paid.

Section 2.5 Distributions with Respect to Unsurrendered Certificates. No dividends or other distributions declared or made with respect to shares of NPI Common Stock with a record date after the Effective Time shall be paid to the holder of any unsurrendered Certificate with respect to the shares of NPI Common Stock that such holder would be entitled to receive upon surrender of such Certificate and no cash payment in lieu of fractional shares of NPI Common Stock shall be paid to any such holder pursuant to Section 2.7 until such holder shall surrender such Certificate in accordance with Section 2.4. Subject to the effect of applicable Laws (as hereinafter defined), following surrender of any such Certificate, there shall be paid to such holder of shares of NPI Common Stock issuable in exchange therefor, without interest, (a) promptly after the time of such surrender, the amount of any cash payable in lieu of fractional shares of NPI Common Stock to which such holder is entitled pursuant to Section 2.7 and the amount of dividends or other distributions with a record date after the Effective Time theretofore paid with respect to such whole shares of NPI Common Stock, and (b) at the appropriate payment date, the amount of dividends or other distributions with a record date after the Effective Time but prior to such surrender and a payment date subsequent to such surrender payable with respect to such shares of NPI Common Stock.

Section 2.6 No Further Ownership Rights in Company Common Stock. All shares

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

of NPI Common Stock issued and cash paid upon conversion of the Shares in accordance with the terms of ARTICLE I and this ARTICLE II (including any cash paid pursuant to Section 2.5 and Section 2.7) shall be deemed to have been issued or paid in full satisfaction of all rights pertaining to the Shares.

Section 2.7 No Fractional Shares of NPI Common Stock.

(a) No certificates or scrip of shares of NPI Common Stock representing fractional shares of NPI Common Stock or book-entry credit of the same shall be issued upon the surrender for exchange of Certificates and such fractional share interests will not entitle the owner thereof to vote or to have any rights of a stockholder of NPI or a holder of shares of NPI Common Stock.

(b) Notwithstanding any other provision of this Agreement, each holder of Shares exchanged pursuant to the Merger who would otherwise have been entitled to receive a fraction of a share of NPI Common Stock (after taking into account all Certificates delivered by such holder) shall receive, in lieu thereof, cash (without interest) in an amount equal to the product of (i) such fractional part of a share of NPI Common Stock multiplied by (ii) the reported closing sales price of one share of NPI Common Stock on the Nasdaq National Market ("Nasdaq") at the Effective Time. As promptly as practicable after the determination of the aggregate amount of cash to be paid to holders of fractional interests, the Exchange Agent shall notify NPI and NPI shall deposit such amount with the Exchange Agent (to the extent the amount deposited with the Exchange Agent pursuant to Section 2.3 is insufficient), and shall cause the Exchange Agent to forward payments to such holders of fractional interests subject to and in accordance with the terms hereof.

Section 2.8 Termination of Exchange Fund. Any portion of the Exchange Fund which remains undistributed to the holders of Certificates for six months after the Effective Time shall be delivered to the Surviving Corporation or otherwise on the instruction of the Surviving Corporation, and any holders of the Certificates who have not theretofore complied with this ARTICLE II shall thereafter look only to the

A-6

Surviving Corporation and NPI for the Merger Consideration with respect to the Shares formerly represented thereby to which such holders are entitled pursuant to Section 2.1 and Section 2.4, any cash in lieu of fractional shares of NPI Common Stock to which such holders are entitled pursuant to Section 2.7 and any dividends or distributions with respect to shares of NPI Common Stock to which such holders are entitled pursuant to Section 2.5. Any such portion of the Exchange Fund remaining unclaimed by holders of Shares five years after the Effective Time (or such earlier date immediately prior to such time as such amounts would otherwise escheat to or become property of any Governmental Entity) shall, to the extent permitted by law, become the property of the Surviving Corporation free and clear of any claims or interest of any person previously entitled thereto.

Section 2.9 No Liability. None of NPI, Merger Sub, the Company, the Surviving Corporation or the Exchange Agent shall be liable to any person in respect of any Merger Consideration from the Exchange Fund delivered to a public official pursuant to any applicable abandoned property, escheat or similar Law.

Section 2.10 Investment of the Exchange Fund. The Exchange Agent shall invest any cash included in the Exchange Fund as directed by NPI on a daily basis. Any interest and other income resulting from such investments promptly shall be paid to NPI.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Section 2.11 Lost Certificates. If any Certificate shall have been lost, stolen or destroyed, upon the making of an affidavit of that fact by the person claiming such Certificate to be lost, stolen or destroyed and, if required by the Surviving Corporation, the posting by such person of a bond in such reasonable amount as the Surviving Corporation may direct as indemnity by such person against any claim that may be made against the Surviving Corporation with respect to such Certificate, the Exchange Agent will deliver in exchange for such lost, stolen or destroyed Certificate the applicable Merger Consideration with respect to the Shares formerly represented thereby and any unpaid dividends and distributions on shares of NPI Common Stock deliverable in respect thereof, pursuant to this Agreement.

Section 2.12 Backup Withholding Rights. Each of NPI, the Surviving Corporation and the Exchange Agent shall be entitled to deduct and withhold from the Merger Consideration otherwise payable pursuant to this Agreement to any holder of Shares such amounts as it is required to deduct and withhold with respect to the making of such payment under the Code and the rules and regulations promulgated thereunder, or any provision of a tax Law. To the extent that amounts are so withheld by NPI, the Surviving Corporation or the Exchange Agent, as the case may be, such withheld amounts shall be treated for all purposes of this Agreement as having been paid to the holder of the Shares in respect to which such deduction and withholding was made by NPI, the Surviving Corporation or the Exchange Agent, as the case may be.

Section 2.13 Tax Consequences. It is intended by the parties hereto that the Merger shall constitute a reorganization within the meaning of Section 368(a) of the Code. Each party hereto shall use its commercially reasonable efforts to cause the Merger to be so qualified, shall report the transactions contemplated by this Agreement in a manner consistent with such reorganization treatment and will not take any position inconsistent therewith in any Tax Return (as hereinafter defined), refund claim, litigation or otherwise unless required to do so by law. The Merger shall be treated as a purchase for accounting purposes.

Section 2.14 Stock Transfer Books. The stock transfer books of the Company shall be closed immediately upon the Effective Time and there shall be no further registration of transfers of Shares thereafter on the records of the Company. On or after the Effective Time, any Certificates presented to the Exchange Agent or NPI for any reason shall be converted into the Merger Consideration with respect to the Shares formerly represented thereby, any cash in lieu of fractional shares of NPI Common Stock to which the holders thereof are entitled pursuant to Section 2.7 and any dividends or other distributions to which the holders thereof are entitled pursuant to Section 2.5.

Section 2.15 Affiliates. Notwithstanding anything to the contrary herein, no shares of NPI Common Stock or cash shall be delivered to a person who may be deemed an "affiliate" of the Company for purposes

A-7

of Rule 145 under the Securities Act of 1933, as amended (the "Securities Act"), until such person has executed and delivered to NPI the written agreement contemplated by Section 5.10.

Section 2.16 Appraisal Rights. Notwithstanding anything in this Agreement to the contrary, Shares that are issued and outstanding immediately prior to the Effective Time and which are held by stockholders who did not vote in favor of the Merger (the "Dissenting Shares"), which stockholders comply with all of the relevant provisions of Delaware Law (the "Dissenting Stockholders"), shall not be converted into or be exchangeable for the right to receive the Merger Consideration, unless and until such holders shall have failed to perfect or

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

shall have effectively withdrawn or lost their rights to appraisal under Delaware Law. If any Dissenting Shareholder shall have failed to perfect or shall have effectively withdrawn or lost such right, such holder's Shares shall thereupon be converted into and become exchangeable for the right to receive, as of the Effective Time, the Merger Consideration without any interest thereon. The Company shall give NPI (a) prompt notice of any written demands for appraisal of any Shares, attempted withdrawals of such demands and any other instruments served pursuant to Delaware Law and received by the Company relating to stockholders' rights of appraisal, and (b) the opportunity to direct, in its reasonable business judgment, all negotiations and proceedings with respect to demands for appraisal under Delaware Law. Neither the Company nor the Surviving Corporation shall, except with the prior written consent of NPI, voluntarily make any payment with respect to, or settle or offer to settle, any such demand for payment. If any Dissenting Shareholder shall fail to perfect or shall have effectively withdrawn or lost the right to dissent, the Shares held by such Dissenting Shareholder shall thereupon be treated as though such Shares had been converted into the right to receive the Merger Consideration pursuant to Section 2.1.

ARTICLE III

REPRESENTATIONS AND WARRANTIES

Except as set forth on the schedule delivered by the Company to NPI and Merger Sub in connection with the execution and delivery of this Agreement (the "Company Disclosure Schedule") the Company hereby represents and warrants to NPI and Merger Sub, and except as set forth in the disclosure schedule delivered by NPI and Merger Sub to the Company in connection with the execution and delivery of this Agreement (the "NPI Disclosure Schedule"), NPI and Merger Sub hereby represent and warrant to the Company, in each case as set forth in this ARTICLE III, with the party making such representations and warranties being referred to as the "Representing Party" and such Representing Party's Disclosure Schedule as the "Representing Party's Disclosure Schedule." Notwithstanding the foregoing, any representation or warranty which expressly refers to NPI or its Subsidiaries is being made solely by NPI and Merger Sub and any representation or warranty which expressly refers to the Company or its Subsidiaries is being made solely by the Company.

Section 3.1 Organization, Qualification.

(a) The Representing Party is a corporation duly organized, validly existing and in good standing under the laws of the jurisdiction of its incorporation and has the corporate power and authority required for it to own its properties and assets and to carry on its business as it is now being conducted. The Representing Party is duly qualified to do business and is in good standing in each jurisdiction in which the ownership of its properties or the conduct of its business requires such qualification, except for jurisdictions in which the failure to be so qualified or in good standing would not, individually or in the aggregate, be reasonably likely to have a Material Adverse Effect on the Representing Party or substantially delay consummation of the transactions contemplated by this Agreement or otherwise prevent the Representing Party from performing its obligations hereunder. As used in this Agreement, "Material Adverse Effect" means any change, effect, event, occurrence, state of facts or developments that (i) materially adversely affects the assets, liabilities, business, results of operations, condition (financial or otherwise) or prospects of the Representing Party and its Subsidiaries, taken as a whole or (ii) adversely affects or delays the ability of the Representing Party to consummate the transactions contemplated by this Agreement, provided, however, that none of the following shall be deemed in

themselves, either alone or in combination, to constitute a Material Adverse Effect on a Representing Party as indicated (A) any change in the market price or trading volume of NPI Common Stock after the date hereof; (B) any failure by the Representing Party to meet internal revenue or earnings projections or forecasts or published revenue or earnings projections for any period ending (or for which revenues or earnings are released) on or after the date of this Agreement and prior to the Effective Time; (C) decreases in working capital substantially consistent with the NPI's internal projections; (D) any adverse change, effect, event, occurrence, state of facts or development, change, effect, event, occurrence, state of facts or developments directly caused by the announcement or pendency of the Merger (including any cancellations of or delays in customer orders, any reduction in sales, any disruption in supplier, distributor, partner or similar relationships or any loss of employees); (E) any adverse change in NPI's assets or results of operations arising from actions taken by NPI reasonably intended to preserve the Closing Cash at a level sufficient to satisfy the condition set forth in Section 6.3(b); (F) any adverse change, effect, event, occurrence, state of facts or developments directly caused by, resulting from or attributable to conditions affecting the data storage or networking industries as a whole or the U.S. or world economies as a whole; (G) any adverse change, effect, event, occurrence, state of facts or development directly resulting from or attributable or relating to out-of-pocket fees and expenses (including legal, accounting, investment banking and other fees and expenses) incurred in connection with the transactions contemplated by this Agreement; or (H) any adverse change, effect, event, occurrence, state of facts or development directly caused by compliance with the terms of, or the taking of any action required by, this Agreement; and provided, further, that with respect to any dispute regarding whether any adverse change, effect, event, occurrence, state of facts or development is "directly caused" by any of the foregoing, the Representing Party shall have the burden of proof by a preponderance of the evidence. Each Representing Party has made available to the other copies of its certificate of incorporation and bylaws. Such copies of each Representing Party's certificate of incorporation and bylaws are complete and correct and in full force and effect, and the Representing Party is not in violation of any of the provisions of its certificate of incorporation or bylaws.

(b) Each of the Representing Party's Subsidiaries is listed in Section 3.1 of the Representing Party's Disclosure Schedule and is a corporation duly organized, validly existing and in good standing under the laws of its jurisdiction of incorporation or organization. Each of the Representing Party's Subsidiaries has the corporate power and authority required for it to own its properties and assets and to carry on its business as it is now being conducted and is duly qualified to do business and is in good standing in each jurisdiction in which the ownership of its properties or the conduct of its business requires such qualification, except for jurisdictions in which the failure to be so qualified or in good standing would not, individually or in the aggregate, be reasonably likely to have a Material Adverse Effect on the Representing Party, taken as a whole. All the outstanding shares of capital stock of, or other ownership interests in, the Representing Party's Subsidiaries are duly authorized, validly issued, fully paid and non-assessable and, with respect to such shares or ownership interests that are owned by the Representing Party and its Subsidiaries, are owned free and clear of all liens, claims, mortgages, encumbrances, pledges and security interests of any kind. All the outstanding shares of capital stock of, or other ownership interests in, the Representing Party's Subsidiaries are wholly owned by the Representing Party, directly or indirectly.

Section 3.2 Capital Stock.

(a) Section 3.2(a) of the Representing Party's Disclosure Schedule sets forth as of May 4, 2001: (i) the number of authorized shares of each class or

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

series of capital stock of the Representing Party; (ii) the number of shares of each class or series of capital stock of the Representing Party which are issued and outstanding; (iii) the number of shares of each class or series of capital stock which are held in the treasury of such Representing Party; (iv) the number of shares of each class or series of capital stock of the Representing Party which are reserved for issuance, indicating each specific reservation; and (v) the number of shares of each class or series of capital stock of such Representing Party which are subject to employee stock options or other rights to purchase or receive capital stock granted under such Person's stock option or other stock based employee or non-employee director benefit plans, indicating the name of the plan, the date of grant, the number of shares and the exercise price thereof.

A-9

(b) All the outstanding shares of capital stock of the Representing Party are, and all shares of NPI Common Stock to be issued in the Merger will be when issued in accordance with the terms of this Agreement, duly authorized, validly issued, fully paid and non-assessable and issued in compliance with all applicable U.S. state and federal securities laws. Except for the transactions contemplated by this Agreement, (i) there are no shares of capital stock of the Representing Party authorized, or as of the date of this Agreement, issued or outstanding, (ii) as of the date of this Agreement there are no authorized or outstanding options, warrants, calls, preemptive rights, subscriptions or other rights, agreements, arrangements or commitments of any character relating to the issued or unissued capital stock of the Representing Party or any of its Subsidiaries, obligating the Representing Party or any of its Subsidiaries to issue, transfer or sell or cause to be issued, transferred or sold any shares of capital stock or other equity interest in the Representing Party or any of its Subsidiaries or securities convertible into or exchangeable for such shares or equity interests, or obligating the Representing Party or any of its Subsidiaries to grant, extend or enter into any such option, warrant, call, subscription or other right, agreement, arrangement or commitment, (iii) there are no outstanding contractual obligations of the Representing Party or any of its Subsidiaries to repurchase, redeem or otherwise acquire any shares of capital stock of the Representing Party or any Subsidiary of the Representing Party or to provide funds to make any investment (in the form of a loan, capital contribution or otherwise) in any Subsidiary of the Representing Party or other entity, and (iv) there are no shareholder agreements, voting trusts or other agreements to which the Representing Party is a party or to which it is bound relating to the voting of any shares of the capital stock of the Representing Party (other than the Voting Agreements). With respect to the Company, (i) the holders of the Company Common Stock who are party to the Company Voting Agreement hold a sufficient number of shares of Company Common Stock (or securities convertible into Company Common Stock) to effect (A) the Company Stockholder Approval (as defined herein) and (B) the conversion into shares of Company Common Stock of all shares of Company common stock, and (ii) all stockholders, directors and officers of the Company are party to and bound by at least one of the following agreements that restricts such stockholder's rights to sell or dispose of shares of NPI Common Stock for a specified period following the consummation of the Merger: Company Voting Agreement, Company Lock-Up Agreement or the Stockholders Agreement.

Section 3.3 Corporate Authority Relative to this Agreement; No Violation.

(a) The Company has the corporate power and authority to enter into this Agreement and to carry out its obligations hereunder. The execution and delivery of this Agreement and the consummation of the transactions contemplated hereby have been duly and validly authorized by the Board of Directors of the Company and, except for obtaining the requisite approval of the stockholders of the Company (the "Company Stockholder Approval"), as

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

contemplated in Section 5.2 and the filing of the Certificate of Merger, no other corporate proceedings on the part of the Company are necessary to authorize the consummation of the transactions contemplated hereby. This Agreement has been duly and validly executed and delivered by the Company and, assuming this Agreement constitutes a valid and binding agreement of NPI, constitutes a valid and binding agreement of the Company, enforceable against the Company in accordance with its terms, except as may be limited by (i) bankruptcy laws and other similar laws affecting creditor's rights generally and (ii) general principles of equity.

(b) NPI has the corporate power and authority to enter into this Agreement and to carry out its obligations hereunder. The execution and delivery of this Agreement and the consummation of the transactions contemplated hereby have been duly and validly authorized by the Board of Directors of NPI, and other than the obtaining the requisite approval of the stockholders of NPI (the "NPI Stockholder Approval") as contemplated in Section 5.3 and the filing of the Certificate of Merger no other corporate proceedings on the part of NPI are necessary to authorize the consummation of the transactions contemplated hereby. The Board of Directors of NPI has taken all appropriate action so that Section 203 of Delaware Law will not be applicable to the Company or to NPI for any purpose. This Agreement has been duly and validly executed and delivered by NPI and, assuming this Agreement constitutes a valid and binding agreement of the Company, constitutes a valid and binding agreement of NPI, enforceable against NPI in accordance with its terms, except as may be limited by (i) bankruptcy laws and other similar laws affecting creditor's rights generally and (ii) general principles of equity.

A-10

(c) Except as may be required under, and other applicable requirements of, the Securities Act, the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder (the "Exchange Act"), the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the "HSR Act"), state securities or blue sky laws, and the rules and regulations of Nasdaq, and the filing of the Certificate of Merger under Delaware Law, none of the execution, delivery or performance of this Agreement by the Representing Party, the consummation by the Representing Party of the transactions contemplated hereby or compliance by the Representing Party with any of the provisions hereof will (i) conflict with or result in any breach of any provision of the certificate of incorporation, bylaws or similar organizational documents of the Representing Party or any of its Subsidiaries, (ii) require any filing with, or permit, authorization, consent or approval of, any federal, regional, state or local court, arbitrator, tribunal, administrative agency or commission or other governmental or other regulatory authority or agency, whether U.S. or foreign (a "Governmental Entity"), (iii) result in a violation or breach of, or constitute (with or without due notice or lapse of time or both) a default (or give rise to any right of termination, amendment, cancellation or acceleration) under, any of the terms, conditions or provisions of any note, bond, mortgage, indenture, lease, license, contract, agreement or other instrument or obligation to which the Representing Party or any of its Subsidiaries is a party or by which any of them or any of their properties or assets may be bound, or (iv) violate any order, writ, injunction, decree, judgment, permit, license, ordinance, law, statute, rule or regulation ("Law") applicable to the Representing Party, any of its Subsidiaries or any of their properties or assets, excluding from the foregoing clauses (ii), (iii) and (iv) such filings, permits, authorizations, consents, approvals, violations, breaches or defaults which are not, individually or in the aggregate, reasonably likely to have a Material Adverse Effect on the Representing Party or prevent or substantially delay the consummation of the transactions contemplated hereby.

(a) Subject to the terms and conditions of this Agreement, each party will use commercially reasonable efforts to take, or cause to be taken, all actions and to do, or cause to be done, all things necessary, proper or advisable under applicable Laws to consummate the Merger and the other transactions contemplated by this Agreement. Notwithstanding the foregoing or any other provision of this Agreement, nothing in this Section 5.4(b) shall (i) limit a party's right to terminate this Agreement pursuant to Section 7.2 so long as such party has up to then complied in all material respects with its obligations under this Section 5.4(b), or (ii) require NPI to dispose or hold separate any part of its or the Company's business or operations (or a combination of NPI's and the Company's business or operations), or comply with any other material restriction affecting its business or operations.

furnish nonpublic information to, or enter into discussions with, such Person, and the Company receives from such Person an executed confidentiality agreement containing customary limitations on the use and disclosure of all nonpublic written and oral information furnished to such Person by or on behalf of the Company, and (4) at least two business days prior to furnishing any such nonpublic information to such Person, the Company furnishes such nonpublic information to NPI (to the extent such nonpublic information has not been previously furnished by the Company to NPI). Immediately after the execution and delivery of this Agreement, the Company and its Subsidiaries will, and will use their commercially reasonable efforts to cause their affiliates, and their respective officers, directors, employees, consultants, contractors, investment bankers, attorneys, accountants and other agents and representatives to, cease and terminate any existing activities, discussions or negotiations with any parties conducted heretofore in respect of any possible Company Acquisition Proposal and shall immediately inform NPI of the receipt by the Company of any subsequent Company Acquisition Proposal. (ii) The Company board of directors will not withdraw or modify, or propose to withdraw or modify, in a manner adverse to NPI, its approval or recommendation of this Agreement or the Merger unless the Company board of directors, after consultation with independent legal counsel, determines in good faith that such action is necessary to avoid a breach by the Company board of directors of its fiduciary duties to the Company's stockholders. Nothing contained in this Section 5.5(a) shall prohibit the Company from making any disclosure to the Company's stockholders which, in the good faith reasonable judgment of the Company board of directors, after consultation with independent legal counsel, is required under applicable Law; provided, that except as otherwise permitted in this Section 5.5(a), the Company may not withdraw or modify, or propose to withdraw or modify, its position with respect to the Merger or approve or recommend, or propose to approve or recommend, a Company Acquisition Proposal. (ii) The NPI board of directors will not withdraw or modify, or propose to withdraw or modify, in a manner adverse to the Company, its approval or recommendation of this Agreement or the Merger unless the NPI board of directors, after consultation with independent legal counsel, determines in good faith that such action is necessary to avoid a breach by the NPI board of directors of its fiduciary duties to the NPI stockholders under applicable Law. Nothing contained in this Section 5.5(b) shall prohibit NPI from making any disclosure to the NPI stockholders which, in the good faith reasonable judgment of the NPI board of directors, after consultation with independent legal counsel, is required under applicable Law; provided, that except as otherwise permitted in this Section 5.5(b), NPI may not withdraw or modify, or propose to withdraw or modify, its position with respect to the Merger or approve or recommend, or propose to approve or recommend, an NPI Acquisition Proposal. Nothing in this Section 5.5(b) shall (A) permit NPI to terminate this Agreement or (B) affect any other obligations of NPI under this Agreement.

Section 5.6 Public Announcements. Each of NPI, Merger Sub and the Company will consult with one another before issuing any press release or otherwise making any public statements in respect of the transactions contemplated by this Agreement, including, the Merger, and shall not issue any such press release or make any such public statement prior to such consultation, except as may be required by applicable Law or by obligations pursuant to any listing agreement with Nasdaq, as determined by NPI, Merger Sub or the Company, as the case may be, a copy of which shall be sent simultaneously to the other party upon such release.

of, or pertaining to this Agreement or the transactions contemplated hereby, in each case to the fullest extent the Company is permitted under the Company's certificate of incorporation and/or bylaws in effect immediately prior to the Merger and under Delaware Law as the same exists or may hereafter be amended (but, in the case of any amendment, only to the extent that such amendment permits broader rights than such law permitted prior to such amendment and only to the extent such amendment is not retroactively applicable) to indemnify its own directors or officers, as the case may be. Without limiting the foregoing, in the event any such claim, action, suit, proceeding or investigation is brought against any Indemnified Parties (whether arising before or after the Effective Time), (a) the Indemnified Parties may retain counsel satisfactory to them and the Company or, from and after the Effective Time, the Surviving Corporation, and the Surviving Corporation or NPI, as applicable, shall pay all reasonable fees and expenses of such counsel for the Indemnified Parties promptly as statements therefor are received and otherwise advance to such Indemnified Party upon request reimbursement of reasonable documented expenses incurred, in either case to the fullest extent and in the manner permitted by Delaware Law; and (b) the Company or the Surviving Corporation, as applicable, will use all reasonable efforts to assist in the vigorous defense of any such matter, provided that neither the Company, NPI nor the Surviving Corporation shall be liable for any settlement effected without its prior written consent (which consent shall not be unreasonably withheld). Any Indemnified Party wishing to claim indemnification under this Section 5.7, upon learning of any such claim, action, suit, proceeding or investigation, shall promptly notify the Company (or after the Effective Time, the Surviving Corporation) (but the failure so to notify shall not relieve a party from any liability which it may have under this Section 5.7 except to the extent such failure materially prejudices such party), and shall to the extent required by the Company's certificate of incorporation and/or bylaws in effect immediately prior to the Merger and Delaware Law deliver to the Company (or after the Effective Time, the Surviving Corporation) the undertaking contemplated by the Company's certificate of

A-33

incorporation and/or bylaws in effect immediately prior to the Merger and Delaware Law. The Indemnified Parties as a group may retain only one law firm to represent them with respect to each such matter unless there is, under applicable standards of professional conduct, a conflict on any significant issue between the positions of any two or more Indemnified Parties.

(b) NPI, Merger Sub and the Company agree that all rights to indemnification and all limitations of liability existing in favor of the Indemnified Party as provided in the Company's certificate of incorporation and bylaws as in effect as of the date hereof shall survive the Merger and shall continue in full force and effect, without any amendment thereto, for a period of six years from the Effective Time to the extent such rights are consistent with Delaware Law; provided, that in the event any claim or claims are asserted or made within such six-year period all rights to indemnification in respect of any such claim or claims shall continue until disposition of any and all such claims; provided further, that any determination required to be made with respect to whether an Indemnified Party's conduct complies with the standards set forth under Delaware Law, the Company's certificate of incorporation or bylaws or such agreements, as the case may be, shall be made by independent legal counsel selected by the Indemnified Party and reasonably acceptable to NPI; and provided further, that nothing in this Section 5.7 shall impair any rights or obligations of any present or former directors or officers of the Company.

(d) NPI or the Surviving Corporation shall maintain directors' and officers' liability insurance ("D&O Insurance") for a period of not less than six years after the Effective Date; provided, that (i) the Surviving Corporation may substitute therefor policies of substantially similar coverage and amounts containing terms no less advantageous to such former directors or officers and (ii) if the existing D&O Insurance expires or is canceled during such period, NPI or the Surviving Corporation will use its commercially reasonable efforts to obtain substantially similar D&O Insurance, (iii) in no event shall NPI or the Surviving Corporation be required to expend an amount per year in excess of 150% of current annual premiums paid by NPI to maintain or procure D&O insurance pursuant hereto; and (iv) if the annual premiums of such D&O Insurance would exceed 150% of current annual premiums, NPI or the Surviving Corporation shall obtain a policy with the greatest coverage available for a cost not exceeding 150% of current annual premiums.

(a) NPI will cause the Surviving Corporation to honor the obligations of the Company under the provisions of all Benefit Plans and Employee Arrangements set forth in the Company's Disclosure Schedule,

After the Effective Time, the employees of the Company will be eligible to participate in the Company's Benefit Plans or, if so determined by NPI, NPI's applicable Benefit Plans, as such plans may be in effect from time to time, and, at NPI's sole discretion, will become employees of NPI. With respect to each such employee of the Company, service with the Company may be counted for purposes of determining periods of eligibility to participate or to vest in benefits under any applicable Benefit Plan of NPI. At NPI's sole discretion, administrative functions, including but not limited to payroll processing, may be transferred to processors of NPI's choosing.

ANNEX B

LEHMAN BROTHERS

March 30, 2001

Board of Directors
Network Peripherals Inc.
2859 Bayview Drive
Fremont, California 94538

Members of the Board:

We understand that Network Peripherals Inc. ("NPI" or the "Company") intends to enter into an option agreement (the "Option Agreement") with FalconStor, Inc. ("FalconStor") under which NPI will have an exclusive option (the "Option") to merge with FalconStor and that NPI intends to exercise the Option and merge FalconStor with a wholly owned subsidiary of NPI (the "Proposed Transaction"). In the Proposed Transaction, all of the issued and outstanding shares of capital stock of FalconStor and all outstanding, unexpired and unexercised options, warrants, convertible notes, and other rights to acquire or receive shares of FalconStor capital stock (collectively, the "FalconStor Equity") will be converted into the right to receive, in the aggregate, between 68.9% and 71.5% of the shares of common stock of NPI on a fully-diluted basis (the "Aggregate Consideration"). We further understand that the exact percentage of shares to be paid by the Company will vary depending on (1) the amount of cash, cash equivalents, short term investments and certain other assets held by the Company at the time of the Proposed Transaction, (2) the number of shares issued by FalconStor upon sale of its Series C Convertible Preferred Stock to investors other than NPI, (3) the number of vested, in-the-money options to purchase shares of NPI common stock outstanding at the time of the Proposed Transaction and (4) the number of vested, in-the-money options to purchase shares of FalconStor common stock outstanding at the time of the Proposed Transaction. The terms and conditions of the Proposed Transaction are set forth in more detail in the Option Agreement and the Agreement and Plan of Merger and Reorganization between NPI and FalconStor (collectively, the "Agreement").

We have been requested by the Board of Directors of the Company to render our opinion with respect to the fairness, from a financial point of view, to the Company of the Aggregate Consideration to be paid by the Company for the FalconStor Equity in the Proposed Transaction. We have not been requested to opine as to, and our opinion does not in any manner address, the Company's underlying business decision to proceed with or effect the Proposed Transaction.

In arriving at our opinion, we reviewed and analyzed: (1) the Agreement and the specific terms of the Proposed Transaction, (2) publicly available information concerning NPI that we believe to be relevant to our analysis, including the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 1999 and the Company's Quarterly Reports on Form 10-Q for the quarters ended March 31, June 30, and September 30, 2000 and the Company's earnings release for the quarter and fiscal year ended December 31, 2000, (3) financial and operating information with respect to the business,

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

operations and prospects of NPI furnished to us by NPI, including projections for the next five years prepared by the management of the Company (the "Company Projections"), (4) a trading history of the Company's common stock over the past one year and five years, and a comparison of that trading history with those of other companies that we deemed relevant, (5) financial and operating information with respect to the business, operations and prospects of FalconStor furnished to us by FalconStor, including projections for the next three years prepared by the management of FalconStor (the "FalconStor Projections"), (6) a comparison of the historical financial results and present financial condition of the Company and FalconStor with those of other companies that we deemed relevant, (7) a comparison of the financial terms of the Proposed Transaction with the financial terms of certain

B-1

other transactions that we deemed relevant, (8) a possible liquidation of the Company, including the cash that would be distributed to the Company's stockholders in connection with such liquidation, and (9) the results of our efforts to solicit indications of interest from third parties with respect to a purchase of the Company or its operating business. In addition, we have had discussions with the managements of FalconStor and NPI concerning the business, operations, assets, financial condition and prospects of FalconStor (including the FalconStor Projections) and discussions with the management of NPI concerning its business, operation, assets, financial condition and prospects, and have undertaken such other studies, analyses and investigations as we deemed appropriate.

In arriving at our opinion, we have assumed and relied upon the accuracy and completeness of the financial and other information used by us without assuming any responsibility for independent verification of such information and have further relied upon the assurances of management of the Company and FalconStor that they are not aware of any facts or circumstances that would make such information inaccurate or misleading. With respect to the Company Projections, upon advice of the Company we have assumed that such projections have been reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of the Company as to the future financial performance of the Company and that the Company will perform substantially in accordance with the Company Projections. With respect to the FalconStor Projections, upon advice of FalconStor and the Company we have assumed that such projections have been reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of FalconStor as to the future financial performance of FalconStor and that FalconStor will perform substantially in accordance with the FalconStor Projections. In arriving at our opinion, we have not conducted a physical inspection of the properties and facilities of FalconStor or the Company and have not made or obtained any evaluations or appraisals of the assets or liabilities of FalconStor or the Company. Our opinion necessarily is based upon market, economic and other conditions as they exist on, and can be evaluated as of, the date of this letter.

Based upon and subject to the foregoing, we are of the opinion as of the date hereof that, from a financial point of view, the Aggregate Consideration to be paid by the Company for the FalconStor Equity in the Proposed Transaction is fair to the Company.

The Company has agreed to indemnify us for certain liabilities that may arise out of the rendering of this opinion. We also have performed various investment banking services for the Company in the past and have received customary fees for such services. In the ordinary course of our business, we actively trade in the securities of the Company for our own account and for the accounts of our customers and, accordingly, may at any time hold a long or

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

short position in such securities.

This opinion is for the use and benefit of the Board of Directors of the Company and is rendered to the Board of Directors in connection with its consideration of the Proposed Transaction. This opinion is not intended to be and does not constitute a recommendation to any stockholder of the Company as to how such stockholder should vote with respect to the Proposed Transaction.

Very truly yours,

LEHMAN BROTHERS

ANNEX C

Delaware General Corporation Law, Section 262. APPRAISAL RIGHTS

(a) Any stockholder of a corporation of this State who holds shares of stock on the date of the making of a demand pursuant to the provisions of subsection (d) of this section with respect to such shares, who continuously holds such shares through the effective date of the merger or consolidation, who has otherwise complied with the provisions of subsection (d) of this Section and who has neither voted in favor of the merger or consolidation nor consented thereto in writing pursuant to Sec. 228 of this Chapter shall be entitled to an appraisal by the Court of Chancery of the fair value of his shares of stock under the circumstances described in subsections (b) and (c) of this Section.

(b) Appraisal rights shall be available for the shares of any class or series of stock or a constituent corporation in a merger or consolidation to be effected pursuant to Secs. 251, 252, 254, 257, 258 or 263 of this title:

(1) Provided, however, that no appraisal rights under this section shall be available for the shares of any class or series of stock which, at the record date fixed to determine the stockholders entitled to receive notice of and to vote at the meeting of stockholders to act upon the agreement of merger or consolidation, were either (i) listed on a national securities exchange or (ii) held of record by more than 2,000 stockholders; and further provided that no appraisal rights shall be available for any shares of stock of the constituent corporation surviving a merger if the merger did not require for its approval the vote of the stockholders of the surviving corporation as provided in subsection (f) of Sec. 251 of this title.

(2) Notwithstanding paragraph (1) of this subsection, appraisal rights under this section shall be available for the shares of any class or series of stock of a constituent corporation if the holders thereof are required by the terms of an agreement of merger or consolidation pursuant to Secs. 251, 252, 254, 257 and 258 of this title to accept for such stock anything except:

a. Shares of stock of the corporation surviving or resulting from such merger or consolidation;

b. Shares of stock of any other corporation which at the effective

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

date of the merger or consolidation will be either listed on a national securities exchange or held of record by more than 2,000 stockholders;

c. Cash in lieu of fractional shares of the corporations described in the foregoing subparagraphs a. and b. of this paragraph; or

d. Any combination of the shares of stock and cash in lieu of fractional shares described in the foregoing subparagraphs a., b., and c. of this paragraph.

(3) In the event all of the stock of a subsidiary Delaware corporation party to a merger effected under Sec. 253 of this title is not owned by the parent corporation immediately prior to the merger, appraisal rights shall be available for the shares of the subsidiary Delaware corporation.

(c) Any corporation may provide in its certificate of incorporation that appraisal rights under this section shall be available for the shares of any class or series of its stock as a result of an amendment to its certificate of incorporation, any merger or consolidation in which the corporation is a constituent corporation or the sale of all or substantially all of the assets of the corporation. If the certificate of incorporation contains such a provision, the procedures of this section, including those set forth in subsections (d) and (e) of this section, shall apply as nearly as is practicable.

(d) Appraisal rights shall be perfected as follows:

(1) If a proposed merger or consolidation for which appraisal rights are provided under this section is to be submitted for approval at a meeting of stockholders, the corporation not less than 20 days prior to the meeting, shall notify each of its stockholders entitled to such appraisal rights that appraisal rights are available for any or all of the shares of the constituent corporations, and shall include in such notice a copy of this section. Each stockholder electing to demand the appraisal of his shares shall deliver to the

C-1

corporation, before the taking of the vote on the merger or consolidation, a written demand for appraisal of his shares. Such demand will be sufficient if it reasonably informs the corporations of the identity of the stockholder and that the stockholder intends thereby to demand the appraisal of his shares. A proxy or vote against the merger or consolidation shall not constitute such a demand. A stockholder electing to take such action must do so by a separate written demand as herein provided. Within 10 days after the effective date of such merger or consolidation, the surviving or resulting corporation shall notify each stockholder of each constituent corporation who has complied with this subsection and has not voted in favor of or consented to the merger or consolidation of the date that the merger or consolidation has become effective; or

(2) If the merger or consolidation was approved pursuant to Sec. 228 or 253 of this title, the surviving or resulting corporation, either before the effective date of the merger or consolidation or within 10 days thereafter, shall notify each of the stockholders entitled to appraisal rights of the effective date of the merger or consolidation and that appraisal rights are available for any or all of the shares of the constituent corporation, and shall include in such notice a copy of this section. The notice shall be sent by certified or registered mail, return receipt requested, addressed to the stockholder at his address as it

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

appears on the records of the corporation. Any stockholder entitled to appraisal rights may, within 20 days after the date of mailing of the notice, demand in writing from the surviving or resulting corporation the appraisal of his shares. Such demand will be sufficient if it reasonably informs the corporation of the identity of the stockholder and that the stockholder intends to demand the appraisal of his shares.

(e) Within 120 days after the effective date of the merger or consolidation; the surviving or resulting corporation or any stockholder who has complied with subsections (a) and (d) hereof and who is otherwise entitled to appraisal rights, may file a petition in the Court of Chancery demanding a determination of the value of the stock of all such stockholders. Notwithstanding the foregoing, at any time within 60 days after the effective date of the merger or consolidation, any stockholder shall have the right to withdraw his demand for appraisal and to accept the terms offered upon the merger or consolidation. Within 120 days after the effective date of the merger or consolidation, any stockholder who has complied with the requirements of subsections (a) and (d) hereof, upon written request, shall be entitled to receive from the corporation surviving the merger or resulting from the consolidation a statement setting forth the aggregate number of shares not voted in favor of the merger or consolidation and with respect to which demands for appraisal have been received and the aggregate number of holders of such shares. Such written statement shall be mailed to the stockholder within 10 days after his written request for such a statement is received by the surviving or resulting corporation or within 10 days after expiration of the period for delivery of demands for appraisal under subsection (d) hereof, whichever is later.

(f) Upon the filing of any such petition by a stockholder, service of a copy thereof shall be made upon the surviving or resulting corporation, which shall within 20 days after such service file in the office of the Register in Chancery in which the petition was filed a duly verified list containing the names and addresses of all stockholders who have demanded payment for their shares and with whom agreements as to the value of their shares have not been reached by the surviving or resulting corporation. If the petition shall be filed by the surviving or resulting corporation, the petition shall be accompanied by such a duly verified list. The Register in Chancery, if so ordered by the Court, shall give notice of the time and place fixed for the hearing of such petition by registered or certified mail to the surviving or resulting corporation and to the stockholders shown on the list at the addresses therein stated. Such notice shall also be given by 1 or more publications at least 1 week before the day of the hearing, in a newspaper of general circulation published in the City of Wilmington, Delaware or such publication as the Court deems advisable. The forms of the notices by mail and by publication shall be approved by the Court, and the costs thereof shall be borne by the surviving or resulting corporation.

(g) At the hearing on such petition, the Court shall determine the stockholders who have complied with this section and who have become entitled to appraisal rights. The Court may require the stockholders who have demanded an appraisal for their shares and who hold stock represented by certificates to submit their certificates of stock of the Register in Chancery for notation thereon of the pendency of the appraisal

proceedings; and if any stockholder fails to comply with such direction, the Court may dismiss the proceedings as to such stockholder.

(h) After determining the stockholders entitled to an appraisal, the Court shall appraise the shares, determining their fair value exclusive of any element of value arising from the accomplishment or expectation of the merger

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

or consolidation, together with a fair rate of interest, if any, to be paid upon the amount determined to be the fair value. In determining such fair value, the Court shall take into account all relevant factors. In determining the fair rate of interest, the Court may consider all relevant factors, including the rate of interest which the surviving or resulting corporation would have had to pay to borrow money during the pendency of the proceeding. Upon application by the surviving or resulting corporation or by any stockholder entitled to participate in the appraisal proceeding, the Court may, in its discretion, permit discovery or other pretrial proceedings and may proceed to trial upon the appraisal prior to the final determination of the stockholder entitled to an appraisal. Any stockholder whose name appears on the list filed by the surviving or resulting corporation pursuant to subsection (f) of this section and who has submitted his certificate of stock to the Register in Chancery, if such is required, may participate fully in all proceedings until it is finally determined that he is not entitled to appraisal rights under this section.

(i) The Court shall direct the payment of the fair value of the shares, together with interest, if any, by the surviving or resulting corporation to the stockholders entitled thereto. Interest may be simple or compound, as the Court may direct. Payment shall be so made to each such stockholder, in the case of holders of uncertificated stock forthwith, and in the case of holders of shares represented by certificates upon the surrender to the corporation of the certificates representing such stock. The Court's decree may be enforced as other decrees in the Court of Chancery may be enforced, whether such surviving or resulting corporation be a corporation of this State or of any state.

(j) The costs of the proceeding may be determined by the Court and taxed upon the parties as the Court deems equitable in the circumstances. Upon application of a stockholder, the Court may order all or a portion of the expenses incurred by any stockholder in connection with the appraisal proceeding, including, without limitation, reasonable attorney's fees and the fees and expenses of experts, to be charged pro rata against the value of all the shares entitled to an appraisal.

(k) From and after the effective date of the merger or consolidation, no stockholder who has demanded his appraisal rights as provided in subsection (d) of this section shall be entitled to vote such stock for any purpose or to receive payment of dividends or other distributions on the stock (except dividends or other distributions payable to stockholders of record at a date which is prior to the effective date of the merger or consolidation); provided, however, that if no petition for an appraisal shall be filed within the time provided in subsection (e) of this section, or if such stockholder shall deliver to the surviving or resulting corporation a written withdrawal of his demand for an appraisal and an acceptance of the merger or consolidation, either within 60 days after the effective date of the merger or consolidation as provided in subsection (e) of this section or thereafter with the written approval of the corporation, then the right of such stockholder to an appraisal shall cease. Notwithstanding the foregoing, no appraisal proceeding in the Court of Chancery shall be dismissed as to any stockholder without the approval of the Court, and such approval may be conditioned upon such terms as the Court deems just.

(l) The shares of the surviving or resulting corporation to which the shares of such objecting stockholders would have been converted had they assented to the merger or consolidation shall have the status of authorized and unissued shares of the surviving or resulting corporation.

m. Further Assurance. Each party to this Agreement agrees (i) to furnish upon request to the other party such further information, (ii) to execute and deliver to the other party such other documents and (iii) to do such other acts and things as the other party reasonably requests for the purpose of carrying out the intent of this Agreement and the documents and instruments referred to herein.

e. Assignment. This Agreement and all of the provisions hereof shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns; provided, however, that neither this Agreement nor any of the rights, interests or obligations of the parties hereto may be assigned by any of the parties by operation of law or otherwise without the prior written consent of the other party.

The parties agree that irreparable damage would occur in the event that any of the provisions of this Agreement were not performed in accordance with their specific terms or were otherwise breached. It is accordingly agreed that the parties shall be entitled to an injunction or injunctions to prevent breaches of this Agreement and to enforce specifically the terms and provisions of this Agreement, this being in addition to any other remedy to which they are entitled at law or in equity.

g. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the choice of law principles hereof.

h. Parties in Interest. This Agreement shall be binding upon and inure solely to the benefit of each party hereto and its successors and permitted assigns, and nothing in this Agreement, express or implied, is intended to or shall confer upon any other person any rights, benefits or remedies of any nature whatsoever under or by reason of this Agreement.

i. Submission to Jurisdiction; Waivers; Consent to Service of Process. NPI and each of the Stockholders irrevocably agrees that any legal action or proceeding with respect to this Agreement or for recognition and enforcement of any judgment in respect hereof brought by another party hereto or its successors or assigns shall be brought and determined only in a United States District Court sitting in the State of Delaware, or in the event (but only in the event) that no such court has subject matter

Any service of process to be made in such action or proceeding may be made by delivery of process in accordance with the notice provisions contained in Section 4. NPI and each of the Stockholders hereby irrevocably waives, and agrees not to assert, by way of motion, as a defense, counterclaim or otherwise, in any action or proceeding with respect to this Agreement, (i) any claim that it is not personally subject to the jurisdiction of the above-named courts for any reason other than the failure to serve process in accordance with this Section 4(i), (ii) that it or its property is exempt or immune from jurisdiction of any such court or from any legal process commenced in such courts (whether through service of notice, attachment prior to judgment, attachment in aid of execution of judgment, execution of judgment or otherwise), and (iii) to the fullest extent permitted by applicable law that (A) the suit, action or proceeding in any such court is brought in an inconvenient forum, (B) the venue of such suit, action or proceeding is improper and (C) this Agreement, or the subject matter hereof, may not be enforced in or by such courts.

Whenever the words "include," "includes," or "including" are used in this Agreement, they shall be deemed to be followed by the words "without limitation." All terms defined in this Agreement shall have the defined meanings contained herein when used in any certificate or other document made or delivered pursuant hereto unless otherwise defined therein. The definitions contained in this Agreement are applicable to the singular as well as the plural forms of such terms and to the masculine as well as to the feminine and neuter genders of such terms. Any agreement, instrument, or statute defined or referred to herein or in any agreement or instrument that is referred to herein means such agreement, instrument, or statute as from time to time, amended, qualified or supplemented, including (in the case of agreements and instruments) by waiver or consent and (in the case of statutes) by succession of comparable successor statutes and all attachments thereto and instruments incorporated therein. References to a person are also to its permitted successors and assigns. The parties have participated jointly in the negotiation and drafting of this Agreement. In the event an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by the parties and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any provisions of this Agreement.

ANNEX F

WHEREAS, FalconStor desires to receive a capital investment from NPI to continue and expand its business.

WHEREAS, NPI has agreed to provide Twenty Five Million Dollars (\$25,000,000) of capital to FalconStor in the form of an equity investment (the "Equity Investment").

WHEREAS, contemporaneously with the execution of this Agreement, NPI and FalconStor are entering into and executing stock purchase and related agreements, including a registration rights agreement and an investors' rights agreement, to consummate the Equity Investment (the "Equity Investment Agreements").

WHEREAS, NPI and FalconStor have negotiated the terms upon which NPI proposes to enter into discussions to (i) invest in FalconStor, (ii) engage in a series of transactions whereby a wholly owned subsidiary of NPI will merge with and into FalconStor with FalconStor surviving as the continuing entity (the "Merger Transaction") and (iii) resolve certain other related matters.

WHEREAS, a substantial and material inducement to NPI to consummate the

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

Equity Investment is the grant by FalconStor to NPI of an option to execute the Merger Transaction and FalconStor's execution and delivery of this Agreement and the execution and delivery of the Voting Agreement (as defined below).

NOW, THEREFORE, for good and valuable consideration, including the execution and delivery of the Equity Investment Agreements, the receipt and sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

Section 1. Option to Merge with FalconStor. FalconStor hereby grants to NPI, and NPI accepts, an option to execute the Merger Transaction on the terms set forth in the Merger Agreement (as defined below) (the "Option"). The Option shall be irrevocable during the term of this Agreement and may be exercised by delivery of written notice to FalconStor of such exercise; provided, however, that the Option shall only be exercisable during the 14-day period (the "Exercise Period") immediately following (i) written notice by FalconStor to NPI of the issuance and sale of additional shares of Series C Convertible Preferred Stock (the "Series C Sale"), or (ii) four (4) weeks from the date of this Agreement, whichever occurs first, unless extended by the written consent of FalconStor and NPI. In the event of a Series C Sale, FalconStor shall deliver a notice within twenty-four (24) hours to NPI notifying NPI of such sale. Immediately upon exercise of the Option, the parties hereto will, acting at all times in good faith, take, or cause to be taken, all actions and do, or cause to be done, all things necessary, proper or advisable under applicable laws and regulations to execute and deliver a definitive agreement (the "Merger Agreement") to consummate the Merger Transaction on the terms set forth in the form of merger agreement attached hereto as Exhibit A as promptly as practicable after the date on which NPI exercises the Option, including (i) taking all corporate actions necessary to authorize, approve and direct the execution and delivery of the Merger Agreement, (ii) authorizing and directing their executive officers, accountants and legal counsel to devote all necessary resources, utilizing their best efforts, to achieve the execution and delivery of the Merger Agreement, (iii) preparing and filing as promptly as practicable all documentation to effect all necessary applications, notices, petitions, filings and other documents and to obtain as promptly as practicable all third party consents and all consents necessary or advisable to be obtained from any governmental entity in order to execute and deliver the Merger Agreement, (iv) taking all reasonable steps as may be necessary to obtain all such third party consents and consents of governmental entities necessary or advisable to be obtained from any governmental entity in order to execute and deliver the Merger Agreement

F-1

and (v) defending any actions challenging this Agreement or the Merger Agreement or the transactions contemplated hereby or thereby, including seeking to have any stay or temporary restraining order entered by any governmental entity vacated or reversed.

Section 2. Other Negotiations. During the term of this Agreement, neither NPI nor FalconStor will (and it will use its best efforts to ensure that its officers, directors, employees, agents and affiliates do not on its behalf) take any action to solicit, initiate, seek, encourage or support any inquiry, proposal or offer from, furnish any information to, or participate in any negotiations with, any corporation, partnership, person or other entity or group (each, a "Person") (other than discussions with the other party hereto) regarding any acquisition of such party, any merger or consolidation with such party, or any acquisition of all or substantially all of the stock or assets of such party, (an "Acquisition Proposal"); provided, however, that if, at any time during the term of this Agreement, the Board of Directors of either party by majority vote determines in good faith, after receiving advice from its outside counsel, that failing to take such action would constitute a breach of

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

the fiduciary duties of the such Board of Directors, such party may, in response to a bona fide written Acquisition Proposal which did not result from a breach of this Section 2 and which such Board of Directors determines in its reasonable judgment, to be more favorable to its stockholders (taking into account, among other things, all legal, financial, regulatory and other aspects of the proposal and identity of the offeror) as compared to the transactions contemplated by the Merger Agreement and which is reasonably capable of being consummated ("Superior Proposal"); provided, however, that any such offer shall not be deemed to be a Superior Proposal if any financing required to consummate the transaction contemplated by such offer is not committed and is not reasonably capable of being obtained by such third party, (i) furnish information or provide access with respect to such party and each of its subsidiaries to such Person pursuant to a customary confidentiality agreement (as determined by such party after consultation with its outside counsel) and (ii) participate in discussions and negotiations regarding such Superior Proposal (it being understood that neither the sale and issuance by FalconStor of additional shares of its Series C Convertible Preferred Stock nor the sale by NPI of any Assets, as defined in the Letter Agreement dated March 21, 2001 by and between NPI and FalconStor, shall breach or violate the terms of this Agreement). Each of NPI and FalconStor agrees that any such negotiations in progress as of the date hereof will be terminated or suspended until this Agreement is terminated pursuant to Section 5. Each party hereto will immediately notify the other party hereto regarding any contact by any third party regarding any offer, proposal or inquiry regarding any Acquisition Proposal. In no event will either party hereto accept or enter into an agreement concerning any such third party transaction prior to the Termination of this Agreement pursuant to Section 5. Each party hereto represents and warrants that it has the legal right to terminate or suspend any such pending negotiations and agrees to indemnify the other party hereto, its representatives and agents from and against any claims by any party to such negotiations based upon or arising out of the discussion or any consummation of the transactions contemplated by this Agreement.

Section 3. Representations and Warranties of FalconStor. FalconStor hereby represents and warrants to NPI as follows:

a. FalconStor has the corporate power and authority to enter into this Agreement and to carry out its obligations hereunder. The execution and delivery of this Agreement and the consummation of the transactions contemplated hereby have been duly and validly authorized by the Board of Directors of FalconStor, and no other corporate proceedings on the part of FalconStor are necessary to authorize the execution and delivery of this Agreement or the performance by FalconStor of its obligations hereunder. This Agreement has been duly and validly executed and delivered by FalconStor and constitutes a valid and binding agreement of FalconStor, enforceable against FalconStor in accordance with its terms.

b. The execution, delivery and performance of this Agreement and the consummation of the transactions contemplated hereby will not (i) conflict with or result in any breach of any provision of the certificate of incorporation, bylaws or similar organizational documents of FalconStor, or (ii) result in a violation or breach of, or constitute (with or without due notice or lapse of time or both) a default (or give rise to any right of termination, amendment, cancellation or acceleration) under, any of the terms,

F-2

conditions or provisions of any note, bond, mortgage, indenture, lease, license, contract, agreement or other instrument or obligation to which FalconStor is a party or by which any of its properties or assets may be

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

bound, or (iii) violate any order, writ, injunction, decree, judgment, permit, license, ordinance, law, statute, rule or regulation applicable to FalconStor or any of its properties or assets.

c. The holders of capital stock of FalconStor who are parties to the Voting Agreement (the "Holders"), attached hereto as Exhibit B (the "Voting Agreement"), hold a sufficient number of shares of FalconStor's Common Stock, Series A Preferred Stock and Series B Preferred Stock to approve the Merger Agreement and the transactions contemplated thereby.

d. To FalconStor's knowledge, each Holder has the power, corporate or otherwise, and authority to enter into the Voting Agreement and to carry out its obligations thereunder. To FalconStor's knowledge, the execution and delivery of the Voting Agreement and the consummation of the transactions contemplated thereby by each Holder have been duly and validly authorized by such Holder and no other proceedings, corporate or otherwise, on the part of the Holders are necessary to authorize the execution and delivery of the Voting Agreement or the performance by the Holders of their obligations thereunder. To FalconStor's knowledge, the Voting Agreement has been duly and validly executed and delivered by each Holder and constitutes a valid and binding agreement of such Holder, enforceable against such Holder in accordance with its terms.

The Board of Directors of NPI has received the opinion of Lehman Brothers Inc., substantially to the effect that as of the date hereof the consideration to be issued and delivered by NPI in the Merger Transaction is fair to NPI from a financial point of view. This Agreement has been duly and validly executed and delivered by NPI and constitutes a valid and binding agreement of NPI, enforceable against NPI in accordance with its terms.

b. The execution, delivery and performance of this Agreement and the consummation of the transactions contemplated hereby will not (i) conflict with or result in any breach of any provision of the certificate of incorporation, bylaws or similar organizational documents of NPI, or (ii) result in a violation or breach of, or constitute (with or without due notice or lapse of time or both) a default (or give rise to any right of termination, amendment, cancellation or acceleration) under, any of the terms, conditions or provisions of any note, bond, mortgage, indenture, lease, license, contract, agreement or other instrument or obligation to which NPI is a party or by which any of its properties or assets may be bound, or (iii) violate any order, writ, injunction, decree, judgment, permit, license, ordinance, law, statute, rule or regulation applicable to NPI or any of its properties or assets.

Section 5. Term; Termination; Effect of Termination.

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

d. In the event that (i) the Option is not exercised timely or (ii) the Merger Agreement is not executed and delivered by both FalconStor and NPI (A) within 14 days from the date of the exercise of the Option if the Option is exercised within the first seven (7) days of the Exercise Period or (B) if the Option is exercised with the second seven (7) days of the Exercise Period within the period starting on the

F-3

e. In the event that this Agreement terminates pursuant to Section 5(d) (provided that such termination of this Agreement under Section 5(d) is not due to FalconStor's failure to fulfill any obligation under this Agreement has been the cause of or resulted in the failure of the Merger Agreement to be executed and delivered by FalconStor by such date) then (i) NPI hereby covenants to vote all shares of preferred stock purchased by NPI pursuant to the Equity Investment Agreements in accordance with the recommendation of the Board of Directors of FalconStor, other than in respect of a Disposition Transaction (as that term is defined in the Certificate of Designations of the Series C Convertible Preferred Stock of FalconStor) in which case NPI shall vote as it deems appropriate and (ii) NPI shall concurrently (or on the following business day) pay to FalconStor a termination fee of \$3 Million.

f. In the event this Agreement is terminated pursuant to Section 5, this Agreement shall immediately become void and there shall be no liability or obligation on the part of NPI and FalconStor or their respective officers, directors, stockholders or affiliates except to the extent that the termination is a result of a willful and material breach by a party to this Agreement of any representation, warranty or covenant contained in this Agreement; provided, however, that the provisions of Section 6(k) and the obligations of NPI under Section 5(e) shall remain in full force and effect and survive any termination of this Agreement.

Network Peripherals Inc.

CHARTER OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

I. Purpose

The purpose of the Audit Committee (the "Committee") of the Board of Directors (the "Board") of Network Peripherals Inc. (the "Company") is to assist the Board in fulfilling its statutory and fiduciary oversight responsibilities relating to the Company's financial accounting, reporting and controls. The Committee's principal functions are to:

- . monitor the periodic reviews of the adequacy of the accounting and financial reporting processes and systems of internal control that are conducted by the Company's independent auditors, and the Company's financial and senior management;
- . review and evaluate the independence and performance of the Company's independent auditors; and
- . facilitate communication among the Company's independent auditors, the Company's financial and senior management, and the Board.

The Committee will fulfill these functions primarily by carrying out the activities enumerated in Part IV of this charter. In order to serve these functions, the Committee shall have unrestricted access to Company personnel and documents, and shall have authority to direct and supervise an investigation into any matters within the scope of its duties, including the power to retain outside counsel in connection with any such investigation.

While the Audit Committee has the responsibilities and powers set forth in this charter, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. This is the responsibility of management and the Company's independent auditors. Nor is it the duty of the Committee to conduct investigations, to resolve disagreements, if any, between management and its independent auditors or to assure compliance with laws and regulations and the Company's policies and procedures.

II. Membership

All members of the Committee will be appointed by, and shall serve at the discretion of, the Board. Unless a chair is elected by the full Board, the members of the Committee may designate a Chair by majority vote of the Committee membership.

As of the date this charter is adopted and until June 13, 2001, the Committee shall consist of at least two members of the Board. At least a majority of the members shall be persons who are not officers or employees of the Company or any subsidiary and who do not have any other relationship which, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. As of June 14, 2001, the Committee shall consist of three or more members of the Board, with the exact number being determined by the Board. Each member of the Committee shall be "independent" as defined by the rules of The Nasdaq Stock Market, as they may be amended from time to time (the "Rules"), except as

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

otherwise permitted by such Rules. Each member of the Committee shall have the ability to read and understand fundamental financial statements (or become able to do so within a reasonable time after joining the Committee) and at least one member shall have prior experience in accounting, financial management or financial oversight, as required by the Rules.

G-1

III. Meetings

Meetings of the Committee shall be held from time to time as determined by the Board. The Committee should periodically meet with the independent auditors out of the presence of management about internal controls, the fullness and accuracy of the Company's financial statements and any other matters that the Committee or these groups believe should be discussed privately with the Committee. The Committee members should communicate with management and the independent auditors on a quarterly basis in connection with their review of the Company's financial statements.

IV. Responsibilities and Duties

The following shall be the principal recurring processes of the Committee in carrying out its oversight responsibilities. These processes are set forth as a guide with the understanding that the Committee may supplement them as appropriate and may establish policies and procedures from time to time that it deems necessary or advisable in fulfilling its responsibilities.

1. Review the Company's quarterly and annual financial statements, including any report or opinion by the independent auditors, prior to distribution to the public or filing with the Securities and Exchange Commission.

2. In connection with the Committee's review of the annual financial statements:

- . Discuss with the independent auditors and management the financial statements and the results of the independent auditors' audit of the financial statements.
- . Discuss any items requiring communication by the independent auditors in accordance with SAS 61, as amended. These discussions should include the independent auditors' judgments about the quality and appropriateness of the Company's accounting principles, the reasonableness of significant judgments, the clarity of the disclosures in the Company's financial statements and any significant difficulties encountered during the course of the audit, including any restrictions on the scope of work or access to required information.

3. In connection with the Committee's review of the quarterly financial statements:

- . Discuss with the independent auditors and management the results of the independent auditors' SAS 71 review of the quarterly financial statements.
- . Discuss significant issues, events and transactions and any significant changes regarding accounting principles, practices, judgments or estimates with management and the independent auditors, including any significant disagreements among management and the independent auditors.

4. Discuss any comments or recommendations of the independent auditors outlined in their annual management letter. Approve a schedule for implementing

Edgar Filing: NETWORK PERIPHERALS INC - Form S-4

any recommended changes and monitor compliance with the schedule.

5. Discuss with the independent auditors and management their periodic reviews of the adequacy of the Company's accounting and financial reporting processes and systems of internal control, including the adequacy of the systems of reporting to the audit committee by each group.

6. Periodically consult with the independent auditors out of the presence of management about internal controls, the fullness and accuracy of the Company's financial statements and any other matters that the Committee or these groups believe should be discussed privately with the Committee.

7. Review the independence and performance of the independent auditors. Recommend to the Board of Directors the appointment or discharge of the independent auditors.

G-2

8. Communicate with the Company's independent auditors about the Company's expectations regarding its relationship with the auditors, including the following: (i) the independent auditors' ultimate accountability to the Board and the Committee, as representatives of the Company's stockholders; and (ii) the ultimate authority and responsibility of the Board and the Committee to select, evaluate and, where appropriate, replace the independent auditors.
