The compilation, dissemination and review of the information required to be presented in the Form 10-KSB for the relevant fiscal year has imposed time constraints that have rendered timely filing of the Form 10-KSB impracticable without undue hardship and expense to the registrant. The registrant undertakes the responsibility to file such annual report no later than fifteen days after its original date.

Yes No

If so: attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

It is anticipated that the Company's revenue will have increased by approximately 62% during the year ended December 31, 2002 as compared to the year ended December 31, 2001. This increase in revenue is attributed to the introduction of two new service lines in addition to its traditional Internet services. These new services include international/domestic leased lines and IP Data services and voice over IP services. These services have resulted in additional streams of revenue.
