**REPORT OF INDEPENDENT ACCOUNTANTS**

To the Participants and Administrator of  
The First American Corporation 401 (k) Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of The First American Corporation 401(k) Savings Plan (the Plan ) at December 31, 2001 and 2000, and the changes in the net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial of statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The schedule of assets (held at end of year) that accompany the Plan's financial statements does not disclose the historical cost of Plan assets held by the Plan trustee. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

**Table of Contents**

**THE FIRST AMERICAN CORPORATION 401(K) SAVINGS PLAN**

**NOTES TO FINANCIAL STATEMENTS**

**1. Description of the Plan**

The following description of The First American Corporation 401 (k) Savings Plan (the Plan ) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan 's provisions.

**General**

The Plan is a defined contribution profit sharing plan covering all U.S. employees of The First American Corporation (the Company ). An employee is eligible to participate in the Plan if the employee is at least 21 years of age and has been employed by the Company for at least 30 days. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ( ERISA ).

Upon enrollment in the Plan a participant may direct contributions in 1% increments to any of ten investment options, one of which is the option to invest in shares of the Company. Participants may change their investment options as of the first day of each calendar month, depending upon the completion of an appropriate form by a specified date.

Effective January 1 2001, the Company changed the trustee and record-keeper of the Plan from First American Trust, FSB to Fidelity Management Trust Company and Fidelity Investments Institutional Operations Company, respectively.

**Contributions**

Participants may contribute from 1% to 15% of pretax annual compensation, as defined by the Plan. Contributions are subject to certain limitations. The Company matches 50% of the first \$500 of a participant 's contribution. Additional amounts may be contributed by the Company at the option of the Company 's Board of Directors and are based on the pretax profitability of the Company for the year. Discretionary profit sharing contributions were \$17,316,697 and \$8,283,463 for the years ending December 31, 2001 and 2000, respectively. These amounts were paid by issuing First American Corporation stock. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

**Participant Accounts**

Each participant 's account is credited with the participant 's contributions and allocations of (a) the Company 's contributions and (b) the earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant 's vested account.

**Vesting**

Participants are immediately vested in their contributions and the Company 's contributions, plus actual earnings thereon.

**Payment of Benefits**

The plan allows for participant withdrawals in lump sum upon retirement, death, disability, termination or attainment of the eligible age as defined by the Plan. Participants may also withdraw up to 70% of their account balances, as defined by the Plan, in the event of financial hardship, which is determined pursuant to the provisions of the Internal Revenue Code ( IRC ).

**Loans**

Commencing August 1, 2001, a participant may borrow a portion of his account balance pursuant to rules and procedures established by the Plan 's administrative committee. The amount borrowed may not exceed the lesser of 50% of the value of the participant 's account balance or \$50,000 (which latter amount would be reduced if the participant had loans from the plan outstanding during the one-year period preceding the day on which any new loan from the plan would be made).

**Transfer**

On December 3, 2001, upon termination of the First American Corporation Employee Profit Sharing and Stock Ownership Plan, assets of \$106,686,073 were transferred to the Plan. In addition, \$21,023,332 of assets from other plans were transferred to the Plan.

**THE FIRST CORPORATION 401(K) SAVINGS PLAN**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**2. Summary of Significant Accounting Policies**

**Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

**Investment Valuation and Income Recognition**

Investments in mutual funds and common stock are stated at quoted market prices (except for the Money Market Fund, which is recorded at amortized cost which approximates market value). Security transactions are accounted for on the date securities are purchased or sold (trade date). Dividend income is recorded on the ex-dividend date. Interest income is recognized on an accrual basis as earned. Gains or losses from securities transactions are computed based on average cost. The Plan presents in the statement of changes in net assets available for benefits the net (depreciation) appreciation in the fair value of its investments which consists of the realized (losses) gains and the unrealized (depreciation) appreciation on those investments.

**Payment of Benefits**

Benefits are recorded when paid.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statement of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

**Risks and Uncertainties**

The Plan provides for various investment options in any combination of stocks, mutual funds and other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in circumstances in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

**Reclassifications**

Certain 2000 amounts were reclassified to conform to the 2001 presentation.

**Table of Contents****THE FIRST AMERICAN CORPORATION 401(K) SAVINGS PLAN****NOTES TO FINANCIAL STATEMENTS (Continued)****3. Investments**

The following presents investments that represent 5% or more of the Plan's net assets available for benefits:

	<b>December 31,</b>	
	<b>2001</b>	<b>2000</b>
Mutual funds:		
*Davis NY Venture A	\$ 26,770,700	
*Fidelity Balanced	20,776,977	
*Fidelity Low Price Stock	41,191,304	
*Fidelity Diversified International	22,549,460	
*Fidelity Large-Cap Stock	23,980,558	
*Fidelity Retire Money Market	36,836,343	
*Fidelity US Bond Index	17,802,180	
*Templeton Foreign Fund		22,055,292
*Schroder U.S. Smaller Companies Fund		32,849,970
*Performance Equity Fund Institutional Class		47,029,878
*T. Rowe Price U.S. Treasury Intermediate Fund		13,263,602
*First Choice Cash Reserve Fund Institutional Class		23,273,471
Common stock:		
*The First American Corporation	160,181,660	98,872,023
*Other	14,544,872	
*Denotes party-in-interest	\$ 364,634,054	\$ 237,344,236

During 2001 and 2000, the Plan's investments, including gains and losses on investments sold as held during the year, (depreciated) appreciated in value by (\$46,733,151) and \$61,820,452, respectively, as follows:

	<b>2001</b>	<b>2000</b>
Mutual funds	\$ (4,854,877)	\$ 441,094
Company common stock	(41,878,274)	61,379,358
	\$ (46,733,151)	\$ 61,820,452

**Investment Options**

For contributions made, the Plan provides several investment options, which are described below.

**Money Market Fund.** Money market funds invest in U.S. dollar denominated securities, such as bills, notes bonds and repurchase agreements. More than 25% of the total assets of the fund may be invested in the financial services industry. The objective of a money market fund is to seek current income that is consistent with the preservation of principal and liquidity.

**Bond Index Fund.** Bond funds invest in securities, such as bills, notes, bonds and other direct obligations issued by corporations and the United States Treasury. The bond index fund normally will invest at least 80% of its total assets in bonds included in the Lehman Brothers Aggregate Bond Index. The objective of a bond fund is to provide a higher level of current income than money market funds with minimal fluctuations in principal. The additional objective of the bond index fund is to seek results that correspond to the total return of the bonds in the Lehman Brothers Aggregate Bond Index while maintaining similar risk characteristics.

## Table of Contents

### THE FIRST AMERICAN CORPORATION 401(K) SAVINGS PLAN

#### NOTES TO FINANCIAL STATEMENTS (Continued)

**Balanced Fund.** Balanced funds invest a majority (generally not less than 60%) of their assets in equity securities and the remainder in bonds and other debt securities, including lower-quality debt securities. Balanced funds may invest in securities of domestic and foreign issuers. The objective of a balanced fund is to seek income and long-term growth of capital.

**Large Cap Equity Index Fund.** Equity index funds invest primarily in the common stocks that make up a widely recognized unmanaged index of common stocks. In our plan the equity index fund invests mainly in the common stocks of the 500 companies that make up the Standard and Poor's 500 index. The fund seeks to approximate the composition and total return of the Standard and Poor's 500 Index.

**Large Cap Growth Stock Fund.** Large cap growth stock funds invest primarily in common stocks of companies with large market capitalizations that the investment manager believes have more growth potential than other companies with similar market capitalizations. The objective is to seek long-term growth of capital.

**Large Cap Value Stock Fund.** Large cap value stock funds invest primarily in common stocks of companies with large market capitalizations that the investment manager believes are undervalued relative to the common stocks of other companies with similar market capitalizations. The objective is to seek long-term growth of capital.

**Small Growth Stock Fund.** Small cap growth stock funds invest primarily in common stocks of companies with small capitalizations and to some degree in companies with mid-size capitalizations that the investment manager believes have more growth potential than other companies with similar market capitalizations. While they have potential for significant growth, small capitalization companies tend to have greater risk than large capitalization companies. The objective is to seek long-term growth of capital.

**Small Cap Value Stock Fund.** Small cap value stock funds invest primarily in common stocks of companies with small capitalizations and to some degree in companies with mid-size capitalizations that the investment manager believes are undervalued relative to the common stocks of other companies with similar market capitalizations, thereby providing the potential for significant capital appreciation. Small capitalization companies tend to have greater risk than large capitalization companies. The objective is to seek long-term growth of capital.

**International Fund.** International funds invest primarily (normally at least 65% of their assets) in foreign securities. Normally, international stock funds invest primarily in common stocks. International funds carry additional risks, including political and economic uncertainties of foreign companies as well as the risk of currency fluctuations. The objective is to seek long-term growth of capital.

**Company Stock Fund.** This fund invests in the Common shares of The First American Corporation and such other assets, awaiting investment in First American shares, as the plan trustee considers advisable.

#### 4. Related Party Transactions

The Company, which qualifies as a party-in-interest, absorbs certain administrative expenses of the Plan. Such transactions qualify for a statutory exemption. Total expenses paid by the Company were \$220,590 and \$733,373 for the years ended December 31, 2001 and 2000, respectively.

#### 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the net assets of the Plan will be distributed to the participants in accordance with the provisions of ERISA.

#### 6. Federal Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated February 11, 1997, that the Plan is designated in accordance with applicable sections of the IRC and is, therefore, exempt from federal income taxes. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
