STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

In this annual report, references to “Eco-Trade,” “BOPT,” the “Company,” “we,” “us,” and “our,” refer to Eco-Trade Corp.

Except for the historical information contained herein, some of the statements in this report contain forward-looking statements that involve risks and uncertainties. These statements are found in the sections entitled "Business," "Management's Discussion and Analysis of Financial Condition and Results of Operations," and "Quantitative and Qualitative Disclosures about Market Risk." They include statements concerning: our business strategy; expectations of market and customer response; liquidity and capital expenditures; future sources of revenues; expansion of our proposed product line; and trends in industry activity generally. In some cases, you can identify forward-looking statements by words such as "may," "will," "should," "expect," "plan," "could," "anticipate," "intend," "believe," "estimate," "predict," "potential," "goal," or "continue" or similar terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including, but not limited to, the risks outlined under "Risk Factors," that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. For example, assumptions that could cause actual results to vary materially from future results include, but are not limited to our ability to successfully develop and market our products to customers; our ability to generate customer demand for our products in our target markets; the development of our target markets and market opportunities; our ability to manufacture suitable products at a competitive cost; market pricing for our products and for competing products; the extent of increasing competition; technological developments in our target markets and the development of alternate, competing technologies in them; and sales of shares by existing shareholders. Although we believe that the expectations reflected in the forward looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Unless we are required to do so under U.S. federal securities laws or other applicable laws, we do not intend to update or revise any forward-looking statements.

Item 1. Business

General Overview

Eco-Trade Corp. (f/k/a Yasheng Eco-Trade Corporation) is a Delaware corporation and was organized on November 9, 1992. It was a development stage company through December 1993. Eco-Trade Corporation and its consolidated subsidiaries are collectively referred to herein as “Eco-Trade” or the “Company.”

Effective December 8, 2010, the Company changed its name to “Eco-Trade Corp.” and effected a reverse-split of its issued and outstanding shares of common stock on a 100:1 basis pursuant to that certain Certificate of Amendment to

the Restated Certificate of Incorporation, as amended. Further, the Company's symbol been changed to "BOPT." FINRA implemented the name change, reverse split and symbol change effective December 9, 2010.

Business Strategy

Our business plan since 1993 has been identifying, developing and operating companies within emerging industries for the purpose of consolidation and sale if favorable market conditions exist. Although the Company primarily focuses on the operation and development of its core businesses, the Company pursues consolidations and sale opportunities in a variety of different industries, as such opportunities may present themselves, in order to develop its core businesses and additional areas outside of its core business. The Company may invest in other unidentified industries that the Company deems profitable. If the opportunity presents itself, the Company will consider implementing its consolidation strategy with its subsidiaries and any other business that it enters into a transaction.

The Company is continuing to pursue its ongoing core business, and is seeking a potential business combination. As of this filing, no such business combination has been found. The Company's present cash reserves and monetary assets are not sufficient to carry out its plan of operation without additional financing. The Company is currently attempting to arrange for financing through mezzanine arrangements, debt or equity that would enable it to proceed with its plan of investment operation. However, there is no guarantee that we will be able to close such financing transaction or, if financing is available, that the terms will be acceptable to the Company.

The Company's holdings in its subsidiaries at December 31, 2012 were as follows:

100% of DCG – discontinued operations

100% of Vortex Ocean One, LLC - discontinued operations

On April 15, 2010, the Company sold all its holdings in Micrologic for consideration of \$20,000.

On June 30, 2010, the Company entered into a Joint Venture Agreement (the "Agreement") with CMARK International, Inc. ("CMARK"), for the purpose of creating a jointly owned company to be named "Government Logistics Financing Group" or such other acceptable name ("Newcorp"), that will assist in implementing and servicing an existing backlog of services provided by CMARK in the areas of construction, interior systems and hospitality operations primarily to the U.S. Federal government and U.S. Federal government prime contractors. The authorized capital of Newcorp will consist of 100,000 shares of Common Stock, par value \$0.0001 per share. Upon creation of Newcorp, the Company will subscribe for 50 shares at an aggregate purchase price of \$1,000, and CMARK will subscribe for 50 shares at an aggregate purchase price of \$1,000. Newcorp will have a Board of Directors consisting of two members, one being designated by the Company and the other being designated by CMARK. Said Agreement has not been consummated

to date, as CMARK did not provide the Company with audited financial statements.

The Company's core business was the development of a logistics center in Southern California. That operation has been discontinued.

The Company's headquarters and operational offices are located at 1915 Eye Street, N.W., Washington, D.C. 20006.

Employees

As of December 31, 2012, the Company employed two full-time employees in executive and administrative functions. We believe that our relationship with our employees is good.

Property

The Company is operating only from its operational offices located at 1915 Eye Street, N.W., Washington, D.C. 20006. The Company will pay no rent until participation in lease expenses has been established.

Available Information

All reports of the Company filed with the SEC are available free of charge through the SEC's Web site at www.sec.gov. In addition, the public may read and copy materials filed by the Company at the SEC's Public Reference Room located at 100 F Street, N.E., Washington, D.C. 20549. The public may also obtain additional information on the operation of the Public Reference Room by calling the Commission at 1-800-SEC-0330.

Going Concern

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has a net loss allocable to common shareholders and cash used in operations of \$355,510 and \$161,000, respectively, for the year ended December 31, 2012. The Company had a working capital deficiency, stockholders' deficiency and accumulated deficit of \$1,444,809, \$1,444,809 and \$137,116,284, respectively, at December 31, 2012. In addition, the Company has no revenues and is in default on three promissory notes. These factors raise substantial doubt about

the ability of the Company to continue as a going concern for a reasonable period of time. The Company's continuation as a going concern is dependent upon its ability to generate revenues and its ability to continue receiving investment capital and loans from third parties to sustain its current level of operations. The Company is planning to do a business acquisition in 2013. The Company is in the process of securing working capital from investors for common stock convertible notes payable, and/or strategic partnerships. No assurance can be given that the Company will be successful in these efforts.

The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Item 1A. Risk Factors

The following important factors among others, could cause our actual operating results to differ materially from those indicated or suggested by forward-looking statements made in this Form 10-K or presented elsewhere by management from time to time.

There are numerous and varied risks, known and unknown, that may prevent us from achieving our goals. If any of these risks actually occur, our business, financial condition or results of operation may be materially adversely affected. In such case, the trading price of our common stock could decline and investors could lose all or part of their investment.

Risks Related to Our Business

We have sustained recurring losses since inception and expect to incur additional losses in the foreseeable future.

We were formed on November 9, 1992 and have reported annual net losses since inception. For our years ended December 31, 2012 and 2011, we experienced net losses allocable to common shareholders of \$355,510 and \$25,152,667, respectively. As of December 31, 2012, we had an accumulated deficit of \$137,116,284. In addition, we expect to incur additional losses in the foreseeable future, and there can be no assurance that we will ever achieve profitability. Our future viability, profitability and growth depend upon our ability to successfully operate, expand our operations and obtain additional capital. There can be no assurance that any of our efforts will prove successful or that we will not continue to incur operating losses in the future.

We do not have substantial cash resources and if we cannot raise additional funds or generate more revenues, we will not be able to pay our vendors and will probably not be able to continue as a going concern.

As of December 31, 2012, our available cash balance was \$0. We will need to raise additional funds to pay outstanding vendor invoices and execute our business plan. Our future cash flows depend on our ability to sell our products to retail establishments and/or license our products to third parties. There can be no assurance that additional funds will be available when needed from any source or, if available, will be available on terms that are acceptable to us.

We may be required to pursue sources of additional capital through various means, including joint venture projects and debt or equity financings. Future financings through equity investments will be dilutive to existing stockholders. Also, the terms of securities we may issue in future capital transactions may be more favorable for our new investors. Newly issued securities may include preferences, superior voting rights, the issuance of warrants or other convertible securities, which will have additional dilutive effects. Further, we may incur substantial costs in pursuing future capital and/or financing, including investment banking fees, legal fees, accounting fees, printing and distribution expenses and other costs. We may also be required to recognize non-cash expenses in connection with certain securities we may issue, such as convertible notes and warrants, which will adversely impact our financial condition and results of operations.

Our ability to obtain needed financing may be impaired by such factors as the weakness of capital markets and the fact that we have not been profitable, which could impact the availability or cost of future financings. If the amount of capital we are able to raise from financing activities, together with our revenues from operations, is not sufficient to satisfy our capital needs, even to the extent that we reduce our operations accordingly, we may be required to cease operations.

We have a limited operating history, and it may be difficult for potential investors to evaluate our business.

We began operations in November 1992. Our limited operating history makes it difficult for potential investors to evaluate our business or prospective operations. Since our formation, we have generated only limited revenues. There can be no assurance that our efforts will be successful or that we will be able to attain profitability.

Risks Relating to Our Organization and Our Common Stock

As a publicly registered company, we are subject to the reporting requirements of federal securities laws, which can be expensive and may divert resources from other projects, thus impairing our ability to grow.

We are a public reporting company and, accordingly, subject to the information and reporting requirements of the Exchange Act and other federal securities laws, including compliance with the Sarbanes-Oxley Act of 2002 (the “Sarbanes-Oxley Act”). The costs of preparing and filing annual and quarterly reports, proxy statements and other information with the SEC (including reporting of the Merger) and furnishing audited reports to stockholders will cause our expenses to be higher than a private company.

If we fail to establish and maintain an effective system of internal control, we may not be able to report our financial results accurately or to prevent fraud. Any inability to report and file our financial results accurately and timely could harm our reputation and adversely impact the trading price of our common stock.

It may be time consuming, difficult and costly for us to develop and implement the internal controls and reporting procedures required by the Sarbanes-Oxley Act. We may need to hire additional financial reporting, internal controls and other finance personnel in order to develop and implement appropriate internal controls and reporting procedures. Effective internal control is necessary for us to provide reliable financial reports and prevent fraud. If we cannot provide reliable financial reports or prevent fraud, we may not be able to manage our business as effectively as we would if an effective control environment existed, and our business and reputation with investors may be harmed. In addition, if we are unable to comply with the internal controls requirements of the Sarbanes-Oxley Act, then we may not be able to obtain the independent accountant certifications required by such act, which may preclude us from keeping our filings with the SEC current and may adversely affect any market for, and the liquidity of, our common stock.

Public company compliance may make it more difficult for us to attract and retain officers and directors.

The Sarbanes-Oxley Act and new rules subsequently implemented by the SEC have required changes in corporate governance practices of public companies. As a public company, we expect these new rules and regulations to increase our compliance costs and to make certain activities more time consuming and costly. As a public company, we also expect that these new rules and regulations may make it more difficult and expensive for us to obtain director and officer liability insurance in the future and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. As a result, it may be more difficult for us to attract and retain qualified persons to serve on our board of directors or as executive officers.

Because we are listed on the OTCQB, we may not be able to attract the attention of major brokerage firms.

There may be risks associated with us being public and listed on the OTCQB. Securities analysts of major brokerage firms may not provide coverage of us since there is no incentive to brokerage firms to recommend the purchase of our common stock. No assurance can be given that brokerage firms will, in the future, want to conduct any secondary offerings on our behalf.

Our stock price may be volatile.

The market price of our common stock is likely to be highly volatile and could fluctuate widely in price in response to various factors, many of which are beyond our control, including the following:

- changes in our industry;
- competitive pricing pressures;
- our ability to obtain working capital financing;
- additions or departures of key personnel;
- limited “public float” in the hands of a small number of persons whose sales or lack of sales could result in positive or negative pricing pressure on the market price for our common stock;
- sales of our common stock;
- our ability to execute our business plan;
- operating results that fall below expectations;
- loss of any strategic relationship;
- regulatory developments;
- economic and other external factors; and
- period-to-period fluctuations in our financial results.

In addition, the securities markets have from time to time experienced significant price and volume fluctuations that are unrelated to the operating performance of particular companies. These market fluctuations may also materially and adversely affect the market price of our common stock.

We may not pay dividends in the future. Any return on investment may be limited to the value of our common stock.

We do not anticipate paying cash dividends in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition and other business and economic factors affecting us at such time as our

board of directors may consider relevant. If we do not pay dividends, our common stock may be less valuable because a return on your investment will only occur if our stock price appreciates.

There is currently no liquid trading market for our common stock and we cannot ensure that one will ever develop or be sustained.

To date there has been limited liquid trading market for our common stock. We cannot predict how liquid the market for our common stock might become. As soon as is practicable after becoming eligible, we anticipate applying for listing of our common stock on either the NYSE Amex Equities, The NASDAQ Capital Market or other national securities exchange, assuming that we can satisfy the initial listing standards for such exchange. We currently do not satisfy the initial listing standards for any of these exchanges, and cannot ensure that we will be able to satisfy such listing standards or that our common stock will be accepted for listing on any such exchange. Should we fail to satisfy the initial listing standards of such exchanges, or our common stock is otherwise rejected for listing and remains quoted on the OTCQB or is suspended from the OTCQB, the trading price of our common stock could suffer and the trading market for our common stock may be less liquid and our common stock price may be subject to increased volatility.

Furthermore, for companies whose securities are quoted on the OTCQB, it is more difficult (i) to obtain accurate quotations, (ii) to obtain coverage for significant news events because major wire services generally do not publish press releases about such companies and (iii) to obtain needed capital.

Our common stock is currently considered a “penny stock,” which may make it more difficult for our investors to sell their shares.

Our common stock is currently considered a “penny stock” and may continue in the future to be subject to the “penny stock” rules adopted under Section 15(g) of the Exchange Act. The penny stock rules generally apply to companies whose common stock is not listed on The NASDAQ Stock Market or other national securities exchange and trades at less than \$5.00 per share, other than companies that have had average revenue of at least \$6,000,000 for the last three years or that have tangible net worth of at least \$5,000,000 (\$2,000,000 if the company has been operating for three or more years). These rules require, among other things, that brokers who trade penny stock to persons other than “established customers” complete certain documentation, make suitability inquiries of investors and provide investors with certain information concerning trading in the security, including a risk disclosure document and quote information under certain circumstances. Many brokers have decided not to trade penny stocks because of the requirements of the penny stock rules and, as a result, the number of broker-dealers willing to act as market makers in such securities is limited. If we remain subject to the penny stock rules for any significant period, it could have an adverse effect on the market, if any, for our securities. Since our securities are subject to the penny stock rules, investors may find it more difficult to dispose of our securities.

Offers or availability for sale of a substantial number of shares of our common stock may cause the price of our common stock to decline.

If our stockholders sell substantial amounts of our common stock in the public market, or upon the expiration of any statutory holding period under Rule 144, or issued upon the exercise of outstanding options or warrants, it could create a circumstance commonly referred to as an “overhang” and in anticipation of which the market price of our common stock could fall. The existence of an overhang, whether or not sales have occurred or are occurring, also could make more difficult our ability to raise additional financing through the sale of equity or equity-related securities in the future at a time and price that we deem reasonable or appropriate.

Our directors have the right to authorize the issuance of additional shares of our preferred stock and additional shares of our common stock.

Our directors, within the limitations and restrictions contained in our articles of incorporation and without further action by our stockholders, have the authority to issue shares of preferred stock from time to time in one or more series and to fix the number of shares and the relative rights, conversion rights, voting rights, and terms of redemption, liquidation preferences and any other preferences, special rights and qualifications of any such series. Any issuance of additional shares of preferred stock could adversely affect the rights of holders of our common stock. Should we issue additional shares of our common stock at a later time, each investor's ownership interest in our stock would be proportionally reduced. No investor will have any preemptive right to acquire additional shares of our common stock, or any of our other securities.

A sale of a substantial number of shares of the Company's common stock may cause the price of its common stock to decline.

If the Company's stockholders sell substantial amounts of the Company's common stock in the public market, the market price of its common stock could fall. These sales also may make it more difficult for the Company to sell equity or equity-related securities in the future at a time and price that the Company deems reasonable or appropriate.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

The Company is operating only from its operational offices located at 1915 Eye Street, N.W., Washington, D.C. 20006. The Company will pay no rent until participation in lease expenses has been established.

Item 3. Legal Proceedings

From time to time, we are a party to litigation or other legal proceedings that we consider to be a part of the ordinary course of our business. We are not involved currently in legal proceedings other than detailed below that could reasonably be expected to have a material adverse effect on our business, prospects, financial condition or results of operations. We may become involved in material legal proceedings in the future.

Loss Contingencies

Transfer Agent – On or about May 2011 the Company notified American Stock Transfer & Trust Company, LLS (“AST”) of the Company's intent to terminate their services as the Company Transfer Agent and subsequently appointing Select Fidelity Transfer Services Ltd (“Select”) as the company's new Transfer Agent. AST charged the Company with unacceptable amounts and only upon receipt of full payment will terminate servicers and forward all records pursuant to the Company's instructions. As the Company contest said charges, AST did not forward to select all records.

Edgar Filing: Eco-Trade Corp. - Form 10-K

On September 15, 2011, Vintage Filings, LLC filed a suit, *Vintage Filings, LLC v. Yasheng Eco-Trade Corporation*, in the Superior Court of the State of California, County of Los Angeles, Beverly Hills Courthouse – West District. The company being sued is the predecessor to Eco-Trade for \$12,515 for services allegedly rendered and recorded on the Company's books. The Company was not properly served in this matter. A hearing was scheduled for March 22, 2012 and the Company did not attend as the Company believes it was not properly served. The Company has recorded the liability accordingly.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market For Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market Information

Effective December 8, 2010, the Company changed its name to “Eco-Trade Corp.” and the symbol changed to “BOPT.”

For the periods indicated, the following table sets forth the high and low bid prices per share of common stock. These prices represent inter-dealer quotations without retail markup, markdown, or commission and may not necessarily represent actual transactions. For the periods indicated, the following table sets forth the high and low bid prices per share of common stock. These prices represent inter-dealer quotations without retail markup, markdown, or commission and may not necessarily represent actual transactions.

	For the Years Ended			
	December 31, 2012		December 31, 2011	
	High	Low	High	Low
First Quarter	\$0.54	\$0.0751	\$0.59	\$0.35
Second Quarter	\$0.368	\$0.1401	\$0.33	\$0.32
Third Quarter	\$0.275	\$0.08	\$0.30	\$0.19
Fourth Quarter	\$0.48	\$0.26	\$0.34	\$0.08

The Company’s transfer agent is Fidelity Transfer Services, Inc., 5073 Central Avenue #907, Bonita, CA 91908.

Holder of Common Stock

As of December 31, 2012, the Company had 103,854,499 shares of common stock issued and 103,854,489 outstanding (net of 10 treasury shares) and 10 shareholders of record.

Dividends

It has been the policy of the Company to retain earnings, if any, to finance the development and growth of its business. Other than cumulative dividends payable upon any future declaration by our Board of Directors, per the terms of Preferred Shares Series E Certificate of Designation., the Company did not accrue or declared dividend.

Securities authorized for issuance under equity compensation plans

The Company does not have any equity compensation plans.

Penny Stock

Our common stock is considered "penny stock" under the rules the Securities and Exchange Commission (the "SEC") under the Securities Exchange Act of 1934. The SEC has adopted rules that regulate broker-dealer practices in connection with transactions in penny stocks. Penny stocks are generally equity securities with a price of less than \$5.00, other than securities registered on certain national securities exchanges or quoted on the NASDAQ Stock Market System, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or quotation system. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock, to deliver a standardized risk disclosure document prepared by the Commission, that:

- contains a description of the nature and level of risks in the market for penny stocks in both public offerings and secondary trading;

- contains a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to a violation to such duties or other requirements of Securities' laws; contains a brief, clear, narrative description of a dealer market, including bid and ask prices for penny stocks and the significance of the spread between the bid and ask price;

- contains a toll-free telephone number for inquiries on disciplinary actions;

- defines significant terms in the disclosure document or in the conduct of trading in penny stocks; and

contains such other information and is in such form, including language, type, size and format, as the Commission shall require by rule or regulation.

The broker-dealer also must provide, prior to effecting any transaction in a penny stock, the customer with:

- bid and offer quotations for the penny stock;
- the compensation of the broker-dealer and its salesperson in the transaction;
- the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and
- monthly account statements showing the market value of each penny stock held in the customer's account.

In addition, the penny stock rules that require that prior to a transaction in a penny stock not otherwise exempt from those rules; the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written acknowledgement of the receipt of a risk disclosure statement, a written agreement to transactions involving penny stocks, and a signed and dated copy of a written suitability statement.

These disclosure requirements may have the effect of reducing the trading activity in the secondary market for our stock.

Item 6. Selected Financial Data.

As a smaller reporting company, as defined in Rule 12b-2 of the Exchange Act, we are not required to provide the information required by this Item.

Item 7. Management's Discussion And Analysis Of Financial Condition And Results Of Operations

This report on Form 10-K contains forward-looking statements within the meaning of Rule 175 of the Securities Act of 1933, as amended, and Rule 3b-6 of the Securities Act of 1934, as amended, that involve substantial risks and uncertainties. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about our industry, our beliefs and our assumptions. Words such as "anticipate", "expects", "intends", "plans", "believes", "seeks" and "estimates" and variations of these words and similar expressions are intended to

identify forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this Form 10-K. Investors should carefully consider all of such risks before making an investment decision with respect to the Company's stock. The following discussion and analysis should be read in conjunction with our consolidated financial statements and summary of selected financial data for Eco-Trade Corp. Such discussion represents only the best present assessment from our Management.

The following Management Discussion and Analysis should be read in conjunction with the consolidated financial statements and accompanying notes included in this Form 10-K.

COMPARISON OF THE YEAR ENDED DECEMBER 31, 2012 TO THE YEAR ENDED DECEMBER 31, 2011

Results of Operations

Selling, General and Administrative Expenses. For the year ended December 31, 2012, selling, general and administrative expenses were \$88,157 compared to \$221,304 for the same period in 2011, a decrease of 60.2%. This decrease was due to the Company reducing its costs due to no operations in 2012.

Net Loss. We generated a net loss allocable to common shareholders of \$355,510 for the year ended December 31, 2012 compared to \$25,152,667 for the same period in 2011, a decrease of 98.6%. The decrease is primarily due to the loss on settlement of debt in 2011 of \$24,541,579.

Liquidity and Capital Resources

General. At December 31, 2012, we had cash and cash equivalents of \$0. We have historically met our cash needs through investments and/or loans by third parties. Our cash requirements are generally for selling, general and administrative activities. We believe that our cash balance is not sufficient to finance our cash requirements for expected operational activities, capital improvements, and partial repayment of debt through the next 12 months.

Our operating activities used cash of \$161,000 for the year ended December 31, 2012, and we used cash in operations of \$0 during the same period in 2011. The principal elements of cash flow from operations for the year ended December 31, 2012 included a net loss allocable to common shareholders of \$355,510 offset by cumulative preferred stock dividends of \$210,000, a gain on settlement of liability of \$18,166, amortization of stock options of \$14,063, and changes in operating liabilities of \$11,387.

Cash used in investing activities during the year ended December 31, 2012 was \$0 compared to \$0 during the same period in 2011. Zero investments were attributable to the Company not making acquisitions as there were no requirements during fiscal year 2012 and 2011.

Cash generated in our financing activities was \$161,000 for the year ended December 31, 2012, compared to cash generated of \$0 during the comparable period in 2011.

As of December 31, 2012 and 2011, the Company did not have current assets. As of December 31, 2012, current liabilities increased from \$1,313,362 at December 31, 2011 to \$1,444,809 at December 31, 2012. The increase was primarily due to an increase in notes payable.

	For the years ended December 31,	
	2012	2011
Cash used in operating activities	\$(161,000)	\$ –
Cash used in investing activities	–	–
Cash provided by financing activities	161,000	–
Net changes to cash	\$–	\$ –

Research and Development

In fiscal years 2012 and 2011, we incurred no expenses on research and development.

Inflation

Management believes that the impact of inflation on our operations has not been material.

Off-Balance Sheet Arrangements

We have not entered into any transactions with unconsolidated entities in which we have financial guarantees, subordinated retained interests, derivative instruments or other contingent arrangements that expose us to material continuing risks, contingent liabilities or any other obligations under a variable interest in an unconsolidated entity that provides us with financing, liquidity, market risk or credit risk support.

Critical Accounting Policies

Stock-based compensation - The Company follows ASC Topic 718, “Share-Based Payment”. Under ASC Topic 718, the Company is required to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. The measured cost is recognized in the statement of operations over the period during which an employee is required to provide service in exchange for the award. Additionally, if an award of an equity instrument involves a performance condition, the related compensation cost is recognized only if it is probable that the performance condition will be achieved.

The Company estimates the fair value of each option award on the date of the grant using the Black-Scholes option valuation model. Expected volatilities are based on the historical volatility of the Company’s common stock over a period commensurate with the options’ expected term. The expected term represents the period of time that options granted are expected to be outstanding and is calculated in accordance with SEC guidance provided in the SAB 107, using a “simplified” method. The risk-free interest rate assumption is based upon observed interest rates appropriate for the expected term of the Company’s stock options.

Item 7A. Quantitative And Qualitative Disclosures About Market Risk

As the Company is a “smaller reporting company,” this item is inapplicable.

Item 8. Financial Statements and Supplementary Data.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of:

Eco-Trade Corp.

We have audited the accompanying consolidated balance sheets of Eco-Trade Corp. and Subsidiaries at December 31, 2012 and 2011, and the related consolidated statements of operations, changes in shareholders' equity (deficiency) and cash flows for each of the two years in the period ended December 31, 2012. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Eco-Trade Corp. and Subsidiaries as of December 31, 2012 and 2011, and the consolidated results of its operations and its cash flows for each of the two years in the period ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has a net loss allocable to common shareholders and cash used in operations in 2012 of \$355,510 and \$161,000, respectively, and has a working capital deficiency, stockholders' deficiency and accumulated deficit of \$1,444,809, \$1,444,809 and \$137,116,284, respectively, at December 31, 2012. In addition, the Company has no revenues and is in default on three promissory notes. These matters raise substantial doubt about the Company's ability to continue as a going concern. Management's plan in regards to these matters is also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ECO-TRADE CORP.

Notes to Consolidated Financial Statements

December 31, 2012 and 2011

NOTE 1 - Nature of Operations, Summary of Significant Accounting Policies and Going Concern

Nature of operations – The Company is exploring new opportunities as of December 31, 2012 (see Note 7).

Principles of consolidation - The consolidated financial statements include the accounts of the Company, its majority-owned subsidiaries and all variable interest entities for which the Company is the primary beneficiary. When relevant, all intercompany balances and transactions have been eliminated upon consolidation. Control is determined based on ownership rights or, when applicable, whether the Company is considered the primary beneficiary of a variable interest entity.

Variable Interest Entities - The Company is required to consolidate variable interest entities (“VIE’s”), where it is the entity’s primary beneficiary. VIE’s are entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The primary beneficiary is the party that has exposure to a majority of the expected losses and/or expected residual returns of the VIE.

For the years ending December 31, 2012 and 2011, the balance sheets and results of operations of Davy Crockett Gas Company, LLC (“DCG”), and Vortex Ocean One, LLC (“Vortex One”) are consolidated into these financial statements (these corporations have no activities).

Use of estimates - The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Significant estimates in the accompanying consolidated financial statements include valuation of stock issued in note settlements, the value of stock options granted, the valuation of put premiums, and the valuation allowance on deferred tax assets.

Fair value measurements - The Company adopted ASC Topic 820, Fair Value Measurements. ASC Topic 820 clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1-Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2-Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3-Inputs are unobservable inputs which reflect the reporting entity's own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

Fair value of financial instruments - The carrying values of notes and loans payable, accounts payable, and accrued expenses approximate fair values due to the current maturity of these instruments.

Treasury Stock - Treasury stock is recorded at cost. Issuance of treasury shares is accounted for on a first-in, first-out basis. Differences between the cost of treasury shares and the re-issuance proceeds are charged to additional paid-in capital.

Foreign currency translation - The Company considers the United States Dollar ("US Dollar" or "\$") to be the functional currency of the Company and its subsidiaries. The reporting currency of the Company is the US Dollar and accordingly, all amounts included in the consolidated financial statements have been presented or translated into US Dollars. In prior years for non-US subsidiaries that do not utilize the US Dollar as its functional currency, assets and liabilities are translated to US Dollars at period-end exchange rates, and income and expense items are translated at weighted-average rates of exchange prevailing during the period. Translation adjustments were recorded in "Accumulated other comprehensive income" within stockholders' equity. Foreign currency transaction gains and losses are included in the consolidated results of operations for the periods presented.

Comprehensive income (loss) - Comprehensive income includes all changes in equity except those resulting from investments by and distributions to shareholders.

ECO-TRADE CORP.

Notes to Consolidated Financial Statements

December 31, 2012 and 2011

Cash and cash equivalents - Cash and cash equivalents include cash at bank and money market funds with maturities of three months or less at the date of acquisition by the Company.

Earnings (loss) per share - Basic earnings (loss) per share are computed by dividing income (loss) attributable to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings (loss) per share reflect the effect of dilutive potential common shares issuable upon exercise of stock options and warrants, conversion of preferred stock or other common stock equivalents. At December 31, 2011 there were 7,430,000 common stock equivalents that were not included in the computation of net loss per share as they would have been antidilutive. There were convertible notes and accrued interest convertible into approximately 1,389,798 shares of common stock and convertible preferred shares convertible into 6,050,000 common shares at December 31, 2012 that were not included in diluted loss per share in 2012 since the effect would have been anti-dilutive. These shares, which may vary significantly in quantity based on the conversion formula, may dilute future earnings per share.

Income taxes - Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets are reduced by a valuation allowance if it is more likely than not that some portion or all of the deferred tax asset will not be realized. Deferred tax assets and liabilities, are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Under ASC Topic 740, the evaluation of a tax position is a two-step process. The first step is to determine whether it is more likely than not that a tax position will be sustained upon examination, including the resolution of any related appeals or litigation based on the technical merits of that position. The second step is to measure a tax position that meets the more-likely-than-not threshold to determine the amount of benefit to be recognized in the financial statements. A tax position is measured at the largest amount of benefit that is greater than 50% likelihood of being realized upon ultimate settlement. Tax positions that previously failed to meet the more-likely-than-not recognition threshold should be recognized in the first subsequent period in which the threshold is met. Previously recognized tax positions that no longer meet the more-likely-than-not criteria should be de-recognized in the first subsequent financial reporting period in which the threshold is no longer met. ASC Topic 740 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosures, and transition.

Stock-based compensation - The Company follows ASC Topic 718, “Share-Based Payment”. Under ASC Topic 718, the Company is required to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. The measured cost is recognized in the statement of operations over the period during which an employee is required to provide service in exchange for the award. Additionally, if an award of an equity instrument involves a performance condition, the related compensation cost is recognized only if it is probable that the performance condition will be achieved.

The Company estimates the fair value of each option award on the date of the grant using the Black-Scholes option valuation model. Expected volatilities are based on the historical volatility of the Company’s common stock over a period commensurate with the options’ expected term. The expected term represents the period of time that options granted are expected to be outstanding and is calculated in accordance with SEC guidance provided in the SAB 107, using a “simplified” method. The risk-free interest rate assumption is based upon observed interest rates appropriate for the expected term of the Company’s stock options.

Effect of Recent Accounting Pronouncements

Accounting standards that have been issued or proposed by FASB that do not require adoption until a future date are not expected to have a material impact on the financial statements upon adoption.

ECO-TRADE CORP.**Notes to Consolidated Financial Statements****December 31, 2012 and 2011****Going Concern**

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company sustained a net loss allocable to common shareholders and used cash in operations of \$355,510 and \$161,000, respectively, for the year ended December 31, 2012. The Company had a working capital deficiency, stockholders' deficiency and accumulated deficit of \$1,444,809, \$1,444,809 and \$137,116,284, respectively, at December 31, 2012.

In addition, the Company has no revenues and is in default on three promissory notes. These factors raise substantial doubt about the ability of the Company's to continue as a going concern for a reasonable period of time. The Company's continuation as a going concern is dependent upon its ability to generate revenues and its ability to continue receiving investment capital and loans from third parties to sustain its current level of operations. The Company is in the process of securing working capital from investors for common stock convertible notes payable, and/or strategic partnerships. No assurance can be given that the Company will be successful in these efforts.

The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 2 - Note and Convertible Notes Payable

The convertible notes payable as of December 31, 2012 and 2011 were as follows:

December 31, 2012		December 31, 2011	
	Principal and Accrued Interest net of Premium	Principal and Accrued Interest net of Premium	Principal and Accrued Interest net of Premium
Principal and Accrued Interest	Premium	Principal and Accrued Interest	Premium

Edgar Filing: Eco-Trade Corp. - Form 10-K

Convertible Notes D	\$212,139	\$49,726	\$261,865	\$185,287	\$49,726	\$235,013
Convertible Note C	189,622	44,448	234,070	165,621	44,448	210,069
Total	\$401,761	\$94,174	\$495,935	\$350,908	\$94,174	\$445,082

Defaults upon Convertible Notes - As of December 31, 2012 the Company is in default on its convertible notes C and D since payment is past the May 30, 2011 due dates. The Company applied the default rate (18% per annum) to those notes from the default date.

F-8

ECO-TRADE CORP.

Notes to Consolidated Financial Statements

December 31, 2012 and 2011

Convertible Note C (Mr. Schaffer, a former Director) – On May 31, 2010 as consideration for accrued Directors Fees, which were not paid, the Company signed a Note Payable for \$133,344 payable to holder (who resigned from the Board on June 11, 2010) due on May 30, 2011 at 12% per annum. Originally, said Note in the amount of \$133,344 is convertible to 150,000 common shares of the Company, which per an adjustment mechanism may increase the amount of shares to be issued, if converted. The Note's adjustment mechanism states that the number of Conversion Shares issuable to the Lender shall be adjusted such that the aggregate number of Exchange Shares issuable to the Holder is equal to (a) 150,000 plus the actual legal fees and costs incurred by the Lender and the Lender's successors, designees and assigns, divided by (b) 75% of the volume-weighted average price for the 20 trading days following delivery of the Conversion Shares, calculated by dividing the aggregate value of Common Stock traded on its trading market (price multiplied by number of shares traded) by the total volume (number of shares) of Common Stock traded on the trading market for such trading day. If this adjustment requires the issuance of additional Conversion Shares to the Lender (i.e. if a total issuance of more than 150,000 shares is required), such additional Conversion Shares shall be issued to the Lender or its designee within one business day. If this adjustment requires the return of Conversion Shares to the Borrower (i.e. if an aggregate issuance of less than 150,000 shares is required), such Conversion Shares shall be promptly returned to the Borrower. The Company determined that due to the conversion price being a fixed percentage of a future trading price, the debt is convertible at a fixed monetary amount and therefore meets the criteria of stock settled debt under ASC 480 "Distinguishing Liabilities from Equity. Accordingly, the Company recorded a \$44,448 premium to the promissory note liability to accrete it to the fixed monetary value of \$177,792 with a charge to interest expense in the year the note originated.

Convertible Note D (Mr. Reich, a former director) – On May 31, 2010 as consideration for accrued Directors Fees, which were not paid, the Company signed a Note Payable for \$149,177 payable to holder (who resigned from the Board on June 11, 2010) due on May 30, 2011 at 12% per annum. Originally, said Note in the amount of \$149,177 is convertible to 150,000 common shares of the Company, which per an adjustment mechanism may increase the amount of shares to be issued, if converted. The Note's adjustment mechanism states that the number of Conversion Shares issuable to the Lender shall be adjusted such that the aggregate number of Exchange Shares issuable to the Holder is equal to (a) 150,000 plus the actual legal fees and costs incurred by the Lender and the Lender's successors, designees and assigns, divided by (b) 75% of the volume-weighted average price for the 20 trading days following delivery of the Conversion Shares, calculated by dividing the aggregate value of Common Stock traded on its trading market (price multiplied by number of shares traded) by the total volume (number of shares) of Common Stock traded on the trading market for such trading day. If this adjustment requires the issuance of additional Conversion Shares to the Lender (i.e. if a total issuance of more than 150,000 shares is required), such additional Conversion Shares shall be issued to the Lender or its designee within one business day. If this adjustment requires the return of Conversion Shares to the Borrower (i.e. if an aggregate issuance of less than 150,000 shares is required), such Conversion Shares shall be promptly returned to the Borrower. The Company determined that due to the conversion price being a fixed percentage of a future trading price, the debt is convertible at a fixed monetary amount and therefore meets the criteria

of stock settled debt under ASC 480 "Distinguishing Liabilities from Equity. Accordingly, the Company recorded a \$49,726 premium to the promissory note liability to accrete it to the fixed monetary value of \$198,903 with a charge to interest expense in the year the note originated.

Note Payable

During 2012, the Company executed two promissory notes for \$157,000 and \$4,000 on December 31, 2012 and July 20, 2012, respectively, relating to expenses paid by third parties on behalf of the Company. The notes accrued interest at 10% and 6% , respectively, and are due December 30, 2013 and October 18, 2012, respectively. The \$4,000 note is in default as of December 31, 2012. The total balances due including interest was \$161,122, at December 31, 2012.

NOTE 3 - Stockholders' Equity

Common Stock:

Commencing May 2011 through November 2011 the company negotiated with notes holders (Notes: A, B and E) to convert their convertible notes into the Company Common Stock at terms different than the contractual conversion terms. Accordingly, the Company issued an aggregate 102,051,781 common shares in exchange for \$1,843,206 of principal and accrued interest. The shares were valued at their quoted trading prices on the respective settlement date resulting in a total value of \$39,694,341. Since shares were issued in excess of the amount that would have been received under the contractual terms of the convertible notes, the 69,206,173 excess shares were valued at \$24,541,578 which was recognized as a net loss on conversion in the accompanying consolidated financial statements in 2011.

On November 6, 2011, the Company and The One Media Technology Corporation ("One Media") executed a Letter of Intent ("One Media LOI") with the intent to enter a Share Purchase Agreement ("One Media SPA"). The One Media SPA would provide One Media 90% of the shares of the Company.

In January 2012, the Company issued 100,000,000 shares of common stock in regards to the One Media LOI. The shares are returnable if the One Media SPA is not completed. The One Media transaction will not be completed and the Company intends to cancel these shares.

ECO-TRADE CORP.

Notes to Consolidated Financial Statements

December 31, 2012 and 2011

Preferred Stock:

Series E - Based on settlement agreement dated April 15, 2010 for monetary amounts of \$2,000,000 that were paid in cash and accumulative agreed balance of \$3,000,000, the parties agreed that the holder will convert its notes (at agreed amount of \$3,000,000) into a new class of Series E Preferred Stock ("E Preferred Stock").

Each share of E Preferred Stock is convertible, at any time at the option of the holder, into 20 shares of Common Stock. Holders of the E Preferred Stock are entitled to receive, when declared by the Company's board of directors, annual dividends of \$0.70 per share of Preferred Stock paid annually (equates to a 7% annualized return). Such dividends may be paid, at the election of the Company, either (i) in cash or (ii) in restricted shares of Common Stock. In the event that the Company elects to issue shares of Common Stock in connection with the dividend on the E Preferred Stock, such dividend shares shall be determined by dividing the dividend amount by 110% of the volume-weighted average price of the common stock for the 20 trading days immediately preceding the record date for payment of such dividend (the "Dividend VWAP"); provided, however, if the Company is unable to determine the Dividend VWAP, then such dividend shall be determined by dividing the dividend amount by the average of the three highest closing bid prices during the 20 trading days immediately preceding the record date for payment of such dividend. As of December 31, 2012 and 2011, no dividends have been accrued since no dividends have been declared by the Board of Directors. Cumulative dividends as of December 31, 2012 were \$504,575, or \$1.68 per share.

In addition to any voting rights provided by law, holders of the E Preferred Stock will have the right to vote together with holders of Common Stock and other series of preferred stock as a single class on all matters upon which stockholders are entitled to vote, including election of the members of the Company's Board of Directors. Each share of E Preferred Stock will have the number of votes corresponding to the number of shares of Common Stock into which the E Preferred Stock may be converted on the record date for determining stockholders entitled to vote.

In the event of any liquidation or winding up of the Company, the holders of E Preferred Stock will be entitled to receive, in preference to holders of Common Stock, an amount equal to the original purchase price per share, plus interest of 15%.

Holder has contractually agreed to restrict its ability to convert the preferred stock and receive shares of Common Stock such that the number of shares of Common Stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the Company's then issued and outstanding shares of common stock.

On May 9, 2011, the Board of Directors of the Company approved the amendment of the Certificate of Designation of the Series E Preferred Stock whereby the beneficial ownership limitations contained in the Series E Preferred Stock were terminated.

Series F

Each share of F Preferred Stock is convertible, at any time at the option of the holder, into 5 shares of Common Stock. Holders of the F Preferred Stock are not entitled to receive dividends and do not have liquidation rights.

In addition to any voting rights provided by law, holders of the F Preferred Stock will have the right to vote together with holders of Common Stock and other series of preferred stock as a single class on all matters upon which stockholders are entitled to vote, including election of the members of the Company's Board of Directors. Each share of F Preferred Stock will have the number of votes corresponding to the number of shares of Common Stock into which the F Preferred Stock may be converted on the record date for determining stockholders entitled to vote multiplied by 10.

The Company entered into letter agreements with four persons to be directors of the Company, whereby each of the directors agreed to serve as directors of the Company in consideration of 10,000 shares of Series F Preferred Stock (the "F Preferred Stock"). On October 25, 2010, three of them resigned from the Board of Directors, and agreed to surrender their Series F Preferred shares to the Company for cancellation. As a result of this event, Mr. Lieberman, our CEO through 2012, is the sole remaining holder of the 10,000 Series F Preferred shares still outstanding after the event.

Treasury Stock

As of December 31, 2012, the Company has 10 treasury shares in its possession which been purchased in the open market per a repurchase program in a previous year.

ECO-TRADE CORP.**Notes to Consolidated Financial Statements****December 31, 2012 and 2011**Stock Option Plans

Upon resignation of the entire Board of Directors in June 2010 all remaining outstanding stock options were forfeited. The previous stock option plan was cancelled and no options were outstanding at December 31, 2011.

On December 18, 2012, the Company approved the 2012 Stock Option Plan under which 10,000,000 shares were reserved for issuance.

The Company has granted options to employees in December 2012. Options activity for the year ended December 31, 2012 is as follows:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Terms	Aggregate Intrinsic Value
Outstanding at December 31, 2011	–	\$ –		
Granted	750,000	\$ 0.45		
Exercised	–	\$ –		
Forfeited	–	\$ –		
Expired	–	\$ –		
Outstanding at December 31, 2012	750,000	\$ 0.45	\$ 4.97	\$ 15,750
Weighted Average Grant Date Fair Value		\$ 0.45		

On December 18, 2012, the Company granted its new directors 750,000 options for common stock. The options vest monthly over one year, have a five-year life, and have an exercise price of \$0.45 per common share. The options were valued at \$0.45 per option or \$337,500 using the Black-Scholes option pricing model and using expected volatility of 688% and expected term of three years computed using the simplified method for director grant. For the year ended December 31, 2012, the Company recognized compensation expense of \$14,063.

NOTE 4 - Commitments and Contingencies

Employment Agreement:

In March 2013, William Lieberman resigned as chief executive officer and director. At the same time, the Company appointed Canon Bryan as chief executive officer.

Lease Agreements:

Effective May 6, 2011, the Company is operating only from its operational offices, on month to month basis, located in Washington, D.C.

Legal Proceedings:

From time to time, we are a party to litigation or other legal proceedings that we consider to be a part of the ordinary course of our business. We are not involved currently in legal proceedings other than those detailed below that could reasonably be expected to have a material adverse effect on our business, prospects, financial condition or results of operations. We may become involved in material legal proceedings in the future.

Notes to Consolidated Financial Statements

December 31, 2012 and 2011

Loss Contingencies

Transfer Agent – On or about May 2011 the Company notified American Stock Transfer & Trust Company, LLS (“AST”) of the Company’s intent to terminate their services as the Company Transfer Agent and subsequently appointing Select Fidelity Transfer Services Ltd (“Select”) as the company’s new Transfer Agent. AST charged the Company with unacceptable amounts and only upon receipt of full payment will terminate servicers and forward all records pursuant to the Company’s instructions. As the Company contest said charges, AST did not forward to Select all records.

On September 15, 2011, Vintage Filings, LLC filed a suit, *Vintage Filings, LLC v. Yasheng Eco-Trade Corporation*, in the Superior Court of the State of California, County of Los Angeles, Beverly Hills Courthouse – West District. The company being sued is the predecessor to Eco-Trade for \$12,515 for services allegedly rendered and recorded on the Company’s books. The Company was not properly served in this matter. A hearing was scheduled for March 22, 2012 and the Company did not attend as the Company believes it was not properly served. The Company has recorded the liability accordingly.

ECO-TRADE CORP.

Notes to Consolidated Financial Statements

December 31, 2012 and 2011

Commitments

Commitment of Issuance of Preferred Stock - Series D – Not issued yet - On December 30, 2009, the Company entered into a Preferred Stock Purchase Agreement dated as of December 30, 2009 (the “Agreement”) with Socius Capital Group, LLC, a Delaware limited liability company d/b/a Socius Life Sciences Capital Group, LLC including its designees, successors and assigns (the “Investor”). Pursuant to the Agreement, the Company will issue to the Investor up to \$5,000,000 of the Company’s newly created Series D Preferred Stock (the “Preferred Stock”). The purchase price of the Preferred Stock is \$10,000 per share. The shares of Preferred Stock that are issued to the Investor will bear a cumulative dividend of 10.0% per annum, payable in shares of Preferred Stock, will be redeemable under certain circumstances and will not be convertible into shares of the Company’s common stock (the “Common Stock”). Subject to the terms and conditions of the Agreement, the Company has the right to determine (1) the number of shares of Preferred Stock that it will require the Investor to purchase from the Company, up to a maximum purchase price of \$5,000,000, (2) whether it will require the Investor to purchase Preferred Stock in one or more tranches, and (3) the timing of such required purchase or purchases of Preferred Stock. The terms of the Preferred Stock are set forth in a Certificate of Designations of Preferences, Rights and Limitations of Series D Preferred Stock (the “Preferred Stock Certificate”) that the Company filed with the Delaware Secretary of State on December 18, 2009. Pursuant to the Agreement, the Company agreed to pay the Investor a commitment fee of \$250,000 (the “Commitment Fee”), payable at the earlier of the six monthly anniversary of the execution of the Agreement or the first tranche. The Company has the right to elect to pay the Commitment Fee in immediately available funds or by issuance of shares of Common Stock. Concurrently with its execution of the Agreement, the Company issued to the Investor a warrant (the “Warrant”) to purchase shares of Common Stock with an aggregate exercise price of up to \$6,750,000 depending upon the amount of Preferred Stock that is purchased by the Investor. Each time that the Company requires the Investor to purchase shares of Preferred Stock, a portion of the Warrant will become exercisable by the Investor over a five-year period for a number of shares of Common Stock equal to (1) the aggregate purchase price payable by the Investor for such shares of Preferred Stock multiplied by 135%, with such amount divided by (2) the per share Warrant exercise price. The initial exercise price under the Warrant is \$0.022 per share of Common Stock. Thereafter, the exercise price for each portion of the Warrant that becomes exercisable upon the Company’s election to require the Investor to purchase Preferred Stock will equal the closing price of the Common Stock on the date that the Company delivers its election notice. The Investor is entitled to pay the Warrant exercise price in immediately available funds, by delivery of cash, a secured promissory note or, if a registration statement covering the resale of the Common Stock subject to the Warrant is not in effect, on a cashless basis. Pursuant to the Agreement, the Company agreed to file with the Securities and Exchange Commission a registration statement covering the resale of the shares of Common Stock that are issuable to the Investor under the Warrant and in satisfaction of the Commitment Fee. As of December 31, 2012,

the Company has not paid the Commitment Fee, has received no funding and therefore have not issued in equity instruments under this agreement.

On November 6, 2011, the Company and The One Media Technology Corporation (“One Media”) executed a Letter of Intent (“One Media LOI”) with the intent to enter into a Share Purchase Agreement (“One Media SPA”). The One Media SPA would provide One Media 90% of the shares of the Company. The Company believes this transaction will not close and intends to cancel the shares which are being held in escrow.

F-13

ECO-TRADE CORP.

Notes to Consolidated Financial Statements

December 31, 2012 and 2011

NOTE 5 - Related Party Transactions

At December 31, 2012, \$7,500 included in accrued expenses – related party was due to our Chief Executive Officer and Chief Financial Officer as accrued compensation. At December 31, 2012 and 2011, \$0 and \$53,979, respectively, included in accrued expense – related party was due to our CEO.

At December 31, 2012 and 2011, \$1,773 and \$25,000, respectively, was due to our attorney for legal services and included in accounts payable – related party. Our attorney is also a director and officer of the Company.

NOTE 6 - Income Taxes

For the fiscal year 2012 and 2011, there was no provision for income taxes and deferred tax assets have been entirely offset by valuation allowances.

As of December 31, 2012, the Company has net operating loss carry forwards of approximately \$40,729,004. The carry forwards expire through the year 2032. The Company's net operating loss carry forwards may be subject to annual limitations, which could reduce or defer the utilization of the losses as a result of an ownership change as defined in Section 382 of the Internal Revenue Code. The Tax Acts of some jurisdictions contain provisions which may limit the net operating loss carry forwards available to be used in any given year if certain events occur, including significant changes in ownership interests. As a result of various equity transactions, management believes the Company experienced an "ownership change" in the second half of 2006, a second time in the first half of 2008 in lieu of a transaction (which was approved by the Company shareholders as ownership change), and again in May through November 2011, as defined by Section 382 of the Internal Revenue Code, which limits the annual utilization of net operating loss carry forwards incurred prior to the ownership change. As calculated, the Section 382 limitation does not necessarily impact the ultimate recovery of the U.S. net operating loss; although it will defer the realization of the tax benefit associated with certain of the net operating loss carry forwards.

Edgar Filing: Eco-Trade Corp. - Form 10-K

The Company's income tax expense (benefit) differs from the "expected" tax expense for Federal income tax purposes computed by applying a Federal corporate tax rate of 34% to loss before income taxes as follows:

	For the Years Ended December 31,	
	2012	2011
Tax expense (benefit) at the statutory rate	\$(49,473)	\$(8,480,507)
State income taxes, net of federal income tax benefit	(5,282)	(14,559)
Loss on debt settlement	–	8,344,137
Change in valuation allowance	54,755	150,929
Total	\$–	\$–

The tax effects of temporary differences that give rise to significant portions of deferred tax assets and liabilities at December 31, 2012 and 2011 are as follows:

	2012	2011
Deferred tax assets:		
Net operating loss carryforward	\$ 15,326,324	\$ 15,271,569
Less: Deferred tax asset valuation allowance	(15,326,324)	(15,271,569)
Total net deferred taxes	\$–	\$–

The valuation allowance at December 31, 2012 was estimated at \$15,326,324 since it is not more likely than not that it will be realized. Additionally, the realizability of the net operating loss carryforward may be less due to the change of control in 2011.

ECO-TRADE CORP.

Notes to Consolidated Financial Statements

December 31, 2012 and 2011

The Company believes its tax positions are all highly certain of being upheld upon examination. As such, the Company has not recorded a liability for unrecognized tax benefits. As of December 31, 2012, tax years 2009, 2010, 2011 and 2012 remain open for IRS audit. The Company has received no notice of audit from the Internal Revenue Service for any of the open tax years.

NOTE 7 - Pending Acquisitions

In November 2012 the Company executed an agreement to acquire a limited liability company which holds an oil lease. As of the date of this report, the acquisition has not closed since consideration has not been transferred due to certain conditions not being satisfied.

Item 9. Changes In and Disagreements With Accountants On Accounting And Financial Disclosure

None.

Item 9A. Controls And Procedures

Evaluation of Disclosure Controls and Procedures

The Securities and Exchange Commission defines the term “disclosure controls and procedures” to mean a company's controls and other procedures of an issuer that are designed to ensure that information required to be disclosed in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to the issuer’s management, including its chief executive and chief financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. The Company maintains such a system of controls and procedures in an effort to ensure that all information which it is required to disclose in the reports it files under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified under the SEC's rules and forms and that information required to be disclosed is accumulated and communicated to chief executive and chief financial officers to allow timely decisions regarding disclosure.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are not effective to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC rules and forms, and that such information is accumulated and communicated to our management, including our certifying officer, to allow timely decisions regarding the required disclosure.

Management’s Annual Report on Internal Control over Financial Reporting

The management of the Company is responsible for the preparation of the financial statements and related financial information appearing in this Annual Report on Form 10-K. The financial statements and notes have been prepared in

conformity with accounting principles generally accepted in the United States of America (“GAAP”). The management of the Company is also responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. A company's internal control over financial reporting is defined as a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect our transactions and dispositions of our assets;

- Provide reasonable assurance that our transactions are recorded as necessary to permit preparation of our financial statements in accordance with GAAP, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and

- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Management, including the Chief Executive Officer and Chief Financial officer, does not expect that the Company's disclosure controls and internal controls will prevent all error and all fraud. Because of its inherent limitations, a system of internal control over financial reporting can provide only reasonable, not absolute, assurance that the objectives of the control system are met and may not prevent or detect misstatements. Further, over time, control may become inadequate because of changes in conditions or the degree of compliance with the policies or procedures may deteriorate.

With the participation of the Chief Executive Officer and Chief Financial Officer, our management evaluated the effectiveness of the Company's internal control over financial reporting as of December 31, 2012 based upon the framework in Internal Control –Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on that evaluation, our management has concluded that, as of December 31, 2012, the Company had material weaknesses in its internal control over financial reporting. Specifically, management identified the following material weaknesses at December 31, 2012:

1. Lack of a functioning audit committee, resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures;
2. Lack of segregation of duties over financial transaction processing and reporting;
3. Ineffective controls and insufficient written policies and procedures over the period end financial disclosure and reporting processes; and
4. Lack of accounting personnel knowledgeable in GAAP and SEC rules and regulations regarding accounting.

As a result of the material weakness described above, management has concluded that, as of December 31, 2012, we did not maintain effective internal control over financial reporting, involving the preparation and reporting of our financial statements presented in conformity with GAAP.

We understand that remediation of material weaknesses and deficiencies in internal controls are a continuing work in progress due to the issuance of new standards and promulgations. However, remediation of any known deficiency is among our highest priorities. Our management will periodically assess the progress and sufficiency of our ongoing initiatives and make adjustments as and when practical and necessary.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to the rules of the SEC that permit us to provide only management's report in this annual report.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

The Company's management, including the CEO and CFO, does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, the design of the control system must reflect that there are resource constraints and that the benefits must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

Item 9B. Other Information.

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

All directors of our Company hold office until the next annual meeting of the security holders or until their successors have been elected and qualified. The officers of our Company are appointed by our board of directors and hold office until their death, resignation or removal from office. Our directors and executive officers, their ages, positions held, and duration as such, are as follows:

Name	Age	Position
Canon Bryan	39	Director, Chief Executive Officer
John Pinsent	52	Director, Chief Financial Officer

Biographies of Directors and Officers

Canon Bryan was appointed as a director in December 2012 and as our chief executive officer in March 2013. Mr. Bryan has held chair management positions for numerous publicly-listed and privately held companies in North America, including CEO of Thorium One International Limited, a nuclear technology and resources company, CEO

of Vico Energy Corp, an uranium exploration company, vice president of Corp Development, and co-founder of Quantum Rare Earth Development Corp (QRE: TSXV, the largest niobium deposit in North America), vice president of Corp Development for Uranium Energy Corp (UEC: AMEX, UEC is a producer of ISR uranium in the United States. Mr. Bryan completed his professional studies in accounting with the Certified General Accountants Association of Canada at the University of British Columbia in Vancouver.

John Pinsent was appointed as a director and as our chief financial officer in December 2012. Mr. Pinsent has held Director, Audit Committee and Chair positions for numerous publicly-listed companies including Liberty Mines, Inc. (TSX), Hyduke Energy Services (TSX), Synodon, Inc. (TSX.V), Innovotech, Inc. (TSX.V), and Enterprise Oilfield Group (TSX.V). Additionally, Mr. Pinsent had a distinguished ten-year career with Ernst and Young LLP as Assurance Senior Manager and their Director of Technology, Communication and Entertainment (TCE) assurance services for Northern Alberta, as well as founding partner of St. Amaud Pinsent Steman Chartered Accountants. Mr. Pinsent earned his ICD.D from the Institute of Corporate Directors in 2010. Mr. Pinsent has Bachelor of Education and Bachelor of Commerce (AD) degrees from the University of Alberta.

Our directors are elected at the annual meeting of the shareholders, with vacancies filled by the Board of Directors, and serve until their successors are elected and qualified, or their earlier resignation or removal. Officers are appointed by the board of directors and serve at the discretion of the board of directors or until their earlier resignation or removal. Any action required can be taken at any annual or special meeting of stockholders of the corporation which may be taken without a meeting, without prior notice and without a vote, if consent of consents in writing setting forth the action so taken, shall be signed by the holders of the outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted and shall be delivered to the corporation by delivery to its registered office, its principle place of business, or an officer or agent of the corporation having custody of the book in which the proceedings of meetings are recorded.

Indemnification of Directors and Officers

Delaware Corporation Law allows for the indemnification of officers, directors, and any corporate agents in terms sufficiently broad to indemnify such persons under certain circumstances for liabilities, including reimbursement for expenses, incurred arising under the 1933 Act. The Bylaws of the Company provide that the Company will indemnify its directors and officers to the fullest extent authorized or permitted by law and such right to indemnification will continue as to a person who has ceased to be a director or officer of the Company and will inure to the benefit of his or her heirs, executors and Consultants; provided, however, that, except for proceedings to enforce rights to indemnification, the Company will not be obligated to indemnify any director or officer in connection with a proceeding (or part thereof) initiated by such person unless such proceeding (or part thereof) was authorized by the Board of Directors. The right to indemnification conferred will include the right to be paid by the Company the expenses (including attorney's fees) incurred in defending any such proceeding in advance of its final disposition.

The Company may, to the extent authorized from time to time by the Board of Directors, provide rights to indemnification and to the advancement of expenses to employees and agents of the Company similar to those conferred to directors and officers of the Company. The rights to indemnification and to the advancement of expenses are subject to the requirements of the 1940 Act to the extent applicable.

Furthermore, the Company may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Company or another company against any expense, liability or loss, whether or not the Company would have the power to indemnify such person against such expense, liability or loss under the Delaware General Corporation Law.

Director Compensation

During the fiscal year ended December 31, 2012, two of our directors were granted 750,000 stock options valued at \$337,500 of which \$14,063 was recognized as compensation for 2012. In addition to the stock option grant, the directors accrued cash compensation of \$7,500. During the fiscal year ended December 31, 2011, there was no director compensation.

Directors' and Officers' Liability Insurance

The Company does not have directors' and officers' liability insurance insuring our directors and officers against liability for acts or omissions in their capacities as directors or officers. The Company is in the process of acquiring this insurance. Such insurance will also insure the Company against losses which we may incur in indemnifying our officers and directors.

Code of Ethics

We intend to adopt a code of ethics that applies to our officers, directors and employees, including our principal executive officer and principal accounting officer, but have not done so to date due to our relatively small size. We intend to adopt a written code of ethics in the near future.

Board Committees

We expect our board of directors, in the future, to appoint an audit committee, nominating committee and compensation committee, and to adopt charters relative to each such committee. We intend to appoint such persons to committees of the board of directors as are expected to be required to meet the corporate governance requirements imposed by a national securities exchange, although we are not required to comply with such requirements until we elect to seek a listing on a national securities exchange.

As of December 31, 2012, the Company did not have a director qualified to serve as an audit committee financial expert.

Advisory Board

The Company does not have an Advisory Board.

Item 11. Executive Compensation.

The following table sets forth the cash compensation (including cash bonuses) paid or accrued and equity awards granted by us for years ended December 31, 2012 to the Company's CEO and our most highly compensated officers other than the CEO at December 31, 2012 whose total compensation exceeded \$100,000.

Name and Principal Position	Years	Salary	Deferred Compensation	Bonus	Stock Awards	Option Awards	All Other Compensation	Total

(2) Mr. Pinsent was appointed as Director and Chief Financial Officer in December 2012. On December 18, 2012, he was granted 250,000 stock options, with an exercise price of \$0.45, with a five year life, vesting monthly over one year.

Except as set forth above, no other named executive officer has received an equity award in 2012 or 2011.

EMPLOYMENT AND MANAGEMENT AGREEMENTS

On or about June 2010, the Company entered into letter agreements with William Lieberman, director of the Company, whereby he agreed to serve as a Director of the Company in consideration of 10,000 shares of Series F Preferred Stock (the "F Preferred Stock"). Each share of F Preferred Stock is convertible, at any time at the option of the holder, into 5 shares of Common Stock. Holders of the F Preferred Stock are not entitled to receive dividends and do not have liquidation rights. In addition to any voting rights provided by law, holders of the F Preferred Stock will have the right to vote together with holders of Common Stock and other series of preferred stock as a single class on all matters upon which stockholders are entitled to vote, including election of the members of the Company's Board of Directors. Each share of F Preferred Stock will have the number of votes corresponding to the number of shares of Common Stock into which the F Preferred Stock may be converted on the record date for determining stockholders entitled to vote multiplied by 10. In March 2013, Mr. Lieberman resigned all positions with the Company.

In December 2012, the Company appointed Canon Bryan as a director and in March 2013, as chief executive officer. As part of the compensation agreement, Mr. Bryan received 500,000 stock options with a five year life, exercisable at \$0.45, vesting over one year. Additionally, Mr. Bryan will be compensated \$60,000 annually.

In December 2012, the Company appointed John Pinsent as a director and chief financial officer. As part of the compensation agreement, Mr. Pinsent received 250,000 stock options with a five year life, exercisable at \$0.45, vesting over one year. Additionally, Mr. Pinsent will be compensated \$60,000 annually.

The Company has no pension or profit sharing plan or other contingent forms of remuneration with any officer, Director, employee or consultant, although bonuses are paid to some individuals.

DIRECTOR COMPENSATION

During the fiscal years ended December 31, 2012 and 2011, our independent director, Canon Bryan, received accrued compensation for his services of \$5,000 and being granted 500,000 stock options. Due to his appointment as chief executive officer in March 2013, Mr. Bryan was no longer an independent director as of the date of his appointment.

There was no other director compensation.

Item 12. Security Ownership Of Certain Beneficial Owners And Management and Related Stockholder Matters.

On or about June 2010, the Company entered into letter agreements with William Lieberman, director of the Company, whereby he agreed to serve as directors of the Company in consideration of 10,000 shares of Series F Preferred Stock (the “F Preferred Stock”). Each share of F Preferred Stock is convertible, at any time at the option of the holder, into 5 shares of Common Stock. Holders of the F Preferred Stock are not entitled to receive dividends and do not have liquidation rights. In addition to any voting rights provided by law, holders of the F Preferred Stock will have the right to vote together with holders of Common Stock and other series of preferred stock as a single class on all matters upon which stockholders are entitled to vote, including election of the members of the Company’s Board of Directors. Each share of F Preferred Stock will have the number of votes corresponding to the number of shares of Common Stock into which the F Preferred Stock may be converted on the record date for determining stockholders entitled to vote multiplied by 10.

The following table sets forth certain information relating to the ownership of our voting securities by (i) each person known by us to be the beneficial owner of more than five percent of the outstanding shares of our common stock, (ii) each of our directors, (iii) each of our named executive officers, and (iv) all of our executive officers and directors as a group. Unless otherwise indicated, the information relates to these persons, beneficial ownership as of December 31, 2012. Except as may be indicated in the footnotes to the table and subject to applicable community property laws, each person has the sole voting and investment power with respect to the shares owned.

Title of Class	Name of Beneficial Owner (1)	Amount of Class Beneficially Owned	Percentage of Class
Common	William Lieberman (2)(3)(4)	50,000	0.05
	All executive officers and directors as a group (one person)	–	0.05

(1) Unless otherwise indicated, each person has sole investment and voting power with respect to the shares indicated. For purposes of this table, a person or group of persons is deemed to have “beneficial ownership” of any shares which such person has the right to acquire within 60 days after December 31, 2012. For purposes of computing the percentage of outstanding shares held by each person or group of persons named above on the date of this filing, any security which such person or group of persons has the right to acquire within 60 days after such date is deemed to be outstanding for the purpose of computing the percentage ownership for such person or persons, but is not deemed to be outstanding for the purpose of computing the percentage ownership of any other person. The applicable percentage of ownership is based on 109,904,489 shares of our common stock outstanding defined as the common stock outstanding, the Series E preferred stock converted at a 20 for 1 ratio, and the Series F preferred stock converted at a 5 for 1 ratio.

(2) An officer of the Company.

(3) A director of the Company.

(4) Assumes conversion of Series F preferred stock (William Lieberman) at a 5 for 1 ratio.

Item 13. Certain Relationships And Related Transactions, and Director Independence.

On or around June 2010, the Company entered into letter agreements with William Lieberman, director of the Company, whereby he agreed to serve as directors of the Company in consideration of 10,000 shares of Series F Preferred Stock (the “F Preferred Stock”). Each share of F Preferred Stock is convertible, at any time at the option of the holder, into 5 shares of Common Stock. Holders of the F Preferred Stock are not entitled to receive dividends and do not have liquidation rights. In addition to any voting rights provided by law, holders of the F Preferred Stock will have the right to vote together with holders of Common Stock and other series of preferred stock as a single class on all matters upon which stockholders are entitled to vote, including election of the members of the Company’s Board of Directors. Each share of F Preferred Stock will have the number of votes corresponding to the number of shares of Common Stock into which the F Preferred Stock may be converted on the record date for determining stockholders entitled to vote multiplied by 10.

Item 14. Principal Accountants Fees And Services

The following table presents aggregate fees for professional audit services rendered by Salberg & Company for the audits of the Company’s annual financial statements for the fiscal years ended December 31, 2012 and 2011, respectively, and fees billed for other services rendered.

Category	Years Ended	
	December 31, 2012	2011
Audit Fees	\$25,000	\$18,000
Audit Related Fees	–	–
Tax Fees	–	–

Edgar Filing: Eco-Trade Corp. - Form 10-K

All Other Fees	–	–
Total	\$25,000	\$18,000
