Previously, on August 3, 2001, Trend Micro announced its Japanese GAAP financial information for the same period. Significant differences between Japanese GAAP and U.S. GAAP applicable to Trend Micro are summarized below. Goodwill write-off (2,000 million yen), which is recognized as other expenses under Japanese GAAP, is recognized as operating expenses under U.S. GAAP. From the fiscal year ending December 31, 2001, Trend Micro and Trend Micro Incorporated (Taiwan) have adopted the deferred revenue accounting for their Post-contract Customer Support service for its Japanese GAAP financial reporting purposes. The cumulative effect of adopting the deferred revenue accounting of 3,009 million yen is recorded as other expenses under Japanese GAAP. For its U.S. GAAP reporting purposes, Trend Micro and Trend Micro Incorporated (Taiwan) have historically adopted the deferred revenue accounting for their Postcontract Customer Support service on a consistent basis.

[For the U.S. GAAP consolidated interim financial information (unaudited) of Trend Micro and its consolidated subsidiaries for the six months ended June 30, 2001, see the second attachment to this report on Form 6-K.]

NOTES TO CONSOLIDATED FINANCIAL INFORMATION

(Unaudited)

1. Basis of presentation

The consolidated financial information of Trend Micro Incorporated and its subsidiaries (collectively "the Company") are unaudited. The financial information has been prepared in accordance with U.S. GAAP. The unaudited financial information furnished include all adjustments that are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. Operating results for the six months ended June 30, 2001 are not necessarily indicative of the results for the year ended December 31, 2001.

2. Recent pronouncements

From the fiscal year beginning January 1, 2001, The Company adopted FAS

No. 133 "Accounting for Derivative Instruments and Hedging Activities" as amended by FAS No. 138 "Accounting for Certain Derivative Instruments and Certain Hedging Activities - an Amendment of FASB statement No. 133". FAS No. 133, as amended, establishes accounting and reporting standards for derivative instruments. Specifically, FAS No. 133 requires an entity to recognize all derivatives as either assets or liabilities in the balance sheet and to measure those instruments at fair value. Additionally, the fair value adjustments will affect either stockholders' equity or net income depending on whether the derivative instrument qualifies as a hedge for accounting purposes and, if so, the nature of the hedging activity. The adoption of FAS No. 133 did not have an effect on the Company's financial position and results of operations.

In July 2001, the Financial Accounting Standards Board issued FAS No. 141 "Business Combinations" and FAS No. 142 "Goodwill and Other Intangible Assets." FAS No. 141 supersedes Accounting Principles Board Opinion ("APB") No. 16 "Business Combination" and FAS No. 38 "Accounting for Preacquisition Contingencies of Purchases Enterprises." Under FAS No. 141, all business combinations are required to be accounted for under a single method, the purchase method. This new statement prohibits the use of the pooling-of-interest method, which was previously permitted under APB No. 16, for business combinations initiated after June 30, 2001. FAS No. 141 also established criteria for the separate recognition of intangible assets acquired in a business combination. FAS No. 142 supersedes APB No. 17 "Intangible Assets." This new statement requires that goodwill no longer be amortized to earnings, but instead be subject to periodic testing for impairment. FAS No. 142 is effective for fiscal years beginning after December 15, 2001, with earlier application permitted only in specified circumstances. The Company believes that the adoption of FAS No. 141 and FAS No. 142 will not have a material effect on the financial statements of the Company.

In July 2001, the Financial Accounting Standards Board issued SFAS No. 143 "Accounting for Asset Retirement Obligations" ("FAS 143"). FAS No. 143 requires the recognition of a liability for an asset retirement obligation in the period in which it is incurred. When the liability is initially recorded, the carrying amount of the related long-lived asset is correspondingly increased. Over time, the liability is accreted to its present value and the related capitalized charge is depreciated over the useful life of the asset. FAS No. 143 is effective for fiscal years beginning after June 15, 2002. The Company is evaluating the effect of the new standard on its financial position and results of operations.

3. U.S. dollar amounts

U.S. dollar amounts presented in the financial information are included solely for the convenience of the reader. These translations should not be construed as representations that the yen amounts actually represent, or have been or could be converted into, U.S. dollars. As the amounts shown in U.S. dollars are for convenience only, the approximate current rate at June 29, 2001 ((Yen)125.00 = U.S. \$1) has been used for the purpose of presentation of the U.S. dollar amounts in the accompanying consolidated financial information.

4. Stock split

On February 15 2001, the Board of Directors of the Company decided and declared a stock split in the ratio of two-for-one for which the record date was May 18, 2001. All prior share and per share amounts in the financial information and accompanying notes have been restated to reflect this stock split.

5. Net income per share

Net income per share amounts were computed based on Statements of Financial Accounting Standards No. 128. For the six months ended June 30, 2000 and 2001,

weighted average shares used for computation of basic net income per share were 130,011 thousand shares and 131,340 thousand shares, respectively, and the weighted average shares used for diluted net income per share were 133,810 thousand shares and 133,676 thousand shares, respectively. The weighted average shares outstanding for diluted net income per share calculation were increased to include additional shares from the assumed exercise of stock warrants and options which had dilutive effect.

6. Comprehensive income

Changes in shareholders' interest that do not result directly from transactions with shareholders are as follows:

The Company believes that each of these transactions has been negotiated on an arm's length basis and done at fair value based on market pricing.

10. Short-term borrowings and long-term debt

At June 30, 2001, the Company had unused lines of credit amounting to (Yen)800,000 thousand relating to bank overdraft and other short-term loan agreements. Under these overdraft agreements, the Company is authorized to obtain short-term financing at prevailing interest rates for periods not in excess of one year.

Long-term debt comprises the following:

For the above stock warrants granted on April 15, 1998 and June 15, 1998, management calculated deferred compensation expense of (Yen)878,798 thousand during fiscal 1998. Such deferred compensation will be amortized over the vesting period which is generally 24 months. Approximately (Yen)397,467 thousand, (Yen)379,803 thousand and (Yen)101,528 thousand was amortized during fiscal 1998, 1999 and 2000 respectively. The grants of October 17, 1997, July 29, 1999, June 26, 2000 March 19, 2001 and June 4, 2001 with respect to which the vesting period is generally 24 months, did not result in deferred compensation.

In July 1999, the subsidiary in the United States introduced the U.S. program of the Company's incentive plan. Under the U.S. program, STG Incentive Company L.L.C., a Delaware limited company organized for the program by three principal shareholders of the Company, grants stock options to purchase shares of the Company's common stock, which vest one year from the date of grant and which are exercisable for the 3 years subsequent to the vesting date, to directors and certain employees of the subsidiary in the United States. The grants of options to the directors and employees were accounted for under APB 25. Option activity under the U.S. program for the year ended December 31, 2000 and for the period ended June 30, 2001 was as follows:

The exercise price per share for the options granted was determined as equivalent to the fair market value of the Company's shares at the time of the grants. The weighted average exercise price per share for the option granted for the six months ended June 30, 2001 was (Yen)3,126. Consequently, the grants of the option did not result in deferred compensation.

In February 2001, the Company introduced the stock option plan qualified under Article 280-19 of the Commercial Code of Japan. This stock option plan grants subscription rights to the Company's shares of common stock, which are exercisable from April 1 2002 to March 31, 2009, to certain directors and employees of the Company and its subsidiaries qualifying for the special related business as defined in Paragraph 1 of Article 9 of the Corporate Rehabilitation Law of Japan. The exercise price per share for the options granted was determined as equivalent to the fair market value of the Company's shares at the time of the grants. The weighted average exercise price per share for the option granted for the six months ended June 30, 2001 was (Yen)5.760. Consequently, the grants of the option did not result in deferred compensation. Option activity qualified under the Commercial Code of Japan for the period ended June 30, 2001 was as follows:

12. COMMITMENTS AND CONTINGENT LIABILITIES

The Company and its subsidiaries have no significant commitments outstanding, and no material pending litigation or claims threatened against them.

13. SEGMENT INFORMATION

The Company and its consolidated subsidiaries operate principally in two industry segments: "Security software business" and "Internet-related products/service business". However, industry segment information is not currently disclosed since more than 90% of sales, operating income and assets in all segments are from the "security software business". Net sales is attributed to countries based on the location of the Company or the relevant

14. Impairment of ipTrend Investment

In February 2000, the company acquired a controlling interest in ipTrend Incorporated ("ipTrend"). ipTrend effectively became a wholly owned subsidiary in November 2000, when the remaining minority interest was acquired. The total purchase price was (Yen)2,800,000 thousand and (Yen)2,527,636 thousand was allocated to goodwill. Recently, the company undertook a revaluation of its investment in ipTrend and related business strategy and determined that the investment was impaired. On August 3, 2001, the company approved the sale of the main business of ipTrend to IPSQUARE, an unrelated third party, and subsequently commenced liquidation of the subsidiary. Although a definitive agreement has not been agreed between the parties, the company does not expect a significant gain or loss on the sale of the business, apart from the goodwill write-off of (Yen)2,253,559 thousand (\$18,028 thousand). Goodwill amortization of (Yen)95,797 thousand and the write off of (Yen)2,253,559 thousand (\$18,028 thousand) are included in operating income for the six months ended June 30, 2000 and 2001, respectively.
