PATHFINDER BANCORP, INC. ANNOUNCES THIRD QUARTER EARNINGS

Oswego, New York, October 29, 2004 Pathfinder Bancorp, Inc., the mid-tier holding company of Pathfinder Bank, (NASDAQ SmallCap Market; symbol: PBHC, listing: PathBcp) reported net income of \$360,000, or \$0.15 per share, for the three months ended September 30, 2004 as compared to \$333,000, or \$0.14 per share for the same period in 2003. For the nine months ended September 30, 2004, the Company reported net income of \$1.2 million, or \$0.50 per share, compared to \$1.3 million, or \$0.55 per share, for the same period in 2003.

"The increase in quarterly earnings reflects our emphasis throughout this year to increase sources of non-interest income," according to Thomas W. Schneider, President and Chief Executive Officer. "Net interest margin expansion will

remain challenging as a result of both competitive and interest rate factors. Enhancing non-margin dependent sources of revenue will remain critical. During the past quarter, the Company engaged outside professionals to assist in this effort. We anticipate continued growth of non-interest revenue going forward, while the expense of this engagement is front-loaded in the second half of 2005."

Net interest income for the quarter ended September 30, 2004 decreased slightly when compared to the same period during 2003. Interest income decreased \$82,000, or 2%, partially offset by a decrease in interest expense of \$36,000, or 3%. Net interest rate spread decreased to 3.17% for the third quarter of 2004 from 3.52% for the same period in 2003. Average interest-earning assets increased 8% to \$271.6 million in the quarter ended September 30, 2004 as compared to \$250.5 million in the quarter ended September 30, 2003, while the yield on those assets decreased 58 basis points to 5.33% compared to 5.91% for the same period in 2003. The increase in average earning assets is primarily attributable to a \$22.3 million increase in investment securities and a \$4.9 million increase in interest-earning deposits. Average interest-bearing liabilities increased \$17.5 million, while the cost of funds decreased 22 basis points to 2.16% from 2.38% for the same period in 2003. The increase in the average balance of interest-bearing liabilities resulted primarily from a \$25.6 million, or 13%, growth in average deposits. The growth in deposits primarily resulted from attracting new municipal deposit customers.

Provision for loan losses for the quarter ended September 30, 2004 decreased 11% to \$112,000 from \$126,000 for the same period in 2003. The Company's ratio of allowance for loan losses to period end loans has increased to 1.00% at September 30, 2004 from 0.91% at December 31, 2003. Nonperforming loans to period end loans remained fairly consistent at 1.56% at September 30, 2004, compared to 1.57% at December 31, 2003.

Other income, net of gains and losses from the sale of securities, loans and foreclosed real estate, increased to \$502,000 for the quarter ended September 30, 2004 compared to \$446,000 for the same period in the prior year. The increase in other income is primarily attributable to a \$38,000 increase in service charges on deposit accounts and a \$23,000 increase in other charges, commissions and fees, partially offset by a \$9,000 decrease in earnings on bank owned life insurance. Net gains and losses from the sale of securities, loans and foreclosed real estate increased \$58,000 to \$213,000 for the quarter ended September 30, 2004 compared to \$155,000 for the same period in the prior year.

Other expenses remained consistent at \$2.3 million for the quarter ended September 30, 2004 and September 30, 2003. During the third quarter of 2004, salaries and employee benefits, building occupancy expenses and data processing expenses increased \$94,000, \$6,000 and \$28,000, respectively. These increases were partially offset by a \$58,000 decrease in professional and other services and a \$24,000 decrease in other operating expenses. The increase in salaries and employee benefits primarily resulted from an increase in personnel and an increase in employee benefit costs. The decrease in professional and other services and other operating expenses primarily resulted from operating costs associated with a foreclosed real estate property not recurring in 2004 as the property was sold during 2003, advertising costs in 2003 relating to the production of television commercials which did not recur in 2004 and a reduction in outside mortgage consulting expenses which are now performed by in-house personnel.
