**PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS**

May 19, 2010

**QUESTIONS AND ANSWERS ABOUT THE PROXY MATERIALS
AND THE 2010 ANNUAL MEETING**

Q: Why am I receiving these materials?

A:

The Board of Directors (the "Board") of CSG Systems International, Inc. ("we" or the "Company") has delivered printed proxy materials to you, on or about April 9, 2010, in connection with the solicitation of proxies for use at our 2010 Annual Meeting of Stockholders (the "Annual Meeting"), or at any adjournments of the Annual Meeting. The Annual Meeting will take place at CSG Systems, Inc., 2525 North 117th Avenue, Omaha, Nebraska, on Wednesday, May 19, 2010, at 8:00 a.m. As a stockholder, you are invited to attend the Annual Meeting and are requested to vote on the items of business described in this Proxy Statement.

Q: What information is contained in this Proxy Statement?

A:

The information in this Proxy Statement relates to the proposals to be voted on at the Annual Meeting, the voting process, the compensation of our directors and "named executive officers," corporate governance and information on our Board, and certain other required information.

Q: How do I get electronic access to the proxy materials?

A:

You may view our proxy materials at www.edocumentview.com/csgs.

Q: What items of business will be voted on at the Annual Meeting?

A:

The items of business scheduled to be voted on at the Annual Meeting are:

The election of three Class I Directors.

Approval of the potential issuance of shares of common stock equal to 20% or more upon conversion of our 3.0% Senior Subordinated Convertible Notes due 2017.

The ratification of KPMG LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010.

Edgar Filing: CSG SYSTEMS INTERNATIONAL INC - Form DEF 14A

We will also consider any other business that properly comes before the Annual Meeting.

Q: How does the Board recommend that I vote?

A:

Our Board recommends that you vote your shares (1) "FOR" each of the nominees to the Board, (2) "FOR" the potential issuance of shares of common stock equal to 20% or more upon conversion of our 3.0% Senior Subordinated Convertible Notes due 2017, and (3) "FOR" the ratification of KPMG LLP as our independent registered public accounting firm for 2010.

Table of Contents

Q: What shares can I vote?

A: The Board fixed the close of business on March 23, 2010, as the record date for determining the stockholders of the Company who are entitled to notice of and to vote at the Annual Meeting. At the close of business on the record date, there were outstanding and entitled to vote at the Annual Meeting 34,063,800 shares of common stock of the Company, par value \$.01 per share ("Common Stock").

Q: How many votes am I entitled to per share?

A: Each holder of shares of Common Stock is entitled to one vote for each share of Common Stock held as of the record date.

Q: How can I attend the Annual Meeting?

A: You are entitled to attend the Annual Meeting only if you were a stockholder of the Company as of the record date or you hold a valid proxy for the Annual Meeting.

Q: How can I vote my shares in person at the Annual Meeting?

A: Shares held in your name as the stockholder of record may be voted by you in person at the Annual Meeting. Shares held beneficially in street name may be voted by you in person at the Annual Meeting only if you obtain a legal proxy from the broker, bank, trustee or nominee that holds your shares giving you the right to vote the shares. Even if you plan to attend the Annual Meeting, we recommend that you also submit your proxy or voting instructions as described below so that your vote will be counted if you later decide not to attend the meeting.

Q: How can I vote my shares without attending the Annual Meeting?

A: Whether you hold shares directly as the stockholder of record or beneficially in street name, you may direct how your shares are voted without attending the Annual Meeting. If you are a stockholder of record, you may vote by proxy. All shareholders can vote by proxy over the Internet by following the instructions provided. You can also vote by mail or telephone pursuant to instructions provided on the proxy card or, if you hold shares beneficially in street name, by instructions provided by your broker, bank, trustee or nominee.

Q: Can I change my vote?

A: You may change your vote at any time prior to the taking of the vote at the Annual Meeting. If you are the stockholder of record, you may change your vote by (1) delivering a new proxy bearing a later date (which automatically revokes the earlier proxy) using any of the methods described above, (2) providing a written notice of revocation to our Secretary, prior to the vote, or (3) attending the Annual Meeting and voting in person. Attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request. For shares you hold beneficially in street name, you may change your vote by submitting new voting instructions to your broker, bank, trustee or nominee following the instructions they provided, or, if you have obtained a legal proxy from your broker, bank, trustee or nominee giving you the right to vote your shares, by attending the Annual Meeting and voting in person.

Q: How many shares must be present or represented to conduct business at the Annual Meeting?

A: The quorum requirement for holding the Annual Meeting and transacting business is that holders of a majority of the issued and outstanding Common Stock of the Company must be present in

Table of Contents

person or represented by proxy. Both abstentions and broker non-votes (described below) are counted for the purpose of determining the presence of a quorum.

Q: What is the voting requirement to approve each of the proposals?

A:

In the election of directors, the three persons receiving the highest number of affirmative "FOR" votes at the Annual Meeting will be elected. The affirmative "FOR" vote of a majority of the votes cast on the second and third proposals is required to approve the potential issuance of shares of common stock up to 20% or more upon conversion of our 3.0% Senior Subordinated Convertible Notes due 2017 and the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for 2010.

If you hold shares beneficially in street name and do not provide your broker with voting instructions, your shares may constitute "broker non-votes." Generally, broker non-votes occur on a matter when a broker is not permitted to vote on that matter without instructions from the beneficial owner and instructions are not given, such as the election of the directors. In tabulating the voting result for any particular proposal, shares that constitute broker non-votes are not considered votes cast on that proposal. Thus, broker non-votes will not affect the outcome of any matter being voted on at the meeting, assuming that a quorum is obtained. Abstentions are considered votes cast and thus have the same effect as votes against the matter.

Q: How are votes counted?

A:

Votes cast in person or by proxy at the Annual Meeting will be tabulated by the inspector appointed for the Annual Meeting. In the election of directors, you may vote "FOR" all or some of the nominees or your vote may be "WITHHELD" with respect to one or more of the nominees. For the potential issuance of shares of common stock up to 20% or more upon conversion of our 3.0% Senior Subordinated Convertible Notes due 2017 and the ratification of the appointment of KPMG, you may vote "FOR," "AGAINST" or "ABSTAIN." If you elect to "ABSTAIN," the abstention has the same effect as a vote "AGAINST." If you provide specific instructions with regard to certain items, your shares will be voted as you instruct on such items. If no instructions are indicated, the shares will be voted as recommended by the Board.

Q: Is cumulative voting permitted for the election of directors?

A:

No. You may not cumulate your votes for the election of directors.

Q: What happens if additional matters are presented at the Annual Meeting?

A:

Other than the three items of business described in this Proxy Statement, we are not aware of any other business to be acted upon at the Annual Meeting. If you grant a proxy, the persons named as proxy holders, Peter E. Kalan and Joseph T. Ruble, and each or either of them, will have the discretion to vote your shares on any additional matters properly presented for a vote at the meeting. If for any reason any of the nominees is not available as a candidate for director, the persons named as proxy holders will vote your proxy for such other candidate or candidates as may be nominated by the Board.

Q: Who will bear the cost of soliciting votes for the Annual Meeting?

A:

We will pay the entire cost of preparing, assembling, printing, mailing and distributing these proxy materials and soliciting votes. If you choose to access the proxy materials and/or vote over the Internet, you are responsible for Internet access charges you may incur. If you choose to vote by telephone, you are responsible for telephone charges you may incur. In addition to the solicitations by mail, the solicitation of proxies or votes may be made by our directors, officers and regular

Table of Contents

employees, without additional remuneration, and their appointed agents, in person, by telephone or by electronic communication. We will request banks, brokers, and other fiduciaries to forward proxy materials to the owners of stock held in their names and will reimburse such banks, brokers, and other fiduciaries for their reasonable out-of-pocket expenses incurred in connection with the distribution of proxy materials.

Q: Where can I find the voting results of the Annual Meeting?

A:

We intend to announce voting results on a Current Report on Form 8-K filed with the Securities and Exchange Commission (the "SEC") no later than four business days after the Annual Meeting.

Q: What is the deadline to propose actions for consideration at next year's Annual Meeting of stockholders or to nominate individuals to serve as directors?

A:

Under our bylaws, a stockholder who wishes to bring any business before the 2011 Annual Meeting of Stockholders of the Company must give advance written notice to us of such business and of any proposal which such stockholder wishes to have included in our Proxy Statement and on the proxy card for such annual meeting. The notice must be sent to our Secretary at our principal executive office, be received by our Secretary not later than December 10, 2010, and contain certain information required by our bylaws. Such advance notice requirement applies to all matters even if a stockholder does not seek to include in our Proxy Statement a proposal with respect to a particular matter. Such proposals also must comply with SEC regulations under Rule 14a-8 regarding the inclusion of stockholder proposals in company-sponsored proxy materials.

Our bylaws also provide that stockholder nominations of persons for election to the Board are subject to certain advance notice and informational requirements. Copies of our bylaws are available to stockholders upon request made to our Secretary at the address set forth on the first page of this Proxy Statement.

The bylaw requirements referred to above do not supersede the conditions and requirements established by the SEC for stockholder proposals to be included in our proxy materials for a meeting of stockholders, and in that regard stockholders also must comply with the applicable requirements of Rule 14a-8 under the Securities Exchange Act of 1934.

Q: I share an address with another stockholder, and we received only one paper copy of the proxy materials. How may I obtain an additional copy of the proxy materials?

A:

We have adopted a procedure called "householding," which is permitted by the SEC. Under this procedure, we deliver a single copy of the proxy materials and the Form 10-K to stockholders who share the same address unless we received contrary instructions from one or more of the stockholders. This procedure reduces our printing costs, mailing costs and fees. Upon written or oral request, we will deliver promptly a separate copy of the proxy materials and the Form 10-K to any stockholder at a shared address to which we delivered a single copy of any of these documents. To request a separate delivery of such documents now or in the future, a stockholder may submit a written request to our Investor Relations Department at the following address:

CSG Systems International, Inc.
9555 Maroon Circle
Englewood, Colorado 80112
Attn: Investor Relations Department

You may also submit an oral request to such department at (303) 200-2000. Stockholders sharing an address who currently receive multiple copies of the proxy statements or Forms 10-K and who

would rather receive only a single copy of any of such documents may request such delivery change by writing or calling our Investor Relations Department in the manner described above.

CORPORATE GOVERNANCE AND BOARD OF DIRECTOR MATTERS

The Board has determined that Messrs. Cooper, Reed, Reznicek, Sica, Smith and Unruh and Ms. Obuchowski, who are non-employee directors of the Company, are "independent directors" as defined in the applicable rule of The Nasdaq Stock Market, Inc. ("NASDAQ"). Although Mr. Nafus is a non-employee director of the Company, he is not an "independent director" as defined in such NASDAQ rule because of his prior employment by the Company.

The Board has established a process for stockholders of the Company to send communications to the Board or to a specified individual member of the Board. Such communications should be in writing and sent to the Board or such individual director in care of the Secretary of the Company at the address shown on the first page of this Proxy Statement. Depending upon the subject matter of the communication, the Secretary of the Company will (i) forward the communication to all of the members of the Board or to the individual member of the Board to whom the communication is addressed, (ii) forward a communication relating to accounting, internal accounting controls or auditing matters to the chair of the Audit Committee of the Board, (iii) attempt to respond directly to an inquiry or request involving publicly available information about the Company or its stock or (iv) not forward the communication if it is primarily commercial in nature or relates to an improper or irrelevant topic. The Secretary of the Company will maintain a log of all communications addressed to the Board or an individual member of the Board which are not forwarded in accordance with this policy; directors of the Company may review such log at any time and request copies of any of such communications.

Historically, very few stockholders of the Company have attended the Company's annual meetings of stockholders; almost all stockholders who vote do so by proxy. Accordingly, the Company's policy is that employee directors of the Company are expected to attend annual meetings of stockholders of the Company if their schedules permit and that non-employee members of the Board are not expected to attend annual meetings of stockholders but may if they so desire. All nine directors attended the 2009 Annual Meeting of the Company's stockholders. The Board has scheduled the 2010 Annual Meeting to coincide with a regular quarterly meeting of the Board so that all Board members present at such meeting of the Board also can attend the Annual Meeting.

During 2009, the Board held six meetings, and all directors of the Company attended at least 75% of the aggregate number of meetings of the Board and of the committees on which they served.

Audit Committee

The Board has established a separately-designated standing Audit Committee in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, which is presently composed of Ms. Obuchowski, Mr. Reed and Mr. Reznicek (Chair). The Audit Committee's primary purposes, as set forth in its charter, are to oversee the accounting and financial reporting processes of the Company and the audits of the financial statements of the Company and provide oversight of our risk management program. The Audit Committee Charter is available on the Company's web site under Investor Relations, Corporate Governance, at <http://www.csgsystems.com>. Information on the Company's web site is not incorporated by reference in this Proxy Statement. As required by the Audit Committee Charter, all of the members of the Audit Committee are "independent directors" as defined in the applicable NASD marketplace rule and also satisfy the other requirements of the NASD marketplace rules applicable to audit committee members. The Board has determined that Messrs. Reed and

Table of Contents

Reznicek are "audit committee financial experts" as defined by the SEC. The Audit Committee held four meetings during 2009.

Moreover, the Audit Committee maintains oversight of the Company's risk management program as determined by the Board. To manage the Company's risk management program, the Company established a Business Risk Committee comprised of the Company's Named Executive Officers (as defined on page 19) (chaired by the Chief Financial Officer) and coordinated by the Company's Internal Audit department. The Company's Internal Audit department has direct reporting responsibility to the Audit Committee. A quarterly report is presented to the Audit Committee by the Internal Audit department summarizing the material existing and emerging business risks for Audit Committee's oversight. The Audit Committee Chair provides a summary to the Board at each meeting.

Compensation Committee

The Board has a standing Compensation Committee, presently composed of Messrs. Cooper, Sica (Chair), Smith and Unruh. The Compensation Committee Charter provides, among other things, that the Committee is to review and recommend to the Board the Company's senior management compensation and benefits policies generally, evaluate the performance of the Company's executive officers and review and recommend to the Board or, when applicable, take independent actions with respect to the compensation of the Company's executive officers. The Compensation Committee also is responsible for the administration of and the granting of equity awards under the Company's 1996 Stock Incentive Plan (no further awards may be granted under this Plan), 2001 Stock Incentive Plan and 2005 Stock Incentive Plan and for the administration of the Company's Performance Bonus Program for the Company's executive officers. The Compensation Committee Charter is available on the Company's web site under Investor Relations, Corporate Governance, at <http://www.csgsystems.com>. Information on the Company's web site is not incorporated by reference in this Proxy Statement. As required by the Compensation Committee Charter, all of the members of the Committee are "independent directors" as defined in the applicable NASDAQ rule and also are "outside directors" for purposes of Section 162(m) of the Internal Revenue Code of 1986. The Compensation Committee held four meetings during 2009.

The Compensation Committee meets at least quarterly. To fulfill its responsibilities of reviewing and establishing or recommending to the Board the compensation of the Company's executive officers, the Compensation Committee uses the services of an independent compensation consulting firm selected by the Committee, consults with the Company's Chief Executive Officer and Senior Vice President of Human Resources and draws upon the extensive business experience of the Committee's members. The Compensation Committee directs the independent compensation consulting firm to provide to the Committee a comprehensive formal assessment of the competitiveness of the Company's executive officer compensation program, including a comparison of the principal components of the Company's executive officer compensation programs (base salaries, performance bonuses and equity awards) with those of a peer group of other publicly owned companies; and the Compensation Committee considers such assessment and other data provided by the consultant in arriving at the Committee's decisions or recommendations to the Board with respect to base salaries and performance bonuses for the Company's executive officers. The Compensation Committee also considers the information provided by the Committee's independent compensation consultant in determining equity awards to be made by the Committee to the executive officers of the Company and the terms of such awards. Additional information with respect to the matters discussed in this paragraph appears in the "Compensation Discussion and Analysis" later in this Proxy Statement.

In making equity awards to non-employee directors of the Company, the Compensation Committee considers relevant information provided by the independent compensation consultant and the recommendations of the Nominating and Corporate Governance Committee and the Board with respect to such awards.

Table of Contents

While the Board makes the final decisions with respect to the base salaries of the executive officers of the Company, the Compensation Committee makes specific recommendations to the Board with respect to such salaries and, in arriving at those recommendations, also considers the recommendations of the Company's Chief Executive Officer as to the base salaries of executive officers other than himself.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee was an officer or employee of the Company at any time during 2009 or on the date of this Proxy Statement. During 2009, the Compensation Committee was comprised of Frank V. Sica, Ronald H. Cooper, Donald V. Smith, and James A. Unruh. In 2009, no member of the Compensation Committee had any relationship or transaction with the Company that would require disclosure as a "related person transaction" under Item 404 of SEC Regulation S-K. During 2009, none of our executive officers served on the board of directors or compensation committee of any other entity whose executive officer(s) served as a member of our Board or Compensation Committee.

Nominating and Corporate Governance Committee

The Board has a standing Nominating and Corporate Governance Committee, presently composed of Mr. Cooper (Chair), Mr. Nafus, Ms. Obuchowski, and Mr. Smith. The Nominating and Corporate Governance Committee Charter provides, among other things, that the Committee is to identify individuals qualified to become Board members, recommend to the Board nominees for election as directors, recommend directors for appointment to Board committees, evaluate the Board's performance, review and recommend to the Board the compensation of the Company's directors and develop and recommend to the Board the Company's Corporate Governance Guidelines and Code of Business Conduct and Ethics. The Nominating and Corporate Governance Committee Charter is available on the Company's web site under Investor Relations, Corporate Governance, at <http://www.csgsystems.com>. Information on the Company's web site is not incorporated by reference in this Proxy Statement. As required by the Nominating and Corporate Governance Committee Charter, a majority of the members of the Committee are "independent directors" as defined in the applicable NASD rule. All Committee members are independent, except for Mr. Nafus. As previously mentioned, Mr. Nafus is not considered an "independent director" because of his previous employment with the Company as President and Chief Executive Officer. The Nominating and Corporate Governance Committee held five meetings during 2009.

In recommending to the Board nominees for election as directors, the Nominating and Corporate Governance Committee reviews the present composition of the Board to determine the qualities, skills and areas of expertise (including but not limited to financial and accounting expertise) needed to enable the Board and its committees to properly discharge their responsibilities. The Nominating and Corporate Governance Committee historically has relied upon recommendations from its members and other members of the Board and from the Company's Chief Executive Officer with respect to potential candidates for service on the Board. The Nominating and Corporate Governance Committee considers it necessary for the Board to have at least one of its independent members qualify as an "audit committee financial expert" and takes that requirement into account in making its recommendations to the Board. While the Nominating and Corporate Governance Committee has not established other specific minimum requirements for service on the Board, when assessing and determining a candidate's qualifications, the Committee considers among other things the number and type of other boards on which the candidate serves; other business and professional commitments of the candidate and potential conflicts of interest; the ability and willingness of a candidate to devote the required amount of time to the candidate's responsibilities as a Board member and as a member of one or more committees of the Board; the age, background, reputation, independence, experience, skills and

Table of Contents

judgment of the candidate; and the diversity of the Board's membership. Directors, while relying on the honesty and integrity of the Company's senior management and its outside advisors and auditors, are expected to exercise their best business judgment when acting on behalf of the Company and its stockholders and to adhere to the applicable provisions of the Company's Code of Business Conduct and Ethics.

The Nominating Committee Charter expressly includes diversity as a consideration, and as mentioned above, our Nominating Committee considers diversity when nominating Board members. We interpret the term "diversity" in its broadest sense and believe that it encompasses many attributes, including age, background, experience, skills, substantive expertise, gender, ethnicity, geography, and education. Our Board is particularly interested in maintaining a collective group of individuals with experience in the following areas:

Active or retired executive officers of public and private companies,

Operations, finance, accounting, marketing, human resources, and sales;

International business;

Membership on boards of directors of publicly traded companies;

Communication service provider and related industries; and

Technology industry.

Our Board members also should display the personal attributes necessary to be an effective director: integrity, sound judgment, independence, ability to operate collaboratively, and a fiduciary commitment to the Company and our stockholders. We consider the members of our Board to have a diverse set of business and personal experiences, backgrounds and expertise, and they all share the personal attributes described above. In considering candidates for the Board, the Nominating Committee considers the entirety of each candidate's credentials in the context of these standards. The Nominating and Corporate Governance Committee will consider qualified nominees for election as directors recommended by the Company's stockholders. A stockholder who wishes to recommend a nominee for consideration by the Nominating and Corporate Governance Committee should submit the recommendation in writing to the Secretary of the Company at the address shown on the first page of this Proxy Statement, indicating the proposed nominee's qualifications and other relevant biographical information and providing written confirmation of the proposed nominee's consent to serve as a director if nominated and elected. The Secretary of the Company will forward legitimate recommendations from stockholders to the chair of the Nominating and Corporate Governance Committee for further review and consideration. The bylaws of the Company provide that stockholder nominations of persons for election to the Board (as distinguished from recommendations to the Nominating and Corporate Governance Committee) are subject to certain advance notice and informational requirements; stockholders may obtain a copy of the relevant bylaw provisions from the Secretary of the Company at the address shown on the first page of this Proxy Statement.

Board Leadership Structure

We believe that no one structure is suitable for all companies and recognize that different board leadership structures may be appropriate for companies in different situations and may change from time-to-time. From inception until June 2005, our Board operated with our chief executive officer and co-founder serving as our Chairman of the Board. In 2005, the Board reevaluated its leadership structure and determined that it would be preferable for one of the independent directors to serve as Chairman of the Board, and Mr. Reznicek was elected as the non-executive Chairman. Prior to his election, Mr. Reznicek had served as a director of our Company for over eight years and had significant corporate governance experience from positions on other public company boards.

Table of Contents

Mr. Reznicek served as Chairman from 2005 - 2009. Effective January 1, 2010, Mr. Reed was elected as non-executive Chairman of the Board as the successor to Mr. Reznicek. The election of Mr. Reed as non-executive Chairman was made in conjunction with the Board's governance practices to rotate key board positions periodically. Mr. Reed was elected to the Board in 2005 and brings considerable previous experience as a public company director providing the basis for a sound and broad-based understanding of corporate governance and business strategy.

Under our Corporate Governance Guidelines (the "Guidelines"), our Board has the flexibility to modify or continue our leadership structure in the future, as it deems appropriate, and our Chairman and Chief Executive Officer may be one person if the Board believes that allocation of responsibilities in this way would be in the best interest of the Company and its stockholders. In connection with recruitment and succession, the Board determines the appropriateness of its policies.

At this time, we believe our current Board leadership structure is beneficial for us because of the additional oversight responsibilities required of directors, and it permits the Chief Executive Officer to devote more time to that position. By delineating the role of the Chairman position, we reduce duplication of efforts by the Chief Executive Officer and the Chairman. In addition, the Chairman of the Board and the Chief Executive Officer (if the Chief Executive Officer is not the Chairman of the Board) are free, as is the Board as a whole, to call upon any one or more directors to provide leadership in a given situation should a special need arise. Our Guidelines provide additional flexibility and the ability to select an appropriate leadership structure based on the then current needs of the Company.

As previously mentioned, our Board has seven independent members, one employee director (our President and Chief Executive Officer), and one former employee director (our former President and Chief Executive Officer). We believe that the number of independent, experienced directors that make up our board, along with the independent oversight of the Board by the non-executive Chairman, benefits our Company and our stockholders.

Code of Business Conduct and Ethics

Upon the recommendation of the Nominating and Corporate Governance Committee, the Board has adopted a Code of Business Conduct and Ethics applicable to all of the directors, officers and employees of the Company and its subsidiaries. The Company's Code of Business Conduct and Ethics and the Company's Corporate Governance Guidelines are available on the Company's web site under Investor Relations, Corporate Governance, at <http://www.csgsystems.com>. Any future amendments to the Code of Business Conduct and Ethics, or any future waiver of a provision of our Code of Business Conduct and Ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions and relates to an element of the code of ethics definition enumerated in Item 406 of Regulation S-K, will be timely posted to our website upon their occurrence. Historically, we have had minimal changes to our Code of Business Conduct and Ethics, and have had no waivers of a provision of our Code of Business Conduct and Ethics for any of the aforementioned individuals within the applicable definition of code of ethics. Information on the Company's web site is not incorporated by reference in this Proxy Statement.

During the first and second quarters of 2009, each non-employee director of the Company was entitled to receive from the Company an annual retainer fee of \$45,000 payable in quarterly installments and meeting attendance fees of \$2,000 for attendance at a meeting of the Board and \$1,250 for attendance at a meeting of a committee of the Board. Beginning in the third quarter of 2009, the annual retainer was increased by \$7,500 per quarter, and Board members generally will no longer be paid for individual meetings. For 2010, the annual retainer fee will be \$75,000.

During the first and second quarters of 2009, the chairperson of the Audit Committee also was entitled to receive an annual retainer fee of \$16,000 payable in quarterly installments, and each of the chairpersons of the Compensation Committee and the Nominating and Corporate Governance Committee also was entitled to receive an annual retainer fee of \$8,000 payable in quarterly installments. Commencing in the third quarter of 2009, the annual retainer fee for the chairpersons of the Compensation Committee and Nominating and Corporate Governance Committee was increased to \$16,000 and \$10,000, respectively, payable in quarterly installments.

A director who is an officer or employee of the Company does not receive additional compensation for serving as a director or committee member. Mr. Kalan, President and Chief Executive Officer of the Company, is the only current officer or employee of the Company who serves as a director of the Company. No officers or employees of the Company currently serve on any committee of the Board.

Effective January 1, 2010, Mr. Reed was elected as Chairman of the Board of the Company as the successor to Mr. Reznicek. The Chairman of the Board receives a fee for non-executive services in such capacity at an annual rate of \$50,000, payable in quarterly installments. Such fee is in addition to the fees referred to in the preceding paragraphs. Neither Mr. Reed nor Mr. Reznicek is or was an employee of the Company, and neither of them receives any employee benefits from the Company.

The following table contains information concerning the compensation of the Company's non-employee directors for 2009. All amounts have been rounded to the nearest whole dollar.

In 2007, the Board established stock ownership guidelines for the Company's directors and executive officers. Such guidelines provide that (i) each director of the Company should own at least 9,000 shares of Common Stock, (ii) the Chief Executive Officer of the Company should own at least that number of shares of Common Stock which is equal in value to 300% of his base salary and (iii) each other executive officer of the Company should own at least that number of shares of Common Stock which is equal in value to 100% of his base salary. The directors and executive officers of the Company have four years from the adoption of such guidelines to reach the applicable guideline level of Common Stock ownership. Each executive officer of the Company that was elected or promoted to an executive officer after May 2007 shall have four years from such election or promotion to reach the applicable guideline level of Common Stock ownership. Similar periods to reach such guideline levels will apply to newly elected directors or newly elected or promoted executive officers of the Company.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers (as defined in the applicable regulations) and directors, and persons who beneficially own more than 10% of a class of the Company's equity securities registered under such Act, to file certain reports of ownership and changes of ownership of the Company's equity securities with the SEC. Officers, directors and more than 10% stockholders are required by SEC regulation to furnish to the Company copies of all Section 16(a) forms which they file.

Based solely on its review of the copies of such forms submitted to it and written representations from certain reporting persons that no Form 5 was required for those persons, the Company believes that all filing requirements applicable to its officers and directors were complied with for the year ended December 31, 2009, except that Mr. Nafus did not timely file a Form 4 for a transaction occurring in January 2009; however, such transaction was subsequently reported on a Form 4, and such transaction is reflected in this Proxy Statement.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

Overview

In the following section of our Proxy Statement, we discuss how our Chief Executive Officer and four other most highly compensated Executive Officers (our "Named Executive Officers" or "NEOs") were compensated in fiscal 2009, and describe how this compensation fits within our executive compensation philosophy.

Our Core Compensation Principles

Our executive compensation program is based on three primary principles:

Align executive compensation with stockholder return over the short and long term;

Recognize and reward individual performance and contributions of each executive; and

Attract and retain qualified executives.

Each component of our executive compensation program is intended to be consistent with these principles. Both company and individual performance are evaluated annually and are closely tied to the achievement of predetermined financial and personal objectives.

NEO Compensation Is Evaluated by a Committee of Independent Directors

Our Compensation Committee is currently composed of four directors, all of whom are independent directors under NASDAQ rules: Chairman Frank V. Sica, Ronald H. Cooper, Donald V. Smith and James A. Unruh. The Compensation Committee is responsible for:

Evaluating the performance of Company executive officers;

Reviewing and recommending to the Board, or when applicable taking independent action regarding, the compensation of Company executive officers;

Administering and granting awards under the Company's stock incentive plans;

Reviewing and recommending to the Board the performance bonus program for Company executive officers; and

Reviewing senior management compensation and benefits generally.

In fulfilling its responsibilities, our Compensation Committee has used an independent compensation consultant to assist it in developing and implementing our executive compensation program. The Compensation Committee is responsible for selecting the consultant, negotiating the fees that are paid to the consultant and determining the scope of the engagement.

For purposes of the 2009 compensation of our executive officers, the Compensation Committee engaged Watson Wyatt Worldwide, Inc.⁽¹⁾ ("Watson Wyatt"), as its independent compensation consultant. As part of its overall compensation assessment, Watson Wyatt examines the compensation practices of a peer group of publicly owned companies which may compete with us for executive and other managerial talent or share important characteristics with us (e.g., technology companies with similar talent needs and reasonably comparable revenue and/or market

capitalization). For more about the independent compensation consultant, see page 27.

(1)

As a result of a merger effective January 1, 2010, between Watson Wyatt and Towers, Perrin, Forster & Crosby, Inc., the merged entity is now known as "Towers Watson & Co."

Table of Contents

Executive Compensation Overview

The Company's Named Executive Officers

For fiscal 2009, our Named Executive Officers were:

Peter E. Kalan, our President and Chief Executive Officer;

Robert M. Scott, our Executive Vice President;

Randy R. Wiese, our Executive Vice President and Chief Financial Officer;

Joseph T. Ruble, our Executive Vice President, General Counsel, Corporate Secretary and Chief Administrative Officer; and

Bret C. Griess, our Executive Vice President Operations.

The Principal Components of our Executive Compensation Program

Our Compensation Committee has established three principal or core components of each NEO's compensation (excluding normal fringe benefits):

Core Component	Purpose and Objective	Percentage of Total Compensation(1)	Form
Base Salary	Provide base compensation that is competitive and fairly reflects the scope of responsibility, level of authority and overall duties of the position	20-30%	Cash
Annual Performance Bonus	Annual incentive bonus tied to Company and individual performance and achievement of individual performance objectives	19-23%	Cash
Long Term Incentive	Long term incentive compensation is intended to be tied to Company performance over the long term and align NEO interests with stockholder value	47-57%	Restricted stock awards

(1) These percentages are based on the ranges in the NEO compensation earned for 2009 for all NEOs other than Mr. Scott, who received all of his compensation for 2009 in the form of base salary and annual performance bonus. See the Summary Compensation Table and Grants of Plan-Based Awards Table which appear later in this Proxy Statement more detailed information concerning compensation paid to NEOs.

The following discusses the qualitative and quantitative aspects of these three core components of executive compensation.

Table of Contents

Base Salary.

The qualitative objectives for base salary are a salary which:

Is competitive with the base salaries being paid to persons holding similar positions with companies that the Compensation Committee, with the assistance of its independent compensation consultant, considers to be an appropriate peer group; and

Fairly reflects the position and responsibilities of the particular NEO.

Quantitatively, for 2009, the Compensation Committee considered a base salary for an NEO to be competitive generally if such salary was near the market median (or 50th percentile) of the applicable peer group compensation. However, in considering peer group compensation, the Compensation Committee recognized that the comparisons may not be perfectly aligned because the executive titles and responsibilities at the peer group companies are unlikely to correspond exactly to the responsibilities of the Company's NEOs with similar or equivalent titles.

For 2009, the Company's NEO group consisted of five persons, with a broad range of responsibilities consistent with the size and organization of the Company. The Compensation Committee considered that such responsibilities in other companies, including members of the peer group, may be divided among a larger number of executive employees or held by persons with different titles.

Annual Performance Bonus.

The qualitative objectives for the annual performance bonuses are to:

(1) Provide each NEO with the opportunity to earn a cash bonus in an amount which would result in such NEO's total annual cash compensation for the respective year (base salary plus cash bonus) to be competitive with the total annual cash compensation being paid to persons holding similar positions within the peer group companies, taking into account the differentiating factors referred to above, and which fairly reflects the position and responsibilities of the individual NEO; and

(2) Structure the annual performance bonus program in such a manner that it will, by being based on the achievement of key short-term objectives of meaningful increases in the Company's revenue and income, promote the Company's long-term financial success and enhance stockholder value.

Quantitatively, based upon the information provided by the Compensation Committee's independent compensation consultant, the Compensation Committee recommends to the Company's Board base salaries for the NEOs which fall within or close to a targeted competitive percentile range and established performance bonus targets which are similarly intended to bring the total annual cash compensation of such NEOs within such target competitive percentile range (generally between the 50th and 75th percentile of the applicable peer group compensation, assuming that the performance bonuses are earned in an amount at or near their 100% target).

Under the Performance Bonus Program, the Compensation Committee establishes on an annual basis (i) one or more Company performance goals that must be achieved in order for the participant to receive a bonus for that year, and (ii) the method, through an objective formula or standard, for computing the amount of the bonus award to be paid, if the performance goals are met. While it is not possible to predict with certainty the results of operations a year in advance, the Compensation Committee, after consulting with and receiving the consent of the Board, attempts to establish performance goal targets for the Performance Bonus Program which, if achieved, are most likely to result in a meaningful increase in stockholder value.

Long Term Incentive Awards.

In 2005, the stockholders of the Company approved the CSG Systems International, Inc. 2005 Stock Incentive Plan (the "2005 Stock Plan"). The 2005 Stock Plan authorizes the grant of (i) incentive stock options under the Internal Revenue Code, (ii) non-qualified stock options, (iii) stock appreciation rights, (iv) performance unit awards, (v) restricted stock awards, and (vi) stock bonus awards to eligible employees of the Company or its subsidiaries and to non-employee directors of the Company. The 2005 Stock Plan is administered by the Compensation Committee.

The 2005 Stock Plan provides that the Compensation Committee may grant awards under the 2005 Stock Plan (i) to those officers and other key employees of the Company and its subsidiaries who are responsible for or contribute to, or are likely to be responsible for or contribute to, the management, growth, and success of the Company or its subsidiaries and (ii) to non-employee directors of the Company. All of such persons are eligible to receive performance-based awards under the 2005 Stock Plan.

The qualitative objective for long-term incentive awards is to align overall NEO compensation with long-term stockholder return and, in addition to the annual performance bonus program, to include an equity component that will directly coincide with stockholder value. The equity component of the Company's NEO compensation program includes grants of restricted stock, 50% of which vest over a four-year period without a specific performance component, and 50% of which vest based on the achievement of specific performance-based criteria over a targeted three-year period. This configuration of equity awards encourages the retention of NEOs over the long-term and further aligns their interests with the interests of the Company's stockholders.

Quantitatively, in determining the amount of restricted stock granted to Company NEOs, the Compensation Committee also seeks to be competitive with the Company's peer group and for such purpose considers the information provided by the Compensation Committee's independent compensation consultant. Because the comparative data with respect to performance-based equity awards is limited, the Compensation Committee makes an independent judgment (based on the relevant data available and the members' extensive business experience) as to the number of shares granted to each NEO based on the value of the shares granted at the time of the grant in relation to (i) the NEO's cash compensation; (ii) the applicable performance targets for the performance-based grants and the potential difficulty in their achievement; and (iii) the corporate position and responsibilities of each NEO.

Determining Executive Compensation for NEOs

On an annual basis, the Compensation Committee evaluates and recommends to the Board the base salary and annual incentive bonus for each NEO. The Compensation Committee also has sole authority to make long-term incentive equity awards. When making these decisions and recommendations the Committee considers competitive peer group information and guidance provided by the independent compensation consultant, Company audited financial results, individual performance reviews for each NEO provided by the Chief Executive Officer, Compensation Committee and Board evaluations of the Chief Executive Officer and the performance-based vesting criteria for previously granted restricted stock awards. Compensation Committee and Board members also evaluate NEOs based on direct observation of NEO performance.

Determining Annual Base Salaries for NEOs

Base salary decisions require several considerations such as competitive peer group information, scope of each NEO's role, tenure and experience, as well as individual performance. After considering the competitive information provided by the independent compensation consultant, recommendations from the Chief Executive Officer with respect to the other NEOs and its own evaluation of NEO

Table of Contents

performance, the Compensation Committee recommended to the Board (and the Board approved) that the 2009 annual base salaries for the four NEOs remain unchanged from 2008, at the levels described in the following table.

Named Executive Officer(1)	2008 Base Salary	2009 Base Salary	% Increase in Base Salary from 2008	Base Salary % of Total Targeted Cash Compensation
Peter E. Kalan	\$ 500,000	\$ 500,000	0%	48%
Robert M. Scott	\$ 438,000	\$ 438,000	0%	57%
Randy R. Wiese	\$ 335,000	\$ 335,000	0%	61%
Joseph T. Ruble	\$ 280,000	\$ 280,000	0%	61%

(1)

This Table does not include Bret C. Griess, who first became an NEO in 2009. The percentages in the final column assume a target bonus amount for each NEO based on the Company achieving 100% of the Company targeted performance objectives. See Summary Compensation Table which appears later in this Proxy Statement for further and more detailed information concerning compensation paid to Mr. Griess and other NEOs.

Determining the Annual Performance Bonuses for 2009

The Annual Performance Bonus Program adopted by the Board and approved by the Company's stockholders in 2007, requires a set of pre-determined objectives for the Company and for each NEO. This short-term compensation component is paid to NEOs in cash only upon the Company's achievement of predetermined minimum annual corporate financial goals and the NEO's level of achievement of his individual performance objectives.

The Annual Performance Bonus for each NEO is determined as shown below. The base salary is multiplied by the target bonus percentage for each NEO. This result is then multiplied by the percentage of the Company-wide bonus target achieved by the Company (which is the same for all NEOs) and the individual percentage achieved by the NEO, to determine the total annual performance bonus for the NEO.

Base Salary	×	NEO Target Bonus Percentage	×	Company Target Bonus Percentage Achieved	×	NEO Individual Objectives Percentage Achieved	=	Total Bonus Earned
--------------------	---	------------------------------------	---	---	---	--	---	---------------------------

NEO Target Bonus Percentage. For 2009, the bonus targets expressed as a percentage of base salary for each NEO assigned by the Compensation Committee were as follows:

NEO	Target Bonus%
Peter E. Kalan	110%
Robert M. Scott	75%
Randy R. Wiese	65%
Joseph T. Ruble	65%
Bret C. Griess	65%

2009 Company Performance Measures. The Compensation Committee decided to continue to use the criteria of total revenue and operating income that were selected in 2008, believing that meaningful increases in the Company's total revenue and operating income are key short-term objectives that ultimately will promote our long-term financial success and enhance stockholder value. In establishing these Company performance goals, the Compensation Committee concluded that it is important for management to focus on both total revenue and operating income, and therefore established a Performance Bonus Plan matrix that includes the two pre-established financial goals. In addition, the

Table of Contents

Compensation Committee established specified minimum levels of both total revenue and operating income as the threshold financial performance goals for purposes of the Performance Bonus Plan, which must be met before any performance bonus is earned.

The table below shows the 2009 Company performance measures for both target and actual. If the Company achieves the exact target levels of performance for revenue and operating income reflected below, the Company-wide payout percentage is 100%. The final Company-wide payout percentage is determined by how the Company's actual 2009 financial performance compares to each of the target levels of performance.

	2009 Target(1)	2009 Actual
Revenue	\$ 513.0 million	\$ 500.7 million
Operating Income	\$ 69.1 million	\$ 74.7 million

(1)

The Operating Income target amount was adjusted from the original 2009 target of \$67.1 million of operating income to reflect the impact of a material change in certain operating expectations subsequent to the establishment of the original targets, as required under the terms of the Performance Bonus Program. This adjustment had the ultimate effect of reducing the overall level of bonuses paid out under the 2009 Performance Bonus Plan had the target otherwise been left unchanged.

The 100% targets were initially established based upon the Company's internal budget for 2009 revenue and operating income. The minimum criteria established by the Compensation Committee necessary for the NEOs to receive any performance bonus were at least \$474.5 million in total revenue and at least \$51.0 million of operating income in 2009.

Based on the actual 2009 Company financial performance as shown in the table above, the percent attainment of the 2009 bonus based on the predetermined financial objectives was 108%. For purposes of the Bonus Program, total revenue and operating income amounts are derived from the 2009 audited Consolidated Statement of Income of the Company and its subsidiaries. The Compensation Committee, as required by Section 162(m), has certified the attainment of our financial performance goals for purposes of the 2009 Performance Bonus Plan, and the Company made such performance bonus payments in March 2010.

2009 Individual NEO Personal Performance Objectives. The final element in the determination of the annual performance bonus is a determination by the Compensation Committee of each NEOs achievement of his personal performance objectives.

Under the 2009 Performance Bonus Plan, an NEO could receive a performance bonus which is either more or less than (and possibly none of) his targeted bonus for the year, depending upon the level of attainment of the Company's financial performance goals and the NEO's personal performance, with a maximum performance bonus equal to 200% of the NEO's base salary with respect to personal performance; however, the Compensation Committee may exercise negative discretion and may not rate an NEO as achieving more than 100% of his personal performance goals.

The individual performance objectives for the NEOs for 2009 were, for the most part, task and performance oriented within the context of the NEOs particular area of responsibility and were broadly described rather than involving specific monetary or numerical achievements. Such personal objectives were provided to the Compensation Committee in written form at the time the individual NEO performance bonus targets for 2009 were established by the Compensation Committee.

Individual performance objectives for the NEOs were comprised of both common and unique objectives, including the following.

Table of Contents

Common Objectives. Common elements of NEO objectives included:

Operational and Functional Responsibilities. Each of the NEOs had as a personal objective to manage his assigned areas of accountability. The significance of this objective varied by NEO depending upon whether the NEO's responsibilities included accountability for profit or loss in a particular area of our business, or managing expenses within certain budgetary objectives.

Leadership. The Company has identified key corporate values that define our culture, and each of the NEOs had a personal objective to demonstrate his leadership by living the Company's corporate values in his interactions with customers, colleagues, partners and vendors.

Unique Objectives. The following are examples of categories of personal objectives that were unique to one or more NEOs based on his area of responsibility within the Company:

Deliver on Key Development Initiatives. As a technology company, we have a technology product road map requiring significant software development investments aimed at achieving specified feature and functional milestones.

Key Client Relationships. A significant portion of our revenue is derived from a small number of key clients, and a key objective is to ensure that these relationships remain healthy and, when applicable, key contracts are renewed under terms satisfactory to both parties.

Staff Development. Succession planning and development of key staff is an important Company-wide objective, including transitioning identified tasks and functions from outgoing personnel to new personnel, where applicable.

Growth Initiatives. Execution of Company's long-term strategic plan, including Company's merger, acquisition and partnership strategies, with a view to enhancing stockholder value.

Increasing Cost Efficiency. Identifying and implementing potential cost savings and process efficiencies in identified areas of the Company.

When the Compensation Committee met in February 2010 to consider the 2009 performance of the NEOs as compared with their individual objectives, Mr. Kalan as the Company's Chief Executive Officer, presented to the Compensation Committee, a review of the 2009 performances of the other NEOs and noted those aspects of the respective performance objectives that had not been entirely fulfilled. Mr. Kalan recommended to the Compensation Committee an overall percentage attainment on each individual objective achievement percentages for each of the NEOs. Outside of Mr. Kalan's presence, Mr. Reed discussed with the Compensation Committee Mr. Kalan's performance in his capacity as Chief Executive Officer during 2009.

The Compensation Committee, recognizing that the assignment of a numerical achievement level to the NEO personal objectives is largely a subjective exercise, relied both on Mr. Kalan's evaluations of the other NEOs and the Committee members' own direct observations in arriving at the percentages of achievement of such personal objectives to be used for purposes of actual performance bonus awards made for 2009. The Compensation Committee made its own judgment with respect to Mr. Kalan's achievement of his personal objectives based upon Mr. Reed's recommendations and its direct observation of Mr. Kalan's performance in his various capacities. The NEO personal objective percentages determined by the Compensation Committee are described in the footnote 5 of the Summary Compensation Table which appears later in this Proxy Statement.

Determining Long-Term Incentive Awards

Equity grants to NEOs are generally considered annually concurrent with Company and individual performance reviews and aligned with base salary and annual performance incentive determinations when the Compensation Committee can review the total compensation package for NEOs and has the

Table of Contents

information provided by the independent compensation consultant to guide the decision making process.

The Compensation Committee has no formal policy mandating that equity awards to NEOs be granted only within certain time frames (e.g., immediately following the announcement of quarterly financial results). The Compensation Committee believes that, in light of the considered nature of its equity award process, which generally is conducted in the same time period each year, and the significant differences between restricted stock awards and stock options, such a policy is not necessary.

As of December 31, 2008, Mr. Kalan was the only NEO with an outstanding stock option, for the purchase of 22,450 shares of Common Stock which was granted in 2003. Mr. Kalan exercised this option in 2009, and as of December 31, 2009, there are no NEOs with outstanding stock options. No stock options have been granted to any NEO since 2003 and we do not contemplate granting any stock options to the NEOs during 2010.

In 2009, the Compensation Committee continued the approach it implemented in 2007, and made restricted stock awards to NEOs in two forms: 50% of the shares granted vest in equal increments over a four-year period beginning on the first anniversary of the grant date, and 50% of the shares granted are performance-based awards which vest over a three-year period if certain performance thresholds are met.

The goals established for the performance-based vesting, approved by the Company's stockholders in 2007, include stock price and adjusted earnings per diluted share ("EPS"). In selecting those two performance goals, the Compensation Committee chose to focus on two metrics which have a particularly close relationship to stockholder value. While stock price is an obvious measure of achieved stockholder value, the adjusted EPS calculation is designed to measure Company cash flow generating capabilities, which we believe is a metric often used by investors and financial analysts to evaluate our financial performance and assess our potential for increased stockholder value.

In determining the number of shares of restricted stock to be granted to the Company's NEOs and the balance between performance-based and time-based vesting provisions, the Compensation Committee considered information received from the Committee's independent compensation consultant, as well as the views of the Company's senior management concerning the use of performance-based vesting for restricted stock.

For 2009, the Compensation Committee established two alternative performance goal targets for the 2009 grant of performance-based awards (applicable to one-third of the performance-based shares granted):

\$16.50 per share stock price (the share price value is determined by the average closing price for the first 20 trading days after public announcement of the Company's fiscal year-end results); and

\$2.38 per share adjusted EPS

The stock price target related to the 2009 grant reflected a 12% increase as compared to the average stock price in 2008. The adjusted EPS target related to the 2009 grant represented a 6.7% decrease from the Company's actual EPS for 2008.

The Compensation Committee considered such targets to provide a meaningful challenge to the NEOs. Achievement of the stock price target depends not only upon improved operating performance and the future outlook for the Company, but also on stock market conditions generally, over which the NEOs have no control.

The 2009 performance-based restricted stock awards vest in three approximately equal annual increments if the Company attains either of the specified performance goals for 2009, 2010, and 2011.

Table of Contents

Each year's performance goal targets reflect a meaningful growth rate over the previous year's measures. If the Company does not attain either of the performance goals for a particular year, but does attain at least one of the performance goal targets for a subsequent year, then the unvested shares for the earlier year will vest in addition to the shares scheduled to vest in the current year.

The Grants of Plan-Based Awards table appearing later in this Proxy Statement contains the details of the 2009 restricted stock awards to our NEOs.

Additionally, based upon our 2009 results of operations, the Compensation Committee determined and, as required by Section 162(m), certified that the following performance-based restricted stock awards, related to the 2009, 2008 and 2007 grants, became vested:

	Stock Price		Adjusted EPS	
	2009 Target	2009 Actual	2009 Target	2009 Actual
First-year increment of 2009 Award	\$ 16.50	\$ 20.64	\$ 2.38	\$ 2.57
Second-year increment of 2008 Award	\$ 16.50	\$ 20.64	\$ 2.73	\$ 2.57
Third-year increment of 2007 Award	\$ 33.23	\$ 20.64	\$ 2.49	\$ 2.57

Process for Establishing NEO Compensation

Our executive compensation review process typically begins in the fourth quarter of each calendar year when the Compensation Committee conducts a preliminary review of the year-to-date status of the Company financial performance measures which are used to determine the annual performance bonuses and performance-based vesting of restricted stock awards, including any adjustments that may be appropriate in light of acquisitions or other material matters under the terms of such award plans. The Compensation Committee also receives reports and reviews on an on-going basis during the year, changes in applicable regulatory requirements, current governance best practices and relevant industry compensation trends.

At its February meeting each year, the Compensation Committee receives reports from its independent compensation consultant and information and recommendations from management relating to annual base salaries, annual performance bonus targets and equity awards (currently restricted stock awards). In addition, at its February meeting, the Compensation Committee has the opportunity to review the list of peer group companies, industry appropriate survey data, the Company's financial results for the prior year, the Company's current year financial targets, and the individual performances of the NEOs.

The Role of the Independent Compensation Consultant regarding NEO Compensation

Our Compensation Committee instructed Watson Wyatt to take a broad view of the competitive compensation landscape to assist the Compensation Committee in structuring a compensation program for our NEOs that balances short and long-term compensation, aligns NEO interests with stockholder returns and encourages better performance. We believe that this broader view of compensation practices has enabled us to attract and retain a highly talented executive team. Watson Wyatt reviews compensation data available from peer company proxy filings and published survey sources using position matches and data cuts that are selected as best representative of comparable positions in our industry.

While the Compensation Committee selects the independent compensation consultant and determines the scope of the consultant's engagement, our management assists the consultant with its analysis and recommendations. For example, the consultant obtains from management historical pay data of the NEOs, management's perspectives on the competitive environment in which the Company operates and management's opinions as to which companies (or types of companies) are most likely to attempt to recruit talent from the managerial ranks of the Company. While the Compensation

Table of Contents

Committee is primarily responsible for developing and implementing or recommending to the Board the various elements of the compensation program for our NEOs, our Chief Executive Officer provides performance evaluations and makes recommendations for the compensation of our other NEOs.

The Compensation Committee periodically reviews its selection of its independent compensation consultant. Such a review was conducted in the first quarter of 2008 at which time the Compensation Committee elected to retain Watson Wyatt as its independent advisor for executive compensation matters in 2009. The Compensation Committee has elected to continue to engage Watson Wyatt, now known as Towers Watson & Co., as its independent advisor for executive compensation matters in 2010.

The Use of Benchmarking Data in Determining NEO Compensation

To assist the Compensation Committee in establishing 2009 compensation for our NEOs, Watson Wyatt provided information requested by the Compensation Committee, including a competitive assessment using peer group compensation information and industry appropriate survey data (also referred to as "benchmarking") of the three primary elements of our NEO compensation packages:

Base Salary;

Target Total Cash Compensation (base salary plus target annual incentives); and

Total Direct Compensation (target total cash compensation plus an annualized value of any long term incentives granted).

The independent consultant's information provided to the Compensation Committee includes an Executive Compensation Competitive Review, containing benchmarking of the Base Salary, Total Cash Compensation (at target) and Total Direct Compensation (at target) to be paid to the Company's NEOs, and a more general review of the short-term and long-term incentive programs of the Company. This process requires the identification of a peer group for comparison purposes, analysis of the projected total cash compensation (base salary and annual performance bonus) of the Company's NEOs for the prior year, and comparison with the equivalent peer group positions and industry appropriate survey data to reflect the approximate percentile in which the Company's NEOs would fall. Both the independent compensation consultant and the Compensation Committee recognize that the peer group comparisons and the industry appropriate survey data may not be perfectly aligned because the executive titles and responsibilities at the peer group companies are unlikely to correspond exactly to the responsibilities of the Company's NEOs with similar or equivalent titles.

The written materials provided to the Compensation Committee by the independent compensation consultant are supplemented by dialogue with the consultant concerning the information provided, as well as information with respect to the independent compensation consultant's current experiences and observations regarding the compensation practices and philosophies of other companies. The process of establishing base salaries and annual performance bonus targets is not totally objective, but also involves competitive market considerations, and subjective considerations by the Compensation Committee in the case of each NEO. Such subjective factors include recognition and evaluation of the NEO's past performance, the scope of the NEO's prior responsibilities as compared with the anticipated scope of responsibilities or change in position in the year for which compensation is being established, technical skills, and personal qualities such as leadership skills and experience.

The benchmark information provided to the Compensation Committee by the independent compensation consultant relates to prior years for which data is publicly available, and the Compensation Committee uses such information as a guide and not as an absolute measure of appropriate compensation. Based on all the information provided, the Compensation Committee then determines the appropriate NEO base salaries and annual performance bonus targets for the current year and whether to make any awards of restricted stock to our NEOs.

Table of Contents

The following is a summary comparison of base salary, total cash compensation (base salary + annual performance incentive) and target total direct compensation (base salary + annual performance incentive + value of equity awards granted during the past year) against our peer group companies and appropriate survey data based on independent compensation consultant information available in February 2009.

Base Salary: For 2009, the Compensation Committee generally considered a base salary for an NEO to be competitive if such salary was near the market median (or 50th percentile). For 2009, the base salaries for Mr. Kalan, Mr. Wiese and Mr. Ruble were competitive as such salaries were near the market median, while the base salary for Mr. Scott was positioned above the 75th percentile and Mr. Griess was near the 75th percentile.

Total Cash Compensation: For 2009, the Compensation Committee generally considered targeted total cash compensation for an NEO to be competitive if such targeted total cash compensation was between the 50th and 75th percentile, assuming that the Company performance goals have been met or exceeded. For 2009, the targeted total cash compensation for all NEOs were between the 50th and 75th percentile except for Mr. Ruble whose total cash compensation was near the 50th percentile, and Mr. Scott whose total cash compensation was above the 75th percentile for this category.

Total Direct Compensation: For 2009, the Compensation Committee generally considered total direct compensation (total cash compensation plus the value of any equity awards granted to the NEO during the past year) for an NEO to be competitive if such total direct compensation was near the market median (or 50th percentile). For 2009, Mr. Kalan was positioned near the 40th percentile, Mr. Scott and Mr. Wiese were positioned near the 50th percentile, Mr. Griess was positioned near the 25th percentile and Mr. Ruble was positioned near the 60th percentile. Overall, the independent compensation consultant concluded that the total direct compensation of the Company's NEOs were generally within a reasonable range around the median of its peer group.

The table below shows how our NEOs compare (on a percentile basis) to our peer group company information for base salary, total cash compensation (base + annual performance bonus), and total direct compensation (base salary + annual performance bonus + value of equity awards granted during the past year).

	Base Salary	Total Cash Compensation	Total Direct Compensation

The Peer Group of Companies Used for Benchmarking

The peer group of companies used for benchmarking are selected based on companies with similar industry and business models, and with annual revenues within a reasonable range of the Company's

Table of Contents

expected annual revenue. For the 2009, the peer group of companies used for comparison purposes consisted of the following 13 public companies:

ACI Worldwide, Inc.	Bottomline Technologies (de), Inc.
CyberSource Corporation	Epicor Software Corporation
Fair Isaac Corporation	Jack Henry & Associates, Inc.
Progress Software Corporation	Red Hat, Inc.
S1 Corporation	Solera Holdings, Inc.
StarTek, Inc.	TIBCO Software Inc.
TNS, Inc.	

The peer group is reviewed annually to ensure that its composition and characteristics remain consistent with our objectives.

Section 162(m) Requirements

Section 162(m) of the Internal Revenue Code imposes a \$1 million limit on the amount that a public company may deduct for federal income tax purposes for compensation paid to its NEOs who are employed as of the end of the year. This limitation does not apply to Chief Financial Officers or to compensation that qualifies under Section 162(m) as "performance-based" compensation (i.e., compensation paid only if the individual's performance meets pre-established objective performance goals approved by stockholders and other Section 162(m) requirements are satisfied). In February 2009 the Compensation Committee established certain objective performance goals for our NEOs under our stockholder-approved 2005 Stock Incentive Plan and under the Company's Performance Bonus Program to qualify as performance-based compensation for purposes of Section 162(m). The Performance Bonus Program was submitted to and approved by the Company's stockholders in May 2007. The Compensation Committee is responsible for the administration of both our 2005 Stock Incentive Plan and our Performance Bonus Program.

Other Compensation

The Compensation Committee does not believe that perquisites and other compensation and benefits should play a major role in the overall compensation program for our NEOs. We offer our NEOs the opportunity to defer a portion of their annual base salary and annual performance bonus through a 401(k) plan that is generally available Company-wide and through a more restricted (i.e., participation is limited to vice presidents and above) non-qualified deferred compensation program, both of which include Company matching contributions. The Compensation Committee views these deferral programs more as individual retirement planning options for our NEOs and not as a long-term compensation program. The amount of our contributions for each NEO is reported in footnote (6) to the Summary Compensation Table appearing later in this Proxy Statement, along with the details of various items of other NEO compensation.

(a) Pursuant to the Company's Performance Bonus Program, on February 19, 2009, the Compensation Committee identified Messrs. Kalan, Scott, Wiese, Ruble, and Griess as participants in a 2009 Performance Bonus Plan (the "2009 Plan") and established performance goals for the purposes of the 2009 Plan. Such performance goals consisted of the attainment by the Company and its subsidiaries on a consolidated basis of (i) not less than a specified

minimum level of total revenue for 2009 and (ii) not less than a specified minimum level of operating income for 2009. If either total revenue or operating income fell below the minimum specified level for 2009, then no bonus awards would have been paid under the 2009 Plan. Revenue and operating income are determined by reference to the Company's audited consolidated financial statements for 2009. The employment agreements of the persons named in this table provide that such persons are to have the opportunity to earn, as annual incentive bonuses, specified minimum percentages of their base salaries as follows: Mr. Kalan 50%; Mr. Scott 65%; Mr. Wiese 65%; Mr. Ruble 40%; and Mr. Griess 65%.

- (b) The 2009 incentive bonus payout percentage was based upon the combined levels of the Company's achievement of pre-established targets for 2009 total revenue and operating income.
- (c) The 2009 personal objectives percentage was based upon the level of achievement of each individual's personal performance objectives for 2009, as determined by the Compensation Committee of the Board. As a result of the 2009 personal objectives, the total annual performance amounts were reduced for Messrs. Kalan, Wiese, Ruble, and Griess by \$23,760, \$9,407, \$5,897, and \$9,126, respectively.
- (6) This column reflects 2009, 2008 and 2007 compensation of the persons named in this table that is not properly reportable in any other column of this table. For 2009, details of the "All Other Compensation" are as follows:

- (1) The actual amounts earned for 2009 are reported in the Summary Compensation Table in the column titled "Non-Equity Incentive Plan Compensation". The award amounts assume the executive officers had achieved 100% of their personal performance objectives (see Footnote (5) to the Summary Compensation table). In February 2010, the Compensation Committee certified the 2009 Performance Bonus Plan Goal at 108.0%.

- (2) All restricted stock awards considered "equity incentive plan awards" are performance-based awards granted under the Company's 2005 Stock Incentive Plan. To vest in awards, the executives must attain objective performance goals based upon one or more of the following business criteria applicable to the Company: net income, adjusted net income, operating income, adjusted operating income, revenue, adjusted revenue, earnings, adjusted earnings, gross margin, return on stockholders' equity, stock price, earnings per share, adjusted earnings per share, and cash flow. The Compensation Committee must certify in writing that the performance goals and any other material terms applicable to such performance-based awards have been attained. The performance-based restricted stock awards granted in February 2009 vest, if at all, in three approximately equal installments over a three-year period consisting of 2010, 2011 and 2012, and the objective performance goals are based upon either (i) a specified adjusted earnings per diluted share target or (ii) a specified Company stock price. However, all unvested performance-based restricted stock awards covered by these grants automatically vest upon an involuntary (on the part of the executive) termination of the executive's employment without cause after a change of control of the Company.
- (3) All restricted stock awards considered "all other stock awards" are non-performance-based awards granted under the Company's 2005 Stock Incentive Plan. These restricted stock awards vest in four equal annual installments commencing on the first anniversary of the grant date. However, all unvested restricted shares covered by these grants automatically vest upon an involuntary (on the part of the executive) termination of the executive's employment without cause after a change of control of the Company.
- (4) This amount reflects the aggregate grant date fair value for both performance-based and non-performance-based restricted stock awards granted in 2009.
