**2. Summary of Significant Accounting Policies:**

*Basis of Presentation:*

The accompanying consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. They do not include all of the information and footnotes required by GAAP for complete financial statements and have not been audited by independent public accountants.

The accompanying consolidated financial statements include the accounts of the Company and the Operating Partnership. Investments in entities in which the Company has a controlling financial interest or entities that meet the definition of a variable interest entity in which the Company has, as a result of ownership, contractual or other financial interests, both the power to direct activities that most significantly impact the economic performance of the variable interest entity and the obligation to absorb losses or the right to receive benefits that could potentially be significant to the variable interest entity are consolidated; otherwise they are accounted for under the equity method of accounting and are reflected as investments in unconsolidated joint ventures.

All intercompany accounts and transactions have been eliminated in the consolidated financial statements.

**2. Summary of Significant Accounting Policies: (Continued)**

The unaudited interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the consolidated financial statements for the interim periods have been made. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The accompanying consolidated balance sheet as of December 31, 2012 has been derived from the audited financial statements, but does not include all disclosures required by GAAP.

The mortgage notes payable balances include the unamortized debt premiums (discounts). Debt premiums (discounts) represent the excess (deficiency) of the fair value of debt over (under) the principal value of debt assumed in various acquisitions and are amortized to interest expense over the remaining term of the related debt in a manner that approximates the effective interest method.

Most of the mortgage loan agreements contain a prepayment penalty provision for the early extinguishment of the debt.

Most of the Company's mortgage notes payable are secured by the properties on which they are placed and are non-recourse to the Company. As of June 30, 2013 and December 31, 2012, a total of \$216,421 and \$213,466, respectively, of the mortgage notes payable could become recourse to the Company. The Company had indemnity agreements from consolidated joint venture partners for \$28,208 of the guaranteed amount at December 31, 2012.

The Company expects that all loan maturities during the next twelve months will be refinanced, restructured, extended and/or paid-off from the Company's line of credit or with cash on hand.

Total interest expense capitalized was \$3,135 and \$2,562 during the three months ended June 30, 2013 and 2012, respectively, and \$6,642 and \$4,915 during the six months ended June 30, 2013 and 2012, respectively.

Related party mortgage notes payable are amounts due to affiliates of NML. See Note 17 Related Party Transactions for interest expense associated with loans from NML.

The fair value of mortgage notes payable at June 30, 2013 and December 31, 2012 was \$4,730,390 and \$4,567,658, respectively, based on current interest rates for comparable loans. The method for computing fair value (Level 2 measurement) was determined using a present value model and an interest rate that included a credit value adjustment based on the estimated value of the property that serves as collateral for the underlying debt.

*Line of Credit:*

On May 2, 2011, the Company obtained a \$1,500,000 revolving line of credit that bore interest at LIBOR plus a spread of 1.75% to 3.0% depending on the Company's overall leverage and was to mature on May 2, 2015 with a one-year extension option. Based on the Company's leverage level as of June 30, 2013, the borrowing rate on the facility was LIBOR plus 2.25%. The line of credit had the ability to be expanded, depending on certain conditions, up to a total facility of \$2,000,000 less the outstanding balance of the \$125,000 unsecured term loan as described below. As of June 30, 2013 and December 31, 2012, borrowings under the line of credit were \$405,000 and \$675,000, respectively, at an average interest rate of 2.99% and 2.76%, respectively. The fair value (Level 2 measurement) of the line of credit at June 30, 2013 and December 31, 2012 was \$409,755 and \$675,107, respectively, based on a present value model using a credit interest rate spread offered to the Company for comparable debt.

On August 6, 2013, the Company's line of credit was amended and extended. The amended facility provides for an interest rate of LIBOR plus a spread of 1.375% to 2.0%, depending on the Company's overall leverage levels and matures on August 6, 2018. The interest rate, as of the amendment date, was LIBOR plus 1.50%. In addition, the line of credit can be expanded, depending on certain conditions, up to a total amount of \$2,000,000 (without giving effect to the \$125,000 unsecured term loan described below).

*Term Loan:*

On December 8, 2011, the Company obtained a \$125,000 unsecured term loan under the line of credit that bears interest at LIBOR plus a spread of 1.95% to 3.20% depending on the Company's overall leverage and matures on December 8, 2018. Based on the Company's leverage level as of June 30, 2013, the borrowing rate is LIBOR plus 2.20%. As of June 30, 2013 and December 31, 2012, the total interest rate was 2.79% and 2.57%, respectively. The fair value (Level 2 measurement) of the term loan at June 30, 2013 and December 31, 2012 was \$119,904 and \$121,821, respectively, based on a present value model using a credit interest rate spread offered to the Company for comparable debt.

*Greeley Note:*

On July 27, 2006, concurrent with the sale of Greeley Mall, the Company provided marketable securities to replace Greeley Mall as collateral for the mortgage note payable on the property (See Note 6 Marketable Securities). As a result of this transaction, the mortgage note payable was reclassified to bank and other notes payable. This note bears interest at an effective rate of 6.34% and matures on September 1, 2013. At June 30, 2013 and December 31, 2012, the Greeley Note had a balance outstanding of \$23,593 and \$24,027, respectively. The fair value (Level 2 measurement) of the note at June 30, 2013 and December 31, 2012 was \$23,758 and \$24,685, respectively, based on current

interest rates for comparable notes. The method for computing fair value was determined using a present value model and an interest rate that included a credit value adjustment based on the estimated value of the collateral for the underlying debt.

*Prasada Note:*

On March 29, 2013, the Company issued a \$13,330 note payable that bears interest at 5.25% and matures on March 29, 2016. The note payable is collateralized by a portion of a development reimbursement agreement with the City of Surprise, Arizona. At June 30, 2013, the note had a balance of \$13,261. The fair value (Level 2 measurement) of the note at June 30, 2013 was \$14,008 based on current interest rates for comparable notes. The method for computing fair value was determined using a present value model and an interest rate that included a credit value adjustment based on the estimated value of the collateral for the underlying debt.

As of June 30, 2013 and December 31, 2012, the Company was in compliance with all applicable financial loan covenants.

**11. Co-Venture Arrangement:**

On September 30, 2009, the Company formed a joint venture, whereby a third party acquired a 49.9% interest in Freehold Raceway Mall and Chandler Fashion Center. As part of this transaction, the Company issued a warrant in favor of the third party to purchase 935,358 shares of common stock of the Company at an exercise price of \$46.68 per share. See Note 13 Stockholders' Equity. The Company received approximately \$174,650 in cash proceeds for the overall transaction, of which \$6,496 was attributed to the warrant.

As a result of the Company having certain rights under the agreement to repurchase the assets after the seventh year of the venture formation, the transaction did not qualify for sale treatment. The Company, however, is not obligated to repurchase the assets. The transaction has been accounted for as a profit-sharing arrangement, and accordingly the assets, liabilities and operations of the properties remain on the books of the Company and a co-venture obligation was established for the amount of \$168,154, representing the net cash proceeds received from the third party less costs allocated to the warrant. The co-venture obligation is increased for the allocation of income to the co-venture partner and decreased for distributions to the co-venture partner. The co-venture obligation was \$86,677 and \$92,215 at June 30, 2013 and December 31, 2012, respectively.

**12. Noncontrolling Interests:**

The Company allocates net income of the Operating Partnership based on the weighted average ownership interest during the period. The net income of the Operating Partnership that is not attributable to the Company is reflected in the consolidated statements of operations as noncontrolling interests. The Company adjusts the noncontrolling interests in the Operating Partnership at the end of each period to reflect its ownership interest in the Company. The Company had a 94% and 93% ownership interest in the Operating Partnership as of June 30, 2013 and December 31, 2012, respectively. The remaining 6% and 7% limited partnership interest as of June 30, 2013 and December 31, 2012, respectively, was owned by certain of the Company's executive officers and directors, certain of their affiliates, and other third party investors in the form of OP Units. The OP Units may be redeemed for shares of stock or cash, at the Company's option. The redemption value for each OP Unit as of any balance sheet date is the amount equal to the average of the closing price per share of the Company's common stock, par value \$0.01 per share, as reported on the New York Stock Exchange for the 10 trading days ending on the respective balance sheet date. Accordingly, as of June 30, 2013 and December 31, 2012, the aggregate redemption value of the then-outstanding OP Units not owned by the Company was \$579,203 and \$586,409, respectively.

The Company issued common and preferred units of MACWH, LP in April 2005 in connection with the acquisition of the Wilmorite portfolio. The common and preferred units of MACWH, LP are redeemable at the election of the holder, the Company may redeem them for cash or shares of the Company's stock at the Company's option and they are classified as permanent equity.

Included in permanent equity are outside ownership interests in various consolidated joint ventures. The joint ventures do not have rights that require the Company to redeem the ownership interests in either cash or stock.

**13. Stockholders' Equity:**

*Stock Warrants:*

On September 30, 2009, the Company issued a warrant in connection with its formation of a co-venture to own and operate Freehold Raceway Mall and Chandler Fashion Center (See Note 11 Co-Venture Arrangement). The warrant provided for the purchase of 935,358 shares of the Company's common stock. The warrant was valued at \$6,496 and recorded as a credit to additional paid-in capital. The warrant was immediately exercisable upon its issuance and was scheduled to expire on December 1, 2012. The warrant had an exercise price of \$46.68 per share, with such price subject to anti-dilutive adjustments. The warrant allowed for either gross or net issue settlement at the option of the warrant holder. In the event that the warrant holder elected a net issue settlement, the Company could have elected to settle the warrant in cash or shares; provided, however, that in the event the Company elected to deliver cash, the holder could have elected to instead have the exercise of the warrant satisfied in shares. In addition, the Company had entered into a registration rights agreement with the warrant holders requiring the Company to provide certain registration rights regarding the resale of shares of common stock underlying the warrant. On December 30, 2011, the holders requested a net issue exercise of 311,786 shares of the warrant and the Company elected to deliver a cash payment of \$1,278 in exchange for the portion of the warrant exercised. On April 10, 2012, the holders requested a net issue exercise of an additional 311,786 shares of the warrant and the Company elected to deliver a cash payment of \$3,448 in exchange for the portion of the warrant exercised. *At-The-Market Stock Offering Program ("ATM Program"):*

On August 17, 2012, the Company entered into an equity distribution agreement ("Distribution Agreement") with a number of sales agents to issue and sell, from time to time, shares of common stock, par value \$0.01 per share, having an aggregate offering price of up to \$500,000 (the "Shares"). Sales of the Shares, if any, may be made in privately negotiated transactions and/or any other method permitted by law, including sales deemed to be an "at the market" offering, which includes sales made directly on the New York Stock Exchange or sales made to or through a market maker other than on an exchange. The Company will pay each sales agent a commission that will not exceed, but may be lower than, 2% of the gross proceeds of the Shares sold through such sales agent under the Distribution Agreement.

During the three months ended September 30, 2012, the Company sold 2,961,903 shares of common stock under the ATM Program in exchange for aggregate gross proceeds of \$177,896 and net proceeds of \$175,649 after commissions and other transaction costs. During the three months ended June 30, 2013, the Company sold 2,456,956 shares of common stock under the ATM Program in exchange for aggregate gross proceeds of \$173,011 and net proceeds of \$171,174 after commissions and other transaction costs. The proceeds from the sales were used to pay down the Company's line of credit.

As of June 30, 2013, \$149,093 remained available to be sold under the ATM Program. Actual future sales will depend upon a variety of factors including but not limited to market conditions, the trading price of the Company's common stock and the Company's capital needs. The Company has no obligation to sell the remaining shares available for sale under the ATM Program.

*Stock Issued to Acquire Property:*

On November 28, 2012, the Company issued 535,265 restricted shares of common stock in connection with the acquisition of Kings Plaza Shopping Center (See Note 14 Acquisitions) for a value of \$30,000, based on the average closing price of the Company's common stock for ten preceding trading days.

**18. Share and Unit-Based Plans:**

On February 15, 2013, the Company granted 332,189 limited partnership units of the Operating Partnership ("LTIP Units") under the Long-Term Incentive Plan to seven executive officers at a weighted average grant date fair value of \$49.67 per LTIP Unit. The new grants vest over a service period ending December 31, 2013 based on the percentile ranking of the Company in terms of total return to stockholders (the "Total Return") per share of common stock relative to the Total Return of a group of peer REITs, as measured at the end of the measurement period. Upon the occurrence of specified events and subject to the satisfaction of applicable vesting conditions, LTIP Units (after conversion into OP Units) are ultimately redeemable for common stock of the Company on a one-unit for one-share basis.

The fair value of the Company's LTIP Units granted in 2013 was estimated on the date of grant using a Monte Carlo Simulation model. The stock price of the Company, along with the stock prices of the group of peer REITs, was assumed to follow the Multivariate Geometric Brownian Motion Process. Multivariate Geometric Brownian Motion Process modeling is commonly used in financial markets, as it allows the modeled quantity (in this case, the stock price) to vary randomly from its current value based on the stock price's expected volatility and current market interest rates. The volatilities of the returns on the stock price of the Company and the peer group REITs were estimated based on a one-year look-back period. The expected growth rate of the stock prices over the derived service period was determined with consideration of the risk free rate as of the grant date.

The following summarizes the compensation cost under the share and unit-based plans:

	<b>For the Three Months Ended June 30,</b>		<b>For the Six Months Ended June 30,</b>	
	<b>2013</b>	<b>2012</b>	<b>2013</b>	<b>2012</b>

On May 31, 2013, the Company sold Green Tree Mall, a 793,000 square foot regional shopping center in Clarksville, Indiana, for \$79.0 million, resulting in a gain on the sale of assets of \$59.8 million. The Company used the proceeds from the sale to pay down its line of credit.

On June 4, 2013, the Company sold Northridge Mall, a 890,000 square foot regional shopping center in Salinas, California, and Rimrock Mall, a 603,000 square foot regional shopping center in Billings, Montana. The Company used the proceeds from the sale to pay down its line of credit.

On June 12, 2013, the Company's joint venture in Pacific Premier Retail LP sold Kitsap Mall, a 846,000 square foot regional shopping center in Silverdale, Washington, for \$127.0 million, resulting in a gain on the sale of assets of \$55.2 million to the joint venture. The Company's share of the gain recognized was \$28.1 million. The Company used its share of the proceeds to pay down its line of credit and for general corporate purposes.

On August 1, 2013, the Company's joint venture in Pacific Premier Retail LP sold Redmond Town Center, a 695,000 square foot community center in Redmond, Washington, for \$127.0 million, resulting in a gain on the sale of assets of approximately \$39.4 million. The Company used its share of the proceeds from the sale to pay down its line of credit.

*Other Transactions and Events:*

In March 2012, the Company recorded an impairment charge of \$54.3 million to write down the carrying value of the long-lived assets of Valley View Center to their estimated fair value. On April 23, 2012, the property was sold by a court appointed receiver for \$33.5 million, which resulted in a gain on the extinguishment of debt of \$104.0 million.

On May 31, 2012, the Company conveyed Prescott Gateway, a 584,000 square foot regional shopping center in Prescott, Arizona, to the mortgage note lender by a deed-in-lieu of foreclosure. The mortgage loan was non-recourse. As a result of the conveyance, the Company recognized a gain on extinguishment of debt of \$16.4 million.

The Company is currently negotiating with the loan servicer for Fiesta Mall, which will likely result in a transition of the asset to the loan servicer or a receiver. Consequently, Fiesta Mall has been excluded from certain operating measures in 2013, including tenant sales per square foot, average base rent per square foot and occupancy rate (See Results of Operations).

*Redevelopment and Development Activities:*

In August 2011, the Company entered into a joint venture agreement with a subsidiary of AWE/Talisman for the development of Fashion Outlets of Chicago in the Village of Rosemont, Illinois. The Company owns 60% of the joint venture and AWE/Talisman owns 40%. The Company has accounted for Fashion Outlets of Chicago as a consolidated joint venture. The Center is a fully enclosed two level, 526,000 square foot outlet center. The site is located within a mile of O'Hare International Airport. The project broke ground in November 2011 and opened on August 1, 2013. The total estimated project cost is approximately \$211.0 million. As of June 30, 2013, the joint venture has incurred \$133.4 million of development costs. On March 2, 2012, the joint venture obtained a construction loan on the property that allows for borrowings of up to \$140.0 million, bears interest at LIBOR plus 2.50% and matures on March 5, 2017. As of June 30, 2013, the joint venture has borrowed \$55.1 million under the loan.

The Company's joint venture in Tysons Corner, a 2,133,000 square foot regional shopping center in McLean, Virginia, is currently expanding the property to include a 19-story office tower; a 500,000 square foot, 30-story, 430 unit residential tower; and a 17-story, 300 room Hyatt Regency hotel. The joint venture started the expansion project in October 2011 and expects it to be completed in 2014. The total cost of the project is estimated at \$512.4 million, of which \$256.2 million is estimated to be the Company's pro rata share. The Company has funded \$81.9 million of the total of \$163.8 million incurred by the joint venture as of June 30, 2013.

*Inflation:*

In the last three years, inflation has not had a significant impact on the Company because of a relatively low inflation rate. Most of the leases at the Centers have rent adjustments periodically

Table of Contents

throughout the lease term. These rent increases are either in fixed increments or based on an annual multiple of increases in the Consumer Price Index ("CPI"). In addition, about 5% to 13% of the leases expire each year, which enables the Company to replace existing leases with new leases at higher base rents if the rents of the existing leases are below the then existing market rate. The Company has generally entered into leases that require tenants to pay a stated amount for operating expenses, generally excluding property taxes, regardless of the expenses actually incurred at any Center, which places the burden of cost control on the Company. Additionally, certain leases require the tenants to pay their pro rata share of operating expenses.

*Seasonality:*

The shopping center industry is seasonal in nature, particularly in the fourth quarter during the holiday season when retailer occupancy and retail sales are typically at their highest levels. In addition, shopping malls achieve a substantial portion of their specialty (temporary retailer) rents during the holiday season and the majority of percentage rent is recognized in the fourth quarter. As a result of the above, earnings are generally higher in the fourth quarter.

**Critical Accounting Policies**

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Some of these estimates and assumptions include judgments on revenue recognition, estimates for common area maintenance and real estate tax accruals, provisions for uncollectible accounts, impairment of long-lived assets, the allocation of purchase price between tangible and intangible assets, and estimates for environmental matters. The Company's significant accounting policies are described in more detail in Note 2 Summary of Significant Accounting Policies in the Company's Notes to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K. However, the following policies are deemed to be critical.

*Revenue Recognition:*

Minimum rental revenues are recognized on a straight-line basis over the term of the related lease. The difference between the amount of rent due in a year and the amount recorded as rental income is referred to as the "straight-line rent adjustment." Currently, 63% of the mall store and freestanding store leases contain provisions for CPI rent increases periodically throughout the term of the lease. The Company believes that using an annual multiple of CPI increases, rather than fixed contractual rent increases, results in revenue recognition that more closely matches the cash revenue from each lease and will provide more consistent rent growth throughout the term of the leases. Percentage rents are recognized when the tenants' specified sales targets have been met. Estimated recoveries from certain tenants for their pro rata share of real estate taxes, insurance and other shopping center operating expenses are recognized as revenues in the period the applicable expenses are incurred. Other tenants pay a fixed rate and these tenant recoveries' revenues are recognized on a straight-line basis over the term of the related leases.

*Property:*

Maintenance and repair expenses are charged to operations as incurred. Costs for major replacements and betterments, which includes HVAC equipment, roofs, parking lots, etc., are

Table of Contents

capitalized and depreciated over their estimated useful lives. Gains and losses are recognized upon disposal or retirement of the related assets and are reflected in earnings.

Property is recorded at cost and is depreciated using a straight-line method over the estimated useful lives of the assets as follows:

Buildings and improvements	5 - 40 years
Tenant improvements	5 - 7 years
Equipment and furnishings	5 - 7 years

*Capitalization of Costs:*

The Company capitalizes costs incurred in redevelopment, development, renovation and improvement of properties. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. These capitalized costs include direct and certain indirect costs clearly associated with the project. Indirect costs include real estate taxes, insurance and certain shared administrative costs. In assessing the amounts of direct and indirect costs to be capitalized, allocations are made to projects based on estimates of the actual amount of time spent on each activity. Indirect costs not clearly associated with specific projects are expensed as period costs. Capitalized indirect costs are allocated to development and redevelopment activities based on the square footage of the portion of the building not held available for immediate occupancy. If costs and activities incurred to ready the vacant space cease, then cost capitalization is also discontinued until such activities are resumed. Once work has been completed on a vacant space, project costs are no longer capitalized. For projects with extended lease-up periods, the Company ends the capitalization when significant activities have ceased, which does not exceed the shorter of a one-year period after the completion of the building shell or when the construction is substantially complete.

*Acquisitions:*

The Company allocates the estimated fair values of acquisitions to land, building, tenant improvements and identified intangible assets and liabilities, based on their estimated fair values. In addition, any assumed mortgage notes payable are recorded at their estimated fair values. The estimated fair value of the land and buildings is determined utilizing an "as if vacant" methodology. Tenant improvements represent the tangible assets associated with the existing leases valued on a fair value basis at the acquisition date prorated over the remaining lease terms. The tenant improvements are classified as an asset under property and are depreciated over the remaining lease terms. Identifiable intangible assets and liabilities relate to the value of in-place operating leases which come in three forms: (i) leasing commissions and legal costs, which represent the value associated with "cost avoidance" of acquiring in-place leases, such as lease commissions paid under terms generally experienced in the Company's markets; (ii) value of in-place leases, which represents the estimated loss of revenue and of costs incurred for the period required to lease the "assumed vacant" property to the occupancy level when purchased; and (iii) above or below market value of in-place leases, which represents the difference between the contractual rents and market rents at the time of the acquisition, discounted for tenant credit risks. Leasing commissions and legal costs are recorded in deferred charges and other assets and are amortized over the remaining lease terms. The value of in-place leases are recorded in deferred charges and other assets and amortized over the remaining lease terms plus an estimate of renewal of the acquired leases. Above or below market leases are classified in deferred charges and other assets or in other accrued liabilities, depending on whether the contractual terms are above or below market, and the asset or liability is amortized to minimum rents over the remaining terms of the leases. The remaining lease terms of below-market leases may include certain below-

Table of Contents

market fixed-rate renewal periods. In considering whether or not a lessee will execute a below-market fixed-rate lease renewal option, the Company evaluates economic factors and certain qualitative factors at the time of acquisition such as tenant mix in the center, the Company's relationship with the tenant and the availability of competing tenant space.

The Company immediately expenses costs associated with business combinations as period costs.

*Asset Impairment:*

The Company assesses whether an indicator of impairment in the value of its properties exists by considering expected future operating income, trends and prospects, as well as the effects of demand, competition and other economic factors. Such factors include projected rental revenue, operating costs and capital expenditures as well as estimated holding periods and capitalization rates. If an impairment indicator exists, the determination of recoverability is made based upon the estimated undiscounted future net cash flows, excluding interest expense. The amount of impairment loss, if any, is determined by comparing the fair value, as determined by a discounted cash flows analysis, with the carrying value of the related assets. The Company generally holds and operates its properties long-term, which decreases the likelihood of their carrying values not being recoverable. Properties classified as held for sale are measured at the lower of the carrying amount or fair value less cost to sell.

The Company reviews its investments in unconsolidated joint ventures for a series of operating losses and other factors that may indicate that a decrease in the value of its investments has occurred which is other-than-temporary. The investment in each unconsolidated joint venture is evaluated periodically, and as deemed necessary, for recoverability and valuation declines that are other-than-temporary.

*Fair Value of Financial Instruments:*

The fair value hierarchy distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity and the reporting entity's own assumptions about market participant assumptions.

Level 1 inputs utilize quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The Company calculates the fair value of financial instruments and includes this additional information in the notes to consolidated financial statements when the fair value is different than the carrying value of those financial instruments. When the fair value reasonably approximates the carrying value, no additional disclosure is made.

*Deferred Charges:*

Costs relating to obtaining tenant leases are deferred and amortized over the initial term of the agreement using the straight-line method. As these deferred leasing costs represent productive assets incurred in connection with the Company's provision of leasing arrangements at the Centers, the related cash flows are classified as investing activities within the Company's consolidated statements of cash flows. Costs relating to financing of shopping center properties are deferred and amortized over the term of the related loan using the straight-line method, which approximates the effective interest method. The ranges of the terms of the agreements are as follows:

Deferred lease costs	1 - 15 years
Deferred financing costs	1 - 15 years

**Results of Operations**

Many of the variations in the results of operations, discussed below, occurred because of the transactions affecting the Company's properties described above, including the Acquisition Properties and the Redevelopment Properties (as defined below).

For purposes of the discussion below, the Company defines "Same Centers" as those Centers that are substantially complete and in operation for the entirety of both periods of the comparison. Non-Same Centers for comparison purposes include recently acquired properties ("Acquisition Properties") and those Centers or properties that are going through a substantial development or redevelopment often resulting in the closing of a portion of the Center ("Redevelopment Properties"). The Company moves a Center in and out of Same Centers based on whether the Center is substantially complete and in operation for the entirety of both periods of the comparison. Accordingly, the Same Centers consists of all consolidated Centers, excluding the Acquisition Properties and the Redevelopment Properties for the periods of comparison.

For comparison of the three months ended June 30, 2013 to the three months ended June 30, 2012, the Acquisition Properties include FlatIron Crossing, Arrowhead Towne Center, Kings Plaza Shopping Center, Green Acres Mall and Green Acres Adjacent. For comparison of the six months ended June 30, 2013 to the six months ended June 30, 2012, the Acquisition Properties include 500 North Michigan Avenue, FlatIron Crossing, Arrowhead Towne Center, Kings Plaza Shopping Center, Green Acres Mall and Green Acres Adjacent. For comparison of the three months ended June 30, 2013 to the three months ended June 30, 2012 and for the comparison of the six months ended June 30, 2013 to the six months ended June 30, 2012, the Redevelopment Properties include Fashion Outlets of Chicago, Paradise Valley Mall and Southridge Mall.

Unconsolidated joint ventures are reflected using the equity method of accounting. The Company's pro rata share of the results from these Centers is reflected in the Consolidated Statements of Operations as equity in income of unconsolidated joint ventures.

The Company considers tenant annual sales per square foot (for tenants in place for a minimum of 12 months or longer and 10,000 square feet and under) for regional shopping centers, occupancy rates (excluding large retail stores or "Anchors") for the Centers and releasing spreads (i.e. a comparison of average base rent per square foot on leases executed during the trailing twelve months to average base rent per square foot on leases expiring during the year based on spaces 10,000 square feet and under) to be key performance indicators of the Company's internal growth.

Tenant sales per square foot increased from \$513 for the twelve months ended June 30, 2012 to \$545 for the twelve months ended June 30, 2013. Occupancy rate increased from 92.7% at June 30, 2012 to 93.8% at June 30, 2013. Releasing spreads also increased 14.2% for the twelve months ended June 30, 2013. These calculations exclude the Redevelopment Properties and Fiesta Mall (See "Other Transactions and Events" in Management's Overview and Summary).

Table of Contents

Releasing spreads remained positive as the Company was able to lease available space at higher rents than the expiring rental rates on the same space, resulting in a releasing spread of \$6.03 per square foot (\$48.57 on new and renewal leases executed compared to \$42.54 on leases expiring), representing a 14.2% increase for the trailing twelve months ended June 30, 2013. The Company expects that releasing spreads will continue to be positive during the remainder of 2013 as it renews or relets leases that are scheduled to expire. These leases that are scheduled to expire represent 576,000 square feet of the Centers, accounting for 6.22% of mall store and freestanding store gross leaseable area as of June 30, 2013.

During the trailing twelve months ended June 30, 2013, the Company signed 348 new leases and 420 renewal leases (excluding the Redevelopment Properties and Fiesta Mall) comprising approximately 1.2 million square feet, of which 0.9 million square feet related to the consolidated Centers. The annual initial average base rent for new and renewal leases was \$48.57 per square foot for the trailing twelve months ended June 30, 2013 with an average tenant allowance of \$12.82 per square foot.

The Company's recent trend of retail sales growth continued during the twelve months ended June 30, 2013 with tenant sales per square foot and releasing spreads increasing compared to the twelve months ended June 30, 2012. The Company's occupancy rate as of June 30, 2013 also increased compared to June 30, 2012. Although certain aspects of the U.S. economy, the retail industry as well as the Company's operating results have continued to improve, economic and political uncertainty remains in various parts of the world and certain areas of the U.S. economy are still experiencing weakness. Any further continuation or worsening of these adverse conditions, or a decline in the current rate of U.S. economic growth, could harm the Company's business, results of operations and financial condition.

**Comparison of Three Months Ended June 30, 2013 and 2012**

*Revenues:*

Minimum and percentage rents (collectively referred to as "rental revenue") increased by \$34.6 million, or 30.0%, from 2012 to 2013. The increase in rental revenue is attributed to an increase of \$30.7 million from the Acquisition Properties and \$3.9 million from the Same Centers. Rental revenue includes the amortization of above and below-market leases, the amortization of straight-line rents and lease termination income. The amortization of above and below-market leases increased from \$1.1 million in 2012 to \$1.4 million in 2013. The amortization of straight-line rents increased from \$1.6 million in 2012 to \$2.3 million in 2013. Lease termination income decreased from \$0.8 million in 2012 to \$0.5 million in 2013.

Tenant recoveries increased \$23.7 million, or 38.5%, from 2012 to 2013. This increase in tenant recoveries is attributed to an increase of \$21.4 million from the Acquisition Properties and \$2.3 million from the Same Centers.

Management Companies revenue increased from \$9.7 million in 2012 to \$10.3 million in 2013 due primarily to an increase in development fees offset in part by a reduction in management fees because of the conversion of Arrowhead Towne Center and FlatIron Crossing from joint ventures to consolidated Centers in 2012 (See "Acquisitions and Dispositions" in Management's Overview and Summary).

*Shopping Center and Operating Expenses:*

Shopping center and operating expenses increased \$20.5 million, or 33.0%, from 2012 to 2013. This increase in shopping center and operating expenses is attributed to an increase of \$21.2 million from the Acquisition Properties offset in part by a decrease of \$0.7 million from the Same Centers.

*Financing Activities:*

Cash used in financing activities decreased from \$129.8 million in 2012 to \$81.2 million in 2013. The decrease in cash used in financing activities was primarily due to increases in proceeds from mortgages, bank and other notes payable of \$857.6 million and cash provided by the ATM Program of \$171.2 million (See Liquidity and Capital Resources) offset in part by increases in payments on mortgages, bank and other notes payable of \$965.4 million and dividends and distributions of \$12.3 million.

**Liquidity and Capital Resources**

The Company anticipates meeting its liquidity needs for its operating expenses, debt service and dividend requirements for the next twelve months through cash generated from operations, working capital reserves and/or borrowings under its unsecured line of credit.

will be available from working capital, cash flow from operations, borrowings on property specific debt or unsecured corporate borrowings. The Company expects to incur between \$200 million and \$300 million during the next twelve months for development, redevelopment, expansion and renovations. Capital for these major expenditures, developments and/or redevelopments has been, and is expected to continue to be, obtained from a combination of debt or equity financings, which are expected to include borrowings under the Company's line of credit and construction loans. The Company has also generated liquidity in the past through equity offerings, property refinancings, joint venture transactions and the sale of non-core assets. The Company recently sold certain non-core assets and, depending on market conditions, may continue to do so in the future. Furthermore, the Company has filed a shelf registration statement which registered an unspecified amount of common stock, preferred stock, depository shares, debt securities, warrants, rights and units.

The capital and credit markets can fluctuate, and at times, limit access to debt and equity financing for companies. As demonstrated by the Company's recent activity, including its \$500 million ATM Program as discussed below and its \$1.5 billion line of credit, the Company has recently been able to access capital; however, there is no assurance the Company will be able to do so in future periods or on similar terms and conditions. Many factors impact the Company's ability to access capital, such as its overall debt level, interest rates, interest coverage ratios and prevailing market conditions. In the event that the Company has significant tenant defaults as a result of the overall economy and general market conditions, the Company could have a decrease in cash flow from operations, which could result in increased borrowings under its line of credit. These events could result in an increase in the Company's proportion of floating rate debt, which would cause it to be subject to interest rate fluctuations in the future.

The Company has an equity distribution agreement ("Distribution Agreement") with a number of sales agents to issue and sell, from time to time, shares of common stock, having an aggregate offering price of up to \$500 million (the "Shares"). Sales of the Shares, if any, may be made in privately negotiated transactions and/or any other method permitted by law, including sales deemed to be an "at the market" offering, which includes sales made directly on the New York Stock Exchange or sales made to or through a market maker other than on an exchange. This offering is referred to herein as the "ATM Program". During the three months ended June 30, 2013, the Company sold 2,456,956 shares of common stock under the ATM Program in exchange for aggregate gross proceeds of \$173.0 million and net proceeds of \$171.2 million after commissions and other transaction costs. As of June 30, 2013, \$149.1 million remained available to be sold under the ATM Program. Actual future sales will depend upon a variety of factors including but not limited to market conditions, the trading price of the Company's common stock and our capital needs. The Company has no obligation to sell the remaining shares available for sale under the ATM Program.

The Company's total outstanding loan indebtedness at June 30, 2013 was \$6.5 billion (consisting of \$5.2 billion of consolidated debt, less \$0.3 billion of noncontrolling interest, plus \$1.6 billion of its pro rata share of unconsolidated joint venture debt). The majority of the Company's debt consists of fixed-rate conventional mortgage notes collateralized by individual properties. The Company expects that all of the maturities during the next twelve months will be refinanced, restructured, extended and/or paid off from the Company's line of credit or cash on hand.

The Company has a \$1.5 billion revolving line of credit that bore interest at LIBOR plus a spread of 1.75% to 3.0%, depending on the Company's overall leverage level, and was to mature on May 2, 2015 with a one-year extension option. Based on the Company's leverage level at June 30, 2013, the borrowing rate on the facility was LIBOR plus 2.25%. The line of credit had the ability to be expanded, depending on certain conditions, up to a total facility of \$2.0 billion less the outstanding balance of the \$125.0 million unsecured term loan, as discussed below. All obligations under the line of credit were unconditionally guaranteed by the Company and certain of its direct and indirect subsidiaries and were secured, subject to certain exceptions, by pledges of direct and indirect ownership

interests in certain of the subsidiary guarantors. At June 30, 2013, total borrowings under the line of credit were \$405.0 million with an average effective interest rate of 2.99%.

On August 6, 2013, the Company's line of credit was amended and extended. The amended facility provides for an interest rate of LIBOR plus a spread of 1.375% to 2.0%, depending on the Company's overall leverage levels and matures on August 6, 2018. The interest rate, as of the amendment date, was LIBOR plus 1.50%. In addition, the line of credit can now be expanded, depending on certain conditions, up to a total amount of \$2.0 billion (without giving effect to the \$125.0 million unsecured term loan described below). All obligations under the amended facility are only unconditionally guaranteed by the Company.

The Company has a \$125.0 million unsecured term loan under the Company's line of credit that bears interest at LIBOR plus a spread of 1.95% to 3.20% depending on the Company's overall leverage and matures on December 8, 2018. Based on the Company's leverage level at June 30, 2013, the borrowing rate is LIBOR plus 2.20%. As of June 30, 2013, the total interest rate was 2.79%.

At June 30, 2013, the Company was in compliance with all applicable loan covenants under its agreements.

At June 30, 2013, the Company had cash and cash equivalents of \$46.9 million.

*Off-Balance Sheet Arrangements:*

The Company accounts for its investments in joint ventures that it does not have a controlling interest in or is not the primary beneficiary of, using the equity method of accounting and those investments are reflected on the Consolidated Balance Sheets of the Company as "Investments in unconsolidated joint ventures" and "Distributions in excess of investments in unconsolidated joint ventures".

In addition, certain joint ventures also have secured debt that could become recourse debt to the Company or its subsidiaries, in excess of the Company's pro rata share, should the joint ventures be unable to discharge the obligations of the related debt. At June 30, 2013, the balance of the debt that could be recourse to the Company was \$51.1 million offset in part by indemnity agreements from joint venture partners for \$21.3 million. The maturities of the recourse debt, net of indemnification, are \$4.1 million in 2013, \$16.8 million in 2015 and \$8.9 million in 2016.

Additionally, as of June 30, 2013, the Company is contingently liable for \$3.8 million in letters of credit guaranteeing performance by the Company of certain obligations relating to the Centers. The Company does not believe that these letters of credit will result in a liability to the Company.

**Funds From Operations ("FFO") and Adjusted Funds From Operations ("AFFO")**

The Company uses FFO in addition to net income to report its operating and financial results and considers FFO and FFO diluted as supplemental measures for the real estate industry and a supplement to Generally Accepted Accounting Principles ("GAAP") measures. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from extraordinary items and sales of depreciated operating properties, plus real estate related depreciation and amortization, impairment write-downs of real estate and write-downs of investments in an affiliate where the write-downs have been driven by a decrease in the value of real estate held by the affiliate and after adjustments for unconsolidated joint ventures. Adjustments for unconsolidated joint ventures are calculated to reflect FFO on the same basis.

Adjusted FFO ("AFFO") excludes the FFO impact of Shoppingtown Mall and Valley View Center for the three and six months ended June 30, 2012. In December 2011, the Company conveyed Shoppingtown Mall to the lender by a deed-in-lieu of foreclosure. In July 2010, a court-appointed receiver assumed operational control of Valley View Center and responsibility for managing all aspects of the property. Valley View Center was sold by the receiver on April 23, 2012, and the related non-recourse mortgage loan obligation was fully extinguished on that date. On May 31, 2012, the Company conveyed Prescott Gateway to the lender by a deed-in-lieu of foreclosure and the debt was forgiven, resulting in a gain on the extinguishment of debt of \$16.4 million. AFFO also excludes the gain on extinguishment of debt of Prescott Gateway for the three and six months ended June 30, 2012.

FFO and FFO on a diluted basis are useful to investors in comparing operating and financial results between periods. This is especially true since FFO excludes real estate depreciation and amortization, as the Company believes real estate values fluctuate based on market conditions rather than depreciating in value ratably on a straight-line basis over time. The Company believes that AFFO and AFFO on a diluted basis provide useful supplemental information regarding the Company's performance as they show a more meaningful and consistent comparison of the Company's operating performance and allow investors to more easily compare the Company's results without taking into account non-cash credits and charges on properties controlled by either a receiver or loan servicer. FFO and AFFO on a diluted basis are measures investors find most useful in measuring the dilutive impact of outstanding convertible securities.

Table of Contents

FFO and AFFO do not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income (loss) as defined by GAAP, and are not indicative of cash available to fund all cash flow needs. The Company also cautions that FFO and AFFO, as presented, may not be comparable to similarly titled measures reported by other real estate investment trusts.

Management compensates for the limitations of FFO and AFFO by providing investors with financial statements prepared according to GAAP, along with this detailed discussion of FFO and AFFO and a reconciliation of FFO and AFFO and FFO and AFFO-diluted to net income attributable to the Company. Management believes that to further understand the Company's performance, FFO and AFFO should be compared with the Company's reported net income and considered in addition to cash flows in accordance with GAAP, as presented in the Company's Consolidated Financial Statements.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The Company's primary market risk exposure is interest rate risk. The Company has managed and will continue to manage interest rate risk by (1) maintaining a ratio of fixed rate, long-term debt to total debt such that floating rate exposure is kept at an acceptable level, (2) reducing interest rate exposure on certain long-term floating rate debt through the use of interest rate caps and/or swaps with appropriately matching maturities, (3) using treasury rate locks where appropriate to fix rates on anticipated debt transactions, and (4) taking advantage of favorable market conditions for long-term debt and/or equity.

The following table sets forth information as of June 30, 2013 concerning the Company's long-term debt obligations, including principal cash flows by scheduled maturity, weighted average interest rates and estimated fair value ("FV") (dollars in thousands):

The maturity date assumes that all extension options are fully exercised and that the Company does not opt to refinance the debt prior to these dates. These extension options are at the Company's discretion, subject to certain conditions, which the Company believes will be met.

The consolidated Centers' total fixed rate debt at June 30, 2013 and December 31, 2012 was \$4.2 billion and \$3.7 billion, respectively. The average interest rate on fixed rate debt at June 30, 2013 and December 31, 2012 was 4.38% and 4.40%, respectively. The consolidated Centers' total floating rate debt at June 30, 2013 and December 31, 2012 was \$1.0 billion and \$1.5 billion, respectively. The average interest rate on floating rate debt at June 30, 2013 and December 31, 2012 was 3.28% and 3.05%, respectively.

The Company's pro rata share of the Unconsolidated Joint Venture Centers' fixed rate debt at June 30, 2013 and December 31, 2012 was \$1.4 billion and \$1.5 billion, respectively. The average interest rate on fixed rate debt at June 30, 2013 and December 31, 2012 was 4.76% and 5.27%, respectively. The Company's pro rata share of the Unconsolidated Joint Venture Centers' floating rate debt at June 30, 2013 and December 31, 2012 was \$187.0 million and \$178.3 million, respectively. The average interest rate on the floating rate debt at June 30, 2013 and December 31, 2012 was 2.77% and 3.69%, respectively.

Table of Contents

In addition, the Company has assessed the market risk for its floating rate debt and believes that a 1% increase in interest rates would decrease future earnings and cash flows by approximately \$12.2 million per year based on \$1.2 billion of floating rate debt outstanding at June 30, 2013.

The fair value of the Company's long-term debt is estimated based on a present value model utilizing interest rates that reflect the risks associated with long-term debt of similar risk and duration. In addition, the method of computing fair value for mortgage notes payable included a credit value adjustment based on the estimated value of the property that serves as collateral for the underlying debt (See Note 9 Mortgage Notes Payable and Note 10 Bank and Other Notes Payable in the Company's Notes to the Consolidated Financial Statements).

**Item 4. Controls and Procedures**

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934, management carried out an evaluation, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on their evaluation as of June 30, 2013, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is (a) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and (b) accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

In addition, there has been no change in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15(d)-15(f) under the Securities Exchange Act of 1934) that occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
