**Exchange Offer for
\$350,000,000 6.625% Senior Subordinated Notes due 2021
\$2,200,000,000 10.000% Senior Unsecured Notes due 2022**

The Exchange Offer:

Scientific Games International, Inc., referred to as the "Issuer," issued \$350,000,000 in aggregate principal amount of its 6.625% senior subordinated notes due 2021 on June 4, 2014 and will exchange all \$350,000,000 of the outstanding 6.625% senior subordinated notes due 2021, referred to as the "2021 old notes," that are validly tendered and not validly withdrawn for an equal principal amount of 6.625% senior subordinated notes due 2021, referred to as the "2021 new notes," that are, subject to specified conditions, freely transferable. The Issuer will issue the 2021 new notes under the same indenture under which the 2021 old notes were issued, referred to as the "2021 notes indenture."

On November 21, 2014, SGMS Escrow Corp., a wholly owned subsidiary of the Issuer, issued \$2,200,000,000 in aggregate principal amount of its 10.000% senior unsecured notes due 2022, referred to as the "2022 old notes" and, collectively with the 2021 old notes, as the "old notes." Promptly following Scientific Games Corporation's acquisition of Bally Technologies, Inc. ("Bally"), on November 21, 2014, SGMS Escrow Corp. merged with and into the Issuer, with the Issuer continuing as the surviving corporation, and the Issuer assumed the obligations of SGMS Escrow Corp. under the 2022 old notes (and the related indenture). The Issuer will exchange all \$2,200,000,000 of the 2022 old notes that are validly tendered and not validly withdrawn for an equal principal amount of 10.000% senior unsecured notes due 2022, referred to as the "2022 new notes" and, collectively with the 2021 new notes, as the "new notes," that are, subject to specified conditions, freely transferable. The Issuer will issue the 2022 new notes under the same indenture under which the 2022 old notes were issued, referred to as the "2022 notes indenture." The old notes and the new notes are collectively referred to herein as the "notes." The 2021 notes indenture and the 2022 notes indenture are collectively referred to herein as the "indentures."

The exchange offer expires at 5:00 p.m., New York City time, on _____, unless extended. We do not currently intend to extend the expiration date.

You may withdraw tenders of old notes at any time prior to the expiration date of the exchange offer.

Neither Scientific Games Corporation nor the Issuer will receive any cash proceeds from the exchange offer.

The New Notes:

Edgar Filing: WMS International Holdings Inc. - Form S-4

We are offering new notes to satisfy certain obligations under the registration rights agreements entered into in connection with the private offerings of the old notes.

The terms of each series of new notes are substantially identical to the applicable series of old notes, except that the new notes, subject to specified conditions, will be freely transferable.

The 2021 new notes will be guaranteed on a senior subordinated unsecured basis by Scientific Games Corporation and all of its wholly owned domestic subsidiaries (other than the Issuer), which are referred to as the "guarantors."

The 2022 new notes will be guaranteed on a senior unsecured basis by the guarantors.

We do not plan to list the new notes on a national securities exchange or automated quotation system.

Please see "Risk Factors" beginning on page 20 of this prospectus for a discussion of certain factors that you should consider before participating in this exchange offer.

Each broker-dealer that receives new notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such new notes as required by applicable securities laws and regulations. The letter of transmittal states that, by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an "underwriter" within the meaning of the Securities Act of 1933, as amended (the "Securities Act").

This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for old notes where such old notes were acquired by such broker-dealer as a result of market-making activities or other trading activities. We have agreed that, for a period of up to 180 days after the expiration of the exchange offer, we will make this prospectus available to any broker-dealer for use in connection with any such resale.

None of the Securities and Exchange Commission, any state securities commission, the Nevada Gaming Commission, the Nevada State Gaming Control Board, the Mississippi Gaming Commission, the Louisiana Gaming Control Board, the Indiana Gaming Commission, the New Jersey Casino Control Commission or any other gaming authority or other regulatory agency has approved or disapproved of these securities or determined if this prospectus is truthful or complete. SUMMARY

This is only a summary of the prospectus. You should read carefully the entire prospectus, including "Risk Factors," and our consolidated financial statements and related notes as well as the documents incorporated by reference in this prospectus, before making an investment decision.

Our Company

We are a leading developer of technology based products and services and associated content for the worldwide gaming and lottery industries. Our portfolio includes gaming machines and game content, instant and draw based lottery games, server based gaming and lottery systems, casino management systems, table game products and services, sports betting technology, loyalty and rewards programs, and interactive gaming and lottery content and services. We also gain access to technologies and pursue global expansion through strategic acquisitions and equity investments. We report our operations in three business segments Gaming, Lottery and Interactive.

On November 21, 2014, the Company acquired Bally for \$5.1 billion (including the refinancing of approximately \$1.9 billion of existing Bally indebtedness), creating one of the largest and most diversified global gaming suppliers. See " The Transactions."

Gaming segment

The gaming industry is a large and dynamic worldwide marketplace characterized by the rapid development of new technologies, products and game content. Gaming products and services are used by a diverse group of gaming operators, including commercial and tribal casinos, riverboat casinos, horse and greyhound racetracks, bars, Jai Alai facilities, truck stops, night clubs, bingo and arcade halls, licensed betting offices, or LBOs, and similar venues. In addition, U.S. and international lotteries may offer video lottery terminals, or VLTs, and other forms of gaming, such as bingo and sports wagering.

Our products are installed in all of the major regulated gaming jurisdictions in the U.S., as well as in approximately 146 international gaming jurisdictions. We believe the total installed base of gaming machines in North America is approximately 940,000 units and has been relatively stable in recent years. Growth of gaming in land-based venues is driven by the opening of new casinos in both new and existing jurisdictions and the expansion of existing casinos. In addition, the land-based gaming supply business is significantly impacted by the rate at which casinos and other gaming operators replace their gaming machines, which is dependent upon a number of factors, including their capital budgets. Virtually all sectors of the gaming industry are impacted by changes in economic conditions that impact players' disposable incomes.

We completed our acquisition of Bally on November 21, 2014. We believe that the acquisition complements our existing gaming business by expanding our product offerings, extends our customer base, allows us to leverage the best technologies from both companies and provides operating scale. We believe that the acquisition enhances our leadership positions in our existing gaming machine and interactive gaming businesses, and elevates us to leadership positions in sectors of the gaming industry in which we have not historically had a presence, such as casino-management systems and a variety of table game products.

Casino-management technology solutions and systems: We offer core slot, casino and table-management systems (collectively, "casino-management systems") that help our customers improve communication with players, add excitement to the gaming floor and enhance operating efficiencies through greater automation, reporting and business intelligence. Our comprehensive

suite of technology solutions provides gaming operations of every size with a wide range of marketing, data management and analysis, accounting, player tracking, security and other applications and tools to more effectively manage their operations. We also provide technologies for deployment of networked, server-based gaming environments, with centralized management and control.

Table products: Our table products sales are generated primarily from the sale of products designed to enhance table game speed, productivity, profitability and security. Our product offerings include various models of automatic card shufflers to suit specific games, as well as deck checkers and roulette chip sorters (which we sometimes refer to collectively as "utility" products). Our card-reading shoes gather data and enable casinos to track table-game play and our baccarat viewer displays current game results and trends. Our roulette chip sorters efficiently count and organize chips for roulette table games. Our utility products are intended to cost-effectively provide increased game speed and data on table-game play for security and marketing purposes, which in turn allows our customers to increase their profitability. Less frequently, we will sell a lifetime license to one of our proprietary table games for use on a casino floor.

Parts sales, conversion kits, used gaming machines and game content: We sell replacement parts, used gaming machines and hardware, operating systems and content conversion kits for our gaming machines. Sales of used gaming machines are an immaterial part of our revenue and profit and we expect to substantially limit the sales of used gaming machines starting in 2015.

Services

Our Gaming services revenue includes revenue earned from participation games, other gaming machine services and table product leasing and licensing. Participation games are gaming machines provided to customers through service or leasing arrangements in which our revenues are calculated based on: (1) a percentage of net win (*i.e.*, the amount wagered, or coin-in, less payouts); (2) fixed daily fees; (3) a percentage of the coin-in; or (4) a combination of a fixed daily fee and a percentage of the coin-in. We categorize our participation gaming machines as (1) WAP, premium and daily fee participation games and (2) other leased and participation games.

WAP, premium and daily fee participation games

WAP participation games: Wide-area progressive, or WAP, participation games are electronically linked gaming machines that are located across multiple casinos within a single gaming jurisdiction or across Native American gaming jurisdictions. Players across linked gaming machines contribute to and compete for large, system-wide progressive jackpots that are designed to increase gaming machine play for participating casinos by giving the players the opportunity to win a larger jackpot than on a non-WAP gaming machine. We are responsible for funding WAP jackpots. We create WAP games using our proprietary brands and also using licensed brands. Our licensed brands include, among others; *MONOPOLY THE WIZARD OF OZ SPIDER-MAN THE LORD OF THE RINGS JAMES CAMERON'S TITANIC MICHAEL JACKSON KING OF POP MICHAEL JACKSON WANNA BE STARTIN' SOMETHIN' THE MAGIC OF DAVID COPPERFIELD , BETTY BOOP FORTUNE TELLER, GREASE®, GREASE PINK LADIES and WILLY WONKA AND THE CHOCOLATE FACTORY* . We operate our WAP systems in Arizona, Colorado, Louisiana, Mississippi, Missouri, Nevada and New Jersey, as well as in certain Native American casinos.

Premium and daily fee participation games: We offer two types of non-WAP premium and daily fee participation games: local-area progressive, or LAP, and standalone. LAP games are gaming machines that are located within a single casino and are electronically linked to a progressive

Table of Contents

jackpot for that specific casino. Our LAP gaming machines feature games including those offered as WAP as well as our proprietary brands such as *Jackpot Party Progressive*®, *Life of Luxury*® *Progressive* and *ZZ TOP LIVE FROM TEXAS* . Our LAP products leverage both exclusive brand names and game play intellectual property, and typically offer players the chance to win multiple progressive jackpots, all of which tend to result in a higher average bet on these games. Net win per gaming machine for LAP games is generally similar to non-linked standalone gaming machines on a casino floor. We also provide certain standalone participation games that are not linked to other gaming machines. Our standalone games feature titles, among others, under the licensed *MONOPOLY* brand and our proprietary brands, as well as other licensed brands in those jurisdictions where we do not operate a WAP system. Our standalone participation gaming machines generally feature larger, more elaborate top-boxes and provide game play experiences not possible on a single screen game or on gaming machines that we sell.

Other leased and participation games

Server-based gaming: We provide wide-area gaming operators, such as LBOs, bingo halls and arcades, a comprehensive package of server-based products and services under long-term contracts that typically include gaming machines, remote management of game content and management information, central computer systems, secure data communication and field support services. We are typically paid a fee based on the net win generated by these gaming machines (subject to certain adjustments as may be specified in a particular contract, including adjustments for taxes and other fees). Our business in this category is primarily based in the U.K.

VLTs: Certain customers lease our multi-game and single-game VLTs, which include video gaming machines, mechanical reel gaming machines and video poker games. Our VLTs may be operated as standalone units or may interface with central monitoring systems operated by government agencies. Our VLTs are typically located in places where casino-style gaming is not the only attraction, such as racetracks, bars and restaurants.

Class II and centrally determined systems: We offer video and mechanical-reel gaming machines and VLTs for Class II and certain VLT jurisdictions where the game outcome is determined by a central server system that we provide. These Class II systems primarily operate in Native American casinos in Washington, Florida, Alabama and Oklahoma, as well as casinos in Mexico. We receive either a fixed daily fee or a percentage of the net win generated by the gaming machines or VLTs connected to the central determination system and a small daily fee for the central determination system.

Other gaming machine services

Customer-owned daily fee games: This category consists of gaming machines for which the customer purchases the base gaming machine and leases the top-box and game theme from us at a lower fixed daily lease payment than if they were to lease the entire gaming machine. Customer-owned daily fee games typically feature a second LCD screen in the top-box that provides additional bonus experiences for the player.

Licensing: We derive revenue from licensing our games and intellectual property to third parties. Methods for determining our license or royalty revenue vary, but are generally based on a fixed amount for each licensed game or product using the intellectual property purchased, placed or shipped in a period, a fixed daily royalty amount or a percentage of the revenue generated by the placement of the licensed game or product using the intellectual property.

Table of Contents

Table product leasing and licensing

Utility product leasing: We offer utility products under month-to-month lease arrangements that contain participation rates or fixed monthly lease rates. These arrangements include service of the product with back-up and replacement products available at the customer's request.

Proprietary table games licensing: We license our proprietary table game, or PTG, content to commercial, tribal and governmental casino operators typically under month to month lease arrangements based on fixed monthly rates. PTGs, which are designed to enhance operators' table-game operations, include our internally developed and acquired PTGs, side bets, add-ons and progressive features. Our proprietary content and features are also added to public domain games such as poker, baccarat, pai gow poker, craps and blackjack table games and to electronic platforms.

Lottery segment

Lotteries are operated by U.S. and international governmental authorities and their licensees in approximately 180 jurisdictions throughout the world. Governments typically authorize lotteries as a means of generating revenues without imposing additional taxes. Net lottery proceeds are generally set aside for public purposes, such as education, aid to the elderly, conservation, transportation and economic development. Many jurisdictions have come to rely on the proceeds from lottery game sales as a significant source of funding for these programs. Although there are many types of lottery games worldwide, the two principal categories of products offered are draw lottery games and instant lottery games. Currently, 44 U.S. jurisdictions offer instant game lotteries and 46 U. S. jurisdictions offer draw lotteries.

An instant lottery game is typically played by removing a scratch-off protective coating from a preprinted ticket to reveal if it is a winner. Draw lottery games, such as *POWERBALL*® and *MEGA MILLIONS*®, are based on a random selection of a series of numbers, and prizes are generally based on the number of winners who share the prize pool, although set prizes are also offered. Draw lottery games are generally provided through a lottery system in which lottery terminals in retail outlets are continuously connected to a central computer system for the activation, sale and validation of lottery games and related functions. A lottery system may also be used to validate instant lottery games to confirm that a ticket is a winner and prevent duplicate payments. In some jurisdictions, separate instant game validation systems may be installed.

Lotteries may offer a range of other games. In the U.S., some lotteries offer high frequency games such as keno, which is typically played every four to five minutes in restricted social settings, such as bars, and is usually offered as an extension of the lottery system.

Based on third party data, U.S. instant lottery game retail sales and draw lottery retail sales (which we define as retail sales of draw games, keno and instant games validated by the relevant system) totaled approximately \$39 billion and approximately \$49 billion, respectively, for the year ended December 31, 2014. Based on available published industry information, we estimate that worldwide instant lottery game retail sales and worldwide draw lottery retail sales totaled approximately \$76 billion and approximately \$199 billion, respectively, during fiscal year 2012.

We believe we are the leading designer, manufacturer and distributor of instant lottery games in the world. We market instant lottery games and related services to U.S. and international lotteries and commercial customers. We supply instant lottery games to 39 of the 44 U.S. jurisdictions that sell instant lottery games and have sold instant lottery games to customers in approximately 50 countries. Our U.S. instant lottery game contracts typically have an initial term of three to five years and frequently include multiple renewal options for additional periods ranging from one to five years, which our customers have generally exercised in the past. We typically sell our instant lottery games on a price-per-unit or participation basis. Certain of our international customers purchase instant lottery games as needed rather than under multi-game supply contracts.

Some of our contracts bundle the design and manufacturing of instant lottery games, instant game management systems and marketing and other services, such as the design and installation of game management software, inventory and distribution, sales, accounting, training and advisory services, market research and retailer training and recruitment. We are typically paid based on a percentage of retail sales under these contracts.

We provide lotteries with access to some of the world's most popular entertainment brands on lottery products, which we believe helps increase our customers' instant game sales. Our licensed entertainment brands include *AMC® THE WALKING DEAD®*, *HARLEY-DAVIDSON®*, *LOTERIA®*, *MAJOR LEAGUE BASEBALL®*, *MARGARITAVILLE®*, *MONOPOLY*, *NATIONAL BASKETBALL*

features players clubs, reward programs, second chance promotional websites, interactive games and subscription systems that enable players to purchase lottery games securely over the internet.

We believe we are a leading provider of lottery systems to lotteries in the U.S. and internationally. Our lottery systems use proprietary technology that facilitates high-speed processing of draw lottery game wagers as well as validation of winning draw and instant lottery games. Our lottery systems business includes the supply of proprietary transaction-processing software, draw lottery games, keno, point-of-sale terminals, central site computers and communication platforms as well as ongoing operational support and maintenance services. In the U.S., we typically place our lottery systems pursuant to long-term contracts that typically have an initial term of at least five years and under which we are generally paid a fee equal to a percentage of the lottery's total retail sales. Our U.S. contracts typically contain multiple renewal options that generally have been exercised by our customers in the past. Internationally, we typically sell point-of-sale terminals and/or computer software to lottery authorities and may provide ongoing fee-based systems and software support services.

We have contracts to operate lottery systems for nine of the 46 U.S. jurisdictions that operate draw lotteries. In addition, we have a contract with the manager of the Indiana lottery to operate the lottery system in the state of Indiana. Internationally, we have lottery systems operating in Canada, China, France, Germany, Hungary, Iceland, Israel, Italy, Latvia, Mexico, Norway, the Philippines, Spain and Switzerland.

Interactive segment

The rapidly evolving interactive gaming sector includes social (non-wagering) gaming and interactive real-money gaming, or RMG. Through the Interactive segment, we make available WMS, Bally and third-party branded content directly to players of social gaming or, in the case of RMG, directly to online casino operators. Similar to traditional land-based gaming, the appeal and performance of our game content is an important contributor to our success in the interactive gaming business. Our interactive gaming business is increasingly focused on products and services that operate on both mobile and desktop products and platforms.

We provide interactive gaming products and services for both social gaming and RMG, available via desktop and mobile devices.

Social gaming: We host *Jackpot Party*® Social Casino ("JPSC") and *Gold Fish*® Casino Slots ("GFC") on various platforms. With the recent acquisition of Bally, we also host Dragonplay Slots, Dragonplay Poker, Live Hold'em Pro Poker and Wild Bingo. Our products are available in the following formats:

	Facebook	Apple® platform (aka iOS)	Android® platform	Kindle® platform	Microsoft's Windows 8
JPSC	X	X	X	X	X
GFC	X	X	X	X	
Dragonplay Slots	X	X	X		X
Dragonplay Poker	X	X	X		
Live Hold'em Pro Poker	X	X	X		
Wild Bingo	X		X		

In our social gaming business, we earn revenue from the sale of virtual coins or chips, which players can use to play (*i.e.*, spin in the case of slots, bet in the case of poker) our WMS® branded (slots), Dragonplay branded (slots, poker) or third-party branded (slots) games. We also host play-for-fun and play-for-free services for traditional land-based casinos and earn revenue based on fixed fees, a share of the proceeds from the sale of virtual coins, or a mix of fixed fees and a share of such proceeds.

Table of Contents

RMG: We serve online RMG casino operators, primarily in Europe, by hosting our game content on our centrally-located servers (often referred to as remote game servers) that are integrated into the online casino operators' websites. We typically earn a percentage of the operator's net gaming revenue generated by their players playing the games we host. We also host on-premises interactive gaming for certain customers and earn revenue based on fixed fees, a revenue share with our online casino-customer, or a mix of fixed fees and revenue share.

We believe that growth in our interactive gaming business is driven largely through new channels of distribution, such as the various types of mobile gaming platforms, the expansion of legal interactive RMG jurisdictions, the addition of social gaming products, such as our newest social game, GFC, which we launched in early 2014, the number and quality of our proprietary and third-party branded games released and available to players, the addition of traditional land-based casino operators and RMG operators that are not currently customers, the effectiveness of our marketing efforts designed to engage new players and re-engage existing players, and the prominence of our offerings on operators' websites, which is not controlled by us. Virtually all sectors of the interactive gaming industry are impacted by changes in economic conditions that impact players' disposable income.

The 2022 new notes will be the Issuer's senior unsecured obligations and will rank:

effectively subordinated to any of the Issuer's existing and future secured indebtedness, including the indebtedness under the credit agreement and the secured notes, to the extent of the value of the assets securing such indebtedness;

pari passu in right of payment to any of the Issuer's existing and future senior indebtedness, including the indebtedness under the credit agreement and the secured notes;

senior in right of payment to any of the Issuer's existing and future indebtedness that is expressly subordinated in right of payment to the 2022 new notes, including the Issuer's 2020 notes and 2021 new notes and the Issuer's guarantee of the 2018 notes; and

effectively subordinated to all of the liabilities of existing and future subsidiaries of the Company that do not guarantee the 2022 new notes.

Similarly, the guarantee of each guarantor of the 2022 new notes will rank:

effectively subordinated in right of payment to any of the existing and future secured indebtedness of such guarantor, including its guarantees of indebtedness under the credit agreement and the secured notes, to the extent of the value of its assets securing such indebtedness;

pari passu in right of payment to any of the existing and future senior indebtedness of such guarantor, including its guarantees of indebtedness under of the credit agreement and the secured notes;

senior in right of payment to any existing and future indebtedness of such guarantor that is expressly subordinated in right of payment to its guarantee of the 2022 new notes, including such guarantor's guarantee of the 2018 notes, the 2020 notes and the 2021 new notes (or, in the case of the Company, its 2018 notes and its guarantee of the 2020 notes and the 2021 new notes); and

effectively subordinated to all of the liabilities of existing and future subsidiaries of the Company that do not guarantee the 2022 new notes.

As of December 31, 2014:

the Issuer's and the guarantors' secured indebtedness was approximately \$5,412.0 million (which excludes capital lease obligations of \$35.3 million), comprised of indebtedness under the credit agreement (which excludes approximately \$41.0 million of outstanding letters of credit) and the secured notes, and the Issuer had approximately \$341.6 million of additional availability under the Credit Agreement (all of which would be secured);

the senior unsecured indebtedness of the Issuer and the guarantors was approximately \$2,397.6 million, consisting of the 2022 old notes and \$197.6 million of outstanding surety or performance bonds;

the Issuer and the guarantors had approximately \$900.0 million of senior subordinated indebtedness outstanding, consisting of the 2018 notes, the 2020 notes and the 2021 old notes (or guarantees thereof); and

our subsidiaries that are not guaranteeing the notes had outstanding total third-party liabilities of approximately \$272.2 million, including trade payables.

Regulatory Redemption

The notes are subject to redemption requirements relating to gaming laws and regulations of gaming authorities in jurisdictions in which we conduct business. See "Description of the 2021 New Notes Redemption Regulatory Redemption" and "Description of 2022 New Notes Redemption Regulatory Redemption."

Change of Control

Upon the occurrence of a change of control (or, in the case of the 2021 new notes, a change of control repurchase event), the Issuer will be required to offer to repurchase the notes at a price equal to 101% of the principal amount, plus accrued and unpaid interest to the purchase date. See "Description of 2021 New Notes Change of Control" and "Description of 2022 New Notes Change of Control."

Certain Covenants

The indentures governing the new notes contain certain covenants which will, among other things, limit our ability and the ability of our restricted subsidiaries to:

incur indebtedness or issue preferred stock;

pay dividends or make distributions in respect of capital stock or make certain other restricted payments or investments;

incur liens;

sell assets, including capital stock of our restricted subsidiaries;

agree to payment restrictions affecting restricted subsidiaries;

enter into transactions with our affiliates; and

merge, consolidate or sell substantially all of the Company's or the Issuer's assets.

These covenants are subject to important exceptions and qualifications. See "Description of 2021 New Notes Covenants" and "Description of 2022 New Notes Covenants."

No Public Market

The new notes are new securities and there is currently no established trading market for the new notes. The initial purchasers of the old notes have advised us that they presently intend to make a market in the new notes. However, you should be aware that they are not obligated to make a market in the new notes and may discontinue their market-making activities at any time without notice. As a result, a liquid market for the new notes may not be available if you try to sell your new notes. We do not intend to apply for a listing of the new notes on any securities exchange or any automated quotation system.

Use of Proceeds

Neither the Issuer nor Scientific Games Corporation will receive any cash proceeds from the exchange offer. See "Use of Proceeds."

Risk Factors

Investment in the notes involves certain risks. You should carefully consider the information under "Risk Factors" and all other information included or incorporated by reference in this prospectus before investing in the notes.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table presents our ratio of earnings to fixed charges for the years ended December 31, 2010, 2011, 2012, 2013 and 2014. For the purpose of determining the ratio of earnings to fixed charges, "earnings" consist of earnings (loss) before income tax expense (benefit) excluding earnings from equity method investments, plus fixed charges, and "fixed charges" consist of interest expense, including amortization of deferred financing costs, plus one-third of rental expense (this portion is considered to be representative of the interest factor). Earnings before fixed charges were inadequate to cover total fixed charges by \$19.8 million, \$37.6 million, \$124.0 million, and \$478.6 million for the years ended 2010, 2012, 2013, and 2014, respectively.

RISK FACTORS

Before making any decision to participate in the exchange offer, you should carefully consider the following risk factors in addition to the other information contained in this prospectus and incorporated by reference in this prospectus. In particular, you should refer to the information under "Risk Factors" included in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014, which is incorporated herein by reference.

In addition to the risk factors relating to our business, the industries in which we operate and other matters included in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014, you should carefully consider the following risk factors related to the notes, which, except as otherwise indicated, are generally applicable to the old notes as well as the new notes. Any of these risks could materially and adversely affect our business, results of operations, cash flows or financial condition. The risks described below and incorporated by reference herein are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially and adversely affect our business, results of operations, cash flows or financial condition. In the following discussion of risk factors, when we refer to the term "note" or "notes," we are referring to both the old notes and the new notes to be issued in the exchange offer.

Risk Factors Relating to the Notes

Our level of indebtedness could adversely affect our results of operations, cash flows and financial condition.

As of December 31, 2014, we had total indebtedness of \$8,512.0 million (excluding approximately \$41.0 million of outstanding letters of credit, \$197.6 million of outstanding surety bonds and \$35.3 million of capital lease obligations), consisting of borrowings under our credit agreement, the secured notes, the 2022 old notes, the 2021 old notes, the 2020 notes and the 2018 notes. Our debt service obligations could have an adverse impact on our results of operations, cash flow and financial condition for as long as the indebtedness is outstanding.

Our level of indebtedness could affect our ability to obtain financing or refinance existing indebtedness; require us to dedicate a significant portion of our cash flow from operations to interest and principal payments on our indebtedness, thereby reducing the availability of cash flow to fund working capital, capital expenditures and other general corporate purposes; increase our vulnerability to adverse general economic, industry or competitive developments or conditions; and limit our flexibility in planning for, or reacting to, changes in our businesses and the industries in which we operate or in pursuing our strategic objectives. In addition, we are exposed to the risk of higher interest rates as a significant portion of our borrowings are at variable rates of interest. If interest rates increase, the interest payment obligations under our non-hedged variable rate indebtedness would increase even if the amount borrowed remained the same and our results of operations, cash flows and financial condition would be negatively impacted. All of these factors could place us at a competitive disadvantage compared to competitors that may have less debt than we do. We may incur substantially more debt, including secured debt, or take other actions which may affect our ability to satisfy our obligations under the notes and our other indebtedness.

The credit agreement and the indentures governing the secured notes, the notes, the 2020 notes and the 2018 notes will allow us to incur significant additional indebtedness in the future, including secured debt. For example, as of December 31, 2014, there was \$341.6 million of additional availability under the revolving credit facility under our credit agreement. If we add new debt to our current debt levels, the related risks that we now face could intensify, making it less likely that we will be able to fulfill our obligations to holders of the notes. The terms of the indentures governing the notes permit us to incur substantial additional debt and will allow us to issue additional secured debt under certain circumstances, which would also be guaranteed by the guarantors and would share in the collateral that secure our indebtedness under the credit agreement and the secured notes (and the guarantees

Table of Contents

thereof). The indentures will also allow our foreign subsidiaries to incur additional debt, which would be structurally senior to the notes. In addition, the indentures will not prevent us from incurring other liabilities that do not constitute indebtedness. See "Description of 2021 New Notes" and "Description of 2022 New Notes."

Under the indentures that govern the notes, we would have had the capacity to make certain payments, including dividends.

The indentures that govern the notes limit our ability to make certain payments, including dividends or distributions in respect of shares of our capital stock, the purchase, redemption, or retirement of any equity interests, and restricted investments. However, these limitations are subject to a number of exceptions, including certain exceptions based on a calculation of our net income, equity issuances, receipt of distributions and returns of capital with respect to certain investments. Accordingly, we will have had the capacity to make certain restricted payments (a portion of which is available only upon achievement of a minimum fixed charge coverage test) under the indentures (in addition to certain permitted investments). See "Description of 2021 New Notes Covenants Limitation on Restricted Payments" and "Description of 2022 New Notes Covenants Limitation on Restricted Payments."

We may not have sufficient cash flows from operating activities, cash on hand and available borrowings under the Credit Agreement to finance required capital expenditures under new contracts, service our indebtedness and meet our other cash needs and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful. These obligations require a significant amount of cash.

Our gaming participation and lottery systems businesses generally require significant upfront capital expenditures for gaming machine or lottery terminal assembly, software customization and implementation, systems and equipment installation and telecommunications configuration. In connection with a renewal or bid of a gaming machine or lottery systems contract, a customer may seek to obtain new equipment or impose new service requirements, which may require additional capital expenditures in order to retain or win the contract. Historically, we have funded these upfront costs through cash flows generated from operations, available cash on hand and borrowings. Our ability to generate revenue and to continue to procure new contracts will depend on, among other things, our then present liquidity levels or our ability to obtain additional financing on commercially reasonable terms.

If we do not have adequate liquidity or are unable to obtain financing for these upfront costs on favorable terms or at all, we may not be able to bid on certain contracts, which could restrict our ability to grow and have a material adverse effect on our results of operations, cash flows and financial condition. Moreover, we may not realize the return on investment that we anticipate on new or renewed contracts due to a variety of factors, including lower than anticipated retail sales or amounts wagered, higher than anticipated capital or operating expenses and unanticipated regulatory developments or litigation. We may not have adequate liquidity to pursue other aspects of our strategy, including bringing our products and services to new customers or new or underpenetrated geographies (including through equity investments) or pursuing strategic acquisitions.

Our ability to make payments on and to refinance our indebtedness will depend on our ability to generate cash in the future. This, to some extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control. Our lenders, including the lenders participating in our revolving credit facilities under the credit agreement, may become insolvent or tighten their lending standards, which could make it more difficult for us to borrow under our revolving credit facilities or to obtain other financing on favorable terms or at all. Our results of operations, cash flow and financial condition would be adversely affected if we were unable to draw funds under our revolving credit facilities because of a lender default or to obtain other cost-effective financing. Any

Table of Contents

default by a lender in its obligation to fund its commitment under our revolving credit facilities (or its participation in letters of credit) could limit our liquidity to the extent of the defaulting lender's commitment. If we are unable to generate sufficient cash flow in the future to meet our commitments, we will be required to adopt one or more alternatives, such as refinancing or restructuring our indebtedness, selling material assets or operations or seeking to raise additional debt or equity capital. We cannot assure you that any of these actions could be completed on a timely basis or on satisfactory terms or at all, or that these actions would enable us to continue to satisfy our capital requirements. Moreover, our existing debt agreements contain, and our future debt agreements may contain, restrictive covenants that may prohibit us from adopting these alternatives. Our failure to comply with these covenants could result in an event of default which, if not cured or waived, could result in the acceleration of all of our debt. See "Description of Other Indebtedness," "Description of 2021 New Notes" and "Description of 2022 New Notes."

The agreements governing our debt, including the notes, contain various covenants that impose restrictions on us that may affect our ability to operate our business and to make payments on the notes and our other indebtedness.

Agreements governing our indebtedness, including the indentures (and the indentures governing the secured notes, the 2020 notes and the 2018 notes) and the credit agreement, impose, and future financing agreements are likely to impose, operating and financial restrictions on our activities which may adversely affect our ability to finance future operations or capital needs or to engage in new business activities. In some cases, these restrictions require us to comply with or maintain certain financial tests and ratios. Subject to certain exceptions, our Credit Agreement and/or indentures restrict our ability to, among other things:

declare dividends or redeem or repurchase capital stock;

prepay, redeem or purchase other debt;

incur liens;

make loans, guarantees, acquisitions and investments;

incur additional indebtedness;

engage in sale and leaseback transactions;

amend or otherwise alter debt and other material agreements;

engage in mergers, acquisitions or asset sales;

engage in transactions with affiliates;

enter into arrangements that would prohibit us from granting liens or restrict our ability to pay dividends, make loans or transfer assets among our subsidiaries; and

alter the business we conduct.

In addition, our credit agreement requires us to maintain a maximum consolidated net first lien leverage ratio on a quarterly basis. As a result of these covenants, we are limited in the manner in which we can conduct our business, and may be unable to engage in favorable business activities or finance future operations or capital needs. See "Description of Other Indebtedness," "Description of 2021 New Notes" and "Description of 2022 New Notes."

Edgar Filing: WMS International Holdings Inc. - Form S-4

Various risks, uncertainties and events beyond our control could affect our ability to comply with these covenants. Failure to comply with any of the covenants in our existing or future financing agreements could result in a default under those agreements and under other agreements containing cross-default provisions. Such a default would permit lenders to accelerate the maturity of the debt

Table of Contents

under these agreements and to foreclose upon any collateral securing the debt. Under these circumstances, we might not have sufficient funds or other resources to satisfy all of our obligations, including our obligations under the indentures. In addition, the limitations imposed by financing agreements on our ability to incur additional debt and to take other actions might significantly impair our ability to obtain other financing.

We cannot assure you that we will be granted waivers or amendments to these agreements if for any reason we are unable to comply with these agreements or that we will be able to refinance our debt on terms acceptable to us, or at all.

Our credit ratings may not reflect the risks of investing in the notes.

Our credit ratings are an assessment by rating agencies of our ability to pay our debts when due and include many subjective factors. Consequently, real or anticipated changes in our credit ratings will generally affect the value of the notes. Also, these credit ratings may not reflect the potential impact of risks relating to structure or marketing of the notes. Agency ratings are not a recommendation to buy, sell or hold any security and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating. There can be no assurance that our credit ratings will remain in effect for any given period of time or that such ratings will not be lowered, suspended or withdrawn entirely by a rating agency, if, in that rating agency's judgment, circumstances so warrant. There can also be no assurance that our credit ratings will reflect all of the factors that would be important to holders of the notes. Actual or anticipated changes or downgrades in our credit ratings, including any announcement that our ratings are under further review for a downgrade, could affect the value of the notes, may increase our borrowing costs and may negatively impact our ability to incur additional debt.

The Issuer will rely in part on its subsidiaries and the other subsidiaries of the Company for funds necessary to meet its financial obligations, including the notes and our other indebtedness.

We conduct a significant portion of our activities through subsidiaries other than the Issuer. The Issuer will depend in part on those subsidiaries for dividends and other payments to generate the funds necessary to meet its financial obligations, including the payment of principal and interest on the notes. We cannot assure you that the earnings from, or other available assets of, these operating subsidiaries, together with the Issuer's operations, will be sufficient to enable the Issuer to pay principal or interest on the notes when due.

Federal and state fraudulent transfer and conveyance statutes and similar laws may permit courts, under specific circumstances, to avoid the notes, the guarantees and/or security interests related to the secured notes, to require noteholders to return payments received from us or the guarantors, and to take other actions detrimental to the noteholders.

Federal and state fraudulent transfer and conveyance statutes may apply to the issuance of the notes and the delivery of any guarantees of the notes, including the guarantees by the guarantors entered into upon issuance of the notes and guarantees (if any) that may be entered into thereafter under the terms of the indentures. Under federal bankruptcy law and comparable provisions of state fraudulent transfer or conveyance laws, which may vary from state to state, the issuance of the notes and the delivery of guarantees could be avoided as fraudulent transfers or conveyances if a court determined that the Issuer, at the time it issued the notes, or any of the guarantors, at the time it delivered the applicable guarantee (or, in some jurisdictions, at the time payment became due under the notes or a guarantee thereof):

issued the notes or provided the applicable guarantee, as the case may be, with the intent of hindering, delaying or defrauding any present or future creditor; or

Table of Contents

received less than reasonably equivalent value or fair consideration for issuing the notes or providing such guarantee, as the case may be, and

one of the following applies:

it was insolvent or rendered insolvent by reason of such issuance, provision, or granting,

it was engaged in a business or transaction for which its remaining assets constituted unreasonably small capital, or

it intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

In addition, any payment by the debtor or guarantor under the notes or guarantee of the notes could be voided and required to be returned to the debtor or guarantor, as the case may be, or deposited in a fund for the benefit of the creditors of the debtor or guarantor.

A court would likely find that a guarantor did not receive reasonably equivalent value or fair consideration for such guarantee if such guarantor did not substantially benefit directly or indirectly from the issuance of the notes and/or such guarantee. The measures of insolvency for purposes of these fraudulent transfer laws vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred such that we cannot be certain as to the standards a court would use to determine whether the Issuer or a guarantor was solvent at the relevant time which, if applicable in a particular jurisdiction, may be when payment became due under the notes or a guarantee. Regardless of the actual standard applied by the court, we cannot be certain that the issuance of the notes or a guarantee would not be avoided. The measure of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a debtor or a guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

To the extent that a court avoids or otherwise finds unenforceable for any other reason the notes or a guarantee, your claims against the Issuer or the relevant guarantor would be eliminated or limited. In addition, the court might direct you to repay any amounts already received from the Issuer or such guarantor. Further, the avoidance of the notes or a related guarantee could result in an event of default with respect to our other debt that, in turn, could result in acceleration of such debt.

In certain circumstances, a court may subordinate claims in respect of the notes or a guarantee to all other debts of an Issuer or a guarantor, or take other actions detrimental to the noteholders, based on equitable or other grounds. We cannot be certain as to the standards that a court might apply and whether it might find such subordination or other actions appropriate.

Each guarantee contains a provision intended to limit the guarantor's liability to the maximum amount that it could incur without causing the incurrence of obligations under its guarantee to be a fraudulent transfer. This provision may not be effective to protect the guarantees from being voided under fraudulent transfer law or may reduce or eliminate the guarantor's obligation to an amount that effectively makes the guarantee worthless. For example, in 2009, the U.S. Bankruptcy Court in the Southern District of Florida in *Official Committee of Unsecured Creditors of TOUSA, Inc. v. Citicorp N. Am., Inc.* (which was reinstated on other grounds by the United States Court of

Table of Contents

Appeals for the Eleventh Circuit) found a savings clause provision in that case to be ineffective and held the guarantees at issue in that case to be fraudulent transfers and voided them in their entirety.

Even if the guarantees of the notes remain in force, the remaining amount due and collectible under the guarantee may not be sufficient to pay the notes in full when due.

Because each guarantor's liability under its guarantee may be reduced to zero, avoided or released under certain circumstances, you may not receive any payments from some or all of the guarantors.

Holders of notes will have the benefit of the guarantees of certain of our domestic restricted subsidiaries. The guarantees, however, are limited to the maximum amount that the guarantors are permitted to guarantee under applicable law. In addition, guarantees provided after the issue date of the notes may be especially subject to challenge as an avoidable preference under certain circumstances. As a result, a guarantor's liability under its guarantee could be reduced to zero, depending on (among other things) the amount of other obligations of such guarantor. Furthermore, under the circumstances discussed more fully above, a court under applicable fraudulent conveyance and transfer statutes could void the obligations under a guarantee or further subordinate it to all other obligations of the guarantor.

As a result, a guarantor's liability under its guarantee could be materially reduced or eliminated depending upon the amounts of its other obligations and upon applicable laws. In particular, in certain jurisdictions, a guarantee issued by a company that is not in the company's corporate interests, the burden of which exceeds the benefit to the company or which is entered into within a certain period prior to insolvency or bankruptcy, may not be valid and enforceable. It is possible that a guarantor, a creditor of a guarantor or the insolvency administrator in the case of an insolvency of a guarantor may contest the validity and enforceability of the guarantee and that the applicable court may determine the guarantee should be limited or voided. In the event that any guarantees are deemed invalid or unenforceable, in whole or in part, or to the extent that agreed limitations on the guarantee obligation apply, the notes would be structurally subordinated to all liabilities of the applicable guarantor.

The notes will be structurally subordinated to the obligations of the Company's non-guarantor subsidiaries. Your right to receive payment on the notes could be adversely affected if any of our non-guarantor subsidiaries declares bankruptcy, liquidates or reorganizes.

Some but not all of the Company's subsidiaries guarantee the notes. The Company's foreign subsidiaries are not guarantors of the notes. Furthermore, a subsidiary guarantee of the notes may be released under the circumstances described under "Description of 2021 New Notes Guarantees" and "Description of 2022 New Notes Guarantees." The Issuer's obligations under the notes and the guarantors' obligations under the guarantees are structurally subordinated to the obligations of our non-guarantor subsidiaries (or to those of any subsidiary whose guarantee is voided as provided above). Holders of notes will not have any claim as a creditor against the Company's subsidiaries that are not guarantors of the notes. Therefore, in the event of any bankruptcy, liquidation or reorganization of a non-guarantor subsidiary, the rights of the holders of notes to participate in the assets of such non guarantor subsidiary will rank behind the claims of that subsidiary's creditors, including trade creditors (except to the extent we have a claim as a creditor of such subsidiary) and preferred stockholders of such subsidiaries, if any. For the year ended December 31, 2014, the Company's non-guarantor subsidiaries had operating revenue of \$629.0 million and operating income of \$41.4 million. As of December 31, 2014, the Company's non-guarantor subsidiaries represented approximately 20.4% of our total assets.

Table of Contents

Your right to receive payments on the 2021 old notes and the 2021 new notes is subordinated to the Issuer's senior debt and the senior debt of the guarantors.

Payment on the 2021 old notes and the 2021 new notes will be subordinated in right of payment to all of the Issuer's and the guarantors' senior debt, including obligations under the credit agreement, the secured notes and the 2022 new (or old) notes. As a result, upon any distribution to the Issuer's or the guarantors' creditors in a bankruptcy, liquidation or reorganization or similar proceeding relating to the Issuer or the guarantors or its or their property, the holders of senior debt will be entitled to be paid in full in cash before any payment may be made on the 2021 old notes and the 2021 new notes. In these cases, sufficient funds may not be available to pay all of our creditors, and holders of 2021 old notes or 2021 new notes may receive less, ratably, than the holders of senior debt and, due to the turnover provisions in the indenture, less, ratably, than the holders of unsubordinated obligations, including trade payables. See "Description of 2021 New Notes Ranking." In addition, all payments on the 2021 old notes and the guarantees will be blocked in the event of a payment default on senior debt and may be blocked for limited periods in the event of certain nonpayment defaults under the credit agreement.

We may be unable to finance a change of control offer.

If certain change of control events occur, the Issuer will be required to make an offer for cash to purchase the notes at 101% of their principal amount, plus accrued and unpaid interest and additional interest, if any. However, we cannot assure you that the Issuer will have the financial resources necessary to purchase the new notes upon a change of control or that it will have the ability to obtain the necessary funds on satisfactory terms, if at all. A change of control may result in an event of default under our credit agreement and may result in a default under other of our indebtedness that may be incurred in the future and would also require us to offer to purchase the secured notes, the 2020 notes and the 2018 notes at 101% of the principal amount thereof, plus accrued and unpaid interest. Our credit agreement prohibits the purchase of outstanding notes prior to repayment of the borrowings under the credit agreement, subject to certain exceptions, and any exercise by the holders of the notes, the secured notes, the 2020 notes and the 2018 notes of their right to require us to repurchase the notes may cause an event of default under our credit agreement. In addition, certain important corporate events, such as leveraged recapitalizations that would increase the level of our indebtedness, would constitute a "Change of Control" under the indentures. See "Description of 2021 New Notes Change of Control" and "Description of 2022 New Notes Change of Control."

Investors may not be able to determine when a change of control giving rise to their right to have the notes repurchased by the Issuer has occurred following a sale of "substantially all" of our assets.

A change of control (or, in the case of the 2021 new notes and 2021 old notes, a change of control repurchase event), as defined in the indentures governing the notes, will require the Issuer to make an offer to repurchase all outstanding notes. The definition of change of control includes a phrase relating to the sale, lease or transfer of "all or substantially all" of our assets. There is no precisely established definition of the phrase "substantially all" under applicable law. Accordingly, the ability of a holder of notes to require the Issuer to repurchase their notes as a result of a sale, lease or transfer of less than all of the Issuer's assets to another individual, group or entity may be uncertain.

You may be required to dispose of, or we may be permitted to redeem, the notes pursuant to gaming laws.

Certain gaming authorities currently may require a holder of the notes to be licensed or found qualified or suitable under applicable laws and regulations. It is possible that gaming authorities in additional jurisdictions could impose similar requirements. If, at any time, a holder of notes is required to be licensed or found qualified under any applicable gaming laws or regulations and that holder does not become so licensed or found qualified or suitable, the Issuer will have the right, at its option, (1) to require that holder of notes to dispose of all or any portion of those notes within 60 days after the

Table of Contents

holder receives notice of that finding, or at some other time as prescribed by the applicable gaming authorities, or (2) to redeem the notes of that holder upon not less than 30 nor more than 60 days prior notice, at a redemption price equal to the lesser of the principal amount thereof, or the price at which such holder or beneficial owner acquired the notes, together with, in each case, accrued and unpaid interest to the earlier of the date of redemption or the date of the denial of license or qualification or of the finding of unsuitability by such gaming authority (or if such gaming authority restricts the redemption price to a lesser amount, then such lesser amount shall be the redemption price).

If a bankruptcy petition were filed by or against us in the United States, the allowed claim for the notes may be less than the principal amount of the notes stated in the indentures.

If a bankruptcy petition were filed by or against us under the U.S. Bankruptcy Code after the issuance of the notes, the claim by any holder of the notes for the principal amount of the notes may be allowed in an amount equal to the sum of:

the original issue price of the notes; and

that portion of the stated principal amount of the notes that exceeds the issue price of such notes, if any, that does not constitute "unmatured interest" for the purposes of the U.S. Bankruptcy Code.

Any such discount that was not amortized as of the date of the bankruptcy filing would constitute unamortized interest, which is not allowable as part of a bankruptcy claim under the U.S. Bankruptcy Code. Accordingly, holders of notes under these circumstances may receive an amount that is less than the principal amount of the notes.

We are exposed to the risk of higher interest rates.

Our indebtedness under the credit agreement has variable rates of interest, which exposes us to the risk of higher interest rates. We have entered into floating to fixed interest rate swap (and swaption) agreements to fix a portion of our floating LIBOR-based debt under the credit agreement; however, if interest rates were to increase, the interest payment obligations under our remaining variable rate indebtedness would increase even if the amount borrowed remained the same, which could have a material adverse effect on our business, results of operation, cash flows or financial condition.

The 2022 old notes were issued with original issue discount for U.S. federal income tax purposes.

The 2022 old notes were issued with original issue discount for U.S. federal income tax purposes. As a result, investors in the 2022 new notes that are subject to U.S. federal income taxation will be subject to special rules relating to the accrual of income for U.S. federal income tax purposes. See "Certain U.S. Federal Income Tax Considerations Relating to the Exchange of 2022 Old Notes for 2022 New Notes and the Ownership and Disposition of the 2022 New Notes."

Risk Factors Relating to the Exchange Offer

If you fail to follow the exchange offer procedures, your old notes will not be accepted for exchange.

We will not accept your old notes for exchange if you do not follow the exchange offer procedures. We will issue new notes as part of this exchange offer only after timely receipt of your old notes, a properly completed and duly executed letter of transmittal and all other required documents or if you comply with the guaranteed delivery procedures for tendering your old notes. Therefore, if you want to tender your old notes, please allow sufficient time to ensure timely delivery. If we do not receive your old notes, letter of transmittal, and all other required documents by the expiration date of the exchange

offer, or you do not otherwise comply with the guaranteed delivery procedures for tendering your old notes, we will not accept your old notes for exchange. Neither we nor the exchange agent is required to give notification of defects or irregularities with respect to the tenders of old notes for exchange. If there are defects or irregularities with respect to your tender of old notes, we will not accept your old notes for exchange unless we decide in our sole discretion to waive such defects or irregularities.

Any outstanding old notes after the consummation of the exchange offer will continue to be subject to existing transfer restrictions, and the holders of old notes after the consummation of the exchange offer may not be able to sell their old notes.

We did not register the old notes under the Securities Act or any state securities laws, nor do we intend to do so after the exchange offer. As a result, the old notes may only be transferred in limited circumstances under the securities laws. If you do not exchange your old notes in the exchange offer, you will lose your right to have the old notes registered under the Securities Act, subject to certain exceptions. If you continue to hold old notes after the exchange offer, you may be unable to sell the old notes because there will be fewer old notes outstanding. Old notes that are not tendered or are tendered but not accepted will, following the exchange offer, continue to be subject to existing transfer restrictions.

Lack of an active market for the new notes may adversely affect the liquidity and market price of the new notes.

We do not intend to apply for a listing of the new notes on any securities exchange. We do not know if an active public market for the new notes will develop or, if developed, will continue. If an active public market does not develop or is not maintained, the market price and liquidity of the new notes may be adversely affected. We cannot make any assurances regarding the liquidity of the market for the new notes, the ability of holders to sell their new notes or the price at which holders may sell their new notes. In addition, the liquidity and the market price of the new notes may be adversely affected by changes in the overall market for securities similar to the new notes, by changes in our business, results of operations, cash flows or financial condition, and by changes in conditions in the industries in which we operate. In addition, if a large amount of old notes are not tendered or are tendered improperly, the amount of new notes that would be issued and outstanding after we consummate the exchange offer could lower the market price of such new notes.

The market price for the new notes may be volatile.

Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the new notes. The market for the new notes, if any, may be subject to similar disruptions. Any such disruptions may adversely affect the value of your new notes.

USE OF PROCEEDS

We will not receive any proceeds from the exchange offer. Because we are exchanging the new notes for the old notes, which have substantially identical terms, the issuance of the new notes will not result in any increase in our indebtedness. The exchange offer is intended to satisfy our obligations under the registration rights agreements.

the issuance of \$350 million in aggregate principal amount of the 2021 old notes by the Issuer and subsequent purchase and redemption of its 9.250% senior subordinated notes due 2019 (the "2019 notes"), which was funded, in part, with the net proceeds from the issuance of the 2021 old notes (collectively, the "2014 Refinancing Transactions");

The Bally Acquisition, the other acquisitions and the related financing transactions listed above are collectively referred to herein as the "Transactions."

The following unaudited pro forma combined statement of operations has been derived by the application of pro forma adjustments to the historical audited and/or unaudited consolidated statements of operations of Scientific Games, Bally, SHFL and Dragonplay. The following unaudited pro forma combined statement of operations gives effect to the SHFL Acquisition, the Dragonplay Acquisition and the Bally Acquisition under the acquisition method of accounting in accordance with FASB ASC Topic 805, *Business Combinations* ("ASC 805"), with Scientific Games treated as the acquirer in the Bally acquisition, and Bally treated as the acquirer in the SHFL Acquisition and Dragonplay Acquisition. The historical consolidated financial information has been adjusted in the unaudited pro forma combined statement of operations to give effect to pro forma adjustments that are (1) directly attributable to the Transactions, (2) factually supportable, and (3) expected to have a continuing impact on the combined results of the Company.

Table of Contents

The unaudited pro forma combined statement of operations for the year ended December 31, 2014 combines the historical results of operations of Scientific Games, Bally, SHFL and Dragonplay giving effect to the SHFL Acquisition, the Dragonplay Acquisition, the Bally Acquisition and the other Transactions as if they occurred on January 1, 2014. The combined pro forma impacts of the SHFL Acquisition and the Dragonplay Acquisition are reflected in the column "Bally Pro Forma" in the unaudited pro forma combined statement of operations and are herein referred to as "Bally Pro Forma." As of the date of this prospectus, an unaudited pro forma balance sheet is not required as the Transactions are reflected in the Company's most recently issued balance sheet included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, which is incorporated herein by reference.

The unaudited pro forma combined statement of operations do not reflect future events that may occur following the Transactions, including, but not limited to, the expected realization of anticipated operating synergies and certain costs expected to be incurred in connection with realizing anticipated operating synergies and integration activities, including, but not limited to, costs in connection with integrating the operations of Scientific Games with Bally. However, the unaudited pro forma statements of operations reflect operating synergies and certain charges, such as integration costs and restructuring charges, which Scientific Games recognized related to the WMS acquisition and Bally recognized related to the SHFL Acquisition and Dragonplay Acquisition in their respective historical financial statements; no pro forma adjustment has been reflected to give effect to future operating synergies that Scientific Games and Bally management expect to achieve as a result of the WMS acquisition, the Dragonplay Acquisition and the Bally Acquisition or the costs necessary to achieve these anticipated costs savings.

The unaudited pro forma combined statements of operations are for informational purposes only and are based on the estimates and assumptions set forth in the accompanying notes. They do not purport to indicate the results that would actually have been obtained had the Transactions been completed on January 1, 2014 or for the period presented, or which may be realized in the future. We have recorded Bally's assets acquired and liabilities assumed based on our preliminary estimates of their fair values at the acquisition date of November 21, 2014. The determination of the fair values of the assets acquired and liabilities assumed (and the related determination of estimated lives of depreciable and amortizable tangible and identifiable intangible assets) requires significant judgment and estimate. The estimates and assumptions used include the projected timing and amount of future cash flows and discount rates reflecting risk inherent in the future cash flows. The estimated fair values of Bally's assets acquired and liabilities assumed and resulting goodwill are subject to adjustment as the Company finalizes its fair value analysis. The significant items for which a final fair value has not been determined as of the date of this registration statement include accrued liabilities, deferred income taxes and other long-term liabilities. We expect to complete our fair value determinations no later than the fourth quarter of 2015. We do not expect our fair value determinations to change; however, there may be differences compared to those amounts reflected in our consolidated financial statements at December 31, 2014 as we finalize our fair value analysis and such changes could be material.

NOTES TO THE UNAUDITED PRO FORMA COMBINED STATEMENT OF OPERATIONS

(Unaudited, in millions, except per share amounts)

1. Description of Bally Acquisition and basis of presentation

On November 21, 2014, the Company acquired Bally through the merger of a wholly owned subsidiary of the Company with and into Bally, with Bally surviving the merger as a wholly owned subsidiary of Scientific Games. At the closing of the Bally Acquisition, each outstanding share of Bally common stock, par value \$0.10, was converted into the right to receive \$83.30 per common share in cash, without interest.

Equity awards granted by Bally following August 1, 2014, the date of the merger agreement, were not cancelled but instead were converted into equivalent Scientific Games restricted stock units ("RSUs") using a customary exchange ratio of Bally's stock price to Scientific Games' stock price on the closing date.

The SHFL Acquisition, Dragonplay Acquisition and Bally Acquisition are reflected in the unaudited pro forma combined financial statements as being accounted for under the acquisition method in accordance with ASC 805, with Scientific Games treated as the accounting and legal acquirer in the Bally Acquisition and Bally treated as the legal and accounting acquirer in the SHFL Acquisition and the Dragonplay Acquisition. In accordance with ASC 805, the assets acquired and liabilities assumed have been measured at fair value. The fair values of the assets acquired and liabilities assumed in the SHFL Acquisition are finalized. As of the date of this prospectus, the significant items for which a final fair value has not been determined for the Bally Acquisition include accrued liabilities, deferred income taxes and other long-term liabilities. We expect to complete our fair value determinations no later than the fourth quarter of 2015. We do not expect our fair value determinations to change; however, there may be differences compared to those amounts reflected in our consolidated financial statements at December 31, 2014 as we finalize our fair value analysis and such changes could be material.

For purposes of estimating the fair value, where applicable, of the assets acquired and liabilities assumed as reflected in the unaudited pro forma combined statement of operations, Scientific Games and Bally have applied the guidance in ASC 820, *Fair Value Measurements and Disclosures* ("ASC 820"), which establishes a framework for measuring fair value in each of their respective acquisitions. In accordance with ASC 820, fair value is an exit price and is defined as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Under ASC 805, acquisition-related transaction costs and acquisition-related restructuring charges are not included as components of consideration transferred but are accounted for as expenses in the period in which the costs are incurred.

The historical financial information of Scientific Games and Bally has been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Scientific Games' historical financial information was derived from its audited financial statements and Bally's historical financial information was derived from a combination of its audited and unaudited financial statements from January 1, 2014 to its date of its acquisition by Scientific Games. The historical financial statements for Dragonplay have been prepared in accordance with generally accepted accounting principles in Israel ("Israeli GAAP"). Dragonplay's historical financial information was derived from its unaudited financial statements from January 1, 2014 to its date of its acquisition by Bally. Any measurement differences in applying accounting principles between Israeli GAAP and U.S. GAAP as they apply to Dragonplay would not be considered material to the unaudited pro forma combined statement of operations.

The unaudited pro forma combined statement of operations for the year ended December 31, 2014 were prepared in accordance with U.S. GAAP and pursuant to Article 11 of Regulation S-X under the

The unaudited pro forma combined statement of operations does not reflect all of the operating synergies that Scientific Games and Bally management expect to achieve as a result of Scientific Games' acquisition of WMS, the SHFL Acquisition, the Dragonplay Acquisition and the Bally Acquisition, respectively, or the costs necessary to achieve these anticipated costs savings.

- (c) *D&A* Adjustment of \$2.8 million to reflect the depreciation and amortization ("D&A") expense associated with the \$46 million fair value of intangible in-process research and development ("IPR&D") acquired in relation to the SHFL Acquisition. The pro forma adjustment reflects D&A as if the acquired IPR&D had reached commercial feasibility upon completion of the SHFL Acquisition.
- (d) *Income tax (expense) benefit* Adjustment to reflect the tax effects of the pro forma adjustments made to the unaudited combined pro forma statement of operations calculated at the statutory rates in effect in each significant jurisdiction.

3. Preliminary pro forma adjustments related to the Dragonplay Acquisition

The historical financial statements for Dragonplay have been prepared in accordance with Israeli GAAP and reported in U.S. dollars. Any measurement differences in applying accounting principles between Israeli GAAP and U.S. GAAP as they apply to Dragonplay would not be considered material to the unaudited pro forma combined statement of operations.

Note that the column "Dragonplay" in the unaudited pro forma combined statement of operations includes the historical results of Dragonplay, as well as pro forma adjustments related to the Dragonplay Acquisition. The pro forma adjustments included in the unaudited pro forma combined statement of operations related to the Dragonplay Acquisition are as follows:

- (a) *D&A* Upon the completion of the Dragonplay Acquisition, the carrying values of Dragonplay's tangible and intangible assets were adjusted to their estimated fair value. The amount of \$3.9 million includes the pro forma adjustment of \$3.8 million representing additional amortization expense associated with the \$34.1 million change in fair value of acquired identifiable intangible assets (primarily core technology and content) that will be amortized on a straight-line basis over an estimated useful life of five years. The estimated useful lives for the acquired intangible assets are commensurate with the time period expected for their benefit.

THE EXCHANGE OFFER

Purpose of the Exchange Offer

Simultaneously with the issuance and sale of the 2021 old notes on June 4, 2014, the Issuer and the guarantors entered into a registration rights agreement with Merrill Lynch, Pierce, Fenner & Smith Incorporated, as representative of the initial purchasers of the 2021 old notes (the "2021 registration rights agreement"). Simultaneously with the issuance and sale of the 2022 old notes on November 21, 2014, the Issuer and the guarantors entered into a registration rights agreement (pursuant to a joinder agreement) with J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Deutsche Bank Securities Inc., as representatives of the initial purchasers of the 2022 old notes (the "2022 registration rights agreement" and, together with the 2021 registration rights agreement, the "registration rights agreements"). Under each registration rights agreement, the Issuer and the guarantors agreed, among other things, to:

use their commercially reasonable efforts to file with the SEC an exchange offer registration statement relating to the new notes;

use their commercially reasonable efforts to have the registration statement declared effective by the SEC and remain effective until 180 days after the closing of the exchange offer; and

use their commercially reasonable efforts to complete an exchange offer, in which new notes will be issued in exchange for old notes, not later than 60 days after the registration statement is declared effective.

The Issuer and the guarantors are conducting the exchange offer to satisfy these obligations under the registration rights agreements.

Under some circumstances, the Issuer and the guarantors may be required to file and use their commercially reasonable efforts to cause to be declared effective by the SEC, in addition to or in lieu of the exchange offer registration statement, a shelf registration statement covering resales of the old notes. If the Issuer and the guarantors fail to meet specified deadlines under either registration rights agreement, then the Issuer, and, to the extent of their guarantees of the new notes, the guarantors, will be obligated to pay liquidated damages to holders of the old notes in the amount of a 0.25% per annum increase in the annual interest rate borne by the notes for the first 90-day period following such failure (which interest rate will increase by 0.25% per annum with respect to each subsequent 90-day period, up to a maximum additional rate of 1.0% per annum) until such failure is cured. See "Description of 2021 New Notes Registration Rights" and "Description of 2022 New Notes Registration Rights." A copy of each registration rights agreement has been filed as an exhibit to the registration statement of which this prospectus is a part, and the summary of the material provisions of the registration rights agreements does not purport to be complete and is qualified in its entirety by reference to the complete registration rights agreements.

Terms of the Exchange Offer

The Issuer and the guarantors are offering to exchange an aggregate principal amount of up to \$350.0 million of 2021 new notes and guarantees thereof for a like aggregate principal amount of 2021 old notes and guarantees thereof and an aggregate principal amount of up to \$2,200.0 million of 2022 new notes and guarantees thereof for a like aggregate principal amount of 2022 old notes and guarantees thereof. The form and the terms of each series of new notes are identical in all material respects to the form and the terms of the applicable old notes except that the new notes:

will have been registered under the Securities Act;

will not be subject to restrictions on transfer under the Securities Act;

Table of Contents

will not be entitled to the registration rights that apply to the old notes; and

will not be subject to any increase in annual interest rate as described below under "Description of 2021 New Notes Registration Rights" and "Description of 2022 New Notes Registration Rights."

The 2021 new notes and 2022 new notes evidence the same debt as the 2021 old notes and 2022 old notes, respectively, exchanged for the 2021 new notes and 2022 new notes, respectively, and will be entitled to the benefits of the same indenture under which such old notes were issued, each of which is governed by New York law. For a complete description of the terms of the 2021 new notes, see "Description of 2021 New Notes" and for a complete description of the terms of the 2022 new notes, see "Description of 2022 New Notes." We will not receive any cash proceeds from the exchange offer.

The exchange offer is not extended to holders of old notes in any jurisdiction where the exchange offer would not comply with the securities or blue sky laws of that jurisdiction.

As of the date of this prospectus, \$350.0 million aggregate principal amount of 2021 old notes is outstanding and registered in the name of Cede & Co., as nominee for DTC and \$2,200.0 million aggregate principal amount of 2022 old notes is outstanding and registered in the name of Cede & Co., as nominee for DTC. Only registered holders of the old notes, or their legal representatives and attorneys-in-fact, as reflected on the records of the trustee under the applicable indenture, may participate in the exchange offer. The Issuer and the guarantors will not set a fixed record date for determining registered holders of the old notes entitled to participate in the exchange offer. This prospectus, together with the letter of transmittal, is being sent to all registered holders of old notes and to others believed to have beneficial interests in the old notes.

Upon the terms and subject to the conditions described in this prospectus and in the accompanying letter of transmittal, the Issuer will accept for exchange old notes which are properly tendered on or before the expiration date and not withdrawn as permitted below. As used in this section of the prospectus entitled, "The Exchange Offer," the term "expiration date" means 5:00 p.m., New York City time, on _____, _____. If, however, the Issuer and the guarantors, in their sole discretion, extend the period of time for which the exchange offer is open, the term "expiration date" means the latest time and date to which the exchange offer is so extended. Old notes tendered in the exchange offer must be in denominations of the principal amount of \$2,000 and any integral multiple of \$1,000 in excess thereof.

If you do not tender your old notes or if you tender old notes that are not accepted for exchange, your old notes will remain outstanding and continue to accrue interest but will not retain any rights under the registration rights agreements. Existing transfer restrictions would continue to apply to old notes that remain outstanding. See "Consequences of Failure to Exchange Old Notes" and "Risk Factors Risk Factors Relating to the Exchange Offer Any outstanding old notes after the consummation of the exchange offer will continue to be subject to existing transfer restrictions, and the holders of old notes after the consummation of the exchange offer may not be able to sell their old notes" for more information regarding old notes outstanding after the exchange offer. Holders of the old notes do not have any appraisal or dissenters' rights in connection with the exchange offer.

None of the Issuer and the guarantors, their respective boards of directors or their management recommends that you tender or not tender old notes in the exchange offer or has authorized anyone to make any recommendation. You must decide whether to tender old notes in the exchange offer and, if you decide to tender, the aggregate amount of old notes to tender. We intend to conduct the exchange offer in accordance with the applicable requirements of the Exchange Act and the rules and regulations of the SEC promulgated under the Exchange Act.

The Issuer and the guarantors have the right, in their reasonable discretion and in accordance with applicable law, at any time:

to extend the expiration date;

to delay the acceptance of any old notes or to terminate the exchange offer and not accept any old notes for exchange if the Issuer and the guarantors determine that any of the conditions to the exchange offer described below under " Conditions to the Exchange Offer" have not occurred or have not been satisfied; and

to amend the terms of the exchange offer in any manner.

During an extension, all old notes previously tendered will remain subject to the exchange offer and may be accepted for exchange by the Issuer.

We will give oral or written notice of any extension, delay, non-acceptance, termination or amendment to the exchange agent as promptly as practicable and make a public announcement of the extension, delay, non-acceptance, termination or amendment. In the case of an extension, the announcement will be made no later than 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date.

If the Issuer and the guarantors amend the exchange offer in a manner that we consider material, we will as promptly as practicable distribute to the holders of the old notes a prospectus supplement or, if appropriate, an updated prospectus from a post-effective amendment to the registration statement of which this prospectus is a part disclosing the change and extend the exchange offer for a period of five to ten business days, depending upon the significance of the amendment of the exchange offer and the manner of disclosure to the registered holders, if the exchange offer would otherwise expire during the five to ten business day period.

Procedures for Tendering Old Notes

Valid Tender

When the holder of old notes tenders, and the Issuer accepts, old notes for exchange, a binding agreement between the Issuer and the guarantors, on the one hand, and the tendering holder, on the other hand, is created, upon the terms and subject to the conditions set forth in this prospectus and the accompanying letter of transmittal.

Except as described below under " Guaranteed Delivery," a holder of old notes who wishes to tender old notes for exchange must, on or prior to the close of business on the expiration date:

transmit a properly completed and duly executed letter of transmittal, together with all other documents required by the letter of transmittal, to the exchange agent at the address provided below under " Exchange Agent"; or

if old notes are tendered in accordance with the book-entry procedures described below under " Book-Entry Transfers," arrange with DTC to cause an agent's message to be transmitted to the exchange agent at the address provided below under " Exchange Agent."

The term "agent's message" means a message transmitted to the exchange agent by DTC which states that DTC has received an express acknowledgment that the tendering holder agrees to be bound by the letter of transmittal and that the Issuer and the guarantors may enforce the letter of transmittal against that holder.

In addition, on or prior to the expiration date:

the exchange agent must receive the certificates for the old notes being tendered;

Table of Contents

the exchange agent must receive a confirmation, referred to as a "book-entry confirmation," of the book-entry transfer of the old notes being tendered into the exchange agent's account at DTC, and the book-entry confirmation must include an agent's message; or

the holder must comply with the guaranteed delivery procedures described below under " Guaranteed Delivery."

If you beneficially own old notes and those notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee or custodian and you wish to tender your old notes in the exchange offer, you should contact the registered holder as soon as possible and instruct it to tender the old notes on your behalf and comply with the instructions set forth in this prospectus and the letter of transmittal.

The method of delivery of the certificates for the old notes, the letter of transmittal and all other required documents is at your election and risk. If delivery is by mail, we recommend registered mail with return receipt requested, properly insured, or overnight delivery service. In all cases, you should allow sufficient time to assure delivery to the exchange agent before the expiration date. Delivery is complete when the exchange agent actually receives the items to be delivered. Delivery of documents to DTC in accordance with DTC's procedures does not constitute delivery to the exchange agent. Do not send letters of transmittal or old notes to the Issuer or any guarantor.

The Issuer will not accept any alternative, conditional or contingent tenders. Each tendering holder, by execution of a letter of transmittal or by causing the transmission of an agent's message, waives any right to receive any notice of the acceptance of such tender.

Signature Guarantees

Signatures on a letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed by an "Eligible Guarantor Institution" within the meaning of Rule 17Ad-15 under the Exchange Act unless the old notes surrendered for exchange are tendered:

by a registered holder of old notes who has not completed the box entitled "Special Issuance Instructions" or "Special Delivery Instructions" on the letter of transmittal; or

for the account of an eligible institution.

An "eligible institution" is a firm or other entity which is identified as an "Eligible Guarantor Institution" in Rule 17Ad-15 under the Exchange Act, including:

a bank;

a broker, dealer, municipal securities broker or dealer or government securities broker or dealer;

a credit union;

a national securities exchange, registered securities association or clearing agency; or

a savings association.

If signatures on a letter of transmittal or notice of withdrawal are required to be guaranteed, the guarantor must be an eligible institution.

If old notes are registered in the name of a person other than the signer of the letter of transmittal, the old notes surrendered for exchange must be endorsed or accompanied by a written instrument or instruments of transfer or exchange, in satisfactory form as determined by the

Edgar Filing: WMS International Holdings Inc. - Form S-4

Issuer and the guarantors in their sole discretion, duly executed by the registered holder with the holder's signature guaranteed by an eligible institution, and must also be accompanied by such opinions of counsel, certifications and other information as the Issuer and the guarantors or the trustee under the

Table of Contents

indenture for the old notes may require in accordance with the restrictions on transfer applicable to the old notes.

Book-Entry Transfers

For tenders by book-entry transfer of old notes cleared through DTC, the exchange agent will make a request to establish an account at DTC for purposes of the exchange offer. Any financial institution that is a DTC participant may make book-entry delivery of old notes by causing DTC to transfer the old notes into the exchange agent's account at DTC in accordance with DTC's procedures for transfer. The exchange agent and DTC have confirmed that any financial institution that is a participant in DTC may use the Automated Tender Offer Program, or ATOP, procedures to tender old notes. Accordingly, any participant in DTC may make book-entry delivery of old notes by causing DTC to transfer those old notes into the exchange agent's account at DTC in accordance with DTC's ATOP procedures.

Notwithstanding the ability of holders of old notes to effect delivery of old notes through book-entry transfer at DTC, either:

the letter of transmittal or an agent's message in lieu of the letter of transmittal, with any required signature guarantees and any other required documents, such as endorsements, bond powers, opinions of counsel, certifications and powers of attorney, if applicable, must be transmitted to and received by the exchange agent prior to the expiration date at the address given below under " Exchange Agent"; or

the guaranteed delivery procedures described below must be complied with.

Guaranteed Delivery

If a holder wants to tender old notes in the exchange offer and (1) the certificates for the old notes are not immediately available or all required documents are unlikely to reach the exchange agent on or prior to the expiration date, or (2) a book-entry transfer cannot be completed on a timely basis, the old notes may be tendered if:

the tender is made by or through an eligible institution; and

the eligible institution delivers a properly completed and duly executed notice of guaranteed delivery, substantially in the form provided, to the exchange agent by hand, facsimile, mail or overnight delivery service on or prior to the expiration date:

stating that the tender is being made;

setting forth the name and address of the holder of the old notes being tendered and the amount of the old notes being tendered;

guaranteeing that, within three New York Stock Exchange trading days after the date of execution of the notice of guaranteed delivery, the certificates for all physically tendered old notes, in proper form for transfer, or a book-entry confirmation, as the case may be, together with a properly completed and duly executed letter of transmittal, or an agent's message, with any required signature guarantees and any other documents required by the letter of transmittal, will be deposited by the eligible institution with the exchange agent; and

the exchange agent receives the certificates for the old notes, or a book-entry confirmation, and a properly completed and duly executed letter of transmittal, or an agent's message in lieu thereof, with any required signature guarantees and any other documents required by the letter of transmittal within three New York Stock Exchange trading days after the date of execution of the notice of guaranteed delivery.

Determination of Validity

The Issuer and the guarantors, in their sole discretion, will resolve all questions regarding the form of documents, validity, eligibility, including time of receipt, and acceptance for exchange of any tendered old notes. The determination of these questions by the Issuer and the guarantors, as well as their interpretation of the terms and conditions of the exchange offer, including the letter of transmittal, will be final and binding on all parties. A tender of old notes is invalid until all defects and irregularities have been cured or waived. Holders must cure any defects and irregularities in connection with tenders of old notes for exchange within such reasonable period of time as the Issuer and the guarantors will determine, unless they waive the defects or irregularities. None of the Issuer and the guarantors, any of their respective affiliates or assigns, the exchange agent or any other person is under any obligation to give notice of any defects or irregularities in tenders, nor will any of them be liable for failing to give any such notice.

The Issuer and the guarantors reserve the absolute right, in their sole and absolute discretion:

to reject any tenders determined to be in improper form or unlawful;

to waive any of the conditions of the exchange offer; and

to waive any condition or irregularity in the tender of old notes by any holder, whether or not we waive similar conditions or irregularities in the case of other holders.

If any letter of transmittal, certificate, endorsement, bond power, power of attorney, or any other document required by the letter of transmittal is signed by a trustee, executor, administrator, guardian, attorney-in-fact, officer of a corporation or other person acting in a fiduciary or representative capacity, that person must indicate such capacity when signing. In addition, unless waived by the Issuer, the person must submit proper evidence satisfactory to the Issuer, in its sole discretion, of the person's authority to so act.

Acceptance of Old Notes for Exchange; Delivery of New Notes

Upon satisfaction or waiver of all of the conditions to the exchange offer, the Issuer will, promptly after the expiration date, accept all old notes properly tendered and issue new notes registered under the Securities Act. See " Conditions to the Exchange Offer" for a discussion of the conditions that must be satisfied or waived before old notes are accepted for exchange. The exchange agent might not deliver the new notes to all tendering holders at the same time. The timing of delivery depends upon when the exchange agent receives and processes the required documents.

For purposes of the exchange offer, the Issuer will be deemed to have accepted properly tendered old notes for exchange when it gives oral or written notice to the exchange agent of acceptance of the tendered old notes, with written confirmation of any oral notice to be given promptly thereafter. The exchange agent is the agent of the Issuer for receiving tenders of old notes, letters of transmittal and related documents.

For each old note accepted for exchange, the holder will receive a new note registered under the Securities Act having a principal amount equal to, and in the denomination of, that of the surrendered old note. Accordingly, registered holders of new notes issued in the exchange offer on the relevant record date for the first interest payment date following the consummation of the exchange offer will receive interest accruing from the most recent date to which interest has been paid on the old notes or, if no interest has been paid on the old notes, from June 4, 2014 (in the case of the 2021 old notes) and November 21, 2014 (in the case of the 2022 old notes). Old notes accepted for exchange will cease to accrue interest from and after the date of consummation of the exchange offer.

Table of Contents

In all cases, the Issuer will issue new notes in the exchange offer for old notes that are accepted for exchange only after the exchange agent timely receives:

certificates for those old notes or a timely book-entry confirmation of the transfer of those old notes into the exchange agent's account at DTC;

a properly completed and duly executed letter of transmittal or an agent's message; and

all other required documents, such as endorsements, bond powers, opinions of counsel, certifications and powers of attorney, if applicable.

If for any reason under the terms and conditions of the exchange offer the Issuer does not accept any tendered old notes, or if a holder submits old notes for a greater principal amount than the holder desires to exchange, the Issuer will return the unaccepted or non-exchanged old notes without cost to the tendering holder promptly after the expiration or termination of the exchange offer. In the case of old notes tendered by book-entry transfer through DTC, any unexchanged old notes will be credited to an account maintained with DTC.

Resales of New Notes

Based on interpretive letters issued by the SEC staff to other, unrelated issuers in transactions similar to the exchange offer, we believe that a holder of new notes, other than a broker-dealer, may offer new notes (together with the guarantees thereof) for resale, resell and otherwise transfer the new notes (and the related guarantees) without delivering a prospectus to prospective purchasers, if the holder acquired the new notes in the ordinary course of business, has no intention of engaging in a "distribution," as defined under the Securities Act, of the new notes and is not an "affiliate," as defined under the Securities Act, of the Issuer or any guarantor. We will not seek our own interpretive letter. As a result, we cannot assure you that the SEC staff would take the same position with respect to this exchange offer as it did in interpretive letters to other parties in similar transactions.

If the holder is an affiliate of the Issuer or any guarantor or is engaged in, or intends to engage in, or has an arrangement or understanding with any person to participate in, a distribution of the new notes, that holder or other person may not rely on the applicable interpretations of the staff of the SEC and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

By tendering old notes, the holder of those old notes will represent to the Issuer and the guarantors that, among other things:

the holder is not an "affiliate," as defined under Rule 405 under the Securities Act, of the Issuer or any guarantor;

the holder is acquiring the new notes in its ordinary course of business;

the holder is not engaged in, does not intend to engage in and has no arrangement or understanding with any person to participate in a distribution of the new notes within the meaning of the Securities Act; and

the holder is not acting on behalf of any person who could not truthfully make the foregoing representations.

Any broker-dealer that holds old notes acquired for its own account as a result of market-making activities or other trading activities (other than old notes acquired directly from the Issuer) may exchange those old notes pursuant to the exchange offer; however, such broker-dealer may be deemed to be an "underwriter" within the meaning of the Securities Act and must, therefore, deliver a prospectus meeting the requirements of the Securities Act in connection with any resales of the new notes received by such broker-dealer in the exchange offer. To date, the SEC has taken the position

Table of Contents

that broker-dealers may use a prospectus such as this one to fulfill their prospectus delivery requirements with respect to resales of new notes received in an exchange such as the exchange pursuant to the exchange offer, if the old notes for which the new notes were received in the exchange were acquired for their own accounts as a result of market-making or other trading activities. Any profit on these resales of new notes and any commissions or concessions received by a broker-dealer in connection with these resales may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not admit that it is an "underwriter" within the meaning of the Securities Act. See "Plan of Distribution and Selling Restrictions" for a discussion of the exchange and resale obligations of broker-dealers in connection with the exchange offer and the new notes.

Withdrawal Rights

You can withdraw tenders of old notes at any time prior to the expiration date. For a withdrawal to be effective, you must deliver a written notice of withdrawal to the exchange agent or comply with the appropriate procedures of ATOP. Any notice of withdrawal must:

specify the name of the person that tendered the old notes to be withdrawn;

identify the old notes to be withdrawn, including the principal amount of such old notes;

include a signed statement that you are withdrawing your election to have your securities exchanged; and

where certificates for old notes are transmitted, include the name of the registered holder of the old notes if different from the person withdrawing the old notes.

If you delivered or otherwise identified certificated old notes to the exchange agent, you must submit the serial numbers of the old notes to be withdrawn and the signature on the notice of withdrawal must be guaranteed by an eligible institution, except in the case of old notes tendered for the account of an eligible institution. See "Procedures for Tendering Old Notes Signature Guarantees" for further information on the requirements for guarantees of signatures on notices of withdrawal. If you tendered old notes in accordance with applicable book-entry transfer procedures, the notice of withdrawal must specify the name and number of the account at DTC to be credited with the withdrawn old notes and you must deliver the notice of withdrawal to the exchange agent. You may not rescind withdrawals of tender; however, old notes properly withdrawn may again be tendered at any time on or prior to the expiration date in accordance with the procedures described under "Procedures for Tendering Old Notes."

The Issuer and the guarantors will determine, in their sole discretion, all questions regarding the validity, form and eligibility, including time of receipt, of notices of withdrawal. Their determination of these questions as well as their interpretation of the terms and conditions of the exchange offer (including the letter of transmittal) will be final and binding on all parties. None of the Issuer and the guarantors, any of their respective affiliates or assigns, the exchange agent or any other person is under any obligation to give notice of any irregularities in any notice of withdrawal, nor will any of them be liable for failing to give any such notice.

Withdrawn old notes will be returned to the holder as promptly as practicable after withdrawal without cost to the holder. In the case of old notes tendered by book-entry transfer through DTC, the old notes withdrawn will be credited to an account maintained with DTC.

Table of Contents

Conditions to the Exchange Offer

Notwithstanding any other provision of the exchange offer, the Issuer is not required to accept for exchange, or to issue new notes in exchange for, any old notes, and the Issuer and the guarantors may terminate or amend the exchange offer, if at any time prior to the expiration date, the Issuer and the guarantors determine that the exchange offer violates applicable law, any applicable interpretation of the staff of the SEC or any order of any governmental agency or court of competent jurisdiction.

The foregoing conditions are for our sole benefit, and we may assert them regardless of the circumstances giving rise to any such condition, or we may waive the conditions, completely or partially, whenever or as many times as we choose, in our sole discretion. The foregoing rights are not deemed waived because we fail to exercise them, but continue in effect, and we may still assert them whenever or as many times as we choose. If we determine that a waiver of conditions materially changes the exchange offer, the prospectus will be amended or supplemented, and the exchange offer extended, if appropriate, as described under " Terms of the Exchange Offer."

In addition, at a time when any stop order is threatened or in effect with respect to the registration statement of which this prospectus constitutes a part or with respect to the qualification of the indenture under the Trust Indenture Act of 1939, as amended, we will not accept for exchange any old notes tendered, and no new notes will be issued in exchange for any such old notes.

If the Issuer and the guarantors are not permitted to consummate the exchange offer because the exchange offer is not permitted by applicable law, any applicable interpretation of the staff of the SEC or any order of any governmental agency or court of competent jurisdiction, the registration rights agreements require that the Issuer and the guarantors file a shelf registration statement to cover resales of the old notes by the holders thereof who satisfy specified conditions relating to the provision of information in connection with the shelf registration statement. See "Description of 2021 New Notes Registration Rights" and "Description of 2022 New Notes Registration Rights."

Exchange Agent

We have appointed Deutsche Bank Trust Company Americas as exchange agent for the exchange offer. You should direct questions and requests for assistance, requests for additional copies of this prospectus or of the letter of transmittal and requests for notices of guaranteed delivery to the exchange agent. Holders of old notes seeking to (1) tender old notes in the exchange offer should send certificates for old notes, letters of transmittal and any other required documents and/or (2) withdraw such tendered old notes should send such required documentation (in accordance with the procedures described under " Withdrawal Rights") to the exchange agent by hand-delivery, registered or certified first-class mail (return receipt requested), telex, telecopier or any courier guaranteeing overnight delivery, as follows:

If you deliver the letter of transmittal or any other required documents to an address or facsimile number other than as indicated above, your tender of old notes will be invalid.

Fees and Expenses

The registration rights agreements provide that the Issuer and the guarantors will bear all expenses in connection with the performance of their obligations relating to the registration of the new notes and the conduct of the exchange offer. These expenses include registration and filing fees, rating agency fees, fees and disbursements of the trustee under the indenture, accounting and legal fees and printing costs, among others. We will pay the exchange agent reasonable and customary fees for its services and reasonable out-of-pocket expenses. We will also reimburse brokerage houses and other custodians, nominees and fiduciaries for customary mailing and handling expenses incurred by them in forwarding this prospectus and related documents to their clients that are holders of old notes and for handling or tendering for those clients.

We have not retained any dealer-manager in connection with the exchange offer and will not pay any fee or commission to any broker, dealer, nominee or other person, other than the exchange agent, for soliciting tenders of old notes pursuant to the exchange offer.

Transfer Taxes

Holders who tender their old notes for exchange will not be obligated to pay any transfer taxes in connection with the exchange. If, however, new notes issued in the exchange offer are to be delivered to, or are to be issued in the name of, any person other than the holder of the old notes tendered, or if a transfer tax is imposed for any reason other than the exchange of old notes in connection with the exchange offer, then any such transfer taxes, whether imposed on the registered holder or on any other person, will be payable by the holder or such other person. If satisfactory evidence of payment of, or exemption from, such taxes is not submitted with the letter of transmittal, the amount of such transfer taxes will be billed directly to the tendering holder.

Accounting Treatment

The new notes will be recorded at the same carrying value as the old notes. Accordingly, we will not recognize any gain or loss for accounting purposes. We intend to amortize the expenses of the exchange offer and issuance of the old notes over the term of the new notes.

Consequences of Failure to Exchange Old Notes

Holders of the old notes do not have any appraisal or dissenters' rights in the exchange offer. Old notes that are not tendered or are tendered but not accepted will, following the consummation of the exchange offer, remain outstanding and continue to be subject to the provisions in the applicable indenture regarding the transfer and exchange of the old notes and the existing restrictions on transfer set forth in the legends on the old notes. In general, the old notes, unless registered under the Securities Act, may not be offered or sold except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. Following the consummation of the exchange offer, except in limited circumstances with respect to specific types of holders of old notes, the Issuer and the guarantors will have no further obligation to provide for the registration under the Securities Act of the old notes. See "Description of 2021 New Notes Registration Rights" and "Description of 2022 New Notes Registration Rights." We do not currently anticipate that we will take any action following the consummation of the exchange offer to register the old notes under the Securities Act or under any state securities laws.

DESCRIPTION OF OTHER INDEBTEDNESS

Credit Agreement

We are party to a credit agreement, dated as of October 18, 2013, by and among the Issuer, as the borrower, the Company, as a guarantor, the lenders party thereto and Bank of America, N.A., as administrative agent, collateral agent, issuing lender and swingline lender.

Prior to the increase in the revolving credit facility and the assumption of the incremental term loans discussed below, the credit agreement provided for senior secured credit facilities in an aggregate principal amount of \$2,600 million, including a \$300.0 million revolving credit facility, which has dollar and multi-currency tranches and a \$2,300 million term B-1 loan facility.

On October 1, 2014, we amended our Credit Agreement to, among other things, (1) permit the Bally acquisition and the transactions related thereto and (2) effective as of the closing of the Bally acquisition, (A) increase our revolving credit facility to \$567.6 million, (B) permit the Issuer to assume the term loans under the Escrow Credit Agreement referred to below as incremental term B-2 loans under the credit agreement and (C) modify the financial covenant contained in the credit agreement such that it will be tested each quarter, irrespective of usage of the revolving credit facility.

In addition, on October 1, 2014, SGMS Escrow Corp. entered into an escrow credit agreement by and among SGMS Escrow Corp., as borrower, the lenders party thereto and Bank of America, N.A., as administrative agent. The escrow credit agreement provided for \$2,000 million of term loans, the net proceeds of which provided a portion of the funds used to finance the Bally acquisition. Upon the consummation of the Bally acquisition, the term loans under the escrow credit agreement were assumed by the Issuer as incremental term B-2 loans under the credit agreement (and, from and after the Bally acquisition, the escrow credit agreement no longer applied to the term B-2 loans).

As of December 31, 2014, our total debt under the credit agreement was comprised of \$185.0 million of borrowings and approximately \$41.0 million in outstanding letters of credit under the revolving credit facility, \$2,277.0 million of outstanding term B-1 loans and \$2,000.0 million of outstanding term B-2 loans. As of December 31, 2014, we had approximately \$341.6 million available for additional borrowing or letter of credit issuances under the revolving credit facility. Our ability to borrow under the credit agreement will depend on us remaining in compliance with the covenants contained in the credit agreement, including maintenance of the financial ratios discussed below.

On February 11, 2015, the Issuer entered into a lender joinder agreement to the credit agreement with an additional commitment lender. Pursuant to the joinder agreement, the amount of the revolving credit facility under the credit agreement was increased by \$25.0 million to \$592.6 million. Up to \$350.0 million of the revolving credit facility is available for issuances of letters of credit.

The term B-1 loans incurred in 2013 under the credit agreement are scheduled to mature on October 18, 2020, the term B-2 loans under the credit agreement are scheduled to mature on October 1, 2021 and the revolving credit facility under the credit agreement is scheduled to mature on October 18, 2018 (subject to accelerated maturity depending on our liquidity at the time our 2018 notes, 2020 notes and 2021 notes become due).

The term B-1 loans and the term B-2 loans under the credit agreement amortize in equal quarterly installments in an amount equal to 1.00% per annum of the stated principal amount thereof, with the remaining balance due at final maturity.

Interest on the term B-1 loans and the term B-2 loans is payable under the credit agreement at a rate equal to the eurodollar (LIBOR) rate or the base rate, plus an applicable margin, in each case, subject to a eurodollar (LIBOR) rate floor of 1.00% or a base rate floor of 2.00%, as applicable. The applicable margin for the term B-1 loans and the term B-2 loans under the credit agreement is 5.00% per annum for eurodollar (LIBOR) loans and 4.00% per annum for base rate loans. The initial

Table of Contents

applicable margin on eurodollar (LIBOR) rate borrowings under the revolving credit facility under the credit agreement is 3.00% per annum and may be reduced by 0.25% or 0.50% based on step downs tied to our net first lien leverage ratio.

The Issuer is required to pay commitment fees to revolving lenders on the actual daily unused portion of the revolving commitments at a rate of 0.50% per annum through maturity, subject to a step down to 0.375% based upon the achievement of certain net first lien leverage ratios.

The obligations under the credit agreement are guaranteed by the Company and each of the Company's direct and indirect wholly owned domestic subsidiaries (other than the Issuer), subject to certain customary exceptions as set forth in the credit agreement. In addition, the obligations under the credit agreement are secured by a first priority lien on (1) substantially all the property and assets (real and personal, tangible and intangible) of the Issuer, the Company and the other guarantors and (2) 100% of the capital stock (or other equity interests) of all of the Company's direct and indirect wholly owned domestic subsidiaries and 65% of the capital stock (or other equity interests) of the direct foreign subsidiaries of the Issuer and the guarantors, in each case, subject to certain customary exceptions as set forth in the credit agreement.

The Issuer may voluntarily prepay all or any portion of outstanding amounts under the credit facilities at any time, in whole or in part, without premium or penalty, subject to (1) redeployment costs in the case of a prepayment of eurocurrency loans on a day that is not the last day of the relevant interest period and (2) a 1.00% prepayment premium on any prepaid term loans in connection with a repricing transaction occurring prior to November 21, 2015.

The credit agreement contains customary mandatory prepayment provisions, subject to certain exceptions and reinvestment rights. The credit agreement generally requires mandatory prepayments of the term loans with the net cash proceeds from (1) the incurrence of indebtedness by us (excluding certain permitted debt), (2) the sale of assets (excluding certain permitted dispositions) and (3) any settlement of or payment in respect of any property or casualty insurance claim or any condemnation proceeding relating to any of our assets above a certain threshold.

The credit agreement contains certain negative covenants that, among other things and subject to certain exceptions, restrict the Company's and its restricted subsidiaries' ability to incur additional debt or guarantees, grant liens on assets, make acquisitions or other investments, dispose of assets, prepay junior indebtedness or modify certain debt instruments, pay dividends or other payments on capital stock, consolidate or merge, enter into arrangements that restrict the ability to pay dividends, transfer assets or grant liens, enter into sale and leaseback transactions, enter into or consummate transactions with affiliates, or change fiscal year. The credit agreement contains customary events of default (subject to customary grace periods and materiality thresholds). Upon the occurrence of certain events of default, the obligations under the credit facilities may be accelerated and the commitments may be terminated.

Under the credit agreement, we are required to maintain a Consolidated Net First Lien Leverage Ratio (as defined below) as of the last day of each fiscal quarter of no more than the applicable ratio set forth below:

Closing of Bally acquisition through December 31, 2015	5.75:1.00
January 1, 2016 through December 31, 2016	5.50:1.00
January 1, 2017 and thereafter	5.00:1.00

"Consolidated Net First Lien Leverage Ratio" means, as of any date of determination, the ratio of (1) Consolidated Net First Lien Leverage (as defined below) on such date to (2) Consolidated EBITDA (as defined below) for the period of four consecutive fiscal quarters most recently ended on or prior to such day.

The Credit Agreement provides for additional refinancing flexibility in the form of (1) permitted bank debt or debt securities that may be unsecured or secured on a pari passu or junior basis with the collateral securing the obligations under the credit agreement and (2) replacement facilities under the credit agreement that can be used to refinance either the term loans or the revolving commitments under the credit agreement in whole. In addition, the Issuer will have the capability to request one or more additional tranches of term loans, increase the existing tranches of term loans, increase the revolving commitments and incur additional incremental indebtedness in the form of one or more series of debt securities in an aggregate amount equal to the sum of (1) \$350.0 million and (2) in the event our Consolidated Net First Lien Leverage Ratio is equal to or less than 3.25 to 1.00, an additional unlimited amount. The Issuer may also increase the revolving commitments by an amount equal to the difference between \$650.0 million and the aggregate commitments under the revolving credit facility as of the closing of the Bally acquisition.

For purposes of this section, references to the "Company" include only Scientific Games Corporation and not its subsidiaries and references to the "Issuer" include only Scientific Games International, Inc. and not its subsidiaries or its parent company, Scientific Games Corporation.

The 2021 old notes (as defined below) were, and the 2021 new notes (as defined below) will be, issued by the Issuer pursuant to an indenture, dated as of the Issue Date, by and among the Issuer, Scientific Games Corporation (the "Company"), the direct and indirect Wholly Owned Domestic Restricted Subsidiaries of the Company (other than the Issuer and certain Immaterial Subsidiaries) (together with the Company, the "guarantors") and Deutsche Bank Trust Company Americas, as trustee. On June 4, 2014, the Issuer issued and sold \$350.0 million of 6.625% senior subordinated notes due 2021, or the 2021 old notes. Following the exchange offer, the 2021 new notes will trade as a single class of notes with the 2021 old notes. Unless indicated otherwise, the 2021 old notes and the 2021 new notes are collectively referred to in this "Description of 2021 New Notes" as the "notes" and the indenture governing the notes is referred to in this "Description of 2021 New Notes" as the "indenture." The form and terms of the 2021 new notes will be identical in all material respects to the form and term of the 2021 old notes, except that the terms of the 2021 new notes:

include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended (the "TIA");

will be registered under the Securities Act;

will not be subject to restrictions on transfer under the Securities Act;

will not be entitled to the registration rights that apply to the 2021 old notes; and

will not be subject to any increase in annual interest rate as described below under "Description of 2021 New Notes Registration Rights."

The following summary of certain provisions of the indenture and the 2021 registration rights agreement is not complete and is qualified in its entirety by reference to the TIA, the indenture and the 2021 registration rights agreement. We urge you to read the indenture, the notes and the 2021 registration rights agreement because they, and not this description, define your rights as holders of the notes. You may request copies of these agreements at the Company's address set forth in the forepart of this prospectus. See "Where You Can Find More Information" and "Incorporation of Certain Documents by Reference."

are guaranteed on a senior subordinated basis by each guarantor.

Table of Contents**Principal, Maturity and Interest**

The Issuer issued the 2021 old notes in an initial aggregate principal amount of \$350.0 million. The 2021 old notes were issued in minimum denominations of \$2,000 and any greater integral multiple of \$1,000. The notes will mature on May 15, 2021. Interest on the notes will accrue at the rate of 6.625% per annum and will be payable semi-annually in cash on May 15 and November 15 of each year, with an initial interest payment on November 15, 2014. The Issuer will make each interest payment to the persons who are registered holders of notes at the close of business on the immediately preceding May 1 and November 1. Interest on the notes will accrue from the most recent date to which interest has been paid or, if no interest has been paid, from the date of issuance. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Initially, the trustee will act as paying agent and registrar for the notes. The Issuer may change any paying agent or registrar without notice to the holders of the notes. The Issuer will pay principal and premium, if any, on the notes at the trustee's corporate trust office in New York, New York. At the Issuer's option, interest may be paid at the trustee's corporate trust office in New York, New York or by check mailed to the registered address of holders of the notes.

Indenture May Be Used for Future Issuances

Subject to compliance with the covenant described under the subheading "Covenants Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock," the Issuer may issue more notes under the indenture on the same terms and conditions as the notes, except for issue date and issue price, in an unlimited aggregate principal amount (the "Additional Notes"). To the extent required by applicable tax regulations, Additional Notes may not trade fungibly with other notes for U.S. federal income tax purposes and may trade under a separate CUSIP number. The notes and the Additional Notes, if any, will be treated as a single class for all purposes of the indenture, including waivers, amendments, redemptions and offers to purchase. Unless the context otherwise requires, for all purposes of the indenture and this "Description of 2021 New Notes," references to the notes include any Additional Notes actually issued.

Redemption

Optional Redemption. On and after May 15, 2017, the Issuer will be entitled, at its option on one or more occasions, to redeem all or any portion of the notes at the following redemption prices (expressed as percentages of the principal amount thereof) if redeemed during the 12-month period commencing on May 15 of the years set forth below, plus, in each case, accrued and unpaid interest to, but not including, the date of redemption subject to the rights of holders of notes on the relevant record dates occurring prior to the redemption date to receive interest due on the relevant interest payment date:

Period	Percentage
2017	104.969%
2018	103.313%
2019	101.656%
2020 and thereafter	100.000%

Optional Redemption Upon Equity Offering. Prior to May 15, 2017, the Issuer may, at its option on one or more occasions, redeem up to 35% of the initially outstanding aggregate principal amount of the notes (which includes Additional Notes, if any) so long as such aggregate principal amount does not exceed the amount of net cash proceeds received by, or contributed to the capital of, the Company from one or more Equity Offerings, at a redemption price equal to 106.625% of the principal amount thereof, plus accrued and unpaid interest to, but not including, the date of redemption subject to the

Table of Contents

rights of holders of notes on the relevant record dates occurring prior to the redemption date to receive interest due on the relevant interest payment date; *provided, however*, that:

- (1) at least 65% of the initially outstanding aggregate principal amount of notes (which includes Additional Notes, if any) remains outstanding immediately after any such redemption; and
- (2) each such redemption occurs within 120 days after the date of the related Equity Offering(s).

Redemption at Make-Whole Premium. At any time prior to May 15, 2017, the Issuer may redeem all or any portion of the notes on one or more occasions at a redemption price equal to 100% of the principal amount of notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to, the date of redemption subject to the rights of holders of the notes on the relevant record dates occurring prior to the redemption date to receive interest due on the relevant interest payment date.

Regulatory Redemption. If at any time any holder or beneficial owner of notes is determined to be or otherwise is or becomes a Disqualified Holder, then the Issuer will have the right, at its option:

- (1) to require such holder or beneficial owner to dispose of all or any portion of its notes within 60 days (or such earlier date as may be required by the applicable Gaming Authority) of receipt of the relevant notice of finding by the applicable Gaming Authority, or
- (2) to redeem all or any portion of the notes of such holder or beneficial owner upon not less than 30 nor more than 60 days' notice at a redemption price equal to the lesser of:
 - (a) the principal amount thereof, and
 - (b) the price at which such holder or beneficial owner acquired the notes,

together with, in the case of either clause (a) or (b), accrued and unpaid interest to the earlier of (A) the date of redemption and (B) the date of the denial of license or qualification or of the finding of unsuitability by such Gaming Authority (or the date such holder or beneficial owner otherwise becomes a Disqualified Holder) (subject to the rights of holders of the notes on the relevant record dates occurring prior to such redemption date to receive interest due on the relevant interest payment date); *provided, however*, that if such Gaming Authority restricts the redemption price to a lesser amount, then such lesser amount will be the redemption price.

Immediately upon a determination by a Gaming Authority that a holder or beneficial owner of notes (or an Affiliate thereof) will not be licensed, qualified or found suitable or is denied a license, qualification or finding of suitability or otherwise becomes a Disqualified Holder, the holder or beneficial owner will, to the extent required by applicable Gaming Laws, have no further rights with respect to the notes to:

- (1) exercise, directly or indirectly, through any person, any right conferred by the notes; or
- (2) receive any interest or any other distribution or payment with respect to the notes, except the redemption price.

The Issuer will notify the trustee in writing of any such redemption as soon as practicable. The holder or beneficial owner (or an Affiliate thereof) applying for a license, qualification or a finding of suitability must pay all costs of the licensure or investigation for such qualification or finding of suitability.

Mandatory Redemption. The Issuer is not required to make mandatory redemption or sinking fund payments with respect to the notes.

Table of Contents

Selection and Notice

In the event that less than all of the notes are to be redeemed at any time (other than in the case of a regulatory redemption), the trustee will select the notes or portions thereof to be redeemed among the holders of the notes as follows:

- (1) if the notes are listed, in compliance with any applicable requirements of the principal national securities exchange on which the notes are listed; or
- (2) if the notes are not so listed, on a *pro rata* basis, by lot or by any other method the trustee considers fair and appropriate, unless otherwise required by law or applicable depositary requirements.

The Issuer will redeem notes of \$2,000 or less in whole and not in part. Notes in a principal amount in excess of \$2,000 may be redeemed in part in multiples of \$1,000 only. Notice of redemption will be delivered electronically in pdf format or sent, by first class mail, postage prepaid, at least 30 days and not more than 60 days before the redemption date to each holder of notes to be redeemed at its registered address, except that redemption notices may be delivered electronically in pdf format or mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the notes or a satisfaction and discharge of the indenture.

If any note is to be redeemed in part only, the notice of redemption that relates to such note will state the portion of the principal amount of the note to be redeemed. A new note in principal amount equal to the unredeemed portion of the note will be issued in the name of the holder thereof upon cancellation of the original note. On and after any redemption date, interest will cease to accrue on the notes or parts thereof called for redemption as long as the Issuer has deposited with the paying agent funds in satisfaction of the redemption price pursuant to the indenture.

In connection with any redemption of notes (including in any redemption described under " Optional Redemption"), any such redemption may, at the Issuer's discretion, be subject to one or more conditions precedent, including any related Equity Offering or a Change of Control. In addition, if such redemption or notice is subject to satisfaction of one or more conditions precedent, such notice shall state that, in the Issuer's discretion, the redemption date may be delayed until such time as any or all such conditions shall be satisfied or waived, or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied or waived by the redemption date, or by the redemption date so delayed.

Ranking

Senior Indebtedness versus Notes

The payment of the principal of, premium, if any, and interest on the notes and the payment of any guarantee of the notes will be subordinated in right of payment to the prior payment in full of all Senior Debt of the Issuer or the relevant guarantor, as the case may be, including the obligations of the Issuer and such guarantor under the Credit Agreement and the secured notes.

As of December 31, 2014, the Senior Debt of the Issuer and the guarantors totaled approximately \$7,844.9 million, including (1) approximately \$5,412.0 million of secured Senior Debt (which excludes approximately \$41.0 million of outstanding letters of credit) under the Credit Agreement and the secured notes, (2) \$2,200 million in aggregate principal amount of the 2022 old notes and (3) approximately \$197.6 million of outstanding surety bonds and \$35.3 million of capital lease obligations, and the Issuer had approximately \$341.6 million of additional availability under the Credit Agreement that the Company and the guarantors would guarantee (all of which would be secured).

Table of Contents

Although the indenture contains limitations on the amount of additional Indebtedness that the Issuer and the guarantors may incur, under certain circumstances the amount of such Indebtedness could be substantial and, in any case, such Indebtedness may be Senior Debt. See " Covenants Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock." Additionally, all of the existing Senior Debt, other than the 2022 old notes and outstanding surety bonds and capital lease obligations, of the Issuer and the guarantors is currently secured by Liens and, as a result, the notes and the guarantees are also effectively subordinated to such Indebtedness to the extent of the value of the assets pledge to secure such Indebtedness.

Liabilities of Subsidiaries versus Notes

Substantially all of the Company's operations are conducted through its subsidiaries. The Company and its direct and indirect Wholly Owned Domestic Restricted Subsidiaries (other than the Issuer and certain Immaterial Subsidiaries) will initially guarantee the notes and the indenture, and the guarantees of such subsidiaries may be released, as described below under " Guarantees." Claims of creditors of the Company's non-guarantor subsidiaries, including trade creditors and creditors holding indebtedness or guarantees issued by such non-guarantor subsidiaries, and claims of preferred stockholders of such non-guarantor subsidiaries generally will have priority with respect to the assets and earnings of the non-guarantor subsidiaries over the claims of the Issuer's creditors, including holders of the notes, even if such claims do not constitute Senior Debt. Accordingly, the notes will be structurally subordinated to creditors (including trade creditors) and preferred stockholders, if any, of the non-guarantor subsidiaries.

As of December 31, 2014, the Company's non-guarantor subsidiaries had outstanding total third-party liabilities of approximately \$270.8 million, including trade payables, and no preferred shares.

Although the indenture limits the incurrence of Indebtedness and preferred stock of certain of the Company's subsidiaries, such limitation is subject to a number of significant qualifications. Moreover, the indenture does not impose any limitation on the incurrence by such subsidiaries of liabilities that are not considered Indebtedness under the indenture. See " Covenants Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock."

Other Senior Subordinated Indebtedness versus Notes

Only Indebtedness of the Issuer or a guarantor that is Senior Debt ranks senior in right of payment to the notes or the relevant guarantee in accordance with the provisions of the indenture. The notes and the guarantees will in all respects rank *pari passu* in right of payment with all other senior subordinated indebtedness of the Issuer or the relevant guarantor, as the case may be, including the Existing Senior Subordinated Notes and the guarantees thereof.

As of December 31, 2014, the Issuer and the guarantors had \$550.0 million of outstanding senior subordinated indebtedness that ranks equally in right of payment with the notes and the guarantees, all of which was issued or guaranteed, as applicable, on a senior subordinated basis by the Issuer and the guarantors of the notes.

The Issuer and the guarantors agreed in the indenture that they will not incur any Indebtedness that is subordinate or junior in right of payment to the Issuer's Senior Debt or the Senior Debt of such guarantor, as applicable, unless such Indebtedness is senior subordinated indebtedness of the Issuer or the guarantors, as applicable, or is expressly subordinated in right of payment to senior subordinated indebtedness of the Issuer or the guarantors, as applicable. The indenture does not treat (1) unsecured Indebtedness as subordinated or junior in right of payment to secured Indebtedness merely because it is unsecured or (2) Senior Debt as subordinated or junior in right of payment to any other Senior Debt merely because it has a junior priority with respect to the same collateral.

Table of Contents

Payment of Notes

We may not make any payments (or make any deposit pursuant to the provisions described under " Defeasance") on the notes (except that holders of notes may receive and retain payments made from the trust described under " Defeasance") if:

- (1) a default in the payment of the principal of or premium, if any, or interest on Designated Senior Debt occurs and is continuing beyond any applicable grace period; or
- (2) any other default occurs and is continuing with respect to Designated Senior Debt that permits holders of the Designated Senior Debt to which such default relates to accelerate its maturity and the trustee receives a payment blockage notice of such other default from (A) the holders of any Designated Senior Debt (with a copy to the Issuer) or (B) directly from the Issuer.

Payments on the notes will be resumed

- (1) in the case of a payment default, upon the date on which such default is cured, waived or ceases to exist; and
- (2) in case of a nonpayment default, the earlier of the date on which such nonpayment default is cured, waived or ceases to exist and the date that is 179 days after the date on which the applicable notice is received by the trustee, unless the maturity of any Designated Senior Debt has been accelerated. No new period of payment blockage may be commenced unless and until 360 days have elapsed since the date of receipt by the trustee of the payment blockage notice.

No nonpayment default that existed or was continuing on the date of delivery of any payment blockage notice to the trustee shall be, or be made, the basis for a subsequent payment blockage notice.

Upon any payment or distribution of the assets of the Issuer upon a total or partial liquidation or dissolution or reorganization of or similar proceeding relating to the Issuer or its property:

- (1) the holders of Senior Debt of the Issuer will be entitled to receive payment in full in cash of such Senior Debt before the holders of the notes are entitled to receive any payment;
- (2) until the Senior Debt of the Issuer is paid in full in cash, any payment or distribution to which holders of the notes would be entitled but for the subordination provisions of the indenture will be made to holders of such Senior Debt as their interests may appear, except that holders of notes may receive and retain Permitted Junior Securities and payments made from the trust described under " Defeasance;" and
- (3) if a distribution is made to holders of the notes, that, due to the subordination provisions, should not have been made to them, such holders of the notes are required to hold it in trust for the holders of Senior Debt of the Issuer and pay it over to them as their interests may appear.

The subordination and payment blockage provisions described above will not prevent a default from occurring under the indenture upon the failure of the Issuer to pay interest or principal with respect to the notes when due by their terms. If payment of the notes is accelerated because of an Event of Default, the Issuer or the trustee must promptly notify the holders of Designated Senior Debt of the Issuer or the representative of such Designated Senior Debt of the acceleration.

A guarantor's obligations under its guarantee are senior subordinated obligations. As such, the rights of holders of notes to receive payment by a guarantor pursuant to its guarantee will be subordinated in right of payment to the rights of holders of Senior Debt of such guarantor. The terms of the subordination and payment blockage provisions described above with respect to the Issuer's obligations under the notes apply equally to a guarantor and the obligations of such guarantor under its guarantee.

Table of Contents

As a result of the subordination provisions described above, in the event of a liquidation or insolvency proceeding, creditors of the Issuer or a guarantor who are holders of Senior Debt of the Issuer or a guarantor, as the case may be, may recover more, ratably, than the holders of the notes, and creditors of ours who are not holders of Senior Debt may recover less, ratably, than holders of Senior Debt and may recover more, ratably, than the holders of the notes.

The terms of the subordination provisions described above will not apply to payments from money or the proceeds of U.S. Government Obligations held in trust by the trustee for the payment of principal of and interest on the notes pursuant to the provisions described under " Defeasance."

Guarantees

The guarantors jointly and severally guaranteed, on a senior subordinated basis, the Issuer's performance of its obligations under the notes and the indenture, including the payment of principal with respect to the notes. The guarantors currently consist of the Company and all of the Company's direct and indirect Wholly Owned Domestic Restricted Subsidiaries (other than the Issuer and certain Immaterial Subsidiaries).

The guarantees are subordinated in right of payment to Senior Debt of the relevant guarantor on the same basis as the notes are subordinated in right of payment to Senior Debt of the Issuer. The obligations of each guarantor (other than the obligations of the Company under its guarantee) are limited as necessary to prevent such guarantee from constituting a fraudulent conveyance or fraudulent transfer under federal or state law. Each guarantor (other than the Company) that makes a payment or distribution under a guarantee will be entitled to a contribution from each other guarantor in an amount *pro rata*, based on the net assets of each guarantor (other than the Company), determined in accordance with GAAP.

Each guarantor may consolidate with or merge into or sell its assets to the Company, the Issuer or another Restricted Subsidiary of the Company without limitation, or with other persons upon the terms and conditions set forth in the indenture. See " Covenants Merger, Consolidation and Sale of Assets." In the event the Capital Stock of a guarantor (other than the Company) is sold or otherwise disposed of, by merger or otherwise, by the Company or any of its subsidiaries to any person that is not a guarantor, or as a result of such sale or disposition the applicable guarantor is no longer a Restricted Subsidiary, and the sale or disposition is not in violation of the provisions set forth in " Covenants Limitation on Asset Sales," such guarantor's guarantee will be released and such guarantor shall be relieved of all of its obligations and duties under the indenture and the notes. A guarantor's guarantee (other than the guarantee by the Company) will also be released and such guarantor will also be released from all obligations and duties under the indenture and the notes as described below under " Covenants Limitation on Guarantees by Restricted Subsidiaries."

Registration Rights

The Issuer, the Company and the other guarantors entered into the 2021 registration rights agreement with Merrill Lynch, Pierce, Fenner & Smith Incorporated, as representative of the initial purchasers of the 2021 old notes, on the Issue Date. In that agreement, the Issuer and the guarantors agreed for the benefit of the holders of the 2021 old notes that they will use their commercially reasonable efforts to file with the SEC and to cause to become effective, a registration statement relating to an offer to exchange the 2021 old notes for an issue of SEC-registered notes (the "2021 new notes") with terms identical to the 2021 old notes (except that the 2021 new notes will not be subject to restrictions on transfer or to any increase in annual interest rate as described below).

Promptly after the SEC declares the exchange offer registration statement effective, the Issuer will offer the 2021 new notes in return for the 2021 old notes. The exchange offer will remain open for at least 20 business days after the date the Issuer mails notice of the exchange offer to holders. For each

Table of Contents

2021 old note surrendered to the Issuer under the exchange offer, the holder will receive a new note of equal principal amount. Interest on each 2021 new note will accrue from the last interest payment date on which interest was paid on the notes or, if no interest has been paid on the notes, from the Issue Date. If applicable interpretations of the staff of the SEC do not permit the Issuer to effect the exchange offer, the Issuer will use its commercially reasonable efforts to cause to become effective a shelf registration statement relating to resales of the notes and to keep that shelf registration statement effective until the first anniversary of the date such shelf registration statement becomes effective, or such shorter period that will terminate when all notes covered by the shelf registration statement have been sold. The Issuer will, in the event of such a shelf registration, provide to each holder copies of a prospectus, notify each holder when the shelf registration statement has become effective and take certain other actions to permit resales of the notes. A holder that sells notes under the shelf registration statement generally will be required to be named as a selling security holder in the related prospectus and to deliver a prospectus to purchasers, will be subject to certain of the civil liability provisions under the Securities Act in connection with those sales and will be bound by the provisions of the 2021 registration rights agreement that are applicable to such a holder (including certain indemnification obligations). The obligation to complete the exchange offer and/or file a shelf registration statement will terminate on the second anniversary of the date of the 2021 registration rights agreement.

If the exchange offer is not completed (or, if required, the shelf registration statement is not declared effective) on or before the date that is 365 days after the Issue Date (*provided* that, if the Company determines in good faith that it is in possession of material non-public information, it may extend either such date by up to 90 additional days under customary "blackout" provisions), the annual interest rate borne by the notes will be increased by 0.25% per annum for the first 90-day period immediately following such date and by an additional 0.25% per annum with respect to each subsequent 90-day period, up to a maximum additional rate of 1.0% per annum thereafter until the exchange offer is completed, the shelf registration statement is declared effective or the obligation to complete the exchange offer and/or file the shelf registration statement terminates, as applicable, at which time the interest rate will revert to the original interest rate on the Issue Date.

If the Issuer effects the exchange offer, it will be entitled to close the exchange offer 20 business days after its commencement; *provided* that the Issuer has accepted all 2021 old notes validly surrendered in accordance with the terms of the exchange offer. 2021 old notes not tendered in the exchange offer will bear interest at the rate set forth on the cover page of this prospectus and will be subject to all the terms and conditions specified in the indenture, including transfer restrictions.

Change of Control

Upon the occurrence of a Change of Control Repurchase Event, each holder will have the right to require that the Issuer repurchase all or a portion (in integral multiples of \$1,000; *provided* that the Issuer will repurchase notes of \$2,000 or less in whole and not in part) of such holder's notes, at a purchase price equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the date of repurchase.

Prior to the mailing of the notice described in the next paragraph below, but in any event within 60 days following any Change of Control Repurchase Event, the Company and the Issuer covenant to

- (a) repay in full all Indebtedness under, and terminate all commitments under, the Credit Agreement and all other Senior Debt the terms of which require repayment upon a Change of Control Repurchase Event or offer to repay in full all Indebtedness under, and terminate all commitments under, the Credit Agreement and all other such Senior Debt and to repay the Indebtedness owed to each lender which has accepted such offer, or

Table of Contents

(b) obtain the requisite consents under the Credit Agreement and all such other Senior Debt to permit the purchase of the notes as provided below.

The Company and the Issuer shall first comply with the covenant in the immediately preceding sentence before the Issuer shall be required to repurchase notes pursuant to the provisions described below. The Company's or the Issuer's failure to comply with this covenant shall constitute an Event of Default described in clause (3) and not in clause (2) under "Events of Default" below.

Within 30 days following the date upon which the Change of Control Repurchase Event occurred, the Issuer will send, electronically or by first class mail, a notice to each holder, with a copy to the trustee, offering to purchase the notes as described above (the "Change of Control Offer"). The notice will state, among other things, the payment date, which must be no earlier than 30 days nor later than 60 days from the date such notice is mailed (other than as may be required by law).

The Issuer will not be required to make a Change of Control Offer upon a Change of Control Repurchase Event if (a) a third party makes the Change of Control Offer in the manner, at the time and otherwise in compliance with the requirements set forth in the indenture applicable to a Change of Control Offer made by the Issuer and purchases all notes properly tendered and not withdrawn under the Change of Control Offer or (b) a notice of redemption relating to the redemption of all of the notes has been given pursuant to the indenture as described above under the caption " Optional Redemption" and, in the event that such redemption is subject to one or more conditions precedent, such conditions have been satisfied or waived. Notwithstanding anything to the contrary contained in the indenture, a Change of Control Offer may be made in advance of a Change of Control Repurchase Event, conditioned upon the consummation of such Change of Control Repurchase Event, if a definitive agreement is in place for the Change of Control at the time the Change of Control Offer is made. The closing date of any such Change of Control Offer made in advance of a Change of Control Repurchase Event may be changed to conform to the actual closing date of the Change of Control Repurchase Event, *provided* that such closing date is not earlier than 30 days nor later than 60 days from the date the Change of Control Offer notice is mailed as described in the paragraph above. Additionally, the Company may, at its option, include in any Change of Control Offer an early tender payment, early consent payment or consent payment, so long as any such payment is in addition to the purchase price set forth in the initial paragraph of this section.

If holders of not less than 90% in aggregate principal amount of the outstanding notes validly tender and do not withdraw such notes in a Change of Control Offer and the Issuer, or any third party making a Change of Control Offer in lieu of the Issuer as described above, purchases all of the notes validly tendered and not withdrawn by such holders, the Issuer or such third party will have the right, upon not less than 30 days nor more than 60 days' prior notice, given not more than 30 days following such purchase pursuant to the Change of Control Offer described above, to redeem all notes that remain outstanding following such purchase at a price in cash equal to 101% of the principal amount thereof, plus accrued and unpaid interest to, but not including, the date of redemption.

The occurrence of a Change of Control or a Change of Control Repurchase Event may constitute a default under the Credit Agreement and any other Credit Facility we may enter into from time to time. Our future Senior Debt may contain prohibitions of certain events that would constitute a Change of Control or a Change of Control Repurchase Event or require such Senior Debt to be repurchased or repaid upon a Change of Control or a Change of Control Repurchase Event. Moreover, the exercise by the holders of their right to require the Issuer to purchase the notes could cause a default under such Senior Debt, even if the Change of Control or the Change of Control Repurchase Event itself does not, due to the financial effect of such repurchase on the Issuer. Finally, the Issuer's ability to pay cash to the holders upon a purchase may be limited by the Issuer's then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make required purchases. The provisions under the indenture relative to the Issuer's obligation to make an

Table of Contents

offer to purchase the notes as a result of a Change of Control Repurchase Event may be waived or modified prior to the occurrence of a Change of Control Repurchase Event with the written consent of the holders of a majority in principal amount of the notes.

The Company and the Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with the repurchase of notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the "Change of Control" provisions of the indenture, the Company and the Issuer shall comply with the applicable securities laws and regulations and shall not be deemed to have breached their obligations under the "Change of Control" provisions of the indenture by virtue thereof.

Covenants

Set forth below are summaries of certain covenants that will be contained in the indenture.

Suspension of Covenants on Achievement of Investment Grade Status

Following the first day that:

- (a) the notes have achieved Investment Grade Status; and
- (b) no Default or Event of Default has occurred and is continuing under the indenture,

then, beginning on that day and continuing until the Reversion Date (as defined below), the Company and its Restricted Subsidiaries will not be subject to the provisions of the indenture summarized under the following headings (collectively, the "Suspended Covenants"):

- " Limitation on Restricted Payments,"
 - " Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock,"
 - " Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries,"
 - " Limitation on Transactions with Affiliates,"
 - " Limitation on Asset Sales,"
 - " Limitation on Guarantees by Restricted Subsidiaries," and
- the provisions of clause (2) of the first paragraph of " Merger, Consolidation and Sale of Assets."

If at any time (a)(i) the notes cease to have such Investment Grade Status and/or (ii) the Issuer or any of its Affiliates enters into an agreement to effect a transaction and one or more of the Rating Agencies indicate that if consummated, that transaction (alone or together with any related recapitalization or refinancing transactions) would cause that Rating Agency to withdraw its Investment Grade Status for such notes or downgrade the ratings assigned to such notes below an Investment Grade Status or (b) if a Default or Event of Default occurs and is continuing, then the Suspended Covenants will thereafter be reinstated under the indenture as if such covenants had never been suspended (the "Reversion Date") and be applicable pursuant to the terms of the indenture (including in connection with performing any calculation or assessment to determine compliance with the terms of the indenture), unless and until the notes subsequently attain Investment Grade Status and no Default or Event of Default is in existence (in which event the Suspended Covenants shall no longer be in effect for such time that the notes maintain an Investment Grade Status and no Default or Event of Default is in existence); *provided, however*, that no Default, Event of Default or

breach of any kind shall be deemed to exist under the indenture, the notes or the guarantees with respect to the Suspended Covenants based on, and none of the Issuers or any of their Subsidiaries shall bear any

liability for, any actions taken or events occurring during the Suspension Period (as defined below), or any actions taken at any time pursuant to any contractual obligation arising prior to the Reversion Date, regardless of whether such actions or events would have been permitted if the applicable Suspended Covenants remained in effect during such period. The period of time between the date of suspension of the covenants and the Reversion Date is referred to as the "*Suspension Period*."

On the applicable Reversion Date (i) all Indebtedness Incurred or Preferred Stock issued during such Suspension Period will be classified to have been incurred or issued pursuant to clause (3) of the definition of "Permitted Indebtedness," (ii) after any Reversion Date calculations of the amount available to be made as Restricted Payments under the caption " Limitation on Restricted Payments" will be calculated as though the covenant described under the caption " Limitation on Restricted Payments" had been in effect since the Issue Date and throughout the Suspension Period, (iii) any Affiliate Transaction entered into after the applicable Reversion Date pursuant to an agreement entered into during such Suspension Period shall be deemed to be permitted pursuant to clause (5) of the second paragraph under the caption of " Limitation on Transactions with Affiliates," and (iv) purposes of the covenant described under " Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries," all contracts entered into during the Suspension Period prior to such Reversion Date that contain any of the restrictions contemplated by such covenant will be deemed to have been entered pursuant to clause (2) of the second paragraph of " Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries." No Subsidiary may be designated as an Unrestricted Subsidiary during the Suspension Period, unless such designation would have complied with the covenant described under " Limitation on Restricted Payments" as if such covenant were in effect during such period. In addition, during the Suspension Period, the obligation to grant further guarantees will be suspended. Upon the Reversion Date, the obligation to grant guarantees will be reinstated.

The Company shall provide an Officer's Certificate to the trustee indicating the commencement of any Suspension Period or the Reversion Date. The trustee will have no obligation to (i) independently determine or verify if such events have occurred, (ii) make any determination regarding the impact of actions taken during the Suspension Period on the Company and its Restricted Subsidiaries' future compliance with their covenants or (iii) notify the holders of the commencement of the Suspension Period or the Reversion Date.

There can be no assurance that the notes will ever achieve or maintain Investment Grade Status.

extent such expenditure is in the form of cash) pursuant to clauses (1), (2)(b) and (7) of this paragraph will be included in such calculation.

Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock

The Company will not, and will not permit any of its Restricted Subsidiaries to, incur any Indebtedness other than Permitted Indebtedness and will not permit any of its Restricted Subsidiaries to issue any Preferred Stock other than Permitted Indebtedness; *provided, however*, that if no Default or Event of Default shall have occurred and be continuing at the time or as a consequence of the incurrence of any such Indebtedness, the Company or any Restricted Subsidiary may incur Indebtedness and any of the Restricted Subsidiaries may issue Preferred Stock if, on the date of the incurrence of such Indebtedness or issuance of such Preferred Stock, after giving effect to the incurrence or issuance thereof, the Consolidated Fixed Charge Coverage Ratio of the Company is equal to or greater than 2.0 to 1.0.

For purposes of determining compliance with this "Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock" covenant, in the event that an item of Indebtedness or Preferred Stock meets the criteria of more than one of the categories of Permitted Indebtedness described in the definition of "Permitted Indebtedness," or is entitled to be incurred or issued, as the case may be, pursuant to the first paragraph of this covenant, the Company, in its sole discretion, will be permitted to classify such item of Indebtedness or Preferred Stock on the date of its incurrence or issuance, as the case may be, in any manner that complies with this covenant, or later divide, classify or reclassify (based on circumstances existing at the time of such division, classification or reclassification) all or a portion of such item of Indebtedness or Preferred Stock in any manner that complies with this covenant and such item of Indebtedness or Preferred Stock (or portion thereof, as applicable) will be treated as having been incurred or issued, as the case may be, pursuant to only such clause or clauses or the first paragraph of this covenant. Indebtedness under the Credit Agreement outstanding on the date on which notes are first issued and authenticated under the indenture will initially be deemed to have been incurred on such date in reliance on the exception provided by clause (2) of the definition of Permitted Indebtedness.

Neither the Issuer nor any guarantor will, directly or indirectly, in any event incur any Indebtedness that, by its terms or by the terms of any agreement governing such Indebtedness, is both subordinated pursuant to its terms in right of payment to any other Indebtedness of the Issuer or such guarantor, as the case may be, and senior in right of payment to the notes or any such guarantor's guarantee, as the case may be.

Limitation on Transactions with Affiliates

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, enter into or permit to exist any transaction or series of related transactions with any of its Affiliates (an "Affiliate Transaction") involving aggregate consideration in excess of \$10.0 million, other than

(x) Affiliate Transactions permitted under the next paragraph, and

(y) Affiliate Transactions on terms that are not materially less favorable to the Company or such Restricted Subsidiary than those that might reasonably have been obtained in a comparable transaction at such time on an arm's-length basis from a person that is not an Affiliate;

provided, however, that for a transaction or series of related transactions with an aggregate value exceeding the greater of \$40.0 million and 1% of the Company's Total Assets, such determination shall be made in good faith by a majority of the disinterested members of the board of the directors of the

Table of Contents

Company; and *provided, further*, that for a transaction or series of related transactions with an aggregate value of \$75.0 million or more,

(1) such determination shall be made in good faith by a majority of the disinterested members of the board of directors of the Company, and

(2) the board of directors of the Company shall have received an opinion from an independent nationally recognized investment banking, accounting or valuation firm, selected by the Company, that such transaction or series of related transactions is on terms that are fair, from a financial point of view, to the Company or such Restricted Subsidiary.

The foregoing restrictions will not apply to:

(1) reasonable fees and compensation paid or advanced to, and indemnity provided to or on behalf of, officers, directors, employees or consultants of the Company or any subsidiary as determined in good faith by the Company's board of directors or senior management;

(2) transactions between or among the Company and any of its Restricted Subsidiaries;

(3) any agreement as in effect as of the Issue Date or any amendment thereto or any transaction contemplated thereby (including pursuant to any amendment thereto) or by any replacement agreement thereto so long as any such amendment or replacement agreement is not more disadvantageous to the holders generally in any material respect than the original agreement as in effect on the Issue Date as determined in good faith by the Company;

(4) Permitted Investments and Restricted Payments permitted by the indenture;

(5) commercially reasonable transactions between the Company or a Restricted Subsidiary and any joint venture in the ordinary course of business that have been determined by the board of directors or senior management of the Company to comply with clause (y) of the first paragraph above;

(6) transactions with a person (other than an Unrestricted Subsidiary of the Company) that is an Affiliate of the Company solely because the Company owns, directly or through a Restricted Subsidiary, an equity interest in, or controls, such person; *provided* that no Affiliate of the Company or any of its Restricted Subsidiaries other than the Company or a Restricted Subsidiary shall have a beneficial interest or otherwise participate in such Person;

(7) transactions in which the only consideration paid by the Company or its Restricted Subsidiaries consists of Qualified Capital Stock of the Company or any capital contribution otherwise permitted by the indenture;

(8) payments or loans (or cancellations of loans) to officers, managers, directors, consultants and employees of the Company, any of its direct or indirect parent companies or any Restricted Subsidiary and employment agreements, stock option plans and other compensatory or benefit arrangements with such officers, managers, directors, consultants and employees that are, in each case, approved by the Company in good faith;

(9) transactions in which the Company or any Restricted Subsidiary, as the case may be, delivers to the trustee a letter from a nationally recognized investment banking, accounting or valuation firm selected by the Company stating that such transaction is fair to the Company or such Restricted Subsidiary from a financial point of view or meets the requirements of clause (y) of the first paragraph of this covenant;

(10) transactions with customers, clients, suppliers, or purchasers or sellers of goods or services, in each case in the ordinary course of business and otherwise in compliance with the terms of the indenture that are fair to the Company and the Restricted Subsidiaries, in the good

faith determination of the Board of Directors or the senior management of the Company, or are on terms at least as favorable as might reasonably have been obtained at such time from an unaffiliated party;

(11) investments by an Affiliate in securities of the Company or any of its Restricted Subsidiaries so long as the investment is being offered generally to other investors on the same or more favorable terms;

(12) transactions between the Company or any Restricted Subsidiary and any person that is an Affiliate of the Company or any Restricted Subsidiary solely because a director of such Person is also a director of the Company or any direct or indirect parent entity of the Company; *provided* that such director abstains from voting as a director of the Company or any direct or indirect parent entity of the Company, as the case may be, on any matter involving such other Person;

(13) pledges of Capital Stock of any Unrestricted Subsidiary;

(14) joint purchasing arrangements with the Sponsor and Affiliates of the Company in the ordinary course of business or otherwise consistent with past practice;

(15) transactions with an Affiliate in its capacity as a purchaser or holder of Indebtedness or other securities of the Company or any Restricted Subsidiary in which such Affiliate is treated no more favorably than the other purchasers or holders of Indebtedness or other securities of the Company or such Restricted Subsidiary (except as otherwise permitted under this covenant);

(16) entering into an agreement that provides registration rights to the equity holders of the Company, the Issuer or any parent of the Company or amending such agreement with shareholders of the Company or any parent of the Company and the performance of such agreements; and

(17) payments by the Company or any Restricted Subsidiary to any of the Sponsors in respect of indemnification payments or for any financial advisory, financing, underwriting or placement services or in respect of other investment banking activities, including in connection with acquisitions or divestitures, or any transactions pursuant to which Mafco or any of its Affiliates provide the Company with services at the cost to Mafco or such affiliates, which payments or services are approved by a majority of the members of the Board of Directors of the Company in good faith;

Limitation on Liens

The Issuer and the Company will not, and the Company will not permit any of the other guarantors to, directly or indirectly, create, incur or assume any Lien securing Indebtedness (other than Permitted Liens) upon any property or asset now owned or hereafter acquired by them, or any income or profits therefrom, or assign or convey any right to receive income therefrom; *provided, however*, that in addition to creating Permitted Liens on their properties or assets, the Issuer, the Company and any of the other guarantors may create any Lien securing Indebtedness upon any of their properties or assets (including, but not limited to, any Capital Stock of its subsidiaries) if the notes are equally and ratably secured.

Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or otherwise cause or permit to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to:

(a) pay dividends or make any other distributions on or in respect of its Capital Stock;

(3) (A) customary provisions restricting (1) the subletting or assignment of or under any lease or (2) the transfer of copyrighted or patented materials, (B) provisions in agreements that restrict the assignment or other transfer of such agreements (or property that is the subject thereof) or rights thereunder or (C) provisions of a customary nature contained in the terms of Capital Stock restricting the payment of dividends and the making of distributions on Capital Stock,

(4) any agreement or instrument governing Acquired Indebtedness, which encumbrance or restriction is not applicable to any person, or the properties or assets of any person, other than (a) the person or the properties or assets of the person so acquired (including the Capital Stock of such person), or (b) any Restricted Subsidiary having no assets other than (i) the person or the properties or assets of the person so acquired (including the Capital Stock of such person) and (ii) other assets having a fair market value not in excess of \$2.5 million, and, in each case, the monetary proceeds thereof,

aggregate have a materially adverse effect on the ability of the Issuer to make payments on the notes,

Merger, Consolidation and Sale of Assets

Neither the Company nor the Issuer will, in a single transaction or series of related transactions, consolidate or merge with or into any person, or sell, assign, transfer, lease, convey or otherwise dispose of (or cause or permit any Restricted Subsidiary of the Company to sell, assign, transfer, lease, convey or otherwise dispose of) all or substantially all of the Company's assets (determined on a consolidated basis for the Company and its Restricted Subsidiaries) whether as an entirety or substantially as an entirety to any person unless:

(1) either (A) the Company, the Issuer or a Restricted Subsidiary of the Company shall be the surviving or continuing person or (B) the person, if other than the Company, the Issuer or a Restricted Subsidiary of the Company, formed by such consolidation or into which the Company or the Issuer is merged, or the person that acquires by sale, assignment, transfer, lease, conveyance or other disposition of all or substantially all of the Company's assets determined on a consolidated basis for the Company and its Restricted Subsidiaries (the "Surviving Entity"), (x) shall be a person organized and validly existing under the laws of the United States or any State thereof or the District of Columbia and (y) shall expressly assume, by supplemental indenture, executed and delivered to the trustee, the due and punctual payment of the principal of and premium, if any, and interest on all of the notes and the performance of every covenant of the notes, the indenture and the 2021 registration rights agreement on the part of the Company or the Issuer, as applicable, to be performed or observed;

(2) immediately after giving effect to such transaction and the assumption contemplated by clause (1)(B)(y) above, including giving effect to any Indebtedness and Acquired Indebtedness incurred or anticipated to be incurred in connection with or in respect of such transaction, either (A) the Company or such Surviving Entity, as the case may be, shall be able to incur at least \$1.00 of additional Indebtedness, other than Permitted Indebtedness, pursuant to the " Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock" covenant or (B) the Consolidated Fixed Charge Coverage Ratio for the Company or such Surviving Entity, as the case may be, immediately following such transaction would be equal to or greater than such ratio for the Company immediately prior to such transaction;

Table of Contents

(3) immediately before and immediately after giving effect to such transaction and the assumption contemplated by clause (1)(B)(y) above, including, without limitation, giving effect to any Indebtedness and Acquired Indebtedness incurred or anticipated to be incurred and any Lien granted in connection with or in respect of the transaction, no Default or Event of Default shall have occurred and be continuing; and

(4) the Company, the Issuer or such Surviving Entity, as the case may be, shall have delivered to the trustee an Officer's Certificate and an opinion of counsel, each stating that such consolidation, merger, sale, assignment, transfer, lease, conveyance or other disposition and, if a supplemental indenture is required in connection with such transaction, such supplemental indenture, shall comply with the applicable provisions of the indenture and that all conditions precedent in the indenture relating to the execution of such supplemental indenture have been satisfied.

For purposes of the foregoing, the transfer, by lease, assignment, sale or otherwise, in a single transaction or series of transactions, of all or substantially all of the properties or assets of one or more Restricted Subsidiaries of the Company, other than to a Wholly Owned Restricted Subsidiary of the Company, the Capital Stock of which constitutes all or substantially all of the properties and assets of the Company, shall be deemed to be the transfer of all or substantially all of the properties and assets of the Company.

The indenture provides that upon any consolidation, combination or merger or any transfer of all or substantially all of the assets of the Company or the Issuer, as applicable, in accordance with the foregoing, in which the Company or the Issuer, as applicable, is not the continuing person, the successor person formed by such consolidation or into which the Company or the Issuer, as applicable, is merged or to which such conveyance, lease or transfer is made shall succeed to, and be substituted for, and may exercise every right and power of, the Company or the Issuer, as applicable, under the indenture and the notes with the same effect as if such Surviving Entity had been named as such and the Company or the Issuer, as applicable, shall be relieved of all of its obligations and duties under the indenture and the notes.

Each guarantor (other than the Company), other than any guarantor whose guarantee is to be released in accordance with the terms of the guarantee and the indenture, will not, and the Company will not cause or permit any such guarantor to, consolidate with or merge with or into any person other than the Company, the Issuer or any other guarantor unless:

- (1) the entity formed by or surviving any such consolidation or merger, if other than such guarantor, or to which such sale, lease, conveyance or other disposition shall have been made is a person organized and existing under the laws of the United States or any State thereof or the District of Columbia;
- (2) such entity assumes by supplemental indenture all of the obligations of such guarantor under the guarantee; and
- (3) immediately after giving effect to such transaction, no Default or Event of Default shall have occurred and be continuing.

Any merger or consolidation of a guarantor (other than the Company) with and into the Company or the Issuer, with the Company or the Issuer being the Surviving Entity, or another guarantor that is a Wholly Owned Restricted Subsidiary of the Company need not comply with this covenant.

Limitation on Asset Sales

The Company will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

- (1) the Company or one or more of its Restricted Subsidiaries, as the case may be, receives consideration at the time of such Asset Sale at least equal to the fair market value of the assets sold or otherwise disposed of;
- (2) at least 75% of the consideration received by the Company or such Restricted Subsidiaries, exclusive of indemnities, as the case may be, from such Asset Sale is cash or Cash Equivalents and is received at the time of such disposition; *provided* that the amount of (a) any liabilities of the Company or any such Restricted Subsidiary, as shown on the Company's or such Restricted Subsidiary's most recent balance sheet (or in the notes thereto), that are assumed by the transferee of any such assets, (b) any securities, notes or other obligations received by the Company or any such Restricted Subsidiary from such transferee that are converted by the Company or such Restricted Subsidiary into cash or Cash Equivalents within one year of the time of such disposition, to the extent of the cash or Cash Equivalents received, and (c) any Designated Non-Cash Consideration received by the Company or any of its Restricted Subsidiaries in such Asset Sale having an aggregate fair market value, taken together with all other Designated Non-Cash Consideration received pursuant to this clause (c) that is at that time outstanding, not to exceed the greater of \$100.0 million and 3.0% of the Company's Total Assets, with the fair market value of each item of Designated Non-Cash Consideration being measured at the time received and without giving effect to subsequent changes in value, will be deemed to be cash for the purposes of this clause (2); and
- (3) upon the consummation of an Asset Sale, the Company applies directly or through a Restricted Subsidiary, or causes one or more of its Restricted Subsidiaries to apply, an amount equal to the Net Cash Proceeds relating to such Asset Sale within 365 days of receipt thereof, at the option of the Company, either (A) to repay Senior Debt (and, if the Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto), (B) to repay any Indebtedness secured by a Lien, other than Indebtedness owed to the Company or another Restricted Subsidiary, (C) to repay any Indebtedness of a Restricted Subsidiary that is not a guarantor, (D) to repay or repurchase Pari Passu Indebtedness (*provided* that the Issuer shall (i) redeem or repurchase at least a pro rata portion of the notes (based on the amount so applied to such repayments or repayments or repurchases of Pari Passu Indebtedness), by, at the Company's option, (a) redeeming notes as described above under the caption " Optional Redemption" or (b) through privately negotiated transactions or open market purchases (to the extent such purchases are a price at or above 100% of the principal amount thereof *plus* the amount of accrued but unpaid interest, if any, thereon) or (ii) offer to redeem or repurchase at least a pro rata portion of the notes (based on the amount so applied to such repayments or repayments or repurchases of Pari Passu Indebtedness) by making an offer (in accordance with the procedures set forth below for an Net Proceeds Offer) to all holders to purchase the notes at a price at or above 100% of the principal amount thereof, *plus* the amount of accrued but unpaid interest, if any, on the amount of notes that would otherwise be prepaid), (E) to reinvest in Productive Assets (or enter into a binding commitment to reinvest, if such reinvestment is effected within 180 days after the date of such commitment), or (F) a combination of prepayment, reduction and investment permitted by the foregoing clauses (3)(A) through (3)(E);

provided that the 75% limitation referred to above will not apply to any sale, transfer or other disposition of assets in which the cash portion of the consideration received therefor is equal to or greater than what the after-tax net proceeds would have been had such transaction complied with the aforementioned 75% limitation. On the 366th day after an Asset Sale (or the 181st day after the entry

Table of Contents

into a binding commitment to reinvest) or such earlier date, if any, as the Company in good faith determines not to apply an amount equal to the Net Cash Proceeds relating to such Asset Sale as set forth in clause (3) of the preceding sentence (each, a "Net Proceeds Offer Trigger Date"), such aggregate amount of Net Cash Proceeds that have not been so applied on or before such Net Proceeds Offer Trigger Date as permitted in clause (3) of the preceding sentence (each, a "Net Proceeds Offer Amount") the Issuer will make an offer to repurchase (the "Net Proceeds Offer") on a date (the "Net Proceeds Offer Payment Date") not less than 30 nor more than 60 days following the applicable Net Proceeds Offer Trigger Date (or such longer period as may be required by law), from all holders, that amount of notes equal to the aggregate amount of Net Cash Proceeds that have not been so applied on or before such Net Proceeds Offer Trigger Date as permitted in clause (3) of the preceding sentence multiplied by a fraction, the numerator of which is the aggregate principal amount of notes then outstanding and the denominator of which is the sum of the aggregate principal amount of notes and Pari Passu Indebtedness then outstanding (the "Pro Rata Amount"), at a price equal to 100% of the principal amount of the notes to be repurchased, plus accrued interest to the date of repurchase.

Notwithstanding the foregoing, if a Net Proceeds Offer Amount is less than \$50.0 million, the application of the Net Cash Proceeds constituting such Net Proceeds Offer Amount to a Net Proceeds Offer may be deferred until such time as such Net Proceeds Offer Amount plus the aggregate amount of all Net Proceeds Offer Amounts arising subsequent to the Net Proceeds Offer Trigger Date relating to such initial Net Proceeds Offer Amount from all Asset Sales by the Company and its Restricted Subsidiaries aggregates at least \$50.0 million, at which time the Issuer will apply all Net Cash Proceeds constituting all Net Proceeds Offer Amounts that have been so deferred to make a Net Proceeds Offer, the first date the aggregate of all such deferred Net Proceeds Offer Amounts is at least \$50.0 million being deemed to be a Net Proceeds Offer Trigger Date. To the extent that the aggregate purchase price of notes tendered pursuant to any Net Proceeds Offer is less than the Pro Rata Amount, the Issuer or any guarantor may use such amount for any purpose not prohibited by the indenture. Upon completion of any Net Proceeds Offer, the Net Proceeds Offer Amount shall be reset to zero.

The Credit Agreement restricts the ability of the Issuer to repurchase the notes, subject to certain exceptions. Accordingly, if required to make a Net Proceeds Offer, the Issuer may need the consent of the lenders under the Credit Agreement. The failure of the Issuer to make a required Net Proceeds Offer and repurchase notes subject thereto would be an Event of Default.

Notwithstanding the first two paragraphs of this covenant, the Company and its Restricted Subsidiaries will be permitted to consummate an Asset Sale without complying with such paragraphs to the extent

(1) at least 50% of the consideration for such Asset Sale constitutes Productive Assets; and

(2) such Asset Sale is for fair market value; *provided* that the fair market value of any consideration not constituting Productive Assets received by the Company or any of its Restricted Subsidiaries in connection with any Asset Sale permitted to be consummated under this paragraph will constitute Net Cash Proceeds subject to the provisions of the first two paragraphs of this covenant.

In the event of the transfer of substantially all, but not all, of the property and assets of the Company and its Restricted Subsidiaries as an entirety to a person in a transaction permitted under the " Merger, Consolidation and Sale of Assets" covenant, the successor corporation will be deemed to have sold the properties and assets of the Company and its Restricted Subsidiaries not so transferred for purposes of this covenant, and will comply with the provisions of this covenant with respect to such deemed sale as if it were an Asset Sale. In addition, the fair market value of such properties and assets of the Company or its Restricted Subsidiaries deemed to be sold will be deemed to be Net Cash Proceeds for purposes of this covenant.

Table of Contents

Notice of a Net Proceeds Offer will be mailed to the holders as shown on the register of holders not less than 30 days nor more than 60 days before the payment date for the Net Proceeds Offer, with a copy to the trustee, and will comply with the procedures set forth in the indenture. Upon receiving notice of the Net Proceeds Offer, holders may elect to tender their notes in whole or in part (in integral multiples of \$1,000 principal amount; *provided* that the Issuer will repurchase notes of \$2,000 or less in whole and not in part) at maturity in exchange for cash. To the extent holders properly tender notes in an amount exceeding the Net Proceeds Offer Amount, the trustee will select the notes or portions thereof to be repurchased among the holders of the notes as follows:

- (1) if the notes are listed, in compliance with any applicable requirements of the principal national securities exchange on which the notes are listed; or
- (2) if the notes are not so listed, on a *pro rata* basis, by lot or by any other method the trustee considers fair and appropriate.

A Net Proceeds Offer shall remain open for a period of 20 Business Days or such longer period as may be required by law.

If an offer is made to repurchase the notes pursuant to a Net Proceeds Offer, the Company will and will cause its Restricted Subsidiaries to comply with all tender offer rules under state and federal securities laws, including, but not limited to, Section 14(e) under the Exchange Act and Rule 14e-1 thereunder, to the extent applicable to such offer.

Limitation on Guarantees by Restricted Subsidiaries

The Company will not permit any Wholly Owned Domestic Restricted Subsidiary or any non-Wholly Owned Domestic Restricted Subsidiary that guarantees capital markets debt securities (other than the Issuer, a guarantor or an Immaterial Subsidiary) to, directly or indirectly, by way of the pledge of any intercompany note or otherwise, to assume, guarantee or in any other manner become liable with respect to any Indebtedness of the Company or the Issuer, other than

- (1) Indebtedness incurred in reliance on and in compliance with the first paragraph under the heading "Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock,"
- (2) Indebtedness incurred in reliance on clause (12) (to the extent the Indebtedness being refinanced, modified, replaced, renewed, restated, refunded, deferred, extended, substituted, supplemented, reissued or resold was permitted to be guaranteed by Restricted Subsidiaries that are not guarantors) of the definition of Permitted Indebtedness,
- (3) Hedge Agreements in reliance on clause (4) of the definition of Permitted Indebtedness, or
- (4) additional Indebtedness incurred in reliance on clause (13) or (14) of the definition of Permitted Indebtedness,

unless, in any such case

(a) such Restricted Subsidiary has executed and delivered or, within 10 Business Days thereof, executes and delivers a supplemental indenture to the indenture, providing a guarantee of payment of the notes by such Restricted Subsidiary in the form required by the indenture and

(b) if such assumption, guarantee or other liability of such Restricted Subsidiary is provided in respect of Indebtedness that is expressly subordinated in right of payment to the notes, the guarantee or other instrument provided by such Restricted Subsidiary in respect of such subordinate Indebtedness is similarly subordinated in right of payment to the guarantee of the notes.

Table of Contents

Any guarantee of the notes by a Restricted Subsidiary will provide by its terms that it will be automatically and unconditionally released and discharged, without any further action required on the part of the trustee or any holder, upon:

- (1) (a) such guarantor being released from any and all guarantees of Indebtedness of the Company and the Issuer (other than guarantees permitted to be provided by non-guarantor Restricted Subsidiaries pursuant to the preceding paragraph), and (b) if such guarantor will remain a subsidiary of the Company, it has no other outstanding Indebtedness other than Indebtedness that could be incurred by a Restricted Subsidiary that is not a guarantor of the notes on the date of the proposed release of such guarantor's guarantee;
- (2) the unconditional release of such Restricted Subsidiary from its liability in respect of the Indebtedness in connection with which such guarantee of the notes was executed and delivered pursuant to the preceding paragraph;
- (3) any designation of such subsidiary as an Unrestricted Subsidiary in accordance with the provisions set forth under " Limitation on Restricted Payments" and the definition of "Unrestricted Subsidiary";
- (4) any sale or other disposition (by merger or otherwise) (i) to any person that is not a guarantor (other than an Immaterial Subsidiary), of all of the Company's Capital Stock in, or all or substantially all of the assets of, such Restricted Subsidiary or (ii) of any portion of the Company's Capital Stock in such Restricted Subsidiary that results in such Restricted Subsidiary ceasing to be a Wholly Owned Domestic Restricted Subsidiary of the Company; *provided, however*, that
 - (a) such sale or disposition of such Capital Stock or assets is otherwise in compliance with the terms of the indenture; and
 - (b) such assumption, guarantee or other liability of such Restricted Subsidiary has been released by the holders of the other Indebtedness so guaranteed;

provided that any Restricted Subsidiary that constitutes an Immaterial Subsidiary need not become a guarantor until such time as it ceases to be an Immaterial Subsidiary, within 10 Business Days of which it shall provide a guarantee as contemplated by subparagraph (4)(a) above; and *provided, further*, that if, at the end of the most recent fiscal year for which internal financial statements are then available, all Immaterial Subsidiaries, in the aggregate, have total assets as of the end of the most recent fiscal year for which internal financial statements are then available in excess of 7.5% of the Company's Total Assets and Total Revenues as of the end of the most recent fiscal year for which internal financial statements are then available in excess of 7.5% of the Company's Total Revenues, one or more of such subsidiaries shall, within 10 Business Days of such internal financial statements becoming available, provide a guarantee so that in the aggregate the total assets of all Immaterial Subsidiaries that are not guarantors as of the end of such fiscal year are not in excess of 7.5% of the Company's Total Assets and their Total Revenues as of the end of the most recent fiscal year for which internal financial statements are then available are not in excess of 7.5% of the Company's Total Revenues.

Events of Default

The following events are defined in the indenture as "Events of Default":

- (1) the failure to pay interest on any notes when the same becomes due and payable and the default continues for a period of 30 days; or
- (2) the failure to pay the principal on any notes, when such principal becomes due and payable, at maturity, upon redemption or otherwise, including the failure to make a payment to repurchase notes tendered pursuant to a Change of Control Offer or a Net Proceeds Offer; or

Table of Contents

(3) a default in the observance or performance of any other covenant or agreement contained in the indenture which default continues for a period of 60 days after the Issuer receives written notice specifying the default, and demanding that such default be remedied, from the trustee or the holders of at least 25% of the outstanding principal amount of the notes; or

(4) the failure to pay at final maturity, giving effect to any extensions thereof, the principal amount of any Indebtedness of the Company, the Issuer or any Restricted Subsidiary of the Company that is a Significant Subsidiary (a "Payment Default"), other than intercompany Indebtedness, and such failure continues for a period of 20 days or more, or the acceleration of the final stated maturity of any such Indebtedness, which acceleration is not rescinded, annulled or otherwise cured within 20 days of receipt by the Company, the Issuer or such Restricted Subsidiary of notice of any such acceleration, if, in either case, the aggregate principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness in default for failure to pay principal at final maturity or which has been accelerated, in each case with respect to which the 20-day period described above has passed, aggregates \$75.0 million or more at any time; or

(5) other than with respect to the Colombia Matter, any final judgment or final judgments for the payment of money in excess (net of amounts covered by third-party insurance with insurance carriers who in the reasonable judgment of the Company are creditworthy and who have not disclaimed liability with respect to such judgment or judgments) of \$75.0 million is rendered against the Company, the Issuer or any Restricted Subsidiary of the Company that is a Significant Subsidiary and is not discharged for any period of 60 consecutive days during which a stay of enforcement is not in effect; or

(6) certain events of bankruptcy affecting the Company, the Issuer or any Restricted Subsidiary of the Company that is a Significant Subsidiary; or

(7) any of the guarantees ceases to be in full force and effect or any of the guarantees is held in a judicial proceeding to be null and void and unenforceable or any of the guarantees is found to be invalid by a final judgment or order that is not appealable or any of the guarantors denies its liability under its guarantee, other than by reason of a release of a guarantor in accordance with the terms of the indenture.

During the continuance of any Event of Default specified in the indenture (other than an Event of Default with respect to bankruptcy proceedings of the Company or the Issuer), the trustee or the holders of at least 25% in principal amount of outstanding notes may declare the principal of and accrued interest on all the notes to be due and payable by notice in writing to the Issuer and the trustee specifying the respective Event of Default and that it is a "notice of acceleration," and the same will become immediately due and payable. If an Event of Default with respect to bankruptcy proceedings of the Company or the Issuer occurs and is continuing, then such amount shall *ipso facto* become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of notes.

The indenture provides that, at any time after a declaration of acceleration with respect to the notes as described in the preceding paragraph, the holders of a majority in principal amount of the notes may rescind and cancel such declaration and its consequences:

(1) if the rescission would not conflict with any judgment or decree;

(2) if all existing Events of Default have been cured or waived except nonpayment of principal or interest that has become due solely because of the acceleration;

Table of Contents

(3) to the extent the payment of such interest is lawful, interest on overdue installments of interest and overdue principal, which has become due otherwise than by such declaration of acceleration, has been paid;

(4) if the Issuer has paid the trustee its reasonable compensation and reimbursed the trustee for its reasonable expenses, disbursements and advances; and

(5) in the event of the cure or waiver of an Event of Default of the type described in clause (6) of the description above of Events of Default, the trustee has received an Officer's Certificate and an Opinion of Counsel that such Event of Default has been cured or waived. The holders of a majority in principal amount of the notes may waive any existing Default or Event of Default under the indenture, and its consequences, except a default in the payment of the principal of or interest on any notes.

The trustee shall not be deemed to have notice of any default or Event of Default (other than a payment default) unless a responsible officer of the trustee has received written notice of any event which is in fact such a default or Event of Default at the Corporate Trust Office of the trustee and such notice references the notes and the indenture.

Defeasance

The indenture will cease to be of further effect as to all outstanding notes, except as to (1) rights of registration of transfer, substitution and exchange of notes, (2) rights of holders to receive payments of principal of, premium, if any, and interest on the notes and any other rights of the holders with respect to such amounts, (3) the rights, obligations and immunities of the trustee under the indenture and (4) certain other specified provisions in the indenture (the foregoing exceptions (1) through (4) are collectively referred to as the "Reserved Rights"), if:

(a) the Issuer irrevocably deposits, or causes to be deposited, with the trustee, in trust for the benefit of the holders pursuant to an irrevocable trust and security agreement (1) U.S. Legal Tender, (2) U.S. Government Obligations or (3) a combination thereof, in an amount sufficient after payment of all federal, state and local taxes or other charges or assessments in respect thereof payable by the trustee, which through the payment of interest and principal will provide, not later than one day before the due date of payment in respect of the notes, U.S. Legal Tender in an amount which is sufficient to pay the principal of, premium, if any, and interest on the notes then outstanding on the dates on which any such payments are due and payable in accordance with the terms of the indenture and the notes (with the sufficiency of such amount to be based on the advice of a nationally recognized investment banking firm or firm of independent certified public accountants expressed in a written certification thereof delivered to the trustee if such deposit includes any U.S. Government Obligations); *provided, however*, that (x) the trustee of the irrevocable trust shall have been irrevocably instructed to pay such money or the proceeds of such U.S. Government Obligations to the trustee; and (y) the trustee shall have been irrevocably instructed to apply such money or the proceeds of such U.S. Government Obligations to the payment of said principal, premium (if any) and interest with respect to the notes;

(b) the Issuer delivers to the trustee an Opinion of Counsel from independent counsel reasonably satisfactory to the trustee or a tax ruling from the Internal Revenue Service to the effect that the holders will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such deposit and defeasance and will be subject to U.S. federal income tax in the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred; and

Table of Contents

(c) the Issuer delivers to the trustee an Officer's Certificate and an Opinion of Counsel each stating that all conditions precedent relating to the satisfaction and discharge of the indenture have been complied with.

In addition, the Issuer may terminate all of its obligations under the indenture, except as to certain of the Reserved Rights, when (1) all outstanding notes theretofore authenticated have been delivered to the trustee for cancellation and the Issuer has paid or caused to be paid all sums payable under the indenture by the Issuer or (2) the Issuer has called for redemption pursuant to the indenture all of the notes, the amounts described in clause (a) above have been deposited as described therein, the conditions in clauses (x) and (y) of the proviso to such clause (a) have been satisfied and the certificate and opinion described in clause (c) above have been delivered. Notwithstanding the foregoing, the Opinions of Counsel required by clauses (b) and (c) above need not be delivered if all notes not theretofore delivered to the trustee for cancellation (1) have become due and payable, (2) will become due and payable on the maturity date within one year or (3) are to be called for redemption within one year. In addition, the Issuer may at its option and at any time elect to terminate its obligations with respect to certain covenants that are set forth in the indenture, some of which are described under "Covenants" above.

Modification of the Indenture

From time to time, the Issuer and the trustee, without the consent of the holders of the notes, may amend the indenture or the notes for the following reasons:

- (1) to cure any ambiguity, defect or inconsistency so long as such change does not adversely affect the rights of any of the holders in any material respect;
- (2) to evidence the succession of another person to the Issuer or the Company and the assumption by any such successor of the covenants of the Issuer or the Company under the indenture and the notes;
- (3) to provide for the issuance of additional notes in accordance with the provisions set forth in the indenture or to provide for uncertificated notes in addition to or in place of certificated notes;
- (4) to comply with any requirements of the SEC in connection with the qualification of the indenture under the TIA;
- (5) to make any change that would provide any additional benefit or rights to the holders or that does not adversely affect the rights of any holder in any material respect;
- (6) to add a guarantor under the indenture, or to release a guarantor from its obligations under the indenture and its guarantee in accordance with the terms of the indenture;
- (7) to make any change to the subordination provisions of the indenture that would limit or terminate the benefits available to any holder of Senior Debt under the indenture, respectively;
- (8) to conform the text of the indenture, the notes or the guarantees to any provision of this "Description of 2021 New Notes" to the extent that such provision in this "Description of 2021 New Notes" was intended to be verbatim recitation of a provision in the indenture or the notes, as certified to the trustee in an Officers' Certificate; or
- (9) to secure the notes and the guarantees;

provided that the Issuer has delivered to the trustee an Opinion of Counsel and an Officer's Certificate, each stating that such amendment or supplement complies with the provisions of the indenture.

Table of Contents

Other modifications and amendments of the indenture or the notes may be made with the consent of the holders of a majority in principal amount of the then outstanding notes issued under the indenture, except that, without the consent of each holder of the notes affected thereby, no amendment may:

- (1) reduce the amount of notes whose holders must consent to an amendment;
- (2) reduce the rate of or extend the time for payment of interest, including defaulted interest, on any notes;
- (3) reduce the principal of or change or have the effect of changing the fixed maturity of any notes, or change the date on which any notes may be subject to redemption (other than a change to the required notice period), or reduce the redemption price therefor;
- (4) make any notes payable in money other than that stated in the notes;
- (5) make any change in provisions of the indenture protecting the right of each holder of a note to receive payment of principal of and interest on such note on or after the due date thereof or to bring suit to enforce such payment, or permitting holders of a majority in principal amount of the notes to waive Defaults or Events of Default (other than Defaults or Events of Default with respect to the payment of principal of or interest on the notes); or
- (6) adversely affect the ranking of the notes or the guarantees.

Additional Information

The indenture provides that the Company promptly will deliver to the trustee, but in any event no later than 15 days after the filing of the same with the SEC, copies of the quarterly and annual reports and of the information, documents and other reports, if any, which the Company is required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act. The indenture further provides that, notwithstanding that the Company may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Company will file with the SEC, to the extent permitted, and provide the trustee and holders with such annual reports and such information, documents and other reports specified in Sections 13 and 15(d) of the Exchange Act. The Company will also comply with the other provisions of TIA Section 314(a). The trustee will have no responsibility whatsoever to determine whether any such filing has occurred.

Governing Law

The indenture provides that it, the notes and the guarantees will be governed by, and construed in accordance with, the laws of the State of New York but without giving effect to applicable principles of conflicts of law to the extent that the application of the law of another jurisdiction would be required thereby.

The Trustee

The indenture provides that, except during the continuance of an Event of Default, the trustee will perform only such duties as are specifically set forth in the indenture. During the existence of an Event of Default, the trustee will exercise such rights and powers vested in it by the indenture, and use the same degree of care and skill in its exercise as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs.

The indenture and the provisions of the TIA contain certain limitations on the rights of the trustee, should it become a creditor of the Issuer, to obtain payments of claims in certain cases or to realize on certain property received in respect of any such claim as security or otherwise. Subject to the TIA, the trustee will be permitted to engage in other transactions; *provided, however*, that if the trustee acquires any conflicting interest as described in the TIA, it must eliminate such conflict or resign.

Table of Contents

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, stockholder or incorporator of the Issuer, the Company or any other guarantor will have any liability for any obligations of the Issuer, the Company or any other guarantor under the notes, the guarantees or the indenture or for any claim based on, in respect of or by reason of such obligations of their creation. Each holder by accepting a note waives and releases all such liability. Such waiver and release are part of the consideration of the issuance of the notes.

Certain Definitions

Set forth below is a summary of certain of the defined terms used in the indenture. Reference is made to the indenture for the full definition of all such terms, as well as any other terms used herein for which no definition is provided.

"*Acquired Indebtedness*" means Indebtedness of a person or any of its Restricted Subsidiaries existing at the time such person becomes a Restricted Subsidiary of the Company or at the time it merges or consolidates with the Company or any of its subsidiaries or is assumed in connection with the acquisition of assets from such person and not incurred by such person in connection with, or in anticipation or contemplation of, such person becoming a Restricted Subsidiary of the Company or such acquisition, merger or consolidation.

DESCRIPTION OF 2022 NEW NOTES

The definitions of certain capitalized terms used in the following summary are set forth below under " Certain Definitions." For purposes of this section, references to the "Company" include only Scientific Games Corporation and not its subsidiaries and references to the "Issuer" include only Scientific Games International, Inc. and not its subsidiaries or its parent company, Scientific Games Corporation.

On November 21, 2014, SGMS Escrow Corp., a wholly owned subsidiary of the Issuer, issued \$2,200,000,000 in aggregate principal amount of its 10.000% senior unsecured notes due 2022, referred to as the "2022 old notes." Promptly following the Bally Acquisition, on November 21, 2014, SGMS Escrow Corp. merged with and into the Issuer, with the Issuer continuing as the surviving corporation, and the Issuer assumed the obligations of SGMS Escrow Corp. under the 2022 old notes (and the indenture referred to below). The 2022 new notes (as defined below) will be issued by the Issuer pursuant to an indenture, dated as of the Issue Date, by and among the Issuer (as successor to SGMS Escrow Corp.), Scientific Games Corporation (the "Company"), the direct and indirect Wholly Owned Domestic Restricted Subsidiaries of the Company (other than the Issuer and certain Immaterial Subsidiaries) (together with the Company, the "guarantors") and Deutsche Bank Trust Company Americas, as trustee. Following the exchange offer, the 2022 new notes will trade as a single class of notes with the 2022 old notes. Unless indicated otherwise, the 2022 old notes and the 2022 new notes are collectively referred to in this "Description of 2022 New Notes" as the "notes" and the indenture governing the notes is referred to in this "Description of 2022 New Notes" as the "indenture." The form and terms of the 2022 new notes will be identical in all material respects to the form and term of the 2022 old notes, except that the terms of the 2022 new notes:

include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended (the "TIA");

will be registered under the Securities Act;

will not be subject to restrictions on transfer under the Securities Act;

will not be entitled to the registration rights that apply to the 2022 old notes; and

will not be subject to any increase in annual interest rate as described below under "Description of 2022 New Notes Registration Rights."

The following summary of certain provisions of the indenture and the 2022 registration rights agreement is not complete and is qualified in its entirety by reference to the TIA, the indenture and the 2022 registration rights agreement. We urge you to read the indenture, the notes and the 2022 registration rights agreement because they, and not this description, define your rights as holders of the notes. You may request copies of these agreements at the Company's address set forth in the forepart of this prospectus. See "Where You Can Find More Information" and "Incorporation of Certain Documents by Reference."

The net proceeds from the sale of the 2022 old notes were used by the Issuer, together with the proceeds of the 2022 Secured Notes, borrowings under the Credit Agreement and cash on hand, to fund the purchase price of the Bally Acquisition, repay certain Bally debt and pay related fees and expenses as set forth in the offering memorandum related to the notes, dated November 14, 2014, under the caption "Use of Proceeds."

Brief Description of the Notes

The notes:

are unsecured senior obligations of the Issuer;

Table of Contents

are effectively subordinated to all existing Secured Indebtedness of the Issuer, including the obligations of the Issuer under the Credit Agreement and the 2022 Secured Notes, and future Secured Indebtedness, if any, in each case, to the extent of the value of the assets securing such Indebtedness;

are *pari passu* in right of payment to all existing and future Senior Indebtedness of the Issuer;

are senior in right of payment to any existing and future Indebtedness of the Issuer that is specifically subordinated in right of payment to the notes, including the Existing Senior Subordinated Notes;

are effectively subordinated to the Indebtedness and other liabilities of existing and future subsidiaries of the Company that do not guarantee the notes; and

are guaranteed on a senior unsecured basis by each guarantor.

Principal, Maturity and Interest

The Issuer issued the 2022 old notes in an initial aggregate principal amount of \$2,200.0 million. The 2022 old notes were issued in minimum denominations of \$2,000 and any greater integral multiple of \$1,000.

The notes will mature on December 1, 2022. Interest on the notes will accrue at the rate of 10.000% per annum and will be payable semi-annually in cash on June 1 and December 1 of each year, with an initial interest payment on June 1, 2015. The Issuer will make each interest payment to the persons who are registered holders of notes at the close of business on the immediately preceding May 15 and November 15.

Interest on the notes will accrue from the most recent date to which interest has been paid or, if no interest has been paid, from the date of issuance. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Initially, the trustee will act as paying agent and registrar for the notes. The Issuer may change any paying agent or registrar without notice to the holders of the notes. The Issuer will pay principal and premium, if any, on the notes at the trustee's corporate trust office in New York, New York. At the Issuer's option, interest may be paid at the trustee's corporate trust office in New York, New York or by check mailed to the registered address of holders of the notes.

Indenture May Be Used for Future Issuances

Subject to compliance with the covenant described under the subheading "Covenants Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock," the Issuer may issue more notes under the indenture on the same terms and conditions as the notes, except for issue date and issue price, in an unlimited aggregate principal amount (the "Additional Notes"). To the extent required by applicable tax regulations, Additional Notes may not trade fungibly with other notes for U.S. federal income tax purposes and may trade under a separate CUSIP number. The notes and the Additional Notes, if any, will be treated as a single class for all purposes of the indenture, including waivers, amendments, redemptions and offers to purchase. Unless the context otherwise requires, for all purposes of the indenture and this "Description of 2022 New Notes," references to the notes include any Additional Notes actually issued.

Period	Percentage
2018	105.000%
2019	102.500%
2020 and thereafter	100.000%

Optional Redemption Upon Equity Offering.

Prior to December 1, 2017, the Issuer may, at its option on one or more occasions, redeem up to 35% of the initially outstanding aggregate principal amount of the notes (which includes Additional Notes, if any) so long as such aggregate principal amount does not exceed the amount of net cash proceeds received by, or contributed to the capital of, the Company from one or more Equity Offerings, at a redemption price equal to 110% of the principal amount thereof, plus accrued and unpaid interest to, but not including, the date of redemption subject to the rights of holders of notes on the relevant record dates occurring prior to the redemption date to receive interest due on the relevant interest payment date; *provided, however,* that:

- (1) at least 65% of the initially outstanding aggregate principal amount of notes (which includes Additional Notes, if any) remains outstanding immediately after any such redemption; and
- (2) each such redemption occurs within 120 days after the date of the related Equity Offering(s).

Redemption at Make-Whole Premium. At any time prior to December 1, 2018, the Issuer may redeem all or any portion of the notes on one or more occasions at a redemption price equal to 100% of the principal amount of notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to, the date of redemption subject to the rights of holders of the notes on the relevant record dates occurring prior to the redemption date to receive interest due on the relevant interest payment date.

Regulatory Redemption. If at any time any holder or beneficial owner of notes is determined to be or otherwise is or becomes a Disqualified Holder, then the Issuer will have the right, at its option:

- (1) to require such holder or beneficial owner to dispose of all or any portion of its notes within 60 days (or such earlier date as may be required by the applicable Gaming Authority) of receipt of the relevant notice of finding by the applicable Gaming Authority, or
- (2) to redeem all or any portion of the notes of such holder or beneficial owner upon not less than 30 nor more than 60 days' notice at a redemption price equal to the lesser of:
 - (a) the principal amount thereof, and
 - (b) the price at which such holder or beneficial owner acquired the notes,

together with, in the case of either clause (a) or (b), accrued and unpaid interest to the earlier of (A) the date of redemption and (B) the date of the denial of license or qualification or of the finding

Table of Contents

of unsuitability by such Gaming Authority (or the date such holder or beneficial owner otherwise becomes a Disqualified Holder) (subject to the rights of holders of the notes on the relevant record dates occurring prior to such redemption date to receive interest due on the relevant interest payment date); *provided, however*, that if such Gaming Authority restricts the redemption price to a lesser amount, then such lesser amount will be the redemption price.

Immediately upon a determination by a Gaming Authority that a holder or beneficial owner of notes (or an Affiliate thereof) will not be licensed, qualified or found suitable or is denied a license, qualification or finding of suitability or otherwise becomes a Disqualified Holder, the holder or beneficial owner will, to the extent required by applicable Gaming Laws, have no further rights with respect to the notes to:

- (1) exercise, directly or indirectly, through any person, any right conferred by the notes; or
- (2) receive any interest or any other distribution or payment with respect to the notes, except the redemption price.

The Issuer will notify the trustee in writing of any such redemption as soon as practicable. The holder or beneficial owner (or an Affiliate thereof) applying for a license, qualification or a finding of suitability must pay all costs of the licensure or investigation for such qualification or finding of suitability.

Mandatory Redemption. The Issuer is not required to make mandatory redemption or sinking fund payments with respect to the notes.

Selection and Notice

In the event that less than all of the notes are to be redeemed at any time (other than in the case of a regulatory redemption), the trustee will select the notes or portions thereof to be redeemed among the holders of the notes as follows:

- (1) if the notes are listed, in compliance with any applicable requirements of the principal national securities exchange on which the notes are listed; or
- (2) if the notes are not so listed, on a *pro rata* basis, by lot or by any other method the trustee considers fair and appropriate, unless otherwise required by law or applicable depository requirements.

The Issuer will redeem notes of \$2,000 or less in whole and not in part. Notes in a principal amount in excess of \$2,000 may be redeemed in part in multiples of \$1,000 only. Notice of redemption will be delivered electronically in pdf format or sent, by first class mail, postage prepaid, at least 30 days and not more than 60 days before the redemption date to each holder of notes to be redeemed at its registered address, except that redemption notices may be delivered electronically in pdf format or mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the notes or a satisfaction and discharge of the indenture.

If any note is to be redeemed in part only, the notice of redemption that relates to such note will state the portion of the principal amount of the note to be redeemed. A new note in principal amount equal to the unredeemed portion of the note will be issued in the name of the holder thereof upon cancellation of the original note. On and after any redemption date, interest will cease to accrue on the notes or parts thereof called for redemption as long as the Issuer has deposited with the paying agent funds in satisfaction of the redemption price pursuant to the indenture.

In connection with any redemption of notes (including in any redemption described under " Optional Redemption"), any such redemption may, at the Issuer's discretion, be subject to one or more conditions precedent, including any related Equity Offering or a Change of Control. In addition,

Table of Contents

if such redemption or notice is subject to satisfaction of one or more conditions precedent, such notice shall state that, in the Issuer's discretion, the redemption date may be delayed until such time as any or all such conditions shall be satisfied or waived, or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied or waived by the redemption date, or by the redemption date so delayed.

Ranking

Senior Indebtedness versus Notes

The payment of the principal of, premium, if any, and interest on the notes and the payment of any guarantee of the notes will rank *pari passu* in right of payment with all Senior Indebtedness of the Issuer or the relevant guarantor, as the case may be, including the obligations of the Issuer and such guarantor under the Credit Agreement and the 2022 Secured Notes.

Secured Indebtedness versus Notes

The notes will be effectively subordinated to all existing Secured Indebtedness of the Issuer or the relevant guarantor, as the case may be, including the obligations of the Issuer and such guarantor under the Credit Agreement and the 2022 Secured Notes, to the extent of the value of the assets securing such Indebtedness.

As of December 31, 2014, the Issuer and the guarantors had approximately \$5,412.0 million of Secured Indebtedness (excluding approximately \$197.6 million of outstanding surety bonds and \$35.3 million of capital lease obligations), including (1) approximately \$4,462.0 million of Secured Indebtedness (which excludes approximately \$41.0 million of outstanding letters of credit) under the Credit Agreement and (2) \$950.0 million of secured Indebtedness under the 2022 Secured Notes, and the Issuer had approximately \$341.6 million of additional availability under the Credit Agreement that the Company and the guarantors would guarantee (all of which would be secured).

Although the indenture contains limitations on the amount of additional Secured Indebtedness that the Issuer and the guarantors may incur, under certain circumstances the amount of such Indebtedness could be substantial. See " Covenants Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock" and " Covenants Limitation on Liens."

Liabilities of Subsidiaries versus Notes

Substantially all of the Company's operations are conducted through its subsidiaries. The Company and its direct and indirect Wholly Owned Domestic Restricted Subsidiaries (other than the Issuer and certain Immaterial Subsidiaries) will initially guarantee the notes and the indenture, and the guarantees of such subsidiaries may be released, as described below under " Guarantees." Claims of creditors of the Company's non-guarantor subsidiaries, including trade creditors and creditors holding indebtedness or guarantees issued by such non-guarantor subsidiaries, and claims of preferred stockholders of such non-guarantor subsidiaries generally will have priority with respect to the assets and earnings of the non-guarantor subsidiaries over the claims of the Issuer's creditors, including holders of the notes. Accordingly, the notes will be structurally subordinated to creditors (including trade creditors) and preferred stockholders, if any, of the non-guarantor subsidiaries.

As of December 31, 2014, the Company's non-guarantor subsidiaries had outstanding total third-party liabilities of approximately \$272.2 million, including trade payables, and no preferred shares.

Although the indenture limits the incurrence of Indebtedness and preferred stock of certain of the Company's subsidiaries, such limitation is subject to a number of significant qualifications. Moreover, the indenture does not impose any limitation on the incurrence by such subsidiaries of liabilities that

Table of Contents

are not considered Indebtedness under the indenture. See " Covenants Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock."

Senior Subordinated Indebtedness versus Notes

The notes and the guarantees in all respects rank senior in right of payment to any existing and future Subordinated Indebtedness of the Issuer or the relevant guarantor, as the case may be, including the Existing Senior Subordinated Notes and the guarantees thereof.

As of December 31, 2014, the Issuer and the guarantors had \$900.0 million of outstanding senior subordinated indebtedness that ranks junior in right of payment with the notes and the guarantees, all of which was issued or guaranteed, as applicable, on a senior subordinated basis by the Issuer and the guarantors of the notes.

Guarantees

The guarantors jointly and severally guaranteed, on a senior unsecured basis, the Issuer's performance of its obligations under the notes and the indenture, including the payment of principal with respect to the notes. The guarantors currently consist of the Company and all of the Company's direct and indirect Wholly Owned Domestic Restricted Subsidiaries (other than the Issuer and certain Immaterial Subsidiaries), all of which also guarantee the borrowings under the Credit Agreement, the 2022 Secured Notes and the Existing Senior Subordinated Notes.

The obligations of each guarantor (other than the obligations of the Company under its guarantee) are limited as necessary to prevent such guarantee from constituting a fraudulent conveyance or fraudulent transfer under federal or state law. Each guarantor (other than the Company) that makes a payment or distribution under a guarantee will be entitled to a contribution from each other guarantor in an amount *pro rata*, based on the net assets of each guarantor (other than the Company), determined in accordance with GAAP.

Each guarantor may consolidate with or merge into or sell its assets to the Company, the Issuer or another Restricted Subsidiary of the Company without limitation, or with other persons upon the terms and conditions set forth in the indenture. See " Covenants Merger, Consolidation and Sale of Assets." In the event the Capital Stock of a guarantor (other than the Company) is sold or otherwise disposed of, by merger or otherwise, by the Company or any of its subsidiaries to any person that is not a guarantor, or as a result of such sale or disposition the applicable guarantor is no longer a Restricted Subsidiary, and the sale or disposition is not in violation of the provisions set forth in " Covenants Limitation on Asset Sales," such guarantor's guarantee will be released and such guarantor shall be relieved of all of its obligations and duties under the indenture and the notes. A guarantor's guarantee (other than the guarantee by the Company) will also be released and such guarantor will also be released from all obligations and duties under the indenture and the notes as described below under " Covenants Limitation on Guarantees by Restricted Subsidiaries."

Registration Rights

The Issuer, the Company and the other guarantors, by way of a joinder agreement, entered into the 2022 registration rights agreement with J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Deutsche Bank Securities Inc. as representatives of the initial purchasers of the 2022 old notes, on the Issue Date. In that agreement, the Issuer and the guarantors agreed for the benefit of the holders of the 2022 old notes that they will use their commercially reasonable efforts to file with the SEC and to cause to become effective, a registration statement relating to an offer to exchange the 2022 old notes for an issue of SEC-registered notes (the "2022 new notes") with terms identical to the 2022 old notes (except that the 2022 new notes will not be subject to restrictions on transfer or to any increase in annual interest rate as described below).

Table of Contents

Promptly after the SEC declares the exchange offer registration statement effective, the Issuer will offer the 2022 new notes in return for the 2022 old notes. The exchange offer will remain open for at least 20 business days after the date the Issuer mails notice of the exchange offer to holders. For each 2022 old note surrendered to the Issuer under the exchange offer, the holder will receive a 2022 new note of equal principal amount. Interest on each 2022 new note will accrue from the last interest payment date on which interest was paid on the notes or, if no interest has been paid on the notes, from the Issue Date. If applicable interpretations of the staff of the SEC do not permit the Issuer to effect the exchange offer, the Issuer will use its commercially reasonable efforts to cause to become effective a shelf registration statement relating to resales of the notes and to keep that shelf registration statement effective until the first anniversary of the date such shelf registration statement becomes effective, or such shorter period that will terminate when all notes covered by the shelf registration statement have been sold. The Issuer will, in the event of such a shelf registration, provide to each holder copies of a prospectus, notify each holder when the shelf registration statement has become effective and take certain other actions to permit resales of the notes. A holder that sells notes under the shelf registration statement generally will be required to be named as a selling security holder in the related prospectus and to deliver a prospectus to purchasers, will be subject to certain of the civil liability provisions under the Securities Act in connection with those sales and will be bound by the provisions of the 2022 registration rights agreement that are applicable to such a holder (including certain indemnification obligations). The obligation to complete the exchange offer and/or file a shelf registration statement will terminate on the second anniversary of the date of the 2022 registration rights agreement.

If the exchange offer is not completed (or, if required, the shelf registration statement is not declared effective) on or before the date that is 450 days after the Issue Date (*provided* that, if the Company determines in good faith that it is in possession of material non-public information, it may extend either such date by up to 90 additional days under customary "blackout" provisions), the annual interest rate borne by the notes will be increased by 0.25% per annum for the first 90-day period immediately following such date and by an additional 0.25% per annum with respect to each subsequent 90-day period, up to a maximum additional rate of 1.0% per annum thereafter until the exchange offer is completed, the shelf registration statement is declared effective or the obligation to complete the exchange offer and/or file the shelf registration statement terminates, as applicable, at which time the interest rate will revert to the original interest rate on the Issue Date.

If the Issuer effects the exchange offer, it will be entitled to close the exchange offer 20 business days after its commencement; *provided* that the Issuer has accepted all 2022 old notes validly surrendered in accordance with the terms of the exchange offer. 2022 old notes not tendered in the exchange offer will bear interest at the rate set forth on the cover page of this prospectus and will be subject to all the terms and conditions specified in the indenture, including transfer restrictions.

Change of Control

Upon the occurrence of a Change of Control, each holder will have the right to require that the Issuer repurchase all or a portion (in integral multiples of \$1,000; *provided* that the Issuer will repurchase notes of \$2,000 or less in whole and not in part) of such holder's notes, at a purchase price equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the date of repurchase.

Within 30 days following the date upon which the Change of Control occurred, the Issuer will send, electronically or by first class mail, a notice to each holder, with a copy to the trustee, offering to purchase the notes as described above (the "Change of Control Offer"). The notice will state, among other things, the payment date, which must be no earlier than 30 days nor later than 60 days from the date such notice is mailed (other than as may be required by law).

Table of Contents

The Issuer will not be required to make a Change of Control Offer upon a Change of Control if (a) a third party makes the Change of Control Offer in the manner, at the time and otherwise in compliance with the requirements set forth in the indenture applicable to a Change of Control Offer made by the Issuer and purchases all notes properly tendered and not withdrawn under the Change of Control Offer or (b) a notice of redemption relating to the redemption of all of the notes has been given pursuant to the indenture as described above under the caption " Optional Redemption" and, in the event that such redemption is subject to one or more conditions precedent, such conditions have been satisfied or waived. Notwithstanding anything to the contrary contained in the indenture, a Change of Control Offer may be made in advance of a Change of Control, conditioned upon the consummation of such Change of Control, if a definitive agreement is in place for the Change of Control at the time the Change of Control Offer is made. The closing date of any such Change of Control Offer made in advance of a Change of Control may be changed to conform to the actual closing date of the Change of Control, *provided* that such closing date is not earlier than 30 days nor later than 60 days from the date the Change of Control Offer notice is mailed as described in the paragraph above. Additionally, the Company may, at its option, include in any Change of Control Offer an early tender payment, early consent payment or consent payment, so long as any such payment is in addition to the purchase price set forth in the initial paragraph of this section.

If holders of not less than 90% in aggregate principal amount of the outstanding notes validly tender and do not withdraw such notes in a Change of Control Offer and the Issuer, or any third party making a Change of Control Offer in lieu of the Issuer as described above, purchases all of the notes validly tendered and not withdrawn by such holders, the Issuer or such third party will have the right, upon not less than 30 days nor more than 60 days' prior notice, given not more than 30 days following such purchase pursuant to the Change of Control Offer described above, to redeem all notes that remain outstanding following such purchase at a price in cash equal to 101% of the principal amount thereof, plus accrued and unpaid interest to, but not including, the date of redemption.

The occurrence of a Change of Control may constitute a default under the Credit Agreement and any other Credit Facility we may enter into from time to time. Our future Indebtedness may contain prohibitions of certain events that would constitute a Change of Control or require such Indebtedness to be repurchased or repaid upon a Change of Control. Moreover, the exercise by the holders of their right to require the Issuer to purchase the notes could cause a default under such Indebtedness, even if the Change of Control itself does not, due to the financial effect of such repurchase on the Issuer. Finally, the Issuer's ability to pay cash to the holders upon a purchase may be limited by the Issuer's then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make required purchases. The provisions under the indenture relative to the Issuer's obligation to make an offer to purchase the notes as a result of a Change of Control may be waived or modified prior to the occurrence of a Change of Control with the written consent of the holders of a majority in principal amount of the notes.

The Company and the Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with the repurchase of notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the "Change of Control" provisions of the indenture, the Company and the Issuer shall comply with the applicable securities laws and regulations and shall not be deemed to have breached their obligations under the "Change of Control" provisions of the indenture by virtue thereof.

Covenants

Set forth below are summaries of certain covenants that will be contained in the indenture.

Suspension of Covenants on Achievement of Investment Grade Status

Following the first day that:

- (a) the notes have achieved Investment Grade Status; and
- (b) no Default or Event of Default has occurred and is continuing under the indenture,

then, beginning on that day and continuing until the Reversion Date (as defined below), the Company and its Restricted Subsidiaries will not be subject to the provisions of the indenture summarized under the following headings (collectively, the "Suspended Covenants"):

- " Limitation on Restricted Payments,"
 - " Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock,"
 - " Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries,"
 - " Limitation on Transactions with Affiliates,"
 - " Limitation on Asset Sales,"
 - " Limitation on Guarantees by Restricted Subsidiaries," and
- the provisions of clause (2) of the first paragraph of " Merger, Consolidation and Sale of Assets."

If at any time (a)(i) the notes cease to have such Investment Grade Status and/or (ii) the Issuer or any of its Affiliates enters into an agreement to effect a transaction and one or more of the Rating Agencies indicate that if consummated, that transaction (alone or together with any related recapitalization or refinancing transactions) would cause that Rating Agency to withdraw its Investment Grade Status for such notes or downgrade the ratings assigned to such notes below an Investment Grade Status or (b) if a Default or Event of Default occurs and is continuing, then the Suspended Covenants will thereafter be reinstated under the indenture as if such covenants had never been suspended (the "Reversion Date") and be applicable pursuant to the terms of the indenture (including in connection with performing any calculation or assessment to determine compliance with the terms of the indenture), unless and until the notes subsequently attain Investment Grade Status and no Default or Event of Default is in existence (in which event the Suspended Covenants shall no longer be in effect for such time that the notes maintain an Investment Grade Status and no Default or Event of Default is in existence); *provided, however*, that no Default, Event of Default or breach of any kind shall be deemed to exist under the indenture, the notes or the guarantees with respect to the Suspended Covenants based on, and none of the Issuers or any of their Subsidiaries shall bear any liability for, any actions taken or events occurring during the Suspension Period (as defined below), or any actions taken at any time pursuant to any contractual obligation arising prior to the Reversion Date, regardless of whether such actions or events would have been permitted if the applicable Suspended Covenants remained in effect during such period. The period of time between the date of suspension of the covenants and the Reversion Date is referred to as the "*Suspension Period*."

On the applicable Reversion Date (i) all Indebtedness incurred or Preferred Stock issued during such Suspension Period will be classified to have been incurred or issued pursuant to clause (3) of the definition of "Permitted Indebtedness" (ii) after any Reversion Date calculations of the amount available to be made as Restricted Payments under the caption " Limitation on Restricted Payments" will be calculated as though the

covenant described under the caption " Limitation on Restricted Payments" had been in effect since the Issue Date and throughout the Suspension Period, (iii) any

Table of Contents

Affiliate Transaction entered into after the applicable Reversion Date pursuant to an agreement entered into during such Suspension Period shall be deemed to be permitted pursuant to clause (5) of the second paragraph under the caption of " Limitation on Transactions with Affiliates," and (iv) purposes of the covenant described under " Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries," all contracts entered into during the Suspension Period prior to such Reversion Date that contain any of the restrictions contemplated by such covenant will be deemed to have been entered pursuant to clause (2) of the second paragraph of " Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries." No Subsidiary may be designated as an Unrestricted Subsidiary during the Suspension Period, unless such designation would have complied with the covenant described under " Limitation on Restricted Payments" as if such covenant were in effect during such period. In addition, during the Suspension Period, the obligation to grant further guarantees will be suspended. Upon the Reversion Date, the obligation to grant guarantees will be reinstated.

The Company shall provide an Officer's Certificate to the trustee indicating the commencement of any Suspension Period or the Reversion Date. The trustee will have no obligation to (i) independently determine or verify if such events have occurred, (ii) make any determination regarding the impact of actions taken during the Suspension Period on the Company and its Restricted Subsidiaries' future compliance with their covenants or (iii) notify the holders of the commencement of the Suspension Period or the Reversion Date.

There can be no assurance that the notes will ever achieve or maintain Investment Grade Status.

Limitation on Restricted Payments

The Company will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly,

(a) declare or pay any dividend or make any distribution (other than dividends or distributions payable in Qualified Capital Stock of the Company or in warrants, rights or options (other than debt securities or Disqualified Capital Stock) to acquire Qualified Capital Stock of the Company) on or in respect of shares of the Company's Capital Stock to holders of such Capital Stock,

(b) purchase, redeem or otherwise acquire or retire for value any Capital Stock of the Company or any warrants, rights or options (other than debt securities or Disqualified Capital Stock) to purchase or acquire shares of any class of such Capital Stock, other than the exchange of such Capital Stock, warrants, rights or options for Qualified Capital Stock and/or for warrants, rights or options (other than debt securities or Disqualified Capital Stock) to acquire Qualified Capital Stock,

(c) make any principal payment on, or purchase, repurchase, defease, redeem or otherwise acquire or retire for value of, any Subordinated Indebtedness of the Issuer or any guarantor except (i) the payment of principal at the Stated Maturity thereof, (ii) the purchase, repurchase, defeasance, redemption or other acquisition or retirement of any such Subordinated Indebtedness purchased in anticipation of satisfying a sinking fund obligation, principal installment or payment at Stated Maturity, in each case due within one year of the date of purchase, repurchase, defeasance, redemption or other acquisition or retirement, and (iii) any Indebtedness incurred pursuant to clause (6) of the definition of "Permitted Indebtedness," or

(d) make any Restricted Investment (other than Permitted Investments)

(each of the foregoing actions set forth in clauses (a), (b), (c) and (d) being referred to as a "Restricted Payment"), if at the time of such Restricted Payment, or immediately after giving effect thereto,

income of the Company and its Subsidiaries (the "Consolidated Group"), *provided* that the total amount of any payment pursuant to this clause for any taxable period shall not exceed the amount that the Consolidated Group would be required to pay in respect of federal, state and local income taxes for such period, determined by taking into account any available net operating loss carryovers or other tax attributes of the Consolidated Group as if the Consolidated Group filed a separate consolidated, combined, unitary or affiliated income tax return, less the amount of any such taxes payable directly by the Consolidated Group, (ii) customary fees, salary, bonus, severance and other benefits payable to, and indemnities provided on behalf of, their current and former officers and employees and members of their Board of Directors, (iii) ordinary course corporate operating expenses and other fees and expenses required to maintain its corporate existence, (iv) reasonable fees and expenses incurred in connection with any debt or equity offering or other financing transaction by any Parent Company, to the extent the net proceeds thereof are (or, in the case of an unsuccessful offering, were intended to be) used for the benefit of the Company and its Restricted Subsidiaries, whether or not completed and (v) reasonable fees and expenses in connection with compliance with reporting obligations under, or in connection with compliance with, federal or state laws or under the indenture or any other agreement governing indebtedness of the Company or its Subsidiaries; and

(14) so long as no Default or Event of Default shall have occurred and be continuing, any other Restricted Payment by the Company in an aggregate amount not to exceed \$50 million in any fiscal year; *provided*, that the Company may carry over in subsequent fiscal years, in addition to the amounts permitted for such fiscal year, up to \$150.0 million of unutilized capacity under this clause (14) attributable to preceding fiscal years.

Notwithstanding the foregoing (including the first paragraph of this covenant) the Company shall not be permitted to make any Restricted Payment which would constitute a principal payment on, or purchase, repurchase, defease, redeem or otherwise acquire or retire for value, any Subordinated Indebtedness, in each case with the proceeds of Senior Indebtedness, unless the final scheduled maturity date of such Subordinated Indebtedness is no greater than 18 months from the date the Company makes such Restricted Payment.

Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock

The Company will not, and will not permit any of its Restricted Subsidiaries to, incur any Indebtedness other than Permitted Indebtedness and will not permit any of its Restricted Subsidiaries to issue any Preferred Stock other than Permitted Indebtedness; *provided, however*, that if no Default or Event of Default shall have occurred and be continuing at the time or as a consequence of the incurrence of any such Indebtedness, the Company or any Restricted Subsidiary may incur Indebtedness and any of the Restricted Subsidiaries may issue Preferred Stock if, on the date of the incurrence of such Indebtedness or issuance of such Preferred Stock, after giving effect to the incurrence or issuance thereof, the Consolidated Fixed Charge Coverage Ratio of the Company is equal to or greater than 2.0 to 1.0; *provided, further*, that Restricted Subsidiaries (other than the Issuer) that are not guarantors may not incur Indebtedness or issue Preferred Stock pursuant to the foregoing proviso if, after giving *pro forma* effect to such incurrence or issuance and application of proceeds thereof, the aggregate amount of outstanding Indebtedness and Preferred Stock of Restricted Subsidiaries (other than the Issuer) that are not guarantors incurred pursuant to this paragraph, clause (2) and clause (13) of the definition of "Permitted Indebtedness" exceeds the greater of (x) \$500.0 million and (y) 5% of the Company's Total Assets.

For purposes of determining compliance with this " Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock" covenant, in the event that an item of Indebtedness or Preferred Stock meets the criteria of more than one of the categories of Permitted Indebtedness described in the definition of "Permitted Indebtedness," or is entitled to be incurred or issued, as the

Table of Contents

case may be, pursuant to the first paragraph of this covenant, the Company, in its sole discretion, will be permitted to classify such item of Indebtedness or Preferred Stock on the date of its incurrence or issuance, as the case may be, in any manner that complies with this covenant, or later divide, classify or reclassify (based on circumstances existing at the time of such division, classification or reclassification) all or a portion of such item of Indebtedness or Preferred Stock in any manner that complies with this covenant and such item of Indebtedness or Preferred Stock (or portion thereof, as applicable) will be treated as having been incurred or issued, as the case may be, pursuant to only such clause or clauses or the first paragraph of this covenant. Additionally, Indebtedness permitted by this covenant need not be permitted solely by reference to one provision permitting such Indebtedness but may be permitted in part by one such provision and in part by one or more other provisions of this covenant permitting such Indebtedness. Indebtedness under the term loan portion of the Credit Agreement outstanding on the date on which notes are first issued and authenticated under the indenture will initially be deemed to have been incurred on such date in reliance on the exception provided by clause (2) of the definition of Permitted Indebtedness and may not later be reclassified.

The indenture provides that the Issuer will not, and will not permit any guarantor to, directly or indirectly, incur any Indebtedness (including Acquired Indebtedness) that is subordinated or junior in right of payment to any Indebtedness of the Issuer or such guarantor, as the case may be, unless such Indebtedness is expressly subordinated in right of payment to the notes or such guarantor's guarantee to the extent and in the same manner as such Indebtedness is subordinated to other Indebtedness of the Issuer or such guarantor, as the case may be.

The indenture will not treat (1) unsecured Indebtedness as subordinated or junior in right of payment to Secured Indebtedness merely because it is unsecured or (2) Senior Indebtedness as subordinated or junior in right of payment to any other Senior Indebtedness merely because it has junior priority with respect to the same collateral.

Limitation on Transactions with Affiliates

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, enter into or permit to exist any transaction or series of related transactions with any of its Affiliates (an "Affiliate Transaction") involving aggregate consideration in excess of \$25.0 million, other than

(x) Affiliate Transactions permitted under the next paragraph, and

(y) Affiliate Transactions on terms that are not materially less favorable to the Company or such Restricted Subsidiary than those that might reasonably have been obtained in a comparable transaction at such time on an arm's-length basis from a person that is not an Affiliate;

provided, however, that for a transaction or series of related transactions with an aggregate value exceeding the greater of \$80.0 million and 1% of the Company's Total Assets, such determination shall be made in good faith by a majority of the disinterested members of the board of the directors of the Company; and *provided, further*, that for a transaction or series of related transactions with an aggregate value of \$100.0 million or more,

(1) such determination shall be made in good faith by a majority of the disinterested members of the board of directors of the Company, and

(2) the board of directors of the Company shall have received an opinion from an independent nationally recognized investment banking, accounting or valuation firm, selected by the Company, that such transaction or series of related transactions is on terms that are fair, from a financial point of view, to the Company or such Restricted Subsidiary.

Table of Contents

- (2) transactions between or among the Company and any of its Restricted Subsidiaries;
- (3) any agreement as in effect as of the Issue Date or any amendment thereto or any transaction contemplated thereby (including pursuant to any amendment thereto) or by any replacement agreement thereto so long as any such amendment or replacement agreement is not more disadvantageous to the holders generally in any material respect than the original agreement as in effect on the Issue Date as determined in good faith by the Company;
- (4) Permitted Investments and Restricted Payments permitted by the indenture;

- (7) transactions in which the only consideration paid by the Company or its Restricted Subsidiaries consists of Qualified Capital Stock of the Company or any capital contribution otherwise permitted by the indenture;
- (8) payments or loans (or cancellations of loans) to officers, managers, directors, consultants and employees of the Company, any of its direct or indirect parent companies or any Restricted Subsidiary and employment agreements, stock option plans and other compensatory or benefit arrangements with such officers, managers, directors, consultants and employees that are, in each case, approved by the Company in good faith;
- (9) transactions in which the Company or any Restricted Subsidiary, as the case may be, delivers to the trustee a letter from a nationally recognized investment banking, accounting or valuation firm selected by the Company stating that such transaction is fair to the Company or such Restricted Subsidiary from a financial point of view or meets the requirements of clause (y) of the first paragraph of this covenant;
- (10) transactions with customers, clients, suppliers, or purchasers or sellers of goods or services, in each case in the ordinary course of business and otherwise in compliance with the terms of the indenture that are fair to the Company and the Restricted Subsidiaries, in the good faith determination of the Board of Directors or the senior management of the Company, or are on terms at least as favorable as might reasonably have been obtained at such time from an unaffiliated party;
- (11) investments by an Affiliate in securities of the Company or any of its Restricted Subsidiaries so long as the investment is being offered generally to other investors on the same or more favorable terms;
- (12) transactions between the Company or any Restricted Subsidiary and any person that is an Affiliate of the Company or any Restricted Subsidiary solely because a director of such Person is also a director of the Company or any direct or indirect parent entity of the Company; *provided* that such director abstains from voting as a director of the Company or any direct or indirect parent entity of the Company, as the case may be, on any matter involving such other Person;

Limitation on Liens

The Issuer and the Company will not, and the Company will not permit any of the other guarantors to, directly or indirectly, create, incur or assume any Lien securing Indebtedness (other than Permitted Liens) upon any property or asset now owned or hereafter acquired by them, or any income or profits therefrom, or assign or convey any right to receive income therefrom; *provided, however*, that in addition to creating Permitted Liens on their properties or assets, the Issuer, the Company and any of the other guarantors may (i) in the case of Liens securing such Subordinated Indebtedness, create any Lien securing Subordinated Indebtedness upon any of their properties or assets (including, but not limited to, any Capital Stock of its subsidiaries) if the notes are secured by a Lien on such property or assets that is senior in priority to such Liens; or (ii) in all other cases, create any Lien securing Indebtedness upon any of their properties or assets (including, but not limited to, any Capital Stock of its subsidiaries) if the notes are equally and ratably secured.

Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or otherwise cause or permit to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to:

(a) pay dividends or make any other distributions on or in respect of its Capital Stock;

(b) make loans or advances to or pay any Indebtedness or other obligation owed to the Company or any other Restricted Subsidiary of the Company; or

(4) any agreement or instrument governing Acquired Indebtedness, which encumbrance or restriction is not applicable to any person, or the properties or assets of any person, other than (a) the person or the properties or assets of the person so acquired (including the Capital Stock of such person), or (b) any Restricted Subsidiary having no assets other than (i) the person or the properties or assets of the person so acquired (including the Capital Stock of such person) and (ii) other assets having a fair market value not in excess of \$5.0 million, and, in each case, the monetary proceeds thereof,

(14) the subordination of any Indebtedness owed by the Company or any of its Restricted Subsidiaries to the Company or any other Restricted Subsidiary to any other Indebtedness of the Company or any of its Restricted Subsidiaries; *provided* that (A) such other Indebtedness is permitted under the indenture and (B) the Company has determined in good faith, at the time of creation of each such encumbrance or restriction, that such encumbrances and restrictions would

Merger, Consolidation and Sale of Assets

Neither the Company nor the Issuer will, in a single transaction or series of related transactions, consolidate or merge with or into any person, or sell, assign, transfer, lease, convey or otherwise dispose of (or cause or permit any Restricted Subsidiary of the Company to sell, assign, transfer, lease, convey or otherwise dispose of) all or substantially all of the Company's assets (determined on a consolidated basis for the Company and its Restricted Subsidiaries) whether as an entirety or substantially as an entirety to any person unless:

(1) either (A) the Company, the Issuer or a Restricted Subsidiary of the Company shall be the surviving or continuing person or (B) the person, if other than the Company, the Issuer or a Restricted Subsidiary of the Company, formed by such consolidation or into which the Company or the Issuer is merged, or the person that acquires by sale, assignment, transfer, lease, conveyance or other disposition of all or substantially all of the Company's assets determined on a consolidated basis for the Company and its Restricted Subsidiaries (the "Surviving Entity"), (x) shall be a person organized and validly existing under the laws of the United States or any State thereof or the District of Columbia and (y) shall expressly assume, by supplemental indenture, executed and delivered to the trustee, the due and punctual payment of the principal of and premium, if any, and interest on all of the notes and the performance of every covenant of the notes, the indenture and the 2022 registration rights agreement on the part of the Company or the Issuer, as applicable, to be performed or observed;

(2) immediately after giving effect to such transaction and the assumption contemplated by clause (1)(B)(y) above, including giving effect to any Indebtedness and Acquired Indebtedness incurred or anticipated to be incurred in connection with or in respect of such transaction, either (A) the Company or such Surviving Entity, as the case may be, shall be able to incur at least \$1.00 of additional Indebtedness, other than Permitted Indebtedness, pursuant to the " Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock" covenant or (B) the Consolidated Fixed Charge Coverage Ratio for the Company or such Surviving Entity, as the case may be, immediately following such transaction would be equal to or greater than such ratio for the Company immediately prior to such transaction;

(3) immediately before and immediately after giving effect to such transaction and the assumption contemplated by clause (1)(B)(y) above, including, without limitation, giving effect to any Indebtedness and Acquired Indebtedness incurred or anticipated to be incurred and any Lien granted in connection with or in respect of the transaction, no Default or Event of Default shall have occurred and be continuing; and

(4) the Company, the Issuer or such Surviving Entity, as the case may be, shall have delivered to the trustee an Officer's Certificate and an opinion of counsel, each stating that such consolidation, merger, sale, assignment, transfer, lease, conveyance or other disposition and, if a supplemental indenture is required in connection with such transaction, such supplemental

indenture, shall comply with the applicable provisions of the indenture and that all conditions precedent in the indenture relating to the execution of such supplemental indenture have been satisfied.

For purposes of the foregoing, the transfer, by lease, assignment, sale or otherwise, in a single transaction or series of transactions, of all or substantially all of the properties or assets of one or more Restricted Subsidiaries of the Company, other than to a Wholly Owned Restricted Subsidiary of the Company, the Capital Stock of which constitutes all or substantially all of the properties and assets of the Company, shall be deemed to be the transfer of all or substantially all of the properties and assets of the Company.

The indenture provides that upon any consolidation, combination or merger or any transfer of all or substantially all of the assets of the Company or the Issuer, as applicable, in accordance with the foregoing, in which the Company or the Issuer, as applicable, is not the continuing person, the successor person formed by such consolidation or into which the Company or the Issuer, as applicable, is merged or to which such conveyance, lease or transfer is made shall succeed to, and be substituted for, and may exercise every right and power of, the Company or the Issuer, as applicable, under the indenture and the notes with the same effect as if such Surviving Entity had been named as such and the Company or the Issuer, as applicable, shall be relieved of all of its obligations and duties under the indenture and the notes.

Each guarantor (other than the Company), other than any guarantor whose guarantee is to be released in accordance with the terms of the guarantee and the indenture, will not, and the Company will not cause or permit any such guarantor to, consolidate with or merge with or into any person other than the Company, the Issuer or any other guarantor unless:

- (1) the entity formed by or surviving any such consolidation or merger, if other than such guarantor, or to which such sale, lease, conveyance or other disposition shall have been made is a person organized and existing under the laws of the United States or any State thereof or the District of Columbia;
- (2) such entity assumes by supplemental indenture all of the obligations of such guarantor under the guarantee; and
- (3) immediately after giving effect to such transaction, no Default or Event of Default shall have occurred and be continuing.

Any merger or consolidation of a guarantor (other than the Company) with and into the Company or the Issuer, with the Company or the Issuer being the Surviving Entity, or another guarantor that is a Wholly Owned Restricted Subsidiary of the Company need not comply with this covenant.

Limitation on Asset Sales

The Company will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

- (1) the Company or one or more of its Restricted Subsidiaries, as the case may be, receives consideration at the time of such Asset Sale at least equal to the fair market value of the assets sold or otherwise disposed of;
- (2) at least 75% of the consideration received by the Company or such Restricted Subsidiaries, exclusive of indemnities, as the case may be, from such Asset Sale is cash or Cash Equivalents and is received at the time of such disposition; *provided* that the amount of (a) any liabilities of the Company or any such Restricted Subsidiary, as shown on the Company's or such Restricted Subsidiary's most recent balance sheet (or in the notes thereto), that are assumed by the transferee of any such assets, (b) any securities, notes or other obligations received by the

Table of Contents

Company or any such Restricted Subsidiary from such transferee that are converted by the Company or such Restricted Subsidiary into cash or Cash Equivalents within one year of the time of such disposition, to the extent of the cash or Cash Equivalents received, and (c) any Designated Non-Cash Consideration received by the Company or any of its Restricted Subsidiaries in such Asset Sale having an aggregate fair market value, taken together with all other Designated Non-Cash Consideration received pursuant to this clause (c) that is at that time outstanding, not to exceed the greater of \$200.0 million and 2.25% of the Company's Total Assets, with the fair market value of each item of Designated Non-Cash Consideration being measured at the time received and without giving effect to subsequent changes in value, will be deemed to be cash for the purposes of this clause (2); and

(3) upon the consummation of an Asset Sale, the Company applies directly or through a Restricted Subsidiary, or causes one or more of its Restricted Subsidiaries to apply, an amount equal to the Net Cash Proceeds relating to such Asset Sale within 365 days of receipt thereof, at the option of the Company, either (A) to repay any Secured Indebtedness the incurrence of which was permitted by the indenture (and, if the Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto), other than Indebtedness owed to the Company or another Restricted Subsidiary, (B) to repay any Indebtedness of a Restricted Subsidiary that is not a guarantor, (C) to repay or repurchase Pari Passu Indebtedness (*provided* that the Issuer shall (i) redeem or repurchase at least a pro rata portion of the notes (based on the amount so applied to such repayments or repayments or repurchases of Pari Passu Indebtedness), by, at the Company's option, (a) redeeming notes as described above under the caption " Optional Redemption" or (b) through privately negotiated transactions or open market purchases (to the extent such purchases are a price at or above 100% of the principal amount thereof *plus* the amount of accrued but unpaid interest, if any, thereon) or (ii) offer to redeem or repurchase at least a pro rata portion of the notes (based on the amount so applied to such repayments or repayments or repurchases of Pari Passu Indebtedness) by making an offer (in accordance with the procedures set forth below for an Net Proceeds Offer) to all holders to purchase the notes at a price at or above 100% of the principal amount thereof, *plus* the amount of accrued but unpaid interest, if any, on the amount of notes that would otherwise be prepaid), (D) to reinvest in Productive Assets (or enter into a binding commitment to reinvest, if such reinvestment is effected within 180 days after the date of such commitment), or (E) a combination of prepayment, reduction and investment permitted by the foregoing clauses (3)(A) through (3)(D);

provided that the 75% limitation referred to above will not apply to any sale, transfer or other disposition of assets in which the cash portion of the consideration received therefor is equal to or greater than what the after-tax net proceeds would have been had such transaction complied with the aforementioned 75% limitation. On the 366th day after an Asset Sale (or the 181st day after the entry into a binding commitment to reinvest) or such earlier date, if any, as the Company in good faith determines not to apply an amount equal to the Net Cash Proceeds relating to such Asset Sale as set forth in clause (3) of the preceding sentence (each, a "Net Proceeds Offer Trigger Date"), such aggregate amount of Net Cash Proceeds that have not been so applied on or before such Net Proceeds Offer Trigger Date as permitted in clause (3) of the preceding sentence (each, a "Net Proceeds Offer Amount") the Issuer will make an offer to repurchase (the "Net Proceeds Offer") on a date (the "Net Proceeds Offer Payment Date") not less than 30 nor more than 60 days following the applicable Net Proceeds Offer Trigger Date (or such longer period as may be required by law), from all holders, that amount of notes equal to the aggregate amount of Net Cash Proceeds that have not been so applied on or before such Net Proceeds Offer Trigger Date as permitted in clause (3) of the preceding sentence multiplied by a fraction, the numerator of which is the aggregate principal amount of notes then outstanding and the denominator of which is the sum of the aggregate principal amount of notes and Pari Passu Indebtedness then

Table of Contents

outstanding (the "Pro Rata Amount"), at a price equal to 100% of the principal amount of the notes to be repurchased, plus accrued interest to the date of repurchase.

Notwithstanding the foregoing, if a Net Proceeds Offer Amount is less than \$50.0 million, the application of the Net Cash Proceeds constituting such Net Proceeds Offer Amount to a Net Proceeds Offer may be deferred until such time as such Net Proceeds Offer Amount plus the aggregate amount of all Net Proceeds Offer Amounts arising subsequent to the Net Proceeds Offer Trigger Date relating to such initial Net Proceeds Offer Amount from all Asset Sales by the Company and its Restricted Subsidiaries aggregates at least \$50.0 million, at which time the Issuer will apply all Net Cash Proceeds constituting all Net Proceeds Offer Amounts that have been so deferred to make a Net Proceeds Offer, the first date the aggregate of all such deferred Net Proceeds Offer Amounts is at least \$50.0 million being deemed to be a Net Proceeds Offer Trigger Date. To the extent that the aggregate purchase price of notes tendered pursuant to any Net Proceeds Offer is less than the Pro Rata Amount, the Issuer or any guarantor may use such amount for any purpose not prohibited by the indenture. Upon completion of any Net Proceeds Offer, the Net Proceeds Offer Amount shall be reset to zero.

The Credit Agreement restricts the ability of the Issuer to repurchase the notes, subject to certain exceptions. Accordingly, if required to make a Net Proceeds Offer, the Issuer may need the consent of the lenders under the Credit Agreement. The failure of the Issuer to make a required Net Proceeds Offer and repurchase notes subject thereto would be an Event of Default.

Notwithstanding the first two paragraphs of this covenant, the Company and its Restricted Subsidiaries will be permitted to consummate an Asset Sale without complying with such paragraphs to the extent

(1) at least 50% of the consideration for such Asset Sale constitutes Productive Assets; and

(2) such Asset Sale is for fair market value; *provided* that the fair market value of any consideration not constituting Productive Assets received by the Company or any of its Restricted Subsidiaries in connection with any Asset Sale permitted to be consummated under this paragraph will constitute Net Cash Proceeds subject to the provisions of the first two paragraphs of this covenant.

In the event of the transfer of substantially all, but not all, of the property and assets of the Company and its Restricted Subsidiaries as an entirety to a person in a transaction permitted under the " Merger, Consolidation and Sale of Assets" covenant, the successor corporation will be deemed to have sold the properties and assets of the Company and its Restricted Subsidiaries not so transferred for purposes of this covenant, and will comply with the provisions of this covenant with respect to such deemed sale as if it were an Asset Sale. In addition, the fair market value of such properties and assets of the Company or its Restricted Subsidiaries deemed to be sold will be deemed to be Net Cash Proceeds for purposes of this covenant.

Notice of a Net Proceeds Offer will be mailed to the holders as shown on the register of holders not less than 30 days nor more than 60 days before the payment date for the Net Proceeds Offer, with a copy to the trustee, and will comply with the procedures set forth in the indenture. Upon receiving notice of the Net Proceeds Offer, holders may elect to tender their notes in whole or in part (in integral multiples of \$1,000 principal amount; *provided* that the Issuer will repurchase notes of \$2,000 or less in whole and not in part) at maturity in exchange for cash. To the extent holders properly tender notes in an amount exceeding the Net Proceeds Offer Amount, the trustee will select the notes or portions thereof to be repurchased among the holders of the notes as follows:

(1) if the notes are listed, in compliance with any applicable requirements of the principal national securities exchange on which the notes are listed; or

Table of Contents

- (2) if the notes are not so listed, on a *pro rata* basis, by lot or by any other method the trustee considers fair and appropriate.

A Net Proceeds Offer shall remain open for a period of 20 Business Days or such longer period as may be required by law.

If an offer is made to repurchase the notes pursuant to a Net Proceeds Offer, the Company will and will cause its Restricted Subsidiaries to comply with all tender offer rules under state and federal securities laws, including, but not limited to, Section 14(e) under the Exchange Act and Rule 14e-1 thereunder, to the extent applicable to such offer.

Limitation on Guarantees by Restricted Subsidiaries

The Company will not permit any Wholly Owned Domestic Restricted Subsidiary (other than the Issuer, a guarantor or an Immaterial Subsidiary) to, directly or indirectly, by way of the pledge of any intercompany note or otherwise, to assume, guarantee or in any other manner become liable with respect to any Indebtedness of the Company or the Issuer, other than:

(1) Indebtedness incurred in reliance on and in compliance with the first paragraph under the heading " Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock,"

(2) Indebtedness incurred in reliance on clause (12) (to the extent the Indebtedness being refinanced, modified, replaced, renewed, restated, refunded, deferred, extended, substituted, supplemented, reissued or resold was permitted to be guaranteed by Restricted Subsidiaries that are not guarantors) of the definition of Permitted Indebtedness,

(3) Hedge Agreements in reliance on clause (4) of the definition of Permitted Indebtedness, or

(4) additional Indebtedness incurred in reliance on clause (13) or (14) of the definition of Permitted Indebtedness,

unless, in any such case

(a) such Restricted Subsidiary has executed and delivered or, within 10 Business Days thereof, executes and delivers a supplemental indenture to the indenture, providing a guarantee of payment of the notes by such Restricted Subsidiary in the form required by the indenture and

(b) if such assumption, guarantee or other liability of such Restricted Subsidiary is provided in respect of Indebtedness that is expressly subordinated in right of payment to the notes, the guarantee or other instrument provided by such Restricted Subsidiary in respect of such subordinate Indebtedness is similarly subordinated in right of payment to the guarantee of the notes.

Any guarantee of the notes by a Restricted Subsidiary will provide by its terms that it will be automatically and unconditionally released and discharged, without any further action required on the part of the trustee or any holder, upon:

(1) (a) such guarantor being released from any and all guarantees of Indebtedness of the Company and the Issuer (other than guarantees permitted to be provided by non-guarantor Restricted Subsidiaries pursuant to the preceding paragraph), and (b) if such guarantor will remain a subsidiary of the Company, it has no other outstanding Indebtedness other than Indebtedness that could be incurred by a Restricted Subsidiary that is not a guarantor of the notes on the date of the proposed release of such guarantor's guarantee;

Table of Contents

(2) the unconditional release of such Restricted Subsidiary from its liability in respect of the Indebtedness in connection with which such guarantee of the notes was executed and delivered pursuant to the preceding paragraph;

(3) any designation of such subsidiary as an Unrestricted Subsidiary in accordance with the provisions set forth under " Limitation on Restricted Payments" and the definition of "Unrestricted Subsidiary";

(4) any sale or other disposition (by merger or otherwise) (i) to any person that is not a guarantor (other than an Immaterial Subsidiary), of all of the Company's Capital Stock in, or all or substantially all of the assets of, such Restricted Subsidiary or (ii) of any portion of the Company's Capital Stock in such Restricted Subsidiary that results in such Restricted Subsidiary ceasing to be a Wholly Owned Domestic Restricted Subsidiary of the Company; *provided, however*, that

(a) such sale or disposition of such Capital Stock or assets is otherwise in compliance with the terms of the indenture; and

(b) such assumption, guarantee or other liability of such Restricted Subsidiary has been released by the holders of the other Indebtedness so guaranteed;

provided that any Restricted Subsidiary that constitutes an Immaterial Subsidiary need not become a guarantor until such time as it ceases to be an Immaterial Subsidiary, within 10 Business Days of which it shall provide a guarantee as contemplated by subparagraph (4)(a) above; and *provided, further*, that if, at the end of the most recent fiscal year for which internal financial statements are then available, all Immaterial Subsidiaries, in the aggregate, have total assets as of the end of the most recent fiscal year for which internal financial statements are then available in excess of 2.5% of the Company's Total Assets and Total Revenues as of the end of the most recent fiscal year for which internal financial statements are then available in excess of 2.5% of the Company's Total Revenues, one or more of such subsidiaries shall, within 10 Business Days of such internal financial statements becoming available, provide a guarantee so that in the aggregate the total assets of all Immaterial Subsidiaries that are not guarantors as of the end of such fiscal year are not in excess of 2.5% of the Company's Total Assets and their Total Revenues as of the end of the most recent fiscal year for which internal financial statements are then available are not in excess of 2.5% of the Company's Total Revenues.

Events of Default

The following events are defined in the indenture as "Events of Default":

(1) the failure to pay interest on any notes when the same becomes due and payable and the default continues for a period of 30 days; or

(2) the failure to pay the principal on any notes, when such principal becomes due and payable, at maturity, upon redemption or otherwise, including the failure to make a payment to repurchase notes tendered pursuant to a Change of Control Offer or a Net Proceeds Offer; or

(3) a default in the observance or performance of any other covenant or agreement contained in such indenture which default continues for a period of 60 days after the Issuer receives written notice specifying the default, and demanding that such default be remedied, from the trustee or the holders of at least 25% of the outstanding principal amount of the notes; or

(4) the failure to pay at final maturity, giving effect to any extensions thereof, the principal amount of any Indebtedness of the Company, the Issuer or any Restricted Subsidiary of the Company that is a Significant Subsidiary (a "Payment Default"), other than intercompany Indebtedness, and such failure continues for a period of 20 days or more, or the acceleration of

the final stated maturity of any such Indebtedness, which acceleration is not rescinded, annulled or otherwise cured within 20 days of receipt by the Company, the Issuer or such Restricted Subsidiary of notice of any such acceleration, if, in either case, the aggregate principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness in default for failure to pay principal at final maturity or which has been accelerated, in each case with respect to which the 20-day period described above has passed, aggregates \$100.0 million or more at any time; or

(5) other than with respect to the Colombia Matter, any final judgment or final judgments for the payment of money in excess (net of amounts covered by third-party insurance with insurance carriers who in the reasonable judgment of the Company are creditworthy and who have not disclaimed liability with respect to such judgment or judgments) of \$100.0 million is rendered by a court of competent jurisdiction against the Company, the Issuer or any Restricted Subsidiary of the Company that is a Significant Subsidiary and is not discharged for any period of 60 consecutive days during which a stay of enforcement is not in effect; or

During the continuance of any Event of Default specified in the indenture (other than an Event of Default with respect to bankruptcy proceedings of the Company or the Issuer), the trustee or the holders of at least 25% in principal amount of outstanding notes may declare the principal of and accrued interest on all the notes to be due and payable by notice in writing to the Issuer and the trustee specifying the respective Event of Default and that it is a "notice of acceleration," and the same will become immediately due and payable. If an Event of Default with respect to bankruptcy proceedings of the Company or the Issuer occurs and is continuing, then such amount shall *ipso facto* become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of notes.

- (1) if the rescission would not conflict with any judgment or decree;
- (2) if all existing Events of Default have been cured or waived except nonpayment of principal or interest that has become due solely because of the acceleration;
- (3) to the extent the payment of such interest is lawful, interest on overdue installments of interest and overdue principal, which has become due otherwise than by such declaration of acceleration, has been paid;

The holders of a majority in principal amount of the notes may waive any existing Default or Event of Default under the indenture, and its consequences, except a default in the payment of the principal of or interest on any such notes.

The trustee shall not be deemed to have notice of any default or Event of Default (other than a payment default) unless a responsible officer of the trustee has received written notice of any event which is in fact such a default or Event of Default at the Corporate Trust Office of the trustee and such notice references the notes and the indenture.

Defeasance

The indenture will cease to be of further effect as to all outstanding notes, except as to (1) rights of registration of transfer, substitution and exchange of notes, (2) rights of holders to receive payments of principal of, premium, if any, and interest on the notes and any other rights of the holders with respect to such amounts, (3) the rights, obligations and immunities of the trustee under the indenture and (4) certain other specified provisions in the indenture (the foregoing exceptions (1) through (4) are collectively referred to as the "Reserved Rights"), if:

(a) the Issuer irrevocably deposits, or causes to be deposited, with the trustee, in trust for the benefit of the holders pursuant to an irrevocable trust and security agreement (1) U.S. Legal Tender, (2) U.S. Government Obligations or (3) a combination thereof, in an amount sufficient after payment of all federal, state and local taxes or other charges or assessments in respect thereof payable by the trustee, which through the payment of interest and principal will provide, not later than one day before the due date of payment in respect of the notes, U.S. Legal Tender in an amount which is sufficient to pay the principal of, premium, if any, and interest on the notes then outstanding on the dates on which any such payments are due and payable in accordance with the terms of the indenture and the notes (with the sufficiency of such amount to be based on the advice of a nationally recognized investment banking firm or firm of independent certified public accountants expressed in a written certification thereof delivered to the trustee if such deposit includes any U.S. Government Obligations); *provided, however*, that (x) the trustee of the irrevocable trust shall have been irrevocably instructed to pay such money or the proceeds of such U.S. Government Obligations to the trustee; and (y) the trustee shall have been irrevocably instructed to apply such money or the proceeds of such U.S. Government Obligations to the payment of said principal, premium (if any) and interest with respect to the notes;

(b) the Issuer delivers to the trustee an Opinion of Counsel from independent counsel reasonably satisfactory to the trustee or a tax ruling from the Internal Revenue Service to the effect that the holders will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such deposit and defeasance and will be subject to U.S. federal income tax in the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred; and

(c) the Issuer delivers to the trustee an Officer's Certificate and an Opinion of Counsel each stating that all conditions precedent relating to the satisfaction and discharge of the indenture have been complied with.

In addition, the Issuer may terminate all of its obligations under the indenture, except as to certain of the Reserved Rights, when (1) all outstanding notes theretofore authenticated have been delivered to the trustee for cancellation and the Issuer has paid or caused to be paid all sums payable under the indenture by the Issuer or (2) the Issuer has called for redemption pursuant to the indenture all of the notes, the amounts described in clause (a) above have been deposited as described therein, the

conditions in clauses (x) and (y) of the proviso to such clause (a) have been satisfied and the certificate and opinion described in clause (c) above have been delivered. Notwithstanding the foregoing, the Opinions of Counsel required by clauses (b) and (c) above need not be delivered if all notes not theretofore delivered to the trustee for cancellation (1) have become due and payable, (2) will become due and payable on the maturity date within one year or (3) are to be called for redemption within one year. In addition, the Issuer may at its option and at any time elect to terminate its obligations with respect to certain covenants that are set forth in the indenture, some of which are described under "Covenants" above.

Modification of the Indenture

From time to time, the Issuer and the trustee, without the consent of the holders of the notes, may amend the indenture or the notes for the following reasons:

- (1) to cure any ambiguity, defect or inconsistency so long as such change does not adversely affect the rights of any of the holders in any material respect;
- (2) to evidence the succession of another person to the Issuer or the Company and the assumption by any such successor of the covenants of the Issuer or the Company under the indenture and the notes;
- (3) to provide for the issuance of additional notes in accordance with the provisions set forth in the indenture or to provide for uncertificated notes in addition to or in place of certificated notes;
- (4) to comply with any requirements of the SEC in connection with the qualification of the indenture under the TIA;
- (5) to make any change that would provide any additional benefit or rights to the holders or that does not adversely affect the rights of any holder in any material respect;
- (6) to add a guarantor under the indenture, or to release a guarantor from its obligations under the indenture and its guarantee in accordance with the terms of the indenture;
- (7) to conform the text of the indenture, the notes or the guarantees to any provision of this "Description of 2022 New Notes" to the extent that such provision in this "Description of 2022 New Notes" was intended to be verbatim recitation of a provision in the indenture or the notes, as certified to the trustee in an Officers' Certificate; or
- (8) to secure the notes and the guarantees;

provided that the Issuer has delivered to the trustee an Opinion of Counsel and an Officer's Certificate, each stating that such amendment or supplement complies with the provisions of the indenture.

Other modifications and amendments of the indenture or the notes may be made with the consent of the holders of a majority in principal amount of the then outstanding notes issued under the indenture, except that, without the consent of each holder of the notes affected thereby, no amendment may:

- (1) reduce the amount of notes whose holders must consent to an amendment;
- (2) reduce the rate of or extend the time for payment of interest, including defaulted interest, on any notes;
- (3) reduce the principal of or change or have the effect of changing the fixed maturity of any notes, or change the date on which any notes may be subject to redemption (other than a change to the required notice period), or reduce the redemption price therefor;

(4) make any notes payable in money other than that stated in the notes;

(5) make any change in provisions of the indenture protecting the right of each holder of a note to receive payment of principal of and interest on such note on or after the due date thereof or to bring suit to enforce such payment, or permitting holders of a majority in principal amount of the notes to waive Defaults or Events of Default (other than Defaults or Events of Default with respect to the payment of principal of or interest on the notes); or

(6) adversely affect the ranking of the notes or the guarantees.

Additional Information

The indenture provides that the Company promptly will deliver to the trustee, but in any event no later than 15 days after the filing of the same with the SEC, copies of the quarterly and annual reports and of the information, documents and other reports, if any, which the Company is required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act. The indenture further provides that, notwithstanding that the Company may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Company will file with the SEC, to the extent permitted, and provide the trustee and holders with such annual reports and such information, documents and other reports specified in Sections 13 and 15(d) of the Exchange Act. Notwithstanding the foregoing, the Company shall be deemed to have delivered such information and reports with respect to any period for which it has timely submitted such information or reports on its website in accordance with the terms of the indenture. The Company will also comply with the other provisions of TIA Section 314(a). The trustee will have no responsibility whatsoever to determine whether any such filing has occurred.

Governing Law

The indenture provides that it, the notes and the guarantees will be governed by, and construed in accordance with, the laws of the State of New York but without giving effect to applicable principles of conflicts of law to the extent that the application of the law of another jurisdiction would be required thereby.

The Trustee

The indenture provides that, except during the continuance of an Event of Default, the trustee will perform only such duties as are specifically set forth in the indenture. During the existence of an Event of Default, the trustee will exercise such rights and powers vested in it by the indenture, and use the same degree of care and skill in its exercise as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs.

The indenture and the provisions of the TIA contain certain limitations on the rights of the trustee, should it become a creditor of the Issuer, to obtain payments of claims in certain cases or to realize on certain property received in respect of any such claim as security or otherwise. Subject to the TIA, the trustee will be permitted to engage in other transactions; *provided, however*, that if the trustee acquires any conflicting interest as described in the TIA, it must eliminate such conflict or resign.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, stockholder or incorporator of the Issuer, the Company or any other guarantor will have any liability for any obligations of the Issuer, the Company or any other guarantor under the notes, the guarantees or the indenture or for any claim based on, in respect of or by reason of such obligations of their creation. Each holder by accepting a note waives and releases all such liability. Such waiver and release are part of the consideration of the issuance of the notes.

For purposes of this definition, in the case of debt securities that are by their terms convertible into Capital Stock (or cash or a combination of cash and Capital Stock based on the value of the Capital Stock) of the Company or any parent company of the Company, any obligation to offer to repurchase such debt securities on a date(s) specified in the original terms of such securities, which obligation is not subject to any condition or contingency, will be treated as a final maturity date of such convertible debt securities.

"*Subordinated Indebtedness*" means Indebtedness of the Issuer or any guarantor that is subordinated in right of payment to the notes or the guarantees, respectively, including the Existing Senior Subordinated Notes.

"*Total Assets*" means for any person, as of any determination date, the total consolidated assets of such person and its Restricted Subsidiaries, as calculated in accordance with GAAP, as of the most recent date for which internal financial statements are then available, and giving pro forma effect (determined in the same manner as provided for in the definition of Consolidated Fixed Charge Coverage Ratio) to transactions that would change the amount of Total Assets.

"*Total Revenues*" means for any person, as of any determination date, the total consolidated revenues of such person and its Restricted Subsidiaries, as calculated in accordance with GAAP, as of the most recent date for which internal financial statements are then available, and giving pro forma effect (determined in the same manner as provided for in the definition of Consolidated Fixed Charge Coverage Ratio) to transactions that would change the amount of Total Revenues.

"*Transactions*" means, collectively, the offer and sale of the notes and the 2022 Secured Notes, the consummation of the Bally Acquisition (including the repayment of certain Indebtedness of Bally), the closing of the related financing transactions under, including the amendment of, the Credit Agreement and the payment of related fees and expenses as described under the heading "Use of Proceeds" in the offering memorandum relating to the notes dated November 14, 2014.

Any such Treasury Rate shall be obtained by the Company.

"*Unrestricted Subsidiary*" of any person means

- (1) any subsidiary of such person that at the time of determination is or continues to be designated an Unrestricted Subsidiary by such person in the manner provided below; and
- (2) any subsidiary of an Unrestricted Subsidiary.

The Company may designate any subsidiary (other than the Issuer) (including any newly acquired or newly formed subsidiary) to be an Unrestricted Subsidiary unless such subsidiary owns any Capital Stock of, or owns or holds any Lien on any property of, the Company, the Issuer or any other

subsidiary of the Company that is not a subsidiary of the subsidiary to be so designated; *provided, however*, that

(x) the Issuer certifies to the trustee that such designation complies with the " Covenants Limitation on Restricted Payments" covenant; and

(y) each subsidiary to be so designated and each of its subsidiaries has not at the time of designation, and does not thereafter, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable with respect to any Indebtedness pursuant to which the lender has recourse to any of the assets of the Company or any of its Restricted Subsidiaries except to the extent permitted by the provisions of the " Covenants Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock" covenant and the " Covenants Limitation on Restricted Payments" covenant.

The Company may designate any Unrestricted Subsidiary to be a Restricted Subsidiary only if

(x) immediately after giving effect to such designation, the Company is able to incur at least \$1.00 of additional Indebtedness (other than Permitted Indebtedness) in compliance with the " Covenants Limitation on Incurrence of Additional Indebtedness and Issuance of Preferred Stock" covenant, and

(y) immediately before and immediately after giving effect to such designation, no Default or Event of Default shall have occurred and be continuing.

"*Voting Stock*" of any person as of any date means the Capital Stock of such person that is at the time entitled to vote in the election of the Board of Directors of such person.

"*Weighted Average Life to Maturity*" means, when applied to any Indebtedness at any date, the number of years obtained by dividing

(a) the then outstanding aggregate principal amount of such Indebtedness into

(b) the sum of the total of the products obtained by multiplying

(1) the amount of each then remaining installment, sinking fund, serial maturity or other required payment of principal, including payment at final maturity, in respect thereof, by

(2) the number of years (calculated to the nearest one-twelfth) which will elapse between such date and the making of such payment.

For purposes of this definition, in the case of debt securities that are by their terms convertible into Capital Stock (or cash or a combination of cash and Capital Stock based on the value of the Capital Stock) of the Company or any parent company of the Company, any obligation to offer to repurchase such debt securities on a date(s) specified in the original terms of such securities, which obligation is not subject to any condition or contingency, will be treated as a final maturity date of such convertible debt securities.

"*Wholly Owned Restricted Subsidiary*" of any person means any Restricted Subsidiary of such person of which all the outstanding voting securities (other than directors' qualifying shares) are owned by such person or any Wholly Owned Restricted Subsidiary of such person.

BOOK-ENTRY SETTLEMENT AND CLEARANCE

The Global Notes

The old notes were issued and the new notes will be issued in the form of several registered notes in global form, without interest coupons (the "global notes"). The global notes representing the old notes were issued as follows:

notes sold to qualified institutional buyers under Rule 144A under the Securities Act were represented by the Rule 144A global note; and

notes sold in offshore transactions to non-U.S. persons in reliance on Regulation S under the Securities Act were represented by the Regulation S global note.

Upon issuance, each of the global notes representing the old notes were, and each of the global notes representing the new notes will be, deposited with the trustee as custodian for The Depository Trust Company ("DTC") and registered in the name of Cede & Co., as nominee of DTC.

Ownership of beneficial interests in each global note will be limited to persons who have accounts with DTC ("DTC participants") or persons who hold interests through DTC participants. We expect that under procedures established by DTC:

upon deposit of each global note with DTC's custodian, DTC will credit portions of the principal amount of the global note to the accounts of the DTC participants; and

ownership of beneficial interests in each global note will be shown on, and transfer of ownership of those interests will be effected only through, records maintained by DTC (with respect to interests of DTC participants) and the records of DTC participants (with respect to other owners of beneficial interests in the global note).

Beneficial interests in the global notes may not be exchanged for notes in physical, certificated form except in the limited circumstances described below.

Exchanges Among the Global Notes

After consummation of the exchange offer, beneficial interests in one global note representing old notes may generally be exchanged for interests in another global note representing old notes and beneficial interest in one global note representing new notes may generally be exchanged for interest in another global note representing new notes. Depending on to which global note the transfer is being made, the trustee may require the seller to provide certain written certifications in the form provided in the applicable indenture.

A beneficial interest in a global note that is transferred to a person who takes delivery through another global note will, upon transfer, become subject to any transfer restrictions and other procedures applicable to beneficial interests in the other global note.

Book-Entry Procedures for the Global Notes

All interests in the global notes will be subject to the operations and procedures of DTC. We provide the following summaries of those operations and procedures solely for the convenience of investors. The operations and procedures of DTC are controlled by DTC and may be changed at any time. Neither we nor the initial purchasers are responsible for those operations or procedures.

DTC has advised us that it is:

a limited purpose trust company organized under the laws of the State of New York;

a "banking organization" within the meaning of the New York State Banking Law;

Table of Contents

a member of the Federal Reserve System;

a "clearing corporation" within the meaning of the Uniform Commercial Code; and

a "clearing agency" registered under Section 17A of the Securities Exchange Act of 1934.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions between its participants through electronic book-entry changes to the accounts of its participants. DTC's participants include securities brokers and dealers, including the initial purchasers, banks and trust companies, clearing corporations and other organizations. Indirect access to DTC's system is also available to others such as banks, brokers, dealers and trust companies; these indirect participants clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly. Investors who are not DTC participants may beneficially own securities held by or on behalf of DTC only through DTC participants or indirect participants in DTC.

So long as DTC's nominee is the registered owner of a global note, that nominee will be considered the sole owner or holder of the notes represented by that global note for all purposes under the applicable indenture. Except as provided below, owners of beneficial interests in a global note:

will not be entitled to have notes represented by the global note registered in their names;

will not receive or be entitled to receive physical, certificated notes; and

will not be considered the owners or holders of the notes under the applicable indenture for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee under such indenture.

As a result, each investor who owns a beneficial interest in a global note must rely on the procedures of DTC to exercise any rights of a holder of notes under the applicable indenture (and, if the investor is not a participant or an indirect participant in DTC, on the procedures of the DTC participant through which the investor owns its interest).

Payments of principal, premium (if any) and interest with respect to the notes represented by a global note will be made by the trustee to DTC's nominee as the registered holder of the global note. Neither we nor the trustee will have any responsibility or liability for the payment of amounts to owners of beneficial interests in a global note, for any aspect of the records relating to or payments made on account of those interests by DTC, or for maintaining, supervising or reviewing any records of DTC relating to those interests.

Payments by participants and indirect participants in DTC to the owners of beneficial interests in a global note will be governed by standing instructions and customary industry practice and will be the responsibility of those participants or indirect participants and DTC.

Transfers between participants in DTC will be effected under DTC's procedures and will be settled in same-day funds. If the laws of a jurisdiction require that certain persons take physical delivery of securities in definitive form, the ability to transfer beneficial interests in a global note to such persons may be limited. Because DTC can only act on behalf of participants, who in turn act on behalf of indirect participants and certain banks, the ability of a person holding a beneficial interest in a global note to pledge its interest to a person or entity that does not participate in the DTC system, or otherwise take actions in respect of its interest, may be affected by the lack of a physical security.

DTC has agreed to the above procedures to facilitate transfers of interests in the global notes among participants in DTC. However, DTC is not obligated to perform these procedures and may discontinue or change these procedures at any time. Neither we nor the trustee will have any responsibility for the performance by DTC or its participants or indirect participants of their obligations under the rules and procedures governing its operations.

Certificated Notes

Notes in physical, certificated form will be issued and delivered to each person that DTC identifies as a beneficial owner of the related notes only if:

DTC notifies us at any time that it is unwilling or unable to continue as depository for the global notes and a successor depository is not appointed within 90 days;

DTC ceases to be registered as a clearing agency under the Securities Exchange Act of 1934 and a successor depository is not appointed within 90 days;

we, at our option, notify the trustee that we elect to cause the issuance of certificated notes; or

certain other events provided in the applicable indenture should occur.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS RELATING TO THE EXCHANGE OF 2021 OLD NOTES FOR 2021 NEW NOTES

The following is a discussion of certain U.S. federal income tax considerations relevant to the exchange of 2021 old notes for 2021 new notes (collectively, for purposes of this discussion, the "notes") pursuant to the exchange offer, but does not purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or foreign tax laws are not discussed. This discussion is based on the U.S. Internal Revenue Code of 1986, as amended (the "Code"), Treasury Regulations promulgated thereunder, judicial decisions, and published rulings and administrative pronouncements of the Internal Revenue Service (the "IRS"), in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a holder of the notes. We have not sought and do not intend to seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a position contrary to the positions discussed below regarding the tax consequences of the exchange of 2021 old notes for 2021 new notes pursuant to the exchange offer. The discussion applies only to the exchange of 2021 old notes for 2021 new notes pursuant to the exchange offer.

This discussion does not address all U.S. federal income tax consequences relevant to a holder's particular circumstances. In addition, it does not address consequences relevant to holders subject to special rules, including, without limitation:

U.S. expatriates and former citizens or long-term residents of the United States;

holders subject to the alternative minimum tax;

U.S. holders whose functional currency is not the U.S. dollar;

U.S. holders who hold notes through a non-U.S. broker or other non-U.S. intermediary;

persons holding the notes as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;

banks, insurance companies, and other financial institutions;

real estate investment trusts and regulated investment companies;

brokers, dealers and traders in securities;

"controlled foreign corporations," "passive foreign investment companies," and corporations that accumulate earnings to avoid U.S. federal income tax;

S corporations, partnerships and other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);

tax-exempt organizations and governmental organizations; and

persons deemed to sell the notes under the constructive sale provisions of the Code.

Edgar Filing: WMS International Holdings Inc. - Form S-4

If an entity treated as a partnership for U.S. federal income tax purposes holds the notes, the tax treatment of a partner in the partnership will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Accordingly, partnerships holding the notes and the partners in such partnerships should consult their tax advisors regarding the U.S. federal income tax consequences to them.

Exchange Pursuant to the Exchange Offer

The exchange of the 2021 old notes for the 2021 new notes in the exchange offer will not be treated as an "exchange" for U.S. federal income tax purposes because the 2021 new notes will not be considered to differ materially in kind or extent from the 2021 old notes. Accordingly, the exchange of 2021 old notes for 2021 new notes will not be a taxable event to holders for U.S. federal income tax purposes. Moreover, the 2021 new notes will have the same tax attributes as the 2021 old notes exchanged therefor and the same tax consequences to holders as the 2021 old notes have to holders, including without limitation, the same issue price, adjusted issue price, adjusted tax basis and holding period.

Tax Considerations Applicable to U.S. Holders

Definition of a U.S. Holder

For purposes of this discussion, a "U.S. Holder" is a beneficial owner of a note that, for U.S. federal income tax purposes, is or is treated as:

an individual who is a citizen or resident of the United States;

a corporation created or organized under the laws of the United States, any state thereof, or the District of Columbia;

an estate, the income of which is subject to U.S. federal income tax regardless of its source; or

a trust that (1) is subject to the primary supervision of a U.S. court and the control of one or more "United States persons" (within the meaning of Section 7701(a)(30) of the Code), or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

Payments of Stated Interest

Stated interest on a note generally will be taxable to a U.S. Holder as ordinary income at the time such interest is received or accrued, in accordance with such U.S. Holder's regular method of accounting for U.S. federal income tax purposes.

Original Issue Discount

The notes were issued with original issue discount ("OID") for U.S. federal income tax purposes, in an amount equal to the excess of their stated principal amount over their "issue price," and U.S. Holders of notes are therefore subject to special rules relating to the accrual of income for tax purposes, as described below. The issue price of the notes is the first price at which a substantial amount of the notes was sold for cash (excluding sales to bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents, or wholesalers).

Subject to the discussions below under "*Bond Premium*" and "*Acquisition Premium*," U.S. Holders generally will be required to include OID with respect to the notes in gross income (as ordinary income) for U.S. federal income tax purposes as it accrues on a constant yield to maturity basis regardless of their regular method of accounting for U.S. federal income tax purposes. As a result, U.S. Holders will include any OID in income in advance of the receipt of cash attributable to such OID.

Table of Contents

The amount of OID with respect to a note includible in income by a U.S. Holder is the sum of the "daily portions" of OID with respect to the note for each day during the taxable year or portion thereof in which such U.S. Holder holds such note. A daily portion is determined by allocating to each day in any "accrual period" a pro rata portion of the OID that accrued in such period. The accrual period of a note may be of any length and may vary in length over the term of the note, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs either on the first or last day of an accrual period. The amount of OID that accrues with respect to any accrual period is the excess of (i) the product of the note's "adjusted issue price" at the beginning of such accrual period and its "yield to maturity," determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of such period, over (ii) the amount of stated interest allocable to such accrual period. The adjusted issue price of a note at the start of any accrual period is equal to its issue price, increased by the accrued OID for each prior accrual period. The yield to maturity of a note is the discount rate that, when used in computing the present value of all principal and interest payments to be made under the note, produces an amount equal to the issue price of the note.

Market Discount

If a U.S. Holder acquires a note at a cost that is less than its revised issue price, the amount of such difference is treated as "market discount" for U.S. federal income tax purposes, unless such difference is less than 0.0025 multiplied by the stated principal amount multiplied by the number of complete years to maturity (from the date of acquisition). In general, the "revised issue price" of a note will be such note's adjusted issue price, as defined above under "*Original Issue Discount*."

Under the market discount rules of the Code, a U.S. Holder is required to treat any gain on the sale or other taxable disposition of a note as ordinary income (rather than capital gain) to the extent of any accrued market discount that has not previously been included in income. If such note is disposed of by the U.S. Holder in certain otherwise nontaxable transactions, accrued market discount must, to the extent it has not previously been included in income, be treated as ordinary income by the U.S. Holder as if the holder had sold the note at its then fair market value.

In general, the amount of market discount that has accrued is determined on a ratable basis. A U.S. Holder may, however, elect to determine the amount of accrued market discount on a constant yield to maturity basis. This election is made on a note-by-note basis and is irrevocable.

With respect to notes with market discount, a U.S. Holder may not be allowed to deduct immediately a portion of the interest expense on any indebtedness incurred or continued to purchase or to carry the notes. A U.S. Holder may elect to include market discount in income currently as it accrues, in which case the interest deferral rule set forth in the preceding sentence will not apply. This election will apply to all debt instruments acquired by the U.S. Holder on or after the first day of the first taxable year to which the election applies and is irrevocable without the consent of the IRS. A U.S. Holder's tax basis in a note will be increased by the amount of market discount included in the holder's income under the election.

Bond Premium

If a U.S. Holder purchases a note for an amount in excess of its stated principal amount, the holder will be considered to have purchased the note with "bond premium" in an amount equal to the excess, and generally will not be required to include any OID in income.

Subject to certain exceptions and the limitation discussed in the following paragraph, a U.S. Holder of a note with bond premium may elect to amortize any amortizable bond premium as an offset to stated interest over the remaining term of the note on a constant yield method. A U.S. Holder making this election must generally use any amortizable bond premium allocable to an accrual period

Table of Contents

to offset stated interest required to be included in income with respect to the applicable note in such accrual period. A U.S. Holder that elects to amortize bond premium with respect to a note must reduce its adjusted tax basis in the note by the amount of the premium amortized. An election to amortize bond premium applies to all taxable debt obligations then owned and thereafter acquired by such U.S. Holder and such election may be revoked only with the consent of the IRS.

The notes are subject to call provisions at the Issuer's option at various times. As a result, a U.S. Holder will calculate the amount of amortizable bond premium with respect to a note based on the amount payable on an applicable call date if the use of the call price and the call date results in a smaller amortizable bond premium for the period ending on the call date. In the event that the Issuer does not exercise its call rights on such call date, the note generally should be treated as reissued on the call date for the call price, and the U.S. Holder will recalculate the amount of any amortizable bond premium on such note pursuant to the principles described above. The foregoing rules may eliminate, reduce or defer any amortization deductions.

Acquisition Premium

If a U.S. Holder purchases a note and its adjusted tax basis in the note immediately after the purchase is (a) less than or equal to the stated principal amount of the note and (b) greater than the note's adjusted issue price, then the holder will be considered to have purchased the note with "acquisition premium."

If a note is purchased with acquisition premium, the U.S. Holder reduces the amount of OID that otherwise would be included in income during an accrual period by an amount equal to (i) the amount of OID otherwise includible in income multiplied by (ii) a fraction, the numerator of which is the excess of the adjusted tax basis of the note immediately after its acquisition by the U.S. Holder over the adjusted issue price of the note and the denominator of which is the excess of the stated principal amount of the note over the note's adjusted issue price.

As an alternative to reducing the amount of OID that otherwise would be included in income by this fraction, the U.S. Holder may elect to compute OID accruals by treating the purchase as a purchase at original issuance and applying the constant yield method described above under the heading " *Original Issue Discount*."

Election to Treat All Interest as OID

A U.S. Holder may elect to include in gross income all interest that accrues on a note, including any stated interest, OID, market discount, *de minimis* market discount and unstated interest, as adjusted by amortizable bond premium and acquisition premium, by using the constant yield method described above under the heading " *Original Issue Discount*." This election for a note with amortizable bond premium will result in a deemed election to amortize bond premium for all taxable debt obligations held or subsequently acquired by the U.S. Holder on or after the first day of the first taxable year to which the election applies and may be revoked only with the consent of the IRS. Similarly, this election for a note with market discount will result in a deemed election to accrue market discount in income currently for the note and for all other debt instruments acquired by the U.S. Holder with market discount on or after the first day of the taxable year to which the election first applies, and may be revoked only with the consent of the IRS. A U.S. Holder's tax basis in a note will be increased by each accrual of the amounts treated as OID under the constant yield election described in this paragraph.

Sale or Other Taxable Disposition

A U.S. Holder will recognize gain or loss on the sale, exchange, redemption, retirement or other taxable disposition of a note. The amount of such gain or loss will generally equal the difference, if

Table of Contents

any, between the amount received for the note in cash or other property valued at fair market value (less amounts attributable to any accrued but unpaid stated interest, which will be taxable as stated interest to the extent not previously included in income) and the U.S. Holder's adjusted tax basis in the note. A U.S. Holder's adjusted tax basis in a note generally will be equal to the amount the U.S. Holder paid for the note, increased by any OID or market discount previously included in income by the U.S. Holder with respect to the note and decreased by the amount of any amortizable bond premium previously taken into account by the U.S. Holder with respect to the note. Subject to the discussion of market discount above under the heading " *Market Discount*," any gain or loss will be capital gain or loss, and will be long-term capital gain or loss if the U.S. Holder has held the note for more than one year at the time of sale or other taxable disposition. Otherwise, such gain or loss will be short-term capital gain or loss. Long-term capital gains recognized by certain non-corporate U.S. Holders, including individuals, generally will be taxable at a reduced rate. The deductibility of capital losses is subject to limitations.

Information Reporting and Backup Withholding

A U.S. Holder may be subject to information reporting and backup withholding when such holder receives payments (or accrues any OID) on a note or receives proceeds from the sale or other taxable disposition of a note (including a redemption or retirement of a note). Certain U.S. Holders are exempt from backup withholding, including corporations and certain tax-exempt organizations. A U.S. Holder will generally be subject to backup withholding if such holder is not otherwise exempt and such holder:

fails to furnish the holder's taxpayer identification number, which for an individual is ordinarily his or her social security number;

furnishes an incorrect taxpayer identification number;

has been notified by the IRS that the holder previously failed to properly report payments of interest or dividends; or

fails to certify under penalties of perjury that the holder has furnished a correct taxpayer identification number and that the IRS has not notified the holder that the holder is subject to backup withholding.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS. U.S. Holders should consult their tax advisors regarding their qualification for an exemption from backup withholding and the procedures for obtaining such an exemption.

Tax Considerations Applicable to Non-U.S. Holders

Definition of a Non-U.S. Holder

For purposes of this discussion, a "Non-U.S. Holder" is a beneficial owner of a note that is neither a U.S. Holder nor an entity treated as a partnership for U.S. federal income tax purposes.

Payments of Interest

Subject to the discussion below on backup withholding and FATCA, interest (including, for purposes of this section " *Tax Considerations Applicable to Non-U.S. Holders*," accrued OID) paid on a note to a Non-U.S. Holder that is not effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States generally will not be subject to U.S. federal income tax,

Table of Contents

or withholding tax of 30% (or such lower rate specified by an applicable income tax treaty), provided that:

the Non-U.S. Holder does not, actually or constructively, own 10% or more of the total combined voting power of all classes of the Issuer's voting stock;

the Non-U.S. Holder is not a controlled foreign corporation related to the Issuer through actual or constructive stock ownership; and

either (1) the Non-U.S. Holder certifies in a statement provided to the applicable withholding agent under penalties of perjury that it is not a United States person and provides its name and address; (2) a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business and holds the note on behalf of the Non-U.S. Holder certifies to the applicable withholding agent under penalties of perjury that it, or the financial institution between it and the Non-U.S. Holder, has received from the Non-U.S. Holder a statement under penalties of perjury that such holder is not a United States person and provides a copy of such statement to the applicable withholding agent; or (3) the Non-U.S. Holder holds its note directly through a "qualified intermediary" (within the meaning of applicable Treasury Regulations) and certain conditions are satisfied.

If a Non-U.S. Holder does not satisfy the requirements above, such Non-U.S. Holder may be entitled to a reduction in or an exemption from withholding on such interest as a result of an applicable tax treaty. To claim such entitlement, the Non-U.S. Holder must provide the applicable withholding agent with a properly executed IRS Form W-8BEN or W-8BEN-E, as applicable, claiming a reduction in or exemption from withholding tax under the benefit of an income tax treaty between the United States and the country in which the Non-U.S. Holder resides or is established.

If interest paid to a Non-U.S. Holder is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such interest is attributable), the Non-U.S. Holder will be exempt from the U.S. federal withholding tax described above. To claim the exemption, the Non-U.S. Holder must furnish to the applicable withholding agent a valid IRS Form W-8ECI, certifying that interest paid on a note is not subject to withholding tax because it is effectively connected with the conduct by the Non-U.S. Holder of a trade or business within the United States.

Any such effectively connected interest generally will be subject to U.S. federal income tax at the regular graduated rates. A Non-U.S. Holder that is a foreign corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected interest, as adjusted for certain items.

The certifications described above must be provided to the applicable withholding agent prior to the payment of interest and must be updated periodically. Non-U.S. Holders that do not timely provide the applicable withholding agent with the required certification, but that qualify for a reduced rate under an applicable income tax treaty, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. Holders should consult their tax advisors regarding their entitlement to benefits under any applicable income tax treaty.

Sale or Other Taxable Disposition

Subject to the discussion below on backup withholding and FATCA, a Non-U.S. Holder will not be subject to U.S. federal income tax on any gain realized upon the sale, exchange, redemption, retirement or other taxable disposition of a note (such amount excludes any amount allocable to accrued and

Table of Contents

unpaid interest, which generally will be treated as interest and may be subject to the rules discussed above in " *Payments of Interest*") unless:

the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such gain is attributable); or

the Non-U.S. Holder is an individual present in the United States for 183 days or more during the taxable year of the disposition and certain other requirements are met.

Gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis at the regular graduated rates. A Non-U.S. Holder that is a foreign corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected gain, as adjusted for certain items.

Gain described in the second bullet point above will generally be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty), which may be offset by U.S. source capital losses of the Non-U.S. Holder (even though the individual is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

Non-U.S. Holders should consult their tax advisors regarding any applicable income tax treaties that may provide for different rules.

Information Reporting and Backup Withholding

Payments of interest generally will not be subject to backup withholding, provided the applicable withholding agent does not have actual knowledge or reason to know the holder is a United States person and the holder certifies its non-U.S. status as described above under " *Payments of Interest*." However, information returns are required to be filed with the IRS in connection with any interest paid to the Non-U.S. Holder, regardless of whether any tax was actually withheld. In addition, proceeds of the sale or other taxable disposition of a note (including a retirement or redemption of the note) within the United States or conducted through certain U.S.-related brokers generally will not be subject to backup withholding or information reporting, if the applicable withholding agent receives the statement described above and does not have actual knowledge or reason to know that such holder is a United States person or the holder otherwise establishes an exemption. Proceeds of a disposition of a note paid outside the United States and conducted through a non-U.S. office of a non-U.S. broker generally will not be subject to backup withholding or information reporting.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides or is established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

Additional Withholding Tax on Payments Made to Foreign Accounts

Withholding taxes may be imposed under Sections 1471 to 1474 of the Code (such Sections commonly referred to as the Foreign Account Tax Compliance Act, or "FATCA") on certain types of payments made to non-U.S. financial institutions and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on payments of interest (including any OID) on, or gross proceeds from the sale or other disposition of, a note paid to a "foreign financial institution" or a

Table of Contents

"non-financial foreign entity" (each as defined in the Code), regardless of whether such foreign institution or entity is a beneficial owner or an intermediary, unless (1) the foreign financial institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies it does not have any "substantial United States owners" (as defined in the Code) or furnishes identifying information regarding each substantial United States owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in (1) above, it must enter into an agreement with the U.S. Department of the Treasury requiring, among other things, that it undertake to identify accounts held by certain "specified United States persons" or "United States-owned foreign entities" (each as defined in the Code), annually report certain information about such accounts, and withhold 30% on certain payments to non-compliant foreign financial institutions and certain other account holders. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

Under the applicable Treasury Regulations and IRS guidance, withholding under FATCA generally will apply to payments of interest on a note regardless of when they are made and to payments of gross proceeds from the sale or other disposition of a note on or after January 1, 2017.

Prospective investors should consult their tax advisors regarding the potential application of withholding under FATCA to their investment in the notes.

PLAN OF DISTRIBUTION AND SELLING RESTRICTIONS

Each broker-dealer that receives new notes for its own account in the exchange offer must acknowledge that it will deliver a prospectus together with any resale of those new notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in the resales of new notes received in exchange for outstanding notes where those outstanding notes were acquired as a result of market-making activities or other trading activities. We have agreed that for a period of up to 90 days after the expiration date, we will make this prospectus, as amended or supplemented, available to any broker-dealer that requests it in the letter of transmittal for use in any such resale.

We will not receive any proceeds from any sale of new notes by broker-dealers or any other persons. New notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the new notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer and/or the purchasers of any such new notes. Any broker-dealer that resells new notes that may be deemed to be an "underwriter" within the meaning of the Securities Act and any profit on any such resale of new notes and any commissions or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an "underwriter" within the meaning of the Securities Act.

We have agreed to pay all expenses incident to our performance of, or compliance with, the registration rights agreements and will indemnify the holders of outstanding notes including any broker-dealers, and certain parties related to such holders, against certain types of liabilities, including liabilities under the Securities Act.

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 20. INDEMNIFICATION OF DIRECTORS AND OFFICERS

Indemnification of Directors and Officers of Scientific Games Corporation and Scientific Games International, Inc.

The following summary is qualified in its entirety by reference to the complete text of any statutes referred to below and the certificates (or articles) of incorporation and bylaws, or certificates of formation and limited liability company (or operating) agreements (or declarations), as the case may be, of Scientific Games Corporation (the "Company"), Scientific Games International, Inc. (the "Issuer") and the subsidiary guarantors discussed below.

Section 145 of the General Corporation Law of the State of Delaware (the "DGCL") grants corporations the power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person's conduct was unlawful.

In the case of an action by or in the right of the corporation, Section 145 of the DGCL grants corporations the power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Section 145 of the DGCL also empowers a corporation to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as such, whether or not the corporation would have the power to indemnify such person against such liability under Section 145 of the DGCL.

Section 102(b)(7) of the DGCL allows a corporation to eliminate or limit the personal liability of directors to a corporation or its stockholders for monetary damages for a breach of fiduciary duty as a director, except where the director breached his duty of loyalty, failed to act in good faith, engaged in intentional misconduct or knowingly violated a law, authorized the payment of a dividend or approved

a stock repurchase or redemption in violation of Delaware corporate law or obtained an improper personal benefit.

The bylaws of the Company provide for indemnification of its directors, officers, employees and other agents of the Company for such liabilities in such manner under such circumstances and to the extent permitted by Section 145 of the DGCL. The bylaws of the Company also provide that the Board of Directors of the Company may authorize the purchase and maintenance of insurance for the purpose of such indemnification.

The Company's certificate of incorporation provides that a director of the Company shall not be liable to the Company or its stockholders for monetary damages for breach of fiduciary duty as a director, to the fullest extent permitted by the DGCL.

The bylaws of the Issuer contain indemnification provisions that closely mirror the language in Section 145 of the DGCL. In addition, the bylaws of the Issuer authorize the purchase and maintenance of insurance on behalf of directors, officers, employees and agents of the Issuer, or any such person who is or was serving at the request of the Issuer as a director, officer, employee or agent of another foreign or domestic corporation, partnership, joint venture, trust, employee benefit plan or other enterprise against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as a director, officer, employee or agent, whether or not the Issuer would have the power to indemnify such person against such liability under such bylaws or applicable law.

The Issuer's certificate of incorporation provides that no director of the Issuer shall be personally liable to the Issuer or its stockholders for monetary damages for breach of fiduciary duty as a director, to the fullest extent permitted by the DGCL.

The Company maintains an insurance policy on behalf of itself and its subsidiaries, including the Issuer and the subsidiary guarantors discussed below, and on behalf of the directors and officers thereof, covering certain third-party claims which may be asserted against such entities, directors and/or officers.

Indemnification of Directors and Officers of the Subsidiary Guarantors

The following summaries are qualified in their entirety by reference to the complete text of any statutes referred to below and the certificates of incorporation and the bylaws or similar organizational documents of each guarantor (other than the Company) guaranteeing the Issuer's 6.625% senior subordinated notes due 2021 and 10.000% senior unsecured notes due 2022.

California Corporate Subsidiary Guarantor

The amended and restated bylaws of Arcade Planet, Inc. provide for indemnification of directors and officers against expenses, judgments, fines, settlements and other amounts actually and reasonably incurred in connection with any proceeding arising by reason of the fact that such person is or was a director or officer of the corporation and advances to such director or officer expenses incurred in defending any such proceedings to the maximum extent permitted by California law.

Similarly, the bylaws of SGSA authorize the maintenance of insurance on behalf of directors, officers, employees and agents against any expense, liability or loss, whether or not SGSA would have the power to indemnify such person against such expense, liability or loss under such bylaws or applicable law. The bylaws of WMSI provide that the corporation shall indemnify and hold harmless, to the fullest extent permitted by applicable law, any person who was or is made or is threatened to be made a party or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he, or a person for whom he is the legal representative, is or was a director or officer of the corporation or, while a director or officer of the Corporation, is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation or entity.

The certificate of incorporation of BGII provides for indemnification of directors, officers, employees and agents of the corporation to the fullest extent authorized by the DGCL. It also permits the corporation to maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the corporation or another corporation, partnership, joint venture, trust or other enterprise against any such expense, liability or loss, whether or not the corporation would have power to indemnify such person against such expense, liability or loss under the DGCL.

Delaware Limited Liability Company Subsidiary Guarantors

Lenc Software Holdings LLC ("LSH"), MDI Entertainment, LLC ("MDI"), Scientific Games New Jersey LLC ("SGNJ") and Williams Interactive LLC ("WI") are Delaware limited liability companies.

Section 18-108 of the Delaware Limited Liability Company Act provides that, subject to such standards and restrictions, if any, as are set forth in its limited liability company agreement, a limited liability company may, and shall have the power to, indemnify and hold harmless any member or manager or other person from and against any and all claims and demands whatsoever.

The operating agreements of LSH and WI provide that the company shall indemnify the member and the manager for all costs, losses, liabilities, and damages paid or accrued by the member (either as member or agent) or manager in connection with the business of the company or because such person is a member or manager, to the fullest extent provided or allowed by the laws of Delaware. The operating agreements of LSH and WI also provide that the manager shall cause the company to advance costs of participation in any proceeding to the manager or member, and that the manager may, with the consent of the member, indemnify all other employees and agents of the company for all costs, losses, liabilities, and damages paid or accrued by the agent or employee in connection with the business of the company or because such person is an agent or employee, to the fullest extent provided or allowed by the laws of Delaware. In addition, both operating agreements of LSH and WI provide that neither the member nor the manager shall be liable as member or manager for the liabilities of the company. The certificates of formation of LSH and WI do not contain any provisions indemnifying or limiting the liability of their respective managers or officers.

The operating agreement of SGNJ provides that, to the fullest extent permitted by law and subject to certain exceptions, any person who was or is a member, manager, officer, employee or agent of the company, or was or is serving at the request of the company as a director, officer, employee or other agent of another entity, shall be indemnified and held harmless against any and all losses, claims, damages, liabilities, expenses (including reasonable legal and other professional fees and disbursements), judgments, fines, settlements, and other amounts incurred in connection with any and all claims, demands, actions, suits or proceedings (civil, criminal, administrative or investigative), actual or threatened, in which such indemnified party may be involved, as a party or otherwise, by reason of such indemnified party's service to, or on behalf of, or management of the affairs of, the company, or rendering of advice or consultation with respect thereto, whether or not the indemnified party continues to be serving in the above-described capacity at the time any such indemnification obligation is paid or incurred. Expenses (including reasonable legal and other professional fees and disbursements) incurred in any proceeding will be paid by the company, as incurred, in advance of the final disposition of such proceeding upon receipt of an undertaking by or on behalf of such indemnified party to repay such amount if it shall ultimately be determined that such indemnified party is not entitled to be indemnified by the company as authorized thereunder. The certificate of formation of SGNJ does not contain any provisions indemnifying or limiting the liability of the managers or officers of SGNJ.

Neither the operating declaration nor the certificate of formation of MDI contains provisions indemnifying or limiting the liability of the managers or officers of MDI.

Nevada Corporate Subsidiary Guarantors

Alliance Holding Company ("AHC"), Bally Gaming, Inc. ("BGI"), Bally Technologies, Inc. ("BTI"), Casino Electronics, Inc. ("CEI"), CompuDigm Services, Inc. ("CSI"), SG Gaming North America, Inc. ("SGNA") and Sierra Design Group ("SDG") are Nevada corporations.

Section 78.7502 of the Nevada Revised Statutes ("NRS") empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, other than in certain actions by or in the right of the corporation as described below, by reason of the fact that he is or was a director, officer, employee or other agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by this person in connection with the action, suit or proceeding if he: (1) is not liable pursuant to Section 78.138 of the NRS; or (2) acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful.

In the case of an action by or in the right of the corporation, Section 78.7502 of the NRS further provides that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by reason of the fact that he is or was a director, officer, employee or other agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including amounts paid in settlement and attorney's fees actually and reasonably incurred by him in connection with the defense or settlement of the action or suit if he: (1) is not liable pursuant to Section 78.138 of the NRS; or (2) acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation. Indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals therefrom, to be liable to

the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Section 78.138 of the NRS permits a corporation to eliminate or limit the individual liability of directors and officers to the corporation or its stockholders or creditors for any damages resulting from any act or failure to act in the capacity as a director or officer unless the act or failure to act constitutes a breach of the director's or officer's fiduciary duties and such breach involved intentional misconduct, fraud or a knowing violation of law.

In addition, Section 78.752 of the NRS authorizes a corporation to purchase and maintain insurance or make other financial arrangements on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise for any liability asserted against him or her and liability and expenses incurred by him or her in his or her capacity as a director, officer, employee or agent, or arising out of his status as such, whether or not the corporation has the authority to indemnify him or her against such liability and expenses.

The bylaws of AHC, BGI, BTI, CEI, CSI and SGNA provide for the indemnification, to the fullest extent permitted by Nevada law, of their respective directors and officers against all expense, liability and loss reasonably incurred or suffered by any such person in connection with any action or suit, whether civil, criminal, administrative or investigative, to which such person is or was a party or threatened to be made a party, or is otherwise involved in, by reason of the fact that he or she is or was a director or officer of such corporation or is or was serving in any capacity at the request of such corporation as a director, officer, employee, agent, partner, or fiduciary of, or in any other capacity for, another enterprise.

The articles of incorporation of AHC, BGI and SGNA provide that no director or officer shall be personally liable to the corporation or its stockholders for damages for breach of fiduciary duty as a director or officer except for circumstances involving acts or omissions involving intentional misconduct, fraud or a knowing violation of law, or for unlawful distributions in violation of Section 78.300 of the NRS. Similarly, the articles of incorporation of CSI provide that no director or, to the extent specified from time to time by the board of directors of CSI, officer will be liable to the corporation or its stockholders for damages for breach of fiduciary duty as a director or officer except for acts or omissions involving intentional misconduct, fraud or a knowing violation of law, or the payment of dividends in violation of Section 78.300 of the NRS.

The articles of incorporation of BTI provide that the liability of directors and officers of the corporation shall be eliminated or limited to the fullest extent permitted by the NRS.

The articles of incorporation of CEI do not contain any indemnification provisions.

The articles of incorporation of SDG provide that the corporation may, to the fullest extent permitted by Nevada law, indemnify any and all persons whom it shall have the power to indemnify thereunder from and against any and all of the expenses, liabilities, or other matters referred to in, or covered by, the NRS. In addition, the articles provide that the corporation may purchase and maintain insurance, including but not limited to, insurance on behalf of any such persons against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liability. The bylaws of SDG similarly provide for indemnification of directors and officers, to the fullest extent permitted by Nevada law.

Bally Properties East, LLC ("BPE"), Bally Properties West, LLC ("BPW"), Scientific Games Distribution, LLC ("SGD"), Scientific Games Productions, LLC ("SGPR"), and SHFL Properties, LLC ("SHFLP") are Nevada limited liability companies.

Under Sections 86.411 and 86.412 of Nevada's Limited Liability Company Act ("NLLCA"), a limited liability company may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he is or was a manager, member, employee or agent of the company, or is or was serving at the request of the company as a manager, member, employee or agent of another limited liability company, corporation, partnership, joint venture, trust or other enterprise, against expense, including attorney's fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with the action, suit or proceeding if he acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the company, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement or conviction, or upon a plea of nolo contendere or its equivalent, does not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the limited liability company, and that, with respect to any criminal action or proceeding, he had reasonable cause to believe that his conduct was unlawful. To the extent that a manager, member, employee or agent of a limited liability company has been successful on the merits or otherwise in defense of any action, suit or proceeding or in defense of any claim, issue or matter therein, the company shall indemnify him against expense, including attorney's fees, actually and reasonably incurred by him in connection with the defense.

The articles of organization of BPE, BPW and SHFLP provide that subject to certain conditions, the expenses of any member incurred in defending a civil, criminal, administrative or investigative action, suit or proceeding arising by reason of the fact that such member is or was a member of the company must be paid by the company, or through insurance purchased and maintained by the company or through other financial arrangements made by the company as permitted by the laws of Nevada, as such expenses are incurred and in advance of the final disposition of the action, suit or proceeding. The operating agreements of BPE, BPW and SHFLP provide that the company shall indemnify and hold harmless covered persons, including members and officers of the company, to the fullest extent permitted by the NLLCA.

The articles of organization of SGD and SGPR do not include any indemnification provisions.

- (2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
- (4) That, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
- (5) For the purpose of determining liability under the Securities Act to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
- (6) For the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities, in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:
 - (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
 - (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

 - (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.
- (7) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. (b)

The undersigned registrant hereby undertakes to respond to requests for information that is incorporated by reference into the prospectus pursuant to Items 4, 10(b), 11 or 13 of this form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means.
