SALEM COMMUNICATIONS ANNOUNCES STRONG SECOND QUARTER 2003 RESULTS

Second Quarter 2003 Same Station Revenue and Same Station Operating Income Increase 7.8% and 20.2%, Respectively

CAMARILLO, CA August 4, 2003 Salem Communications Corporation (Nasdaq: SALM), the leading radio broadcaster focused on religious and family themes programming, announced today strong results for the quarter ended June 30, 2003.

Commenting on these results, Edward G. Atsinger III, President and CEO said, Salem's results demonstrate a strong and successful performance for the first half of 2003, despite an uncertain economic environment. Our same station revenue growth rates have, once again, led the industry as a result of the continued growth of our music stations, complemented by the consistent and reliable nature of our block programming business. This revenue growth, combined with careful cost management, has resulted in a very noteworthy 21% growth in station operating income.

Second Quarter 2003 Results

For the quarter ended June 30, 2003, net broadcasting revenue increased 8.4% to \$43.4 million from \$40.1 million in the same quarter a year ago. The company reported operating income of \$8.9 million for the quarter, compared with operating income of \$4.4 million for the same quarter last year. The company reported net income of \$1.8 million for the quarter, or \$0.08 per diluted share, compared with a net loss of \$1.6 million, or \$0.07 loss per diluted share, for the same quarter last year.

Station operating income (SOI) increased 20.8% to \$15.9 million from \$13.2 million in the corresponding 2002 quarter. Station operating income margin increased to 36.7% in the second quarter of 2003 from 32.9% in the second quarter of 2002.

Excluding the impact of this write-off, Adjusted EBITDA increased 28.3% to \$11.9 million from \$9.3 million.

On a same station basis, net broadcasting revenue and station operating income increased 7.8% to \$43.2 million and 20.2% to \$15.8 million, respectively, for the second quarter of 2003 as compared to the second quarter of 2002.

Forward Looking Statements

Statements used in this press release that relate to future plans, events, financial results, prospects or performance are forward-looking statements as defined under the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those anticipated as a result of certain risks and uncertainties, including but not limited to the ability of Salem to close and integrate announced transactions, market acceptance of recently launched music formats, competition in the radio broadcast, Internet and publishing industries and from new technologies, adverse economic conditions, and other risks and uncertainties detailed from time to time in Salem's reports on Forms 10-K, 10-Q, 8-K and other filings filed with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Salem undertakes no obligation to update or revise any forward-looking statements to reflect new information, changed circumstances or unanticipated events.

Regulation G

The company's results include non-GAAP financial measures of station operating income, which is defined as net broadcasting revenue minus broadcasting operating expenses, and EBITDA, which is defined by the SEC as net income plus interest expense, tax, depreciation and amortization and minus interest income. Salem's definition of station operating income is not necessarily comparable to similarly titled measures reported by other companies. Salem has provided supplemental information, as an attachment to this press release, which reconciles non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with generally accepted accounting principles (GAAP).

Station operating income and EBITDA are not measures of performance calculated in accordance with GAAP; they should viewed as a supplement to and not a substitute for results of operations presented on the basis of GAAP. The company believes these non-GAAP financial measures, when considered in conjunction with the most directly comparable GAAP financial measures, are useful to investors because they are generally recognized by the radio broadcasting industry as a tool to provide useful measures of the company's operating performance and to apply valuation methodologies for companies in the media, entertainment and communications industries. These measures are used by investors and by analysts who report on the industry to provide comparisons between broadcasting groups. Salem uses these non-GAAP financial measures as key measures of operating efficiency and profitability.
