## SECTION 2 - FINANCIAL INFORMATION

### Item 2.02 Results of Operations and Financial Condition

On May 3, 2013 American Axle & Manufacturing Holdings, Inc., (the "Company" or "AAM") issued a press release regarding AAM's financial results for the three months ended March 31, 2013. A copy of this press release is furnished as Exhibit 99.1.

## SECTION 7 - REGULATION FD

### Item 7.01 Regulation FD Disclosure

#### AAM's 2013 Outlook:

AAM is targeting full year sales in 2013 to be approximately \$3.25 billion. This sales projection is based on the anticipated launch schedule of programs in AAM's new and incremental business backlog and the assumption that the U.S. Seasonally Adjusted Annual Rate of sales ("SAAR") increases from approximately 14.4 million vehicle units in 2012 to approximately 15.0 million vehicle units in 2013.

- Sales in the first quarter of 2013 reflect the adverse impact of approximately \$12.5 million related to the labor strike at General Motors' Rayong factory in Thailand.

• AAM is targeting to generate Adjusted EBITDA as a percentage of sales in the range of 13.0% - 13.5% in 2013. We define EBITDA to be earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA excluding the impact of debt refinancing and redemption costs.

• AAM is targeting to generate Adjusted EBITDA as a percentage of sales in the range of 11.0% - 12.0% in the first half of 2013.

• AAM is targeting full year net capital spending of approximately 7% of sales in 2013.

We define net capital spending as capital expenditures net of proceeds from the the sale of property, plant and equipment and the sale-leaseback of equipment.

• AAM is targeting positive free cash flow in 2013.

We define free cash flow as net cash provided by (used in) operating activities less capital expenditures net of proceeds from the sale of property, plant and equipment and the sale-leaseback of equipment. For purposes of calculating free cash flow, AAM excludes the impact of purchase buyouts of leased equipment, if any.

#### AAM's 2015 Target:

AAM is targeting full year sales to exceed \$4.0 billion and over \$500 million of EBITDA in 2015. This sales and EBITDA target is based on the anticipated launch schedule of programs in AAM's new and incremental business backlog and the assumption that the U.S. SAAR is approximately 15.0 million vehicle units in 2015.
