(AN EXPLORATION STAGE COMPANY)
Notes to the Interim Condensed Consolidated Financial Statements
June 30, 2015 and December 31, 2014
(Unaudited)

1. Nature of Business, Basis of Presentation and Development Stage

Nature of Business and Basis of Presentation

Silver Dragon Resources Inc. was incorporated on May 9, 1996 in the State of Delaware and its executive office is in Toronto, Canada. It is an exploration stage company and carries out operations in Canada and China. The Company's strategy is to acquire and develop a portfolio of silver properties in proven silver districts globally. To date, the Company has generated no sales and has devoted its efforts primarily to financing, by issuing common shares and convertible debt, and exploring its properties.

The interim condensed consolidated financial statements include the accounts of Silver Dragon Resources Inc., and its wholly-owned subsidiaries, Silver Dragon Resources Ltd. (a Canadian corporation) and Silver Dragon Mining de Mexico S.A. de C.V. and Silver Dragon Resources de Mexico S.A de C.V. (Mexican corporations) (collectively referred to as Silver Dragon or the Company). All significant inter-company balances and transactions have been eliminated on consolidation. The Company's 20% ownership in Sanhe Sino-Top Resources and Technology, Ltd. (a China corporation) (Sino-Top) is recorded on the equity basis.

The accompanying interim condensed consolidated financial statements of the Company have been prepared following accounting principles generally accepted in the United States (US GAAP), and are expressed in United States funds. In the opinion of management, all adjustments necessary for a fair presentation have been included. These interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements of the Company for the fiscal year ended December 31, 2014 filed in the Company's Annual Report on Form 10-K.

Development Stage

In June 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-10: Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements to improve financial reporting by reducing cost and complexity associated with the incremental reporting requirements of development stage entities, which includes exploration stage companies. The changes eliminate the need for inception to date reporting and other disclosure requirements. The amendments are effective for annual reporting periods beginning after December 15, 2014. Early adoption is permitted. The Company has elected early adoption of these amendments.

2. Going Concern

These interim condensed consolidated financial statements have been prepared in accordance with US GAAP applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for the next twelve months.

At June 30, 2015, the Company had a working capital deficit of \$8,219,988 (December 31, 2014 \$7,312,054), had not yet achieved profitable operations, incurred a net loss of \$1,709,750 for the six-month period ended June 30, 2015 (2014 \$1,686,469), had accumulated losses of \$53,182,817 since its inception, and expects to incur further losses in the development of its business. These factors and those noted below, cast substantial doubt as to the Company's ability to continue as a going concern, which is dependent upon its ability to obtain the necessary financing to repay

liabilities when they come due, and in the long run dependent upon achieving profitable operations.

SILVER DRAGON RESOURCES INC.
(AN EXPLORATION STAGE COMPANY)
Notes to the Interim Condensed Consolidated Financial Statements

(Unaudited)

2. Going Concern, continued

Management has been unable to secure additional financing, other than \$102,000 raised during the six months ended June 30, 2015, to meet its cash requirements, including ongoing capital and funds to repay all or certain of its convertible note holders. There is no assurance of additional funding in any form being available or available on acceptable terms.

In March of 2014, the Company received extensions of its obligations to repay the convertible note holders from a date of March 31, 2014 to June 30, 2014. In addition, the Company had in place forbearance agreements with its convertible note holders. The Company was not able to repay the obligations owing to the convertible note holders on or before the June 30, 2014 deadline and thus, is in default. Management continues to have discussions with the convertible debt holders in efforts to establish new deadlines for repayment and/or have them convert some or all of their convertible notes. The convertible note holders continue to have the option to convert all or a portion of their notes, as some have during the current six month period ended June 30, 2015 and subsequent to June 30, 2015. With the trading price at June 30, 2015, the Company did not have sufficient common stock to issue for a conversion of all the remaining outstanding convertible notes.

As management was unable to secure additional financing and/or extend the payoff date for its convertible debt holders, the Company may ultimately file for bankruptcy. Since the dates to make the required contributions for the equity investment in the prior year were not met, the Company's interest was diluted to 20%. On October 7, 2014, the Company announced that Sino-Top, its equity investment, had signed an understanding with Shengda Mining Co., Ltd. (Shengda), to be acquired subject to a third party evaluation and all other regulatory approvals and filings. As a result, there is no current effort, nor a requirement, to raise additional financing for the Company's equity investment. If the transaction with Shengda, to have it acquire our interest in Sino-Top is not completed successfully and if the Company does not increase its mining operations, it may be required to significantly limit its business activities and dissolve.

In addition, although there had been discussions between the Company and the private investor (Investor), there has been no resolution to the treatment of the \$1,069,279 advance credit note received from the Investor during the fourth quarter of 2013. The Company may be required to return such funds, with or without interest, to the Investor. On September 19, 2014, the Investor filed a complaint to recover \$1,014,140 of the advance credit note. The Company retained counsel in Delaware and filed a Motion to Dismiss. Subsequently, dates for the plaintiff's answering brief in response to the Company's Motion to Dismiss and the Company's response to this brief, were proposed by the court. The briefs were filed. On January 7, 2015, the Company filed a counterclaim against the Investor for \$120,000,000, seeking damages for failure to meet funding obligations.

Realization values may be substantially different from carrying values as shown. These interim condensed consolidated financial statements do not include any adjustments to reflect the future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result if the Company was unable to continue as a going concern.

3. Recent Accounting Pronouncements

There were various accounting standards and interpretations issued during the period ended June 30, 2015, none of which are expected to have a material impact on the Company's consolidated financial position, operations, or cash

flows.

4. Financial Instruments

The carrying value of cash, other receivables, bank indebtedness, advance credit note, accounts payable, accrued liabilities, promissory note payable, convertible notes payable and related party payable approximated their fair value as of June 30, 2015 and December 31, 2014, due to their short-term nature. The carrying value of the long-term debt approximated its fair value as of June 30, 2015, due to its market interest rate and short-term nature.

Interest and Credit Risk

In the opinion of management, the Company is not exposed to significant interest or credit risks arising from its financial instruments.

Currency Risk

While the reporting currency is the United States Dollar, \$49,987 of consolidated expenses for the six-month period ended June 30, 2015, are denominated in Mexican Pesos; and \$150,762 of consolidated expenses for the six-month period ended June 30, 2015, are denominated in Canadian Dollars. As at June 30, 2015, \$1,222,071 of the net monetary liabilities are denominated in Mexican Pesos; and \$297,551 of the net monetary liabilities are denominated in Canadian Dollars. The Company has not entered into any hedging transactions to reduce the exposure to currency risk.

5. Other Receivables

The current balance in other receivables includes commodity taxes receivable of \$1,309 (December 31, 2014-\$16,442).

6. Plant and Equipment, net

7. Equity Investment

Sanhe Sino-Top Resources & Technologies Ltd., China (Sino-Top)

The Company owns 20% of Sino-Top, whose assets consist mainly of six exploration properties.

The Company was required to fund its equity share of ongoing operations at Sino Top. At a meeting of the board of directors of Sino-Top held on March 29, 2014, the 2014 budget was finalized. The total budget for 2014 was RMB171.0 million (approximately \$27,582,000) and the Company's contribution was RMB76.0 million

(approximately \$12,259,000). The Company was not able to meet the required contribution, as noted above, by the dates specified by the board of directors of Sino-Top and after discussions with Sino-Top and attempts to secure financing for the required contributions failed, the Company's interest was reduced to 20% on June 30, 2014, the date on which certain other shareholders provided contributions.

On October 7, 2014, the Company announced that its Foreign Co-operative Joint Venture in China, Sino-Top, had signed an understanding with Shengda to be acquired subject to third party evaluation and all other regulatory approvals and filings. Shengda is the majority shareholder of Sino-Top.

8. Advance Credit Note

During the fourth quarter of 2013, the Company received advances on a note, in the amount of \$1,069,279, from the Investor. A significant portion of the funds were disbursed before the 2013 year-end, to settle certain outstanding obligations and payables. The Company and the Investor have not resolved definitive agreements, nor has the Investor funded the remaining amounts required to complete the initial closing. Due to funding delays by the Investor and changes in the Investor's offer, the Company's board of directors had determined not to proceed with the contemplated transaction. The Company was seeking to resolve the treatment of the initial \$1,069,279 with the Investor, and may be required to return such funds, with or without interest, to the Investor.

On September 19, 2014, the Investor filed a complaint in the Court of the Chancery of the State of Delaware (the Court), to recover \$1,014,140 of the \$1,069,279 advanced. The Investor is seeking action for unjust enrichment, fraud and violations of the Delaware Uniform Fraudulent Transfer Act. The Investor has also named Travellers International Inc. (Travellers), an Ontario company controlled by a director and chief executive officer of the Company and the director and chief executive officer of the Company. The Court subsequently accepted the appeals for removal of these two parties from the complaint, on June 3, 2015 for Travellers and on August 6, 2015 for the director and chief executive officer of the Company (see under note 17(c), subsequent events). The Company retained counsel in Delaware and filed a Motion to Dismiss. Subsequently, the Court proposed a date of November 26, 2014 for the plaintiff to file his answering brief in response to this Motion to Dismiss and the Company to file its reply brief to the plaintiff's answering brief, on or before December 12, 2014. These briefs were filed. On January 7, 2015, the Company filed a counterclaim as a consequence of its reliance on the Investor advancing the funds which would have resulted in the Company not having its equity investment diluted. This counterclaim, in the amount of \$120,000,000, was for

damages for failure to meet funding obligations.

9. Promissory Note Payable

In 2008, a promissory note was signed with a vendor in the amount of \$166,623 which carried interest of 5% per month, unsecured, and no maturity date. During the six-month period ended June 30, 2015, the Company incurred interest of \$49,987 (2014 - \$49,987).

10. Long-Term Debt

The Company has in place an agreement with Sino-Top, who will provide up to RMB1.0 million (approximately \$161,300), repayable within two years from date of advance. The debt bears interest at the rate of 12% per annum and is unsecured. As at June 30, 2015, the Company had received advances in full, totaling RMB1,000,000 (approximately \$161,300). The funds are being used to fund the operations at the Company's China office. Included in the interim condensed consolidated statements of operations and comprehensive loss, are interest charges for the six-month period ended June 30, 2015 totaling \$8,492 (2014-\$nil).

- (a) On April 12, 2013, the Company entered into a supplemental letter of agreement with the holder of the convertible note providing, among other things, that if the Company agrees to pay \$2,130,048 by June 30, 2013, such payment would constitute payment in full of any and all obligations due and owing under the secured convertible promissory note.

On June 3, 2013, the Company entered into an Amendment to the original agreements which consist of the note and warrant purchase agreement dated February 15, 2011 with the lender, secured convertible promissory note of the Company in the principal amount of \$2,766,500, 10 secured notes in favor of the Company (each, a Buyer Note) and a warrant to purchase common stock of the Company. Under the Amendment, the lender agreed to accelerate payment of a portion of the amounts payable to the Company under the tenth Buyer Note. The aggregate amount the lender agreed to accelerate was \$120,000 (the Payoff Amount), which the parties agreed was satisfaction in full of the aggregate principal amount owing under the tenth Buyer Note of \$200,000. The Company and the buyer agreed that the amount, \$120,000, once paid to the Company, will become a Conversion Eligible Tranche under the Note in the amount of \$220,000 plus interest and other amounts accrued under the Note.

The Payoff Amount was payable in two installments. The first payment of \$60,000 was paid upon execution of the Amendment of June 3, 2013. If the Company met all of the Second Payment Conditions at any time during the period beginning July 3, 2013 and continuing until November 30, 2013, the lender would pay the second payment of \$60,000. Although the Company had not yet met all of the Second Payment Conditions, the lender agreed to advance the second payment of \$60,000 on August 2, 2013 and the Company received such payment.

11. Convertible Notes Payable, continued

On August 7, 2013, the Company and the lender entered into a second supplemental letter of agreement, pursuant to which the lender agreed to extend the Payoff Date to September 30, 2013. In consideration for the extension to the payoff date, the Company agreed to increase the outstanding balance of certain notes and other obligations to the lender by \$30,000. All other terms and conditions of the original Letter of Agreement remains in full force and effect.

On November 13, 2013, the Company and the lender entered into a third supplemental letter of agreement, pursuant to which the lender agreed to extend the Payoff Date for the secured convertible promissory note from September 30, 2013 to December 31, 2013. All other terms and conditions of the original Letter of Agreement remains in full force and effect.

On March 27, 2014, the Company and the lender agreed to replace reference to the Payoff Amount and accept an amount equal to \$2,750,000, so long as such payment was made on or before June 30, 2014. All other terms and conditions of the payoff letter remained in full force and effect.

In each case, in consideration of the foregoing supplemental letter of agreements, the lender agreed, from the date of the letter of agreement through the Payoff Date, to forbear from exercising any right or remedy in respect of the secured convertible promissory note and certain other agreements between the parties, including without limitation any right to conversion, right to delivery of shares, right to assignment, purchase right or any remedy arising as the result of any default or event of default. The parties have also agreed to a mutual release of claims, subject to and effective upon receipt and collection of the Payoff Amount as set forth in the letter of agreement. If the Payoff Amount is not paid by the Payoff Date, the lender's agreement shall be deemed cancelled.

The Company was not able to make payment on or before June 30, 2014 and continues to be in default of the payment required on this secured convertible promissory note. The lender continues to have the option to convert all or a portion of its secured convertible promissory note into common shares of the Company.

On November 7, 2014, the lender requested the conversion of a portion of their secured convertible promissory note, in the amount of \$371,700. The Company was not able to complete the conversion and as a result, has incurred penalties, as stipulated by the agreement between the lender and the Company. During the fourth quarter of 2014, the Company was charged penalties of \$505,512, by increasing the amount outstanding on the secured convertible promissory note. The lender continues to charge penalties which accrue at approximately \$39,000 per week. In addition, interest on the secured convertible promissory note continues to accrue at an annual rate of 12%, compounded daily.

On November 10, 2014, the Company received \$200,000 on a private placement for 4,000,000 common shares of the Company. On receipt, the funds were recorded as additional debt from the lender. On January 16, 2015, 4,000,000 common shares of the Company were issued on the conversion of \$200,000 of convertible debt.

During the six months ended June 30, 2015, the lender charged late penalties of \$771,278. This included an adjustment by the lender reducing the previous late penalties charged by \$237,888.

(b)

On April 10, 2013, the Company entered into a supplemental letter of agreement with the holder of the convertible redeemable note providing, among other things, that if the Company agrees to pay \$271,500 by June 30, 2013, such payment would constitute payment in full of any and all obligations due and owing under the convertible redeemable note.

- (b) The Company's Mexican subsidiary was subjected to irregularities that it was seeking to redress. Legal proceedings were heard and decided on an ex parte basis, without notice to the Company that resulted in its Mexican subsidiary losing title to its mineral assets. In December 2010, the Company became aware of this situation, and took steps through the courts in Mexico to redress the situation. It included a Constitutional Rights Claim before the Federal Court in the City of Durango, premised on procedural irregularities. On May 22, 2012, the Court ruled against the Constitutional Rights Claim. As a result, the Company determined that it will not pursue any further recourse with regard to this matter, and accordingly, will never recover the Mexican Concessions. Management is considering its options of whether to incur the costs of dissolving the Mexican subsidiary.

BUSINESS OVERVIEW

We are engaged in the acquisition and exploration of silver and other mineral properties. We are an exploration stage company, have no known reserves and have never generated any revenues from our operations. No assurances can be given that we will ever have any known reserves or generate any such revenues.

We are a mineral exploration company focused on the exploration of six properties located in the Erbahuo Silver District in Northern China (Inner Mongolia), in which we have a 20% indirect interest by virtue of our equity holdings in Sanhe Sino-Top Resources and Technologies, Ltd. (Sino-Top).

CHINESE PROPERTIES

Overview

By virtue of our 20% equity interest in Sino-Top, we currently have an interest in the following six silver poly-metallic exploration properties owned by Sino-Top, which properties are located in the Erbahuo Silver District in Northern China (Inner Mongolia): Dadi; Laopandao; Aobaotugonao; Shididonggou; Yuanlinzi; and Zhuanxinhu. Prior to June 2, 2012, we also had a 70% interest in Chifeng Silver Dragon Resources & Technologies, Ltd. (Chifeng), which owned the Erbahuo property, also located in the Erbahuo Silver District in Northern China (Inner Mongolia).

Sale of Interest in Chifeng

On May 28, 2012, the Company entered into a definitive agreement to sell its 70% interest in Chifeng, which then owned the Erbahuo silver mine located on the boundary of Wengniute County and Keshiketeng County, Inner Mongolia. The Company sold such interest to Deng Zuoping, a private Chinese investor, for RMB 7.4 million or approximately US\$1,164,000, of which RMB1.0 million or approximately \$157,000 was to be paid within three business days after signing the agreement, RMB5.0 million or approximately \$787,000 was to be paid before July 15, 2012 and RMB1.4 million or approximately \$220,000 was to be paid by November 1, 2012. On June 1, 2012, an initial deposit of RMB1.0 million or approximately \$157,000 was received, of which \$12,584 was contributed to Chifeng for expenses incurred until the date of the sale. Concurrently with such payment, we transferred to the purchaser title to our interest in Chifeng. Of the remaining payments, RMB5.0 million or approximately \$791,000 was paid to the Company during the fourth quarter of 2012. During 2013, RMB900,000 or approximately \$146,000 was paid. In addition, in the third quarter of 2013, RMB400,000 or \$64,880 was added to the costs in connection with the Chifeng sale. As at December 31, 2013, RMB100,000 or approximately \$16,500 remained outstanding. This balance was received on January 3, 2014. All amounts approximate the noon exchange rate on the date of the transactions, as reported by the Bank of Canada.

Status of Sino-Top Joint Venture Funding

At the Sino-Top board of directors meeting held on March 29, 2014, the 2014 budget was finalized. The total budget for 2014 was RMB171.0 million or approximately \$26,779,000 and the Company's contribution was RMB76.0 million or approximately \$11,902,000. Approximately 85% of the budget was dedicated to exploration activity. The Company's investment in Sino-Top was diluted to 20% on June 30, 2014, as a result of not having made the required contributions on the specified dates. There are no further contributions required by the Company.

At the recent Sino-Top board of directors meeting held on May 31, 2015, the 2015 budget was finalized. The total budget for 2015 is RMB133,936,700 or approximately \$20,974,000. Approximately 80% of the budget is dedicated to exploration activity.

All amounts approximate the noon exchange rate as reported by the Bank of Canada on August 12, 2015.

On October 7, 2014, the Company announced that Sino-Top had signed an understanding with Shengda Mining Co., Ltd (Shengda) to be acquired subject to a third party evaluation and all other regulatory approvals and filings. Shengda is the majority shareholder of Sino-Top. Sino-Top is waiting for receipt of the mining license for the Dadi property, which is expected by August 31, 2015.

If the transaction with Shengda, to have it acquire our interest in Sino-Top is not completed successfully and if the Company does not increase its mining operations, it may be required to significantly limit its business activities and dissolve.

Potential Transaction with Investor

In 2013, the Company began to engage in discussions with an investor based in China, Man Kwan Fong, (the Investor), regarding a potential transaction that, if completed, would have involved the Investor making a secured loan to the Company and taking over control of the management and board of directors (the Board) of the Company. On November 29 and December 31, 2013, the Company received advances totaling \$1,069,279 from the Investor; however, the parties did not resolve definitive agreements, nor did the Investor fund the remaining amounts required to complete the initial closing. Due to funding delays by the Investor and changes in the Investor's offer, the Board, determined in March 2014, not to proceed with the contemplated transaction. In this report, the Investor generally refers to Man Kwan Fong, an investor based in China; however, the Company believes that the Investor may be coordinating activities with one or more additional investors in China, and therefore, the term Investor is intended to

refer to each such person. In the negotiations with the Investor, one of the Investor's representatives has been Chan King Yuet, who has filed a Schedule 13D/A, disclosing that pursuant to a voting agreement she has shared voting power over 23,481,584 shares of our common stock, in addition to sole voting and dispositive power over 150,000 shares of our common stock.

The Investor and the Company had continued to engage in additional discussions regarding the potential for further financing of the Company in order to prevent the dilution of the Company's 40% interest in Sino-Top. On April 8, 2014, the Investor provided RMB1.0 million or approximately \$156,600 to Sino-Top directly, without the prior request or consent of the Company. The treatment of these funds, which remain in Sino-Top's account as of August 12, 2015, is uncertain. All amounts approximate the noon exchange rate on August 12, 2015, as reported by the Bank of Canada.

On April 18, 2014, the Investor demanded that the Company refund \$1,014,140 of the initial advances made to the Company in 2013 and asserted that the Company's use of such advances was unauthorized. The Company disputed the Investor's assertions. Subsequent to making these assertions, on May 7, 2014, the Investor proposed to the Company the terms of a new transaction that would result in the prior advances being treated as a loan and the provision of additional loans to the Company, subject to a change in the Company's Board and management. The Company did not accept the terms proposed.

On September 19, 2014, the Investor filed a complaint (the "Complaint") in the Court of the Chancery of the State of Delaware (the "Court"), to recover the \$1,014,140. The Investor is seeking action for unjust enrichment, fraud and violations of the Delaware Uniform Fraudulent Transfer Act. The Investor has also named Travellers International Inc. ("Travellers"), an Ontario company controlled by a director and chief executive officer of the Company and the director and chief executive officer of the Company. The Court subsequently accepted our appeals for removal of these two parties from the complaint, on June 3, 2015 for Travellers and on August 6, 2015 for the director and chief executive officer of the Company. The Company retained counsel in Delaware and filed a Motion to Dismiss. Subsequently, the Court proposed a date of November 26, 2014 for the plaintiff to file his answering brief in response to this Motion to Dismiss and the Company to file its reply brief to the plaintiff's answering brief, on or before December 12, 2014. The briefs were filed.

Subsequently, on January 7, 2015, the Company filed a counterclaim for \$120,000,000, seeking damages for failure to meet funding obligations, as a consequence of its reliance on the Investor advancing the funds which would have resulted in the Company not having its equity investment diluted.

General Update on Operations

Of the six properties in which we have an indirect interest through Sino-Top, two are currently considered to be material to us: Dadi and Laopandao. Five mineralized zones have been discovered at the Dadi property. Among them, mineralization zones I, II and IV are controlled by adits, transverse drifts, surface trenches, surface drill holes and underground drill holes intensively. The general features of the mineralization zones are as follows:

- Mineralization zone I is located in the central part of the property and is approximately 1000m long with widths ranging from 5m to 60m and with a 310° to 340° strike. Within mineralization zone I, five mineralized bodies are identified. The largest is mineralized body I, which is 350m long, 2.8m wide, and its dip extension reaches 350m.
- Mineralization zone II is located in the northeast part of the property and is approximately 1000m long with width from 5m to 60m and dips to northeast with 60°~70° dip angle. Within mineralization zone II, six mineralized bodies are discovered by surface trenches, surface drill holes, underground drill holes, exploration tunnels at 1,426m (PD2), 1,384m (PD1), and at 1,350m levels. According to estimation, mineralization zone II accounted for 80% of all the polymetallic mineralization at the Dadi Property.
- Mineralized body II is the most important polymetallic body within mineralization zone II. It is of 320°~340° strike, dips to NE with 70°~75° dip angle. On the surface (1,500m elevation), mineralized body II is 300m long and its widest part is 6m at trench TC26-2. At 1,426m level adit (PD1), it is 330m long; at 1,384m level adit, it is 290m long; and at 1,350m level adit, it reaches 550m long. All transverse drifts at each three level tunnels hit mineralized body II, with the widths ranging from 0.5m to 17.4m. Within mineralized body II, massive vein forms and disseminated galena are common.
- Surface drill holes control mineralized body II in the range of 400m along its strike with dipping depths ranging from 130m to 430m. The true thickness of mineralized body II at depth is from 2.9m to 22m, discovered by drilling. The thickest part (20.8m) is discovered by drill hole ZK0801, which is located at exploration line 8.
- Mineralization zone III is located 250m southwest of mineralization zone II. It is approximately 250m long and 1m wide, and controlled by four surface trenches. Its occurrence is NW strike, and it dips to NE25°~75° with dip angle 55°.

- Mineralization zone IV is located at the central part of the property. On the surface, it is 450m long with width 0.8~7.2m. Its deep part is controlled by tunnel PD4 at 1,329m level and 18 underground drill holes. The controlled length of mineralization zone IV at depth reaches 350m and the width ranges from 0.7m to 5.5m. The dipping depth controlled by underground drilling reaches 140m.
- Mineralization zone V is located between mineralization zones I and II. It is 200m long and consists of 10 mineralized bodies.

At present, tunneling and mine development projects are underway at Dadi, with approximately 2,008m of tunneling (including 1,706m adit and 302m ventilation shaft), and 897m³ of mine development (tunnel expansion and consolidation), completed year to date. The total length of the tunnels at Dadi has reached approximately 12 kilometers since tunneling commenced in 2009. In addition, the shaft above the main mining tunnel, with the temporary head frame completed, has progressed to 200m deep and inclined shaft inside adit No.IV has progressed to 110m in total. Mine design and equipment procurement and vertical shaft installation are in progress.

Due to the cold weather in the field and the lack of funds, the exploration activity had not commenced until April 2015. Mining license application continues to be in progress. Recently, the environmental impact assessment report had passed and was received on June 2, 2015.

2015 Program and Capital Budget

At a meeting of the Sino-Top board, held on May 31, 2015, the 2015 exploration and work program was established, as follows:

Dadi Property

1. Dadi mill and tailings construction:
 - Obtaining mining license and safety production permit; accelerating the construction of water and electrical facilities, in order to establish the water, electrical and roads links.
2. Dadi mining system construction and mining engineering:
 - Installing shaft, surface headframe, elevator and auxiliary facilities to ensure the tunneling under the shaft and perfect the dewatering and power facilities.
 - Complete sinking of the shaft, 3000m; conducting mining engineering and producing ore for test runs prior to mill construction.
3. Exploration on Dadi property:

Exploration work runs through the whole mining process. Conduct tunneling (500m) projects on ore bodies III and IV to increase resources for sustainable production.

Laopandao Property

- Obtaining the mining license is still in progress and expected by the end of 2015. Upon obtaining the mining license, Sino- Top intends to sell the Laopandao property (assuming an interested buyer).

Aobaotugounao Property-no exploration activity is planned for 2015.

Zhuanxinhu Property

1. Objectives and tasks:
 - Conduct additional exploration work to define the ore-controlling structure, occurrence and ore-processing parameters, in order to assess whether the property has economic development value. Conduct tunneling and drilling work to control the ore body characteristics; sampling for assessment purposes; and conduct 4 profile surveys to verify the geophysical anomalous zones in the north section.

2. Planned workload:

- Tunneling 600m; profile survey 3 lines, sampling 1; resulting engineering will depend on tunneling results

Yuanlinzi Property-no exploration activity is planned for 2015.

Shididonggou Property-whether to carry out any exploration work in 2015 is under review.

Relocation and Reincorporation

- Sino-Top has relocated its office to the Shengda office building in downtown Beijing and has begun the registration process for changing the place of incorporation.

No assurance can be provided that the foregoing plans and objectives will be achieved.

RESULTS OF OPERATIONS

Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014

Net sales were \$nil for both six-month periods ended June 30, 2015 and June 30, 2014, as there was no production at any of the properties.

The net loss for the six-month period ended June 30, 2015 was \$1,709,750 compared to \$1,686,469 for the six-month period ended June 30, 2014, an increase of \$23,281, primarily as a result of higher interest expense and penalties on the convertible notes of \$689,762, offset by lower general and administrative expenses of \$198,244 and a lower net loss on the Company's equity investment of \$468,237.

General and administrative expenses decreased by \$198,244 to \$398,938 for the six-month period ended June 30, 2015 from \$597,182 for the six-month period ended June 30, 2014, primarily, as a result of reduced professional fees, including legal and audit and management fees. The Company continues to employ part-time contractors to carry out accounting and administrative responsibilities.

Total other expenses increased by \$221,525 to \$1,310,812 for the six-month period ended June 30, 2015 from \$1,089,287 for the six-month period ended June 30, 2014, primarily as a result of higher interest expenses and penalties on the convertible notes of \$689,762, offset by a lower net loss on the Company's equity investment of \$468,237, as a result of the lower equity interest for the six-month period ended June 30, 2015.

Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014

Net sales were \$nil for both three-month periods ended June 30, 2015 and 2014 as there was no production at any of the properties.

The net loss for the three-month period ended June 30, 2015 was \$1,065,880 compared to \$1,135,018 for the three-month period ended June 30, 2014, a decrease of \$69,138 primarily, as a result of reduced general and administrative expenses of \$42,952 and the net loss on equity investment of \$413,908, offset by higher interest expense and penalties on the convertible notes of \$387,722.

General and administrative expenses decreased to \$211,743 for the three-month period ended June 30, 2015 from \$254,695 for the three-month period ended June 30, 2014, primarily as a result of reduced professional fees and management fees. The Company continues to use the services of part-time contractors to carry out accounting and administrative responsibilities.

Total other expenses decreased by \$26,186 to \$854,137 for the three-month period ended June 30, 2015 from \$880,323 for the three-month period ended June 30, 2014, primarily as a result of the lower net loss on the Company's equity investment of \$413,908, as a result of the lower equity interest for the three-month period ended June 30, 2015, offset by higher interest expense and penalties on the convertible notes of \$387,722.

LIQUIDITY AND CAPITAL RESOURCES

Our primary cash requirements are for the exploration and acquisition of mining exploration properties, corporate and administrative costs and the payoff of our outstanding debt. At June 30, 2015, we had a working capital deficit of \$8,219,988 (December 31, 2014-\$7,312,054), cash on hand of \$454 (December 31, 2014-\$33,123) and current debt obligations in the amount of \$8,401,151 (December 31, 2014-\$7,409,451). To pay our debts and to fund any future operations, we require significant new funds, which we may not be able to obtain. As at June 30, 2015, in addition to the funds we require to liquidate our \$8,239,851 in current debt obligations, we estimate that we must raise approximately \$750,000 to fund capital requirements and general corporate and administrative costs for the next 12 months. See also above, Status of Sino-Top Joint Venture Funding and Potential Transaction with Investor .

We do not have sufficient funds to satisfy our current debt obligations. Should our creditors seek or demand payment, we do not have the resources to pay or satisfy any such claims. Thus, we face a risk of bankruptcy.

Our interim condensed consolidated financial statements have been presented on the basis that we are a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business and continued operations for the next twelve months.

At June 30, 2015, the Company had a working capital deficit of \$8,219,988 (December 31, 2014 \$7,312,054), had not yet achieved profitable operations, incurred a net loss of \$1,709,750 for the six-month period ended June 30, 2015 (2014 \$1,686,469), had accumulated losses of \$53,182,817 since its inception, and expects to incur further losses in the development of its business. These factors and those noted below, cast substantial doubt as to the Company's ability to continue as a going concern, which is dependent upon its ability to obtain the necessary financing to repay liabilities when they come due, and in the long run dependent upon achieving profitable operations.

Management has been unable to secure additional financing, other than the \$102,000 raised during the six months ended June 30, 2015 and a further \$50,000 raised on August 6, 2015, to meet its cash requirements, including ongoing capital and funds to repay all or certain of its convertible debt holders and other creditors. There is no assurance of additional funding in any form, being available or available on acceptable terms.

In March of 2014, the Company received extensions of its obligations to repay the convertible note holders from a date of March 31, 2014 to June 30, 2014. In addition, the Company had in place forbearance agreements with its convertible note holders. The Company was not able to repay the obligations owing to the convertible note holders on or before the June 30, 2014 deadline and thus is in default. Management continues to have discussions with the convertible debt holders in efforts to establish new deadlines for repayment and/or have them convert some or all of their convertible notes. The convertible note holders continue to have the option to convert all or a portion of their notes, as one note holder has during the current six-month period ended June 30, 2015 and subsequent to June 30, 2015. With the trading price at June 30, 2015, the Company did not have sufficient common stock to issue for a conversion of all the outstanding convertible notes.

As management was unable to secure additional financing and/or extend the payoff date for its convertible debt holders, the Company may ultimately file for bankruptcy. Since the dates to make the required contributions for the equity investment in the prior year, were not met, the Company's interest was diluted to 20%. On October 7, 2014, the Company announced that Sino-Top, its equity investment, had signed an understanding with Shengda Mining Co., Ltd. (Shengda), to be acquired subject to a third party evaluation and all other regulatory approvals and filings. As a result, there is no current effort, nor a requirement, to raise additional financing for the Company's equity investment. If the transaction with Shengda, to have it acquire our interest in Sino-Top is not completed successfully and if the Company does not increase its mining operations, it may be required to significantly limit its business activities and dissolve.

In addition, although there had been discussions between the Company and the Investor, there has been no resolution to the treatment of the \$1,069,279 advance credit note received from the Investor during the fourth quarter of 2013. The Company may be required to return such funds, with or without interest, to the Investor. On September 19, 2014, the Investor filed a complaint to recover \$1,014,140 of the advance credit note. The Company retained counsel in Delaware and filed a Motion to Dismiss. Subsequently, dates for the plaintiff's answering brief in response to the Company's Motion to Dismiss and the Company's response to this brief, were proposed by the court. The briefs were filed and on January 7, 2015, the Company filed a counterclaim against the Investor for \$120,000,000, seeking damages for failure to meet funding obligations.

As discussed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 (2014 Form 10-K), we are currently in default on our deferral agreements with three of the four convertible note lenders, as a result of not having repaid our notes on or before June 30, 2014. Management is currently in discussions with the convertible note lenders concerning additional deferrals and/or note conversions. The convertible note lenders continue to have the option of converting all or a portion of their convertible notes. In addition, one or more, may impose penalties. During the six months ended June 30, 2015 and up to the filing of this report, a total of \$243,922 in convertible notes, including accrued interest, were converted by GEL Properties, LLC, for 10,124,451 common shares of the Company. On January 16, 2015, the Company issued 4,000,000 common shares of the Company on the conversion of convertible debt in the amount of \$200,000 with one of their lenders, Tonaquint, Inc. (a Utah corporation).

In addition, on March 27, 2015, the Company completed a convertible financing arrangement with Vis Veres (a New York corporation), for an amount of \$102,000, with an interest rate of 8% per annum, due December 31, 2015. And a further convertible financing arrangement on August 6, 2015, with Adar Bays, LLC (a Florida corporation), for an amount of \$50,000, with an interest rate of 6% per annum, due August 6, 2016. As at June 30, 2015, the total outstanding on the convertible notes, including interest and penalties was \$5,076,659.

At the current trading price, the Company does not have sufficient common stock to allow for a conversion of all the remaining outstanding convertible debt.

As discussed above under Potential Transaction with Investor , we received advances of \$1,069,279 from the Investor that has demanded the refund of \$1,014,140 of such amount. In addition, on April 8, 2014, the Investor provided RMB1.0 million (approximately \$156,600) directly to Sino-Top, without the prior request or consent of the Company. The treatment of these funds, which remains in Sino-Top's account, is uncertain.

We do not have sufficient funds to satisfy the Investor's demand for a return of the funds. Thus, we face a risk of bankruptcy.

We are also party to the Travellers Facility with Travellers, a company controlled by the Company's President, Chief Executive Officer and Principal Financial and Accounting Officer, Marc Hazout. Under the Travellers Facility, Travellers has made certain historical loans to or for the benefit of the Company and may in the future make further loans to or for the benefit of the Company.

Such loans are unsecured, due on demand and non-interest bearing. As of the date of this filing, the net amount of loans outstanding under the Travellers Facility was CDN\$193,500 or approximately \$149,200 with CDN\$3,000 or approximately \$2,300 repaid on February 20, 2015, CDN\$10,000 or approximately \$7,700 advanced on March 2, 2015, CDN\$4,000 or approximately \$3,100 repaid on July 15, 2015, CDN\$16,000 or approximately \$12,300 repaid on August 4, 2015 and CDN\$3,500 or approximately \$2,700 repaid on August 11, 2015. All amounts approximate the noon exchange rate as reported by the Bank of Canada on August 12, 2015.

SIGNIFICANT ACCOUNTING POLICIES

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. These estimates are based on management's best knowledge of current events and actions we may undertake in the future. Significant areas requiring the use of estimates relate to mineral rights, equity investment, plant and equipment and stock-based compensation. Actual results could differ from these and other estimates. These estimates are reviewed periodically and as adjustments become necessary, they are reported in earnings in the respective period.

We have identified below certain accounting policies that we believe are most important for the portrayal of our current financial condition and results of operations. Our significant accounting policies are disclosed in Note 3 to the Consolidated Financial Statements included in our 2014 Form 10-K.

Mineral Rights

We record our interest in mineral rights at cost. Exploration costs are expensed. Costs associated with acquisition and development of mineral reserves, including directly related overhead costs, are capitalized and are subject to ceiling tests to ensure the carrying value does not exceed the fair value.

Investments in unproved properties and major exploration projects are not amortized until proved reserves associated with the projects can be determined or until impairment occurs. If the results of an assessment indicate that the properties are impaired, the capitalized cost of the property will be added to the costs to be amortized. We presently have no proven reserves. Where estimates of future net cash flows are not available and where other conditions suggest impairment, management assesses whether the carrying values can be recovered. If the carrying values exceed estimated recoverable values, then the costs are written-down to fair values with the write-down expensed in the period.

Equity Investment

Equity investments are entities over which we exercise significant influence but do not exercise control. These are accounted for using the equity method of accounting and are initially recognized at cost net of any accumulated impairment loss. Our share of these entities' profits or losses after acquisition of our interest is recognized in the statement of operations and cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When our share of losses on these investments equals or exceeds the carrying amount of the investment, we only recognize further losses where we have incurred obligations or made payments on behalf of the affiliate.

OFF BALANCE-SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements or contractual obligations that have had or are reasonably likely to have a material current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that have not been disclosed in our financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

Under the supervision and with the participation of our senior management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act as of the end of the period covered by this report (the Evaluation Date). Based on this evaluation, Marc Hazout, our chief executive officer and principal financial officer, concluded as of the Evaluation Date, that such disclosure controls and procedures were not effective as of the Evaluation Date. Such conclusions were based on our missing a Form 8-K during the fourth quarter of 2013 and failure to file a Form 8-K, regarding the dilution of our equity investment from 40% to 20%.

Changes in internal controls

There were no changes to the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our second fiscal quarter ended June 30, 2015 that have

materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II: OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

As set forth above, on September 19, 2014, the Investor filed a Complaint in the Court, against the Company to recover the \$1,014,140 of the \$1,069,279 in funds advanced to the Company. The Investor is seeking action for unjust enrichment, fraud and violations of the Delaware Uniform Fraudulent Transfer Act. The Complaint also named as defendants in the action, Travellers and Mr. Hazout.

The Company, Travellers and Mr. Hazout retained counsel in Delaware and filed a Motion to Dismiss. Subsequently, the Court proposed a date of November 26, 2014 for the plaintiff to file his answering brief in response to this Motion to Dismiss and the Company to file its reply brief to the plaintiff's answering brief, on or before December 12, 2014. These briefs were filed. On January 7, 2015, the Company filed a counterclaim for \$120,000,000, seeking damages for failure to meet funding obligations as a consequence of its reliance on the Investor advancing the funds which would have resulted in the Company not having had its equity investment diluted.

Travellers and Mr. Hazout are no longer named as defendants under this complaint effective June 3, 2015 and August 6, 2015, respectively, as the appeals have been accepted by the Court.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors set forth in our 2014 Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

We have defaulted under the terms of some or all of our convertible financing arrangements, as disclosed under the heading "Liquidity and Capital Resources" in our 2014 Form 10-K, which discussion is incorporated herein by reference.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

Not applicable.

ITEM 6. Exhibits
