NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1) Basis of Presentation and Summary of Significant Accounting Policies

The accompanying unaudited condensed consolidated financial statements present the condensed consolidated results of our company taken from our books and records. In our opinion, such information includes all adjustments, consisting of only normal recurring adjustments, which are necessary to make our financial position at June 30, 2007 and June 30, 2006 and the results of our operations for the three and six month periods ended June 30, 2007 and June 30, 2006 not misleading. As permitted by the rules and regulations of the Securities and Exchange Commission (SEC) the accompanying condensed consolidated financial statements do not include all disclosures normally required by accounting principles generally accepted in the United States of America. These condensed consolidated financial statements should be read in conjunction with the financial statements included in our Annual Report on Form 10-K/A for the year ended December 31, 2006 on file with the SEC. In our opinion, the condensed consolidated financial statements are a fair presentation of the financial position, results of operations and cash flows for the periods presented.

The results of operations for the three and six month periods ended June 30, 2007 is not necessarily indicative of the results of operations to be expected for the full fiscal year ending December 31, 2007.

Unless otherwise noted, amounts reported in tables are in thousands, except per share data and stock option data.

Short-Term investments

Short-term investments consist primarily of government and corporate bonds with original maturities of ninety days to one year.

Revenue recognition

Revenue from the sales of custom and fabricated compressors, and flare systems is recognized upon shipment of the equipment to customers. Exchange and rebuild compressor revenue is recognized when both the replacement compressor has been delivered and the rebuild assessment has been completed. Revenue from compressor services is recognized upon providing services to the customer. Maintenance agreement revenue is recognized as services are rendered. Rental revenue is recognized over the terms of the respective rental agreements based upon the classification of the rental agreement. Deferred income represents payments received before a product is shipped. Revenue from the sale of rental units is included in sales revenue when equipment is shipped or title is transferred to the customer.

Recently Issued Accounting Pronouncements

In July 2006 the FASB issued FASB Interpretation ("FIN") No. 48, *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement 109*. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a comprehensive model for recognizing, measuring, presenting and disclosing in the financial statements tax positions taken or expected to be taken on a tax return. FIN 48 is effective for fiscal years beginning after December 15, 2006. We adopted FIN 48 on January 1, 2007, and its adoption did not have a material impact on our consolidated financial position and results of operations. See Note 5 for additional information regarding income taxes.

In September 2006, the FASB issued SFAS No 157, *Fair Value Measurements*, which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. This

Statement applies under other accounting pronouncements that require or permit fair value measurements and is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of adopting this Statement.

In February 2007, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115* ("SFAS 159"). SFAS 159 permits entities to measure eligible assets and liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of adopting this Statement.

(2) Stock-Based Compensation

Effective January 1, 2006, the Company adopted the fair value recognition provisions of Statement of Financial Accounting Standard 123(R) "*Share-Based Payment*" ("SFAS 123(R)") using the modified prospective transition method. In addition, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 "*Share-Based Payment*" ("SAB 107") in March, 2006, which provides supplemental SFAS 123(R) application guidance based on the views of the SEC. Under the modified prospective transition method, compensation cost recognized in the quarterly periods ended June 30, 2006 and 2007 included: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123, and (b) compensation cost for all share-based payments granted beginning January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of SFAS 123(R).

A summary of stock option activity under the plan as of June 30, 2007 and changes during the six months ended June 30, 2007 is presented below.

	Number of Stock Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (years)	Aggregate Intrinsic Value (in thousands)

(5) Income Taxes

The Company adopted the provisions of FIN 48, Accounting for Uncertainty in Income Taxes, on January 1, 2007. As a result of the implementation FIN 48, the Company had no material unrecognized income tax assets or liabilities at the date of adoption nor during the three and six months ended June 30, 2007.

The Company's policy regarding income tax interest and penalties is to expense those items as general and administrative expense but to identify them for tax purposes. During the three and six months ended June 30, 2007, there were no income tax interest and penalty items in the income statement, nor as a liability on the balance sheet.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal or state income tax examination by tax authorities for years before 2003. The Company is not currently involved in any income tax examinations.

(6) Segment Information

FAS No. 131, *Disclosures About Segments of an Enterprise and Related Information*, establishes standards for public companies relating to the reporting of financial and descriptive information about their operating segments in financial statements. Operating segments are components of an enterprise about which separate financial information is available that is evaluated regularly by chief operating decision makers in how to allocate resources and in assessing performance.

The Company identifies its segments based upon major revenue sources as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The discussion and analysis of our financial condition and results of operations are based on, and should be read in conjunction with, our condensed consolidated financial statements and the related notes included elsewhere in this report and in our December 31, 2006 Form 10-K/A Report filed with the SEC. All amounts reported in tables are in thousands of dollars unless otherwise noted.

Overview

We fabricate, manufacture, rent and sell natural gas compressors and related equipment. Our primary focus is on the rental of natural gas compressors. Our rental contracts generally provide for initial terms of six to 24 months. After the initial term of our rental contracts, most of our customers have continued to rent our compressors on a month-to-month basis. Rental amounts are paid monthly in advance and include maintenance of the rented compressors. As of June 30, 2007, we had 1,058 natural gas compressors totaling 123,276 horsepower rented to 96 third parties, compared to 870 natural gas compressors totaling 97,837 horsepower rented to 74 third parties at June 30, 2006.

We also fabricate natural gas compressors for sale to our customers, designing compressors to meet unique specifications dictated by well pressures, production characteristics and particular applications for which compression is sought. Fabrication of compressors involves the purchase by us of engines, compressors, coolers and other components, and then assembling these components on skids for delivery to customer locations. These major components of our compressors are acquired through periodic purchase orders placed with third-party suppliers on an "as needed" basis, which presently requires a three to four month lead time with delivery dates scheduled to coincide with our estimated production schedules. Although we do not have formal continuing supply contracts with any major supplier, we believe we have adequate alternative sources available. In the past, we have not experienced any sudden and dramatic increases in the prices of the major components for our compressors. However, the occurrence of such an event could have a material adverse effect on the results of our operations and financial condition, particularly if we were unable to increase our rental rates and sales prices proportionate to any such component price increases.

We also manufacture a proprietary line of compressor frames, cylinders and parts, known as our CiP (Cylinder-in-Plane) product line. We use finished CiP component products in the fabrication of compressor units for sale or rental by us or sell the finished component products to other compressor fabricators. We also design, fabricate, sell, install and service flare stacks and related ignition and control devices for onshore and offshore incineration of natural gas compounds such as hydrogen sulfide, carbon dioxide, natural gas and liquefied petroleum gases. To provide customer support for our compressor and flare sales businesses, we stock varying levels of replacement parts at our Midland, Texas facility, Tulsa, Oklahoma facility and at field service locations. We also provide an exchange and rebuild program for screw compressors and maintain an inventory of new and used compressors to facilitate this business.

We provide service and maintenance to our customers under written maintenance contracts or on an as required basis in the absence of a service contract. As of June 30, 2007, we had written maintenance agreements with third parties relating to 46 compressors. Maintenance agreements typically have terms of nine months to one year and require payment of a monthly fee.

The oil and gas equipment rental and services industry is cyclical in nature. The most critical factor in assessing the outlook for the industry is the worldwide supply and demand for natural gas and the corresponding changes in commodity prices. As demand and prices increase, oil and gas producers increase their capital expenditures for drilling, development and production activities. Generally, the increased capital expenditures ultimately result in greater revenues and profits for services and equipment companies.

In general, we expect our overall business activity and revenues to track the level of activity in the natural gas industry, with changes in domestic natural gas production and consumption levels and prices more significantly affecting our business than changes in crude oil and condensate production and consumption levels and prices. We also believe that demand for compression services and products is driven by declining reservoir pressure in maturing natural gas producing fields and, more recently, by increased focus by producers on non-conventional natural gas production, such as coalbed methane, gas shales and tight gas, which typically requires more compression than production from conventional natural gas reservoirs.

Demand for our products and service was strong throughout 2006 and the first half of 2007. We believe demand will remain strong throughout the remainder of 2007 due to high oil and natural gas prices and increased demand for natural gas. Because of these market fundamentals for natural gas, we believe the long-term trend of activity in our markets is favorable. However, these factors could be more than offset by other developments affecting the worldwide supply and demand for natural gas.

Table of Contents**NATURAL GAS SERVICES GROUP, INC.**

For fiscal year 2007, our forecasted capital expenditures are \$27 to \$32 million, primarily for additions to our compressor rental fleet. We believe that the proceeds from our public offering of common stock in March 2006, together with funds available to us under our bank credit facility and cash flows from operations will be sufficient to satisfy our capital and liquidity requirements through the remainder of 2007. We may further require additional capital to fund any unanticipated expenditures, including any acquisitions of other businesses. Additional capital may not be available to us when we need it or on acceptable terms.

Results of Operations***Three months ended June 30, 2006, compared to the three months ended June 30, 2007.***

The table below shows our revenues and percentage of total revenues of each of our segments for the three months ended June 30, 2006 and June 30, 2007.

	Revenue			
	Three months Ended June 30,			
	2006		2007	
Sales	\$ 9,636	62%	\$ 10,159	58%
Service and Maintenance	262	2%	243	1%
Rental	5,560	36%	7,222	41%
Total	\$ 15,458	100%	\$ 17,624	100%

Total revenue increased from \$15.5 million to \$17.6 million, or 14.0%, for the three months ended June 30, 2007, compared to the same period ended June 30, 2006. This was mainly the result of increased rental revenue and additional compressor sales. Rental revenue increased 29.9%, sales revenue increased 5.4% offset by a decrease in service and maintenance revenue of 7.3%.

Rental revenue increased from \$5.6 million to \$7.2 million, or 29.9%, for the three months ended June 30, 2007, compared to the same period ended June 30, 2006. This increase was the result of additional units added to our rental fleet and rented to third parties. The company ended the period with 1,208 compressor packages in its rental fleet, up from 990 units at June 30, 2006. The rental fleet has a utilization of 87.6% as of June 30, 2007.

Sales revenue increased from \$9.6 million to \$10.2 million, or 5.4%, for the three months ended June 30, 2007, compared to the same period ended June 30, 2006. Sales from outside sources included: (1) compressor unit sales, (2) flare sales, (3) parts sales, (4) compressor rebuilds and (5) rental unit sales.

Service and maintenance revenue decreased from \$262 thousand to \$243 thousand, or 7.3%, for the three months ended June 30, 2007, compared to the same period ended June 30, 2006.

The overall operating margin percentage increased to 23.5% for the three months ended June 30, 2007, from 12.4% for the same period ended June 30, 2006. This was mainly the result of the changes in the margins for equipment and parts sales which averaged only 12.8% for the second quarter of 2006 compared to 28.2% in second quarter of 2007.

Selling expense decreased from \$325 thousand to \$220 thousand or 32.3% for the three months ended June 30, 2007, as compared to the same period ended June 30, 2006. This decrease is the result of decreased commissions and salaries from personnel changes to our sales force and increased sales to long-term customers.

General and administrative expenses remained flat at \$1.0 million or a .7% change for the three months ended June 30, 2007, as compared to the same period ended June 30, 2006.

Depreciation and amortization expense increased from \$1.4 million, to \$1.8 million or 32.0% for the three months ended June 30, 2007, as compared to the same period ended June 30, 2006. This increase is the result of 218 new gas compressor rental units added to the rental fleet from June 30, 2006 to June 30, 2007, thus increasing the depreciable base.

Other income net of other expense decreased \$64 thousand for the three months ended June 30, 2007, compared to the same period ended June 30, 2006. This decrease is mainly the result of reduced interest income from our short-term investments.

Table of Contents**NATURAL GAS SERVICES GROUP, INC.**

Interest expense decreased 29.6% for the three months ended June 30, 2007, compared to the same period ended June 30, 2006, mainly due to decreased loan balances financing rental equipment.

Provision for income tax increased from \$709 thousand, to \$1.6 million or 119.2%, for the three months ended June 30, 2007, compared to the same period ended June 30, 2006. This increase is the result of the increase in taxable income.

Six months ended June 30, 2006, compared to the six months ended June 30, 2007.

The table below shows our revenues and percentage of total revenues of each of our segments for the six months ended June 30, 2006 and June 30, 2007.

	Revenue			
	Six months Ended June 30, 2006		2007	
Sales	\$ 17,629	61%	\$ 19,665	57%
Service and Maintenance	540	2%	509	2%
Rental	10,867	37%	14,162	41%
Total	\$ 29,036	100%	\$ 34,336	100%

Total revenue increased from \$29.0 million to \$34.3 million, or 18.3%, for the six months ended June 30, 2007, compared to the same period ended June 30, 2006. This was mainly the result of increased rental revenue and additional compressor sales. Rental revenue increased 30.3%, sales revenue increased 11.5% and offset by a decrease in service and maintenance revenue of 5.7%.

Rental revenue increased from \$10.9 million to \$14.2 million, or 30.3%, for the six months ended June 30, 2007, compared to the same period ended June 30, 2006. This increase was the result of additional units added to our rental fleet and rented to third parties. The company ended the period with 1,208 compressor packages in its rental fleet, up from 990 units at June 30, 2006. The rental fleet has a utilization of 87.6% as of June 30, 2007.

Sales revenue increased from \$17.6 million to \$19.7 million, or 11.5%, for the six months ended June 30, 2007, compared to the same period ended June 30, 2006. Sales from outside sources included: (1) compressor unit sales, (2) flare sales, (3) parts sales, (4) compressor rebuilds and (5) rental unit sales.

Service and maintenance revenue decreased from \$540 thousand to \$509 thousand, or 5.7%, for the six months ended June 30, 2007, compared to the same period ended June 30, 2006.

The overall operating margin percentage increased to 24.3% for the six months ended June 30, 2007, from 17.1% for the same period ended June 30, 2006. This was mainly the result of the changes in margins for equipment and parts sales which averaged only 19.9% for the second quarter of 2006 compared to 29.0% in second quarter of 2007.

Selling expense decreased from \$627 thousand, to \$398 thousand or 36.5% for the six months ended June 30, 2007, as compared to the same period ended June 30, 2006. This decrease is the result of decreased commissions and salaries from personnel changes to our sales force and increased sales to long-term customers.

General and administrative expenses increased from \$2.0 million, to \$2.1 million or 2.4% for the six months ended June 30, 2007, as compared to the same period ended June 30, 2006. This increase is the result of increased Sarbanes-Oxley expenses offset by a decrease in officer salaries and bonuses.

Depreciation and amortization expense increased 33.7% from \$2.6 million, to \$3.5 million for the six months ended June 30, 2007, compared to the same period ended June 30, 2006. This increase was the result of 218 new gas compressor rental units being added to the rental fleet from June 30, 2006 to June 30, 2007, thus increasing the depreciable base.

Other income net of other expense increased by \$148 thousand for the six months ended June 30, 2007, compared to the same period ended June 30, 2006. This increase is mainly the result of additional interest income from our short-term investment account.

Interest expense decreased 35.2% for the six months ended June 30, 2007, compared to the same period ended June 30, 2006, mainly due from amortization of loan balances financing rental equipment.

Provision for income tax increased from \$1.7 million to \$3.1 million or 83.4% for the six months ended June 30, 2007, compared to the same period ended June 30, 2006. This increase is the result of the increase in taxable income.

Critical Accounting Policies and Practices

A discussion of our critical accounting policies is included in the Company's Form 10-K/A for the year ended December 31, 2006. There have been no significant changes in the six months ended June 30, 2007.

Recently Issued Accounting Pronouncements

In July 2006 the FASB issued FASB Interpretation ("FIN") No. 48, *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement 109*. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a comprehensive model for recognizing, measuring, presenting and disclosing in the financial statements tax positions taken or expected to be taken on a tax return. FIN 48 is effective for fiscal years beginning after December 15, 2006. We adopted FIN 48 on January 1, 2007, and its adoption did not have a material impact on our consolidated financial position and results of operations.

In September 2006, the FASB issued SFAS No 157, *Fair Value Measurements*, which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements and is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of adopting this Statement.

In February 2007, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115* ("SFAS 159"). SFAS 159 permits entities to measure eligible assets and liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of adopting this Statement.

Liquidity and Capital Resources

The following represents the Company's working capital position as of December 31, 2006 and June 30, 2007.

Total current liabilities	\$	10,637	\$	14,475
Total working capital	\$	44,533	\$	42,106

Historically, we have funded our operations through public and private offerings of our equity securities, subordinated debt, bank borrowings and cash flow from operations. Proceeds of financings were primarily used to pay debt and to fund the manufacture and fabrication of additional units for our rental fleet of natural gas compressors.

For the six months ended June 30, 2007, we invested \$9.0 million in equipment for our rental fleet and service vehicles. We financed this activity with cash flow from operations and public offering proceeds. In addition, we have repaid \$2.8 million of our existing debt.

Table of Contents**NATURAL GAS SERVICES GROUP, INC.***Cash flows*

At June 30, 2007, we had cash, cash equivalents and short-term investments of \$26.6 million compared to \$29.4 million at December 31, 2006. We had working capital of \$42.1 million at June 30, 2007 compared to \$44.5 million at December 31, 2006. At June 30, 2007, our total debt was \$15.6 million of which \$4.4 million was classified as current compared to \$18.4 million and \$4.4 million, respectively at December 31, 2006. We had positive net cash flow from operating activities of \$8.8 million during the first six months of 2007 compared to \$5.7 million for the first six months of 2006. This was primarily from net income of \$5.3 million and an increase in accounts payable and accrued liabilities of \$3.0 million, offset by an increase in inventory of \$3.1 million and the add back of depreciation and amortization of \$3.5 million during the six months ended June 30, 2007.

Accounts receivable increased \$995 thousand to \$9.5 million at June 30, 2007 as compared to \$8.5 million at December 31, 2006. At the end of the second quarter of 2007, the average of aged accounts receivable increased to 51 days outstanding compared to 49 days outstanding at the end of year December 31, 2006.

Inventory increased \$3.1 million to \$20.1 million as of June 30, 2007, as compared to \$16.9 million as of December 31, 2006. This increase is mainly the result of an increase in raw materials and work in progress associated with several custom compressor units and increased production of rental units.

Long-term debt decreased \$2.8 million to \$15.6 million at June 30, 2007, compared to \$18.4 million at December 31, 2006. The current portion of long-term debt remained at \$4.4 million for both June 30, 2007 and December 31, 2006.

Subordinated Debt-Related Parties

We have subordinated debt which is included in the current portion of long-term debt. The \$3.0 million principal amount of this debt is in the form of promissory notes issued to the three stockholders of SCS, who are currently employees of the Company, as part of the consideration for the acquisition of SCS. The principal of each note is payable in three equal annual installments, which commenced on January 3, 2006. Accrued and unpaid interest on the unpaid principal balance of each note is payable on the same dates as, and in addition to, the installments of principal. To secure payment of these notes, our bank lender issued letters of credit for the benefit of the holders in the aggregate amount \$2.0 million. On February 3, 2007, the face amount of the letter of credit was reduced by one-half and is currently \$1.0 million. On January 3, 2007, we paid the second installment of the annual payments in the amount of \$1.0 million in principal. The current balance of these notes is \$1.0 million.

Contractual Obligations and Commitments

We have contractual obligations and commitments that affect our consolidated results of operations, financial condition and liquidity. The following table is a summary of our significant cash contractual obligations:

Merger and Consolidation-Screw Compression Systems, Inc.

On June 25, 2007, we entered into Articles of Merger with our wholly subsidiary, Screw Compressors Systems Inc (SCS). On June 30, 2007, all of the issued and outstanding shares of common stock of SCS, all of which were held by the Company, were cancelled without consideration and SCS was merged into the Company. The purpose of the merger was to consolidate and simplify our internal accounting and tax reporting functions.

Off-Balance Sheet Arrangements

From time-to-time, we enter into off-balance sheet arrangements and transactions that can give rise to off-balance sheet obligations. As of June 30, 2007, the off-balance sheet arrangements and transactions that we have entered into include an un-drawn letter of credit and operating lease agreements. We do not believe that these arrangements are reasonably likely to materially affect our liquidity or availability of, or requirements for, capital resources.

Special Note Regarding Forward-Looking Statements

Please refer to and read “Special Note Regarding Forward-Looking Statements” in our Annual Report on Form 10-K/A for the fiscal year ended December 31, 2006.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Commodity Risk

Our commodity risk exposure is the pricing applicable to oil and natural gas production. Realized commodity prices received for such production are primarily driven by the prevailing worldwide price for crude oil and spot prices applicable to natural gas. Depending on the market prices of oil and natural gas, companies exploring for oil and natural gas may cancel or curtail their drilling programs, thereby reducing demand for our equipment and services.

Financial Instruments and Debt Maturities

Our financial instruments consist of cash and cash equivalents, short-term investments, accounts receivable, accounts payable, bank borrowings, and notes. The carrying amounts of cash and cash equivalents, accounts receivable and accounts payable approximate fair value due to the highly liquid nature of these short-term instruments. The fair value of the bank borrowings approximate the carrying amounts as of June 30, 2007, and were determined based upon interest rates currently available to us for borrowings with similar terms.

Customer Credit Risk

We are exposed to the risk of financial non-performance by customers. Our ability to collect on sales to our customers is dependent on the liquidity of our customer base. To manage customer credit risk, we monitor credit ratings of customers and seek to minimize exposure to any one customer where other customers are readily available. Unless we are able to retain our existing customers, or secure new customers if we lose one or more of our significant customers, our revenue and results of operations would be adversely affected.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures.

Under the supervision and with the participation of certain members of Natural Gas Services Group, Inc.’s management, the chief executive officer and the vice-president of accounting evaluated the effectiveness of the design and operation of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) of Natural Gas Services Group, Inc. as of the end of the period covered by this report. Based on this evaluation, the chief executive officer and vice-president of accounting concluded that, as of the end of the period covered by this report, Natural Gas Services Group, Inc.’s disclosure controls and procedures were effective to ensure that information required to be disclosed by Natural Gas Services Group, Inc. in the reports that it files under the Exchange Act is collected, processed and disclosed within the time periods

specified in the SEC's rules and forms.

(b) Changes in Internal Controls.

There were no changes in Natural Gas Services Group, Inc's internal controls during the period covered by this report that have materially affected or are reasonably likely to materially affect Natural Gas Services Group, Inc's internal controls over financial reporting. In addition, to the knowledge of the chief executive officer and vice-president of accounting there were no changes in other factors that could significantly affect these controls subsequent to the date of the most recent evaluation made by the chief executive officer and the vice-president of accounting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are a party to various legal proceedings in the ordinary course of our business. We are not currently a party to any material pending legal proceedings. We have not been a party to any bankruptcy, receivership, reorganization, adjustment or similar proceeding.

Item 1A. Risk Factors

Please refer to and read “Risk Factors” in our Annual Report on Form 10-K/A for the fiscal year ended December 31, 2006, one of which has been updated as set forth below.

Our current debt level is high and may negatively impact our current and future financial stability.

As of June 30, 2007, we had an aggregate of approximately \$15.6 million of outstanding indebtedness, not including outstanding letters of credit in the aggregate face amount of \$1.0 million, and accounts payable and accrued expenses of approximately \$7.9 million. As a result of our significant indebtedness, we might not have the ability to incur any substantial additional indebtedness. The level of our indebtedness could have several important effects on our future operations, including:

- our ability to obtain additional financing for working capital, acquisitions, capital expenditures and other purposes may be limited;
- a significant portion of our cash flow from operations may be dedicated to the payment of principal and interest on our debt, thereby reducing funds available for other purposes; and
- our significant leverage could make us more vulnerable to economic downturns.

Interest rate risk

Our Loan Agreement provides for a fixed interest rate of 7.5% for our term loan facility and our revolving line of credit facility. Consequently, our exposure to interest rates relate primarily to interest earned on short-term investments and paying above market rates, if such rates are below the fixed rate, on our bank borrowings. As of June 30, 2007, we were not using any derivatives to manage interest rate risk.

Item 4. Submission of Matters to a Vote of Security Holders

Our annual meeting of stockholders was held on June 19, 2007. At the meeting, the following three individuals were elected to serve as directors of Natural Gas Services Group, Inc. until the 2010 annual meeting of stockholders and until their respective successors are duly qualified and elected: (1) John W. Chisholm, (2) Paul D. Hensley, and (3) Richard L. Yadon. Set forth below is a tabulation of votes with respect to each nominee for director.

Name	Votes Cast
