PROSPECTUS SUMMARY

You should read the entire prospectus carefully before making an investment decision. In this prospectus, references to "we", "us" and "our" refer to New England Acquisitions, Inc. and its wholly owned subsidiaries.

We were formed as a blank check company.

In late 2002, pursuant to an Asset and Rights Purchase Agreement with ADM Tronics Unlimited, Inc., we purchased from ADM Tronics certain rights to an ethnic shave cream, a burn lotion and a medical device known as the Aurex-3 which has been designed to treat a condition known as tinnitus. We have not

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form S-8

marketed any of the products and we cannot assure you that we will be successful in marketing any of the products in the future.

On February 27, 2003, pursuant a Stock Purchase Agreement of February 14, 2003 with Eugene Cella and CJC Enterprises of New York, Inc, we acquired CJC from Mr. Cella as a wholly owned subsidiary. The purchase price consisted of 100,000 shares of our common stock. Eugene Cella is the brother of Gary Cella, our President. CJC opened a retail store under the name "Jazz Audio and Stereo" in Center Moriches, New York on February 17, 2003 which sold and installed automotive stereo systems, security devices and related products. CJC Enterprises subsequently closed the store because it was not profitable. In connection with the acquisition, we obtained the limited right to open or franchise additional Jazz Audio and Stereo stores provided that we bear all costs and issue 50,000 shares of our common stock to Mr. Cella for each such additional store. We do not have sufficient funds to bear any costs of opening or franchising any additional stores.

We are a Florida corporation formed on April 18, 2001. Our executive offices are located at 5 Ridge Road, Cos Cob, CT 06807 and our telephone number is 203-622-1848.

RISK FACTORS

An investment in our common stock involves substantial risks. You should consider carefully the following information about these risks, together with the financial and other information contained in or incorporated by reference in this prospectus, before you decide whether to buy our common stock. If any of these risks actually occur, our business, financial condition and results of operations would likely suffer. In such case, you might lose all or part of your investment.

RISKS RELATED TO OUR BUSINESS

Because we have no meaningful operating history, there is no basis on which you can evaluate our proposed business and prospects. We were formed on April 18, 2001. We have never had any significant revenues or assets. Prospective investors customarily consider a company's operating history as a factor in determining whether to make an investment. Prospective investors who decide to purchase our shares may decide not to purchase the shares if they had an operating history to review.

The lack of any prior experience of our officers in marketing the type of products we have acquired from ADM Tronics may render them unable to successfully manage our affairs in which case our business may fail. The successful marketing of the products is very complex due to the intense competition and the selection of appropriate channels of distribution and promotional activities. We believe that the managements of substantially all of the companies with which we intend to compete have substantial experience in marketing their products. The lack of our officers' experience could place us in a competitive disadvantage in an industry that is highly competitive and could result in our inability to successfully market our products in which case our shareholders can expect to lose all of their investment.

We are aware of circumstances that cast substantial doubt upon the efficacy of the Aurex-3. At the end of December 1999, 6 Aurex-3 devices were made available to the Dutch Commission on Tinnitus & Hyperacusis. On December 24, 1999, six participants were examined by the Dutch Commission for their tinnitus and trained in the use of the Aurex-3 by an audiologist and adviser of the group. After a six-week trial period with six participants, during which one participant reported a worsening of tinnitus, the Dutch Commission concluded that no positive results could be reported. The Dutch Commission tentatively concluded that the Aurex-3 seldom or never has a positive effect on tinnitus,

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form S-8

especially on high frequency tinnitus. In addition, we were recently advised by a distributor of medical products in China that on the basis of limited use, the sample we furnished has not been found to be effective.

Because each of our officers will only devote a small portion of his time to us, they may not be able to effectively manage us during the time that they allot to us in which case our business will suffer or fail. If it develops that the necessary or desirable amount of time is greater than the time that our officers will devote to us, our business will suffer or fail.

Because we have virtually no capital, we may not be able to remain in existence in which case our shareholders can expect to lose all of their investment. In addition to marketing expenses, we have and will continue to incur legal and accounting expenses to comply with our reporting obligations to the SEC as well as operating expenses. If we fail to pay the required annual fees to the state of Florida, we will be dissolved and cease to exist. If we cannot obtain additional capital, our stockholders can expect to lose all of their investment.

Although we intend to obtain additional capital primarily through the private sale of equity securities to be issued by us, we cannot assure you that additional financing will be available on terms favorable to us, if at all. Historically, it has proven difficult and very often impossible for development stage companies such as us to obtain financing on any terms. The historical difficulty is compounded by the present depressed state of the equity capital markets

If we raise additional funds through the issuance of our equity securities, the percentage ownership of our stockholders will be reduced and stockholders may experience dilution which could substantially diminish the value of their common stock. One of the factors which generally affects the market price of publicly traded equity securities is the number of shares outstanding in relationship to assets, net worth, earnings or anticipated earnings and other financial items. If a meaningful public market develops for our shares, a material amount of dilution can be expected to cause the market price of our shares to decline. Furthermore, the public perception of future dilution can have the same effect even if the actual dilution does not occur.

If we raise additional funds through the issuance of our equity securities, those securities may convey rights, preferences or privileges senior to those of the rights of the holders of our common stock which could substantially diminish the rights of the holders of our common stock and the value of their common stock. In order for us to obtain additional capital, because we are in the development stage as well as the other significant risks to our shareholders, we may find it necessary to issue securities conveying rights senior to those of the holders of our common stock. Those rights may include voting rights, liquidation preferences and conversion rights. To the extent that we convey senior rights, the value of our common stock can be expected to decline.

Because we did not have a feasibility study, independent analysis or current market survey in connection with the products we acquired from ADM Tronics or CJC Enterprises, we may not be aware of many very important negative facts and circumstances concerning them, which if we were aware, would have dissuade us from acquiring them. Companies that have historically made successful acquisitions have relied upon the information in those documents. If we had the information that those documents would have disclosed to us, we may have decided either not to acquire the products from ADM Tronics or CJC Enterprises.

Unless we can be substantially more successful than ADM Tronics in selling the products that we acquired from it, our stockholders can expect to lose all or substantially all of their investment. Although ADM Tronics has had the products for a considerable length of time, it has made only limited sales of those products. The limited sales may be an indication of the difficulty of

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form S-8

selling the products in commercial quantities. In addition, because the products were developed by ADM Tronics' founder and ADM Tronics has intimate knowledge of the products, ADM Tronics' may be in a better position to successfully market the products than are we although it has failed to do so. If we are to be successful, we will have to make significant sales of at least one of the products. To date, we have not made any sales of the products.

Because we will be solely dependant on ADM Tronics to manufacture products we acquired from it, if ADM becomes unable or refuses to supply the products to us at the agreed upon terms and conditions, we may not be able to sell any products in which case our stockholders can expect to lose the full amount of their investment. Although we have entered into a manufacturing agreement with ADM Tronics, we do not know whether ADM can manufacture the products on a timely basis in commercial quantities. In addition, if for any other reason ADM Tronics fails or refuses to comply with its obligations under the manufacturing agreement, we will be unable to sell the products.

If we do not make the required minimum royalty payments or purchase certain quantities of products from ADM Tronics beginning in November 2003, and continuing in subsequent years, we will lose certain rights of exclusivity which could significantly diminish the value of those products to us and render our shares worthless. We do not expect to purchase sufficient amounts from ADM Tronics to maintain such rights. Although ADM Tronics has verbally agreed to grant us an extension of time, the terms of the extension have not been finalized and are not evidenced by a written instrument signed by ADM Tronics. Accordingly, we cannot assure you that the extension will actually be granted by ADM Tronics or that we will derive any meaningful revenues from the sale of any of the products.

Although we may require ADM Tronics to file an infringement action against any third party who infringes the related patent, ADM Tronics may refuse or be unable to do so, in which case our rights related to the Aurex-3 may become worthless. The existence of the patent is important to us because we intend to rely upon it to prevent others from marketing a device which is the same as the Aurex-3. Because of ADM Tronics' limited resources, it may be unable to protect the patent or to challenge others who may infringe upon the patent. Because many holders of patents in the medical device industry have substantially greater resources than does ADM Tronics and patent litigation is very expensive, ADM Tronics may not have the resources necessary to challenge successfully the validity of patents held by others or withstand claims of infringement or challenges to any patent.

Because trade secrets and other means of protection which ADM Tronics and we may rely on in connection with the ethnic shave cream and the burn lotion may not adequately protect us, its intellectual property may become available to others, in which case our rights relating to those products may become worthless. We intend to rely upon trade secrets, copyright law, employee and third?party nondisclosure agreements and other protective measures in connection with the marketing of products. These measures may not provide meaningful protection to us in which case others may be able to compete with us who would not be able to do so in if those protective measures were effective.

The intense competition we expect to encounter may result in our rights relating to products we obtain from ADM Tronics to become worthless. Intensity of competition is a factor of the number and relative market strengths of competitors. There are numerous competitors in the fields we intend to enter with developed product lines and established consumer followings. Any level of actual or perceived negative comparative advantage between the products we intend to acquire and competitors' products by consumers can make the products we acquire unsaleable and therefore worthless in the market place. If the products become worthless, our stockholders can expect to lose their total investment.

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form S-8

If we are unable to effectively manage our anticipated growth, our business, financial condition and results of operations will suffer and our business could fail. If we are successful in selling any of the products we intend to acquire, our growth will place a significant strain on our financial and managerial resources. As part of our anticipated growth, we may have to implement new operational and financial systems and procedures and controls to expand, train and manage employees. If the systems, procedures and controls do not function as planned, our ability to remain in business may be significantly impaired. The impairment could result in the failure of our business in which case our stockholders could expect to lose their total investment.

Although our financial statements have been prepared assuming that we will continue as a going concern, we are not now a going concern and if we fail to become a going concern, our stockholders can expect to lose the full amount of their investment. Our ability to become a going concern depends upon the success of our proposed operations. We cannot assure you that we will ever become a going concern.

If Eugene Cella exercises his right of rescission and we do not or cannot terminate that right we will lose our rights obtained from CJC Enterprises of New York, Inc. If a rescission occurs, we will not have any right to open or franchise any additional stores or buy electronic products at 5% above Eugene Cella's cost..

CJC's only retail store was closed because it has not been profitable.

Although CJC intends to open another store in a more favorable location, CJC's ability to do so is, in substantial part, dependant upon its ability to acquire not less than \$50,000 of capital. CJC does not now have any meaningful capital and there can be no assurance that CJC will be successful in obtaining sufficient capital.

RISKS RELATED TO THE SHARES

If a viable public market for our shares does not develop, you will not be able to easily sell your shares, if at all. There has not been and may never be a viable public market for our shares and we cannot assure you that a public market will ever develop. We cannot predict the extent, if any, to which investor interest in us will lead to the development of a viable trading market in our shares. The absence of a public market could effectively eliminate your ability to sell your shares.

The large number of shares eligible for public sale can be expected to adversely affect the prices that will prevail in the trading market, if one develops, which, in turn, could impair our ability to raise needed capital. In addition to the shares which may be sold by this prospectus, we have registered 200,000 shares for resale by our management and we have verbally agreed to register all of their other shares upon their request. Sales of significant amounts of our shares in the public market, if it develops, or the perception that such sales will occur, can materially adversely affect the market price of the shares or our ability to raise capital through future offerings of equity securities. Potential equity investors can be expected to be reluctant to purchase our equity securities if they believe that the amount of our shares eligible for public sale will materially diminish the market value of our shares.

We will bear all other costs, fees and expenses incurred in effecting the registration of the shares covered by this prospectus, including, without limitation, all registration and filing fees, listing fees, fees and expenses of our counsel, fees and expenses of our accountants, and blue sky fees and expenses.

DESCRIPTION OF COMMON STOCK

Our authorized capital stock consists of 150,000,000 shares of common stock, par value \$.00001 per share.

These stockholders can determine the outcome of stockholder votes, including votes concerning the election of directors, amendments to our charter and bylaws and the approval of significant corporate transactions such as a merger or a sale of our assets. In addition, their controlling influence could have the effect of delaying, deferring or preventing a change in control of our company.

PLAN OF DISTRIBUTION

The shares covered by this prospectus may be offered and sold from time to time by the selling stockholders. The term "selling stockholders" includes pledgees, donees, transferees or other successors in interest selling shares received on or after the date of this prospectus from the selling stockholders as a pledge, gift or other non-sale related transfer. To the extent required, this prospectus may be amended and supplemented from time to time to describe specific plan of distribution.

The selling stockholders will act independently of us in making decisions with respect to the timing, manner and size of each sale. Sales may be made at then prevailing prices in the over-the-counter market or at prices related to the then current market price. Sales may also be made in negotiated transactions, including, but not limited to, one or more of the following methods:

- purchases by a broker-dealer as principal and resale by such broker-

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form S-8

dealer for its own account,

- ordinary brokerage transactions and transactions in which the broker solicits purchasers,
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction, and
- privately negotiated transactions at prices which are not related to any prevailing market price.

In connection with distributions of the shares or otherwise, the selling stockholders may:

- enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the shares in the course of hedging the positions they assume,
- sell the shares short and redeliver the shares to close out such short positions,
- enter into option or other transactions with broker-dealers or other financial institutions which require the delivery to them of shares offered by this prospectus, which they may in turn resell, or
- pledge shares to a broker-dealer or other financial institution, which, upon a default, they may in turn resell.

Some of the preceding actions may not be available to any the selling stockholder to the extent he remains as a director or executive officer of us.

In addition, any shares that qualify for sale pursuant to Rule 144 under the Securities Act of 1933 may be sold under Rule 144 rather than pursuant to this prospectus.

In effecting sales, broker-dealers or agents engaged by the selling stockholders may arrange for other broker-dealers to participate. Broker-dealers or agents may receive commissions, discounts or concessions from the selling stockholders, in amounts to be negotiated immediately prior to the sale.

In offering the shares covered by this prospectus, the selling stockholders and any broker-dealers and any other participating broker-dealers who execute sales for the selling stockholders may be deemed to be "underwriters" within the meaning of the Securities Act of 1933 in connection with these sales. Any profits realized by the selling stockholder and the compensation of such broker-dealers may be deemed to be underwriting discounts and commissions.

In order to comply with the securities laws of certain states, the shares may be sold in those states only through registered or licensed brokers or dealers. In addition, in certain states the shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

We have advised the selling stockholders that the anti-manipulation rules of Regulation M under the Securities Exchange Act of 1934 may apply to sales of shares in the market and to the activities of the selling stockholders and their affiliates. In addition, we will make copies of this prospectus available to the selling stockholders for the purpose of satisfying the prospectus delivery requirements of the Securities Act of 1933. The selling stockholders may indemnify any broker-dealer that participates in transactions involving the sale of the shares against certain liabilities, including liabilities arising under

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form S-8

the Securities Act.

At the time a particular offer of shares is made, if required, upon the request of a selling stockholder a prospectus supplement will be distributed that will set forth:

- the number of shares being offered,
- the terms of the offering, including the name of any underwriter, dealer or agent,
- the purchase price paid by any underwriter,
- any discount, commission and other underwriter compensation,
- any discount, commission or concession allowed or reallocated or paid to any dealer, and
- the proposed selling price to the public.

We have agreed to indemnify the selling stockholders against certain liabilities, including certain liabilities under the Securities Act.

We intend to keep the registration statement of which this prospectus constitutes a part effective until the earlier of (a) such time as all of the shares covered by this prospectus have been disposed of pursuant to the registration statement or (b) such time as when any remaining shares may be sold without further restrictions or limitation under the Securities Act.

LEGAL PROCEEDINGS

There are no pending or threatened legal proceedings to which we are a party or of which any of our property is the subject or, to our knowledge, any proceedings contemplated by governmental authorities.

INDEMNIFICATION

We have agreed to indemnify our executive officers and directors to the fullest extent permitted by the Florida Business Corporation Act. The Act permits us to indemnify any person who is, or is threatened to be made, a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by us or in our right) by reason of the fact that the person is or was an officer or director or is or was serving at our request as an officer or director. The indemnity may include expenses (including attorney's fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with the action, suit or proceeding, provided that he acted in good faith and in a manner he reasonably believed to be in or not opposed to our best interests, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. We may indemnify officers and directors in an action by us or in our right under the same conditions, except that no indemnification is permitted without judicial approval if the officer or director is adjudged to be liable to us. Where an officer or director is successful on the merits or otherwise in the defense of any action referred to above, we must indemnify him against the expenses which he actually and reasonably incurred. The indemnification provisions of the Florida Business Corporation Act are not exclusive of any other rights to which an officer or director may be entitled under our bylaws, by agreement, vote, or otherwise.

Insofar as indemnification arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions or otherwise, we have been advised that in the opinion of the SEC

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form S-8

such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.
