NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. Condensed Financial Statements

In the opinion of the Company, the accompanying unaudited condensed financial statements include all adjustments (consisting only of normal recurring accruals) which are necessary for a fair presentation of the results for the periods presented. Certain information and footnote disclosure, normally included in the financial statements prepared in accordance with generally accepted accounting principles, have been condensed and omitted. The results of operations for the six months ended September 30, 2003 are not indicative of the results of operations for the year ended March 31, 2004. The condensed financial statements should be read in conjunction with the Company's financial statements included in its annual report on form 10-KSB for the year ended March 31, 2003.

2. Deferred Consulting Fee

On June 11, 2003, the Company entered into a marketing and sales agreement with Ollie & Partners, LLC (O&P) which has agreed to use its "best efforts" in administrative, marketing and creative areas to bring the Company's licensed shave cream and burn lotion to market for a period of four years. Under the agreement, the Company has paid \$4,000 and 100,000 shares of the Company's common stock. To the extent sales exceed \$1,000,000 during the four year period, O&P will be paid 6% of such excess.

3. Stockholders' Equity

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form 10QSB

In May 2003, the company issued 100,000 of its common stock to each of the Company's two executive officers who are also the Company's principal stockholders. The purchase price was represented by their one year promissory notes in the amount of \$200,000 each which will be payable at the option of the respective purchaser (a) in cash with interest at the annual rate of 5% or (b) 120% of the shares purchased by the purchaser, subject to customary adjustment in the event of any stock dividend, stock split, combination or exchange of shares, merger, consolidation, spin-off, recapitalization, or other distribution of assets to stockholders.

On June 11, 2003, the Company issued 100,000 shares of its common stock in connection with the Company's agreement with O&P. For purposes of recording the transaction, the stock was valued \$.35 per share based upon a block discount factor.

In June 2003, the Company sold 5,000 shares of its common stock to its President, who is also a principal stockholder, for \$5,000.

In August 2003, the Company sold 8,100 shares of its common stock to its President, who is also a principal stockholder, for \$8,100.

4. Sales and Marketing Agreement On August 25, 2003, the Company entered into an agreement under which its wholly owned subsidiary had been appointed by Repro-Med Systems, Inc. as the exclusive world wide distributor of two gynecological medical devices. The Company will purchase the products from Repro-Med System, Inc. at specified prices. Assuming the Company achieves certain sales levels, the agreement provides for an exchange of each company's common stock. As at September 30, 2003, the Company's sales of the medical devices were \$12,093.

Item 2. Management's Plan Of Operation

The following should be read in conjunction with our financial statements and the related notes that appear elsewhere in this Annual Report. The discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to these differences include, but are not limited to, those discussed below.

We have not had any significant revenues since inception. Our sole objective is to become an operating business.

Our ability to become and continue as a going concern is dependent upon obtaining additional substantial capital. Because we have virtually no funds and no commitments which would enable us to obtain funds, we may exhaust our limited financial resources before we are ever able to commence operations.

We have obtained limited rights to sell an ethnic shave cream, a burn lotion and the Aurex-3 device from ADM Tronics Unlimited, Inc. Subject to the availability of sufficient capital, we intend to initially aggressively market the shave cream. We are reevaluating our plans to market the Aurex-3 and we have no plans to market the burn lotion. We believe that we will require funding of approximately \$200,000 to aggressively market the shave cream and for working capital during the next year.

We plan to obtain \$200,000 through the private sale of our common stock. We cannot assure you that we will be successful in obtaining any funds or that \$200,000 will be sufficient to fund our initial operations. We have not yet begun our efforts to obtain funds.

We have entered into a marketing and promotion agreement with a firm

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form 10QSB

specializing in ethnic products. We intend to formulate specific marketing plans when that firm completes its recommendations to us.

In August 2003 we entered into an agreement under which our wholly owned subsidiary has been appointed by Repto-Med Systems, Inc. as the exclusive worldwide distributor of two gynecological medical devices. The devices consist of a Masterson Endometrial Biopsy Kit for in-office physician biopsy sampling procedures and the Thermal Cautery System used designed to be used by physicians for tubal ligation procedures. Because of our lack of funds and experience, Repto-Med has agreed to perform certain functions for us.

Because we did not make minimum royalty payments or purchase certain quantities from ADM Tronics Unlimited, Inc., we have lost certain rights of exclusivity. Although ADM Tronics has verbally agreed to extend the time for such payments and royalties, the terms of the extension have not been finalized and is not evidenced by a written instrument signed by ADM Tronics, no extension is now in effect. We have recently had difficulty in contacting ADM Tronics' President and we cannot assure you that the extension will actually be granted by ADM Tronics or that we will derive any meaningful revenues from the sale of any of the products.

We will reimburse ADM Tronics for an estimated amount of \$4,500 for any tooling or non-recurring engineering services that are required to be secured in support of the manufacturing of our products. Tooling includes molds, plates, screens and other items used to produce components in a manufacturing process. Non-recurring engineering services are services such as drafting, preparation of schematics, evaluations and measurements that are performed prior to manufacturing but are not repeated during the manufacturing process.

We do not expect to purchase or sell any significant equipment, engage in product research or development and do not expect any significant changes in the number of our employees.

Item 3. Controls and Procedures.

- (a) Our principal executive officer and principal financial officer has evaluated the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) as of a date within 90 days prior to the filing date of this quarterly report and has concluded that our disclosure controls and procedures are adequate.
- (b) There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
- (c) Not applicable

PART II OTHER INFORMATION

Item 2. Changes in Securities and Use of Proceeds.

(a), (b) Not applicable

(c) In August 2003, we sold 8,100 shares of our common stock to Gary Cella for \$8,100. There were no principal underwriters. We claimed an exemption from the registration requirements of the Securities Act of 1933 pursuant to Section 4(2) of that Act inasmuch as no public offering was involved.
