PETROBRAS ENERGIA PARTICIPACIONES S.A.

**PETROBRAS ENERGIA SIGNS AN AGREEMENT
TO PERFORM EXPLORATION ACTIVITIES IN THE ARGENTINE SEA**

Edgar Filing: PETROBRAS ENERGIA PARTICIPACIONES SA - Form 6-K

Buenos Aires, September 14, 2006 Petrobras Energía Participaciones S.A. (Buenos Aires: PBE, NYSE: PZE), controlling company of Petrobras Energía S.A. (Buenos Aires: PESA), announces that Petrobras Energía S.A. has signed a memorandum of agreement with Energía Argentina S.A. (Enarsa) and YPF S.A. to create a consortium for the exploration, development, production and marketing of hydrocarbons in an offshore area called ENARSA 3 (E3) located in the Argentine continental shelf slope, approximately 250 km east of the city of Mar del Plata, Province of Buenos Aires, at depths ranging between 200 m and 3,000 m.

Petrobras Energía S.A., with a 35% stake in the consortium, will be the operator of the area while Enarsa and YPF S.A. will hold a 35% and 30% interest, respectively.

Exploration works involve 7,200 km of aerogravimetric and magnetometric surveys, 2,000 km of 2D seismic surveys, 500 square km of 3D seismic surveys and drilling of an exploration well. Petrobras Energía S.A. and YPF S.A. will be responsible, in proportion to their interest, to contribute the funds necessary to finance the investment corresponding to Enarsa in this exploration stage. In the event a commercial discovery is made, Enarsa will reimburse Petrobras Energía S.A. and YPF S.A. the funds received.

Petrobras Energía S.A. will apply the technology and know-how developed by Petrobras, a world leader in offshore exploration and a pioneer in deep and ultra-deep water operations. Petrobras operates the world's largest number of offshore oil and gas production systems. Petrobras' renowned leadership in this field is a major contribution to this project.

This agreement adds to the agreement executed last January by Enarsa, YPF S.A. and Petrouuguay S.A. for the exploration, development, production and marketing of hydrocarbons from the offshore areas ENARSA 1 (E1) and CCM2, also located in the Argentine Sea.
