Item 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On February 26, 2004 IHOP Corp. issued a press release announcing its fourth quarter 2003 financial results. A copy of the press release is attached as Exhibit 99.1, and incorporated herein by reference.

Also on February 26, 2004, IHOP Corp. held a conference call to discuss its fourth quarter 2003 financial results. A copy of the prepared remarks of management is attached as Exhibit 99.2, and incorporated herein by reference.

The prepared remarks of management accompanying management's discussion during the conference call include references to the non-GAAP financial measure free cash flow. The Company defines free cash flow for a given period as cash provided by operating activities for such period, less capital expenditures for such period. Management utilizes free cash flow as a measure of operating efficiency to determine the amount of cash remaining for general corporate and strategic purposes after funding operating activities and capital expenditures. Management believes this information is helpful to investors to determine the Company's cash available for these purposes. Free cash flow for any given period may be affected by a variety of factors, including but not limited to, changes in assets and liabilities and the timing of purchases and payments. Free cash flow is a supplemental non-GAAP measure and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with generally accepted accounting principles.

The following table reconciles the Company's guidance with respect to free cash flow for the year ending December 31, 2003, to the Company's projected cash provided by operating activities for the year ending December 31, 2003:

	Year Ending December 31, 2003	Year Ending December 31, 2002
	(dollars in thousands)	(dollars in thousands)
Cash flows from operating activities:	\$ 71,310	\$ 78,112
Capital expenditures	(80,545)	(141,740)
Free cash flow	\$ (9,235)	\$ (63,628)
