Restatement

The company hereby amends its Form 10-Q (Items 1, 4 and 6) for the quarterly period ended March 31, 2004. This amendment corrects items in the company's Consolidated Balance Sheets, Consolidated Statements of Comprehensive Income, and related notes that relate to the accounting treatment of goodwill and other intangibles associated with the company's foreign acquisitions, as described below.

During the course of the audit of our 2004 financial statements, we determined that the accounting treatment of certain of the company's goodwill and other intangibles related to our foreign acquisitions did not comply with the requirements of Statement of Financial Accounting Standards (SFAS) No. 52, Foreign Currency Translation. We maintained the value of goodwill and other intangibles associated with our 2001 and 2002 foreign acquisitions at the historic foreign currency exchange rates in place at the date of the acquisition. We now have concluded that we should have translated these intangible assets into our reporting currency at the exchange rate at each balance sheet date to reflect changes in the applicable foreign currency exchange rates. This amendment restates the company's Consolidated Balance Sheets, Consolidated Statements of Comprehensive Income, and related notes included herein to translate these intangible assets at the end of the periods reported to reflect changes in the applicable foreign exchange rates.

The cumulative impact of the error increases the company's intangible asset balance and currency translation adjustment balance within shareholders' equity by \$52.9 million and \$57.6 million as of March 31, 2004 and December 31, 2003, respectively. This change has no impact on the company's historical Consolidated Income Statements or Statements of Cash Flows, its financial debt covenants in prior years, or its previous intangible asset impairment analyses under SFAS No. 142, Goodwill and Other Intangible Assets. This change increases (decreases) comprehensive income by \$(4.7) million and \$5.5 million for the three months ended March 31, 2004 and 2003, respectively.

See Note 1, Restatement in our Notes to Consolidated Financial Statements for further information regarding this restatement.

THE MANITOWOC COMPANY, INC.
Notes to Unaudited Consolidated Financial Statements
For the Three Months Ended March 31, 2004 and 2003

1. Restatement

During the course of the audit of our 2004 financial statements, we determined that the accounting treatment of certain of the company's goodwill and other intangibles related to our foreign acquisitions did not comply with the requirements of Statement of Financial Accounting Standards (SFAS) No. 52, Foreign Currency Translation. We maintained the value of goodwill and other intangibles associated with our 2001 and 2002 foreign acquisitions at the historic foreign currency exchange rates in place at the date of the acquisition. We now have concluded that we should have translated these intangible assets into our reporting currency at the exchange rate at each balance sheet date to reflect changes in the applicable foreign currency exchange rates. This amendment restates the company's Consolidated Balance Sheets, Consolidated Statements of Comprehensive Income, and related notes included herein to translate these intangible assets at the end of the periods reported to reflect changes in the applicable foreign exchange rates.

The cumulative impact of the error increases the company's intangible asset balance and currency translation adjustment balance within shareholders' equity by \$52.9 million and \$57.6 million as of March 31, 2004 and December 31, 2003, respectively. This change has no impact on the company's historical Consolidated Income Statements or Statements of Cash Flows, its financial debt covenants in prior years, or its previous intangible asset impairment analyses under SFAS No. 142, Goodwill and Other Intangible Assets. This change increases (decreases) comprehensive income by \$(4.7) million and \$5.5 million for the three months ended March 31, 2004 and 2003, respectively.

The following table shows the impact of the restatement on the effected components of the Consolidated Balance Sheets and Consolidated Statements of Comprehensive Income.

2. Accounting Policies

Edgar Filing: MANITOWOC CO INC - Form 10-Q/A

In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments necessary to present fairly the results of operations, cash flows and comprehensive income (loss) for the three months ended March 31, 2004 and 2003 and the financial position at March 31, 2004. The interim results are not necessarily indicative of results for a full year and do not contain information included in the company's annual consolidated financial statements and notes for the year ended December 31, 2003. The consolidated balance sheet as of December 31, 2003 was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. It is suggested that these financial statements be read in conjunction with the financial statements and the notes thereto included in the company's latest annual report.

All dollar amounts, except per share amounts, are in thousands of dollars throughout the tables included in these notes unless otherwise indicated.

Certain prior period amounts have been reclassified to conform to the current period presentation.

3. Discontinued Operations

During the first quarter of 2004, the company entered into a binding agreement to divest of its wholly-owned subsidiary, Delta Manlift SAS (Delta), to JLG Industries, Inc. Headquartered in Tonneins, France, Delta manufactures the Toucan brand of vertical mast lifts, a line of aerial work platforms distributed throughout Europe for use principally in industrial and maintenance operations. The transaction is subject to completion of definitive agreements, receipt of customary approvals and submission to Delta's works council (See Note 16, Subsequent Event). In addition, during December 2003, the company completed plans to restructure its Aerial Work Platform (AWP) businesses. The restructuring included the closure of the Potain GmbH (Liftlux) facility in Dillingen, Germany and discontinuation of U.S. Manlift production at the Shady Grove, Pennsylvania facility. Once the sale of Delta is complete, the company will no longer participate in the aerial work platform market, other than providing aftermarket parts and service support. The pending sale of Delta, closure of Liftlux and discontinuation of the U.S. Manlift production represent discontinued operations under SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. Results of these companies for the three months ended March 31, 2004 and 2003 have been classified as discontinued to exclude the results from continuing operations. In addition, during 2003 the company recorded a \$13.7 million pre-tax loss (\$11.1 million net of taxes) for the closure of the AWP businesses. This charge included the following: \$4.9 million to write-off goodwill related to the AWP businesses (recorded in the second quarter of 2003); \$3.5 million to record a reserve for the present value of future non-cancelable operating lease obligations (recorded in the fourth quarter of 2003); \$3.1 million to write-down inventory to estimated realizable value (recorded in the fourth quarter of 2003); and \$2.2 million for other closure costs (recorded in the fourth quarter of 2003).

The following selected financial data of the AWP businesses for the three months ended March 31, 2004 and 2003 is presented for informational purposes only and does not necessarily reflect what the results of operations would have been had the businesses operated as a stand-alone entity. There were no general corporate expenses or interest expense allocated to discontinued operations.

Net loss from discontinued operations	\$	(847)	\$	(933)

During the fourth quarter of 2003 the company terminated its distributor agreement with North Central Crane & Excavator Sales Corporation (North Central Crane), a wholly-owned crane distributor. The company entered into a new distributor agreement with an independent third party for the area previously covered by North Central Crane. The termination of North Central Crane represents a discontinued operation under SFAS No. 144, as this was the company's only wholly-owned domestic crane distributor. Results of this company for the three months ended March 31, 2004 and 2003 have been classified as discontinued to exclude the results from continuing operations. During the fourth quarter of 2003 the company recorded a \$1.1 million pre-tax loss (\$0.9 million net of taxes), primarily for a loss on sale of inventory to the new independent third party distributor.

The following selected financial data of North Central Crane for the three months ended March 31, 2004 and 2003 is presented for informational purposes only and does not necessarily reflect what the results of operations would have been had the business operated as a stand-alone entity. There were no general corporate expenses or interest expense allocated to discontinued operations.

Net earnings (loss) from discontinued operations	\$	(124)	\$ 177

On February 14, 2003, the company finalized the sale of Femco Machine Company, Inc. (Femco), the Crane segments' crane and excavator aftermarket replacement parts and industrial repair business, to a group of private investors led by the current Femco management and its employees. After the Grove Investors, Inc. (Grove) acquisition, it was determined that Femco was not a core business to the Crane segment. Cash proceeds from the sale of Femco were approximately \$7.0 million, which includes \$0.4 million of cash received by the company for post-closing adjustments, and resulted in a gain on sale of approximately \$0.4 million (\$0.3 million net of taxes). The disposition of Femco represents a discontinued operation under SFAS No. 144. Results of Femco for the period from January 1, 2003 through February 14, 2003 have been classified as discontinued to exclude the results from continuing operations.

The following selected financial data of Femco for the period from January 1, 2003 through February 14, 2003 is presented for informational purposes only and does not necessarily reflect what the results of operations would have been had the business operated as a stand-alone entity. There was no activity related to Femco during the three months ended March 31, 2004. There were no general corporate expenses or interest expense allocated to discontinued operations.

4. Inventories

The components of inventory at March 31, 2004 and December 31, 2003 are summarized as follows:

	March 31, 2004	December 31, 2003
Inventories - gross:		
Raw materials	\$ 96,741	\$ 89,851
Work-in-process	96,278	81,378
Finished goods	162,569	120,565

Excess of FIFO costs over LIFO value	(18,626)	(18,618)
Inventories - net	\$ 297,010	\$ 232,877

Inventory is carried at lower of cost or market using the first-in, first-out (FIFO) method for 90% and 88% of total inventory at March 31, 2004 and December 31, 2003, respectively. The remainder of the inventory is costed using the last-in, first-out (LIFO) method.

5. Stock-Based Compensation

The company accounts for its stock options under the recognition and measurement provisions of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related Interpretations. No stock-based employee compensation cost related to stock options is reflected in earnings, as all option grants under those plans have an exercise price equal to the market value of the underlying common stock on the date of grant. The company recognized approximately \$0.1 million of compensation expense related to restricted stock which was issued during 2002 for both the three months ended March 31, 2004 and 2003. The following table illustrates the effect on net earnings and earnings per share if the company had applied the fair value recognition provisions of SFAS 123, Accounting for Stock-Based Compensation, to stock based employee compensation for the three months ended March 31, 2004 and 2003.

6. Contingencies and Significant Estimates

The company has been identified as a potentially responsible party under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) in connection with the Lemberger Landfill Superfund Site near Manitowoc, Wisconsin. Approximately 150 potentially responsible parties have been identified as having shipped hazardous materials to this site. Eleven of those, including the company, have formed the Lemberger Site Remediation Group and have successfully negotiated with the United States Environmental Protection Agency and the Wisconsin Department of Natural Resources to fund the cleanup and settle their potential liability at this site. Estimates indicate that the total costs to clean up this site are approximately \$30 million. However, the ultimate allocations of costs for

this site are not yet final. Although liability is joint and several, the company's share of the liability is estimated to be 11% of the total cost. Prior to December 31, 1996, the company accrued \$3.3 million in connection with this matter. The amounts the company has spent each year through March 31, 2004 to comply with its portion of the cleanup costs have not been material. Remediation work at the site has been substantially completed, with only long-term pumping and treating of groundwater and site maintenance remaining. The company's remaining estimated liability for this matter, included in other current liabilities in the Consolidated Balance Sheet at March 31, 2004 is \$0.6 million. Based on the size of the company's current allocation of liabilities at this site, the existence of other viable potential responsible parties and current reserve, the company does not believe that any liability imposed in connection with this site will have a material adverse effect on its financial condition, results of operations, or cash flows.

At certain of the company's other facilities, the company has identified potential contaminants in soil and groundwater. The ultimate cost of any remediation required will depend upon the results of future investigation. Based upon available information, the company does not expect that the ultimate costs will have a material adverse effect on its financial condition, results of operations, or cash flows.

The company believes that it has obtained and is in substantial compliance with those material environmental permits and approvals necessary to conduct its various businesses. Based on the facts presently known, the company does not expect environmental compliance costs to have a material adverse effect on its financial condition, results of operations, or cash flows.

As of March 31, 2004, various product-related lawsuits were pending. To the extent permitted under applicable law, all of these are insured with self-insurance retention levels. The company's self-insurance retention levels vary by business, and have fluctuated over the last five years. The range of the company's self-insured retention levels is \$0.1 million to \$3.0 million per occurrence. The high-end of the company's self-insurance retention level is a legacy product liability insurance program inherited in the Grove acquisition in 2002 for cranes manufactured in the United States for occurrences from 2000 through October 2002. As of March 31, 2004, the largest self-insured retention level currently maintained by the company is \$2.0 million per occurrence and applies to product liability for cranes manufactured in the United States.

Product liability reserves in the Consolidated Balance Sheet at March 31, 2004, were \$30.2 million; \$8.1 million reserved specifically for cases and \$22.1 million for claims incurred but not reported which were estimated using actuarial methods. Based on the company's experience in defending product liability claims, management believes the current reserves are adequate for estimated case resolutions on aggregate self-insured claims and insured claims. Any recoveries from insurance carriers are dependent upon the legal sufficiency of claims and solvency of insurance carriers.

At March 31, 2004 and December 31, 2003, the company had reserved \$38.5 million and \$41.7 million, respectively, for warranty claims included in product warranties and other non-current liabilities in the Consolidated Balance Sheets. Certain of these warranties and other related claims involve matters in dispute that ultimately are resolved by negotiations, arbitration, or litigation.

It is reasonably possible that the estimates for environmental remediation, product liability and warranty costs may change in the near future based upon new information that may arise or matters that are beyond the scope of the company's historical experience. Presently, there are no reliable methods to estimate the amount of any such potential changes.

The company is involved in numerous lawsuits involving asbestos-related claims in which the company is one of numerous defendants. After taking into consideration legal counsel's evaluation of such actions, the current political environment with respect to asbestos related claims, and

Edgar Filing: MANITOWOC CO INC - Form 10-Q/A

the liabilities accrued with respect to such matters, in the opinion of management, ultimate resolution is not expected to have a material adverse effect on the financial condition, results of operations, or cash flows of the company.

The company is also involved in various legal actions arising out of the normal course of business, which, taking into account the liabilities accrued and legal counsel's evaluation of such actions, in the opinion of management, the ultimate resolution is not expected to have a material adverse effect on the company's financial condition, results of operations, or cash flows.

At March 31, 2004, the company is contingently liable under open standby letters of credit issued by the company's bank in favor of third parties totaling \$29.0 million. The open standby letters of credit primarily related to business in the Marine segment.

7. Loss on Debt Extinguishment

During the first quarter of 2004, the company recorded a charge of \$0.6 million (\$0.4 million net of income taxes) related to the partial prepayment of its Term Loan B facilities. The loss relates to the write-off of unamortized financing fees and partial unwinding of the company's floating-to-fixed interest rate swap. The charge was recorded in loss on debt extinguishment in the Consolidated Statement of Operations.

8. Earnings Per Share

The following is a reconciliation of the average shares outstanding used to compute basic and diluted earnings per share.

	Three Months Ended March 31,	
	2004	2003
Basic weighted average common shares outstanding	26,673,710	26,542,127
Effect of dilutive securities - stock options and restricted stock	447,315	39,930
Diluted weighted average common shares outstanding	27,121,025	26,582,057

For the three months ended March 31, 2004 and 2003, 1,750,582 and 2,152,825, respectively, common shares issuable upon the exercise of stock options were anti-dilutive and were excluded from the calculation of diluted earnings per share.

9. Guarantees

The company periodically enters into transactions with customers that provide for residual value guarantees and buyback commitments. These transactions are recorded as operating leases for all significant residual value guarantees and for all buyback commitments. Net proceeds received in connection with these initial transactions are recorded as deferred revenue and are amortized to income on a straight-line basis over a period equal to that of the customer's third party financing agreement. The deferred revenue included in other current and non-current liabilities at March 31, 2004 and December 31, 2003 was \$95.7 million and \$75.2 million, respectively. The total amount of residual value guarantees given by the company at March 31, 2004 was \$48.0 million.

If all buyback commitments were satisfied at March 31, 2004, the total cash cost to the company would be \$54.6 million. This amount is not reduced for amounts the company may recover from repossessing and subsequent resale of the units.

The residual value guarantees and buyback commitments expire at various times through 2009.

The company also has an accounts receivable factoring arrangement with a bank. Under this arrangement, the company is required to repurchase from the bank the first \$0.5 million and amounts greater than \$1.0 million of the aggregate uncollected receivables during a

Edgar Filing: MANITOWOC CO INC - Form 10-Q/A

twelve-month period. The company's contingent factoring liability, net of cash collected from customers was \$21.4 million and \$22.4 million at March 31, 2004 and December 31, 2003, respectively.

In the normal course of business, the company provides its customers a warranty covering workmanship, and in some cases materials, on products manufactured by the company. Such warranty generally provides that products will be free from defects for periods ranging from 12 months to 60 months. If a product fails to comply with the company's warranty, the company may be obligated, at its expense, to correct any defect by repairing or replacing such defective products. The company provides for an estimate of costs that may be incurred under its warranty at the time product revenue is recognized. These costs primarily include labor and materials, as necessary, associated with repair or replacement. The primary factors that affect the company's warranty liability include the number of units shipped and historical and anticipated warranty claims. As these factors are impacted by actual experience and future expectations, the company assesses the adequacy of its recorded warranty liability and adjusts the amounts as necessary. Below is a table summarizing the warranty activity for the three months ended March 31, 2004.

Balance at December 31, 2003	\$	41,770
Accruals for warranties issued during the three months		4,493
Settlements made (in cash or in kind) during the three months		(7,340)

10. Plant Consolidations and Restructuring

During the first quarter of 2002, the company recorded a pre-tax restructuring charge of \$3.9 million in connection with the consolidation of its Multiplex operations into other of its Foodservice operations. These actions were taken in an effort to streamline the company's cost structure and utilize available capacity. The charge included \$2.8 million to write-down the building and land, which were held for sale, to estimated fair market value less cost to sell, \$0.7 million related to the write-down of certain equipment, and \$0.4 million related to severance and other employee related costs. The entire charge was paid or utilized by December 31, 2002. During the fourth quarter of 2003, the company recorded an additional charge related to the Multiplex building and land of \$0.3 million. This charge was recorded in plant consolidation and restructuring costs in the Consolidated Statement of Operations for the year ended December 31, 2003. During the first quarter of 2004, the company completed the sale of the building and land. The company received proceeds of \$2.7 million from the sale.

During the second quarter of 2002, the company finalized the purchase accounting for the acquisition of Potain SA (Potain), which included recording an \$8.1 million liability associated with certain restructuring and integration activities. To achieve reductions in operating costs and to integrate the operations of Potain, the company recorded an \$8.1 million liability related primarily to employee severance benefits for workforce reductions. Approximately 135 hourly and salaried positions were eliminated. To date the company has utilized approximately \$4.0 million of this liability. The remainder of this reserve will be utilized through 2006 based upon the underlying contractual arrangements.

During the fourth quarter of 2002, the company completed certain integration activities related to the Grove acquisition and other restructuring activities in the Crane segment. The total amount recognized by the company for these integration and restructuring activities was \$12.1 million. Of this amount \$4.4 million was recorded in the opening balance sheet of Grove and \$7.7 million was recorded as a charge to earnings during the fourth quarter of 2002. These actions were taken in an effort to achieve reductions in operating costs, integrate and consolidate certain operations and functions within the segment and to utilize available capacity.

The \$4.4 million recorded in Grove's opening balance sheet related to severance and other employee related costs for headcount reductions at various Grove facilities. The \$7.7 million charge included \$4.0 million related to severance and other employee related costs for headcount reductions at various Manitowoc and Potain facilities, \$2.7 million related to the write-down of certain property, plant and equipment, and \$1.0 million related to lease termination costs. In total, approximately 600 hourly and salaried positions will be eliminated and four facilities will be consolidated into other Crane operations. To date, the company has utilized approximately \$9.0 million of the total \$12.1 million reserve which includes \$2.7 million non-cash write-down of property, plant and equipment, and \$6.3 million cash paid to employees for severance. The remaining \$3.1 million reserve is recorded in accounts payable and accrued expenses in the Consolidated Balance Sheet and will be utilized by the company during the remainder of 2004.

During the second quarter of 2003 the company completed its plans to consolidate the National Crane Corporation (National Crane) facility located in Nebraska to the Grove facility located in Pennsylvania. As a result, the company recorded a \$12.4 million charge in the opening balance sheet of Grove. The actions to consolidate the National Crane facility with the Grove facility were taken in an effort to streamline the company's cost structure and utilize available capacity at the Grove facility. The charge included \$3.7 million related to severance and other

Edgar Filing: MANITOWOC CO INC - Form 10-Q/A

employee related costs for workforce reductions. Approximately 290 hourly and salaried positions will be eliminated with the consolidation. The charge also included \$6.8 million to write-down the National Crane building and land to estimated fair market value less cost to sell, to prepare the facility for sale and to write-down certain machinery and equipment which will not be relocated to the Grove facility. In addition, the company recorded reserves of \$1.2 million to write-off inventory which was acquired in the Grove acquisition and will not be relocated and \$0.7 million for other consolidation costs. Of the \$12.4 million recorded for the consolidation of the National Crane facility, approximately \$6.2 million are non-cash-related charges. Of the \$6.2 million cash related charges, \$3.2 million has been utilized as of March 31, 2004. The cash payments are expected to be completed by the third quarter of 2004. In addition to the \$12.4 million recorded in the opening balance sheet, the company recorded a charge of

\$2.4 million to earnings during the year ended December 31, 2003 for consolidation costs which were expensed as incurred. This amount was recorded in plant consolidation and restructuring costs in the Consolidated Statement of Earnings for the year ended December 31, 2003. There were no charges related to the National Crane consolidation recorded in the Consolidated Statement of Earnings for the three months ended March 31, 2004.

11. Employee Benefit Plans

The company provides certain pension, health care and death benefits for eligible retirees and their dependents. The pension benefits are funded, while the health care and death benefits are not funded but are paid as incurred. Eligibility for coverage is based on meeting certain years of service and retirement qualifications. These benefits may be subject to deductibles, co-payment provisions, and other limitations. The company has reserved the right to modify these benefits.

The components of periodic benefit costs for the three months ended March 31, 2004 and 2003 are as follows:

The company's postretirement benefit plans provide for prescription drug benefits. On December 8, 2003, the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) was signed into law. The Act introduces a prescription drug benefit under Medicare (Medicare Part D) as well as a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. In accordance with FASB Staff

Position 106-1, Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003, any measures of the company's accumulated postretirement benefit obligation or net periodic postretirement benefit cost in the Consolidated Financial Statements and accompanying notes do not reflect the effects of the Act on the plans. Specific authoritative guidance on the accounting for the federal subsidy is pending and that guidance, when issued, could require the company to change previously reported information.

The expected 2004 contributions for the U.S. pension plans are as follows: Minimum contribution for 2004 is \$9.6 million; and discretionary contribution is \$0. Expected company paid claims for the postretirement health and life plans are \$4.2 million for the 2004 calendar year.

12. Legal Settlement

During the first quarter of 2004, the company reached a settlement agreement with a third party and recorded a \$2.3 million gain, net of legal and settlement costs, in other income (expense) in the Consolidated Statement of Operations.

13. Goodwill and Other Intangible Assets

The tables below have been restated for the impact of changes in foreign exchange rates on the company's goodwill and other intangible assets.

The changes in carrying amount of goodwill by reportable segment for the year ended December 31, 2003 and three months ended March 31, 2004 are as follows:

	Cranes and Related Products (as restated)	Foodservice Equipment	Marine	Total (as restated)

During 2003 the company completed the purchase accounting related to the Grove acquisition and the company recorded \$30.2 million of purchase accounting adjustments to the August 8, 2002 Grove opening balance sheet. The purchase accounting adjustments related to the following: \$13.2 million to finalize the accounting for deferred income taxes, related primarily to the non-U.S. Grove operations; \$12.4 million

Edgar Filing: MANITOWOC CO INC - Form 10-Q/A

for consolidation of the National Crane facility located in Nebraska to the Grove facility located in Pennsylvania (see further detail in Note 10, Plant Consolidations and Restructuring); \$2.1 million, \$0.5 million and \$1.5 million for additional accounts receivable, inventory and warranty reserves, respectively; \$0.9 million related to severance and other employee related headcount reductions at the Grove facilities in Europe (see further detail in Note 10, Plant Consolidations and Restructuring); \$2.0 million of pension curtailment gain as a result of the closing of the National Crane facility located in Nebraska (reduction of goodwill); and \$1.6 million for other purchase accounting related items.

During 2003 the company completed the purchase accounting related to Manitowoc Foodservice Europe S.r.l. (f/k/a Fabbrica Apparecchiature per la Produzione del Ghiaccio Srl). The purchase accounting adjustments resulted in recording \$0.7 million of adjustments to the April 8, 2002 opening balance sheet.

During the fourth quarter of 2003 the company reversed a valuation allowance of approximately \$1.0 million of foreign operating loss carryforwards acquired in the Potain acquisition. This reversal reduced goodwill accordingly.

During the second quarter of 2003 the company completed its annual impairment analysis of goodwill and other intangible assets in accordance with SFAS No. 142, Goodwill and Other Intangible Assets. As a result, the company recorded a goodwill impairment charge of \$4.9 million. This charge relates to the company's Aerial Work Platform reporting unit, a

reporting unit in the company's Crane segment. The charge was based on current economic conditions in this reporting unit. The fair value of this reporting unit was based on management's estimates of future cash flows.

The gross carrying amount and accumulated amortization of the company's intangible assets other than goodwill, all as a result of the Potain and Grove acquisitions, were as follows as of March 31, 2004 and December 31, 2003.

	March 31, 2004			December 31, 2003

14. Recent Accounting Changes and Pronouncements

During December 2003, the Financial Accounting Standards Board (FASB) revised SFAS No. 132, "Employers' Disclosures about Pensions and Other Postretirement Benefits," to require additional disclosure about the assets, obligations, cash flows, and net periodic benefit cost of defined benefit pension plans and other defined benefit postretirement plans. These disclosure requirements were effective immediately for the company's domestic plans, except for estimated future benefit payments, which are effective in the second quarter of 2004. This statement also requires interim-period disclosures of the components of net periodic benefit cost and, if significantly different from previously disclosed amounts, the amount of contributions and projected contributions to fund pension plans and other postretirement benefit plans. These interim-period disclosures are effective in the first quarter of 2004 (see Note 11, "Employee Benefit Plans").

In January 2003, the FASB issued FIN No. 46, "Consolidation of Variable Interest Entities." FIN No. 46 clarifies the application of Accounting Research Bulletin No. 51, "Consolidated Financial Statements," to certain entities in which equity investors lack the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. A variable interest entity is required to be consolidated by the company that has a majority of the exposure to expected losses of the variable interest entity. The consolidation provisions of FIN No. 46, as revised, were effective immediately for interests created after January 31, 2003 and were effective on March 31, 2004 for interests created before February 1, 2003. The adoption of FIN No. 46 did not have an impact on the company's Consolidated Financial Statements for the year ended December 31, 2003 for interests created after January 31, 2003 or on the company's Consolidated Financial Statements for the three months ended March 31, 2004 for interests created before February 1, 2003.

15. Subsidiary Guarantors of Senior Subordinated Notes due 2011 and 2012 and Senior Notes due 2013

The Condensed Consolidating Balance Sheets as of March 31, 2004 and December 31, 2003 have been restated for the impact of changes in foreign exchange rates on the company's goodwill, other intangible assets, and stockholder's equity.

The following tables present condensed consolidating financial information for (a) the parent company, The Manitowoc Company, Inc. (Parent); (b) on a combined basis, the guarantors of the Senior Subordinated Notes due 2011 and 2012 and Senior Notes due 2013, which include substantially all of the domestic wholly owned subsidiaries of the company (Subsidiary Guarantors); and (c) on a combined basis, the wholly and partially owned foreign subsidiaries of the company, which do not guarantee the Senior Subordinated Notes due 2011 and 2012 and Senior Notes due 2013 (Non-Guarantor Subsidiaries). Separate financial statements of the Subsidiary Guarantors are not presented because the guarantors are fully and unconditionally, jointly and severally liable under the guarantees, and the company believes such separate statements or disclosures would not be useful to investors.

17. Subsequent Event

On April 30, 2004, the company completed the sale of its Delta Manlift subsidiary to JLG Industries, Inc. Previously the company entered into a binding offer with JLG Industries, Inc to sell Delta Manlift subject to the completion of definitive agreements, the receipt of customary approvals and receipt of Delta works council advice. These conditions were all met and the sale was finalized on April 30, 2004. The company received \$9.0 million for the Delta Manlift subsidiary and certain other assets of its AWP businesses, which is subject to post closing adjustment. The company is in the process of completing the closing balance sheet of Delta Manlift and expects to record a gain on sale during the second quarter of 2004 in discontinued operations in the Consolidated Statement of Operations.

Item 4 Controls and Procedures

Disclosure Controls and Procedures: The company maintains disclosure controls and procedures designed to ensure that information the company must disclose in its filings with the Securities and Exchange Commission is recorded, processed, summarized and reported on a timely basis. In connection with the initial preparation of this Quarterly Report on Form 10-Q, the company's management, with the participation of the company's Chief Executive Officer and Chief Financial Officer, reviewed and evaluated the effectiveness of the company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this report (the "Evaluation Date")). Based on that evaluation, the company's Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, the company's Disclosure Controls and Procedures were effective in bringing to their attention on a timely basis material information relating to the company required to be included in the company's periodic filing under the Exchange Act.

In light of the material weakness in the company's internal controls over financial reporting discussed below (see "Internal Controls Over Financial Reporting") and in connection with the preparation of this amendment to our report, management of the company, with the participation of the Chief Executive Officer and Chief Financial Officer, again reviewed and evaluated the effectiveness of the company's disclosure controls and procedures. In particular, they specifically assessed whether this material weakness in our internal controls over financial reporting had any implications with respect to the effectiveness of the company's disclosure controls and procedures. They determined that it is difficult to separate the material weakness in internal controls from the company's disclosure controls and procedures. Because of the material weakness described below, we have concluded that our disclosure controls and procedures were ineffective as of March 31, 2004. We have directed the implementation of the remedial steps described below to strengthen the effectiveness of the company's disclosure controls and procedures.

Internal Controls Over Financial Reporting. When the company first filed its Quarterly Report for the three-months ended March 31, 2004, we were engaged in a comprehensive effort to ensure compliance with Section 404 of the Sarbanes-Oxley Act of 2002 for the year ended December 31, 2004. This effort included internal control documentation and review under the direction of senior management. At that point in the process, we had detected no material weaknesses in internal controls over financial reporting. Since that time, we have completed the comprehensive review of our internal controls over financial reporting, and as discussed in more detail in Note 1 to the company's Financial Statements we have determined that we misapplied Statements of Financial Reporting Statement Number 52 (SFAS No. 52) to our 2001 and 2002 foreign acquisitions by failing to translate from period to period the goodwill and intangible assets associated with those acquisitions to reflect changes in applicable foreign currency exchange rates. We therefore are restating the company's financial statements in this amendment to our report to correct the error that resulted from the misapplication of SFAS No. 52. (See Note 1 to the company's Financial Statements included in Part I - Item 1 of this Amendment.) We intend to report this error as a material weakness in the company's internal controls for financial reporting in the Annual Report on Form 10-K for the year ended December 31, 2004.

To assure similar misapplications of SFAS No. 52 do not occur in the future, we have notified appropriate internal accounting personnel by memo of the appropriate application of SFAS No. 52 to these situations, and we plan to conduct follow-up training of those personnel regarding the appropriate accounting treatment of foreign exchange rates in connection with the preparation of the company's financial statements.
