

GANDER MOUNTAIN CO
Form 10-Q
September 07, 2006

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**
WASHINGTON, D.C. 20549

FORM 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934 FOR THE QUARTERLY PERIOD ENDED JULY 29, 2006.**

Commission File Number: 000-50659

GANDER MOUNTAIN COMPANY

(Exact name of Registrant as Specified in its Charter)

Minnesota
(State or Other Jurisdiction of
Incorporation or Organization)

41-1990949
(I.R.S. Employer
Identification No.)

180 East Fifth Street, Suite 1300

Saint Paul, Minnesota 55101

(651) 325-4300

(Address, including zip code, and telephone number, including area code,

of Registrant's Principal Executive Offices)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. check one large accelerated filer accelerated filer non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: Common Stock, \$.01 par value; 14,308,274 shares outstanding as of September 1, 2006.

Gander Mountain Company

Notes to Unaudited Financial Statements

Quarterly Period Ended July 29, 2006

1. Basis of Presentation

The accompanying unaudited financial statements of Gander Mountain Company (we or us) have been prepared in accordance with the requirements for Form 10-Q and do not include all the disclosures normally required in annual financial statements prepared in accordance with U.S. generally accepted accounting principles. The interim financial information as of July 29, 2006 and for the 13 and 26 weeks ended July 29, 2006 and July 30, 2005, is unaudited and has been prepared on the same basis as the audited annual financial statements. In the opinion of management, this unaudited information includes all adjustments necessary for a fair presentation of the interim financial information. All of these adjustments are of a normal recurring nature. These interim financial statements filed on this Form 10-Q and the discussions contained herein should be read in conjunction with the annual financial statements and notes included in our Annual Report on Form 10-K for the fiscal year ended January 28, 2006, as filed with the Securities and Exchange Commission, which includes audited financial statements for our three fiscal years ended January 28, 2006.

Our business is seasonal in nature and interim results may not be indicative of results for a full year. Historically, we have realized more of our sales in the latter half of our fiscal year, which includes the hunting and holiday seasons. Our business is also impacted by the timing of new store openings. Both variation in seasonality and new store openings impact the analysis of the results of operations and financial condition for comparable periods.

2. Stock-Based Compensation

Effective January 29, 2006, we adopted the fair-value recognition provisions of the Financial Accounting Standards Board's Statement No. 123 (revised 2004), *Share-Based Payment* (SFAS 123R), which requires the measurement and recognition of compensation expense for all stock-based payment awards made to employees and directors including employee stock option awards and employee stock purchases made under our employee stock purchase plan. We adopted the provisions of SFAS 123R, using the modified-prospective transition method. Under this transition method, stock-based compensation expense was recognized in the financial statements for the 13 and 26 weeks ended July 29, 2006, for granted, modified or settled stock options and for expense related to the employee stock purchase plan. The provisions of SFAS 123R apply to new stock options and stock options outstanding, but not yet vested, on the effective date of January 29, 2006. Results for prior periods have not been restated, in accordance with the modified-prospective transition method.

We previously applied the provisions of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB No. 25) and related interpretations and provided the required pro forma disclosures in the notes to the financial statements pursuant to Statement No. 123, *Accounting for Stock-Based Compensation*. Prior to fiscal 2006, generally no stock-based compensation expense was recognized in our statements of operations for employee stock options, as the exercise price was equal to the market price of our stock on the date of grant.

Share-based awards - In February 2004, we adopted the 2004 Omnibus Stock Plan, which currently authorizes the granting of stock-based awards covering up to 4,000,000 shares of common stock. Under this plan, awards may be made to employees, directors, and consultants. The types of awards that may be granted under the plan include restricted and unrestricted stock, incentive and nonstatutory stock options, stock appreciation rights and other stock awards. Under this plan, as of July 29, 2006, there were 2,994,756 options to purchase common stock outstanding, of which 1,844,632 are exercisable. These vested options have a weighted-average exercise price of \$13.76 per share, a weighted-average remaining life of 8.8 years and an intrinsic value of approximately \$10,000 at July 29, 2006. The options granted under this plan, for which vesting was not accelerated in fiscal year 2005, primarily vest in three equal annual increments from the date of grant.

Edgar Filing: GANDER MOUNTAIN CO - Form 10-Q

In February 2002, we implemented the 2002 Stock Option Plan, a compensatory nonqualified stock option plan for certain store and office management personnel. As of July 29, 2006, there were 151,548 options outstanding under this plan to purchase common stock with the ability to exercise being contingent upon the attainment of a \$32.06 per share price for our common stock as of the end of a fiscal year based upon the higher of the closing price on the last day of the fiscal year or a five-day trailing average stock price taken at that time. These options have a 10-year life with vesting subject to our meeting the targeted stock price of \$32.06 per share at a fiscal year end. The exercise price is \$4.47 per share. We are no longer authorized to grant any awards under the 2002 Stock Option Plan.

We have also granted other options to certain members of our management team on several dates prior to fiscal year 2005. The exercise price in all cases was the fair value of the underlying common stock on the date of grant, with exercise periods of up to ten years. As of July 29, 2006, there were 897,352 options to purchase common stock outstanding under these grants, all of which are fully vested and exercisable. These vested options have a weighted-average exercise price of \$9.33 per share, a weighted-average remaining life of 5.3 years and an intrinsic value of approximately \$173,000 at July 29, 2006.

As of July 29, 2006, there were a total of 4,043,656 options to purchase common stock outstanding, under all of our stock option plans and non-plan stock options, with a weighted average exercise price of \$10.29 and a weighted average remaining life of 7.9 years. These options vest in equal increments primarily over periods of three years from the date of grant, although certain grants have been made with shorter vesting schedules and the vesting of certain stock options was accelerated in fiscal 2005. The following table summarizes stock-based payment award activity for the 26 weeks ended July 29, 2006:

	Number of Shares Under Option	Weighted- Average Exercise Price
Outstanding - January 28, 2006	3,680,804	\$ 10.84
Granted	395,767	6.45
Exercised		
Forfeited	(118,909)	10.89
Outstanding -April 29, 2006	3,957,662	\$ 10.40
Granted	138,100	7.82
Exercised		
Forfeited	(52,106)	12.09
Outstanding -July 29, 2006	4,043,656	\$ 10.29
Weighted-average Black-Scholes fair value of options granted during the quarter ended July 29, 006		\$ 3.86

In February 2005, our board of directors approved the establishment of an employee stock purchase plan (ESPP) that enables substantially all fulltime employees to purchase common stock by contributions through payroll deductions. Purchases of common stock are made from accumulated employee contributions at the end of designated six-month purchase periods. Pursuant to the terms of the ESPP, we have currently established a 10% discount from the stock price on the designated purchase date. Since the purchase discount exceeds the amount allowed under SFAS 123R for non-compensatory treatment, we recorded expense of \$8,000 and \$14,000 for the ESPP in the 13 weeks and 26 weeks ended July 29, 2006. As of July 29, 2006, 51,349 shares had been issued under the ESPP and 448,651 shares were available for issuance.

The stock options outstanding and exercisable for share-based payment awards as of July 29, 2006 were in the following exercise price ranges:

Range of Exercise Prices	Options Outstanding			Options Exercisable		
	Number Outstanding	Weighted-Average Remaining Contractual Life	Weighted Average Exercise Price	Number Outstanding	Weighted-Average Exercise Price	
\$ 4.47 - 7.99	1,226,906	9.0 Years	\$ 5.84	10,000	\$ 5.00	
8.00 - 11.99	1,826,322	7.2 Years	9.74	1,741,556	9.74	
12.00 - 15.99	77,100	8.3 Years	12.90	77,100	12.90	
16.00 - 19.99	739,378	7.7 Years	16.00	739,378	16.00	
20.00 - 23.99	133,950	8.0 Years	21.45	133,950	21.45	
24.00 - 24.40	40,000	7.7 Years	24.40	40,000	24.40	
\$ 4.47 - 24.40	4,043,656	7.9 Years	\$ 10.29	2,741,984	\$ 12.31	

Impact of the adoption of Statement 123R - The amount of compensation expense for stock-based awards to be recognized during a period is based on the portion of the awards that are ultimately expected to vest. We estimate option forfeitures at the time of grant and revise those estimates in subsequent periods if actual forfeitures differ significantly from those estimates. Cost is recognized using a straight-line amortization method over the requisite service period, which typically is the vesting period. As a result of adopting SFAS 123R, our loss from operations and net loss for the 13 and 26 weeks ended July 29, 2006 are \$295,000 and \$531,000 higher, respectively, than if we had continued to account for share-based compensation under APB No. 25. Basic and diluted loss per share for the 13 and 26 weeks ended July 29, 2006 are \$.02 and \$.04 higher, respectively, than under APB No. 25. There was no impact on cash flows.

At July 29, 2006, there was approximately \$3,400,000 of total unrecognized stock-based compensation expense related to unvested option awards. Unrecognized stock-based compensation is expected to be recognized over a weighted-average period of 2.5 years.

We also recorded expense of \$65,000 and \$78,000 for the 13 and 26 week periods ended July 29, 2006, respectively, for options to purchase stock issued to non-employees prior to fiscal year 2006.

Valuation Assumptions We have estimated the fair value of all stock option awards as of the date of the grant by applying the Black-Scholes Merton option pricing valuation model. The application of this valuation model involves assumptions that are judgmental and sensitive in the determination of the resulting compensation expense. The key assumptions used in determining the fair value of options granted in the 26 week period ended July 29, 2006, and a summary of the methodology applied to develop each assumption are as follows:

	26 Weeks Ended			
	July 29, 2006		July 30, 2005	
Average risk-free interest rate (1)	4.80	%	4.22	%
Expected stock price volatility (2)	50	%	50	%
Expected term (years) (3)	5		5	
Expected dividend yield (4)	0.0	%	0.0	%

(1) *Risk-Free Interest Rate*: This is the U.S. Treasury zero-coupon rate, as of the grant date, for issues having a term equal to the expected term of the stock option. An increase in the risk-free interest rate will increase compensation expense.

(2) *Expected Stock Price Volatility*: This is a measure of the amount by which a stock's price is expected to fluctuate during the estimated expected life for an award. Due to lack of historical data because of our short life as a public company, the volatility factor was derived from considering volatility factors used by peers in our market sector. An increase in the expected stock price volatility will increase compensation expense.

(3) *Expected Term*: This is the period of time over which granted stock options are expected to remain outstanding based on historical experience. This is an estimate based on management's consideration of expected exercise behavior, past accelerations of vesting provisions, life cycle of the company and the expected term factors used by peers in our market sector. An increase in the expected term will increase compensation expense.

(4) *Expected Dividend Yield*: We historically have not made any dividend payments, nor do we expect to pay dividends in the foreseeable future. An increase in the dividend yield will decrease compensation expense.

Pro forma Information for Period Prior to the Adoption of Statement 123R - All options granted prior to 2004 were accounted for in accordance with APB No. 25 as the company was not publicly traded at that time. Our ESPP was deemed non-compensatory under the provisions of APB No. 25. Stock-based compensation costs were reflected in net earnings where the options granted under those plans had an exercise price that was less than the fair value of the underlying common stock on the date of grant. Previously reported amounts have not been restated. The pro forma information for the 13 and 26 weeks ended July 30, 2005 was as follows:

	13 Weeks Ended July 30, 2005	26 Weeks Ended July 30, 2005
Net loss, as reported	\$ (10,381)	\$ (27,949)
Add: Stock-based employee compensation expense in reported net loss	242	242
Deduct: Stock-based employee compensation expense determined under the fair value method	(699)	(7,864)
Pro forma net loss	\$ (10,838)	\$ (35,571)
Loss per common share:		
Basic and diluted - as reported	\$ (0.73)	\$ (1.96)
Basic and diluted - pro forma	\$ (0.76)	\$ (2.50)

During fiscal 2005, our compensation committee of our board of directors accelerated the vesting for certain outstanding options to purchase common stock that had exercise prices greater than the closing price of our common stock on the dates of approval. We accelerated the vesting of options to purchase a total of approximately 2,696,000 shares of common stock, on March 2, 2005 and November 30, 2005. As a result of the accelerations, all of these options became fully exercisable and remain exercisable through their respective termination dates, which vary, but do not extend past 2015. The pro-forma expense of \$7,864,000 reflected above for the 26 weeks ended July 30, 2005 is primarily a result of the March 2, 2005 vesting acceleration.

3. New Accounting Pronouncement

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48), an interpretation of Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*. FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing a recognition threshold for tax positions taken or expected to be taken in a tax return. FIN 48 is effective for fiscal years beginning after December 15, 2006. We are currently evaluating the impact FIN 48 will have on our financial position and results of operations.

In March 2006, the FASB's Emerging Issues Task Force released Issue 06-3, *How Sales Taxes Collected From Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement* (EITF 06-3). A consensus was reached that entities may adopt a policy of presenting sales taxes in the statement of operations on either a gross or net basis. If taxes are significant, an entity should disclose its policy of presenting taxes and the amount of taxes if reflected on a gross basis in the income statement. EITF 06-3 is effective for periods beginning after December 15, 2006. We present sales net of sales taxes in our statement of operations and do not anticipate changing our policy as a result of EITF 06-3.

4. Capital Stock

Since the completion of our initial public offering on April 26, 2004, and the filing of our amended and restated articles of incorporation in connection therewith, the authorized capital stock of our company consists of 100,000,000 shares of common stock, par value \$.01 per share, and 5,000,000 shares of preferred stock, par value \$.01 per share. As of July 29, 2006, there were 14,308,274 shares of common stock and no shares of preferred stock outstanding.

5. Credit Facility

Our credit facility provides us with the capital to fund the growth and operation of our business. Currently, the revolving credit facility provides availability of \$275,000,000, which may be further increased to \$300,000,000 subject to certain conditions including the absence of default. In addition to the existing \$275,000,000 revolving credit facility, we have a \$20,000,000 term loan for a total credit facility of \$295,000,000. The credit facility has a maturity date of June 30, 2009.

Effective May 25, 2006, we amended our credit facility to adjust the level of the EBITDA covenants for the months of April 2006 through July 2006. As amended, testing of the EBITDA covenant is required when our availability is less than 10% of the lesser of (a) the revolving credit facility maximum on any given day or (b) the borrowing base, as defined and adjusted for certain reserves. The credit facility also specifies quarterly testing of the operating cash flow covenant. Other substantive terms of the agreement were not materially changed in the May 25, 2006 amendment. We are in compliance with all covenants of the credit facility.

Outstanding borrowings under the credit facility, including letters of credit, were \$226.5 million and \$192.9 million as of July 29, 2006 and July 30, 2005, respectively. Actual availability under the amended credit facility is limited to specific advance rates on eligible inventory and accounts receivable up to the \$295,000,000 facility limit. Typically, availability will increase in the latter half of the fiscal year as inventory levels and advance rates increase. Based on eligible inventory and accounts receivable balances as of July 29, 2006 and July 30, 2005, our available borrowing capacity under the credit facility, after subtracting letters of credit, was \$16.7 million and \$26.7 million, respectively, and was approximately \$34 million as of September 1, 2006.

6. Earnings Per Share

Basic and diluted loss per share is based upon the weighted average number of shares outstanding. All potentially dilutive stock options have been excluded from the calculation of weighted average shares outstanding for all periods presented because their inclusion would have an anti-dilutive effect on loss per share. In addition, we have excluded any potentially dilutive shares related to the outstanding convertible debt from the calculation of weighted average shares outstanding because their inclusion would have an anti-dilutive effect on loss per share. If the convertible debt instrument was converted to common stock, these shares would amount to at least 1,250,000 shares of stock, with additional shares issued depending on the amount of accrued interest at the time of conversion. As of July 29, 2006 and July 30, 2005, there were a total of 4,043,656 and 3,115,461 options to purchase common stock outstanding, respectively.

7. Contract Settlement

In March 2005, we received \$2,500,000 relating to the termination of our contract with the former provider of our co-branded credit card services in consideration of the lost opportunity. We have reclassified this item in our fiscal 2005 statement of operations from a reduction of general and administrative expenses to a gain on contract settlement in the 26 weeks ended July 30, 2005.

8. Selected Balance Sheet Information (in thousands)

	July 29, 2006	January 28, 2006
Accrued and other current liabilities consist of:		
Gift cards and gift certificate liabilities	\$ 16,145	\$ 23,413
Payroll and related fringe benefits	3,898	4,183
Sales, property and use taxes	6,571	3,436

Insurance reserves and other liabilities	1,852	1,684
Other long-term liabilities	\$ 26,745	\$ 25,972

(1) Represents long term portion of aircraft financing completed in July 2006. The note matures in 7 years and has a 7.26% fixed annual interest rate. The note is collateralized by the aircraft.

9. Contingencies

Trademark Litigation - On July 2, 2004, we filed a complaint in the U.S. District Court for the District of Minnesota seeking declaratory relief that the contingent trademark licensing provision of a noncompetition agreement dated May 16, 1996, made between our predecessor and Cabela's Incorporated, is invalid and unenforceable. Although the noncompetition provisions of the noncompetition agreement expired in June 2003, Cabela's contends that a contingent trademark licensing provision of the noncompetition agreement now requires us to grant Cabela's a license to certain of our trademarks that were in existence in 1996.

On August 18, 2005, the court ruled that the contingent trademark licensing provision is not legally invalid as a noncompetition agreement and dismissed our complaint. The court also acknowledged that it had not been asked at that point to determine, and was not determining, the scope of the contingent trademark license or the parties' respective rights thereunder. In December 2005, the court granted our motion to file an amended reply to Cabela's counterclaim, in which we raised multiple additional issues regarding the validity and enforceability of any trademark rights allegedly possessed by Cabela's, and any limitations upon our rights to engage in certain marketing activities under the trademarks at issue. These issues remain before the court. Discovery is currently underway and the court has established a trial-ready date of May 1, 2007.

We are not able to predict the ultimate outcome of such proceedings, but they may be costly and disruptive. The total costs may not be reasonably estimated at this time. The outcome of this dispute may impact the manner in which we market our products in certain distribution channels in the future. It is not expected to have any affect on the marketing of our products through our retail stores.

Derivative Litigation As previously reported, our company, as a nominal defendant, and certain of our present and former directors were named as defendants in a purported derivative action, *Kurt Haberle v. Mark R. Baker, et al*, that was filed on February 11, 2005 in the U.S. District Court for the District of Minnesota. On August 30, 2005, the court issued an order dismissing the complaint without prejudice on the grounds that plaintiff was required to make a pre-suit demand on our board of directors and failed to do so. The plaintiff filed a motion to alter or amend the judgment. On May 16, 2006, the court entered judgment denying plaintiff's motion and dismissed the case. The time period for appeal has expired without an appeal being filed, thus terminating this case.

Other Legal Claims - Various claims and lawsuits arising in the normal course of business may be pending against us from time to time. The subject matter of these proceedings typically relate to commercial disputes and employment issues. As of the date of this report, we are not a party to any legal proceedings that are expected, individually or in the aggregate, to have a material adverse effect on our financial condition or results of operations.

Involuntary Conversion of Property and Equipment - In June 2006, we incurred significant flood damage to our Binghamton, New York store. The building was damaged and its contents were essentially declared a total loss. We are adequately insured to recover our merchandise inventory and replace all of our property and equipment that was destroyed. We can not at this time accurately estimate the amount of claim proceeds we will receive, but we believe the settlement of the claim will not result in a loss to our results of operations.

As of July 29, 2006, we have included in accounts receivable \$3,800,000 in costs that represent the book value of inventory and property and equipment to be recovered through the insurance claim, net of \$1,000,000 in proceeds received from our insurance company. Subsequent to July 29, 2006, we have received additional insurance proceeds of \$4,200,000. We expect to conclude the settlement of the claim before the end of our fiscal third quarter. We anticipate re-opening the store on or about October 1, 2006.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

The following discussion may contain forward-looking statements regarding us, our business prospects and our results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause our actual business, prospects and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those described in the Risk Factors section of our Form 10-K and other reports, as filed with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by us in this report and in our other reports filed with the Securities and Exchange Commission that advise interested parties of the risks and factors that may affect our business.

The interim financial statements filed on this Form 10-Q and the discussions contained herein should be read in conjunction with the annual financial statements and notes included in our Form 10-K, as filed with the Securities and Exchange Commission, which includes audited financial statements for our three fiscal years ended January 28, 2006.

Overview

Gander Mountain Company operates the nation's largest retail network of stores specializing in hunting, fishing, camping, marine and outdoor lifestyle products and services. We have expanded our store base from 26 stores in 1997 to our current base of 100 conveniently located Gander Mountain outdoor lifestyle stores, providing approximately 5.2 million square feet of retail space in 18 states - Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Michigan, Minnesota, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Texas, Virginia and Wisconsin. We anticipate opening five additional new stores during the remainder of fiscal 2006 - Lake Mary, Florida; Charleston, West Virginia; Knoxville, Tennessee; Huntsville, Alabama; and Winchester, Virginia.

Our core strategy and focus is to provide our target customers with a unique combination of a broad assortment of outdoor equipment, accessories, related technical apparel and footwear; expert services; convenient locations and value pricing. Our stores feature an extensive selection of leading national and regional brands as well as our company's owned brands. We tailor our merchandise assortments to take advantage of our customers' seasonal and regional or local preferences. We seek to combine this broad product offering with superior customer service based on our store associates' extensive product knowledge and outdoor-related experience.

Edgar Filing: GANDER MOUNTAIN CO - Form 10-Q

Since its origin in 1960, our brand name has had a heritage of strong appeal and relevance to consumers who participate in outdoor sports and recreation activities, based on our "We Live Outdoors" culture and theme. From 1960 to 1996, our predecessor operated a nationwide catalog business that, by 1996, included 17 retail stores. In 1996 and 1997, Holiday Companies, which at the time owned and operated a group of retail sporting goods stores, acquired these Gander Mountain retail stores, formed our company and began to build a new outdoor lifestyle business.

In March 2003, we began transforming our market position from a traditional specialty store to a large-format, category-focused store by opening new stores in a large format and increasing the selling space within our original, small-format stores. Prior to March 2003, our typical store was approximately 31,000 square feet. Our large-format stores are over 50,000 square feet and are typically located with convenient access to a major highway. They have a warehouse-style shopping environment characterized by concrete floors, open-bar joist ceilings, high-density racking and wide aisles, which reinforces our overall value proposition to our customers and enables us to substantially increase the breadth and depth of our product and service offerings. Most of our large-format stores offer all-terrain vehicles (ATVs), and some carry an expanded assortment of fishing and recreational boats. Our large-format stores offer unique features and specialized services, including a full-service gunsmith shop, a full-service archery pro shop, archery target lanes, and a power shop performing repairs for ATVs, boats and other small engines. Some of the large-format stores also include a bait shop that opens early for the convenience of our customers. Nearly all of our stores have a Gander Mountain Lodge, which is an in-store meeting room available for public use, where we provide hunter safety classes, outdoor-skills seminars and other community-focused activities. We utilize outside selling areas adjacent to some of our large-format stores to display additional offerings of larger items such as ATVs, boats, kayaks, trailers and canoes. These increase the efficiency of our stores and also give those products greater visibility. Currently, 50 of our 100 stores are large-format stores.

We are utilizing several strategic and operating initiatives aimed at improving our merchandise offerings, enhancing profitability and expanding the number and geographic diversity of our stores. We measure performance using key operating statistics such as comparable store sales, sales per square foot, gross margin percentage and store operating expenses, with a focus on labor, as a percentage of sales.

We also measure and evaluate investments in our retail locations, including inventory and property and equipment. Inventory performance is primarily measured by inventory per square foot and by inventory turns, or the number of times store inventory turns over in a given period, and amounts of owned inventory at various times based on payment terms from our vendors. The most significant investments in property and equipment are made at the time a store is opened by us.

We believe that the overall growth of our business will allow us to generally maintain or increase our product gross margins. Increased merchandise volumes should enable us to improve our purchasing leverage and achieve greater support throughout the supply chain. The mix of merchandise in our total sales also influences our product gross margins. As we continue sales and store growth, a number of other factors may impact, positively or negatively, our product gross margin percentage, including:

- the introduction of new product categories with varying gross margin percentage characteristics,
- changes in the merchandise mix at our current locations,
- differences in merchandise mix by geographic location,
- price competition,
- clearance activities in connection with seasonal inventory management,
- closeout sales in connection with store relocations and consolidations,
- sourcing of products from locations outside the United States,
- vendor programs, and
- supply chain enhancements.

In addition, our gross margin is impacted by store occupancy and distribution costs. We monitor these costs in absolute dollars and as a percentage of sales.

The most significant store operating expenses are labor and related employee benefits and advertising. We believe improved labor management within our stores will allow us to better leverage payroll expenses over time. Our employee benefits include health insurance and workers compensation benefits, the costs of which continue to increase faster than the general rate of inflation. We continually monitor these costs and review strategies to effectively control increases, but we are subject to the overall trend of increases in these costs. Advertising costs are monitored as a percentage of sales. These costs are largely variable, which allows us to actively manage them to facilitate achieving our sales, gross margin percentage and store operating contribution objectives.

Store operating contribution, which is calculated by deducting a store's operating expenses from its gross margin, is used to evaluate overall performance on an individual store basis.

General and administrative expenses are monitored and controlled as a percentage of sales. We have made significant investments in infrastructure, including our information systems, distribution capabilities and personnel. Our current infrastructure facilitates our planned opening of stores, which we believe enables us to leverage our expenses. Accordingly, we expect these expenses to decrease as a percentage of sales over time.

Pre-opening expenses will continue to be related to store openings, including relocations. These expenses will fluctuate based on the number and timing of new store openings.

Inventory turns are based on cost of sales and average inventory for the applicable period. We recognize that our inventory turns may be lower than those of other retailers, which we believe is due, in part, to the categories of merchandise we carry, including firearms, and the large quantities of merchandise we use in our in-store displays. We believe we have the opportunity to enhance our supply chain to improve our inventory turns. Additionally, in merchandise categories that experience slower inventory turns, we continue to work with vendors to increase our trade credit terms to reduce our investment in owned inventory. We cannot assure you that we will be able to improve our inventory turns or inventory investment.

Identification of appropriate new store sites is essential to our growth strategy. We believe our focus on our larger store size and our ability to utilize either recycled, or second-use, facilities or build-to-suit locations provides us with increased opportunities to find optimal real estate locations on attractive terms. We evaluate and invest in new stores based on site-specific projected returns on investment.

Critical Accounting Policies and Use of Estimates

Our financial statements are prepared in accordance with U.S. generally accepted accounting principles. In connection with the preparation of the financial statements, we are required to make assumptions, make estimates and apply judgments that affect the reported amounts of assets, liabilities, revenue, expenses and the related disclosures. We base our assumptions, estimates and judgments on historical experience, current trends and other factors that we believe to be relevant at the time the financial statements are prepared. On a regular basis, we review the accounting policies, assumptions, estimates and judgments to ensure that our financial statements are presented fairly and in accordance with U.S. generally accepted accounting principles. However, because future events and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material.

Our critical accounting policies and use of estimates are discussed and should be read in conjunction with the annual financial statements and notes included in our Form 10-K, as filed with the Securities and Exchange Commission, which includes audited financial statements for our three fiscal years ended January 28, 2006.

Results of Operations

The following table includes selected items in the unaudited statements of operations, reflected as a percentage of sales:

	13 Weeks Ended		26 Weeks Ended	
	July 29, 2006	July 30, 2005	July 29, 2006	July 30, 2005
Sales	100.0 %	100.0 %	100.0 %	100.0 %
Cost of goods sold	75.8 %	76.5 %	79.0 %	78.6 %
Gross profit	24.2 %	23.5 %	21.0 %	21.4 %
Operating expenses:				
Store operating expenses	20.0 %	21.9 %	21.4 %	22.9 %
General and administrative expenses	5.3 %	5.6 %	5.6 %	5.9 %
Gain on contract settlement	0.0 %	0.0 %	0.0 %	(0.8)%
Pre-opening expenses	0.4 %	0.6 %	0.4 %	1.1 %
Loss from operations	(1.5)%	(4.6)%	(6.4)%	(7.7)%
Interest expense, net	2.6 %	1.4 %	2.6 %	1.3 %
Loss before income taxes	(4.1)%	(6.0)%	(9.0)%	(9.0)%
Income tax provision	0.0 %	0.0 %	0.0 %	0.0 %
Net loss	(4.1)%	(6.0)%	(9.0)%	(9.0)%

A store is included in the comparable store base in its fifteenth full month of operations. A relocated store returns to the comparable store base in its fifteenth full month after relocation. Non-comparable store sales include sales from our stores before they have begun their fifteenth month of operation.

Cost of goods sold includes the cost of merchandise, freight, distribution, inventory shrinkage and store occupancy costs. Store occupancy costs include rent, real estate taxes and common area maintenance charges. Initial product margin represents sales less the supplier's cost of merchandise only.

Store operating expenses include store associate payroll, taxes and fringe benefits, advertising, maintenance, utilities, depreciation, insurance, bank and credit card charges and other store level expenses.

General and administrative expenses include all expenses associated with operating our corporate headquarters.

Pre-opening expenses consist primarily of payroll, rent, recruiting, advertising and other costs incurred prior to a new store opening.

Thirteen Weeks Ended July 29, 2006 compared to Thirteen Weeks Ended July 30, 2005

Sales. Sales increased by \$8.7 million, or 5.0%, to \$182.5 million in the second quarter of fiscal 2006 from \$173.8 million in the second quarter of fiscal 2005. This increase primarily resulted from sales of \$22.3 million from new stores not yet included in the comparable store sales base. This increase was partially offset by a comparable store sales decrease of \$9.8 million, and a \$3.8 million sales decrease from relocated or consolidated stores and changes in other revenues. Comparable store sales decreased 6.7% compared to a decrease of 4.2% in the second quarter of fiscal 2005. We opened one new store during the second quarter of fiscal 2006 compared to four new stores during the second quarter of fiscal 2005. Total square footage as of July 29, 2006 increased 15.0% to 5.2 million square feet, as compared to July 30, 2005.

We believe the comparable store sales decrease and the overall softness in sales is primarily attributable to (i) reduced spending in advertising and promotions, (ii) our focus on our Everyday Low Price strategy that resulted in fewer promotions to drive customer traffic, (iii) lower levels of clearance merchandise available to customers, and (iv) cannibalization from some of the new store openings and new competition entering some of our markets.

Gross Profit. Gross profit increased by \$3.2 million, or 7.9%, to \$44.1 million in the second quarter of fiscal 2006 from \$40.9 million in the second quarter of fiscal 2005. As a percentage of sales, gross profit increased approximately 70

Derivative Litigation As previously reported, our company, as a nominal defendant, and certain of our present and

basis points to 24.2% in the second quarter of fiscal 2006 from 23.5% in the second quarter of fiscal 2005. Major factors primarily affecting gross margin in the current quarter were:

15

- an initial product margin increase of approximately 170 basis points as a result of continued benefits from increasing scale, the positive impact of our Everyday Low Price strategy on our pricing structure, higher penetration of our owned-brand merchandise, and lower clearance inventory coupled with better management of clearance merchandise and pricing,
- an increase of approximately 40 basis points from a reduction in distribution costs,
- a negative impact of approximately 140 basis points from increased store occupancy costs as a result of reduced leverage from lower comparable store sales and lower sales per square foot at our newer, less mature stores, and
- other significant factors impacting margin included increased co-branded credit card revenues, reduced new store discounts as a result of opening fewer new stores with lower inventories for those new stores, and a continuation in the trend toward higher freight costs as fuel prices increased.

Store Operating Expenses. Store operating expenses decreased by \$1.7 million, or 4.4%, to \$36.5 million in the second quarter of fiscal 2006 from \$38.1 million in the second quarter of fiscal 2005. As a percentage of sales, store operating expenses decreased 190 basis points to 20.0% in the second quarter of fiscal 2006 from 21.9% in the second quarter of fiscal 2005. We reduced advertising and marketing expenditures by approximately 50% because these expenditures have proven less effective in driving sales in the seasonally slow second fiscal quarter. In addition, we had a modest gain in store labor productivity. These benefits were offset in part by the de-leveraging of most other expenses as a result of lower-than-expected sales.

General and Administrative Expenses. General and administrative expenses decreased by \$0.1 million, or 1.4%, to \$9.6 million in the second quarter of fiscal 2006 from \$9.7 million in the second quarter of fiscal 2005. As a percentage of sales, general and administrative expenses decreased 30 basis points to 5.3% in the second quarter of fiscal 2006 from 5.6% in the second quarter of fiscal 2005 as a result of cost controls.

Pre-opening Expenses. Pre-opening expenses decreased \$0.3 million, or 30.4%, to \$0.7 million in the second quarter of fiscal 2006 from \$1.0 million in the second quarter of fiscal 2005. We opened one new store in the second quarter of fiscal 2006 and incurred costs related to our five new stores we plan to open in the third quarter of fiscal 2006. In the second quarter of fiscal 2005, we opened four new stores.

Interest Expense, net. Interest expense increased by \$2.5 million, or 106.4%, to \$4.8 million in the second quarter of fiscal 2006 from \$2.3 million in the second quarter of fiscal 2005. The increase resulted from higher average borrowings incurred to fund our growth, including the placement of \$20 million of convertible debt in August 2005 and the addition of a \$20 million term loan in March 2006. We also experienced higher average interest rates of approximately 290 basis points during the second quarter of fiscal 2006, as compared to the second quarter of fiscal 2005.

Income Tax Provision. We did not record an income tax benefit for the second quarters of fiscal 2006 or fiscal 2005 due to the uncertainty of the realization of the net operating loss carry forwards. We have determined the realization of the tax benefit related to our net deferred tax asset is uncertain at this time and a valuation allowance was recorded for the entire balance of our net deferred tax asset.

Net Loss. As a result of the factors discussed above, the net loss of \$7.6 million for the second quarter of fiscal 2006 represented a decrease of \$2.8 million, or 27.2%, from the net loss of \$10.4 million for the second quarter of fiscal 2005.

Derivative Litigation As previously reported, our company, as a nominal defendant, and certain of our present and

Edgar Filing: GANDER MOUNTAIN CO - Form 10-Q

Twenty Six Weeks Ended July 29, 2006 compared to Twenty Six Weeks Ended July 30, 2005

Sales. Sales increased by \$29.0 million, or 9.4%, to \$338.1 million in the first half of fiscal 2006 from \$309.0 million in the first half of fiscal 2005. This increase primarily resulted from sales of \$58.6 million from new stores not yet included in the comparable store sales base. This increase was partially offset by a comparable store sales decrease of \$23.0 million, and a \$6.6 million sales decrease from relocated or consolidated stores and changes in other revenues. Comparable store sales decreased 8.4% compared to a decrease of 2.7% in the first half of fiscal 2005. We opened three new stores during the first half of fiscal 2006 compared to ten new stores during the first half of fiscal 2005. We relocated one store during the first half of fiscal 2006. During the same period of fiscal 2005, we also relocated one store.

16

Edgar Filing: GANDER MOUNTAIN CO - Form 10-Q

We believe the comparable store sales decrease and the overall softness in sales is primarily attributable to (i) reduced spending in advertising and promotions, (ii) our focus on our Everyday Low Price strategy that resulted in fewer promotions to drive customer traffic, (iii) lower levels of clearance merchandise available to customers, and (iv) cannibalization from some of the new store openings and new competition entering some of our markets.

Gross Profit. Gross profit increased by \$4.9 million, or 7.4%, to \$71.1 million in the first half of fiscal 2006 from \$66.2 million in the first half of fiscal 2005. As a percentage of sales, gross profit decreased 40 basis points to 21.0% in the first half of fiscal 2006 from 21.4% in the first half of fiscal 2005. Major factors primarily affecting gross margin in the comparable six-month periods were:

- an initial product margin increase of approximately 140 basis points as a result of continued benefits from increasing scale, the positive impact of our Everyday Low Price strategy on our pricing structure and higher penetration of our owned-brand merchandise,
- an increase of approximately 30 basis points from a reduction in distribution costs,
- a negative impact of approximately 150 basis points from increased store occupancy costs as a result of reduced leverage from lower comparable store sales and lower sales per square foot at our newer, less mature stores, and
- other significant factors impacting margin included increased co-branded credit card revenues, reduced new store discounts as a result of opening fewer new stores with lower inventories for those new stores, and a continuation in the trend toward higher freight costs as fuel prices increased.

Store Operating Expenses. Store operating expenses increased by \$1.6 million, or 2.3%, to \$72.3 million in the first half of fiscal 2006 from \$70.7 million in the first half of fiscal 2005. As a percentage of sales, store operating expenses decreased 150 basis points to 21.4% in the first half of fiscal 2006 from 22.9% in the first half of fiscal 2005. We reduced advertising and marketing expenditures by 44% because these expenditures have proven less effective in driving sales in the seasonally slow first and second fiscal quarters. In addition, we had a modest gain in store labor productivity. These benefits were offset in part by the de-leveraging of most other expenses as a result of lower-than-expected sales.

General and Administrative Expenses. General and administrative expenses increased by \$0.8 million, or 4.6%, to \$19.0 million in the first half of fiscal 2006 from \$18.1 million in the first half of fiscal 2005. As a percentage of sales, general and administrative expenses decreased 30 basis points to 5.6% in the first half of fiscal 2006 from 5.9% in the first half of fiscal 2005 as a result of cost controls.

Gain on Contract Settlement. In March 2005, we received a \$2.5 million non-recurring payment relating to the termination of our contract with the former provider of our co-branded credit card services in consideration of the lost opportunity.

Pre-opening Expenses. Pre-opening expenses decreased \$2.3 million, or 61.0%, to \$1.5 million in the first half of fiscal 2006 from \$3.8 million in the first half of fiscal 2005. We opened three new stores in the first half of fiscal 2006, and incurred costs related to our five new stores we plan to open in the third quarter of fiscal 2006. In the first half of fiscal 2005 we opened ten new stores.

Interest Expense, net. Interest expense increased by \$4.8 million, or 120.1%, to \$8.8 million in the first half of fiscal 2006 from \$4.0 million in the first half of fiscal 2005. The increase resulted from higher average borrowings incurred to fund our growth, including the placement of \$20 million of convertible debt in August 2005 and the addition of a \$20 million term loan in March 2006. We also experienced higher average interest rates of approximately 270 basis points

Derivative Litigation As previously reported, our company, as a nominal defendant, and certain of our present and

during the first half of fiscal 2006, as compared to the first half of fiscal 2005.

Income Tax Provision. We did not record an income tax benefit for the first half of fiscal 2006 or fiscal 2005 due to the uncertainty of the realization of the net operating loss carry forwards. We have determined the realization of the tax benefit related to our net deferred tax asset is uncertain at this time and a valuation allowance was recorded for the entire balance of our net deferred tax asset.

Net Loss. As a result of the factors discussed above, the net loss of \$30.5 million for the first half of fiscal 2006 represented an increase of \$2.6 million from the net loss of \$27.9 million for the first half of fiscal 2005.

Liquidity and Capital Resources

Our primary capital requirements are for inventory, capital improvements, pre-opening expenses to support our new store growth plans, and, to the extent of the highly seasonal nature of our business, operating losses.

17

Operating Activities. Net cash used in operating activities for the first half of fiscal 2006 decreased by \$7.7 million to \$31.7 million, as compared to \$39.4 million for the first half of fiscal 2005. Overall, our efforts to manage inventories have resulted in lower levels of inventories in our recently opened new stores, as well as a reduction in inventories in all our stores. There were also seven fewer new stores opened during the first half of fiscal 2006 as compared to the first half of fiscal 2005. This resulted in \$31.5 million less cash used to fund inventory growth in the first half of fiscal 2006 as compared to the first half of fiscal 2005. This reduced use of cash was partially offset by a reduction of \$24.8 million in cash generated from accounts payable and other liabilities resulting from several factors, including reduced liabilities relative to property and equipment purchases and reduced tenant improvement allowances related to fewer new stores in the first half of fiscal 2006 compared to the first half of fiscal 2005, increased efficiencies in systems and processes that improved timeliness of vendor payments, fewer new store openings, which typically provide extended terms on initial inventory purchases, improved timing of charge-backs for vendor allowances and increased foreign product sourcing activities, which often involve the use of letters of credit or other arrangements.

Investing Activities. Net cash used in investing activities was \$15.1 million in the first half of fiscal 2006 and \$32.8 million in the first half of fiscal 2005, consisting of purchases of property and equipment. We used cash primarily for tenant improvements and equipment to open new stores and to remodel and upgrade existing stores. There were three new stores opened in the first half of fiscal 2006 and ten new stores opened in the first half of fiscal 2005. We also expended \$5.6 million to replace our corporate aircraft in June 2006 and received proceeds of \$2.1 million from the sale of the replaced aircraft. Purchases of property and equipment in the first half of fiscal 2005 also included expenditures for equipment for our distribution center, information technology equipment and office furniture and equipment at our new corporate headquarters.

Financing Activities. Net cash provided by financing activities for the first half of fiscal 2006 decreased by \$25.9 million to \$46.5 million, as compared to \$72.5 million in the first half of fiscal 2005. The reduced funding needed from our credit facility was due to the decrease in cash used in operations of \$7.7 million and a \$15.5 million reduction in property and equipment purchases. Our financing activities were utilized to fund our continued store expansion, including inventory, property and equipment, and to fund our operating losses. In addition, we financed the acquisition of our corporate aircraft with a \$5.3 million, seven-year term note payable.

Credit Facility. To meet our liquidity and capital needs, we entered into a credit facility with Bank of America, N.A. This credit facility provides for revolving loans in an aggregate amount of up to \$275 million including up to \$50 million in the form of letters of credit, and matures on June 30, 2009. Availability under the facility may be further increased to \$300 million, subject to certain conditions including the absence of default. The actual availability under the amended credit facility is limited to 85% of eligible credit card receivables plus the lesser of 68% to 75% of eligible inventory or 85% of the inventory's liquidation value, in each case, net of specified reserves and less any letters of credit outstanding. Interest on the outstanding indebtedness under the revolving credit facility currently accrues at the lender's prime commercial lending rate plus 0% to 0.5% depending on our EBITDA, as defined in the credit agreement, or, if we elect, at the one, two, three or six month LIBOR plus 1.25% to 2.25% depending on such EBITDA. Our obligations under the credit facility are secured by interests in substantially all of our assets.

On March 3, 2006, we amended and restated our credit facility. The principal purpose of the amendment was to add a \$20 million term loan to the credit facility. The amount of the term loan is not deducted in determining availability under the revolving credit facility, except to the extent that the balance of the term loan exceeds approximately 4% to 5% of the eligible borrowing base. The term loan matures on June 30, 2009 and bears interest at either (a) 2% over the higher of Bank of America's prime rate or the federal funds rate plus 0.5%, or (b) LIBOR plus 4%. This additional financing was obtained to maintain the liquidity levels necessary to fund continued growth and seasonal cash flow needs.

Effective May 25, 2006, we amended our credit facility to adjust the level of the EBITDA covenants for the months of April 2006 through July 2006. As amended, testing of the EBITDA covenant is required when our availability is less than 10% of the lesser of (a) the revolving credit facility maximum on any given day or (b) the borrowing base, as defined and adjusted for certain reserves. The credit facility continues to specify quarterly testing of the operating cash flow covenant. Other substantive terms of the agreement were not materially changed in the May 25, 2006 amendment. The credit agreement contains certain covenants that, among other things, restrict our ability to incur substantial

Derivative Litigation As previously reported, our company, as a nominal defendant, and certain of our present and

Edgar Filing: GANDER MOUNTAIN CO - Form 10-Q

indebtedness, create certain liens, engage in certain mergers and acquisitions, sell assets, enter into certain capital leases or make junior payments, including dividends. We are in compliance with all covenants of the credit facility.

18

Outstanding borrowings under the credit facility, including letters of credit, were \$226.5 million and \$192.9 million as of July 29, 2006 and July 30, 2005, respectively. Actual availability under the amended credit facility is limited to specific advance rates on eligible inventory and accounts receivable up to the \$295,000,000 facility limit. Typically, availability will increase in the latter half of the fiscal year as inventory levels and advance rates increase. Based on eligible inventory and accounts receivable balances as of July 29, 2006 and July 30, 2005, our available borrowing capacity under the credit facility, after subtracting letters of credit, was \$16.7 million and \$26.7 million, respectively, and was approximately \$34 million as of September 1, 2006. Total unused borrowing capacity, assuming sufficient eligible inventory and accounts receivable, would have been \$68.5 million as of July 29, 2006.

Income Taxes. Due to the uncertainty of the realization of net operating loss carry forwards, we have determined the realization of the tax benefit related to our net deferred tax asset is uncertain at this time and a valuation allowance was recorded for the entire balance of our net deferred tax asset.

Future Capital Requirements. Our future capital requirements will primarily depend on our future financial performance, the number of new stores we open and the timing of those openings within a given fiscal year. These requirements will include costs directly related to opening new stores and may also include costs necessary to ensure that our infrastructure, including technology and distribution capabilities, is able to support a larger store base. We anticipate opening five additional new stores during the second half of fiscal 2006. However, business conditions, business strategy or other factors may cause us to adjust these plans.

Additional needs for capital include funding seasonal inventory levels and operating losses due to our seasonality, and will include investments for an expansion into other distribution channels in addition to our retail channel. We have begun initiatives, and announced new initiatives with certain partners, to develop additional distribution channels. We do not expect our investments in these initiatives to be significant in fiscal 2006.

We also expect to continue to increase our direct product sourcing activities, requiring additional funding possibly through increased letters of credit or trade credit. We intend to satisfy our capital requirements over the next twelve months with cash flows from operations, funds available under our credit facility, equipment financing leases and/or funds from additional borrowing capacity. However, if changes in our capital requirements occur, including changes in trade credit, vendor terms or other factors detailed from time to time in our filings with the Securities and Exchange Commission, we may need to seek additional debt or equity financing in the public or private capital markets. Our ability to access capital sources is impacted by our financial performance, as well as by general business, economic and other factors, some of which are beyond our control. There is no assurance that financing will be available to us on acceptable terms. Beyond fiscal 2006, we anticipate needing additional financing to significantly grow our business.

We privately placed a \$20 million subordinated unsecured convertible note in August 2005. The holder of the note is a trust, the current beneficiary of which is a member of our board of directors. The note matures in August 2010. The note is convertible into shares of our common stock at the price of \$16 per share, subject to certain adjustments. If the holder does not elect to convert the note, \$20 million will be due at maturity.

Contractual Obligations and Other Commitments

Our material off-balance sheet arrangements are operating lease obligations for substantially all of our retail stores, our distribution center and corporate office and letters of credit. We excluded these items from the balance sheet in accordance with U.S. generally accepted accounting principles. As of July 29, 2006, the minimum operating lease payments due within one year were \$52.6 million. As of July 29, 2006, total minimum operating lease payments remaining over all of our operating leases were \$630.3 million. These leases have an average remaining term of 10.2 years. These obligation amounts include future minimum lease payments and exclude direct operating costs such as common area costs and real estate taxes.

Issued and outstanding letters of credit were \$10.7 million and \$6.2 million at July 29, 2006 and July 30, 2005, respectively, and were related primarily to importing of merchandise and funding insurance program liabilities.

In the ordinary course of business, we enter into arrangements with vendors to purchase merchandise in advance of expected delivery. Because most of these purchase orders do not contain any termination payments or other penalties if cancelled, they are not included as outstanding contractual obligations. The merchandise purchases for which we do have firm commitments outstanding, in addition to letters of credit, were \$2.4 million as of July 29, 2006.

Quarterly Results of Operations and Seasonality

Our quarterly operating results may fluctuate significantly because of several factors, including the timing of new store openings and related expenses, profitability of new stores, weather conditions and general economic conditions. Our business is also subject to seasonal fluctuation, with approximately 62% to 65% of our sales activity normally occurring during the third and fourth quarters of our fiscal year, which are primarily associated with the fall hunting seasons and the holiday season. However, this factor cannot necessarily be used as an indicator of future results. Our customers' demand for our products and therefore our sales, can be significantly impacted by unseasonable weather conditions that affect outdoor activities and the demand for related apparel and equipment. This seasonality also impacts our inventory levels, which tend to rise beginning approximately in April, reach a peak in November, and decline to lower levels after the December holiday season.

Our pre-opening expenses have and will continue to vary significantly from quarter to quarter, primarily due to the timing of store openings. We typically incur most pre-opening expenses for a new store during the three months preceding, and the month of, its opening. In addition, our labor and operating costs for a newly opened store can be greater during the first one to two months of operation than what can be expected after that time, both in aggregate dollars and as a percentage of sales. Accordingly, the volume and timing of new store openings in any quarter has had and is expected to continue to have a significant impact on quarterly pre-opening costs and store labor and operating expenses. Due to these factors, results for any particular quarter may not be indicative of results to be expected for any other quarter or for a full fiscal year.

Critical Accounting Policies and Use of Estimates

Adoption of SFAS 123R

Effective January 29, 2006, we adopted the fair-value recognition provisions of the Financial Accounting Standards Board's Statement No. 123 (revised 2004), *Share-Based Payment* (SFAS 123R), which requires the measurement and recognition of compensation expense for all stock-based payment awards made to employees and directors including employee stock option awards and employee stock purchases made under our employee stock purchase plan. We adopted the provisions of SFAS 123R, using the modified-prospective transition method. Under this transition method, stock-based compensation expense was recognized in the financial statements for the 13 and 26 weeks ended July 29, 2006, for granted, modified, or settled stock options and for expense related to the employee stock purchase plan. The provisions of SFAS 123R apply to new stock options and stock options outstanding, but not yet vested, on the effective date of January 29, 2006. Results for prior periods have not been restated, in accordance with the modified-prospective transition method.

The amount of compensation expense for stock-based awards to be recognized during a period is based on the portion of the awards that are ultimately expected to vest. We estimate option forfeitures at the time of grant and revise those estimates in subsequent periods if actual forfeitures differ significantly from those estimates. Cost is recognized using a straight-line amortization method over the requisite service period, which typically is the vesting period. As a result of adopting SFAS 123R, our loss from operations and net loss for the 13 and 26 weeks ended July 29, 2006 are \$295,000 and \$531,000 higher, respectively, than if we had continued to account for share-based compensation under APB No. 25. Basic and diluted loss per share for the 13 and 26 weeks ended July 29, 2006 are \$.02 and \$.04 higher, respectively, than under APB No. 25. There was no impact on cash flows.

At July 29, 2006, there was approximately \$3.4 million of total unrecognized stock-based compensation expense related to unvested option awards. Unrecognized stock-based compensation is expected to be recognized over a weighted-average period of 2.5 years.

New Accounting Pronouncement

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48), an interpretation of Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*. FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing a recognition threshold for tax positions taken or expected to be taken in a tax return. FIN 48 is effective for fiscal years beginning after December 15, 2006. We are currently evaluating the impact FIN 48 will have on our financial position and results of operations.

In March 2006, the FASB's Emerging Issues Task Force released Issue 06-3, *How Sales Taxes Collected From Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement* (EITF 06-3). A consensus was reached that entities may adopt a policy of presenting sales taxes in the statement of

operations on either a gross or net basis. If taxes are significant, an entity should disclose its policy of presenting taxes and the amount of taxes if reflected on a gross basis in the income statement. EITF 06-3 is effective for periods beginning after December 15, 2006. We present sales net of sales taxes in our statement of operations and do not anticipate changing our policy as a result of EITF 06-3.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk from changes in interest rates on borrowings under our credit facility. This floating rate indebtedness was \$215.8 million at July 29, 2006 and averaged \$192.3 million during the second quarter of fiscal 2006. Our average interest rate for the second quarter of fiscal 2006 under our credit facility was 7.6% and was 290 basis points higher than the same period last year due primarily to general interest rate movement. If short-term floating interest rates on our average variable rate debt for the second quarter of fiscal 2006 had increased by 100 basis points, our interest expense would have increased by approximately \$0.5 million, assuming comparable borrowing levels. These amounts are determined by considering the impact of the hypothetical interest rates on our average amount of floating rate indebtedness outstanding and cash equivalents balances.

We have no derivative financial instruments or derivative commodity instruments in our cash and cash equivalents. We have no international sales, however, we import certain items for sale in our stores. Substantially all of our purchases are denominated in U.S. dollars.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial and accounting officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)). Based on this evaluation, the principal executive officer and principal financial and accounting officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. There was no change in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Contingent Trademark Litigation - On July 2, 2004, we filed a complaint in the U.S. District Court for the District of Minnesota seeking declaratory relief that the contingent trademark licensing provision of a noncompetition agreement dated May 16, 1996, made between our predecessor and Cabela's Incorporated, is invalid and unenforceable. Although the noncompetition provisions of the noncompetition agreement expired in June 2003, Cabela's contends that a contingent trademark licensing provision of the noncompetition agreement now requires us to grant Cabela's a license to certain of our trademarks that were in existence in 1996.

On August 18, 2005, the court ruled that the contingent trademark licensing provision is not legally invalid as a noncompetition agreement and dismissed our complaint. The court also acknowledged that it had not been asked at that point to determine, and was not determining, the scope of the contingent trademark license or the parties' respective rights thereunder. In December 2005, the court granted our motion to file an amended reply to Cabela's counterclaim in which we raised multiple additional issues regarding the validity and enforceability of any trademark rights allegedly possessed by Cabela's, and any limitations upon our rights to engage in certain marketing activities under the trademarks at issue. These issues remain before the court. Discovery is currently underway and the court has established a trial-ready date of May 1, 2007.

We are not able to predict the ultimate outcome of such proceedings, but they may be costly and disruptive. The total costs may not be reasonably estimated at this time. The outcome of this dispute may impact the manner in which we market our products in certain distribution channels in the future. It is not expected to have any affect on the marketing of our products through our retail stores.

Derivative Litigation As previously reported, our company, as a nominal defendant, and certain of our present and former directors were named as defendants in a purported derivative action, *Kurt Haberle v. Mark R. Baker, et al*, that was filed on February 11, 2005 in the U.S. District Court for the District of Minnesota. On August 30, 2005, the court issued an order dismissing the complaint without prejudice on the grounds that plaintiff was required to make a pre-suit demand on our board of directors and failed to do so. The plaintiff filed a motion to alter or amend the judgment. On May 16, 2006, the court entered judgment denying plaintiff's motion and dismissed the case. The time period for appeal has expired without an appeal being filed, thus terminating this case.

Other Legal Claims - Various claims and lawsuits arising in the normal course of business may be pending against us from time to time. The subject matter of these proceedings typically relate to commercial disputes and employment issues. As of the date of this report, we are not a party to any legal proceedings that are expected, individually or in the aggregate, to have a material adverse effect on our financial condition or results of operations.

ITEM 1A. RISK FACTORS

Not applicable.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Not applicable.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

On June 8, 2006, we held our annual meeting of shareholders for the purpose of (a) electing eight directors to serve until their successors are duly elected and (b) ratifying the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending February 3, 2007.

The shareholders present in person or by proxy cast the following numbers of votes (in whole shares) in connection with the election of directors:

	For	Withheld
Mark R. Baker	13,199,231	225,665
Karen M. Bohn	13,209,586	215,310
Marshall L. Day	13,208,551	216,345
Richard C. Dell	13,209,442	215,454
Gerald A. Erickson	13,199,019	225,877
Ronald A. Erickson	13,199,341	225,555
Dale Nitschke	13,210,187	214,709
David C. Pratt	13,208,261	216,635

The shareholders present in person or by proxy cast the following numbers of votes (in whole shares) in connection with the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending February 3, 2007:

For	Against	Abstentions	Broker Non-Votes
