PROXY STATEMENT
April 27, 2007

This proxy statement is furnished in connection with the solicitation of proxies by our Board of Directors for use at the annual meeting of stockholders of EXACT Sciences Corporation, a Delaware corporation (the Company or EXACT) to be held at the offices of Goodwin Procter LLP, our outside legal counsel, located at Exchange Place, 53 State Street, Boston, Massachusetts 02109 on July 20, 2007, at 10:00 a.m., local time, and any adjournments or postponements thereof. Our 2006 Annual Report to Stockholders, containing financial statements for the fiscal year ended December 31, 2006, is being mailed together with this proxy statement to all stockholders entitled to vote at the annual meeting. This proxy statement and the accompanying notice and form of proxy is expected to be first sent or given to stockholders on or about May 24, 2007.

The record date for the determination of stockholders entitled to notice of and to vote at the annual meeting has been fixed by our Board of Directors as the close of business on May 22, 2007. Holders of our common stock are entitled to cast one vote for each share held of record at the close of business on May 22, 2007 on each matter submitted to a vote at the annual meeting. As of April 20, 2007, 26,843,543 shares of the Company's common stock were outstanding.

Stockholders may vote in person or by proxy. Execution of a proxy will not in any way affect a stockholder's right to attend the annual meeting and vote in person. Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by (i) filing with the Secretary of the Company, before the taking of the vote at the annual meeting, a written notice of revocation bearing a later date than the proxy, (ii) duly completing a later-dated proxy relating to the same shares and delivering it to the Secretary of the Company before the taking of the vote at the annual meeting, or (iii) attending the annual meeting and voting in person (although attendance at the annual meeting will not in and of itself constitute a revocation of a proxy). If a stockholder is not attending the annual meeting, any proxy or notice of revocation should be returned to the Secretary of the Company at the above address in time for receipt no later than the close of business on the day preceding the annual meeting.

A majority in interest of the outstanding shares of our common stock entitled to vote and represented at the annual meeting in person or by proxy shall constitute a quorum for the transaction of business. Votes withheld from any nominee, abstentions and broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum for the annual meeting. A non-vote occurs when a broker or other nominee holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because the broker or other nominee does not have discretionary voting power and has not received instructions from the beneficial owner. Directors are elected by a plurality of the votes cast by stockholders entitled to vote and voting on the matter at the annual meeting. On all other matters that may be submitted to stockholders, an affirmative vote of at least

a majority of the shares present, or represented by proxy, entitled to vote and voting at the annual meeting is required for approval. Broker non-votes on any matter shall be deemed not to have been voted on such matter. The vote on each matter submitted to stockholders is tabulated separately.

The persons named as attorneys-in-fact in the proxy, Don M. Hardison and Jeffrey R. Luber, were selected by the Board of Directors and are officers of the Company. All properly executed proxies returned in time to be counted at the meeting will be voted by such persons at the meeting. Where a choice has been specified on the proxy with respect to the foregoing matters, the shares represented by the proxy will be voted in accordance with the specifications. With respect to the election of directors, any stockholder submitting a proxy has a right to withhold authority to vote for any individual nominee by writing that nominee's name in the space provided on the proxy. Where a proxy is properly signed and returned without indicating any voting instructions regarding the foregoing matters, the shares represented by the proxy will be voted **FOR** the proposal.

The Board of Directors knows of no other matters to be presented at the annual meeting. If any other matter should be presented at the annual meeting upon which a vote properly may be taken, shares represented by all proxies received by the Board of Directors will be voted with respect thereto in accordance with the judgment of the persons named in the proxies.

CORPORATE GOVERNANCE PRINCIPLES AND BOARD MATTERS

Board Independence

The Board of Directors has determined that each of Sally W. Crawford, Edwin M. Kania, Jr., Lance Willsey, Connie Mack, III and Patrick J. Zenner, comprising five of its six members, is an independent director within the meaning of the director independence standards of The NASDAQ Stock Market, Inc., or NASDAQ. Furthermore, the Board has determined that all of the members of the Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee are independent within the meaning of the director independence standards of NASDAQ and the rules of the SEC applicable to each such committee.

Executive Sessions of Independent Directors

Executive sessions of our independent directors are generally held following each regularly scheduled in-person meeting of the Board of Directors. Executive sessions do not include any non-independent directors and are chaired by a Lead Independent Director who is appointed annually by the Board of Directors from our independent directors. Ms. Crawford, our Chairperson, also currently serves as the Lead Independent Director. The Lead Independent Director is also responsible for coordinating the activities of the independent directors. The independent directors of the Board of Directors met in executive session four times in 2006.

Policy Governing Security Holder Communications with the Board of Directors

Any of our security holders who wish to communicate directly with the Board of Directors or an individual member of the Board of Directors may do so by sending such communication by certified mail addressed to the Chairperson of the Board, as a representative of the entire Board of Directors, or to the individual director or directors, in each case, c/o Office of the General Counsel, EXACT Sciences Corporation, 100 Campus Drive, Marlborough, Massachusetts 01752. We will forward any such security holder communication to the Chairperson and/or to the director to whom the communication is addressed on a periodic basis.

Policies Regarding Director Nominations

Director Qualifications

The Corporate Governance and Nominating Committee is responsible for reviewing with the Board of Directors from time to time the appropriate qualities, skills and characteristics desired of members of the Board of Directors in the context of the needs of the business and current make-up of the Board of Directors. Director candidates are considered based upon a variety of criteria, including demonstrated business and professional skills and experiences relevant to our business and strategic direction, concern for long-term shareholder interests, personal integrity and sound business judgment. The Board of Directors seeks members from diverse professional backgrounds who combine a broad spectrum of relevant industry and strategic experience and expertise that, in concert, offer us and our shareholders diversity of opinion and insight in the areas most important to us and our corporate mission. In addition, nominees for director are selected to have complementary, rather than overlapping, skill sets. All candidates for director nominee must have time available to devote to the activities of the Board of

Directors. The Corporate Governance and Nominating Committee also considers the independence of candidates for director nominee, including the appearance of any conflict in serving as a director. Candidates for director nominees who do not meet all of these criteria may still be considered for nomination to the Board of Directors, if the Corporate Governance and Nominating Committee believes that the candidate will make an exceptional contribution to us and our stockholders.

Process for Identifying and Evaluating Director Nominees

The Board of Directors is responsible for selecting its own members. The Board of Directors delegates the selection and nomination process to the Corporate Governance and Nominating Committee, with the expectation that other members of the Board of Directors, and of management, may be requested to take part in the process as appropriate. Generally, the Corporate Governance and Nominating Committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisers, through the recommendations submitted by other directors or stockholders or through such other methods as the Corporate Governance and Nominating Committee deems appropriate. Once candidates have been identified, the Corporate Governance and Nominating Committee confirms that the candidates meet the qualifications for director nominees established by the Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee may gather information about the candidates through interviews, detailed questionnaires, comprehensive background checks, or any other means that the Corporate Governance and Nominating Committee deems to be helpful in the evaluation process. The Corporate Governance and Nominating Committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the Board of Directors. Based on the results of the evaluation process, the Corporate Governance and Nominating Committee recommends candidates for the Board of Directors approval as director nominees for election to the Board of Directors. The Corporate Governance and Nominating Committee also recommends candidates for the Board of Directors appointment to the standing committees of the Board of Directors.

Procedures for Recommendation of Director Nominees by Stockholders

Policy Governing Director Attendance at Annual Meetings of Stockholders

REPORT OF THE AUDIT COMMITTEE

The following Report of the Audit Committee shall not be deemed to be soliciting material or to be filed with the SEC nor shall this information be incorporated by reference into any filing under the Securities Act or the Exchange Act, except to the extent that EXACT specifically incorporates it by reference into such filing.

The Audit Committee is comprised of Sally W. Crawford, Edwin M. Kania, Jr. and Lance Willsey. None of the members of the Audit Committee is an officer or employee of the Company, and the Board of Directors has determined that each member of the Audit Committee meets the independence requirements promulgated by The NASDAQ Stock Market, Inc. and the SEC, including Rule 10A-3(b)(1) under the Exchange Act. The Audit Committee operates under a written charter adopted by the Board of Directors, a current copy of which is available at <http://www.exactsciences.com>.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls and the certification of the integrity and reliability of the Company's internal controls procedures. In fulfilling its oversight responsibilities, the Audit Committee has reviewed the Company's audited balance sheets at December 31, 2006 and 2005 and the related statements of operations, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2006, and has discussed them with both management and Ernst & Young LLP (Ernst & Young), the Company's independent registered public accounting firm. The Audit Committee has also discussed with the independent registered public accounting firm the matters required to be discussed by the Statement on Auditing Standards No. 61 (*Communications with Audit Committees*), as currently in effect. The Audit Committee has reviewed permitted services under rules of the SEC as currently in effect and discussed with Ernst & Young their independence from management and the Company, including the matters in the written disclosures and the letter from the independent registered public accounting firm required by Independence Standards Board Standard No. 1 (*Independence Discussions with Audit Committees*), as currently in effect, and has considered and discussed the compatibility of non-audit services provided by Ernst & Young with that firm's independence. In addition, the Audit Committee discussed the rules of the SEC that pertain to the Audit Committee and the roles and responsibilities of Audit Committee members.

The Audit Committee reviewed management's report on its assessment of the effectiveness of the Company's internal control over financial reporting and the independent registered public accounting firm's report on management's assessment and the effectiveness of the Company's internal control over financial reporting. The Audit Committee meets with the independent registered public accounting firm, with and without management present, to discuss the results of their examination; their evaluations of the Company's internal control, including internal control over financial reporting; and the overall quality of the Company's financial reporting.

Based on its review of the financial statements and the aforementioned discussions, the Audit Committee concluded that it would be reasonable to recommend, and on that basis did recommend, to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

The Audit Committee also reviewed the Company's quarterly financial statements during 2006, and discussed them with both the management of the Company and the Company's independent registered public accounting firm prior to including such interim financial statements in the Company's quarterly reports on Form 10-Q.

In connection with the Company's Annual Report on Form 10-K for the year ended December 31, 2006, and quarterly reports on Form 10-Q, the Audit Committee discussed the results of the Company's certification process with the responsible executive officers relating to the certification of financial statements under Sections 302 and 906 of the Sarbanes-Oxley Act of 2002.

The Audit Committee has also evaluated the performance of Ernst & Young, including, among other things, the amount of fees paid to Ernst & Young for audit and non-audit services in 2006. Information about Ernst & Young's fees for 2006 is discussed below in this proxy statement under Independent Registered Public Accounting Firm. Based on its evaluation, the Audit Committee has recommended that the Company retain Ernst & Young to serve as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2007.

Respectfully submitted by the Audit Committee.

COMPENSATION AND OTHER INFORMATION CONCERNING DIRECTORS AND OFFICERS

Compensation Discussion and Analysis

Overview

Our compensation philosophy is based on a desire to balance retention of executive talent with pay for performance-based incentive compensation, which is designed to reward our named executive officers for continued service and our sustained financial and operating performance. We believe that the compensation of our named executive officers should align our executives' interests with those of our stockholders and focus executive behavior on the achievement of both near-term corporate targets as well as long-term business objectives and strategies. It is the responsibility of the Compensation Committee of our Board of Directors to administer our compensation practices to ensure that they are competitive and include incentives that are designed to appropriately drive EXACT's performance. Our Compensation Committee reviews and approves all of our executive compensation policies, including executive officer salaries, bonuses and equity awards.

Objectives of Our Executive Compensation Programs

Our compensation programs for our executive officers are designed to achieve the following objectives:

- Focus executive behavior on achievement of our annual and long-term objectives and strategy;
- Provide a competitive compensation package that enables us to attract and retain, on a long-term basis, talented executives while maintaining prudent financial management;
- Provide a total compensation structure that is generally normative with similarly sized companies in the biotechnology industry and which consists of a mix of base salary, cash incentives and equity; and
- Align the interests of management and stockholders by providing management with longer-term incentives through equity ownership.

Our executive compensation program consists of three primary elements: salary, long-term equity interest, primarily in the form of stock options, and a cash incentive program based on both corporate and individual performance. All of our executive officers also are eligible for certain benefits offered to employees generally, including life, health, disability and dental insurance, as well as participation in our 401(k) plan and 2000 Employee Stock Purchase Plan. We do not believe it is necessary for the attraction or retention of management talent to provide executive officers with compensation in the form of perquisites. We also enter into change in control agreements with our executive officers that provide for certain severance benefits upon termination of employment following a change in control of the Company. In addition, the Compensation Committee considers and approves, from time to time, other compensatory arrangements with officers, including those discussed elsewhere in this Proxy Statement.

It is the responsibility of the Compensation Committee to administer our compensation practices, to ensure that they are competitive, financially prudent and that they include incentives that are designed to appropriately drive performance. To achieve this, the Compensation Committee reviews commercially available, industry specific survey data for companies of generally similar employee size and complexity in

the biotechnology and biopharmaceutical industries as a general guide for establishing its pay and equity practices and structures. We believe that the use of benchmarking is an important factor in remaining competitive with our peers and furthering our objective of attracting and retaining highly qualified personnel. The Compensation Committee, along with the Board of Directors, also reviews corporate and individual objectives for each of its executives quarterly, to confirm that appropriate goals have been established and to track performance against them. At the completion of each fiscal year, the Compensation Committee uses this information, along with the recommendations of the President and Chief Executive Officer (except for his own compensation), to determine compensation for executive officers. In making these recommendations, the Compensation Committee takes into account both our overall performance and the individual performance of officers, consulting with the President and Chief Executive Officer and the Board of Directors on these evaluations as appropriate.

In connection with compensation decisions for 2006, our Senior Vice President of Corporate Development provided the Compensation Committee with market compensation data from biotechnology companies with a similar employee headcount as ours, as reported by Aon Radford Surveys + Consulting in its Biotechnology Executive Compensation Report, dated September 2005. The report included data aggregated from approximately 197 companies in the biotechnology and biopharmaceutical industries. The Compensation Committee also gathered input from the Chief Executive Officer on the individual performance level of each executive. The Compensation Committee also takes into account the compensation data provided to it regarding the executive's historical compensation, including historical equity incentive award data for each executive, in determining long-term compensation awards to executives.

Our Executive Compensation Programs

Our executive compensation primarily consists of salary, long-term equity interest, primarily in the form of stock options, and a cash incentive program based on both corporate and individual performance.

As part of our regular review to ensure competitive pay levels for our executives we pay close attention to:

- the amount of compensation generally paid by similarly situated companies to their executives with similar roles and responsibilities;
- the roles and responsibilities of our named executive officers;
- the individual experience and skills of, and expected contributions from, our named executive officers;
- the amount of compensation being paid to our other executives; and
- the amount of historical compensation paid to our named executive officers.

Each of the primary elements of our executive compensation is discussed in detail below, including a description of the particular element and how it fits into our overall executive compensation and a discussion of the amounts of compensation paid to our named executive officers in 2006 under each of these elements. In the descriptions below, we have identified particular compensation objectives that we have designed elements of our executive compensation to serve; however, we have designed our

compensation programs to complement each other and collectively serve all of our executive compensation objectives described above. Accordingly, whether or not specifically mentioned below, we believe that, as a part of our overall executive compensation, each element to a greater or lesser extent serves each of our objectives.

Annual Cash Compensation

Base Salary

The Compensation Committee believes that our executive officers, including the President and Chief Executive Officer, are paid salaries in line with their qualifications, experience and responsibilities. Salaries are structured so that they are at least comparable with salaries paid by the peer companies reviewed by the Compensation Committee in the biotechnology and biopharmaceutical industry. Salaries are reviewed generally on an annual basis to ensure we remain competitive with our peers and further our objective of attracting and retaining highly qualified personnel.

Fiscal 2006 base salaries were determined by the Compensation Committee after considering the base salary level of the executive officers in prior years and taking into account for each executive officer the amount of base salary as a component of total compensation. Base salary levels for each of our executive officers, other than the President and Chief Executive Officer, were also based upon evaluations and recommendations made by the President and Chief Executive Officer. These recommendations include an assessment of the individual's responsibilities, experience, individual performance and contribution to our performance, and also generally take into account the competitive environment for attracting and retaining executives consistent with our business needs. In light of the considerations discussed above, and within the context of the overall objectives of our compensation programs, we increased cash compensation levels for two of our three named executive officers in 2006 from 2005 levels. For fiscal year 2006, the Compensation Committee increased the base salary of Mr. Luber, our Senior Vice President, Chief Financial Officer, Treasurer, General Counsel and Secretary during 2006, from \$210,000 to \$245,000, and the base salary of Mr. Carelli, our Vice President Finance during 2006, from \$150,000 to \$180,000. Both of these increases were the result of promotions and an expansion of responsibilities. The base salary for fiscal year 2006 of Mr. Hardison, our President and Chief Executive Officer, remained the same as for fiscal year 2005.

Incentive Bonuses

The Compensation Committee believes that some portion of overall cash compensation for executive officers should be at risk, i.e., contingent upon successful implementation of our strategy. The granting of a cash bonus is totally discretionary and is based on an evaluation of achievement against predetermined corporate and individual performance objectives, generally on a fiscal-year basis, in accordance with the Company's Executive Incentive Plan that is approved by the Compensation Committee. Among the performance objectives considered by the Compensation Committee in awarding incentive compensation to executive officers for fiscal 2006, were performance against individual objectives, as well as the achievement by us of certain key corporate operational goals.

Under our Executive Incentive Plan, payouts for achievement of individual objectives are generally made in cash whereas the Compensation Committee retains discretion to award payouts for achievement of corporate objectives in cash or common stock. The amount of stock granted is based on a cash value

calculated as a multiple of an executive's individual cash payout, with the multiplier determined based upon the achievement of the corporate objectives described above. The plan also provides that unless a minimum number of corporate objectives are achieved, no stock or individual cash payments are made.

For 2006, the target payout amounts for our President and Chief Executive Officer were between \$150,000 and \$165,000 with a maximum potential payout of \$245,000 if we achieved all of our corporate objectives and individual performance was rated as outstanding. For other executive officers, the target payout amounts were between \$60,000 and \$75,000 with a maximum potential payout of \$122,500 if we achieved all of our corporate objectives and individual performance was rated as outstanding.

For 2006, at least four of a total of six corporate objectives were required to be achieved before any incentive bonus would be paid. These corporate objectives related to:

- Achieving a specified PreGen-Plus™ test accession target;
- Inclusion of stool-based DNA testing into colorectal cancer screening guidelines;
- Compliance with regulatory requirements such that stool-based DNA testing remained commercially available;
- The introduction of an improved version of the PreGen-Plus assay;
- Not exceeding a specified cash spending target; and
- Achieving certain corporate development activities related to corporate profitability.

No payments were made under our Executive Incentive Plan for fiscal 2006 as we did not achieve the minimum number of corporate goals established for fiscal 2006.

Long-Term Incentives

Executive officers (and other employees) are eligible to receive restricted stock, stock option grants and other stock awards that are intended to promote success by aligning employee financial interests with long-term shareholder value. These stock-based incentives, which in recent years have consisted solely of stock option grants, are based on various factors primarily relating to the responsibilities of the individual officer or employee, their past performance, anticipated future contributions and prior option grants. In general, the Compensation Committee bases its decisions to grant stock-based incentives on recommendations of management and the Compensation Committee's analysis of third-party compensation information, with the intention of keeping the executives' overall compensation, including the equity component of that compensation, at a competitive level with the comparator companies reviewed by the Compensation Committee in the biotechnology and biopharmaceutical industries. The Compensation Committee also considers the number of shares of common stock outstanding, the number of shares of common stock authorized for issuance under its equity compensation plans, the number of options and shares held by the executive officer for whom an award is being considered and the other elements of the officer's compensation, as well as our compensation objectives and policies described above. As with the determination of base salaries and short term incentive payments, the Compensation Committee exercises subjective judgment and discretion in view of the above criteria.

During fiscal year 2006, the Compensation Committee made stock option grants to each of the executive officers generally targeted at the market median of the comparator companies reviewed by the Compensation Committee in the biotechnology and biopharmaceutical industries, with adjustments to reflect roles within the Company, individual performance and the overall incentive opportunity provided each officer. In addition, in 2006 Mr. Hardison and Mr. Lubner were granted 15,000 and 20,000 stock options, respectively, to compensate for previous option grants that were significantly above the current market price of our stock and as such, not consistent with our long-term incentive compensation goals. The stock options granted to executive officers under our 2000 Stock Option and Incentive Plan have an exercise price equal to the fair market value of the common stock at the time of grant. Stock options granted in 2006 vest in equal monthly installments over a three year period beginning one month following the grant date, with potential vesting acceleration upon achievement of certain corporate goals and objectives. We believe that time-based vesting of stock options enables us to retain our leadership team in an extremely competitive environment. We have granted stock options as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended, subject to the volume limitations contained in the Internal Revenue Code, as well as non-qualified stock options.

The Compensation Committee believes that these equity incentives provide the executive officers with the opportunity to acquire long-term stock ownership positions, and help to align the executives' interests with stockholders' interests. The Compensation Committee believes that this directly motivates executive officers to maximize long-term stockholder value.

Equity Grant Practices

We generally provide executive officers with equity in one of three ways: new hire stock option grants, annual stock options grants or special grants.

The number of stock options granted to our executive officers as a part of our annual employee stock option grant is determined at either the last Compensation Committee meeting of the fiscal year preceding the year in which the grant will be made or the first Compensation Committee meeting of the grant year. The number of stock options granted is based on a Compensation Committee-approved grant matrix relating to the position level of the executive and the level of individual performance as determined by the Chief Executive Officer in consultation with the Compensation Committee. Award recommendations outside of the matrix may be also proposed, subject to Compensation Committee approval. The grant date for the annual option grant is predetermined and approved by the Compensation Committee as the third Thursday in February each year and the strike price is the closing price of our common stock on that date.

New hire stock option grants are provided on the date an executive officer commences employment with us. The amounts of such awards are recommended by the Chief Executive Officer and are subject to the advance approval of the Compensation Committee. New hire options are priced using the closing price of our common stock on the first day of employment of the executive officer.

Special stock option grants can be recommended by the Chief Executive Officer and approved by the Compensation Committee at any meeting or by written consent. In the event that a special stock option grant is awarded by written consent, it is priced based on the closing price of our common stock on the date that we receive the last Compensation Committee member signature. All options awarded at a

Compensation Committee meeting are priced either on the date of the meeting or at such other subsequent date as may be authorized by the Compensation Committee.

Other Compensation

We also permit executive officers and other employees to purchase common stock at a discount through our 2000 Employee Stock Purchase Plan. Employees, including executive officers, may also participate in our 401(k) Plan. In 2006, the Compensation Committee approved an amended EXACT Sciences 401(k) Plan that provides for the investment of a portion of plan assets in shares of our common stock. The Compensation Committee also approved a discretionary matching Company contribution to the plan for 2006. The 2006 contribution will be made using Company stock in an amount equal to fifty-percent (50%) of an employee's total salary deferrals into the plan, consistent with provisions of the plan documents and IRS guidelines. This matching contribution will result in stock contributions valued at \$10,000 to Mr. Hardison and stock contributions valued at \$7,500 to each of Messrs. Luber and Carelli. The Compensation Committee reviewed these additional benefits, together with the primary compensation elements of salary, long-term incentives and cash incentives, in determining the total compensation for our executive officers. The Compensation Committee believes that these elements of compensation were reasonable in the aggregate. Consistent with our compensation philosophy, we intend to continue to maintain our current benefits for our executive officers. The Compensation Committee in its discretion may revise, amend or add to the executive officers' benefits if it deems it advisable.

Employment/Retention Agreements

Messrs. Hardison, Luber and Carelli are parties to agreements which provide for certain severance benefits that may be triggered as a result of the termination of their respective employment under certain circumstances. In the event that we terminate his employment other than for cause, each executive will receive severance payments equal to 100% of such person's annual base salary. Mr. Hardison's employment agreement provides him with retention bonuses payable on January 1, 2007 and January 1, 2008, assuming he is employed by us on those dates, and also provides for acceleration of these retention bonuses upon the occurrence of specified events relating to termination of his employment or a change in control. The retention agreements for Messrs. Luber and Carelli provide each executive officer with retention bonuses that will become payable upon the earlier of December 31, 2007, assuming he is employed on that date, or termination of such executive officer's employment other than for cause. The retention bonuses provided by the employment and retention agreements are intended to ensure that the executive officer focuses his attention on our management, including a willingness to undertake a reasonable degree of business risk in an effort to create shareholder value. We believe these retention bonuses would help our named executive officers remain focused on our corporate goals and objectives in the event of a change in control transaction. In addition to the severance and bonus provisions, Mr. Hardison's employment agreement provides that upon termination of his employment without cause, he will receive certain continued health benefits. See Potential Benefits Upon Termination or Change in Control below for a description of benefits to which Messrs. Hardison, Luber and Carelli would be entitled in certain circumstances.

Compliance with Internal Revenue Code Section 162(m)

In general, under Section 162(m) of the Internal Revenue Code of 1986, as amended, we cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain executive officers. This deduction limitation does not apply, however, to compensation that constitutes qualified performance-based compensation within the meaning of Section 162(m) of the Internal Revenue Code and the regulations promulgated thereunder. We have considered the limitations on deductions imposed by Section 162(m) of the Internal Revenue Code, and it is our present intention that, with the exception of stock awards made to such executives pursuant to the 2000 Stock Option and Incentive Plan after the date of our 2004 annual meeting of stockholders, and for so long as it is consistent with the Compensation Committee's overall compensation objective, tax deductions attributable to executive compensation will generally not be subject to the deduction limitations of Section 162(m). We recognize that tax deductions attributable to executive compensation under the 2000 Stock Option and Incentive Plan may after the date of the 2004 annual meeting of stockholders be subject to the deduction limitations of Section 162(m).

of such person's annual base salary. The retention agreements also provide each executive officer with retention bonuses that would become accelerated and payable upon termination of such executive officer's employment other than for cause. Under the retention agreements, Mr. Lubber and Mr. Carelli will be entitled to a retention bonus in the amount of \$122,500 and \$90,000, respectively, to be paid at the earlier of December 31, 2007, provided each continues to be employed by us as of such date, or their earlier termination by us without cause. Additionally, the retention agreements provide that upon the occurrence of certain triggering events, such as change of control or termination without cause, Mr. Lubber and Mr. Carelli will also be entitled to receive severance payments for the earlier of 12 months or their subsequent employment by a third-party, at a rate equal to their respective base salaries at the time of termination of employment.

Mr. Hardison has signed an employment agreement under which he will be paid an annual salary of \$355,000 and will be eligible to earn an annual performance bonus on the basis of the achievement of certain Company and personal objectives. Additionally, Mr. Hardison will be eligible to earn an annual retention bonus, payable on January 1, 2007 and January 1, 2008, in the amount of \$200,000 each year, provided Mr. Hardison continues to be employed by us. Mr. Hardison's employment agreement provides that upon the occurrence of certain triggering events, Mr. Hardison will be entitled to receive any unpaid retention bonus, and severance payments for a period of 12 months at a rate equal to his base salary at the time of termination of employment. In addition, Mr. Hardison's agreement provides that upon such termination, he will receive certain continued health benefits. This agreement provides a term of 24 months, subject to automatic 12-month renewals unless either Mr. Hardison or we provide 60 days prior written notice to the other of such party's election not to extend the term of the employment agreement.

Our 2000 Stock Option and Incentive Plan provides that all outstanding options granted will have their vesting accelerated by one year following a change in control. In addition, the 2000 Stock Option and Incentive Plan provides that if we experience a change in control and the employment of a plan participant is terminated without cause, or if such participant terminates his or her employment for certain reasons, generally referred to as "good reason", including a substantial reduction in compensation or geographic movement during the one-year period following the change in control, then all unvested stock options held by such participant become fully-vested and immediately exercisable.

For 2006, equity awards for executive officers were made in the form of incentive and non-qualified stock option grants with equal monthly vesting over a three year period beginning one month following the grant date.

Cash Payments and Stock Option Vesting Acceleration Following Certain Termination Events

As described above, the employment or retention agreements with our executive officers entitle them to certain payments or benefits in connection with the termination of their employment, including in connection with a change in control. In addition, certain terms of our 2000 Stock Option and Incentive Plan provide that the stock options held by each of our executive officers may be subject to accelerated vesting upon certain events, including a change in control or termination without cause or resignation for good reason.

Termination Arrangements for our President and Chief Executive Officer

The following table outlines certain cash payments and benefits that Don M. Hardison, our President and Chief Executive Officer, would be entitled to receive under the triggering events described below, assuming that his employment terminated on December 31, 2006 and subject to any deferrals required under Section 409A of the Internal Revenue Code of 1986, as amended. The following table also provides the intrinsic value (that is, the value based upon our stock price on December 31, 2006, minus the exercise price) of stock options that would become exercisable or vested as a result of these acceleration events as of December 31, 2006 in connection with a change in control.

Trigger	Aggregate Salary Continuation	Acceleration of Retention Bonus	COBRA Benefits	Accelerated Portion of Stock Options (Only in Connection with a Change in Control)
Termination for Cause	\$	\$	\$	\$
Termination due to Disability	355,000	400,000	12,300	
Termination without Cause not in Connection with a Change in Control	355,000	400,000	12,300	
Termination without Cause in Connection with a Change in Control	355,000	400,000	12,300	26,217 (1)

(1) Based on the closing price of our common stock on the Nasdaq Global Market on December 29, 2006 of \$2.83 per share, less the exercise price payable with respect to the stock options for which vesting would have been accelerated. This number reflects the value of the acceleration of all of the executive's unexercisable stock options. Stock options that would have become vested within the next 12 months following a change in control become exercisable upon the occurrence of a change in control. If the executive's employment is terminated without cause or for good reason within the one-year period following a change in control, all outstanding options held by such executive become exercisable.

Termination Arrangements for Our Other Executive Officers

Assuming the employment of Jeffrey R. Lubber, our Senior Vice President, Chief Financial Officer, General Counsel, Treasurer and Secretary, and Charles R. Carelli, Jr., our Vice President Finance, was terminated involuntarily or such officers resigned with good reason during the one-year period following a change in control or were otherwise terminated without cause (whether or not in connection with a change in control) on December 31, 2006, Messrs. Lubber and Carelli would be entitled to cash payments in the amounts set forth opposite their names in the below tables, subject to any deferrals required under Section 409A of the Internal Revenue Code of 1986, as amended. The following table also provides the intrinsic value (that is, the value based upon our stock price on December 31, 2006, minus the exercise price) of stock options that would become exercisable or vested as a result of these acceleration events as of December 31, 2006 in connection with a change in control.

Name	Aggregate Salary Continuation(1)	Acceleration of Retention Bonus(2)	Accelerated Portion of Stock Options (Only in Connection with a Change in Control)(3),(4)
Jeffrey R. Lubber	\$ 245,000	\$ 122,500	\$ 8,739
Charles R. Carelli, Jr.	180,000	90,000	7,460

- (1) Reflects aggregate salary continuation payments due as a result of termination without cause or terminations occurring after a change in control of our company.
- (2) Reflects one time retention bonus payments that would be accelerated in the event of termination without cause or a change in control of our company as of December 31, 2006.
- (3) Based on the closing price of our common stock on the Nasdaq Global Market on December 29, 2006 of \$2.83 per share, less the exercise price payable with respect to the stock options for which vesting would have been accelerated.
- (4) This number reflects the value of the acceleration of all of the executive's unexercisable stock options. Stock options that would have become vested within the next 12 months following a change in control become exercisable upon the occurrence of a change in control. If the executive's employment is terminated without cause or for good reason within the one-year period following a change in control, all outstanding options held by such executive become exercisable.

Director Compensation*Compensation Policy for Non-Employee Directors in 2006*

We maintain a compensation package for our non-employee directors, or Director Compensation Policy, to enable us to attract and retain, on a long-term basis, high-caliber directors who are not employees or officers of us or our subsidiaries. Pursuant to the Director Compensation Policy, all non-employee directors received compensation for board service as indicated in the table below. Board members, at their discretion, may choose to receive payment of their annual retainer in either cash or such number of shares of our common stock that are of equal value to the annual retainer amount on the date of grant.

	Annual Retainer(1)	In-Person Meeting(2)	Telephonic Meeting
Board of Directors			
Chairperson of the Board	\$ 20,000	\$ 3,000	\$ 500
Directors	\$ 10,000	\$ 1,500	\$ 500
Board Committees			
Committee Chairperson		\$ 3,000	\$ 500
Committee Members		\$ 1,500	\$ 500

(1) The Company pays annual retainers in a lump sum in either cash or in stock.

(2) Non-employee directors receive compensation for each chairmanship and committee membership that they hold. For example, a director who is a committee chairperson as well as a member of another board committee will receive \$1,500 for each board meeting attended, \$3,000 for each committee meeting attended at which he/she serves as committee chair, and \$1,500 for each committee meeting attended for each additional committee on which he/she serves as a member. Additionally, non-employee directors who participate telephonically at an in-person meeting shall receive 50% of the per-meeting fee.

Any newly elected non-employee director (i.e., each director joining the Board of Directors for the first time) will be granted an option to purchase 10,000 shares of common stock (adjusted for stock splits) pursuant to our 2000 Stock Option and Incentive Plan, or 2000 Plan, on the date they are elected to the Board of Directors, or the Election Option Grant. Election Option Grants shall vest one-third on the first year anniversary of the date of grant, and then ratably thereafter on a monthly basis over a period of twenty-four months.

In addition to the Election Option Grants, each non-employee director (including any newly-elected non-employee director who has received an Election Option Grant) is granted an option to purchase 15,000 shares of common stock (adjusted for stock splits), pursuant to the 2000 Plan, on the date of the first meeting of the Board of Directors following each annual meeting of stockholders, or the Annual Option Grant. The first Annual Option Grant received by a non-employee director during his/her tenure on the Board of Directors vests 100% on the date of the annual meeting of stockholders next following the date of grant. All subsequent Annual Option Grants received by a non-employee director during his/her service on the Board of Directors with us vest ratably over a period of twelve months from the date of each such grant. In the event that a non-employee director is elected to the Board of the Directors other than in

connection with an annual meeting of stockholders, the number of options granted to such director under the first Annual Option Grant received by such non-employee director shall be reduced by 1,250 shares for each month since our last annual meeting of stockholders to the date of such non-employee director's election to the Board of Directors.

Pursuant to the Director Compensation Policy, in 2006, each of Ms. Crawford, Messrs. Kania, Mack, Willsey and Zenner received Annual Option Grants to purchase 15,000 shares of common stock under the 2000 Plan. In addition, each of Ms. Crawford, Messrs. Kania, Mack and Willsey elected to receive their annual retainer in shares of common stock.

All of the foregoing options are granted at fair market value on the date of grant and, except as otherwise provided under the 2000 Plan, all vesting thereunder immediately ceases upon cessation of service as a director for any reason. In addition, the form of option agreement gives directors up to one year following cessation of service as a director to exercise all options that are vested as of the date of such cessation.

The foregoing compensation is in addition to reimbursement of all out-of-pocket expenses incurred by directors in attending meetings of the Board of Directors.

The following table provides compensation information for the one year period ended December 31, 2006 for each non-employee member of our Board of Directors. No member of our Board employed by us receives separate compensation for services rendered as a member of our Board.
