NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Principles of Consolidation

The consolidated financial statements include our accounts and those of our wholly-owned and majority-owned subsidiaries and variable interest entities for which we are the primary beneficiary. Minority interest represents a minority owner's proportionate share of the equity in certain of our consolidated entities. All significant intercompany transactions and account balances have been eliminated in consolidation.

Discontinued Operations

In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, we have reported the results of operations of WGGB-TV in Springfield, Massachusetts as assets and liabilities held for sale in the accompanying consolidated statements of operations. Discontinued operations have not been segregated in the consolidated statements of cash flows; therefore, amounts for certain captions will not agree with the accompanying consolidated statements of operations. The operating results of WGGB-TV are not included in our consolidated results from continuing operations for the three and six months ended June 30, 2008 and 2007. See *Note 8. Discontinued Operations*, for additional information.

Interim Financial Statements

The consolidated financial statements for the three and six months ended June 30, 2008 and 2007 are unaudited. In the opinion of management, such financial statements have been presented on the same basis as the audited consolidated financial statements and include all adjustments, consisting only of normal recurring adjustments necessary for a fair presentation of the consolidated balance sheets, consolidated statements of operations and consolidated statements of cash flows for these periods.

As permitted under the applicable rules and regulations of the Securities and Exchange Commission, the consolidated financial statements do not include all disclosures normally included with audited consolidated financial statements and, accordingly, should be read together with the audited consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the year ended December 31, 2007 filed with the Securities and Exchange Commission. The consolidated statements of operations presented in the accompanying consolidated financial statements are not necessarily representative of operations for an entire year.

Recent Accounting Pronouncements

In May 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) APB 14-1, *Accounting for Convertible Debt Instruments That May Be Settled in Cash Upon Conversion (Including Partial Cash Settlement)*. This FSP requires issuers of convertible debt instruments that may be settled in cash upon conversion to account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate when interest cost is recognized in subsequent periods. Issuers will need to determine the carrying value of the liability portion of the debt by measuring the fair value of a similar liability (including any embedded features other than the conversion option) that does not have an associated equity component. The excess of the initial proceeds received from the debt issuance and the fair value of the liability component should be recorded as a debt discount with the offset recorded to equity. The discount will be amortized to interest expense using the interest method over the life of a similar liability that does not have an associated equity component. Transaction costs incurred with third parties shall be allocated between the liability and equity components in proportion to the allocation of proceeds and accounted for as debt issuance costs and equity issuance costs, respectively, with the debt issuance costs amortized to interest expense. This FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is not permitted. This FSP should be applied retrospectively to all periods presented as of the beginning of the first period presented with an offsetting adjustment to the opening balance of retained earnings. We are currently evaluating the effect of this FSP. We believe that this FSP applies to our 3.0% Convertible Senior Notes, due 2027 and could have a material impact on our consolidated financial statements, including higher non-cash interest expense.

Table of Contents

In June 2008, the Emerging Issues Task Force (EITF) issued Issue No. 08-4, *Transition Guidance for Conforming Changes to Issue No. 98-5, Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios*. The Issue provides transition guidance for changes made to Issue 98-5 resulting from the issuance of EITF Issue No. 00-27, *Application of EITF Issue No. 98-5, Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios, to Certain Convertible Instruments*, and FASB Statement No. 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. The Issue requires that an entity: (a) apply the guidance in this issue to its first fiscal year beginning after December 15, 2008; (b) recognize the effect of the change retrospectively, with the cumulative effect of the change recognized as an adjustment to the opening balance of retained earnings for the earliest period presented; and (c) include disclosures as required for a change in accounting principle by Statement 154. We do not expect the impact of this Issue to have a material effect on our consolidated financial statements.

In June 2008, the FASB issued FSP EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*. This FSP clarifies that unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents are participating securities as defined in EITF 03-6, *Participating Securities and the Two-Class Method under FASB Statement No. 128* and should therefore be included in the computation of earnings per share. This FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. In addition, all prior period earnings per share data shall be adjusted retrospectively. We are currently evaluating the impact of this FSP on our consolidated financial statements.

In June 2008, the EITF issued Issue No. 07-5, *Determining Whether an Instrument (or an Embedded Feature) is Indexed to an Entity's Own Stock*. This Issue requires that an entity use a two-step approach to evaluate whether an equity-linked financial instrument (or embedded feature) is indexed to its own stock, including evaluating the instrument's contingent exercise and settlement provisions. This Issue is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. We are currently evaluating the impact of this Issue on our consolidated financial statements.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the consolidated financial statements and in the disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Acquisitions

In February 2008, we acquired the non-licensed assets of KFXA-TV in Cedar Rapids, Iowa for \$17.0 million, net of cash acquired and the right to purchase licensed assets, pending FCC approval, for \$1.9 million. Our CBS affiliate in Cedar Rapids, KGAN-TV, provides sales and other non-programming related services to KFXA-TV pursuant to an outsourcing agreement. We have determined that the outsourcing agreement is considered a variable interest in KFXA-TV. We have determined that the KFXA-TV licensed asset entity is a variable interest entity and that we are the primary beneficiary of variable interests. As a result, we consolidate the assets and liabilities of the non-licensed and licensed assets of KFXA-TV.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

In March 2008, we acquired a 50% equity interest in Bay Creek South, LLC (Bay Creek). Bay Creek is a land development venture that primarily includes residential and commercial unimproved and improved land surrounding two golf courses on Virginia's eastern shore. In conjunction with the equity investment, we purchased certain of Bay Creek's outstanding debt that was used to finance improvements to and the development of land in the venture. Our total cash, debt and equity investment in Bay Creek, including transaction costs, was \$35.2 million, net of cash acquired. Approximately \$0.8 million of the \$35.2 million investment was funded through the conversion of an existing bridge loan to a portion of the 50% equity interest. Based on our role as the day-to-day manager and our ability to control all major decisions of the venture, the accounts of Bay Creek are included in our consolidated balance sheet. Approximately \$11.8 million of debt was assumed by us through the consolidation of Bay Creek; however, this debt was subsequently paid down to a zero balance at March 31, 2008. As of June 30, 2008, approximately \$49.0 million of property, equipment, land inventory and intangibles were included in property and equipment, net in our consolidated balance sheet. Bay Creek is not material to our consolidated financial statements and we expect to finalize the purchase price allocation during 2008. Our cash investment is shown in the consolidated statement of cash flows as payments for acquisitions of other operating divisions' companies.

In June 2008, we acquired Jefferson Park Development, LLC (Jefferson Park) for \$19.0 million. Jefferson Park is a mixed use land development project located in Frederick County, Maryland, a suburb of Washington, D.C. We consolidate the assets and liabilities of Jefferson Park.

Table of Contents

In June 2008, we entered into an agreement to acquire WTVR-TV, a CBS affiliate, in Richmond-Petersburg, Virginia for \$85.0 million and simultaneously sell the license assets of WRLH-TV, a FOX affiliate, in Richmond, Virginia to an unrelated third party. Upon closing, which is pending the Federal Communication Commission and the Justice Department approval, we will provide sales and other programming related services to WRLH-TV.

Investments

From time to time, we transact equity and debt investments in non-broadcast assets. During first quarter 2008, we made a \$6.0 million cash investment in Patriot Capital II, LP (Patriot Capital). Patriot Capital provides structured debt and mezzanine financing to small businesses. After the \$6.0 million cash investment, our remaining unfunded commitment to Patriot Capital is \$14.0 million. As of June 30, 2008, we made new investments of \$13.2 million and add-on cash investments of \$1.5 million in real estate ventures. As of the filing date, in third quarter 2008, we made a new investment of \$3.5 million in a real estate venture.

Goodwill Impairment

SFAS No. 142, *Goodwill and Other Intangible Assets* requires that goodwill be tested for impairment at the reporting unit level at least annually. We test for impairment by comparing the book value of our reporting units, including goodwill, to the estimated fair value of our reporting units. We estimate the fair value of our reporting units using a combination of observed earnings multiples, discounted cash flow models and appraisals. During the three months ended June 30, 2008, certain events led us to test our goodwill associated with an other operating division company, Acrodyne Communications, Inc. As a result of this testing, we recorded a \$1.6 million impairment charge in our consolidated statements of operations.

Property and Equipment

As of June 30, 2008, approximately \$92.9 million of our \$360.7 million of net property and equipment consisted of real estate held for development and sale or for investment.

Comprehensive Income (Loss)

Statement of Financial Accounting Standards No. 130, *Reporting Comprehensive Income*, requires that entities present comprehensive income (loss), which is the sum of net income (loss) and other comprehensive income, for each of the periods presented in the consolidated financial statements. Comprehensive income was \$13.3 million and \$2.3 million for the three months ended June 30, 2008 and 2007, respectively and \$29.9 million for the six months ended June 30, 2008. Comprehensive loss was less than \$0.1 million for the six months ended June 30, 2007.

Reclassifications

Certain reclassifications have been made to prior years' consolidated financial statements to conform to the current year's presentation.

Table of Contents

2. STOCK-BASED COMPENSATION:

From time to time, we grant subsidiary stock awards to employees. The subsidiary stock is typically in the form of a membership interest in a consolidated limited liability company, not traded on a public exchange and valued based on the estimated fair value of the subsidiary. Fair value is typically estimated using discounted cash flow models and appraisals. These stock awards vest immediately. For the three and six months ended June 30, 2008, we recorded compensation expense of \$1.3 million and \$2.4 million, respectively, related to these awards. We did not issue any subsidiary stock awards during the six months ended June 30, 2007. This expense reduced our consolidated income, but had no effect on our consolidated cash flows. These awards have no effect on the shares used in our basic and diluted earnings per share.

On April 1, 2008, 350,000 stock-settled appreciation rights (SARs) were granted to David Smith, our President and Chief Executive Officer, pursuant to the 1996 Long-Term Incentive Plan. The SARs have a 10-year term and vest immediately. The base value of each SAR is \$8.94 per share, which was the closing price of our Class A Common Stock on the grant date. The SARs had a grant date fair value of \$0.5 million. We valued the SARs using the Black-Scholes model and the following assumptions:

Risk-free interest rate	4.25%
Expected life	10 years
Expected volatility	46.10%
Annual dividend yield	9.23%

For each of the three and six months ended June 30, 2008, we recorded expense of \$0.5 million related to this grant. This expense will reduce our consolidated income but have no effect on our consolidated cash flows.

3. COMMITMENTS AND CONTINGENCIES:

Litigation

We are a party to lawsuits and claims from time to time in the ordinary course of business. Actions currently pending are in various preliminary stages. After reviewing developments to date with legal counsel, our management is of the opinion that the outcome of our pending and threatened matters will not have a material adverse effect on our consolidated balance sheets, consolidated statements of operations or consolidated statements of cash flows.

FCC License Renewals

In April 2008, the FCC granted the license renewal application of WUXP-TV in Nashville, Tennessee. In July 2008, the FCC granted the renewal application of WVTW-TV in Milwaukee, Wisconsin.

Under FCC rules, we have continuing authority to operate each of these stations for which we have a pending renewal application until the FCC takes final action on that application.

Other FCC Adjudicatory Proceedings

On October 12, 2004, the FCC issued a Notice of Apparent Liability for Forfeiture (NAL) in the amount of \$7,000 per station to virtually every FOX station, including the 15 FOX affiliates presently licensed to us, the four FOX affiliates programmed by us and one FOX affiliate we sold in 2005. The NAL alleged that the stations broadcast indecent material contained in an episode of a FOX network program that aired on April 7, 2003. We, as well as other parties including the FOX network, filed oppositions to the NAL. On February 22, 2008, the FCC released an order assessing a \$7,000 per station forfeiture against thirteen FOX stations, including KDSM-TV in Des Moines, Iowa, WZTV-TV in Nashville, Tennessee and WVAH-TV in Charleston, West Virginia, which we program pursuant to a Local Marketing Agreement (LMA). We did not pay the forfeiture for our stations. On March 24, 2008, we joined the FOX network and other FOX affiliates in filing a petition for reconsideration of the forfeiture order. On April 4, 2008, the FCC returned the petition without consideration based on the alleged failure to comply with a procedural rule. On April 21, 2008, we joined the FOX network and other FOX affiliates in seeking reconsideration of the FCC's April 4, 2008 decision to return the petition for reconsideration. On April 4, 2008, the Department of Justice, on behalf of the FCC, sued several of the stations that had not paid the forfeiture amounts assessed by the FCC, including the two stations we own and WVAH-TV. Our stations and WVAH-TV paid the forfeiture assessments in April 2008. The proceedings initiated by the Department of Justice have been dismissed. The FOX network has agreed to indemnify its affiliates for the full amount of the forfeiture assessment paid.

Table of Contents**4. SUPPLEMENTAL CASH FLOW INFORMATION:**

During the six months ended June 30, 2008 and 2007, our supplemental cash flow information was as follows (in thousands):

	Six Months Ended June 30,	
	2008	2007
Income taxes paid related to continuing operations	\$ 2,947	\$ 48
Income tax refunds received related to continuing operations	\$ 45	\$ 59
Income tax refunds received related to sale of discontinued operations	\$ 27	\$ 153
Interest paid	\$ 36,573	\$ 57,365
Payments related to extinguishment of debt	\$ 245	\$ 27,249

Non-cash barter and trade expense are presented in the consolidated statements of operations. Non-cash transactions related to capital lease obligations were \$10.0 million and less than \$0.1 million for the six months ended June 30, 2008 and 2007, respectively.

5. DERIVATIVE INSTRUMENTS:

We enter into derivative instruments primarily to reduce the impact of changing interest rates on our floating rate debt and to reduce the impact of changing fair market values on our fixed rate debt.

As of December 31, 2007, we had two remaining derivative instruments. Both of these instruments were interest rate swap agreements. One of these swap agreements, with a notional amount of \$180.0 million and an expiration date of March 15, 2012, was accounted for as a fair value hedge in accordance with SFAS 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS 133); therefore, any changes in its fair market value are reflected as an adjustment to the carrying value of our 8.0% Senior Subordinated Notes, due 2012, which was the underlying debt being hedged. The interest we paid on the \$180.0 million swap was variable based on the three-month LIBOR plus 2.28% and the interest we received was fixed at 8.0%. The other interest rate swap, with a notional amount of \$120.0 million and an expiration date of March 15, 2012, was undesignated as a fair value hedge in 2006 due to a reassignment of the counterparty; therefore, any subsequent changes in the fair market value are reflected as an adjustment to income. The interest we paid on the \$120.0 million swap was variable based on the three-month LIBOR plus 2.35% and the interest we received was fixed at 8.0%.

In February 2008, the counterparty to our swap agreements, elected to change the termination dates of the \$180.0 million and \$120.0 million swaps to March 25, 2008 and March 26, 2008, respectively. We received a termination fee of \$3.2 million from the counterparty for the early termination of the \$120.0 million swap. After the removal of the related \$2.4 million derivative asset from our consolidated balance sheet, the resulting \$0.8 million, along with \$0.2 million of interest was recorded in gain from derivative instruments. We received a termination fee of \$4.8 million from the counterparty for the early termination of the \$180.0 million swap. In accordance with SFAS 133, the carrying value of the underlying debt was adjusted to reflect the \$4.8 million termination fee and that amount is treated as a premium on the underlying debt that was being hedged and is amortized over its remaining life as a reduction to interest expense. The total termination fees received of \$8.0 million are included in the cash flows from financing activities section of the consolidated statement of cash flows for the six months ended June 30, 2008.

As of June 30, 2008, we had no derivative instruments other than embedded derivatives related to contingent cash interest features in our 4.875% Convertible Senior Notes, due 2018 and 3.0% Convertible Senior Notes, due 2027, which had negligible fair values.

Table of Contents**6. EARNINGS PER SHARE:**

The following table reconciles income (numerator) and shares (denominator) used in our computations of earnings per share for the three and six months ended June 30, 2008 and 2007 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Income (Numerator)				
Income (loss) from continuing operations	\$ 13,100	\$ 1,703	\$ 29,644	\$ (410)
Income impact of assumed conversion of 4.875% Convertible Senior Notes, due 2018, net of taxes			2,194	
Numerator for diluted earnings (loss) per common share from continuing operations	\$ 13,100	\$ 1,703	\$ 31,838	\$ (410)
Income from discontinued operations, including gain on sale of broadcast assets related to discontinued operations, net of taxes	178	494	47	218
Numerator for diluted earnings (loss) per common share	\$ 13,278	\$ 2,197	\$ 31,885	\$ (192)
Shares (Denominator)				
Weighted-average common shares outstanding	87,459	87,122	87,353	86,634
Dilutive effect of outstanding stock options and restricted stock	4	160	5	
Dilutive effect of 4.875% Convertible Senior Notes, due 2018			6,705	
Weighted-average common and common equivalent shares outstanding	87,463	87,282	94,063	86,634

We apply the treasury stock method to measure the dilutive effect of our outstanding stock options and restricted stock awards and include the respective common share equivalents in the denominator of the diluted EPS computation. For the six months ended June 30, 2007, our outstanding stock options and restricted stock awards were anti-dilutive; therefore, they were not included in the computation of diluted EPS. For the three months ended June 30, 2008 and 2007 and the six months ended June 30, 2007, our 4.875% Convertible Senior Notes, due 2018 and for each of the three and six months ended June 30, 2008 and 2007, our 6.0% Convertible Debentures, due 2012, our 3.0% Convertible Senior Notes, due 2027, and our outstanding SARs were anti-dilutive; therefore, they were not included in the computation of diluted EPS.

7. RELATED PERSON TRANSACTIONS:

David, Frederick, Duncan and Robert Smith (collectively, the controlling shareholders) are brothers and hold substantially all of the Class B Common Stock. During each of the periods presented in the accompanying consolidated financial statements, we engaged in transactions with them, their immediate family members and/or entities in which they have substantial interests (collectively, affiliates).

Certain assets used by us and our operating subsidiaries are leased from Cunningham Communications, Inc., Keyser Investment Group, Gerstell Development Limited Partnership and Beaver Dam, LLC (entities owned by the controlling shareholders). Lease payments made to these entities were \$1.2 million and \$1.3 million for the three months ended June 30, 2008 and 2007, respectively. Lease payments made to these

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

entities were \$2.4 million and \$2.6 million for the six months ended June 30, 2008 and 2007, respectively.

In January 1999, we entered into a LMA with Bay Television, Inc. (Bay TV), which owns the television station WTTA-TV in Tampa, Florida. Our controlling shareholders own a substantial portion of the equity of Bay TV. The LMA provides that we deliver television programming to Bay TV, which broadcasts the programming in return for a monthly fee to Bay TV of \$143,500. We must also make an annual payment equal to 50% of the adjusted annual broadcast cash flow of the station (as defined in the LMA) that is in excess of \$1.7 million. The additional payment is reduced by 50% of the adjusted broadcast cash flow of the station that was below zero in prior calendar years until that amount is recaptured. An additional payment of \$1.5 million was made during the six months ended June 30, 2008 related to the excess adjusted broadcast cash flow for the year ended December 31, 2007. Lease payments made to Bay TV were \$0.4 million for each of the three months ended June 30, 2008 and 2007 and \$0.9 million for each of the six months ended June 30, 2008 and 2007. We received \$0.1 million for each of the three months ended June 30, 2008 and 2007 and \$0.3 million for each of the six months ended June 30, 2008 and 2007 from Bay TV for certain equipment leases.

We sold advertising time to and purchased vehicles and related vehicle services from Atlantic Automotive Corporation (Atlantic Automotive), a holding company which owns automobile dealerships and an automobile leasing company. David D. Smith, our President and Chief Executive Officer, has a controlling interest in, and is a member of the Board of Directors of Atlantic Automotive. Our stations in Baltimore, Maryland and Norfolk, Virginia received payments for advertising time totaling \$0.2 million

Table of Contents

and \$0.4 million for the three and six months ended June 30, 2008, respectively. We received payments for advertising time totaling \$0.1 million and \$0.3 million for the three and six months ended June 30, 2007, respectively. We paid \$0.2 million and \$0.4 million for vehicles and related vehicle services from Atlantic Automotive for the three and six months ended June 30, 2008, respectively. We paid \$0.3 million and \$0.5 million for vehicles and related vehicle services from Atlantic Automotive for the three and six months ended June 30, 2007, respectively.

Basil A. Thomas, a member of our Board of Directors, is on the board of directors of Thomas & Libowitz, P.A., and the father of Steven A. Thomas, a partner and founder of Thomas & Libowitz, P.A., a law firm providing legal services to us on an ongoing basis. We paid fees of \$0.2 million to Thomas & Libowitz for each of the three months ended June 30, 2008 and 2007. For the six months ended June 30, 2008 and 2007, we paid fees of \$0.5 million and \$0.4 million to Thomas & Libowitz, respectively.

From time to time, we charter aircraft owned by certain controlling shareholders. We incurred \$0.1 million for each of the three and six months ended June 30, 2008 and less than \$0.1 million for each of the three and six months ended June 30, 2007.

In April 2008, we extended four of our LMAs with Cunningham Broadcasting Corporation (Cunningham) pursuant to which we will continue to provide programming to Cunningham to air on WTAT-TV in Charleston, South Carolina, WVAH-TV in Charleston, West Virginia, WRGT-TV in Dayton, Ohio and WMYA-TV in Anderson, South Carolina. We made payments to Cunningham under LMA agreements of \$2.6 million and \$2.1 million for the three months ended June 30, 2008 and 2007, respectively and \$3.8 million and \$4.0 million for the six months ended June 30, 2008 and 2007, respectively.

As of June 30, 2008, Frederick Smith had an unfunded investment commitment of \$0.5 million to Patriot Capital.

8. DISCONTINUED OPERATIONS:

WGGB Disposition

On July 31, 2007, we entered into an agreement to sell WGGB-TV, including the FCC license, to an unrelated third party for \$21.2 million in cash. The FCC approved the transfer of the broadcast license and the sale was completed on November 1, 2007. We recorded \$1.1 million, net of \$0.5 million tax provision, as gain from discontinued operations in our consolidated statements of operations for the year ended December 31, 2007. The net cash proceeds were used in the normal course of operations and for capital expenditures.

Accounts receivable related to WGGB-TV is included in the accompanying consolidated balance sheets, net of allowance for doubtful accounts, for all periods presented. This is because we continue to own the rights to collect the amounts due to us through the closing date of the non-license television broadcast assets. As of June 30, 2008, there were no outstanding accounts receivable related to our discontinued operations. Accounts receivable related to our discontinued operations was \$0.1 million (net of allowance of less than \$0.1 million) as of December 31, 2007.

Table of Contents**9. SEGMENT DATA:**

We have one reportable operating segment, Broadcast, that is disclosed separately from our corporate and other business activities. Corporate and Other primarily includes our costs to operate as a public company and to operate our corporate headquarters location, our investment activity and our other operating divisions' activities. Currently, our other operating divisions primarily earn revenues from information technology staffing, consulting and software development; transmitter manufacturing; sign design and fabrication; regional security alarm operating and bulk acquisitions; and real estate ventures. Transactions between our operating segment and Corporate and Other are not material.

Financial information for our operating segment is included in the following tables for the three and six months ended June 30, 2008 and 2007 (in thousands):

10. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS:

Sinclair Television Group, Inc. (STG), a wholly owned subsidiary of Sinclair Broadcast Group, Inc. (SBG), is the primary obligor under our existing Bank Credit Agreement, as amended and the 8.0% Senior Subordinated Notes, due 2012. Our Class A Common Stock, Class B Common Stock, the 6.0% Convertible Debentures, due 2012, the 4.875% Convertible Senior Notes, due 2018 and the 3.0% Convertible Senior Notes, due 2027 remain obligations or securities of SBG and are not obligations or securities of STG.

SBG, KDSM, LLC, a wholly-owned subsidiary of SBG, and STG's wholly-owned subsidiaries (guarantor subsidiaries), have fully and unconditionally guaranteed all of STG's obligations. Those guarantees are joint and several. There are certain contractual restrictions on the ability of SBG, STG or KDSM, LLC to obtain funds from their subsidiaries in the form of dividends or loans.

The following condensed consolidating financial statements present the consolidated balance sheets, consolidated statements of operations and consolidated statements of cash flows of SBG, STG, KDSM, LLC and the guarantor subsidiaries, the direct and indirect non-guarantor subsidiaries of SBG and the eliminations necessary to arrive at our information on a consolidated basis. These statements are presented in accordance with the disclosure requirements under Securities and Exchange Commission Regulation S-X, Rule 3-10.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report includes or incorporates forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to risks, uncertainties and assumptions about us, including, among other things, the following risks:

General risks

- the impact of changes in national and regional economies;
- the activities of our competitors;
- terrorist acts of violence or war and other geopolitical events;

Industry risks

- the business conditions of our advertisers, including the impact of the economy on their businesses and their ability to purchase advertising;
- competition with other broadcast television stations, radio stations, multi-channel video programming distributors (MVPDs) and internet and broadband content providers serving in the same markets;
- labor disputes and other union activity;
- availability and cost of programming;
- the effects of governmental regulation of broadcasting or changes in those regulations and court actions interpreting those regulations, including ownership regulations, indecency regulations, retransmission regulations, political advertising restrictions and regulations;
- the continued viability of networks and syndicators that provide us with programming content;
- the February 17, 2009 mandatory transition from analog to digital over-the-air broadcasting, including the impact the transition will have on television ratings;
- the broadcasting community's ability to adopt and to accept a viable mobile digital television strategy and platform;

- competition related to the potential implementation of regulations requiring MVPDs to carry low power television stations programming;

Risks specific to us

- the effectiveness of our management;
- our ability to attract and maintain local and national advertising;
- our ability to successfully renegotiate retransmission consent agreements;
- our ability to service our outstanding debt;
- our ability to renew our FCC licenses;
- our ability to maintain our affiliation agreements with our networks;
- the popularity of syndicated programming we purchase and network programming that we air;
- successful integration of outsourcing and news share agreements;
- the strength of ratings for our local news broadcasts including our news sharing arrangements;
- changes in the makeup of the population in the areas where our stations are located;
- the success of our multi-channel broadcasting initiatives strategy execution including mobile digital television;
- the results of prior year tax audits by taxing authorities;
- our ability to identify and consummate investments in attractive non-television assets and to achieve anticipated returns on those investments once consummated; and
- our ability to successfully obtain FCC and Justice Department approval related to the acquisition of WTVR-TV in Richmond-Petersburg, Virginia.

Other matters set forth in this report and our other reports filed with the Securities and Exchange Commission, including the *Risk Factors* set forth in our Annual Report on Form 10-K for the year ended December 31, 2007, may also cause actual results in the future to differ materially from those described in the forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking statements discussed in this report might not occur.

Table of Contents

The following Management's Discussion and Analysis provides qualitative and quantitative information about our financial performance and condition and should be read in conjunction with our consolidated financial statements and the accompanying notes to those statements. This discussion consists of the following sections:

Executive Overview financial highlights since March 31, 2008;

Recent Accounting Pronouncements a description of new accounting pronouncements that apply to us;

Results of Operations an analysis of our revenues and expenses for the three and six months ended June 30, 2008 and 2007, including comparisons between quarters and expectations for the third quarter 2008; and

Liquidity and Capital Resources an analysis of our cash flows from or used in operating activities, investing activities and financing activities and an update of our debt repurchases during the quarter.

EXECUTIVE OVERVIEW

Second Quarter 2008 Highlights

- In June 2008, we entered into an agreement to purchase the assets of WTVR-TV in Richmond-Petersburg, Virginia for \$85.0 million and simultaneously sell the license assets of WRLH-TV in Richmond, Virginia to an unrelated third party. Upon closing, which is pending Federal Communication Commission and Justice Department approval, we will provide sales and other programming related services to WRLH-TV;
- In June 2008, we acquired Jefferson Park Development, LLC (Jefferson Park), which holds an investment in developmental land in Frederick County, Maryland, for \$19.0 million;
- In June 2008, we entered into a three-year extension of the analog and digital carriage agreement with Insight Communications, Inc. covering four stations in three markets;
- During second quarter 2008, we made new investments (excluding Jefferson Park) of \$11.2 million and an add-on cash investment of \$1.3 million in various real estate ventures;
- Our retransmission consent agreements, including the advertising component, generated \$18.7 million in total net broadcast revenues during the second quarter 2008 compared to \$14.7 million during the same period in

2007; and

- Excluding political, local revenues increased 2.1% and national revenues decreased 5.6% in the second quarter 2008 versus the second quarter 2007, as current negative economic conditions have impeded advertising spending levels.

Other Highlights

- In July 2008, we entered into a news share agreement in which WHO-TV will produce a newscast to air on KDSM-TV in Des Moines, Iowa;
- As of the filing date, in third quarter 2008, we repurchased in the open market \$6.4 million face value of our 8.0% Senior Subordinated Notes, due 2012; and
- As of the filing date, in third quarter 2008, we made a new investment of \$3.5 million in a real estate venture.

RECENT ACCOUNTING PRONOUNCEMENTS

In May 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) APB 14-1, *Accounting for Convertible Debt Instruments That May Be Settled in Cash Upon Conversion (Including Partial Cash Settlement)*. This FSP requires issuers of convertible debt instruments that may be settled in cash upon conversion to account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate when interest cost is recognized in subsequent periods. Issuers will need to determine the carrying value of the liability portion of the debt by measuring the fair value of a similar liability (including any embedded features other than the conversion option) that does not have an associated equity component. The excess of the initial proceeds received from the debt issuance and the fair value of the liability component should be recorded as a debt discount with the offset recorded to equity. The discount will be amortized to interest expense using the interest method over the life of a similar liability that does not have an associated equity component. Transaction costs incurred with third parties shall be allocated between the liability and equity components in proportion to the allocation of proceeds and accounted for as debt issuance costs and equity issuance costs, respectively, with the debt issuance costs amortized to interest expense. This FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is not permitted. This FSP should be applied retrospectively to all periods presented as of the beginning of the first period presented with an offsetting adjustment to the opening balance of retained earnings. We are currently evaluating the effect of this FSP. We believe that this FSP applies to our 3.0% Convertible Senior Notes, due 2027 and could have a material impact on our consolidated financial statements, including higher non-cash interest expense.

In June 2008, the Emerging Issues Task Force (EITF) issued Issue No. 08-4, *Transition Guidance for Conforming Changes to Issue No. 98-5, Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios*. The Issue provides transition guidance for changes made to Issue 98-5 resulting from the issuance of EITF Issue No. 00-27, *Application of EITF Issue No. 98-5, Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios, to Certain Convertible Instruments*, and FASB Statement No. 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. The Issue requires that an entity: (a) apply the guidance in this issue to its first fiscal year beginning after December 15, 2008; (b) recognize the effect of the change retrospectively, with the cumulative effect of the change recognized as an adjustment to the opening balance of retained earnings for the earliest period presented; and (c) include disclosures as required for a change in accounting principle by Statement 154. We do not expect the impact of this Issue to have a material effect on our consolidated financial statements.

In June 2008, the FASB issued FSP EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*. This FSP clarifies that unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents are participating securities as defined in EITF 03-6, *Participating Securities and the Two-Class Method under FASB Statement No. 128* and should therefore be included in the computation of earnings per share. This FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. In addition, all prior period earnings per share data shall be adjusted retrospectively. We are currently evaluating the impact of this FSP on our consolidated financial statements.

In June 2008, the EITF issued Issue No. 07-5, *Determining Whether an Instrument (or an Embedded Feature) is Indexed to an Entity's Own Stock*. This Issue requires that an entity use a two-step approach to evaluate whether an equity-linked financial instrument (or embedded feature) is indexed to its own stock, including evaluating the instrument's contingent exercise and settlement provisions. This Issue is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. We are currently evaluating the impact of this Issue on our consolidated financial statements.

RESULTS OF OPERATIONS

In general, this discussion is related to the results of our continuing operations, except for discussions regarding our cash flows, which also include the results of our discontinued operations. Unless otherwise indicated, references in this discussion and analysis to the second quarter of 2008 and 2007 refer to the three months ended June 30, 2008 and 2007, respectively. Additionally, any references to the first, third or fourth quarter are to the three months ended March 31, September 30 and December 31, respectively, for the year being discussed.

Net broadcast revenues. From a revenue category standpoint, the second quarter 2008, when compared to the same period in 2007, was impacted by an increase in advertising revenues generated from the political, media, fast food and pharmacy-cosmetics sectors. These increases were offset by decreases in the retail, movies, medical and school sectors. Automotive, our single largest category, representing 20.6% of the quarter's net time sales, was down 3.7% for the three months ended June 30, 2008 compared to the same period in 2007.

Political Revenues. Political revenues increased by \$2.5 million to \$3.6 million for the second quarter 2008 when compared to the same period in 2007. For the six months ended June 30, 2008, political revenues increased by \$5.2 million to \$6.8 million when compared to the same period in 2007. Political revenues are typically lower in non-election years such as 2007 and have been helped in 2008 by the presidential election. We expect political advertising revenues to reach record levels this year.

Local Revenues. Our revenues from local advertisers, excluding political revenues, were up \$2.0 million for the three months ended June 30, 2008 when compared to 2007. For the six months ended June 30, 2008, local advertisers, excluding political revenues, were up \$6.3 million when compared to the same period in 2007. The increase of revenues for the three months and six months ended June 30, 2008, when compared to 2007, was primarily due to \$1.4 million and \$2.5 million, respectively, related to our stations in Cedar Rapids including KFXA TV, acquired in February 2008, and KGAN-TV which was previously accounted for as an outsourcing agreement. Our FOX stations local news and strong network prime-time continue to grow our revenues. We continue to provide an enhanced sales training course for all of our salespeople with a focus on local revenue sales. We expect to continue these efforts throughout 2008.

National Revenues. Our revenues from national advertisers, excluding political revenues, were down \$2.7 million for the three months ended June 30, 2008 when compared to 2007. For the six months ended June 30, 2008, national advertisers, excluding political revenues, were down \$1.4 million when compared to the same period in 2007. The decrease in revenues was lessened by the abovementioned effects of KFXA-TV and KGAN-TV. The overall decrease in revenues is primarily due to current negative economic conditions which have impeded advertising spending levels. Automotive companies have reduced advertising budgets in response to record-high oil prices and declines in

SUV and truck sales. We expect this trend to continue throughout 2008 and into 2009. In addition, over the past few years, national revenues have trended downward. Advertisers like automotive continue to shift portions of their advertising budgets away from spot television into non-traditional media, in-store promotions and product placement in network shows and we believe this trend will continue in the future.

Other Revenues. Our other revenues consist primarily of revenues from retransmission consent agreements with multi-channel video programming distributors, network compensation, production revenues and revenues from our outsourcing agreements. Our retransmission consent agreements, including the advertising component, generated \$18.7 million in total broadcast revenues during the second quarter 2008 compared with \$14.7 million during the same period in 2007. This growth trend is the result of our ability to monetize our existing relationships as cable providers struggle with increased competition from alternative video delivery providers and have begun to recognize the value of our digital and high definition signals and local and other programming. Pursuant to EITF 00-21, *Revenue Arrangements with Multiple Deliverables*, during the second quarter 2008, \$13.1 million of the total \$18.7 million in revenues generated from our retransmission consent agreements is included in other revenues, while the remaining \$5.6 million is included in net time sales. During the second quarter 2007, \$11.6 million of the total \$14.7 million in revenues generated from our retransmission consent agreements is included in other revenues, while the remaining \$3.1 million is included in net time sales. We expect to continue to generate revenues from retransmission consent agreements at terms as favorable as or more favorable than our existing agreements upon expiration of those agreements. Our retransmission consent agreements include automatic annual fee escalators.

For the six months ended June 30, 2008, \$26.5 million of the total \$38.3 million in revenues generated from our retransmission consent agreements are included in other revenues, while the remaining \$11.8 million is included in net time sales. For the six months ended June 30, 2007, \$20.7 million of the total \$25.6 million in revenues generated from our retransmission consent agreements are included in other revenues, while the remaining \$4.9 million is included in net time sales.

Table of Contents

The following table presents our significant expense categories for the three and six months ended June 30, 2008 and 2007 (in millions):

Station production expenses. Station production expenses increased during the second quarter 2008 compared to the same period in 2007. Excluding Cedar Rapids, there were increases in news expenses of \$1.2 million, engineering expenses of \$0.4 million, costs related to LMAs and outsourcing agreements of \$0.3 million, rating service expenses of \$0.3 million, production expenses of \$0.2 million, programming expenses of \$0.2 million and other expenses of \$0.1 million. In addition, there were \$1.0 million in costs related to our stations in Cedar Rapids including KFXA TV, acquired in February 2008, and KGAN-TV which was previously accounted for as an outsourcing agreement. These increases were partially offset by decreases in promotion expenses of \$1.0 million and music license fees of \$0.6 million.

Station production expenses increased for the six months ended June 30, 2008 compared to the same period in 2007. Excluding Cedar Rapids, there were increases in news expenses of \$2.3 million, engineering expenses of \$0.6 million, rating service expenses of \$0.6 million, programming expenses of \$0.5 million, production expenses of \$0.4 million, costs related to LMAs and outsourcing agreements of \$0.1 million, on-air operations of \$0.1 million and other expenses of \$0.1 million. In addition, there were \$1.7 million in costs related to our stations in Cedar Rapids. These increases were partially offset by decreases in music license fees of \$0.5 million and promotion expenses of \$0.4 million.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

Station selling, general and administrative expenses. Station selling, general and administrative expenses were constant during the second quarter 2008 compared to same period in 2007. Excluding Cedar Rapids, there were decreases in general and administrative expenses of \$0.3 million, sales expenses of \$0.3 million, national sales representative firm commissions of \$0.2 million and other expenses of \$0.1 million offset by increases in traffic costs of \$0.1 million. Selling, general and administrative expenses related to our stations in Cedar Rapids were \$0.8 million.

Station selling, general and administrative expenses increased for the six months ended June 30, 2008 compared to the same period in 2007. Excluding Cedar Rapids, there were increases in traffic costs of \$0.2 million and sales costs of \$0.1 million offset by decreases in general and administrative expenses of \$0.5 million. There were \$1.2 million in expenses related to our stations in Cedar Rapids.

We expect third quarter 2008 station production and station selling, general and administrative expenses, excluding barter, to trend lower than our second quarter 2008 results.

Amortization of program contract costs. The amortization of program contract costs decreased during the second quarter 2008 compared to the same period in 2007 primarily due to a decrease in program amortization of \$1.2 million. The amortization of program contract costs decreased during the six months ended June 30, 2008 compared to the same period in 2007 primarily due to a decrease in program amortization of \$4.0 million partially offset by an increase of \$1.1 million in write-downs of our program contract costs. We expect program contract amortization to trend higher in third quarter 2008 compared to second quarter 2008.

Table of Contents

Corporate general and administrative expenses. Corporate general and administrative expenses represent the costs to operate our corporate headquarters location. Such costs include, among other things, corporate departmental salaries, bonuses, fringe benefits and other compensation, directors and officers insurance, health and other insurance, rent, telephone, consulting fees, legal, accounting, director fees and strategic development initiatives. Corporate departments include executive, treasury, finance and accounting, human resources, technology, corporate relations, legal, sales, engineering, operations and purchasing.

Corporate general and administrative expenses increased in the second quarter 2008 when compared to the same period in 2007 due to increases in compensation expenses of \$0.6 million, professional fees of \$0.4 million, general insurance of \$0.1 million and workers compensation expense of \$0.1 million. These increases were partially offset by decreases in stock award compensation expense including stock appreciation rights of \$0.5 million, health insurance costs of \$0.4 million, building rent expense of \$0.1 million and shareholder service expenses of \$0.1 million.

Corporate general and administrative expenses increased for the six months ended June 30, 2008 when compared to the same period in 2007 due to increases in compensation expenses of \$1.4 million and professional fees of \$0.6 million. These increases were partially offset by decreases in stock award compensation expense including stock appreciation rights of \$0.5 million, health insurance costs of \$0.4 million, satellite costs of \$0.1 million, building rent expense of \$0.1 million and shareholder service expenses of \$0.1 million.

We expect corporate overhead expenses to decrease in third quarter 2008 compared to second quarter 2008.

Amortization of definite-lived intangible assets and other assets. The amortization of definite-lived intangible assets and other assets increased during second quarter 2008 compared to the same period in 2007 and for the six months ended June 30, 2008 when compared to the same period in 2007 primarily due to amortization of additional intangible assets from 2007 and 2008 acquisitions. We expect amortization of definite-lived intangible assets and other assets to trend higher in third quarter 2008 compared to second quarter 2008.

Impairment of goodwill. In second quarter 2008, we recorded an impairment of \$1.6 million related to goodwill associated with Acrodyne Communications, Inc. See *Note 1. Summary of Significant Accounting Policies* in the notes to our consolidated financial statements for more information.

Interest expense. Interest expense has been decreasing since 2004, primarily due to refinancings we have undertaken; specifically in 2007 when certain debt was replaced with a LIBOR based Term Loan and 3.0% Convertible Senior Notes, due 2027. The decrease during the second quarter 2008 compared to the same period in 2007 is primarily due to the partial redemption of the 8.0% Senior Subordinated Notes, due 2012 (the 8.0% Notes) on June 11, 2007 and June 18, 2007 and subsequent other smaller redemptions of the 8.0% Notes and a decrease in LIBOR lowering interest expense on our Revolving Credit Facility and Term Loans.

We expect interest expense to increase in third quarter 2008 compared to second quarter 2008 due primarily to an expected increase in LIBOR.

Loss from extinguishment of debt. During the first quarter of 2008, we repurchased, in the open market, \$15.4 million face value of the 8.0% Notes, resulting in a loss of \$0.3 million from extinguishment of debt. In January 2007, we redeemed our 8.75% Notes, which resulted in a \$15.7 million loss from extinguishment of debt. In June 2007, we partially redeemed our 8.0% Notes, which resulted in a \$15.0 million loss from extinguishment of debt. For further information see *Liquidity and Capital Resources*.

Loss (gain) from derivative instruments. We record gains and losses related to certain of our derivative instruments not treated as hedges in accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended. The fair value of our derivative instruments is primarily based on the anticipated future interest rate curves at the end of each period. In March 2008, we terminated one of our interest rate swap agreements with a notional amount of \$120.0 million and received a cash payment termination fee of \$3.2 million from our counterparty. The gain from our derivative instruments during 2008 when compared to 2007 is due to normal market fluctuations and the termination of the interest rate swap agreement.

Loss from equity and cost method investments. During the six months ended June 30, 2008, we recorded losses of \$1.1 million related to our venture capital investments and \$0.4 million related to certain real estate ventures. These losses were partially offset by a distribution of \$0.7 million from a direct investment in a privately held small business. During the six months ended June 30, 2007, we recorded an impairment of \$1.0 million related to one of our direct investments in a privately held small business and a loss of \$0.3 million related to that investment. These losses were partially offset by income of \$0.4 million related to our venture capital investments.

Table of Contents

Income tax (provision) benefit. The effective tax rate for the three and six months ended June 30, 2008 was a provision of 44.5% and 42.6% respectively, as compared to a benefit of 313.4% and 83.0% for the same periods in 2007, respectively. Due to our pre-tax income in 2008 compared to our pre-tax loss in 2007, we had a change from a benefit to a provision. The difference between the absolute value of the tax rate between 2008 and 2007 is due to a larger pre-tax income in 2008 compared to a smaller pre-tax loss in 2007.

Other Operating Divisions Revenue and Expense

The following table presents other operating divisions revenue and expenses related to G1440 Holdings, Inc. (G1440), an information technology staffing, consulting and software development company, Acrodyne Communications, Inc. (Acrodyne), a manufacturer of television transmissions systems, Triangle Sign & Service, LLC (Triangle), a sign designer and fabricator, Alarm Funding Associates, LLC (Alarm Funding), a regional security alarm operating and bulk acquisition company and real estate ventures, for the three and six months ended June 30, 2008 and 2007 (in millions):

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2008, we had \$10.9 million in cash and cash equivalent balances and a negative working capital of approximately \$18.3 million. Our working capital reduction of \$31.7 million is primarily the result of the use of operating cash flow for investments in certain real estate ventures and private investment funds. Cash generated by our operations and availability under our Revolver are used as our primary source of liquidity. We anticipate that cash flow from our operations and borrowings under the Revolver will be sufficient to continue paying dividends under our current policy and to satisfy our debt service obligations, capital expenditure requirements, including those related to the upgrade and expansion of stations high-definition production capabilities, certain strategic investments and working capital needs. As of June 30, 2008, we had drawn \$51.0 million on our Revolver and \$124.0 million of current borrowing capacity was available. In July 2008, we repurchased on the open market \$6.4 million face value of the 8.0% Notes.

Operating Activities

Net cash flows from operating activities increased during the second quarter 2008 compared to the same period in 2007. During 2008, we paid \$13.8 million less for the extinguishment of debt due to the partial redemption of the 8.0% Notes in second quarter 2007. Additionally, we received \$10.5 million more in cash receipts from customers, net of cash payments to vendors for operating expenses and other working capital cash activities and paid \$4.2 million less in interest payments for second quarter 2008 compared to the same period in 2007. These amounts

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

were partially offset by paying \$2.9 million more in taxes, net of tax refunds, receiving \$0.7 million less in distributions on our investments from equity and cost method investees and paying \$0.2 million more in program payments for second quarter 2008 compared to the same period in 2007.

Net cash flows from operating activities increased during the six months ended June 30, 2008 compared to the same period in 2007. During 2008, we paid \$27.0 million less for the extinguishment of debt due to the full redemption of the 8.75% Notes and the partial redemption of the 8.0% Notes in the first six months of 2007. Additionally, we paid \$20.8 million less in interest payments and received \$5.6 million more in receipts from customers, net of cash payments to vendors for operating expenses and other working capital cash activities for the six months ended June 30, 2008 compared to the same period in 2007. These amounts were partially offset by paying \$3.0 million more in taxes, net of tax refunds, \$0.5 million more in program payments and receiving \$0.4 million less in distributions on our investments from equity and cost method investees for the six months ended June 30, 2008 compared to the same period in 2007.

We expect program payments to decrease in the third quarter 2008 compared to the second quarter 2008.

Investing Activities

Net cash flows used in investing activities increased during the second quarter 2008 compared to the same period in 2007. During the second quarter 2008, we paid \$3.0 million more related to our acquisition of a real estate venture than we paid in second quarter 2007 for our acquisition of Triangle. This was driven by our \$19.0 million acquisition of Jefferson Park. Additionally, we made equity investments of \$12.4 million in other real estate ventures. Finally, there was an increase in capital expenditures of \$5.3 million during the second quarter 2008 as compared to the same period in 2007.

Net cash flows used in investing activities increased during the six months ended June 30, 2008 compared to the same period in 2007. During the six months ended June 30, 2008, we paid \$37.5 million more for acquisitions of non-television assets compared to the same period in 2007. During the six months ended June 30, 2008, we paid \$34.4 million, net of cash acquired, related to our acquisition of Bay Creek South, LLC and \$19.0 million related to our acquisition of Jefferson Park. During the six months ended June 30, 2007, we paid \$16.0 million, net of cash acquired, related to our acquisition of Triangle. During the six months ended June 30, 2008, we paid \$17.1 million, net of cash acquired, for the acquisition of the non-license assets of KFXA-TV in Cedar Rapids, Iowa. We made equity investments of \$6.0 million and \$14.6 million in Patriot Capital and real estate ventures, respectively. Finally, there was an increase in capital expenditures of \$4.6 million during the six months ended June 30, 2008 as compared to the same period in 2007.

The investments we have made in real estate reflect our strategy to maximize value for our shareholders. We believe that the depressed real estate market and tight credit market allows us to invest in what we believe to be under-valued non-television assets to drive future cash flows. In addition, we continue to explore strategic opportunities in our core television broadcast business. For third quarter 2008, we anticipate incurring higher capital expenditures than incurred in the second quarter 2008 primarily related to the timing of station equipment replacement and high-definition upgrades in some markets. We expect to fund such capital expenditures with cash generated from operating activities and borrowings under our Bank Credit Agreement.

Financing Activities

Net cash flows used in financing activities decreased in the second quarter of 2008 compared to the same period in 2007. Our debt issuances, net of debt repayments to non-affiliates were \$16.7 million in second quarter 2008 compared to \$14.3 million during the same period in 2007. In addition, we paid \$6.4 million less in financing costs in second quarter 2008 as compared to the same period in 2007. These were offset by paying \$4.5 million more for common stock dividends and receiving \$2.3 million less in proceeds from the exercise of stock options, including excess tax benefits during the second quarter 2008, as compared to the same period in 2007.

Net cash flows from financing activities increased in the six months ended June 30, 2008 compared to the same period in 2007. Our debt issuances, net of debt repayments to non-affiliates in six months ended June 30, 2008, were \$31.9 million compared to debt repayments, net of debt issuances of \$54.4 million during the same period in 2007. In addition, we received \$8.0 million in proceeds from derivative termination fees and paid \$6.4 million less in financing costs in second quarter 2008 as compared to the same period in 2007. These amounts were partially offset by \$13.7 million less in proceeds received from the exercise of stock options, including excess tax benefits and paying \$8.9 million more for common stock dividends during the six months ended June 30, 2008, as compared to the same period in 2007.

On February 5, 2008, our Board of Directors renewed its authorization to repurchase up to \$150.0 million of our Class A Common Stock on the open market or through private transactions. We did not repurchase any Class A Common Stock during the second quarter 2008.

On February 6, 2008, the Board of Directors approved an increase to our quarterly dividend to 20.0 cents per share from 17.5 cents per share. We plan to fund these dividends with cash generated from operating activities and borrowings under our Bank Credit Agreement.

Seasonality/Cyclical

Our operating results are usually subject to seasonal fluctuations. Usually, the second and fourth quarter operating results are higher than the first and third quarters because advertising expenditures are increased in anticipation of certain seasonal and holiday spending by consumers.

Our operating results are usually subject to fluctuations from political advertising. In even years, political spending is usually significantly higher than in odd years due to advertising expenditures preceding local and national elections. Additionally, every four years, political spending is elevated further due to advertising expenditures preceding the presidential election.

CONTRACTUAL CASH OBLIGATIONS

During first quarter 2008, we repurchased on the open market \$15.4 million face value of the 8.0% Notes.

During first quarter 2008, we made a \$6.0 million cash investment in Patriot Capital. Patriot Capital provides structured debt and mezzanine financing to small businesses. After the \$6.0 million cash investment, our remaining unfunded commitment to Patriot Capital is \$14.0 million.

In July 2008, we repurchased on the open market \$6.4 million face value of the 8.0% Notes. From time to time, we may repurchase additional outstanding debt on the open market. As of June 30, 2008, the face amount of the 8.0% Notes was \$248.0 million.

There were no other material changes outside the ordinary course of business to our contractual cash obligations disclosed in our Annual Report on Form 10-K for the year ended December 31, 2007.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from changes in interest rates. We enter into derivative instruments primarily to reduce the impact of changing interest rates on our floating rate debt and to reduce the impact of changing fair market values on our fixed rate debt. We account for our derivative instruments under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended.

As of December 31, 2007, we had two remaining derivative instruments. Both of these instruments were interest rate swap agreements. One of these swap agreements, with a notional amount of \$180.0 million and an expiration date of March 15, 2012, was accounted for as a fair value hedge in accordance with SFAS 133, *Accounting for Derivative Instruments and Hedging Activities*; therefore, any changes in its fair market value are reflected as an adjustment to the carrying value of our 8.0% Senior Subordinated Notes, due 2012, which was the underlying debt

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

being hedged. The interest we paid on the \$180.0 million swap was variable based on the three-month LIBOR plus 2.28% and the interest we received was fixed at 8.0%. The other interest rate swap, with a notional amount of \$120.0 million and an expiration date of March 15, 2012, was undesignated as a fair value hedge in 2006 due to a reassignment of the counterparty; therefore, any subsequent changes in the fair market value are reflected as an adjustment to income. The interest we paid on the \$120.0 million swap was variable based on the three-month LIBOR plus 2.35% and the interest we received was fixed at 8.0%.

In February 2008, the counterparty to our swap agreements, elected to change the termination dates of the \$180.0 million and \$120.0 million swaps to March 25, 2008 and March 26, 2008, respectively. We received a termination fee of \$3.2 million from the counterparty for the early termination of the \$120.0 million swap. After the removal of the related \$2.4 million derivative asset from our consolidated balance sheet, the resulting \$0.8 million, along with \$0.2 million of interest was recorded in gain from derivative instruments. We received a termination fee of \$4.8 million from the counterparty for the early termination of the \$180.0 million swap. In accordance with SFAS 133, the carrying value of the underlying debt was adjusted to reflect the \$4.8 million termination fee and that amount is treated as a premium on the underlying debt that was being hedged and is amortized over its remaining life as a reduction to interest expense. The total termination fees received of \$8.0 million are included in the cash flows from financing activities section of the consolidated statement of cash flows for the six months ended June 30, 2008.

As of June 30, 2008, we had no derivative instruments other than embedded derivatives related to contingent cash interest features in our 4.875% Convertible Senior Notes, due 2018 and 3.0% Convertible Senior Notes, due 2027, which had negligible fair values.

As of June 30, 2008 and after the termination of the above mentioned interest rate swap, \$409.6 million or approximately 30.0% of the face value of our debt effectively pays interest at a floating rate.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2008. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of June 30, 2008, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting, as defined in Rules 132-15(f) and 15d-15(f) under the Exchange Act, during or subsequent to the quarter ended June 30, 2008 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are a party to lawsuits and claims from time to time in the ordinary course of business. Actions currently pending are in various preliminary stages. After reviewing developments to date with legal counsel, our management is of the opinion that the outcome of our pending and threatened matters will not have a material adverse effect on our consolidated balance sheets, consolidated statements of operations or consolidated statements of cash flows.

ITEM 1A. RISK FACTORS

The following section represents an update to risk factors contained in our Annual Report on Form 10-K for the year ended December 31, 2007.

New accounting treatment for cash settled convertible debt instruments will likely cause our reported interest expense on our convertible senior notes to increase

In May 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) APB 14-1, *Accounting for Convertible Debt Instruments That May Be Settled in Cash Upon Conversion (Including Partial Cash Settlement)*. This FSP requires issuers of convertible debt instruments that may be settled in cash upon conversion to account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate when interest cost is recognized in subsequent periods. Issuers will need to determine the carrying value of the liability portion of the debt by measuring the fair value of a similar liability (including any embedded features other than the conversion option) that does not have an associated equity component. The excess of the initial proceeds received from the debt issuance and the fair value of the liability component should be recorded as a debt discount with the offset recorded to equity. The discount will be amortized to interest expense using the interest method over the life of a similar liability that does not have an associated equity component. Transaction costs incurred with third parties shall be allocated between the liability and equity components in proportion to the allocation of proceeds and accounted for as debt issuance costs and equity issuance costs, respectively, with the debt issuance costs amortized to interest expense. This FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and will require retrospective application. This FSP applies to our 3.0% Convertible Senior Notes, due 2027. This FSP could have a material impact on our consolidated financial statements and may result in higher non-cash interest expense related to our convertible senior notes beginning in 2009.

Table of Contents**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

The annual meeting of shareholders of Sinclair Broadcast Group, Inc. was held on May 15, 2008. At the meeting, three items, as set forth in the proxy statement dated April 15, 2008, were submitted to the shareholders for a vote. In response to Proposal I, the shareholders elected all persons nominated for directors as set forth in our proxy statement dated April 15, 2008, for a term expiring at the next annual shareholders meeting in 2009. Approximately 98.4% of the eligible votes were cast. The table below sets forth the results of the voting for nominated directors:

Election of Directors	For	Against or Withheld
David D. Smith	374,569,232	16,508,208
Frederick G. Smith	373,763,364	17,314,076
