Date of reporting period: June 30, 2008

Item 1. Reports to Stockholders.

COHEN & STEERS SELECT UTILITY FUND, INC.

August 8, 2008

To Our Shareholders:

We are pleased to submit to you our report for the six months ended June 30, 2008. The net asset value at that date was \$26.74 per common share. The fund's common stock is traded on the New York Stock Exchange (NYSE) and its share price can differ from its net asset value; at period end, the fund's closing price on the NYSE was \$24.40. The total returns, including income, for the fund and the comparative benchmarks were:

	Six Months Ended June 30, 2008
Cohen & Steers Select Utility Fund at Market Value ^a	7.24%
Cohen & Steers Select Utility Fund at Net Asset Value ^a	5.43%
S&P 1500 Utilities Index ^b	2.52%
S&P 500 Index ^b	11.91%
Blended benchmark 80% S&P 1500 Utilities Index, 20%	
Merrill Lynch Fixed Rate Preferred Index ^b	1.82%

The performance data quoted represent past performance. Past performance is no guarantee of future results. The investment return and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance results reflect the effects of leverage, resulting from the issuance of preferred shares.

Three monthly distributions of \$0.2075 per common share were declared and will be paid to common shareholders on July 31, 2008, August 29, 2008 and September 30, 2008.^c The fund makes regular monthly cash distributions to common shareholders at a level rate (the "Policy"). As a result of this Policy, the fund may pay distributions in excess of the fund's investment company taxable income and net realized capital gains. This excess would be a "return of capital" distributed from the fund's assets. Distributions of capital decrease the fund's total assets and, therefore, could have the effect of increasing the fund's expense ratio. In addition, in order to make these distributions, the fund may have to sell portfolio securities at a less than opportune time.

^a As a closed-end investment company, the price of the fund's New York Stock Exchange-traded shares will be set by market forces and at times may deviate from the net asset value per share of the fund.

^b The S&P 1500 Utilities Index is an unmanaged market capitalization weighted index of 75 companies whose primary business involves the generation, transmission and/or distribution of electricity and/or natural gas. The S&P 500 Index is an unmanaged index of common stocks that is frequently used as a general measure of stock market performance. The Merrill Lynch Fixed Rate Preferred Index is an unmanaged index of preferred securities.

^c Please note that distributions paid by the fund to shareholders are subject to recharacterization for tax purposes. The final tax treatment of these distributions is reported to shareholders after the close of the calendar year.

COHEN & STEERS SELECT UTILITY FUND, INC.

Investment Review

The six-month period was a volatile and negative one for the U.S. stock market. While stocks had a March-April "relief rally" investors' risk aversion had moderated somewhat after the U.S. Federal Reserve announced it would help JPMorgan Chase acquire Bear Stearns this was quickly reversed. Conditions deteriorated in early June as surging oil prices contributed to fears of global stagflation, an unwelcome mix of inflation and slowing economic growth. In addition, there were heightened concerns over the financial sector; large banks saw additional downgrades, while a new focus on local and regional banks emerged.

Utility stocks outperformed in this environment. While they struggled along with other equities in the first few months of the year, utilities rallied in the second quarter. Given a choppy market and uncertain economy, investors once again saw appeal in utilities' defensive characteristics relatively stable earnings that benefit from regulation, minimal competition and stable underlying demand. For much the same reason, utilities outperformed the broad market by a wide margin in 2007.

Utilities' outperformance also reflected a rise in realized power prices. Natural gas prices, which determine electricity prices in much of the country, surged in the period amid strong global demand. This supported strong earnings growth, particularly for utilities that are less reliant on natural gas as an input, such as nuclear generators.

Preferred securities had a positive return

Preferred securities were strong performers early in the period. However, issuance from stressed financial institutions continued to set and break records in the period as banks sought to shore up their capital bases. The abundance of supply from blue-chip names not only depressed secondary market prices, it also crowded out regional banks (which face their own mortgage-related losses) from accessing much-needed capital. REIT preferred securities were standouts, with a total return of 7.6% in the period as measured by the Merrill Lynch REIT Preferred Index. As in the equity markets, however, intensifying inflation concerns weighed on all preferreds late in the period.

Leverage and AMPS complicated a difficult period

The fund employs leverage as part of a yield-enhancement strategy, as is the case with many closed-end funds. While leverage can increase total return in strong markets, it can have the opposite effect in declining markets. In the six-month period ended June 30, the fund's leverage detracted from performance.

The fund issued auction market preferred securities (AMPS) perpetual securities with dividend rates that are reset at weekly or monthly auctions. When there is an insufficient number of bids at an auction, the dividends are reset at the maximum rates allowed under the governing documents (See Note 5 in Notes to the Financial Statements). In February, the auctions stalled when the financial institutions that had often absorbed excess supply

COHEN & STEERS SELECT UTILITY FUND, INC.

suspended their bids for AMPS. This triggered unsuccessful auctions that have resulted in an illiquid market for AMPS, including those issued by the fund.

Because leverage enhances current income even at current AMPS borrowing costs and because markets tend to trend upward over time, we believe that leverage will still help fulfill the fund's long-term objectives. To that end, the fund's board of directors is evaluating ways to recapitalize the fund to add other forms of financing, at an attractive cost of capital. Cohen & Steers will keep all shareholders informed of our progress. For more information and periodic updates, please visit cohenandsteers.com.

The fund slightly underperformed its benchmark

On a pre-leveraged basis, the fund's utilities holdings modestly underperformed the S&P 1500 Utilities Index. Factors that hindered relative performance included our underweight in the natural gas utilities sector, which performed well amid rising natural gas prices (although favorable stock selection reduced much of this).

We owned several midstream (gathering and processing) natural gas companies that benefited our performance. Performance was also helped by our underweight in the lower-yielding independent energy producers sector, which had a double-digit decline in the challenging equity environment. REIT preferreds had a positive return in the period, which helped the fund's absolute performance.

Investment Outlook

Within a highly uncertain economic environment, we believe that utilities securities have the potential to outperform as investors seek less cyclical sectors of the stock market. We also believe that investors could find these securities appealing based on valuations and growth profiles. Utilities currently trade at a price-to-earnings multiple of 14.5 times one-year forward earnings, in line with their historical average. However, utilities have a projected annual growth rate in the 9% to 11% range for the next three years, well above the historical average, as power generation fundamentals are expected to remain attractive in the United States and Europe.

Over time, we expect to see more investment opportunities emerge as spending on infrastructure expands. In addition to reinforcing aging systems, new transmission systems will be required to connect alternative sources of energy, such as wind power. This demand could be a significant source of earnings growth for companies that produce or help distribute new energy sources.

COHEN & STEERS SELECT UTILITY FUND, INC.

Sincerely,

MARTIN COHEN

COHEN & STEERS SELECT UTILITY FUND, INC.Our Leverage Strategy
(Unaudited)

While we do not attempt to predict what future interest rates will be, it has been our philosophy to utilize interest rate swap transactions to seek to reduce the interest rate risk inherent in our utilization of leverage. Our leverage strategy involves issuing auction market preferred shares (AMPS) to raise additional capital for the fund, with an objective of increasing the net income available for shareholders. As of June 30, 2008, AMPS represented 36% of the fund's managed assets. Considering that AMPS have variable dividend rates, we seek to lock in the rate on a significant portion of this additional capital through interest rate swap agreements (where we effectively convert our variable rate obligation to a fixed rate obligation for the term of the swap agreements). Specifically, we have fixed the rate on 55% of our borrowings at an average interest rate of 3.9% for an average remaining period of 3.1 years (when we first entered into the swaps, the average term was 5.1 years). By locking in a significant portion of our leveraging costs, we have endeavored to adequately protect the dividend-paying ability of the fund. The use of leverage increases the volatility of the fund's net asset value in both up and down markets. However, we believe that locking in a portion of the fund's leveraging costs for the term of the swap agreements partially protects the fund from any impact that an increase in short-term interest rates may have as a result of the use of leverage.

Leverage Facts^a

Leverage (as a % of managed assets)	36%
% Fixed Rate	55%
% Variable Rate	45%
Weighted Average Rate on Swaps	3.9%
Weighted Average Term on Swaps	3.1 years
Current Rate on AMPS ^b	3.8%

^a Data as of June 30, 2008. Information subject to change.

^b The Articles Supplementary (the "Articles") creating each series of Auction Market Preferred Shares ("AMPS") provide for dividends to be paid at either the rate set in the current auction, or at the maximum rate as defined in the Articles if sufficient clearing bids for the AMPS are not received in the current auction. Beginning on February 13, 2008, sufficient clearing bids were not received for a number of auctions for certain AMPS series of the fund, and therefore, the maximum rates were declared on the respective AMPS series. For further information, please see Note 5 in Notes to Financial Statements or visit our Web site at cohenandsteers.com.

^a Commencement of operations.

^b Calculation based on average shares outstanding.

Edgar Filing: COHEN & STEERS SELECT UTILITY FUND INC - Form N-CSRS

^c Amount is less than \$0.005.

^d Total market value return is computed based upon the New York Stock Exchange market price of the fund's shares and excludes the effects of brokerage commissions. Total net asset value return measures the changes in value over the period indicated, taking into account dividends as reinvested. Dividends and distributions, if any, are assumed for purposes of these calculations, to be reinvested at prices obtained under the fund's dividend reinvestment plan.

^e Not annualized.

^f Annualized.

^g Ratios do not reflect dividend payments to preferred shareholders.

^h Average daily managed assets represent net assets applicable to common shares plus liquidation preference of preferred shares.

ⁱ Based on weekly prices.

See accompanying notes to financial statements.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

Note 1. Significant Accounting Policies

Cohen & Steers Select Utility Fund, Inc. (the fund) was incorporated under the laws of the State of Maryland on January 8, 2004 and is registered under the Investment Company Act of 1940, as amended, as a nondiversified closed-end management investment company. The fund's investment objective is a high level of after-tax total return.

The following is a summary of significant accounting policies consistently followed by the fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America (GAAP). The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Portfolio Valuation: Investments in securities that are listed on the New York Stock Exchange are valued, except as indicated below, at the last sale price reflected at the close of the New York Stock Exchange on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day or, if no asked price is available, at the bid price. Exchange traded options are valued at their last sale price as of the close of options trading on applicable exchanges. In the absence of a last sale, options are valued at the average of the quoted bid and asked prices as of the close of business. Over-the-counter options quotations are provided by the respective counterparty.

Securities not listed on the New York Stock Exchange but listed on other domestic or foreign securities exchanges or admitted to trading on the National Association of Securities Dealers Automated Quotations, Inc. (Nasdaq) national market system are valued in a similar manner. Securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined as reflected on the tape at the close of the exchange representing the principal market for such securities.

Readily marketable securities traded in the over-the-counter market, including listed securities whose primary market is believed by Cohen & Steers Capital Management, Inc. (the investment manager) to be over-the-counter, but excluding securities admitted to trading on the Nasdaq National List, are valued at the official closing prices as reported by Nasdaq, the National Quotation Bureau, or such other comparable sources as the Board of Directors deem appropriate to reflect their fair market value. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day, or if no asked price is available, at the bid price. However, certain fixed-income securities may be valued on the basis of prices provided by a pricing service when such prices are believed by the Board of Directors to reflect the fair market value of such securities. Where securities are traded on more than one exchange and also over-the-counter, the securities will generally be valued using the quotations the Board of Directors believes most closely reflect the value of such securities.

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

Securities for which market prices are unavailable, or securities for which the investment manager determines that bid and/or asked price does not reflect market value, will be valued at fair value pursuant to procedures approved by the fund's Board of Directors. Circumstances in which market prices may be unavailable include, but are not limited to, when trading in a security is suspended, the exchange on which the security is traded is subject to an unscheduled close or disruption or material events occur after the close of the exchange on which the security is principally traded. In these circumstances, the fund determines fair value in a manner that fairly reflects the market value of the security on the valuation date based on consideration of any information or factors it deems appropriate. These may include recent transactions in comparable securities, information relating to the specific security and developments in the markets.

The fund's use of fair value pricing may cause the net asset value of fund shares to differ from the net asset value that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security.

Short-term debt securities, which have a maturity date of 60 days or less, are valued at amortized cost, which approximates value.

The fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FAS 157"), effective January 1, 2008. In accordance with FAS 157, fair value is defined as the price that the fund would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

The following is a summary of the inputs used as of June 30, 2008 in valuing the fund's investments carried at value:

	Total	Fair Value Measurements at June 30, 2008 Using		
		Quoted Prices In Active Market for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments in Securities	\$ 1,801,836,580	\$ 1,636,332,709	\$ 162,503,871	\$ 3,000,000
Other Financial Instruments*	1,980,953		1,980,953	
Total	\$ 1,803,817,533	\$ 1,636,332,709	\$ 164,484,824	\$ 3,000,000

* Other financial instruments include interest rate swap contracts and written call options.

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

	Investments in Securities
Balance as of December 31, 2007	\$ 9,716,400
Realized loss	(2,319,768)
Change in unrealized appreciation (depreciation)	1,933,305
Net sales	(99,250)
Transfers out of Level 3	(6,230,687)
Balance as of June 30, 2008	\$ 3,000,000

Security Transactions and Investment Income: Security transactions are recorded on trade date. Realized gains and losses on investments sold are recorded on the basis of identified cost. Interest income is recorded on the accrual basis. Discounts are accreted and premiums are amortized over the life of the respective securities. Dividend income is recorded on the ex-dividend date except for certain dividends on foreign securities, which are recorded as soon as the fund is informed after the ex-dividend date. The fund records distributions received in excess of income from underlying investments as a reduction of cost of investments and/or realized gain. Such amounts are based on estimates if actual amounts are not available, and actual amounts of income, realized gain and return of capital may differ from the estimated amounts. The fund adjusts the estimated amounts of the components of distributions (and consequently its net investment income) as an increase to unrealized appreciation/(depreciation) and realized gain/(loss) on investments as necessary once the issuers provide information about the actual composition of the distributions.

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

Foreign Currency Translations: The books and records of the fund are maintained in U.S. dollars as follows: (1) the foreign currency market value of investment securities, other assets and liabilities and foreign currency contracts are translated at the exchange rates prevailing at the end of the period; and (2) purchases, sales, income and expenses are translated at the exchange rates prevailing on the respective dates of such transactions. The resultant exchange gains and losses are recorded as realized and unrealized gain/loss on foreign exchange transactions. Pursuant to U.S. federal income tax regulations, certain foreign exchange gains/losses included in realized and unrealized gain/loss are included in or are a reduction of ordinary income for federal income tax purposes. The fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the changes in the market prices of the securities.

Foreign Securities: The fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the ability to repatriate funds, less complete financial information about companies and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. issuers.

Options: The fund may write covered call options on an index or a security. When a fund writes (sells) an option, an amount equal to the premium received by the fund is recorded in the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When an option expires, the fund realizes a gain or loss on the option to the extent of the premiums received. Premiums received from writing options which are exercised or are closed, are added to or offset against the proceeds or amount paid on the transaction to determine the realized gain or loss. The fund, as writer of an option, bears the market risk of an unfavorable change in the price of the underlying index or security. Other risks include the possibility of an illiquid options market or the inability of the counterparties to fulfill their obligations under the contract.

Interest Rate Swaps: The fund uses interest rate swaps in connection with the sale of preferred shares. The interest rate swaps are intended to reduce the risk that an increase in short-term interest rates could have on the performance of the fund's common shares as a result of the floating rate structure of the preferred shares. In these interest rate swaps, the fund agrees to pay the other party to the interest rate swap (which is known as the counterparty) a fixed rate payment in exchange for the counterparty agreeing to pay the fund a variable rate payment that is intended to approximate the fund's variable rate payment obligation on the preferred shares. The payment obligation is based on the notional amount of the swap. Depending on the state of interest rates in general, the use of interest rate swaps could enhance or harm the overall performance of the common shares. The market value of interest rate swaps is based on pricing models that consider the time value of money, volatility, the current market and contractual prices of the underlying financial instrument. Unrealized appreciation is reported as an asset and unrealized depreciation is reported as a liability on the Statement of Assets and Liabilities.

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

The change in value of swaps, including the accrual of periodic amounts of interest to be paid or received on swaps, is reported as unrealized appreciation or depreciation in the Statement of Operations. A realized gain or loss is recorded upon payment or receipt of a periodic payment or termination of swap agreements. Swap agreements involve, to varying degrees, elements of market and counterparty risk, and exposure to loss in excess of the related amounts reflected in the Statement of Assets and Liabilities.

Dividends and Distributions to Shareholders: Dividends from net investment income and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from GAAP. Dividends from net investment income are declared and paid monthly. Net realized capital gains, unless offset by any available capital loss carryforward, are typically distributed to shareholders at least annually. Dividends and distributions to shareholders are recorded on the ex-dividend date and are automatically reinvested in full and fractional shares of the fund unless the shareholder has elected to have them paid in cash.

Series M7, Series T7, Series T7-2, Series W7, Series TH7 and Series F7 preferred shares pay dividends based on a variable interest rate set at auctions, normally held every seven days. The dividends are declared and recorded for the subsequent seven day period on the auction date. In most instances, dividends are payable every seven days, on the first business day following the end of the dividend period.

Series T28 and Series TH28 preferred shares pay dividends based on a variable interest rate set at auctions, normally held every 28 days. The dividends are declared and recorded for the subsequent 28 day period on the auction date. In most instances, dividends are payable every 28 days, on the first business day following the end of the dividend period.

Income Taxes: It is the policy of the fund to continue to qualify as a regulated investment company, if such qualification is in the best interest of the shareholders, by complying with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies, and by distributing substantially all of its taxable earnings to its shareholders. Accordingly, no provision for federal income or excise tax is necessary. The fund has adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainties in Income Taxes (FIN 48). FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position must meet before being recognized in the financial statements. An assessment of the fund's tax positions has been made and it has been determined that there is no impact to the fund's financial statements. Each of the fund's federal tax returns for the prior three fiscal years remains subject to examination by the Internal Revenue Service.

Note 2. Investment Management Fees, Administration Fees and Other Transactions with Affiliates

Investment Management Fees: The investment manager serves as the fund's investment manager pursuant to an investment management agreement (the management agreement). Under the terms of the management agreement, the investment manager provides the fund with day-to-day investment decisions and generally manages the fund's investments in accordance with the stated policies of the fund, subject to the supervision of the Board of Directors

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

For the services under the management agreement, the fund pays the investment manager a management fee, accrued daily and paid monthly, at an annual rate of 0.85% of the fund's average daily managed asset value. Managed asset value is the net asset value of the common shares plus the liquidation preference of the preferred shares.

The investment manager has contractually agreed to waive its investment management fee in the amount of 0.20% of average daily managed asset value for the first five years of the fund's operations, 0.15% of average daily managed asset value in year six, 0.10% of average daily managed asset value in year seven and 0.05% of average daily managed asset value in year eight. During the six months ended June 30, 2008, the investment manager waived its fee at the annual rate of 0.20%.

Administration Fees: The fund has entered into an administration agreement with the investment manager under which the investment manager performs certain administrative functions for the fund and receives a fee, accrued daily and paid monthly, at the annual rate of 0.06% of the fund's average daily managed assets up to \$1 billion, 0.04% of the fund's average daily managed assets in excess of \$1 billion up to \$1.5 billion and 0.02% of the fund's average daily managed assets in excess of \$1.5 billion. For the six months ended June 30, 2008, the fund incurred \$429,047 in administration fees. Additionally, the fund has retained State Street Bank and Trust Company as sub-administrator under a fund accounting and administration agreement.

Directors' and Officers' Fees: Certain directors and officers of the fund are also directors, officers, and/or employees of the advisor. The fund does not pay compensation to any affiliated directors and officers except for the Chief Compliance Officer, who received \$6,800 from the fund for the six months ended June 30, 2008.

Note 3. Purchases and Sales of Securities

Purchases and sales of securities, excluding short-term investments, for the six months ended June 30, 2008 totaled \$292,399,595 and \$333,771,042 respectively.

Transactions in options written during the six months ended June 30, 2008, were as follows:

	Number of Contracts	Premium
Options outstanding at December 31, 2007		\$
Options written	3,255,322	4,465,263
Options terminated in closing transactions	(1,255,322)	(1,945,263)
Options outstanding at June 30, 2008	2,000,000	\$ 2,520,000

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

Note 4. Income Tax Information

As of June 30, 2008, the federal tax cost and net unrealized appreciation on securities were as follows:

Gross unrealized appreciation	\$ 449,699,116
Gross unrealized depreciation	(63,903,566)
Net unrealized appreciation	\$ 385,795,550
Cost for federal income tax purposes	\$ 1,416,041,030

Note 5. Capital Stock

The fund is authorized to issue 100 million shares of common stock at a par value of \$0.001 per share.

During the six months ended June 30, 2008 and the year ended December 31, 2007, the fund issued no shares of common stock for the reinvestment of dividends.

On February 14, 2007, the fund issued 3,400 auction market preferred shares, Series T7-2 (par value \$0.001). Proceeds paid to the fund amounted to \$83,925,000 after deduction of underwriting commissions and offering expenses of \$1,075,000. This issue has received a "AAA/Aaa" rating from Standard & Poor's and Moody's.

The fund's articles of incorporation authorize the issuance of fund preferred shares, par value \$0.001 per share, in one or more classes or series, with rights as determined by the Board of Directors, by action of the Board of Directors without the approval of the common shareholders.

Preferred shares are senior to the fund's common shares and will rank on a parity with shares of any other series of preferred shares, and with shares of any other series of preferred stock of the fund, as to the payment of dividends and the distribution of assets upon liquidation. If the fund does not timely cure a failure to (1) maintain a discounted value of its portfolio equal to the preferred shares basic maintenance amount, (2) maintain the 1940 Act preferred shares asset coverage, or (3) file a required certificate related to asset coverage on time, the preferred shares will be subject to a mandatory redemption at the redemption price of \$25,000 per share plus an amount equal to accumulated but unpaid dividends thereon to the date fixed for redemption. To the extent permitted under the 1940 Act and Maryland Law, the fund at its option may without consent of the holders of preferred shares, redeem preferred shares having a dividend period of one year or less, in whole, or in part, on the business day after the last day of such dividend period upon not less than 15 calendar days and not more than 40 calendar days prior to notice. The optional redemption price is \$25,000 per share plus an amount equal to accumulated but unpaid dividends thereon to the date fixed for redemption.

The fund's common shares and preferred shares have equal voting rights of one vote per share and vote together as a single class, except in certain circumstances regarding the election of directors. In addition, the affirmative vote of the holders of a majority, as defined in the 1940 Act, of the outstanding preferred shares shall

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

be required to (1) approve any plan of reorganization that would adversely affect the preferred shares and (2) approve any matter that materially and adversely affects the rights, preferences, or powers of that series.

The following table reflects the preferred shares issued and outstanding as of June 30, 2008 along with the range of dividend rates paid during the six months ended June 30, 2008:

	Value	Range
Auction market preferred shares, Series M7, (\$25,000 liquidation value, \$0.001 par value, 3,400 shares issued and outstanding)	\$ 85,000,000	4.70%-6.35%
Auction market preferred shares, Series T7, (\$25,000 liquidation value, \$0.001 par value, 3,400 shares issued and outstanding)	\$ 85,000,000	4.70%-6.40%
Auction market preferred shares, Series T7-2, (\$25,000 liquidation value, \$0.001 par value, 3,400 shares issued and outstanding)	\$ 85,000,000	4.50%-6.50%
Auction market preferred shares, Series T28, (\$25,000 liquidation value, \$0.001 par value, 2,680 shares issued and outstanding)	\$ 67,000,000	5.10%-6.35%
Auction market preferred shares, Series W7, (\$25,000 liquidation value, \$0.001 par value, 3,400 shares issued and outstanding)	\$ 85,000,000	4.75%-6.35%
Auction market preferred shares, Series TH7, (\$25,000 liquidation value, \$0.001 par value, 3,000 shares issued and outstanding)	\$ 75,000,000	5.00%-6.75%
Auction market preferred shares, Series TH28, (\$25,000 liquidation value, \$0.001 par value, 3,400 shares issued and outstanding)	\$ 85,000,000	4.70%-6.50%
Auction market preferred shares, Series F7, (\$25,000 liquidation value, \$0.001 par value, 3,400 shares issued and outstanding)	\$ 85,000,000	4.75%-6.30%
	\$ 652,000,000	

The Articles Supplementary (the "Articles") creating each series of Auction Market Preferred Shares ("AMPS") provide for dividends to be paid at either the rate set in the current auction, or at the maximum rate as defined in the Articles if sufficient clearing bids for the AMPS are not received in the current auction. Beginning on February 13, 2008, sufficient clearing bids were not received for a number of auctions for certain AMPS series of

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

the fund, and therefore, the maximum rates were declared on the respective AMPS series. Based upon the current ratings of the AMPS, the maximum rate for shares of a series will be the greater of 125% of LIBOR or 125 basis points plus LIBOR.

An existing owner of AMPS may sell, transfer or dispose of AMPS only in an auction, pursuant to a bid or sell order in accordance with the auction procedures, or outside an auction, to or through a broker-dealer. Existing holders will be able to sell all of the AMPS that are the subject of their submitted sell orders only if there are bidders willing to purchase those AMPS in the auction. An auction fails when there are an insufficient number of bidders. A failed auction is not a default. Dividends continue to be paid on the preferred shares at the maximum rate rather than an auction rate. Broker-dealers, which have been appointed by the fund to serve as dealers for the auctions, may submit a bid in an auction to avoid an auction failure, but are not obligated to do so.

The AMPS continue to be rated Aaa by Moody's Investor Services and AAA by Standard & Poor's. In addition, the fund continues to meet certain specified asset coverage tests required by the rating agencies as well as the 200% asset coverage test with respect to AMPS set forth under the Investment Company Act of 1940, as amended.

Note 6. Other

In the normal course of business, the fund enters into contracts that provide general indemnifications. The fund's maximum exposure under these arrangements is dependent on claims that may be made against the fund in the future and, therefore, cannot be estimated; however, based on experience, the risk of material loss from such claims is considered remote.

Note 7. New Accounting Pronouncement

In March 2008, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities ("FAS 161"), an amendment of FASB Statement No. 133. FAS 161 requires enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for, and (c) how derivative instruments and related hedged items affect the fund's financial position, financial performance, and cash flows. Management is currently evaluating the impact the adoption of this pronouncement will have on the fund's financial statements. FAS 161 is effective for fiscal years beginning after November 15, 2008.

COHEN & STEERS SELECT UTILITY FUND, INC.

PROXY RESULTS (Unaudited)

During the six months ended June 30, 2008, Cohen & Steers Select Utility Fund, Inc. shareholders voted on the following proposals at the annual meeting held on April 1, 2008. The description of each proposal and number of shares voted are as follows:

Proposal 1 Election of Directors

The shareholders voted to elect three Directors to serve until the Annual Meeting of Stockholders in 2011. Of these three Director positions, one Director position was voted for by preferred stock shareholders voting as a single class for the preferred stock. The remaining two Director positions were filled by the two Director nominees for the common stock who received the most votes of the holders of the Fund's Common Shares, voting together with the holders of the Fund's Auction Market Preferred Shares. The Board of Directors nominated Bonnie Cohen and Richard E. Kroon as Director nominees for the common stock. The Board of Directors also nominated Willard H. Smith Jr. as a Director nominee for the preferred stock. A shareholder of record nominated Arthur D. Lipson and William J. Roberts as Director nominees for the common stock.

As shown below, Bonnie Cohen and Richard E. Kroon, having received the most votes of the owners of the common shares and the preferred shares, voting as a single class, were elected as Directors to serve for a term expiring on the date on which the annual meeting of shareholders is held in 2011.

Nominee	Affirmative	Withheld
Bonnie Cohen*	12,520,714	321,156
Richard E. Kroon*	12,541,319	300,551
Arthur D. Lipson*	9,376,890	173,189
William J. Roberts*	9,373,128	176,951
Willard H. Smith**	0	0

* Designated as Directors to be elected by holders of common and preferred shares, voting together as a single class.

** Designated as a Director to be elected by holders of preferred shares voting separately.

The election of the Director designated to be elected by the holders of the Fund's preferred shares was adjourned, due to a lack of a quorum. In light of the limited prospects of obtaining quorum, and the costs associated with the continued solicitation of proxies from holders of preferred shares, it was determined that the annual meeting would be adjourned indefinitely as to the proposal. Accordingly, and pursuant to Maryland law, Willard H. Smith Jr. will continue to serve as a Director until the next annual meeting of shareholders and until his successor is elected and qualifies.

COHEN & STEERS SELECT UTILITY FUND, INC.

PROXY RESULTS (Unaudited) (Continued)

Proposal 2 Self-tender Offer

A shareholder of record submitted the following proposal at the meeting:

If the Fund's shares trade at an average discount of more than 7.5% during any calendar quarter the Fund shall commence a self-tender offer within twenty days of the end of such quarter for 15% of its shares at 98% of net asset value.

The fund's shareholders did not approve Proposal 2, as shown below:

For	Against	Abstain
7,317,661	13,030,298	2,043,985

AVERAGE ANNUAL TOTAL RETURNS

(periods ended June 30, 2008) (Unaudited)

Based on Net Asset Value		Based on Market Value	
	Since Inception		Since Inception
One Year	(3/30/04)	One Year	(3/30/04)
1.23%	16.58%	5.88%	12.87%

The performance data quoted represent past performance. Past performance is no guarantee of future results. The investment return will vary and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance results reflect the effect of leverage resulting from the issuance of preferred shares.

REINVESTMENT PLAN

On March 18, 2008, the Board of Directors of the Corporation approved changes to the Corporation's dividend reinvestment plan (the "Plan"). The revised Plan is set forth below.

The fund has a dividend reinvestment plan commonly referred to as an "opt-out" plan. Each common shareholder who participates in the Plan will have all distributions of dividends and capital gains ("Dividends") automatically reinvested in additional common shares by The Bank of New York Mellon as agent (the "Plan Agent"). Shareholders who elect not to participate in the Plan will receive all Dividends in cash paid by check mailed directly to the shareholder of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend disbursing agent. Shareholders whose common shares are held in the name of a broker or nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

The Plan Agent serves as agent for the shareholders in administering the Plan. After the fund declares a Dividend, the Plan Agent will, as agent for the shareholders, either: (i) receive the cash payment and use it to buy

COHEN & STEERS SELECT UTILITY FUND, INC.

common shares in the open market, on the NYSE or elsewhere, for the participants' accounts or (ii) distribute newly issued common shares of the Fund on behalf of the participants.

The Plan Agent will receive cash from the fund with which to buy common shares in the open market if, on the Dividend payment date, the net asset value ("NAV") per share exceeds the market price per share plus estimated brokerage commissions on that date. The Plan Agent will receive the Dividend in newly issued common shares of the fund if, on the Dividend payment date, the market price per share plus estimated brokerage commissions equals or exceeds the NAV per share of the fund on that date. The number of shares to be issued will be computed at a per share rate equal to the greater of (i) the NAV or (ii) 95% of the closing market price per share on the payment date.

If the market price per share is less than the NAV on a Dividend payment date, the Plan Agent will have until the last business day before the next ex-dividend date for the common stock, but in no event more than 30 days after the Dividend payment date (as the case may be, the "Purchase Period"), to invest the Dividend amount in shares acquired in open market purchases. If at the close of business on any day during the Purchase Period on which NAV is calculated the NAV equals or is less than the market price per share plus estimated brokerage commissions, the Plan Agent will cease making open market purchases and the uninvested portion of such Dividends shall be filled through the issuance of new shares of common stock from the Fund at the price set forth in the immediately preceding paragraph.

Participants in the Plan may withdraw from the plan upon notice to the Plan Agent. Such withdrawal will be effective immediately if received not less than ten days prior to a Dividend record date; otherwise, it will be effective for all subsequent Dividends. When a participant withdraws from the Plan or upon termination of the Plan as provided below, certificates for whole common shares credited to his or her account under the Plan will be issued and a cash payment will be made for any fraction of a common share credited to such account. If any participant elects to have the Plan Agent sell all or part of his or her shares and remit the proceeds, the Plan Agent is authorized to deduct a \$15.00 fee plus \$0.10 per share brokerage commissions.

The Plan Agent's fees for the handling of reinvestment of Dividends will be paid by the fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of Dividends. The automatic reinvestment of Dividends will not relieve participants of any income tax that may be payable or required to be withheld on such Dividends.

The fund reserves the right to amend or terminate the Plan. All correspondence concerning the Plan should be directed to the Plan Agent at 800-432-8224.

OTHER INFORMATION

A description of the policies and procedures that the fund uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling 800-330-7348, (ii) on our Web site at cohenandsteers.com or (iii) on the Securities and Exchange Commission's Web site at <http://www.sec.gov>. COHEN & STEERS SELECT UTILITY FUND, INC.

In addition, the fund's proxy voting record for the most recent 12-month period ended June 30 is available (i) without charge, upon request, by calling 800-330-7348 or (ii) on the SEC's Web site at <http://www.sec.gov>.

The fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The fund's Forms N-Q are available (i) without charge, upon request by calling 800-330-7348, or (ii) on the SEC's Web site at <http://www.sec.gov>. In addition, the Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330.

Please note that the distributions paid by the fund to shareholders are subject to recharacterization for tax purposes. The fund may also pay distributions in excess of the fund's net investment company taxable income and this excess would be a tax-free return of capital distributed from the fund's assets. To the extent this occurs, the fund's shareholders of record will be notified of the estimated amount of capital returned to shareholders for each such distribution and this information will also be available at cohenandsteers.com and should not be relied upon or used for tax planning or tax reporting purposes. The final tax treatment of all distributions is reported to shareholders on their 1099-DIV forms, which are mailed after the close of each calendar year. Distributions of capital decrease the fund's total assets and, therefore, could have the effect of increasing the fund's expense ratio. In addition, in order to make these distributions, the fund may have to sell portfolio securities at a less than opportune time.

On June 12, 2008, the Board of Directors of the fund approved the delegation of its authority to management to effect repurchases, pursuant to management's discretion and subject to market conditions and investment considerations, of up to 10% of the fund's total assets through the current fiscal year ending December 31, 2008. During the period of this report, the fund did not effect any repurchases. Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the fund may purchase, from time to time, shares of its common stock in the open market.

On June 18, 2008, the Board of Directors of the fund approved changes to the fund's policies and procedures with respect to the disclosure of the fund's portfolio securities permitting the fund to post an uncertified list of portfolio holdings on the Web site at <http://www.cohenandsteers.com>, no earlier than 15 days after the end of each calendar quarter. The holdings information remains available until the fund files a report on Form N-Q or Form NCSR for the period that includes the date as of which the information is current. In addition to information on portfolio holdings, other fund statistical information may be found on the Cohen & Steers Funds' Web site or by calling 800-330-7348.

On March 18, 2008, the Board of Directors of the fund approved the expansion of the options strategy to permit the fund to write options on custom baskets of securities and customized indexes and to remove any requirement that a fund must hold an exchange-traded fund ("ETF") as a portfolio security in order to write an option on an ETF.

COHEN & STEERS SELECT UTILITY FUND, INC.

The fund may write covered call options on securities (including securities of ETFs), stock indices or custom baskets of securities that are traded on U.S. or foreign exchanges or over-the-counter (OTC). An option on a security is a contract that gives the purchaser of the option, in return for the premium paid, the right to buy a specified security (in the case of a call option) from the writer of the option at a designated price during the term of the option. An option on a securities index or basket of securities gives the purchaser of the option, in return for the premium paid, the right to receive from the seller cash equal to the difference between the closing price of the index or basket of securities and the exercise price of the option.

The fund may write a call option on a security (other than securities of ETFs) only if the option is "covered." A call option on a security written by the fund is covered if the fund owns the underlying security covered by the call. The fund will cover call options on ETFs, stock indices or custom baskets by owning securities whose price changes, in the opinion of the Advisor, are expected to be similar to those of the ETF, index or basket, or in such other manner as may be in accordance with the rules of any exchange on which the option is traded and other applicable laws and regulations. Nevertheless, where the fund covers a call option on an ETF, stock index or custom basket through ownership of securities, such securities may not match the composition of the ETF, index or basket. In that event, the fund will not be fully covered and could be subject to risk of loss in the event of adverse changes in the value of the ETF, index or basket.

The value of the underlying securities, ETFs, indices and baskets on which options may be written at any one time will not exceed 25% of the total managed assets of the fund.

The fund will receive a premium for writing a call option, which will increase the fund's realized gains in the event the option expires unexercised or is closed out at a profit. If the value of a security, ETF, index or basket on which the fund has written a call option falls or remains the same, the fund will realize a profit in the form of the premium received (less transaction costs) that could offset all or a portion of any decline in the value of the portfolio securities being hedged. A rise in the value of the underlying security, ETF, index or basket, however, exposes the fund to possible loss or loss of opportunity to realize appreciation in the value of the underlying security, ETF, index or basket.

There can be no assurance that a liquid market will exist when the fund seeks to close out an option position. Trading could be interrupted, for example, because of supply and demand imbalances arising from a lack of either buyers or sellers, or the options exchange could suspend trading after the price has risen or fallen more than the maximum specified by the exchange. In addition, when the fund enters into OTC options (including options on custom baskets of securities), these options are not traded on or governed by the rules of any exchange, and the fund's ability to close out an OTC option is subject to the terms of the option contract and the creditworthiness of the option counterparty. Although the fund may be able to offset to some extent any adverse effects of being unable to liquidate an option position, the fund may experience losses in some cases as a result of such inability.

COHEN & STEERS SELECT UTILITY FUND, INC.

Meet the Cohen & Steers family of open-end funds:

**COHEN & STEERS
REALTY SHARES**

Designed for investors seeking total return, investing primarily in REITs
