Nokia press release dated September 1, 2010: Nokia completes acquisition of Motally, Inc.

Nokia press release dated September 15, 2010: Nokia and Intuit form global alliance to create mobile marketing services for small businesses

PRESS RELEASE

September 1, 2010

Nokia completes acquisition of Motally, Inc.

Espoo, Finland - Nokia today announced that it has completed the acquisition of Motally, Inc., initially announced on August 20, 2010.

Motally's mobile analytics service enables developers and publishers to optimize the development of their mobile applications through increased understanding of how users engage. The service offering is planned to be adapted for Qt, Symbian, MeeGo and Java developers.

About Nokia

At Nokia, we are committed to connecting people. We combine advanced technology with personalized services that enable people to stay close to what matters to them. Every day, more than 1.2 billion people connect to one another with a Nokia device – from mobile phones to advanced smartphones and high-performance mobile computers. Today, Nokia is integrating its devices with innovative services through Ovi (www.ovi.com), including music, maps, apps, email and more. Nokia's NAVTEQ is a leader in comprehensive digital mapping and navigation services, while Nokia Siemens Networks provides equipment, services and solutions for communications networks globally.

About Motally

Motally Inc. was founded in 2008 in San Francisco and has patent-pending technology to ensure accurate data collection and analytic reporting for publishers' mobile sites.

FORWARD-LOOKING STATEMENTS

It should be noted that certain statements herein which are not historical facts are forward-looking statements, including, without limitation, those regarding: A) the timing of the deliveries of our products and services and their combinations; B) our ability to develop, implement and commercialize new technologies, products and services and their combinations; C) expectations regarding market developments and structural changes; D) expectations and targets regarding our industry volumes, market share, prices, net sales and margins of products and services and their combinations; E) expectations and targets regarding our operational priorities and results of operations; F) the outcome of pending and threatened litigation; G) expectations regarding the successful completion of acquisitions or restructurings on a timely basis and our ability to achieve the financial and operational targets set in connection with any such acquisition or restructuring; and H) statements preceded by believe, expect, anticipate, foresee, target, estimate, designed, plans, will or similar expressions. These statements are based on best assumptions and beliefs in light of the information currently available to it. Because they involve risks and uncertainties, actual results may differ materially from the results that we currently expect. Factors that could cause these differences include, but are not limited to: 1) the competitiveness and quality of our portfolio of products and services and their combinations; 2) our ability to timely and successfully develop or otherwise acquire the appropriate technologies and commercialize them as new advanced products and services and their combinations, including our ability to attract application developers and content providers to develop applications and provide content for use in our devices; 3) our ability to effectively, timely and profitably adapt our business and operations to the requirements of the converged mobile device market and the services market; 4) the intensity of competition in the various markets where we do business and our ability to maintain or improve our market position or respond successfully to changes in the competitive environment; 5) the occurrence of any actual or even alleged defects or other quality, safety or security issues in our products and services and their combinations; 6) the development of the mobile and fixed communications industry and general economic conditions globally and regionally; 7) our ability to successfully manage costs; 8) exchange rate fluctuations, including, in particular, fluctuations between the euro, which is our reporting currency, and the US dollar, the Japanese yen and the Chinese yuan, as well as certain other currencies; 9) the success, financial condition and performance of our suppliers, collaboration partners and customers; 10) our ability to source sufficient amounts of fully functional components, sub-assemblies, software, applications and

content

without interruption and at acceptable prices and quality; 11) our success in collaboration arrangements with third parties relating to the development of new technologies, products and services, including applications and content; 12) our ability to manage efficiently our manufacturing and logistics, as well as to ensure the quality, safety, security and timely delivery of our products and services and their combinations; 13) our ability to manage our inventory and timely adapt our supply to meet changing demands for our products; 14) our ability to protect the complex technologies, which we or others develop or that we license, from claims that we have infringed third parties' intellectual property rights, as well as our unrestricted use on commercially acceptable terms of certain technologies in our products and services and their combinations; 15) our ability to protect numerous Nokia, NAVTEQ and Nokia Siemens Networks patented, standardized or proprietary technologies from third-party infringement or actions to invalidate the intellectual property rights of these technologies; 16) the impact of changes in government policies, trade policies, laws or regulations and economic or political turmoil in countries where our assets are located and we do business; 17) any disruption to information technology systems and networks that our operations rely on; 18) our ability to retain, motivate, develop and recruit appropriately skilled employees; 19) unfavorable outcome of litigations; 20) allegations of possible health risks from electromagnetic fields generated by base stations and mobile devices and lawsuits related to them, regardless of merit; 21) our ability to achieve targeted costs reductions and increase profitability in Nokia Siemens Networks and to effectively and timely execute related restructuring measures; 22) developments under large, multi-year contracts or in relation to major customers in the networks infrastructure and related services business; 23) the management of our customer financing exposure, particularly in the networks infrastructure and related services business; 24) whether ongoing or any additional governmental investigations into alleged violations of law by some former employees of Siemens AG (Siemens) may involve and affect the carrier-related assets and employees transferred by Siemens to Nokia Siemens Networks; 25) any impairment of Nokia Siemens Networks customer relationships resulting from ongoing or any additional governmental investigations involving the Siemens carrier-related operations transferred to Nokia Siemens Networks; as well as the risk factors specified on pages 11-32 of Nokia's annual report Form 20-F for the year ended December 31, 2009 under Item 3D. Risk Factors. Other unknown or unpredictable factors or underlying assumptions subsequently proving to be incorrect could cause actual results to differ materially from those in the forward-looking statements. Nokia does not undertake any obligation to publicly update or revise forward-looking statements, whether as a result of new information, future events or otherwise, except to the extent legally required.

PRESS RELEASE

September 15, 2010

Nokia and Intuit form global alliance to create mobile marketing services for small businesses

LONDON, UK Today, Intuit (Nasdaq: INTU) and Nokia announced an alliance to develop and deliver an innovative new mobile and web based marketing service for small businesses around the world.

Addressing one of the leading concerns for the world's estimated 500 million small businesses, the new service will be designed to help them get more business through personalized, relevant offers and marketing messages, in a way unmatched by traditional methods.

The first market launch of the service is expected in the fourth quarter of 2010, further details will be made available at that time.

Small businesses need every advantage to stay ahead of the pack in today's competitive environment, said Alex Lintner, President, Intuit Global Business Division. We plan to offer them a way to strengthen customer relationships, through targeted communications that increase sales by delivering more customer visits. We're applying the same proven formula we've used with QuickBooks to help small businesses succeed by better serving their customers. We are thrilled to partner with Nokia to bring our respective areas of expertise to bear in developing this revolutionary service.

This is a significant step which we expect will create future growth opportunities, said Robert Andersson, Senior Vice President & Head of Corporate Alliances and Business Development at Nokia. Working with Intuit, we are developing a breakthrough service to help small businesses deepen relationships with their customers, leveraging our expertise in mobile and location based services. We believe this will benefit consumers too, by helping them find their favorite products and services in the right place, at the right time and at the best price.

With hundreds of millions of its devices sold each year and more than 1.3 billion Nokia mobile devices in use around the world, Nokia is the world's largest mobile device manufacturer as well as a leader in digital mapping and navigation services, covering more than 70 countries in over 45 languages.

Currently serving millions of small businesses around the world, Intuit brings unique understanding of small businesses, a proven focus on innovation and a history of developing market-leading solutions to help small businesses improve their bottom line with offerings such as QuickBooks and Intuit Websites.

Small businesses have a strong appetite for tools that can help them reach their customers and attract new ones, said Timothy Doherty, Research Analyst for SMB mobility at IDC. There is a real opportunity for cost effective solutions that allow small businesses to proactively target the mobile customer with highly contextual offerings based on location and past purchase behavior.
