CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Consolidated Financial Information

The unaudited consolidated financial information for the third quarter and nine months ended September 30, 2010 and 2009, reflect, in the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows of Ecolab Inc. (the company) for the interim periods presented. The financial results for any interim period are not necessarily indicative of results for the full year. The consolidated balance sheet data as of December 31, 2009 was derived from the audited consolidated financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The unaudited consolidated financial information should be read in conjunction with the consolidated financial statements and notes thereto incorporated in the company's Annual Report on Form 10-K for the year ended December 31, 2009.

With respect to the unaudited financial information of the company for the third quarter and nine months ended September 30, 2010 and 2009, included in this Form 10-Q, PricewaterhouseCoopers LLP reported that they have applied limited procedures in accordance with professional standards for a review of such information. Therefore, their separate report dated November 4, 2010 appearing herein, states that they did not audit and they do not express an opinion on that unaudited financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. PricewaterhouseCoopers LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended (the Act), for their report on the unaudited financial information because that report is not a report or a part of a registration statement prepared or certified by PricewaterhouseCoopers LLP within the meaning of Sections 7 and 11 of the Act.

2. Special Gains and Charges

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2. Special Gains and Charges (Continued)

In the third quarter of 2010, the company sold an investment in a small U.S. business and recognized a gain on the sale. The investment was not material to the company's consolidated results of operations or financial position.

Beginning in 2010, Venezuela has been designated hyper-inflationary and as such all foreign currency fluctuations are now recorded in income. On January 8, 2010 the Venezuelan government devalued its currency, the Bolivar Fuerte. As a result of the devaluation, the company recorded a charge in the first quarter of 2010 as shown in the table above due to the remeasurement of the local balance sheet using the official rate of exchange for the Bolivar Fuerte.

As previously disclosed, in 2009, the company completed restructuring and other cost-saving actions in order to streamline operations and improve efficiency and effectiveness. The restructuring plan was finalized and all actions, except for certain cash payments, were completed as of December 31, 2009.

Changes to the restructuring liability accounts during 2010 and 2009 include the following:

(millions)	Employee Termination Costs	Disposals	Other	Total

ECOLAB INC.

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2. Special Gains and Charges (Continued)

Restructuring charges have been included as a component of both cost of sales and special gains and charges on the Consolidated Statement of Income. Amounts included as a component of cost of sales include asset write-downs and manufacturing related severance. Restructuring liabilities have been classified as a component of other current liabilities on the Consolidated Balance Sheet.

Employee termination costs include personnel reductions and related costs for severance, benefits and outplacement services. Asset disposals include inventory and intangible asset write-downs related to the discontinuance of product lines which are not consistent with the company's long-term strategies. Other charges include one-time curtailment and settlement charges related to the company's International pension plans and U.S. postretirement health care benefits plan, and lease terminations.

For segment reporting purposes, special gains and charges are included in the Corporate segment, which is consistent with the company's internal management reporting.

5. Financial Instruments and Hedging TransactionsFair Value of Financial Instruments

The company's financial instruments include cash and cash equivalents, accounts receivable, accounts payable, commercial paper, notes payable, foreign currency forward contracts and long-term debt. The carrying values of cash and cash equivalents, accounts receivable, accounts payable, commercial paper and notes payable approximate fair value because of their short maturities. The carrying values of foreign currency forward contracts is at fair value, which is determined based on foreign currency exchange rates as of the balance sheet date (level 2 - significant other observable inputs).

The carrying amount and the estimated fair value of long-term debt, including current maturities, held by the company were:

(millions)	September 30, 2010		December 31, 2009	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-term debt (including current maturities)	\$ 803.7	\$ 866.7	\$ 876.7	\$ 908.7

The fair value of long-term debt is based on quoted market prices for the same or similar debt instruments. The company has concluded that it does not have any financial instruments measured using the company's own assumptions of fair market value (level 3 - unobservable inputs).

Derivative Instruments and Hedging

The company uses foreign currency forward contracts, interest rate swaps and foreign currency debt to manage risks associated with foreign currency exchange rates, interest rates and net investments in foreign operations. The company records all derivatives as assets and liabilities on the balance sheet at fair value. Changes in fair value are recognized immediately in earnings unless the derivative qualifies and is designated as a hedge. The effective portion of changes in fair value of hedges are initially recognized in accumulated other comprehensive income (AOCI) on the Consolidated Balance Sheet. Amounts recorded in AOCI are reclassified into earnings in the same period or periods during which the hedged transactions affect earnings. The company evaluates hedge effectiveness at inception and on an ongoing basis. If a derivative is no longer expected to be effective, hedge accounting is discontinued. Hedge ineffectiveness, if any, is recorded in earnings.

The company does not hold derivative financial instruments of a speculative nature. The company is exposed to credit loss in the event of nonperformance of counterparties for foreign currency forward exchange contracts and interest rate swap agreements. The company monitors its

Edgar Filing: ECOLAB INC - Form 10-Q

exposure to credit risk by using credit approvals and credit limits and by selecting major international banks and financial institutions as counterparties. The company does not anticipate nonperformance by any of these counterparties.

ECOLAB INC.

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

5. Financial Instruments and Hedging Transactions (Continued)Derivatives Designated as Cash Flow Hedges

The company utilizes foreign currency forward contracts to hedge the effect of foreign currency exchange rate fluctuations on forecasted foreign currency transactions, including: sales, inventory purchases, and intercompany royalty and management fee payments. These forward contracts are designated as cash flow hedges. The effective portions of the changes in fair value of these contracts are recorded in AOCI until the hedged items affect earnings, at which time the gain or loss is reclassified into the same line item in the Consolidated Statement of Income as the underlying exposure being hedged. All hedged transactions are forecasted to occur within the next twelve months.

The company occasionally enters into interest rate swap contracts to manage interest rate exposures. In 2006 the company entered into and subsequently closed two forward starting swap contracts related to the issuance of its senior euro notes. The settlement payment was recorded in AOCI and is recognized in earnings as part of interest expense over the remaining life of the notes as the forecasted interest transactions occur.

Derivatives Not Designated as Hedging Instruments

The company also uses foreign currency forward contracts to offset its exposure to the change in value of certain foreign currency denominated assets and liabilities, primarily receivables and payables. Although the contracts are effective economic hedges, they are not designated as accounting hedges. Therefore, changes in the value of these derivatives are recognized immediately in earnings, thereby offsetting the current earnings effect of the related foreign currency denominated assets and liabilities.

The following table summarizes the fair value of the company's outstanding derivatives. The amounts are included in other current assets and other current liabilities on the balance sheet.

(millions)	Asset Derivatives		Liability Derivatives

5. Financial Instruments and Hedging Transactions (Continued)Net Investment Hedge

The company designates its euro 300 million (\$380 million as of September 30, 2010) senior notes and related accrued interest as a hedge of existing foreign currency exposures related to net investments the company has in certain Euro functional subsidiaries. Accordingly, the transaction gains and losses on the euronotes which are designated and effective as hedges of the company's net investments have been included as a component of the cumulative translation adjustment account. Total transaction gains and losses related to the euronotes charged to shareholders' equity were as follows:

7. Business Acquisitions and Dispositions

In September 2010, the company acquired the commercial laundry division of Dober Chemical Corp. The acquisition strengthens the company's U.S. and Canada Textile Care business by adding customer relationships and business scale. The business, which had annual sales in 2009 of approximately \$37 million, became part of the company's U.S. Cleaning & Sanitizing segment during the third quarter of 2010.

During the third quarter of 2010, the company sold an investment in a small U.S. business and recognized a gain of \$5.9 million. The investment was not material to the company's consolidated results of operations or financial position.

During the second quarter of 2010, the company made an earnout payment related to a previous acquisition and sold a small joint venture in the international segment. The impact of this divestiture was not material.

In February 2009, the company acquired assets of the Stackhouse business of CORPAK Medsystems, Inc. Stackhouse is a leading developer, manufacturer and marketer of surgical helmets and smoke evacuators, primarily for use during orthopedic surgeries. The business, which has annual sales of approximately \$4 million, became part of the company's U.S. Cleaning & Sanitizing operations during the first quarter of 2009.

There were no material business disposals during the first nine months of 2009.

Acquisitions in 2010 and 2009 are not material to the company's consolidated financial statements; therefore pro forma financial information is not presented. The aggregate purchase price of acquisitions has been reduced for any cash or cash equivalents acquired with the acquisitions.

Based upon purchase price allocations, the components of the aggregate purchase prices of acquisitions and investments in affiliates made are shown in the table below. Third quarter 2010 allocations are preliminary pending finalization of intangible asset valuations.

9. Pension and Postretirement Plans

The company is not required to make any contributions to its U.S. pension plan and postretirement health care benefits plan for 2010.

Certain international pension benefit plans are required to be funded in accordance with local government requirements. The company contributed \$19 million to its international pension benefit plans during the first nine months of 2010. The company currently estimates that it will contribute approximately \$7 million more to the international pension benefit plans during the remainder of 2010.

The components of net periodic pension and postretirement health care benefit costs for the third quarter ended September 30 are as follows:

11. Goodwill and Other Intangible Assets

The company tests goodwill for impairment on an annual basis during the second quarter. If circumstances change significantly, the company would also test a reporting unit for impairment during interim periods between its annual tests. During the second quarter ended June 30, 2010, the company completed its annual test for goodwill impairment. The company determined GCS Service required an updated fair value calculation due to soft sales and continued operating losses. The company uses both a discounted cash flow analysis and market valuations, including similar company market multiples and comparable transactions, to assess fair value. The estimated fair value of the GCS business is based on a probability weighted-average of these various measures. Based on this analysis, it was determined that the fair value of the GCS Service reporting unit would have to decline by approximately 30% to indicate the potential for an impairment of their goodwill. Therefore, the company believes that the estimated fair value of the GCS Service reporting unit substantially exceeds its carrying value and no adjustment to the \$43 million carrying value of goodwill is necessary. The key assumptions utilized in determining fair value are revenue growth rates, operating margins and factors that impact the company's weighted-average cost of capital, including interest rates. Of these factors, the fair value estimate is most sensitive to changes in revenue growth rates which could be adversely impacted by continued difficult economic conditions, uncertainty in the U.S. foodservice markets and the timing of adding new customers. GCS Service is included in the company's U.S. Other Services reportable segment.

The changes in the carrying amount of goodwill for each of the company's reportable segments during the nine months ended September 30, 2010 were as follows:

(millions)	Cleaning & Sanitizing	United States Other Services	Total	Intl	Total
Beginning goodwill as of December 31, 2009	\$ 446.8	\$ 50.5	\$ 497.3	\$ 916.8	\$ 1,414.1
Business acquisitions	13.9		13.9	0.7	14.6
Business disposals				(2.5)	(2.5)

Ending goodwill as of as of September 30, 2010	\$ 460.7	\$ 50.5	\$ 511.2	\$ 802.6	\$ 1,313.8

There has been no impairment of goodwill since adoption of FASB guidance for goodwill and other intangibles on January 1, 2002.

11. Goodwill and Other Intangible Assets (Continued)

The company's other intangible assets primarily include customer relationships, trademarks, patents and other technology. Other intangible assets are amortized on a straight-line basis over their estimated economic lives. Total amortization expense related to other intangible assets during the third quarter ended September 30, 2010 and 2009 was \$10.2 million and \$10.3 million, respectively. Total amortization expense related to other intangible assets during the first nine months ended September 30, 2010 and 2009 was \$30.4 million and \$31.9 million, respectively. As of September 30, 2010, future estimated amortization expense related to amortizable other identifiable intangible assets will be:

(millions)

2010 (Remainder: three-month period)	\$	11
2011		42
2012		41
2013		38
2014		28

12. New Accounting Pronouncements

There were no new accounting pronouncements that were issued or became effective that have had or are expected to have a material impact on the company's consolidated financial statements.

13. Commitments and Contingencies

The company and certain subsidiaries are party to various lawsuits, claims and environmental actions that have arisen in the ordinary course of business. These include antitrust, patent infringement, product liability and wage hour lawsuits, as well as possible obligations to investigate and mitigate the effects on the environment of the disposal or release of certain chemical substances at various sites, such as Superfund sites and other operating or closed facilities. Because litigation is inherently uncertain, and unfavorable rulings or developments could occur, there can be no certainty that the company may not ultimately incur charges in excess of presently recorded liabilities. A future adverse ruling, settlement or unfavorable development could result in future charges that could have a material adverse effect on the company's results of operations or cash flows in the period in which they are recorded. The company currently believes that such future charge, if any, would not have a material adverse effect on the company's consolidated financial position.

The company records liabilities where a contingent loss is probable and can be reasonably estimated. If the reasonable estimate of a probable loss is a range, the company records the most probable estimate of the loss or the minimum amount when no amount within the range is a better estimate than any other amount. The company discloses a contingent liability even if the liability is not probable or the amount is not estimable, or both, if there is a reasonable possibility that a material loss may have been incurred.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Directors

Ecolab Inc.

We have reviewed the accompanying consolidated balance sheet of Ecolab Inc. and its subsidiaries as of September 30, 2010 and the related consolidated statements of income for each of the three and nine-month periods ended September 30, 2010 and 2009 and the consolidated statement of cash flows for the nine-month periods ended September 30, 2010 and 2009. These interim financial statements are the responsibility of Ecolab's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2009, and the related consolidated statements of income, of comprehensive income and changes in shareholders' equity, and of cash flows for the year then ended (not presented herein), and in our report dated February 26, 2010, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet information as of December 31, 2009, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis provides information that we believe is useful in understanding our operating results, cash flows and financial condition. The discussion should be read in conjunction with both the unaudited consolidated financial information and related notes included in this Form 10-Q, and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2009. This discussion contains various Non-GAAP Financial Measures and also contains various Forward-Looking Statements within the meaning of the Private Securities Litigation Reform Act of 1995. We refer readers to the statements entitled Non-GAAP Financial Measures and Forward-Looking Statements located at the end of Part I of this report.

Overview of the Third Quarter Ended September 30, 2010

We continued to deliver solid earnings growth in the third quarter despite mixed conditions in our end markets. Sales increased, led by U.S. Kay, Asia Pacific and Latin America and our margins improved on increased volume and cost reduction actions.

Both 2010 and 2009 results of operations included special gains and charges, as well as discrete tax items which impact the year over year comparisons.

Sales Performance

- Consolidated net sales increased 1% to \$1.6 billion. Net sales were negatively impacted by foreign currency exchange during the quarter. When measured in fixed rates of currency exchange, sales grew 3%.
- U.S. Cleaning & Sanitizing sales grew 4% to \$719 million. Results were led by 8% sales growth for Kay, 4% growth for Food & Beverage, 3% growth for Institutional and 1% growth for Healthcare.
- U.S. Other Services sales were comparable to the prior year at \$118 million. GCS sales grew 1% while Pest Elimination sales were comparable to the prior year.
- International sales, when measured in fixed rates of currency exchange, increased 3% to \$775 million in the third quarter. Asia Pacific reported 8% sales growth for the quarter while Latin America and Canada reported sales growth of 7% and 5%, respectively. Europe/Middle East/Africa (EMEA) sales were comparable to the prior year's third quarter. When measured at public currency rates, International sales decreased 1%.

Financial Performance

- Operating income increased 10% to \$245 million. Excluding the impact of special gains and charges from both years, adjusted operating income increased 4% compared to the third quarter of 2009.
- Net income attributable to Ecolab increased 20% to \$174 million. Excluding the impact of special gains and charges, and discrete tax items, adjusted net income attributable to Ecolab increased 8%.
- Reported diluted earnings per share attributable to Ecolab increased 23% to \$0.74 for the third quarter of 2010 compared to \$0.60 in the third quarter of 2009. Excluding the impact of special gains and charges, and discrete tax items, adjusted diluted earnings per share attributable to Ecolab increased 8% to \$0.66 for the third quarter of 2010 compared to \$0.61 in the third quarter of 2009.

Financial Performance (Continued)

- Our reported effective income tax rate was 24.3% for the third quarter of 2010 compared to 30.2% for the third quarter of 2009. Excluding the tax rate impact of special gains and charges, and discrete tax items, our adjusted effective income tax rate was 30.3% and 32.0% for the third quarter of 2010 and 2009, respectively.

Reconciliations of reported and adjusted amounts are provided on pages 27 - 29 of this report.

Results of Operations - Third Quarter and Nine Months Ended September 30, 2010

Net Sales

Consolidated net sales for the third quarter ended September 30, 2010 were \$1.6 billion, an increase of 1% compared to last year. For the first nine months of 2010, net sales increased 4% to \$4.5 billion. When measured in fixed rates of currency exchange, sales increased 3% for both the third quarter and first nine months of 2010. The components of the sales increase are shown below.

(percent)	Third Quarter Ended September 30, 2010	Nine Months Ended September 30, 2010
Volume	3%	2%
Price changes		1
Foreign currency exchange	(2)	1
Acquisitions & divestitures		
Total sales increase	1%	4%

Gross Profit Margin

The gross profit margin (gross margin)(defined as the difference between net sales less cost of sales divided by net sales) was 51.1% and 50.6% for the third quarter of 2010 and 2009, respectively. The gross margin increase was driven by volume and cost savings actions. Our gross margin for the first nine months of 2010 and 2009 was 50.6% and 49.3%, respectively. Our gross margin increase for first nine months of 2010 was driven by volume and pricing gains, favorable delivered product costs and cost savings actions. Cost of sales in 2009 included restructuring charges of \$1.3 million and \$9.4 million for the third quarter and first nine months of 2009, respectively, which reduced our gross margin last year.

Selling, General and Administrative Expense

Selling, general and administrative expense as a percentage of consolidated net sales was 35.8% for the third quarter of 2010 and 2009. Leverage from sales gains and cost savings actions were offset by continued investments in our business and other cost increases. For the first nine month

Edgar Filing: ECOLAB INC - Form 10-Q

periods, selling, general and administrative expenses were 37.3% of sales in 2010 and 36.8% in 2009. Investments in the business and cost increases more than offset savings from last year's restructuring and leverage from sales gains. We continue to make key business investments that drive innovation and efficiency, through R&D and information technology systems.

Special Gains and Charges

Special gains and charges reported on the Consolidated Statement of Income included the following items:

(millions)	Third Quarter Ended September 30		Nine Months Ended September 30					
	2010	2009	2010	2009				
Cost of sales								
Restructuring charges	\$	\$	1.3	\$	9.4			
Special gains and charges								
Restructuring charges			4.0		52.6			
Gain on sale of investment	(5.9)		(5.9)					
Business structure and optimization	0.6	0.7	1.8	2.3				
Venezuela currency devaluation			4.2					
Business write-downs and closure	(0.4)		(1.4)					
Other items	0.6	0.7	0.3	2.0				
Total	(5.1)	5.4	(1.0)	56.9				
Total special gains and charges	\$	(5.1)	\$	6.7	\$	(1.0)	\$	66.3

In the third quarter of 2010, we sold an investment in a small U.S. business and recognized a gain on the sale of \$5.9 million. The investment was not material to our consolidated results of operations or financial position.

Beginning in 2010, Venezuela has been designated hyper-inflationary and as such all foreign currency fluctuations are recorded in income. On January 8, 2010 the Venezuelan government devalued its currency (Bolivar Fuerte). We are remeasuring the financial statements of our Venezuelan subsidiary using the official exchange rate of 4.30 Bolivars to U.S. dollar. As a result of the devaluation, we recorded a charge of \$4.2 million in the first quarter of 2010 due to the remeasurement of the local balance sheet. We are unable to predict the ongoing currency gains and losses for the remeasurement of the balance sheet, but do not expect these gains and losses to have a material impact on our future consolidated results of operations or financial position.

In 2009 we undertook restructuring and other cost-saving actions in order to streamline operations and improve efficiency and effectiveness. We recorded restructuring expense of \$5 million (\$4 million after tax) or \$0.02 per diluted share and \$62 million (\$44 million after tax) or \$0.18 per diluted share during the third quarter and nine months ended September 30, 2009, respectively. Restructuring expense on the Consolidated Statement of Income has been included both as a component of cost of sales and as a component of special gains and charges, as shown in the table above. Further details related to these restructuring expenses are included in Note 2.

Operating Income

(millions)	Third Quarter Ended September 30			% Change	Nine Months Ended September 30			% Change
	2010	2009			2010	2009		
Reported GAAP operating income	\$ 245.1	\$ 223.0		10%	\$ 603.2	\$ 485.5		24%
Adjustments:								
Special gains and charges	(5.1)	6.7			(1.0)	66.3		
Non-GAAP adjusted operating income	\$ 240.0	\$ 229.7		4%	\$ 602.2	\$ 551.8		9%

Our reported operating income increase of 10% and 24% for the third quarter and first nine months of 2010, respectively, was impacted by the year over year comparison of special gains and charges.

On an adjusted basis, excluding special gains and charges, operating income increased 4% in the third quarter. Foreign currency had an unfavorable impact on third quarter adjusted operating income. Adjusted fixed currency operating income increased 5% in the third quarter as sales gains more than offset continued investment in the business and other cost increases in the quarter.

For the first nine months of 2010, adjusted operating income, excluding special gains and charges, increased 9%. Foreign currency had a favorable impact on adjusted operating income for the nine month period. Adjusted fixed currency operating income increased 7% for the first nine months of 2010 as volume gains, pricing, favorable delivered product costs, and savings from last year's restructuring more than offset continued investment in the business and other costs.

Interest Expense, Net

Net interest expense totaled \$14.9 million in the third quarter of 2010, compared with \$15.1 million in the third quarter of 2009. Net interest expense was \$44.9 million for the first nine months of 2010 and \$46.1 million for the first nine months of 2009. The decline in our net interest expense has been due to lower commercial paper borrowing rates combined with lower borrowing amounts as well as lower interest expense related to hedging activities, partially offset by lower interest income.

Provision for Income Taxes

The following table provides a summary of our reported tax rate:

(percent)	Third Quarter Ended September 30		Nine Months Ended September 30	
	2010	2009	2010	2009
Reported GAAP tax rate	24.3%	30.2%	28.4%	31.2%
Tax rate impact of:				
Special gains and charges	0.8	(0.5)	(0.0)	(0.5)
Discrete tax items	5.2	2.3	2.0	0.9
Non-GAAP adjusted tax rate	30.3%	32.0%	30.4%	31.6%

The reported tax rate for the third quarter and first nine months of 2010 and 2009 included the tax impact of special gains and charges and discrete tax items which combined, decreased our reported tax rate. The decrease in the 2010 Non-GAAP adjusted effective tax rate compared to 2009 was due primarily to increased benefits from the domestic manufacturing deduction in the U.S.

Discrete tax benefits for the third quarter and first nine months of 2010 were \$12.1 million and \$10.8 million, respectively. Third quarter 2010 tax benefits primarily include recognizing favorable settlements related to our 2002 through 2004 IRS appeals case and adjustments related to our prior year tax reserves. The discrete tax benefit for the nine month period also includes a \$6 million tax benefit from the settlement of an international tax audit recorded in the first quarter, offset by a \$5 million charge also recorded in the first quarter due to the passage of the U.S. Patient Protection and Affordable Care Law which changes the tax deductibility related to federal subsidies and resulted in a reduction of the value of our deferred tax assets related to the subsidies, as well as a \$2 million charge in the second quarter for the impact of international tax costs from optimizing our business structure.

Discrete tax benefits for the third quarter and first nine months of 2009 were \$4.8 million and \$4.1 million, respectively. The 2009 discrete tax benefits are primarily due to a \$4.4 million third quarter benefit related to prior year reserve adjustments.

U.S. Cleaning & Sanitizing sales increased 4% in the third quarter and 3% for the first nine months of 2010. Sales for our large U.S. Cleaning & Sanitizing businesses were as follows:

- **Institutional** Sales grew 3% for the third quarter and 2% for the first nine months of 2010. Third quarter sales benefited from new account gains and increased sales to distributors. We continue to experience mixed market trends in the third quarter as room demand at our lodging customers improved while overall foot traffic at our foodservice customers continued to be soft.
- **Food & Beverage** Sales in the third quarter of 2010 increased 4% while sales for the first nine months of 2010 increased 2%. Third quarter sales increased in almost all market segments as corporate account wins and new products offset soft results in meat & poultry markets.
- **Kay** Sales increased 8% and 9% for the third quarter and first nine months of 2010, respectively. Sales growth was led by new food retail accounts and success with new products and programs. Sales at Kay continue to benefit from good demand from existing and new quick service chain accounts.
- **Healthcare** Sales increased 1% for the third quarter and 2% for the first nine months of 2010. Gains in sales of infection barriers and surgical instrument cleaning products more than offset the prior year's spike in demand due to H1N1 virus preparations and slowing healthcare market trends in the current year, including fewer patient visits and surgical procedures.

Segment Results (Continued)

U.S. Other Services sales in the third quarter of 2010 were comparable to the prior year period. Sales declined 1% for the first nine months of 2010. Sales for our U.S. Other Services businesses were as follows:

- Pest Elimination Sales were flat for the third quarter and declined 1% for the first nine months of 2010 compared to prior year periods. Sales growth at our Ecosure food safety management business was offset by lower pest elimination contract and non-contract services. Gains in the quick service restaurant, grocery, healthcare and food & beverage plant markets were offset by slow conditions in other major markets.
- GCS Service Sales increased 1% in the third quarter and were flat for the first nine months of 2010. Service and installed parts sales increased in the quarter, benefiting from pricing gains and new accounts, which more than offset the impact of slow foodservice business conditions. Direct parts sales continued to be soft.

We evaluate the performance of our International operations based on fixed rates of foreign currency exchange. Fixed currency sales for our International operations increased 3% for both the third quarter and first nine months of 2010. When measured at public currency rates, International sales declined 1% for the third quarter of 2010 and increased 6% for the first nine months of 2010. Fixed currency sales changes for our International regions were as follows:

- EMEA Sales for the third quarter were comparable to the prior year period. Sales for the first nine months of 2010 increased 1%. Sales growth in Italy and the U.K., was offset by lower sales in Germany and France. From a divisional perspective, Europe's Institutional sales declined slightly in the third quarter as new account gains were offset by soft market conditions in central and southern Europe. Food & Beverage, Pest Elimination and Textile Care sales increased in the quarter while Healthcare sales were lower compared to the prior year which included higher sales related to H1N1 virus preparations.
- Asia Pacific Sales increased 8% in the third quarter and 9% for the first nine months of 2010 as the region continues to show good recovery from last year's low levels of business travel and tourism. Third quarter sales growth was driven by growth in China and Australia. From a divisional perspective, Institutional sales continued to be strong as occupancy levels improved and economies recovered. Food & Beverage also continued to report strong sales growth, benefiting from increased product penetration and account gains.
- Latin America Sales increased 7% and 8% for the third quarter and first nine months of 2010. Sales for the quarter were led by strong sales growth in Mexico, Brazil and Venezuela. Our Institutional, Food & Beverage and Pest Elimination businesses all reported increased sales growth.
- Canada Sales for the third quarter and first nine months of 2010 increased 5% and 4%, respectively, compared to the comparable prior year periods. Food & Beverage and Kay reported strong sales growth in the quarter. Institutional, Pest Elimination and Vehicle Care also reported good sales gains.

U.S. Cleaning & Sanitizing operating income increased 5% for the third quarter and 8% for the first nine months of 2010. For the quarter, volume gains more than offset cost increases to drive the operating income growth. Year to date, sales gains and favorable delivered product costs more than offset cost increases to drive the increase in operating income.

U.S. Other Services operating income increased 7% and 6% for the third quarter and first nine months of 2010, respectively. Operating income growth was driven by pricing and cost savings actions which more than offset higher service and other cost increases.

International segment operating income at fixed currency rates increased 1% for the third quarter and 6% for the first nine months of 2010. For both the quarter and year to date, volume and pricing gains, favorable delivered product costs, and cost savings efforts more than offset continued investments in the business and increased costs. When measured at public currency rates, International operating income was flat for the third quarter and increased 12% for the first nine months of 2010.

Consistent with our internal management reporting, the Corporate segment includes special gains and charges reported on the Consolidated Statement of Income. Items included in special gains and charges are shown in the table on page 26. The Corporate segment also includes investments in the development of business systems and other corporate investments we are making as part of our ongoing efforts to improve efficiency and returns.

Financial Position and Liquidity

Total assets were \$4.9 billion as of September 30, 2010, compared to total assets of \$5.0 billion at December 31, 2009. The decrease was primarily due to the impact of foreign currency exchange rates which decreased the value of international assets on our balance sheet when translated into U.S. dollars.

Total debt was \$991 million as of September 30, 2010 and \$967 million as of December 31, 2009. The ratio of total debt to capitalization (total equity plus total debt) increased slightly to 33% at September 30, 2010 compared to 32% at December 31, 2009. The increase in the ratio was due to a higher outstanding commercial paper balance, as well as a decrease in equity due primarily to share repurchases. We are in compliance with all of our debt covenants and believe we have sufficient borrowing capacity to meet our foreseeable operating needs.

Cash provided by operating activities totaled \$638 million for the first nine months of 2010 compared to \$532 million in 2009. 2010 operating cash flow benefited from improved earnings and lower pension contributions offset partially by changes in working capital. Operating cash flow in 2009 included \$125 million voluntary contributions to our U.S. pension plan. We continue to generate strong cash flow from operations which has allowed us to continue to fund our ongoing operations, investments in the business, acquisitions, and return cash to shareholders through share repurchases and dividend payments.

Cash used for investing activities was \$240 million in 2010 compared to \$202 million in 2009. Capital expenditures increased compared to the prior year as we continue to make investments in the business including merchandising equipment. Cash paid for acquisitions increased in 2010 due to the acquisition of the commercial laundry business of Dober Chemical in the third quarter. There was limited acquisition activity in 2009. See Note 7 for further information on our business acquisition activity.

Cash used for financing activities in 2010 included the repurchase of 7.4 million of our common shares for approximately \$345 million under our share repurchase program during the first nine months of 2010. We did not repurchase shares under our share repurchase program during the first nine months of 2009.

The schedule of contractual obligations included in the Financial Position and Liquidity section of our Form 10-K for the year ended December 31, 2009 disclosed total notes payable and long-term debt due within one year of \$99 million. As of September 30, 2010, the total notes payable and long-term debt due within one year has increased to \$344 million. The increase from year end is primarily due to our \$150 million 6.875% notes, which are due in February 2011, being reclassified to current portion of long-term debt and an increase in our outstanding U.S. commercial paper. Our gross liability for uncertain tax positions was \$67 million as of September 30, 2010 and \$117 million as of December 31, 2009. The decline in the balance was due primarily to the settlement of our 2002 through 2004 IRS appeals case and adjustments to prior year reserves. There were no cash payments made as a result of these adjustments. We are not able to reasonably estimate the amount by which the liability will increase or decrease over time; however, at this time, we do not expect significant payments related to these obligations within the next year. No other significant changes to our contractual obligations occurred during the first nine months of 2010.

We currently expect to fund all of the cash requirements which are reasonably foreseeable for the next twelve months, including scheduled debt repayments, new investments in the business, dividend payments, possible business acquisitions and pension contributions with cash from operating activities, cash reserves and short-term or long-term borrowings. In the event of a significant acquisition or other significant funding need, funding may occur through additional short and/or long-term borrowing or through the issuance of the company's stock.

Financial Position and Liquidity (Continued)

As of September 30, 2010, we had \$168 million of cash and cash equivalents on hand and expect our operating cash flow to remain strong. Additionally, we have a \$600 million multi-year credit facility with a diverse portfolio of banks which expires in June 2012. The credit facility supports our \$600 million U.S. commercial paper program and our \$200 million European commercial paper program. Combined borrowing under these two commercial paper programs may not exceed \$600 million. As of September 30, 2010, we had \$167 million in outstanding U.S. commercial paper and no amounts outstanding under our European commercial paper program. Both programs are rated A-1 by Standard & Poor's and P-1 by Moody's.

New Accounting Pronouncements

There were no new accounting pronouncements that were issued or became effective that have had or are expected to have a material impact on our consolidated financial statements.

Subsequent Events

On September 27, 2010, subsequent to the third quarter for our international operations, we announced we have agreed to purchase the Cleantec business of Campbell Brothers Ltd., Brisbane, Queensland, Australia. The transaction is an asset purchase and is subject to clearance from the Australian anti-trust authorities and other customary closing conditions. Cleantec is a developer, manufacturer and marketer of cleaning and hygiene products principally within the Australian food and beverage processing, food service, hospitality and textile care markets. Annual sales of the business to be acquired are approximately \$55 million. Completion of the transaction is expected to occur upon receipt of regulatory clearance.

Non-GAAP Financial Measures

This Quarterly Report on Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operation in Item 2, contains financial measures that have not been calculated in accordance with accounting principles generally accepted in the U.S. (GAAP). These Non-GAAP measures include fixed currency sales and fixed currency operating income, adjusted operating income, adjusted fixed currency operating income, adjusted effective tax rate, adjusted net income attributable to Ecolab and adjusted diluted earnings per share attributable to Ecolab. We provide these measures as additional information regarding our operating results. We use these Non-GAAP measures internally to evaluate our performance and in making financial and operational decisions, including with respect to incentive compensation. We believe that our presentation of these measures provides investors with greater transparency with respect to our results of operations and that these measures are useful for period-to-period comparison of results.

We include in special gains and charges items that are unusual in nature, significant in amount and important to an understanding of underlying business performance. In order to better allow investors to compare underlying business performance period-to-period, we provide adjusted operating income, adjusted fixed currency operating income, adjusted net income attributable to Ecolab and adjusted diluted earnings per share attributable to Ecolab, which exclude special gains and charges and discrete tax items.

Non-GAAP Financial Measures (Continued)

The adjusted effective tax rate measure promotes period-to-period comparability of the underlying effective tax rate because the amounts excluded do not necessarily reflect costs associated with historical trends or expected future costs.

We evaluate the performance of our international operations based on fixed currency rates of foreign exchange. Fixed currency sales, fixed currency operating income and adjusted fixed currency operating income measures eliminate the impact of exchange rate fluctuations on our international sales, operating income and adjusted operating income, respectively, and promote a better understanding of our underlying sales and operating income trends. Fixed currency amounts are based on translation into U.S. dollars at fixed foreign currency exchange rates established by management at the beginning of 2010.

These measures are not in accordance with, or an alternative to GAAP, and may be different from Non-GAAP measures used by other companies. Investors should not rely on any single financial measure when evaluating our business. We recommend that investors view these measures in conjunction with the GAAP measures included in this Financial Discussion and have provided reconciliations of reported GAAP amounts to the Non-GAAP amounts on pages 27-29.

Forward-Looking Statements

This Quarterly Report on Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operation in Item 2, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include expectations concerning contributions to pension and post-retirement health care benefit plans, amortization expense, the impact of new accounting pronouncements, the impact of potential lawsuits or claims, currency gains and losses, gross liability for unrecognized tax benefits or uncertain tax positions and payments related thereto, future cash flow and sources of funding, nonperformance of financial counterparties, timing of hedged transactions, borrowing capacity, short-term liquidity requirements and completion of the Cleantec acquisition. Without limiting the foregoing, words or phrases such as "will likely result," "are expected to," "will continue," "is anticipated," "we believe," "estimate," "pro" (including the negative or variations thereof) or similar terminology, generally identify forward-looking statements. Forward-looking statements may also represent challenging goals for us. These statements, which represent the company's expectations or beliefs concerning various future events, are based on current expectations that involve a number of risks and uncertainties that could cause actual results to differ materially from those of such forward-looking statements. We caution that undue reliance should not be placed on such forward-looking statements, which speak only as of the date made. Some of the factors which could cause results to differ from those expressed in any forward-looking statement are set forth under Part II, Item 1A of this Form 10-Q. Except as required under applicable law, we undertake no duty to update our Forward-Looking Statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We primarily use foreign currency forward contracts, foreign currency debt and interest rate swaps to manage risks generally associated with interest rate and foreign exchange rate volatility and net investments in our foreign operations. We do not hold derivative financial instruments of a speculative nature. For a more detailed discussion of derivative instruments, refer to Note 5, entitled "Financial Instruments and Hedging Transactions", of the consolidated financial statements located under Part I, Item 1 of this quarterly report on Form 10-Q, beginning on page 13.

Item 4. Controls and Procedures

As of September 30, 2010, we carried out an evaluation, under the supervision and with the participation of our management, including the Chairman of the Board, President and Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, our Chairman of the Board, President and Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures are effective.

During the period July 1 through September 30, 2010, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In our report on Form 10-Q for the quarterly period ended June 30, 2010, we disclosed under Note 13, entitled "Commitments and Contingencies" located under Part I, Item 1, final settlement and payment of three wage hour lawsuits in May 2010. This disclosure is incorporated herein by reference.

Item 1A. Risk Factors

In our report on Form 10-K for the year ended December 31, 2009, filed with the Securities and Exchange Commission on February 26, 2010, we identify under Item 1A important factors which could affect our financial performance and could cause our actual results for future periods to differ materially from our anticipated results or other expectations, including those expressed in any forward-looking statements made in this Form 10-Q. See the section entitled Forward-Looking Statements located on page 35 of this Form 10-Q.

There has been no material change in our risk factors subsequent to the filing of our Form 10-K for the year ended December 31, 2009. We may also refer to said disclosure to identify factors that may cause results to differ from those expressed in other forward-looking statements made in oral presentations, including telephone conferences and/or webcasts open to the public.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) Issuer Purchases of Equity Securities
