In this Quarterly Report, references to the Company, Sally Beauty, our company, we, our, ours and us refer to Sally Beauty Holdings, its consolidated subsidiaries for periods after the separation from Alberto-Culver Company (Alberto-Culver) and to Sally Holdings, Inc. and its consolidated subsidiaries for periods prior to the separation from Alberto-Culver unless otherwise indicated or the context otherwise requires.

Cautionary Notice Regarding Forward-Looking Statements

Statements in this Quarterly Report on Form 10-Q and in the documents incorporated by reference herein which are not purely historical facts or which depend upon future events may constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act. Words such as anticipate, believe, estimate, expect, intend, plan, project, target, can, could, may, should, will, would or similar words and phrases are used to identify such forward-looking statements.

Readers are cautioned not to place undue reliance on forward-looking statements as such statements speak only as of the date they were made. Any forward-looking statements involve risks and uncertainties that could cause actual events or results to differ materially from the events or results described in the forward-looking statements, including, but not limited to, risks and uncertainties related to:

- the highly competitive nature of, and the increasing consolidation of, the beauty products distribution industry;
- anticipating changes in consumer preferences and buying trends and managing our product lines and inventory;
- potential fluctuation in our same store sales and quarterly financial performance;
- our dependence upon manufacturers who may be unwilling or unable to continue to supply products to us;
- the possibility of material interruptions in the supply of products by our manufacturers;
- products sold by us being found to be defective in labeling or content;
- compliance with laws and regulations or becoming subject to additional or more stringent laws and regulations;
- product diversion to mass retailers;
- the operational and financial performance of our Armstrong McCall, L.P. (Armstrong McCall) franchise-based business;
- the success of our internet-based business;
- successfully identifying acquisition candidates or successfully completing desirable acquisitions;
- integrating businesses acquired in the future;
- opening and operating new stores profitably;

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

- the impact of a downturn in the economy upon our business;
- the success of our cost control plans;
- protecting our intellectual property rights, particularly our trademarks;
- conducting business outside the United States;
- disruption in our information technology systems;
- severe weather, natural disasters or acts of terrorism;
- the preparedness of our accounting and other management systems to meet financial reporting and other requirements and the upgrade of our existing financial reporting system;
- being a holding company, with no operations of our own, and depending on our subsidiaries for cash;
- our substantial indebtedness;
- the possibility that we may incur substantial additional debt in the future;
- restrictions and limitations in the agreements and instruments governing our debt;
- generating the significant amount of cash needed to service all of our debt and refinancing all or a portion of our indebtedness or obtaining additional financing;

Table of Contents

- changes in interest rates increasing the cost of servicing our debt or increasing our interest expense due to our interest rate swap agreements;
- the potential impact on us if the financial institutions we deal with become impaired;
- the representativeness of our historical consolidated financial information with respect to our future financial position, results of operations or cash flows;
- our reliance upon Alberto-Culver for the accuracy of certain historical services and information;
- the share distribution of Alberto-Culver common stock in our separation from Alberto-Culver not constituting a tax-free distribution;
- actions taken by certain large stockholders adversely affecting the tax-free nature of the share distribution of Alberto-Culver common stock;
- the voting power of our largest stockholder discouraging third party acquisitions of us at a premium; and
- the interests of our largest stockholder differing from the interests of other holders of our common stock.

Additional factors that could cause actual events or results to differ materially from the events or results described in the forward-looking statements can be found in our Annual Report on Form 10-K for the fiscal year ended September 30, 2010, as filed with the Securities and Exchange Commission. The events described in the forward-looking statements might not occur or might occur to a different extent or at a different time than we have described. As a result, our actual results may differ materially from the results contemplated by these forward-looking statements. We assume no obligation to publicly update or revise any forward-looking statements.

1. Description of Business and Basis of Presentation

Description of Business

Sally Beauty Holdings, Inc. and its consolidated subsidiaries ("Sally Beauty" or the "Company") sell professional beauty supplies primarily through its Sally Beauty Supply retail stores in the U.S., Puerto Rico, Canada, Mexico, Chile, the United Kingdom, Ireland, Belgium, France, Germany and Spain. Additionally, the Company distributes professional beauty products to salons and professional cosmetologists through its Beauty Systems Group ("BSG") store operations and a commissioned direct sales force that calls on salons primarily in the U.S., Puerto Rico, Canada, the United Kingdom and certain other countries in Europe, and to franchises in the southern and southwestern U.S. and in Mexico through the operations of its subsidiary Armstrong McCall. Certain beauty products sold by BSG and Armstrong McCall are sold under exclusive territory agreements with the manufacturers of the products.

Sally Beauty was formed in June 2006 and became the accounting successor company to Sally Holdings, Inc. (which was, until November 2006, a wholly-owned subsidiary of Alberto-Culver) upon the completion of the Separation Transactions. Please see the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2010 for more information about the Separation Transactions.

Basis of Presentation

The consolidated interim financial statements include the accounts of the Company and its subsidiaries. All significant inter-company accounts and transactions have been eliminated in consolidation. In the opinion of management, these consolidated financial statements reflect all adjustments which are of a normal recurring nature and which are necessary to present fairly the Company's consolidated financial position as of March 31, 2011 and September 30, 2010, its consolidated results of operations for the three and six months ended March 31, 2011 and 2010, and its consolidated cash flows for the six months ended March 31, 2011 and 2010.

All references in these notes to "management" are to the management of Sally Beauty.

2. Significant Accounting Policies

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

The consolidated interim financial statements included herein are unaudited and have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and note disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States (GAAP) have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. These consolidated interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2010. The Company adheres to the same accounting policies in the preparation of its interim financial statements. As permitted under GAAP, interim accounting for certain expenses, including income taxes, is based on full year assumptions. Such amounts are expensed in full in the year incurred. For interim financial reporting purposes, income taxes are recorded based upon estimated annual effective income tax rates.

The results of operations for these interim periods are not necessarily indicative of the results that may be expected for any future interim period or the entire fiscal year.

The Company's financial instruments consist of cash and cash equivalents, trade and other accounts receivable, accounts payable, interest rate swap agreements, foreign currency option and forward agreements, and long-term debt. There were no significant changes in the methods and assumptions used to estimate the fair value of the Company's financial instruments since September 30, 2010.

The carrying amounts of cash and cash equivalents, trade and other accounts receivable, and accounts payable approximate fair value due to the short-term nature of these financial instruments.

Fair value amounts reported for our interest rate swaps, and foreign currency options and forwards are based on third-party information and were determined using (a) widely accepted valuation techniques, such as discounted cash flow analyses; (b) observable market inputs, such as current interest rate curves and current foreign currency exchange rates, as appropriate; and (c) reasonable estimates about relevant future market conditions, such as projected interest rates derived from

Table of Contents

(Unaudited)

observable market interest rate curves and projected foreign currency exchange rates derived from observable market foreign currency exchange rates, as appropriate. These fair value amounts also reflect the contractual terms of each derivative instrument and credit valuation adjustments pertaining to the risk of nonperformance by either party. Please see Notes 4 and 10 for more information about the Company's interest rate swaps and foreign currency options and forwards.

Fair value amounts reported for the Company's long-term debt are based on unadjusted quoted market prices for the Company's debt securities where available or, if not available, were generally determined using widely accepted valuation techniques, such as discounted cash flow analyses, and observable inputs, such as market interest rates. Please see Notes 4 and 9 for more information about the Company's long-term debt.

3. Recent Accounting Pronouncements and Accounting Changes

Recent Accounting Pronouncements

We have not yet adopted and are currently assessing any potential effect of the following pronouncements on our consolidated financial statements:

In December 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-28 which amended Accounting Standards Codification (ASC) Topic 350, *Intangibles-Goodwill and Other*. This amendment modifies the goodwill impairment test for reporting units with a zero or negative carrying amount, by requiring that Step 2 of the goodwill impairment test be performed for such reporting units if it is more likely than not that an impairment of goodwill exists. For public companies, this amendment is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2010. Early application is not permitted.

In December 2010, the FASB issued ASU No. 2010-29 which amended ASC Topic 805, *Business Combinations* (ASC 805). This amendment requires that a public company that enters into business combinations that are material on an individual or aggregate basis disclose certain pro forma information for the current and the immediately preceding fiscal year. This amendment also expands the supplemental pro forma disclosures to include a description of the nature and amount of material, non-recurring pro forma adjustments directly attributable to such business combination or business combinations. This amendment is effective prospectively for business combinations consummated on or after the first annual reporting period beginning on or after December 15, 2010. Early application is permitted.

Accounting Changes

The Company made no accounting changes during the six months ended March 31, 2011.

4. Fair Value Measurements

The Company measures on a recurring basis and discloses certain financial instruments (including interest rate swap agreements, and foreign currency option and forward agreements) at fair value. The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820, *Fair Value Measurements and Disclosures*, as amended, establishes a three-level hierarchy for measuring fair value and requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. This valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels of that hierarchy are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 - Unadjusted quoted prices in active markets for similar assets or liabilities; or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active; or inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data; and

Level 3 - Unobservable inputs for the asset or liability.

Foreign currency options (a)	167		167	
Total liabilities	\$ 1,601,148	\$ 750,563	\$ 850,585	

Consistent with this hierarchy, the Company categorized certain of its financial assets and liabilities as follows at September 30, 2010 (in thousands):

	As of September 30, 2010			
	Total	Level 1	Level 2	Level 3
Assets				
Foreign currency forwards (a)	\$ 20		\$ 20	
Foreign currency options (a)	99		99

Hedged interest rate swaps (a)	15,530		15,530	
Foreign currency forwards (a)	328		328	
Total liabilities	\$ 1,612,086	\$ 751,250	\$ 860,836	

(a) Foreign currency options and forwards, and interest rate swaps are valued for purposes of this disclosure using widely accepted valuation techniques, such as discounted cash flow analyses, and reasonable estimates, such as projected market interest rates and projected foreign currency exchange rates, as appropriate. Please see Note 10 for more information about the Company's foreign currency options and forwards, and interest rate swaps.

(b) Long-term debt, which is carried at amortized cost in the Company's consolidated financial statements, is generally valued for purposes of this disclosure using widely accepted valuation techniques, such as discounted cash flow analyses, and observable inputs, such as market interest rates, except for the senior and senior subordinated notes. The senior and senior subordinated notes are valued using unadjusted quoted

market prices for such debt securities.

5. Net Earnings Per Share

Basic net earnings per share is calculated by dividing net earnings by the weighted average number of shares of common stock outstanding during the period. Diluted net earnings per share is calculated similarly but includes the potential dilution from the exercise of all outstanding stock options and stock awards, except when the effect would be anti-dilutive.

The following table sets forth the computations of basic and diluted earnings per share (in thousands, except per share data):

	Three Months Ended March 31,		Six Months Ended March 31,	
	2011	2010	2011	2010
Net earnings	\$ 49,278	\$ 34,560	\$ 90,227	\$ 60,686
Total weighted-average basic shares	182,831	181,942	182,644	181,915
Dilutive securities:				
Stock option and stock award programs	4,893	2,033	4,787	1,970
Total weighted-average diluted shares	187,724	183,975	187,431	183,885
Earnings per share:				
Basic	\$ 0.27	\$ 0.19	\$ 0.49	\$ 0.33
Diluted	\$ 0.26	\$ 0.19	\$ 0.48	\$ 0.33

At March 31, 2011, all outstanding options to purchase shares of the Company's common stock were dilutive. At March 31, 2010, options to purchase 9,102,441 shares of the Company's common stock were outstanding but not included in the computation of diluted earnings per share, since these options were anti-dilutive. Anti-dilutive options are out-of-the-money options (options the exercise price of which is greater than the average price per share of the Company's common stock during the period), and in-the-money options (options the exercise price of which is less than the average price per share of the Company's common stock during the period) for which the sum of assumed proceeds, including unrecognized compensation expense, exceeds the average price per share for the period.

6. Comprehensive Income and Accumulated Other Comprehensive (Loss) Income

7. Share-Based Payments

The Company measures the cost of employee and consultant services received in exchange for an award of equity instruments based on the fair value of the award on the grant date and recognizes compensation expense on a straight-line basis over the vesting period or over the period ending on the date a participant becomes eligible for retirement, if earlier. In January 2010, the Company adopted the Sally Beauty Holdings, Inc. 2010 Omnibus Incentive Plan (the 2010 Plan), a stockholder-approved share-based compensation plan which allows for the issuance of up to 29.8 million shares of the Company's common stock.

The Company granted approximately 3.0 million and 2.9 million stock options to its employees and consultants during the six months ended March 31, 2011 and 2010, respectively. Upon issuance of such grants, the Company recognized accelerated share-based compensation expense of \$5.0 million and \$2.5 million in the six months ended March 31, 2011 and 2010, respectively, in connection with certain retirement eligible employees who are eligible to continue vesting awards upon retirement under the provisions of the 2010 Plan and certain predecessor share-based plans such as the Sally Beauty Holdings, Inc. 2007 Omnibus Incentive Plan (the 2007 Plan).

The following table presents the total compensation cost charged against income and included in selling, general and administrative expenses for all share-based compensation arrangements and the related tax benefits recognized in our consolidated statements of earnings (in thousands):

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

Income tax benefit related to share-based compensation expense	\$ 620	\$ 747	\$ 2,746	\$ 2,585

Stock Options

Each option has an exercise price that equals 100% of the closing market price of the Company's common stock on the date of grant and generally has a maximum term of 10 years. Options generally vest ratably over a four year period and are generally subject to forfeiture until the vesting period is complete, subject to certain retirement provisions contained in the 2010 Plan and certain predecessor share-based compensation plans such as the 2007 Plan.

The following table summarizes information about stock options under the Company's option plans at March 31, 2011:

Range of Exercise Prices	Number Outstanding at March 31, 2011 (in Thousands)	Options Outstanding		Options Exercisable	
		Weighted Average Remaining Contractual Term (in Years)	Weighted Average Exercise Price	Number Exercisable at March 31, 2011 (in Thousands)	Weighted Average Exercise Price

Total	15,033	7.1	\$ 8.33	8,102	\$ 7.89

The Company uses the Black-Scholes option pricing model to value the Company's stock options for each stock option award. Using this option pricing model, the fair value of each stock option award is estimated on the date of grant. The fair value of the Company's stock option awards is expensed on a straight-line basis over the vesting period (generally four years) of the stock options or to the date a participant becomes eligible for retirement, if earlier.

The weighted average assumptions relating to the valuation of the Company's stock options are as follows:

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

	Six Months Ended	
	March 31,	
	2011	2010
Expected lives (in years)	5.0	5.0
Expected volatility	59.0%	64.4%
Risk-free interest rate	1.1%	2.4%
Dividend yield	0.0%	0.0%

The expected life of options represents the period of time that the options granted are expected to be outstanding and is based on historical experience for employees of the Company who have been granted stock options, including grants under stock option plans of Alberto-Culver prior to the Separation Transactions. The expected volatility is derived using the average volatility of both the Company and similar companies (based on industry sector) since it is not practicable

(Unaudited)

to estimate the Company's expected volatility on a stand-alone basis due to a lack of sufficient trading history. The risk-free interest rate is based on the zero-coupon U.S. Treasury issue as of the date of the grant. Since the Company does not currently expect to pay dividends, the dividend yield is 0%.

The weighted average fair value of the stock options issued to the Company's grantees at the date of grant in the six months ended March 31, 2011 and 2010 was \$5.74 and \$4.15 per option, respectively. The aggregate intrinsic value of options exercised during the six months ended March 31, 2011 was \$3.9 million. Cash proceeds from these option exercises were \$3.8 million and the tax benefit realized for the tax deductions related to these option exercises was \$1.5 million.

At March 31, 2011, approximately \$16.0 million of total unrecognized compensation costs related to unvested stock option awards are expected to be recognized over the weighted average period of 3.0 years.

Stock Awards

Restricted Stock Awards

The Company from time to time grants restricted stock awards to its employees and consultants under the 2010 Plan. A restricted stock award is an award of shares of the Company's common stock (which have full voting and dividend rights but are restricted with regard to sale or transfer), the restrictions over which lapse ratably over a specified period of time (generally five years). Restricted stock awards are independent of stock option grants and are generally subject to forfeiture if employment terminates prior to these restrictions lapsing, subject to certain retirement provisions of the 2010 Plan and certain predecessor share-based compensation plans such as the 2007 Plan.

The Company expenses the cost of the restricted stock awards, which is determined to equal the fair value of the restricted stock award at the date of grant, on a straight-line basis over the period (the vesting period) in which the restrictions on these stock awards lapse (vesting) or over the period ending on the date a participant becomes eligible for retirement, if earlier. For these purposes, the fair value of the restricted stock award is determined based on the closing market price of the Company's common stock on the date of grant.

The following table presents a summary of the activity for the Company's restricted stock awards for the six months ended March 31, 2011:

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

Restricted Stock Awards	Number of Shares (in Thousands)	Weighted Average Fair Value Per Share	Weighted Average Remaining Vesting Term (in Years)
Unvested at September 30, 2010	362	\$ 7.38	3.2
Granted	199	11.39	
Vested	(105)	7.64	
Forfeited	(1)	5.24	
Unvested at March 31, 2011	455	\$ 9.08	3.5

At March 31, 2011, approximately \$3.1 million of total unrecognized compensation costs related to unvested restricted stock awards are expected to be recognized over the weighted average period of 3.5 years.

Restricted Stock Units

The Company currently grants Restricted Stock Unit awards (RSU or RSUs), which generally vest less than one year from the date of grant, pursuant to the 2010 Plan. To date, the Company has only granted RSUs to its non-employee directors. RSUs represent an unsecured promise of the Company to issue shares of common stock of the Company. Upon vesting, such RSUs are generally retained by the Company as deferred stock units that are not distributed until six months after the independent director's service as a director terminates. RSUs are independent of stock option grants and are generally subject to forfeiture if service terminates prior to the vesting of the units.

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

(Unaudited)

Participants have no voting rights with respect to unvested RSUs. Under the 2010 Plan, the Company may settle the vested deferred stock units with shares of the Company's common stock or in cash.

The Company expenses the cost of the RSUs, which is determined to be the fair value of the RSUs at the date of grant, on a straight-line basis over the vesting period (generally less than one year). For these purposes, the fair value of the RSU is determined based on the closing market price of the Company's common stock on the date of grant.

The following table presents a summary of the activity for the Company's RSUs for the six months ended March 31, 2011:

	Number of Shares (in Thousands)	Weighted Average Fair Value Per Share	Weighted Average Remaining Vesting Term (in Years)
Restricted Stock Units

Unvested at March 31, 2011	43	\$ 11.39	0.5

At March 31, 2011, approximately \$0.2 million of total unrecognized compensation costs related to unvested RSUs are expected to be recognized over the weighted average period of 0.5 years.

Total long-term debt	\$ 1,542,235		

(a) At March 31, 2011, the contractual interest rate for the term loan B is 2.50%. The interest rate on \$300.0 million of this loan is fixed by interest rate swaps which expire in May 2012 (please see Note 10 for more information about the Company's interest rate swaps).

(b) Represents pre-acquisition debt of Pro-Duo NV and Sinelco Group BVBA (Sinelco).

In connection with the Separation Transactions in November 2006, the Company, through its subsidiaries (Sally Investment Holdings LLC and Sally Holdings, LLC (Sally Holdings)), incurred \$1,850.0 million of indebtedness by (i) drawing on a revolving (asset-based lending (ABL)) credit facility in the amount of \$70.0 million, (ii) entering into two term loan facilities (term loans A and B) in an aggregate amount of \$1,070.0 million and (iii) together (jointly and severally) with another of the Company's indirect subsidiaries, Sally Capital Inc., issuing senior notes in an aggregate amount of \$430.0 million and senior subordinated notes in an aggregate amount of \$280.0 million. Borrowings under the term loan A facility were repaid in the fiscal year 2010.

In November 2010, the Company entered into a new \$400 million, five-year revolving credit facility (the new ABL facility or the ABL facility) and replaced its prior ABL facility (the prior ABL facility). The new ABL facility contains restrictions and limitations similar to those contained in the prior ABL facility and, similar to the prior ABL facility, borrowings under the new ABL facility are secured by substantially all of the

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

Company's assets. The terms of the new ABL facility contain a commitment fee of 0.50% on the unused portion of the facility. In connection with the Company's termination of its prior ABL facility, the Company expensed approximately \$1.6 million in unamortized deferred financing costs. Such amount is included in interest expense in the Company's consolidated statements of earnings.

Borrowings under the term loan facilities and the ABL facility are secured by substantially all of our assets, those of Sally Investment Holdings LLC, a wholly-owned subsidiary of Sally Beauty and the direct parent of Sally Holdings, those of our domestic subsidiaries and, in the case of the ABL facility, those of our Canadian subsidiaries and a pledge of certain intercompany notes. Borrowings under the term loan B facility may be prepaid at the option of Sally Holdings at any time without premium or penalty and are subject to mandatory prepayment in an amount equal to 50% of excess cash flows (as defined in the agreement governing the senior term loan facilities) for any fiscal year unless a specified leverage ratio is met. No such prepayment is expected to be due in the fiscal year 2011. Amounts paid pursuant to said provision may be applied, at the option of the Company, against minimum loan repayments otherwise required of us over the twelve-month period following any such payment under the terms of the loan agreement. Additionally, borrowings under such term loan facility would be subject to mandatory prepayment in an amount equal to 100% of the proceeds of specified asset sales that are not reinvested in the business or applied to repay borrowings under the ABL facility.

In March 2011, the Company made an optional prepayment in the amount of \$17.0 million on the term loan B facility. In connection with such prepayment the Company expensed approximately \$0.2 million in unamortized deferred financing costs. Such amount is included in interest expense in the Company's consolidated statements of earnings.

The senior notes and senior subordinated notes are unsecured obligations of the issuers and are jointly and severally guaranteed on a senior basis (in the case of the senior notes) and on a senior subordinated basis (in the case of the senior subordinated notes) by each material domestic subsidiary of the Company. Furthermore, the agreements underlying the Company's credit facilities contain terms which significantly restrict the ability of Sally Beauty's subsidiaries to pay dividends or otherwise transfer assets to Sally Beauty. Please see the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2010 for additional information about the Company's long-term debt.

Maturities of the Company's long-term debt are as follows at March 31, 2011 (in thousands):

Fiscal Year:		
2011	\$	2,079
2012		5,825

We are a holding company and do not have any material assets or operations other than ownership of equity interests of our subsidiaries. The agreements and instruments governing the debt of Sally Holdings and its subsidiaries contain material limitations on their ability to pay dividends and other restricted payments to us which, in turn, constitute material limitations on our ability to pay dividends and other payments to our stockholders.

Under the agreements and/or indentures governing the term loan facilities and the notes, Sally Holdings may not make certain restricted payments to us if a default then exists under the credit agreement or the indentures or if its consolidated interest coverage ratio is less than 2.0 to 1.0 at the time of the making of such restricted payment. As of March 31, 2011, such consolidated interest coverage ratio exceeded 2.0 to 1.0. Further, the aggregate amount of restricted payments it is able to make to us is limited pursuant to various baskets as calculated pursuant to the credit agreement and indentures.

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

Under the terms of our new ABL facility, Sally Holdings may pay dividends and make other equity distributions to us if availability under the ABL facility exceeds certain thresholds. For dividends and distributions up to \$30.0 million during each fiscal year, borrowing availability must exceed the lesser of \$80.0 million or 20% of the borrowing base for the 45-day period immediately prior to such dividend and distribution. For dividends in excess of that amount, Sally Holdings must maintain that same availability and its fixed charge coverage ratio must exceed 1.10 to 1.00. As of March 31, 2011, Sally Holdings met all of these conditions. In addition, as of March 31, 2011, the net assets of our consolidated subsidiaries that were unrestricted from transfer under our credit arrangements totaled \$365.8 million, subject to certain adjustments. The ABL facility and the senior term loan facilities, as well as the Company's 9.25% Senior Notes indenture and its 10.5% Senior Subordinated Notes indenture contain customary cross-default and/or cross-acceleration provisions.

10. Derivative Instruments and Hedging Activities

Risk Management Objectives of Using Derivative Instruments

The Company is exposed to a wide variety of risks, including risks arising from changing economic conditions and foreign currency risks. The Company manages its exposure to certain economic risks (including liquidity, credit risk and changes in interest rates) primarily (a) by closely managing its cash flows from operating and investing activities and the amounts and sources of its debt obligations; (b) by assessing periodically the creditworthiness of its business partners; and (c) through the use of interest rate swaps by Sally Holdings. The Company uses interest rate swaps as part

Table of Contents

Sally Beauty Holdings, Inc. and Subsidiaries

Condensed Notes to Consolidated Financial Statements

(Unaudited)

of its overall economic risk management strategy to add stability to the interest payments due in connection with its term loan obligations. Interest payments related to the term loan facility are impacted by changes in LIBOR. Interest rate swap agreements involve the periodic receipt by Sally Holdings of amounts based on a variable rate in exchange for Sally Holdings making payments based on a fixed rate over the term of the interest rate swap agreements, without exchange of the underlying notional amount. The Company uses foreign currency forwards and options as part of its foreign exchange risk management objectives to manage its exposure to changes in certain foreign currency exchange rates. As of March 31, 2011, the Company did not purchase or hold any derivative instruments for trading or speculative purposes.

Designated Cash Flow Hedges

In May 2008, Sally Holdings entered into certain interest rate swap agreements with an aggregate notional amount of \$300 million (each agreement with a notional amount of \$150 million). These agreements expire in May 2012 and are designated and qualify as effective cash flow hedges, in accordance with ASC Topic 815, *Derivatives and Hedging* (ASC 815). Accordingly, changes in the fair value of these derivative instruments are recorded quarterly, net of income tax, in accumulated other comprehensive (loss) income (OCI) until the hedged obligation is settled or the swap agreements expire, whichever is earlier. Any hedge ineffectiveness, as this term is used in ASC 815, is recognized in interest expense in our consolidated statements of earnings. No hedge ineffectiveness on cash flow hedges was recognized during the six months ended March 31, 2011 or 2010. Please see the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2010 for additional information about the Company's interest rate swap agreements.

Amounts reported in OCI related to interest rate swaps are reclassified into interest expense, as a yield adjustment, in the same period in which interest on the Company's hedged variable-rate debt obligations affect earnings. Interest expense resulting from such reclassifications was \$2.5 million during each of the three months ended March 31, 2011 and 2010, and \$5.0 million and \$5.1 million during the six months ended March 31, 2011 and 2010, respectively. During the twelve months ending March 31, 2012, the Company estimates that an additional \$9.5 million, before income tax, of the amounts reported in OCI will be reclassified into interest expense.

Non-designated Cash Flow Hedges

In November 2006, Sally Holdings entered into certain interest rate swap agreements with an aggregate notional amount of \$500 million. Interest rate swap agreements with an aggregate notional amount of \$150 million expired in November 2008 and interest rate swap agreements with an aggregate notional amount of \$350 million expired in November 2009. These interest rate swap agreements were not designated as hedges and, accordingly, the changes in fair value of these interest rate swap agreements, which were adjusted quarterly, were recorded in interest expense in our consolidated statements of earnings. Interest expense includes non-cash income of \$2.4 million of marked-to-market adjustments related to these interest rate swaps for the six months ended March 31, 2010 with no comparable amount for the six months ended March 31, 2011.

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

The Company uses foreign currency options, including, at March 31, 2011, options with an aggregate notional amount of 5.1 million (\$7.2 million, at the March 31, 2011 exchange rate) to manage the exposure to certain non-Euro currencies resulting from our Sinelco Group subsidiaries' purchases of merchandise from third-party suppliers. Sinelco's functional currency is the Euro. The Company's foreign currency option agreements expire ratably through September 2011.

In addition, the Company uses foreign currency forwards to mitigate its exposure to changes in foreign currency exchange rates in connection with certain intercompany balances not permanently invested. At March 31, 2011, certain of our foreign currency forwards enable us to sell, in the aggregate, approximately 14.3 million (\$20.3 million, at the March 31, 2011 exchange rate) at the weighted average contractual exchange rate of 1.39926, including a foreign currency forward with a notional amount of 5.0 million which expires in April 2011 and foreign currency forwards with an aggregate notional amount of 9.3 million which expire in June 2011. In addition, we hold a foreign currency forward which expires in June 2011 and enables us to buy approximately \$10.8 million Canadian dollars (\$11.1 million, at the March 31, 2011 exchange rate) at the contractual exchange rate of 0.97636 and a foreign currency forward which expires in June 2011 and enables us to buy approximately £1.3 million (\$2.0 million, at the March 31, 2011 exchange rate) at the contractual exchange rate of 1.59673.

The Company's foreign currency option and forward agreements are not designated as hedges and do not currently meet the hedge accounting requirements of ASC 815. Accordingly, the changes in fair value of these derivative instruments, which are adjusted quarterly, are recorded in our consolidated statements of earnings. For the three and six months ended March 31, 2011, selling, general and administrative expenses reflect net losses of \$1.0 million and \$0.4 million, respectively, related to all of the Company's foreign currency options and forwards, including marked-to-market adjustments but excluding net foreign currency exchange gains resulting from intercompany balances not permanently invested. In addition, for the three and the six months ended March 31, 2010, selling, general and administrative expenses reflect net gains of \$0.3 million, related to all our foreign currency options and forwards, including marked-to-market adjustments.

The table below presents the fair value of the Company's derivative financial instruments as well as their classification on the balance sheet as of March 31, 2011 (in thousands):

Credit-risk-related Contingent Features

The agreements governing the Company's interest rate swaps contain provisions pursuant to which the Company could be declared in default on its interest rate swap obligations in the event the Company defaulted under certain terms of the loan documents governing the Company's ABL facility. As of March 31, 2011, the fair value of interest rate swaps in a liability position related to these agreements was \$10.9 million and the Company was under no obligation to post and had not posted any collateral related to these agreements. If the Company breached any of these provisions, it would be required to settle its obligations under the agreements at their termination value of \$11.1 million, including accrued interest and other termination costs.

The Company's foreign operations expose the Company to fluctuations in foreign currency exchange rates and foreign interest rates. These fluctuations may impact, among other things, the amount of the Company's future cash flows in terms of the functional currencies of the Company and certain of its foreign subsidiaries. The Company currently uses foreign currency options to manage the exposure to certain non-Euro currencies resulting from our Sinelco Group subsidiaries' purchases of merchandise from third-party suppliers. Sinelco's functional currency is the Euro.

In addition, the Company uses foreign currency forwards to mitigate its exposure to changes in foreign currency exchange rates in connection with certain intercompany balances not permanently invested. At March 31, 2011, we hold foreign currency forwards that enable us to sell, in the aggregate, approximately 14.3 million, a foreign currency forward that enables us to buy approximately \$10.8 million Canadian dollars and a foreign currency forward that enables us to buy approximately £1.3 million. All of our foreign currency forwards expire on or before June 30, 2011. The Company's functional currency is the U.S. dollar.

The counterparties to all our derivative instruments are deemed by the Company to be of substantial resources and strong creditworthiness. However, these transactions result in exposure to credit risk in the event of default by a counterparty. The recent financial crisis affecting the banking systems and financial markets resulted in many well-known financial institutions becoming less creditworthy or having diminished liquidity which could expose us to an increased level of counterparty credit risk. In the event that a counterparty defaults in its obligation under our derivative instruments, we could incur substantial financial losses. However, at the present time, no such losses are deemed probable.

11. Income Taxes

The Company and its subsidiaries file consolidated income tax returns in the U.S. federal jurisdiction and most state jurisdictions, as well as in various foreign jurisdictions.

The transactions separating us from Alberto-Culver were intended to qualify as a reorganization under Section 368(a)(1)(D) of the Internal Revenue Code of 1986, as amended (the Code) and a distribution eligible for non-recognition under Sections 355(a) and 361(c) of the Code. In connection with the share distribution of Alberto-Culver common stock in the Separation Transactions, we received: (i) a private letter ruling from the IRS; and (ii) an opinion of Sidley Austin LLP, counsel to Alberto-Culver, in each case, to the effect that the transactions qualify as a reorganization under Section 368(a)(1)(D) of the Code and a distribution eligible for non-recognition under Sections 355(a) and 361(c) of the Code. Please see the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2010 for additional information about the Separation Transactions.

The Company and Alberto-Culver entered into a tax allocation agreement as part of the Separation Transactions. The agreement provides generally that the Company is responsible for its pre-separation income tax liabilities, calculated on a stand-alone basis, and Alberto-Culver is responsible for the remainder. In the event additional U.S. federal income tax liability related to the period prior to the Separation Transactions was determined, the Company will be jointly and severally liable for these taxes, and there can be no assurance that Alberto-Culver would be able to fulfill its indemnification obligations to the Company under the tax allocation agreement if Alberto-Culver was determined to be responsible for these taxes thereunder.

The IRS has initiated an examination of the Company's consolidated federal income tax returns for the fiscal years ended September 30, 2008 and 2007. The IRS had previously audited the Company's consolidated federal income tax returns through the tax year ended September 30, 2006, thus our statute of limitations remains open from the year ended September 30, 2007 forward. Our foreign subsidiaries are impacted by various statutes of limitations, which are

generally open from 2004 forward. Generally, states' statutes in the United States are open for tax reviews from 2005 forward.

12. Business Combinations

On October 1, 2010, the Company acquired Aerial, an 82-store professional-only distributor of beauty products operating in 11 states in the Midwestern United States, for approximately \$80.9 million. The acquisition was accounted for using the purchase method of accounting and the results of operations of Aerial are included in the Company's consolidated financial statements subsequent to the acquisition date. The assets acquired and liabilities assumed, including intangible assets subject to amortization of \$34.7 million, were recorded at their respective fair values at the acquisition date. In addition, goodwill of \$25.4 million (which is expected to be deductible for tax purposes) was recorded as a result of this acquisition. The acquisition was funded with borrowings in the amount of \$78.0 million under the prior ABL facility (which have since been paid in full) and with cash from operations.

13. Business Segments

The Company's business is organized into two separate segments: (i) Sally Beauty Supply, primarily a domestic and international chain of cash and carry retail stores which offers professional beauty supplies to both salon professionals and retail customers and (ii) BSG, including its franchise-based business Armstrong McCall, a full service beauty supply distributor which offers professional brands of beauty products directly to salons through its own sales force and professional-only stores (including franchise stores) in generally exclusive geographical territories in North America, Puerto Rico and parts of Europe.

Sales between segments, which were eliminated in consolidation, were not material during the six months ended March 31, 2011 and 2010. Segment data for the three and six months ended March 31, 2011 and 2010 is as follows (in thousands):

Overview

Description of Business

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

Through Sally Beauty Supply and BSG (which operates stores under the CosmoProf service mark), we operated a multi-channel platform of 4,021 stores and supplied 186 franchised stores as of March 31, 2011, principally in North America, South America and selected European countries. We are the largest distributor of professional beauty supplies in the U.S. based on store count. Within BSG, we also have one of the largest networks of professional distributor sales consultants in North America, with approximately 1,119 professional distributor sales consultants who sell directly to salons and salon professionals. We provide our customers with a wide variety of leading third-party branded and exclusive-label professional beauty supplies, including hair color products, hair care products, styling appliances, skin and nail care products and other beauty items. Sally Beauty Supply stores target retail consumers and salon professionals, while BSG exclusively targets salons and salon professionals. For the six months ended March 31, 2011, our consolidated net sales and operating earnings were \$1,595.4 million and \$198.0 million, respectively.

We believe Sally Beauty Supply is the largest open-line distributor of professional beauty supplies in the U.S. based on store count. As of March 31, 2011, Sally Beauty Supply operated 3,055 company-operated retail stores, 2,458 of which are located in the U.S. (with the remainder in Puerto Rico, Canada, Mexico, Chile, the United Kingdom, Ireland, Belgium, France, Germany and Spain) and supplied 28 franchised stores located outside the U.S. Sally Beauty Supply stores in the U.S. and Canada range in size between 1,500 square feet and 1,700 square feet and are primarily located in strip shopping centers. The product selection in Sally Beauty Supply stores ranges between 4,000 and 8,000 SKUs of beauty products and includes products for hair color, hair care, skin and nail care, beauty sundries and electrical appliances that target retail consumers and salon professionals. Sally Beauty Supply stores carry leading third-party brands such as Clairol®, Revlon® and Conair®, as well as an extensive selection of exclusive-label merchandise. Store formats, including average size and product selection, for Sally Beauty Supply

outside the U.S. and Canada vary by marketplace. For the six months ended March 31, 2011, Sally Beauty Supply's net sales and segment operating profit were \$971.9 million and \$177.5 million, respectively.

We believe BSG is the largest full-service distributor of professional beauty supplies in the U.S. As of March 31, 2011, BSG had 966 company-operated stores, supplied 158 franchised stores and had a sales force of approximately 1,119 professional distributor sales consultants selling exclusively to salons and salon professionals in all states in the U.S. and in portions of Canada, Puerto Rico, Mexico and certain European countries. BSG stores average approximately 2,700 square feet and are primarily located in secondary strip shopping centers. Through BSG's large store base and sales force, BSG is able to access a significant portion of the highly fragmented U.S. salon channel. The product selection in BSG stores, ranging between 5,000 and 10,000 SKUs of beauty products, includes hair color and care, skin and nail care, beauty sundries and electrical appliances, and targets salons and salon professionals. BSG carries leading professional beauty product brands, intended for use in salons and for resale by the salon to consumers. Certain BSG products are sold under exclusive distribution agreements with suppliers, whereby BSG is designated as the sole distributor for a product line within certain geographic territories. For the six months ended March 31, 2011, BSG's net sales and segment operating profit were \$623.5 million and \$68.7 million, respectively.

Industry and Business Trends

We operate primarily within the large and growing U.S. professional beauty supply industry. Potential growth in the industry is expected to be driven by increases in hair color, hair loss prevention and hair styling products. We believe the following key industry and business trends and characteristics will influence our business and our financial results going forward:

- *High level of marketplace fragmentation.* The U.S. salon channel is highly fragmented with over 250,000 hair salons. Given the fragmented and small-scale nature of the salon industry, we believe that salon operators will continue to depend on full-service/exclusive distributors and open-line channels for a majority of their beauty supply purchases.
- *Growth in booth renting and frequent stocking needs.* Salon professionals primarily rely on just-in-time inventory due to capital constraints and a lack of warehouse and shelf space at salons. In addition, booth renters, who comprise a significant percentage of total U.S. salon professionals, are often responsible for purchasing their own supplies. Historically, booth renters have significantly increased as a percentage of total salon professionals, and we expect this trend to continue. Given their smaller individual purchases and relative lack of financial resources, booth renters are likely to be dependent on frequent trips to professional beauty supply stores, like BSG and Sally Beauty Supply. We expect that these factors will continue to drive demand for conveniently located professional beauty supply stores.
- *Increasing use of exclusive-label products.* We offer a broad range of exclusive-label products. As our lines of exclusive-label products have matured and become better known in our retail stores, we have seen an increase in sales of these products. Generally, our exclusive-label products have higher gross margins for us than the leading third-party branded products and, accordingly, we believe that the growth in sales of these products will likely enhance our overall gross margins. Please see Risk Factors - We depend upon manufacturers who may be unable to provide products of adequate quality or who may be unwilling to continue to supply products to us in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2010.

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

- *Favorable demographic and consumer trends.* We expect the aging baby-boomer population to drive future growth in professional beauty supply sales through an increase in the usage of hair color and hair loss products. Additionally, continuously changing fashion-related trends that drive new hair styles are expected to result in continued demand for hair styling products. Changes in consumer tastes and fashion trends can have an impact on our financial performance. Our continued success depends largely on our ability to anticipate, gauge and react in a timely and effective manner to changes in consumer spending patterns and preferences for beauty products. We continuously adapt our marketing and merchandising initiatives in an effort to expand our market reach or to respond to changing consumer preferences. If we are unable to anticipate and respond to trends in the marketplace for beauty products and changing consumer demands, our business could suffer.

- *International growth strategies.* A key element of our growth strategy depends on our ability to capitalize on growth in the international marketplace and to grow our current level of non-U.S. operations. For example, in December 2009, we acquired Sinelco Group BVBA (Sinelco), a wholesale distributor of

Table of Contents

professional beauty products located in Belgium with sales throughout Europe. In addition, in September 2009, we acquired Intersalon, a leading distributor of premier beauty supply products with 16 stores located in Chile. These acquisitions furthered our expansion plans in Europe and Latin America, key targets of Sally Beauty Supply's international growth initiative. We intend to continue to identify and evaluate non-U.S. acquisition and/or international organic growth targets. Our ability to grow our non-U.S. operations, integrate our new non-U.S. acquisitions and successfully pursue additional non-U.S. acquisition and/or international organic growth targets may be affected by business, legal, regulatory and economic risks. Please see Risk Factors - We may not be able to successfully identify acquisition candidates and complete desirable acquisitions. If we acquire any businesses in the future, they could prove difficult to integrate, disrupt our business or have an adverse effect on our results of operations and Our ability to conduct business in international marketplaces may be affected by legal, regulatory and economic risks in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2010.

- *Continuing consolidation.* There is continuing consolidation among professional beauty product distributors and professional beauty product manufacturers. We plan to continue to examine ways in which we can benefit from this trend, including reviewing opportunities to shift business within the professional beauty products channel from competitive distributors to the BSG network as well as seeking opportunistic, value-added acquisitions which complement our long-term growth strategy. We believe that suppliers are increasingly likely to focus on larger distributors and retailers with a broader scale and retail footprint. We also believe that we are well positioned to capitalize on this trend as well as participate in the ongoing consolidation at the distributor/retail level. However, changes often occur in our relationships with suppliers that may materially affect the net sales and operating earnings of our business segments. Consolidation among suppliers could exacerbate the effects of these relationship changes and could increase pricing pressures. For example, as we announced in the fiscal year 2007, one of our largest suppliers, L'Oréal, moved a material amount of revenue out of the BSG nationwide distribution network and into competitive regional distribution networks. More recently, L'Oréal acquired distributors competing with BSG in the Midwest, Southeast and West Coast regions of the U.S. and, as a result, directly competes with BSG in certain geographic areas. If L'Oréal acquired other distributors or suppliers that conduct significant business with BSG, we could lose related revenue. There can be no assurance that BSG will not lose further revenue over time (including within its franchise-based business) due to potential losses of additional products (both from L'Oréal and from other suppliers) as well as from the increased competition from L'Oréal-affiliated distribution networks. Please see Risk Factors - The beauty products distribution industry is highly competitive and is consolidating and We depend upon manufacturers who may be unable to provide products of adequate quality or who may be unwilling to continue to supply products to us in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2010.

- *Relationships with suppliers.* Sally Beauty Supply/BSG and their suppliers are dependent on each other for the distribution of beauty products. We do not manufacture the brand name or exclusive-label products we sell. We purchase our products from a limited number of manufacturers. As is typical in distribution businesses (particularly in our industry), these relationships are subject to change from time to time (including the expansion or loss of distribution rights in various geographies and the addition or loss of product lines). Since we purchase products from many manufacturers on an at-will basis, under contracts which can generally be terminated without cause upon 90 days' notice or less or which expire without express rights of renewal, such manufacturers could discontinue sales to us at any time or upon the expiration of the distribution period. Some of our contracts with manufacturers may be terminated by such manufacturers if we fail to meet specified minimum purchase requirements. In such cases, we do not have contractual assurances of continued supply, pricing or access to new products and vendors may change the terms upon which they sell. Infrequently, a supplier will seek to terminate a distribution relationship through legal action. For example, in 2007 Farouk Systems, Inc. filed an action seeking a declaratory judgment that it was entitled to terminate a long-term distribution agreement with Armstrong McCall. In 2010 that matter was settled and BSG now sells Farouk products in some territories. Changes in our relationships with suppliers occur often and could positively or negatively impact our net sales and operating profits. Although we focus on developing new revenue and cost management initiatives to mitigate the negative effects resulting from unfavorable changes in our supplier relationships, there can be no assurance that our efforts will continue to completely offset the loss of these or other distribution rights. Please see Risk Factors - We depend upon manufacturers who may be unable to provide products of adequate quality or who may be unwilling to continue to supply products to us in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2010.

Table of Contents

We expect to continue to expand our product line offerings and to gain additional distribution rights over time through either further negotiation with suppliers or by acquisitions of existing distributors. Although we are focused on developing new revenue and cost management initiatives, there can be no assurance that our efforts will partially or completely offset any potential loss of distribution rights in the future. Please see Risk Factors We depend upon manufacturers who may be unable to provide products of adequate quality or who may be unwilling to continue to supply products to us in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2010.

- *High level of competition.* Sally Beauty Supply competes with other domestic and international beauty product wholesale and retail outlets, including local and regional open-line beauty supply stores, professional-only beauty supply stores, salons, mass merchandisers, drug stores and supermarkets, as well as sellers on the internet and salons retailing hair care items. BSG competes with other domestic and international beauty product wholesale and retail suppliers and manufacturers selling professional beauty products directly to salons and individual salon professionals. We also face competition from authorized and unauthorized retailers and internet sites offering professional salon-only products. The increasing availability of unauthorized professional salon products in large format retail stores such as drug stores, grocery stores and others could also have a negative impact on our business. Please see Risk Factors The beauty products distribution industry is highly competitive and is consolidating in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2010.

- *Economic conditions.* We appeal to a wide demographic consumer profile and offer a broad selection of beauty products sold directly to retail consumers and salons and salon professionals. Historically, these factors have provided us with reduced exposure to downturns in economic conditions in the countries in which we operate. However, a downturn in the economy, especially for an extended period of time, could adversely impact consumer demand of discretionary items such as beauty products and salon services, particularly affecting our electrical products category and our full-service sales business. In addition, higher freight costs resulting from increases in the cost of fuel, especially for an extended period of time, may impact our expenses at levels that we cannot pass through to our customers. These factors could have a material adverse effect on our business, financial condition and results of operations. Please see Risk Factors The health of the economy in the channels we serve may affect consumer purchases of discretionary items such as beauty products and salon services, which could have a material adverse effect on our business, financial condition and results of operations in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2010.

- *Controlling expenses.* Another important aspect of our business is our ability to control costs, especially in our BSG business segment, by right-sizing the business and maximizing the efficiency of our structure. In 2009, we completed implementation of an approximately \$22.0 million capital spending program to consolidate warehouses and reduce administrative expenses related to BSG's distribution network which has resulted in annualized cost savings of at least \$14.0 million beginning in the fiscal year 2010. Please see Risk Factors We are not certain that our ongoing cost control plans will continue to be successful in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2010.

- *Opening new stores.* Our future growth strategy depends in part on our ability to open and profitably operate new stores in existing and additional geographic areas. The capital requirements to open a U.S.-based Sally Beauty Supply or BSG store, excluding inventory, average approximately \$70,000 and \$80,000, respectively, with the capital requirements for international stores costing less or substantially more depending upon the marketplace. We may not be able to open all of the new stores we plan to open and any new stores we open may not be profitable, any of which could have a material adverse impact on our financial condition or results of operations. Please see Risk Factors If we are unable to profitably open and operate new stores, our business, financial condition and results of operations may be adversely affected in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2010.

- *Changes to our information technology systems.* As our operations grow in both size and scope, we will continuously need to improve and upgrade our information systems and infrastructure while maintaining the reliability and integrity of our systems and infrastructure. The

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

expansion of our systems and infrastructure will require us to commit substantial financial, operational and technical resources in advance of any increase in the volume of our business, with no assurance that the volume of business will increase. For example, we have recently upgraded our financial reporting systems in the U.S. and are in the process of designing and implementing a standardized ERP system internationally over the next few years. In addition, we are currently implementing a three-year point-of-sale system upgrade program in a number of our divisions (including our Sally Beauty Supply operations in the U.S.), which we anticipate will provide

Table of Contents

significant benefits, including enhanced tracking of customer sales and store inventory activity. These and any other required upgrades to our information systems and information technology (or new technology), now or in the future, will require that our management and resources be diverted from our core business to assist in completion of these projects. There can be no assurance that the time and resources our management will need to devote to these upgrades, service outages or delays due to the installation of any new or upgraded technology (and customer issues therewith), or the impact on the reliability of our data from any new or upgraded technology will not have a material adverse effect on our financial reporting, business, financial condition or results of operations. Please see **Risk Factors** We may be adversely affected by any disruption in our information technology systems in Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2010.

Significant Recent Acquisitions

On October 1, 2010, we acquired Aerial, an 82-store professional-only distributor of beauty products operating in 11 states in the Midwestern United States, for approximately \$80.9 million. The acquisition was accounted for using the purchase method of accounting and the results of operations of Aerial are included in the Company's consolidated financial statements subsequent to the acquisition date. The assets acquired and liabilities assumed, including intangible assets subject to amortization of \$34.7 million, were recorded at their respective fair values at the acquisition date. In addition, goodwill of \$25.4 million (which is expected to be deductible for tax purposes) was recorded as a result of this acquisition. The acquisition was funded with borrowings in the amount of \$78.0 million under our ABL facility (which we have since paid in full) and with cash from operations. Please see Note 2 of the **Notes to Consolidated Financial Statements** in Item 8 - **Financial Statements and Supplementary Data** contained in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2010 for additional information about the Company's accounting policies in connection with business combinations.

Our Separation from Alberto-Culver

In November 2006, Sally Holdings, Inc. was converted to a Delaware limited liability company, was renamed **Sally Holdings LLC** and became an indirect wholly-owned subsidiary of Sally Beauty in connection with our separation from Alberto-Culver. In this Quarterly Report on Form 10-Q, we refer to these transactions as the Separation Transactions. Sally Beauty was formed in June 2006 and became the accounting successor company to Sally Holdings, Inc. upon the completion of the Separation Transactions. Please see the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2010 for more information about the Separation Transactions.

Other Significant Items

Derivative Instruments

As a multinational corporation, we are subject to certain market risks including changes in market interest rates and foreign currency fluctuations. We may consider a variety of practices in the ordinary course of business to manage these market risks, including, when deemed appropriate, the use of derivative instruments.

Interest Rate Swap Agreements

The Company is exposed to a wide variety of economic risks, including risks arising from changing market interest rates. The Company manages its exposure to certain economic risks (including liquidity, credit risk and changes in interest rates) primarily (a) by closely managing its cash flows from operating and investing activities and the amounts and sources of its debt obligations; (b) by assessing periodically the creditworthiness of its business partners; and (c) through the use of interest rate swaps by Sally Holdings. The Company uses interest rate swaps as part of its overall economic risk management strategy to add stability to the interest payments due in connection with its term loan obligations. Interest payments related to our term loan are impacted by changes in LIBOR. Interest rate swap agreements involve the periodic receipt by Sally Holdings of amounts based on a variable rate in exchange for Sally Holdings making payments based on a fixed rate over the term of the agreements without exchange of the underlying notional amount.

In November 2006, Sally Holdings entered into certain interest rate swap agreements with an aggregate notional amount of \$500 million. Interest rate swap agreements with an aggregate notional amount of \$150 million expired in November 2008 and agreements with an aggregate notional amount of \$350 million expired in November 2009. These interest rate swap agreements were not designated and did not qualify as hedges and, therefore, the changes in

Table of Contents

fair value of these agreements, which were adjusted quarterly, were recorded in interest expense in our consolidated statements of earnings.

Additionally, in May 2008, Sally Holdings entered into certain interest rate swap agreements with an aggregate notional amount of \$300 million. These interest rate swap agreements expire in May of 2012 and are designated and qualify as effective cash flow hedges, consistent with ASC 815. Accordingly, adjustments to reflect the change in the fair values of these interest rate swap agreements, which are adjusted quarterly, are recorded in accumulated other comprehensive (loss) income, net of tax, until the hedged obligation is settled or the swap agreements expire, whichever is earlier. Any ineffectiveness is recognized in interest expense in the Company's consolidated statements of earnings. Please see Item 3 Quantitative and Qualitative Disclosures about Market Risk Interest rate risk contained elsewhere in this Quarterly Report and Note 15 of the Notes to Consolidated Financial Statements in Item 8 - Financial Statements and Supplementary Data contained in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2010 for additional information about the Company's interest swap agreements.

Foreign Currency Option and Forward Contracts

The Company is exposed to potential gains or losses from foreign currency fluctuations affecting its net investments in subsidiaries and earnings denominated in foreign currencies. The Company's primary exposures are to changes in exchange rates for the U.S. dollar versus the Euro, the British pound sterling, the Canadian dollar, the Mexican peso, and the Chilean peso. The Company's various foreign currency exposures at times offset each other providing a natural hedge against foreign currency risk. In connection with our remaining exposure to foreign currency fluctuations, we from time to time use foreign currency derivative instruments, such as foreign currency option contracts and foreign currency forward contracts, to manage such risk.

In October 2010, the Company entered into certain foreign currency option agreements to manage the exposure to certain non-Euro currencies resulting from our Sinelco Group subsidiaries' purchases of merchandise from third-party suppliers. Sinelco's functional currency is the Euro. As such, at March 31, 2011, the Company held foreign currency options with an aggregate notional amount of \$5.1 million (\$7.2 million, at the March 31, 2011 exchange rate). These foreign currency options expire ratably through September 2011.

In addition, the Company uses foreign currency forwards to mitigate its exposure to changes in foreign currency exchange rates in connection with certain intercompany balances not permanently invested. At March 31, 2011, certain of our foreign currency forwards enable us to sell, in the aggregate, approximately \$14.3 million (\$20.3 million, at the March 31, 2011 exchange rate) at the weighted average contractual exchange rate of 1.39926, including a foreign currency forward with a notional amount of \$5.0 million which expires in April 2011 and foreign currency forwards with an aggregate notional amount of \$9.3 million which expire in June 2011. In addition, we hold a foreign currency forward which expires in June 2011 and enables us to buy approximately \$10.8 million Canadian dollars (\$11.1 million, at the March 31, 2011 exchange rate) at the contractual exchange rate of 0.97636 and a foreign currency forward which expires in June 2011 and enables us to buy approximately £1.3 million (\$2.0 million, at the March 31, 2011 exchange rate) at the contractual exchange rate of 1.59673.

The Company's foreign currency options and forwards are not designated as hedges and do not currently meet the hedge accounting requirements of ASC 815. Accordingly, the changes in the fair value of these derivative instruments, which are adjusted quarterly, are recorded in selling, general and administrative expenses in our consolidated statements of earnings. Please see Item 3 Quantitative and Qualitative Disclosures about Market Risk Interest rate risk contained elsewhere in this Quarterly Report and Note 15 of the Notes to Consolidated Financial Statements in Item 8 - Financial Statements and Supplementary Data contained in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2010 for additional information about the Company's foreign currency option and forward agreements.

Net Sales

Consolidated net sales increased by \$81.3 million, or 11.3%, for the three months ended March 31, 2011, compared to the three months ended March 31, 2010. Company-operated stores that have been open for at least 14 months contributed an increase in consolidated net sales of approximately \$61.6 million, or 8.6%, sales through our BSG distributor sales consultants contributed an increase of approximately \$11.4 million, or 1.6%, and our Sally Beauty Supply non-store sales channels contributed an increase of approximately \$11.9 million, or 1.7%. Incremental sales from businesses acquired in the preceding 12 months were approximately \$5.3 million, or 0.7%, less for the three months ended March 31, 2011, than for the three months ended March 31, 2010. Other sales channels (including sales from stores that have been open for less than 14 months and sales to our BSG franchise-based businesses), in the aggregate, contributed an increase of \$1.7 million, or 0.2%, compared to the three months ended March 31, 2010. Consolidated net sales for the three months ended March 31, 2011 are inclusive of approximately \$4.1 million in net positive impact from changes in foreign exchange rates.

Sally Beauty Supply. Net sales for Sally Beauty Supply increased by \$37.2 million, or 8.2%, for the three months ended March 31, 2011, compared to the three months ended March 31, 2010. In the Sally Beauty Supply segment, company-operated stores that have been open for at least 14 months contributed an increase in segment net sales of approximately \$37.5 million, or 8.3%, and the segment's non-store sales channels (which, after December 16, 2010, include the catalog and internet sales of our Sinelco Group subsidiaries) contributed an increase of approximately \$11.9 million, or 2.6%. Incremental sales from businesses acquired in the preceding 12 months were approximately \$12.6 million, or 2.8%, less for the three months ended March 31, 2011, than for the three months ended March 31, 2010. Other sales channels (including sales from stores that have been open for less than 14 months) experienced a slight increase in sales compared to the three months ended March 31, 2010. Net sales for Sally Beauty Supply for the three months ended March 31, 2011 are inclusive of approximately \$2.3 million in net positive impact from changes in foreign exchange rates.

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

Beauty Systems Group. Net sales for BSG increased by \$44.1 million, or 16.5%, for the three months ended March 31, 2011, compared to the three months ended March 31, 2010. In the BSG segment, company-operated stores that

Table of Contents

have been open for at least 14 months contributed an increase in segment net sales of approximately \$24.1 million, or 9.0%, sales through our distributor sales consultants contributed an increase of approximately \$11.4 million, or 4.3%, and incremental sales from businesses acquired in the preceding 12 months contributed an increase of approximately \$7.4 million, or 2.8%, more for the three months ended March 31, 2011, than for the three months ended March 31, 2010. Other sales channels (including stores that have been open for less than 14 months and sales to our franchise-based businesses), in the aggregate, contributed an increase of \$1.2 million, or 0.5%, compared to the three months ended March 31, 2010. Net sales for BSG for the three months ended March 31, 2011 are inclusive of approximately \$1.8 million in net positive impact from changes in foreign exchange rates.

Gross Profit

Consolidated gross profit increased by \$47.5 million, or 13.8%, for the three months ended March 31, 2011, compared to the three months ended March 31, 2010, principally due to higher sales volume and improved gross margins in both business segments as more fully described below.

Sally Beauty Supply. Sally Beauty Supply's gross profit increased by \$26.1 million, or 10.8%, for the three months ended March 31, 2011, compared to the three months ended March 31, 2010, principally as a result of higher sales volume and improved gross margins. Sally Beauty Supply's gross profit as a percentage of net sales increased to 54.4% for the three months ended March 31, 2011, compared to 53.1% for the three months ended March 31, 2010. This increase was the result of a shift in product and customer mix (including a year-over-year increase in sales of exclusive-label products and other higher-margin products) and continued benefits from low-cost sourcing initiatives.

Beauty Systems Group. BSG's gross profit increased by \$21.5 million, or 20.8%, for the three months ended March 31, 2011, compared to the three months ended March 31, 2010, principally as a result of higher sales volume and improved gross margins. BSG's gross profit as a percentage of net sales increased to 40.1% for the three months ended March 31, 2011, compared to 38.7% for the three months ended March 31, 2010. This increase was principally the result of a favorable change in the sales mix across the business, product cost reduction initiatives and synergies from recent business acquisitions.

Selling, General and Administrative Expenses

Consolidated selling, general and administrative expenses increased by \$23.9 million, or 9.7%, for the three months ended March 31, 2011, compared to the three months ended March 31, 2010. This increase was attributable to incremental expenses (including employee compensation, rent and other occupancy-related expenses) resulting from stores opened and from businesses acquired in the preceding 12 months (including an increase of 253 company-operated stores, or 6.7%, since March 31, 2010), higher freight and distribution expenses (\$2.9 million), higher advertising expenses in the Sally Beauty Supply segment (\$1.2 million) and corporate expenses related primarily to on-going upgrades to our information technology systems (\$1.2 million). Selling, general and administrative expenses, as a percentage of net sales, decreased to 33.8% for the three months ended March 31, 2011, compared to 34.4% for the three months ended March 31, 2010, principally as a result of the growth in consolidated net sales described above and synergies from recent business acquisitions.

Depreciation and Amortization

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

Consolidated depreciation and amortization was \$14.8 million for the three months ended March 31, 2011, compared to \$12.4 million for the three months ended March 31, 2010. This increase reflects the incremental depreciation and amortization expenses associated with businesses acquired in the preceding 12 months and with capital expenditures made during that period (mainly in connection with store openings in both operating segments and with ongoing information technology upgrades), partially offset by the impact of assets that became fully depreciated in the preceding 12 months.

Table of Contents**Operating Earnings**

The following table sets forth, for the periods indicated, information concerning our operating earnings for each reportable segment (dollars in thousands):

	2011		Three Months Ended March 31, 2010		Increase		
Operating Earnings:							
Segment operating profit:							
Sally Beauty Supply	\$	93,945	\$	79,520	\$	14,425	18.1%
BSG		33,527		26,027		7,500	28.8%
Segment operating profit		127,472		105,547		21,925	20.8%
Unallocated expenses		(19,379)		(18,806)		573	3.0%
Share-based compensation expense		(2,437)		(2,383)		54	2.3%
Operating earnings	\$	105,656	\$	84,358	\$	21,298	25.2%

Consolidated operating earnings increased by \$21.3 million, or 25.2%, for the three months ended March 31, 2011, compared to the three months ended March 31, 2010. The increase in consolidated operating earnings was due primarily to an increase in the operating profits of both segments, as more fully discussed below. Operating earnings, as a percentage of net sales, increased to 13.2% for the three months ended March 31, 2011, compared to 11.7% for the three months ended March 31, 2010. This increase reflects the increase in consolidated gross profit described above, as well as a lower growth rate in consolidated operating expenses compared to the growth rate in consolidated gross profit.

Sally Beauty Supply. Sally Beauty Supply's segment operating earnings increased by \$14.4 million, or 18.1%, for the three months ended March 31, 2011, compared to the three months ended March 31, 2010. The increase in Sally Beauty Supply's segment operating earnings was primarily a result of increased sales volume and improved gross margins, partially offset by higher advertising costs of approximately \$1.2 million and the incremental costs related to approximately 135 additional company-operated stores (stores opened or acquired during the past twelve months) operating during the three months ended March 31, 2011. Segment operating earnings, as a percentage of net sales, increased to 19.1% for the three months ended March 31, 2011, compared to 17.5% for the three months ended March 31, 2010. The increase in Sally Beauty Supply's operating earnings as a percentage of segment net sales reflects the growth in the segment's gross profit described above, as well as a lower growth rate in the segment's operating expenses compared to the growth rate in the segment's gross profit.

Beauty Systems Group. BSG's segment operating earnings increased by \$7.5 million, or 28.8%, for the three months ended March 31, 2011, compared to the three months ended March 31, 2010. The increase in BSG operating earnings was primarily a result of the gross margin improvements described above, the incremental operating earnings of businesses acquired and stores opened (BSG had an additional 118 company-operated stores at March 31, 2011, including 82 stores resulting from the October 2010 acquisition of Aerial), and to ongoing cost reduction initiatives. Segment operating earnings, as a percentage of net sales, increased to 10.8% for the three months ended March 31, 2011, compared to 9.8% for the three months ended March 31, 2010.

Unallocated Expenses. Unallocated expenses, which represent corporate costs (such as payroll, employee benefits and travel expenses for corporate staff, certain professional fees and corporate governance expenses) that have not been charged to our operating segments, increased by \$0.6 million, or 3.0%, for the three months ended March 31, 2011, compared to the three months ended March 31, 2010. Unallocated expenses, for the three months ended March 31, 2011, reflect an increase in corporate expenses related primarily to on-going upgrades to our information technology systems, partially offset by lower acquisition-related expenses compared to the three months ended March 31, 2010.

Table of Contents

Share-based Compensation Expense. Total compensation cost charged against income for share-based compensation arrangements was \$2.4 million for each of the three months ended March 31, 2011 and 2010. Share-based compensation expense, for the three months ended March 31, 2011, reflects the incremental expenses related to, as well as the higher fair value at the grant date of, stock option and stock awards during the six months ended March 31, 2011, compared to stock option awards during the six months ended March 31, 2010, offset by the impact of share-based awards that became fully vested during the preceding 12 months.

Interest Expense

Interest expense decreased by \$0.6 million to \$27.8 million for the three months ended March 31, 2011, compared to \$28.4 million for the three months ended March 31, 2010. The decrease in interest expense was primarily attributable to lower outstanding principal balances on our senior term loans (please see *Liquidity and Capital Resources* below).

Provision for Income Taxes

The provision for income taxes was \$28.6 million and \$21.4 million, and the effective income tax rate was 36.7% and 38.2%, for the three months ended March 31, 2011 and 2010, respectively. The decrease in the effective tax rate was primarily due to tax benefits associated with discrete items during the period ended March 31, 2011, compared to the period ended March 31, 2010.

The annual effective tax rate for the fiscal year 2011 is currently expected to be in the range of 37% to 38%, versus a comparable actual tax rate for the full fiscal year 2010 of 36.9%.

Net Earnings

As a result of the foregoing, consolidated net earnings increased by \$14.7 million, or 42.6%, to \$49.3 million for the three months ended March 31, 2011, compared to \$34.6 million for the three months ended March 31, 2010. Net earnings, as a percentage of net sales, were 6.1% for the three months ended March 31, 2011, compared to 4.8% for the three months ended March 31, 2010.

Net Sales

Consolidated net sales increased by \$170.1 million, or 11.9%, for the six months ended March 31, 2011, compared to the six months ended March 31, 2010. Company-operated stores that have been open for at least 14 months contributed an increase in consolidated net sales of approximately \$116.6 million, or 8.2%, sales through our BSG distributor sales consultants contributed an increase of approximately \$21.9 million, or 1.5%, and our Sally Beauty Supply non-store sales channels contributed an increase of approximately \$12.9 million, or 0.9%. In addition, sales from stores that have been open for less than 14 months contributed an increase of approximately \$8.5 million, or 0.6%, and incremental sales from businesses acquired in the preceding 12 months were approximately \$8.1 million, or 0.6%, more for the six months ended March 31, 2011, than for the six months ended March 31, 2010. Other sales channels (including sales to our BSG franchise-based businesses) experienced a slight increase in sales compared to the six months ended March 31, 2010. Consolidated net sales for the six months ended March 31, 2011 are inclusive of approximately \$2.1 million in net positive impact from changes in foreign exchange rates.

Sally Beauty Supply. Net sales for Sally Beauty Supply increased by \$79.9 million, or 9.0%, for the six months ended March 31, 2011, compared to the six months ended March 31, 2010. In the Sally Beauty Supply segment, company-operated stores that have been open for at least 14 months contributed an increase in segment net sales of approximately \$69.7 million, or 7.8%, while our non-store sales channels (which, after December 16, 2010, include the catalog and internet sales of our Sinelco Group subsidiaries) contributed an increase in segment net sales of approximately \$12.9 million, or 1.4%. Other sales channels (including incremental sales from businesses acquired in the preceding 12 months and sales from stores that have been open for less than 14 months), in the aggregate, experienced a net decline in sales of \$2.7 million, or 0.3%, compared to the six months ended March 31, 2010.

Beauty Systems Group. Net sales for BSG increased by \$90.1 million, or 16.9%, for the six months ended March 31, 2011, compared to the six months ended March 31, 2010. In the BSG segment, company-operated stores that have been open for at least 14 months contributed an increase in segment net sales of approximately \$46.9 million, or 8.8%, sales from stores that have been open for less than 14 months contributed an increase of approximately \$7.5 million, or 1.4%, and sales through our distributor sales consultants contributed an increase of approximately \$21.9 million, or 4.1%. In addition, incremental sales from businesses acquired in the preceding 12 months were approximately \$11.8 million, or 2.2%, more for the six months ended March 31, 2011, than for the six months ended March 31, 2010. Other sales channels (including sales to our franchise-based businesses) experienced a 0.4% increase in sales compared to the six months ended March 31, 2010.

Gross Profit

Consolidated gross profit increased by \$93.7 million, or 13.8%, for the six months ended March 31, 2011, compared to the six months ended March 31, 2010, principally due to higher sales volume and improved gross margins in both business segments as more fully described below.

Sally Beauty Supply. Sally Beauty Supply's gross profit increased by \$51.6 million, or 10.9%, for the six months ended March 31, 2011, compared to the six months ended March 31, 2010, principally as a result of higher sales volume and improved gross margins. Sally Beauty Supply's gross profit as a percentage of net sales increased to 53.8% for the six months ended March 31, 2011, compared to 52.8% for the six months ended March 31, 2010. This increase was the result of a shift in product and customer mix (including a year-over-year increase in sales of exclusive-label products and other higher-margin products) and continued benefits from low-cost sourcing initiatives.

Edgar Filing: Sally Beauty Holdings, Inc. - Form 10-Q

Beauty Systems Group. BSG's gross profit increased by \$42.1 million, or 20.4%, for the six months ended March 31, 2011, compared to the six months ended March 31, 2010, principally as a result of higher sales volume and improved gross margins. BSG's gross profit as a percentage of net sales increased to 39.8% for the six months ended March 31, 2011, compared to 38.7% for the six months ended March 31, 2010. This increase was principally the result of a favorable change in the sales mix across the business, product cost reduction initiatives and synergies from recent business acquisitions.

Selling, General and Administrative Expenses

Consolidated selling, general and administrative expenses increased by \$46.0 million, or 9.2%, for the six months ended March 31, 2011, compared to the six months ended March 31, 2010. This increase was attributable to incremental expenses (including employee compensation, rent and other occupancy-related expenses) resulting from

stores opened and from businesses acquired in the preceding 12 months (including an additional 253 company-operated stores, or 6.7%, since March 31, 2010), as well as higher share-based compensation expense (\$2.9 million), higher freight and distribution expenses (\$5.6 million), higher advertising expenses in the Sally Beauty Supply segment (\$3.4 million) and corporate expenses related primarily to on-going upgrades to our information technology systems (\$1.8 million). Selling, general and administrative expenses, as a percentage of net sales, decreased to 34.1% for the six months ended March 31, 2011, compared to 35.0% for the six months ended March 31, 2010 principally as a result of the growth in consolidated net sales described above, and synergies from recent business acquisitions.

Depreciation and Amortization

Consolidated depreciation and amortization was \$28.9 million for the six months ended March 31, 2011, compared to \$24.3 million for the six months ended March 31, 2010. This increase reflects the incremental depreciation and amortization expenses associated with businesses acquired in the preceding 12 months and with capital expenditures made during that period (mainly in connection with store openings in both operating segments and with ongoing information technology upgrades), partially offset by the impact of assets that became fully depreciated in the preceding 12 months.
