**Item 1.01. Entry into a Material Definitive Agreement.**

On November 16, 2012, Sanchez Energy Corporation (the *Company*), together with its subsidiaries SEP Holdings III, LLC (*SEP*) and SN Marquis LLC (*SN Marquis*) and, together with the Company and SEP, the *Borrowers*, entered into a previously announced \$250 million first lien revolving credit facility and a \$250 million second lien term loan facility, which are described in further detail below.

On November 16, 2012, the Company entered into a Credit Agreement (the *First Lien Credit Agreement*), dated as of November 15, 2012, among the Borrowers, as borrowers, Capital One, National Association, as administrative agent, sole lead arranger and sole book runner, and each of the other lenders party thereto. The First Lien Credit Agreement provides for a \$250 million revolving credit facility which matures November 16, 2015 and is secured by a senior lien on substantially all of the assets of the Borrowers. Availability under the First Lien Credit Agreement is at all times subject to customary conditions and the then applicable borrowing base, which is initially \$27.5 million and subject to periodic redeterminations. All borrowings under the First Lien Credit Agreement bear interest, at the option of the Borrowers, either at an alternate base rate or a eurodollar rate. The alternate base rate of interest is equal to the sum of (a) the greatest of (i) the Wall Street Journal prime rate, (ii) the federal funds effective rate plus ½ of 1% and (iii) the one-month LIBO Rate multiplied by the statutory reserve rate, plus 1% and (b) the applicable margin. The eurodollar rate of interest is equal to the sum of (x) the LIBO Rate for the applicable interest period multiplied by the statutory reserve rate and (y) the applicable margin. The applicable margin varies from 1.50% to 2.00% for alternate base rate borrowings and from 2.50% to 3.00% for eurodollar borrowings, depending on the utilization of the borrowing base. Furthermore, the Borrowers are required to pay a commitment fee on the unused committed amount at a rate varying from 0.375% to 0.75% per annum, depending on the utilization of the borrowing base.

Also on November 16, 2012, the Company entered into a Credit Agreement (the *Second Lien Credit Agreement* and, together with the First Lien Credit Agreement, the *Credit Agreements*), dated as of November 15, 2012, among the Borrowers, as borrowers, Macquarie Bank Limited, as administrative agent, sole lead arranger and sole book runner, and the other lenders party thereto. The Second Lien Credit Agreement provides for a \$250 million term loan facility which matures May 16, 2016 and is secured by a lien on substantially all of the assets of the Borrowers that is junior to those liens under the First Lien Credit Agreement. The Second Lien Credit Agreement provides for an initial commitment of \$50 million, subject to customary conditions, with the remaining commitments subject to the approval of the lenders and other customary conditions. All borrowings under the Second Lien Credit Agreement bear interest at a eurodollar rate equal to the sum of (a) the LIBO Rate for the applicable interest period and (b) the applicable margin of 8.5%.

The Credit Agreements contain customary affirmative and negative covenants for credit facilities of the respective types and sizes for companies operating in the oil and gas industry, as well as customary events of default (including provisions providing for cross-

default between the Credit Agreements). Furthermore, the Credit Agreements contain financial covenants that require the Borrowers to satisfy certain specified financial ratios, including current assets to current liabilities, interest coverage, total leverage, senior debt leverage and adjusted present value (as such terms may be defined or described in the applicable Credit Agreement). Upon an event of default under a Credit Agreement, the administrative agent thereunder may, at its election or at the direction of lenders holding, as applicable, at least 66 2/3% of (i) the maximum committed amounts (if no borrowings or letters of credit are outstanding) or (ii) the outstanding borrowings and letter of credit exposure (if borrowings or letters of credit are outstanding) thereunder, accelerate the amounts due under its Credit Agreement. The Credit Agreements would be guaranteed by any future restricted subsidiaries (as defined in the Credit Agreements) of the Borrowers.

As of the date of this Current Report on Form 8-K, the Borrowers have not made any draws under either Credit Agreement, but intend to use any future borrowings to fund capital expenditures and for general corporate purposes.

The foregoing description of the Credit Agreements is a summary only and is qualified in its entirety by reference to the complete text of the Credit Agreements, copies of which are attached as Exhibit 10.1 and Exhibit 10.2 to this Current Report on Form 8-K and incorporated herein by reference.

From time to time, the agents and lenders under the Credit Agreements and their affiliates have provided, and may provide in the future, investment banking, commercial lending, hedging and financial advisory services to the Company and its affiliates in the ordinary course of business, for which they have received, or may in the future receive, customary fees and commissions for these transactions.
