Item 1.01 Entry into a Material Definitive Agreement.

Indenture

On December 21, 2012, in connection with its previously announced offering in a private placement (the *Offering*) of \$500 million aggregate principal amount of 4.75% senior notes due 2022 (the *Notes*), IAC/InterActiveCorp (the *Company*), the guarantors party thereto and Computershare Trust Company, N.A., as trustee, executed an indenture relating to the Notes (the *Indenture*).

The information set forth under Item 2.03 is incorporated by reference.

Registration Rights Agreement

In connection with the issuance of the Notes, the Company, the subsidiaries of the Company party thereto and J.P. Morgan Securities LLC, as representative of the several initial purchasers of the Notes, executed a registration rights agreement (the *Registration Rights Agreement*) obligating the Company to file a registration statement with the Securities and Exchange Commission with respect to a registered offer to exchange the Notes for registered notes having substantially the same terms as the Notes (except that the registered notes will not be subject to additional interest provisions or restrictions on ownership or transfer) or, if necessary, file a shelf registration statement with respect to resales of the Notes. The Company will use commercially reasonable efforts to cause the exchanges to be completed within 360 days after the issuance of the Notes. Holders of the Notes will be entitled to the payment of additional interest if the Company does not comply with these obligations within that time period.

Credit Agreement

On December 21, 2012, the Company entered into a Credit Agreement dated as of December 21, 2012 with JPMorgan Chase Bank, N.A., as administrative agent, and the other parties thereto (the *Credit Agreement*). The Credit Agreement provides for a five-year \$300 million revolving facility (the *Revolving Facility*). The proceeds of any loans made under the Revolving Facility can be used for general corporate purposes.

Borrowings under the Credit Agreement bear interest, at the Company's option, at either (i) a base rate or (ii) LIBOR, in each case, plus an applicable margin. The applicable margin on loans made under the Revolving Facility is determined by reference to a pricing grid based on the Company's consolidated leverage ratio.

The Credit Agreement contains certain covenants that restrict the ability of the Company and certain of its subsidiaries to take specified actions, including, among other things and subject to certain significant exceptions: (i) creating liens; (ii) incurring indebtedness; (iii) making investments and acquisitions; (iv) engaging in mergers, dissolutions and other fundamental changes; (v) making dispositions; (vi) making restricted payments, including dividends; (vii) consummating transactions with affiliates; (viii) entering into sale-leaseback transactions; (ix) placing restrictions on distributions from subsidiaries; and (x) changing the fiscal year. The Credit Agreement also contains customary affirmative covenants and events of default.

extent of the value of the collateral securing such indebtedness. The guarantees rank senior in right of payment with the Subsidiary Guarantors existing and future indebtedness that is expressly subordinated in right of payment to the Notes and equal in right of payment to their existing and future unsubordinated indebtedness. The Notes and guarantees are also structurally subordinated to the indebtedness and other obligations of the Company's non-guarantor subsidiaries with respect to the assets of such entities.

The Indenture, among other things, restricts the Company's ability to:

- create liens on certain assets;
- incur additional debt;
- make certain investments and acquisitions;
- consolidate, merge, sell or otherwise dispose of all or substantially all of the Company's assets;
- sell certain assets;
- pay dividends on or make distributions in respect of the Company's capital stock or make restricted payments;
- enter into certain transactions with the Company's affiliates; and
- place restrictions on distributions from subsidiaries.

These covenants are subject to important exceptions and qualifications. In addition, at any time when the Notes are rated investment grade by both Moody's and Standard & Poor's and no default or event of default has occurred and is continuing under the Indenture, the Company and its subsidiaries will not be subject to many of the foregoing covenants.

If an event of default as defined in the Indenture occurs and is continuing (other than specified events of bankruptcy or insolvency with respect to the Company or a significant subsidiary), the Trustee or the holders of at least 25% in principal amount of the outstanding Notes may declare all the outstanding Notes to be due and payable immediately. If an event of default relating to specified events of bankruptcy or insolvency with

respect to the Company occurs, all of the outstanding Notes will immediately become due and payable without any declaration or other act on the part of the Trustee or any holders of the Notes.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
