Ares Dynamic Credit Allocation Fund, Inc.
Notes to Schedule of Investments
January 31, 2018 (Unaudited)
(1) Organization
Ares Dynamic Credit Allocation Fund, Inc. (NYSE: ARDC) ( ARDC or Fund ) is a corporation incorporated under the laws of the State of Maryland and registered with the U.S. Securities and Exchange Commission (the SEC ) under the Investment Company Act of 1940, as amended (the Investment Company Act ), as a closed-end, non-diversified, management investment company, and intends to qualify each year to be treated as a Regulated Investment Company ( RIC ), under Subchapter M of the Internal Revenue Code of 1986, as amended. The Fund commenced operations on November 27, 2012. Ares Capital Management II LLC (the Adviser ) was registered as a Registered Investment Adviser with the SEC on June 9, 2011 and serves as the investment adviser to the Fund.
Investment Objective and Policies
The Fund s investment objective is to seek an attractive risk adjusted level of total return, primarily through current income and, secondarily, through capital appreciation. The Fund seeks to achieve its investment objective by investing primarily in a broad, dynamically managed portfolio of (i) senior secured loans (Senior Loans) made primarily to companies whose debt is rated below investment grade, (ii) corporate bonds (Corporate Bonds) that are primarily high yield issues rated below investment grade, (iii) other fixed-income instruments of a similar nature that may be represented by derivatives, and (iv) securities issued by entities commonly referred to as collateralized loan obligations (CLOs) and other asset-backed securities. The Fund s investments in CLOs may include investments in subordinated tranches of CLO securities. The Adviser will dynamically allocate the Fund s portfolio among investments in the various targeted credit markets, to seek to manage interest rate and credit risk and the duration of the Fund s portfolio.
(2) Significant Accounting Policies
Basis of Presentation
In October 2016, the SEC adopted new rules and amended existing rules (together, final rules) intended to modernize the reporting and disclosure of information by RICs. In part, the final rules amend Regulation S-X and require standardized, enhanced disclosure about derivatives in investment company financial statements, as well as other amendments. The compliance date for the amendments to Regulation S-X is August 1, 2017, and the Investment Adviser has implemented the applicable requirements into this report.

The accompanying financial statements have been prepared on an accrual basis of accounting in conformity with U.S. generally accepted accounting principles ( GAAP ), and includes the accounts of the Fund. The Fund is an investment company following accounting and reporting guidance in Financial Accounting Standards ( FASB ) Accounting Standards Codification ( ASC ) Topic 946, Financial Services Investment Companies. The Adviser makes estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual

results may differ from those estimates and such differences may be material.
Investments Valuation
All investments in securities are recorded at their estimated value, as described in more detail in Note 3.
Revolving loan, bridge loan and delayed draw term loan agreements
For investment purposes, the Fund has entered into certain loan commitments which may include revolving loan, bridge loan, partially unfunded term loan and delayed draw term loan agreements (unfunded loan commitments). Unfunded loan commitments purchased at a discount/premium may include cash received/paid for the amounts representing such discounts/premiums. Unfunded loan commitments are agreements to participate in the lending of up to a specified maximum amount for a specified period. As of January 31, 2018, the fair value of the loans disclosed in the Schedule of Investments does not include unfunded loan commitments, which total \$4,333,362.
Discounts and Premiums
Discounts and premiums on securities purchased are accreted/amortized over the life of the respective security using the effective interest method. The adjusted cost of investments represents the original cost adjusted for PIK interest and the accretion of discounts and amortization of premiums.

Ares Dynamic Credit Allocation Fund, Inc.
Notes to Schedule of Investments (Continued)
January 31, 2018 (Unaudited)
Investment Transactions
Investment transactions are accounted for on the trade date.
Foreign Currency Transactions
Amounts denominated in foreign currencies are translated into U.S. dollars on the following basis: (i) investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates effective on the date of valuation; and
(ii) purchases and sales of investments and income and expense items denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates prevailing on transaction dates.
The Fund does not isolate that portion of the results of operations resulting from the changes in foreign exchange rates on investments from
fluctuations arising from changes in market prices of securities held. Such fluctuations are included within the net realized and unrealized gain on investments in the Statements of Operations.
Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade
and settlement dates of securities transactions, and the difference between the amounts of income and expense items recorded on the Fund s books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign currency gains and losses arise from the changes in fair values of assets and liabilities, other than investments in securities at year end, resulting from changes in exchange rates.
changes in rain values of assets and habilities, other than investments in securities at year end, resulting from changes in exchange rates.
Investments in foreign companies and securities of foreign governments may involve special risks and considerations not typically associated
with investing in U.S. companies and securities of the U.S. government. These risks include, among other things, revaluation of currencies, less reliable information about issuers, different transaction clearance and settlement practices, and potential future adverse political and economic
developments. Moreover, investments in foreign companies and securities of foreign governments and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies and the U.S. government.
Commitments and Contingencies

In the normal course of business, the Fund s investment activities involve executions, settlement and financing of various transactions resulting in receivables from, and payables to, brokers, dealers and the Fund s custodian. These activities may expose the Fund to risk in the event that such

parties are unable to fulfill contractual obligations. Management does not anticipate any material losses from counterparties with whom it conducts business. Consistent with standard business practice, the Fund enters into contracts that contain a variety of indemnifications, and is engaged from time to time in various legal actions. The maximum exposure of the Fund under these arrangements and activities is unknown. However, the Fund expects the risk of material loss to be remote.

#### Recently Issued Accounting Pronouncements

In October 2016, the SEC amended existing rules intended to modernize reporting and disclosure of information. These amendments relate to Regulation S-X which sets forth the form and content of financial statements. The Fund has adopted the amendments related to Regulation S-X, which have had no material impact to the Fund s financial statements or disclosures.

In March 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-08, Receivables Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. The amendments in the ASU shorten the amortization period for certain callable debt securities, held at a premium, to be amortized to the earliest call date. The ASU does not require an accounting change for securities held at a discount, which continue to be amortized to maturity. The ASU is effective for fiscal years and for interim periods within those fiscal years beginning after December 15, 2018. Management is currently evaluating the impact, if any, of applying this provision.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). The guidance in this ASU supersedes the revenue recognition requirements in Revenue Recognition (Topic 605). Under the new guidance, an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendments in ASU No. 2014-09 are effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. In March 2016,

Ares Dynamic Credit Allocation Fund, Inc.

**Notes to Schedule of Investments (Continued)** 

January 31, 2018 (Unaudited)

the FASB issued ASU No. 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations, which clarifies the guidance in ASU No. 2014-09 and has the same effective date as the original standard. In April 2016, the FASB issued ASU No. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing, an update on identifying performance obligations and accounting for licenses of intellectual property. In May 2016, the FASB issued ASU No. 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients, which includes amendments for enhanced clarification of the guidance. In December 2016, the FASB issued ASU No. 2016-20, Technical Corrections and Improvements to Revenue from Contracts with Customers (Topic 606), the amendments in this update are of a similar nature to the items typically addressed in the technical corrections and improvements project. Additionally, in February 2017, the FASB issued ASU No. 2017-05, Other Income Gains and Losses from the Derecognition of Nonfinancial Assets (subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets, an update clarifying that a financial asset is within the scope of Subtopic 610-20 if it is deemed an in-substance non-financial asset. The application of this guidance is not expected to have a material impact on our consolidated financial statements.

#### (3) Investments

#### Fair Value Measurements

The Fund follows the provisions of ASC 820, Fair Value Measurements and Disclosures under U.S. GAAP, which among other matters, requires enhanced disclosures about investments that are measured and reported at fair value. This standard defines fair value and establishes a hierarchal disclosure framework, which prioritizes and ranks the level of market price observability used in measuring investments at fair value and expands disclosures about assets and liabilities measured at fair value. ASC 820 defines—fair value—as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The hierarchal disclosure framework establishes a three-tier hierarchy to maximize the use of observable data and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique.

Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

• Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

- Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable either directly or indirectly.
- Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In addition to using the above inputs in investment valuations, the Fund continues to employ a valuation policy that is consistent with the provisions of ASC 820. Consistent with its valuation policy, the Fund evaluates the source of inputs, including any markets in which the Fund s investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value. The Fund s valuation policy considers the fact that because there may not be a readily available market value for the investments in the Fund s portfolio, therefore, the fair value of the investments may be determined using unobservable inputs.

The investments classified as Level 1 or Level 2 are typically valued based on quoted market prices, forward foreign exchange rates, dealer quotations or alternative pricing sources supported by observable inputs. The Adviser obtains prices from independent pricing services which generally utilize broker quotes and may use various other pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data. The Adviser is responsible for all inputs and assumptions related to the pricing of securities. The Adviser has internal controls in place that support its reliance on information received from third-party pricing sources. As part of its internal controls, the Adviser obtains, reviews, and tests

information to corroborate prices received from third-party pricing sources. For any security, if market or dealer quotations are not readily available, or if the Adviser determines that a quotation of a security does not represent a fair value, then the security is valued at a fair value as determined in good faith by the Adviser and will be classified as Level 3. In such instances, the Adviser will use valuation techniques consistent with the market or income approach to measure fair value and will give consideration to all factors which might reasonably affect the fair value.

Bank loans and corporate debts: The fair value of bank loans and corporate debt is estimated based on quoted market prices, forward foreign exchange rates, dealer quotations or alternative pricing sources supported by observable inputs and are generally classified within Level 2 or 3. The Adviser obtains prices from independent pricing services which generally utilize broker quotes and may use various other pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data. If the pricing services are only able to obtain a single broker quote or utilize a pricing model the securities will be classified as Level 3. If the pricing services are unable to provide prices, the Adviser will attempt to obtain one or more broker quotes directly from a dealer and price such securities at the last bid price obtained; such securities are classified as Level 3.

Collateralized loan obligations: The fair value of CLOs is estimated based on various valuation models from third-party pricing services as well as internal models. The valuation models generally utilize discounted cash flows and take into consideration prepayment and loss assumptions, based on historical experience and projected performance, economic factors, the characteristics and condition of the underlying collateral, comparable yields for similar securities and recent trading activity. These securities are classified as Level 3.

The following is a summary of the inputs used as of January 31, 2018, in valuing the Fund s investments carried at fair value:

	Level 1 - Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Total
Senior Loans	\$	\$ 140,766,454	\$ 23,038,025	\$ 163,804,479
Corporate Bonds		274,656,198		274,656,198
Collateralized Loan Obligations			155,424,184	155,424,184
Common Stocks	2,337,227	1,183,720	2,260,604	5,781,551
<b>Total Investments</b>	\$ 2,337,227	\$ 416,606,372	\$ 180,722,813	\$ 599,666,412

The following is a reconciliation of the Fund s investments in which significant unobservable inputs (Level 3) were used in determining fair value

for the period from October 31, 2017 through January 31, 2018:

	Senior Loans	Collateralized Loan Obligations	Common Stock	Warrants	Total
Balance as of 10/31/17	\$ 13,356,837	\$ 147,531,396	\$ 2,384,970	\$ 2,146	\$ 163,275,349
Purchases (a)	8,105,111	16,855,200	180,669		25,140,980
Sales (b)	(88,855)	(11,484,015)		(89)	(11,572,959)
Net realized and unrealized gain/					
(loss)	177,707	2,416,458	(305,035)	(2,057)	2,287,073
Net Accrued discounts	8,331	105,145			113,476
Transfers in to Level 3 (c)	5,965,785				5,965,785
Transfers out of Level 3 (c)	(4,486,891				(4,486,891)
Balance as of 1/31/18	\$ 23,038,025	\$ 155,424,184	\$ 2,260,604	\$ 9	\$ 180,722,813
Net change in unrealized appreciation/(depreciation) from					
Investments held as of 1/31/18	\$ 730,500	\$ 488,885	\$ (241,760)	\$ 9	\$ 977,625

Notes to Schedule of Investments (Continued)

January 31, 2018 (Unaudited)

- (a) Purchases include PIK interest and securities received from restructure.
- (b) Sales include principal redemptions.
- (c) Investments were transferred into and out of Level 3 and into and out of Level 2 during the period ended January 31, 2018 due to changes in the quantity and quality of information obtained to support the fair value of each investment as assessed by the Adviser.

The valuation techniques used by the Adviser to measure fair value as of January 31, 2018 maximized the use of observable inputs and minimized the use of unobservable inputs. The valuation techniques and significant amounts of unobservable inputs used in the valuation of the Fund s Level 3 securities are outlined in the table below.

	Fair Value	Valuation Technique	<b>Unobservable Inputs</b>	Range
Assets				
Investments in securities				
Senior Loans		Broker Quotes and/or 3rd Party		
	\$ 23,038,025	Pricing Services	N/A	N/A
Collateralized Loan Obligations		Broker Quotes and/or 3rd Party		
	150,120,434	Pricing Services	N/A	N/A
Collateralized Loan Obligations			Recent Transaction	
	5,303,750	Other	Price	\$90-96
Common Stock		Broker Quotes and/or 3rd Party		
	2,260,604	Pricing Services	N/A	N/A
Total Level 3 Investments	\$ 180,722,813			

There were no transfers between Level 1 and 2 during the period. It is the Fund s policy to recognize transfers into and out of all levels at the end of the reporting period.

#### ITEM 2. CONTROLS AND PROCEDURES.

- (a) The registrant s principal executive officer and principal financial officer have concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act )) are effective at a reasonable level of assurance based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this report on Form N-Q as required by Rule 30a-3(b) under the 1940 Act and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended.
- (b) There were no significant changes in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant s last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant s internal control over financial reporting.

#### ITEM 3. EXHIBITS.

The following exhibits are attached to this Form N-Q:
