Section 8 — Other Events

Item 8.01 Other Events

On March 6, 2007, the Illinois House of Representatives approved legislation, known as House Bill 1750, that, if enacted into law, would roll back the current electricity rates of Commonwealth Edison Company (ComEd) and other Illinois utilities to rates that were in effect on December 29, 2006, would provide for a refund, with interest, of the charges collected from residential customers in excess of those rolled-back rates since January 2, 2007, and would generally limit rate increases for all bundled service customers until 2010.

On March 7, 2007, the Illinois Senate's Environment and Energy Committee (the Senate Committee) approved a bill, known as Senate Bill 1592, that, if enacted into law, would roll back rates of certain down-state Illinois utilities (but not ComEd) for a period of six months, commencing on the first day of the month following enactment. As originally approved by the Senate Committee, Senate Bill 1592 did not provide for refunds of charges collected from customers or restrict the ability of utilities to seek rate adjustments after the six-month duration of the rate roll-back. On March 15, 2007, the Senate Committee approved an amendment to Senate Bill 1592 to include a requirement for refunds, with interest, of charges collected from customers in excess of the rolled-back rates since January 2, 2007, and to generally limit rate increases for at least one year. On March 21, 2007, Senate Bill 1592 was amended to include ComEd with the other Illinois utilities required to roll back rates, and on March 22, 2007, the Senate Committee voted Senate Bill 1592, as amended, out of committee by a vote of 11 to 1. As of March 22, 2007, Senate Bill 1592 had not been sent to the Senate floor for action.

To become law, legislation must be passed by the House and Senate and signed by the Governor. The Governor has previously expressed support for rate freeze legislation. ComEd and other interested parties have been actively engaged in discussions with Illinois legislative leaders to explore alternatives to rate freeze legislation that would provide financial assistance for Illinois electric customers with unusually high electric bills and other customers in need of financial assistance. ComEd is unable to provide assurances about the outcome of its discussions of alternatives to rate freeze legislation or the ultimate outcome of the legislative process or the coverage or content of any legislation that may be adopted.
