SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 or 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended March 30, 2018
Commission File Number 1-16137

INTEGER HOLDINGS CORPORATION
(Exact name of Registrant as specified in its charter)

Delaware 16-1531026
(State of (I.R.S. Employer
Incorporation) Identification No.)
2595 Dallas Parkway
Suite 310
Frisco, Texas 75034
(Address of principal executive offices)
(214) 618-5243
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by checkmark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Edgar Filing: Integer Holdings Corp - Form 10-Q

The number of shares outstanding of the Company's common stock, \$0.001 par value per share, as of May 1, 2018 was: 32,013,674 shares.

INTEGER HOLDINGS CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(1.) BASIS OF PRESENTATION

Integer Holdings Corporation (together with its consolidated subsidiaries, “Integer” or the “Company”) is a publicly traded corporation listed on the New York Stock Exchange under the symbol “ITGR.” Integer is one of the largest medical device outsource manufacturers in the world serving the cardiac, neuromodulation, orthopedics, vascular, advanced surgical and portable medical markets. The Company provides innovative, high-quality medical technologies that enhance the lives of patients worldwide. In addition, it develops batteries for high-end niche applications in the energy, military, and environmental markets. The Company’s reportable segments are: (1) Medical and (2) Non-Medical. The Company’s customers include large multi-national original equipment manufacturers (“OEMs”) and their affiliated subsidiaries.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information (Accounting Standards Codification (“ASC”) 270, Interim Reporting) and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, these financial statements do not include all of the information necessary for a full presentation of financial position, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States of America (“GAAP”). In the opinion of management, the condensed consolidated financial statements reflect all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the results of the Company for the periods presented. Intercompany transactions and balances have been fully eliminated in consolidation.

Operating results for interim periods are not necessarily indicative of results that may be expected for the fiscal year as a whole. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, certain components of equity, sales, expenses, and related disclosures at the date of the financial statements and during the reporting period. Actual results could differ materially from these estimates. For further information, refer to the consolidated financial statements and notes included in the Company’s Annual Report on Form 10-K for the year ended December 29, 2017.

The Company utilizes a fifty-two, fifty-three week fiscal year ending on the Friday nearest December 31. The first quarter of 2018 and 2017 each contained 13 weeks and ended on March 30, and March 31, respectively. The Company’s 2018 and 2017 fiscal years will end or ended on December 28, 2018 and December 29, 2017, respectively.

(2.) INVENTORIES

Inventories are comprised of the following (in thousands):

	March 30, December 29,	
	2018	2017

INTEGER HOLDINGS CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(4.) DEBT

Long-term debt is comprised of the following (in thousands):

	March 30, 2018	December 29, 2017
Senior secured term loan A	\$328,125	\$335,157
Senior secured term loan B	830,286	873,286
9.125% senior notes due 2023	360,000	360,000
Revolving line of credit	74,000	74,000
Unamortized discount on term loan B and debt issuance costs	(30,654)	(33,278)
Total debt	1,561,757	1,609,165
Current portion of long-term debt	(32,813)	(30,469)
Total long-term debt	\$1,528,944	\$1,578,696

Senior Secured Credit Facilities

The Company has senior secured credit facilities (the “Senior Secured Credit Facilities”) consisting of (i) a \$200 million revolving credit facility (the “Revolving Credit Facility”), (ii) a \$375 million term loan A facility (the “TLA Facility”), and (iii) a \$1,025 million term loan B facility (the “TLB Facility”). The TLA Facility and TLB Facility are collectively referred to as the “Term Loan Facilities.” The TLB facility was issued at a 1% discount.

Revolving Credit Facility

The Revolving Credit Facility matures on October 27, 2020. The Revolving Credit Facility also includes a \$15 million sublimit for swingline loans and a \$25 million sublimit for standby letters of credit. The Company is required to pay a commitment fee on the unused portion of the Revolving Credit Facility, which will range between 0.175% and 0.25%, depending on the Company’s Total Net Leverage Ratio (as defined in the Senior Secured Credit Facilities agreement). Interest rates on the Revolving Credit Facility, as well as the TLA Facility, are at the Company’s option, either at: (i) the prime rate plus the applicable margin, which will range between 0.75% and 2.25%, based on the Company’s Total Net Leverage Ratio, or (ii) the applicable LIBOR rate plus the applicable margin, which will range between 1.75% and 3.25%, based on the Company’s Total Net Leverage Ratio.

As of March 30, 2018, the Company had \$74 million of outstanding borrowings on the Revolving Credit Facility and an available borrowing capacity of \$116.8 million after giving effect to \$9.2 million of outstanding standby letters of credit. As of March 30, 2018, the weighted average interest rate on all outstanding borrowings under the Revolving Credit Facility was 5.10%.

Subject to certain conditions, commitments under the Revolving Credit Facility may be increased through an incremental revolving facility so long as, on a pro forma basis, the Company’s first lien net leverage ratio does not exceed 4.25:1.00. The outstanding amount of the Revolving Credit Facility approximated its fair value as of March 30, 2018 based upon the debt being variable rate and short-term in nature.

Term Loan Facilities

The TLA Facility and TLB Facility mature on October 27, 2021 and October 27, 2022, respectively. Interest rates on the TLB Facility are, at the Company’s option, either at: (i) the prime rate plus 2.25% or (ii) the applicable LIBOR rate plus 3.25%, with LIBOR subject to a 1.00% floor. As of March 30, 2018, the interest rates on the TLA Facility and TLB Facility were 5.13% and 4.99%, respectively. Additionally, if the Company receives both (a) a public corporate family credit rating from Moody’s Investors Services, Inc. of “B2” (stable outlook) or higher and (b) a public corporate credit rating from Standard & Poor’s Financial Services LLC of “B” (stable outlook) or higher, the interest rate margins for the TLB Facility will step down by an additional 25 basis points.

Subject to certain conditions, one or more incremental term loan facilities may be added to the Term Loan Facilities so long as, on a pro forma basis, the Company’s first lien net leverage ratio does not exceed 4.25:1.00.

As of March 30, 2018, the estimated fair value of the TLB Facility was approximately \$839 million, based on quoted market prices for the debt, recent sales prices for the debt and consideration of comparable debt instruments with

similar interest rates and trading frequency, among other factors, and is classified as Level 2 measurements within the fair value hierarchy. The par amount of the TLA Facility approximated its fair value as of March 30, 2018 based upon the debt being variable rate in nature.

- 9 -

Table of Contents

INTEGER HOLDINGS CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(4.) DEBT (Continued)

Covenants

The Revolving Credit Facility and TLA Facility contain covenants requiring (A) a maximum Total Net Leverage Ratio of 6.0:1.00, subject to periodic step downs beginning in the third quarter of 2018 and (B) a minimum interest coverage ratio of adjusted EBITDA (as defined in the Senior Secured Credit Facilities) to interest expense of not less than 2.75:1.00 subject to a step up beginning in the first quarter of 2019. As of March 30, 2018, the Company was in compliance with these financial covenants. The TLB Facility does not contain any financial maintenance covenants. The Senior Secured Credit Facilities also contain negative covenants that restrict the Company's ability to (i) incur additional indebtedness; (ii) create certain liens; (iii) consolidate or merge; (iv) sell assets, including capital stock of the Company's subsidiaries; (v) engage in transactions with the Company's affiliates; (vi) create restrictions on the payment of dividends or other amounts from the Company's restricted subsidiaries; (vii) pay dividends on capital stock or redeem, repurchase or retire capital stock; (viii) pay, prepay, repurchase or retire certain subordinated indebtedness; (ix) make investments, loans, advances and acquisitions; (x) make certain amendments or modifications to the organizational documents of the Company or its subsidiaries or the documentation governing other senior indebtedness of the Company; and (xi) change the Company's type of business. These negative covenants are subject to a number of limitations and exceptions that are described in the Senior Secured Credit Facilities agreement. As of March 30, 2018, the Company was in compliance with all negative covenants under the Senior Secured Credit Facilities.

The Senior Secured Credit Facilities provide for customary events of default. Upon the occurrence and during the continuance of an event of default, the outstanding advances and all other obligations under the Senior Secured Credit Facilities become immediately due and payable.

9.125% Senior Notes due 2023

On October 27, 2015, the Company completed a private offering of \$360 million aggregate principal amount of 9.125% senior notes due on November 1, 2023 (the "Senior Notes"). All of the Senior Notes are outstanding as of March 30, 2018.

As of March 30, 2018, the estimated fair value of the Senior Notes was approximately \$390 million, based on quoted market prices of these Senior Notes, recent sales prices for the Senior Notes and consideration of comparable debt instruments with similar interest rates and trading frequency, among other factors, and is classified as Level 2 measurements within the fair value hierarchy.

The indenture for the Senior Notes contain certain restrictive covenants and provides for customary events of default, subject in certain cases to customary cure periods, as a result of which the Senior Notes and any unpaid interest would become due and payable. As of March 30, 2018, the Company was in compliance with all restrictive covenants under the indenture governing the Senior Notes.

Contractual maturities under the Senior Secured Credit Facilities and Senior Notes for the remainder of 2018 and the next four years and thereafter, excluding any discounts or premiums, as of March 30, 2018 are as follows (in thousands):

	2018	2019	2020	2021	2022	After 2022
Future minimum principal payments	\$23,437	\$37,500	\$111,500	\$229,688	\$830,286	\$360,000
Debt Issuance Costs and Discounts						

The change in deferred debt issuance costs related to the Revolving Credit Facility is as follows (in thousands):

December 29, 2017	\$2,808
Amortization during the period (247)	
March 30, 2018	\$2,561

Table of Contents

INTEGER HOLDINGS CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(4.) DEBT (Continued)

The change in unamortized discount and debt issuance costs related to the Term Loan Facilities and Senior Notes is as follows (in thousands):

	Debt Issuance Costs	Unamortized Discount on TLB Facility	Total
December 29, 2017	\$26,889	\$ 6,389	\$33,278
Write-off of debt issuance costs and unamortized discount ⁽¹⁾	(745)	(312)	(1,057)
Amortization during the period	(1,279)	(288)	(1,567)
March 30, 2018	\$24,865	\$ 5,789	\$30,654

The Company prepaid portions of its TLB Facility during 2018 and 2017. The Company recognized losses from extinguishment of debt during the quarters ended March 30, 2018 and March 31, 2017 of \$1.1 million and \$1.6 million, respectively, which is included in Interest Expense in the accompanying Condensed Consolidated Statements of Operations and Comprehensive Income. The loss from extinguishment of debt represents the portion of the unamortized discount and debt issuance costs related to the portion of the TLB Facility that was prepaid.

Interest Rate Swap

During 2016, the Company entered into a three-year \$200 million interest rate swap to hedge against potential changes in cash flows on the outstanding variable rate debt, which is indexed to the one-month LIBOR rate. The variable rate received on the interest rate swap and the variable rate paid on the outstanding debt will have the same rate of interest, excluding the credit spread, and will reset and pay interest on the same date. The swap is being accounted for as a cash flow hedge.

Information regarding the Company's outstanding interest rate swap designated as a cash flow hedge as of March 30, 2018 is as follows (dollars in thousands):

Notional Amount	Start Date	End Date	Pay Fixed Rate	Receive Current Floating Rate	Fair Value	Balance Sheet Location
\$200,000	Jun-17	Jun-20	1.1325%	1.8750%	\$5,544	Other Long-Term Assets

The estimated fair value of the interest rate swap agreement represents the amount the Company would receive (pay) to terminate the contract. No portion of the change in fair value of the Company's interest rate swap during the quarters ended March 30, 2018 and March 31, 2017 was considered ineffective. The amounts recorded to Interest Expense during the quarters ended March 30, 2018 and March 31, 2017 related to the Company's interest rate swap were a reduction of \$0.2 million and \$0.1 million, respectively. The estimated Accumulated Other Comprehensive Income related to the Company's interest rate swaps that is expected to be reclassified into earnings within the next twelve months is a \$2.0 million gain.

(5.) BENEFIT PLANS

The Company is required to provide its employees located in Switzerland, Mexico, France, and Germany certain statutorily mandated defined benefits. Components of net defined benefit cost for these plans were comprised of the following (in thousands):

	Three Months Ended	
	March 30, 2018	March 31, 2017
Service cost	\$127	\$ 110
Interest cost	46	38
Amortization of net loss	16	17

Expected return on plan assets	(4)	(4)
Net defined benefit cost	\$185	\$ 161

- 11 -

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(6.) STOCK-BASED COMPENSATION

The Company maintains certain stock-based compensation plans that were approved by the Company's stockholders and are administered by the Board of Directors, or the Compensation and Organization Committee of the Board. The stock-based compensation plans provide for the granting of stock options, shares of restricted stock awards ("RSAs"), restricted stock units ("RSUs"), stock appreciation rights and stock bonuses to employees, non-employee directors, consultants, and service providers.

The components and classification of stock-based compensation expense were as follows (in thousands):

	Three Months Ended March 31,	
	2018	2017
Stock options	\$331	\$ 710
RSAs and RSUs (time-based)	2,078	2,204
Performance-based RSUs ("PSUs")	813	1,755
Total stock-based compensation expense	\$3,222	\$ 4,669

Cost of sales	\$220	\$ 142
Selling, general and administrative expenses	2,965	2,159
Research, development and engineering costs	33	105
Other operating expenses	4	2,263
Total stock-based compensation expense	\$3,222	\$ 4,669

During the first quarter of 2017, the Company recorded \$2.2 million of accelerated stock-based compensation expense in connection with the transition of its former Chief Executive Officer per the terms of his contract, which was classified as Other Operating Expenses.

The weighted average fair value and assumptions used to value options granted are as follows:

	Three Months Ended March 30,		March 31,	
	2018	2017	2018	2017
Weighted average fair value	\$ 14.89	\$ 9.14		
Risk-free interest rate	2.21 %	1.63 %		
Expected volatility	39 %	38 %		
Expected life (in years)	4.0	3.7		
Expected dividend yield	— %	— %		

The following table summarizes the Company's stock option activity:

	Number of Stock Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (In Years)	Aggregate Intrinsic Value (In Millions)
Outstanding at December 29, 2017	931,353	\$ 30.89		
Granted	28,447	45.13		
Exercised	(27,322)	36.81		
Forfeited or expired	(818)	48.43		
Outstanding at March 30, 2018	931,660	\$ 31.14	5.7	\$ 23.7

Edgar Filing: Integer Holdings Corp - Form 10-Q

Exercisable at March 30, 2018	777,521	\$ 30.03	5.0	\$ 20.6

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(6.) STOCK-BASED COMPENSATION (Continued)

During the three months ended March 30, 2018, the Company awarded grants of 0.3 million RSUs to certain members of management, of which 0.2 million are performance-based RSUs (“PSUs”) and the remainder are time-based RSUs that vest over three years. Of the PSUs, 0.1 million of the shares subject to each grant will be earned based upon achievement of specific Company performance metrics over a three-year performance period ending January 1, 2021, and 0.1 million of the shares subject to each grant will be earned based on the Company’s achievement of a relative total shareholder return (“TSR”) performance requirement, on a percentile basis, compared to a defined group of peer companies over a three-year performance period ending January 1, 2021. The number of PSUs earned based on the achievement of the Company performance metrics and TSR performance requirements, if any, will vest based on the recipient’s continuous service to the Company over a period of generally one to three years from the grant date. The time-based RSUs generally vest ratably over a three-year period.

The grant-date fair value of the TSR portion of the PSUs granted during the three months ended March 30, 2018 was determined using the Monte Carlo simulation model on the date of grant, assuming the following (i) expected term of 2.92 years, (ii) risk free interest rate of 2.28%, (iii) expected dividend yield of 0.0% and (iv) expected stock price volatility over the expected term of the TSR award of 40%. The grant-date fair value of all other restricted stock awards is equal to the closing market price of Integer common stock on the date of grant.

The following table summarizes RSA and RSU activity:

	Time-Vested Activity	Weighted Average Fair Value
Nonvested at December 29, 2017	163,431	\$ 35.96
Granted	147,878	49.30
Vested	(11,999)	49.78
Forfeited	(4,453)	43.62
Nonvested at March 30, 2018	294,857	\$ 41.97

The following table summarizes PSU activity:

	Performance- Vested Activity	Weighted Average Fair Value
Nonvested at December 29, 2017	469,889	\$ 32.37
Granted	159,669	45.37
Vested	(127,191)	34.29
Forfeited	(129,311)	33.36
Nonvested at March 30, 2018	373,056	\$ 36.93

(7.) OTHER OPERATING EXPENSES

Other Operating Expenses is comprised of the following (in thousands):

	Three Months Ended March 31, 2018		March 31, 2017
Strategic reorganization and alignment	\$3,492	\$ —	
Manufacturing alignment to support growth	513	—	
Consolidation and optimization initiatives	605	2,395	
Acquisition and integration expenses	—	4,820	
Asset dispositions, severance and other	667	4,556	
Total other operating expenses	\$5,277	\$ 11,771

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(7.) OTHER OPERATING EXPENSES (Continued)

Strategic Reorganization and Alignment

During the fourth quarter of 2017, the Company began to take steps to better align its resources in order to enhance the profitability of its portfolio of products. This includes improving its business processes and redirecting investments away from projects where the market does not justify the investment, as well as aligning resources with market conditions and the Company's future strategic direction. The Company estimates that it will incur aggregate pre-tax charges in connection with the strategic reorganization and alignment plan of between approximately \$10 million to \$12 million, of which an estimated \$8 million to \$12 million are expected to result in cash outlays. During the three months ended March 30, 2018, the Company incurred charges relating to this initiative which primarily included severance and personnel related costs for terminated employees and fees for professional services. These expenses were primarily recorded within the Medical Segment. As of March 30, 2018, total expense incurred for this initiative since inception was \$9.4 million. These actions are expected to be substantially completed by the end of the second quarter of 2018.

Manufacturing Alignment to Support Growth

In 2017, the Company initiated several initiatives designed to reduce costs, improve operating efficiencies and increase manufacturing capacity to accommodate growth. The plan involves the relocation of certain manufacturing operations and expansion of certain of the Company's facilities. The Company estimates that it will incur aggregate pre-tax restructuring related charges in connection with the realignment plan of between approximately \$9 million to \$11 million, the majority of which are expected to be cash expenditures, and capital expenditures of between approximately \$4 million to \$6 million. Costs related to the Company's manufacturing alignment to support growth initiative were primarily recorded within the Medical Segment. As of March 30, 2018, total expense incurred for this initiative since inception was \$0.9 million. These actions are expected to be substantially completed by the end of 2019.

Consolidation and Optimization Initiatives

In 2014, the Company initiated plans to transfer certain manufacturing functions performed at its facility in Beaverton, OR to a new facility in Tijuana, Mexico. Additionally, during 2016, the Company announced it would be closing its facility in Clarence, NY after transferring the machined component product lines manufactured in that facility to other Integer locations in the U.S. Costs related to the Company's consolidation and optimization initiatives were primarily recorded within the Medical Segment. The Company does not expect to incur any material additional costs associated with these activities as they were substantially completed as of March 30, 2018.

The following table summarizes the change in accrued liabilities related to the initiatives described above (in thousands):

	Severance and Retention	Other	Total
December 29, 2017	\$ 1,308	\$—	\$ 1,308
Restructuring charges	3,274	1,336	4,610
Cash payments	(3,136)	(897)	(4,033)
March 30, 2018	\$ 1,446	\$ 439	\$ 1,885

Acquisition and Integration Expenses

The Company did not incur any additional costs associated with these activities during the three months ended March 30, 2018. During the three months ended March 31, 2017, the Company incurred \$4.8 million in acquisition and integration costs related to the acquisition of Lake Region Medical, consisting primarily of integration costs. Integration costs primarily include professional, consulting, severance, retention, relocation, and travel costs. The \$0.4 million of acquisition and integration costs accrued as of December 29, 2017 were paid during the three months ended March 30, 2018. These projects were completed as of December 29, 2017.

Asset Dispositions, Severance and Other

During the first quarter of 2018 and 2017, the Company recorded losses in connection with various asset disposals and/or write-downs. The 2017 amount also includes approximately \$4.7 million in expense related to the Company's leadership transitions, which were recorded within the corporate unallocated segment.

INTEGER HOLDINGS CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(8.) INCOME TAXES

The income tax provision for interim periods is determined using an estimate of the annual effective tax rate, adjusted for discrete items, if any, that are taken into account in the relevant period. Each quarter, the estimate of the annual effective tax rate is updated, and if the estimated effective tax rate changes, a cumulative adjustment is made. There is a potential for volatility of the effective tax rate due to several factors, including discrete items, changes in the mix and amount of pre-tax income and the jurisdictions to which it relates, changes in tax laws and foreign tax holidays, business reorganizations, settlements with taxing authorities and foreign currency fluctuations.

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (the "Tax Reform Act") was signed into law making significant changes to the Internal Revenue Code. Changes include, but are not limited to, a corporate tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017, the transition of U.S. international taxation from a worldwide tax system to a territorial system, and a one-time transition tax on the mandatory deemed repatriation of cumulative foreign earnings as of December 31, 2017.

Under GAAP, the effect of a change in tax laws or rates to be recognized in income from continuing operations for the period that includes the enactment date. As such, the Company recognized an estimate of the impact of the Tax Reform Act in the year ended December 29, 2017. The Company had an estimated \$147.5 million of undistributed foreign earnings and profit subject to the deemed mandatory repatriation as of December 29, 2017 and recognized a provisional \$14.7 million in 2017 for the one-time transition tax. The Company has sufficient U.S. net operating losses to offset cash tax liabilities associated with the repatriation tax. In addition, as a result of the reduction in the U.S. corporate income tax rate from 35% to 21% under the Tax Reform Act, the Company revalued its ending net deferred tax liabilities at December 29, 2017 and recognized a \$56.5 million tax benefit in the Company's Consolidated Statement of Operations and Comprehensive Income (Loss) for the year ended December 29, 2017. For further discussion of the impact of the Tax Reform Act for the year ended December 29, 2017 reference is made to Note 12 of the Company's consolidated financial statements as of and for the year ended December 29, 2017 included in the Company's 2017 Annual Report on Form 10-K for the year ended December 29, 2017.

On December 22, 2017, the Securities and Exchange Commission issued Staff Accounting Bulletin ("SAB") No. 118 to address the application of GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the Tax Reform Act. The Company recognized the tax impact of the revaluation of deferred tax assets and liabilities and the provisional tax impact related to deemed repatriated earnings and included these amounts in its consolidated financial statements for the year ended December 29, 2017. The ultimate impact may differ from the provisional amount, possibly materially, due to, among other things, additional analysis, changes in interpretations and assumptions the Company has made, additional regulatory guidance that may be issued, and actions the Company may take as a result of the Tax Reform Act. This accounting is expected to be complete by the date that the Company's 2017 U.S. corporate income tax return is filed in 2018. During the three month period ended March 30, 2018, there were no changes made to the provisional amount recorded in 2017.

In addition to the reduction of the U.S. federal corporate tax rate and the one-time transition tax discussed above, the Tax Reform Act also established new tax laws that affect 2018, including, but not limited to: (i) a general elimination of U.S. federal income taxes on dividends from foreign subsidiaries; (ii) a new U.S. Income inclusion on certain earnings of foreign subsidiaries (Global Intangible Low-Taxed Income ("GILTI")); (iii) the repeal of the domestic production activity deductions; (iv) limitations on the deductibility of certain executive compensation; (v) an elimination of the deduction for certain deemed "base erosion payments" made to foreign affiliates (Base Erosion and Anti-Abuse Tax ("BEAT")); and (vi) a new provision that allows a domestic corporation an immediate deduction for a portion of its foreign derived intangible income ("FDII").

Table of Contents

INTEGER HOLDINGS CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(8.) INCOME TAXES (Continued)

The GILTI provisions require the Company to include foreign subsidiary earnings in excess of a deemed return on the foreign subsidiary's tangible assets in its U.S. income tax return. The Company expects that it will be subject to incremental U.S. tax on GILTI income beginning in 2018. Because of the complexity of the new GILTI tax rules and the ongoing regulatory interpretation of the GILTI provisions, the Company is continuing its evaluation of this provision of the Tax Reform Act and the application of ASC 740, Income Taxes. Under GAAP, the Company is allowed to make an accounting policy choice of either (1) treating taxes due on future U.S. inclusions in taxable income related to GILTI as a current period expense when incurred (the "period cost method") or (2) factoring such amounts into the Company's measurement of its deferred taxes (the "deferred method"). The Company's selection of an accounting policy with respect to the new GILTI tax rules will depend, in part, on analyzing its global income to determine whether it expects to have future U.S. inclusions in taxable income related to GILTI and, if so, what the impact is expected to be. Whether the Company expects to have future U.S. inclusions in taxable income related to GILTI depends on not only the Company's current structure and estimated future results of global operations, but also its intent and ability to modify its structure. While the Company has included an estimate of GILTI in its estimated effective tax rate for 2018, it has not finalized its analysis and is not yet able to determine which method to elect. Adjustments related to the amount of GILTI Tax recorded in its condensed consolidated financial statements may be required based on the outcome of this election.

The BEAT provisions in the Tax Reform Act eliminate the deduction of certain base-erosion payments made to related foreign corporations, and impose a minimum tax if greater than regular tax.

The Company does not expect to be materially impacted by the BEAT or FDII provisions and has not included any impact of the provisions in its estimated effective tax rate for 2018, however, it is still in the process of analyzing the effect of these provisions of the Tax Reform Act.

The Company's worldwide effective tax rate for the first quarter of 2018 was 33.5% on \$12.2 million of income before the provision for income taxes compared to (3.4)% on \$4.2 million of losses before the provision for income taxes for the same period in 2017. The 2018 estimated annual effective tax rate includes the estimated impact of all Tax Reform Act provisions.

The Company's effective tax rate for 2018 differs from the U.S. federal statutory tax rate of 21% due principally to the estimated impact of the GILTI tax. The Company's earnings outside the United States are generally taxed at blended rates that are marginally lower than the U.S. federal rate. The GILTI provisions require the Company to include foreign subsidiary earnings in excess of a deemed return on the foreign subsidiary's tangible assets in its U.S. income tax return. There is a statutory deduction of 50% of the GILTI inclusion, however the deduction is subject to limitations based on U.S. taxable income. The Company currently has net operating losses to offset forecasted U.S. taxable income and as such, is temporarily subject to the deduction limitation which correspondingly imposes an incremental impact on U.S. income tax. The foreign jurisdictions in which the Company operates and where its foreign earnings are primarily derived, include Switzerland, Mexico, Germany, Uruguay, Malaysia and Ireland. The Company's effective tax rate for 2017 differs from the U.S. federal statutory tax rate of 35% due principally to the Company's earnings outside the U.S. which are generally taxed at rates lower than the U.S. federal rate. In addition, the Company had positive income before taxes in its foreign jurisdictions but losses before taxes in U.S. jurisdictions. As of March 30, 2018, the balance of unrecognized tax benefits is approximately \$12.7 million. It is reasonably possible that a reduction of up to \$1.1 million of the balance of unrecognized tax benefits may occur within the next twelve months as a result of potential audit settlements. Approximately \$12.3 million of the balance of unrecognized tax benefits would favorably impact the effective tax rate, net of federal benefit on state issues, if recognized.

(9.) COMMITMENTS AND CONTINGENCIES

Litigation

The Company is subject to litigation arising from time to time in the ordinary course of its business. The Company does not expect that the ultimate resolution of any pending legal actions will have a material effect on its consolidated

results of operations, financial position, or cash flows. However, litigation is subject to inherent uncertainties. As such, there can be no assurance that any pending legal action, which the Company currently believes to be immaterial, will not become material in the future.

- 16 -

Table of Contents

INTEGER HOLDINGS CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(9.) COMMITMENTS AND CONTINGENCIES

In April 2013, the Company commenced an action against AVX Corporation and AVX Filters Corporation (collectively "AVX") alleging that AVX had infringed on the Company's patents by manufacturing and selling filtered feedthrough assemblies used in implantable pacemakers and cardioverter defibrillators that incorporate the Company's patented technology. On January 26, 2016, a jury in the U.S. District Court for the District of Delaware returned a verdict finding that AVX infringed two Integer patents and awarded Integer \$37.5 million in damages. Following a second trial in August 2017, a jury found that AVX infringed an additional Integer patent. On March 30, 2018, the U.S. District Court for the District of Delaware vacated the original damage award and ordered a retrial on damages, which is scheduled for January 2019. The Company has recorded no gains in connection with this litigation as no cash has been received.

Product Warranties

The Company generally warrants that its products will meet customer specifications and will be free from defects in materials and workmanship. The Company does not expect future product warranty claims will have a material effect on its condensed consolidated results of operations, financial position, or cash flows. However, there can be no assurance that any future customer complaints or negative regulatory actions regarding the Company's products, which the Company currently believes to be immaterial, does not become material in the future. The change in product warranty liability was comprised of the following (in thousands):

December 29, 2017	\$4,745
Additions to warranty reserve	256
Warranty claims settled	(69)
March 30, 2018	\$4,932

Foreign Currency Contracts

The Company periodically enters into foreign currency forward contracts to hedge its exposure to foreign currency exchange rate fluctuations in its international operations. The Company has designated these foreign currency forward contracts as cash flow hedges. Accordingly, the effective portions of the unrealized gains and losses on these contracts are reported in Accumulated Other Comprehensive Income in the Condensed Consolidated Balance Sheets and are reclassified to earnings in the same periods during which the hedged transactions affect earnings. The estimated Accumulated Other Comprehensive Income related to the Company's foreign currency contracts that is expected to be reclassified into earnings within the next twelve months is a \$2.2 million loss.

The impact to the Company's results of operations from its forward contract hedges is as follows (in thousands):

	Three Months Ended	
	March 30, 2018	March 31, 2017
Increase in sales	\$ 139	\$ 24
Increase (decrease) in cost of sales	(436)	1,062
Ineffective portion of change in fair value	—	—

Information regarding outstanding foreign currency contracts designated as cash flow hedges as of March 30, 2018 is as follows (dollars in thousands):

Aggregate Notional Amount	Start Date	End Date	\$/Foreign Currency	Fair Value	Balance Sheet Location
\$2,313	Jan 2018	Jun 2018	0.0514Peso	\$ 142	Prepaid expenses and other current assets
22,798	Jan 2018	Dec 2018	0.0507Peso	1,403	Prepaid expenses and other current assets
21,900	Jan 2018	Dec 2018	1.2089Euro	644	Prepaid expenses and other current assets

(12.) FAIR VALUE MEASUREMENTS

Assets and Liabilities Measured at Fair Value on a Recurring Basis

Fair value measurement standards apply to certain financial assets and liabilities that are measured at fair value on a recurring basis (each reporting period). For the Company, these financial assets and liabilities include its derivative instruments. The Company does not have any nonfinancial assets or liabilities that are measured at fair value on a recurring basis. The Company also holds cost method and equity method investments which are measured at fair value on a nonrecurring basis.

Foreign Currency Contracts

The fair value of foreign currency contracts were determined through the use of cash flow models that utilize observable market data inputs to estimate fair value. These observable market data inputs included foreign exchange rate and credit spread curves. In addition, the Company received fair value estimates from the foreign currency contract counterparties to verify the reasonableness of the Company's estimates. The Company's foreign currency contracts are categorized in Level 2 of the fair value hierarchy. Refer to Note 9 "Commitments and Contingencies" for further discussion regarding the fair value of the Company's foreign currency contracts.

Interest Rate Swaps

The fair value of the Company's interest rate swap contracts outstanding were determined through the use of a cash flow model that utilizes observable market data inputs. These observable market data inputs include LIBOR, swap rates, and credit spread curves. In addition, the Company received a fair value estimate from the interest rate swap counterparty to verify the reasonableness of the Company's estimate. Refer to Note 4 "Debt" for further discussion regarding the fair value of the Company's interest rate swap.

The following table provides information regarding assets and liabilities recorded at fair value on a recurring basis (in thousands):

	Fair Value	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
March 30, 2018				
Assets: Foreign currency contracts (Note 9)	\$2,189	\$	—\$ 2,189	\$ —
Assets: Interest rate swap (Note 4)	5,544	—	5,544	—
December 29, 2017				
Assets: Interest rate swaps	\$4,279	\$	—\$ 4,279	\$ —
Liabilities: Foreign currency contracts	861	—	861	—

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Fair value standards also apply to certain assets and liabilities that are measured at fair value on a nonrecurring basis. The carrying amounts of cash, accounts receivable, accounts payable, and accrued expenses approximate fair value because of the short-term nature of these items. Refer to Note 4 "Debt" for further discussion regarding the fair value of the Company's Senior Secured Credit Facilities and Senior Notes. A summary of the valuation methodologies for assets and liabilities measured on a nonrecurring basis is as follows:

Cost and Equity Method Investments

The Company holds investments in equity and other securities that are accounted for as either cost method or equity method investments, which are classified as Other Assets on the Condensed Consolidated Balance Sheets. The total carrying value of these investments is reviewed quarterly for changes in circumstance or the occurrence of events that

suggest the Company's investment may not be recoverable. The fair value of cost method investments are not adjusted if there are no identified events or changes in circumstances that may have a material effect on the fair value of the investments. The aggregate recorded amount of cost and equity method investments at March 30, 2018 and December 29, 2017 was \$25.8 million and \$20.8 million, respectively.

- 19 -

Table of Contents

INTEGER HOLDINGS CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(12.) FAIR VALUE MEASUREMENTS (Continued)

As of March 30, 2018 and December 29, 2017, the recorded amount of the Company's equity method investment was \$18.8 million and \$13.8 million, respectively. The Company's equity method investment is in a Chinese venture capital fund focused on investing in life sciences companies. This fund accounts for its investments at fair value with the unrealized change in fair value of these investments recorded as income or loss to the fund in the period of change. As of March 30, 2018, the Company owned 6.6% of this fund. During the three months ended March 30, 2018 and March 31, 2017, the Company recognized a net gain of \$5.0 million and a net loss of \$0.4 million, respectively, on its equity method investment.

The Company's recorded amount of cost method investments was \$7.0 million at March 30, 2018 and December 29, 2017.

The Company did not recognize any impairment charges related to cost method investments during the three months ended March 30, 2018 and March 31, 2017. The fair value of these investments is primarily determined by reference to recent sales data of similar shares to independent parties in an inactive market and categorized in Level 2 of the fair value hierarchy.

(13.) SEGMENT INFORMATION

The Company organizes its business into two reportable segments: (1) Medical and (2) Non-Medical. This segment structure reflects the financial information and reports used by the Company's management, specifically its Chief Operating Decision Maker ("CODM"), to make decisions regarding the Company's business, including resource allocations and performance assessments. This segment structure reflects the Company's current operating focus in compliance with ASC 280, Segment Reporting. There were no sales between segments during the three months ended March 30, 2018 and March 31, 2017.

The following table presents sales by product line (in thousands).

	Three Months Ended	
	March 30, 2018	March 31, 2017
Segment sales by product line:		
Medical		
Cardio & Vascular	\$138,348	\$125,108
Cardiac & Neuromodulation	108,910	103,813
Advanced Surgical, Orthopedics & Portable Medical	121,775	105,146
Total Medical	369,033	334,067
Non-Medical	12,712	11,346
Total sales	\$381,745	\$345,413

The following table presents income from operations for the Company's reportable segments (in thousands).

	Three Months Ended	
	March 30, 2018	March 31, 2017
Segment income from operations:		
Medical	\$52,127	\$50,360
Non-Medical	3,198	1,562
Total segment income from operations	55,325	51,922
Unallocated operating expenses	(20,608)	(25,377)
Operating income	34,717	26,545
Unallocated expenses, net	(22,508)	(30,740)
Income (loss) before income taxes	\$12,209	\$(4,195)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(14.) REVENUE FROM CONTRACTS WITH CUSTOMERS

The majority of the Company's revenues consist of sales of various medical devices and products to large, multinational OEMs and their affiliated subsidiaries. The Company considers the customer's purchase order, which in some cases is governed by a long-term agreement, and the Company's corresponding sales order acknowledgment as the contract with the customer. The Company has elected to adopt the practical expedient provided in ASC 340-40-25-4 and recognize the incremental costs of obtaining a contract, which are primarily sales commissions, as expense when incurred because the amortization period is less than one year.

Performance Obligations

The Company considers each shipment of an individual product included on a purchase order to be a separate performance obligation, as each shipment is separately identifiable and the customer can benefit from each individual product separately from the other products included on the purchase order. Accordingly, a contract can have one or more performance obligations to manufacture products. Standard payment terms range from 30 to 90 days and can include a discount for early payment.

The Company does not offer its customers a right of return. Rather, the Company warrants that each unit received by the customer will meet the agreed upon technical and quality specifications and requirements. Only when the delivered units do not meet these requirements can the customer return the non-compliant units as a corrective action under the warranty. The remedy offered to the customer is repair of the returned units or replacement if repair is not viable. Accordingly, the Company records a warranty reserve and any warranty activities are not considered to be a separate performance obligation. Historically, warranty reserves have not been material.

Transaction Price

Generally, the transaction price of the Company's contracts consists of a unit price for each individual product included in the contract, which can be fixed or variable based on the number of units ordered. In some instances, the transaction price also includes a rebate for meeting certain volume-based targets over a specified period of time. The transaction price of a contract is determined based on the unit price and the number of units ordered, reduced by the rebate expected to be earned on those units. Rebates are estimated based on the expected achievement of the volume-based target using the most likely amount method and updated quarterly. Any adjustments to these estimates are recognized under the cumulative catch-up method, such that impact of the adjustment is recognized in the period in which it is identified.

The transaction price is allocated to each performance obligation on a relative standalone selling price basis. As the majority of products sold to customers are manufactured to meet the specific requirements and technical specifications of that customer, the products are considered unique to that customer and the unit price stated in the contract is considered the standalone selling price.

The Company has elected to adopt the practical expedient provided in ASC 606-10-50-14 and not disclose the aggregate amount of the transaction price allocated to unsatisfied performance obligations and an expectation of when those amounts are expected to be recognized as revenue because the majority of contracts have an original expected duration of one year or less.

Revenue Recognition

The Company recognizes revenue at the point in time when a performance obligation is satisfied and the customer has obtained control of the products. Control is defined as the ability to direct the use of and obtain substantially all of the remaining benefits of the product. The customer obtains control of the products when title and risk of ownership transfers to them, which is primarily based upon shipping terms. Accordingly, the majority of the Company's revenues are recognized at the point of shipment. In instances where title and risk of ownership do not transfer to the customer until the products have reached the customer's location, revenue is recognized at that point in time. Revenue is recognized net of sales tax, value-added taxes and other taxes.

Contract Modifications

Contract modifications, which can include a change in either or both scope and price, most often occur related to contracts that are governed by a long-term arrangement. Contract modifications typically relate to the same products already governed by the long-term arrangement, and therefore, are accounted for as part of the existing contract. If a contract modification is for additional products, it is accounted for as a separate contract.

(14.) REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

Disaggregated Revenue

In general, the Company's business segmentation is aligned according to the nature and economic characteristics of its products and customer relationships and provides meaningful disaggregation of each business segment's results of operations. For a summary by disaggregated product line sales for each segment, refer to Note 13, "Segment Information." Additionally, the tables below disaggregate the Company's revenues based upon significant customers, which are defined as any customer who individually represents 10% or more of a segment's total revenues, and ship to country, which is defined as any country where 10% or more of a segment's total revenues are shipped to. The Company believes that these categories best depict how the nature, amount, timing and uncertainty of revenues and cash flows are affected by economic factors.

The following table presents revenues by customer for the three months ended March 30, 2018.

Customer	Medical		Non-Medical	
Customer A	17	%	—	%
Customer B	16	%	—	%
Customer C	15	%	—	%
Customer D	—	%	19	%
Customer E	—	%	11	%
All other customers	52	%	70	%

The following table presents revenues by ship to country for the three months ended March 30, 2018.

Ship to Location	Medical		Non-Medical	
United States	55	%	69	%
Puerto Rico	10	%	—	%
Canada	—	%	11	%
All other Countries	35	%	20	%

Contract Balances

The timing of revenue recognition, billings and cash collections results in billed accounts receivable and less frequently, unearned revenue. Accounts receivable are recorded when the right to consideration becomes unconditional. Unearned revenue is recorded when customers pay or are billed in advance of the Company's satisfaction of performance obligations. Contract liabilities were \$4.4 million and \$3.6 million as of March 30, 2018 and December 29, 2017, respectively, and are classified as Accrued Expenses on the Condensed Consolidated Balance Sheets. During the three months ended March 30, 2018, we recognized \$0.7 million of revenue that was included in the contract liability balance as of December 29, 2017. The Company does not have any contract assets.

(15.) IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

The following table provides a brief description of recent Accounting Standard Updates ("ASU") issued by the Financial Accounting Standards Board ("FASB"):

Standard	Description	Effective Date	Effect on the Financial Statements or Other Significant Matters
In February 2018, the FASB issued ASU 2018-02, Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income.	The new guidance allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Cuts and Jobs Act and will improve the usefulness of information reported to financial statement users. The new guidance improves the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results.	December 29, 2018 (beginning of 2019 fiscal year). Early adoption is permitted.	The Company is currently evaluating the impact that the adoption of this ASU will have on its consolidated financial statements.
In August 2017, the FASB issued ASU 2017-12, Targeted Improvements to Accounting for Hedging Activities.	The new guidance clarifies the presentation and classification of the components of net periodic benefit costs in the consolidated statement of operations.	December 29, 2018. Early adoption is permitted.	The Company does not believe the adoption of this guidance will have a material impact on its consolidated financial statements.
In March 2017, the FASB issued ASU 2017-07, Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost.	The new guidance requires the income tax consequences of an intra-entity transfer of assets other than inventory to be recognized when the transfer occurs rather than deferring until an outside sale has occurred.	December 30, 2017.	The Company adopted the new guidance effective December 30, 2017, the beginning of its 2018 fiscal year, using the retrospective transition method, as part of the FASB's simplification initiative. See Adoption of ASU 2017-07 section below for additional information.
In October 2016, the FASB issued ASU 2016-16, Intra-Entity Transfers of Assets Other Than Inventory.	The new guidance clarifies the presentation and classification of certain cash receipts and cash payments in the statement of cash flows.	December 30, 2017.	The Company adopted the new guidance effective December 30, 2017. The adoption of the new guidance did not have a material impact to the Company.
In August 2016, the FASB issued ASU 2016-15, Classification of Certain Cash Receipts and Cash Payments.		December 30, 2017.	The Company adopted the new guidance effective December 30, 2017. The adoption of the new guidance did not have a material impact to the Company.

Edgar Filing: Integer Holdings Corp - Form 10-Q

In February 2016, the FASB issued ASU 2016-02, Leases.

The new guidance supersedes the lease guidance under ASC Topic 840, Leases, resulting in the creation of FASB ASC Topic 842, Leases. The guidance requires a lessee to recognize in the statement of financial position a liability to make lease payments and a right-of-use asset representing its right to use the underlying asset for the lease term for both finance and operating leases.

December 29, 2018. Early adoption is permitted.

The Company is currently evaluating its population of leases, and is continuing to assess all potential impacts of the standard, but currently believes the most significant impact relates to its accounting for real estate operating leases. The Company anticipates recognition of additional assets and corresponding liabilities related to leases upon adoption, but has not yet quantified these at this time. The Company plans to adopt the standard effective December 29, 2018.

Table of Contents

INTEGER HOLDINGS CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(15.) IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS (Continued)

Standard	Description	Effective Date	Effect on the Financial Statements or Other Significant Matters
In January 2016, the FASB issued ASU 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities.	The new guidance updates certain aspects of recognition, measurement, presentation and disclosure of financial instruments.	December 30, 2017.	The Company adopted the new guidance effective December 30, 2017. The adoption of the new guidance did not have a material impact to the Company.
In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. Since that date, the FASB has issued additional ASUs clarifying certain aspects of ASU 2014-09.	The new guidance requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. The new guidance provides alternative methods of adoption. Subsequent guidance issued after May 2014 did not change the core principle of ASU 2014-09.	December 30, 2017.	The Company adopted the new guidance effective December 30, 2017, using the modified retrospective transition method applied to those contracts which were not completed as of December 30, 2017. Prior period amounts have not been adjusted and continue to be reflected in accordance with the Company's historical accounting. The adoption of this ASU did not have a material impact on the consolidated financial statements and therefore no cumulative adjustment was recorded to equity. The Company has updated its internal controls for changes and expanded disclosures have been made in the Notes to the Financial Statements as a result of adopting the standard. (See Note 14, "Revenue from Contracts with Customers").

Adoption of ASU 2017-07

On December 30, 2017, we retrospectively adopted the new accounting guidance on presentation of net periodic pension costs (ASU 2017-07). That guidance requires that we disaggregate the service cost component of net benefit costs and report those costs in the same line item or items in the Condensed Consolidated Statements of Operations and Comprehensive Income as other compensation costs arising from services rendered by the pertinent employees during the period. The other non-service components of net benefit costs are required to be presented separately from the service cost component.

Following the adoption of this guidance, we continue to record the service cost component of net benefit costs in Cost of Sales and Selling, General and Administrative expenses. The interest cost component of net benefit costs is now recorded in Interest Expense and the remaining components of net benefit costs, amortization of net losses and expected return on plan assets, are now recorded in Other Loss, Net.

(16.) SUBSEQUENT EVENT

On May 3, 2018, the Company entered into a definitive agreement to sell the Advanced Surgical and Orthopedic product lines within its Medical segment to MedPlast, LLC for \$600 million in cash (the "Transaction"). The Company expects to close the Transaction in the third quarter of 2018, subject to regulatory clearance and other customary closing conditions. The net proceeds from the sale are expected to be used to accelerate debt payments to reduce leverage.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report on Form 10-Q should be read in conjunction with the disclosures included in our Annual Report on Form 10-K for the fiscal year ended December 29, 2017. In addition, please read this section in conjunction with our Condensed Consolidated Financial Statements and Notes to Condensed Consolidated Financial Statements contained herein.

Forward-Looking Statements

Some of the statements contained in this report and other written and oral statements made from time to time by us and our representatives are not statements of historical or current fact. As such, they are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We have based these forward-looking statements on our current expectations, and these statements are subject to known and unknown risks, uncertainties and assumptions. Forward-looking statements include statements relating to:

- future sales, expenses, and profitability;
- future development and expected growth of our business and industry;
- our ability to execute our business model and our business strategy;
- our ability to identify trends within our industries and to offer products and services that meet the changing needs of those markets;
- our ability to remain in compliance with the financial covenants contained in the agreement governing our Senior Secured Credit Facilities; and
- projected capital expenditures.

You can identify forward-looking statements by terminology such as "may," "will," "should," "could," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential" or "continue" or "variations" or the negative of these terms or other comparable terminology. These statements are only predictions. Actual events or results may differ materially from those stated or implied by these forward-looking statements. In evaluating these statements and our prospects, you should carefully consider the factors set forth below. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary factors and to others contained throughout this report.

Although it is not possible to create a comprehensive list of all factors that may cause actual results to differ from the results expressed or implied by our forward-looking statements or that may affect our future results, some of these factors include the following: our high level of indebtedness, our inability to pay principal and interest on this high level of outstanding indebtedness or to remain in compliance with financial and other covenants under our Senior Secured Credit Facilities, and the risk that this high level of indebtedness limits our ability to invest in our business and overall financial flexibility; our dependence upon a limited number of customers; customer ordering patterns; product obsolescence; our inability to market current or future products; pricing pressure from customers; our ability to timely and successfully implement cost savings and consolidation initiatives; our reliance on third party suppliers for raw materials, products and subcomponents; fluctuating operating results; our inability to maintain high quality standards for our products; challenges to our intellectual property rights; product liability claims; product field actions or recalls; our inability to successfully consummate and integrate acquisitions and to realize synergies and to operate these acquired businesses in accordance with expectations; our unsuccessful expansion into new markets; our failure to develop new products; the timing, progress and ultimate success of pending regulatory actions and approvals; our inability to obtain licenses to key technology; regulatory changes, including health care reform, or consolidation in the healthcare industry; global economic factors, including currency exchange rates and interest rates; the resolution of various legal actions brought against the Company; enactment related and ongoing impacts related to the U.S. Tax Cuts and Jobs Act (the "Tax Reform Act"), including the Global Intangible Low-Taxed Income ("GILTI") tax; and other risks and uncertainties that arise from time to time and are described in Item 1A "Risk Factors" of our Annual Report on Form 10-K and in other periodic filings with the Securities and Exchange Commission. Except as required by applicable law, the Company assumes no obligation to update forward-looking statements in this report whether to reflect changed assumptions, the occurrence of unanticipated events or changes in future operating results, financial

conditions or prospects, or otherwise.

Table of ContentsINTEGER HOLDINGS CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS

Our Business

Integer Holdings Corporation is one of the largest medical device outsource (“MDO”) manufacturers in the world serving the cardiac, neuromodulation, orthopedics, vascular and advanced surgical markets. We also develop batteries for high-end niche applications in the non-medical energy, military, and environmental markets. Our vision is to enhance the lives of patients worldwide by being our customers’ partner of choice for innovative technologies and services.

We organize our business into two reportable segments, Medical and Non-Medical, and derive our revenues from four principle product lines. The Medical segment includes the Advanced Surgical, Orthopedics & Portable Medical, Cardio & Vascular and Cardiac & Neuromodulation product lines and the Non-Medical segment is comprised of the Electrochem product line.

Strategic Overview

During 2017, we undertook a thorough strategic review of our customers, competitors and markets. As a result of this review, during the fourth quarter of 2017, we began to take steps to better align our resources in order to invest to grow, protect, preserve and to enhance the profitability of our portfolio of products. These steps include focusing our investment in research and development and manufacturing, improving our business processes and redirecting investments away from projects where the market does not justify the investment. The execution of this strategy will be our primary focus going forward.

We believe Integer is well-positioned within the medical technology and MDO manufacturing market and that there is a robust pipeline of opportunities to pursue. We have expanded our medical device capabilities and are excited about opportunities to partner with customers to drive innovation. We believe we have the scale and global presence, supported by world-class manufacturing and quality capabilities, to capture these opportunities. We are confident in our abilities as one of the largest MDO manufacturers, with a long history of successfully integrating companies, driving down costs and growing revenues over the long-term. Ultimately, our strategic vision is to drive shareholder value by enhancing the lives of patients worldwide by being our customers’ partner of choice for innovative technologies and services.

2018 Outlook^(a)

(dollars in millions, except per share amounts)

	GAAP		Non-GAAP ^{(b)(c)}	
	As Reported	Growth	Adjusted	Growth
Sales	\$1,510 to \$1,550	3% to 6%	\$1,510 to \$1,550	3% to 6%
Net Income	\$50 to \$60	(25%) to (10%)	\$103 to \$113	14% to 25%
EBITDA	N/A	N/A	\$310 to \$320	9% to 12%
Earnings per Diluted Share	\$1.55 to \$1.85	(26%) to (11%)	\$3.20 to \$3.50	14% to 25%

Our 2018 Outlook does not reflect the potential impact of the planned divestiture of the Advanced Surgical and Orthopedics product lines that was announced on May 3, 2018. Refer to Note 16 “Subsequent Event” of the Notes to
(a) Condensed Consolidated Financial Statements contained in Item 1 of this report for additional information about the divestiture.

Except as described below, further reconciliations by line item to the closest corresponding GAAP financial measure for Adjusted Net Income, Adjusted Earnings per Diluted Share and Adjusted EBITDA, included in our
(b) “2018 Outlook” above, are not available without unreasonable efforts on a forward-looking basis due to the high variability, complexity and visibility of the charges excluded from this non-GAAP financial measure.

(c) Adjusted Net Income and EPS for 2018 is expected to consist of GAAP Net Income and EPS, excluding items such as intangible amortization, IP-related litigation costs, consolidation and realignment costs, asset disposition and write-down charges, and loss on extinguishment of debt totaling approximately \$63 million. The after-tax impact of these items is estimated to be approximately \$50 million, or approximately \$1.54 per diluted share. Additionally, Adjusted Net Income and EPS is expected to exclude the estimated impact relating to our disallowed deduction of the GILTI tax, as mandated by the Tax Reform Act. This disallowed deduction of the GILTI tax (approximately

50% of the total GILTI tax) is due to the Company making use of its U.S. net operating losses (“NOLs”), and will be eliminated once the Company’s U.S. NOLs are fully utilized, which is expected to be in approximately three to five years. This adjustment makes our Adjusted Diluted EPS more comparable with other global companies that are not subject to this disallowed GILTI tax deduction and more comparable to the Company’s results following the full utilization of its U.S. NOLs.

Adjusted EBITDA is expected to consist of Adjusted Net Income, excluding items such as depreciation, interest, stock-based compensation and taxes totaling approximately \$207 million.

- 26 -

Table of Contents

INTEGER HOLDINGS CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Overview

Net income for the first quarter of 2018 was \$8.1 million, or \$0.25 per diluted share, compared to a net loss of \$4.3 million, or \$0.14 per diluted share for the first quarter of 2017. This variance is primarily the result of the following: Sales increased \$36.3 million or 11%. Foreign currency exchange rates increased sales by approximately \$6 million. Organic sales for the first quarter of 2018 increased 9%, primarily driven by sales growth in our Medical segment through strong demand for Integer-owned products in the Cardio & Vascular product line, as well as strong demand for Neuromodulation products and strength in the Advanced Surgical, Orthopedics & Portable Medical product line; Gross profit for the first quarter of 2018 increased \$4.5 million, primarily due to the increase in sales discussed above, partially offset by price concessions given to our larger OEM customers and higher incentive compensation based upon current quarter results;

Operating expenses for the first quarter of 2018 were lower by \$3.6 million, due to a decrease in other operating expenses (\$6.5 million) attributable to the completion of spending on integration activities and various efficiencies and synergies gained as a result of our integration and consolidation initiatives partially offset by higher incentive compensation (\$2.3 million);

Interest expense for the first quarter of 2018 declined \$2.4 million, primarily attributable to lower outstanding debt balances due to the repayment of debt over the last year;

Net gains on cost and equity method investments, which are unpredictable in nature, increased first quarter income by \$5.4 million as a result of a net gain of \$5.0 million in the first quarter of 2018 compared to a net loss of \$0.4 million during the first quarter of 2017; and

Other loss, net for the first quarter of 2018 was lower by \$0.4 million (lower net loss), which includes a \$0.1 million decrease in foreign currency exchange rate losses (favorable impact).

Income tax provision increased primarily due to an increase in pre-tax income, resulting from the factors discussed above and the estimated impact of the GILTI tax.

Use of Non-GAAP Financial Information

We prepare our condensed consolidated financial statements in accordance with generally accepted accounting principles in the United States of America ("GAAP"). Additionally, we consistently report and discuss in our earnings releases and investor presentations adjusted pre-tax income, adjusted net income, adjusted earnings per diluted share, earnings before interest, taxes, depreciation, and amortization ("EBITDA"), adjusted EBITDA and organic sales growth rates. Adjusted pre-tax income, adjusted net income and adjusted earnings per diluted share consist of GAAP amounts adjusted for the following to the extent occurring during the period: (i) acquisition and integration related charges and expenses, (ii) amortization of intangible assets including inventory step-up amortization, (iii) facility consolidation, optimization, manufacturing transfer and system integration charges, (iv) asset write-down and disposition charges, (v) charges in connection with corporate realignments or a reduction in force, (vi) certain litigation expenses, charges and gains, (vii) unusual or infrequently occurring items, (viii) gain/loss on cost and equity method investments, (ix) extinguishment of debt charges, (x) the income tax (benefit) related to these adjustments (not for adjusted pre-tax income) and (xi) certain tax items that are outside the normal provision for the period (not for adjusted pre-tax income). Adjusted earnings per diluted share are calculated by dividing adjusted net income by diluted weighted average shares outstanding. Adjusted EBITDA consists of GAAP net income (loss) plus (i) the same adjustments as listed above except for items (x) and (xi), (ii) GAAP stock-based compensation, interest expense, and depreciation, (iii) GAAP provision (benefit) for income taxes and (iv) cash gains received from cost and equity method investments during the period. To calculate organic sales growth rates, which exclude the impact of changes in foreign currency exchange rates, as well as the impact of any acquisitions or divestitures of product lines on sales growth rates, we convert current period sales from local currency to U.S. dollars using the previous periods foreign currency exchange rates and exclude the amount of sales acquired/divested during the period from the current/previous period amounts, respectively. We believe that the presentation of adjusted net income, adjusted diluted earnings per share, EBITDA, adjusted EBITDA, and organic sales growth rates provides important supplemental information to management and investors seeking to understand the financial and business trends relating to our financial condition and results of

operations.

- 27 -

Table of ContentsINTEGER HOLDINGS CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS

A reconciliation of GAAP net income (loss) and diluted earnings (loss) per share ("EPS") to adjusted amounts is as follows (in thousands, except per share amounts):

	Three Months Ended					
	March 30, 2018			March 31, 2017		
	Pre-Tax	Net Income	Per Diluted Share	Pre-Tax	Net Income (Loss)	Per Diluted Share
As reported (GAAP)	\$12,209	\$8,118	\$0.25	\$(4,195)	\$(4,339)	\$(0.14)
Adjustments:						
Amortization of intangibles ^(a)	11,713	9,304	0.29	10,978	7,746	0.24
IP related litigation (SG&A) ^{(a)(b)}	321	254	0.01	377	245	0.01
Strategic reorganization and alignment (OOE) ^{(a)(c)}	3,492	2,779	0.09	—	—	—
Manufacturing alignment to support growth (OOE) ^{(a)(d)}	513	369	0.01	—	—	—
Consolidation and optimization expenses (OOE) ^{(a)(e)}	605	473	0.01	2,395	1,899	0.06
Acquisition and integration expenses (OOE) ^{(a)(f)}	—	—	—	4,820	3,133	0.10
Asset dispositions, severance and other (OOE) ^{(a)(g)}	667	489	0.02	4,556	2,957	0.09
(Gain) loss on cost and equity method investments, net ^(a)	(4,970)	(3,926)	(0.12)	398	259	0.01
Loss on extinguishment of debt ^{(a)(h)}	1,057	835	0.03	1,559	1,013	0.03
Tax adjustments ⁽ⁱ⁾	—	1,021	0.03	—	—	—
Adjusted (Non-GAAP)	\$25,607	\$19,716	\$0.61	\$20,888	\$12,913	\$0.41

Diluted weighted average shares for adjusted EPS^(j) 32,423 31,685

The difference between pre-tax and net income (loss) amounts is the estimated tax impact related to the respective adjustment. Net income amounts are computed using a 21% U.S. tax rate (35% U.S. tax rate for 2017 periods), and the statutory tax rates in Mexico, Germany, France, Netherlands, Uruguay, Ireland and Switzerland, as adjusted for the existence of NOLs. Amortization of intangibles and OOE expense have also been adjusted to reflect the estimated impact relating to our disallowed deduction of the GILTI tax, as described in note (i) below. Expenses that are not deductible for tax purposes (i.e. permanent tax differences) are added back at 100%.

In 2013, we filed suit against AVX Corporation alleging they were infringing our intellectual property. Given the complexity and significant costs incurred pursuing this litigation, we are excluding these litigation expenses from adjusted amounts. This matter proceeded to trial during the first quarter of 2016 and again in the third quarter of 2017 that resulted in a jury awarding damages in the amount of \$37.5 million. In March 2018, the court vacated that damage award and ordered a new trial on damages, which is scheduled for January 2019. To date, no gains have been recognized in connection with this litigation.

As a result of the strategic review of our customers, competitors and markets we undertook during the fourth quarter of 2017, we began to take steps to better align our resources in order to invest to grow, protect, preserve and to enhance the profitability of our portfolio of products. This will include focusing our investment in RD&E and manufacturing, improving our business processes and redirecting investments away from projects where the market does not justify the investment. As a result, during the first quarter of 2018 we incurred charges related to this strategy, which primarily consisted of severance and fees for professional services.

In 2017, we initiated several initiatives designed to reduce costs, improve operating efficiencies and increase manufacturing capacity to accommodate growth. The plan involves the relocation of certain manufacturing operations and expansion of certain of our facilities.

During 2018 and 2017, we incurred costs primarily related to the closure of our Clarence, NY facility and the transfer of our Beaverton, OR portable medical and Plymouth, MN vascular manufacturing operations to Tijuana, Mexico.

(f)

Edgar Filing: Integer Holdings Corp - Form 10-Q

Reflects acquisition and integration costs related to the acquisition of Lake Region Medical, which occurred in October 2015.

(g) Amounts for 2017 primarily include expenses related to our CEO and CFO transitions.

(h) Represents debt extinguishment charges in connection with pre-payments made on our Term B Loan Facility, which are included in interest expense.

- 28 -

Table of ContentsINTEGER HOLDINGS CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS

Tax adjustments primarily includes the estimated impact relating to our disallowed deduction of the GILTI tax, as mandated by the Tax Reform Act. This disallowed deduction of the GILTI tax (approximately 50% of the total GILTI tax) is due to the Company making use of its U.S. NOLs, and will be eliminated once the Company's U.S. NOLs are fully utilized, which is expected to be in approximately three to five years. This adjustment makes our Adjusted Diluted EPS more comparable with other global companies that are not subject to this disallowed GILTI tax deduction and more comparable to the Company's results following the full utilization of its U.S. NOLs.

(i) The diluted weighted average shares for adjusted EPS for the three month period ended March 31, 2017 includes (j) 669,000 of potentially dilutive shares not included in the computation of diluted weighted average common shares for GAAP diluted EPS purposes because their effect would have been anti-dilutive in that period.

Adjusted diluted EPS, which excludes the impact of amortization of intangible assets, losses on extinguishment of debt and various other operating expenses, among others, was \$0.61 per share for the first quarter of 2018, compared to \$0.41 per share for the first quarter of 2017. These results reflect the benefit of our increased sales, lower interest expense, and the completion of spending on integration activities, partially offset by higher incentive compensation. A reconciliation of GAAP net income (loss) to EBITDA and adjusted EBITDA is as follows (dollars in thousands):

	Three Months Ended	
	March 30, 2018	March 31, 2017
Net income (loss) (GAAP)	\$8,118	\$(4,339)
Interest expense	26,445	28,893
Provision for income taxes	4,091	144
Depreciation	14,621	13,628
Amortization	11,713	10,978
EBITDA	64,988	49,304
IP related litigation	321	377
Stock-based compensation (excluding OOE)	3,218	2,406
Strategic reorganization and alignment	3,492	—
Manufacturing alignment to support growth	513	—
Consolidation and optimization expenses	605	2,395
Acquisition and integration expenses	—	4,820
Asset dispositions, severance and other	667	4,556
Non-cash (gain) loss on cost and equity method investments	(4,970)	398
Adjusted EBITDA (Non-GAAP)	\$68,834	\$64,256

Our CEO's View

We delivered another quarter of strong year-over-year sales growth, driven by strength in our Advanced Surgical, Orthopedics & Portable Medical, Cardio & Vascular, and Electrochem product lines as well as a return to growth in our Cardiac & Neuromodulation product line. Cash flow generation remains strong and enabled further accelerated debt pay down in the quarter. We have increased our 2018 guidance to reflect our strong first quarter results and our confidence in continued year over year revenue growth throughout the remainder of the year.

We are pleased with our sustained quarterly growth demonstrating our progress towards transitioning our business back to a long-term growth trajectory. As we look forward, we believe we have significant opportunities to further expand and grow our business. We have a unique breadth of capabilities to serve our customers across the entire product continuum and across multiple product categories. Whether a customer needs an engineered component or a complete device that we've developed, or anything in between, we can deliver. Our innovative design and manufacturing capabilities, our global footprint and scalability, our high-quality, and our customer focus enable us to

deliver more for our customers.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Cost Savings and Consolidation Efforts

In 2018 and 2017, we recorded charges in Other Operating Expenses related to various cost savings and consolidation initiatives. These initiatives were undertaken to improve our operational efficiencies and profitability, the most significant of which are as follows (dollars in millions):

Initiative	Expected Expense	Expected Capital Expenditures	Expected Annual Cost Savings ^(a)	Expected Completion Date
Strategic reorganization and alignment	\$10 - \$12	-	\$8 - \$12	2018
Manufacturing alignment to support growth	\$9 - \$11	\$4 - \$6	\$2 - \$3	2019
Consolidation and optimization expenses	\$18 - \$22	\$5 - \$6	\$12 - \$13	2018

(a) Represents the annual benefit to our operating income expected to be realized from these initiatives through cost savings and/or increased capacity. These benefits will be phased in over time as the various initiatives are completed, some of which are already included in our current period results.

We continually evaluate our operating structure in order to maximize efficiencies and drive margin expansion. Future charges are expected to be incurred as we seek to create an optimized manufacturing footprint, leveraging our increased scale and product capabilities while also supporting the needs of our customers. Our efforts will include:

- potential manufacturing consolidations;
- continuous improvement;
- productivity initiatives;
- direct material and indirect expense savings opportunities; and
- the establishment of centers of excellence.

Refer to Note 7 "Other Operating Expenses" of the Notes to Condensed Consolidated Financial Statements contained in Item 1 of this report for additional information about the timing, cash flow impact, and amount of future expenditures for our cost savings and consolidation initiatives.

Our Financial Results

We utilize a fifty-two, fifty-three week fiscal year ending on the Friday nearest December 31. For 52-week years, each quarter contains 13 weeks. The first quarter of 2018 and 2017 ended on March 30, and March 31, respectively, and each contained 13 weeks.

The following tables present selected financial information derived from our Condensed Consolidated Financial Statements, contained in Item 1 of this report, for the periods presented (dollars in thousands, except per share):

	Three Months Ended		Change	
	March 30, 2018	March 31, 2017	\$	%
Medical Sales:				
Cardio & Vascular	\$ 138,348	\$ 125,108	\$ 13,240	10.6 %

Table of ContentsINTEGER HOLDINGS CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS

Product Line Sales Highlights

For the first quarter of 2018, Cardio & Vascular sales increased \$13.2 million, or 11% versus the comparable 2017 period. These increases were primarily driven by continued strong demand for Integer-owned products from new and existing customers and increased demand for contract manufactured products. During the first quarter of 2018, price concessions to our larger OEM customers reduced Cardio & Vascular sales by approximately \$1.6 million, in comparison to the same period of 2017. Foreign currency exchange rate fluctuations increased first quarter 2018 sales by approximately \$1.5 million in comparison to the 2017 period primarily due to U.S. dollar fluctuations relative to the Euro.

For the first quarter of 2018, Cardiac & Neuromodulation sales increased \$5.1 million, or 5% versus the comparable 2017 period. The increase in Cardiac & Neuromodulation sales was driven by strong Neuromodulation demand and the resolution of a supply constraint in the prior year. Price concessions to our larger OEM customers reduced first quarter 2018 Cardiac & Neuromodulation sales by approximately \$2.5 million, in comparison to the same period of 2017. Foreign currency exchange rate fluctuations did not have a material impact on Cardiac & Neuromodulation sales during the first quarter of 2018 in comparison to the same period of 2017.

Advanced Surgical, Orthopedics & Portable Medical first quarter 2018 sales increased \$16.6 million, or 16%, versus the comparable 2017 period. This increase was driven by volume strength with existing customers, new product ramps, and expected tailwind from customer inventory management. For the first quarter of 2018, price concessions to our larger OEM customers reduced Advanced Surgical, Orthopedics & Portable Medical sales by approximately \$0.8 million, in comparison to the same period of 2017. Foreign currency exchange rate fluctuations increased first quarter 2018 sales by approximately \$4.5 million in comparison to the 2017 period primarily due to U.S. dollar fluctuations relative to the Euro.

For the first quarter of 2018, Non-Medical sales increased \$1.4 million, or 12%, versus the comparable 2017 period. This increase was driven by new business wins in a stable energy market. Foreign currency exchange rates and price fluctuations did not have a material impact on Non-Medical sales during the first quarter of 2018 in comparison to the same period of 2017.

Gross Profit

Changes to gross profit as a percentage of sales ("Gross Margin") from the prior year were due to the following:

	Change From Prior Year Three Months
Price ^(a)	(1.3)%
Mix ^(b)	(0.4)
Incentive compensation ^(c)	(0.5)
Production efficiencies and volume ^(d)	0.9
Total percentage point change to gross profit as a percentage of sales	(1.3)%

(a) Our Gross Margin for the first quarter of 2018 has been negatively impacted by price concessions given to our larger OEM customers in return for long-term volume commitments.

(b) Our Gross Margin for the first quarter of 2018 has been negatively impacted by a higher mix of sales of lower margin products.

(c) Amounts represent the impact to our Gross Margin attributable to our cash and stock incentive programs, including performance-based compensation, which is accrued based upon actual results achieved.

(d) Represents various increases and decreases to our Gross Margin. Overall, our Gross Margin for the first quarter of 2018 has been positively impacted by production efficiencies and synergies gained as a result of our integration

and consolidation initiatives as well as higher volume in comparison to the respective 2017 period.

- 32 -

Table of ContentsINTEGER HOLDINGS CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS

SG&A Expenses

Changes to SG&A expenses from the prior year were due to the following (in thousands):

	Change From Prior Year Three Months
Legal expenses ^(a)	\$(710)
Intangible asset amortization ^(b)	848
Incentive compensation programs ^(c)	1,813
Other ^(d)	(212)
Net increase in SG&A Expenses	\$1,739

(a) Amount represents the change in legal costs compared to the prior year period, including legal expenses incurred related to our on-going patent infringement case. Refer to Note 9 "Commitments and Contingencies" of the Notes to the Condensed Consolidated Financial Statements contained in Item 1 of this report for information related to this patent infringement litigation.

(b) Amount represents the increase in intangible asset amortization (i.e. customer list), which is amortized based upon the forecasted cash flows at the time of acquisition for the respective asset.

(c) Amount represents the impact to our SG&A attributable to our cash and stock incentive programs, including performance-based compensation, which is accrued based upon actual results achieved.

(d) Represents various increases and decreases to our SG&A.

RD&E

Changes to RD&E expenses from the prior year were due to the following (in thousands):

	Change From Prior Year Three Months
Incentive compensation programs ^(a)	\$465
Other ^(b)	662
Net increase in RD&E	\$1,127

(a) Amount represents the impact to our RD&E attributable to our cash and stock incentive programs, including performance-based compensation, which is accrued based upon actual results achieved.

(b) Represents the net impact of various increases and decreases to our RD&E. RD&E expense for the first quarter of 2018 reflects our increased investment in projects with a higher growth opportunity.

Other Operating Expenses

Refer to “Cost Savings and Consolidation Efforts” section of this Item and Note 7 “Other Operating Expenses” of the Notes to the Condensed Consolidated Financial Statements contained in Item 1 of this report for further information related to these initiatives. Other Operating Expenses is comprised of the following (in thousands):

	Three Months Ended	
	March 31, 2018	March 31, 2017
Strategic reorganization and alignment ^(a)	\$3,492	\$ —
Manufacturing alignment to support growth ^(b)	513	—
Consolidation and optimization costs ^(c)	605	2,395
Acquisition and integration expenses ^(d)	—	4,820
Asset dispositions, severance and other ^(e)	667	4,556
Total other operating expenses	\$5,277	\$ 11,771

As a result of the strategic review of our customers, competitors and markets we undertook during the fourth quarter of 2017, we began to take steps to better align our resources in order to invest to grow, protect, preserve and to enhance the profitability of our portfolio of products. This will include focusing our investment in RD&E and manufacturing, improving our business processes and redirecting investments away from projects where the market does not justify the investment. As a result, during the first quarter of 2018, we incurred charges related to this strategy, which primarily included severance and fees for professional services.

In 2017, we initiated several initiatives designed to reduce costs, improve operating efficiencies and increase manufacturing capacity to accommodate growth. The plan involves the relocation of certain manufacturing operations and expansion of certain of our facilities.

During 2018 and 2017, we incurred costs primarily related to the closure of our Clarence, NY facility and the transfer of our Beaverton, OR portable medical and Plymouth, MN vascular manufacturing operations to Tijuana, Mexico.

Reflects acquisition and integration costs related to the acquisition of Lake Region Medical, which occurred in October 2015. This initiative was substantially complete as of December 29, 2017.

Amounts for 2017 primarily include expenses related to our CEO and CFO transitions.

We continually evaluate our operating structure in order to maximize efficiencies and drive margin expansion. For 2018, Other Operating Expenses is expected to be approximately \$10 million to \$15 million. Refer to the “Cost Savings and Consolidation Efforts” section of this Item for further details on these initiatives.

Interest Expense

Interest Expense for the quarter ended March 30, 2018 was \$26.4 million, compared to \$28.9 million for the quarter ended March 31, 2017. The weighted average interest rates paid on all outstanding borrowings for the quarter ended March 30, 2018 was 5.80%, compared to 5.77%, for the comparable period in 2017. The weighted average interest rates paid in the first quarter of 2018 reflect amendments of our Senior Secured Credit Facilities in March 2017 and again in November 2017, which resulted in a cumulative 100 basis point reduction to the applicable interest rate margins of our Term Loan B facility, partially offset by an increase in LIBOR during 2017 and 2018. Cash interest expense decreased \$1.9 million for the quarter ended March 30, 2018, when compared to the same period in 2017, primarily due to lower outstanding debt balances due to the repayment of debt over the last year. Non-cash interest expense (i.e. deferred fee and discount amortization) decreased \$0.6 million for the quarter ended March 30, 2018 when compared to the same period in 2017, primarily attributable to lower accelerated write-offs (losses from extinguishment of debt) of deferred fees and discounts due to prepayments of portions of our Term Loan B facility during the respective quarters. We recognized losses from extinguishment of debt during the quarters ended March 30, 2018 and March 31, 2017 of \$1.1 million and \$1.6 million, respectively. We repaid \$50.0 million of debt during the

first quarter of 2018. See Note 4 “Debt” of the Notes to the Condensed Consolidated Financial Statements contained in Item 1 of this report for additional information pertaining to our debt.

- 34 -

Table of Contents

INTEGER HOLDINGS CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS

(Gain) Loss on Cost and Equity Method Investments, Net

The Company holds investments in equity and other securities that are accounted for as either cost method or equity method investments. During the three months ended March 30, 2018 and March 31, 2017, we recognized a net gain of \$5.0 million and a net loss of \$0.4 million, respectively, on our equity method investment. Our cost method investments are in start-up research and development companies whose fair value is highly subjective in nature and could be subject to significant fluctuations in the future that could result in material gains or losses. See Note 12 "Fair Value Measurements" of the Notes to the Condensed Consolidated Financial Statements contained in Item 1 of this report for additional information pertaining to our cost and equity method investments.

Other Loss, Net

Other Loss for the quarters ended March 30, 2018 and March 31, 2017 was \$1.0 million and \$1.5 million, respectively. Other Loss is primarily comprised of income (loss) from the impact of foreign currency exchange rates on transactions denominated in foreign currencies.

The impact of foreign currency exchange rates on transactions denominated in foreign currencies included in Other Loss, Net for the quarters ended March 30, 2018 and March 31, 2017 were losses of \$1.4 million and \$1.5 million, respectively. These losses were primarily driven by the impact of the weakening U.S. dollar relative to the Euro on our inter-company loans and are primarily non-cash in nature. We continually monitor our foreign currency exposures and take steps to mitigate these risks. However, fluctuations in foreign currency exchange rates could have a significant impact, positive or negative, on our financial results in the future.

Provision for Income Taxes

We recognized an income tax expense of \$4.1 million for the first quarter of 2018 on \$12.2 million of pre-tax income compared to an income tax expense of \$0.1 million on \$4.2 million of pre-tax losses for the same period of 2017, which represents a worldwide effective tax rate of 33.5% and (3.4%) for the first quarter of 2018 and 2017, respectively. The 2018 estimated annual effective tax rate includes the estimated impact of the U.S. Tax Reform Act provisions.

We expect there to be continued volatility of our effective tax rate due to several factors including: changes in the mix of pre-tax income and the jurisdictions to which it relates, changes in tax laws and foreign tax holidays, business reorganizations, settlements with taxing authorities and foreign currency fluctuations. We continuously evaluate and currently have various tax planning initiatives in place that are aimed at reducing our effective tax rate over the long-term.

Our worldwide effective tax rate is expected to be approximately 34% for 2018, excluding discrete items. Our effective tax rate for 2018 differs from the U.S. federal statutory tax rate of 21% due principally to the estimated impact of the GILTI tax. Our earnings outside the U.S. are generally taxed at blended rates that are marginally lower than the U.S. federal rate. The GILTI provisions require us to include foreign subsidiary earnings in excess of a deemed return on the foreign subsidiary's tangible assets in our U.S. income tax return. There is a statutory deduction of 50% of the GILTI inclusion, however the deduction is subject to limitations based on U.S. taxable income. We currently have NOLs to offset forecasted U.S. taxable income and as such, are temporarily subject to the deduction limitation, which correspondingly imposes an incremental impact on U.S. Income tax. The foreign jurisdictions in which we operate and where our foreign earnings are primarily derived, include Switzerland, Mexico, Germany, Uruguay, Malaysia and Ireland. While we are not currently aware of any material trends in these jurisdictions that are likely to impact our current or future tax expense, our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries where we have lower effective tax rates and higher than anticipated in countries where we have higher effective tax rates, or by changes in tax laws or regulations. We regularly assess any significant exposure associated with increases in tax rates in international jurisdictions and adjustments are made as events occur that warrant adjustment to our tax provisions. Our 2018 blended effective tax rate on foreign earnings is currently estimated to be approximately 18%. The foreign rate differential reduces our worldwide effective tax rate by approximately 2% as compared to the U.S. statutory federal income tax rate. For the year, we expect to have positive income before taxes in our foreign jurisdictions but losses before taxes in U.S. jurisdictions due to our projected

amount of Interest Expense.

- 35 -

Table of ContentsINTEGER HOLDINGS CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS

Liquidity and Capital Resources

(dollars in thousands)	March 30, 2018	December 29, 2017
Cash and cash equivalents	\$ 29,488	\$ 44,096
Working capital	304,035	322,906
Current ratio	2.35	2.54

Cash and cash equivalents at March 30, 2018 decreased by \$14.6 million from year-end as excess cash flow from operations was used to pay down our debt. Working capital decreased \$18.9 million from December 29, 2017 due to the Company's strategic initiatives to reduce working capital in order to generate cash to pay down debt.

At March 30, 2018, \$21 million of our cash and cash equivalents were held by foreign subsidiaries. As a result of the Tax Reform Act, we changed our permanent reinvestment assertion related to previously undistributed foreign earnings. Going forward, we intend to limit our distributions from foreign subsidiaries to previously taxed income. If distributions are made utilizing current period earnings, we will record foreign withholding taxes in the period of the distribution.

Summary of Cash Flow

(in thousands)	Three Months Ended	
	March 30, 2018	March 31, 2017
Cash provided by (used in):		
Operating activities	\$46,122	\$ 38,625
Investing activities	(10,061)	(12,588)
Financing activities	(51,214)	(23,491)
Effect of foreign currency exchange rates on cash and cash equivalents	545	219
Net change in cash and cash equivalents	\$(14,608)	\$ 2,765

Operating Activities – During the quarter ended March 30, 2018, we generated cash of \$46.1 million from operations compared to \$38.6 million for the quarter ended March 31, 2017. This increase was primarily due to a \$10.8 million increase in cash net income (i.e. net income plus adjustments to reconcile net income (loss) to net cash provided by operating activities), partially offset by a \$3.3 million decrease in cash flow provided by working capital. Other non-cash gains reported in cash flows from operating activities increased \$6.3 million primarily due to non-cash equity method investment gains.

Investing Activities – The \$2.5 million decrease in net cash used in investing activities was primarily attributable to lower purchases of property, plant, and equipment. Our current expectation is that capital spending for 2018 will be in the range of \$50 million to \$55 million, of which approximately half is discretionary in nature. We anticipate that cash on hand, cash flows from operations and available borrowing capacity under our Revolving Credit Facility will be sufficient to fund these capital expenditures.

Financing Activities – Net cash used in financing activities for the first quarter of 2018 was \$51.2 million compared to \$23.5 million in the comparable 2017 period. Financing activities during the first quarter of 2018 included net payments of \$50.0 million related to paying down our debt obligations, which included prepayments of \$43.0 million on our Term Loan B facility.

Capital Structure – As of March 30, 2018, our capital structure consists of \$1.6 billion of debt outstanding under our Senior Secured Credit Facilities and Senior Notes and 32 million shares of common stock outstanding. If necessary, as of March 30, 2018, we had access to \$116.8 million of borrowing capacity under our Revolving Credit Facility. This amount may vary from period to period based upon our debt and EBITDA levels, which impacts our covenant calculations. We are also authorized to issue up to 100 million shares of common stock and 100 million shares of preferred stock. As of March 30, 2018, our debt service obligations, comprised of principal and interest payments for the remainder of 2018, are estimated to be approximately \$97 million.

Table of Contents

INTEGER HOLDINGS CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS

Based on current expectations, we believe that our projected cash flows provided by operations, available cash and cash equivalents and potential borrowings under the Revolving Credit Facility should be sufficient to meet our working capital and fixed capital requirements for the next twelve months. If our future financing needs increase, we may need to arrange additional debt or equity financing. Accordingly, we evaluate and consider from time to time various financing alternatives to supplement our financial resources. However, we cannot be assured that we will be able to enter into any such arrangements on acceptable terms or at all.

Credit Facilities - As of March 30, 2018, we had senior secured credit facilities (the "Senior Secured Credit Facilities") that consist of (i) a \$200 million revolving credit facility (the "Revolving Credit Facility"), which had \$74 million drawn as of March 30, 2018, (ii) a \$328 million term loan A facility (the "TLA Facility"), and (iii) an \$830 million term loan B facility (the "TLB Facility"). Additionally, as of March 30, 2018, we had \$360 million aggregate principal amount of 9.125% senior notes due on November 1, 2023 (the "Senior Notes") outstanding. The Revolving Credit Facility will mature on October 27, 2020, the TLA Facility will mature on October 27, 2021 and the TLB Facility will mature on October 27, 2022. The Senior Secured Credit Facilities include a mandatory prepayment provision customary for credit facilities of its nature.

The Revolving Credit Facility and TLA Facility contain financial covenants requiring (A) a maximum total net leverage ratio (as defined in the agreement governing the Senior Secured Credit Facilities) of 6.0:1.0, subject to periodic step downs beginning in the third fiscal quarter of 2018 and (B) a minimum interest coverage ratio of adjusted EBITDA (as defined in the Senior Secured Credit Facilities) to interest expense of 2.75:1.0 subject to a step up beginning in the first quarter of 2019. As of March 30, 2018, our total net leverage ratio, calculated in accordance with our Senior Secured Credit Facilities agreement, was approximately 4.9 to 1.00. For the twelve month period ended March 30, 2018, our ratio of adjusted EBITDA to interest expense, calculated in accordance with our Senior Secured Credit Facilities agreement, was approximately 3.4 to 1.0.

Failure to comply with these financial covenants would result in an event of default as defined under the Revolving Credit Facility and TLA Facility unless waived by the lenders. An event of default may result in the acceleration of our indebtedness. As a result, management believes that compliance with these covenants is material to us. As of March 30, 2018, we were in full compliance with the financial covenants described above. However, a significant increase in the LIBOR interest rate and/or a decline in our operating performance, and in particular our sales and/or adjusted EBITDA, could result in our inability to meet these financial covenants and lead to an event of default if a waiver or amendment could not be obtained from our lenders.

The Revolving Credit Facility is supported by a consortium of thirteen lenders with no lender controlling more than 27% of the facility. As of March 30, 2018, the banks supporting the majority of the Revolving Credit Facility had an S&P credit rating of at least BBB+ or better, which is considered investment grade. The banks supporting the remaining Revolving Credit Facility are not currently being rated.

See Note 4 "Debt" of the Notes to the Condensed Consolidated Financial Statements contained in Item 1 of this report for a further description on the Company's outstanding debt.

Non-Guarantor Information – For the quarter ended March 30, 2018, our subsidiaries that are non-Guarantors under our Senior Secured Credit Facilities represented approximately 40% and 49% of our revenue and EBITDA, respectively. In addition, as of March 30, 2018, the non-Guarantors under our Senior Secured Credit Facilities held approximately 32% of our total tangible assets and 5% of our total tangible liabilities. Tangible assets consist of total assets less intangible assets, intercompany receivables, and deferred taxes. Tangible liabilities consist of total liabilities less intercompany payables and deferred taxes.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements within the meaning of Item 303(a)(4) of Regulation S-K.

Impact of Recently Issued Accounting Standards

In the normal course of business, we evaluate all new accounting pronouncements issued by the Financial Accounting Standards Board ("FASB"), Securities and Exchange Commission, or other authoritative accounting bodies to determine the potential impact they may have on our Condensed Consolidated Financial Statements. See Note 15 "Impact of

Recently Issued Accounting Standards” of the Notes to Condensed Consolidated Financial Statements contained in Item 1 of this report for additional information about these recently issued accounting standards and their potential impact on our financial condition or results of operations.

INTEGER HOLDINGS CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS

Contractual Obligations

There have been no significant changes to our contractual obligations during the quarter ended March 30, 2018 as compared to those disclosed in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 29, 2017. See Note 4 "Debt" and Note 9 "Commitments and Contingencies" of the Notes to Condensed Consolidated Financial Statements contained in Item 1 of this report for further discussion on our contractual obligations.

Critical Accounting Policies and Estimates

The preparation of our Condensed Consolidated Financial Statements in accordance with accounting principles generally accepted in the U.S. requires management to make estimates, assumptions and judgments that affect the amounts reported in the financial statements and accompanying notes. Our estimates, assumptions and judgments are based on historical experience and various other assumptions believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying amount of assets and liabilities that are not readily apparent from other sources. Making estimates, assumptions and judgments about future events is inherently unpredictable and is subject to significant uncertainties, some of which are beyond our control. Management believes the estimates, assumptions and judgments employed and resulting balances reported in the Condensed Consolidated Financial Statements are reasonable; however, actual results could differ materially.

There have been no significant changes to the critical accounting policies and estimates as compared to those disclosed in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 29, 2017.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Refer to information appearing under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of this Form 10-Q. Furthermore, a discussion of market risk exposures is included in Part II, Item 7A, Quantitative and Qualitative Disclosure about Market Risk, of the Company’s Annual Report on Form 10-K for the year ended December 29, 2017. There have been no material changes in reported market risk since the inclusion of this discussion in the Company’s Annual Report on Form 10-K referenced above.

ITEM 4. CONTROLS AND PROCEDURES

a. Evaluation of Disclosure Controls and Procedures

Our management, including the principal executive officer and principal financial officer, evaluated our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) related to the recording, processing, summarization and reporting of information in our reports that we file with the Securities and Exchange Commission as of March 30, 2018. These disclosure controls and procedures have been designed to provide reasonable assurance that material information relating to us, including our subsidiaries, is made known to our management, including these officers, by our employees, and that this information is recorded, processed, summarized, evaluated and reported, as applicable, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Based on their evaluation, as of March 30, 2018, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective.

b. Changes in Internal Control Over Financial Reporting

During the Company’s most recent fiscal quarter, there have been no changes in the Company’s internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

There were no new material legal proceedings that are required to be reported in the quarter ended March 30, 2018, and no material developments during the quarter in the Company's legal proceedings as previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 29, 2017, except that with respect to the AVX litigation, on March 30, 2018, the U.S. District Court for the District of Delaware vacated the original damage award and ordered a retrial on damages, which is scheduled for January 2019.

ITEM 1A. RISK FACTORS

There have been no material changes to the Company's risk factors as previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 29, 2017.
