

BEMIS CO INC
Form 10-Q
April 26, 2019
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended March 31, 2019

Commission File Number 1-5277

BEMIS COMPANY, INC.
(Exact name of registrant as specified in its charter)

Missouri	43-0178130
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

2301 Industrial Drive	
Neenah, Wisconsin	54956
(Address of principal executive offices)	(Zip Code)

Registrant's telephone number, including area code: (920) 527-5000

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). YES NO

Edgar Filing: BEMIS CO INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company. YES NO

Indicate the number of shares outstanding of each of the issuer’s classes of common stock, as of the latest practicable date. As of April 24, 2019, the registrant had 91,211,989 shares of Common Stock, \$0.10 par value, issued and outstanding.

Forward-Looking Statements

Unless otherwise indicated, references to "Bemis Company," the "Company," "we," "our," and "us" in this Quarterly Report on Form 10-Q refer to Bemis Company, Inc. and its consolidated subsidiaries.

This Quarterly Report contains certain estimates, predictions, and other "forward-looking statements" (as defined in the Private Securities Litigation Reform Act of 1995, and within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended). Forward-looking statements are generally identified with the words "believe," "expect," "anticipate," "intend," "estimate," "target," "may," "will," "project," "should," "continue," "outlook," "approximately," "would," "could," or the negative thereof or other similar expressions or discussion of future goals or aspirations, which are predictions of or indicate future events and trends and which do not relate to historical matters. Such statements are based on information available to management as of the time of such statements and relate to, among other things, expectations of the business environment in which we operate, projections of future performance (financial and otherwise), including those of acquired companies, perceived opportunities in the market and statements regarding our strategy and vision. Forward-looking statements involve known and unknown risks, uncertainties, and other factors, which may cause actual results, performance, or achievements to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.

Factors that could cause actual results to differ from those expected include, but are not limited to:

Our pending merger with Amcor, including uncertainties as to timing of completion, the risk that the merger may not be completed in a timely manner or at all and the risk that our shareholders cannot be certain of the value of the consideration they will receive;

The ability of our foreign operations to maintain working efficiencies, as well as properly adjust to continuing changes in global politics, legislation, and economic conditions;

Changes in the competitive conditions within our markets, as well as changes in the demand for our goods;

Changes in import and export regulation that could subject us to liability or impair our ability to compete in international markets;

The costs, availability, and terms of acquiring our raw materials (particularly for polymer resins and adhesives), as well as our ability to pass any price changes on to our customers;

Our ability to retain and build upon the relationships and sales of our key customers;

Variances in key exchange rates that could affect the translation of the financial statements of our foreign entities;

A failure to realize the full potential of our restructuring activities;

The potential loss of business or increased costs due to customer or vendor consolidation;

Our ability to effectively implement and update our global enterprise resource planning ("ERP") systems;

Fluctuations in interest rates and our borrowing costs, along with other key financial variables;

A potential failure in our information technology infrastructure or applications and their ability to protect our key functions from cyber-crime and other malicious content;

Changes in our credit rating;

Unexpected outcomes in our current and future administrative and litigation proceedings;

Changes in the value of our goodwill and other intangible assets;

Changes in governmental regulations, particularly in the areas of environmental, health and safety matters, fiscal incentives, and foreign investment;

Our ability to realize the benefits of our acquisitions and divestitures, and whether we are able to properly integrate those businesses we have acquired;

Our ability to effectively introduce new products into the market and to protect or retain our intellectual property rights;

Changes in our ability to attract and retain high performance employees; and

Our ability to manage all costs and the funded status associated with our pension plans.

These and other risks, uncertainties, and assumptions identified from time to time in our filings with the Securities and Exchange Commission, including without limitation, those described under Item 1A "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2018 could cause actual future results to differ materially from those projected in the forward-looking statements. In addition, actual future results could differ materially from those projected in the forward-looking statements as a result of changes in the assumptions used in making such forward-looking statements.

You should read this Quarterly Report and the documents that we reference in this Quarterly Report and have filed as exhibits to this Quarterly Report completely and with the understanding that our actual future results may be materially different from what we expect. We qualify all of our forward-looking statements by these cautionary statements.

BEMIS COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 — Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by Bemis Company, Inc. (the "Company") in accordance with accounting principles for interim financial information generally accepted in the United States and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of financial position and results of operations. It is management's opinion, however, that all material adjustments (consisting of normal recurring accruals) have been made which are necessary for a fair statement of its financial position, results of operations and cash flows. For further information, refer to the consolidated financial statements and footnotes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2018.

Definitive Transaction Agreement with Amcor

On August 6, 2018, the Company announced that its Board of Directors, along with the Board of Directors of Amcor Limited ("Amcor"), unanimously approved a definitive agreement (the "Agreement") under which Bemis will combine with Amcor in an all-stock combination (the "Transaction").

The Transaction will be effected at a fixed exchange ratio of 5.1 Amcor shares for each share of the Company, resulting in Amcor and Bemis shareholders owning approximately 71% and 29% of the combined company, respectively. Closing of the Transaction is conditional upon the receipt of regulatory approvals, approval by both Amcor and Bemis shareholders, and satisfaction of other customary conditions.

The Agreement contains certain termination rights for both Bemis and Amcor, including if the Transaction is not completed on or before August 6, 2019, subject in certain circumstances to extension to February 6, 2020 if necessary to secure certain regulatory approvals. The Agreement provides that Bemis will pay a \$130 million termination fee to Amcor if, among other things, Bemis terminates the Agreement to enter into a superior proposal or if the Agreement is terminated following Bemis's Board of Directors changing its recommendation or failing to publicly affirm the board recommendation after receipt of a competing proposal. The Agreement also provides that Amcor will pay a \$130 million termination fee to Bemis under similar circumstances.

In the first quarter of 2019, in connection with the Transaction, the Company incurred pre-tax expenses of approximately \$2.9 million related to professional fees which are recorded in Restructuring and other costs in the condensed consolidated statement of income.

Note 2 — New Accounting Guidance

Recently Adopted Accounting Standards

In February 2016, the Financial Accounting Standards Board ("FASB") issued guidance that required lessees to put most leases on their balance sheets but recognize expenses on their income statements in a manner similar to today's accounting. The guidance also eliminates today's real estate-specific provisions and changes the guidance on sale-leaseback transactions, initial direct costs and lease executory costs for all entities. Lease classification will determine how to recognize lease-related revenue and expense. The Company adopted the new lease standard at January 1, 2019 using a simplified transition option that allows for a cumulative-effect adjustment in the period of adoption and therefore did not restate prior periods. The Company also elected to adopt the package of practical

expedients which allows for existing operating leases to continue to be classified as operating leases under the new guidance without reassessing whether the contracts contain a lease under the new guidance or whether classification of the operating lease would be different under the new standard. The Company did not elect the use-of-hindsight practical expedient but did adopt the practical expedient pertaining to land easements which provides the option not to reassess whether land easements not previously accounted for as leases under prior leasing guidance would be leases under the new guidance. All of our leases at the adoption date were operating leases.

As a result of the adoption of the new standard, the Company recognized operating lease liabilities of \$51.2 million based on the present value of the remaining minimum rental payments and corresponding right-of-use assets of \$51.1 million. Adoption of the new guidance did not impact retained earnings. Due to the adoption of the guidance using the retrospective cumulative-effect adjustment method, there are no changes to the Company's previously reported results prior to January 1,

2019. Lease expense is not expected to change materially as a result of adoption of the new guidance. The Company changed its disclosures related to leasing beginning in 2019, refer to Note 10.

In August 2017, the FASB issued guidance that amends the hedge accounting rules to better portray the economic results of risk management activities in the financial statements and also to make targeted improvements to simplify the application of hedge accounting guidance. The guidance was adopted by the Company in the first quarter of 2019 and adoption did not have a material impact on our consolidated financial statements.

In February 2018, the FASB issued guidance on the reclassification of certain tax effects from accumulated other comprehensive income. The guidance requires the Company to disclose a description of the Company's accounting policy for releasing income tax effects from accumulated other comprehensive income and whether the Company elects to reclassify the stranded income tax effects from the Tax Cuts and Jobs Act, along with information about other income tax effects that are reclassified. The Company elected to early adopt this guidance during the fourth quarter of fiscal 2018. The Company had \$20.2 million of net stranded income tax effects out of accumulated other comprehensive income and into retained earnings with no impact to total shareholders' equity or net income.

Recently Issued Accounting Standards

The Company considers the applicability and impact of all Accounting Standards Updates ("ASUs") issued by the FASB. The Company determined that all ASUs not yet adopted to be either not applicable or are expected to have minimal impact on the Company's consolidated financial statements.

Note 3 - Restructuring and Other Costs

Restructuring and other costs as reported on the condensed consolidated statement of income are summarized as follows:

(in millions)	Three Months Ended March 31,	
	2019	2018
Restructuring costs	\$1.3	\$5.3
Restructuring related costs	2.7	8.1
Other charges	2.9	—
Total restructuring and other costs	\$6.9	\$13.4

In 2019, restructuring costs represent the 2017 Restructuring Plan focused on aligning the Company's cost structure to its environment. In 2018, restructuring costs include costs related to the 2016 Restructuring Plan focused on plant closures in Latin America and the 2017 Plan. The 2016 Plan was completed in the fourth quarter of 2018. Refer to Note 4 — Restructuring Plans for details on the 2017 Plan regarding expenses incurred and cash payments to date, in addition to disaggregation of costs by segment and cost category.

Restructuring related costs primarily include professional fees for consultants related to the Company's Agility plan.

Other charges in the first quarter of 2019 consist primarily of professional fees associated with the Company's announced transaction with Amcor.

Note 4 — Restructuring Plans

2017 Restructuring and Cost Savings Plan ("2017 Plan")

On June 30, 2017, the Company announced restructuring activities targeted to improve efficiency and profitability that further positions the Company for long-term success. As a part of this plan, the Company announced the intention to close four production facilities for which business will be relocated to existing facilities and the closure of an additional manufacturing facility for which business will not be relocated. As of September 30, 2018, operations ceased at three of the four manufacturing facilities and business has been relocated to existing facilities; the additional manufacturing facility for which business was not relocated was also closed. Also as part of this plan, the Company announced it will reduce administrative positions by approximately 500 over three years and consolidate certain administrative offices and take other actions to improve the cost efficiency of a variety of administrative and operational processes.

The Company expects total 2017 Plan pre-tax restructuring costs of approximately \$65 to \$70 million, which includes \$29 to \$31 million in employee termination costs, \$22 to \$24 million in fixed asset related expenses, and \$14 to \$15 million in other restructuring project costs, including the movement and re-installation of equipment. Expenses in the three months ended March 31, 2019 were \$1.3 million.

The estimated 2017 Plan costs are as follows:

(in millions)	U.S. Packaging	Latin America Packaging	Rest of World Packaging	Corporate	Total
2017 net expense accrued	\$ 13.4	\$ 20.7	\$ 1.5	\$ 3.5	\$39.1
2018 net expense accrued	9.6	7.3	1.9	0.5	19.3
2019 first quarter net expense accrued	0.3	0.7	0.2	0.1	1.3
Expense incurred to date	23.3	28.7	3.6	4.1	59.7
Estimated future expense	6.4	3.6	0.2	—	10.2
Estimated costs of program	\$ 29.7	\$ 32.3	\$ 3.8	\$ 4.1	\$69.9

An analysis of the 2017 Plan accruals follows:

(in millions)	Employee Costs	Fixed Asset Related	Other Costs	Total Restructuring Costs
Reserve balance at December 31, 2018	\$ 6.9	\$ —	\$4.0	\$ 10.9
Net expense accrued	0.2	0.1	1.0	1.3
Utilization (cash payments or otherwise settled)	(1.3)	(0.1)	(0.9)	(2.3)
Translation adjustments and other	—	—	—	—
Reserve balance at March 31, 2019	\$ 5.8	\$ —	\$4.1	\$ 9.9

The 2017 Plan is expected to be completed by the end of 2020. Cash payments in the twelve months ended December 31, 2018 and 2017 were \$17.4 million and \$6.8 million, respectively. Cash payments in the three months ended March 31, 2019 were \$2.3 million. The costs related to restructuring activities have been recorded on the condensed consolidated statement of income as restructuring and other costs. The accruals related to restructuring activities have primarily been recorded on the condensed consolidated balance sheet as other current liabilities.

Note 5 — Financial Assets and Financial Liabilities Measured at Fair Value

The fair values of the Company's financial assets and financial liabilities listed below reflect the amounts that would be received to sell the assets or paid to transfer the liabilities in an orderly transaction between market participants at the measurement date (exit price).

The Company's non-derivative financial instruments include cash and cash equivalents, trade receivables, accounts payable, short-term borrowings, and long-term debt. At March 31, 2019 and December 31, 2018, the carrying value of these financial instruments, excluding long-term debt, approximates fair value because of the short-term maturities of these instruments.

Fair value disclosures are classified based on the fair value hierarchy. Level 1 fair value measurements represent exchange-traded securities which are valued at quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the reporting date. Level 2 fair value measurements are determined using input prices that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data. Level 3 fair value measurements are determined using unobservable inputs, such as internally developed pricing models for the asset or liability due to little or no market activity for the asset or liability.

The fair value measurements of the Company's long-term debt represent non-active market exchange-traded securities which are valued at quoted prices or using input prices that are directly observable or indirectly observable through corroboration with observable market data. The carrying values and estimated fair values of long-term debt at March 31, 2019 and December 31, 2018 follow:

(in millions)	March 31, 2019		December 31, 2018	
	Carrying Value	Fair Value (Level 2)	Carrying Value	Fair Value (Level 2)
Long-term debt, less current portion	\$ 1,395.0	\$ 1,406.0	\$ 1,348.6	\$ 1,342.0

The fair values for derivatives are based on inputs other than quoted prices that are observable for the asset or liability. These inputs include interest rates. The financial assets and financial liabilities are primarily valued using standard calculations / models that use as their basis readily observable market parameters. Industry standard data providers are the primary source for forward and spot rate information for both interest rates and currency rates, with resulting valuations periodically validated through third-party or counterparty quotes. The fair value of the Company's derivatives follows:

(in millions)	Fair Value As of March 31, 2019	Fair Value As of December 31, 2018
	(Level 2)	(Level 2)
Interest rate swaps — net asset (liability) position	\$ 0.6	\$ (2.7)

Note 6 — Derivative Instruments

The Company enters into derivative transactions to manage exposures arising in the normal course of business. The Company does not enter into derivative transactions for speculative or trading purposes. The Company recognizes all derivative instruments on the balance sheet at fair value. Derivatives not designated as hedging instruments are

adjusted to fair value through income. Depending on the nature of derivatives designated as hedging instruments, changes in the fair value are either offset against the change in fair value of the hedged assets, liabilities, or firm commitments through earnings or recognized in shareholders' equity through other comprehensive income until the hedged item is recognized. Gains or losses, if any, related to the ineffective portion of any hedge are recognized through earnings in the current period.

The Company enters into interest rate swap contracts to economically convert a portion of the Company's fixed-rate debt to variable rate debt. During the fourth quarter of 2011, the Company entered into four interest rate swap agreements with a total notional amount of \$400 million. These contracts were designated as fair value hedges of the Company's \$400 million 4.50 percent fixed-rate debt due in 2021. The variable rate for each of the interest rate swaps is based on the six-month London Interbank Offered Rate (LIBOR), set in arrears, plus a fixed spread. The variable rates are reset semi-annually at each net settlement date. Fair values of these interest rate swaps are determined using discounted cash flow or other appropriate

methodologies. Asset positions are included in deferred charges and other assets with a corresponding increase in long-term debt. Liability positions are included in other liabilities and deferred credits with a corresponding decrease in long-term debt.

The Company enters into forward exchange contracts to manage foreign currency exchange rate exposures associated with certain foreign currency denominated receivables and payables. Forward exchange contracts generally have maturities of less than six months and relate primarily to the U.S. dollar for the Company's Brazilian operations. The Company has not designated these derivative instruments as hedging instruments. At March 31, 2019 and December 31, 2018, the Company had outstanding forward exchange contracts with notional amounts of \$3.9 million and \$0.3 million, respectively. The net settlement amount (fair value) related to active forward exchange contracts is recorded on the balance sheet as either a current or long-term asset or liability and as an element of other operating income which offsets the related transaction gains or losses. The net settlement amounts are immaterial for all periods presented.

The Company is exposed to credit loss in the event of non-performance by counterparties in forward exchange contracts and interest-rate swap contracts. Collateral is generally not required of the counterparties or of the Company. In the event a counterparty fails to meet the contractual terms of a currency swap or forward exchange contract, the Company's risk is limited to the fair value of the instrument. The Company actively monitors its exposure to credit risk through the use of credit approvals and credit limits, and by selecting major international banks and financial institutions as counterparties. The Company has not had any historical instances of non-performance by any counterparties, nor does it anticipate any future instances of non-performance.

The fair values, balance sheet presentation, and the hedge designation status of derivative instruments at March 31, 2019 and December 31, 2018 are presented in the table below:

(in millions)	Balance Sheet Location	Fair Value (Level 2) As of March 31, 2019	December 31, 2018
Asset Derivatives			
Interest rate swaps — designated as hedge	Deferred charges and other assets	\$0.6	
Liability Derivatives			
Interest rate swaps — designated as hedge	Other liabilities and deferred credits		\$ 2.7

The income statement impact of derivatives is presented in the table below:

(in millions)	Location of Gain (Loss) Recognized in Income on Derivatives	Amount of Gain (Loss) Recognized in Income on Derivatives Three Months Ended March 31,	
		2019	2018
Designated as hedges			
Interest rate swaps	Interest expense	\$ (0.1)	\$ (0.6)
Not designated as hedges			
Forward exchange contracts	Other operating income	0.1	(0.3)
Total		\$ —	\$ (0.9)

Note 7 — Inventories

Edgar Filing: BEMIS CO INC - Form 10-Q

Inventories are valued at the lower of cost, as determined by the first-in, first-out ("FIFO") method, or net realizable value. Inventory values using the FIFO method of accounting approximate replacement cost. Inventories are summarized as follows:

(in millions)	March 31, December 31,	
	2019	2018
Raw materials and supplies	\$ 203.9	\$ 197.4
Work in process and finished goods	436.2	422.1
Total inventories	\$ 640.1	\$ 619.5

Note 8 — Goodwill and Other Intangible Assets

Changes in the carrying amount of goodwill attributable to each reportable business segment follow:

(in millions)	U.S. Packaging Segment	Rest of World Packaging	Total
Reported balance at December 31, 2018	\$ 632.3	\$ 212.9	\$845.2
Currency translation	0.2	(0.2)	—
Reported balance at March 31, 2019	\$ 632.5	\$ 212.7	\$845.2

Accumulated goodwill impairment losses were \$196.6 million as of March 31, 2019 and December 31, 2018 related to the Latin America Packaging segment.

The components of other intangible assets follow:

(in millions)	March 31, 2019		December 31, 2018	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Contract based	\$9.4	\$ (1.7)	\$9.1	\$ (1.5)
Technology based	79.4	(62.0)	79.3	(60.9)
Marketing related	12.9	(9.2)	12.9	(9.1)
Customer based	205.1	(116.5)	205.3	(113.7)
Reported balance	\$306.8	\$ (189.4)	\$306.6	\$ (185.2)

Amortization expense for intangible assets was \$4.1 million and \$4.2 million during the first three months of 2019 and 2018, respectively. Estimated future amortization expense for intangible assets follows:

(in millions)	Amortization
Remainder of 2019	\$ 12.3
2020	15.7
2021	13.9
2022	12.3
2023	11.7
2024	9.8

Note 9 — Components of Net Periodic Benefit Cost

Benefit costs for defined benefit pension and other postretirement plans are shown below. The funding policy and assumptions disclosed in the Company's 2018 Annual Report on Form 10-K are expected to continue unchanged throughout 2019.

(in millions)	Three Months Ended March 31,			
	Pension Benefits		Other Benefits	
	2019	2018	2019	2018
Service cost - benefits earned during the period	\$2.3	\$1.9	\$—	\$—
Interest cost on projected benefit obligation	7.0	6.7	—	—
Expected return on plan assets	(10.6)	(10.8)	—	—
Amortization:				
Prior service cost	0.3	0.2	—	—
Actuarial net loss (gain)	2.6	4.2	(0.3)	(0.3)
Net periodic benefit cost	\$1.6	\$2.2	\$(0.3)	\$(0.3)

Service cost is recorded in cost of products sold and selling, general, and administrative expenses in the income statement. All other components are recorded within other non-operating income.

Costs for defined contribution pension plans were \$6.6 million and \$7.1 million for the three months ended March 31, 2019 and 2018, respectively.

Note 10 — Leases

The Company has operating leases for certain manufacturing sites, office space, warehouses, land, vehicles and equipment. Most leases include the option to renew, with renewal terms that can extend the lease term from one to five years or more. Right-of-use lease assets and lease liabilities are recognized at the commencement date based on the present value of the remaining lease payments over the lease term which includes renewal periods the Company is reasonably certain to exercise. The Company has elected to combine lease and non-lease components for all asset classes other than real estate, vehicles and equipment. Short term leases with a term of twelve months or less, including reasonably certain holding periods, are not recorded on the balance sheet. The Company's leases do not contain any material residual value guarantees or material restrictive covenants. At March 31, 2019, the Company does not have material lease commitments that have not commenced.

The components of lease expense were as follows:

(in millions)	Three Months Ended March 31, 2019
Income Statement Location	
Operating leases	
Cost of products sold	\$ 1.3
Selling, general and administrative expenses	0.9
Total operating lease cost (1)	\$ 2.2

(1) Includes short-term leases and variable lease costs, which are immaterial.

Edgar Filing: BEMIS CO INC - Form 10-Q

Supplemental balance sheet information related to leases was as follows:

(in millions)	Balance Sheet Location	March 31, 2019
Assets		
Operating lease assets	Operating lease assets	\$ 51.1
Total operating lease assets		51.1
Liabilities		
Current operating lease liabilities	Other current liabilities	6.0
Noncurrent operating lease liabilities	Operating lease liabilities	45.2
Total operating lease liabilities		\$ 51.2

As the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate as of the commencement date to determine the present value of lease payments.

Supplemental cash flow information related to leases was as follows:

(in millions)	Three Months Ended March 31, 2019
Operating leases	
Cash paid for amounts included in the measurement of lease liabilities	\$ 2.1
Right-of-use assets obtained in exchange for lease obligations	\$ 0.2

Maturities of lease liabilities were as follows:

(in millions)	Operating Leases
Remainder of 2019	\$ 6.2
2020	7.5
2021	6.7
2022	5.6
2023	5.0
After 2023	36.1
Total lease payments	67.1
Less: imputed interest	15.9
Present value of lease liabilities	\$ 51.2

The Company's future minimum lease commitments as of December 31, 2018, under Accounting Standard Codification Topic 840, the predecessor to Topic 842, are as follows:

(in millions)	Operating Leases
2019	\$ 7.7
2020	6.7
2021	6.0
2022	5.6
2023	4.7

Thereafter	30.6
Total minimum obligations	\$ 61.3

17

The weighted average remaining lease term and discount rate are as follows:

	March 31, 2019	
Weighted Average Remaining Lease Term		
Operating Leases	11.1 years	
Weighted Average Discount Rate		
Operating Leases	5.1	%

Note 11 — Income Taxes

The primary difference in the effective income tax rate between the first quarter of 2019 and 2018 results from changes in the geographic mix of income. The difference between our overall tax rate and the U.S. statutory rate of 21 percent principally relates to state and local income taxes, net of federal income tax benefits, and the differences between tax rates in the various foreign jurisdictions in which we operate. In addition, the Company's first quarter results include a discrete income tax expense of approximately \$0.2 million and an income tax benefit of approximately \$0.4 million, in 2019 and 2018, respectively, related to employee share-based payment accounting.

The U.S. corporate statutory tax rate was reduced to 21 percent as the result of tax legislation enacted in December 2017 commonly referred to as the Tax Cuts and Jobs Act ("TCJA"). The Company recorded the final adjustments to the provisional impact of the TCJA in the fourth quarter of 2018.

Note 12 — Accumulated Other Comprehensive Income (Loss)

The components and activity of accumulated other comprehensive income (loss) are as follows:

(in millions)	Foreign Currency Translation	Pension And Other Postretirement Liability Adjustments	Accumulated Other Comprehensive Loss
December 31, 2017	\$ (291.1)	\$ (103.4)	\$ (394.5)
Other comprehensive income (loss) before reclassifications	15.6	—	15.6
Amounts reclassified from accumulated other comprehensive income (loss)	—	3.0	3.0
Net current period other comprehensive income (loss)	15.6	3.0	18.6
March 31, 2018	\$ (275.5)	\$ (100.4)	\$ (375.9)
December 31, 2018	\$ (385.4)	\$ (140.1)	\$ (525.5)
Other comprehensive income (loss) before reclassifications	2.0	—	2.0
Amounts reclassified from accumulated other comprehensive income (loss)	—	1.9	1.9
Net current period other comprehensive income (loss)	2.0	1.9	3.9
March 31, 2019	\$ (383.4)	\$ (138.2)	\$ (521.6)

The following table summarizes amounts reclassified from accumulated other comprehensive income (loss):

Three
Months

Edgar Filing: BEMIS CO INC - Form 10-Q

(in millions)	Ended	
	March 31, 2019	2018
Pension and postretirement costs (See Note 9)	\$2.6	\$4.1
Tax benefit	(0.7)	(1.1)
Pension and postretirement costs, net of tax	\$1.9	\$3.0

18

Accumulated other comprehensive income (loss) associated with pension and other postretirement liability adjustments are net of tax effects of \$46.7 million and \$47.3 million as of March 31, 2019 and December 31, 2018, respectively.

Note 13 — Earnings Per Share Computations

A reconciliation of basic and diluted earnings per share is below:

(in millions, except per share amounts)	Three Months Ended March 31, 2019 2018	
Numerator		
Net income	\$60.4	\$47.6
Denominator		
Weighted average common shares outstanding — basic	91.2	91.0
Dilutive shares	0.8	0.2
Weighted average common and common equivalent shares outstanding — diluted	92.0	91.2
Per common share income		
Basic	\$0.66	\$0.52
Diluted	\$0.66	\$0.52

Certain stock awards outstanding were not included in the computation of diluted earnings per share above because they would not have had a dilutive effect. There were no excluded stock awards for the three months ended March 31, 2019. The excluded stock awards represented an aggregate of 0.8 million shares for the three months ended March 31, 2018.

Note 14 — Legal Proceedings

The Company is involved in a number of lawsuits incidental to its business, including environmental-related litigation and routine litigation arising in the ordinary course of business. Although it is difficult to predict the ultimate outcome of these cases, the Company believes, except as discussed below, that any ultimate liability would not have a material adverse effect on the Company's consolidated financial condition or results of operations.

Environmental Matters

The Company, or one or more of its affiliates, has been identified as a potentially responsible party ("PRP") pursuant to the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (commonly known as "Superfund") and similar state and foreign laws at 12 sites in the United States and one in Brazil, with respect to which the Company's liability has not yet been finalized pursuant to a settlement agreement. In addition, the Company or one or more of its affiliates has been identified as a PRP in several other Superfund sites at which the cleanup of the site has been completed or the Company's liability with respect to the site has been resolved pursuant to a settlement (or both). These proceedings were instituted by the United States Environmental Protection Agency and certain state and foreign environmental agencies at various times beginning in 1983. Superfund and similar state and

foreign laws create liability for investigation and remediation in response to releases of hazardous substances in the environment. Under these statutes, joint and several liability may be imposed on waste generators, site owners and operators, and others regardless of fault. Although these regulations could require the Company to remove or mitigate the effects on the environment at various sites, perform remediation work at such sites, or pay damages for loss of use and non-use values, the Company expects its liability in these proceedings to be limited to monetary damages. The Company expects its future liability relative to these sites to be insignificant, individually and in the aggregate.

The Company is involved in other environmental-related litigation arising in the ordinary course of business. The Company accrues environmental costs when it is probable that these costs will be incurred and can be reasonably estimated.

The Company's reserve for environmental liabilities at March 31, 2019 and December 31, 2018 was \$0.3 million and is included in other liabilities and deferred credits on the accompanying condensed consolidated balance sheet.

Brazil Tax Dispute - Goodwill Amortization

During October 2013, Dixie Toga, Ltda ("Dixie Toga"), a Bemis subsidiary, received an income tax assessment in Brazil for the tax years 2009 through 2011 that relates to the amortization of certain goodwill generated from the acquisition of Dixie Toga. The income tax assessed for those years is approximately \$9.8 million, translated to U.S. dollars at the March 31, 2019 exchange rate. The Company expects that tax examinations for years after 2011 will include similar assessments as the Company continues to claim the tax benefits associated with the goodwill amortization. An ultimate adverse resolution on these assessments, including interest and penalties, could be material to the Company's condensed consolidated results of operations and/or cash flows.

The Company has been advised by its legal and tax advisors that its position with respect to the deductions is allowable under the tax laws of Brazil. The Company is contesting the disallowance and believes it is more likely than not the tax benefit will be sustained in its entirety and consequently has not recorded a liability. In May of 2017, the Company received a favorable administrative decision. The government is appealing this decision to the next administrative level. The Company intends to litigate the matter if it is not resolved at the administrative appeals levels. The ultimate outcome could take several years. At this time, the Company believes that final resolution of the assessment will not have a material impact on the Company's condensed consolidated financial statements.

Note 15 — Segments of Business

The Company's business activities are organized around and aggregated into its three principal business segments, U.S. Packaging, Latin America Packaging, and Rest of World Packaging, based on their similar economic characteristics, products, production process, types of customers, and distribution methods. Both internal and external reporting conforms to this organizational structure, with no significant differences in accounting policies applied. Intersegment sales (which are not significant) are generally priced to reflect nominal markups.

The Company evaluates the performance of its segments and allocates resources to them based primarily on operating profit, which is defined as profit before restructuring and other costs, general corporate expense, interest expense, other non-operating income, and income taxes.

Sales to the Kraft Heinz Company, and its subsidiaries, accounted for approximately 11 percent of the Company's sales for the three months ended March 31, 2019 and 2018. The Company sells to Kraft Heinz primarily through its U.S. Packaging segment.

A summary of the Company's business activities reported by its three business segments follows:

	Three Months Ended March 31,	
Business Segments (in millions)	2019	2018
Sales including intersegment sales:		
U.S. Packaging	\$681.8	\$676.1
Latin America Packaging	143.4	170.5
Rest of World Packaging	193.4	196.1
Intersegment sales:		
U.S. Packaging	(12.9)	(10.1)
Latin America Packaging	(1.3)	(1.1)
Rest of World Packaging	(3.0)	(4.1)
Total net sales	\$1,001.4	\$1,027.4
Segment operating profit		
U.S. Packaging	\$91.5	\$87.2
Latin America Packaging (1)	11.9	8.0
Rest of World Packaging	20.1	16.5
Restructuring and other costs	6.9	13.4
General corporate expenses	19.5	17.8
Operating income	97.1	80.5
Interest expense	18.5	18.9
Other non-operating income	(1.8)	(0.9)
Income before income taxes	\$80.4	\$62.5

(1) In the first quarter of 2019, the Company recognized a non-cash benefit for Brazil tax credits as a result of a final Brazilian court decision related to indirect taxes previously paid. The benefit was \$5.8 million pre-tax and \$3.8 million net of taxes. Please refer to the Reconciliation of Non-GAAP Earnings per share in this release. As reported in its Annual Report on Form 10-K, in the fourth quarter of 2018, the Company recognized a non-cash benefit of \$15.3 million pre-tax and \$10.1 million net of taxes related to the same topic. The additional amount was recorded

in the first quarter of 2019 after the Company completed its analysis of the benefit to which it is entitled under the Brazilian court decision in 2018.

A summary of the Company's net sales by geographic area reported by its three business segments follows:

Net sales by geographic area (in millions)	Three Months Ended March 31, 2019			Total
	U.S. Packaging	Latin America Packaging	Rest of World Packaging	
Net sales (1):				
United States	\$668.9	\$ —	\$ 66.2	\$735.1
Brazil	—	93.8	—	93.8
Other Americas	—	48.3	—	48.3
Europe	—	—	81.1	81.1
Asia-Pacific	—	—	43.1	43.1
Total	\$668.9	\$ 142.1	\$ 190.4	\$1,001.4

Net sales by geographic area (in millions)	Three Months Ended March 31, 2018			Total
	U.S. Packaging	Latin America Packaging	Rest of World Packaging	
Net sales (1):				
United States	\$666.0	\$ —	\$ 59.3	\$725.3
Brazil	—	112.1	—	112.1
Other Americas	—	57.3	—	57.3
Europe	—	—	85.4	85.4
Asia-Pacific	—	—	47.3	47.3
Total	\$666.0	\$ 169.4	\$ 192.0	\$1,027.4

(1) Net sales are attributed to geographic areas based on location of the Company's manufacturing or selling operation.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Three Months Ended March 31, 2019 and 2018

Management's Discussion and Analysis should be read in conjunction with the Condensed Consolidated Financial Statements.

(dollars in millions, except per share amounts)	Three Months Ended March 31,			
	2019		2018	
Net sales	\$1,001.4	100.0 %	\$1,027.4	100.0 %
Cost of products sold	799.2	79.8	829.4	80.7
Gross profit	202.2	20.2	198.0	19.3
Operating expenses				
Selling, general, and administrative expenses	97.1	9.7	96.9	9.4
Research and development costs	9.7	1.0	10.0	1.0
Restructuring and other costs	6.9	0.7	13.4	1.3
Other operating income	(8.6) (0.9)	(2.8) (0.3)
Operating income	97.1	9.7	80.5	7.8
Interest expense	18.5	1.8	18.9	1.8
Other non-operating income	(1.8) (0.2)	(0.9) (0.1)
Income before income taxes	80.4	8.0	62.5	6.1
Income tax provision	20.0	2.0	14.9	1.5
Net income	\$60.4	6.0 %	\$47.6	4.6 %
Effective income tax rate		24.9 %		23.8 %
Diluted earnings per share	\$0.66		\$0.52	
Adjusted diluted earnings per share (1)	\$0.67		\$0.63	

(1) Refer to "Presentation of Non-GAAP Financial Information"

Overview

Bemis Company, Inc. is a major supplier of flexible and rigid plastic packaging used by leading and emerging food, consumer products, healthcare, and other companies worldwide. Historically, approximately 80 percent of our total net sales are to customers in the food industry. Sales of our packaging products are widely diversified among food categories and can be found in nearly every retail grocery channel.

Market Conditions

The markets into which our products are sold have historically been, and continue to be, highly competitive. Our leading market positions in packaging for perishable food and medical device products reflect our focus on value-added, proprietary products that provide food safety and sterility benefits. We also manufacture products for which our technical know-how and economies of scale offer us a competitive advantage. The primary raw materials for our business segments are polymer resins and films, paper, inks, adhesives, aluminum, and chemicals.

In the U.S., many of our consumer packaged goods customers have seen pressure on their sales volumes during recent years for a variety of reasons, including shifting consumer preferences. We have invested in equipment that is well-suited to on-trend opportunities, and we have been implementing deliberate action plans to align our resources to pursue these targeted areas of growth.

Additionally, the political instability and incrementally challenging economic environment in Brazil have been impacting our business. As consumers, retailers, and our customers react to the situation in the region, our unit volumes and mix of products sold have been adversely impacted. In recent years, the challenges associated with the economic environment in Brazil put pressure on our sales and earnings. We are mitigating the profit impact of these headwinds through our cost savings efforts.

Restructuring

Refer to Note 5 - Restructuring Plans for details of the 2017 Plan regarding expenses incurred and cash payments to date, in addition to disaggregation of costs by segment and cost category.

2017 Restructuring and Cost Savings Plan ("2017 Plan")

During the second quarter of 2017, we initiated restructuring activities to improve efficiency and profitability that further position us for long-term success. We announced the remaining details of the 2017 Plan during the third quarter of 2017. The 2017 Plan includes the following actions: the closure of four manufacturing facilities for which business will be relocated to existing facilities, the closure of an additional manufacturing facility for which business will not be relocated, the consolidation of office space, and the reduction of our administrative support cost structure, which includes the elimination of 500 positions. The total program cost is estimated at \$110 to \$125 million, including \$65 to \$70 million in total pre-tax restructuring charges, \$35 to \$45 million in pre-tax other plan-related costs and approximately \$10 million in capital investment related to executing the 2017 Plan. We expect an annual pre-tax savings run rate of approximately \$65 million in 2019 from the 2017 Plan.

During the three months ended March 31, 2019, we recorded restructuring charges totaling \$1.3 million. Restructuring charges in 2019 consisted of employee termination costs, fixed asset related costs, and other costs which include inventory write offs and employee claims.

The 2017 Plan is expected to be completed by the end of 2020. Total restructuring and other plan-related cash payments for the 2017 Plan are expected to be approximately \$65 to \$70 million. Cash payments during the three months ended March 31, 2019 were \$10.7 million. Cash payments during the twelve months ended December 31, 2018 were \$35.6 million. We expect total restructuring and other plan-related payments of approximately \$24 million in 2019 and the balance in 2020.

Results of Operations — First Quarter 2019

Consolidated Overview

(in millions, except per share amounts)	2019	2018
Net sales	\$1,001.4	\$1,027.4
Net income	60.4	47.6
Diluted earnings per share	0.66	0.52
Adjusted diluted earnings per share (1)	0.67	0.63

(1) Refer to "Presentation of Non-GAAP Financial Information"

Net sales for the first quarter of 2019 decreased 2.5 percent compared to the same period of 2018. The impact of currency translation reduced net sales by 4.2 percent. Total Company organic sales growth of 1.7 percent reflects increased price and mix, partially offset by select lower unit volumes; please refer to segment commentary below.

Diluted earnings per share for the first quarter of 2019 were \$0.66 compared to \$0.52 reported in the same quarter of 2018. Adjusted diluted earnings per share for the first quarter of 2019 were \$0.67 compared to \$0.63 reported in the same quarter of 2018. Diluted earnings per share for 2019 included a \$0.03 per share charge for restructuring costs related primarily to plant closures in the Latin America and U.S. Packaging segments and reductions in our administrative support cost structure. Diluted earnings per share for 2019 also included a \$0.02 per share charge for other costs related to the pending transaction with Amcor and a \$0.04 per share benefit related to a final Brazilian court decision related to indirect taxes previously paid. Results for the first quarter of 2018 included an \$0.11 per share charge for restructuring costs related primarily to the 2016 Restructuring Plan focused on plant closures in Latin America and the 2017 Restructuring Plan focused on aligning our cost structure to the business environment in which we operate.

U.S. Packaging Business Segment

(dollars in millions)	2019	2018
Net sales	\$668.9	\$666.0
Operating profit	91.5	87.2
Operating profit as a percentage of net sales	13.7 %	13.1 %

U.S. Packaging net sales of \$668.9 million for the first quarter of 2019 increased 0.4 percent compared to the first quarter of 2018. Net sales include the contractual pass-through of lower raw material input prices versus one year ago. Compared to the prior first quarter, unit volumes were up approximately one percent. Excluding the impact of the Company's exit of infant care business at its Shelbyville, Tennessee facility, unit volumes would have been up approximately two percent.

U.S. Packaging operating profit was \$91.5 million in the first quarter of 2019, or 13.7 percent of net sales, compared to \$87.2 million, or 13.1 percent of net sales, in the first quarter of 2018. Increased operating profit was driven by the benefits of cost savings from the Company's Agility plan.

Latin America Packaging Business Segment

(dollars in millions)	2019	2018
Net sales	\$142.1	\$169.4
Operating profit	11.9	8.0
Operating profit as a percentage of net sales	8.4 %	4.7 %

Latin America Packaging net sales of \$142.1 million for the first quarter of 2019 represented a decreased 16.1 percent compared to the first quarter of 2018. Currency translation and the impact of implementing high inflation accounting in the Company's business in Argentina decreased net sales by 20.3 percent. Remaining organic sales growth of 4.2

percent reflects increased selling prices and improved mix, partially offset by decreased unit volumes of approximately fourteen percent driven primarily by some laundry detergent packaging volume in Brazil that is converting to another packaging format.

Latin America Packaging operating profit increased to \$11.9 million in the first quarter of 2019, or 8.4 percent of net sales, compared to \$8.0 million, or 4.7 percent of net sales, in 2018. Compared to the prior first quarter, the net impact of

25

currency translation decreased operating profit by \$0.7 million. Additionally, the implementation of high inflation accounting in the Company's Argentina business negatively impacted operating profit by \$1.0 million. During the first quarter of 2019, the Company recorded a \$5.8 million non-cash pre-tax benefit related to Brazil tax credits as a result of a final Brazilian court decision related to indirect taxes previously paid. The remaining \$0.2 million decrease in Latin America Packaging operating profit compared to the first quarter of 2018 was driven by the impact of decreased volume from the laundry detergent packaging that is converting to another packaging format, partially offset by the benefits of the Company's Agility plan.

Rest of World Packaging Business Segment

(dollars in millions)	2019	2018
Net sales	\$190.4	\$192.0
Operating profit	20.1	16.5
Operating profit as a percentage of net sales	10.6 %	8.6 %

Rest of World Packaging net sales of \$190.4 million for the first quarter of 2019 represented a decrease of 0.8 percent compared to the first quarter of 2018. Currency translation reduced net sales by 4.7 percent. Organic sales growth of 3.9 percent reflects increased price and mix, partially offset by decreased unit volumes of approximately five percent, driven by comparison to an exceptionally strong first quarter of 2018 in the Company's Asia Pacific business. Sales volume in the Company's healthcare packaging business increased versus the prior first quarter.

Rest of World Packaging operating profit increased to \$20.1 million in the first quarter of 2019, or 10.6% of net sales, compared to \$16.5 million, or 8.6 percent of net sales, in 2018. The net impact of currency translation decreased operating profit during the first quarter by \$0.7 million. The increase in operating profit in Rest of World Packaging was driven by increased sales volume in the Company's healthcare packaging business and strong operational performance across the segment.

Consolidated Selling, General, and Administrative Expenses

(dollars in millions)	2019	2018
Selling, general, and administrative expenses (SG&A)	\$97.1	\$96.9
SG&A as a percentage of net sales	9.7 %	9.4 %

SG&A expenses were in line with the prior year, reflecting strong cost controls to offset normal inflation.

Restructuring and Other Costs

(dollars in millions)	2019	2018
Restructuring and other costs	\$6.9	\$13.4
Restructuring and other costs as a percentage of net sales	0.7 %	1.3 %

In 2019, restructuring costs represent the 2017 Restructuring Plan focused on aligning the Company's cost structure to its environment. In 2018, restructuring costs include costs related to the 2016 Restructuring Plan focused on plant closures in Latin America and the 2017 Plan. The 2016 Plan was completed in the fourth quarter of 2018. Refer to Note 4 - Restructuring Plans for details on the 2017 Plan regarding expenses incurred and cash payments to date, in addition to disaggregation of costs by segment and cost category.

Other costs in the first quarter of 2019 consist primarily of professional fees associated with the Company's announced transaction with Amcor.

Other Operating Income

(dollars in millions)	2019	2018
Other operating income	\$(8.6)	\$(2.8)

In 2019, other operating income increased due to a \$5.8 million pre-tax, non-cash, benefit for Brazil tax credits as a result of a final Brazilian court decision related to indirect taxes previously paid.

Interest Expense

(dollars in millions)	2019	2018
Interest expense	\$18.5	\$18.9
Effective interest rate	5.3 %	4.8 %

Interest expense decreased modestly compared to the prior year first quarter reflecting the benefit of lower debt levels in 2019, partially offset by higher effective interest rates.

Other Non-operating Income

(in millions)	2019	2018
Other non-operating income	\$(1.8)	\$(0.9)

Other non-operating income in 2019 includes interest income of \$0.8 million and non-operating pension income of \$1.0 million. Other non-operating income in 2018 includes interest income of \$0.9 million.

Consolidated Income Taxes

(dollars in millions)	2019	2018
Income taxes	\$20.0	\$14.9
Effective tax rate	24.9 %	23.8 %

The primary difference in the effective income tax rate between the first quarter of 2019 and 2018 results from changes in the geographic mix of income. The difference between our overall tax rate and the U.S. statutory rate of 21 percent principally relates to state and local income taxes, net of federal income tax benefits, and the differences between tax rates in the various foreign jurisdictions in which we operate. In addition, our first quarter results included a discrete income tax expense of approximately \$0.2 million and \$0.4 million in 2019 and 2018, respectively, related to employee share-based payment accounting. We expect similar discrete income tax impacts in future years that will vary dependent upon the value of share-based payouts in those years.

The U.S. corporate statutory tax rate was reduced to 21% as the result of the Tax Cuts and Jobs Act ("TCJA") of 2017 signed on December 22, 2017. The Company recorded the final adjustments to the provisional impact of the TCJA in the fourth quarter of 2018.

We expect the effective income tax rate for the full year of 2019 to be approximately 24%.

Presentation of Non-GAAP Information

This Quarterly Report on Form 10-Q refers to non-GAAP financial measures: adjusted diluted earnings per share, organic sales growth (decline), and net debt. These non-GAAP financial measures adjust for factors that are unusual or unpredictable. These measures exclude the impact of significant tax reform, certain amounts related to the effect of changes in currency exchange rates, acquisitions, and restructuring, including employee-related costs, equipment relocation costs, accelerated depreciation and the write-down of equipment. These measures also exclude gains or losses on sales of significant property and divestitures, certain litigation matters, and certain acquisition-related expenses, including transaction expenses, due diligence expenses, professional and legal fees, purchase accounting adjustments for inventory and order backlog and changes in the fair value of deferred acquisition payments. This adjusted information should not be construed as an alternative to results determined in accordance with accounting principles generally accepted in the United States of America (GAAP). Management of the Company uses the non-GAAP measures to evaluate operating performance and believes that these non-GAAP measures are useful to enable investors to perform comparisons of current and historical performance of the Company.

A reconciliation of reported diluted earnings per share to adjusted diluted earnings per share for the three months ended March 31, 2019 and 2018 follows:

	Three Months Ended March 31, 2019 2018	
Diluted earnings per share, as reported	\$0.66	\$0.52
Non-GAAP adjustments per share, net of taxes:		
Restructuring and related costs (1)	0.03	0.11
Other costs (2)	0.02	—
Brazil tax credits (3)	(0.04)	—
Diluted earnings per share, as adjusted	\$0.67	\$0.63

Restructuring and related costs include the 2016 restructuring plan focused on plant closures in Latin America and (1) the 2017 restructuring plan focused on aligning the Company's cost structure to its environment. Restructuring related costs primarily include professional fees for consultants.

(2) Other costs include costs related to the pending transaction with Amcor.

In the first quarter of 2019, the Company recognized a non-cash benefit for Brazil tax credits as a result of a final Brazilian court decision related to indirect taxes previously paid. The benefit was \$5.8 million pre-tax and \$3.8 million net of taxes. As reported in its Annual Report on Form 10-K, in the fourth quarter of 2018, the Company (3) recognized a non-cash benefit of \$15.3 million pre-tax and \$10.1 million net of taxes related to the same topic. The additional amount was recorded in the first quarter of 2019 after the Company completed its analysis of the benefit to which it is entitled under the Brazilian court decision in 2018.

A reconciliation of total debt to net debt at March 31, 2019 and December 31, 2018 follows:

(in millions)	March 31, 2019	December 31, 2018
Current portion of long-term debt	\$1.7	\$1.8
Short-term borrowings	12.7	10.2
Long-term debt, less current portion	1,395.0	1,348.6
Total debt	1,409.4	1,360.6
Less cash and cash equivalents	(57.7)	(76.1)

Net debt

\$1,351.7 \$1,284.5

28

The components of changes in net sales for the three months ended March 31, 2019 follow:

	Three Months Ended March 31, 2019 Percent Change YoY
U.S. Packaging:	
Organic sales growth (decline)	0.4 %
U.S. Packaging	0.4 %
Latin America Packaging:	
Currency effect	(20.3)%
Organic sales growth (decline)	4.2 %
Latin America Packaging	(16.1)%
Rest of World Packaging:	
Currency effect	(4.7)%
Organic sales growth (decline)	3.9 %
Rest of World Packaging	(0.8)%
Total Company:	
Currency effect	(4.2)%
Organic sales growth (decline)	1.7 %
Total change in net sales	(2.5)%

We determine the effect of changes in currency exchange rates by translating the respective period's sales using the same currency exchange rates that were in effect during the prior year. When we acquire businesses, we exclude sales in the current period for which there are no comparable sales in the prior period. Organic sales growth (decline) is calculated by comparing current period sales translated at prior year rates and eliminating the effect of acquisitions to reported sales in the prior year.

Liquidity and Capital Resources

Net Debt to Total Capitalization

Net debt to total capitalization (which includes total debt net of cash balances divided by total debt net of cash balances plus equity) was 52.0 percent and 51.4 percent at March 31, 2019 and December 31, 2018, respectively. Total debt as of March 31, 2019 and December 31, 2018 was \$1.4 billion.

Cash Flow

Net cash provided by operating activities was \$1.5 million for the first three months of 2019, compared to \$54.3 million for the first three months of 2018. Compared to the prior year, lower cash flow from operating activities primarily reflected a use of cash to fund accounts payable; this was within the range of the Company's expectation for the quarter, which considered the Company's exceptional cash flow performance during the fourth quarter of 2018.

Net cash used in investing activities was \$28.4 million for the first three months of 2019 compared to \$46.1 million for the same period of 2018. Capital expenditures were \$28.6 million for the first three months of 2019 compared to \$46.2 million for the first three months of 2018.

Net cash provided by financing activities was \$8.4 million for the three months ended March 31, 2019, compared to \$22.5 million used by financing activities for the same period of 2018. The change in cash flows from financing activities in the first quarter of 2019 is primarily due to an increase in outstanding debt used to finance working capital needs during the first quarter of 2019.

Available Financing

In addition to using cash provided by operating activities, we issue commercial paper to meet our short-term liquidity needs. As of March 31, 2019, our commercial paper debt outstanding was \$93.3 million.

On July 22, 2016, we amended our \$1.1 billion revolving credit facility, extending the term of the agreement from August 12, 2018 to July 22, 2021. Our revolving credit facility is supported by a group of major U.S. and international banks. Covenants imposed by the revolving credit facility include a minimum net worth calculation and a maximum ratio of debt to total capitalization as defined in our credit agreement. As of March 31, 2019, there was \$93.3 million of commercial paper outstanding supported by this credit facility, leaving approximately \$1.0 billion of available credit. If we were not able to issue commercial paper, we would expect to meet our financial liquidity needs by accessing the bank market, which would increase our borrowing costs. Any borrowings under the credit agreement would be subject to a variable interest rate. We are in compliance with all debt covenants.

Liquidity Outlook

We expect cash flow from operations and available liquidity described above to be sufficient to support future operating activities. There can be no assurance, however, that the cost or availability of future borrowings will not be impacted by future capital market disruptions.

Dividends

In February 2019, the Board of Directors approved the 36th consecutive annual increase in the quarterly cash dividend on common stock to \$0.32 per share, a 3.2 percent increase.

New Accounting Pronouncements

Refer to Note 2 — New Accounting Guidance in the Condensed Consolidated Financial Statements.

Critical Accounting Estimates and Judgments

Our discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with U.S. GAAP. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. On an ongoing basis, management evaluates its estimates and judgments, including those related to retirement benefits, intangible assets, and expected future performance of operations. Our estimates and judgments are based on historical experience and on various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. These critical accounting estimates are discussed in detail in “Management’s Discussion and Analysis — Critical Accounting Estimates and Judgments” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2018.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the Company’s market risk during the three-month period ended March 31, 2019. For additional information, refer to Note 5 and Note 6 to the Condensed Consolidated Financial Statements and

to Part II, Item 7A of the Company's Annual Report on Form 10-K for the year ended December 31, 2018.

ITEM 4. CONTROLS AND PROCEDURES

The Company's management, under the direction, supervision, and involvement of the Chief Executive Officer and the Chief Financial Officer, has carried out an evaluation, as of the end of the period covered by this report, of the effectiveness of the design and operation of the disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) of the Company. Based on this evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that disclosure controls and procedures in place at the Company are effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified by the Securities and Exchange Commission's rules and forms and is accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. There were no changes in the Company's internal control over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The material set forth in Note 14 of the Notes to Condensed Consolidated Financial Statements is incorporated herein by reference.

ITEM 1A. RISK FACTORS

Information about our risk factors is contained in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2018. We believe that at March 31, 2019, there has been no material change to this information.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We did not repurchase any of our equity securities in the three months ended March 31, 2019. As of March 31, 2019, under authority granted by the Board of Directors, we have remaining authorization to repurchase an additional 18,187,211 shares of our common stock.

ITEM 6. EXHIBITS

Pursuant to the rules and regulations of the Securities and Exchange Commission (SEC), we have filed certain agreements as exhibits to this Quarterly Report on Form 10-Q. These agreements may contain representations and warranties by the parties thereto. These representations and warranties have been made solely for the benefit of the other party or parties to such agreements and (i) may have been qualified by disclosures made to such other party or parties, (ii) were made only as of the date of such agreements or such other date(s) as may be specified in such agreements and are subject to more recent developments, which may not be fully reflected in our public disclosure, (iii) may reflect the allocation of risk among the parties to such agreements and (iv) may apply materiality standards different from what may be viewed as material to investors. Accordingly, these representations and warranties may not describe our actual state of affairs at the date hereof and should not be relied upon.

Exhibit	Description	Form of Filing
2	<u>Transaction Agreement, dated as of August 6, 2018, by and among Bemis Company, Inc., Amcor Limited, Arctic Jersey Limited and Arctic Corp. (Certain schedules and exhibits have been omitted in accordance with Item 601(b)(2) of Regulation S-K. A copy of any omitted schedule and/or exhibit will be furnished to the Securities and Exchange Commission upon request.)
