**PREDICTIVE SYSTEMS' SECURITY INTELLIGENCE SERVICES SOLD TO SAIC**

□ *Date set for special meeting of stockholders to approve merger with INS* □

**NEW YORK, NY □ May 19, 2003**□ Predictive Systems, Inc. (Nasdaq SC: PRDS) today announced the closing on May 16, 2003 of its previously disclosed sale of the firm's Security Intelligence Services business unit, which includes Information Sharing and Analysis Centers (ISACs) and Open Source Intelligence (OSI) services, to Science Applications International Corporation (SAIC). The consideration received by Predictive Systems in exchange for the businesses sold consisted of 4,192,220 shares of Predictive Systems common stock held by SAIC.

The company also announced that its special meeting of stockholders to approve the previously announced merger with International Network Services will be held on June 18, 2003. Stockholders of record as of the close of business on May 16, 2003 will be entitled to notice of and to vote at the special meeting. The closing of the asset sale to SAIC was effective prior to the close of business on May 16, 2003, and therefore the 4,192,220 shares acquired by Predictive Systems from SAIC were not considered outstanding at the record date. In addition, as a result of the closing of the asset sale to SAIC, Predictive Systems expects that the consideration per share to be received pursuant to the INS merger to be approximately \$0.46 per share, based on the number of shares and in-the-money-options expected to be outstanding on the closing date of the INS merger.
