NUVIM, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - BUSINESS AND BASIS OF PRESENTATION

A. Business

NuVim, Inc. (the "Company") markets and distributes ready to drink dietary supplement beverages and powder mixes, which enhance the immune system, promote sturdy joints and muscle flexibility and helps the body absorb calcium. The Company distributes its products through supermarkets in approximately 14 states in the eastern United States.

Edgar Filing: NUVIM INC - Form 10QSB/A

B. Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying financial statements, the Company incurred net losses of (\$281,183) and \$494,703 for the three months ended March 31, 2007 and 2006, respectively. Management also expects operating losses to continue in 2007. The Company's continued existence is dependent upon its ability to secure adequate financing to fund future operations and commence profitable operations. To date, the Company has supported its activities through equity investments, the sale of common stock, and a line of credit through a bank of \$50,000 of which there is currently none used. During 2006, the Company addressed these concerns by selling common stock to raise approximately \$534,000, settling approximately \$274,000 of principal and interest on note and supplier debt with common stock, and issuing stock worth approximately \$266,000 to secure services. In addition, during 2006 the Company negotiated extended terms on approximately \$987,000 of notes payable, stockholder loans, and accrued interest until January 2009. During 2007, the Company has raised approximately \$688,000, net of fees, through sales of common stock.

It is the Company's intention to raise additional capital through additional sales of its common stock. No assurance can be given that these funding strategies will be successful in providing the necessary funding to finance the operations of the Company. Additionally, there can be no assurance, even if successful in obtaining financing, the Company will be able to generate sufficient cash flows to fund future operations. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments relating to the recoverability and classification of recorded assets or amounts and classification of liabilities that might be necessary related to this uncertainty.

8

C. BASIS OF PRESENTATION

The unaudited consolidated financial statements included herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The unaudited interim consolidated financial statements as of March 31, 2006 and 2007 reflect all adjustments (consisting of normal recurring accruals) which, in the opinion of management, are considered necessary for a fair presentation of its financial position as of March 31, 2007 and as of the result of its consolidated operations and its consolidated cash flows for the periods ended March 31, 2006 and 2007.

The Unaudited Consolidated Statements of Operations for the three months ended March 31, 2006 and 2007 are not necessarily indicative of results for the full year.

While the Company believes that the disclosures presented are adequate to make the information not misleading, these financial statements should be read in conjunction with the financial statements and accompanying notes included in the Company's Current Report on Form 10KSB for the year ended December 31, 2006 filed on April 14, 2007.

9

Edgar Filing: NUVIM INC - Form 10QSB/A

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

A. Net Loss Per Share

Basic loss per share has been calculated using the weighted average number of common shares outstanding in accordance with FASB 128 "Earnings Per Share." All potentially dilutive securities, including options, convertible notes, convertible preferred stock and warrants have been excluded as common stock equivalents and diluted loss per share has not been presented as such securities are antidilutive due to the Company's net loss for all periods presented. At March 31, 2007, the Company had warrants to purchase 7,522,514 shares of common stock and employee stock options to purchase 2,628,647 shares of common stock outstanding which are not included in the calculation.

B. Concentration of Risk

The Company maintains its cash balances in financial institutions located in New Jersey, and periodically has cash balances in excess of Federal Deposit Insurance Corporation limits. The Company distributes its products and grants credit to its customers who are food distributors and retailers located primarily in the eastern portion of the United States. The Company generally does not require collateral or other security with regard to balances due from customers. The Company extends credit to its customers in the normal course of business and performs periodic credit evaluations of its customers, maintaining allowances for potential credit losses.

Sales to three customers during the three months ended March 31, 2006 approximated 27%, 15% and 10% of sales. Sales to three customers during the year ended March 31, 2007 approximated 44%, 13% and 10% of sales. A loss to one of these customers could have a significant adverse effect on the Company's results of operations

Accounts receivable from two customers at March 31, 2006 approximated 27%, and 16% respectively and two customers at March 31, 2007 approximated 49% and 11% of accounts receivable.

One outside vendor manufactured all of the Company's finished goods. During the three months ended March 31, 2006 and 2007, manufacturing costs of approximately \$39,000 and \$65,000 were incurred at this vendor. Approximately \$35,000 was due to this vendor at March 31, 2007.

C. Reclassifications

Certain reclassifications were made to the presentation of the 2006 financial statements in order to conform to the 2007 financial statements. Such reclassifications had no effect on the prior year's results of operations.

10

D. Stock-Based Compensation

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123R (revised 2004), "Share-Based Payment" which revised Statement of Financial Standards No. 123, "Accounting for Stock-Based Compensation" This statement supersedes Opinion No. 25, "Accounting for Stock Issued to Employees." The statement addresses the accounting for share-based payment transactions with employees, eliminates the ability to account for share-based compensation transactions using the intrinsic value method pursuant to APB 25 and requires that the compensation costs relating to such transactions be recognized at fair value in the statement of operations. The revised statement was implemented by the Company effective

Edgar Filing: NUVIM INC - Form 10QSB/A

January 1, 2006. The Company continued to account for stock awards issued to non-employees under the fair value method as described in EITF 96-18 "Accounting for Equity Investments that are issued to Other than Employees for Acquiring or in Conjunction with Selling Goods or Services." The Company recorded \$14,275 in expense related to stock options for the three months ended March 31, 2007.

11

E. Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements, and ("SFAS No. 157"), which defines fair value, establishes a framework for measuring fair value using a market participant approach, and expands disclosures about fair value measurements. SFAS No. 157 will be effective for the Company beginning January 1, 2008. Management is currently evaluating the effect SFAS No. 157 will have on the Company's financial condition or results of operations.

In July 2006, the Financial Accounting Standards Board ("FASB") has published FASB Interpretation No. 48 ("FIN No. 48"), Accounting for Uncertainty in Income Taxes, to address the noncomparability in reporting tax assets and liabilities resulting from a lack of specific guidance in FASB Statement of Financial Accounting Standards ("SFAS") No. 109, Accounting for Income Taxes, on the uncertainty in income taxes recognized in an enterprise's financial statements. FIN No. 48 will apply to fiscal years beginning after December 15, 2006, with earlier adoption permitted. As of January 31, 2007 FIN 48 was adopted by the Company and it did not have a material effect on the Company's financial condition or results of operations or cash flows.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, "The Fair Value option for Financial Asset and Financial Liabilities - Including an Amendment of FASB Statement No. 115" which is effective for fiscal years beginning after November 15, 2007. This statement permits an entity to chose to measure many financial instruments and other items at fair value at specified election dates. Subsequent unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings. We are currently evaluating the potential impact on this statement in connection with our evaluation of SFAS No. 157.

NOTE 3 - STOCKHOLDERS' DEFICIT

A. Capital Stock

The Company is authorized to issue 185,000,000 shares of all classes of capital stock, including 120,000,000 as common. The Company has authorized 65,000,000 shares of all classes of preferred stock, of which 4,875,850 shares are designated as Series A and 50,000,000 as Series C.

12

B. Sales for Cash

On March 1 and 8, 2007, NuVim issued a total of 433,333 shares to an unrelated accredited investor for \$130,000 or \$.30 per share. No commissions or fees were paid in connection with this sale. He agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

Edgar Filing: NUVIM INC - Form 10QSB/A

On March 8, 2007, at the same time as the second purchase, three of NuVim's outside directors, Doug Scott, Peter DeCrescenzo, and Cal Hodock purchased 50,000, 33,333, and 16,667 shares respectively at the same price totaling \$30,000 or \$0.30 per share. Each director agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

At the end of the first quarter of 2007, NuVim received \$300,000 from Julius Baer Multistock SICAV US Stock Fund, a European Institutional Investor to purchase 1,000,000 shares of common stock at a price of \$.30 per share. NuVim paid a commission of \$30,000 to Continental Advisors SA in connection with this sale. In addition, Continental Advisors SA received \$9,000 for its expenses without accounting for it.

All cash raised in these sales has been applied to working capital.

C. Debt and Accrued Compensation Conversion

On January 30, 2007, NuVim issued 72,915 shares of common stock in lieu of cash for unpaid 2006 salary of approximately \$14,600 due to Michael Vesey, NuVim's former CFO. He agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

In March 2007, NuVim issued 100,000 shares of common stock to Mr. Kundrat, NuVim's CEO for the remaining balance of his 2006 executive bonus due him in the amount of \$32,000.

D. Stock Issued for Services

On January 29, 2007, NuVim agreed with its Secretary and General Counsel to issue 100,000 shares of common stock as additional compensation for his services during 2007. The services have a value of approximately \$16,000. He agreed in writing to hold

13

the shares for at least one year and to the additional restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

On January 29, 2007, NuVim agreed with its operations director to issue a total of 50,000 shares of common stock as additional compensation for his services. The shares have a value of approximately \$8,000. He agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6)

On January 30, 2007 NuVim agreed with a communications expert to provide various services for a total of 40,000 shares of common stock. The services have a value of approximately \$6,400. He agreed to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

Edgar Filing: NUVIM INC - Form 10QSB/A

Also in March, 2007 NuVim issued 15,000 shares of common stock for services relating to its corporate presentation materials. The services have a value of approximately \$5,700.

E. Stock Option Plan

In March 2007, the Board of Directors approved the 2007 Incentive Stock Option Plan for the benefit of its officers, employees and consultants. The plan authorizes the grant of 2,000,000 shares of common stock. The plan will become effective upon approval of shareholders at the Company's annual meeting in May of 2007.

NOTE 4 - INCOME TAXES

Based on the Company's operating losses, no provision for income taxes has been provided for the three months ended March 31, 2006 and 2007.

NOTE 5 - SUPPLEMENTAL DISCLOSURE OF NON-CASH INVESTING AND FINANCING ACTIVITIES

| | MARCH 31, | |
|---------------|-----------|-------|
| | 2006 | 2007 |
| Interest paid | \$ 1,625 | \$ -- |

14

NOTE 6 - COMMITMENTS

A. Royalty, License and Supply Agreement - Related Party

In March 2000 and amended in May 2004, the Company entered into an agreement for the exclusive licensing rights, in specific territories, to produce and market certain beverage products, patented and trademarked by SMBI. The agreement was for a term of 10 years commencing on the date of the amendment, May 2004, and provided for royalties of between 1% and 2% of net sales for the duration of the agreement. The exclusive licensing agreement could be cancelled by SMBI if the Company did not meet its annual purchasing commitment under the supply agreement (see below), in which case, SMBI agrees to negotiate in good faith for a non-exclusive supply agreement.

In January 2000 and amended in May 2004, the Company entered into a supply agreement with SMBI for the purchase of SMBI's proprietary immune whey protein concentrate. The agreement is for a term of 10 years, commencing on the date of amendment, May 2004.

The license and supply agreements were subject to the Company maintaining minimum purchases of SMBI's proprietary immune whey protein concentrate. In April of 2007 the Company and SMBI agreed to terminate the license and supply agreements. In April 2007, pursuant to the agreement, the Company made a final payment of \$29,000 under the agreement and no further amounts are due under the agreement.

On April 9, 2007 the Company entered into a supply agreement with GNT nutrition for Nutraflora, an ingredient that provides immune system enhancement and muscle and joint flexibility enhancement. The agreement does not contain any minimum purchase commitments or provision for the payment of royalties.

B. Lease

As of December 31, 2006, the Company does not have a lease agreement with its

Edgar Filing: NUVIM INC - Form 10QSB/A

landlord and is operating on a month to month basis. Rent expense is approximately \$4,800 per month.

NOTE 7 - RELATED PARTY TRANSACTIONS

Included in selling, general and administrative expenses are salaries to immediate family members of an executive officer of the Company of approximately \$9,000 and \$12,000 for the three months ended March 31, 2006 and 2007, respectively.

15

NOTE 8 - SUBSEQUENT EVENTS

A. Sales for Cash

During April 2007, NuVim issued a total of 972,667 shares to unrelated accredited investors for gross proceeds of approximately \$292,000 or \$.30 per share. Commissions and fees of approximately \$25,000 were paid in connection with this sale.

All cash raised in these sales has been applied to working capital.

B. Stock Issued for Services

During April 2007 NuVim agreed with a communications expert to provide various services for a total of 26,000 shares of common stock. The services have a value of approximately \$13,000.

16

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our financial statements and related notes included elsewhere in this Quarterly Report on Form 10-QSB. This discussion contains forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Forward-looking statements include, but are not limited to, statements regarding:

- o possible or assumed future results of operations, including statements regarding revenue mix, cost of revenues, promotion of our products through advertising, sampling and other programs, changes to our internal financial controls, trends in our operating expenses and provision for income taxes, increased costs as a result of becoming a public company and expenses related to stock-based compensation;
- o financing plans, including the adequacy of financial resources to meet future needs;
- o business strategies, including any expansion into new products;
- o our industry environment, including our relationships with our significant customers and suppliers;
- o potential growth opportunities; and
- o the effects of competition.

Edgar Filing: NUVIM INC - Form 10QSB/A

Some of our forward-looking statements can be identified by use of words such as "may," "will," "should," "potential," "continue," "expects," "anticipates," "intends," "plans," "believes" and "estimates."

Forward-looking statements involve many risks, uncertainties and assumptions. Actual results may differ materially from those expressed in the forward-looking statements for a number of reasons, including those appearing under the caption "Factors Affecting Operating Results" and elsewhere in this Quarterly Report on Form 10-QSB. The cautionary statements contained or referred to in this report should be considered in connection with any subsequent written or oral forward-looking statements that may be issued by us or persons acting on our three quarters. We undertake no obligation to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

OVERVIEW

We produce, market, and distribute NuVim(R) beverage dietary supplements in Ready-to-drink and powder mix forms. NuVim utilizes the micronutrient NutraFlora(R) and whey protein to provide important health benefits to its consumers. Whey protein, NuVim(R)'s largest ingredient, other than water, enhances physical performance, enhances cardiovascular health, and

17

promotes well being. NutraFlora(R) is uniquely capable of promoting health by supporting the growth of beneficial (probiotic) bacteria which in turn provide health benefits such as improved calcium and mineral absorption for better bone health and a strong immune system. Studies also show that NutraFlora(R) helps improve digestive functions, contributes to a healthy cholesterol, and metabolism. In addition NuVim contains 100% of vitamin C, E, B12, and Zinc and 30% vitamin A of the recommended daily requirement. NuVim products contain no fat, cholesterol, lactose, caffeine, artificial flavors or high fructose corn syrup.

We focus on developing the NuVim(R) brand through a mix of advertising and promotional programs that build consumer awareness, trial and repeat purchases. The marketing consists of television advertising newspaper advertising/advertisorials, product sampling, coupon distribution, and promotional price discounts. These marketing expenditures are essential to build the NuVim(R) brand. We continue to test various ways to find the most cost efficient means to use these marketing funds to increase consumer awareness, trial and repeat purchases. We believe that these advertising and promotional activities are critical to the growth of our business and expect to continue these programs in the future.

We have distributed our refrigerated beverages since the year 2000 and are in approximately 2,100 Supermarkets in the Eastern United States. In 2002 company revenues were \$3.5 million. However, we eliminated most advertising and marketing support for our product in the second half of 2002 due to a lack of funding. We recapitalized our company in June 2005 through the conversion of approximately \$7.7 million of debt into common stock and an initial public offering of our common stock. Since that time we have concentrated our limited financial resources on developing and supporting distribution opportunities that we believe will provide the greatest profitable sales expansion potential. Additional funds raised in the first months of 2007 will help achieve these goals.

We also developed a powder version of our product to be sold through direct distribution such as the internet as well as retail outlets. Sales of the

Edgar Filing: NUVIM INC - Form 10QSB/A

product to date have not been material. We have begun a test program selling the powder in GNC stores in the Tampa Bay area.

We have launched an equity funded print news media campaign to educate consumers about the benefits of NuVim(R) and create market awareness for our product. The media program which began in January 2006 and will continue through the fourth quarter of 2007 or until the contracted amount of the newspaper features has been completed.

We have produced a 30 second television commercial for the refrigerated products, a 60 second television commercial for the powder product and a 5 minute educational video for the product and will air these commercials throughout 2007 through Platinum Television Group headquartered in Deerfield Beach Florida.

During 2006 we continued to have had limited funding to support product sampling and advertising programs, which we believe are critical to maintain and increase sales of our products. Therefore, we have focused our spending on promotions in accounts that we believe will offer the greatest potential for sales growth and expansion opportunities until we are able to raise funding for additional marketing programs.

18

Our focus is to push forward in six areas: Increase the sales per store in existing Wal-Mart supercenters and increase the number of Wal-Mart distribution centers stocking the NuVim(R) 64 ounce size; support the testing begun in the first quarter of 2007 with Kroger, the second largest US retailer; introduce a shelf stable 12 ounce in three varieties for the 1,500 independent shelf stable US distributors that service the nearly 700,000 points of distribution in the away from home consumption markets like schools, cafeterias delis, hospitals, convenience stores and other food service businesses.; increase sales of the newly introduced powder version in three varieties through the internet, retail sales through GNC, and fund raising programs with non-profit organizations; increase profitable sales to current and new supermarkets; and introduce NuVim to the military commissaries and troop feeding.

In 2006 we launched an equity funded print news media campaign to educate consumers about the benefits of NuVim(R) and create market awareness for our product. The media program will continue into the fourth quarter of 2007 or until the contracted amount of the newspaper features has been completed.

We have produced a 30 second television commercial for the refrigerated products, a 60 second television commercial for the powder product and a 5 minute powder infomercial for the product and plan to air these commercials 2,000 times through Platinum Television Group.

Case shipments of our refrigerated product increased by 2,907 or 20% during the first quarter of 2007 compared with the same period in the prior year. The reasons for the increase included further expansion to additional Wal-Mart supercenters compared with the same period last year, an increase at Wakefern (Shoptite) supermarkets in the New York/New Jersey market during the first quarter 2007, and new start up business at Kroger in Detroit Michigan. During the first quarter 2007 we continued to have had limited cash to fund product sampling and advertising programs, which we believe are critical to maintain and increase sales of our products. Therefore, with limited funding we are unable to support all markets and concentrate in certain markets to attain a level of consumer sales to hold supermarket retail distribution and in some accounts increase the number of stores carrying NuVim products until we are able to raise cash for additional marketing programs. In the interim, advertising

Edgar Filing: NUVIM INC - Form 10QSB/A

program funded by the issuance of stock will continue to be important.

In late 2003 we began a test program with a single Wal-Mart supercenter. In late 2004 the test was expanded to one Wal-Mart distribution center, covering 43 supercenters and then a further expansion in late 2005 to two additional distribution centers that covered most of the Wal-Mart supercenters in the State of Florida. During the 2005 expansion, the number of NuVim(R) varieties carried by the supercenters was increased from two to three. Third quarter 2005 Wal-Mart sales were 8% of the total 2005 sales for that quarter. In April 2006, we increased our distribution to two more Wal-Mart distribution centers and in the third quarter of 2006 one more distribution center was added. We now serve approximately 300 supercenters and seven distribution centers in 7 states. Same store sales for Wal-Mart in the first quarter of 2007 were up 137% compared with the same quarter in 2006. First quarter 2007 Wal-Mart sales were 51% of total NuVim sales for this quarter. The Wal-Mart initiative has matured much faster than the others. We expect the other five initiatives to increase their sales contribution both absolutely and as a percentage of the total sales.

19

SALES RESULTS

The discussion below covers selected data regarding sales for the quarter March 31, 2007 and 2006. The data is not necessarily indicative of continuing trends.

Sales of refrigerated beverages are expressed in unit case volume. A "unit case" means a unit of measurement equal to 512 U.S. fluid ounces of finished beverage (eight 64-ounce containers). Powder mix sales are expressed in equivalent servings equal to the refrigerated case. One case of refrigerated products has 40 servings. One box of powder mixes has 30 servings. Unit case volume means the number of unit cases (or unit case equivalents) of beverages directly or indirectly sold by us. Gross cases sold to the customer represent the number of cases shipped to the customer..

UNIT CASE VOLUME/CASE SALES

| | THREE MONTHS ENDED MARCH 31, | |
|------------------|---------------------------------|------------|
| | 2007 | 2006 |
| Gross Cases Sold | 17,654 | 14,747 |
| Gross Sales | \$ 328,133 | \$ 271,073 |
| Net Sales | \$ 240,822 | \$ 176,221 |

Gross sales are the amount invoiced to customers, while net sales deduct from gross sales any payment or discount terms, promotional allowances, slotting fees, warehouse damage and returned goods in accordance with the Financial Accounting Standards Board Emerging Issues Task Force Issue No. 01-09, Accounting for Consideration Given by a Vendor to a Customer. In some accounts we pay slotting fees when our products are initially introduced to a new account and run price feature promotions to encourage trials of our product. As brand loyalty grows in a market, we anticipate that we will be able to run fewer price promotions and will not incur the one time additional slotting fees to gain new distribution.

17,654 cases sold represents an increase of 2,907, or 20%, for the three months ended March 31, 2007, when compared to the same quarter in 2006. As discussed above, we believe that the number of cases sold is due to the increase

Edgar Filing: NUVIM INC - Form 10QSB/A

in the number of Wal-Mart supercenters carrying the product, and the change in product formula to lower the calories, eliminate the high fructose corn syrup and increase whey protein to be the number one item on the ingredient list. We also had a 50% increase in the quarter from Shoprite, New York's largest account, 10% increase at Giant PA, new 16 ounce distribution at Giant and new business start up with Kroger stores in Detroit.

20

RESULTS OF OPERATIONS

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2007 COMPARED TO THE THREE MONTHS ENDED MARCH 31, 2006

Gross Sales. For the three months ended March 31, 2007, gross sales were \$328,133 an increase of \$57,060 or 21% over gross sales of \$271,073 for the three months ended March 31, 2006. This 21% increase had several contributing factors as mentioned above. We also decreased the Wal-Mart store and their distribution centers inventory which of course decreased NuVim factory sales to them in the first quarter. This was a one time adjustment to better control fresh inventory and improve our product's performance within the Wal-Mart system. During this quarter, we continued to have limited funds for advertising and sampling programs.

Discounts, Allowances and Promotional Payments. For the three months ended March 31, 2007, promotional allowances and discounts were \$87,311, a decrease of \$7,541 from the promotional allowances and discounts of \$94,852 for the three months ended March 31, 2006. This 8.0 % decrease is reflective of our ability to generate incremental sales for the quarter of 21% while decreasing promotional spending. We record the price reductions, which are reimbursed by us to the retailers, in accordance with Financial Accounting Standards Board Emerging Issues Task Force, No. 01-09, Accounting for Consideration Given by a Vendor to a Customer. We expect to continue to use price promotions and coupon distribution selectively as a means to promote consumer sampling and trial of our product into the foreseeable future. As the product further matures and a higher percentage of users of our product are repeat purchasers, we expect coupon expense, relative to gross sales, to decline although we will continue to use these marketing programs when needed. Product returned after its expiration date decreased as a percentage of sales this quarter versus the same quarter a year ago by 1%. Total Discounts, Allowances and Promotional payments/discounts as a percentage of gross sales decreased from 35.5% for the three months ended March 31, 2006 to 26.6% for the three months ended March 31, 2007. This is very positive because it is costing less to move more product off the shelf.

| | THREE MONTHS ENDED MARCH 31, | | INCREASE (DECREASE) |
|---|---------------------------------|------------------|------------------------|
| | 2007 | 2006 | |
| Discounts for timely payment | \$ 2,487 | \$ 5,894 | \$ (3,407) |
| Product returned after its expiration date | 27,577 | 34,545 | (6,968) |
| Promotional price allowances, coupons and other incentives | 55,574 | 54,413 | 1,161 |
| Slotting fees | 1,673 | --- | 1,673 |
| Total Discounts, Allowances and Promotional Payments | \$ 87,311 | \$ 94,852 | \$ (7,541) |

Edgar Filing: NUVIM INC - Form 10QSB/A

Net Sales. Net sales for the three months ended March 31, 2007 were \$240,822, an increase of \$64,601, or 37% above net sales of \$176,221 for the three months ended March 31, 2006. The increase in net sales is primarily attributable to the increase in case sales and a decrease in the promotional pricing as discussed above.

21

Cost of Sales. For the three months ended March 31, 2007, cost of sales was \$168,945 a decrease of \$47,714 for the three months ended March 31, 2006. The decrease is primarily the result of lower ingredient costs in 2007.

Gross Profit. Gross profit was \$71,877 for the three months ended March 31, 2007, an increase of \$16,887 from the \$54,990 gross profit for the three months ended March 31, 2006. Gross profit as a percentage of gross sales was 25% for the three months ended March 31, 2007 compared to the 20% for the three months ended March 31, 2006.

Selling, General and Administrative Expenses. Selling, general and administrative expenses were \$332,410 for the three months ended March 31, 2007. Selling, general, and administrative expenses during the three months ended March 31, 2006 were \$512,673. Selling, general, and administration expense decreased \$180,263 or 35%. We are still in an early stage of our development and did show improvement versus last year same time period and expect to further show improvement moving forward. We continue to work on increasing sales to achieve sales volumes sufficient to generate net sales in excess of our selling, general and administrative expenses. The decrease in selling, general and administrative expenses is primarily due to decreases salaries by eliminating a full time Chief Financial Officer, full time Vice President of Operations and converting all of the selling personnel to a commission structure.

Loss from Operations. Loss from operations was \$260,533 for the three months ended March 31, 2007 compared to \$457,683 for the three months ended March 31, 2006. The entire decrease of \$197,150 is due to the increase in net sales and the decrease in selling and administration.

Interest Expense. Interest expense was \$20,650 for the three months ended March 31, 2007; a decrease of \$16,415 or 44%, from interest expense of \$37,065 for the three months ended March 31, 2006. The decrease in interest expense is primarily attributable to the retirement of one loan that was converted to equity.

Net Loss. Net loss was \$281,183 for the three months ended March 31, 2007 compared to \$494,703 for the three months ended March 31, 2006, a decrease of \$213,520 due to the contribution made by increased sales and the decrease in administrative and selling costs.

22

LIQUIDITY AND CAPITAL RESOURCES

Our operations to date have generated significant operating losses that have been funded through the issuance of common stock and external borrowings. We will require additional sources of outside capital to continue our operations.

Through April 30 2007, NuVim has raised a net of \$688,000 in new working capital through the sale of common stock and has obtained services valued at approximately \$49,100 in exchange for its common stock.

Edgar Filing: NUVIM INC - Form 10QSB/A

We have participated in the New Jersey Economic development Authority Tax Transfer program for the past 5 years and will again this year. Approximately \$442,000 was received from this program in December of 2006. We have already applied for the 2007 program.

We will need to raise additional financing to pay down our obligations, fund operating losses and to support sales and marketing programs to increase sales of our products. If we are not able to identify additional sources of financing, we may not be able to continue operations beyond 2007.

Net cash used in operating activities for the three months ended March 31, 2007 was \$121,820 compared to cash used in operating activities of \$268,917 during the same period in 2006. The decrease in cash used by operating activities during the first three months of \$147,096 was primarily attributable to lower administrative expenses, less promotional spending, and higher contributions from product sales. The cash consumed during the first quarter of 2006 included a one time payment of \$202,000 to SMBI, the provider of the proprietary whey protein concentrate then used in our products, in full settlement of past due balances due to them.

Net Cash provided by financing activities during the three months ended March 31, 2007 \$419,200. Nothing was provided during the three months ended March 31, 2006.

APPLICATION OF RECENT AND CRITICAL ACCOUNTING POLICIES AND PRONOUNCEMENTS

RECENT ACCOUNTING PRONOUNCEMENTS

In July 2006, the Financial Accounting Standards Board ("FASB") has published FASB Interpretation No. 48 ("FIN No. 48"), Accounting for Uncertainty in Income Taxes, to address the noncomparability in reporting tax assets and liabilities resulting from a lack of specific guidance in FASB Statement of Financial Accounting Standards ("SFAS") No. 109, Accounting for Income Taxes, on the uncertainty in income taxes recognized in an enterprise's financial statements. FIN No. 48 will apply to fiscal years beginning after December 15, 2006, with earlier adoption permitted. As of January 31, 2007 FIN 48 was adopted by the Company and it did not have a material effect on the Company's financial condition or results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements, and ("SFAS No. 157"), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS No. 157 will be effective for the Company beginning January 1, 2008. Management is currently evaluating the effect SFAS No. 157 will have on the Company's financial condition or results of operations.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, "The Fair Value option for Financial Asset and Financial Liabilities - Including an Amendment of FASB Statement No. 115" which is effective for fiscal years beginning after November 15, 2007. This statement permits an entity to chose to measure many financial instruments and other items at fair value at specified election dates. Subsequent unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings. We are currently evaluating the potential impact on this statement in connection with our evaluation of SFAS No. 157.

CRITICAL ACCOUNTING ESTIMATES

Edgar Filing: NUVIM INC - Form 10QSB/A

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosure on contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions and conditions.

Critical accounting policies are defined as those that are reflective of significant judgments, estimates and uncertainties and potentially result in materially different results under different assumptions and conditions. For a detailed discussion on the application of these and other accounting policies, see Note 2 to our annual financial statements for the year ended December 31, 2005.

PLACEMENT AND PROMOTIONAL ALLOWANCES AND CREDITS FOR PRODUCT RETURNS

As an inducement to our customers to promote our products in preferred locations of their stores, we provide placement and promotional allowances to certain customers. We also provide credits for customer coupon redemptions, consumer price reductions, and product which has not been sold by its expiration date. These allowances and credits are reflected as a reduction of revenue in accordance with Emerging Issues Task Force ("EITF") No. 01-9, which requires certain sales promotions and customer allowances previously classified as selling, general and administrative expenses to be classified as a reduction of sales or as cost of goods sold. Provisions for promotional allowances are recorded upon shipment and are typically based on shipments to the retailer during an agreed upon promotional period. We expect to offer promotional allowances at historical levels in the near future as an incentive to our customers. One time per account slotting or placement fees are deducted from revenue in the period paid. Provisions for coupon redemptions and product returned that has reached its expiration date are based on historical trends. Information such as the historical number of cases returned per unit shipped, product shelf life, current sales volume, and coupons distributed during the period are used to derive estimates of the required allowance. As we expand production and introduce new

24

products, we may incur increased levels of returned goods. Also, our estimates assume we will continue as a going concern and maintain distribution with wholesalers and supermarkets that currently carry our product. If a supermarket or wholesaler discontinues our product, we may experience return rates in excess of our historical trend. This could result in material charges to future earnings for reimbursements to our customers for returned, unsold product.

ACCOUNTS RECEIVABLE

We evaluate the collectability of our trade accounts receivable based on a number of factors. Accounts receivable are unsecured, non-interest bearing obligations that are typically due from customers between 10 and 30 days of the invoice date. We apply collections in accordance with customer remittance advices or to the oldest outstanding invoice if no remittance advice is presented with payment. Our overall receivables are approximately 17 days.

We estimate an allowance for doubtful accounts and revenue adjustments based on historical trends and other criteria. We have had only one account that could not be collected since the inception of the company in 2000. The amount was less than \$10,000. Further, as accounts receivable outstanding are deemed uncollectible or subject to adjustment, these allowances are adjusted

Edgar Filing: NUVIM INC - Form 10QSB/A

accordingly. In circumstances where we become aware of a specific customer's inability to meet its financial obligations to us, a specific reserve for bad debts is estimated and recorded which reduces the recognized receivable to the estimated amount we believe will ultimately be collected. In addition to specific customer identification of potential bad debts, bad debt charges are recorded based on our recent past history and an overall assessment of past due trade accounts receivable outstanding. We also estimate the amount of credits for product placement, promotion and expired product that are expected to be issued for product sold based on an evaluation of historical trends and record an allowance when the sale is recorded.

DISTRIBUTION RIGHTS

The Company intends to perform its annual impairment test of distribution rights acquired with the 2006 acquisition of the remaining interest in NuVim Powder, LLC. Such impairment testing will be performed pursuant to SFAS No. 142 using a fair value approach. In the event this testing results in an impairment of the distribution rights the Company could have a right down of these rights and that right down could be material.

INFLATION

We do not believe that inflation had a significant impact on our results of operations for the periods presented.

OFF-BALANCE SHEET TRANSACTIONS

At March 31, 2007, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

FACTORS AFFECTING OPERATING RESULTS

Investing in our shares involves a high degree of risk. You should carefully consider the following risks, as well as the other information in this report, before deciding whether to invest in our shares. If any of the following risks actually occur, our business, financial condition, results of operations and liquidity could suffer. In that event, the trading price of our shares could decline and you might lose all or part of your investment.

25

WE WILL NEED TO RAISE ADDITIONAL CAPITAL.

We are currently operating at a loss and expect our expenses to continue to increase as we expand our product line as well as our geographic presence throughout the United States. To date, we have relied primarily on financing transactions to fund operations. We could face unforeseen costs such as an increase in transportation costs resulting from the recent significant increases in the cost of fuel; or our revenues could fall short of our projections because retail outlets discontinue ordering our products or for reasons unrelated to our products, such as a revenue decline due to changes in consumer habits and preferences or we may achieve lower margins than planned on our products due to cost increases or competitive pricing pressure.

During the first four months of 2007, NuVim raised a net total of \$688,000 from European Institutional and United States accredited investors and obtained an additional about \$49,100 of services in exchange for common stock.

Edgar Filing: NUVIM INC - Form 10QSB/A

We will still continue to need additional funds to continue operations. New sources of capital may not be available to us when we need it or may be available only on terms we would find unacceptable. If such capital is not available on satisfactory terms, or is not available at all, we will be unable to continue to fully develop our business and our operations and financial condition will be materially and adversely affected. Such a lack of additional funding could force us to cease operations altogether. Debt financing, if obtained, could increase our expenses and would be required to be repaid regardless of operating results. In addition, if we raise additional funds through the issuance of equity, equity-related or convertible debt securities, these securities may have rights, preferences or privileges senior to those of the rights of our ordinary shares and our shareholders may experience additional dilution. Any such developments can adversely affect your investment in our company, harm our financial and operating results, and cause our share price to decline.

OUR AUDITORS HAVE SUBSTANTIAL DOUBT ABOUT OUR ABILITY TO CONTINUE AS A GOING CONCERN.

In their report in connection with our 2006 financial statements, our auditors included an explanatory paragraph stating that, because we have incurred net losses and have a net capital deficiency for the years ended December 31, 2005 and 2006, and as of March 31, 2007 (unaudited). Our continued existence will depend in large part upon our ability to successfully secure additional financing to fund future operations. Our initial public offering was not sufficient to completely alleviate these concerns; the proceeds have been adequate to fund operations to date, but we will need to raise additional funding to continue operations. If we are not able to achieve positive cash flow from operations or to secure additional financing as needed, we will continue to experience the risk that we will not be able to continue as a going concern.

Our continued existence will depend in large part upon our ability to successfully secure additional financing to fund future operations. Our initial public offering was not sufficient to completely alleviate these concerns. If we are not able to achieve positive cash flow from

26

operations or to secure additional financing as needed, we will continue to experience the risk that we will not be able to continue as a going concern.

We have not had sufficient capital to operate our business for approximately three years, and as a result, we have negotiated extended payment terms on approximately \$987,000 of notes payable, shareholder loans and accrued interest which are due and payable upon receipt of additional financing.

These outstanding obligations may make it difficult to raise additional financing.

OUR LIMITED OPERATING HISTORY MAKES EVALUATION OF OUR BUSINESS DIFFICULT.

We have a limited operating history and have encountered, and expect to continue to encounter, many of the difficulties and uncertainties often faced by early stage companies. We commenced our business operations in 1999 and began marketing our initial products in 2000 on a limited basis. Accordingly, we have only a limited operating history with which you can evaluate our business and prospects. An investor in our units must consider our business and prospects in light of the risks, uncertainties and difficulties frequently encountered by early stage companies, including limited capital, delays in product development, possible marketing and sales obstacles and delays, inability to gain customer acceptance or to achieve significant distribution of our products to customers

Edgar Filing: NUVIM INC - Form 10QSB/A

and significant competition. We cannot be certain that we will successfully address these risks. If we are unable to address these risks, our business may not grow, our stock price may suffer and/or we may be unable to stay in business.

WE HAVE A HISTORY OF LOSSES AND WE EXPECT TO CONTINUE TO OPERATE AT A LOSS FOR THE FORESEEABLE FUTURE.

Since our inception in 1999, we have incurred net losses in every year, including net losses of \$2,396,902 for the year ended December 31, 2005, \$1,778,959 for the year ended December 31, 2006 and \$281,183 for the three months ended March 31, 2007. We had a working capital deficit of \$259,441 at March 31, 2007 as compared with \$506,292 as of December 31, 2006 and have negative cash flows from operations. As a result of ongoing operating losses, we also had an accumulated deficit of \$22,305,203 and a stockholders' deficit of \$1,299,257 at March 31, 2007. We expect to incur losses until at least through 2007 and may never become profitable. We also expect that our expenses will increase substantially for the foreseeable future as we seek to expand our product line and sales and distribution network, implement internal systems and infrastructure and comply with the legal, accounting and corporate governance requirements imposed upon public companies. These ongoing financial losses may adversely affect our stock price.

OUR CONTINUED PROGRESS DEPENDS OF CONSUMER ACCEPTANCE OF THE REFORMULATED BEVERAGE

In the first quarter of 2007, NuVim introduced a reformulated beverage and began producing it at a new plant. Although the new formulation maintains the same taste, reduces calories per serving from 70 to 45, eliminates High Fructose Corn Syrup, as an ingredient, and introduces NutraFlora(R) an active ingredient with more, and more recent, clinical support for

27

its improvement of mineral absorption, particularly the calcium and magnesium necessary for bone strength, reinforcing the immune system, our consumers may not all continue to enjoy the NuVim(R) beverages and new customers attracted by the reduced sugar and calories and the improved health benefits may not replace all the old customers lost because of the changes.

OUR BUSINESS DEPENDS ON THE ACCEPTANCE OF OUR PRODUCTS IN BOTH EXISTING AND NEW MARKETING AREAS.

We intend to expand into new geographic areas and broaden our product offerings to generate additional sales. Our refrigerated beverage products are currently available from southern Connecticut to Miami and as far West as Pittsburgh including such supermarket chains as ShopRite, Pathmark, A&P, Gristedes, Food Emporium, Walbaums, , Acme Giant, Giant Eagle, Publix, Kroger and Wal-Mart. Although marketing funds have been limited we have been able to maintain distribution due to our loyal consumer base who have felt the NuVim difference and continue to buy NuVim on a regular basis. The supermarket chain accounts see NuVim as a one of a kind product that offers the consumer a healthily choice to high sugar and high caffeine carbonated and non- carbonated beverages. We do not know whether the level of market acceptance we have received in our current markets for our products will be matched or exceeded in the geographic locations we are newly serving or in other areas of the country as we expand our distribution in the future. We also will need to raise additional financing to support this expansion.

We can give no assurance that we will expand into new geographic areas or successfully expand our product line. It is unlikely that we will achieve

Edgar Filing: NUVIM INC - Form 10QSB/A

profitability and otherwise have a successful business unless we are able to gain market acceptance of our existing and future products over a wide geographic area.

CONSUMERS WHO TRY OUR PRODUCTS MAY NOT EXPERIENCE THE HEALTH BENEFITS WE CLAIM, WHICH MAY CAUSE THEM TO DISCONTINUE USING OUR PRODUCTS.

Although there is substantial clinical evidence showing that NuVim(R)'s ingredients produce the desired results, there have been no studies of our specific formulation. Therefore, we currently cannot confirm that the health benefits of our products will be evident to casual consumers of our products. Consumers may determine that drinking 12 ounces of NuVim per day for a minimum of 30 days requires more discipline and expense than they are willing to devote. If consumers do not use our product in the quantity or for the duration we recommend, they may not achieve the health benefits we claim, which may cause them to make alternative nutritional beverage and/or dietary supplement purchasing decisions.

OUR BUSINESS MAY SUFFER FROM LACK OF DIVERSIFICATION.

Our business is centered on nutritional beverages. The risks associated with focusing on a limited product line are substantial. If consumers do not accept our products or if there is a general decline in market demand for, or any significant decrease in, the consumption of nutritional beverages, we are not financially or operationally capable of introducing alternative products within a short time frame. As a result, such lack of acceptance or market demand decline could cause us to cease operations.

28

EXPANSION OF OUR BUSINESS IS DEPENDENT ON OUR ABILITY TO EXPAND PRODUCTION.

We currently manufacture our refrigerated product line at Mountainside Farms in Roxbury, New York. Our ability to expand beyond our current marketing areas depends on, among other things, the ability to produce our product in commercial quantities sufficient to satisfy the increased demand. Although our present production capacity is sufficient to meet our current and short-term future production needs, production capacity may not be adequate to supply future needs. If additional production capacity becomes needed, it will be necessary to engage additional co-packers or to expand production capacity at our present co-packer facility. If we expand production at Mountainside Farms Dairy, we risk having to pay significantly greater transportation costs to transport our products to warehouses in other regions of the United States. Any new co-packing arrangement raises the additional risk of higher marginal costs than we currently enjoy since we would be required to negotiate new terms with any new co-packer. We may not be able to pass along these higher costs to our customers. If we are unable to pass along the higher production costs imposed by new co-packers to our customers, we either will suffer lower gross margins and lower profitability, once achieved, or we may be unable to expand our business as we have planned, which could disappoint our stockholders.

OUR BUSINESS CONTAINS RISKS DUE TO THE PERISHABLE NATURE OF OUR PRODUCT.

Our current refrigerated product is a perishable beverage that has a limited shelf-life of approximately 83 days. This restricted shelf life means that we do not have any significant finished goods inventory and our operating results are highly dependent on our ability to accurately forecast near term sales in order to adjust our raw materials sourcing and production needs. When we do not accurately forecast product demand, we are either unable to meet higher than anticipated demand or we produce excess inventory that cannot be profitably sold. Additionally, our customers have the right to return products

Edgar Filing: NUVIM INC - Form 10QSB/A

that are not sold by their expiration date. Therefore, inaccurate forecasts that either mean that we are unable meet higher than anticipated demand or that result in excess production, or significant amounts of product returns on any of our products that are not sold by the expiration date could cause customer dissatisfaction, unnecessary expense and a possible decline in profitability.

GOVERNMENT REGULATION MAY ADVERSELY AFFECT OUR BUSINESS.

Our business is subject to government regulation, principally the United States Food and Drug Administration (the "FDA"), which regulates the processing, formulation, packaging, labeling and advertising of dietary products, and to a lesser extent, state governments, where state attorneys general have authority to enforce their state consumer protection acts. Specifically, we are subject to the Dietary Supplement and Health Education Act ("DSHEA"). Under DSHEA, dietary supplements are permitted to make "statements of nutritional support" with notice to the FDA, but without FDA pre-approval. The FDA does not allow claims that a dietary product may mitigate, treat, cure or prevent disease. There can be no assurance that at some future time the FDA will not determine that the statement of nutritional support we make on our packaging is a prohibited claim rather than an acceptable nutritional support statement.

29

Such a determination by the FDA would require deletion of the treatment, cure or prevention of disease claim, or, if it is to be used at all, submission by our company and the approval by the FDA of a new drug application, which would entail costly and time-consuming clinical studies, or revision to a health claim, which would require demonstration of substantiated scientific evidence to support such claim and would also consume considerable management time and financial resources.

Our advertising of dietary supplement products is also subject to regulation by the Federal Trade Commission (the "FTC") under the Federal Trade Commission Act, which prohibits unfair or deceptive trade practices, including false or misleading advertising. The FTC in recent years has brought a number of actions challenging claims made by companies that suggest that their products are dietary supplements. No assurance can be given that actions will not be brought against us by the FTC or any other party challenging the validity of our product advertising claims.

OUR BUSINESS MAY BE SUBJECT TO PRODUCT LIABILITY CLAIMS RELATING TO CONSUMER USE OF OUR PRODUCTS.

As a marketer of beverages that are ingested by consumers, we face an inherent risk of exposure to product liability claims if the use of our products results in injury or our labeling contains inadequate warnings concerning potential side effects. With respect to product liability claims, we have obtained a \$2.0 million liability insurance policy (\$2.0 million per occurrence), which we believe is adequate for our kind of business activity. The policy contains certain exclusions that would pertain to food products such as the additional products exclusion for bodily injury or property damage arising out of the manufacture, handling, distribution, sale, application or use of certain specified products (e.g., silicone, latex, and dexfenfluramine, among others), the intended injury and the willful and intentional acts exclusions. There can be no assurance that such insurance will continue to be available at a reasonable cost, or, if available, that it will be adequate to cover potential liabilities. If we are found liable for product liability claims that exceed our coverage or are subject to a policy exclusion, such liability could require us to pay financial losses for which we have not budgeted and may not have adequate resources to cover. If the uninsured losses were significantly large enough to impact our ability to continue our then-existing level of operations, we might

Edgar Filing: NUVIM INC - Form 10QSB/A

experience a decline in net income and earnings per share, and our stock price might suffer. In an effort to limit any liability, we generally obtain contractual indemnification from parties supplying raw materials or marketing our products. Such indemnification is limited, however, by the terms of each related contract and, as a practical matter, by the creditworthiness of the indemnifying party.

Despite the insurance coverage that we plan on maintaining, it is possible that we may be sued if one or more consumers believe our products have caused them harm. While no such claims have been made to date, the results of any such suit could result in significant financial damages to us, as well as serious damage to the reputation and public perception of our company, even if we are ultimately found not to be at fault.

ITEM 3. CONTROLS AND PROCEDURES.

Mr. Kundrat, NuVim's Chief Executive Officer and Chief Financial Officer,

30

evaluated the effectiveness of the design and operation of its disclosure controls and procedures as defined in Exchange Act Rule 13a-15(e). The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, (the Exchange Act) means controls and other procedures of a company that are designed to ensure that this information is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Based upon their evaluation of its disclosure controls and procedures, the Company's chief executive and the chief financial officer have concluded that, as of March 31, 2007 and as of the date of filing, the controls, and procedures were effective at a reasonable assurance level and will continue to operate as designed.

NuVim maintains certain internal controls over financial reporting that are appropriate, consistent with cost-benefit considerations, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. No changes effecting NuVim's internal controls occurred during the first quarter of 2007.

31

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

There are at present no legal proceedings pending against the Company.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

Sales of Common Stock for Cash

On March 1 and 8, 2007, NuVim sold a total of 433,333 shares to an unrelated accredited investor for \$130,000 or \$.30 per share. No commissions or

Edgar Filing: NUVIM INC - Form 10QSB/A

fees were paid in connection with this sale. He agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

At the same time as the second purchase, three of NuVim's outside directors, Doug Scott, Peter DeCrescenzo, and Cal Hodock purchased 50,000, 33,333, and 16,667 shares respectively at the same price totaling \$30,000 or \$0.30 per share. Each director agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

At the end of the first quarter, NuVim received \$300,000 to purchase 1,000,000 shares of common stock from Julius Baer Multistock SICAV US Stock Fund, a European Institutional Investor, at a price of \$.30 per share. NuVim paid a commission of \$30,000 to Continental Advisors SA in connection with this sale. In addition, Continental Advisors SA received \$9,000 for its expenses without accounting for it. The purchaser represented in writing that it was an accredited investor and it agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

In April five investors represented by Paulsen Investment Company, Inc. and an additional private investor purchased a total of 872,667 shares of common stock for \$261,800 or \$0.30 per share. Paulson will receive a commission of \$22,680 on the 772,667 shares sold to its clients. Each purchaser represented in writing that it was an accredited investor and it agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

Also in April, Montalcino, S.A., a Luxemburg based mutual fund, purchased 100,000 shares for \$30,000, a price of \$.30 per share. NuVim paid a commission of \$3,000 to

32

Continental Advisors SA in connection with this sale. In addition, Continental Advisors SA received \$900 for its expenses without accounting for it. The purchaser represented in writing that it was an accredited investor and it agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6)..

All cash raised in these sales has been applied to working capital.

Common Stock issued for Debt and Unpaid Compensation Conversions

On January 30, 2007, NuVim issued 72,915 shares of common stock in lieu of cash for unpaid 2006 salary of approximately \$14,600 due to Michael Vesey, NuVim's former CFO. He agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

Edgar Filing: NUVIM INC - Form 10QSB/A

On March 14, 2007, NuVim issued 100,000 shares of common stock to Mr. Kundrat in lieu of the remaining \$32,000 remain unpaid on his 2006 executive bonus. He agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors and his relationship to the company, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

Common Stock Issued for Services

On January 29, 2007, NuVim agreed with its Secretary and General Counsel to issue 100,000 shares of common stock as additional compensation for his services during 2007. The services have a value of approximately \$16,000. He agreed in writing to hold the shares for at least one year and to the additional restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

Also on that date, NuVim agreed with its operations director to issue a total of 50,000 shares of common stock as additional compensation for his services. The shares have a value of approximately \$8,000. He agreed in writing to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

January 30, 2007 NuVim agreed with a communications expert to provide various services for a total of 40,000 shares of common stock. The services have a value of approximately \$6,400. He agreed to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

33

March 14, 2007 NuVim issued 15,000 shares of common stock for services relating to its corporate presentation materials. The services have a value of approximately \$5,700. He agreed to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).

Also in April, NuVim agreed with a communications expert to provide various services for a total of 26,000 shares of common stock. The services have a value of approximately \$13,000. He agreed to restrictions on resale placed with the NuVim's transfer agent and the printing of a legend on its certificate. Because of these factors, this sale was exempt from registration under the Securities Act as not involving a public distribution under section 4(2) and 4(6).
