Part I -- Financial Information

Item 1: Condensed Financial Statements (Unaudited)

"Essex" or the "Company" means Essex Property Trust, Inc., a real estate investment trust incorporated in the State of Maryland, or where the context otherwise requires, Essex Portfolio, L.P., a limited partnership (the "Operating Partnership") in which Essex Property Trust, Inc. is the sole general partner.

The information furnished in the accompanying unaudited condensed consolidated balance sheets, statements of operations, stockholders' equity, noncontrolling interest, and comprehensive income and cash flows of the Company reflects all adjustments which are, in the opinion of management, necessary for a fair presentation of the aforementioned condensed consolidated financial statements for the interim periods and are normal and recurring in nature, except as otherwise noted.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the notes to such unaudited condensed consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations herein. Additionally, these unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2010.

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
June 30, 2011 and 2010
(Unaudited)

(1) Organization and Basis of Presentation

The accompanying unaudited condensed consolidated financial statements present the accounts of Essex Property Trust, Inc. (the “Company”), which include the accounts of the Company and Essex Portfolio, L.P. (the “Operating Partnership,” which holds the operating assets of the Company) and are prepared in accordance with U.S. generally accepted accounting principles for interim financial information and in accordance with the instructions to Form 10-Q. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented have been included and are normal and recurring in nature, except as otherwise noted. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2010.

All significant intercompany balances and transactions have been eliminated in the condensed consolidated financial statements.

The unaudited condensed consolidated financial statements for the three and six months ended June 30, 2011 and 2010 include the accounts of the Company and the Operating Partnership. The Company is the sole general partner in the Operating Partnership, with a 93.6% general partnership interest as of June 30, 2011. Total Operating Partnership units outstanding were 2,228,730 and 2,200,907 as of June 30, 2011 and December 31, 2010, respectively, and the redemption value of the units, based on the closing price of the Company's common stock totaled \$301.5 million and \$251.4 million, as of June 30, 2011 and December 31, 2010, respectively.

As of June 30, 2011, the Company owned or had ownership interests in 149 apartment communities, aggregating 30,557 units, excluding the Company's ownership in preferred interest co-investments, (collectively, the “Communities”, and individually, a “Community”), six commercial buildings and six active development projects (collectively, the “Portfolio”). The Communities are located in Southern California (Los Angeles, Orange, Riverside, Santa Barbara, San Diego, and Ventura counties), Northern California (the San Francisco Bay Area) and the Seattle metropolitan area.

Fund Activities

Essex Apartment Value Fund II, L.P. (“Fund II”) is an investment fund formed by the Company to add value through rental growth and asset appreciation, utilizing the Company's development, redevelopment and asset management capabilities. Fund II has eight institutional investors, and the Company, with combined partner equity contributions of \$265.9 million. The Company contributed \$75.0 million to Fund II, which represents a 28.2% interest as general partner and limited partner. Fund II utilized leverage equal to approximately 55% upon the initial acquisition of the underlying real estate. Fund II invested in apartment communities in the Company's targeted West Coast markets and, as of June 30, 2011, owned 14 apartment communities. The Company records revenue for its asset management, property management, development and redevelopment services when earned, and promote income when realized if Fund II exceeds certain financial return benchmarks.

In 2011, the Company entered into a 50/50 programmatic joint venture, Wesco I, LLC (“Wesco”), with an institutional partner for a total equity commitment of \$200 million. Each partner's equity commitment is \$100 million, and Wesco will utilize leverage equal to approximately 50% to 60%. Investments must meet certain criteria to qualify for

inclusion in the joint venture and both partners must approve any new acquisitions. The joint venture has an investment period of up to two years. The Company will receive asset and property management fees, and may earn a promoted interest. The Company accounts for this joint venture on the equity method. As discussed below under “Co-investments”, Wesco purchased apartment communities in May and July 2011.

Marketable Securities

The Company reports its available for sale securities at fair value, based on quoted market prices (Level 2 for the unsecured bonds and Level 1 for the common stock and investment funds, as defined by the Financial Accounting Standards Board (“FASB”) standard entitled “Fair Value Measurements and Disclosures”), and any unrealized gain or loss is recorded as other comprehensive income (loss). There were no impairment charges for the three and six months ended June 30, 2011 and 2010, respectively. Realized gains and losses and interest income are included in interest and other income on the condensed consolidated statement of operations. Amortization of purchase discounts are included in interest income.

Index

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
June 30, 2011 and 2010
(Unaudited)

As of June 30, 2011, marketable securities consisted primarily of common stock and investments in mortgage backed securities and investment funds that invest in U.S. treasury or agency securities. As of June 30, 2011, the Company classified its investments in mortgage backed securities, which mature in November 2019 and September 2020, as held to maturity, and accordingly, these securities are stated at their amortized cost of \$44.3 million. The estimated fair values of the mortgage backed securities (Level 2 securities) are approximately equal to the carrying values.

As of June 30, 2011 the Company classified the following marketable securities as available for sale (dollars in thousands):

	June 30, 2011		
	Amortized Cost	Gross Unrealized Gain/(Loss)	Fair Value
Investment-grade unsecured bonds	\$ 3,608	\$ 427	\$ 4,035
Investment funds - US treasuries	10,549	164	10,713
Common stock	14,513	2,096	16,609
Total	\$ 28,670	\$ 2,687	\$ 31,357

	December 31, 2010		
	Amortized Cost	Gross Unrealized Gain/(Loss)	Fair Value
Investment-grade unsecured bonds	\$ 22,243	\$ 4,403	\$ 26,646
Investment funds - US treasuries	14,345	582	14,927
Common stock	8,638	112	8,750
Total	\$ 45,226	\$ 5,097	\$ 50,323

The Company uses the specific identification method to determine the cost basis of a security sold and to reclassify amounts from accumulated other comprehensive income for securities sold. For the three months ended June 30, 2010, the proceeds from sales of available for sale securities totaled \$22.5 million, and for the six months ended June 30, 2011 and 2010, the proceeds from sales of available for sale securities totaled \$26.8 million and \$64.7 million, respectively. These sales all resulted in gains, which totaled \$4.0 million for the three months ended June 30, 2010, and \$4.5 million and \$9.0 million for the six months ended June 30, 2011 and 2010, respectively.

Variable Interest Entities

The Company consolidates 19 DownREIT limited partnerships (comprising twelve communities) since the Company is the primary beneficiary of these variable interest entities ("VIEs"). Total DownREIT units outstanding were 1,072,161 and 1,096,871 as of June 30, 2011 and December 31, 2010, respectively, and the redemption value of the units, based on the closing price of the Company's common stock totaled \$145.1 million and \$125.3 million, as of June 30, 2011 and December 31, 2010, respectively. The consolidated total assets and liabilities related to these VIEs, net of intercompany eliminations, were approximately \$214.6 million and \$170.0 million, respectively, as of June 30, 2011 and \$217.3 million and \$168.0 million, respectively, as of December 31, 2010. Interest holders in VIEs consolidated by the Company are allocated net income equal to the cash payments made to those interest holders or

distributions from cash flow. The remaining results of operations are generally allocated to the Company. As of June 30, 2011 and December 31, 2010, the Company did not have any VIE's for which it was not deemed to be the primary beneficiary.

Stock-Based Compensation

The Company accounts for share based compensation using the fair value method of accounting. The estimated fair value of stock options granted by the Company is being amortized over the vesting period of the stock options. The estimated grant date fair values of the long term incentive plan units (discussed in Note 13, "Stock Based Compensation Plans," in the Company's Form 10-K for the year ended December 31, 2010) are being amortized over the expected service periods. Stock-based compensation expense for options and restricted stock totaled \$0.4 million and \$0.3 million for the three months ended June 30, 2011 and 2010, respectively and \$0.7 million and \$0.5 million for the six months ended June 30, 2011 and 2010, respectively. The intrinsic value of the stock options exercised during the three months ended June 30, 2011 and 2010 totaled \$2.0 million and \$0.5 million and \$3.0 million and \$1.5 million for the six months ended June 30, 2011 and 2010, respectively. As of June 30, 2011, the intrinsic value of the stock options outstanding totaled \$10.9 million. As of June 30, 2011, total unrecognized compensation cost related to unvested share-based compensation granted under the stock option and restricted stock plans totaled \$4.1 million. The cost is expected to be recognized over a weighted-average period of 1 to 6 years for the stock option plans and is expected to be recognized straight-line over 7 years for the restricted stock awards.

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
June 30, 2011 and 2010
(Unaudited)

The Company has adopted an incentive program involving the issuance of Series Z and Series Z-1 Incentive Units (collectively referred to as “Z Units”) of limited partnership interest in the Operating Partnership. Stock-based compensation expense for Z Units totaled \$0.3 million and \$0.8 million for the three months ended June 30, 2011 and 2010, respectively, and \$0.5 million and \$1.4 million for the six months ended June 30, 2011 and 2010, respectively. On January 1, 2011, 131,409 Series Z Units were converted into common units of the Operating Partnership.

Stock-based compensation for Z units capitalized totaled \$0.1 million and \$0.2 million for the three months ended June 30, 2011, and 2010, respectively, and \$0.2 million and \$0.4 million for the six months ended June 30, 2011 and 2010, respectively. As of June 30, 2011, the intrinsic value of the Z-1 Units subject to future vesting totaled \$17.6 million. As of June 30, 2011, total unrecognized compensation cost related to Z-1 Units subject to future vesting totaled \$6.5 million. The unamortized cost is expected to be recognized over the next year to fourteen years subject to the achievement of the stated performance criteria.

Fair Value of Financial Instruments

The Company values its financial instruments based on the fair value hierarchy of valuation techniques described in the FASB statement entitled “Fair Value Measurements and Disclosures”. Level 1 inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and inputs other than quoted prices observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability. The Company uses Level 1 inputs for the fair values of its cash equivalents and its marketable securities except for unsecured bonds and mortgage backed securities. The Company uses Level 2 inputs for its investments in unsecured bonds, mortgage backed securities, notes receivable, notes payable, and derivative liabilities. These inputs include interest rates for similar financial instruments. The Company’s valuation methodology for the swap related to the multifamily refunding bond for the 101 San Fernando apartment community, is described in more detail in Note 8. The Company does not use Level 3 inputs to estimate fair values of any of its financial instruments. The Company’s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Management believes that the carrying amounts of its amounts outstanding under lines of credit, notes receivable and notes and other receivables approximate fair value as of June 30, 2011 and December 31, 2010, because interest rates, yields and other terms for these instruments are consistent with yields and other terms currently available for similar instruments. Management has estimated that the fair value of the Company’s \$1.79 billion of fixed rate debt, including unsecured bonds, at June 30, 2011 is approximately \$1.83 billion and the fair value of the Company’s \$256.8 million of variable rate debt, excluding borrowings under the lines of credit, at June 30, 2011 is \$234.5 million based on the terms of existing mortgage notes payable, unsecured bonds and variable rate demand notes compared to those available in the marketplace. Management believes that the carrying amounts of cash and cash equivalents, restricted cash, accounts payable and accrued liabilities, construction payables, other liabilities and dividends payable approximate fair value as of June 30, 2011 due to the short-term maturity of these instruments. The fair values of the Company’s investments in mortgage backed securities are approximately equal to amortized cost carrying value of these securities. Marketable securities, and both the note payable and the swap related to multifamily refunding bond for the 101 San Fernando apartment community, are carried at fair value as of June 30, 2011, as discussed above and in Note 8.

Accounting Estimates and Reclassifications

The preparation of condensed consolidated financial statements, in accordance with U.S. generally accepted accounting principles, requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to acquiring, developing and assessing the carrying values of its real estate properties, its investments in and advances to joint ventures and affiliates, its notes receivables and its qualification as a Real Estate Investment Trust (“REIT”). The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may vary from those estimates and those estimates could be different under different assumptions or conditions.

Reclassifications for discontinued operations have been made to prior year statements of operations balances in order to conform to current year presentation. Such reclassifications have no impact on reported earnings, cash flows, total assets or total liabilities.

(2) Significant Transactions During the Second Quarter of 2011 and Subsequent Events

Acquisition

In June, the Company acquired Bellerive, a completed 63-unit vacant condominium project that will be operated as a rental community located in West Los Angeles for \$27.0 million. Initial occupancy is expected to occur in the third quarter 2011, and stabilization is expected by the end of the year. This property is included in real estate under development as of June 30, 2011 since the units were not yet available for lease.

Disposition

In April, the Company disposed of Woodlawn Colonial, a 159-unit community located in Chula Vista, California for \$16.0 million for a gain of \$5.3 million net of internal disposition costs. The property was purchased in 2002 as part of the John M. Sachs, Inc. merger.

Development

The Company entered into a development joint venture with the land owner of a retail site in Santa Clara. The Company invested \$9.3 million in this joint venture and the property subject to a \$10.5 million mortgage loan due in April 2014 at an interest rate that is currently at 5.0%. The Company has an option to purchase the joint venture partner's interest for \$0.8 million during 2011. The plans for this project are to entitle a portion of the site for 494 apartment units. The joint venture partner has an option to purchase the retail parcel upon obtaining entitlements. The site is currently improved with retail space that is 100% leased. The Company consolidates this joint venture and will account for the property as a rental property during the period that is being operated as a retail site.

In July, the Company began development on its West Dublin, California land site which was purchased in late 2009 for \$5.0 million. The 309-unit development will consist of a five-story building over two levels of parking and will feature a mix of one and two bedroom units and lofts.

Co-investments

In June 2011, the Company completed a \$13.0 million preferred equity investment in an entity owning an apartment community located in downtown Los Angeles. The Company's preferred return is 10% and the Company's investment has a five-year term.

In 2011, the Company entered into a 50/50 programmatic joint venture, Wesco, I LLC ("Wesco"), with an institutional partner for a total equity commitment of \$200 million. In May 2011, Wesco acquired Arbors Parc Rose, a 373-unit community located in Oxnard, California for \$92.0 million. In July 2011, Wesco acquired Reveal, a 438-unit community located in the Woodland Hills, California for \$132.9 million. Wesco obtained a \$100.0 million line of credit at a rate of LIBOR + 2.3%, and Wesco obtained secured mortgage loans totaling \$59.9 million at 4.7% secured by Arbors Parc Rose for 10 years in June, and \$78.7 million at LIBOR + 1.9% secured by Reveal with a maturity of two years with two one year extensions.

In June, the Company entered into a joint venture with the Canada Pension Plan Investment Board (“CPPIB”) to develop its Cadence site located in San Jose, California which recently began site demolition. The Company contributed the land to the joint venture, and the Company will account for this joint venture using the equity method. The Company will hold a 55% interest in the joint venture and will earn development, asset, and property management fees. The Company may also earn a promoted interest.

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
June 30, 2011 and 2010
(Unaudited)

Common Stock, Preferred Stock and Preferred Units

During the quarter, the Company sold 984,982 shares of common stock for \$130.2 million, net of commissions, at an average price per share of \$133.76. In July, the Company sold 350,112 shares of common stock for \$48.3 million, net of commissions, at an average price of \$139.64. Year to date through July, the Company sold 1,661,736 shares of common stock for \$216.9 million, net of commissions, at an average price of \$132.11.

In April, the Company issued 2,950,000 shares of 7.125% Series H Cumulative Redeemable Preferred Stock ("Series H") at a price of \$25.00 per share for net proceeds of \$71.4 million, net of costs and original issuance discounts. The Series H has no maturity date and generally may not be called by the Company before April 13, 2016. Net proceeds from the Series H offering were used to redeem all of the 7.875% Series B Cumulative Redeemable Preferred Units of Essex Portfolio, L.P. ("Series B") with a liquidation value of \$80.0 million, which resulted in excess of cash paid of \$1.0 million over the carrying value of Series B due to deferred offering costs and original issuance discounts.

In June, the Company redeemed its 7.8125% Series F Preferred Stock ("Series F") at liquidation value for \$25.0 million which resulted in excess of cash paid of \$0.9 million over the carrying value of Series F due to deferred offering costs and original issuance discounts.

Mortgage Notes Payable and Construction Loans

During the quarter, the Company paid off the Cairns mortgage loan for \$11.3 million at an interest rate of 3.7% and during June and early July two San Marcos mortgage loans totaling \$46.5 million at a blended rate of 5.3%.

Unsecured Bonds

During the second quarter, the Company issued \$115 million of unsecured bond through private placements, \$40.0 million at 4.5% for 6.25 years, and \$75.0 million at 4.92% for 8.5 years. The proceeds from the bond offering were used primarily to repay outstanding mortgages, redeem the Series F Preferred Stock, and pay down the Company's lines of credit.

(3) Co-investments

The Company has joint venture investments in co-investments, which are accounted for under the equity method. The joint ventures own, operate and develop apartment communities.

The following table details the Company's co-investments (dollars in thousands):

	June 30, 2011	December 31, 2010
Investments in joint ventures accounted for under the equity method of accounting:		
Partnership interest in Essex Apartment Value Fund II, L.P ("Fund II")	\$ 65,532	\$ 66,000

(Unaudited)

An Executive Vice President of the Company invested \$4.0 million for a 6% limited partnership interest in a partnership with the Company that acquired a 50% interest in a limited liability company that acquired Essex Skyline at MacArthur Place. The Executive Vice President's investment is equal to a pro-rata share of the contributions, and distributions resulting from distributable cash generated by Essex Skyline at MacArthur Place will be calculated in the same manner as the calculation of distributions to the third party investor. The Executive Vice President does not participate in any promote interest or fees paid to the Company by the Essex Skyline at MacArthur Place joint venture.

6) Segment Information

The Company defines its reportable operating segments as the three geographical regions in which its apartment communities are located: Southern California, Northern California and Seattle Metro. Excluded from segment revenues are properties classified in discontinued operations, management and other fees from affiliates, and interest and other income. Non-segment revenues and net operating income included in the following schedule also consist of revenue generated from commercial properties. Other non-segment assets include co-investments, real estate under development, cash and cash equivalents, marketable securities, notes receivable, other assets and deferred charges. The revenues, net operating income, and assets for each of the reportable operating segments are summarized as follows for the three ended June 30, 2011 and 2010 (dollars in thousands):

	Three Months Ended June 30,

(8) Derivative Instruments and Hedging Activities

Currently, the Company uses interest rate cap contracts to manage certain interest rate risks and previously the Company also used forward starting swaps to manage interest rate risks. As of June 30, 2011, there are no outstanding forward starting interest rate swaps. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative.

During July 2010, the Company entered into a swap transaction (the "swap") with respect to \$38.0 million of multifamily revenue refunding bonds for the 101 San Fernando apartment community (the "Bonds") with Citibank, N.A. ("Citibank"). This swap is not designated as a hedge; accordingly the change in fair value of the swap is recorded as a gain or loss in the Company's consolidated statement of operations. Under the terms of the Swap, the Company pays a variable amount equal to the SIFMA Index plus a fixed spread on a notional amount that starts at \$35.2 million and over the three-year term of the swap increases ratably to \$38.0 million. In return, Citibank pays an amount equal to the coupon on the Bonds multiplied by the outstanding par value of the bonds, \$38.0 million. The Swap has a termination date of July 12, 2013 and may be terminated by the Company at anytime commencing after July 2012 and by Citibank if certain events occur. Upon termination of the swap, whether early or on the stated termination date, a payment based on the change in value of the Bonds will occur. Should the Bonds decline in value from the \$35.2 million estimated value of the Bonds at the inception of the swap, the Company will be obligated to make a payment equal to 100% of the price depreciation. Should the Bonds increase in value, Citibank will be obligated to make a payment equal to approximately 85% of the price appreciation. As of June 30, 2011, the fair value of the swap was a liability of approximately \$1.6 million.

As of June 30, 2011 the Company had twelve interest rate cap contracts totaling a notional amount of \$191.9 million that qualify for hedge accounting as they effectively limit the Company's exposure to interest rate risk by providing a ceiling on the underlying variable interest rate for the Company's \$213.0 million of tax exempt variable rate debt. The aggregate carrying value of the interest rate cap contracts was an asset of \$0.1 million. During the first quarter of 2011, the Company settled its remaining \$20.0 million of forward starting swaps for a \$2.3 million payment to the counterparty. The changes in the fair values of the cash flow hedges are reflected in other comprehensive (loss) income in the Company's condensed consolidated financial statements. The overall fair value of the Company's derivatives changed by \$4.1 million during the six months ended June 30, 2011 to a net liability of \$1.5 million as of June 30, 2011.

(9) Discontinued Operations

In the normal course of business, the Company will receive offers for sale of its communities, either solicited or unsolicited. For those offers that are accepted, the prospective buyer will usually require a due diligence period before consummation of the transaction. It is not unusual for matters to arise that result in the withdrawal or rejection of the offer during this process. The Company classifies real estate as "held for sale" when the sale is considered to be probable.

The Company sold Woodlawn Colonial, a 159-unit community located in Chula Vista, California for \$16.0 million for a gain of \$5.3 million net of internal disposition costs. The property was purchased in 2002 as part of the John M. Sachs, Inc. merger.

Income from real estate sold	86	165	252	313
Gain on sale	5,854	-	5,854	-
Internal disposition costs	(589)	-	(589)	-
Income from discontinued operations	\$ 5,351	\$ 165	\$ 5,517	\$ 313

(10) Commitments and Contingencies

The Company is subject to various lawsuits in the normal course of its business operations. Such lawsuits could, but are not expected to have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Company's Condensed Consolidated Financial Statements and accompanying Notes thereto included elsewhere herein and with the Company's 2010 Annual Report on Form 10-K for the year ended December 31, 2010.

The Company is a fully integrated Real Estate Investment Trust ("REIT"), and its property revenues are generated primarily from apartment community operations. The Company's investment strategy has two components: constant monitoring of existing markets, and evaluation of new markets to identify areas with the characteristics that underlie rental growth. The Company's strong financial condition supports its investment strategy by enhancing its ability to quickly shift the Company's acquisition, development, and disposition activities to markets that will optimize the performance of the portfolio.

As of June 30, 2011, the Company had ownership interests in 149 apartment communities, comprising 30,557 apartment units, excluding the Company's ownership in preferred interest co-investments. The Company's apartment communities are located in the following major West Coast regions:

Southern California (Los Angeles, Orange, Riverside, Santa Barbara, San Diego and Ventura counties)
Northern California (the San Francisco Bay Area)
Seattle Metro (Seattle metropolitan area)

As of June 30, 2011, the Company also had ownership interests in six commercial buildings with approximately 354,800 square feet.

As of June 30, 2011, the Company's consolidated development pipeline was comprised of four consolidated development projects and four land parcels held for future development or sale aggregating 1,051 units, with total incurred costs of \$191.6 million. The estimated remaining project costs are \$110.6 million and the total active development project costs are \$302.2 million.

The Company has two unconsolidated joint venture development projects, Queen Anne, a 275-unit condominium project, and Cadence. Development is underway for the first of three phases for Cadence. Phase one is a 280-unit project. As of June 30, 2011 total costs incurred are \$76.2 million, with estimated remaining project costs of \$138.4 million for total estimated costs of \$177.7 million.

Index

The Company's consolidated apartment communities are as follows:

	As of June 30, 2011			As of June 30, 2010		
	Apartment Units		%	Apartment Units		%
Southern California	13,068	49	%	12,334	51	%
Northern California	7,817	29	%	6,695	28	%
Seattle Metro	5,979	22	%	5,249	21	%
Total	26,864	100	%	24,278	100	%

Co-investments accounted for using the equity method including Fund II, Wesco communities, Essex Skyline at MacArthur Place, and preferred equity co-investments communities are not included in the table above for both years presented above.

Comparison of the Three Months Ended June 30, 2011 to the Three Months Ended June 30, 2010

The average financial occupancies for the Company's stabilized apartment communities or "Quarterly Same-Property" (stabilized properties consolidated by the Company for the quarters ended June 30, 2011 and 2010) decreased 30 basis points to 96.9% as of June 30, 2011 from 97.2% as of June 30, 2010. Financial occupancy is defined as the percentage resulting from dividing actual rental revenue by total possible rental revenue. Actual rental revenue represents contractual rental revenue pursuant to leases without considering delinquency and concessions. Total possible rental revenue represents the value of all apartment units, with occupied units valued at contractual rental rates pursuant to leases and vacant units valued at estimated market rents. We believe that financial occupancy is a meaningful measure of occupancy because it considers the value of each vacant unit at its estimated market rate.

Market rates are determined using a variety of factors such as effective rental rates at the property based on recently signed leases and asking rates for comparable properties in the market. The recently signed effective rates at the property are used as the starting point in the determination of the market rates of vacant units. The Company then increases or decreases these rates based on the supply and demand in the apartment community's market. The Company will check the reasonableness of these rents based on its position within the market and compare the rents against the asking rents by comparable properties in the market. Financial occupancy may not completely reflect short-term trends in physical occupancy and financial occupancy rates as disclosed by other REITs may not be comparable to the Company's calculation of financial occupancy.

The Company does not take into account delinquency and concessions to calculate actual rent for occupied units and market rents for vacant units. The calculation of financial occupancy compares contractual rates for occupied units to estimated market rents for unoccupied units, thus the calculation compares the gross value of all apartment units excluding delinquency and concessions. For apartment communities that are development properties in lease-up without stabilized occupancy figures, the Company believes the physical occupancy rate is the appropriate performance metric. While an apartment community is in the lease-up phase, the Company's primary motivation is to stabilize the property which may entail the use of rent concessions and other incentives, and thus financial occupancy which is based on contractual revenue is not considered the best metric to quantify occupancy.

The regional breakdown of the Company's Quarterly Same-Property portfolio for financial occupancy for the quarter ended June 30, 2011 and 2010 is as follows:

Three months ended June 30,	
2011	2010

Edgar Filing: ESSEX PROPERTY TRUST INC - Form 10-Q

Southern California	96.8	%	97.0	%
Northern California	97.2	%	97.5	%
Seattle Metro	96.9	%	97.3	%

Index

The following table provides a breakdown of revenue amounts, including revenues attributable to the Quarterly Same-Property portfolio:

Property Revenues (dollars in thousands)	Number of Properties	Three Months Ended		Dollar Change	Percentage Change
		2011	June 30, 2010		
Quarterly Same-Property:					
Southern California	58	\$51,780	\$50,503	\$1,277	2.5 %
Northern California	28	31,254	29,898	1,356	4.5
Seattle Metro	23	15,314	14,723	591	4.0
Total Quarterly Same-Property revenues	109	98,348	95,124	3,224	3.4
Quarterly Non-Same Property Revenues (1)		17,430	4,039	13,391	331.5
Total property revenues		\$115,778	\$99,163	\$16,615	16.8 %

(1) Includes ten communities acquired after April 1, 2010, two redevelopment communities, five development communities, and four commercial buildings.

Quarterly Same-Property Revenues increased by \$3.2 million or 3.4% to \$98.3 million in the second quarter of 2011 from \$95.1 million in the second quarter of 2010. The increase was primarily attributable to an increase in scheduled rents of \$3.2 million as reflected in an increase of 3.4% in average rental rates from \$1,307 per unit in the second quarter of 2010 to \$1,352 per unit in the second quarter of 2011. Scheduled rents increased in all regions by 2.5%, 4.9%, and 3.7% in Southern California, Northern California, and Seattle Metro, respectively. Also, utility billings income increased \$0.3 million and other income increased \$0.2 million compared to the second quarter of 2010. The increases related to gross income were partially offset by a decrease in Quarterly Same-Property occupancy of 30 basis points or \$0.4 million, from 97.2% for the second quarter of 2010 to 96.9% for the second quarter of 2011. On a sequential basis the Company experienced quarterly same-property revenue growth from the first quarter of 2011 to the second quarter of 2011 of 1.5%, and the Company experienced sequential revenue growth in all regions.

Quarterly Non-Same Property Revenues increased by \$13.4 million or 332% to \$17.4 million in the second quarter of 2011 from \$4.0 million in the second quarter of 2010. The increase was primarily due to revenue generated from five development communities consisting of Joule, Fourth & U, Axis 2300, Allegro, and Muse, ten communities acquired since April 1, 2010 consisting of Elevation, 101 San Fernando, The Commons, Bella Villagio, Family Tree, 416 on Broadway, Anavia, Santee Court, Corbella at Juanita Bay, and Courtyard off Main, and the acquisition of the Santa Clara retail center.

Property operating expenses, excluding real estate taxes increased \$4.3 million or 16.9% to \$29.4 million in the second quarter of 2011 from \$25.1 million in the second quarter of 2010, primarily due to the acquisition of ten communities and one retail center, and the completion of five development properties. Same-Property operating expenses excluding real estate taxes increased by \$1.3 million or 5.5% for the second quarter of 2011 compared to the second quarter of 2010, due primarily to an increase of \$0.7 million in the timing of maintenance and repair costs and an increase of \$0.4 million in administrative costs due mainly to an increase in payroll costs.

Real Estate taxes expense increased by \$1.2 million or 12.4% for the second quarter of 2011 compared to the second quarter of 2010 due primarily to the acquisition of ten communities and one retail center, and the completion of development communities which resulted in an increase in property taxes of \$1.5 million. Same-Property real estate taxes decreased by \$0.3 million for the second quarter of 2011 compared to the second quarter of 2010 due to a reduction in property valuations for select communities located in California, and a decrease in valuations for select properties in the Seattle Metro.

Depreciation expense increased by \$6.4 million or 20.4% for the second quarter of 2011 compared to the second quarter of 2010, due to the acquisition of ten communities and one retail center, the completion of five development properties, and the capitalization of approximately \$31.0 million in additions to rental properties for the six months ended June 30, 2011 and the capitalization of approximately \$52.0 million in additions to rental properties during 2010, including \$16.3 million spent on redevelopment and revenue generating capital expenditures.

General and administrative expense increased by \$.2 million or 2.4% for the second quarter of 2011 compared to the second quarter of 2010, due primarily to the \$0.3 million incurred for organizational costs related to the creation of the Wesco and Cadence joint ventures.

Index

Interest expense before amortization increased by \$2.5 million or 12.6% for the second quarter of 2011 compared to the second quarter of 2010, primarily due to the increase in average outstanding debt partially offset by a decrease in the Company's weighted average interest rate. The Company's weighted average interest rate was 4.2% as of June 30, 2011 compared to 4.6% as of June 30, 2010.

Amortization expense increased by \$1.9 million for the second quarter of 2011 compared to the second quarter of 2010, primarily due to the amortization of forward swaps that were settled during primarily during the third and fourth quarter of 2010 that were applied to new 10-year secured mortgage loans.

Interest and other income decreased by \$4.5 million for the second quarter of 2011 primarily due to decrease of \$1.1 million of interest income earned on the marketable securities composed of investment grade unsecured bonds due to the sales of these investments during 2010, and during the second quarter of 2010 the Company sold marketable securities for a gain of \$4.0 million compared to no sales of securities in the second quarter of 2011.

Equity income (loss) in co-investments increased by \$1.1 million for the second quarter of 2011 compared to the second quarter of 2010, due primarily to the Company's investment of \$34.7 million in preferred equity investments in communities located in Southern California that yield between 9% to 13%.

Discontinued operations increased by \$5.2 million for the second quarter of 2011 due to the sale of Woodlawn Colonial for \$16 million at a gain of \$5.3 million, net of internal disposition costs.

Comparison of the Six Months Ended June 30, 2011 to the Six Months Ended June 30, 2010

Our average financial occupancies for the Company's stabilized apartment communities or "2011/2010 Same-Properties" (stabilized properties consolidated by the Company for the six months ended June 30, 2011 and 2010) increased 50 basis points to 96.9% for the six months ended June 30, 2011 from 97.4% for the six months ended June 30, 2010. The regional breakdown of the Company's 2011/2010 Same-Property portfolio for financial occupancy for the six months ended June 30, 2011 and 2010 is as follows:

	Six Months Ended June 30,	
	2011	2010
Southern California	96.7%	97.1%
Northern California	97.1%	97.8%
Seattle Metro	97.0%	97.6%

The following table illustrates a breakdown of revenue amounts, including revenues attributable to 2011/2010 Same-Properties.

	Number of Properties	Six Months Ended June 30,		Dollar Change	Percentage Change
		2011	2010		
Property Revenues (dollars in thousands)					
2011/2010 Same-Properties:					
Southern California	58	\$ 103,028	\$ 100,996	\$ 2,032	2.0 %
Northern California	28	61,948	59,884	2,064	3.4
Seattle Metro	23	30,310	29,635	675	2.3
Total 2011/2010 Same-Property revenues	109	195,286	190,515	4,771	2.5
2011/2010 Non-Same Property Revenues (1)		32,580	7,921	24,659	311.3

Edgar Filing: ESSEX PROPERTY TRUST INC - Form 10-Q

Total property revenues	\$227,866	\$198,436	\$29,430	14.8	%
-------------------------	-----------	-----------	----------	------	---

(1) Includes ten communities acquired after January 1, 2009, two redevelopment communities, five development communities, and four commercial buildings.

2011/2010 Same-Property Revenues increased by \$4.8 million or 2.5% to \$195.3 million for the six months ended June 30, 2011 from \$190.5 million for the six months ended June 30, 2010. The increase was primarily attributable to an increase in scheduled rents of \$4.8 million as reflected in an increase of 2.6% in average rental rates from \$1,308 per unit for the six months ended June 30, 2010 to \$1,342 per unit for the six months ended June 30, 2011. Scheduled rents increased in all regions by 1.9%, 3.9%, and 2.3% in Southern California, Northern California, and Seattle Metro, respectively. Also, utility billings income increased \$0.6 million and other income increased \$0.3 million compared to the six months ended June 30, 2010. The increases related to gross income were partially offset by a decrease in 2011/2010 Same-Property occupancy of 50 basis points or \$1.1 million, from 97.4% for the six months ended June 30, 2010 to 96.9% for the six months ended June 30, 2011.

Index

2011/2010 Non-Same Property Revenues increased by \$24.7 million or 311% to \$32.6 million for the six months ended June 30, 2011 from \$7.9 million for the six months ended June 30, 2010. The increase was primarily due to revenue generated from five development communities, ten communities acquired since January 1, 2010 consisting of Elevation, 101 San Fernando, The Commons, Bella Villagio, Family Tree, 416 on Broadway, Anavia, Santee Court, Corbella at Juanita Bay, and Courtyard off Main, and the acquisition of the Santa Clara retail center.

Property operating expenses, excluding real estate taxes increased \$7.9 million or 16.0% to \$57.6 million for the six months ended June 30, 2011 from \$49.6 million for the six months ended June 30, 2010, primarily due to the acquisition of ten communities and one retail center, and the completion of five development properties. 2010/2011 Same-Property operating expenses excluding real estate taxes increased by \$1.8 million or 3.9% for the six months ended June 30, 2011 compared to 2010, due mainly to an increase of \$1.0 million in the timing of maintenance and repair costs, \$0.3 million increase in turnover costs and \$0.5 million or 3.5% increase in utility costs.

Real Estate taxes expense increased by \$2.4 million or 12.4% for the six months ended June 30, 2011 compared to the six months ended June 30, 2010 primarily due to the acquisition of ten communities and one retail center, and the completion of five development properties which resulted in an increase in property taxes of \$3.0 million compared to the six months ended June 30, 2010. 2010/2011 Same-property real taxes decreased \$0.4 million due to the reduction in property valuations for select communities located in California, and a decrease in valuations for select properties in the Seattle Metro.

Depreciation expense increased by \$12.9 million or 20.9% for the six months ended June 30, 2011 compared to the six months ended June 30, 2010, due to the acquisition of ten communities and one retail center, the completion of five development properties, and the capitalization of approximately \$31.0 million in additions to rental properties for the six months ended June 30, 2011, \$52.0 million in additions to rental properties during 2010, including \$16.3 million spent on redevelopment and revenue generating capital expenditures.

Interest expense before amortization increased by \$4.8 million or 12.0% for the six months ended June 30, 2011 compared to the six months ended June 30, 2010, primarily due to the increase in average outstanding debt partially offset by a decrease in the Company's weighted average interest rate. The Company's weighted average interest rate was 4.3% as of June 30, 2011 compared to 4.6% as of June 30, 2010.

Amortization expense increased by \$3.5 million for the six months ended June 30, 2011 compared to the six months ended June 30, 2010, primarily due to the amortization of settlements of forward swaps settled during primarily the third and fourth quarter of 2010 which were applied to new 10-year secured mortgage loans.

Interest and other income decreased by \$5.3 million for the six months ended June 30, 2011 primarily due to the fact the Company sold marketable securities for a gain of \$4.5 million during the six months ended June 30, 2011 compared \$9.0 million in gains generated from the sale of marketable securities for the six months ended June 30, 2010.

Discontinued operations increased by \$5.2 million for the second quarter of 2011 due to the sale of Woodlawn Colonial for \$16 million at a gain of \$5.3 million, net of internal disposition costs.

Liquidity and Capital

June 30, 2011, the Company had \$8.8 million of unrestricted cash and cash equivalents and \$75.7 million in marketable securities, of which \$31.4 million were held available for sale. We believe that cash flows generated by our operations, existing cash, cash equivalents, and marketable securities balances, availability under existing lines of credit, access to capital markets and the ability to generate cash from the disposition of real estate are sufficient to

meet all of our reasonably anticipated cash needs during the next twelve months. The timing, source and amounts of cash flows provided by financing activities and used in investing activities are sensitive to changes in interest rates and other fluctuations in the capital markets environment, which can affect our plans for acquisitions, dispositions, development and redevelopment activities.

Index

The Company has three lines of credit aggregating \$540.0 million as of June 30, 2011. The Company had a \$275.0 million unsecured line of credit with an accordion option to \$350.0 million. As of June 30, 2011 there was a \$0 balance on this unsecured line. The underlying interest rate on the \$275.0 million line is based on a tiered rate structure tied to Fitch and S&P ratings on the credit facility and the rate was LIBOR plus 2.1%. This facility matures in December 2011 with two one-year extensions, exercisable by the Company. The Company also has a \$250.0 million credit facility from Freddie Mac, which matures in December 2013. This line is secured by eleven apartment communities. As of June 30, 2011, the Company had \$210.0 million outstanding under this line of credit at an average interest rate of 1.1%. The underlying interest rate on this line is between 99 and 150 basis points over the Freddie Mac Reference Rate and the interest rate is subject to change by the lender in November 2011. During the first quarter, the Company entered into a new working capital unsecured line of credit agreement for \$15.0 million. As of June 30, 2011 there was no outstanding balance on this unsecured line. The underlying interest rate on the \$15.0 million line is based on a tiered rate structure tied to Fitch and S&P ratings on the credit facility of LIBOR plus 2.1%. This facility matures in January 2012 with one one-year extension, exercisable by the Company.

The Company's unsecured line of credit agreements contain debt covenants related to limitations on indebtedness and liabilities and maintenance of minimum levels of consolidated earnings before depreciation, interest and amortization. The Company was in compliance with the line of credit covenants as of June 30, 2011.

During the six months ended June 30, 2011, the Company issued \$265.0 million of unsecured bonds through private placement offerings, \$150.0 million at 4.4% with a maturity date of March 2016, \$40.0 million at 4.5% with a maturity date of September 2017, and \$75.0 million at 4.92% with a maturity date of December 2019. The proceeds from the bond offerings were used primarily to repay outstanding mortgages, redeem the Series F Preferred Stock, and pay down the Company's line of credit.

In January 2011, additional banks entered into equity distribution agreements with the Company including Barclays Capital Inc., BMO Capital Markets Corp., Liquidnet, Inc., and Mitsubishi UFJ Securities (USA), Inc. Pursuant to its equity distribution program with Cantor Fitzgerald & Co, KeyBanc Capital Markets, Inc. and the additional banks, the Company issued 1,311,624 shares of common stock for \$168.6 million, net of fees and commissions, during the six months ended June 30, 2011. During July 2011, the Company issued 350,112 shares of common stock for \$48.3 million, net of fees and commissions and 1,364,564 shares remain unsold pursuant to the current equity distribution agreements. Under this program, the Company may from time to time sell shares of common stock into the existing trading market at current market prices, and the Company anticipates using the net proceeds to pay down debt, acquire apartment communities and fund the development pipeline.

During March 2010, the Company filed a new shelf registration statement with the SEC, allowing the Company to sell an undetermined number or amount of certain equity and debt securities as defined in the prospectus.

In April, the Company issued 2,950,000 shares of 7.125% Series H Cumulative Redeemable Preferred Stock ("Series H") at a price of \$25.00 per share for net proceeds of \$71.4 million, net of costs and original issuance discounts. The Series H has no maturity date and generally may not be called by the Company before April 13, 2016. Net proceeds from the Series H offering were used to redeem all of the 7.875% Series B Cumulative Redeemable Preferred Units of Essex Portfolio, L.P. ("Series B") with a liquidation value of \$80.0 million, which resulted in excess of cash paid of \$1.0 million over the carrying value of Series B due to deferred offering costs and original issuance discounts.

In June, the Company redeemed its 7.8125% Series F Preferred Stock ("Series F") at liquidation value for \$25.0 million which resulted in excess of cash paid of \$0.9 million over the carrying value of Series F due to deferred offering costs and original issuance discounts.

As of June 30, 2011, the Company's mortgage notes payable totaled \$1.8 billion which consisted of \$1.5 billion in fixed rate debt with interest rates varying from 3.7% to 7.4% and maturity dates ranging from 2011 to 2021 and \$256.8 million of variable rate debt with a weighted average interest rate of 1.9% (\$213.0 million of the variable debt is tax-exempt variable rate demand notes). The tax-exempt variable rate demand notes have maturity dates ranging from 2025 to 2039, and \$191.9 million are subject to interest rate caps.

The Company pays quarterly dividends from cash available for distribution. Until it is distributed, cash available for distribution is invested by the Company primarily in investment grade securities held available for sale or is used by the Company to reduce balances outstanding under its line of credit.

Index

The Company's current financing activities have been impacted by the instability and tightening in the credit markets which has led to an increase in spreads and pricing of secured and unsecured debt. Our strong balance sheet, the established relationships with our unsecured lines of credit bank group, the secured line of credit with Freddie Mac and access to Fannie Mae and Freddie Mac secured debt financing have provided some insulation to us from the turmoil being experienced by many other real estate companies. The Company has benefited from borrowing from Fannie Mae and Freddie Mac, and there are no assurances that these entities will lend to the Company in the future. The Company has experienced more restrictive loan to value and debt service coverage ratio limits and an expansion in credit spreads. Continued turmoil in the capital markets could negatively impact the Company's ability to make acquisitions, develop communities, obtain new financing, and refinance existing borrowing at attractive rates.

Derivative Activity

Currently, the Company uses interest rate cap contracts to manage certain interest rate risks. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each interest rate cap.

During July 2010, the Company entered into a swap transaction (the "swap") with respect to \$38.0 million of multifamily revenue refunding bonds for the 101 San Fernando apartment community (the "Bonds") with Citibank, N.A. ("Citibank"). This swap is not designated as a hedge; accordingly the change in fair value of the swap is recorded as a gain or loss in the Company's consolidated statement of operations. Under the terms of the Swap, the Company pays a variable amount equal to the SIFMA Index plus a fixed spread on a notional amount that starts at \$35.2 million and over the three-year term of the swap increases ratably to \$38.0 million. In return, Citibank pays an amount equal to the coupon on the Bonds multiplied by the outstanding par value of the bonds, \$38.0 million. The Swap has a termination date of July 12, 2013 and may be terminated by the Company at anytime commencing after July 2012 and by Citibank if certain events occur. Upon termination of the swap, whether early or on the stated termination date, a payment based on the change in value of the Bonds will occur. Should the Bonds decline in value from the \$35.2 million estimated value of the Bonds at the inception of the swap, the Company will be obligated to make a payment equal to 100% of the price depreciation. Should the Bonds increase in value, Citibank will be obligated to make a payment equal to approximately 85% of the price appreciation. As of June 30, 2011, the fair value of the swap was a liability of approximately \$1.6 million.

As of June 30, 2011 the Company had twelve interest rate cap contracts totaling a notional amount of \$191.9 million that qualify for hedge accounting as they effectively limit the Company's exposure to interest rate risk by providing a ceiling on the underlying variable interest rate for the Company's \$213.0 million of tax exempt variable rate debt. The aggregate carrying value of the interest rate cap contracts was an asset of \$0.1 million. During the first quarter of 2011, the Company settled its remaining \$20.0 million of forward starting swaps for a \$2.3 million payment to the counterparty. The changes in the fair values of the cash flow hedges are reflected in other comprehensive (loss) income in the Company's condensed consolidated financial statements. The overall fair value of the Company's derivatives changed by \$4.1 million during the six months ended June 30, 2011 to a net liability of \$1.5 million as of June 30, 2011.

Development and Predevelopment Pipeline

The Company defines development activities as new properties that are being constructed, or are newly constructed and, in the case of development communities, are in a phase of lease-up and have not yet reached stabilized operations. As of June 30, 2011, the Company had four consolidated and two unconsolidated joint venture development projects aggregating 1,284 units for an estimated cost of \$434.3 million, of which \$249.0 million remains to be expended.

The Company owned four land parcels held for future development or sale aggregating an estimated 322 units as of June 30, 2011. The aggregate carrying value for these four land parcels was \$45.6 million as of June 30, 2011. The Company expects to fund the development and predevelopment pipeline by using a combination of some or all of the following sources: its working capital, amounts available on its lines of credit, net proceeds from public and private equity and debt issuances, and proceeds from the disposition of properties, if any.

Redevelopment

The Company defines redevelopment activities as existing properties owned or recently acquired, which have been targeted for additional investment by the Company with the expectation of increased financial returns through property improvement. The Company's redevelopment strategy strives to improve the financial and physical aspects of the Company's redevelopment apartment communities and to target at least an 8 to 10 percent return on the incremental renovation investment. Many of the Company's properties are older and in excellent neighborhoods, providing lower density with large floor plans that represent attractive redevelopment opportunities. During redevelopment, apartment units may not be available for rent and, as a result, may have less than stabilized operations. As of June 30, 2011, the Company had five redevelopment communities aggregating 1,188 apartment units with estimated redevelopment costs of \$75.2 million, of which approximately \$37.1 million remains to be expended.

Index

Alternative Capital Sources

Fund II has eight institutional investors, and the Company, with combined partner equity contributions of \$265.9 million that were fully contributed as of 2008. The Company contributed \$75.0 million to Fund II, which represents a 28.2% interest as general partner and limited partner. Fund II utilized leverage equal to approximately 55% upon the initial acquisition of the underlying real estate. Fund II invested in apartment communities in the Company's targeted West Coast markets and, as of June 30, 2011, owned fourteen apartment communities. The Company records revenue for its asset management, property management, development and redevelopment services when earned, and promote income when realized if Fund II exceeds certain financial return benchmarks.

In 2011, the Company entered into a 50/50 programmatic joint venture, Wesco, I LLC ("Wesco"), with an institutional partner for a total equity commitment of \$200 million. Each partner's equity commitment is \$100 million, and Wesco will utilize leverage equal to approximately 50% to 60%. Investments must meet certain criteria to qualify for inclusion in the joint venture and both partners must approve any new acquisitions. The joint venture has an investment period of up to 2 years. The Company will receive asset and property management fees, and may earn a promoted interest.

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements, in accordance with U.S. generally accepted accounting principles requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. We define critical accounting policies as those accounting policies that require our management to exercise their most difficult, subjective and complex judgments. Our critical accounting policies relate principally to the following key areas: (i) consolidation under applicable accounting standards for entities that are not wholly owned; (ii) assessing the carrying values of our real estate properties and investments in and advances to joint ventures and affiliates; (iii) internal cost capitalization; and (iv) qualification as a REIT. The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from those estimates made by management.

The Company's critical accounting policies and estimates have not changed materially from information reported in Note 2, "Summary of Critical and Significant Accounting Policies," in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Forward Looking Statements

Certain statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this quarterly report on Form 10-Q which are not historical facts may be considered forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended, including statements regarding the Company's expectations, hopes, intentions, beliefs and strategies regarding the future. Forward looking statements include statements regarding the Company's expectations as to the total projected costs of predevelopment, development and redevelopment projects, the Company's reduced risk of loss from mold cases, beliefs as to our ability to meet our cash needs during the next twelve months and to provide for dividend payments in accordance with REIT requirements, expectations as to the sources for funding the Company's development and redevelopment pipeline and statements regarding the Company's financing activities.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors including, but not limited to, that the Company will fail to achieve its business objectives, that the total projected costs of current

predevelopment, development and redevelopment projects exceed expectations, that such development and redevelopment projects will not be completed, that development and redevelopment projects and acquisitions will fail to meet expectations, that estimates of future income from an acquired property may prove to be inaccurate, that future cash flows will be inadequate to meet operating requirements and/or will be insufficient to provide for dividend payments in accordance with REIT requirements, that there may be a downturn in the markets in which the Company's properties are located, that the terms of any refinancing may not be as favorable as the terms of existing indebtedness, and that mold lawsuits will be more costly than anticipated, as well as those risks, special considerations, and other factors referred to in Item 1A, "Risk Factors," in Part II "Other Information" in this current report on Form 10-Q for the quarter ended June 30, 2011 and those referred to in Item 1A, "Risk Factors," of the Company's Annual Report on Form 10-K for the year ended December 31, 2010, and those risk factors and special considerations set forth in the Company's other filings with the Securities and Exchange Commission (the "SEC") which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. All forward-looking statements are made as of the date hereof, and the Company assumes no obligation to update this information.

Index

Funds from Operations (“FFO”)

FFO is a financial measure that is commonly used in the REIT industry. The Company presents funds from operations as a supplemental operating performance measure. FFO is not used by the Company as, nor should it be considered to be, an alternative to net earnings computed under GAAP as an indicator of the Company’s operating performance or as an alternative to cash from operating activities computed under GAAP as an indicator of the Company’s ability to fund its cash needs.

FFO is not meant to represent a comprehensive system of financial reporting and does not present, nor does it intend to present, a complete picture of the Company's financial condition and operating performance. The Company believes that net earnings computed under GAAP remain the primary measure of performance and that FFO is only meaningful when it is used in conjunction with net earnings. Further, the Company believes that its consolidated financial statements, prepared in accordance with GAAP, provide the most meaningful picture of its financial condition and its operating performance.

In calculating FFO, the Company follows the definition for this measure published by the National Association of REITs (“NAREIT”), which is a REIT trade association. The Company believes that, under the NAREIT FFO definition, the two most significant adjustments made to net income are (i) the exclusion of historical cost depreciation and (ii) the exclusion of gains and losses from the sale of previously depreciated properties. The Company agrees that these two NAREIT adjustments are useful to investors for the following reasons:

historical cost accounting for real estate assets in accordance with GAAP assumes, through depreciation charges, (a) that the value of real estate assets diminishes predictably over time. NAREIT stated in its White Paper on Funds from Operations “since real estate asset values have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves.” Consequently, NAREIT’s definition of FFO reflects the fact that real estate, as an asset class, generally appreciates over time and depreciation charges required by GAAP do not reflect the underlying economic realities.

REITs were created as a legal form of organization in order to encourage public ownership of real estate as an (b) asset class through investment in firms that were in the business of long-term ownership and management of real estate. The exclusion, in NAREIT’s definition of FFO, of gains and losses from the sales of previously depreciated operating real estate assets allows investors and analysts to readily identify the operating results of the long-term assets that form the core of a REIT’s activity and assists in comparing those operating results between periods.

Management believes that it has consistently applied the NAREIT definition of FFO to all periods presented. However, there is judgment involved and other REITs’ calculation of FFO may vary from the NAREIT definition for this measure, and thus their disclosure of FFO may not be comparable to the Company’s calculation.

Index

The following table sets forth the Company's calculation of FFO for the three and six months ended June 30, 2011 and 2010 (in thousands except for per share data):

	Three Months Ended		Six Months Ended	
	June 30, 2011	June 30, 2010	June 30, 2011	June 30, 2010
Net income available to common stockholders	\$ 10,325	\$ 9,482	\$ 18,743	\$ 22,609
Adjustments:				
Depreciation and amortization	37,510	31,261	74,541	61,748
Gains not included in FFO, net of internal disposition costs	(5,265)	-	(5,265)	-
Noncontrolling interest and co-investments (1)	2,684	1,910	5,937	4,040
Funds from operations	\$ 45,254	\$ 42,653	\$ 93,956	\$ 88,397
Funds from operations per share - diluted	\$ 1.32	\$ 1.34	\$ 2.76	\$ 2.80
Weighted average number shares outstanding diluted (2)	34,365,418	31,759,956	34,079,471	31,602,019

(1) Amount includes the following: (i) noncontrolling interest related to Operating Partnership units, and (ii) add back of depreciation expense from unconsolidated co-investments and less depreciation attributable to third-party ownership of consolidated co-investments.

(2) Assumes conversion of all dilutive outstanding operating partnership interests in the Operating Partnership.

Item 3: Quantitative and Qualitative Disclosures About Market Risks

Interest Rate Hedging Activities

The Company's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. The Company had twelve interest rate cap contracts totaling a notional amount of \$191.9 million that qualify for hedge accounting as they effectively limit the Company's exposure to interest rate risk by providing a ceiling on the underlying variable interest rate for the Company's \$213.0 million of tax exempt variable rate debt. The interest rate caps are designated as cash flow hedges, and the Company does not have any fair value hedges as of June 30, 2011.

Interest Rate Sensitive Liabilities

The Company is exposed to interest rate changes primarily as a result of its lines of credit and long-term tax exempt variable rate debt. The Company's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives the Company borrows primarily at fixed rates and may enter into derivative financial instruments such as interest rate swaps, caps and treasury locks in order to mitigate its interest rate risk on a related financial instrument. The Company does not enter into derivative or interest rate transactions for speculative purposes.

The Company's interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts and weighted average interest rates by year of expected maturity to evaluate the expected cash flows.

For the Years Ended	2011	2012	2013	2014	2015	Thereafter	Total	Fair value
------------------------	------	------	------	------	------	------------	-------	------------

(In thousands)

Fixed rate debt	\$ 18,989		30,564		182,540		77,952		70,967		1,406,591		\$ 1,787,603		\$ 1,831,000
Average interest rate	5.6	%	5.4	%	5.6	%	5.3	%	5.2	%	5.8	%	5.7	%	
Variable rate debt	\$ -		9,775		34,118		-		-		212,965		(1) \$ 256,858		\$ 444,469
Average interest rate	0.0	%	3.1	%	1.7	%	0.0	%	0.0	%	1.8	%	1.9	%	

(1) \$191.9 million subject to interest rate caps.

The table incorporates only those exposures that exist as of June 30, 2011; it does not consider those exposures or positions that could arise after that date. As a result, our ultimate realized gain or loss, with respect to interest rate fluctuations and hedging strategies, would depend on the exposures that arise prior to settlement.

Index

Item 4: Controls and Procedures

As of June 30, 2011, we carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of June 30, 2011, our disclosure controls and procedures were effective to ensure that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such disclosure controls and procedures were also effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in the Company's internal control over financial reporting, that occurred during the quarter ended June 30, 2011, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II -- Other Information

Item 1: Legal Proceedings

Recently there has been an increasing number of lawsuits against owners and managers of apartment communities alleging personal injury and property damage caused by the presence of mold in residential real estate. Some of these lawsuits have resulted in substantial monetary judgments or settlements. The Company has been sued for mold related matters and has settled some, but not all, of such matters. Insurance carriers have reacted to mold related liability awards by excluding mold related claims from standard policies and pricing mold endorsements at prohibitively high rates. The Company has, however, purchased pollution liability insurance, which includes some coverage for mold. The Company has adopted policies for promptly addressing and resolving reports of mold when it is detected, and to minimize any impact mold might have on residents of the property. The Company believes its mold policies and proactive response to address any known existence, reduces its risk of loss from these cases. There can be no assurances that the Company has identified and responded to all mold occurrences, but the Company promptly addresses all known reports of mold. Liabilities resulting from such mold related matters are not expected to have a material adverse effect on the Company's financial condition, results of operations or cash flows. As of June 30, 2011, no potential liabilities for mold and other environmental liabilities are quantifiable and an estimate of possible loss cannot be made.

The Company carries comprehensive liability, fire, extended coverage and rental loss insurance for each of the Company's communities. Insured risks for comprehensive liability covers claims in excess of \$25,000 per incident, and property insurance covers losses in excess of a \$5.0 million deductible per incident. There are, however, certain types of extraordinary losses, such as, for example, losses for terrorism and earthquake, for which the Company does not have insurance. Substantially all of the Properties are located in areas that are subject to earthquakes.

The Company is subject to various other lawsuits in the normal course of its business operations. Such lawsuits could, but are not expected to, have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 1A: Risk Factors

There were no material changes to the Risk Factors disclosed in Item IA of the Company's Annual Report on Form 10-K for the year ended December 31, 2010 as filed with the SEC and available at www.sec.gov.
