NEWS RELEASE

TO BUSINESS EDITOR:

### PEOPLES FINANCIAL SERVICES CORP. REPORTS EARNINGS

Hallstead, PA, July 12 – Peoples Financial Services Corp. (OTCBB:PFIS) today reported earnings for the six months ended June 30, 2013, of \$4,562 thousand or \$1.48 per share, a decrease of \$142 thousand or 3.0%, compared to \$4,704 thousand or \$1.51 per share for the same period last year. Earnings for the second quarter 2013 totaled \$2,282 thousand or \$0.74 per share compared to \$2,284 thousand or \$0.73 per share for the second quarter of 2012.

Return on average assets was 1.34% for the second quarter and 1.37% for the first half of 2013, compared to 1.46% and 1.51% for the respective periods of 2012. Return on average stockholders' equity was 13.78% and 14.02%, respectively, for the second quarter and year-to-date 2013, compared to 15.36% and 16.02% for the same periods of 2012.

“The slight decrease in comparable first half earnings were caused primarily by higher levels of noninterest expense and income taxes which more than offset the improvement in our net interest income and the reduction in the provision for loan losses,” stated Alan W. Dakey, President and Chief Executive Officer. “We look for improved financial performance with the completion of our pending merger with Penseco Financial Services Corporation expected to take effect in the fourth quarter of 2013 provided all approvals are received. This business combination is unique as it brings together two strong community banks that were each founded in Northeastern Pennsylvania as opposed to recent takeovers of local community banks by out of market financial institutions. We believe our ability to continue to operate as a local community bank after the completion of the transaction will benefit the communities of Northeastern Pennsylvania and Southern New York through offering exceptional personalized service and a significantly enhanced product and service line. Moreover, we believe this transaction improves the prospects for increased long-term shareholder value by increasing the potential of share liquidity through the planned post closing NASDAQ listing and raising the dividend by approximately 35%,” concluded Dakey.

## INCOME STATEMENT REVIEW

Tax-equivalent net interest income for the six months ended June 30, improved \$471 thousand or 3.9% to \$12,625 thousand in 2013 from \$12,154 thousand in 2012. A slight improvement of \$46 thousand in tax-equivalent interest revenue was supplemented by a material decrease in interest expense of \$425 thousand. Growth in average earning assets of \$41.0 million offset partially by a 29 basis point decrease in the tax-equivalent yield on earning assets were the primary factors contributing to the increase in interest revenue. Specifically, the tax-equivalent yield on the loan portfolio decreased 18 basis points to 5.27% for the first half of 2013 from 5.45% for the same period of 2012. In addition, average loans increased \$20.8 million or 4.5% comparing the six months ended June 30, 2013 and 2012.

The tax-equivalent yield on the investment portfolio decreased 32 basis points to 3.08% in 2013 from 3.40% in 2012. Average investments increased \$10.7 million or 7.9% in 2013. Partially offsetting the negative effects of the yield decrease and aiding the positive effects of earning asset growth was a decrease of 23 basis points in the cost of funds, which was the primary factor leading to the decreased interest expense. The tax-equivalent net interest margin for the six months ended June 30, decreased 11 basis points to 3.99% in 2013 from 4.10% in 2012. The net interest margin for the second quarter of 2013 was 4.03%, compared to 3.96% the previous quarter.

The provision for loan losses was \$330 thousand for the six months ended June 30, 2013, and \$1,035 thousand for the same six months of 2012. The provision for loan losses was \$165 thousand for the second quarter of 2013 compared to \$390 thousand for the same period last year.

Noninterest income totaled \$2,348 thousand for the six months ended June 30, 2013, a decrease of \$225 thousand or 8.7% from \$2,573 thousand for the same six months of last year. Mortgage banking income increased 9.8% to \$413 thousand in 2013 from \$376 thousand in 2012. For the second quarter, noninterest income decreased \$214 thousand to \$1,123 thousand in 2013, from \$1,337 thousand in 2012.

Noninterest expense for the six months ended June 30, increased \$897 thousand or 12.4% to \$8,109 thousand in 2013 from \$7,212 thousand in 2012. Employee-related costs rose \$479 thousand or 13.8% as a result of increases in staffing, higher health insurance costs and normal merit increases. Additional equipment-related costs resulted in a \$126 thousand or 8.1% increase in net occupancy and equipment expense. Other expenses increased \$292 thousand or 13.3% comparing the six months ended June 30, 2013 and 2012. For the second quarter, noninterest expense totaled \$4,158 thousand in 2013, an increase of \$260 thousand or 6.7% from \$3,898 thousand in 2012.

## BALANCE SHEET REVIEW

Total assets equaled \$689.0 million at June 30, 2013, an increase of \$50.3 million compared to \$638.7 million at June 30, 2012. Strong loan demand resulted in an increase of \$35.1 million or 7.7% in loans, net of unearned income, to \$492.2 million at the close of the second quarter of 2013 from \$457.1 million one year earlier. There were \$19.6 million in federal funds sold as of the end of the second quarter of 2013 compared to \$13.1 million at the same point in 2012 as deposit growth ramped up in the second quarter of 2013. Investment securities available-for-sale amounted to \$138.8 million at June 30, 2013, and \$128.6 million at June 30, 2012. Despite strong competition for deposits within our market area, total deposits increased \$58.8 million comparing June 30, 2013 and 2012.

Stockholders' equity equaled \$67.6 million or \$21.89 per share at June 30, 2013, and \$63.9 million or \$20.48 per share at June 30, 2012. Included in stockholders' equity was accumulated other comprehensive income related entirely to net unrealized holding gains on available-for-sale investment securities of \$3,038 thousand at June 30, 2013, compared to accumulated other comprehensive income of \$4,559 thousand at the end of the same period of 2012. Dividends declared for the first six months were \$0.46 per share in 2013 and \$0.42 per share in 2012.

---

Nonperforming assets equaled \$11.8 million or 2.39% of loans, net of unearned income and foreclosed assets at June 30, 2013, compared to \$9.8 million or 2.14% one year earlier. The slight deterioration in asset quality resulted from an increase in nonaccrual loans and foreclosed assets partially offset by a decrease in accruing loans past due 90 days or more.

The allowance for loan losses equaled \$6.7 million or 1.37% of loans, net of unearned income, at June 30, 2013, compared to \$5.9 million or 1.29% at June 30, 2012. The allowance for loan losses covered 57.1% of nonperforming assets at the end of the second quarter of 2013, compared to 60.3% at the same time last year. Loans charged-off, net of recoveries, for the six months ended June 30, equaled \$176 thousand or 0.07% of average loans outstanding in 2013 compared to \$468 thousand or 0.21% of average loans outstanding in 2012.
