Item 8.01 Other Events.

Cost of Capital

On May 10, 2017, the two assigned Administrative Law Judges issued a proposed decision (the “PD”) in the cost of capital proceeding pending at the California Public Utilities Commission (“CPUC”) for Pacific Gas and Electric Company (“Utility”), a subsidiary of PG&E Corporation, Southern California Edison Company, San Diego Gas & Electric Company, and Southern California Gas Company’s (collectively, the “Investor-Owned Utilities”).

If adopted, the PD would grant, with two modifications, the joint petition for modification (the “PFM”) that the Investor-Owned Utilities, the CPUC’s Office of Ratepayer Advocates, and The Utility Reform Network submitted to the CPUC on February 7, 2017.

Specifically, the PD would extend the Investor-Owned Utilities’ next cost of capital application filing deadline by one year to March 22, 2018, for the year 2019, instead of two years to April 22, 2019, for the year 2020, as requested in the PFM. The PD also would leave the proceeding open to provide a possible venue in which to consider whether the Utility’s return on equity should be reduced until any recommendations by NorthStar Consulting Group that the CPUC may adopt in the second phase of its safety culture investigation are implemented, as described in the assigned Commissioner’s May 8, 2017 Scoping Memo and Ruling. Except for these modifications, the PD would adopt the PFM with no additional changes.

The earliest the CPUC could adopt a final decision in this proceeding is June 15, 2017. For more information about the Utility’s cost of capital proceeding and the adjustment mechanism, see PG&E Corporation and the Utility’s joint Annual Report on Form 10-K for the year ended December 31, 2016 and their joint Quarterly Report on Form 10-Q for the quarter ended March 31, 2017.
