Approximate date of commencement of proposed sale of the securities to the public: As soon as practicable after this Registration Statement is declared effective and upon the satisfaction or waiver of all other conditions to the closing of the merger described herein.

If the securities being registered on this form are being offered in connection with the formation of a holding company and there is compliance with General Instruction G, check the following box. ☐

If this form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

If this form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of large accelerated filer, accelerated filer, smaller reporting company, and emerging growth company in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☐
Non-accelerated filer ☐ (Do not check if a smaller reporting company) Smaller reporting company ☐
Emerging growth company ☐

If an emerging growth company, indicate by check mark if registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards pursuant to Section 7(a)(2)(B) of the Securities Act. ☐

If applicable, place an X in the box to designate the appropriate rule provision relied upon in conducting this transaction:

Exchange Act Rule 13e-4(i) (Cross-Border Issuer Tender Offer) ☐

Exchange Act Rule 14d-1(d) (Cross-Border Third-Party Tender Offer) ☐

CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities to be Registered	Amount to be Registered	Proposed Maximum Offering Price Per Unit	Proposed Maximum Aggregate Offering Price ⁽²⁾	Amount of Registration Fee ⁽³⁾
Common Stock, par value \$0.01 per share	98,480,083 ⁽¹⁾	\$ 109.31 ⁽²⁾	\$ 10,764,857,873	\$ 1,340,225

Represents an estimate of the maximum number of shares of common stock of Westinghouse Air Brake Technologies Corporation (Wabtec) issuable upon completion of the transactions contemplated by the Agreement (1) and Plan of Merger dated as of May 20, 2018, among General Electric Company, Transportation Systems Holdings Inc. (SpinCo), Wabtec and Wabtec US Rail Holdings, Inc. (the Merger Agreement), as described in this registration statement.

Calculated in accordance with Rule 457(c) and Rule 457(f) under the Securities Act of 1933, as amended, based on (2) the average of the high and low prices of shares of common stock of Wabtec, into which shares of common stock of SpinCo will be converted, as reported on the New York Stock Exchange on August 1, 2018.

A registration fee of \$1,340,225 was previously paid by Wabtec to the U.S. Securities and Exchange Commission (the SEC) in connection with Wabtec's Preliminary Proxy Statement filed with the SEC on Schedule 14A on August 8, 2018, and, pursuant to Rule 457(b) under the Securities Act, is not remitted herewith.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

TABLE OF CONTENTS

EXPLANATORY NOTE

As previously announced, on May 20, 2018, Westinghouse Air Brake Technologies Corporation (Wabtec) entered into an Agreement and Plan of Merger (the Merger Agreement) with General Electric Company (GE), Transportation Systems Holdings Inc., a Delaware corporation (SpinCo), which is a wholly owned subsidiary of GE, and Wabtec US Rail Holdings, Inc., a Delaware corporation (Merger Sub), which is a wholly owned subsidiary of Wabtec, pursuant to which Wabtec will combine with GE's transportation business (collectively, GE Transportation) in a modified Reverse Morris Trust transaction, through the merger (the Merger) of Merger Sub with and into SpinCo, whereby the separate corporate existence of Merger Sub will cease and SpinCo will continue as the surviving company and as a wholly owned subsidiary of Wabtec. SpinCo will file a registration statement with the Securities and Exchange Commission to register shares of its common stock, par value \$0.01 per share, certain of which common shares will be distributed to GE stockholders prior to the Merger. In the Merger, the shares of SpinCo common stock held by GE and GE stockholders will be converted into the right to receive shares of Wabtec common stock. The Merger will be preceded by a direct sale of certain assets of GE Transportation (the Direct Sale) from GE to Wabtec US Rail, Inc. (the Direct Sale Purchaser) in exchange for a cash payment of \$2.9 billion. Concurrently, the Direct Sale Purchaser will assume certain liabilities of GE Transportation in connection with the Direct Sale. GE and Wabtec may elect, in an economically equivalent structure, to reduce the assets included in the Direct Sale by \$25 million and, in such event, GE would contribute such assets to SpinCo and would receive shares of non-voting preferred stock in SpinCo (the SpinCo preferred stock) in the SpinCo Transfer in addition to the SpinCo common stock that GE will otherwise be receiving in the SpinCo Transfer. If GE and Wabtec make such an election, the Direct Sale Purchase Price would be reduced by \$25 million. The SpinCo preferred stock would not be distributed in the Distribution or converted in the Merger and, accordingly, would remain outstanding as stock of SpinCo and held by GE immediately following the effective time of the Merger. The SpinCo preferred stock would pay cumulative quarterly dividends at a rate, and have other terms, to be agreed by GE and Wabtec that would be intended to result in the fair market value of the SpinCo preferred stock equaling its face value. At any time after the seventh anniversary of the effective time of the Merger, SpinCo would be permitted (but would not be obligated) to redeem the SpinCo preferred stock for a per share redemption price (including an amount in satisfaction of any accrued and unpaid dividends).

Based on market conditions prior to the closing of the Merger, corporate finance considerations and timing considerations, GE will determine whether the shares of SpinCo common stock that will be distributed to GE stockholders will be distributed in a spin-off or a split-off. In a spin-off, all GE stockholders would receive from GE, on a *pro rata* basis, a number of shares of SpinCo common stock constituting not less than 80.25% of the outstanding shares of SpinCo common stock (the Distribution Shares). In a split-off, GE would offer its stockholders the option to exchange shares of GE common stock for shares of SpinCo common stock in an exchange offer, resulting in a reduction in GE's outstanding shares. If the exchange offer is undertaken and consummated, the remaining Distribution Shares, if any, would be distributed on a *pro rata* basis to GE stockholders whose shares of GE common stock remain outstanding after the consummation of the exchange offer. Immediately following the consummation of the spin-off or split-off, as the case may be, and in connection with the Merger, the shares of SpinCo held by GE and GE stockholders will be converted into the right to receive shares of Wabtec common stock in the Merger. This registration statement on Form S-4 assumes that the Distribution Shares will be distributed to GE stockholders pursuant to a spin-off. Once a final decision is made regarding the manner of distribution of the shares, this registration statement will be amended to reflect that decision, if necessary. In addition, SpinCo is expected to file a registration statement on Form 10 to register shares of SpinCo common stock which will be distributed to GE stockholders under the assumption that such shares of SpinCo common stock will be distributed to GE stockholders pursuant to a spin-off.

TABLE OF CONTENTS

The information in this prospectus-information statement is not complete and may be changed. We may not issue these securities until the registration statement filed with the U.S. Securities and Exchange Commission is effective. This prospectus-information statement is not an offer to sell or exchange securities and is not soliciting an offer to buy or exchange securities in any jurisdiction where the offer or sale is not permitted.

SUBJECT TO COMPLETION, DATED SEPTEMBER 20, 2018

PRELIMINARY COPY

On May 20, 2018, Westinghouse Air Brake Technologies Corporation (Wabtec) entered into an Agreement and Plan of Merger (the Merger Agreement) with General Electric Company (GE), Transportation Systems Holdings Inc., a Delaware corporation (SpinCo), which is a wholly owned subsidiary of GE, and Wabtec US Rail Holdings, Inc., a Delaware corporation (Merger Sub), which is a wholly owned subsidiary of Wabtec, pursuant to which Wabtec will combine with GE's transportation business (collectively, GE Transportation) in a modified Reverse Morris Trust transaction, through the merger (the Merger) of Merger Sub with and into SpinCo, whereby the separate corporate existence of Merger Sub will cease and SpinCo will continue as the surviving company and as a wholly owned subsidiary of Wabtec. Prior to the closing of the Merger, GE will distribute (the Distribution), on a *pro rata* basis, the Distribution Shares (as defined herein) of SpinCo common stock, par value \$0.01 per share, to GE stockholders (the Spin-Off). The Merger will also be preceded by a direct sale of certain assets of GE Transportation (the Direct Sale) from GE to Wabtec US Rail, Inc. (the Direct Sale Purchaser) in exchange for a cash payment of \$2.9 billion. Concurrently, the Direct Sale Purchaser will assume certain liabilities of GE Transportation in connection with this purchase. In the Merger, the outstanding shares of SpinCo common stock will be converted into the right to receive shares of Wabtec common stock, par value \$0.01 per share. Wabtec will continue as a publicly-traded company, owning both its current business and GE Transportation.

GE stockholders are receiving this prospectus-information statement:

as an information statement from SpinCo to inform GE stockholders of the Spin-Off; and
as a prospectus from Wabtec for the issuance by Wabtec of the shares of its common stock that will be issued in the Merger.

Based on the number of shares of GE common stock outstanding and the number of shares of Wabtec common stock outstanding, calculated on a fully-diluted, as-converted and as-exercised basis, in each case as of June 30, 2018, and assuming that GE distributes 80.25% of the outstanding shares of SpinCo common stock to GE stockholders in the Distribution, if the Merger had occurred on June 30, 2018, a GE stockholder would have received 1 share of Wabtec common stock for every approximately 110 shares of GE common stock held by such GE stockholder on the record date for the Distribution (approximately 0.00909 shares of Wabtec common stock for each share of GE common stock).

The actual number of shares of Wabtec common stock that a GE stockholder will receive with respect to each share of GE common stock will be determined based on the number of shares of GE common stock outstanding on the record date for the Distribution, the proportion of the outstanding shares of SpinCo common stock distributed to GE stockholders in the Distribution and the number of shares of Wabtec common stock, on a fully-diluted, as-converted and as-exercised basis, outstanding immediately prior to the closing of the Merger.

Upon consummation of the Merger and calculated based on Wabtec's outstanding common stock immediately prior to the Merger on a fully-diluted, as-converted and as-exercised basis, 50.1% of the outstanding shares of Wabtec common stock would be held collectively by GE and pre-Merger holders of GE common stock (with approximately

9.9% of the outstanding shares of Wabtec common stock expected to be held by GE) and 49.9% of the outstanding shares of Wabtec common stock would be held by pre-Merger Wabtec stockholders.

Wabtec common stock is currently traded on the New York Stock Exchange under the ticker symbol WAB. On , 2018, the closing price of Wabtec common stock was \$ per share.

The Boards of Directors of each of Wabtec and GE have unanimously approved the proposed Transactions. **GE stockholders are not required to vote on the proposed Transactions. GE is not asking its stockholders for a proxy, and GE stockholders are requested not to send a proxy to GE.** GE stockholders will retain all of their shares of GE common stock and will not be required to pay for any shares of Wabtec common stock they receive.

In reviewing this document, you should carefully consider the risk factors set forth in the section entitled Risk Factors beginning on page 26 of this document.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus-information statement is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus-information statement is , 2018.

TABLE OF CONTENTS

REFERENCES TO ADDITIONAL INFORMATION

This prospectus-information statement incorporates by reference important business and financial information about Wabtec from documents filed with the SEC that have not been included in or delivered with this prospectus-information statement. This information is available at the website that the SEC maintains at www.sec.gov, as well as from other sources. See **Where You Can Find More Information**; Incorporation by Reference. Documents incorporated by reference are available from Wabtec without charge, excluding all exhibits unless specifically incorporated by reference as an exhibit into this prospectus-information statement. Requests should be directed to Westinghouse Air Brake Technologies Corporation, Wilmerding, Pennsylvania 15148-0001, Attention: Corporate Secretary; telephone number: (412) 825-1000. **To receive timely delivery of the documents, your request must be received no later than , 2018.**

All information contained or incorporated by reference in this prospectus-information statement with respect to Wabtec, Merger Sub, Direct Sale Purchaser and their respective subsidiaries, as well as information on Wabtec after the consummation of the Transactions, has been provided by Wabtec. All information contained in this prospectus-information statement with respect to GE, SpinCo or their respective subsidiaries or GE Transportation and with respect to the terms and conditions of the Distribution has been provided by GE.

None of Wabtec, SpinCo or GE has authorized anyone to give any information or make any representation about the proposed transactions that is different from, or in addition to, that contained in this prospectus-information statement. Therefore, if anyone does give you information of this sort, you should not rely on it as having been authorized by Wabtec, SpinCo or GE. If you are in a jurisdiction where offers to exchange or sell, or solicitations of offers to exchange or purchase, the securities offered by this prospectus-information statement are unlawful, or if you are a person to whom it is unlawful to direct these types of activities, then the offer presented in this prospectus-information statement does not extend to you. The information contained in this prospectus-information statement speaks only as of the date of this prospectus-information statement unless the information specifically indicates that another date applies.

ABOUT THIS DOCUMENT

This prospectus-information statement forms a part of the registration statement on Form S-4 (Registration No. 333-) filed by Wabtec with the SEC to register the shares of its common stock, par value \$0.01 per share, that will be issued in the Merger. It constitutes a prospectus of Wabtec under Section 5 of the Securities Act of 1933, as amended, together with the rules and regulations promulgated thereunder (the Securities Act), with respect to the shares of Wabtec common stock to be issued to (i) GE stockholders in exchange for the shares of SpinCo common stock to which they are entitled in the Distribution by GE of the Distribution Shares to GE stockholders by way of a *pro rata* dividend and (ii) GE in respect of shares of SpinCo common stock retained by GE and not distributed in the Distribution. In addition, it constitutes an information statement of SpinCo relating to the proposed Separation and the Distribution.

HELPFUL INFORMATION

For a description of the use of certain terms in this prospectus-information statement, please see the section of this prospectus-information statement entitled **Certain Definitions** beginning on page 196.

QUESTIONS AND ANSWERS ABOUT THE TRANSACTIONS

The following are some of the questions that stockholders of Wabtec and GE may have and answers to those questions. These questions and answers, as well as the summary section that follows, are not meant to be a substitute for the information contained in the remainder of this prospectus-information statement, and this information is qualified in its entirety by the more detailed descriptions and explanations contained elsewhere in this prospectus-information statement. You are urged to read this prospectus-information statement in its entirety.

Questions and Answers About The Transactions

What are the key steps of the Transactions?

The contemplated Transactions will combine GE Transportation with Wabtec's existing business, which will be effected through a series of transactions, including the Merger, that are described in more detail below and elsewhere in this prospectus-information statement.

Below is a summary of the key steps of the Transactions. A step-by-step description of material events relating to the Transactions is set forth under The Transactions.

GE will conduct the Internal Reorganization.

Certain assets of GE Transportation will be sold by GE to Direct Sale Purchaser for a cash payment of \$2.9 billion (the Direct Sale Purchase Price). Direct Sale Purchaser will assume certain liabilities of GE Transportation in connection with this purchase. Wabtec and the other Borrowers entered into the Credit Agreement on June 8, 2018, which includes (i) a \$1.2 billion unsecured revolving credit facility (the Revolving Credit Facility), which replaced Wabtec's previous revolving credit facility, (ii) a \$350.0 million refinancing term loan (the Refinancing Term Loan), which refinanced Wabtec's previous term loan, and (iii) a \$400.0 million delayed draw term loan (the Delayed Draw Term Loan). Wabtec also obtained commitments (the Bridge Commitments) in respect of a bridge loan facility (the Bridge Loan Facility) in an amount not to exceed \$2.5 billion. On September 14, 2018, in accordance with the Commitment Letter, the Bridge Commitments were permanently reduced to \$0 in connection with Wabtec's issuance of \$500 million aggregate principal amount of its Floating Rate Senior Notes due 2021 (the Floating Rate Notes), \$750 million aggregate principal amount of its 4.150% Senior Notes due 2024 (the 2024 Notes) and \$1.25 billion aggregate principal amount of its 4.700% Senior Notes due 2028 (the 2028 Notes, and, together with the Floating Rate Notes and the 2024 Notes, the New Wabtec Notes). The New Wabtec Notes were issued pursuant to the Indenture, dated August 8, 2013 (the Base Indenture), between Wabtec and Wells Fargo Bank, National Association, as trustee (the Trustee), as supplemented by the Second Supplemental Indenture, dated November 3, 2016 (the Second Supplemental Indenture), between Wabtec, the subsidiary guarantors party thereto and the Trustee, and the Ninth Supplemental Indenture, dated September 14, 2018 (the Ninth Supplemental Indenture and, together with the Base Indenture and the Second Supplemental Indenture, the New Wabtec Notes Indenture), between Wabtec, the subsidiary guarantors party thereto and the Trustee. Wabtec will use funds available under the Delayed Draw Term Loan and the proceeds from the issuance of the New Wabtec Notes to pay the Direct Sale Purchase Price.

GE and its subsidiaries will transfer the SpinCo Business to SpinCo and its subsidiaries (to the extent not already held by SpinCo and its subsidiaries) in the SpinCo Transfer.

In connection with the SpinCo Transfer, SpinCo will issue to GE additional shares of SpinCo common stock.

Following this issuance of additional shares to GE, GE will own 8,700,000,000 shares of SpinCo common stock, or such other amount as GE shall determine with Wabtec's consent, which will constitute all of the outstanding stock of SpinCo.

GE will effect the Distribution by distributing on a *pro rata* basis all of the Distribution Shares to GE stockholders as of the record date for the Distribution. GE will deliver the Distribution Shares to the exchange agent, who will hold such shares for the benefit of GE stockholders. GE has the option, however, to effect the Distribution pursuant to a

split-off. In the event GE elects to effect the Distribution pursuant to a split-off, GE would offer to holders of GE common stock the right to exchange all or a portion of their GE common stock for a number of Distribution Shares (which, in the aggregate, may be less than all of the Distribution Shares) at a discount to the implied value of the

TABLE OF CONTENTS

SpinCo common stock (based on the per-share value of Wabtec common stock multiplied by the exchange ratio set forth in the Merger Agreement), subject to proration if the GE stockholders have validly tendered more shares of GE common stock than GE is offering to accept for exchange (the GE Exchange Offer). In the event the GE Exchange Offer is consummated, GE would distribute the remaining Distribution Shares, if any, on a *pro rata* basis to GE stockholders whose shares of GE common stock remain outstanding after the consummation of the GE Exchange Offer.

Immediately after the Distribution, Merger Sub will merge with and into SpinCo, whereby the separate corporate existence of Merger Sub will cease and SpinCo will continue as the surviving company and as a wholly owned subsidiary of Wabtec. In the Merger, each share of SpinCo common stock will be converted into the right to receive a number of shares of Wabtec common stock based on the exchange ratio set forth in the Merger Agreement, as described in the section of this prospectus-information statement entitled The Merger Agreement—Merger Consideration. Upon consummation of the Merger and calculated based on Wabtec's outstanding common stock immediately prior to the Merger on a fully-diluted, as-converted and as-exercised basis, 50.1% of the outstanding shares of Wabtec common stock would be held collectively by GE and pre-Merger holders of GE common stock (with approximately 9.9% of the outstanding shares of Wabtec common stock expected to be held by GE) and 49.9% of the outstanding shares of Wabtec common stock would be held by pre-Merger Wabtec stockholders. The shares held by GE will be subject to GE's obligations under (x) the Tax Matters Agreement to sell a number of shares of Wabtec common stock within two years of the Distribution Date (as described in the section of this prospectus-information statement entitled Other Agreements—Tax Matters Agreement) and (y) the Shareholders Agreement to sell, subject to limited exceptions, all of the shares of Wabtec common stock GE beneficially owns within three years of the closing date of the Merger and prior thereto, to vote all of such shares in the proportion required under the Shareholders Agreement (as described in the section of this prospectus-information statement entitled Other Agreements—Shareholders Agreement).

What is the effect of calculations being presented on a fully-diluted, as-converted and as-exercised basis?

Where calculations are presented in this prospectus-information statement on a fully-diluted, as-converted and as-exercised basis, such calculations reflect a number of outstanding shares of Wabtec common stock that will be higher than the number of shares of Wabtec common stock actually outstanding at the relevant time, which variance may affect the actual percentages upon consummation of the Merger. In addition, in those instances, references to Wabtec stockholders owning 49.9% of the outstanding Wabtec common stock assume that the holders of instruments convertible into or exercisable for Wabtec common stock are the owners of the underlying Wabtec common stock and, with limited exceptions, assume that Wabtec equity awards, including those that may be settled in cash, are instruments convertible into or exercisable for Wabtec common stock.

What will Wabtec stockholders receive in connection with the Merger?

All shares of Wabtec common stock issued and outstanding immediately before the Merger will remain issued and outstanding immediately after the consummation of the Merger. Immediately after consummation of the Merger, and calculated on a fully-diluted, as-converted and as-exercised basis, pre-Merger Wabtec stockholders will continue to own shares in Wabtec, which will include GE Transportation as it exists following the Separation, constituting 49.9% of the outstanding shares of Wabtec common stock.

Wabtec stockholders will not receive separate merger consideration as part of the Merger and no additional shares of Wabtec common stock will be issued to Wabtec stockholders pursuant to the Merger. Wabtec stockholders will receive the commercial benefit of Wabtec's ownership of GE Transportation as it exists following consummation of the Separation. Wabtec stockholders will thus hold an interest in a diversified, global company that is better positioned to meet anticipated growth, including with respect to intelligence and network optimization products and services, and to capitalize on increased opportunities for cross-selling and the provision of aftermarket services, with significant

adjusted EBITDA and revenue growth opportunities, strong forecasted future cash flows, anticipated tax benefits, and additional executive management talent. See Wabtec's Reasons for the Transactions.

As a result of the Transactions, Wabtec stockholders' ownership of Wabtec common stock will also mean that they own an interest in a company with increased levels of indebtedness. Wabtec and the other Borrowers

TABLE OF CONTENTS

entered into the Credit Agreement on June 8, 2018, which includes (i) a \$1.2 billion Revolving Credit Facility, (ii) a \$350.0 million Refinancing Term Loan and (iii) a \$400.0 million Delayed Draw Term Loan. Wabtec also obtained Bridge Commitments in respect of the Bridge Loan Facility in an amount not to exceed \$2.5 billion. On September 14, 2018, in accordance with the Commitment Letter, the Bridge Commitments were permanently reduced to \$0 in connection with Wabtec's issuance of \$500 million aggregate principal amount of the Floating Rate Notes, \$750 million aggregate principal amount of the 2024 Notes and \$1.25 billion aggregate principal amount of the 2028 Notes. Wabtec will use funds available under the Delayed Draw Term Loan and the proceeds from the issuance of the New Wabtec Notes to pay the Direct Sale Purchase Price. The Credit Agreement is expected to have approximately \$812 million of unused availability immediately following consummation of the Transactions. In addition, the Credit Agreement contains an uncommitted accordion feature allowing Wabtec to request, in an aggregate amount not to exceed \$600.0 million, increases to the borrowing commitments under the Revolving Credit Facility or a new incremental term loan commitment. See Debt Financing.

What are the principal adverse effects of the Transactions to Wabtec stockholders?

Following the consummation of the Transactions, Wabtec stockholders will participate in a company that holds GE Transportation as it exists following the Separation, but their percentage interest in Wabtec will be diluted.

Immediately after consummation of the Merger, pre-Merger Wabtec stockholders are expected to own no more than 49.9% of the outstanding shares of Wabtec common stock, calculated on a fully-diluted, as-converted and as-exercised basis. Therefore, the voting power represented by the shares of Wabtec common stock held by pre-Merger Wabtec stockholders will be lower immediately following the Merger than immediately prior to the Merger. In addition, the issuance of shares of Wabtec common stock pursuant to the Merger may negatively affect the market price of Wabtec common stock.

In addition, if GE elects to effect the Distribution pursuant to a split-off, the GE stockholders that participate in the GE Exchange Offer will be exchanging their shares of GE common stock for a number of Distribution Shares at a discount to the implied value of the SpinCo common stock (based on the per share value of Wabtec common stock multiplied by the exchange ratio set forth in the Merger Agreement) subject to proration if the GE stockholders have validly tendered more shares of GE common stock than GE is offering to accept for exchange. The existence of a discount may negatively affect the market price of Wabtec common stock. See Risk Factors for a further discussion of the material risks associated with the Transactions.

Further, Wabtec will use funds available under the Delayed Draw Term Loan and the proceeds from the issuance of the New Wabtec Notes to pay the Direct Sale Purchase Price. This additional indebtedness could materially and adversely affect the liquidity, results of operations and financial condition of Wabtec. Wabtec also expects to incur significant one-time costs in connection with the Transactions, which may have an adverse impact on Wabtec's liquidity, cash flows and operating results in the periods in which they are incurred. Finally, Wabtec's management will be required to devote a significant amount of time and attention to the process of integrating the operations of Wabtec's business and GE Transportation, as it exists following the Separation. If Wabtec management is not able to manage the integration process effectively, or if any significant business activities are interrupted as a result of the integration process, Wabtec's business could suffer and its stock price may decline.

What is the estimated total value of the consideration to be paid by Wabtec in the Transactions?

Wabtec will pay GE \$2.9 billion in cash as consideration for the Direct Sale. Subject to adjustment under certain circumstances as set forth in the Merger Agreement, Wabtec will issue approximately 98.5 million shares of Wabtec common stock in the Merger. Based upon the reported closing sale price of \$ per share for Wabtec common stock on the NYSE on , 2018, the total value of the shares of Wabtec common stock to be issued by Wabtec in

the Merger would be approximately \$ and the cash to be received by GE in the Transactions, including in respect of the Direct Sale, would be approximately \$. The actual value of the Wabtec common stock to be issued in the Merger will depend on the market price of shares of Wabtec common stock at the time of the Merger.

Are there possible adverse effects on the value of Wabtec common stock ultimately to be received by GE stockholders?

The issuance of shares of Wabtec common stock pursuant to the Merger may affect negatively the market price of Wabtec common stock. The market price of Wabtec common stock also will be affected by the performance of the post-Transaction combined company and other risks associated with the Transactions.

TABLE OF CONTENTS

In addition, if GE elects to effect the Distribution pursuant to a split-off, the GE stockholders that participate in the GE Exchange Offer will be exchanging their shares of GE common stock for a number of Distribution Shares at a discount to the implied value of the SpinCo common stock (based on the per share value of Wabtec common stock multiplied by the exchange ratio set forth in the Merger Agreement) subject to proration if the GE stockholders have validly tendered more shares of GE common stock than GE is offering to accept for exchange. The existence of a discount may negatively affect the market price of Wabtec common stock.

These risks and other risk factors associated with the Transactions are described in more detail in the section of this prospectus-information statement entitled Risk Factors.

How will the Transactions impact the future liquidity and capital resources of Wabtec?

Wabtec and the other Borrowers entered into the Credit Agreement on June 8, 2018, which includes (i) a \$1.2 billion Revolving Credit Facility, (ii) a \$350.0 million Refinancing Term Loan and (iii) a \$400.0 million Delayed Draw Term Loan. Wabtec also obtained Bridge Commitments in respect of the Bridge Loan Facility in an amount not to exceed \$2.5 billion. On September 14, 2018, in accordance with the Commitment Letter, the Bridge Commitments were permanently reduced to \$0 in connection with Wabtec's issuance of \$500 million aggregate principal amount of the Floating Rate Notes, \$750 million aggregate principal amount of the 2024 Notes and \$1.25 billion aggregate principal amount of the 2028 Notes. Wabtec will use funds available under the Delayed Draw Term Loan and the proceeds from the issuance of the New Wabtec Notes to pay the Direct Sale Purchase Price. The Credit Agreement is expected to have approximately \$812 million of unused availability immediately following consummation of the Transactions. In addition, the Credit Agreement contains an uncommitted accordion feature allowing Wabtec to request, in an aggregate amount not to exceed \$600.0 million, increases to the borrowing commitments under the Revolving Credit Facility or a new incremental term loan commitment. See Debt Financing.

Wabtec's debt financing could materially and adversely affect the liquidity, results of operations and financial condition of Wabtec. Wabtec also expects to incur significant one-time costs in connection with the Transactions, which may have an adverse impact on Wabtec's liquidity, cash flows and operating results in the periods in which they are incurred. Finally, Wabtec management will be required to devote a significant amount of time and attention to the process of integrating the operations of Wabtec's business and GE Transportation. If Wabtec management is not able to manage the integration process effectively, or if any significant business activities are interrupted as a result of the integration process, Wabtec's business could suffer and its stock price may decline. See Risk Factors for a further discussion of the material risks associated with the Transactions.

Following the consummation of the Transactions, it is expected that post-Transaction GE Transportation will be owned by Wabtec through SpinCo, which will be a wholly owned subsidiary of Wabtec and will hold the SpinCo Business, and Direct Sale Purchaser, which will also be a wholly owned subsidiary of Wabtec and will hold the assets, potentially including the equity interests in certain pre-Transaction subsidiaries of GE that compose part of GE Transportation, acquired in the Direct Sale and the liabilities assumed in the Direct Sale. Nevertheless, because of the significant assets and operations represented by GE Transportation, Wabtec expects that, following the consummation of the Transaction, SpinCo, Direct Sale Purchaser, and/or other entities through which GE Transportation (as it exists following the Separation) is owned and operated may be required to become guarantors of the indebtedness of the Borrowers under the Credit Agreement, the New Wabtec Notes and Wabtec's existing senior unsecured notes.

What is a modified Reverse Morris Trust transaction?

A Reverse Morris Trust transaction structure typically allows a parent company (here, GE) to divest a business (here, GE Transportation) tax-efficiently. In a typical Reverse Morris Trust transaction, the parent generally will receive a cash payment from the subsidiary to be spun off (an exit dividend), usually financed by new borrowings at the

subsidiary level, after which the parent will divest stock of the subsidiary (here, SpinCo) through a dividend (a spin-off) or exchange offer (a split-off) of the subsidiary stock to parent stockholders. Immediately after the distribution, the subsidiary effects a merger with an unrelated company (here, Wabtec), in a transaction in which the unrelated company's stockholders will hold less than 50% of the capital stock of the combined company immediately after the transaction. In this regard, the Transactions are similar to a traditional Reverse Morris Trust transaction because they include both GE's distribution of SpinCo common stock in the Distribution and SpinCo's substantially simultaneous merger with a subsidiary of Wabtec in the Merger.

TABLE OF CONTENTS

However, the Transactions are referred to in this document as a modified Reverse Morris Trust transaction for two reasons. First, unlike in a typical Reverse Morris Trust transaction, GE's distribution of SpinCo common stock will be preceded by the Direct Sale of certain assets of GE Transportation (and an assumption of certain liabilities of GE Transportation) in exchange for a \$2.9 billion cash payment to GE in lieu of an exit dividend from GE Transportation (which would be typical in a Reverse Morris Trust transaction). Second, while a distribution in a typical Reverse Morris Trust transaction would be tax-free to the parent and its stockholders, here the receipt of stock in the Distribution is intended to be tax-free to the GE stockholders but the transaction is intended to be taxable to GE. For further information, please see the section of this prospectus-information statement entitled Material U.S. Federal Income Tax Consequences of the Distribution and the Merger to GE Stockholders.

By utilizing the Direct Sale rather than having SpinCo incur debt and distribute an exit dividend to GE, the modified Reverse Morris Trust structure should result in tax benefits to Wabtec (including by avoiding certain ambiguities under the depreciation rules in U.S. federal income tax law that otherwise might be relevant), which will be shared between the parties (up to a cap) as realized by Wabtec after the Merger. The Direct Sale also should reduce administrative complexity and financing costs.

How do the Transactions impact Wabtec's dividend policy?

The Transactions are not expected to affect Wabtec's dividend policy. See Summary Historical and Pro Forma Financial Data—Wabtec Dividend Policy for a further discussion of Wabtec's current dividend policy.

What will GE receive in the Transactions?

GE will receive a \$2.9 billion cash payment as consideration for the Direct Sale. Furthermore, following consummation of the Merger, GE is expected to hold approximately 9.9% of the outstanding shares of Wabtec common stock on a fully-diluted, as-converted and as-exercised basis, subject to GE's obligation under (x) the Tax Matters Agreement to sell a number of shares of Wabtec common stock within two years of the Distribution Date (as described in the section of this prospectus-information statement entitled Other Agreements—Tax Matters Agreement) and (y) the Shareholders Agreement to sell, subject to limited exceptions, all of the shares of Wabtec common stock GE beneficially owns within three years of the closing date of the Merger (as described in the section of this prospectus-information statement entitled Other Agreements—Shareholders Agreement).

What will GE stockholders receive in the Transactions?

Following the Separation, GE will distribute all of the Distribution Shares to the holders of GE common stock. Specifically, GE will effect the Distribution by distributing on a *pro rata* basis all of the Distribution Shares to GE stockholders as of the record date for the Distribution. GE will deliver the Distribution Shares to the exchange agent, who will hold such shares for the benefit of GE stockholders. GE stockholders will not be able to trade shares of SpinCo common stock during this period or at any time before or after the consummation of the Merger. In the Merger, each share of SpinCo common stock will be converted into the right to receive a number of shares of Wabtec common stock based on the exchange ratio set forth in the Merger Agreement. The exchange ratio will be determined prior to the closing of the Merger based on the number of shares of Wabtec common stock on a fully-diluted, as-converted and as-exercised basis, on the one hand, and the number of shares of SpinCo common stock, on the other hand, in each case outstanding immediately prior to the effective time of the Merger, such that the stockholders of SpinCo (including GE) will own shares of Wabtec common stock representing 50.1% of the shares of Wabtec common stock outstanding immediately following the Merger on a fully-diluted, as-converted and as-exercised basis. As described in the Merger Agreement, the exchange ratio equals the quotient of (a) the aggregate number of shares of Wabtec common stock outstanding immediately prior to the effective time of the Merger on a fully-diluted, as-converted and as-exercised basis multiplied by the quotient of 50.1% divided by 49.9%, divided by (b) the number

of shares of SpinCo common stock outstanding immediately prior to the effective time of the Merger.

Based on the number of shares of GE common stock outstanding and the number of shares of Wabtec common stock outstanding, calculated on a fully-diluted, as-converted and as-exercised basis, in each case as of June 30, 2018, and assuming that GE distributes 80.25% of the outstanding shares of SpinCo common stock to GE stockholders in the Distribution, if the Merger had occurred on June 30, 2018, a GE stockholder would have

TABLE OF CONTENTS

received 1 share of Wabtec common stock for every approximately 110 shares of GE common stock held by such GE stockholder on the record date for the Distribution (approximately 0.00909 shares of Wabtec common stock for each share of GE common stock).

GE has the option, however, to effect the Distribution pursuant to a split-off. In the event GE elects to effect the Distribution pursuant to a split-off, GE would offer to holders of GE common stock the right to exchange all or a portion of their GE common stock for a number of Distribution Shares (which, in the aggregate, may be less than all of the Distribution Shares) at a discount to the implied value of the SpinCo common stock (based on the per-share value of Wabtec common stock multiplied by the exchange ratio set forth in the Merger Agreement), subject to proration if the GE stockholders have validly tendered more shares of GE common stock than GE is offering to accept for exchange. In the event the GE Exchange Offer is consummated, GE would distribute the remaining Distribution Shares, if any, on a *pro rata* basis to GE stockholders whose shares of GE common stock remain outstanding after the consummation of the GE Exchange Offer.

Are there any conditions to the consummation of the Transactions?

Yes. The consummation of the Transactions is subject to a number of conditions, including:

- the approval by Wabtec stockholders of the Share Issuance;
- the approval by Wabtec stockholders of the Wabtec Charter Amendment;
- the termination or expiration of the applicable waiting period under the HSR Act;
- the taking, making or obtaining of all material actions by, consents or approvals of, or in respect of or filings with any governmental authority required to permit the Transactions;
- the effectiveness under the Securities Act of SpinCo's registration statement on Form 10 or such Form(s) as shall be required under applicable SEC rules and Wabtec's registration statement on Form S-4, and the absence of any stop order issued by the SEC or any pending proceeding before the SEC seeking a stop order with respect thereto;
- the receipt of the GE Tax Opinions and the Wabtec Tax Opinion by GE and Wabtec, respectively;
- the receipt of the Direct Sale Purchase Price by GE;
- the completion of the various transaction steps contemplated by the Merger Agreement and the Separation Agreement, including the International Reorganization, the Direct Sale, the SpinCo Transfer and the Distribution; and
- other customary conditions.

To the extent permitted by applicable law, GE and SpinCo, on the one hand, and Wabtec and Merger Sub, on the other hand, may waive the satisfaction of the conditions to their respective obligations to consummate the Transactions. If Wabtec waives the satisfaction of a material condition to the consummation of the Transactions, Wabtec will evaluate the facts and circumstances at that time and re-solicit stockholder approval of the Share Issuance and the Wabtec Charter Amendment if required to do so by law or the rules of the NYSE.

This prospectus-information statement describes these conditions in more detail under The Merger Agreement—Conditions to the Merger.

When will the Transactions be completed?

The Transactions are expected to be completed by early 2019, subject to customary closing conditions, as described in this prospectus-information statement. However, it is possible that the Transactions could be completed at an earlier time, at a later time or not at all. The Merger Agreement provides that GE or Wabtec may terminate the Merger Agreement if the Merger is not consummated on or before May 20, 2019 (the one-year anniversary of the date of the Merger Agreement) subject to extension to August 20, 2019 (the fifteen-month anniversary of the date of the Merger Agreement), upon either Wabtec's or GE's written request, if the only reason that the Transactions have not closed is due to certain conditions relating to regulatory approvals having not yet been satisfied. For a discussion of the

conditions to consummate of the Transactions and the circumstances under which the Merger Agreement may be terminated by the parties, see The Merger Agreement—Conditions to the Merger and The Merger Agreement—Termination, respectively.

TABLE OF CONTENTS

Are there risks associated with the Transactions?

Yes. The material risks and uncertainties associated with the Transactions are discussed in the section of this prospectus-information statement entitled “Risk Factors” and the section of this prospectus-information statement entitled “Cautionary Statement on Forward-Looking Statements.” Those risks include, among others, the possibility that the Transactions will not be completed on the contemplated timeline or at all, the possibility that integration may not be successful or anticipated benefits of the Transactions may not be realized, uncertainty about the impact of the Transactions and related costs on the value of Wabtec common stock, the impact of reduced ownership and voting power for existing holders of Wabtec common stock, the impact of increased leverage on Wabtec’s financial condition, results of operations and cash flows, and the possibility that Wabtec may be unable to provide certain benefits, services and resources to GE Transportation that historically have been provided by GE.

What stockholder approvals are needed in connection with the Transactions?

Under the terms of the Merger Agreement, Wabtec has agreed to hold a special meeting of its stockholders for the purpose of voting upon the following proposals: (i) to authorize the issuance of Wabtec common stock in the Merger (the “Share Issuance”) and (ii) to amend the Wabtec Charter to increase the number of authorized shares of common stock from 200 million to 500 million (the “Wabtec Charter Amendment”). Wabtec cannot complete the Transactions unless the proposal relating to the Share Issuance is approved by a majority of votes cast by Wabtec stockholders on the Share Issuance proposal at the special meeting and the proposal relating to the Wabtec Charter Amendment is approved by a majority of outstanding shares of Wabtec common stock.

Where will the Wabtec shares to be issued in the Merger be listed?

Wabtec common stock is listed on the NYSE under the symbol “WAB.” After the consummation of the Transactions, all shares of Wabtec common stock issued in the Merger, and all other outstanding shares of Wabtec common stock, will continue to be listed on the NYSE and trade under the same symbol.

Will there be any change to the Wabtec Board or executive officers of Wabtec after the consummation of the Transactions?

Yes. In connection with the Transactions, the size of the Wabtec Board will be increased to include three additional directors, each of whom is required to be independent as defined in the listing standards of the NYSE, to be designated as nominees by GE (subject to the nominees being reasonably acceptable to the Nominating and Corporate Governance Committee of the Wabtec Board), effective at the time of closing of the Merger. The Merger Agreement provides that, at the direction of GE, the GE designees will be assigned among the Wabtec Board’s classes of directors so that one GE designee is appointed to the class of directors that is up for reelection at each of the first three annual meetings of Wabtec stockholders that occurs after the closing of the Merger. Additionally, in certain circumstances (see “The Merger Agreement—Post-Closing Wabtec Board of Directors and Officers”), the Wabtec Board will take all actions necessary to include the GE designee up for reelection at the first annual meeting of Wabtec stockholders that occurs after the closing of the Merger as nominee for the Wabtec Board at such annual meeting, to recommend that Wabtec stockholders vote in favor of the GE designee and to support the election of the GE designee at such annual meeting. The executive officers of Wabtec immediately prior to consummation of the Merger are generally expected to be the executive officers of Wabtec immediately following consummation of the Merger, with Albert J. Neupaver remaining as Wabtec’s executive chairman and Raymond T. Betler remaining as Wabtec’s president and CEO. Following consummation of the Transactions, Stéphane Rambaud-Measson will become president and CEO of Wabtec’s Transit Segment and Rafael O. Santana, president and CEO of GE Transportation, will become president and CEO of Wabtec’s Freight Segment.

Do GE stockholders have to vote to approve the Transactions?

No. GE stockholders are not required to vote on the proposed Transactions. GE is not asking its stockholders for a proxy, and GE stockholders are requested not to send a proxy to GE.

Have any Wabtec stockholders already agreed to vote for the Share Issuance and the Wabtec Charter Amendment?

Yes. Certain stockholders, directors and officers of Wabtec beneficially owning approximately 10.9% of the outstanding shares of Wabtec common stock entered into a Voting Agreement with GE under which these persons agreed to vote in favor of the Share Issuance proposal and the Wabtec Charter Amendment proposal. The parties

TABLE OF CONTENTS

to the Voting Agreement are subject to certain other agreements, including restrictions on their ability to transfer their shares prior to the earlier of the special meeting of Wabtec stockholders to approve these proposals and the termination of the Voting Agreement. See Other Agreements—The Voting Agreement.

Can Wabtec stockholders dissent and require appraisal of their shares?

No.

Will the instruments that govern the rights of Wabtec stockholders with respect to their shares of Wabtec common stock after the consummation of the Transactions be different from those that govern the rights of current Wabtec stockholders?

No. The only proposed change is to increase the number of authorized shares of common stock from 200 million to 500 million. The rights of Wabtec stockholders with respect to their shares of Wabtec common stock after the consummation of the Transactions will otherwise continue.

Where can I find more information about Wabtec and GE Transportation?

Wabtec and GE stockholders can find more information about Wabtec and GE Transportation in Information on Wabtec and Information on GE Transportation and from the various sources described in Where You Can Find More Information; Incorporation by Reference.

Questions and Answers for GE Stockholders

Why am I receiving this document?

You are receiving this prospectus-information statement because you are a holder of GE common stock. If you are a holder of GE common stock as of the close of business on _____, _____ which is the record date of the Distribution, you will be entitled to receive a number of shares of SpinCo common stock with respect to each share of GE common stock that you held as of the close of business on such date, in accordance with a distribution ratio to be determined by GE prior to the Distribution.

Each issued and outstanding share of SpinCo common stock will be converted in the Merger into the right to receive a number of shares of Wabtec common stock based on the exchange ratio set forth in the Merger Agreement, as described in the section of this prospectus-information statement entitled The Merger Agreement—Merger Consideration. This prospectus-information statement will help you understand the Transactions and your investment in Wabtec after the Merger.

What will GE stockholders be entitled to receive pursuant to the Distribution and the Merger?

It is currently expected that approximately 6,981,750,000 shares of SpinCo common stock will be distributed to GE stockholders in connection with the Distribution, and, pursuant to the Merger, each share of SpinCo common stock will be converted into the right to receive a number of fully paid and non-assessable shares of Wabtec common stock equal to the exchange ratio set forth in the Merger Agreement. The exchange ratio will be determined prior to the closing of the Merger based on the number of shares of Wabtec common stock on a fully-diluted, as-converted and as-exercised basis, on the one hand, and the number of shares of SpinCo common stock, on the other hand, in each case outstanding immediately prior to the effective time of the Merger, such that the stockholders of SpinCo (including GE) will own shares of Wabtec common stock representing 50.1% of the shares of Wabtec common stock outstanding immediately following the Merger on a fully-diluted, as-converted and as-exercised basis. As described in

the Merger Agreement, the exchange ratio equals the quotient of (a) the aggregate number of shares of Wabtec common stock outstanding immediately prior to the effective time of the Merger on a fully-diluted, as-converted and as-exercised basis multiplied by the quotient of 50.1% divided by 49.9%, divided by (b) the number of shares of SpinCo common stock outstanding immediately prior to the effective time of the Merger.

As a result, if the Merger had occurred on June 30, 2018, a GE stockholder would have received 1 share of Wabtec common stock for every approximately 110 shares of GE common stock held by such GE stockholder on the record date for the Distribution (approximately 0.00909 shares of Wabtec common stock for each share of GE common stock). The actual number of shares of Wabtec common stock that GE stockholders will receive with respect to each share of GE common stock will be determined based on the number of shares of GE

TABLE OF CONTENTS

common stock outstanding on the record date and the number of shares of Wabtec common stock outstanding, calculated on fully-diluted, as-converted and as-exercised basis, as of the effective time of the Merger. Therefore, the actual number of shares of Wabtec common stock that GE stockholders will be entitled to receive in the Merger may be higher or lower if the number of outstanding shares of GE common stock and Wabtec common stock, calculated on a fully-diluted, as-converted and as-exercised basis, changes for any reason.

Based upon the reported closing sale price of \$ per share for Wabtec common stock on the NYSE on , 2018, the approximate value that holders of GE common stock will receive in the Merger will equal \$ billion in the aggregate and \$ per share of GE common stock they own on , 2018. However, any change in the market value of Wabtec common stock at the effective time of the Merger, the number of shares of Wabtec common stock, calculated on a fully-diluted, as-converted and as-exercised basis, outstanding at the effective time of the Merger or the number of shares of GE common stock outstanding and entitled to receive SpinCo common stock in the Distribution will cause the estimated per share value GE stockholders receive in the Merger to change. Also, those GE stockholders who would otherwise receive a fractional share of Wabtec common stock pursuant to the Merger may receive a different per share value with respect to fractional shares when those fractional shares are liquidated by the exchange agent. See The Merger Agreement—Merger Consideration.

Will fractional shares of Wabtec common stock be issued in the Transactions?

No. No fractional shares of Wabtec common stock will be delivered to SpinCo stockholders. Following the Transactions, you will receive cash in lieu of any fractional Wabtec common stock that you would have otherwise received. See The Merger Agreement—Merger Consideration.

Has GE set a record date for the Distribution?

No. GE will publicly announce the record date for the Distribution when the record date has been determined. This announcement will be made prior to the completion of the Distribution and the Merger.

What will happen to the shares of GE common stock owned by GE stockholders?

Holders of GE common stock will retain all of their shares of GE common stock. The Distribution will not affect the number of outstanding shares of GE common stock or any rights of GE stockholders.

How will shares of Wabtec common stock be distributed to GE stockholders?

Holders of GE common stock on the record date for the Distribution will receive shares of Wabtec common stock in book-entry form. GE stockholders of record will receive additional information from the exchange agent shortly after the Distribution. Beneficial holders will receive information from their brokerage firms or other nominees.

Will GE stockholders who sell their shares of GE common stock shortly before the completion of the Distribution and the Merger still be entitled to receive shares of Wabtec common stock with respect to the shares of GE common stock that were sold?

It is currently expected that beginning two business days before the record date to be established for the Distribution, and continuing through the closing date of the Merger (or the previous business day, if the Merger closes before the opening of trading in GE common stock and Wabtec common stock on the New York Stock Exchange on the closing date), there will be two markets in GE common stock on the New York Stock Exchange: a regular way market and an ex-distribution market.

If a GE stockholder sells shares of GE common stock in the regular way market under the ticker symbol GE during this time period, that GE stockholder will be selling both his or her shares of GE common stock and the right (represented by a due-bill) to receive shares of SpinCo common stock in the Distribution that will be converted into the right to receive shares of Wabtec common stock, and cash in lieu of fractional shares (if any), at the closing of the Merger. GE stockholders should consult their brokers before selling their shares of GE common stock in the regular way market during this time period to be sure they understand the effect of the New York Stock Exchange s due-bill procedures. The due-bill process is not managed, operated or controlled by GE or Wabtec.

TABLE OF CONTENTS

If a GE stockholder sells shares of GE common stock in the ex-distribution market during this time period, that GE stockholder will be selling only his or her shares of GE common stock, and will retain the right to receive shares of SpinCo common stock in the Distribution that will be converted into the right to receive shares of Wabtec common stock, and cash in lieu of fractional shares (if any), at the closing of the Merger. It is currently expected that ex-distribution trades of GE common stock will settle within two business days after the closing date of the Merger and that if the Merger is not completed all trades in this ex-distribution market will be cancelled.

After the closing date of the Merger, shares of GE common stock will no longer trade in this ex-distribution market, and shares of GE common stock that are sold in the regular way market will no longer reflect the right to receive shares of SpinCo common stock in the Distribution that will be converted into the right to receive shares of Wabtec common stock, and cash in lieu of fractional shares (if any), at the closing of the Merger.

May GE stockholders sell the shares of Wabtec common stock which they are entitled to receive in the Merger prior to receiving those shares of Wabtec common stock?

It is currently expected that beginning two business days before the record date to be established for the Distribution, and continuing through the closing date of the Merger (or the previous business day, if the Merger closes before the opening of trading in GE common stock and Wabtec common stock on the New York Stock Exchange on the closing date), there will be two markets in Wabtec common stock on the New York Stock Exchange: a regular way market and a when issued market.

The regular way market will be the regular trading market for issued shares of Wabtec common stock under the ticker symbol WAB.

The when issued market will be a market for the shares of Wabtec common stock that will be issued to GE stockholders at the closing of the Merger. If a GE stockholder sells shares of Wabtec common stock in the when issued market during this time period, that GE stockholder will be selling his or her right to receive shares of SpinCo common stock in the Distribution that will be converted into the right to receive shares of Wabtec common stock, and cash in lieu of fractional shares (if any), at the closing of the Merger. It is currently expected that when issued trades of Wabtec common stock will settle within two business days after the closing date of the Merger and that if the Merger is not completed, all trades in this when issued market will be cancelled. After the closing date of the Merger, shares of Wabtec common stock will no longer trade in this when issued market.

Are GE stockholders required to do anything?

GE stockholders are not required to take any action to approve the Separation, the Distribution or the Merger. However, GE stockholders should carefully read this prospectus-information statement, which contains important information about the Separation, the Distribution, the Merger, GE Transportation and Wabtec. After the Merger, Wabtec will mail to holders of GE common stock who are entitled to receive shares of Wabtec common stock pursuant to the Merger as of the record date, book-entry statements evidencing their ownership of Wabtec common stock, cash payments in lieu of fractional shares (if any) and related tax information, and other information regarding their receipt of shares of Wabtec common stock. Beneficial holders will receive information from their brokerage firms or other nominees.

GE STOCKHOLDERS WILL NOT BE REQUIRED TO SURRENDER THEIR SHARES OF GE COMMON STOCK IN THE DISTRIBUTION OR THE MERGER AND THEY SHOULD NOT RETURN THEIR GE STOCK CERTIFICATES. THE TRANSACTIONS WILL NOT RESULT IN ANY CHANGE IN GE STOCKHOLDERS' OWNERSHIP OF GE COMMON STOCK FOLLOWING THE MERGER.

TABLE OF CONTENTS

SUMMARY

The following summary contains certain information described in more detail elsewhere in this prospectus-information statement. It does not contain all the details concerning the Transactions, including information that may be important to you. To better understand the Transactions, you should carefully review this entire prospectus-information statement and the documents it refers to. See Where You Can Find More Information; Incorporation by Reference.

The Companies

Westinghouse Air Brake Technologies Corporation
1001 Air Brake Avenue
Wilmerding, PA 15148

Westinghouse Air Brake Technologies Corporation, doing business as Wabtec Corporation, is a Delaware corporation with headquarters in Wilmerding, Pennsylvania. George Westinghouse founded the original Westinghouse Air Brake Co. in 1869 when he invented the air brake. Westinghouse Air Brake Company was formed in 1990 when it acquired certain assets and operations from American Standard, Inc., now known as Trane. The company went public on the New York Stock Exchange in 1995. In 1999, the company merged with MotivePower Industries, Inc. and adopted the name Wabtec. In 2017, Wabtec acquired Faiveley Transport, S.A. (Faiveley Transport), a leading provider of value-added, integrated systems and services, principally for the global transit rail market. Today, Wabtec is one of the largest providers of value-added, technology-based equipment, systems and services for the global passenger transit and freight rail industries. Through its subsidiaries, Wabtec manufactures a range of products for locomotives, freight cars and passenger transit vehicles. Wabtec also builds new switcher and commuter locomotives, and provides aftermarket services. Wabtec has roughly 18,000 employees and facilities located throughout the world.

Wabtec US Rail Holdings, Inc.
c/o Westinghouse Air Brake Technologies Corporation
1001 Air Brake Avenue
Wilmerding, PA 15148

Wabtec US Rail Holdings, Inc., a Delaware corporation, referred to in this prospectus-information statement as Merger Sub, is a direct, wholly owned subsidiary of Wabtec that was organized specifically for the purpose of completing the Merger. Merger Sub has engaged in no business activities to date and it has no material assets or liabilities of any kind, other than those incident to its formation and in connection with the Transactions.

Wabtec US Rail, Inc.
c/o Westinghouse Air Brake Technologies Corporation
1001 Air Brake Avenue
Wilmerding, PA 15148

Wabtec US Rail, Inc., a Delaware corporation, referred to in this prospectus-information statement as Direct Sale Purchaser, is a direct, wholly owned subsidiary of Wabtec that was organized specifically for the purpose of completing the Direct Sale. Direct Sale Purchaser has engaged in no business activities to date and it has no material assets or liabilities of any kind, other than those incident to its formation and in connection with the Transactions.

General Electric Company
41 Farnsworth Street
Boston, MA 02210

General Electric Company, is a New York corporation, with its principal executive offices in Boston, Massachusetts. GE is a global digital industrial company, transforming industry with software-defined machines and solutions that are connected, responsive and predictive. With products and services ranging from aircraft engines, power generation and oil and gas production equipment to medical imaging, financing and industrial products, GE serves customers in over 180 countries and employed approximately 313,000 people worldwide as of December 31, 2017. Since its incorporation in 1892, GE has developed or acquired new technologies and services that have considerably broadened and changed the scope of its activities.

TABLE OF CONTENTS

Transportation Systems Holdings Inc.
c/o General Electric Company
41 Farnsworth Street
Boston, MA 02210

Transportation Systems Holdings Inc., a Delaware corporation, referred to in this prospectus-information statement as SpinCo, is a direct, wholly owned subsidiary of GE that was organized specifically for the purpose of housing the SpinCo Business and effecting the Merger. SpinCo has engaged in no business activities to date and it has no material assets or liabilities of any kind, other than those incident to its formation and in connection with the Transactions. Prior to the closing of the Distribution and the Direct Sale, GE and SpinCo will own, directly and, indirectly, GE Transportation. GE Transportation is a global technology leader and supplier to the railroad, mining, marine, stationary power and drilling industries.

The Transactions

GE, Wabtec, SpinCo and Merger Sub, entered into the Merger Agreement on May 20, 2018, and GE, SpinCo, Wabtec and Direct Sale Purchaser entered into the Separation Agreement on May 20, 2018, which together provide for the combination of Wabtec and GE Transportation through a modified Reverse Morris Trust transaction structure. In connection with the Separation of GE Transportation from the remaining business of GE, GE will conduct the Internal Reorganization.

In connection with the Direct Sale, certain assets of GE Transportation, potentially including the equity interests of certain pre-Transaction subsidiaries of GE that compose part of GE Transportation, will be sold to Direct Sale Purchaser for a cash payment of \$2.9 billion, and Direct Sale Purchaser will assume certain liabilities of GE Transportation in connection with this purchase. Thereafter, GE will transfer the SpinCo Business to SpinCo and its subsidiaries (to the extent not already held by SpinCo and its subsidiaries) in the SpinCo Transfer, and SpinCo will issue to GE additional shares of SpinCo common stock. Following this issuance of additional SpinCo common stock to GE, GE will own 8,700,000,000 shares of SpinCo common stock, or such other amount as GE shall determine with Wabtec's consent, which will constitute all of the outstanding stock of SpinCo.

GE will effect the Distribution by distributing on a *pro rata* basis all of the Distribution Shares to GE stockholders as of the record date for the Distribution. GE will deliver the Distribution Shares to the exchange agent, who will hold such shares for the benefit of GE stockholders. GE has the option, however, to effect the Distribution pursuant to a split-off. In the event GE elects to effect the Distribution pursuant to a split-off, GE would offer to holders of GE common stock the right to exchange all or a portion of their GE common stock for a number of Distribution Shares (which, in the aggregate, may be less than all of the Distribution Shares) at a discount to the implied value of the SpinCo common stock (based on the per-share value of Wabtec common stock multiplied by the exchange ratio set forth in the Merger Agreement), subject to proration if the GE stockholders have validly tendered more shares of GE common stock than GE is offering to accept for exchange. In the event the GE Exchange Offer is consummated, GE would distribute the remaining Distribution Shares, if any, on a *pro rata* basis to GE stockholders whose shares of GE common stock remain outstanding after the consummation of the GE Exchange Offer.

Immediately after the Distribution and on the closing date of the Merger, Merger Sub will merge with and into SpinCo, whereby the separate corporate existence of Merger Sub will cease and SpinCo will continue as the surviving company and a wholly owned subsidiary of Wabtec. In the Merger, subject to adjustment in accordance with the Merger Agreement, each share of SpinCo common stock will be converted into the right to receive a number of shares of Wabtec common stock based on the exchange ratio set forth in the Merger Agreement. The exchange ratio will be determined prior to the closing of the Merger based on the number of shares of Wabtec common stock on a fully-diluted, as-converted and as-exercised basis, on the one hand, and the number of shares of SpinCo common

stock, on the other hand, in each case outstanding immediately prior to the effective time of the Merger, such that the stockholders of SpinCo (including GE) will own shares of Wabtec common stock representing 50.1% of the shares of Wabtec common stock outstanding immediately following the Merger on a fully-diluted, as-converted and as-exercised basis. As described in the Merger Agreement, the exchange ratio equals the quotient of (a) the aggregate number of shares of Wabtec common stock outstanding immediately prior to the effective time of the Merger on a fully-diluted, as-converted and as-exercised basis multiplied by the quotient of 50.1% divided by 49.9%, divided by (b) the number of shares of SpinCo common stock outstanding immediately prior to the effective time of the Merger.

TABLE OF CONTENTS

Upon consummation of the Merger and calculated based on Wabtec's outstanding common stock immediately prior to the Merger on a fully-diluted, as-converted and as-exercised basis, 50.1% of the outstanding shares of Wabtec common stock would be held collectively by GE and pre-Merger holders of GE common stock (with approximately 9.9% of the outstanding shares of Wabtec common stock expected to be held by GE) and 49.9% of the outstanding shares of Wabtec common stock would be held by pre-Merger Wabtec stockholders. The shares held by GE will be subject to GE's obligations under (x) the Tax Matters Agreement to sell a number of shares of Wabtec common stock within two years of the Distribution Date (as described in the section of this prospectus-information statement entitled "Other Agreements—Tax Matters Agreement") and (y) the Shareholders Agreement to sell, subject to limited exceptions, all of the shares of Wabtec common stock GE beneficially owns within three years of the closing date of the Merger and prior thereto, to vote all of such shares in the proportion required under the Shareholders Agreement (as described in the section of this prospectus-information statement entitled "Other Agreements—Shareholders Agreement").

Subject to adjustment under certain circumstances as set forth in the Merger Agreement, Wabtec will issue approximately 98.5 million shares of Wabtec common stock in the Merger. Based upon the reported closing sale price of \$ _____ per share for Wabtec common stock on the NYSE on _____, 2018, the total value of the shares of Wabtec common stock to be issued by Wabtec in the Merger would be approximately \$ _____ and the cash to be received by GE in the Transactions, including in respect of the Direct Sale, would be approximately \$ _____. The actual value of the Wabtec common stock to be issued in the Merger will depend on the market price of shares of Wabtec common stock at the time of the Merger.

After the Merger, Wabtec will own and operate the SpinCo Business and the assets acquired in the Direct Sale. It is anticipated that SpinCo, which will be Wabtec's wholly owned subsidiary, will hold the SpinCo Business and Direct Sale Purchaser, which will also be Wabtec's wholly owned subsidiary, will hold the assets purchased and the liabilities assumed in connection with the Direct Sale. Together, SpinCo and Direct Sale Purchaser will own and operate post-Transaction GE Transportation. Wabtec will also continue its current businesses. All shares of Wabtec common stock, including those issued in the Merger, will be listed on the NYSE under Wabtec's current trading symbol WAB.

Set forth below are diagrams that graphically illustrate, in simplified form, (i) the existing corporate structures, (ii) the corporate structures immediately following the Direct Sale, the SpinCo Transfer and the Distribution but before the Merger and (iii) the corporate structures immediately following the consummation of the Merger. A step-by-step description of material events relating to the Transactions is set forth under "The Transactions."

TABLE OF CONTENTS

Existing Structure

Structure following the Separation (including the Internal Reorganization), the Direct Sale, the SpinCo Transfer and the Distribution but prior to the Merger

TABLE OF CONTENTS

Structure following the Merger

After completion of all of the steps described in the section of this prospectus-information statement entitled “The Transactions,” it is anticipated that SpinCo, which will be Wabtec’s wholly owned subsidiary, will hold the SpinCo Business and Direct Sale Purchaser, which will also be Wabtec’s wholly owned subsidiary, will hold the assets purchased and the liabilities assumed in connection with the Direct Sale. Together, SpinCo and Direct Sale Purchaser will own and operate the post-Transaction GE Transportation.

In connection with the Transactions, on the date of the Distribution, GE or its subsidiaries and SpinCo or the SpinCo Transferred Subsidiaries will enter into the Additional Agreements relating to, among other things, intellectual property, employee matters, tax matters, research and development and transition services. See “Other Agreements.”

Determination of Number of Shares of SpinCo Common Stock to be Distributed to GE Stockholders

Immediately prior to the Distribution, the total number of shares of SpinCo common stock outstanding will equal 8,700,000,000 shares or such other amount as GE shall determine with Wabtec’s consent. GE is expected to retain 19.75% of the outstanding shares of SpinCo common stock. Accordingly, assuming that there are outstanding 8,700,000,000 shares of SpinCo common stock immediately prior to the Distribution, the total number of shares of SpinCo common stock to be distributed to holders of GE common stock as a *pro rata* dividend will be equal to 6,981,750,000 shares. The actual number of shares of SpinCo common stock to be distributed to GE stockholders, and the actual number of shares of SpinCo common stock to be retained by GE, will be determined by GE prior to the Distribution. All shares of SpinCo common stock will be converted into the right to receive shares of Wabtec common stock at the effective time of the Merger. See “The Transactions—Determination of Number of Shares of SpinCo Common Stock to be Distributed to GE Stockholders.”

Based on the number of shares of GE common stock outstanding and the number of shares of Wabtec common stock outstanding, calculated on a fully-diluted, as-converted and as-exercised basis, in each case as of June 30, 2018, and assuming that GE distributes 80.25% of the outstanding shares of SpinCo common stock to GE stockholders in the Distribution, if the Merger had occurred on June 30, 2018, a GE stockholder would have received 1 share of Wabtec common stock for every approximately 110 shares of GE common stock held by such GE stockholder on the record date for the Distribution (approximately 0.00909 shares of Wabtec common stock for each share of GE common stock).

TABLE OF CONTENTS

Opinion of Wabtec's Financial Advisor

Goldman Sachs & Co. LLC ("Goldman Sachs") rendered to the Wabtec Board its oral opinion, which was subsequently confirmed by delivery of a written opinion, dated May 20, 2018, that, as of the date of such written opinion and based upon and subject to the factors and assumptions as set forth in such written opinion, the Aggregate Consideration (as defined below) to be paid by Wabtec pursuant to the Merger Agreement was fair from a financial point of view to Wabtec. For purposes of Goldman Sachs' financial analyses and opinion, the term "Aggregate Consideration" means (i) the Share Issuance, (ii) the Direct Sale Purchase Price, as adjusted pursuant to the Separation Agreement, and (iii) the payments relating to the Company Structure Benefits (as defined in the Tax Matters Agreement) pursuant to Section 13 of the Tax Matters Agreement (the "TMA Payments").

The full text of the written opinion of Goldman Sachs, dated May 20, 2018, which sets forth assumptions made, procedures followed, matters considered and limitations on the review undertaken in connection with the opinion, is attached as Exhibit 99.1 to the registration statement of which this prospectus-information statement forms a part. Goldman Sachs provided advisory services and its opinion for the information and assistance of the Wabtec Board in connection with its consideration of the Transactions. The Goldman Sachs opinion is not a recommendation as to how any holder of shares of Wabtec common stock should vote with respect to the Share Issuance, the Wabtec Charter Amendment or any other matter. Pursuant to an engagement letter between Wabtec and Goldman Sachs, Wabtec has agreed to pay Goldman Sachs a transaction fee of \$32 million plus a discretionary fee of up to \$4 million, all of which is contingent upon consummation of the Transactions. See "The Transactions—Opinion of Wabtec's Financial Advisor" for further information.

Debt Financing

On May 20, 2018, in connection with their entry into the Merger Agreement, Wabtec entered into the Commitment Letter with the Commitment Parties pursuant to which the Commitment Parties agreed to provide debt financing to Wabtec, including financing for the Direct Sale Purchase Price. Wabtec and the other Borrowers entered into the Credit Agreement on June 8, 2018, which includes (i) a \$1.2 billion Revolving Credit Facility, (ii) a \$350.0 million Refinancing Term Loan and (iii) a \$400.0 million Delayed Draw Term Loan. Wabtec also obtained Bridge Commitments in respect of the Bridge Loan Facility in an amount not to exceed \$2.5 billion. On September 14, 2018, in accordance with the Commitment Letter, the Bridge Commitments were permanently reduced to \$0 in connection with Wabtec's issuance of \$500 million aggregate principal amount of the Floating Rate Notes, \$750 million aggregate principal amount of the 2024 Notes and \$1.25 billion aggregate principal amount of the 2028 Notes. Wabtec will use funds available under the Delayed Draw Term Loan and the proceeds from the issuance of the New Wabtec Notes to pay the Direct Sale Purchase Price. The Credit Agreement is expected to have approximately \$812 million of unused availability immediately following consummation of the Transactions. See "Debt Financing" for further information.

Interests of GE's and SpinCo's Directors and Executive Officers in the Transactions

Directors and executive officers of GE or SpinCo who own shares of GE common stock will have the right to participate in the Distribution and the Merger on the same terms as other GE stockholders. Executive officers of SpinCo are eligible for incentive payments, accelerated vesting of equity awards and retirement benefits in connection with the Transactions. In addition, Wabtec is in the process of documenting the terms of an employment contract with Mr. Santana that will be entered into prior to the closing of the Merger and that will provide for Mr. Santana's entitlement to base salary, annual bonus opportunity and equity incentive awards. See "The Transactions—Interests of GE's and SpinCo's Directors and Executive Officers in the Transactions" for further information.

Interests of Wabtec's Directors and Executive Officers in the Transactions

Wabtec directors and executive officers have financial interests in the Transactions that are different from, or in addition to, the interests of Wabtec stockholders generally. The members of the Wabtec Board were aware of and considered these interests, among other matters, in deciding to approve the terms of the Merger Agreement and the Transactions, including the Merger, and in recommending to Wabtec stockholders that they vote to approve the Share Issuance and the Wabtec Charter Amendment. See The Transactions—Interests of Wabtec’s Directors and Executive Officers in the Transactions for further information.

Board of Directors and Management of Wabtec Following the Transactions

Following the consummation of the Distribution, Merger Sub will merge with and into SpinCo, whereby the separate corporate existence of Merger Sub will cease and SpinCo will continue as the surviving company and a wholly owned

TABLE OF CONTENTS

subsidiary of Wabtec. Directors of Wabtec serving on the Wabtec Board immediately before the consummation of the Merger are expected to continue to serve as directors of Wabtec immediately following the closing of the Merger. In connection with the Transactions, the size of the Wabtec Board will be increased to include three additional directors, each of whom is required to be independent as defined in the listing standards of the NYSE, to be designated as nominees by GE (subject to the nominees being reasonably acceptable to the Nominating and Corporate Governance Committee of the Wabtec Board), effective at the time of closing of the Merger. The Merger Agreement provides that, at the direction of GE, the GE designees will be assigned among the Wabtec Board's classes of directors so that one GE designee is appointed to the class of directors that is up for reelection at each of the first three annual meetings of Wabtec stockholders that occurs after the closing of the Merger.

Additionally, in certain circumstances (see The Merger Agreement – Post-Closing Wabtec Board of Directors and Officers), the Wabtec Board will take all actions necessary to include the GE designee up for reelection at the first annual meeting of Wabtec stockholders that occurs after the closing of the Merger as nominee for the Wabtec Board at such annual meeting, to recommend that Wabtec stockholders vote in favor of the GE designee and to support the election of the GE designee at such annual meeting. The executive officers of Wabtec immediately prior to consummation of the Merger are generally expected to be the executive officers of Wabtec immediately following consummation of the Merger, with Albert J. Neupaver remaining as Wabtec's executive chairman and Raymond T. Betler remaining as Wabtec's president and CEO. Following consummation of the Transactions, Stéphane Rambaud-Measson will become president and CEO of Wabtec's Transit Segment and Rafael O. Santana, president and CEO of GE Transportation, will become president and CEO of Wabtec's Freight Segment.

Wabtec Stockholder Approval

Wabtec cannot complete the Transactions unless the proposal relating to the Share Issuance is approved by a majority of votes cast by Wabtec stockholders on the proposal at the special meeting, either in person or by proxy (assuming a quorum is present), and the Wabtec Charter Amendment is approved by a majority of outstanding shares of Wabtec common stock.

Wabtec Stockholders Meeting

Under the terms of the Merger Agreement, Wabtec has agreed to call, give notice of, convene and hold a special meeting of its stockholders for the purpose of voting upon the proposals to approve the Share Issuance and the Wabtec Charter Amendment. The Wabtec Board has called a special meeting of Wabtec stockholders to be held on , 2018, for Wabtec stockholders of record on , 2018. The definitive proxy statement was mailed to Wabtec stockholders on or about , 2018.

Wabtec's directors and executive officers held approximately % of the shares entitled to vote at Wabtec's special meeting of stockholders as of , 2018. GE's and SpinCo's directors, executive officers and their affiliates owned an aggregate of approximately % of the shares of Wabtec common stock entitled to vote at Wabtec's special meeting of stockholders as of , 2018.

Certain stockholders, directors and officers of Wabtec beneficially owning approximately 10.9% of the outstanding shares of Wabtec common stock entered into a Voting Agreement with GE under which these persons agreed to vote in favor of the Share Issuance proposal and the Wabtec Charter Amendment proposal. The parties to the Voting Agreement are subject to certain other agreements, including restrictions on their ability to transfer their shares prior to the earlier of the special meeting of Wabtec stockholders to approve these proposals and the termination of the Voting Agreement. See Other Agreements—The Voting Agreement.

Accounting Treatment and Considerations

Accounting Standard Codification 805, Business Combinations, requires the use of the acquisition method of accounting for business combinations. In applying the acquisition method, it is necessary to identify both the accounting acquiree and the accounting acquiror. In a business combination effected through an exchange of equity interests, such as the Merger, the entity that issues the interests (Wabtec, in this case) is generally the acquiring entity. In identifying the acquiring entity in a combination effected through an exchange of equity interests, however, all pertinent facts and circumstances must be considered, including the following:

Issuance of equity by Wabtec. Wabtec expects to issue approximately 98.5 million shares of Wabtec common stock in the Merger.

TABLE OF CONTENTS

Incurrence of debt by Wabtec. Approximately \$2.9 billion of indebtedness is expected to be incurred in connection with the Transactions to fund the Direct Sale. Following the consummation of the Transactions, it is expected that post-Transaction GE Transportation will be owned by Wabtec through SpinCo, which will be a wholly owned subsidiary of Wabtec and will hold the SpinCo Business, and Direct Sale Purchaser, which will also be a wholly owned subsidiary of Wabtec and will hold the assets, potentially including the equity interests in certain pre-Transaction subsidiaries of GE that compose part of GE Transportation, acquired in the Direct Sale and the liabilities assumed in the Direct Sale. Nevertheless, because of the significant assets and operations represented by GE Transportation, Wabtec expects that following the consummation of the Transaction, SpinCo, Direct Sale Purchaser, and/or other entities through which GE Transportation is owned and operated may be required to become guarantors of the indebtedness of the Borrowers under the Credit Agreement, the New Wabtec Notes and Wabtec's existing senior unsecured notes.

The relative voting interests of Wabtec stockholders after the consummation of the Transactions. In this case and calculated on a fully-diluted, as-converted and as-exercised basis, GE and pre-Merger holders of GE common stock will collectively hold 50.1% of the equity ownership and associated voting rights in Wabtec after the consummation of the Transactions (with approximately 9.9% of the outstanding shares of Wabtec common stock expected to be held by GE) and 49.9% of the outstanding shares of Wabtec common stock will be held by pre-Merger Wabtec stockholders. The shares held by GE will be subject to GE's obligations under (x) the Tax Matters Agreement to sell a number of shares of Wabtec common stock within two years of the Distribution Date (as described in the section of this prospectus-information statement entitled "Other Agreements—Tax Matters Agreement") and (y) the Shareholders Agreement to sell, subject to limited exceptions, all of the shares of Wabtec common stock GE beneficially owns within three years of the closing date of the Merger and prior thereto, to vote all of such shares in the proportion required under the Shareholders Agreement (as described in the section of this prospectus-information statement entitled "Other Agreements—Shareholders Agreement").

The composition of the governing body of Wabtec after the consummation of the Transactions. The Wabtec Board currently consists of 12 directors. In connection with the Transactions, the size of the Wabtec Board will be increased to include three additional directors, each of whom is required to be independent as defined in the listing standards of the NYSE, to be designated as nominees by GE (subject to the nominees being reasonably acceptable to the Nominating and Corporate Governance Committee of the Wabtec Board), effective at the time of closing of the Merger. The Merger Agreement provides that, at the direction of GE, the GE designees will be assigned among the Wabtec Board's classes of directors so that one GE designee is appointed to the class of directors that is up for reelection at each of the first three annual meetings of Wabtec stockholders that occurs after the closing of the Merger. Additionally, in certain circumstances (see "Merger Agreement – Post-Closing Wabtec Board of Directors and Officers"), the Wabtec Board will take all actions necessary to include the GE designee up for reelection at the first annual meeting of Wabtec stockholders that occurs after the closing of the Merger as nominee for the Wabtec Board at such annual meeting, to recommend that Wabtec stockholders vote in favor of the GE designee and to support the election of the GE designee at such annual meeting.

The composition of the senior management of Wabtec after the consummation of the Transactions. The executive officers of Wabtec immediately prior to consummation of the Merger are generally expected to be the executive officers of Wabtec immediately following consummation of the Merger, with Albert J. Neupaver remaining as Wabtec's executive chairman and Raymond T. Betler remaining as Wabtec's president and CEO. Following consummation of the Transactions, Stéphane Rambaud-Measson will become president and CEO of Wabtec's Transit Segment and Rafael O. Santana, president and CEO of GE Transportation, will become president and CEO of Wabtec's Freight Segment.

Wabtec management has determined that Wabtec will be the accounting acquiror in the Merger based on the facts and circumstances outlined above and the analysis of the relevant GAAP guidance. Consequently, Wabtec will apply

acquisition accounting to the assets and liabilities of GE Transportation acquired or assumed upon the consummation of the Direct Sale and the Merger. The historical financial statements of Wabtec for periods ended prior to the consummation of the Merger will reflect only the operations and financial condition of Wabtec. Subsequent to the consummation of the Merger, the financial statements of Wabtec will include the combined operations and financial condition of Wabtec and GE Transportation.

TABLE OF CONTENTS

Regulatory Approvals

Under the HSR Act, the parties must file pre-merger notifications with the U.S. Federal Trade Commission (FTC) and the Antitrust Division of the United States Department of Justice (DOJ) and observe specified waiting periods before consummating the Merger. Wabtec and GE each filed the requisite notification and report forms with the FTC and the DOJ on June 22, 2018. Wabtec and GE have each received a request for additional information (second request) from the DOJ. The second request is not an uncommon part of the regulatory review process under the HSR Act in respect of large transactions. The effect of the second request is to extend the waiting period imposed by the HSR Act until 30 days after Wabtec and GE have substantially complied with their respective request, unless that period is extended voluntarily by both parties or terminated sooner by the DOJ. Wabtec and GE will continue to cooperate fully with the DOJ as it reviews the proposed transaction. In addition to the expiration of the waiting period under the HSR Act, the parties have agreed to take, make or obtain all material actions by, consents or approvals of, or in respect of or filings with any governmental authority required to permit the consummation of the Merger, including the governmental authorizations to be sought in Austria, Brazil, Canada, Germany, Kazakhstan, Mexico, Pakistan, Russia, South Africa and Ukraine. The required waiting period in Canada has expired, and the parties have already obtained clearance from Austria, Germany and Russia.

Federal Securities Law Consequences; Resale Restriction

Wabtec common stock issued in the Merger will not be subject to any restrictions on transfer arising under the Securities Act, except for shares of Wabtec common stock issued to any person who may be deemed to be an affiliate of Wabtec under the Securities Act.

No Appraisal or Dissenters' Rights

None of the stockholders of Wabtec, Merger Sub, Direct Sale Purchaser, GE or SpinCo will be entitled to exercise appraisal rights or to demand payment for their shares in connection with the Transactions.

Material U.S. Federal Income Tax Consequences of the Distribution and the Merger to GE Stockholders

It is intended that the Distribution, together with certain related transactions, will qualify as a reorganization within the meaning of Section 368(a)(1)(D) of the Code and a tax-free distribution within the meaning of Section 355(a) of the Code, and the Merger will qualify as a tax-free reorganization within the meaning of Section 368(a) of the Code. On the basis that the Distribution and the Merger are so treated, U.S. Holders (as defined in Material U.S. Federal Income Tax Consequences of the Distribution and the Merger to GE Stockholders) of GE common stock generally will not recognize gain or loss for U.S. federal income tax purposes by reason of the Distribution or the Merger, except, in the case of the Merger, for any gain or loss recognized with respect to any cash received in lieu of a fractional share of Wabtec common stock. If the Distribution and/or the Merger fails to qualify for the intended tax treatment, GE stockholders will be subject to substantial U.S. federal income taxes.

The consummation of the Distribution, the Merger and the related transactions are conditioned upon the receipt of opinions of tax counsel to the effect that such transactions qualify for their intended tax treatment. GE has also requested a private letter ruling from the IRS with respect to certain aspects of the intended tax treatment of the Distribution (the Ruling). If GE does not timely receive the Ruling, the Distribution and certain related transactions will be restructured in a manner intended to permit tax counsel to GE to render its opinion in the absence of the Ruling. Any such restructuring will not affect the tax consequences of the Distribution and the Merger to U.S. Holders of GE common stock. An opinion of tax counsel neither binds the IRS nor precludes the IRS or the courts from adopting a contrary position.

The tax consequences to you of the Distribution and the Merger will depend on your particular circumstances. You should read the discussion in the section of this document entitled "Material U.S. Federal Income Tax Consequences of the Distribution and the Merger to GE Stockholders" and consult your own tax advisor for a full understanding of the tax consequences to you of the Distribution and the Merger.

TABLE OF CONTENTS**SUMMARY HISTORICAL, PRO FORMA AND SUPPLEMENTAL FINANCIAL DATA**

The following summary combined financial data of GE Transportation and summary consolidated financial data of Wabtec are being provided to help you in your analysis of the financial aspects of the Transactions. You should read this information in conjunction with the financial information included elsewhere and incorporated by reference in this prospectus-information statement. See Management's Discussion and Analysis of Financial Condition and Results of Operations for GE Transportation, Where You Can Find More Information; Incorporation by Reference, Information on GE Transportation, Information on Wabtec, Selected Historical Financial Data and Unaudited Pro Forma Condensed Combined Financial Statements.

Summary Historical Combined Financial Data of GE Transportation

The following data of GE Transportation as of June 30, 2018, and for the six-month periods ended June 30, 2018 and June 30, 2017, have been derived from the unaudited combined financial statements of GE Transportation included elsewhere in this prospectus-information statement. The following data of GE Transportation as of December 31, 2017 and 2016, and for the three years in the period ended December 31, 2017, have been derived from the audited combined financial statements of GE Transportation included elsewhere in this prospectus-information statement. This information is only a summary and should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations for GE Transportation, the combined financial statements of GE Transportation and the notes thereto and the unaudited pro forma condensed combined financial statements of Wabtec and GE Transportation included elsewhere in this prospectus-information statement.

TABLE OF CONTENTS

Summary Unaudited Pro Forma Condensed Combined Financial Data

The following summary unaudited pro forma condensed combined financial statements are presented to illustrate the estimated effects of the Transactions described in this prospectus-information statement under The Transactions. The following unaudited pro forma condensed combined balance sheet as of June 30, 2018, and the unaudited pro forma condensed combined statement of income for the six months ended June 30, 2018 and the year ended December 31, 2017 (collectively, the Pro Forma Statements) have been prepared in compliance with the requirements of Regulation S-X under the Securities Act using accounting policies in accordance with U.S. GAAP.

The Pro Forma Statements should be read in conjunction with the audited consolidated financial statements of Wabtec as of and for the year ended December 31, 2017, which are incorporated by reference herein from Wabtec's current report on Form 8-K filed with the SEC on September 10, 2018, Wabtec's interim financial statements as of and for the six-month period ended June 30, 2018, which are incorporated by reference herein from Wabtec's quarterly report on Form 10-Q filed with the SEC for the quarter ended June 30, 2018, and the audited combined financial statements of GE Transportation as of and for the year ended December 31, 2017 and GE Transportation's interim financial statements as of and for the six-month period ended June 30, 2018, which are, in each case, included elsewhere in this prospectus-information statement. GE Transportation's historical financial statements included in this prospectus-information statement have been presented on a carve-out basis from GE's consolidated financial statements using the historical results of operations, cash flows, assets and liabilities of GE Transportation and include allocations of corporate expenses from GE. These allocations reflect significant assumptions, and the financial statements do not fully reflect what GE Transportation's financial position, results of operations or cash flows would have been had it been a stand-alone company during the periods presented. As a result, historical financial information is not necessarily indicative of GE Transportation's future results of operations, financial position or cash flows. The note disclosure requirements of annual consolidated financial statements provide additional disclosures to that required for pro forma condensed combined financial information.

The unaudited Pro Forma Statements give effect to the Transactions as if they had occurred on January 1, 2017, for the purposes of the unaudited pro forma condensed combined statements of income for the six months ended June 30, 2018 and the year ended December 31, 2017. The unaudited Pro Forma Statements give effect to the Transactions as if they had occurred on June 30, 2018, for the purposes of the unaudited pro forma condensed combined balance sheet. In the opinion of Wabtec's management, these Pro Forma Statements include all material adjustments necessary to be in accordance with Article 11 of Regulation S-X under the Securities Act. The Pro Forma Statements are presented for illustrative purposes only and may not be indicative of the results of operations that would have occurred if the events reflected therein had been in effect on the dates indicated or the results which may be obtained in the future. In preparing the Pro Forma Statements, no adjustments have been made to reflect the potential operating synergies and administrative cost savings or the costs of integration activities that could result from the combination of Wabtec and GE Transportation. Actual amounts recorded upon consummation of the Transactions will differ from the Pro Forma Statements, and the differences may be material. See Where You Can Find More Information; Incorporation by Reference, Unaudited Pro Forma Combined Consolidated Financial Statements and the interim combined financial statements of GE Transportation and the notes thereto and audited combined financial statements of GE Transportation and notes thereto, which are, in each case, included elsewhere in this prospectus-information statement.

TABLE OF CONTENTS**Summary Comparative Historical and Pro Forma Per Share Data**

The following table sets forth certain historical and pro forma per share data for Wabtec. The Wabtec historical data has been derived from and should be read together with Wabtec's unaudited consolidated financial statements and related notes thereto contained in Wabtec's quarterly report on Form 10-Q filed with the SEC for the six-month period ended June 30, 2018 and Wabtec's audited consolidated financial statements and related notes thereto as of and for the year ended December 31, 2017, which are incorporated by reference herein from Wabtec's current report on Form 8-K filed with the SEC on September 10, 2018. See "Where You Can Find More Information; Incorporation by Reference." The pro forma data as of and for the six-month period ended June 30, 2018 and for the year ended December 31, 2017 has been derived from the unaudited pro forma condensed combined financial statements included elsewhere in this prospectus-information statement. See "Unaudited Pro Forma Condensed Combined Financial Statements."

This comparative historical and pro forma per-share data is being provided for illustrative purposes only. Wabtec and GE Transportation may have performed differently had the Transactions occurred prior to the periods or at the date presented. You should not rely on the pro forma per-share data presented as being indicative of the results that would have been achieved had Wabtec and GE Transportation been combined during the periods or at the date presented or of the future results or financial condition of Wabtec or GE Transportation to be achieved following the consummation of the Transactions.

Historical Common Stock Market Price and Dividend Data

Historical market price data for SpinCo and GE Transportation has not been presented as GE Transportation is currently operated by GE and SpinCo is a wholly owned subsidiary of GE and there is no established trading market in SpinCo common stock. Shares of SpinCo common stock do not currently trade separately from GE common stock.

Shares of Wabtec common stock currently trade on the NYSE under the symbol WAB. There were _____ holders of record of Wabtec common stock at the close of business on _____, 2018. A number of Wabtec stockholders hold their shares in street name; therefore Wabtec believes that there are substantially more beneficial owners of Wabtec common stock. On May 18, 2018, the last trading day before the announcement of the Transactions, the last sale price of Wabtec common stock reported by the NYSE was \$95.19. The last sale price of Wabtec common stock reported by the NYSE on September 13, 2018 was \$112.12.

The following table sets forth on a per share basis the cash dividend declared, and the high and low sales prices of

Wabtec common stock as reported on the NYSE:

	Wabtec Common Stock		
	High	Low	Dividend
2018			
First Quarter	\$ 86.24	\$ 69.75	\$ 0.120
Second Quarter	\$ 104.21	\$ 78.80	\$ 0.120
Third Quarter (through September 13, 2018)	\$ 114.85	\$ 97.39	\$ N/A

TABLE OF CONTENTS

	Wabtec Common Stock		
	High	Low	Dividend

Third Quarter	\$ 82.00	\$ 65.54	\$ 0.100
Fourth Quarter	\$ 89.18	\$ 74.32	\$ 0.100

Wabtec Dividend Policy

Wabtec currently intends to continue paying dividends on a quarterly basis, although the declaration of any future dividends will be determined by the Wabtec Board and will depend on many factors, including available cash, estimated cash needs, earnings, financial condition, operating results, and capital requirements, as well as limitations in Wabtec's contractual agreements, applicable law, regulatory constraints, industry practice and other business considerations that the Wabtec Board considers relevant. Wabtec's ability to declare and pay future dividends on Wabtec common stock may be restricted by the provisions of the DGCL and covenants in Wabtec's then-existing indebtedness arrangements.

TABLE OF CONTENTS

RISK FACTORS

You should carefully consider each of the following risks and all of the other information contained and incorporated by reference in this prospectus-information statement and the exhibits hereto. Some of the risks described below relate principally to the Transactions, while others relate principally to the business and the industry in which Wabtec, including SpinCo and the Transferred Subsidiaries, will operate after the Transactions. The remaining risks relate principally to the securities markets generally and ownership of shares of Wabtec common stock. The risks described below are not the only risks that Wabtec currently faces or will face after the Transactions. Additional risks and uncertainties not currently known or that are currently expected to be immaterial also may materially and adversely affect Wabtec's business and financial condition or the price of Wabtec common stock following the consummation of the Transactions. In addition, you should consider the risks associated with Wabtec's business that appear in its annual report on Form 10-K for the year ended December 31, 2017 or any subsequent reports filed with the SEC and incorporated by reference into this document.

Risks Related to the Transactions

The Transactions may not be completed on the terms or timeline currently contemplated, or at all, as Wabtec and GE may be unable to satisfy the conditions or obtain the approvals required to complete the Transactions or such approvals may contain material restrictions or conditions.

The consummation of the Transactions is subject to numerous conditions, including, among other things:

- the approval by Wabtec stockholders of the Share Issuance;
- the approval by Wabtec stockholders of the Wabtec Charter Amendment;
- the termination or expiration of the applicable waiting period under the HSR Act;
- the taking, making or obtaining of all material actions by, consents or approvals of, or in respect of or filings with any governmental authority required to permit the Transactions;
- the effectiveness under the Securities Act of (i) SpinCo's registration statement on Form 10 or such Form(s) as shall be required under applicable SEC rules in connection with the Distribution and (ii) Wabtec's registration statement on Form S-4 in connection with the Merger, and, in each case, the absence of any stop order issued by the SEC or any pending proceeding before the SEC seeking a stop order with respect thereto;
- the receipt of the GE Tax Opinions and the Wabtec Tax Opinion by GE and Wabtec, respectively;
- the receipt of the Direct Sale Purchase Price by GE;
- the completion of the various transaction steps contemplated by the Merger Agreement and the Separation Agreement, including the International Reorganization, the Direct Sale, the SpinCo Transfer and the Distribution; and
- other customary conditions.

There is no assurance that the Transactions will be consummated on the terms or timeline currently contemplated, or at all. Wabtec and GE have and will continue to expend time and resources of management and to incur legal, advisory and financial services fees related to the Transactions and the related financing for the Transactions. These expenses must be paid regardless of whether the Transactions are consummated.

Governmental authorities may not approve the Transactions, may impose conditions to the approval of the Transactions or may require changes to the terms of the Transactions. Any such conditions or changes could have the effect of delaying completion of the Transactions, imposing costs on or limiting the revenues of the combined company following the Transactions or otherwise reducing the anticipated benefits of the Transactions. Any condition or change which results in a material adverse effect on GE and/or Wabtec under the Merger Agreement may cause GE and/or Wabtec to restructure or terminate the Transactions.

If completed, the integration of Wabtec and GE Transportation may not be successful or the anticipated benefits from the Transactions may not be realized.

After the consummation of the Transactions, Wabtec will have significantly more sales, assets and employees than it did prior to the consummation of the Transactions. During the period in which transition services are

TABLE OF CONTENTS

provided to Wabtec by GE, SpinCo will have a continued dependence on the provision of services from GE, including with respect to research and development and information technology infrastructure. The integration process will require Wabtec to expend capital and significantly expand the scope of its operations. Wabtec management will be required to devote a significant amount of time and attention to the process of integrating the operations of Wabtec's business and GE Transportation. There is a significant degree of difficulty and management involvement inherent in that process. These difficulties include, but are not limited to:

- integrating GE Transportation while carrying on the ongoing operations of Wabtec's business;
- managing a significantly larger company than before the consummation of the Transactions;
- the possibility of faulty assumptions underlying Wabtec's expectations regarding the integration process;
- coordinating a greater number of diverse businesses located in a greater number of geographic locations;
- operating in geographic markets or industry sectors in which Wabtec may have little or no experience;
- complying with laws of new jurisdictions in which Wabtec has not previously operated;
- integrating business systems and models;
- attracting and retaining the necessary personnel associated with GE Transportation following the consummation of the Transactions;
- creating and implementing uniform standards, controls, procedures, policies and information systems and controlling the costs associated with such matters; and
- integrating information technology, purchasing, accounting, finance, sales, billing, payroll and regulatory compliance systems, and meeting external reporting requirements following the consummation of the Transactions.

All of the risks associated with the integration process could be exacerbated by the fact that Wabtec may not have a sufficient number of employees with the requisite expertise to integrate the businesses or to operate Wabtec's business after the Transactions. Failure to hire or retain employees with the requisite skills and knowledge to run Wabtec after the Transactions may have a material adverse effect on Wabtec's business, financial condition and results of operations.

Even if Wabtec is able to combine the two business operations successfully, it may not be possible to realize the benefits of the increased sales volume and other benefits, including the synergies that are expected to result from the Transactions, or realize these benefits within the time frame that is anticipated. For example, the elimination of duplicative costs may not be possible or may take longer than anticipated, or the benefits from the Transactions may be offset by costs incurred or delays in integrating the companies. In addition, the quantification of synergies expected to result from the Transactions is based on significant estimates and assumptions that are subjective in nature and inherently uncertain. The amount of synergies actually realized following the Transactions, if any, and the time periods in which any such synergies are realized, could differ materially from the expected synergies discussed in this prospectus-information statement, regardless of whether Wabtec is able to combine the two business operations successfully.

If Wabtec is unable to successfully integrate GE Transportation or if it is unable to realize the anticipated synergies and other benefits of the Transactions, there could be a material adverse effect on Wabtec's business, financial condition and results of operations.

The Merger Agreement contains provisions that may discourage other companies from trying to acquire Wabtec.

The Merger Agreement contains provisions that may discourage a third party from submitting prior to the closing of the Transactions a business combination proposal to Wabtec that might result in greater value to Wabtec stockholders than the Transactions. The Merger Agreement generally prohibits Wabtec from soliciting any alternative transaction proposal, although the Wabtec Board may, subject to certain limitations, withdraw or modify its recommendation regarding the Transactions in the event it receives an unsolicited alternative transaction proposal that the Wabtec Board determines is superior to the Transactions. See The Merger Agreement—No Solicitation and —Board

Recommendation. In addition, before the Wabtec Board may

TABLE OF CONTENTS

withdraw or modify its recommendation regarding the Transactions, GE has the opportunity to negotiate with Wabtec to modify the terms of the Transactions in response to any competing acquisition proposals. See The Merger Agreement—Board Recommendation. If the Merger Agreement is terminated by Wabtec or GE in certain circumstances, Wabtec may be obligated to pay a termination fee to GE, which would represent an additional cost for a potential third party seeking a business combination with Wabtec. See The Merger Agreement—Termination Fee and Expenses.

Failure to complete the Transactions could adversely affect the market price of Wabtec common stock as well as its business, financial condition and results of operations.

If the Transactions are not completed for any reason, the price of Wabtec common stock may decline, or the company's business, financial condition and results of operations may be impacted: to the extent that the market price of Wabtec common stock reflects positive market assumptions that the Transactions will be completed and the related benefits will be realized; based on significant expenses, such as legal, advisory and financial services which generally must be paid regardless of whether the Transactions are completed; based on potential disruption of the business of Wabtec and distraction of its workforce and management team; and based on the requirement in the Merger Agreement that, under certain circumstances, Wabtec must pay GE a termination fee or reimburse GE for expenses relating to the Transactions.

Wabtec will incur significant costs related to the Transactions that could have a material adverse effect on its liquidity, cash flows and operating results.

Wabtec expects to incur significant, one-time costs in connection with the Transactions, some of which will be capitalized, including approximately \$35.0 million of financing-related fees, approximately \$60.0 million of transaction-related costs (including advisory, legal, accounting and other professional fees) and approximately \$88.0 million of transition and integration-related costs (a portion of which will be incremental capital spending), which Wabtec management believes are necessary to realize the anticipated synergies from the Transactions. The incurrence of these costs may have a material adverse effect on Wabtec's liquidity, cash flows and operating results in the periods in which they are incurred.

Investors holding shares of Wabtec common stock immediately prior to the completion of the Transactions will have a significantly reduced ownership and voting interest in Wabtec after the Transactions and will exercise less influence over management.

Investors holding shares of Wabtec common stock immediately prior to the completion of the Transactions will, in the aggregate, own a significantly smaller percentage of the combined company immediately after the completion of the Transactions.

Upon consummation of the Merger and calculated based on Wabtec's outstanding common stock immediately prior to the Merger on a fully-diluted, as-converted and as-exercised basis, 50.1% of the outstanding shares of Wabtec common stock would be held collectively by GE and pre-Merger holders of GE common stock (with approximately 9.9% of the outstanding shares of Wabtec common stock expected to be held by GE) and 49.9% of the outstanding shares of Wabtec common stock would be held by pre-Merger Wabtec stockholders. The shares held by GE will be subject to GE's obligations under (x) the Tax Matters Agreement to sell a number of shares of Wabtec common stock within two years of the Distribution Date (as described in the section of this prospectus-information statement entitled Other Agreements—Tax Matters Agreement) and (y) the Shareholders Agreement to sell, subject to limited exceptions, all of the shares of Wabtec common stock GE beneficially owns within three years of the closing date of the Merger and prior thereto, to vote all of such shares in the proportion required under the Shareholders Agreement (as described in the section of this prospectus-information statement entitled Other Agreements—Shareholders Agreement). Consequently, Wabtec stockholders, collectively, will be able to exercise significantly less influence over the

management and policies of the combined company than they will be able to exercise over the management and Wabtec's policies immediately prior to the completion of the Transactions.

Where calculations are presented in this prospectus-information statement on a fully-diluted, as-converted and as-exercised basis, such calculations reflect a number of outstanding shares of Wabtec common stock that will be higher than the number of shares of Wabtec common stock actually outstanding at the relevant time, which variance may affect the actual percentages upon consummation of the Merger. In addition, in those instances, references to Wabtec stockholders owning 49.9% of the outstanding Wabtec common stock assume that the

TABLE OF CONTENTS

holders of instruments convertible into or exercisable for Wabtec common stock are the owners of the underlying Wabtec common stock and, with limited exceptions, assume that Wabtec equity awards, including those that may be settled in cash, are instruments convertible into or exercisable for Wabtec common stock.

The calculation of merger consideration will not be adjusted if there is a change in the value of GE Transportation or its assets or the value of Wabtec before the Transactions are completed.

The calculation of the number of shares of Wabtec common stock to be distributed in the Merger is based upon fixed percentages and will not be adjusted if there is a change in the value of GE Transportation or its assets or the value of Wabtec prior to the consummation of the Transactions. Wabtec will not be required to consummate the Merger if there has been any material adverse effect on GE Transportation as defined in the Merger Agreement (as discussed above under The Merger Agreement). However, Wabtec will not be permitted to terminate or re-solicit the vote of Wabtec stockholders because of any changes in the market prices of Wabtec common stock or any changes in the value of GE Transportation that do not constitute a material adverse effect on GE Transportation.

Sales of Wabtec common stock after the Transactions may negatively affect the market price of Wabtec common stock.

The shares of Wabtec common stock to be issued as part of the Transactions will generally be eligible for immediate resale. The market price of Wabtec common stock could decline as a result of sales of a large number of shares of Wabtec common stock in the market after the consummation of the Transactions or even the perception that these sales could occur.

Following the consummation of the Transactions, GE is expected to hold approximately 9.9% of the outstanding Wabtec common stock. Pursuant to the Tax Matters Agreement and the Shareholders Agreement, GE is subject to certain requirements to sell shares of Wabtec common stock acquired in the Merger with a number of shares required to be sold by the second anniversary of the Merger and, with limited exceptions, all such shares required to be sold by the third anniversary of the closing of the Merger. Although these required sales have been disclosed, future sales by GE of a substantial number of shares could reduce the market price of Wabtec common stock.

Currently, GE stock may be held in index funds, and may be held by institutional investors subject to various investing guidelines. Because Wabtec may not be included in these indices following the consummation of the Transactions or may not meet the investing guidelines of some of these institutional investors, these index funds and institutional investors may decide to or may be required to sell the Wabtec common stock that they receive. In addition, with respect to the GE retirement plans that receive shares of Wabtec common stock in the Transactions, if any, those persons with investment discretion with respect to those shares of Wabtec common stock may decide to sell such shares following the consummation of the Transactions.

Wabtec has incurred, and expects to incur, new indebtedness in connection with the Transactions, and the degree to which Wabtec will be leveraged following completion of the Transactions may have a material adverse effect on Wabtec's business, financial condition or results of operations and cash flows.

Wabtec and the other Borrowers entered into the Credit Agreement on June 8, 2018, which includes (i) a \$1.2 billion Revolving Credit Facility, (ii) a \$350.0 million Refinancing Term Loan and (iii) a \$400.0 million Delayed Draw Term Loan. Wabtec also obtained Bridge Commitments in respect of the Bridge Loan Facility in an amount not to exceed \$2.5 billion. On September 14, 2018, in accordance with the Commitment Letter, the Bridge Commitments were permanently reduced to \$0 in connection with Wabtec's issuance of \$500 million aggregate principal amount of the Floating Rate Notes, \$750 million aggregate principal amount of the 2024 Notes and \$1.25 billion aggregate principal amount of the 2028 Notes. Wabtec will use funds available under the Delayed Draw Term Loan and the proceeds

from the issuance of the New Wabtec Notes to pay the Direct Sale Purchase Price. The Credit Agreement is expected to have approximately \$812 million of unused availability immediately following consummation of the Transactions.

If Wabtec is not able to repay or refinance its debt as it becomes due, Wabtec may be forced to sell assets or take other disadvantageous actions, including (i) reducing financing in the future for working capital, capital expenditures and general corporate purposes or (ii) dedicating an unsustainable level of Wabtec's cash flow from

TABLE OF CONTENTS

operations to the payment of principal and interest on Wabtec's indebtedness. In addition, Wabtec's ability to withstand competitive pressures and react to changes in Wabtec's industry could be impaired. The lenders who hold such debt also could accelerate amounts due, which could potentially trigger a default or acceleration of any of Wabtec's other debt.

In addition, Wabtec may increase its debt or raise additional capital following the Transactions, subject to restrictions in Wabtec's debt agreements. If Wabtec's cash flow from operations is less than it anticipates, or if Wabtec's cash requirements are more than it expects, Wabtec may require more financing. However, debt or equity financing may not be available to Wabtec on terms advantageous or acceptable to Wabtec, if at all. If Wabtec incurs additional debt or raises equity through the issuance of preferred stock, the terms of the debt or preferred stock issued may give the holders rights, preferences and privileges senior to those of holders of Wabtec common stock, particularly in the event of liquidation. The terms of the debt or preferred stock also may impose additional and more stringent restrictions on Wabtec's operations than those to which it is currently subject. If Wabtec raises funds through the issuance of additional equity, Wabtec stockholders' percentage ownership in Wabtec would be further diluted. If Wabtec is unable to raise additional capital when needed, it could affect Wabtec's financial condition.

Further, Wabtec's credit ratings impact the cost and availability of future borrowings, and, as a result, Wabtec's cost of capital. Wabtec's ratings reflect each rating organization's opinion of Wabtec's financial strength, operating performance and ability to meet Wabtec's debt obligations. Each of the ratings organizations reviews Wabtec's ratings periodically, and there can be no assurance that current ratings will be maintained in the future. Following the announcement of the Transactions, Moody's affirmed Wabtec's current credit ratings with a negative outlook, Standard & Poor's placed Wabtec's credit ratings under review for a possible downgrade and Fitch assigned Wabtec a BBB- credit rating with a stable outlook. On September 10, 2018, Standard & Poor's affirmed Wabtec's current credit ratings with a negative outlook. Downgrades in Wabtec's ratings could adversely affect Wabtec's businesses, cash flows, financial condition and operating results.

The historical financial information of GE Transportation may not be representative of its results or financial condition if it had been operated independently of GE and, as a result, may not be a reliable indicator of its future results.

GE Transportation is currently operated by GE. Consequently, the financial information of GE Transportation included in this prospectus-information statement has been derived from the consolidated financial statements and accounting records of GE as if the operations of GE Transportation were conducted independently from GE. The historical results of operations, financial position and cash flows of GE Transportation included in this prospectus-information statement may not be indicative of what they would have been had GE Transportation actually been an independent stand-alone entity, nor are they necessarily indicative of the future results of operations, financial position and cash flows of GE Transportation. For example, the combined financial statements of GE Transportation include all revenues and costs directly attributable to GE Transportation and an allocation of expenses related to certain GE corporate functions. These expenses have been allocated to GE Transportation based on direct usage or benefit where identifiable, with the remainder allocated *pro rata* based on an applicable measure of revenues, cost of revenues, headcount, fixed assets, number of transactions or other relevant measures. Although SpinCo considers these allocations to be a reasonable reflection of the utilization of services or the benefit received, the allocations may not be indicative of the actual expense that would have been incurred had SpinCo operated as an independent, stand-alone entity, nor are they indicative of SpinCo's future expenses.

The unaudited pro forma combined financial information of Wabtec and GE Transportation is not intended to reflect what actual results of operations and financial condition would have been had Wabtec and GE Transportation been a combined company for the periods presented, and therefore these results may not be indicative of Wabtec's future operating performance.

Because Wabtec will acquire GE Transportation only upon completion of the Transactions, it has no available historical financial information that consolidates the financial results for the GE Transportation and Wabtec. The historical financial statements contained or incorporated by reference in this prospectus-information statement consist of the separate financial statements of GE Transportation and Wabtec.

The unaudited pro forma condensed combined financial information presented in this prospectus-information statement is for illustrative purposes only and is not intended to, and does not purport to, represent what

TABLE OF CONTENTS

Wabtec's actual results or financial condition would have been if the Transactions had occurred on the relevant date. In addition, such unaudited pro forma condensed combined financial information is based in part on certain assumptions regarding the Transactions that Wabtec believes are reasonable. These assumptions, however, are only preliminary and will be updated only after the consummation of the Transactions. The unaudited pro forma condensed combined financial information has been prepared using the acquisition method of accounting, with Wabtec considered the acquirer of GE Transportation. Under the acquisition method of accounting, the purchase price is allocated to the underlying tangible and intangible assets acquired and liabilities assumed based on their respective fair values with any excess purchase price allocated to goodwill. The pro forma purchase price allocation was based on an estimate of the fair values of the tangible and intangible assets and liabilities of GE Transportation. In arriving at the estimated fair values, Wabtec considered the preliminary appraisals of independent consultants which were based on a preliminary and limited review of the assets and liabilities related to GE Transportation to be transferred to, or assumed by, Direct Sale Purchaser, SpinCo and the SpinCo Transferred Subsidiaries in the Transactions. Following the Merger, Wabtec expects to complete the purchase price allocation after considering the fair value of the assets and liabilities of GE Transportation at the level of detail necessary to finalize the required purchase price allocation. The final purchase price allocation may be different than that reflected in the pro forma purchase price allocation presented herein, and this difference may be material.

The unaudited pro forma condensed combined financial information does not reflect the costs of any integration activities or transaction-related costs or incremental capital spending that Wabtec management believes are necessary to realize the anticipated synergies from the Transactions. Accordingly, the pro forma financial information included in this prospectus-information statement does not reflect what Wabtec's results of operations or operating condition would have been had Wabtec and GE Transportation been a consolidated entity during all periods presented, or what Wabtec's results of operations and financial condition will be in the future.

Wabtec may be unable to provide the same types and level of benefits, services and resources to GE Transportation that historically have been provided by GE, or may be unable to provide them at the same cost.

As part of GE, GE Transportation has been able to receive benefits and services from GE and has been able to benefit from GE's financial strength and extensive business relationships. After the consummation of the Transactions, GE Transportation will be owned by Wabtec and no longer will benefit from GE's resources. While Wabtec will enter into agreements under which GE will agree to provide certain transition services and site-related services for a period of time following the consummation of the Transactions, it cannot be assured that Wabtec will be able to adequately replace those resources or replace them at the same cost. If Wabtec is not able to replace the resources provided by GE or is unable to replace them at the same cost or is delayed in replacing the resources provided by GE, Wabtec's business, financial condition and results of operations may be materially adversely impacted.

Wabtec's business, financial condition and results of operations may be adversely affected following the Transactions if Wabtec cannot negotiate contract terms that are as favorable as those GE has received when Wabtec replaces certain of GE Transportation's contracts after the closing of the Transactions.

Prior to the consummation of the Transactions, certain functions (such as purchasing, accounts payable processing, accounts receivable management, information systems, logistics and distribution) associated with GE Transportation are being performed under GE's centralized systems and, in some cases, under contracts that also are used for GE's other businesses and which will not be assigned in whole or in part to GE Transportation. In addition, some other contracts to which GE is a party on behalf of GE Transportation will require consents of third parties to assign them to GE Transportation. There can be no assurance that GE Transportation will be able to negotiate contract terms that are as favorable as those GE received when and if Wabtec replaces these contracts with its own agreements for similar services, including any contracts that may need to be replaced as a result of a failure to obtain required third-party consents.

Although Wabtec believes that it will be able to enter into new agreements for similar services and that GE and Wabtec will be able to obtain all material third-party consents required to assign contracts to GE Transportation, it is possible that the failure to enter into new agreements for similar services or to obtain required consents to assign contracts could have a material adverse impact on Wabtec's business, financial condition and results of operations following the consummation of the Transactions.

TABLE OF CONTENTS

Wabtec may fail to realize anticipated tax benefits of the Transactions.

GE and Wabtec intend that the Distribution and/or certain related transactions and the Direct Sale will be taxable to GE. Accordingly, GE and Wabtec intend that the Transactions will enable Wabtec to receive an increased tax basis in the assets of the SpinCo Business and the assets acquired in the Direct Sale and to realize other related tax benefits. However, the tax treatment of the Distribution, the Direct Sale and certain related transactions, and Wabtec's ability to realize the increased tax basis and other related tax benefits referenced above, are not certain. GE and Wabtec are not aware of any authority directly addressing a transaction involving these same facts, and do not intend to obtain any ruling from the IRS, or any opinion of counsel, relating to the availability of the intended tax basis increases and other related tax benefits referenced above.

If the IRS or a court were to successfully assert that the Distribution and certain related transactions are not taxable to GE or that the Direct Sale is not treated as a taxable sale for U.S. federal income tax purposes, Wabtec and its subsidiaries (including SpinCo and Direct Sale Purchaser) likely would need to make increased payments for taxes in the future relative to the payments they would have made absent such successful assertion. Because GE's obligation under the Tax Matters Agreement to repay Wabtec on account of tax benefits that are later disallowed is in respect of the portion of the tax benefits for which Wabtec made payments to GE (and not the incremental tax benefits referenced above), GE's repayment obligation in such case would not fully compensate Wabtec and its subsidiaries for the loss of all of the intended tax basis increases and other related tax benefits referenced above. See Other Agreements—Tax Matters Agreement for a more detailed description of the treatment of the tax benefits referenced above under the Tax Matters Agreement.

Wabtec may be required to make significant tax-related payments to GE.

Under the Tax Matters Agreement, Wabtec has agreed to make certain payments to GE as and when Wabtec realizes certain tax benefits arising out of the Transactions. The exact amount and timing of these payments is not certain, but GE and Wabtec expect that the amount of the payments will be significant and that all or a large majority of the amounts paid by Wabtec pursuant to this obligation will be paid within several years of the Distribution. The Tax Matters Agreement also obligates Wabtec to indemnify GE for certain types of taxes and other related amounts paid by GE or its subsidiaries to the extent such taxes and other amounts arise as a result of certain actions or failures to act, or breaches of the Tax Matters Agreement, by Wabtec, SpinCo or their subsidiaries, or with respect to the assets of Wabtec, SpinCo or their subsidiaries. See Other Agreements—Tax Matters Agreement for a more detailed description of Wabtec's obligation to make payments to GE in relation to Wabtec's realization of tax benefits from the Transactions and Wabtec's obligation to indemnify GE for certain taxes and other related amounts. To the extent the Tax Matters Agreement requires Wabtec, SpinCo or their subsidiaries to make substantial payments to GE or its subsidiaries, such payments could have a material adverse effect on Wabtec, including with respect to its financial condition and results of operations.

Wabtec and SpinCo are required to abide by potentially significant restrictions which could limit their ability to effect certain transactions (such as a merger or other combination) that otherwise could be advantageous.

To preserve the intended tax treatment of the Distribution and related transactions, the Tax Matters Agreement restricts Wabtec, SpinCo and their subsidiaries from taking certain actions that could affect such tax treatment or increase the tax liability of GE or its affiliates. These restrictions may limit the ability of Wabtec, SpinCo and their subsidiaries to pursue certain strategic or otherwise beneficial transactions, including certain acquisitions and equity capital market transactions. See Other Agreements—Tax Matters Agreement for a more detailed description of these restrictions.

Wabtec will have more shares of its common stock outstanding and will be a substantially larger company with significant indebtedness after the Transactions, which may discourage other companies from trying to acquire Wabtec.

Wabtec expects to issue approximately 98.5 million shares of its common stock in the Merger. Because Wabtec will be a significantly larger company and will have significantly more shares of its common stock outstanding after the consummation of the Transactions and significantly more outstanding indebtedness, an acquisition of Wabtec by a third party may become more expensive for potential acquirors. As a result, some companies may not seek to acquire Wabtec, and the reduction in potential parties that may seek to acquire Wabtec could negatively impact the prices at which Wabtec common stock trades.

TABLE OF CONTENTS

Wabtec's estimates and judgments related to the acquisition accounting models used to record the purchase price allocation may be inaccurate.

Wabtec management will make significant accounting judgments and estimates for the application of acquisition accounting under GAAP, and the underlying valuation models. Wabtec's business, operating results and financial condition could be materially and adversely impacted in future periods if Wabtec's accounting judgments and estimates related to these models prove to be inaccurate.

Wabtec may be required to recognize impairment charges for goodwill and other intangible assets.

Wabtec currently estimates that the proposed Transactions will add approximately \$12,318 million of goodwill and other intangible assets to Wabtec's consolidated balance sheet. In accordance with GAAP, Wabtec management periodically assesses these assets to determine if they are impaired. Significant negative industry or economic trends, disruptions to Wabtec's business, inability to effectively integrate acquired businesses, unexpected significant changes or planned changes in use of the assets, divestitures and market capitalization declines may impair goodwill and other intangible assets. Any charges relating to such impairments would adversely affect Wabtec's results of operations in the periods recognized.

Wabtec may waive one or more of the conditions to the consummation of the Transactions without re-soliciting stockholder approval.

Wabtec may determine to waive, in whole or in part, one or more of the conditions to its obligations to consummate the Transactions to the extent permitted by applicable law. If Wabtec waives the satisfaction of a material condition to the consummation of the Transactions, Wabtec will evaluate the facts and circumstances at that time and re-solicit stockholder approval of the Share Issuance and the Wabtec Charter Amendment if required to do so by applicable law or other relevant rules. In some cases, if the Wabtec Board determines that such waiver or its effect on Wabtec stockholders does not rise to the level of materiality that would require re-solicitation of proxies pursuant to applicable law or rules, Wabtec would complete the Merger without seeking further stockholder approval.

Wabtec directors and executive officers have interests in seeing the Transactions completed are different from, or in addition to, those of other Wabtec stockholders. Therefore, Wabtec directors and executive officers may have a conflict of interest in recommending the proposals being voted on at Wabtec's special meeting.

In considering the recommendations of the Wabtec Board that Wabtec stockholders vote to approve the Share Issuance and the Wabtec Charter Amendment, you should be aware that Wabtec directors and executive officers have financial interests in the Transactions that are different from, or in addition to, the interests of Wabtec stockholders generally. The members of the Wabtec Board were aware of and considered these interests, among other matters, in deciding to approve the terms of the Transactions, including the Merger, and in recommending to Wabtec stockholders that they vote to approve the Share Issuance and the Wabtec Charter Amendment.

The directors of Wabtec immediately prior to the consummation of the Merger are generally expected to be the directors of Wabtec immediately after the consummation of the Merger (although the size of the Wabtec Board will be increased to include three additional independent directors to be designated by GE, effective at the time of closing of the Merger). The executive officers of Wabtec immediately prior to consummation of the Merger are generally expected to be the executive officers of Wabtec immediately following consummation of the Merger, with Albert J. Neupaver remaining as Wabtec's executive chairman and Raymond T. Betler remaining as Wabtec's president and CEO. Following consummation of the Transactions, Stéphane Rambaud-Measson will become president and CEO of Wabtec's Transit Segment and Rafael O. Santana, president and CEO of GE Transportation, will become president and CEO of Wabtec's Freight Segment.

In addition, the directors and executive officers of Wabtec would be entitled to accelerated vesting of certain equity incentive awards upon the consummation of the Merger, and certain executive officers would be entitled to severance benefits upon a qualifying termination of employment in connection with the Merger that are greater than the severance benefits to which they are entitled without regard to the consummation of the Merger.

For a further description and quantification of the benefits that the Wabtec directors and executive officers may receive as a result of these interests, see The Transactions—Interests of Wabtec's Directors and Executive Officers in the Transactions.

TABLE OF CONTENTS

Risks Related to Wabtec, Including GE Transportation, After the Transactions

For purposes of the following discussion, unless the context requires otherwise, Wabtec refers to Westinghouse Air Brake Technologies Corporation and its subsidiaries, including SpinCo and the SpinCo Transferred Subsidiaries.

Prolonged unfavorable economic and market conditions could adversely affect Wabtec's business.

Unfavorable general economic and market conditions in the United States and internationally—particularly in Wabtec's key end markets—could have a negative impact on Wabtec's sales and operations. To the extent that these factors result in continued instability of capital markets, shortages of raw materials or component parts, longer sales cycles, deferral or delay of customer orders or an inability to market Wabtec's products effectively, Wabtec's business and results of operations could be materially adversely affected.

Wabtec is dependent upon key customers.

Wabtec relies on several key customers who represent a significant portion of its business. While Wabtec believes its relationships with its customers are generally good, Wabtec's top customers could choose to reduce or terminate their relationships with Wabtec. In addition, many of Wabtec's customers place orders for products on an as-needed basis and operate in cyclical industries. As a result, customer order levels have varied from period to period in the past and may vary significantly in the future. Such customer orders are dependent upon their markets and customers, and may be subject to delays and cancellations. Furthermore, the average service life of certain products in Wabtec's end markets has increased in recent years due to innovations in technologies and manufacturing processes, which has also allowed end users to replace parts less often. As a result of Wabtec's dependence on its key customers, Wabtec could experience a material adverse effect on its business, results of operations and financial condition if it lost any one or more of its key customers or if there is a reduction in their demand for Wabtec's products.

Wabtec operates in a highly competitive industry.

Wabtec operates in a global, competitive marketplace and faces substantial competition from a limited number of established competitors, some of which may have greater financial resources than Wabtec, may have a more extensive low-cost sourcing strategy and presence in low-cost regions than Wabtec or may receive significant governmental support. Price competition is strong and, coupled with the existence of a number of cost conscious customers with significant negotiating power, has historically limited Wabtec's ability to increase prices. In addition to price, competition is based on product performance and technological leadership, quality, reliability of delivery and customer service and support. If Wabtec's competitors invest heavily in innovation and develop products that are more efficient or effective than Wabtec's products, Wabtec may not be able to compete effectively. There can be no assurance that competition in one or more of Wabtec's markets will not adversely affect Wabtec's business and its results of operations.

Wabtec intends to pursue acquisitions, joint ventures and alliances that involve a number of inherent risks, any of which may cause Wabtec not to realize anticipated benefits.

One aspect of Wabtec's business strategy is to selectively pursue acquisitions, joint ventures and alliances that Wabtec believes will improve its market position, and provide opportunities to realize operating synergies. These transactions involve inherent risks and uncertainties, any one of which could have a material adverse effect on Wabtec's business, results of operations and financial condition including:

- difficulties in achieving identified financial and operating synergies, including the integration of operations, services and products;

• diversion of management's attention from other business concerns;

• the assumption of unknown liabilities; and

• unanticipated changes in the market conditions, business and economic factors affecting such an acquisition, joint venture or alliance.

Wabtec cannot assure that it will be able to consummate any future acquisitions, joint ventures or other business combinations. If Wabtec is unable to identify or consummate suitable acquisitions, joint ventures or alliances,

TABLE OF CONTENTS

Wabtec may be unable to fully implement its business strategy, and its business and results of operations may be adversely affected as a result. In addition, Wabtec's ability to engage in such strategic transactions will be dependent on its ability to raise substantial capital, and Wabtec may not be able to raise the funds necessary to implement this strategy on terms satisfactory to Wabtec, if at all.

A failure to predict and react to customer demand could adversely affect Wabtec's business.

If Wabtec is unable to accurately forecast demand for its existing products or to react appropriately to changes in demand, Wabtec may experience delayed product shipments and customer dissatisfaction. If demand increases significantly from current levels, both Wabtec and its suppliers may have difficulty meeting such demand, particularly if such demand increases occur rapidly. Alternatively, Wabtec may carry excess inventory if demand for its products decreases below projected levels.

Additionally, Wabtec has dedicated significant resources to the development, manufacturing and marketing of new products. Decisions to develop and market new transportation products are typically made without firm indications of customer acceptance. Moreover, by their nature, new products may require alteration of existing business methods or threaten to displace existing equipment in which Wabtec's customers may have a substantial capital investment. There can be no assurance that any new products that Wabtec develops will gain widespread acceptance in the marketplace or that such products will be able to compete successfully with other new products or services that may be introduced by competitors. Furthermore, Wabtec may incur additional warranty or other costs as new products are tested and used by customers.

Failure to accurately predict and react to customer demand could have a material adverse effect on Wabtec's business, results of operations and financial condition.

Wabtec may fail to respond adequately or in a timely manner to innovative changes in new technology.

In recent years, the global transportation landscape has been characterized by rapid changes in technology, leading to innovative transportation and logistics concepts that could change the way the railway industry does business. There may be additional innovations impacting the railway industry that Wabtec cannot yet foresee. Any failure by Wabtec to quickly adapt to and adopt new innovations in products and processes desired by Wabtec's customers may result in a significant loss of demand for Wabtec's product and service offerings. In addition, advances in technology may require Wabtec to increase investments in order to remain competitive, and Wabtec's customers may not be willing to accept higher prices to cover the cost of these investments.

A portion of Wabtec's sales are related to delivering products and services to help its U.S. railroad and transit customers meet the Positive Train Control (PTC) mandate from the U.S. federal government, which requires the use of on-board locomotive computers and software by the end of 2018.

For the fiscal year ended December 31, 2017, Wabtec, without giving effect to the Transactions, had sales of about \$322 million related to train control and signaling, which includes PTC. In 2015, the industry's PTC deadline was extended by three years through December 31, 2018, which also included the ability of railroads to request an additional two years for compliance with the approval of the Department of Transportation if certain parameters are met. This could change the timing of Wabtec's revenues and could cause Wabtec to reassess the staffing, resources and assets deployed in delivering PTC services.

Wabtec's revenues are subject to cyclical variations in the railway and passenger transit markets and changes in government spending.

The railway industry historically has been subject to significant fluctuations due to overall economic conditions, the use of alternate methods of transportation and the levels of government spending on railway projects. In economic downturns, railroads have deferred, and may defer, certain expenditures in order to conserve cash in the short term. Reductions in freight traffic may reduce demand for Wabtec's replacement products.

The passenger transit railroad industry is also cyclical and is influenced by a variety of factors. New passenger transit car orders vary from year to year and are influenced by a variety of factors, including major replacement programs, the construction or expansion of transit systems by transit authorities and the quality and cost of alternative modes of transportation. To the extent that future funding for proposed public projects is curtailed or withdrawn altogether as a result of changes in political, economic, fiscal or other conditions beyond Wabtec's

TABLE OF CONTENTS

control, such projects may be delayed or cancelled, resulting in a potential loss of business for Wabtec, including locomotives, transit aftermarket and new transit car orders. There can be no assurance that economic conditions will be favorable or that there will not be significant fluctuations adversely affecting the industry as a whole and, as a result, Wabtec.

Wabtec's backlog is not necessarily indicative of the level of Wabtec's future revenues.

Wabtec's backlog represents future production and estimated potential revenue attributable to firm contracts with, or written orders from, its customers for delivery in various periods. Instability in the global economy, negative conditions in the global credit markets, volatility in the industries that Wabtec's products serve, changes in legislative policy, adverse changes in the financial condition of Wabtec's customers, adverse changes in the availability of raw materials and supplies, or un-remedied contract breaches could possibly lead to contract termination or cancellations of orders in Wabtec's backlog or request for deferred deliveries of Wabtec's backlog orders, each of which could adversely affect Wabtec's cash flows and results of operations.

A growing portion of Wabtec's sales may be derived from its international operations, which exposes Wabtec to certain risks inherent in doing business on an international level.

For the fiscal year ended December 31, 2017, without giving effect to the Transactions, approximately 66% of Wabtec's consolidated net sales were to customers outside of the United States. Wabtec intends to continue to expand its international operations, including in emerging markets, in the future. Wabtec's global headquarters for the Transit group is located in France, and Wabtec conducts other international operations through a variety of wholly and majority-owned subsidiaries and joint ventures, including in Australia, Austria, Brazil, Canada, China, Czech Republic, France, Germany, India, Italy, Macedonia, Mexico, the Netherlands, Poland, Russia, Spain, South Africa, Turkey, and the United Kingdom. As a result, Wabtec is subject to various risks, any one of which could have a material adverse effect on those operations and on its business as a whole, including:

- lack of complete operating control;
- lack of local business experience;
- currency exchange fluctuations and devaluations;
- restrictions on currency conversion or the transfer of funds or limitations on Wabtec's ability to repatriate income or capital;
- the complexities of operating within multiple tax jurisdictions;
- foreign trade restrictions and exchange controls;
- adverse impacts of international trade policies, such as import quotas, capital controls or tariffs;
- difficulty enforcing agreements and intellectual property rights;
- the challenges of complying with complex and changing laws, regulations and policies of foreign governments;
- the difficulties involved in staffing and managing widespread operations;
- the potential for nationalization of enterprises;
- economic, political and social instability; and
- possible terrorist attacks, conflicts and wars, including those against American interests.

Wabtec's exposure to the risks associated with international operations may intensify if its international operations expand in the future.

Wabtec may have liability arising from asbestos litigation.

Claims have been filed against Wabtec and certain of its affiliates in various jurisdictions across the United States by persons alleging bodily injury as a result of exposure to asbestos-containing products. Most of these claims have been made against Wabtec's wholly owned subsidiary, Railroad Friction Products Corporation ("RFPC"), and are based on a

product sold by RFPC prior to the time that Wabtec acquired any interest in RFPC.

TABLE OF CONTENTS

Most of these claims, including all of the RFPC claims, are submitted to insurance carriers for defense and indemnity or to non-affiliated companies that have retained the liabilities for the asbestos-containing products at issue. Wabtec cannot, however, assure that all these claims will be fully covered by insurance or that the indemnitors or insurers will remain financially viable. Wabtec's ultimate legal and financial liability with respect to these claims, as is the case with most other pending litigation, cannot be estimated.

Wabtec is subject to a variety of laws and regulations, including anti-corruption laws, in various jurisdictions.

Wabtec is subject to various laws, rules and regulations administered by authorities in jurisdictions in which Wabtec does business, such as the anti-corruption laws of the U.S. Foreign Corrupt Practices Act, the French Law n° 2016-1691 (Sapin II) and the U.K. Bribery Act, relating to its business and its employees. Wabtec is also subject to other laws and regulations governing its international operations, including regulations administered by the U.S. Department of Commerce's Bureau of Industry and Security, the U.S. Department of Treasury's Office of Foreign Assets Control, and various non-U.S. government entities, including applicable export control regulations, economic sanctions on countries and persons, customs requirements, currency exchange regulations, and transfer pricing regulations. Despite Wabtec's policies, procedures and compliance programs, its internal controls and compliance systems may not be able to protect Wabtec from prohibited acts willfully committed by its employees, agents or business partners that would violate such applicable laws and regulations. Any such improper acts could damage Wabtec's reputation, subject it to civil or criminal judgments, fines or penalties, and could otherwise disrupt Wabtec's business, and as a result, could materially adversely impact Wabtec's business, results of operations and financial condition.

In addition, Wabtec's manufacturing operations are subject to safety, operations, maintenance and mechanical standards, rules and regulations enforced by various federal and state agencies and industry organizations both domestically and internationally. Wabtec's business may be adversely impacted by new rules and regulations or changes to existing rules or regulations, which could require additional maintenance or substantial modification or refurbishment of certain of Wabtec's products or could make such products obsolete or require them to be phased out prior to their useful lives. Wabtec is unable to predict what impact these or other regulatory changes may have, if any, on its business or the industry as a whole. Wabtec cannot assure that costs incurred to comply with any new standards or regulations will not be material to Wabtec's business, results of operations and financial condition.

Wabtec is subject to a variety of environmental laws and regulations.

Wabtec is subject to a variety of increasingly stringent environmental laws and regulations governing discharges to air and water, substances in products, the handling, storage and disposal of hazardous or solid waste materials and the remediation of contamination associated with releases of hazardous substances. Wabtec has incurred, and will continue to incur, both operating and capital costs to comply with environmental laws and regulations, including costs associated with the clean-up and investigation of some of Wabtec's current and former properties and offsite disposal locations. Wabtec believes its operations currently comply in all material respects with all of the various environmental laws and regulations applicable to its business; however, there can be no assurance that environmental requirements will not change in the future or that Wabtec will not incur significant costs to comply with such requirements. Failure to comply with environmental laws and regulations could have significant consequences on Wabtec's business and results of operations, including the imposition of substantial fines and sanctions for violations, injunctive relief (including requirements that Wabtec limit or cease operations at affected facilities), and reputational risk.

In addition, certain of Wabtec's products are subject to extensive, and increasingly stringent, statutory and regulatory requirements governing, e.g., emissions and noise, including standards imposed by the U.S. Environmental Protection Agency, the European Union and other regulatory agencies around the world. Wabtec has made, and will continue to

make, significant capital and research expenditures relating to compliance with these standards. The successful development and introduction of new and enhanced products in order to comply with new regulatory requirements are subject to other risks, such as delays in product development, cost over-runs and unanticipated technical and manufacturing difficulties. In addition to these risks, the nature and timing of government implementation and enforcement of these standards—particularly in emerging markets—are unpredictable and subject to change.

TABLE OF CONTENTS

Future climate change regulation could result in increased operating costs, affect the demand for Wabtec's products or affect the ability of Wabtec's critical suppliers to meet its needs.

Wabtec has followed the current debate over climate change and the related policy discussion and prospective legislation. The potential challenges for Wabtec that climate change policy and legislation may pose have been reviewed by Wabtec. Any such challenges are heavily dependent on the nature and degree of climate change legislation and the extent to which it applies to Wabtec's industry. At this time, Wabtec cannot predict the ultimate impact of climate change and climate change legislation on Wabtec's operations. Further, when or if these impacts may occur cannot be assessed until scientific analysis and legislative policy are more developed and specific legislative proposals begin to take shape. Any laws or regulations that may be adopted to restrict or reduce emissions of greenhouse gas could require Wabtec to incur increased operating costs, and could have an adverse effect on demand for Wabtec's products. In addition, the price and availability of certain of the raw materials that Wabtec uses could vary in the future as a result of environmental laws and regulations affecting Wabtec's suppliers. An increase in the price of Wabtec's raw materials or a decline in their availability could adversely affect Wabtec's operating margins or result in reduced demand for Wabtec's products.

The occurrence of litigation in which Wabtec could be named as a defendant is unpredictable.

From time to time, Wabtec is subject to litigation or other commercial disputes and other legal and regulatory proceedings with respect to its business, customers, suppliers, creditors, shareholders, product liability, intellectual property infringement, warranty claims or environmental-related matters. Due to the inherent uncertainties of any litigation, commercial disputes or other legal or regulatory proceedings, Wabtec cannot accurately predict their ultimate outcome, including the outcome of any related appeals. Wabtec may incur significant expense to defend or otherwise address current or future claims. Any litigation, even a claim without merit, could result in substantial costs and diversion of resources and could have a material adverse effect on Wabtec's business and results of operations. Although Wabtec maintains insurance policies for certain risks, Wabtec cannot make assurances that this insurance will be adequate to protect Wabtec from all material judgments and expenses related to potential future claims or that these levels of insurance will be available in the future at economical prices or at all.

If Wabtec is not able to protect its intellectual property and other proprietary rights, Wabtec may be adversely affected.

Wabtec's success can be impacted by its ability to protect its intellectual property and other proprietary rights. Wabtec relies primarily on patents, trademarks, copyrights, trade secrets and unfair competition laws, as well as license agreements and other contractual provisions, to protect its intellectual property and other proprietary rights. However, filing, prosecuting and defending patents on Wabtec's products in all countries and jurisdictions throughout the world would be prohibitively expensive. Moreover, existing U.S. legal standards relating to the validity, enforceability and scope of protection of intellectual property rights offer only limited protection, may not provide Wabtec with any competitive advantages and may be challenged by third parties. The laws of countries other than the United States may be even less protective of intellectual property rights. As a result, a significant portion of Wabtec's technology is not patented and Wabtec may be unable or may not seek to obtain patent protection for this technology. Further, although Wabtec routinely conducts anti-counterfeiting activities in multiple jurisdictions, Wabtec has encountered counterfeit reproductions of Wabtec's products or products that otherwise infringe on Wabtec's intellectual property rights. Counterfeit components of low quality may negatively impact Wabtec's brand value. Accordingly, despite Wabtec's efforts, Wabtec may be unable to prevent third parties from infringing upon, counterfeiting or misappropriating its intellectual property or otherwise gaining access to Wabtec's technology. If Wabtec fails to protect its intellectual property and other proprietary rights, then Wabtec's business, results of operations and financial condition could be negatively impacted.

In addition, Wabtec operates in industries in which there are many third-party owners of intellectual property rights. Owners of intellectual property that Wabtec needs to conduct its business as it evolves may be unwilling to license such intellectual property rights to Wabtec on terms Wabtec considers reasonable. Third party intellectual property owners may assert infringement claims against Wabtec based on their intellectual property portfolios. If Wabtec is sued for intellectual property infringement, Wabtec may incur significant expenses investigating and defending such claims, even if Wabtec prevails.

TABLE OF CONTENTS

Wabtec faces risks relating to cybersecurity attacks that could cause loss of confidential information and other business disruptions.

Threats to information technology systems associated with cybersecurity risks and cyber incidents or attacks continue to grow and Wabtec's business is at risk from and may be impacted by cybersecurity attacks. Wabtec relies extensively on computer systems to process transactions and manage its business. In addition, Wabtec collects, processes and retains sensitive and confidential customer information in the normal course of business. Cybersecurity attacks could include attempts to gain unauthorized access to Wabtec's data and computer systems. Attacks can be both individual and/or highly organized attempts by very sophisticated hacking organizations. Wabtec employs a number of measures to prevent, detect and mitigate these threats, which include employee education, password encryption, frequent password change events, firewall detection systems, anti-virus software in-place and frequent backups; however, there is no guarantee such efforts will be successful in preventing a cyber-attack. A cybersecurity attack could compromise the confidential information of Wabtec's employees, customers and suppliers, and potentially violate certain domestic and international privacy laws. Furthermore, a cybersecurity attack on Wabtec's customers and suppliers could compromise Wabtec's confidential information in the possession of Wabtec's customers and suppliers. A successful attack could disrupt and otherwise adversely affect Wabtec's business operations, including through lawsuits by third-parties. In addition, the regulatory environment related to information security and privacy is constantly changing, and compliance with those requirements could result in additional costs.

Wabtec's manufacturer's warranties or product liability may expose Wabtec to potentially significant claims.

Wabtec warrants the workmanship and materials of many of its products. Accordingly, Wabtec is subject to a risk of product liability or warranty claims in the event that the failure of any of its products results in personal injury or death, or does not conform to Wabtec's customers' specifications. In addition, in recent years, Wabtec has introduced a number of new products for which Wabtec does not have a history of warranty experience. Although Wabtec currently maintains liability insurance coverage, Wabtec cannot assure that product liability claims, if made, would not exceed Wabtec's insurance coverage limits or that insurance will continue to be available on commercially acceptable terms, if at all. The possibility exists for these types of warranty claims to result in costly product recalls, significant repair costs and damage to Wabtec's reputation.

Labor shortages and labor disputes may have a material adverse effect on Wabtec's operations and profitability.

Wabtec depends on skilled labor in its manufacturing and other businesses. Due to the competitive nature of the labor markets in which Wabtec operates, Wabtec may not be able to retain, recruit and train the personnel Wabtec requires, particularly when the economy expands, production rates are high or competition for such skilled labor increases.

Wabtec collectively bargains with labor unions at some of its operations throughout the world. Failure to reach an agreement could result in strikes or other labor protests which could disrupt Wabtec's operations. Furthermore, non-union employees in certain countries have the right to strike. If Wabtec were to experience a strike or work stoppage, it would be difficult for Wabtec to find a sufficient number of employees with the necessary skills to replace these employees. Wabtec cannot assure that it will reach any such agreement or that it will not encounter strikes or other types of conflicts with the labor unions of Wabtec's personnel.

Any such labor shortages or labor disputes could have an adverse effect on Wabtec's business, results of operations and financial condition, could cause Wabtec to lose revenues and customers and might have permanent effects on Wabtec's business.

Equipment failures, interruptions, delays in deliveries or extensive damage to Wabtec's facilities, supply chains, distribution systems or information technology systems, could adversely affect its business.

All of Wabtec's facilities, equipment, supply chains, distribution systems and information technology systems are subject to the risk of catastrophic loss due to unanticipated events, such as fires, earthquakes, explosions, floods, tornados, hurricanes or weather conditions. An interruption in Wabtec's manufacturing capabilities, supply chains, distribution systems or information technology systems, whether as a result of such catastrophic loss or any other reason, could reduce, prevent or delay Wabtec's production and shipment of its product offerings, result in

TABLE OF CONTENTS

defective products or services, damage customer relationships and Wabtec's reputation and result in legal exposure and large repair or replacement expenses. This could result in the delay or termination of orders, the loss of future sales and a negative impact to Wabtec's reputation with Wabtec's customers.

Third-party insurance coverage that Wabtec maintains with respect to such matters will vary from time to time in both type and amount depending on cost, availability and Wabtec's decisions regarding risk retention, and may be unavailable or insufficient to protect Wabtec against losses. Any of these risks coming to fruition could materially adversely affect Wabtec's business, results of operations and financial condition.

Wabtec may be exposed to raw material shortages, supply shortages and fluctuations in raw material, energy and commodity prices.

Wabtec purchases energy, steel, aluminum, copper, rubber and rubber-based materials, chemicals, polymers and other key manufacturing inputs from outside sources, and traditionally has not had long-term pricing contracts with its pure raw material suppliers. The costs of these raw materials have been volatile historically and are influenced by factors that are outside Wabtec's control. If Wabtec is unable to pass increases in the costs of Wabtec's raw materials on to Wabtec's customers, experiences a lag in its ability to pass increases to Wabtec's customers, or operational efficiencies are not achieved, Wabtec's operating margins and results of operations may be materially adversely affected.

Wabtec's businesses compete globally for key production inputs. In addition, Wabtec relies upon third-party suppliers, including certain single-sourced suppliers, for various components for its products. In the event of a shortage or discontinuation of certain raw materials or key inputs, Wabtec may experience challenges sourcing certain of its components to meet its production requirements and may not be able to arrange for alternative sources of certain raw materials or key inputs. Any such shortage may materially adversely affect Wabtec's competitive position versus companies that are able to better or more cheaply source such raw materials or key inputs.

Wabtec may incur increased costs due to fluctuations in interest rates and foreign currency exchange rates.

In the ordinary course of business, Wabtec is exposed to increases in interest rates that may adversely affect funding costs associated with variable-rate debt and changes in foreign currency exchange rates. Wabtec is subject to currency exchange rate risk to the extent that Wabtec's costs may be denominated in currencies other than those in which Wabtec earns and reports revenues and vice versa. In addition, a decrease in the value of any of these currencies relative to the U.S. dollar could reduce Wabtec's profits from non-U.S. operations and the translated value of the net assets of Wabtec's non-U.S. operations when reported in U.S. dollars in Wabtec's consolidated financial statements. Wabtec may seek to minimize these risks through the use of interest rate swap contracts and currency hedging agreements. There can be no assurance that any of these measures will be effective. Material changes in interest or exchange rates could result in material losses to Wabtec.

If Wabtec loses its senior management or key personnel, Wabtec's business may be materially and adversely affected.

The success of Wabtec's business is largely dependent on Wabtec's senior management team, as well as on Wabtec's ability to attract and retain other qualified key personnel. It cannot be assured that Wabtec will be able to retain all of its current senior management personnel and attract and retain other key personnel necessary for the development of Wabtec's business. The loss of the services of senior management and other key personnel or the failure to attract additional personnel as required could have a material adverse effect on Wabtec's business, results of operations and financial condition.

Wabtec has substantial operations located in India, and Wabtec is subject to regulatory, economic, social and political uncertainties in India.

Wabtec has extensive operations in India, including a large scale project in which Wabtec is constructing a factory in the state of Bihar, which includes a township to house employees. The project also includes construction of two service sheds, in the states of Uttar Pradesh and Gujarat. Wabtec's operations in India are inherently risky due to a number of regulatory, economic, social and political uncertainties. For example, in September 2017 several media outlets reported that the Indian government expressed a desire to switch the

TABLE OF CONTENTS

country's rail system from diesel to electric locomotives, which would threaten to interfere with the completion of the project and curtail the viability of Wabtec's ongoing operations in India. While no such actions have been taken to date, any change in policy with respect to India's rail system could have a material adverse effect on Wabtec's business.

In addition, the Indian government has exercised and continues to exercise significant influence over many aspects of the Indian economy. Since 1991, successive Indian governments have generally pursued policies of economic liberalization and financial sector reforms, including by significantly relaxing restrictions on the private sector. Nevertheless, the role of the Indian central and state governments in the Indian economy as producers, consumers and regulators has remained significant and Wabtec cannot assure you that such liberalization policies will continue. The rate of economic liberalization could change, and specific laws and policies affecting foreign investments in India could change as well, including exposure to possible expropriation, nationalization or other governmental actions.

Further, protests against privatizations and government corruption scandals, which have occurred in the past, could slow the pace of liberalization and deregulation. A significant change in India's policy of economic liberalization and deregulation or any social or political uncertainties could significantly harm business and economic conditions in India generally and Wabtec's business and prospects.

India's physical infrastructure is less developed than that of many developed nations. Any congestion or disruption with respect to communication systems or any public facility, including transportation infrastructure, could disrupt Wabtec's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of people, goods and supplies, and add costs to doing business in India. These disruptions could interrupt Wabtec's business operations and significantly harm Wabtec's results of operations, financial condition and cash flows.

Wabtec's indebtedness could adversely affect its financial health.

At June 30, 2018, without giving effect to the Transactions, Wabtec had total debt of \$1,884.9 million. Wabtec and the other Borrowers entered into the Credit Agreement on June 8, 2018, which includes (i) a \$1.2 billion Revolving Credit Facility, (ii) a \$350.0 million Refinancing Term Loan and (iii) a \$400.0 million Delayed Draw Term Loan. Wabtec also obtained Bridge Commitments in respect of the Bridge Loan Facility in an amount not to exceed \$2.5 billion. On September 14, 2018, in accordance with the Commitment Letter, the Bridge Commitments were permanently reduced to \$0 in connection with Wabtec's issuance of \$500 million aggregate principal amount of the Floating Rate Notes, \$750 million aggregate principal amount of the 2024 Notes and \$1.25 billion aggregate principal amount of the 2028 Notes. Wabtec will use funds available under the Delayed Draw Term Loan and the proceeds from the issuance of the New Wabtec Notes to pay the Direct Sale Purchase Price. The Credit Agreement is expected to have approximately \$812 million of unused availability immediately following consummation of the Transactions. Being indebted could have important consequences to Wabtec. For example, Wabtec's indebtedness could:

- increase Wabtec's vulnerability to general adverse economic and industry conditions;
- require Wabtec to dedicate a substantial portion of its cash flow from operations to payments on its indebtedness, thereby reducing the availability of its cash flow to fund working capital, capital expenditures, acquisitions and other general corporate purposes;
- limit Wabtec's flexibility in planning for, or reacting to, changes in its business and the industries in which it operates;
- place Wabtec at a disadvantage compared to competitors that have less debt; and
- limit Wabtec's ability to borrow additional funds.

The indenture for the New Wabtec Notes and Wabtec's \$750.0 million 3.450% senior notes due in 2026, Wabtec's \$250.0 million 4.375% senior notes due in 2023, and the Credit Agreement contain various covenants that limit Wabtec's management's discretion in the operation of Wabtec's businesses.

The Credit Agreement contains customary representations and warranties by Wabtec and its subsidiaries, including customary use of materiality, material adverse effect, and knowledge qualifiers. Wabtec and its subsidiaries are also subject to (i) customary affirmative covenants that impose certain reporting obligations on

TABLE OF CONTENTS

Wabtec and its subsidiaries and (ii) customary negative covenants, including limitations on: indebtedness; liens; restricted payments; fundamental changes; business activities; transactions with affiliates; restrictive agreements; changes in fiscal year; and use of proceeds. In addition, Wabtec is required to maintain (i) a ratio of EBITDA to interest expense of at least 3.00 to 1.00 over each period of four consecutive fiscal quarters ending on the last day of a fiscal quarter and (ii) a Leverage Ratio, calculated as of the last day of a fiscal quarter for a period of four consecutive fiscal quarters, of 3.25 to 1.00 or less; *provided* that, in the event Wabtec completes the Direct Sale and the Merger or any other material acquisition in which the cash consideration paid exceeds \$500.0 million, the maximum Leverage Ratio permitted will be (x) 3.75 to 1.00 at the end of the fiscal quarter in which such acquisition is consummated and each of the three fiscal quarters immediately following such fiscal quarter and (y) 3.50 to 1.00 at the end of each of the fourth and fifth full fiscal quarters after the consummation of such acquisition. See Debt Financing.

The indenture under which the New Wabtec Notes and the senior notes were issued contain covenants and restrictions which limit among other things, the following: sale and leaseback transactions, sale of assets, change in control, mergers and consolidations and the incurrence of liens.

The integration of Wabtec's recently completed acquisitions may not result in anticipated improvements in market position or the realization of anticipated operating synergies or may take longer to realize than expected.

In 2016 and 2017, Wabtec completed multiple acquisitions with a combined investment of \$1,865 million, which included Wabtec's acquisition of Faiveley Transport for \$1,507 million. Although Wabtec believes that the acquisitions will improve its market position and realize positive operating results, including operating synergies, operating expense reductions and overhead cost savings, Wabtec cannot be assured that these improvements will be obtained or the timing of such improvements. The management and acquisition of businesses involves substantial risks, any of which may result in a material adverse effect on Wabtec's business and results of operations, including:

- the uncertainty that an acquired business will achieve anticipated operating results;
- significant expenses to integrate;
- diversion of management's attention;
- departure of key personnel from the acquired business;
- effectively managing entrepreneurial spirit and decision-making;
- integration of different information systems;
- unanticipated costs and exposure to unforeseen liabilities; and
- impairment of assets.

TABLE OF CONTENTS

CAUTIONARY STATEMENT ON FORWARD-LOOKING STATEMENTS

This prospectus-information statement contains forward-looking statements as that term is defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995, including statements regarding the proposed transaction between GE and Wabtec. All statements, other than historical facts, including statements regarding the expected timing and structure of the proposed transaction; the ability of the parties to complete the proposed transaction considering the various closing conditions; the expected benefits of the proposed transaction, including future financial and operating results, the tax consequences of the proposed transaction, and the combined company's plans, objectives, expectations and intentions; legal, economic and regulatory conditions; and any assumptions underlying any of the foregoing, are forward-looking statements.

Forward-looking statements concern future circumstances and results and other statements that are not historical facts and are sometimes identified by the words may, will, should, potential, intend, expect, endeavor, seek, estimate, overestimate, underestimate, believe, could, project, predict, continue, target or other similar expressions. Forward-looking statements are based upon current plans, estimates and expectations that are subject to risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated or anticipated by such forward-looking statements. The inclusion of such statements should not be regarded as a representation that such plans, estimates or expectations will be achieved. Important factors that could cause actual results to differ materially from such plans, estimates or expectations include, among others, (1) that one or more closing conditions to the transaction, including certain regulatory approvals, may not be satisfied or waived, on a timely basis or otherwise, including that a governmental entity may prohibit, delay or refuse to grant approval for the consummation of the proposed transaction, may require conditions, limitations or restrictions in connection with such approvals or that the required approval by the stockholders of Wabtec may not be obtained; (2) the risk that the proposed transaction may not be completed on the terms or in the time frame expected by GE or Wabtec, or at all; (3) unexpected costs, charges or expenses resulting from the proposed transaction; (4) uncertainty of the expected financial performance of the combined company following completion of the proposed transaction; (5) failure to realize the anticipated benefits of the proposed transaction, including as a result of delay in completing the proposed transaction or integrating GE Transportation, Wabtec and SpinCo; (6) the ability of the combined company to implement its business strategy; (7) difficulties and delays in achieving revenue and cost synergies of the combined company; (8) inability to retain and hire key personnel; (9) the occurrence of any event that could give rise to termination of the proposed transaction; (10) the risk that stockholder litigation in connection with the proposed transaction or other settlements or investigations may affect the timing or occurrence of the proposed transaction or result in significant costs of defense, indemnification and liability; (11) evolving legal, regulatory and tax regimes; (12) changes in general economic and/or industry specific conditions; (13) actions by third parties, including government agencies; and (14) other risk factors as detailed from time to time in GE's and Wabtec's respective reports filed with the SEC, including GE's and Wabtec's annual reports on Form 10-K, periodic quarterly reports on Form 10-Q, periodic current reports on Form 8-K and other documents filed with the SEC. The foregoing list of important factors is not exclusive.

Any forward-looking statements speak only as of the date of this communication. Neither GE nor Wabtec undertakes any obligation to update any forward-looking statements, whether as a result of new information or development, future events or otherwise, except as required by law. Readers are cautioned not to place undue reliance on any of these forward-looking statements.

TABLE OF CONTENTS

THE TRANSACTIONS

GE, Wabtec, SpinCo and Merger Sub, entered into the Merger Agreement on May 20, 2018, and GE, SpinCo, Wabtec and Direct Sale Purchaser entered into the Separation Agreement on May 20, 2018, which together provide for the combination of Wabtec and GE Transportation through a modified Reverse Morris Trust transaction structure. In connection with the Separation of GE Transportation from the remaining business of GE, GE will conduct the Internal Reorganization.

In connection with the Direct Sale, certain assets of GE Transportation, potentially including the equity interests of certain pre-Transaction subsidiaries of GE that compose part of GE Transportation, will be sold to Direct Sale Purchaser for a cash payment of \$2.9 billion, and Direct Sale Purchaser will assume certain liabilities of GE Transportation in connection with this purchase. Thereafter, GE will transfer the SpinCo Business to SpinCo and its subsidiaries (to the extent not already held by SpinCo and its subsidiaries) in the SpinCo Transfer, and SpinCo will issue to GE additional shares of SpinCo common stock in the SpinCo Transfer. Following this issuance of additional SpinCo common stock to GE, GE will own 8,700,000,000 shares of SpinCo common stock, or such other amount as GE shall determine with Wabtec's consent, which will constitute all of the outstanding stock of SpinCo.

GE will effect the Distribution by distributing on a *pro rata* basis all of the Distribution Shares to GE stockholders as of the record date for the Distribution. GE will deliver the Distribution Shares to the exchange agent, who will hold such shares for the benefit of GE stockholders. GE has the option, however, to effect the Distribution pursuant to a split-off. In the event GE elects to effect the Distribution pursuant to a split-off, GE would offer to holders of GE common stock the right to exchange all or a portion of their GE common stock for a number of Distribution Shares (which, in the aggregate, may be less than all of the Distribution Shares) at a discount to the implied value of the SpinCo common stock (based on the per-share value of Wabtec common stock multiplied by the exchange ratio set forth in the Merger Agreement), subject to proration if the GE stockholders have validly tendered more shares of GE common stock than GE is offering to accept for exchange. In the event the GE Exchange Offer is consummated, GE would distribute the remaining Distribution Shares, if any, on a *pro rata* basis to GE stockholders whose shares of GE common stock remain outstanding after the consummation of the GE Exchange Offer.

Immediately after the Distribution and on the closing date of the Merger, Merger Sub will merge with and into SpinCo, whereby the separate corporate existence of Merger Sub will cease and SpinCo will continue as the surviving company and a wholly owned subsidiary of Wabtec. In the Merger, subject to adjustment in accordance with the Merger Agreement, each share of SpinCo common stock will be converted into the right to receive a number of shares of Wabtec common stock based on the exchange ratio set forth in the Merger Agreement, as described in the section of this prospectus-information statement entitled *The Merger Agreement—Merger Consideration*.

Upon consummation of the Merger and calculated based on Wabtec's outstanding common stock immediately prior to the Merger on a fully-diluted, as-converted and as-exercised basis, 50.1% of the outstanding shares of Wabtec common stock would be held collectively by GE and pre-Merger holders of GE common stock (with approximately 9.9% of the outstanding shares of Wabtec common stock expected to be held by GE) and 49.9% of the outstanding shares of Wabtec common stock would be held by pre-Merger Wabtec stockholders. The shares held by GE will be subject to GE's obligations under (x) the Tax Matters Agreement to sell a number of shares of Wabtec common stock within two years of the Distribution Date (as described in the section of this prospectus-information statement entitled

Other Agreements—Tax Matters Agreement) and (y) the Shareholders Agreement to sell, subject to limited exceptions, all of the shares of Wabtec common stock GE beneficially owns within three years of the closing date of the Merger and prior thereto, to vote all of such shares in the proportion required under the Shareholders Agreement (as described in the section of this prospectus-information statement entitled *Other Agreements—Shareholders Agreement*).

Subject to adjustment under certain circumstances as set forth in the Merger Agreement, Wabtec will issue approximately 98.5 million shares of Wabtec common stock in the Merger. Based upon the reported closing sale price of \$ per share for Wabtec common stock on the NYSE on , 2018, the total value of the shares of Wabtec common stock to be issued by Wabtec in the Merger would be approximately \$ and the cash to be received by GE in the Transactions, including in respect of the Direct Sale, would be approximately \$. The actual value of the Wabtec common stock to be issued in the Merger will depend on the market price of shares of Wabtec common stock at the time of the Merger.

TABLE OF CONTENTS

After the Merger, Wabtec will own and operate the SpinCo Business and the assets acquired in the Direct Sale. It is anticipated that SpinCo, which will be Wabtec's wholly owned subsidiary, will hold the SpinCo Business and Direct Sale Purchaser, which will also be Wabtec's wholly owned subsidiary, will hold the assets purchased and the liabilities assumed in connection with the Direct Sale. Together, SpinCo and Direct Sale Purchaser will own and operate post-Transaction GE Transportation. Wabtec will also continue its current businesses. All shares of Wabtec common stock, including those issued in the Merger, will be listed on the NYSE under Wabtec's current trading symbol WAB.

Below is a step-by-step description of the sequence of material events relating to the Transactions.

Step 1 Internal Reorganization

GE will undertake an internal reorganization in which the assets and liabilities of GE Transportation will be segregated from the assets and liabilities of GE's remaining business.

Step 2 Direct Sale

On the date of the Distribution, immediately prior to the SpinCo Transfer, GE shall sell certain assets of GE Transportation, potentially including the equity interests of certain pre-Transaction subsidiaries of GE that compose part of GE Transportation, to Direct Sale Purchaser for a cash payment of \$2.9 billion. Concurrently, the Direct Sale Purchaser will assume certain liabilities of GE Transportation in connection with this purchase.

Wabtec and the other Borrowers entered into the Credit Agreement on June 8, 2018, which includes (i) a \$1.2 billion Revolving Credit Facility, (ii) a \$350.0 million Refinancing Term Loan and (iii) a \$400.0 million Delayed Draw Term Loan. Wabtec also obtained Bridge Commitments in respect of the Bridge Loan Facility in an amount not to exceed \$2.5 billion. On September 14, 2018, in accordance with the Commitment Letter, the Bridge Commitments were permanently reduced to \$0 in connection with Wabtec's issuance of \$500 million aggregate principal amount of the Floating Rate Notes, \$750 million aggregate principal amount of the 2024 Notes and \$1.25 billion aggregate principal amount of the 2028 Notes. Wabtec will use funds available under the Delayed Draw Term Loan and the proceeds from the issuance of the New Wabtec Notes to pay the Direct Sale Purchase Price.

Step 3 SpinCo Transfer

On the date of the Distribution, immediately following the Direct Sale, GE shall transfer the SpinCo Business, which will comprise the remaining business and operations of GE Transportation after giving effect to the Direct Sale, to SpinCo and its subsidiaries (to the extent not already held by SpinCo and its subsidiaries). SpinCo will assume certain liabilities of the SpinCo Business.

Step 4 Issuance of SpinCo Common Stock to GE

In connection with the SpinCo Transfer, SpinCo will issue and deliver to GE additional shares of SpinCo common stock. Following this issuance of additional shares to GE, GE will own 8,700,000,000 shares of SpinCo common stock, or such other amount as GE shall determine with Wabtec's consent, which will constitute all of the outstanding stock of SpinCo.

Step 5 Distribution

Based on market conditions prior to the closing of the Merger, corporate finance considerations and timing considerations, GE will determine whether the Distribution Shares will be distributed to GE stockholders pursuant to a spin-off or a split-off. This prospectus-information statement assumes that the Distribution Shares will be distributed

in a spin-off.

In this case, GE will effect the Distribution by distributing on a *pro rata* basis all of the Distribution Shares to GE stockholders as of the record date for the Distribution. GE will deliver the Distribution Shares to the exchange agent, who will hold such shares for the benefit of GE stockholders.

In the event GE elects to effect the Distribution pursuant to a split-off, GE would offer to holders of GE common stock the right to exchange all or a portion of their GE common stock for a number of Distribution Shares (which, in the aggregate, may be less than all of the Distribution Shares) at a discount to the implied

TABLE OF CONTENTS

value of the SpinCo common stock (based on the per-share value of Wabtec common stock multiplied by the exchange ratio set forth in the Merger Agreement), subject to proration if the GE stockholders have validly tendered more shares of GE common stock than GE is offering to accept for exchange. In the event the GE Exchange Offer is consummated, GE would distribute the remaining Distribution Shares, if any, on a pro rata basis to GE stockholders whose shares of GE common stock remain outstanding after the consummation of the GE Exchange Offer. Any GE stockholders that validly tender (and do not validly withdraw) shares of GE common stock for shares of SpinCo common stock in the GE Exchange Offer would have, with respect to such tendered shares, waived their rights to receive, and forfeited any rights to, shares of SpinCo common stock subsequently distributed on a pro rata basis to GE stockholders. In connection with the GE Exchange Offer, SpinCo would file with the SEC a registration statement on Form S-4 and Form S-1 to register the shares of its common stock that would be distributed to GE stockholders. In addition, Wabtec would file with the SEC an amendment to its registration statement on Form S-4. The terms and conditions of the GE Exchange Offer would be described in SpinCo's registration statement on Form S-4 and Form S-1 and Wabtec's amended registration statement on Form S-4. Wabtec and Wabtec stockholders would not be a party to the GE Exchange Offer and would not be asked to separately vote on the GE Exchange Offer or to otherwise participate in the GE Exchange Offer. The information included in this section regarding the GE Exchange Offer is being provided for informational purposes only and does not purport to be complete.

Step 6 Merger

Immediately after the Distribution and on the closing date of the Merger, Merger Sub will merge with and into SpinCo, whereby the separate corporate existence of Merger Sub will cease and SpinCo will continue as the surviving company and a wholly owned subsidiary of Wabtec. In the Merger, subject to adjustment in accordance with the Merger Agreement, each share of SpinCo common stock will be converted into the right to receive a number of shares of Wabtec common stock based on the exchange ratio set forth in the Merger Agreement, as described in the section of this prospectus-information statement entitled *The Merger Agreement—Merger Consideration*.

Upon consummation of the Merger and calculated based on Wabtec's outstanding common stock immediately prior to the Merger on a fully-diluted, as-converted and as-exercised basis, 50.1% of the outstanding shares of Wabtec common stock would be held collectively by GE and pre-Merger holders of GE common stock (with approximately 9.9% of the outstanding shares of Wabtec common stock expected to be held by GE) and 49.9% of the outstanding shares of Wabtec common stock would be held by pre-Merger Wabtec stockholders. The shares held by GE will be subject to GE's obligations under (x) the Tax Matters Agreement to sell a number of shares of Wabtec common stock within two years of the Distribution Date (as described in the section of this prospectus-information statement entitled

Other Agreements—Tax Matters Agreement) and (y) the Shareholders Agreement to sell, subject to limited exceptions, all of the shares of Wabtec common stock GE beneficially owns within three years of the closing date of the Merger and prior thereto, to vote all of such shares in the proportion required under the Shareholders Agreement (as described in the section of this prospectus-information statement entitled *Other Agreements—Shareholders Agreement*).

TABLE OF CONTENTS

Set forth below are diagrams that graphically illustrate, in simplified form, (i) the existing corporate structures, (ii) the corporate structures immediately following the Direct Sale, the SpinCo Transfer and the Distribution but before the Merger and (iii) the corporate structures immediately following the consummation of the Merger.

Existing Structure

Structure following the Separation (including the Internal Reorganization), the Direct Sale, the SpinCo Transfer and the Distribution but prior to the Merger

TABLE OF CONTENTS

Structure following the Merger

After completion of all of the steps described above, it is anticipated that SpinCo, which will be Wabtec's wholly owned subsidiary, will hold the SpinCo Business and Direct Sale Purchaser, which will also be Wabtec's wholly owned subsidiary, will hold the assets purchased and the liabilities assumed in connection with the Direct Sale. Together, SpinCo and Direct Sale Purchaser will own and operate post-Transaction GE Transportation.

In connection with the Transactions, on the date of the Distribution, GE or its subsidiaries and SpinCo or the SpinCo Transferred Subsidiaries will enter into the Additional Agreements relating to, among other things, intellectual property, employee matters, tax matters, research and development and transition services. See Other Agreements. Pursuant to the Tax Matters Agreement, after completion of all of the steps described above, GE will be obligated to sell a number of shares of Wabtec common stock within two years of the Distribution Date. See Other Agreements—Tax Matters Agreement. Pursuant to the Shareholders Agreement, after completion of all of the steps described above, GE will be obligated to sell, subject to limited exceptions, all of the shares of Wabtec common stock GE beneficially owns within three years of the closing date of the Merger (as described in the section of this prospectus-information statement entitled Other Agreements—Shareholders Agreement).

Determination of Number of Shares of SpinCo Common Stock to Be Distributed to GE Stockholders

Immediately prior to the Distribution, the total number of shares of SpinCo common stock outstanding will equal 8,700,000,000 shares or such other amount as GE shall determine with Wabtec's consent. GE is expected to retain 19.75% of the outstanding shares of SpinCo common stock. Accordingly, assuming that there are outstanding 8,700,000,000 shares of SpinCo common stock immediately prior to the Distribution, the total number of shares of SpinCo common stock to be distributed to holders of GE common stock as a *pro rata* dividend will be equal to 6,981,750,000 shares. The actual number of shares of SpinCo common stock to be distributed to GE stockholders, and the actual number of shares of SpinCo common stock to be retained by GE, will be determined by GE prior to the Distribution. All shares of SpinCo common stock will be converted into the right to receive shares of Wabtec common stock at the effective time of the Merger.

Based on the number of shares of GE common stock outstanding and the number of shares of Wabtec common stock outstanding, calculated on a fully-diluted, as-converted and as-exercised basis, in each case as of June 30, 2018, and assuming that GE distributes 80.25% of the outstanding shares of SpinCo common stock to GE stockholders in the Distribution, if the Merger had occurred on June 30, 2018, a GE stockholder would have

TABLE OF CONTENTS

received 1 share of Wabtec common stock for every approximately 110 shares of GE common stock held by such GE stockholder on the record date for the Distribution (approximately 0.00909 shares of Wabtec common stock for each share of GE common stock).

No Fractional Shares; Exchange of Certificates

Each issued and outstanding share of SpinCo common stock will be converted in the Merger into the right to receive a number of shares of Wabtec common stock based on the exchange ratio set forth in the Merger Agreement, as described in the section of this prospectus-information statement entitled *The Merger Agreement—Merger Consideration*. In the conversion, no fractional shares of Wabtec common stock will be delivered to SpinCo stockholders. All fractional shares of Wabtec common stock that any SpinCo stockholder otherwise would be entitled to receive as a result of the Merger will be aggregated by the exchange agent on behalf of Wabtec. The exchange agent will cause the whole shares obtained thereby to be sold on behalf of the SpinCo stockholders that would otherwise be entitled to receive such fractional shares of Wabtec common stock pursuant to the Merger, in the open market or otherwise, in each case at then-prevailing market prices, and, in no case later than five business days after the Distribution. The exchange agent will make available the net proceeds thereof, subject to the deduction of the amount of any withholding taxes and brokerage charges, commissions and conveyance and similar taxes, on a *pro rata* basis, without interest, as soon as practicable to the SpinCo stockholders that would otherwise be entitled to receive such fractional shares of Wabtec common stock pursuant to the Merger.

Upon consummation of the Merger, shares of SpinCo common stock held by GE or GE stockholders will no longer be outstanding and will automatically be canceled and retired and will cease to exist. Prior to the Merger, Wabtec will deposit with the exchange agent, for the benefit of holders of SpinCo common stock, book-entry shares representing the shares of Wabtec common stock issuable to the holders of SpinCo common stock in the Merger.

Background of the Transactions

Wabtec continually invests in new products and services with the objective of strategically growing its business, both organically and through acquisitions, joint ventures and other transactions.

GE continually reviews its portfolio to determine whether any changes are advisable and, on June 12, 2017, GE's incoming Chief Executive Officer announced that GE was initiating a comprehensive review with a focus on each of its businesses' performance, growth outlook, cost structures, returns and competitive environment.

On June 20, 2017, senior executives of Wabtec and GE met to discuss the railway transportation business generally, the parties' respective industry outlooks and recent events affecting GE. The meeting was arranged by Morgan Stanley & Co. LLC ("Morgan Stanley"), a financial advisor to GE. At the conclusion of the meeting, the participants agreed to meet again in a few weeks to consider whether discussions of a possible strategic transaction may be worth pursuing.

On July 12, 2017, Wabtec and GE signed a confidentiality agreement. Over the course of the next several months, Wabtec and GE exchanged confidential information and engaged in preliminary discussions about a possible strategic transaction.

In September 2017, Wabtec retained Goldman Sachs as its financial advisor and Jones Day as its legal advisor in connection with the possible strategic transaction.

On November 13, 2017, GE disclosed that it was considering possible strategic alternatives for several businesses of GE, including GE Transportation.

In late November, representatives of Wabtec and GE continued to work on potential synergies that may be involved in a possible transaction and a general outline of potential terms, and agreed that their respective financial advisors should meet to discuss a potential transaction. These meetings occurred in early December 2017.

During the weeks of December 11, 2017 and December 18, 2017, representatives of Wabtec and GE conducted facility tours and engaged in detailed discussions regarding potential synergies that may be realized in a combination of GE Transportation and Wabtec. During this period, Wabtec's senior management kept the Wabtec Board apprised on a regular basis on the progress of the discussions with respect to the possible transaction.

TABLE OF CONTENTS

Wabtec management also reviewed the preliminary discussions about a strategic transaction with respect to GE Transportation with the Wabtec Board at the Wabtec Board meetings held on December 4, 2017, January 26, 2018, February 5-6, 2018, February 20, 2018 and March 6, 2018. In each such meeting, the Wabtec Board directed Wabtec's senior management to continue discussions with GE, although the Wabtec Board recognized that transactions like the possible transaction were difficult to negotiate due to their scope and complexity.

Discussions and due diligence progressed during January 2018, February 2018 and March 2018. Early during that time period, representatives of Wabtec and GE began to focus on a possible transaction in which Wabtec and GE Transportation would be combined in a Reverse Morris Trust transaction in which GE Transportation would be either spun off or split-off to GE stockholders and thereafter merged with a subsidiary of Wabtec whereby GE stockholders would receive a majority of the common stock of the combined company on a tax-free basis.

On January 26, 2018, following a meeting of the Wabtec Board, Wabtec's CEO sent to GE's Head of Corporate Development a proposed term sheet for a possible combination of Wabtec and GE Transportation. The parties negotiated the proposed term sheet over the next several weeks, including the allocation of value between Wabtec and GE.

GE senior management met with the GE Board and various committees of the GE Board on numerous occasions in 2018 to discuss progress on the discussions with Wabtec while continuing to explore other strategic alternatives for GE Transportation, including an initial public offering.

Following the exchange of draft term sheets over the next several weeks and continuing due diligence, on March 19, 2018, Wabtec and GE signed a term sheet outlining the key high-level terms of a possible transaction. The term sheet was nonbinding except for certain customary binding provisions, including an exclusivity provision under which GE agreed to work exclusively with Wabtec on the possible transaction for 30 days. The term sheet contemplated a possible Reverse Morris Trust transaction for the combination of Wabtec and GE Transportation whereby GE would receive a cash payment from SpinCo in the range of \$2.9 billion to \$3.0 billion and GE stockholders would receive a majority of the combined company's common stock, with the amount of the cash payment and percentage of common stock being subject to continued discussions. The notion that a portion of the consideration to GE would be payable in cash was part of the parties' discussions from the outset, in part because such payments are typical in Reverse Morris Trust transactions.

The Wabtec Board met on April 16, 2018 to review the possible transaction in detail. Representatives of Goldman Sachs and Jones Day participated in the meeting. At the meeting, Wabtec's senior management reviewed the strategic and financial rationale of the possible transaction, the results of due diligence and discussions with GE to date. A representative of Jones Day reviewed the Wabtec directors' fiduciary duties in the circumstances, the material terms of draft transaction documentation, the major open issues at the time and the major actions involved in the possible transaction. The Transactions were considered by the Wabtec Board at this and subsequent meetings as a potential alternative to Wabtec continuing to operate pursuant to its existing business plan under its existing capital structure. The representatives of Goldman Sachs then provided a financial review of the possible transaction. Following these discussions, the Wabtec Board directed Wabtec's management and legal and financial advisors to continue discussions with representatives of GE.

In April and through May 20, 2018, the parties continued due diligence and exchanged drafts of the principal Transaction Documents. Representatives of GE, including representatives from Davis Polk & Wardwell LLP, GE's legal counsel, and Morgan Stanley and Dyal & Co. LLC (Dyal), GE's financial advisors, and representatives of Wabtec, including representatives from Jones Day and Goldman Sachs, met on a substantially continuous basis in New York City in respect of the possible transaction and the principal Transaction Documents during most of the first three weeks of May 2018. Key terms negotiated in this period included:

the portion of Wabtec common stock to be owned by GE and GE stockholders following the consummation of the Transactions;

the terms of the cash and debt purchase price adjustments;

the pro forma leverage and indebtedness of the combined company;

the allocation of certain liabilities of GE Transportation;

TABLE OF CONTENTS

the amount of the cash payment to GE of \$2.9 billion, in line with the \$2.9 billion–\$3.0 billion amount reflected in the March 2018 nonbinding term sheet;

the parties’ decision that it would be in their mutual interests to pursue the Direct Sale rather than having SpinCo incur debt and distribute an exit dividend to GE, because the modified Reverse Morris Trust structure should result in tax benefits to Wabtec (including by avoiding certain ambiguities under the depreciation rules in U.S. federal income tax law that otherwise might be relevant), which will be shared between the parties (up to a cap) as realized by Wabtec after the Merger. The Direct Sale also should reduce administrative complexity and financing costs;

provisions relating to the composition of the Wabtec Board following the closing of the Transactions;

provisions relating to closing certainty, including obligations to seek antitrust approvals, termination fees and certain closing conditions;

the terms of the tax matters agreement, including terms governing payments to be made to GE in respect of certain tax benefits expected to be realized by the combined company as a result of the Transactions;

obligations of various Wabtec parties to support the Transactions; and

GE retaining a portion of the interest in SpinCo rather than distributing it to GE stockholders and the terms of the Shareholders Agreement that would apply in respect of GE’s ownership of Wabtec shares that would be issued in the Merger in respect of that retained interest.

The GE Board met on May 17, 2018 and unanimously approved the Transactions.

On May 14, 2018 and May 19, 2018, the Wabtec Board met to review the possible transaction. Representatives of Goldman Sachs and Jones Day participated in the meetings. At the May 19, 2018 meeting, Wabtec’s senior management reviewed the strategic and financial rationale of the possible transaction, and the final results of due diligence and economic terms of the possible transaction. A representative of Jones Day reviewed the Wabtec directors’ fiduciary duties in the circumstances, and the material terms of drafts of the principal Transaction Documents. The representatives of Goldman Sachs then provided a financial review of the possible transaction. At the meeting on May 19, 2018, Goldman Sachs rendered to the Wabtec Board its oral opinion, which was subsequently confirmed by delivery of a written opinion, dated May 20, 2018, that, as of the date of such written opinion and based upon and subject to the factors and assumptions as set forth in such written opinion, the Aggregate Consideration to be paid by Wabtec pursuant to the Merger Agreement was fair from a financial point of view to Wabtec (See The Transactions—Opinion of Wabtec’s Financial Advisor). A representative of Jones Day also provided an update on the status of the debt financing (See Debt Financing), as well as the various Transaction Documents. Following discussions with Wabtec management and Wabtec’s legal and financial advisors, the Wabtec Board unanimously determined that the Transactions, as well as the Wabtec Charter Amendment and the Share Issuance, were advisable and in the best interests of Wabtec and its stockholders, and approved the Transactions and the Transaction Documents, including the Wabtec Charter Amendment, the Share Issuance and the proposed debt financing.

Over the May 19-20, 2018 weekend, representatives of Wabtec and GE finalized the Transaction Documents providing for the Transactions.

On May 20, 2018, Wabtec and GE publicly announced the Transactions.

Wabtec’s Reasons for the Transactions

In deciding to approve the Transactions, as well as the Wabtec Charter Amendment and the Share Issuance, the Wabtec Board, in consultation with Wabtec’s senior management and financial advisors, considered, among other things, the potential strategic benefits to be achieved by combining GE Transportation and Wabtec relative to Wabtec’s prospects on a standalone basis, the expected financial benefits of the Transactions and the terms of Transactions and Transaction Documents, as well as potential risks and negative considerations associated with the Transactions.

TABLE OF CONTENTS

Factors Supporting the Transactions

The Wabtec Board considered the following factors, among others, as supporting its decision to approve the Transactions:

Strategic Benefits

• The combined company is expected to be a diversified global leader in the transportation and logistics business with pro forma 2017 combined revenues of \$8 billion;

• the combined company is expected to be better positioned to meet anticipated growth in demand for train intelligence and network optimization products; and

Wabtec's and GE Transportation's respective businesses are believed to be complementary with a large, global installed customer base. It is anticipated that the combined company will have the ability to provide customers with more desirable and affordable solutions and aftermarket services in rapidly evolving categories than the two companies would have separately.

Financial Benefits

- Wabtec believes that the combination will occur at an attractive time in the railway industry cycle and expects significant growth in revenue and adjusted EBITDA as the cycle rebounds from trough levels; the Transactions are expected to be accretive to cash earnings per share beginning in the first full year after the closing of the Transactions;

• Wabtec expects to realize \$250 million total run-rate operating synergies, driven by cost and revenue opportunities, within four years after the closing of the Transactions;

the step-up in tax basis associated with the Transactions is expected by Wabtec to result in average annual cash tax benefits for 15 years of \$150.0 million, with the first \$470.0 million of cumulative cash benefits to be paid to GE and the remainder (which Wabtec estimated at a net present value of \$1.1 billion) to accrue to the combined company; the combined company has forecasted future cash flows which Wabtec expects will allow for rapid deleveraging after the closing of the Transactions and enable the combined company to maintain an investment grade debt rating; and the Transactions were valued by the Wabtec Board at \$11.1 billion based on the Wabtec share price of \$83.79 on April 19, 2018—the last unaffected trading day prior to media speculation regarding a potential transaction. When adjusted for the estimated net tax step-up value of \$1.1 billion accruing to the combined company, the Transactions were valued by the Wabtec Board at \$10.0 billion. The Wabtec Board considered that these valuations were favorable.

Transaction Terms

• The Transactions, including the aggregate consideration being paid by Wabtec in the Transactions, were the result of extensive arms'-length negotiations between Wabtec and GE;

- the prospective financial results of GE Transportation (as well as the risks involved in achieving those results), the fit of GE Transportation with Wabtec's previously established strategic goals (which include adding capabilities, expanding customer and geographic access and increasing scale) and the results of Wabtec's due diligence review of GE Transportation;

the opinion of Goldman Sachs, dated May 20, 2018, to the Wabtec Board that, as of such date and based upon and subject to the factors and assumptions as set forth in such opinion, the Aggregate Consideration being paid by Wabtec pursuant to the Merger Agreement was fair from a financial point of view to Wabtec, as more fully described in the section of this prospectus-information statement entitled "The Transactions—Opinion of Wabtec's Financial Advisor"; the Wabtec Board would be expanded to include three additional directors, each of whom shall be independent as defined in the listing standards of the NYSE, to be designated by GE;

TABLE OF CONTENTS

immediately following the consummation of the Transactions, the current executive officers of Wabtec would continue in their current positions, with additional executive management talent to be gained from former management of GE Transportation and the other changes described in Information on Wabtec—Directors and Officers of Wabtec Before and After the Consummation of the Transactions ; the Transactions are expected to be approved by regulatory authorities without significant disruption in the business of Wabtec or GE Transportation; and the Merger Agreement permits the Wabtec Board in certain circumstances to withdraw or modify its recommendation that Wabtec stockholders approve the Wabtec Charter Amendment and the Share Issuance, subject to the payment of a termination fee in certain circumstances.

Potential Risks and Negative Considerations

The Wabtec Board also considered, among other things, the following potential risks and other potentially negative considerations associated with the Transactions, but determined that the benefits of the Transactions substantially outweighed such risks and other considerations:

- The inability of Wabtec to influence the operations of GE Transportation during the potentially significant time period prior to consummating the Transactions;
- the possibility that the increased revenues, earnings and efficiencies expected to result from the Transactions would fail to materialize in whole or part;
- the challenges inherent in fully and successfully separating the operations of GE Transportation from GE and integrating such business with Wabtec, especially given that GE Transportation is similar in size and scope to Wabtec's business;
- the significant, one-time costs expected to be incurred in connection with the Transactions, including approximately \$35.0 million of financing-related fees, approximately \$60.0 million of transaction-related costs (including advisory, legal, accounting and professional fees) and approximately \$88.0 million of transition and integration-related costs (a portion of which will be incremental capital spending), that Wabtec management believes will be necessary to realize the anticipated synergies from the Transactions;
- the potential impact of the restrictions under the Merger Agreement on Wabtec's ability to take certain actions during the period between execution of the Merger Agreement and the consummation of the Transactions, generally requiring Wabtec to conduct business only in the ordinary course or, if not in the ordinary course, to first seek and obtain GE's consent (which could delay or prevent Wabtec from undertaking business opportunities that may arise pending completion of the Transactions) and restricting the ability of Wabtec to pursue certain strategic transactions;
- the dilution of the ownership interest of Wabtec's current stockholders that would result from the Share Issuance and that Wabtec's current stockholders, as a group, would control less than a majority of Wabtec's outstanding common stock after consummation of the Transactions;
- the fact that GE will acquire 9.9% of Wabtec's common shares in the Transactions, including the possible effects that a sale of this stake would have on Wabtec's stock price;
- potential difficulties in integrating the management and operating personnel of Wabtec and GE Transportation, including the risk of losing key personnel due to uncertainties over future roles;
- the risk that the Transactions and integration of GE Transportation with Wabtec may divert management attention and resources away from other strategic opportunities and from operational matters;
- the operations of the business of GE Transportation will be dependent in part on the provision of transition services by GE for a period of time after the consummation of the Transactions;
- the need for Wabtec to incur substantial indebtedness in connection with the Transactions;
- the potential payment of a termination fee of \$300 million by Wabtec in certain circumstances, including in certain circumstances based on regulatory challenges to the Transactions;

TABLE OF CONTENTS

the restrictions imposed on Wabtec's ability to take certain corporate actions under the terms of the Tax Matters Agreement, which could reduce its ability to engage in certain future business transactions that might be advantageous;

the absence of an indemnity from GE for breaches of representations and warranties;

the possibility that the Transactions may not be consummated and the potential adverse consequences, including substantial costs that would be incurred and potential damage to Wabtec's reputation, if the Transactions are not completed; and

the other risks described under the section entitled **Risk Factors—Risks Related to the Transactions** beginning on page 26 of this prospectus-information statement.

The foregoing discussion of the information and factors considered by the Wabtec Board is not exhaustive, but includes the material factors considered by the Wabtec Board, including factors that support the Transactions as well as those that weigh against them. In view of the wide variety of factors considered by the Wabtec Board in connection with its evaluation of the Transactions and the complexity of these matters, the Wabtec Board was not asked to, nor did it attempt to, quantify, rank or otherwise assign relative weights to the specific factors that it considered in reaching its decision. Rather, the Wabtec Board based its recommendation on the totality of the information presented to and considered by it. The Wabtec Board evaluated the factors described above with the assistance of Wabtec's senior management and legal and financial advisors. In considering the factors described above, individual members of the Wabtec Board gave different weights to other or different factors.

This explanation of the factors considered by the Wabtec Board is in part forward-looking in nature and, therefore, should be read in light of the factors discussed in the sections of this prospectus-information statement entitled **Cautionary Statement on Forward-Looking Statements** and **Risk Factors—Risks Related to the Transactions** beginning on pages 43 and 26, respectively, of this prospectus-information statement.

After careful consideration, the Wabtec Board unanimously approved the Merger Agreement, the Separation Agreement, the Transactions, as well as the Share Issuance and the Wabtec Charter Amendment, and determined that the Merger Agreement, the Separation Agreement and the Transactions are advisable and in the best interests of Wabtec and its stockholders.

GE's Reasons for the Transactions

As discussed in the section of this document entitled **—Background of the Transactions**, GE continually reviews its portfolio to determine whether any changes are advisable and, on June 12, 2017, GE's incoming Chief Executive Officer announced that GE was initiating a comprehensive review with a focus on each of its business's performance, growth outlook, cost structures, returns and competitive environment. As part of that review, in November 2017, the GE Board and GE's senior management determined that a strategic transaction involving GE Transportation was in the best interest of GE and GE stockholders. The GE Board believes that the Transactions will accomplish a number of important business objectives for GE, as well as provide enhanced opportunities for the combined business of Wabtec and GE Transportation.

In reaching a decision to approve the Merger Agreement, the Separation Agreement and the other Transaction Documents and to proceed with the Transactions, the GE Board and GE's senior management, in consultation with its financial advisors, considered a variety of factors, including the significant factors listed below in support of the decision:

GE's knowledge of GE Transportation's business, financial condition, results of operations, industries and competitive environments and the results of the due diligence review of Wabtec's business conducted by GE's management and advisors, including an analysis of the potential synergies of the combined company, which are expected to be significant;

the Transactions could enable GE Transportation as part of the combined company to have greater flexibility in deploying its capital and allocating resources in a manner more directly aligned with its business objectives and more consistent with its peers;

the Transactions would enable GE to focus on its core business segments;

TABLE OF CONTENTS

GE's review of strategic options for GE Transportation and the belief of GE, following such review, that the Transactions could provide more value to GE and GE stockholders than other potential strategic options for GE Transportation, including (1) retaining GE Transportation, (2) consummating an initial public offering for GE Transportation or (3) separating GE Transportation through an alternative transaction;

the belief of GE senior management that the Transactions reflect a compelling valuation for GE Transportation, including the fact that the Transactions provide that (1) GE would receive \$2,900,000,000 in cash in connection with the Transactions and (2) upon the consummation of the Merger and calculated based on Wabtec's outstanding common stock immediately prior to the Merger on a fully-diluted, as-converted and as-exercised basis, pre-Merger holders of GE common stock would own 40.2% and GE would own 9.9% of the combined company (subject to GE's right to increase the portion of the combined company owned by GE stockholders, subject to a corresponding reduction in GE's ownership of the combined company) and would have the opportunity to participate in any increase in the value of the shares of Wabtec common stock, including potential increases in stockholder value associated with executing on the identified synergy opportunities, and GE would receive cash proceeds from the future disposition of the Wabtec shares it receives in the Merger, which cash would be available for other uses by GE;

the fact that three individuals designated by GE would, subject to the designees being independent under NYSE listing standards and reasonably acceptable to the Nominating and Corporate Governance Committee of the Wabtec Board, be directors of the combined company for an agreed-upon period of time following the Merger;

the complementary nature of the service offerings of GE Transportation with those of Wabtec, the greater scale that would be created through the combination of GE Transportation with Wabtec and the opportunity for the combined company to (1) have an increased future growth rate, earnings and prospects compared to the future growth rate, earnings and prospects of GE Transportation on a stand-alone basis and (2) create greater opportunities for GE Transportation employees and enhanced offerings for GE Transportation customers; and

the review by the GE Board, with the assistance of GE's management and business, legal and financial advisors, of the structure and terms and conditions of the Merger Agreement, the Separation Agreement and the other Transaction Documents. For more information, see The Merger Agreement, The Separation Agreement and Other Agreements. In the course of its deliberations and consideration of the Transactions, the GE Board also considered a variety of risks and potentially negative factors, including the following:

the risk one or more of the conditions to the parties' obligations to complete the Transactions will not be satisfied or waived (potentially including the condition that the Wabtec stockholders approve the Share Issuance proposal and the Wabtec Charter Amendment proposal), which, while not expected, could cause the Transactions not to be completed;

the fact that the time between the signing of the Merger Agreement and the closing could be an extended period and the uncertainty created for GE Transportation and its employees during that period;

the value of the Wabtec common stock to be received in the Merger could fluctuate, perhaps significantly, based on a variety of factors many of which are outside of the control of GE and are unrelated to the performance of GE Transportation and some of which are outside of the control of GE and Wabtec, including general stock market conditions, the liquidity of Wabtec common stock and the performance of Wabtec's business;

the risk that failure to complete the Transactions could negatively affect the price of GE common stock and GE's future business, financial condition and operating results;

risks relating to the separation of GE Transportation from GE and the operation of GE Transportation separate from the other GE businesses, including the costs of separation, and the risk of not realizing the anticipated benefits of the separation;

TABLE OF CONTENTS

risks relating to the integration of GE Transportation with the business and operations of Wabtec and the fact that the synergies and cost savings anticipated by the parties might not be realized or might take longer to be realized than anticipated, including risks relating to maintaining and renewing relationships with customers, suppliers and other third parties important to GE Transportation and the business and operations of Wabtec;

the risk that GE, SpinCo and Wabtec may be unable to retain key employees;

the possibility that the Transactions may not result in the anticipated tax treatment for GE's stockholders, including for reasons beyond the control of GE or Wabtec;

that GE, prior to the completion of the Transactions, is required to conduct the business of GE Transportation in the ordinary course, subject to specific limitations and exceptions, which could delay or prevent GE Transportation from undertaking business opportunities that may arise prior to the completion of the Transactions;

the potential risk of diverting GE and GE Transportation management focus and resources from operational matters and other strategic opportunities while working to implement the Transactions;

GE's obligations under the Transaction Documents, including, among others, its obligations under (x) the Tax Matters Agreement to sell a number of shares of Wabtec common stock within two years of the Distribution Date (as described in the section of this prospectus-information statement entitled **Other Agreements—Tax Matters Agreement**) and (y) the Shareholders Agreement to, among other things, sell, subject to limited exceptions, all of the shares of Wabtec common stock GE beneficially owns within three years of the closing date of the Merger and prior thereto, to vote all of such shares in the proportion required under the Shareholders Agreement (as described in the section of this prospectus-information statement entitled **Other Agreements—Shareholders Agreement**); and

risks of the type and nature described under the section of this document titled **Risk Factors**.

This discussion of the information and factors considered by the GE Board is not exhaustive. In view of the wide variety of factors considered by the GE Board in connection with the evaluation of the strategic alternatives available to GE for GE Transportation and the evaluation of the Transactions and in view of the complexity of the factors considered, the GE Board did not consider it practical to, nor did it attempt to, quantify, rank or assign relative weights to the factors that it considered in making its decision to approve the Merger Agreement, the Separation Agreement, the other Transaction Documents and the Transactions. Instead, the GE Board considered the factors described above, among others, and decided to approve the Merger Agreement, the Separation Agreement, the other Transaction Documents and the Transactions. In considering the factors described above and any other factors, individual members of the GE Board may have viewed factors differently or given different weight, merit or consideration to different factors.

This discussion of GE's reasons for the Transactions is forward looking in nature and should be read in light of the factors discussed in the sections of this document entitled **Cautionary Statement on Forward-Looking Statements** and **Risk Factors**.

Opinion of Wabtec's Financial Advisor

Goldman Sachs rendered to the Wabtec Board its oral opinion, which was subsequently confirmed by delivery of a written opinion, dated May 20, 2018, that, as of the date of such written opinion and based upon and subject to the factors and assumptions as set forth in such written opinion, the Aggregate Consideration to be paid by Wabtec pursuant to the Merger Agreement was fair from a financial point of view to Wabtec.

The full text of the written opinion of Goldman Sachs, dated May 20, 2018, which sets forth assumptions made, procedures followed, matters considered and limitations on the review undertaken in connection with the opinion, is attached as Exhibit 99.1 to the registration statement of which this prospectus-information statement forms a part. Goldman Sachs provided advisory services and its opinion for the information and assistance of the Wabtec Board in connection with its consideration of the Transactions. The Goldman Sachs opinion is not a recommendation as to how any holder of shares of Wabtec common stock should vote with respect to the Share Issuance, the Wabtec Charter Amendment or any other matter.

TABLE OF CONTENTS

In connection with rendering the opinion described above and performing its related financial analyses, Goldman Sachs reviewed, among other things:

- the Merger Agreement;
- the Separation Agreement;
- the Tax Matters Agreement;
- the annual reports to stockholders and Annual Reports on Form 10-K of Wabtec and GE for the five years ended December 31, 2017;
- certain interim reports to stockholders and Quarterly Reports on Form 10-Q of Wabtec and GE;
- certain other communications from Wabtec and GE to their respective stockholders;
- certain publicly available research analyst reports for Wabtec and GE;
- certain unaudited financial statements of GE Transportation (as described in the Merger Agreement);
- certain internal financial analyses and forecasts for GE Transportation prepared by the management of GE;
- certain internal financial analyses and forecasts for Wabtec standalone and pro forma for the Transactions, certain financial analyses and forecasts for tax benefits, including the Company Structure Benefits, associated with the Transactions, and certain financial analyses and forecasts for GE Transportation, in each case as prepared by the management of Wabtec and approved for Goldman Sachs' use by Wabtec (the Forecasts);
- certain operating synergies projected by the management of Wabtec to result from the Transactions, as approved for Goldman Sachs' use by Wabtec (the Synergies);
- estimates of the SpinCo Adjustment Amount and the Direct Sale Adjustment Amount (each as defined in the Separation Agreement) prepared by the management of Wabtec and approved for Goldman Sachs' use by Wabtec (the Adjustment Estimates); and
- estimates of the amounts and timing of the TMA Payments prepared by management of Wabtec and approved for Goldman Sachs' use by Wabtec (the TMA Payment Estimates).

Goldman Sachs also (i) held discussions with members of the senior managements of Wabtec and GE regarding their assessment of the past and current business operations, financial condition and future prospects of GE Transportation, and with the members of senior management of Wabtec regarding their assessment of the past and current business operations, financial condition and future prospects of Wabtec and the strategic rationale for, and the potential benefits of, the Transactions; reviewed the reported price and trading activity for the shares of Wabtec common stock, (ii) compared certain financial and stock market information for Wabtec and certain financial information for GE Transportation with similar financial and stock market information for certain other companies the securities of which are publicly traded, (iii) reviewed the financial terms of certain recent business combinations in the rail transportation industry and in other industries and (iv) performed such other studies and analyses, and considered such other factors, as it deemed appropriate.

For purposes of rendering its opinion, Goldman Sachs, with Wabtec's consent, relied upon and assumed the accuracy and completeness of all of the financial, legal, regulatory, tax, accounting and other information provided to, discussed with or reviewed by, it, without assuming any responsibility for independent verification thereof. In that regard, Goldman Sachs assumed with Wabtec's consent that the Forecasts, the Synergies, the Adjustment Estimates and the TMA Payment Estimates were reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of Wabtec. Goldman Sachs did not make an independent evaluation or appraisal of the assets and liabilities (including any contingent, derivative or other off-balance-sheet assets and liabilities) of Wabtec, SpinCo, Merger Sub or GE or any of their respective subsidiaries and it was not furnished with any such evaluation or appraisal. Goldman Sachs assumed that all governmental, regulatory or other consents and approvals necessary for the consummation of the Transactions will be obtained without any adverse effect on Wabtec, GE Transportation or SpinCo or on the expected benefits

TABLE OF CONTENTS

of the Transactions in any way meaningful to its analysis. Goldman Sachs has also assumed that the Transactions will be consummated on the terms set forth in the Merger Agreement, Separation Agreement and Tax Matters Agreement, without the waiver or modification of any term or condition the effect of which would be in any way meaningful to its analysis.

Goldman Sachs' opinion does not address the underlying business decision of Wabtec to engage in the Transactions, or the relative merits of the Transactions as compared to any strategic alternatives that may be available to Wabtec; nor does it address any legal, regulatory, tax or accounting matters. Goldman Sachs' opinion addresses only the fairness from a financial point of view to Wabtec, as of May 20, 2018, of the Aggregate Consideration to be paid by Wabtec pursuant to the Merger Agreement. Goldman Sachs' opinion does not express any view on, and does not address, any other term or aspect of the Merger Agreement, Separation Agreement or Tax Matters Agreement or the Transactions or any term or aspect of any other agreement or instrument contemplated by the Merger Agreement, Separation Agreement or Tax Matters Agreement or entered into or amended in connection with the Transactions, including, without limitation, the Shareholders Agreement, the Tax Matters Agreement, the Employee Matters Agreement, the Internal Reorganization, the SpinCo Transfer, the Distribution, any allocation of the Aggregate Consideration or liabilities assumed as part of the Direct Sale or any indemnification or adjustments contemplated by the Transaction Documents; the fairness of the Transactions to, or any consideration received in connection therewith by, the holders of any class of securities, creditors, or other constituencies of Wabtec; nor as to the fairness of the amount or nature of any compensation to be paid or payable to any of the officers, directors or employees of Wabtec, SpinCo or GE, or any class of such persons, in connection with the Transactions, whether relative to the Aggregate Consideration to be paid by Wabtec pursuant to the Merger Agreement or otherwise. Goldman Sachs' opinion was necessarily based on economic, monetary, market and other conditions as in effect on, and the information made available to Goldman Sachs as of, the date of the opinion and Goldman Sachs assumed no responsibility for updating, revising or reaffirming its opinion based on circumstances, developments or events occurring after the date of its opinion. In addition, Goldman Sachs did not express any opinion as to the prices at which shares of Wabtec common stock will trade at any time or as to the impact of the Transactions on the solvency or viability of Wabtec, SpinCo, Merger Sub, GE Transportation or GE or the ability of Wabtec, SpinCo, Merger Sub, GE Transportation or GE to pay their respective obligations when they come due. Goldman Sachs' opinion was approved by a fairness committee of Goldman Sachs.

The following is a summary of the material financial analyses delivered by Goldman Sachs to the Wabtec Board in connection with rendering the opinion described above. The following summary, however, does not purport to be a complete description of the financial analyses performed by Goldman Sachs, nor does the order of analyses described represent relative importance or weight given to those analyses by Goldman Sachs. Some of the summaries of the financial analyses include information presented in tabular format. The tables must be read together with the full text of each summary and are alone not a complete description of Goldman Sachs' financial analyses. Except as otherwise noted, the following quantitative information, to the extent that it is based on market data, is based on market data as it existed on or before May 17, 2018 and is not necessarily indicative of current market conditions.

Financial Analyses of GE Transportation

Analysis of Implied Transaction Values. Goldman Sachs calculated the implied enterprise value (EV) of GE Transportation by adding the \$2.9 billion cash payment to be received by GE to the implied value of the shares of Wabtec common stock to be issued in the Transactions. Goldman Sachs calculated the implied value of such shares of Wabtec common stock by using \$83.79 per share, which was the closing trading price per share of Wabtec common stock on April 19, 2018, which was the last closing price prior to media reports about the Transactions (the Undisturbed Price), and the closing price per share of Wabtec common stock on May 17, 2018 (the May 17, 2018 Price). The implied EV of GE Transportation, using the Undisturbed Price, was \$11.1 billion and the implied EV of GE Transportation, using the May 17, 2018 Price, was \$12.2 billion. Goldman Sachs then adjusted these implied EV

calculations for GE Transportation to take into account the net present value of the tax attributes of the Transactions that would accrue to Wabtec pro forma for the Transactions. Goldman Sachs used the Forecasts and applied an illustrative discount rate of 7.0%, which represented a mid-point between an illustrative cost of debt and an illustrative weighted average cost of capital for Wabtec pro forma for the Transactions, to determine the net present value of these tax attributes. The illustrative implied EV of GE Transportation as adjusted to take into account these tax attributes was \$10.0 billion, when using the Undisturbed Price, and \$11.1 billion, when using the May 17, 2018 Price.

TABLE OF CONTENTS

Selected Companies Analysis. Goldman Sachs reviewed and compared certain financial information for Wabtec and the following publicly traded companies in the rail infrastructure and equipment industry (collectively referred to as the Rail Infrastructure & Equipment Selected Companies), the rail car industry (collectively referred to as the Rail Car Selected Companies) and the diversified industrials/transportation industry (collectively referred to as the Diversified Industrials/Transportation Selected Companies), and together with Rail Infrastructure & Equipment Selected Companies and the Rail Car Selected Companies, the Selected Companies):

Rail Infrastructure & Equipment Selected Companies

• Talgo

• CAF

• Vossloh

• Alstom

• Ansaldo

Rail Car Selected Companies

• Greenbrier

• American Rail Car

• Trinity

Diversified Industrials/Transportation Selected Companies

• Allison Transmission

• Caterpillar

• Cummins

• Paccar

Although none of the Selected Companies is directly comparable to GE Transportation, the companies included were chosen because they are publicly traded companies that, for the purposes of analysis, may be considered similar to certain operations of GE Transportation.

Goldman Sachs calculated and compared public market multiples for Wabtec and mean public market multiples for each of the Rail Infrastructure & Equipment Selected Companies, the Rail Car Selected Companies and the Diversified Industrials/Transportation Selected Companies, in each case using information from publicly available historical data, publicly available market data and Institutional Brokers Estimate System consensus estimates.

Goldman Sachs calculated these public market multiples by dividing the EV for each of the selected companies and Wabtec (using the closing trading price per share of each company's stock as of May 17, 2018 and, in the case of Wabtec, the Undisturbed Price, as well the latest available net debt amounts as of the dates of such trading prices) by earnings before interest, tax, depreciation and amortization (EBITDA) for the last reported 12 months (LTM EBITDA), for the next 12 months (NTM EBITDA), and for the one-year forward calendar year (CY+2 EBITDA). In addition, Goldman Sachs calculated (using historical trading prices and publicly available financial data) the average over the last five years (Through the Cycle), for Wabtec and the Selected Companies, of the EV/LTM EBITDA, EV/NTM EBITDA and EV/CY+2 EBITDA multiples. The Through the Cycle metrics are intended to present multiples based on normalized EBITDA in view of the cyclical nature of the industry. The following table presents the results of this analysis:

EV/LTM	EV/LTM	EV/NTM	EV/NTM	EV/CY+2	EV/CY+2
EBITDA	EBITDA	EBITDA	EBITDA	EBITDA	EBITDA
	Through		Through		Through

		the Cycle		the Cycle		the Cycle
Wabtec	17.9x	14.3x	14.7x	12.5x	13.8x	12.0x
Median of Rail Infrastructure & Equipment Selected Companies	9.3x	10.1x	8.8x	8.5x	8.1x	8.4x
Median of Rail Car Selected Companies	9.3x	6.6x	8.3x	6.4x	9.1x	6.7x
Median of Diversified Industrials/ Transportation Selected Companies	8.6x	9.2x	8.0x	8.9x	7.8x	8.7x

TABLE OF CONTENTS

In addition, Goldman Sachs calculated illustrative EV/EBITDA multiples for GE Transportation using the implied EV for GE Transportation (calculated using the Undisturbed Price and the May 17, 2018 Price, and with and without adjustment to the implied EV to account for the net present value of the tax attributes of the Transactions that would accrue to Wabtec pro forma for the Transactions as described above) and using the Forecasts and Synergies. The inclusion of these tax attributes is intended to present the implied EV for GE Transportation inclusive of these benefits of the transaction to Wabtec, while the exclusion of these tax attributes is intended to present the implied EV of GE Transportation reflective of GE Transportation on a stand-alone basis from a tax attributes perspective. The following table presents the results of this analysis:

	Multiple (Undisturbed Price)	Multiple (May 17, 2018 Price)
EV*/2018E EBITDA (Forecasts, No Synergies)	15.0x	16.4x
EV*/2019E EBITDA (Forecasts, No Synergies)	10.9x	11.9x
EV*/2021E EBITDA (Forecasts, No Synergies)***	9.0x	9.9x
EV*/2018E EBITDA (Forecasts with Synergies)	11.2x	12.3x
EV*/2019E EBITDA (Forecasts with Synergies)	8.7x	9.5x
EV*/2021E EBITDA (Forecasts with Synergies)***	7.5x	8.2x
EV**/2018E EBITDA (Forecasts with Synergies)	10.1x	11.2x
EV**/2019E EBITDA (Forecasts with Synergies)	7.9x	8.7x
EV**/2021E EBITDA (Forecasts with Synergies)***	6.8x	7.5x

*No adjustment to implied EV to take into account the tax attributes of the Transaction

** Adjustment to implied EV to take into account the tax attributes of the Transaction

*** Management of Wabtec instructed Goldman Sachs that these 2021 estimates were comparable to Through the Cycle estimates

Goldman Sachs then applied an illustrative range of multiples of 9.0x to 12.0x to the estimated EBITDA for GE Transportation for 2019 contained in the Forecasts and an illustrative range of multiples of 8.5x to 10.5x to the estimated EBITDA for GE Transportation for 2021 contained in the Forecasts, which management of Wabtec had instructed Goldman Sachs were comparable to Through the Cycle estimates, to calculate the following illustrative ranges of implied EVs for GE Transportation: \$9.2 billion to \$12.3 billion, and \$10.5 billion to \$13.0 billion, respectively.

Selected Transactions Analysis. Goldman Sachs analyzed certain publicly available information relating to the following selected transactions in the rail transportation industry (the Rail Transportation Selected Transactions) during the preceding 16 years. Based on Goldman Sachs professional judgment and experience, these transactions comprised all the transactions that met these criteria and, to the extent available, the data from these transactions were all considered equally without giving weight to the available data from any transaction in particular:

<u>Date Announced</u>	Acquiror	Target
October 2016	CIMIC	UGL Limited (86%)
July 2015	Wabtec	Faiveley Transport (51%)
February 2015	Hitachi	Ansaldo STS (40%)
June 2014	Alstom	GE Signaling
January 2015	Heinz Herman Thiele	Vossloh (70%)

December 2014	CSR Corporation	China CNR Corporation
November 2012	Siemens	Invensys Rail
May 2011	CVC	Delachaux (Majority Stake)
June 2010	Progress Rail	Electro-Motive Diesel
May 2006	Caterpillar	Progress Rail
December 2006	Thales	Alcatel (Rail Signaling)
October 2004	Sagard PE	Faiveley Transport (36%)
July 2002	Vossloh	Cogifer
July 2002	Voest-Alpin Stahl	VAE (Railway Systems) (55%)

TABLE OF CONTENTS

For each of the Rail Transportation Selected Transactions, Goldman Sachs calculated and compared the EV of the target company or business segment, as applicable, as implied by the transaction value, as a multiple of the target company or business segment's EBITDA, based on publicly available information for the 12-month period prior to the announcement of the transaction. The following table presents the results of this analysis.

	EV/LTM EBITDA
High	14.7x
Median	9.7x
Low	8.5x

Goldman Sachs viewed this range of multiples for these selected transactions as illustrative of Through the Cycle multiples.

While none of the companies or business segments that participated in the Rail Transportation Selected Transactions is directly comparable to GE Transportation, such companies and business segments have operations that, for purposes of analysis, may be considered similar to certain of GE Transportation's results, market size and product profile.

Goldman Sachs also analyzed certain publicly available information relating to the following selected transactions in the high quality industrial sector (the High Quality Industrial Selected Transactions). Based on Goldman Sachs professional judgment and experience, these transactions comprised all the transactions that met these criteria and, to the extent available, the data from these transactions were all considered equally without giving weight to the available data from any transaction in particular:

Acquiror	Target
United Technologies	Goodrich
TE Connectivity	Measurement Specialties
Siemens	Dresser Rand
Danaher Corporation	Pall Corporation
Solvay	Cytec
Berkshire Hathaway Inc.	Precision Castparts Corp.
Sherwin Williams	Valspar
MTS	PCB
Kion Group	Dematic
Thermo Fisher Scientific	FEI
Monsanto	Bayer
Rockwell Collins	B/E Aerospace, Inc.
Siemens	Mentor Graphics
Parker Hannifin Corporation	Clarcor

For each of the High Quality Industrial Selected Transactions, Goldman Sachs calculated and compared the EV of the target company or business segment, as applicable, as implied by the transaction value, as a multiple of the target company or business segment's LTM EBITDA or estimated forward EBITDA, based in all cases on publicly available information. The following table presents the results of this analysis.

	EV/LTM EBITDA
High	23.6x
Median	15.7x
Low	12.9x

While none of the companies or business segments that participated in the High Quality Industrial Selected Transactions is directly comparable to GE Transportation, such companies and business segments have operations that, for purposes of analysis, may be considered similar to certain of GE Transportation's results, market size and product profile.

Goldman Sachs then applied an illustrative range of multiples of 9.0x to 11.0x to the estimated EBITDA for GE Transportation for 2021 contained in the Forecasts, which Management of Wabtec had instructed Goldman Sachs

TABLE OF CONTENTS

were comparable to Through the Cycle estimates, and an illustrative range of multiples of 8.5x to 14.7x to the historical EBITDA for GE Transportation for 2017, as provided by Wabtec management, to calculate the following illustrative ranges of implied EVs for GE Transportation: \$11.1 billion to \$13.6 billion, and \$7.0 billion to \$12.1 billion, respectively.

Illustrative Discounted Cash Flow Analysis. Using the Forecasts, Goldman Sachs performed an illustrative discounted cash flow analysis on GE Transportation. Using discount rates ranging from 9.0% to 10.0%, reflecting estimates of GE Transportation's weighted average cost of capital, Goldman Sachs discounted to present value as of April 2018 (i) estimates of unlevered free cash flow for GE Transportation for the final 9 months of 2018 through year-end 2022 as reflected in the Forecasts and (ii) a range of illustrative terminal values for GE Transportation, which were calculated by applying perpetuity growth rates ranging from 2.5% to 3.5%, to a terminal year estimate of the free cash flow to be generated by GE Transportation, as reflected in the Forecasts (which analysis implied exit terminal year EBITDA multiples ranging from 10.0x to 13.7x). Goldman Sachs derived such discount rates by application of the Capital Asset Pricing Model, which requires certain company-specific inputs, including the company's target capital structure weightings, the cost of long-term debt, after-tax yield on permanent excess cash, if any, future applicable marginal cash tax rate and a beta for the company, as well as certain financial metrics for the United States financial markets generally. The range of perpetuity growth rates was estimated by Goldman Sachs utilizing its professional judgment and experience, taking into account the Forecasts and market expectations regarding long-term real growth of gross domestic product and inflation. Goldman Sachs then added the ranges of present values it derived above to derive a range of illustrative EVs for GE Transportation ranging from \$10.4 billion to \$13.8 billion.

Financial Analyses of Wabtec (Standalone)

Illustrative Discounted Cash Flow Analysis. Using the Forecasts, Goldman Sachs performed an illustrative discounted cash flow analysis on Wabtec. Using discount rates ranging from 9.0% to 10.0%, reflecting estimates of Wabtec's weighted average cost of capital, Goldman Sachs discounted to present value as of April 2018 (i) estimates of unlevered free cash flow for Wabtec for the final 9 months of 2018 through year-end 2022 as reflected in the Forecasts and (ii) a range of illustrative terminal values for Wabtec, which were calculated by applying perpetuity growth rates ranging from 3.0% to 4.0%, to a terminal year estimate of the free cash flow to be generated by Wabtec, as reflected in the Forecasts (which analysis implied exit terminal year EBITDA multiples ranging from 10.5x to 14.8x). Goldman Sachs derived such discount rates by application of the Capital Asset Pricing Model, which requires certain company-specific inputs, including the company's target capital structure weightings, the cost of long-term debt, after-tax yield on permanent excess cash, if any, future applicable marginal cash tax rate and a beta for the company, as well as certain financial metrics for the United States financial markets generally. The range of perpetuity growth rates was estimated by Goldman Sachs utilizing its professional judgment and experience, taking into account the Forecasts and market expectations regarding long-term real growth of gross domestic product and inflation. Goldman Sachs then added the ranges of present values it derived above to derive a range of illustrative EVs for Wabtec of \$9.3 billion to \$12.7 billion. Goldman Sachs then subtracted the amount of Wabtec's adjusted net debt for the Transactions as of March 31, 2018 as well as the value of certain other Wabtec enterprise value adjustments, both as provided by the management of Wabtec, from the range of illustrative EVs it derived for Wabtec to derive a range of illustrative equity values for Wabtec. Goldman Sachs then divided the range of illustrative equity values it derived by the fully diluted number of shares (98.0 million), as provided by the management of Wabtec (and which number was updated by management after the Wabtec Board meeting on May 19, 2018 and before the execution of the Merger Agreement to be 98.1 million), to derive a range of illustrative present values per share of Wabtec common stock ranging from \$77.00 to \$111.00 (rounded to the nearest dollar).

Illustrative Present Value of Future Share Price Analysis. Goldman Sachs performed an illustrative analysis of the implied present value of an illustrative future value per share of Wabtec common stock on a standalone basis, which is designed to provide an indication of the present value of a theoretical future value of a company's equity as a function

of such company's financial multiples. For purposes of this analysis, Goldman Sachs applied an illustrative range of EV/NTM EBITDA multiples of 11.0x to 14.0x to the estimated standalone next 12 months EBITDA of Wabtec at the end of each of the years 2018 to 2021 using the Forecasts. These illustrative multiple estimates were derived by Goldman Sachs utilizing its professional judgment and experience, taking into account current and historical next 12 months EV/EBITDA multiples for Wabtec. Goldman Sachs derived from this analysis a range of illustrative EVs for Wabtec on a standalone basis of \$10.5 billion to

TABLE OF CONTENTS

\$12.9 billion. Goldman Sachs then subtracted the amount of Wabtec's standalone debt from, and added the assumed amount of Wabtec's standalone cash and cash equivalents to, in each case as of the relevant year-end per the Forecasts, the illustrative EVs in order to calculate the implied future equity values of Wabtec. The implied future equity values in turn were divided by the number of fully diluted shares of Wabtec common stock, as provided by the management of Wabtec. Goldman Sachs then discounted this range of implied future values per share of Wabtec common stock for the years 2018 through 2021, respectively, as well as the projected dividends per share (per the Forecasts), back to April 2018 using a discount rate of 11.0%, reflecting an estimate of the standalone cost of equity for Wabtec. Goldman Sachs derived such discount rate by application of the Capital Asset Pricing Model, which requires certain company-specific inputs, including a beta for the company, as well as certain financial metrics for the United States financial markets generally. Goldman Sachs then added such implied present value of projected dividends per share to such range of implied present values per share to derive a range of implied present values per share of \$68.00 to \$113.00 (rounded to the nearest dollar). In addition, Goldman Sachs compared the Undisturbed Price and the May 17, 2018 Price to the range of implied present values per share of Wabtec common stock of \$89.00 to \$113.00 (rounded to the nearest dollar), which were derived from this analysis when using only the implied future values per share of Wabtec common stock as of year-end 2021.

Financial Analysis of Wabtec (Pro Forma for the Transactions)

Illustrative Discounted Cash Flow Analysis. Using the Forecasts and the Synergies, Goldman Sachs also performed an illustrative discounted cash flow analysis on Wabtec pro forma for the Transactions (after giving effect to (a) the Synergies and (b) both the Synergies and tax attributes of the Transactions that would accrue to Wabtec (per the Forecasts)). Using discount rates ranging from 9.0% to 10.0%, reflecting estimates of Wabtec's pro forma weighted average cost of capital, Goldman Sachs discounted to present value as of April 2018 (i) estimates of pro forma unlevered free cash flow for Wabtec pro forma for the Transactions for the final 9 months of 2018 through year-end 2022, as reflected in the Forecasts (inclusive of the Synergies) and (ii) a range of illustrative pro forma terminal values for Wabtec pro forma for the Transactions, which was calculated by applying perpetuity growth rates ranging from 2.75% to 3.75%, to a terminal year estimate of the free cash flow to be generated by Wabtec pro forma for the Transactions, as reflected in the Forecasts (inclusive of the Synergies), which analysis implied exit terminal year EBITDA multiples ranging from 11.5x to 15.9x. Goldman Sachs derived such discount rates by application of the Capital Asset Pricing Model, which requires certain company-specific inputs, including the company's target capital structure weightings, the cost of long-term debt, after-tax yield on permanent excess cash, if any, future applicable marginal cash tax rate and a beta for the company, as well as certain financial metrics for the United States financial markets generally. The range of the perpetuity growth rates was estimated by Goldman Sachs utilizing its professional judgment and experience, taking into account the Forecasts and market expectations regarding long-term real growth of gross domestic product and inflation. Goldman Sachs derived a range of illustrative EVs for Wabtec pro forma for the Transactions by adding the ranges of present values it derived above. In addition, using the Forecasts for the tax attributes of the Transactions that would accrue to Wabtec pro forma for the Transactions, Goldman Sachs calculated an illustrative net present value of these tax attributes, using an illustrative discount rate of 7.0%, which represented a mid-point between an illustrative cost of debt and an illustrative weighted average cost of capital for Wabtec pro forma for the Transactions, and added this illustrative net present value to this range of illustrative EVs for Wabtec pro forma for the Transactions. Goldman Sachs then subtracted the amount of Wabtec's adjusted net debt pro forma for the Transactions as well as the value of certain Wabtec pro forma enterprise value adjustments, both as provided by the management of Wabtec, from the range of illustrative EVs it derived for Wabtec to derive a range of illustrative equity values for Wabtec. Goldman Sachs then divided the range of illustrative equity values it derived by the fully diluted number of shares (196.5 million) pro forma for the Transactions, as provided by the management of Wabtec (and which number was updated by management after the Wabtec Board meeting on May 19, 2018 and before the execution of the Merger Agreement, but continued to be 196.5 million when rounded to the nearest decimal place), to derive a range of illustrative present values per share of Wabtec common stock pro forma for the Transactions of \$88.00 to \$127.00 (when the analysis included the Synergies, but not the tax attributes of the Transactions that would

accrue to Wabtec pro forma for the Transactions) and \$93.00 to \$132.00 (when the analysis included both the Synergies and the tax attributes of the Transactions that would accrue to Wabtec pro forma for the Transactions), in each case, as rounded to the nearest dollar.

TABLE OF CONTENTS

Illustrative Present Value of Future Share Price Analysis. Goldman Sachs also performed an illustrative analysis of the implied present value of an illustrative future value per share of Wabtec common stock pro forma for the Transactions. For purposes of this analysis, Goldman Sachs applied an illustrative range of next 12 months EV/EBITDA multiples of 10.0x to 13.0x to the estimated next 12 months EBITDA of Wabtec pro forma for the Transactions at the end of each of the years 2018 to 2021 using the Forecasts and the Synergies (but not the tax attributes of the Transactions that would accrue to Wabtec (per the Forecasts)). These illustrative multiple estimates were derived by Goldman Sachs utilizing its professional judgment and experience, taking into account current and historical next 12 months EV/EBITDA multiples for Wabtec. Goldman Sachs then subtracted the amount of Wabtec's debt from, and added the assumed amount of Wabtec's cash and cash equivalents to, in each case pro forma for the Transactions and as of the relevant year-end per the Forecasts and the Synergies, the illustrative EVs in order to calculate the implied future equity values of Wabtec pro forma for the Transactions. The implied future equity values in turn were divided by the number of fully diluted shares of Wabtec common stock pro forma for the Transactions, as provided by the management of Wabtec. Goldman Sachs then discounted this range of implied future values per share of Wabtec common stock for the years 2018 through 2021, respectively, as well as the projected dividends per share of Wabtec pro forma (per the Forecasts), back to April 2018 using a discount rate of 11.0%, reflecting an estimate of the pro forma cost of equity for Wabtec pro forma for the Transactions. Goldman Sachs derived such discount rate by application of the Capital Asset Pricing Model, which requires certain company-specific inputs, including a beta for the company, as well as certain financial metrics for the United States financial markets generally. Goldman Sachs then added such implied present value of projected dividends per share to such range of implied present values per share to derive a range of implied present values per share of \$70.00 to \$126.00 (rounded to the nearest dollar). In addition, Goldman Sachs adjusted this range of implied present values per share of Wabtec common stock pro forma for the Transactions as of year-end 2021 to include an illustrative net present value per share attributable to the tax attributes of the Transactions that would accrue to Wabtec pro forma for the Transactions, calculated by using the Forecasts for such attributes and an illustrative discount rate of 7.0%, which represented a mid-point between an illustrative cost of debt and an illustrative weighted average cost of capital for Wabtec pro forma for the Transactions. Goldman Sachs compared this range to the range of implied present values per share of Wabtec common stock pro forma for the Transactions inclusive of the Synergies but not such tax attributes as of year-end 2021. This comparison presented a range of implied present values per share of \$102.00 to \$132.00 (taking into account both the Synergies and the tax attributes) and \$97.00 to \$126.00 (taking into account the Synergies, but not the tax attributes), in each case, as rounded to the nearest dollar.

General

The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Selecting portions of the analyses or of the summary set forth above, without considering the analyses as a whole, could create an incomplete view of the processes underlying Goldman Sachs' opinion. In arriving at its fairness determination, Goldman Sachs considered the results of all of its analyses and did not attribute any particular weight to any factor or analysis considered by it. Rather, Goldman Sachs made its determination as to fairness on the basis of its experience and professional judgment after considering the results of all of its analyses. No company or transaction used in the above analyses as a comparison is directly comparable to Wabtec, GE, GE Transportation or the Transactions.

Goldman Sachs prepared these analyses for purposes of Goldman Sachs providing its opinion to the Wabtec Board as to the fairness from a financial point of view to Wabtec of the Aggregate Consideration to be paid by Wabtec pursuant to the Merger Agreement. These analyses do not purport to be appraisals nor do they necessarily reflect the prices at which businesses or securities actually may be sold. Analyses based upon forecasts of future results are not necessarily indicative of actual future results, which may be significantly more or less favorable than suggested by these analyses. Because these analyses are inherently subject to uncertainty, being based upon numerous factors or events beyond the control of the parties or their respective advisors, none of Wabtec, SpinCo, GE, Goldman Sachs or

any other person assumes responsibility if future results are materially different from those forecast.

The Aggregate Consideration was determined through arms -length negotiations between Wabtec and GE and was approved by the Wabtec Board. Goldman Sachs provided advice to Wabtec during these negotiations. Goldman Sachs did not, however, recommend any specific amount of consideration to Wabtec or the Wabtec Board or that any specific amount of consideration constituted the only appropriate consideration for the Transactions.

TABLE OF CONTENTS

As described above, Goldman Sachs' opinion to the Wabtec Board was one of many factors taken into account by the Wabtec Board in making its determination to approve the Merger Agreement and the transactions contemplated thereby. The foregoing summary does not purport to be a complete description of the analyses performed by Goldman Sachs in connection with the fairness opinion and is qualified in its entirety by reference to the written opinion of Goldman Sachs attached as Exhibit 99.1 to the registration statement of which this prospectus-information statement forms a part.

Goldman Sachs and its affiliates are engaged in advisory, underwriting and financing, principal investing, sales and trading, research, investment management and other financial and non-financial activities and services for various persons and entities. Goldman Sachs and its affiliates and employees, and funds or other entities they manage or in which they invest or have other economic interests or with which they co-invest, may at any time purchase, sell, hold or vote long or short positions and investments in securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments of Wabtec, GE, SpinCo, Merger Sub, and any of their respective affiliates and third parties, or any currency or commodity that may be involved in the Transactions. Goldman Sachs has acted as financial advisor to Wabtec in connection with, and has participated in certain of the negotiations leading to, the Transactions.

Goldman Sachs has provided certain financial advisory and/or underwriting services to General Electric and/or its affiliates from time to time for which its Investment Banking Division has received, and may receive, compensation, including having acted as joint bookrunner with respect to an initial public offering of 260,610,000 shares of common stock of Moneta Money Bank, a former General Electric subsidiary (MMB), in May 2016; as financial advisor to General Electric in connection with the sale of General Electric Appliances, a former General Electric subsidiary, in June 2016; as joint bookrunner with respect to a follow on public offering of 125,000,000 shares of common stock of MMB in September 2016; as financial advisor to General Electric Capital Corporation, a subsidiary of General Electric (GCC), in connection with GCC's sale of a 23.3% stake in Hyundai Capital Services in September 2016; as joint bookrunner with respect to a follow on public offering of 92,214,009 shares of common stock of MMB in November 2016; as financial advisor to GCC in connection with GCC's sale of a 43% stake in Hyundai Card in February 2017; as joint bookrunner with respect to a public offering of the 2.125% Senior Unsecured Notes due 2037, 1.500% Senior Unsecured Notes due 2029, 0.875% Senior Unsecured Notes due 2025 and 0.375% Senior Unsecured Notes due 2022 (aggregate principal amount \$8.7 billion) of General Electric in May 2017; as financial advisor to General Electric in connection with the sale of General Electric Water, a former General Electric subsidiary, in September 2017; as financial advisor to General Electric in connection with the sale of General Electric Industrial Solutions, a General Electric subsidiary, announced in September 2017; as co-manager with respect to the public offering of the 4.080% Senior Notes due 2047, 3.337% Senior Notes due 2027 and 2.773% Senior Notes due 2022 (aggregate principal amount \$4 billion) of Baker Hughes, a subsidiary of General Electric, in December 2017; and as financial advisor to GCC in connection with the formation of an origination venture involving General Electric Capital Aviation Services in December 2017. During the two-year period ended May 20, 2018, Goldman Sachs has recognized compensation for financial advisory and/or underwriting services provided by its Investment Banking Division to GE and/or its affiliates of approximately \$83.1 million.

During the two-year period ended May 20, 2018, the Investment Banking Division of Goldman Sachs has not been engaged by Wabtec or any of its affiliates to provide financial advisory or underwriting services for which Goldman Sachs has recognized compensation. Goldman Sachs may also in the future provide, and may currently be providing, financial advisory and/or underwriting services to Wabtec, GE, SpinCo, Merger Sub and their respective affiliates for which Goldman Sachs' Investment Banking Division may recognize compensation.

In addition, at the request of Wabtec, at the time of the execution of the Merger Agreement, an affiliate of Goldman Sachs entered into financing commitments and agreements to provide Wabtec with the Credit Agreement, the Bridge Commitments, and certain other alternative financing in connection with the consummation of the Transactions and

subject to the terms of such commitments. The actual amount of aggregate fees received by Goldman Sachs and its affiliates in connection with the debt financing for the Transactions will depend on, among other things, the completion date of the Transactions. Wabtec estimates that Goldman Sachs and its affiliates will receive approximately \$13 million in fees in the aggregate in connection with the proposed financing.

The Wabtec Board selected Goldman Sachs as its financial advisor because it is an internationally recognized investment banking firm that has substantial experience in transactions similar to the Transactions. Pursuant to a

TABLE OF CONTENTS

letter agreement dated March 1, 2018, Wabtec engaged Goldman Sachs to act as its financial advisor in connection with the Transactions. The engagement letter between Wabtec and Goldman Sachs provides for a transaction fee of \$32 million plus a discretionary fee of up to \$4 million, all of which is contingent upon the consummation of the Transactions. In addition, Wabtec has agreed to reimburse Goldman Sachs for certain of its expenses, including attorneys' fees and disbursements, and to indemnify Goldman Sachs and related persons against various liabilities, including certain liabilities under the federal securities laws.

Certain Unaudited Financial Projections

In connection with its consideration of the potential combination of Wabtec and GE Transportation, the Wabtec Board was provided with certain non-public financial projections initially prepared by management of GE and GE Transportation and subsequently adjusted by management of Wabtec, as discussed below, with respect to GE Transportation for the years ending December 31, 2018 through December 31, 2022 (as prepared by management of GE and GE Transportation, the "GE Transportation Financial Projections" and, as adjusted by management of Wabtec, the "Wabtec Adjusted GE Transportation Financial Projections") and certain non-public financial projections prepared by management of Wabtec with respect to Wabtec's business, as a stand-alone company, for the years ending December 31, 2018 through December 31, 2022 (the "Wabtec Financial Projections," and, collectively with the GE Transportation Financial Projections and the Wabtec Adjusted GE Transportation Financial Projections, the "Financial Projections"). The Financial Projections also were provided to Wabtec's financial advisor, Goldman Sachs, in connection with the preparation of its opinion. Wabtec believes that no material change in its operations or performance, or the projections or assumptions provided to the Wabtec Board and Goldman Sachs in connection with the Transactions, has occurred since the Wabtec Board meeting held to approve the Merger, and Wabtec does not anticipate any material changes in such operations, performance, projections or assumptions before the Wabtec special meeting.

The Wabtec Adjusted GE Transportation Financial Projections and the Wabtec Financial Projections are included in this prospectus-information statement solely to give GE and Wabtec stockholders access to information that was made available in connection with, and material to, the Wabtec Board's consideration of the Transactions, and are not included in this prospectus-information statement to influence any GE stockholder or Wabtec stockholder to make any investment decision with respect to the Transactions or for any other purpose. In particular, these projections should not be viewed as public guidance.

The Financial Projections were not prepared with a view towards public disclosure or compliance with published guidelines of the SEC or the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of prospective financial information. Neither the independent registered public accounting firms of Wabtec or GE Transportation nor any other independent accountants, have compiled, examined, or performed any procedures with respect to the unaudited Financial Projections contained herein, nor have they expressed any opinion or any other form of assurance on such information or its achievability, and the independent accounting firms of Wabtec or GE Transportation assume no responsibility for, and disclaim any association with, the unaudited Financial Projections. The reports of the independent registered public accounting firms of Wabtec contained in Wabtec's current report on Form 8-K filed with the SEC on September 10, 2018, which is incorporated by reference into this document, relate to the historical financial information of Wabtec. The report of the independent registered public accounting firm of GE Transportation contained in Audited Financial Statements of GE Transportation as of December 31, 2017 and 2016 and for each of the years in the three year period ended December 31, 2017, which is included in this document, relates to the historical financial information of GE Transportation. These reports do not extend to the unaudited Financial Projections and should not be read to do so. Furthermore, the unaudited Financial Projections do not take into account any circumstances or events occurring after the date the Financial Projections were prepared.

Moreover, the Financial Projections:

were based upon numerous estimates or expectations, beliefs, opinions and assumptions with respect to GE Transportation and Wabtec's business, respectively, including their respective results of operations and financial conditions, customer requirements and competition, and with respect to general business, economic, market, regulatory and financial conditions and other future events, all of which are difficult to predict and many of which are beyond Wabtec's or GE's control and may not be realized;

TABLE OF CONTENTS

do not take into account any transactions, circumstances or events occurring after the date they were prepared, including the Transactions, or the effect of any failure of the Merger or the other Transactions to occur;

- do not give effect to adjustments to GE Transportation's historical financial statements, as described in Note 7.a. under Unaudited Pro Forma Condensed Combined Financial Statements, which, with respect to the harmonization of revenue recognition policies, are expected (i) to produce a \$63 million decrease from GE Transportation in Wabtec's reported consolidated net revenue and EBIT in 2019 and no material effect in future years and (ii) not to materially change Wabtec's future reported consolidated cash from operations;

are not necessarily indicative of current market conditions or values or future performance, which may be significantly more or less favorable than as set forth in the Financial Projections; and

are not, and should not be regarded as, a representation that any of the expectations contained in, or forming a part of, the Financial Projections will be achieved.

The Wabtec Financial Projections, and the adjustments by Wabtec management that are reflected in the Wabtec Adjusted GE Transportation Financial Projections, are materially impacted by a combination of factors in the global passenger and freight rail industries. Other factors impacting such financial projections, include assumptions about energy markets and the overall economy. Wabtec's key assumptions include:

- Economic growth consistent with recent years, including continued expansion and growth in international markets, new products and capabilities.
- Execution of original equipment backlog in the Transit markets, increasing Wabtec's installed base of products leading to aftermarket parts and services revenues.
- Original equipment freight markets in North America remain consistent with historical averages, especially as it relates to build rate of freight cars and locomotives. Aftermarket freight sales are expected to support current and potentially expanding rail activity and volumes.
- Energy markets remain strong, impacting rail activity as well as our industrial markets, such as heat exchangers, cooling product and power generation equipment.
- Electronic products, including Signaling revenues, to grow with railroad's continuing use of technology in their industry. Revenues are expected to increase with the introduction of additional new products improving the safety and efficiency of our customer's operations.

The GE Transportation Financial Projections are materially impacted by a combination of factors in freight rail and mining industries. GE and GE Transportation's key assumptions include:

- Economic growth consistent with recent years, including continued expansion and growth in international markets.
- Execution of original equipment backlog, increasing GE Transportation's installed base of products leading to future aftermarket parts and services revenue.
- Original equipment freight markets in North America to recover and be consistent with historical averages, especially as it relates to build rate of locomotives. Aftermarket services, including parts, service and modifications, to be consistent with current and expanding rail activity and volumes, and in line with existing backlog.
- Mining markets remain strong based on commodity prices, consistent with historical averages of units manufactured, and consistent with current backlog.
- Growth in digital products which enhance the operations of rail customers including fuel efficiency, network optimization, as well as train monitoring products.

TABLE OF CONTENTS

Wabtec management believes that the assumptions used as a basis for the Financial Projections were reasonable based on the information available to Wabtec management at the time prepared. However, the Financial Projections are not a guarantee of future actual performance. The future financial results of GE Transportation and Wabtec's business, respectively, may differ materially from those expressed in the Financial Projections due to factors that are beyond Wabtec's or GE's ability to control or predict.

Although the Financial Projections were prepared with numerical specificity, they are forward-looking statements that involve inherent risks and uncertainties. Further, the Financial Projections cover multiple years and such information by its nature becomes less predictive with each successive quarter and year. Stockholders are urged to read the section of this prospectus-information statement entitled "Cautionary Statement on Forward-Looking Statements" for additional information regarding the risks inherent in forward-looking information such as the Financial Projections. GE and Wabtec stockholders also should review the factors described in the section of this prospectus-information statement entitled "Risk Factors" and those risk factors incorporated in this prospectus-information statement by reference from Item 1A of Wabtec's annual report on Form 10-K for the fiscal year ended December 31, 2017.

None of Wabtec, GE or SpinCo or any of their respective affiliates intends to, and, except to the extent required by applicable law, each of them expressly disclaims any obligation to, update, revise or correct the Financial Projections to reflect circumstances existing or arising after the date such projections were generated or to reflect the occurrence of future events, even in the event that any or all of the assumptions underlying the projections are shown to be in error or any of the Financial Projections otherwise would not be realized. Neither GE nor SpinCo made any representations to Wabtec in the Merger Agreement or otherwise concerning the GE Transportation Financial Projections or the Wabtec Adjusted GE Transportation Financial Projections.

Certain of the financial information contained in the Financial Projections, including EBITDA, may be considered non-GAAP financial measures. Wabtec management provided this information to the Wabtec Board and Wabtec's financial advisor because Wabtec management believed it could be useful in evaluating GE Transportation, in the case of the GE Transportation Financial Projections and the Wabtec Adjusted GE Transportation Financial Projections, and Wabtec's business, in the case of the Wabtec Financial Projections. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-GAAP financial measures as used by Wabtec or GE may not be comparable to similarly titled amounts used by other companies.

For the foregoing reasons, the inclusion of the Wabtec Adjusted GE Transportation Financial Projections and the Wabtec Financial Projections in this prospectus-information statement should not be regarded as an indication that Wabtec, GE, SpinCo or their respective affiliates or representatives considered or consider the Wabtec Adjusted GE Transportation Financial Projections or the Wabtec Financial Projections to be necessarily predictive of actual future events, and the Wabtec Adjusted GE Transportation Financial Projections and the Wabtec Financial Projections should not be relied upon as such. The Wabtec Adjusted GE Transportation Financial Projections should be evaluated in conjunction with the limitations described above and the historical financial statements and other information regarding GE Transportation contained elsewhere in this prospectus-information statement, and the Wabtec Financial Projections should be evaluated in conjunction with the limitations described above and the historical financial statements and other information regarding Wabtec's business contained elsewhere in this prospectus-information statement. In light of the foregoing factors and the uncertainties inherent in financial projections, stockholders are cautioned not to place undue reliance on these projections.

The Wabtec Adjusted GE Transportation Financial Projections

Wabtec was provided with non-public financial projections prepared by management of GE and GE Transportation with respect to GE Transportation. The projections reflect strong orders and the execution of existing backlog over the

forecast period. The revenue growth in the outer years is fueled by a North American market recovery, primarily driven by carloading growth. Subsequently, Wabtec management made certain adjustments to these financial projections based on its judgment and experience in the industry to reflect Wabtec management's alternative perspectives regarding GE Transportation. These changes resulted in the Wabtec Adjusted GE Transportation Financial Projections.

TABLE OF CONTENTS

The following is a summary of the Wabtec Adjusted GE Transportation Financial Projections:

<u>In millions</u>	2018E	2019E	2020E	2021E	2022E
Revenue	\$ 3,807	\$ 4,914	\$ 5,141	\$ 5,493	\$ 6,104
EBITDA ⁽¹⁾	\$ 742	\$ 1,026	\$ 1,119	\$ 1,234	\$ 1,418
EBIT ⁽²⁾	\$ 605	\$ 886	\$ 981	\$ 1,100	\$ 1,291
EBITDA ⁽¹⁾ less capital expenditures	\$ 642	\$ 927	\$ 1,025	\$ 1,141	\$ 1,325

(1) Defined as earnings before interest and tax, plus depreciation and amortization.

(2) Defined as earnings before interest and tax.

The Wabtec Financial Projections

Wabtec management prepared non-public financial projections with respect to Wabtec's business as a stand-alone company. These projections do not give pro forma effect to the combination of Wabtec and GE Transportation.

The following is a summary of the Wabtec Financial Projections:

<u>In millions</u>	2018E	2019E	2020E	2021E	2022E
Revenue	\$ 4,210	\$ 4,755	\$ 5,206	\$ 5,643	\$ 6,063
EBITDA ⁽¹⁾	\$ 665	\$ 793	\$ 915	\$ 1,049	\$ 1,181
EBIT ⁽²⁾	\$ 561	\$ 683	\$ 805	\$ 939	\$ 1,071
EBITDA ⁽¹⁾ less capital expenditures	\$ 543	\$ 698	\$ 811	\$ 936	\$ 1,060

(1) Defined as earnings before interest and tax, plus depreciation and amortization.

(2) Defined as earnings before interest and tax.

Wabtec Stockholders Meeting

Under the terms of the Merger Agreement, Wabtec has agreed to call, give notice of, convene and hold a special meeting of its stockholders for the purpose of voting upon the proposals to approve the Share Issuance and the Wabtec Charter Amendment. The Wabtec Board has called a special meeting of Wabtec stockholders to be held on , 2018, for Wabtec stockholders of record on , 2018. The definitive proxy statement was mailed to Wabtec stockholders on or about , 2018.

Wabtec's directors and executive officers held approximately % of the shares entitled to vote at Wabtec's special meeting of stockholders as of , 2018. GE's and SpinCo's directors, executive officers and their affiliates owned an aggregate of approximately % of the shares of Wabtec common stock entitled to vote at Wabtec's special meeting of stockholders as of , 2018.

Certain stockholders, directors and officers of Wabtec beneficially owning approximately 10.9% of the outstanding shares of Wabtec common stock entered into a Voting Agreement with GE under which these persons agreed to vote in favor of the Share Issuance proposal and the Wabtec Charter Amendment proposal. The parties to the Voting Agreement are subject to certain other agreements, including restrictions on their ability to transfer their shares prior to the earlier of the special meeting of Wabtec stockholders to approve these proposals and the termination of the Voting Agreement. See Other Agreements—The Voting Agreement.

Interests of GE's and SpinCo's Directors and Executive Officers in the Transactions

As of August 1, 2018, SpinCo's directors and executive officers owned less than 1% of the outstanding shares of GE's

common stock. All of SpinCo's outstanding common stock is currently owned directly by GE. Except as described below, none of GE's or SpinCo's directors or executive officers will receive any severance or other compensation as a result of the Transactions, or any extra or special benefit that is not shared on a *pro rata* basis by all of GE stockholders in connection with the Transactions. If a director or executive officer of GE or SpinCo owns shares of GE common stock, such director or executive officer will have the right to participate in the Distribution and the Merger on the same terms as other GE stockholders.

TABLE OF CONTENTS

It is anticipated that SpinCo's executive officers will include Rafael O. Santana (President and Chief Executive Officer), Jason M. Frierott (Chief Financial Officer), Thomas P. LaFrance (General Counsel), Nathan W. Bailey (Chief Human Resources Officer), Yuvbir Singh (Vice President, Equipment) and Pascal Schweitzer (Vice President, Global Services).

GE has entered into Leadership Incentive Program agreements with 415 SpinCo employees, including each of SpinCo's executive officers, which provide for the opportunity to earn incentive payments in the aggregate amount of approximately \$65 million. The agreements are intended to secure the employees' dedication and best efforts toward facilitating the Merger and assisting with the integration of the GE Transportation business with the business of Wabtec after the closing date of the Merger. The incentive payments will vest 50% on the closing date of the Merger and 50% twelve months following the closing date, subject to certain customary terms and conditions, including restrictions on soliciting or hiring GE employees during employment with GE and for 12 months thereafter. The target amount of the incentive payment for participating employees is based on a percentage applied to the sum of the employee's annual base salary plus annual target bonus, with certain employees eligible for additional amounts if specified transaction or business-related goals are attained. The maximum amount of the incentive payments that may be payable in the aggregate to the executive officers is approximately \$9.8 million.

SpinCo's executive officers, in aggregate, hold unvested options to purchase 1,242,000 shares of GE common stock (with a weighted average exercise price of \$18.30) and unvested restricted stock units with respect to 251,428 shares of GE common stock that will vest on the closing date of the Merger in accordance with their terms.

In addition, on the closing date of the Merger, the SpinCo executive officers (other than Mr. Schweitzer) will vest in their GE Supplemental Pension Benefit or GE Executive Retirement Benefit, as applicable, in order to avoid the forfeiture of such benefits in connection with the Transactions. These benefits will not become payable until the executive officer reaches age 60.

Wabtec may enter into employment agreements or other compensation arrangements with certain executive officers of SpinCo. Wabtec is in the process of documenting the terms of Mr. Santana's employment which are subject to finalization in an employment contract that will be entered into prior to the closing of the Merger. The proposed terms for Mr. Santana include an annual base salary of \$1,000,000, a target annual bonus opportunity of 100% of his base salary and maximum annual bonus opportunity of 225% of his base salary. In addition, subject to the approval of Wabtec's Compensation Committee, Mr. Santana will be granted a one-time award of Wabtec restricted stock with an aggregate grant date fair market value of \$2,000,000, subject to annual vesting over a four-year period, and will, subject to the approval of Wabtec's Compensation Committee, receive annual Wabtec equity incentive awards with an aggregate grant date value of at least approximately \$2,000,000. The agreement will also include severance arrangements.

Interests of Wabtec's Directors and Executive Officers in the Transactions

In considering the recommendations of the Wabtec Board that Wabtec stockholders vote to approve the Share Issuance and the Wabtec Charter Amendment, Wabtec stockholders should be aware that Wabtec directors and executive officers have financial interests in the Transactions that are different from, or in addition to, the interests of Wabtec stockholders generally, as more fully described below. The members of the Wabtec Board were aware of and considered these interests, among other matters, in deciding to approve the terms of the Merger Agreement and the Transactions.

Outstanding Stock Awards

Under the terms of Wabtec's Stock Incentive Plans, upon the closing of the Merger, all outstanding Wabtec Options, Wabtec Restricted Stock, Wabtec Restricted Stock Units and Wabtec Performance Units will vest. Wabtec Performance Units will be considered earned at a level of 200% of target and they and Wabtec Restricted Stock Units will be settled in cash by Wabtec as promptly as practicable following the Merger.

TABLE OF CONTENTS

The following table sets forth the number of shares of Wabtec common stock underlying outstanding unvested Wabtec Options, Wabtec Restricted Stock, Wabtec Restricted Stock Units and Wabtec Performance Units (assuming maximum vesting at 200% of target), which are referred to collectively as Wabtec equity awards, held by Wabtec directors and executive officers as of July 16, 2018. The table also sets forth the value of these awards, assuming a price per share of Wabtec common stock of \$97.07, the average per share closing price of Wabtec common stock during the first five business days following May 21, 2018, the date of the first public announcement of the Merger. The assumed \$97.07 per share price is referred to as the Assumed Wabtec Stock Price.

Name	No. of Shares Subject to Unvested Wabtec Options	Aggregate Value of Unvested Wabtec Options (\$) ⁽¹⁾	No. of Shares Underlying Unvested Wabtec Restricted Stock	Aggregate Value of Unvested Wabtec Restricted Stock (\$)	No. of Shares Underlying Unvested Wabtec Restricted Stock Units	Aggregate Value of Unvested Wabtec Restricted Stock Units (\$)	No. of Shares Underlying Unvested Wabtec Performance Units ⁽²⁾	Aggregate Value of Unvested Wabtec Performance Units (\$)	Total Value (\$)
Executive Officers									
Raymond T. Betler	32,675	748,145	42,550	4,130,329	—	—	116,000	11,260,120	16,138,594
Patrick D. Dugan	12,250	262,231	27,750	2,693,693	—	—	42,000	4,076,940	7,032,864

5 Other Executive Officers ⁽³⁾	6,351	149,682	10,523	1,021,468	—	—	23,700	2,300,559	3,471,709
Non-Executive Directors									
Philippe Alfroid	—	—	1,620	157,253	—	—	—	—	157,253
Robert J. Brooks	—	—	1,620	157,253	—	—	—	—	157,253
Erwan Faiveley	—	—	1,620	157,253	—	—	—	—	157,253
Emilio A. Fernandez	—	—	1,620	157,253	—	—	—	—	157,253
Lee B. Foster, II	—	—	1,620	157,253	—	—	—	—	157,253
Linda S. Harty	—	—	1,620	157,253	—	—	—	—	157,253
Brian P. Hehir	—	—	1,620	157,253	—	—	—	—	157,253
Michael W.D. Howell	—	—	1,620	157,253	—	—	—	—	157,253
William E. Kassling	—	—	1,620	157,253	—	—	—	—	157,253

For purposes of calculating these estimated values, the value of each unvested Wabtec Option is assumed to be equal to the number of shares of Wabtec common stock subject to each unvested Wabtec Option multiplied by the excess of the Assumed Wabtec Stock Price over the applicable exercise price per share of such unvested Wabtec Option.

(2) Assumes 200% of the target number of shares granted.

(3) Three executive officers who are not named executive officers held Wabtec equity awards as of July 16, 2018. This row includes the total number of shares of Wabtec common stock and the related total value of these unvested awards held by them. The other two executive officers who are not named executive officers did not hold any unvested Wabtec equity awards as of July 16, 2018.

TABLE OF CONTENTS

Employment Continuation Agreements with Certain Executive Officers

Wabtec entered into employment continuation agreements with seven executive officers, including Raymond T. Betler, Patrick D. Dugan, David L. DeNinno, Scott E. Wahlstrom and Albert J. Neupaver (the Continuation Agreements). Under each Continuation Agreement, if the executive officer is employed by Wabtec on the closing date of a change of control, which, as defined in the Continuation Agreement, would include the Merger, the executive officer would be entitled to remain employed by Wabtec until the 24-month anniversary of the closing date (the Protection Period), subject to certain termination provisions described below.

During the Protection Period, the executive officer will (1) receive a base salary at a monthly rate at least equal to his monthly salary immediately prior to the closing of the Merger, (2) be afforded the opportunity to receive an annual cash bonus on terms and conditions no less favorable to him than his annual cash bonus opportunity for the year immediately prior to the closing of the Merger and in an amount not less than his target cash bonus amount in that year, (3) participate in all long-term incentive compensation programs for key executives and benefit plans at levels commensurate with his opportunity to participate in such plans immediately prior to the closing of the Merger, or, if better, at the level made available to him or other similarly situated officers at any time thereafter, (4) receive vacation and fringe benefits at a level commensurate with his benefits immediately prior to the closing of the Merger, or, if better, at the level made available to him or other similarly situated officers at any time thereafter, (5) be provided an office and support staff at a level commensurate with the level provided to other similarly situated officers or, if better, the level provided to him immediately prior to the closing of the Merger, (6) receive expense reimbursement in accordance with the policies and procedures of Wabtec in effect immediately prior to the closing of the Merger, or, if better, the policies and procedures in effect after the closing of the Merger, and (7) be indemnified for claims arising from or out of his performance as an officer, director or employee of Wabtec or any of its subsidiaries, or in any other capacity while serving at the request of Wabtec, to the maximum extent permitted by applicable law and Wabtec's governing documents. Wabtec is also required to maintain existing or comparable insurance policies covering such matters and, in any event, provide a level of protection that is no less than that afforded under Wabtec's governing documents in effect immediately prior to the closing of the Merger.

Termination Other than for Cause/Resignation for Good Reason. If, during the Protection Period, the executive officer's employment is terminated by Wabtec other than for cause, as defined in the Continuation Agreement, or the executive officer terminates his employment for good reason, as defined in the Continuation Agreement, the executive officer will receive severance payments and benefits equal to (1) a cash amount of two times the sum of his then-current annual base salary and target cash bonus amount for the year immediately prior to the closing of the Merger and (2) any vested benefits under Wabtec's benefit plans, including accrued but unpaid vacation. The executive officer will also be entitled to continue participation in all of Wabtec's employee and executive welfare and fringe benefit plans until the earlier of the 24-month anniversary of the termination date and the date the executive officer becomes eligible for comparable benefits under a similar plan, policy or program of a subsequent employer.

Receipt of severance payments and benefits under the Continuation Agreements is subject to standard confidentiality and other restrictive covenants, including restrictions for a period of one year following termination of the executive officer's employment on soliciting business or employees away from Wabtec or providing any services that compete with the Wabtec business.

The Continuation Agreements provide that if the payments and benefits to each executive officer would be subject to an excise tax on excess parachute payments by reason of Sections 4999 and 280G of the Code, the payments and benefits under the Continuation Agreement will be reduced to the extent necessary to prevent any portion of the executive officer's payments and benefits from becoming subject to such excise tax, but only if, by reason of that reduction, the net after-tax benefit received by the executive officer exceeds the net after-tax benefit that the executive officer would receive if no reduction was made. In addition, each Continuation Agreement provides that Wabtec will

pay the executive officer's costs, including reasonable attorneys' fees and expenses, in asserting any claim in any contest as to the validity, enforceability or interpretation of the Continuation Agreement if the executive officer is the prevailing party.

TABLE OF CONTENTS

The following table sets forth the cash severance payments and estimated value of the welfare and fringe benefits that each executive officer party to a Continuation Agreement would receive, assuming the closing date of the Merger occurred on July 16, 2018 and that each executive officer experienced a qualifying termination of employment immediately after the closing of the Merger. The following table does not take into account any reduction in payments or benefits that may apply to avoid the excise tax by reason of Sections 4999 and 280G of the Code.

Name	Cash Severance Payment (\$)⁽¹⁾	Welfare and Fringe Benefit Value (\$)⁽²⁾	Total Value (\$)
Raymond T. Betler	5,000,000	22,800	5,022,800
Patrick D. Dugan	2,340,000	22,800	2,362,800
David L. DeNinno	1,955,000	22,800	1,977,800
Scott E. Wahlstrom	1,312,000	22,800	1,334,800
Albert J. Neupaver	2,800,000	22,800	2,822,800
2 Other Executive Officers	1,470,000	45,600	1,515,600

Two times the sum of (1) the executive officer's annual base salary and (2) the target bonus amount for the (1) executive officer for 2018, based on the assumptions described above, to be paid in cash in a single lump sum 30 days following the date of termination.

(2) Reflects the value of 24 months of continued welfare and fringe benefits pursuant to the Continuation Agreements, based on the full premium costs of such benefits.

Potential Change of Control. If, after the occurrence of a potential change of control, as defined in the Continuation Agreements, and prior to the consummation of a change of control, (1) an executive officer's employment is terminated by Wabtec other than for cause or by the executive officer for good reason or Wabtec terminates the Continuation Agreement and (2) a change of control, which also constitutes certain changes in ownership or effective control under Section 409A of the Code, occurs within one year of such termination, the executive officer is deemed for purposes of determining the executive officer's rights under the Continuation Agreement to have remained employed by Wabtec until the change of control and to have been terminated by Wabtec without cause immediately after the change of control. Each of the executive officers party to a Continuation Agreement would become entitled to receive the amounts described in the table above in those circumstances.

Severance Arrangement with Paul Overby

Paul Overby, one of Wabtec's executive officers, would, upon elimination of his job, be provided with a minimum amount of severance equal to six months of his then-current base salary. Assuming such a qualifying termination of employment occurred on July 16, 2018, the aggregate value of the severance payments payable to Mr. Overby would equal \$125,000. Mr. Overby has not entered into an employment continuation agreement with Wabtec.

Employment Agreement with Mr. Rambaud-Measson

Wabtec entered into an employment agreement with Mr. Rambaud-Measson, a named executive officer, in connection with the closing of Wabtec's acquisition of Faiveley Transport in 2016. The employment agreement with Mr. Rambaud-Measson provides for an initial term of four years, during which Mr. Rambaud-Measson will serve as Executive Vice President of Wabtec and President and Chief Executive Officer of Faiveley, with such duties and responsibilities as are commensurate with such position.

During the employment period, Mr. Rambaud-Measson (1) will receive an annual base salary of €668,000, (2) will be eligible for an annual cash bonus at a target equal to 100% of annual base salary and a maximum of 225% of target, (3) received a grant of Wabtec Restricted Stock Units in connection with the Faiveley Transport acquisition in an amount equal to \$1,425,000, which Restricted Stock Units vest over four years and are settled in shares of Wabtec common stock, (4) will be entitled to receive an annual grant of Wabtec Restricted Stock Units with a grant date value of at least €800,000 during each year of the employment period commencing in the first calendar quarter of 2017, (5) will be entitled to receive an annual grant of Wabtec Performance Units with a target grant date value of at least €800,000 and a three-year performance period, (6) will be eligible to participate in welfare and other benefit plans as are in effect for senior executives of Wabtec generally, provided that such

TABLE OF CONTENTS

benefits are at least as favorable as those provided by Faiveley, (7) will receive paid vacation of five weeks per calendar year, (8) will receive expense reimbursement for all reasonable, documented business expenses, and (9) will be indemnified to the maximum extent permitted under applicable law for acts taken within the scope of his employment and his service as an officer or director of Wabtec or any of its subsidiaries or affiliates. To the extent Wabtec maintains insurance policies covering such matters, Mr. Rambaud-Measson will be entitled to such coverage on a basis no less favorable than coverage provided to any other Wabtec officer or director.

Termination Other than for Cause/Resignation for Good Reason. If Mr. Rambaud-Measson's employment is terminated by Wabtec other than for cause, death, or disability or by Mr. Rambaud-Measson for good reason, in each case as defined in the employment agreement, Mr. Rambaud-Measson will receive severance payments equal to (1) a lump-sum cash payment of two times his then-current annual base salary and two times his target bonus for the year of termination, (2) a payment of the *pro rata* portion of his annual bonus payable for the year in which he was terminated based on the satisfaction of applicable performance targets and payable in a lump sum at such time as bonuses are paid to other senior executives of Wabtec and (3) a *pro rata* portion of his Wabtec Performance Units outstanding at the time of his termination that he would have earned if he had remained employed until the end of the applicable performance period, which will be settled in shares of Wabtec common stock at such time (as such awards are generally settled for senior executives of Wabtec). Payments described in clauses (1) through (3) are subject to the execution of a release by Mr. Rambaud-Measson. Assuming Mr. Rambaud-Measson's employment was terminated by Wabtec other than for cause or by himself for good reason on July 16, 2018, the value of the cash severance payments payable to Mr. Rambaud-Measson would have been \$4,050,000, which does not include the value of a *pro rata* portion of outstanding Wabtec Performance Units because those will vest in full upon the closing of the Merger. See the section entitled *The Transactions—Interests of Wabtec's Directors and Executive Officers in the Transactions—Outstanding Stock Awards* for a description and quantification of Mr. Rambaud-Measson's Wabtec Performance Units that will vest in connection with the Merger.

Golden Parachute Compensation

The table below is intended to comply with Item 402(t) of the SEC's Regulation S-K, which requires disclosure of change-in-control compensation to which Wabtec directors and executive officers could become entitled that is based on or otherwise relates to the Merger. The amounts shown are estimates based on multiple assumptions that may or may not actually occur or be accurate on the relevant date, including the assumptions described below and in the footnotes to the table, and do not reflect certain compensation actions that may occur before completion of the Merger. These amounts do not take into account any reduction in payment of benefits that may be imposed with respect to any so-called golden parachute payments under Section 280G of the Code. None of the named executive officers are entitled to a gross-up payment with respect to any such golden parachute payment. The executive officers may take certain actions to reduce excise tax exposure by reason of Sections 4999 and 280G of the Code, which may include waiving vesting acceleration with respect to a portion of their incentive equity.

For purposes of calculating the amounts in the table below, the following assumptions were used solely for purposes of the disclosure in this section:

- The relevant price per share of Wabtec common stock is the Assumed Wabtec Stock Price;
 - The closing of the Merger occurs on July 16, 2018; and
- Each named executive officer of Wabtec experiences a qualifying termination of employment (termination by Wabtec without cause or resignation by the named executive officer for good reason, as such terms are defined in the Continuation Agreements or Mr. Rambaud-Measson's employment agreement, as applicable) immediately following the assumed closing of the Merger.

TABLE OF CONTENTS

Named Executive Officer	Cash (\$)⁽¹⁾	Equity (\$)⁽²⁾	Perquisites/ Benefits (\$)⁽³⁾	Total (\$)
Raymond T. Betler	5,000,000	16,138,594	22,800	21,161,394
Patrick D. Dugan	2,340,000	7,032,864	22,800	9,395,664
Stéphane Rambaud-Measson	4,050,000	9,066,338	—	13,116,338
David L. DeNinno	1,955,000	6,409,384	22,800	8,387,184
Scott E. Wahlstrom	1,312,000	3,213,534	22,800	4,548,334
Albert J. Neupaver	2,800,000	13,554,975	22,800	16,377,775

Cash. The amounts in this column represent the cash severance payments to which the named executive officers would be entitled under the employment agreement for Mr. Rambaud-Measson and under the Continuation Agreements for Mr. Betler, Mr. Dugan, Mr. DeNinno, Mr. Wahlstrom and Mr. Neupaver, in each case, as described above. Mr. Rambaud-Measson becomes entitled to the severance amounts listed here upon a qualifying termination of employment during the term of his employment agreement. The Continuation Agreements provide for double-trigger payments upon a qualifying termination of employment that occurs within the 24-month period following a change of control. The estimated amount of each such payment is shown in the following table, with maximum achievements assumed for amounts based on actual performance.

Named Executive Officer	Base Salary (\$)	Target Annual Bonus (\$)	Pro Rata Bonus Payment (\$)	Total (\$)
Raymond T. Betler	2,500,000	2,500,000	—	5,000,000
Patrick D. Dugan	1,300,000	1,040,000	—	2,340,000
Stéphane Rambaud-Measson	1,800,000	1,800,000	450,000	4,050,000
David L. DeNinno	1,150,000	805,000	—	1,955,000
Scott E. Wahlstrom	820,000	492,000	—	1,312,000
Albert J. Neupaver	1,400,000	1,400,000	—	2,800,000

Equity. The amounts in this column include unvested Wabtec equity awards, the vesting of which will accelerate in connection with the closing of the Merger on a single-trigger basis, in each case, as described above. The amounts in this column for the unvested and accelerated Wabtec Options (1) disregard Wabtec Options that have an exercise price per share greater than the Assumed Wabtec Stock Price, and (2) do not reflect any taxes payable by the option holders. The following table sets forth the estimated value by type of equity award:

Named Executive Officer	Unvested Wabtec Options (\$)	Unvested Shares of Wabtec Restricted Stock (\$)	Unvested Wabtec Restricted Stock Units (\$)	Unvested Wabtec Performance Units (\$)	Total (\$)
Raymond T. Betler	748,145	4,130,329	—	11,260,120	16,138,594
Patrick D. Dugan	262,231	2,693,693	—	4,076,940	7,032,864
Stéphane Rambaud-Measson	—	—	3,824,558	5,241,780	9,066,338
David L. DeNinno	216,318	2,892,686	—	3,300,380	6,409,384
Scott E. Wahlstrom	122,825	1,226,965	—	1,863,744	3,213,534

Albert J. Neupaver	443,245	3,793,010	–	9,318,720	13,554,975
--------------------	---------	-----------	---	-----------	------------

Perquisites/Benefits. The amounts in this column represent the estimated value of 24 months of continued health and welfare benefits provided pursuant to the Continuation Agreements, which provide double-trigger benefits, based on the full premium costs of such benefits. The estimated values of these benefits is \$22,800 for each of Mr. Betler, Mr. Dugan, Mr. DeNinno, Mr. Wahlstrom and Mr. Neupaver. These named executive officers would become entitled to these amounts under the Continuation Agreements upon a qualifying termination of (3) employment that occurs within the 24-month period following the closing of the Merger. In accordance with applicable SEC rules, the estimated value of health and welfare benefits was calculated based on the same assumptions used for financial reporting purposes. Each Continuation Agreement contains standard confidentiality and other restrictive covenants, including non-solicitation and non-competition covenants for a period of one year following termination of the executive's employment. Mr. Rambaud-Measson is not entitled to any continued health or welfare benefits under the terms of his employment agreement.

Accounting Treatment and Considerations

Accounting Standard Codification 805, Business Combinations, requires the use of the acquisition method of accounting for business combinations. In applying the acquisition method, it is necessary to identify both the accounting acquiree and the accounting acquiror. In a business combination effected through an exchange of equity interests, such as the Merger, the entity that issues the interests (Wabtec, in this case) is generally the acquiring entity. In identifying the acquiring entity in a combination effected through an exchange of equity interests, however, all pertinent facts and circumstances must be considered, including the following:

Issuance of equity by Wabtec. Wabtec expects to issue approximately 98.5 million shares of Wabtec common stock in the Merger.

TABLE OF CONTENTS

Incurrence of debt by Wabtec. Approximately \$2.9 billion of indebtedness is expected to be incurred in connection with the Transactions to fund the Direct Sale. Following the consummation of the Transactions, it is expected that post-Transaction GE Transportation will be owned by Wabtec through SpinCo, which will be a wholly owned subsidiary of Wabtec and will hold the SpinCo Business, and Direct Sale Purchaser, which will also be a wholly owned subsidiary of Wabtec and will hold the assets, potentially including the equity interests in certain pre-Transaction subsidiaries of GE that compose part of GE Transportation, acquired in the Direct Sale and the liabilities assumed in the Direct Sale. Nevertheless, because of the significant assets and operations represented by GE Transportation, Wabtec expects that following the consummation of the Transaction, SpinCo, Direct Sale Purchaser, and/or other entities through which GE Transportation is owned and operated may be required to become guarantors of the indebtedness of the Borrowers under the Credit Agreement, the New Wabtec Notes and Wabtec's existing senior unsecured notes.

The relative voting interests of Wabtec stockholders after the consummation of the Transactions. In this case and calculated on a fully-diluted, as-converted and as-exercised basis, GE and pre-Merger holders of GE common stock will collectively hold 50.1% of the equity ownership and associated voting rights in Wabtec after the consummation of the Transactions (with approximately 9.9% of the outstanding shares of Wabtec common stock expected to be held by GE) and 49.9% of the outstanding shares of Wabtec common stock will be held by pre-Merger Wabtec stockholders. The shares held by GE will be subject to GE's obligations under (x) the Tax Matters Agreement to sell a number of shares of Wabtec common stock within two years of the Distribution Date (as described in the section of this prospectus-information statement entitled "Other Agreements—Tax Matters Agreement") and (y) the Shareholders Agreement to sell, subject to limited exceptions, all of the shares of Wabtec common stock GE beneficially owns within three years of the closing date of the Merger and prior thereto, to vote all of such shares in the proportion required under the Shareholders Agreement (as described in the section of this prospectus-information statement entitled "Other Agreements—Shareholders Agreement").

The composition of the governing body of Wabtec after the consummation of the Transactions. The Wabtec Board currently consists of 12 directors. In connection with the Transactions, the size of the Wabtec Board will be increased to include three additional directors, each of whom is required to be independent as defined in the listing standards of the NYSE, to be designated as nominees by GE (subject to the nominees being reasonably acceptable to the Nominating and Corporate Governance Committee of the Wabtec Board), effective at the time of closing of the Merger. The Merger Agreement provides that, at the direction of GE, the GE designees will be assigned among the Wabtec Board's classes of directors so that one GE designee is appointed to the class of directors that is up for reelection at each of the first three annual meetings of Wabtec stockholders that occurs after the closing of the Merger. Additionally, in certain circumstances (see "The Merger Agreement – Post-Closing Wabtec Board of Directors and Officers"), the Wabtec Board will take all actions necessary to include the GE designee up for reelection at the first annual meeting of Wabtec stockholders that occurs after the closing of the Merger as nominee for the Wabtec Board at such annual meeting, to recommend that Wabtec stockholders vote in favor of the GE designee and to support the election of the GE designee at such annual meeting.

The composition of the senior management of Wabtec after the consummation of the Transactions. The executive officers of Wabtec immediately prior to consummation of the Merger are generally expected to be the executive officers of Wabtec immediately following consummation of the Merger, with Albert J. Neupaver remaining as Wabtec's executive chairman and Raymond T. Betler remaining as Wabtec's president and CEO. Following consummation of the Transactions, Stéphane Rambaud-Measson will become president and CEO of Wabtec's Transit Segment and Rafael O. Santana, president and CEO of GE Transportation, will become president and CEO of Wabtec's Freight Segment.

Wabtec management has determined that Wabtec will be the accounting acquiror in the Merger based on the facts and circumstances outlined above and the analysis of the relevant GAAP guidance. Consequently, Wabtec will apply

acquisition accounting to the assets and liabilities of GE Transportation acquired or assumed upon the consummation of the Direct Sale and the Merger. The historical financial statements of Wabtec for periods ended prior to the consummation of the Merger will reflect only the operations and financial condition of Wabtec. Subsequent to the consummation of the Merger, the financial statements of Wabtec will include the combined operations and financial condition of Wabtec and GE Transportation.

TABLE OF CONTENTS

Regulatory Approvals

Under the HSR Act, the parties must file pre-merger notifications with the FTC and the DOJ and observe specified waiting periods before consummating the Merger. Wabtec and GE each filed the requisite notification and report forms with the FTC and the DOJ on June 22, 2018. Wabtec and GE have each received a request for additional information (second request) from the DOJ. The second request is not an uncommon part of the regulatory review process under the HSR Act in respect of large transactions. The effect of the second request is to extend the waiting period imposed by the HSR Act until 30 days after Wabtec and GE have substantially complied with their respective request, unless that period is extended voluntarily by both parties or terminated sooner by the DOJ. Wabtec and GE will continue to cooperate fully with the DOJ as it reviews the proposed transaction. In addition to the expiration of the waiting period under the HSR Act, the parties have agreed to take, make or obtain all material actions by, consents or approvals of, or in respect of or filings with any governmental authority required to permit the consummation of the Merger, including the governmental authorizations to be sought in Austria, Brazil, Canada, Germany, Kazakhstan, Mexico, Pakistan, Russia, South Africa and Ukraine. The required waiting period in Canada has expired, and the parties have already obtained clearance from Austria, Germany and Russia.

Federal Securities Law Consequences; Resale Restriction

Wabtec common stock issued in the Merger will not be subject to any restrictions on transfer arising under the Securities Act, except for shares of Wabtec common stock issued to any person who may be deemed to be an affiliate of Wabtec under the Securities Act.

No Appraisal or Dissenters Rights

None of the stockholders of Wabtec, Merger Sub, Direct Sale Purchaser, GE or SpinCo will be entitled to exercise appraisal rights or to demand payment for their shares in connection with the Transactions.

TABLE OF CONTENTS

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE DISTRIBUTION AND THE MERGER TO GE STOCKHOLDERS

The following are the material U.S. federal income tax consequences of the Distribution and Merger to U.S. Holders (as defined below) of GE common stock. This discussion is based on the Code, applicable Treasury regulations, administrative interpretations and court decisions as in effect as of the date of this registration statement, all of which may change, possibly with retroactive effect. For purposes of this discussion, a U.S. Holder is a beneficial owner of GE common stock that is for U.S. federal income tax purposes:

- a citizen or individual resident of the United States;
- a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state therein or the District of Columbia; or
- an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

This discussion assumes that the Distribution is effected by way of a *pro rata* distribution to the stockholders of GE and that U.S. Holders of GE common stock hold such stock as a capital asset (generally, assets held for investment). It does not address all aspects of U.S. federal income taxation that may be important to a U.S. Holder in light of that stockholder's particular circumstances or to a U.S. Holder subject to special rules, such as:

- a financial institution, regulated investment company, real estate investment trust, or insurance company;
- a tax-exempt organization;
- a dealer or broker in securities, commodities or foreign currencies;
- a stockholder that holds GE common stock as part of a hedge, appreciated financial position, straddle, conversion, or other risk reduction transaction;
- a stockholder that holds GE common stock in a tax-deferred account, such as an individual retirement account or a plan qualifying under Section 401(k) of the Code; or
- a stockholder that acquired GE common stock pursuant to the exercise of options or similar derivative securities or otherwise as compensation.

If a partnership, or any entity or arrangement treated as a partnership for U.S. federal income tax purposes, holds GE common stock, the tax treatment of a partner in such partnership generally will depend on the status of the partners and the activities of the partnership. A partner in a partnership holding GE common stock should consult its own tax advisor.

This discussion of material U.S. federal income tax consequences does not address all potential U.S. federal income tax consequences of the Distribution and Merger, including consequences that may depend on individual circumstances. In addition, it does not address any estate or gift or other non-income tax consequences or any foreign, state or local tax consequences of the Distribution and Merger. **Each holder of GE common stock should consult its own tax advisor to determine the particular U.S. federal, state or local or foreign income or other tax consequences of the Distribution and Merger to such holder.**

Tax Opinions

The consummation of the Distribution, the Merger, and certain related transactions are conditioned upon (i) GE's receipt of the GE Tax Opinions, and (ii) Wabtec's receipt of the Wabtec Tax Opinion (the Tax Opinions). GE has also requested a private letter ruling from the IRS with respect to certain aspects of the intended tax treatment of the Distribution (the Ruling). If GE does not timely receive the Ruling, the Distribution and certain related transactions will be restructured in a manner intended to permit tax counsel to GE to render its opinion in the absence of the Ruling. Any such restructuring will not affect the tax consequences of the Distribution and the Merger to U.S. Holders of GE common stock.

In rendering the Tax Opinions, tax counsel will rely on (i) customary representations and covenants made by GE, SpinCo and Wabtec, (ii) specified assumptions, including an assumption regarding the completion of the Distribution, Merger, and certain related transactions in the manner contemplated by the transaction agreements and (iii) if the Ruling is obtained, the Ruling. Tax counsels ability to provide the Tax Opinions will depend on

TABLE OF CONTENTS

the absence of changes in existing facts or law between the date of this registration statement and the closing date of the Distribution and the Merger. If any of those representations, covenants or assumptions is inaccurate, tax counsel may not be able to provide the Tax Opinions or the tax consequences of the Distribution and the Merger could differ from those described below. An opinion of tax counsel neither binds the IRS, nor precludes the IRS or the courts from adopting a contrary position.

The Distribution

On the basis that, as intended by GE and Wabtec, the Distribution, together with certain related transactions, will qualify as a reorganization within the meaning of Section 368(a)(1)(D) of the Code and a distribution described in Sections 355(a) and 355(e) of the Code, in general, for U.S. federal income tax purposes:

the Distribution will be taxable to GE;

U.S. Holders of GE common stock will not recognize income, gain or loss upon the receipt of the Distribution Shares in the Distribution;

the aggregate tax basis of the shares of SpinCo common stock (including fractional shares) distributed in the Distribution to a U.S. Holder of GE common stock will be determined by allocating the aggregate tax basis of such

U.S. Holder in the shares of GE common stock with respect to which the Distribution is made between such GE common stock and the SpinCo common stock received in proportion to the relative fair market values of such common stock; and

the holding period (for U.S. federal income tax purposes) of any shares of SpinCo common stock received (including any fractional shares of SpinCo common stock) in the Distribution by a U.S. Holder of GE common stock will include the holding period at the time of the consummation of Distribution of the shares of GE common stock with respect to which the shares of SpinCo common stock were received.

In general, if the Distribution were not to qualify as a distribution described in Section 355(a) of the Code, the Distribution would be treated as a taxable dividend to GE stockholders.

The Merger

The Merger is intended to qualify as a tax-free reorganization within the meaning of Section 368(a) of the Code. On the basis of such treatment and subject to the limitations and qualifications described herein, in general, for U.S. federal income tax purposes:

U.S. Holders of SpinCo common stock will not recognize income, gain or loss upon the receipt of Wabtec common stock in the Merger, except for any gain or loss recognized with respect to cash received in lieu of a fractional share of Wabtec common stock;

the aggregate tax basis of Wabtec common stock received by a U.S. Holder of SpinCo common stock in the Merger (including fractional shares of Wabtec common stock deemed received and redeemed as described below) will be the same as the aggregate tax basis of the SpinCo common stock for which it is exchanged;

the holding period (for U.S. federal income tax purposes) of Wabtec common stock received in exchange for shares of SpinCo common stock (including fractional shares of Wabtec common stock deemed received and redeemed as described below) will include the holding period of the SpinCo common stock for which it is exchanged;

a U.S. Holder of SpinCo common stock who receives cash in lieu of a fractional share of Wabtec common stock will be treated as having received the fractional share pursuant to the Merger and then as having sold that fractional share for cash. As a result, such U.S. Holder of SpinCo common stock will recognize gain or loss equal to the difference between the amount of cash received and the tax basis in his or her fractional share, determined as set forth above; and

- any gain or loss recognized by a U.S. Holder described above will generally be capital gain or loss, and will be long-term capital gain or loss if, as of the closing date of the Merger, the holder's holding

TABLE OF CONTENTS

period for the relevant shares is greater than one year. For U.S. Holders of SpinCo common stock that are noncorporate U.S. Holders, long-term capital gain generally will be taxed at a U.S. federal income tax rate that is lower than the rate for ordinary income or for short-term capital gains. The deductibility of capital losses is subject to limitations.

In general, if the Merger were not to qualify as a reorganization within the meaning of Section 368(a) of the Code, a U.S. Holder would be required to recognize gain or loss equal to the difference, if any, between such U.S. Holder's adjusted tax basis in its SpinCo common stock surrendered in the Merger and an amount equal to the fair market value of its shares of Wabtec common stock received in the Merger, plus any cash received in lieu of fractional shares. Generally, in such event, a U.S. Holder's tax basis in the shares of Wabtec common stock received in the Merger would equal the fair market value of such shares as of the date of the Merger, and such U.S. Holder's holding period with respect to such shares would begin on the day after the Merger.

Information Reporting and Backup Withholding

U.S. Treasury regulations generally require persons who own at least five percent of the total outstanding stock of GE (by vote or value) and who receive SpinCo common stock pursuant to the Distribution and persons who own at least one percent of the total outstanding stock of SpinCo and who receive Wabtec common stock pursuant to the Merger to attach to their U.S. federal income tax return for the year in which the Distribution and the Merger occur a detailed statement setting forth certain information relating to the tax-free nature of the Distribution and the Merger, as the case may be, to GE stockholders. GE and/or SpinCo will provide the appropriate information to each holder upon request, and each such holder is required to retain permanent records of this information. In addition, payments of cash to a U.S. Holder of SpinCo common stock in lieu of a fractional share of Wabtec common stock in the Merger may be subject to information reporting, unless the U.S. Holder provides the withholding agent with proof of an applicable exemption. Payments that are subject to information reporting may also be subject to backup withholding (currently at a rate of 24%) unless such U.S. Holder provides the withholding agent with a correct taxpayer identification number and otherwise complies with the requirements of the backup withholding rules. Backup withholding does not constitute an additional tax, but merely an advance payment, which may be refunded or credited against a U.S. Holder's U.S. federal income tax liability, provided the required information is timely supplied to the IRS.

TABLE OF CONTENTS

THE MERGER AGREEMENT

*The following is a summary of the material provisions of the Merger Agreement. This summary is qualified in its entirety by reference to the full text of the Merger Agreement, which is incorporated by reference in this prospectus-information statement. GE stockholders are urged to read the Merger Agreement in its entirety. This summary of the Merger Agreement has been included to provide GE stockholders with information regarding its terms. The rights and obligations of the parties are governed by the express terms and conditions of the Merger Agreement and not by this summary or any other information included in this document. It is not intended to provide any other factual information about Wabtec, Merger Sub, GE or SpinCo. Information about Wabtec, Merger Sub, GE and SpinCo can be found elsewhere in this prospectus-information statement and in the documents incorporated by reference into this prospectus-information statement. See also *Where You Can Find More Information; Incorporation by Reference.**

The Merger

Under the Merger Agreement and in accordance with the DGCL, at the effective time of the Merger, Merger Sub will merge with and into SpinCo. As a result of the Merger, the separate existence of Merger Sub will cease and SpinCo will continue as the surviving corporation and as a wholly owned subsidiary of Wabtec. From and after the effective time of the Merger, the surviving corporation will possess all the rights, powers, privileges and franchises and be subject to all of the obligations, liabilities, restrictions and disabilities of SpinCo and Merger Sub, all as provided under the DGCL. The certificate of incorporation and bylaws of Merger Sub in effect at the effective time of the Merger will be the certificate of incorporation and bylaws of the surviving corporation until amended in accordance with applicable law, except the name of the surviving corporation will be as Wabtec may determine.

Under the terms of the Merger Agreement, from and after the effective time of the Merger until successors are duly elected or appointed and qualified in accordance with applicable law, (i) the directors of Merger Sub at the effective time of the Merger will be the directors of the surviving corporation and (ii) the officers of SpinCo at the effective time of the Merger will be the officers of the surviving corporation.

Closing; Effective Time

Under the terms of the Merger Agreement, the closing of the Merger will take place as soon as possible, but in any event no later than two business days after the date the conditions precedent to the Merger (other than those to be satisfied at closing, but subject to their satisfaction) have been satisfied or, to the extent permissible, waived or on such other date as GE and Wabtec may mutually agree. At the closing, SpinCo and Merger Sub will file a certificate of merger with the Delaware Secretary of State and make all other filings or recordings required by the DGCL in connection with the Merger. The Merger will become effective at such time as the certificate of merger is duly filed with the Delaware Secretary of State (or at such later time as the parties may agree and as is specified in the certificate of merger).

Merger Consideration

The Merger Agreement provides that, at the effective time of the Merger, by virtue of the Merger and without any action on the part of Wabtec, Merger Sub, SpinCo or the holders of shares of SpinCo common stock, each share of SpinCo common stock outstanding immediately prior to the effective time of the Merger (except shares of SpinCo common stock held by SpinCo or Wabtec, which will be cancelled) will be converted into the right to receive a number of fully paid and non-assessable shares of Wabtec common stock equal to the exchange ratio in the Merger Agreement. The exchange ratio will be determined prior to the closing of the Merger based on the number of shares of Wabtec common stock on a fully-diluted, as-converted and as-exercised basis, on the one hand, and the number of

shares of SpinCo common stock, on the other hand, in each case outstanding immediately prior to the effective time of the Merger, such that the stockholders of SpinCo (including GE) will own shares of Wabtec common stock representing 50.1% of the shares of Wabtec common stock outstanding immediately following the Merger on a fully-diluted, as-converted and as-exercised basis. As described in the Merger Agreement, the exchange ratio equals the quotient of (a) the aggregate number of shares of Wabtec common stock outstanding immediately prior to the effective time of the Merger on a fully-diluted, as-converted and as-exercised basis multiplied by the quotient of 50.1% divided by 49.9%, divided by (b) the number of shares of SpinCo common stock outstanding immediately prior to the effective time of the Merger. For example,

TABLE OF CONTENTS

solely for illustrative purposes, assume there are 1,000 shares of Wabtec common stock outstanding immediately prior to the effective time of the Merger on a fully-diluted, as-converted and as-exercised basis and 2,000 shares of SpinCo common stock outstanding immediately prior to the effective time of the Merger. In order for holders of SpinCo common stock to own shares of Wabtec common stock representing 50.1% of the shares of Wabtec common stock immediately following the effective time of the Merger on a fully-diluted, as-converted and as-exercised basis, Wabtec would have to issue to holders of the outstanding shares of SpinCo common stock representing a number of shares of Wabtec common stock equal to 1,000 multiplied by the quotient of 50.1% divided by 49.9%, or 1,004 shares of Wabtec common stock. The exchange ratio therefore would equal the quotient of 1,004 shares of Wabtec common stock divided by 2,000 shares of SpinCo common stock, or 0.502.

No fractional shares of Wabtec common stock will be issued pursuant to the Merger. All fractional shares of Wabtec common stock that a holder of shares of SpinCo common stock would otherwise be entitled to receive as a result of the Merger will be aggregated by the exchange agent, and the exchange agent will cause the whole shares obtained by such aggregation to be sold in the open market or otherwise at then-prevailing market prices no later than five business days after the Distribution. The exchange agent will pay the net proceeds of the sale, after deducting any required withholding taxes and brokerage charges, commissions and conveyance and similar taxes, on a *pro rata* basis, without interest, as soon as practicable to the holders of shares of SpinCo common stock that would otherwise be entitled to receive such fractional shares of Wabtec common stock pursuant to the Merger.

The merger consideration and cash in lieu of fractional shares (if any) paid in connection with the Merger will be reduced by any applicable withholding taxes as described below under —Withholding Rights.

Distribution of Per Share Merger Consideration

Prior to the effective time of the Merger, GE will designate a nationally recognized commercial bank or trust company reasonably acceptable to Wabtec to act as exchange agent for the benefit of the holders of SpinCo common stock. Prior to the effective time of the Merger, Wabtec will deposit or cause to be deposited with the exchange agent, for the benefit of holders of shares of SpinCo common stock, for exchange in accordance with the provisions of the Merger Agreement promptly after the effective time of the Merger, book-entry shares of Wabtec common stock representing the merger consideration issuable to holders of shares of SpinCo common stock as of the effective time of the Merger.

At the effective time of the Merger, all issued and outstanding shares of SpinCo common stock will be converted into the right to receive shares of Wabtec common stock as described above under —Merger Consideration. As promptly as practicable thereafter, Wabtec will cause the exchange agent to distribute the shares of Wabtec common stock into which the shares of SpinCo common stock have been converted pursuant to the Merger, which, in the case of shares of SpinCo common stock distributed in the Distribution, will be distributed on the same basis as shares of SpinCo common stock were distributed in the Distribution and to the persons who received shares of SpinCo common stock in the Distribution. Each holder of shares of SpinCo common stock will be entitled to receive in respect of the shares of SpinCo common stock held by such person a book-entry authorization representing the number of whole shares of Wabtec common stock that such holder has the right to receive pursuant to the Merger (and cash in lieu of fractional shares of Wabtec common stock as described above under —Merger Consideration , together with any dividends or distributions and other amounts as described below under —Distributions With Respect to Shares of Wabtec Common Stock after the Effective Time of the Merger).

TABLE OF CONTENTS

Distributions With Respect to Shares of Wabtec Common Stock after the Effective Time of the Merger

Subject to the following sentence, no dividends or other distributions declared after the effective time of the Merger with respect to Wabtec common stock will be paid with respect to any shares of Wabtec common stock that are not able to be distributed by the exchange agent promptly after the effective time of the Merger, whether due to a legal impediment to such distribution or otherwise. Subject to the effect of abandoned property, escheat, tax or other applicable laws, following the distribution of any such previously undistributed shares of Wabtec common stock, the record holder of such shares of Wabtec common stock will be paid, without interest:

at the time of the distribution, the amount of cash payable in lieu of fractional shares of Wabtec common stock to which such holder is entitled pursuant to the Merger Agreement and the amount of dividends or other distributions with a record date after the effective time of the Merger paid before that time with respect to such whole shares of Wabtec common stock; and

at the appropriate payment date, the amount of dividends or other distributions with a record date after the effective time of the Merger but prior to the distribution of such whole shares of Wabtec common stock and a payment date subsequent to the distribution of such whole shares of Wabtec common stock.

Wabtec is required under the Merger Agreement to deposit all such amounts with the exchange agent.

Termination of the Exchange Fund; No Liability

Any portion of the amounts deposited with the exchange agent under the Merger Agreement that remains undistributed to the former SpinCo stockholders on the one-year anniversary of the effective time of the Merger will be delivered to Wabtec upon demand. Subject to any applicable abandoned property, escheat or similar applicable law, any former SpinCo stockholders who have not received shares of Wabtec common stock (as described above under —Merger Consideration) may thereafter look only to Wabtec for the merger consideration to which they are entitled under the Merger Agreement (as described above under —Merger Consideration), any cash in lieu of fractional shares of Wabtec common stock to which they may be entitled under the Merger Agreement (as described above under —Merger Consideration) or any dividends or other distributions with respect to the Wabtec common stock to which they may be entitled under the Merger Agreement (as described above under —Distributions With Respect to Shares of Wabtec Common Stock after the Effective Time of the Merger).

Pursuant to the Merger Agreement, none of Wabtec, GE, SpinCo, Merger Sub, the surviving corporation or the exchange agent will be liable to any person for any merger consideration deposited by Wabtec with the exchange agent (or dividends or distributions with respect to Wabtec common stock) or other cash, in each case delivered to a public official pursuant to any abandoned property, escheat or similar applicable law.

Withholding Rights

Each of the exchange agent, the surviving corporation, Wabtec and Merger Sub are entitled to deduct and withhold from any amounts otherwise payable under the Merger Agreement such amount as it is required to deduct and withhold with respect to the making of such payment under any provision of tax law. To the extent that amounts are so withheld, such withheld amounts will be treated for all purposes of the Merger Agreement as having been paid to the former SpinCo stockholders otherwise entitled to such amounts in respect of which such deduction and withholding was made.

Stock Transfer Books

From and after the effective time of the Merger, the stock transfer books of SpinCo will be closed, and there will be no further registration of transfers of shares of SpinCo common stock after that time on the records of SpinCo.

Post-Closing Wabtec Board of Directors and Officers

The Merger Agreement provides that Wabtec will, and will cause the Wabtec Board to, take all actions necessary to cause three individuals designated by GE to be appointed to the Wabtec Board as of the effective time of the Merger, including by increasing the size of the Wabtec Board and appointing the GE designees to fill the vacancies. Each of the GE designees will qualify as an independent director under the rules of the NYSE and will be reasonably acceptable to the Nomination and Corporate Governance Committee of the Wabtec Board.

TABLE OF CONTENTS

At the direction of GE, (i) one of the GE designees selected by GE will be assigned to the class of directors that is up for reelection at the first annual meeting of Wabtec stockholders that occurs after the effective time of the Merger, (ii) one of the GE designees selected by GE will be assigned to the class of directors that is up for reelection at the second annual meeting of Wabtec stockholders that occurs after the effective time of the Merger, and (iii) one of the GE designees selected by GE will be assigned to the class of directors that is up for reelection at the third annual meeting of Wabtec stockholders that occurs after the effective time of the Merger.

If the effective time of the Merger occurs within six months prior to the date of the 2019 annual meeting of Wabtec stockholders and prior to the date on which Wabtec commences mailing its proxy statement for the 2019 annual meeting of Wabtec stockholders, then Wabtec will, and will cause the Wabtec Board to, take all actions necessary to (i) nominate for election to the Wabtec Board at the 2019 annual meeting of Wabtec stockholders the GE designee selected by GE to be assigned to the class of directors that is up for reelection at the first annual meeting of Wabtec stockholders that occurs after the effective time of the Merger, (ii) recommend that Wabtec stockholders vote in favor of the election of such GE designee to the Wabtec Board and (iii) use no less rigorous efforts to support the election of such GE designee to the Wabtec Board than the efforts used to support the election of each other nominee of the Wabtec Board for election to the Wabtec Board at the 2019 annual meeting of Wabtec stockholders. If the effective time of the Merger occurs after the date on which Wabtec commences mailing its proxy statement for the 2019 annual meeting of Wabtec stockholders and prior to the 2019 annual meeting of Wabtec stockholders, then Wabtec will take all necessary action to cause the GE designee selected by GE to be assigned to the class of directors that is up for reelection at the first annual meeting of Wabtec stockholders that occurs after the effective time of the Merger to be re-appointed to the Wabtec Board as of immediately following the 2019 annual meeting of Wabtec stockholders (and to be re-assigned to the class of directors that was elected at the 2019 annual meeting of Wabtec stockholders).

Stockholders Meeting

Under the terms of the Merger Agreement, Wabtec is required to call, give notice of, convene and hold a meeting of its stockholders for the purpose of voting upon the Share Issuance and Wabtec Charter Amendment as promptly as reasonably practicable following the date on which the SEC clears Wabtec's proxy statement relating to such stockholders meeting and, if required by the SEC as a condition to the mailing of the proxy statement, the date on which the registration statement of Wabtec registering the shares of Wabtec common stock required for the Share Issuance has been declared effective. Wabtec is required to call this stockholders meeting for the purpose of voting upon the Share Issuance and Wabtec Charter Amendment regardless of the commencement, disclosure, announcement or submission to Wabtec or its stockholders of any Acquisition Proposal (as defined below under —No Solicitation) or any Adverse Recommendation Change (as defined below under —Board Recommendation). Subject to the provisions of the Merger Agreement described below under —Board Recommendation and —No Solicitation, Wabtec has agreed to use reasonable best efforts (consistent with the efforts customarily used in transactions of the type contemplated by the Merger Agreement, including engaging a proxy solicitor) to solicit from its stockholders proxies in favor of the approval of the Share Issuance and Wabtec Charter Amendment.

If, on the date of the stockholders meeting for the purpose of voting upon the Share Issuance and Wabtec Charter Amendment, Wabtec has not received proxies representing a sufficient number of shares of Wabtec common stock to approve the Share Issuance and Wabtec Charter Amendment, Wabtec may, or, upon written request of GE, will, adjourn such stockholders meeting until such date as is mutually agreed upon by Wabtec and GE, which date must be no less than five days nor more than 10 days after the date of adjournment, and subject to the terms and conditions of the Merger Agreement, Wabtec will continue to use its reasonable best efforts, together with its proxy solicitor, to assist in the solicitation of proxies from stockholders relating to the approval of the Share Issuance and Wabtec Charter Amendment. Wabtec may not adjourn such stockholders meeting more than one time unless mutually agreed by Wabtec and GE.

Representations and Warranties

The Merger Agreement contains representations and warranties that Wabtec has made to GE and SpinCo, on the one hand, and GE has made to Wabtec, on the other hand, as of specific dates. No representations or warranties were made as of any dates other than the dates specified in the Merger Agreement. The assertions embodied in those representations and warranties were made solely for purposes of the Merger Agreement and may be subject to important qualifications and limitations agreed to by Wabtec and GE in connection with negotiating the terms

TABLE OF CONTENTS

of the Transactions or contained in other disclosure documentation. Such disclosure documentation may contain information that modifies, qualifies or creates exceptions to the representations and warranties set forth in the Merger Agreement. Moreover, the representations and warranties may be subject to contractual standards of materiality different from those generally applicable to stockholder communications, or may have been used for the purpose of allocating risk among Wabtec and GE. Accordingly, these representations and warranties may not describe the actual state of affairs as of the date they were made or at any other time. Wabtec, GE and SpinCo acknowledge that, notwithstanding the inclusion of the foregoing cautionary statements, they are responsible for considering whether additional specific disclosures of material information regarding material contractual provisions are required to ensure compliance with all applicable securities laws.

The representations and warranties contained in the Merger Agreement relate to, among other things, the following:

- each party's and its subsidiaries' due incorporation, valid existence and good standing;
- authority to enter into and perform obligations under the Transaction Documents;
- board and stockholder approvals obtained or required in connection with the Transactions;
- governmental consents and approvals;
- absence of conflicts with or violations of governance documents, other obligations or laws;
- capitalization;
- subsidiaries;
- financial statements;
- accuracy of information supplied for use in this prospectus-information statement and certain other disclosure documents to be filed with the SEC in connection with the Transactions;
- absence of certain changes or events;
- absence of undisclosed liabilities;
- compliance with applicable laws;
- permits;
- absence of investigations or litigation;
- interests in real property;
- intellectual property matters;
- tax matters;
- employment and employee benefits matters;
- environmental matters;
- material contracts; and
- payment of fees to brokers or finders in connection with the Transactions.

Wabtec has also made representations and warranties to GE and SpinCo relating to its filings with the SEC, the Debt Financing (as described in the section of this prospectus-information statement entitled "Debt Financing"), the opinion of Wabtec's financial advisor (as described in the section of this prospectus-information statement entitled "The Transactions—Opinion of Wabtec's Financial Advisor"), the required vote of Wabtec stockholders on the transactions contemplated by the Merger Agreement (including the Share Issuance and the Wabtec Charter Amendment), and the absence of any stockholder rights plan, poison pill, anti-takeover plan or other similar device.

GE has also made representations and warranties to Wabtec and Merger Sub relating to the sufficiency of, and title to, assets to be contributed to SpinCo or acquired by Direct Sale Purchaser and the operations and purpose of formation of SpinCo.

TABLE OF CONTENTS

Many of the representations and warranties contained in the Merger Agreement are subject to a material adverse effect standard, knowledge qualifications, or both, and none of the representations and warranties will survive the effective time of the Merger. The Merger Agreement does not contain any post-closing indemnification obligations with respect to these matters.

The term material adverse effect, when used with respect to GE Transportation, is defined in the Merger Agreement to mean any material adverse effect on the business, condition (financial or otherwise) or results of operations of GE Transportation, taken as a whole. With respect to GE Transportation, the term material adverse effect does not include any effect resulting from the following matters (except, in the case of the first, second and third bullet points below, to the extent that such effect has a disproportionate effect on GE Transportation, taken as a whole, as compared with other participants in the industries in which GE Transportation operates):

- changes (or proposed changes) in GAAP, the regulatory accounting requirements applicable to any industry in which GE Transportation operates or applicable law, including the interpretation or enforcement thereof;
- changes in the financial, credit or securities markets (including changes in prevailing interest rates, credit availability and liquidity, currency exchange rates, price levels or trading volumes in any securities market) or general economic or political conditions;
- changes or conditions generally affecting the industry or segments of the industry in which GE Transportation operates;
- acts of war, sabotage or terrorism or natural disasters;
- other than for purposes of certain specified representations and warranties, the announcement or consummation of the transactions or the identity of Wabtec, including, in each case, with respect to employees, customers, distributors, suppliers, financing sources, landlords, licensors and licensees;
- any failure by GE Transportation to meet any internal or published budgets, projections, forecasts or predictions of financial performance for any period or any change in GE's stock price or trading volume (except that the underlying cause of, or factors contributing to, such failure or change may be taken into account in determining whether a material adverse effect with respect to GE Transportation has occurred, unless such underlying cause or factor would be excluded by any of the above or below bullet points);
- actions required or expressly contemplated by the Merger Agreement or taken by GE, SpinCo or any of their respective affiliates at the written direction, or with the written consent, of Wabtec; or
- any stockholder or derivative litigation arising from or relating to the Merger Agreement or the transactions contemplated the Merger Agreement.

The term material adverse effect, when used with respect to Wabtec, is defined in the Merger Agreement to mean any material adverse effect on the business, condition (financial or otherwise) or results of operations of Wabtec and its subsidiaries, taken as a whole. With respect to Wabtec, the term material adverse effect does not include any effect resulting from the following matters (except, in the case of the first, second and third bullet points below, to the extent that such effect has a disproportionate effect on Wabtec and its subsidiaries, taken as a whole, as compared with other participants in the industries in which Wabtec operates):

- changes (or proposed changes) in GAAP, the regulatory accounting requirements applicable to any industry in which Wabtec and its subsidiaries operate or applicable law, including the interpretation or enforcement thereof;
- changes in the financial, credit or securities markets (including changes in prevailing interest rates, credit availability and liquidity, currency exchange rates, price levels or trading volumes in any securities market) or general economic or political conditions;
- changes or conditions generally affecting the industry or segments of the industry in which Wabtec and its subsidiaries operate;

TABLE OF CONTENTS

acts of war, sabotage or terrorism or natural disasters;
other than for purposes of certain specified representations and warranties, the announcement or consummation of the Transactions or the identity of GE, including, in each case, with respect to employees, customers, distributors, suppliers, financing sources, landlords, licensors and licensees;
any failure by Wabtec to meet any internal or published budgets, projections, forecasts or predictions of financial performance for any period or any change in Wabtec's stock price or trading volume (except that the underlying cause of, or factors contributing to, such failure or change may be taken into account in determining whether a material adverse effect with respect to Wabtec has occurred, unless such underlying cause or factor would be excluded by any of the above or below bullet points);
actions required or expressly contemplated by the Merger Agreement or taken by Wabtec or any of its affiliates at the written direction, or with the written consent, of GE; or
any stockholder or derivative litigation arising from or relating to the Merger Agreement or the transactions contemplated by the Merger Agreement.

Conduct of Business Pending the Merger

Each of the parties has undertaken to perform customary covenants in the Merger Agreement that place restrictions on it and its subsidiaries until the earlier of the closing date of the Merger and the date on which the Merger Agreement is terminated in accordance with its terms as described below under —Termination.

In general, GE has agreed that, prior to the effective time of the Merger, except for the Transactions, as required by applicable law or with the prior written consent of Wabtec (which consent may not be unreasonably withheld, conditioned or delayed), and subject to certain other agreed exceptions, it will, and will cause its subsidiaries to, (i) use reasonable best efforts to conduct GE Transportation in the ordinary course, (ii) use reasonable best efforts to preserve intact the business organization of GE Transportation and the relations and goodwill of all material suppliers, material customers, material licensors, and governmental authorities, in each case, with respect to GE Transportation and to keep available the services of the present officers and key employees of GE Transportation, and (iii) manage the working capital of GE Transportation (including the timing of collection of accounts receivable and of the payment of accounts payable and the management of inventory) in the ordinary course of business.

In addition, GE has agreed that, prior to the effective time of the Merger, except for the Transactions, as required by applicable law, or with the prior written consent of Wabtec (which consent may not be unreasonably withheld, delayed or conditioned except in the case of the first, second, third and fourth bullet points below, and, insofar as related to any of the foregoing, the last bullet point below), and subject to certain other agreed exceptions, GE will not, and will not permit any of its subsidiaries to, take any of the following actions to the extent relating to GE Transportation:

amend the certificate of incorporation, bylaws or similar organizational documents of SpinCo or any Transferred Subsidiary;
split, combine or reclassify any shares of capital stock of SpinCo or any Transferred Subsidiary, or redeem, repurchase or otherwise acquire or offer to redeem, repurchase, or otherwise acquire any shares of capital stock or other ownership interests of SpinCo or any Transferred Subsidiary;
issue, deliver or sell, or authorize the issuance, delivery or sale of, any shares of capital stock or other ownership interests of SpinCo or any Transferred Subsidiary, other than the issuance, delivery or sale of any shares of capital stock or other ownership interests of any Transferred Subsidiary to SpinCo or any other Transferred Subsidiary;
amend any term of any shares of capital stock or other ownership interests of SpinCo or any Transferred Subsidiary;
acquire (by merger, consolidation, acquisition of stock or assets or otherwise), directly or indirectly, any material amount of assets, securities, properties, interests or businesses, other than (i) pursuant to existing contracts or commitments, (ii) acquisitions of goods or services in the ordinary course of business, or (iii) acquisitions of assets, securities, properties or interests in an amount not to exceed \$10 million individually or \$50 million in the aggregate;

TABLE OF CONTENTS

sell, lease or otherwise transfer any assets, securities, properties, interests or businesses of GE Transportation, other than (i) pursuant to existing contracts or commitments and (ii) sales of inventory or other assets in the ordinary course of business;

make any material loans, advances or capital contributions to, or investments in, any other person;

incur any indebtedness for borrowed money or guarantees thereof, other than any indebtedness or guarantee incurred in the ordinary course of business;

except as required by applicable law, the terms of a GE Transportation employee benefit plan or collective bargaining or other labor agreement as in effect on the date of the Merger Agreement, (i) grant any material severance, retention or termination payment to, or enter into or materially amend any severance, retention, termination, employment, change in control or severance agreement with, any service provider of GE Transportation, (ii) materially increase the compensation or benefits provided to any service provider of GE Transportation, other than in the ordinary course of business based on the normal review cycle (provided that the requirement to be based on the normal review cycle will not apply to any service provider of GE Transportation who reports directly to the Chief Executive Officer of GE Transportation), (iii) grant any equity or equity-based awards to, or discretionarily accelerate the vesting (except in respect of certain restricted stock unit awards) or payment of any such awards held by, any service provider of GE Transportation, other than in the ordinary course of business based on the normal review cycle (provided that the requirement to be based on the normal review cycle will not apply to any service provider of GE Transportation who reports directly to the Chief Executive Officer of GE Transportation), (iv) hire, or terminate the employment (other than for cause) of, any service provider of GE Transportation who reports directly to the Chief Executive Officer of GE Transportation, or (v) hire any service provider of GE Transportation, other than as permitted under the terms of the Employee Matters Agreement;

change the methods of accounting of GE Transportation, except as required by concurrent changes in GAAP or in Regulation S-X of the Exchange Act;

other than in the ordinary course of business, (i) make any change (or file any such change) in any method of tax accounting or any annual tax accounting period, (ii) make, change or rescind any tax election, (iii) settle or compromise any tax liability or consent to any claim or assessment relating to taxes, (iv) file any amended tax return or claim for refund, (v) enter into any closing agreement relating to taxes, or (vi) waive or extend the statute of limitations in respect of taxes; in each case, to the extent that doing so would reasonably be expected to result in a material incremental cost to Wabtec, SpinCo or any of their respective subsidiaries;

settle, or offer or propose to settle any material claim, action or proceeding involving GE Transportation, other than in the ordinary course of business;

fail to use reasonable best efforts to maintain (with insurance companies substantially as financially responsible as their existing insurers) insurance against at least such risks and losses as are consistent in all material respects with the past practice of GE Transportation, except to the extent such actions affect similarly situated businesses of GE and its subsidiaries and do not disproportionately affect GE Transportation; or

agree or commit to do any of the foregoing.

In addition, from the date of the Merger Agreement until the Distribution, GE will, and will cause each of its subsidiaries to, (i) prepare and timely file all tax returns that it is required to file, (ii) timely pay all taxes that it is required to pay, and (iii) promptly notify Wabtec of any notice of any material claim, action or proceeding before a governmental authority in respect of any tax matters (or any significant developments with respect to ongoing claims, actions, proceedings before a governmental authority in respect of such tax matters), in each case, in respect of SpinCo, GE Transportation, the SpinCo Assets (as defined in the section of this prospectus-information statement titled "The Separation Agreement"), the Direct Sale Assets (as defined in the section of this prospectus-information statement titled "The Separation Agreement") or any Transferred Subsidiary.

TABLE OF CONTENTS

In general, Wabtec has agreed that, prior to the effective time of the Merger, except for the Transactions, as required by applicable law or with the prior written consent of GE (which consent may not be unreasonably withheld, conditioned or delayed), and subject to certain other agreed exceptions, it will, and will cause its subsidiaries to, use reasonable best efforts to (i) conduct the business of Wabtec and its subsidiaries in the ordinary course and (ii) preserve intact the business organization of Wabtec and its subsidiaries, and the relations and goodwill of all material suppliers, material customers, material licensors, and governmental authorities, in each case, with respect to the business of Wabtec and its subsidiaries, and to keep available the services of the present officers and key employees of Wabtec and its subsidiaries.

Furthermore, Wabtec has agreed that, prior to the effective time of the Merger, except as contemplated by the Transactions, as required by applicable law, or with the prior written consent of GE (which consent may not be unreasonably withheld, delayed or conditioned except in the case of the first, second, third and fourth bullet points below, and, insofar as related to any of the foregoing, the last bullet point below), and subject to certain other agreed exceptions, Wabtec will not, and will not permit any of its subsidiaries to, take any of the following actions:

- amend its certificate of incorporation, bylaws or other similar organizational documents, except for the Wabtec Charter Amendment;

- (i) split, combine or reclassify any shares of its capital stock, (ii) declare, set aside or pay any dividend or other distribution (whether in cash, stock or property or any combination thereof) in respect of its capital stock, except for (A) dividends by any of its wholly owned subsidiaries and (B) regular quarterly cash dividends by Wabtec with customary record and payment dates on the shares of Wabtec common stock not in excess of \$0.12 per share for the quarter ended June 30, 2018 and \$0.14 per quarter thereafter, or (iii) redeem, repurchase or otherwise acquire or offer to redeem, repurchase, or otherwise acquire any shares of capital stock or other ownership interests of Wabtec or any of its subsidiaries, other than in connection with the cashless exercise of stock options and any other equity incentives;
- (i) issue, deliver or sell, or authorize the issuance, delivery or sale of, any shares of capital stock or other ownership interests of Wabtec or any of its subsidiaries, other than the issuance, delivery or sale of (A) any shares of Wabtec common stock upon the exercise or settlement of Wabtec stock awards that are outstanding on the date of the Merger Agreement in accordance with the terms of those Wabtec stock awards on the date of the Merger Agreement and (B) any shares of capital stock or other ownership interests of any subsidiary of Wabtec to Wabtec or any other subsidiary of Wabtec or (ii) amend any term of any shares of capital stock or other ownership interests of Wabtec or any of its subsidiaries;

- acquire (by merger, consolidation, acquisition of stock or assets or otherwise), directly or indirectly, any material amount of assets, securities, properties, interests or businesses, other than (i) pursuant to existing contracts or commitments, (ii) acquisitions of goods or services in the ordinary course of business or (iii) acquisitions of assets, securities, properties or interests in an amount unless it would reasonably be expected to result in Wabtec ceasing to be rated by at least two of the three ratings agencies (meaning Moody's Investors Service, Inc., Standard & Poor's Ratings Services and Fitch Ratings, Inc.) as investment grade (meaning a rating of Baa3 or better by Moody's Investors Service, Inc., a rating of BBB- or better by Standard & Poor's Ratings Services, and a rating of BBB- or better by Fitch Ratings, Inc.);

- sell, lease or otherwise transfer any of its assets, securities, properties, interests or businesses, other than (i) pursuant to existing contracts or commitments and (ii) sales of inventory or other assets in the ordinary course of business;
- make any material loans, advances or capital contributions to, or investments in, any other person to the extent that any such loan, advance, capital contribution or investment would reasonably be expected, in any material respect, to result in a delay in obtaining, or otherwise adversely affect the ability of the parties to obtain, any antitrust approval or consent necessary to consummate the transactions contemplated by the Merger Agreement;

TABLE OF CONTENTS

except as required by applicable law, the terms of a Wabtec employee benefit plan or collective bargaining or other labor agreement as in effect on the date of the Merger Agreement, (i) grant any material severance, retention or termination payment to, or enter into or materially amend any severance, retention, termination, employment, change in control or severance agreement with, any service provider of Wabtec who reports directly to the Chief Executive Officer of Wabtec, (ii) materially increase the compensation or benefits provided to any service provider of Wabtec who reports directly to the Chief Executive Officer of Wabtec, other than in the ordinary course of business, or (iii) grant any equity or equity-based awards to, or discretionarily accelerate the vesting or payment of any such awards held by, any service provider of Wabtec who reports directly to the Chief Executive Officer of Wabtec, other than in the ordinary course of business;

change its methods of accounting, except as required by concurrent changes in GAAP or in Regulation S-X of the Exchange Act;

other than in the ordinary course of business, (i) make any change (or file any such change) in any method of tax accounting or any annual tax accounting period, (ii) make, change or rescind any tax election, (iii) settle or compromise any tax liability or consent to any claim or assessment relating to taxes, (iv) file any amended tax return or claim for refund, (v) enter into any closing agreement relating to taxes, or (vi) waive or extend the statute of limitations in respect of taxes; in each case, to the extent that doing so would reasonably be expected to result in a material incremental cost to Wabtec, SpinCo or any of their respective subsidiaries;

settle, or offer or propose to settle any material claim, action or proceeding before a governmental authority involving or against Wabtec or any of its subsidiaries without first consulting with GE and giving due consideration to GE's views in respect of such settlement, other than, in the ordinary course of business;

fail to use reasonable best efforts to maintain (with insurance companies substantially as financially responsible as their existing insurers) insurance against at least such risks and losses as are consistent in all material respects with the past practice of the business of Wabtec and its subsidiaries; or

agree or commit to do any of the foregoing.

In addition, from the date of the Merger Agreement until the Distribution, Wabtec will, and will cause each of its subsidiaries to, (i) prepare and timely file all tax returns that it is required to file, (ii) timely pay all taxes (including withholding taxes) that it is required to pay, and (iii) promptly notify GE of any notice of any material claim, action or proceeding before a governmental authority in respect of any tax matters (or any significant developments with respect to ongoing claims, actions or proceedings before a governmental authority in respect of such tax matters).

Tax Matters

The Merger Agreement contains certain additional representations, warranties and covenants relating to the preservation of the tax-free status of the Distribution and the Merger to GE stockholders. Additional representations, warranties and covenants relating to the intended tax treatment of the Distribution, the Merger and the Direct Sale are contained in the Tax Matters Agreement. Indemnification for taxes generally is governed by the terms, provisions and procedures described in the Tax Matters Agreement. See Other Agreements—Tax Matters Agreement.

SEC Filings

GE, SpinCo, Wabtec and Merger Sub have agreed to prepare and file with the SEC appropriate documents, including (i) a proxy statement of Wabtec on Schedule 14A relating to the Wabtec stockholder approval required for the Share Issuance and the Wabtec Charter Amendment, (ii) a registration statement on Form S-4 to register under the Securities Act the shares of Wabtec common stock to be issued by Wabtec to SpinCo stockholders in connection with the Merger, (iii) a Schedule TO and any other filings pursuant to Rule 13e-4 under the Exchange Act, to the extent required, and (iv) such Form(s) as will be required under applicable SEC rules and regulations to register under the Securities Act or the Exchange Act, as applicable, the shares of SpinCo common stock to be distributed in the Distribution. GE, SpinCo, Wabtec and Merger Sub have also agreed to use reasonable best efforts to have the registration statements described above declared effective under the Securities Act or become effective under the

Exchange Act, as applicable, as promptly as practicable after such filings.

TABLE OF CONTENTS

Wabtec is required under the Merger Agreement to use reasonable best efforts to mail its proxy statement to its stockholders as promptly as practicable after the SEC clears that proxy statement.

Regulatory Matters

The Merger Agreement provides that each of GE, SpinCo and Wabtec will use reasonable best efforts to consummate the Transactions, including:

preparing and filing as promptly as practicable with any governmental authority or other third party all documentation to effect all necessary filings, notices, petitions, statements, registrations, submissions of information, applications and other documents; and

obtaining and maintaining all approvals, consents, registrations, permits, authorizations and other confirmations required to be obtained from any governmental authority or other third party that are necessary, proper or advisable to consummate the Transactions.

Each of GE, SpinCo and Wabtec has also agreed to (i) cooperate with each other party in determining whether any applications, notices, registrations and requests are required or advisable to be filed with any governmental authority in order to consummate the transactions contemplated the Merger Agreement; (ii) file, individually or jointly, as appropriate, such applications, notices, registrations and requests as may be required or advisable to be filed by it with any governmental authority in order to consummate the transactions contemplated by the Merger Agreement, including (A) an appropriate filing of a notification and report form or forms, as applicable, pursuant to the HSR Act with respect to the transactions contemplated by the Merger Agreement, as promptly as practicable and (B) any other filings and clearances or expiration of waiting periods required in order to consummate the transactions contemplated by the Merger Agreement, as promptly as practicable; and (iii) supply as promptly as practicable any additional information and documentary material that may be requested by any such governmental authority.

Subject to applicable law relating to the sharing of information, each of GE, SpinCo and Wabtec has also agreed to furnish the other party or parties, as applicable, with copies of all documents and correspondence (i) prepared by or on behalf of such party or parties for any governmental authority and affording the other party or parties, as applicable, opportunity to comment and participate in responding, where appropriate; and (ii) received by or on behalf of such party or parties from any governmental authority, in each case in connection with any such consent, authorization, order or approval; provided that materials may be redacted (A) to remove references concerning valuation of GE Transportation, the other businesses of GE or the business of Wabtec and its subsidiaries or (B) as necessary to address reasonable attorney-client or other privilege concerns. Each of GE, SpinCo and Wabtec has also agreed to consult with and keep the other parties informed as to the status of the matters described in this paragraph and the immediately preceding paragraph.

In addition, the parties to the Merger Agreement will share the right to control and direct the process by which the parties seek to obtain the approvals, consents, registrations, permits, authorizations and other confirmations contemplated by the Merger Agreement, except that, following consultation with, and after giving due consideration to the views of, GE, Wabtec, acting reasonably and in good faith, will have the right to determine the strategy and implementation of the strategy for obtaining any and all necessary antitrust consents or approvals. The Merger Agreement provides that the parties to the Merger Agreement are prohibited from meeting or engaging in material conversations with any governmental authority or representative of such governmental authority in connection with obtaining any such consent, authorization, order and approval unless, to the extent reasonably practicable, it consults with the other party in advance and, to the extent not precluded by applicable law or regulation, offers the other party the opportunity to participate in such meeting or conversation. Each party to the Merger Agreement has agreed that it will not and will cause its affiliates not to, take, refrain from taking or cause to be taken any action that it is aware or should reasonably be aware would have the effect of delaying, impairing or impeding the receipt of any consent, authorization, order or approval of any governmental authorities.

In addition, the Merger Agreement provides that, notwithstanding the above, Wabtec will not be required in connection with its efforts to obtain any antitrust consents or approvals, to (i) litigate, appeal any such litigation, or enter into any settlement, undertaking, consent decree, stipulation or agreement with any governmental authority in connection with the transactions contemplated by the Merger Agreement, or (ii) effect any disposition, licensing or holding separate of assets or lines of business or taking any other action (or otherwise

TABLE OF CONTENTS

agreeing to do any of the foregoing) with respect to any of its or any of its affiliates' business, assets or properties or GE Transportation in connection with its efforts to obtain any antitrust consents or approvals.

Finally, the Merger Agreement provides that, notwithstanding the above, neither GE nor SpinCo will be required, in connection with its efforts to obtain any antitrust consents or approvals, to (x) litigate, appeal any such litigation, or enter into any settlement, undertaking, consent decree, stipulation or agreement with any governmental authority in connection with the transactions contemplated by the Merger Agreement, except that Wabtec and SpinCo will be required to litigate, or appeal any such litigation, to the extent reasonably directed to do so by Wabtec in the exercise of its authority to determine and implement the strategy for obtaining any and all necessary antitrust consents or approvals following consultation with, and after giving due consideration to the views of, GE as described above, (y) effect any disposition, licensing or holding separate of assets or lines of business or taking any other action (or otherwise agreeing to do any of the foregoing) with respect to any of its or any of its affiliates' business, assets or properties other than GE Transportation as set forth in the following clause, or (z) effect any disposition, licensing or holding separate of assets or lines of business or taking any other action (or otherwise agreeing to do any of the foregoing) with respect to GE Transportation that is not in any such case conditioned on the occurrence of the closing of the Merger.

No Solicitation

The Merger Agreement contains detailed provisions restricting GE's ability to seek certain alternative transactions with respect to GE Transportation and restricting Wabtec's ability to seek certain alternative transactions.

GE has agreed, from and after the date of the Merger Agreement through the nine-month anniversary of the date of the Merger Agreement, that it and its subsidiaries will not, and it and its subsidiaries will not authorize its or their officers, directors, employees, investment bankers, attorneys, accountants, consultants or other agents or advisors (each a representative) to:

- solicit, initiate or take any action to knowingly facilitate or encourage the submission of any Competing SpinCo Transaction (as defined below);
- enter into or participate in any discussions or negotiations with, furnish any information relating to GE Transportation or afford access to the business, properties, assets, books or records of GE Transportation to, otherwise cooperate in any way with, or knowingly assist, participate in, facilitate or encourage any effort by any third party that has made, is seeking to make or would reasonably be expected to make, a Competing SpinCo Transaction;
- approve, recommend or consummate any Competing SpinCo Transaction; or
- enter into any agreement in principle, letter of intent, term sheet, merger agreement, acquisition agreement, option agreement or other similar instrument relating to a Competing SpinCo Transaction.

In addition, GE agreed that it will, and will cause its subsidiaries to, and will instruct its representatives to, immediately cease and cause to be terminated all existing discussions or negotiations with any third party and its representatives conducted prior to the execution of the Merger Agreement with respect to any Competing SpinCo Transaction.

In addition, from and after the date of the Merger Agreement through the nine-month anniversary of the date of the Merger Agreement, (i) GE agreed that it will not, and will cause its subsidiaries not to, and it will instruct its representatives not to, release any third party from, or waive any provision of, any confidentiality or, subject to applicable duties of its directors under applicable law, standstill agreement to which it or one of its Affiliates is a party in connection with a Competing SpinCo Transaction and (ii) GE agreed to reasonably promptly (and in any event no later than the next business day) notify (orally and in writing) Wabtec after it or any of its representatives receives any proposal, inquiry, offer or request (or any amendment thereto) with respect to a Competing SpinCo Transaction, including in connection therewith any request for discussions or negotiations and any request for information relating

to GE or any of its affiliates with respect to GE Transportation, or for access to the business, properties, assets, books or records of GE or any of its affiliates with respect to GE Transportation. The receipt by GE of a proposal in respect of a Competing SpinCo Transaction will not in any way or manner alter its or SpinCo's obligations under the Transaction Documents.

The Merger Agreement provides that the term "Competing SpinCo Transaction" means any transaction or series of related transactions with a third party (other than the Transactions and asset sales and transfers not in violation

TABLE OF CONTENTS

of the interim operating covenants described above under —Conduct of Business Pending the Merger) that constitutes a merger, consolidation, share exchange, business combination, acquisition, sale, transfer or other disposition, in each case, of 20% or more of GE Transportation, except that that a Competing SpinCo Transaction will not be deemed to include: (i) a public offering, spin-off or split-off of GE Transportation (including an acquisition of shares by an investor or sponsor in connection therewith) if no third party obtains beneficial ownership of 50% or more of the shares of SpinCo common stock in connection therewith or (ii) any transaction or series of related transactions with a third party that includes the sale, transfer or other disposition of businesses or assets (or interests therein) in addition to GE Transportation if the aggregate revenues attributable to such other businesses and/or assets during the calendar year ended December 31, 2017 (as such revenues would be measured in accordance with GAAP, applied in a manner consistent with the audited financial statements of GE for such calendar year) were greater than the revenues of GE Transportation for such calendar year (as such revenues are reflected in the audited financial statements of GE Transportation).

Wabtec has agreed that it and its subsidiaries will not, and it and its subsidiaries will not authorize its or their representatives to:

- solicit, initiate or take any action to knowingly facilitate or encourage the submission of any Acquisition Proposal (as defined below);

- enter into or participate in any discussions or negotiations with, furnish any information relating to Wabtec or any of its subsidiaries or afford access to the business, properties, assets, books or records of Wabtec or any of its subsidiaries, otherwise cooperate in any way with, or knowingly assist, participate in, facilitate or encourage any effort by any third party that has made, is seeking to make or would reasonably be expected to make, an Acquisition Proposal;

- make an Adverse Recommendation Change (as defined below under —Board Recommendation);

- either fail to enforce, or grant any waiver or release under, any standstill or similar agreement with respect to any class of equity securities of Wabtec or any of its subsidiaries unless the Wabtec Board determines, after consultation with outside legal counsel, that the failure to take such action would be inconsistent with its fiduciary duties under the DGCL;

- approve any transaction under, or any person becoming an interested stockholder under, Section 203 of the DGCL; or

- enter into any agreement in principle, letter of intent, term sheet, merger agreement, acquisition agreement, option agreement or other similar instrument relating to an Acquisition Proposal or consummate any Acquisition Proposal.

In addition, Wabtec agreed that it will, and will cause its subsidiaries and its and their representatives to immediately cease and cause to be terminated any and all existing activities, discussions or negotiations, if any, with any third party and its representatives conducted prior to the date of the Merger Agreement with respect to any Acquisition Proposal and will use its reasonable best efforts to cause any such third party (together with its representatives) that has executed a confidentiality agreement within the 12-month period prior to the date of the Merger Agreement and that is in possession of confidential information furnished by or on behalf of Wabtec or any of its subsidiaries before the date of the Merger Agreement (and all analyses and other materials prepared by or on behalf of such person that contains, reflects or analyzes that information) to return or destroy all such information as promptly as practicable. Wabtec also represents and warrants to GE that, during the 12-month period prior to the date of the Merger Agreement, neither it nor any of its subsidiaries has granted any waiver or release under any standstill or similar agreement with respect to any class of equity securities of Wabtec or any of its subsidiaries.

TABLE OF CONTENTS

Notwithstanding the covenants described in the foregoing paragraphs in this section, at any time prior to the receipt of the approval of Wabtec stockholders for the Share Issuance and the Wabtec Charter Amendment, Wabtec may, directly or indirectly through its representatives, furnish information to, and engage in negotiations or discussions with, a third party (and its representatives) who has made a bona fide written Acquisition Proposal that did not result from a breach of the Merger Agreement by Wabtec if, prior to furnishing such information and engaging in such negotiations and discussions, the Wabtec Board has:

reasonably determined that the Acquisition Proposal constitutes, or is reasonably expected to lead to, a Superior Proposal (which is described below), and has determined (after consulting with outside legal counsel and its financial advisor) that the failure to take such action would be inconsistent with its fiduciary duties under the DGCL; obtained from such third party a confidentiality agreement on terms no less favorable to Wabtec than those contained in Wabtec's confidentiality agreement with GE and that include standstill obligations that Wabtec reasonably determines are customary and expressly allow Wabtec to comply with its obligations described in this section and delivered to GE a copy of the confidentiality agreement for informational purposes only; and provided or made available to GE all such information (to the extent that such information has not been previously provided or made available to GE) prior to or substantially concurrently with the time it is provided or made available to such third party.

Moreover, the Merger Agreement requires Wabtec to:

advise GE on a prompt basis of the status and terms of any discussions and negotiations described in the preceding paragraph with any third party;
notify (orally and in writing) GE promptly (but in no event later than the next business day) after receipt by Wabtec (or any of its representatives) of any Acquisition Proposal or any request for information relating to Wabtec or any of its subsidiaries or for access to the business, properties, assets, books or records of Wabtec or any of its subsidiaries by any third party that has made, is seeking to make or would reasonably be expected to make, an Acquisition Proposal, which notice must identify the third party making, and the terms and conditions of, any such Acquisition Proposal, indication or request;
keep GE reasonably informed, on a prompt basis, of the status and details of any such Acquisition Proposal, indication or request; and
promptly (but in no event later than the next business day after receipt) provide to GE copies of all correspondence and written materials sent or provided to Wabtec or any of its subsidiaries or any of its or their representatives that describes any material terms or conditions of any Acquisition Proposal (as well as written summaries of any oral communications addressing such matters).

The Merger Agreement provides that the term Acquisition Proposal means (other than the transactions contemplated by the Merger Agreement) any offer or proposal relating to, or any third party indication of interest in:

any acquisition or purchase, direct or indirect, of 20% or more of the consolidated assets of Wabtec and its subsidiaries or 20% or more of any class of equity or voting securities of Wabtec or one or more of its subsidiaries whose assets, individually or in the aggregate, constitute 20% or more of the consolidated assets of Wabtec;
any tender offer (including a self-tender offer) or exchange offer that, if consummated, would result in such third party's beneficially owning 20% or more of any class of equity or voting securities of Wabtec or one or more of its subsidiaries whose assets, individually or in the aggregate, constitute 20% or more of the consolidated assets of Wabtec;
a merger, consolidation, share exchange, business combination, sale of substantially all the assets, reorganization, recapitalization, liquidation, dissolution or other similar transaction involving Wabtec or one or more of its subsidiaries whose assets, individually or in the aggregate, constitute 20% or more of the consolidated assets of Wabtec; or
any combination of the foregoing.

TABLE OF CONTENTS

The Merger Agreement provides that the term **Superior Proposal** means an unsolicited written Acquisition Proposal for a majority of the outstanding shares of Wabtec common stock or a majority of the consolidated assets of Wabtec and its subsidiaries on terms that the Wabtec Board determines by a majority vote, after considering the advice of a financial advisor and outside legal counsel and taking into account all the terms and conditions of the Acquisition Proposal, including any break-up fees, expense reimbursement provisions and conditions to consummation (and expected timing of consummation relative to the transactions contemplated by the Merger Agreement), are more favorable to Wabtec stockholders than as provided under the Merger Agreement (taking into account any proposal by GE to amend the terms of the Merger Agreement in response to such Acquisition Proposal), which the Wabtec Board determines is reasonably likely to be consummated and for which financing, if a cash transaction (whether in whole or in part), is then fully committed or reasonably determined to be available by the Wabtec Board.

Board Recommendation

Wabtec has agreed in the Merger Agreement that the Wabtec Board will not:

- either fail to make, or withdraw or modify in a manner adverse to GE or SpinCo, the Wabtec Board's recommendation that Wabtec stockholders vote in favor of the Share Issuance and the Wabtec Charter Amendment (the **Wabtec Recommendation**);
- fail to recommend against acceptance of any tender or exchange offer for Wabtec common stock within 10 business days after the commencement of such offer; or
- approve, resolve to approve, adopt or recommend, or propose publicly to approve, resolve to approve, adopt or recommend, any Acquisition Proposal.

Any of the actions described in the foregoing bullet points constitutes an **Adverse Recommendation Change**.

In addition, notwithstanding the restrictions described above, at any time prior to obtaining Wabtec stockholder approval of the Share Issuance and the Wabtec Charter Amendment, the Wabtec Board may make an **Adverse Recommendation Change** following receipt of a **Superior Proposal** or in response to an **Intervening Event** (as defined below), but only if:

- the Wabtec Board has determined (after consulting with outside legal counsel and its financial advisor) that failure to make an **Adverse Recommendation Change** with respect to the **Superior Proposal** or **Intervening Event**, as applicable, would be inconsistent with its fiduciary duties under the DGCL;

- such Acquisition Proposal constitutes a **Superior Proposal** (if such **Adverse Recommendation Change** is to be taken in circumstances involving or relating to an Acquisition Proposal);

- Wabtec promptly provides written notice to GE at least five business days before taking such action of its intention to do so, containing (i) in the case of any action intended to be taken in circumstances involving an Acquisition Proposal, the material terms of such Acquisition Proposal, including the most current version of the proposed agreement under which such Acquisition Proposal is proposed to be consummated and the identity of the third party making the Acquisition Proposal or (ii) in the case of any action to be taken in circumstances where there has been an **Intervening Event**, a reasonably detailed description of the underlying facts giving rise to, and the reasons for taking, such action;

- GE does not make, within five business days after its receipt of the notice described in the third bullet point of this paragraph, an offer that (i) in the case of any action intended to be taken in circumstances involving an Acquisition Proposal, is at least as favorable to the Wabtec stockholders as such Acquisition Proposal or (ii) in the case of any action to be taken in circumstances where there has been an **Intervening Event**, obviates the need for taking such action;

- during the five business day period following delivery of the notice described in the third bullet point of this paragraph (and three business day period in respect of a subsequent revised Acquisition Proposal described in the following bullet point), Wabtec and its representatives negotiate in good faith with GE and its representatives

regarding any revisions proposed by GE to the terms of the transactions contemplated by the Merger Agreement; and

TABLE OF CONTENTS

if there is any amendment to the financial or other material terms of the Acquisition Proposal during the five business day period following delivery of the notice described in the third bullet point of this paragraph, Wabtec provides a new written notice of the terms of such amended Acquisition Proposal giving GE an additional three business day period to make an offer or proposal to revise the terms of the Merger Agreement in a manner that the Wabtec Board determines to be at least as favorable to Wabtec stockholders as such amended Acquisition Proposal.

The Merger Agreement provides that the term Intervening Event means material events or changes in circumstances the existence or consequences of which were not known to, or reasonably foreseeable by, Wabtec as of or prior to the date of the Merger Agreement and that do not relate to or involve any Acquisition Proposal, except that in no event will any changes resulting from the following constitute or be deemed to contribute to or otherwise be taken into account in determining whether there has been an Intervening Event:

- changes (or proposed changes) in GAAP, the regulatory accounting requirements applicable to any industry in which GE, SpinCo or any of their respective subsidiaries operate or applicable law, in each case to the extent affecting GE Transportation;

- changes in the financial, credit or securities markets (including changes in prevailing interest rates, credit availability and liquidity, currency exchange rates, price levels or trading volumes in any securities market) or general economic or political conditions, in each case to the extent affecting GE Transportation;

- changes or conditions generally affecting the industry or segments thereof in which GE, SpinCo or any of their respective subsidiaries operate, in each case to the extent affecting GE Transportation;

- acts of war, sabotage or terrorism or natural disasters, in each case to the extent affecting GE Transportation;

- the announcement of the Transactions or the identity of GE or Wabtec, including, in each case, with respect to employees, customers, distributors, suppliers, financing sources, landlords, licensors and licensees;

- any failure by Wabtec or any of its subsidiaries, GE or any of its subsidiaries or GE Transportation to meet any internal or published budgets, projections, forecasts or predictions of financial performance for any period or any change in GE or Wabtec's stock price or trading volume (except that the underlying cause of, or factors contributing to, such failure or change may be taken into account in determining whether there has been an Intervening Event, unless such underlying cause or factor would otherwise be excepted by another bullet point of this paragraph);

- actions required or expressly contemplated by the Merger Agreement to be taken by Wabtec, Merger Sub, GE, SpinCo or any of their respective affiliates;

- actions taken by GE, SpinCo or any of their respective affiliates at the written direction, or with the written consent, of Wabtec; or

- any stockholder or derivative litigation arising from or relating to the Merger Agreement or the Transactions.

In addition, the Merger Agreement provides that Wabtec is not prohibited from complying with Rule 14e-2(a) promulgated under the Exchange Act with regard to an Acquisition Proposal so long as any action taken or statement made to so comply is not in breach of the Merger Agreement; provided that any such action taken or statement made that relates to an Acquisition Proposal will be deemed to be an Adverse Recommendation Change unless the Wabtec Board reaffirms the Wabtec Recommendation in such statement or in connection with such action.

Financing

Simultaneously with the execution of the Merger Agreement, Wabtec entered into the Commitment Letter, as described in the section of this prospectus-information statement entitled Debt Financing.

The Merger Agreement provides that Wabtec will, and will cause its subsidiaries to, use reasonable best efforts to take all actions necessary, proper or advisable to arrange the debt financing as promptly as practicable prior to

TABLE OF CONTENTS

the closing of the Merger on the terms and conditions set forth in the Commitment Letter. Furthermore, Wabtec is required to, and to cause its subsidiaries to, use reasonable best efforts to:

- maintain the Commitment Letter in effect until the earlier of the initial funding of the debt financing or the effectiveness of definitive agreements with respect thereto;
- negotiate definitive agreements with respect to the debt financing, on the terms and conditions contained in the Commitment Letter or on such other terms that would not be prohibited by the Merger Agreement, and upon effectiveness thereof, maintain such definitive agreements in effect until the initial funding of the debt financing;
- comply with the obligations that are set forth in the Commitment Letter that are applicable to Wabtec or any of its subsidiaries and satisfy on a timely basis all conditions precedent to the availability of the debt financing set forth in the Commitment Letter and the definitive agreements for the debt financing (upon the effectiveness thereof) that are within its control; and
- fully enforce the rights of Wabtec under the Commitment Letter and the definitive agreements for the debt financing (upon the effectiveness thereof).

The Merger Agreement provides that if all or any portion of the financing contemplated by the Commitment Letter or the related definitive agreements becomes unavailable or it becomes reasonably likely that it may become unavailable (in each case, other than as a result of the existence of Wabtec financing (as described below)), on the terms and conditions contemplated in the Commitment Letter or such definitive agreements, Wabtec will, and will cause its subsidiaries to, use reasonable best efforts to obtain promptly alternative financing, from the same or alternative financing sources, that is sufficient to finance the payments to be made to GE under the Separation Agreement and the Merger Agreement on terms that (x) do not contain conditions precedent to the funding that are less favorable to Wabtec than those in the Commitment Letter, (y) are consistent with the intended tax treatment of the Transactions, as reasonably determined by GE, and (z) have been approved in writing by GE (which approval will not be unreasonably withheld, conditioned or delayed). Wabtec will be subject to the same obligations described in this section with respect to any such alternative financing arrangements.

Wabtec has agreed to keep GE informed of the status of its efforts to arrange the debt financing contemplated under the Commitment Letter and to provide GE prompt notice if it or any of its subsidiaries obtain knowledge of any material breach (or threatened material breach) or default (or any event or circumstance that, with or without notice, lapse of time or both, could reasonably be expected to give rise to any material breach or default) by any party to the Commitment Letter or the related definitive agreements, any actual or threatened withdrawal, repudiation or termination of the financing contemplated by the Commitment Letter by any of the lenders, any material dispute or disagreement between or among any of the parties to the Commitment Letter or the related definitive agreements relating to, or otherwise potentially affecting, the amount or the availability of the financing contemplated by the Commitment Letter on the closing date of the Merger or satisfaction of the conditions thereunder; and any amendment or modification of, or waiver under, the Commitment Letter or the related definitive agreements. Wabtec will give GE prompt written notice if for any reason it believes in good faith that Wabtec will not be able to timely obtain all or any portion of the financing contemplated by the Commitment Letter on the terms and in the manner or from the sources contemplated by the Commitment Letter or the related definitive agreements (other than as a result of Wabtec financing (as described below)).

Except in limited circumstances, Wabtec may not, without GE's consent, amend, modify, supplement, restate, substitute, replace, terminate, or agree to any waiver under the Commitment Letter in a manner that adds new or expands upon the conditions precedent to the funding or that would reduce the aggregate amount of the financing provided for under the Commitment Letter, limit the rights and remedies of Wabtec as against the lenders party to the debt financing contemplated under the Commitment Letter or otherwise prevent, impair or materially delay the consummation of the Transactions. Notwithstanding the foregoing, Wabtec may implement or exercise any of the market flex provisions exercised by such lenders in accordance with the fee letters relating to the debt financing that were entered into concurrently with the Merger Agreement (or, in respect of any alternative financing, in accordance

with the market flex provisions exercised by the lenders in accordance with any fee letter relating thereto), and additional lenders and financing sources, and affiliates thereof, may be added

TABLE OF CONTENTS

(including in replacement of a lender) to the Commitment Letter (or all or a portion of the commitments may be assigned to new or existing lenders and financing sources) after the date of the Merger Agreement or the date of the Commitment Letter and Wabtec may reallocate commitments or assign or re-assign titles and roles to or among parties to the Commitment Letter.

Notwithstanding anything in the Merger Agreement, Wabtec has the right (i) to substitute for all or any portion of the financing contemplated by the Commitment Letter by reducing commitments under the Commitment Letter by an amount not in excess of the proceeds of consummated equity offerings or debt offerings or incurrences of debt provided that (A) if any such equity or debt has a scheduled special or mandatory redemption right, such right is not exercisable prior to the earliest of the closing or termination of the Merger Agreement and the End Date (as defined below under —Termination) and (B) the conditions to the use of such proceeds are no more restrictive than the conditions precedent to the availability of the financing set forth in the Commitment Letter, and (ii) to substitute commitments in respect of other financing for all or any portion of the financing contemplated by the Commitment Letter from the same or alternative bona fide third party financing sources, provided that such other financing (A) does not contain conditions precedent to the funding thereof that are less favorable to Wabtec than the conditions precedent with respect to funding set forth in the Commitment Letter, (B) would not reasonably be expected to prevent, impair or materially delay the consummation of the transactions contemplated by the Transaction Documents (including not having conditions to the use of such proceeds more restrictive than the conditions set forth in the Wabtec Commitment) and (C) would not adversely affect the ability of Wabtec to enforce its rights against other parties to the Commitment Letter or any related definitive agreements (any such financing pursuant to the foregoing clauses (i) and (ii), the Wabtec financing). Wabtec also agreed to hold the proceeds from any such Wabtec financing as unrestricted cash until the earliest of the closing or termination of the Merger Agreement and the End Date (as described under —Termination).

Prior to the closing of the Merger, GE has agreed to, and to cause its subsidiaries to, at Wabtec's expense, use reasonable best efforts to provide the cooperation reasonably requested by Wabtec that is necessary, proper or customary in connection with the arrangement and consummation of the debt financing or the Wabtec financing, including taking certain actions set forth in the relevant section of the Merger Agreement.

Certain Other Covenants and Agreements

The Merger Agreement contains certain other covenants and agreements, including covenants (with certain exceptions specified in the Merger Agreement) relating to:

each party's obligation to (i) give to the other party and its authorized representatives reasonable access to the personnel, offices, properties, books and records of Wabtec or GE Transportation, as applicable, (ii) furnish to the other party and its authorized representatives such financial and operating data and other information relating to Wabtec or GE Transportation, as applicable as such persons may reasonably request, and (iii) instruct its employees, counsel, financial advisors, auditors and other authorized representatives to cooperate with the other party in its investigation of Wabtec or GE Transportation, as applicable.

preservation of the indemnification provisions in the certificate of incorporation and bylaws of SpinCo with respect to directors, officers, employees or agents of SpinCo;

the obligations of Wabtec to obtain the release of GE from certain contracts, instruments or other arrangements to the extent relating to GE Transportation and for which GE or any of its subsidiaries other than the Transferred Subsidiaries is a guarantor or person required to provide financial support, including by substituting Wabtec or one of its subsidiaries for the GE entity that is a party to the contract, instrument or arrangement;

the obligations of GE and Wabtec to take all actions necessary to cause SpinCo and Merger Sub, as applicable, to perform their obligations under the Merger Agreement and to consummate the Merger on the terms and conditions set forth in the Merger Agreement;

• an acknowledgement that Wabtec, GE, SpinCo and Merger Sub exercise complete control and supervision over their respective operations prior to the consummation of the Merger;

• the listing of the shares of Wabtec common stock to be issued as part of the merger consideration in the Merger on the NYSE;

TABLE OF CONTENTS

steps required to cause any disposition of shares of SpinCo common stock or acquisitions of Wabtec common stock resulting from the Transactions by each officer or director who is subject to the reporting requirements of Section 16(a) of the Exchange Act with respect to Wabtec or SpinCo to be exempt under Rule 16b-3 promulgated under the Exchange Act;

• confidentiality obligations of GE and Wabtec;

• each party's obligation to take appropriate actions, and to assist and cooperate with the other parties, to do all things necessary, proper or advisable under applicable law to execute and deliver the Additional Agreements and any other documents as may be required to carry out the provisions of the Merger Agreement and to consummate the Transactions; and

• GE's obligation to provide to Wabtec audited financial statements and interim financial statements of GE Transportation.

Conditions to the Merger

The obligations of Wabtec, GE, Merger Sub and SpinCo to consummate the Merger are subject to the satisfaction (or, to the extent permitted by applicable law, waiver by Wabtec and GE) of the following conditions:

• the Internal Reorganization, the Direct Sale and the Distribution will have been consummated in all material respects in accordance with the Separation Agreement;

• specified required filings with the SEC will have become effective under the Securities Act or the Exchange Act, as applicable, and will not be the subject of any stop order or any litigation, suit, proceeding or action before the SEC seeking a stop order;

• the shares of Wabtec common stock to be issued in the Merger will have been approved for listing on the NYSE;

• the approval by Wabtec stockholders of the Share Issuance and Wabtec Charter Amendment will have been obtained;

• all waiting periods under the HSR Act relating to the Merger will have been terminated or expired and all other

• material governmental approvals required to consummate the closing of the Merger will have been obtained,

including the antitrust approvals in specified agreed-upon jurisdictions; and

• no court of competent jurisdiction or other governmental authority will have enacted or issued any applicable law that

is still in effect restraining, enjoining or prohibiting the Internal Reorganization, the Direct Sale, the Distribution or the Merger.

The conditions listed above are referred to as the Joint Conditions to the Merger.

The obligations of Wabtec and Merger Sub to effect the Merger are subject to the satisfaction (or, to the extent permitted by applicable law, waiver by Wabtec) of the following additional conditions:

• each of GE and SpinCo will have performed in all material respects all of its obligations under the Merger Agreement required to be performed by it prior to the effective time of the Merger;

• the representations and warranties of GE with respect to corporate existence and power, corporate authorization, capitalization and brokers' fees (disregarding all materiality, material adverse effect and similar qualifications

contained in such representations and warranties) will be true in all material respects at and as of the effective time of the Merger as if made at and as of such time (other than such representations and warranties that by their terms address matters only as of another specified time, which will be true in all material respects only as of such time);

• the other representations and warranties of GE (disregarding all materiality, material adverse effect and similar qualifications contained in such representations and warranties) will be true at and as of the effective time of the

Merger as if made at and as of such time (other than representations and warranties that by their terms address matters only as of another specified time, which will be true only as of such time), with only such exceptions as have not had

and would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on GE

Transportation (as discussed above under —Representations and Warranties);

TABLE OF CONTENTS

Wabtec will have received a certificate signed by an executive officer of GE to the effect that each of the conditions specified in the first three bullet points above have been satisfied;

- Wabtec will have received the Wabtec Tax Opinion, which will not have been withdrawn or modified in any material respect, and copies of the GE Tax Opinions;

GE and SpinCo (or a subsidiary thereof) will have entered into each applicable Additional Agreement and each such agreement will be in full force and effect;

since the date of the Merger Agreement, no event, change, effect, development or occurrence will have occurred that has had or would reasonably be expected to have, individually or in the aggregate, a material adverse effect on GE Transportation (as discussed above under —Representations and Warranties); and

GE will have delivered to Wabtec the audited financial statements of GE Transportation and such audited financial statements will not differ from the applicable unaudited financial statements of GE Transportation that GE delivered to Wabtec prior to the date of the Merger Agreement in a manner that is material to the intrinsic value (determined in a manner consistent with appropriate valuation methodologies) of GE Transportation in a manner that is adverse (excluding any differences resulting from (x) any changes in the amount of goodwill or intangible assets and (y) certain other matters specifically agreed upon by the parties), except that Wabtec will be deemed to have irrevocably waived the condition set forth in this bullet point if it does not exercise its right to terminate the Merger Agreement within 20 business days following GE's delivery of audited financial statements of GE Transportation.

All of the foregoing bullet points are referred to as Wabtec Conditions to the Merger. The first four bullet points listed above are referred to as the Additional Conditions to the Merger for Wabtec's Benefit. The eighth bullet point listed above is referred to as the Financial Statement Condition for Wabtec's Benefit.

GE's and SpinCo's obligations to effect the Merger are subject to the satisfaction (or, to the extent permitted by applicable law, waiver by GE) of the following additional conditions:

each of Wabtec and Merger Sub will have performed in all material respects all of its obligations under the Merger Agreement required to be performed by it prior to the effective time of the Merger, the representations and warranties of Wabtec with respect to corporate existence and power, corporate authorization, capitalization, brokers' fees and no shareholders rights plans or antitakeover laws (disregarding all materiality, material adverse effect and similar qualifications contained in such representations and warranties) will be true in all material respects at and as of the effective time of the Merger as if made at and as of such time (other than such representations and warranties that by their terms address matters only as of another specified time, which will be true in all material respects only as of such time);

the other representations and warranties of Wabtec and Merger Sub contained in the Merger Agreement (disregarding all materiality, material adverse effect and similar qualifications contained in such representations and warranties) will be true at and as of the effective time of the Merger as if made at and as of such time (other than representations and warranties that by their terms address matters only as of another specified time, which will be true only as of such time), with only such exceptions as have not had and would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on Wabtec (as discussed above under —Representations and Warranties);

GE will have received a certificate signed by an executive officer of Wabtec to the effect that each of the conditions specified in the first three bullet points above have been satisfied;

GE will have received the GE Tax Opinions, which will not have been withdrawn or modified in any material respect, and a copy of the Wabtec Tax Opinion;

Wabtec (or a subsidiary thereof) will have entered into each applicable Additional Agreement and each such agreement will be in full force and effect;

TABLE OF CONTENTS

since the date of the Merger Agreement, no event, change, effect, development or occurrence will have occurred that has had or would reasonably be expected to have, individually or in the aggregate, a material adverse effect on Wabtec (as discussed above under —Representations and Warranties); and

GE will have received the Direct Sale Purchase Price.

The first four bullet points listed above are referred to as the Additional Conditions to the Merger for GE's Benefit.

Termination

The Merger Agreement may be terminated and the Transactions may be abandoned at any time prior to the consummation of the Merger by the mutual written agreement of GE and Wabtec. In addition, subject to specified qualifications and exceptions, either GE or Wabtec may terminate the Merger Agreement and abandon the Transactions at any time prior to the consummation of the Merger:

if the Merger has not been consummated by May 20, 2019 (such date, as it may be extended as described below, the

End Date), unless, as of May 15, 2019, the only conditions to the consummation of the Merger that have not been satisfied or waived are the conditions relating to the HSR Act and other material governmental approvals required with respect to the Transaction and the absence of any laws or governmental orders prohibiting the Transactions relating to the foregoing and certain conditions that certain of the Transactions have been consummated, in which case either party may elect to extend the End Date from May 20, 2019 to August 20, 2019, except that this right to terminate will not be available to (x) any party whose breach of any provision of the Merger Agreement results in the failure of the closing of the Merger to have occurred by the End Date or (y) Wabtec at a time when the GE is permitted to proceed with a Termination for Failure to Pay Direct Sale Purchase Price (as described below); if any governmental authority has issued any final and nonappealable order, decree or judgment permanently restraining, enjoining or otherwise prohibiting the Transactions, except that this right will not be available to any party whose breach of the Merger Agreement results in the imposition of any such order, decree or judgment; or if Wabtec stockholders fail to approve the Share Issuance and the Wabtec Charter Amendment at the meeting of Wabtec stockholders (including any adjournment, continuation or postponement of such meeting), except that this right will not be available to Wabtec if Wabtec has not complied with its obligations described above in —No Solicitation and —Board Recommendation .

In addition, subject to specified qualifications and exceptions, Wabtec may terminate the Merger Agreement if:

a breach of any representation or warranty or failure to perform any covenant or agreement on the part of GE or SpinCo set forth in the Merger Agreement will have occurred that would cause the Additional Conditions to the Merger for Wabtec's Benefit not to be satisfied, and such breach or failure to perform (i) is incapable of being cured by the End Date or (ii) has not been cured by GE or SpinCo within 45 days following written notice to GE from Wabtec of such breach or failure to perform and Wabtec's intent to terminate the Merger Agreement or the Financial Statement Condition for Wabtec's Benefit is not satisfied upon the delivery to Wabtec of the audited financial statements of GE Transportation and Wabtec exercises its right of termination within 20 business days of such delivery.

In addition, subject to specified qualifications and exceptions, GE may terminate the Merger Agreement and abandon the Transactions if:

a breach of any representation or warranty or failure to perform any covenant or agreement on the part of Wabtec or Merger Sub set forth in the Merger Agreement will have occurred that would cause the Additional Conditions to the Merger for GE's Benefit not to be satisfied, and such breach or failure to perform (i) is incapable of being cured by the End Date or (ii) has not been cured by Wabtec or Merger Sub within 45 days following written notice to Wabtec from GE of such breach or failure to perform and GE's intent to terminate the Merger Agreement (a termination pursuant to this provision, a Termination for Wabtec's Material Breach);

TABLE OF CONTENTS

an Adverse Recommendation Change has occurred, or at any time after receipt or public announcement of an Acquisition Proposal, the Wabtec Board has failed to reaffirm the Wabtec Board Recommendation as promptly as reasonably practicable (but in any event within five business days) after receipt of any written request to do so from GE;

Wabtec has failed to comply with its obligations under the Merger Agreement relating to the meeting of Wabtec stockholders, the solicitation of alternative transactions or the content of the proxy statement and registration statements, except for de minimis breaches with respect to these obligations that are promptly cured, if such breach is curable;

all of the Joint Conditions to the Merger and Wabtec Conditions to the Merger have been satisfied (other than (i) the condition that the Internal Reorganization, the Direct Sale and the Distribution will have been consummated in all material respects in accordance with the Separation Agreement and (ii) those conditions which by their terms or nature are to be satisfied at the closing of the Merger), GE has given written notice to Wabtec that it is prepared to consummate the Internal Reorganization, the Distribution and the closing of the Merger if the Direct Sale occurs and the Direct Sale does not occur within two business days of such written notice as a result of Direct Sale Purchaser's failure to pay the Direct Sale Purchase Price (a termination pursuant to this provision, a Termination for Failure to Pay Direct Sale Purchase Price); or

any Governmental Authority has issued any order, decree or judgment in respect of any governmental approvals required to consummate the Merger, including under the HSR Act or other antitrust laws, restraining, enjoining or otherwise prohibiting any of the Transactions which order, decree or judgment has not become final and non-appealable and Wabtec has not, within 30 days of such order, decree or judgment first being in effect, instituted appropriate proceedings seeking to, or thereafter has not been using reasonable best efforts to, have such order, decree or judgment vacated, lifted, reversed, overturned or terminated.

If the Merger Agreement is validly terminated, the Merger Agreement will terminate without any liability on the part of any party or their respective representatives except as described below in the section of this prospectus-information statement entitled —Termination Fee and Expenses, except that the provisions of the Merger Agreement relating to confidentiality, the effect of termination of the Merger Agreement, reimbursement, fees and expenses and certain of the general provisions of the Merger Agreement will survive any termination and remain in full force and effect and no party will be relieved from liability for any willful and material breach prior to such termination. In addition, if there is a Termination for Failure to Pay Direct Sale Purchase Price, Wabtec will be deemed to have willfully and materially breached its obligations to consummate the closing of the Merger.

Termination Fee and Expenses

The Merger Agreement provides that, upon termination of the Merger Agreement under specified circumstances, a termination fee of \$300 million is payable by Wabtec to GE. The circumstances under which this termination fee is payable include:

if GE terminates the Merger Agreement due to (i) an Adverse Recommendation Change or a failure by the Wabtec Board to reaffirm the Wabtec Board Recommendation, (ii) Wabtec's failure to include the Wabtec Recommendation in the Wabtec proxy statement, or (iii) Wabtec's failure to comply with its obligations under the Merger Agreement relating to the meeting of Wabtec stockholders or the non-solicitation of alternative transactions;

if (i) Wabtec or GE terminates the Merger Agreement because the Merger has not been consummated by the End Date (if the Wabtec stockholder approval of the Share Issuance and Wabtec Charter Amendment has not been received) or the Wabtec stockholders fail to approve the Share Issuance or the Wabtec Charter Amendment or there is a Termination for Wabtec's Material Breach, (ii) prior to the termination of the Merger Agreement, an Acquisition Proposal is publicly announced or otherwise has been communicated to the Wabtec Board or the management of Wabtec or Wabtec stockholders, and (iii) within 12 months after the date of termination, Wabtec enters into a definitive agreement with respect to, or recommends to its stockholders, any Acquisition Proposal or any Acquisition Proposal has been consummated; provided that solely for purpose of this provision, references to 20% in the

definition of Acquisition Proposal will be deemed to refer to 50% ;

102

TABLE OF CONTENTS

if Wabtec or GE terminates the Merger Agreement because (i) the End Date has passed or (ii) any governmental authority of any competent jurisdiction has issued an order, judgment or decree that has the effect of permanently prohibiting the consummation of the Transactions and such order has become final and nonappealable (solely in respect of the matters described in (A) or (B) below), if, as of the time of such termination, one or more of the conditions to closing set forth in the Merger Agreement (discussed above) relating to (A) the termination or expiration of any applicable waiting period under the HSR Act relating to the Merger, (B) taking, making or obtaining all material actions by, consents or approvals of, or in respect of or filing with any governmental authority required to permit the consummation of the closing of the Merger or (C) any order, judgment or decree issued by a governmental authority of competent jurisdiction that is in effect and has the effect of permanently prohibiting the consummation of the Merger (if the order, judgment or decree relates to any of the matters references in (A) and (B)) have not been satisfied, but all Wabtec Conditions to the Merger (other than those conditions which by their terms or nature are to be satisfied at the closing, but provided that such conditions not so satisfied are capable of being satisfied promptly if the closing of the Merger were to occur) have been satisfied or waived;

if there is a Termination for Wabtec's Material Breach in respect of Wabtec's obligations described above under

- —Regulatory Matters ; or

- if GE terminates the Merger Agreement because (i) any governmental authority of any competent jurisdiction has issued an order, judgment or decree that has the effect of permanently prohibiting the consummation of the Transactions, which such order has not become final and nonappealable and (ii)

- Wabtec fails to (A) institute appropriate proceedings seeking to have such order, judgment or decree vacated, lifted reversed, overturn or terminated within 30 days of such order, judgment or decree first being in effect or (B) use reasonable best efforts to have such order, judgment or decree vacated, lifted reversed, overturn or terminated thereafter.

The parties acknowledge that in no event will Wabtec be required to pay more than one termination fee.

If the Merger Agreement is terminated because Wabtec stockholders fail to approve the Share Issuance and the Wabtec Charter Amendment at the meeting of Wabtec stockholders, Wabtec will be required to reimburse GE and SpinCo and their respective affiliates in cash for all of their out-of-pocket fees and expenses in connection with the Transactions after submission of written documentation therefor, up to a maximum of \$40 million. Any such fees and expenses reimbursed by Wabtec will reduce the amount of the termination fee payable in the circumstances described the second bullet point above.

Except as described in this section and subject to certain exceptions, the Merger Agreement provides that all out-of-pocket expenses incurred in connection with the Merger Agreement and the Transactions are to be paid by the party incurring the expenses.

If Wabtec fails to pay the termination fee or expenses described above when due, the amount of such payment will be increased to include the costs of all expenses reasonably incurred by GE and SpinCo in connection with a legal action to enforce the Merger Agreement that results in a judgment against Wabtec, together with interest on the unpaid termination fee or expense. Payment of the fees and expenses described in this section will not be in lieu of any damages incurred in the event of willful and material breach of the Merger Agreement.

Specific Performance

In the Merger Agreement, the parties acknowledge that irreparable damage would occur, and that the parties would not have any adequate remedy at law, in the event that any of the provisions of the Merger Agreement were not performed in accordance with their specific terms or were otherwise breached. Accordingly, the parties will be entitled to an injunction to prevent breaches of the Merger Agreement and to enforce the Merger Agreement, without proof of actual damages or otherwise, in addition to any other remedy to which any party is entitled at law or in equity, without the requirement for securing or posting of any bond in connection with such remedy. The parties to the Merger

Agreement further agree not to assert that a remedy of specific enforcement is unenforceable, invalid, contrary to law or inequitable for any reason, or that a remedy of monetary damages would provide an adequate remedy. Notwithstanding the foregoing, while GE may pursue both a grant of specific performance of Wabtec's and Merger Sub's obligations pursuant to the Merger Agreement and the payment of the termination fee, the parties to the Merger Agreement agree that under no circumstances will GE or any person be

TABLE OF CONTENTS

entitled to receive both a grant of specific performance for the consummation of the transactions contemplated by the Merger Agreement and any termination fee described above under —Termination Fee and Expenses, unless such grant of specific performance is not complied with or does not result in the consummation of the Merger.

Amendments; Waivers

No provision of the Merger Agreement may be amended or waived except by an instrument in writing signed by, in the case of an amendment, all of the parties to the Merger Agreement, or, in the case of a waiver, by the party or parties against whom the waiver is to be effective. For any amendments or waivers to the sections of the Merger Agreement relating to amendments and waivers, successors and assigns, governing law, jurisdiction, waiver of jury trial, third-party beneficiaries and non-recourse to certain non-parties to the Merger Agreement that, in each case, adversely affect any of Wabtec's financing sources, the prior written consent of the affected financing sources will be required before such amendment or waiver is effective with respect to such affected financing source.

TABLE OF CONTENTS

THE SEPARATION AGREEMENT

*The following is a summary of the material provisions of the Separation Agreement. This summary is qualified in its entirety by reference to the full text of the Separation Agreement, which is incorporated by reference in this prospectus-information statement. GE stockholders are urged to read the Separation Agreement in its entirety. This summary of the Separation Agreement has been included to provide GE stockholders with information regarding its terms. The rights and obligations of the parties are governed by the express terms and conditions of the Separation Agreement and not by this summary or any other information included in this prospectus-information statement. It is not intended to provide any other factual information about Wabtec, Direct Sale Purchaser, GE or SpinCo. Information about Wabtec, Direct Sale Purchaser, GE and SpinCo can be found elsewhere in this prospectus-information statement and in the documents incorporated by reference into this prospectus. See also *Where You Can Find More Information; Incorporation by Reference*.*

Descriptions regarding the assets and liabilities conveyed to Direct Sale Purchaser and SpinCo and retained by GE contained in the Separation Agreement are qualified in their entirety by certain information that has been exchanged between Wabtec and GE that is not reflected in the Separation Agreement. Accordingly, GE stockholders should not rely on the general descriptions of assets and liabilities in the Separation Agreement, as they may have been modified in important ways by the information exchanged between Wabtec and GE.

Overview

The Separation Agreement provides for the Separation of GE Transportation from GE, including the Internal Reorganization, the Direct Sale, the SpinCo Transfer and the Distribution. Among other things, the Separation Agreement specifies (1) those assets of GE related to GE Transportation that are to be transferred to, and those liabilities of GE related to GE Transportation that are to be assumed by, Direct Sale Purchaser in the Direct Sale and (2) those assets of GE related to GE Transportation that are to be transferred to, and those liabilities of GE related to GE Transportation that are to be assumed by, SpinCo and the SpinCo Transferred Subsidiaries in the Separation, and sets forth when and how these transfers and assumptions will occur. The Separation Agreement also includes procedures for the Internal Reorganization and the Distribution by which GE and SpinCo will become separate and independent companies. The matters addressed by the Separation Agreement include, but are not limited to, the matters described below.

Separation of GE Transportation

Internal Reorganization

At or prior to the Distribution Date, GE and SpinCo will take such steps (which may include transfers of stock or other equity interests, formation of new entities and/or declaration of dividends) as may be required to effect the Internal Reorganization in accordance with the Separation Agreement, pursuant to which, among other things, all of the SpinCo Transferred Subsidiaries will become direct or indirect subsidiaries of SpinCo.

Direct Sale

Under the Separation Agreement, on the Distribution Date immediately prior to the consummation of the Separation, in consideration of the Direct Sale Purchase Price to be paid to GE by Direct Sale Purchaser on the Distribution Date, (i) GE will assign, transfer, convey and deliver (*transfer*) to Direct Sale Purchaser, certain specified assets of GE Transportation (the *Direct Sale Assets*), potentially including the equity interests of one or more subsidiaries of GE (such subsidiaries and each of their respective subsidiaries, the *Direct Sale Transferred Subsidiaries*) and (ii) the Direct Sale Purchaser will assume certain specified liabilities of GE Transportation (the *Direct Sale Liabilities*). The

Direct Sale Transferred Subsidiaries and the SpinCo Transferred Subsidiaries are referred to as the Transferred Subsidiaries.

In addition, Wabtec has agreed that (i) Direct Sale Purchaser will not be a direct or indirect subsidiary of Merger Sub and (ii) Merger Sub will not be a direct or indirect subsidiary of Direct Sale Purchaser.

TABLE OF CONTENTS

Transfer of SpinCo Assets; Assumption of SpinCo Liabilities

Generally, subject to the terms and conditions contained in the Separation Agreement or in any Additional Agreement and except to the extent not previously effected pursuant to the Internal Reorganization, effective as of immediately following the consummation of the Internal Reorganization and the Direct Sale but immediately prior to the Distribution Effective Time:

- GE will transfer to SpinCo or a SpinCo Transferred Subsidiary all the SpinCo Assets (as defined below);

SpinCo will, or will cause a SpinCo Transferred Subsidiary to, transfer to GE and/or any of its subsidiaries that is not a Transferred Subsidiary all the Excluded Assets (as defined below); and

GE will transfer to SpinCo or a SpinCo Transferred Subsidiary, and SpinCo will, or cause a SpinCo Transferred Subsidiary to, accept, assume (or, as applicable, retain) and perform, discharge and fulfill, in accordance with their respective terms, all of the SpinCo Liabilities (as defined below) and SpinCo will, or cause a SpinCo Transferred Subsidiary to, transfer to GE and/or any of its subsidiaries that is not a Transferred Subsidiary, and GE and/or such subsidiaries will assume all of the Excluded Liabilities (as defined below), in each case regardless of (i) when or where such Excluded Liabilities arose or arise, (ii) where or against whom such Excluded Liabilities are asserted or determined, (iii) whether such Excluded Liabilities arise from or are alleged to arise from negligence, gross negligence, recklessness, violation of applicable law, willful misconduct, bad faith, fraud or misrepresentation by GE or any of its subsidiaries that is not a Transferred Subsidiary or SpinCo or any SpinCo Transferred Subsidiary, as the case may be, or any of their past or present respective representatives, (iv) which person is named in any action or proceeding associated with any Excluded Liability and (v) whether the facts on which such Excluded Liabilities are based occurred prior to, on or after the date of the Separation Agreement.

Following the Distribution Date, if the parties receive any assets or liabilities that are allocated to another party pursuant to the Separation Agreement or an Additional Agreement (including funds upon payment of accounts receivable or other amounts attributable to assets or liabilities transferred to the other party), then the parties will transfer such misallocated assets or liabilities, or related funds, to the appropriate party.

Transfer of SpinCo Assets

The assets to be transferred or assigned to SpinCo or a SpinCo Transferred Subsidiary (the SpinCo Assets) include, in each case to the extent existing and owned or held immediately prior to the Direct Sale by GE or any of its subsidiaries, the following assets, but in each case excluding any Excluded Assets and Direct Sale Assets:

all owned real property listed on a schedule to the Separation Agreement, together with all structures and improvements and all appurtenant rights, privileges and easements relating thereto, that are used more than 80% in, arise, directly or indirectly, more than 80% out of, or are related more than 80% to, the operation or conduct of GE Transportation;

all leasehold interests under the real property leases governing the leased real property listed on a schedule to the Separation Agreement;

all of the tangible personal property, governmental licenses and permits, including environmental permits, contracts and certain intellectual property third party licenses specified on a schedule to the Separation Agreement that are, in each case, used more than 80% in, arise, directly or indirectly, more than 80% out of, or are related more than 80% to, GE Transportation;

- all expenses to the extent related to GE Transportation that have been prepaid by GE or any of its subsidiaries, including lease and rental payments to the extent related to GE Transportation;

all accounts and other receivables to the extent related to GE Transportation, other than Factored Customer Receivables (as defined below under —Cash, Debt and Receivables Adjustment);

•

all rights, claims, credits, causes of action (including counter-claims and rights of set-off) against third parties to the extent related to GE Transportation, including unliquidated rights under manufacturing and vendors' warranties to the extent related to GE Transportation;

TABLE OF CONTENTS

all intellectual property, including the registerable intellectual property listed on a specified schedule to the Separation Agreement and all other intellectual property rights (excluding the GE Names and Marks (defined below) and registrable IP) that are used exclusively in GE Transportation, and the right to sue and collect damages for past, present and future infringement, misappropriation, violation or dilution of any of the forgoing (SpinCo intellectual property);

all rights to technology and data that are used exclusively by GE and its subsidiaries in GE Transportation to the extent owned by GE or any of its subsidiaries (SpinCo data/technology);

all rights to software listed on a specified schedule to the Separation Agreement to the extent owned by GE or any of its subsidiaries (SpinCo software);

all corporate or limited liability company minute books and related stock records of SpinCo and the SpinCo Transferred Subsidiaries and all other books and records that are used more than 80% in, arise, directly or indirectly, more than 80% out of, or are related more than 80% to, GE Transportation, excluding tax returns and other tax records;

all assets expressly to be retained by or transferred to SpinCo or a SpinCo Transferred Subsidiary pursuant to the Employee Matters Agreement as more fully described in the section of this prospectus-information statement entitled Other Agreements—Employee Matters Agreement ;

all of the equity interests of the SpinCo Transferred Subsidiaries;

all of the equity interests of certain joint ventures listed on a schedule to the Separation Agreement;

the right to enforce the confidentiality or assignment provisions of any confidentiality, non-disclosure or other similar contracts (including any contracts with prospective purchasers of all or any portion of GE Transportation) to the extent related to confidential information of GE Transportation;

all rights of SpinCo and the SpinCo Transferred Subsidiaries under the Separation Agreement or any other Transaction Documents and the certificates and instruments delivered in connection therewith;

all assets set forth on or reflected in the December 31, 2017 balance sheet included in the unaudited financial statements of GE Transportation delivered to Wabtec prior to the date of the Merger Agreement, as the same may change as a result of the operation of GE Transportation between the date of such balance sheet and the Distribution Date;

restricted cash held by SpinCo or a SpinCo Transferred Subsidiary and cash and cash equivalents calculated in accordance with the cash adjustment as more fully described below under —Cash, Debt and Receivables Adjustment ;

transferred notes listed on a specified schedule to the Separation Agreement;

all other assets of a type not expressly covered in the definition of SpinCo Assets that are owned by GE or any of its subsidiaries and that are used more than 80% in, arise, directly or indirectly, more than 80% out of or are related more than 80%, to the operation or conduct of GE Transportation, including items listed on specified schedules to the Separation Agreement; and

certain assets listed on a specified schedule to the Separation Agreement.

Excluded Assets

The Separation Agreement provides that the assets to be transferred or assigned to SpinCo or a SpinCo Transferred Subsidiary will not include any and all of the following assets that are owned, used or held, at or prior to the Distribution Effective Time, by GE (the Excluded Assets):

all cash and cash equivalents, other than cash and cash equivalents counted in determining the Direct Sale Closing Cash (as defined below under —Cash, Debt and Receivables Adjustment) and restricted cash held by SpinCo or any Transferred Subsidiary as of the Distribution Effective Time calculated in accordance with the cash adjustment as more fully described below under —Cash, Debt and Receivables Adjustment ;

all rights to the GE Names and Marks (as defined below under —GE Names and Marks), together with any contracts granting rights to use the same;

TABLE OF CONTENTS

all owned and leased real property other than owned or leased real property constituting SpinCo Assets;
 other than any loans or advances between or among GE and its subsidiaries on behalf of GE Transportation (and not
 any other business of GE), all loans or advances among GE and any of its subsidiaries (including, for the avoidance of
 doubt, advances made in connection with GE's trade payables program);
 any work papers of GE's auditors and any other tax records (including accounting records) of GE or any of its
 subsidiaries other than SpinCo or any Transferred Subsidiary, provided, however, that SpinCo will in all events be
 entitled to copies of, and will be entitled to use, any such books and records to the extent solely related to GE
 Transportation, SpinCo or any Direct Sale Transferred Subsidiary;
 all employee plans, except to the extent expressly transferred to, or retained by, SpinCo or any Transferred Subsidiary
 in the Employee Matters Agreement as more fully described in the section of this prospectus-information statement
 entitled Other Agreements—Employee Matters Agreement ;
 without limiting SpinCo's rights under the Separation Agreement, all insurance policies of GE or any of its
 subsidiaries, and all rights of any nature with respect to any insurance policy, including any recoveries thereunder and
 any rights to assert claims seeking any such recoveries;
 for the avoidance of doubt, any assets held on the date of the Separation Agreement, or acquired after the date of the
 Separation Agreement, and sold or otherwise disposed of prior to the Distribution Effective Time;
 all rights, claims, causes of action (including counterclaims and rights of set-off) and defenses against third parties to
 the extent relating to any of the Excluded Assets or the Excluded liabilities as well as any books, records and
 privileged information relating thereto;
 except as expressly contemplated pursuant to the Additional Agreements, intellectual property rights (GE intellectual
 property), software (GE software) and technology and data (GE technology/data), in each case, that do not constitute a
 SpinCo Asset;
 all assets expressly retained by or transferred to GE or any of its subsidiaries that is not a Transferred Subsidiary
 pursuant to the Employee Matters Agreement as more fully described in the section of this prospectus-information
 statement entitled Other Agreements—Employee Matters Agreement ;
 any governmental licenses and permits, including environmental licenses and permits, held by GE or any of its
 subsidiaries that is not a Transferred Subsidiary that are not used more than 80% in, do not arise, directly or indirectly,
 more than 80% out of, or are not related more than 80% to, GE Transportation;
 all interests of GE or any of its subsidiaries that is not a Transferred Subsidiary under the Transaction Documents and
 the confidentiality agreement between GE and Wabtec;
 all personnel and employment records for employees and former employees of GE or any of its subsidiaries that is not
 a Transferred Subsidiary or SpinCo or any Transferred Subsidiary who are not continuing employees under the
 Employee Matters Agreement, except to the extent necessary for SpinCo or any Transferred Subsidiary to meet its
 obligations pursuant to the Separation Agreement or the Employee Matters Agreement as more fully described in the
 section of this prospectus-information statement entitled Other Agreements—Employee Matters Agreement ;
 any other assets to the extent not used more than 80% in, arising, directly or indirectly, more than 80% out of, or
 related more than 80% to, GE Transportation, except (x) SpinCo intellectual property, SpinCo software and SpinCo
 data/technology and (y) assets expressly to be retained by or transferred to SpinCo or any Transferred Subsidiary
 pursuant to the Employee Matters Agreement as more fully described in the section of this prospectus-information
 statement entitled Other Agreements—Employee Matters Agreement ;
 other than (i) any accounts receivable exclusively between or among GE and any of its subsidiaries on behalf of GE
 Transportation (and not any other GE business) and (ii) any surviving intercompany accounts (as defined below under
 —SpinCo Liabilities), any intercompany accounts receivable owing from GE or any of its affiliates;

TABLE OF CONTENTS

(i) all corporate minute books (and other similar corporate records) and stock records of GE and its subsidiaries that are not Transferred Subsidiaries, (ii) any books and records relating to the Excluded Assets, (iii) any books and records or other materials of or in the possession of GE or any of its subsidiaries that is not a Transferred Subsidiary or SpinCo or any Transferred Subsidiary that (A) GE or any of its subsidiaries that is not a Transferred Subsidiary is required by applicable law to retain, (B) GE or any of its subsidiaries that is not a Transferred Subsidiary reasonably believes are necessary to enable it to prepare and/or file tax returns, or (C) GE or any of its subsidiaries that is not a Transferred Subsidiary is prohibited by applicable law from delivering to SpinCo, any Transferred Subsidiary or Wabtec (including by transfer of equity of SpinCo or any Transferred Subsidiary), including any books and records, reports, information or other materials that disclose in any manner the contents of any other books and records, reports, information or other materials that constitute an Excluded Asset under this subclause (C) or (iv) any copies of any books and records that GE or any of its subsidiaries that is not a Transferred Subsidiary retains pursuant to the retention of books and records provision of the Separation Agreement;

(i) all records and reports prepared or received by GE or any of its subsidiaries in connection with the disposition of GE Transportation or the Transactions, including all analyses relating to GE Transportation or Wabtec so prepared or received, (ii) all confidentiality agreements with prospective purchasers of GE Transportation or any portion thereof (other than to the extent set forth in the 14th bullet point of the definition of SpinCo Assets), and all bids and expressions of interest received from third parties with respect to GE Transportation, and (iii) all privileged materials, documents and records that are not used more than 80% in, do not arise, directly or indirectly, more than 80% out of, or are not related more than 80% to, GE Transportation;

any Factored Customer Receivables (as defined below under —Cash, Debt and Receivables Adjustment); and
certain assets listed on a schedule to the Separation Agreement.

SpinCo Liabilities

The Separation Agreement provides that the liabilities that are to be assumed by SpinCo or a SpinCo Transferred Subsidiary (the SpinCo liabilities) include all liabilities of GE, SpinCo and the SpinCo Transferred Subsidiaries to the extent arising from or related to the SpinCo Assets or GE Transportation, existing at or after the Distribution Effective Time and irrespective of whether arising prior to, at or after the Distribution Effective Time and the following liabilities, but excluding any liabilities transferred in the Direct Sale:

all liabilities set forth on or reflected in the December 31, 2017 balance sheet included in the unaudited financial statements (including the notes thereto) delivered to Wabtec prior to the date of the Merger Agreement, as the same may change as a result of the operation of GE Transportation between the date of such balance sheet and the Distribution Date;

all liabilities under any receivable, payable or loan between GE or any of its subsidiaries on behalf of a GE business other than GE Transportation, on the one hand, and GE or any of its subsidiaries on behalf of GE Transportation, on the other hand, that (i) expressly arises pursuant to any Transaction Document, or (ii) is a receivable or payable arising from purchases or sales of products or services in the ordinary course between GE or any of its subsidiaries on behalf of a GE business other than GE Transportation, on the one hand, and GE or any of its subsidiaries on behalf of GE Transportation, on the other hand (including payables under GE's trade payables program), including those listed on a specified schedule to the Separation Agreement (collectively, the surviving intercompany accounts);

all liabilities arising under contracts constituting SpinCo Assets;

all liabilities to the extent arising, directly or indirectly, more than 80% out of, or related more than 80% to, GE Transportation (including all liabilities with respect to the SpinCo Assets and Direct Sale Assets), whether accruing before, on or after the Distribution Date (whether direct or indirect, known or unknown, absolute or contingent, asserted or unasserted, accrued or unaccrued, liquidated or unliquidated, matured or unmatured or due or to become due as of the Distribution Date);

all liabilities, whether accruing before, on or after the Distribution Date, (i) (A) under environmental laws and (B) arising from or relating in any way to the SpinCo Assets, the Direct Sale Assets, GE

TABLE OF CONTENTS

Transportation or otherwise to any past, current or future businesses, operations or properties of or associated with the SpinCo Assets, the Direct Sale Assets or GE Transportation or (ii) relating to the use, application, malfunction, defect, design, operation, performance or suitability of, or actual or alleged presence of hazardous materials in, any product or component sold or distributed prior to the Distribution Effective Time by, or service rendered prior to the Distribution Effective Time by or on behalf of, GE (in connection with GE Transportation or otherwise with any past, current or future businesses, operations or properties of or associated with the SpinCo Assets, the Direct Sale Assets or GE Transportation) to any person or entity;

all liabilities expressly transferred to, or retained by, SpinCo or any Transferred Subsidiary pursuant to the Employee Matters Agreement as more fully described in the section of this prospectus-information statement entitled Other Agreements—Employee Matters Agreement ;

all liabilities to the extent arising from or related to any business or line of business disposed of or discontinued, or any facility or other real property disposed of, by or on behalf of GE Transportation prior to the Distribution Date, including under any providing for the sale of any such business, line of business, facility or real property;

all liabilities described on a schedule to the Separation Agreement;

any liability for taxes expressly transferred to, or retained by, SpinCo or any Transferred Subsidiary designated by SpinCo pursuant to the Tax Matters Agreement as more fully described in the section of this prospectus-information statement entitled Other Agreements—Tax Matters Agreement;

any warranty, product liability obligation or claim or similar obligation entered into, created or incurred in the course of GE Transportation with respect to its products or services, whether prior to, at or after the Distribution Effective Time;

all liabilities allocated to SpinCo or any Transferred Subsidiary under the Transaction Documents;

all liabilities to the extent arising under the allocated portion of any contract entered into prior to the Distribution Effective Time to which GE, SpinCo or any Transferred Subsidiary is a party that relates to both (i) GE Transportation and (ii) any other GE business (each a shared contract) that is assigned to a member of SpinCo or any Transferred Subsidiary under the Separation Agreement;

all liabilities relating to any transferred notes listed on a schedule to the Separation Agreement; and

all liabilities to the extent related to (i) indebtedness of SpinCo any SpinCo Transferred Subsidiary (excluding any liabilities solely among SpinCo and any SpinCo Transferred Subsidiaries or among SpinCo Transferred Subsidiaries) (to the extent taken into account in the determination the debt adjustment as more fully described below under —Cash, Debt and Receivables Adjustment), (ii) indebtedness of any Direct Sale Transferred Subsidiaries (excluding any liabilities solely between Direct Sale Transferred Subsidiaries) (to the extent taken into account in the determination the debt adjustment as more fully described below under —Cash, Debt and Receivables Adjustment) or (iii) the debt financing completed by the Commitment Letter (see the section of this prospectus-information statement entitled Debt Financing).

Excluded Liabilities

The Separation Agreement provides that SpinCo and the SpinCo Transferred Subsidiaries will not assume any liabilities of GE to the extent arising from or related to the Excluded Assets or any GE business other than GE Transportation including the following liabilities (the Excluded liabilities):

any liability to the extent relating to any Excluded Asset;

any liability expressly retained by, or transferred to, GE or any of its subsidiaries that is not SpinCo or a Transferred Subsidiary pursuant to the Employee Matters Agreement as more fully described in the section of this prospectus-information statement entitled Other Agreements—Employee Matters Agreement or the Tax Matters Agreement as more fully described in the section of this prospectus-information statement entitled Other Agreements—Tax Matters Agreement;

other than (i) intercompany accounts payable exclusively between or among GE and its subsidiaries on behalf of GE Transportation (and not any other GE business) and (ii) surviving intercompany accounts

TABLE OF CONTENTS

(as defined above under —SpinCo Liabilities), any liability for any intercompany accounts payable to GE or any of its affiliates, which intercompany accounts payable will (subject to the foregoing exceptions) be extinguished at the closing of the Transactions;

all liabilities, whether presently in existence or arising after the date of the Separation Agreement, relating to fees, commissions or expenses owed to any broker, finder, investment banker, accountant, attorney or other intermediary or advisor employed by GE or any of its subsidiaries that is not a Transferred Subsidiary or, to the extent the relevant engagement was entered into prior to the closing of the Transactions, SpinCo or any Transferred Subsidiary in connection with the transactions contemplated by the Separation Agreement or the Transaction Documents (other than, for the avoidance of doubt, to the extent otherwise provided in any Transaction Document);

all Liabilities to the extent relating to (i) the conduct and operation of any GE business other than GE Transportation (including, to the extent relating any GE business other than GE Transportation, any liability relating to, arising out of or resulting from any act or failure to act by any representatives of GE or any of its subsidiaries that is not a Transferred Subsidiary (whether or not such act or failure to act is or was within such person or entity's authority)) or (ii) any warranty, product liability obligation or claim or similar obligation entered into, created or incurred in the course of any GE business other than GE Transportation with respect to its products or services, whether prior to, at or after the Distribution Effective Time;

all liabilities to the extent arising under the allocated portion of any shared contract that is assigned to GE or any of its subsidiaries that is not a Transferred Subsidiary in accordance with the Separation Agreement;

all liabilities of GE or any of its subsidiaries that is not a Transferred Subsidiary under the Transaction Documents; and

all fines or penalties imposed by any governmental authority relating to the matter set forth on a schedule to the Separation Agreement to the extent relating to filings made by GE prior to the Distribution Effective Time.

Consents and Delayed Transfers

The Separation Agreement provides that parties will cooperate to obtain any third-party consents required in connection with the transactions contemplated by the Separation Agreement. Neither GE nor Wabtec nor any of their respective affiliates will be required to compensate any such third party, commence or participate in any action or offer or grant any accommodation in connection with obtaining any third-party consent or approval, except that Wabtec has agreed to provide a guaranty to each third party requested to eliminate any liability of GE or any of its subsidiaries that is not a Transferred Subsidiary in respect of any contract constituting a SpinCo Asset or Direct Sale Asset.

If and to the extent that any consent or governmental approval with respect to any SpinCo Asset, SpinCo Liability, Direct Sale Asset, Direct Sale Liability, Excluded Asset or Excluded Liability has not been obtained prior to the Distribution Effective Time, then the transfer of any such asset or liability in connection with the Separation will be automatically deemed deferred until such time as all legal impediments are removed and all necessary consents and governmental approvals have been obtained, subject to specified exceptions. Where the transfer of an asset or liability requires the consent of a third party and such consent has not been obtained prior to the Distribution, then, to the extent permitted under such contract and applicable law, the parties to the Separation Agreement will use reasonable best efforts to develop and implement mutually acceptable arrangements to place the applicable party (or affiliate thereof) entitled to receive such asset or liability, as the case may be, insofar as reasonably possible, in substantially the same position as if such asset or liability has been transferred as contemplated by the Separation Agreement. The applicable party (or affiliate thereof) entitled to receive such asset or liability (as applicable) will be deemed to have acquired complete and sole beneficial ownership of such assets as if such asset had been transferred as contemplated by the Separation Agreement and will treat for all tax purposes such assets and liabilities as having been transferred to it as contemplated by the Separation Agreement. The party retaining such asset will hold such asset in trust for the use and benefit and burden of the other (at such other party's expense) until properly conveyed.

TABLE OF CONTENTS

In addition, the parties agreed to use commercially reasonable efforts to separate certain identified shared contracts ((i) that are material to GE Transportation and identified on a schedule to be delivered by Wabtec to GE within 60 days following the date of the Separation Agreement or (ii) with respect to which the parties agree to seek separation prior to the Distribution) into separate contracts effective as of the Distribution Effective Time or as promptly as practicable thereafter so that SpinCo or any Transferred Subsidiary will be entitled to rights and benefits and will assume the related portion of liabilities with respect to each such shared contract to the extent related to GE Transportation and GE and its subsidiaries that are not a Transferred Subsidiaries will have the rights and benefits and will assume the related portion of liabilities with respect to each such shared contract to the extent related to any GE business other than GE Transportation, except that neither party will be required to pay any amount to any third party, commence or participate in any action or offer or grant any accommodation to any third party to obtain any such separation. Upon such separation of such shared contract, the separated contract will be a SpinCo Asset or an Excluded Asset, as applicable. The obligations of the parties to seek separation will terminate on the first anniversary of the Distribution Date or, if earlier with respect to any such identified shared contract, upon the expiration of the term of such shared contract.

Certain Additional Agreements

The Separation Agreement requires that on or prior to the Distribution Date, GE and Wabtec will, and will cause their respective applicable affiliates to, execute and deliver prior to the Distribution Effective Time all conveyance and assumption instruments as may be necessary to effect the Internal Reorganization and the transfers of the SpinCo Assets, the SpinCo Liabilities, the Direct Sale Assets, the Direct Sale Liabilities, the Excluded Assets and the Excluded Liabilities, as applicable, in accordance with the terms of the Separation Agreement.

In addition, on the Distribution Date, each of GE, SpinCo, Wabtec and Direct Sale Purchaser will, and will cause each of their applicable subsidiaries to, execute and deliver each of the Additional Agreements, as more fully described in the section of this prospectus-information statement entitled Other Agreements.

Intercompany Agreements and Intercompany Accounts

All contracts between GE or any of its subsidiaries on behalf of any of a GE business other than GE Transportation, on the one hand, and GE or any of its subsidiaries on behalf of GE Transportation, on the other hand, will be terminated at or prior to the Distribution Effective Time, except for certain agreements like the Transaction Documents, conveyance and assignment agreements and certain contracts listed on a schedule to the Separation Agreement. In addition, all outstanding intercompany accounts, including intercompany liabilities, between GE or any of its subsidiaries on behalf of a GE business other than GE Transportation, on the one hand, and GE or any of its subsidiaries on behalf of GE Transportation, on the other hand, will be satisfied, settled or otherwise terminated no later than the Distribution Effective Time, except for any surviving intercompany accounts (as defined above under —SpinCo Liabilities).

Cash, Debt and Receivables Adjustment

Within 60 days after the Distribution Date, (i) SpinCo will prepare and submit to GE a statement that sets forth its calculation of (A) the SpinCo Cash Amount (as defined below) as of immediately prior to the Distribution Effective Time, (B) SpinCo Indebtedness (as defined below) as of immediately prior to the Distribution Effective Time, and (C) the Excess Factored Customer Receivables (as defined below), if any, which, in each case, will be prepared in accordance with certain accounting principles set forth on a schedule to the Separation Agreement (the SpinCo Proposed Statement) and (ii) Direct Sale Purchaser will prepare and submit to GE a statement that sets forth its calculation of (A) the Direct Sale Cash Amount (as defined below) as of immediately prior to the consummation of the Direct Sale and (B) the Direct Sale Indebtedness (as defined below) as of immediately prior to the consummation

of the Direct Sale), which, in each case, will be prepared in accordance with certain accounting principles set forth on a schedule to the Separation Agreement (the Direct Sale Proposed Statement).

The Separation Agreement sets forth the procedures to be followed regarding the provision of information and in the event that GE disputes the correctness of the SpinCo Proposed Statement or the Direct Sale Proposed Statement.

If the SpinCo Adjustment Amount (as defined below) or the Direct Sale Adjustment Amount (as defined below), in each case, as finally determined in accordance to the provisions above, is a positive number, then within three

TABLE OF CONTENTS

business days following the final determination of the SpinCo Adjustment Amount or the Direct Sale Adjustment Amount, as the case may be, SpinCo or Direct Sale Purchaser, as applicable, will pay to GE in immediately available funds via wire transfer an amount equal to such SpinCo Adjustment Amount or the Direct Sale Adjustment Amount, as applicable. If the SpinCo Adjustment Amount or the Direct Sale Adjustment Amount, in each case, as finally determined in accordance to the provisions above, is a negative number, then within three business days following the final determination of the SpinCo Adjustment Amount or the Direct Sale Adjustment Amount, as the case may be, GE will pay to SpinCo or Direct Sale Purchaser, as applicable, in immediately available funds via wire transfer an amount equal to the absolute value of such SpinCo Adjustment Amount or the Direct Sale Adjustment Amount, as applicable.

Under the Separation Agreement, the following terms have the following meanings:

Direct Sale Cash Amount means, whether positive or negative, as of any time, the aggregate amount of cash and cash equivalents held by any Direct Sale Transferred Subsidiary (in each case other than restricted cash held by any Direct Sale Transferred Subsidiary), including the amount of any checks and drafts (including both written and electronic fund transfer orders) (i) received by any Direct Sale Transferred Subsidiary but not yet deposited and (ii) deposited for the account of any Direct Sale Transferred Subsidiary but not yet cleared as of immediately prior to the consummation of the Direct Sale (but only to the extent actually cleared after such time), except that the value of any cash and cash equivalents held in non-U.S. jurisdictions will be determined in accordance with the accounting principles listed on a schedule to the Separation Agreement. The Direct Sale Cash Amount will be reduced by an amount equal to any cut but uncashed checks as of immediately prior to the consummation of the Direct Sale (to the extent that such cut but uncashed checks are drawn from bank accounts that are included in the Direct Sale Assets or which obligations otherwise constitute Direct Sale Liabilities).

Direct Sale Indebtedness means, without duplication, any indebtedness of any Direct Sale Transferred Subsidiary, excluding any liabilities solely between Direct Sale Transferred Subsidiaries.

Direct Sale Adjustment Amount means, whether positive or negative, an amount equal to Direct Sale

- Closing Cash (as finally determined in accordance with the provisions above) minus Direct Sale Closing Indebtedness (as finally determined in accordance with the provisions above).

SpinCo Cash Amount means, whether positive or negative, as of any time, the aggregate amount of cash and cash equivalents held by SpinCo or any SpinCo Transferred Subsidiary (in each case other than restricted cash held by SpinCo or any SpinCo Transferred Subsidiary), including the amount of any checks and drafts (including both written and electronic fund transfer orders) (i) received by SpinCo or any SpinCo Transferred Subsidiary but not yet deposited and (ii) deposited for the account of SpinCo or any SpinCo Transferred Subsidiary but not yet cleared as of immediately prior to the Distribution Effective Time (but only to the extent actually cleared after such time), except that the value of any cash and cash equivalents held in non-U.S. jurisdictions will be determined in accordance with the accounting principles listed on a schedule to the Separation Agreement. The SpinCo Cash Amount will be reduced by an amount equal to any cut but uncashed checks as of immediately prior to the Distribution Effective Time (to the extent that such cut but uncashed checks are drawn from bank accounts that are included in the SpinCo Assets or which obligations otherwise constitute SpinCo Liabilities).

SpinCo Indebtedness means, without duplication, any indebtedness of SpinCo or any SpinCo Transferred Subsidiary, excluding any liabilities solely between SpinCo and any SpinCo Transferred Subsidiaries or between SpinCo Transferred Subsidiaries.

Excess Factored Customer Receivables means the excess, if any, of (i) the amount of Factored Customer Receivables (as defined below) over (ii) the lesser of (A) \$180,000,000 and (B) (1) 60%, multiplied by (2) the Gross Customer Receivables (as defined below).

Factored Customer Receivables means any Gross Customer Receivables that as of the Distribution Effective Time have been sold to a third party, including General Electric Working Capital Solutions,

TABLE OF CONTENTS

LLC, Working Capital Solutions Funding LLC and any person designed by GE as a factoring entity following the date of the Separation Agreement, subject to a factoring agreement, as determined in a manner consistent with the historical accounting practices of GE Transportation.

Gross Customer Receivables means any amounts billed by GE Transportation to customers for the sale and delivery of goods and services that have not yet been collected as of the Distribution Effective Time, as determined in a manner consistent with the historical accounting practices of GE Transportation.

SpinCo Adjustment Amount means, whether positive or negative, an amount equal to (i) SpinCo Closing Cash (as finally determined in accordance with the provisions above) minus (ii) SpinCo Closing Indebtedness Cash (as finally determined in accordance with the provisions above) minus (iii) Excess Factored Customer Receivables (as finally determined in accordance with the provisions above), if any.

Issuance of SpinCo Common Stock

On or before the Distribution Date, in connection with the SpinCo transfer, SpinCo will issue and deliver to GE 8,700,000,000 shares of SpinCo common stock in book-entry form or such other amount as GE determines, subject to the consent of Wabtec not to be unreasonably withheld, conditioned or delayed.

Distribution

The Separation Agreement provides that the Distribution may be effected, at GE's option, by way of a spin-off, a split-off or a combination thereof. As previously noted, this prospectus-information statement has been prepared under the assumption that the Distribution Shares will be distributed to GE stockholders pursuant to a spin-off. Based on market conditions prior to the closing of the Merger, corporate finance considerations and timing considerations, GE will determine whether the Distribution Shares will be distributed to GE's stockholders in a spin-off or split-off.

Conditions to the Distribution and the Direct Sale

The obligations of GE, Wabtec and Direct Sale Purchaser to consummate the Direct Sale and the obligations of GE to commence and consummate the Distribution are subject to the prior or simultaneous satisfaction or, to the extent permitted by applicable law, waiver of each of the conditions to the obligation of the parties to the Merger Agreement to consummate the Merger and effect the other transactions contemplated by the Merger Agreement (other than those conditions that by their nature are to be satisfied contemporaneously with or immediately following the Direct Sale or the Distribution which such conditions are capable of being satisfied at such date), in each case as described in the section of this prospectus-information statement entitled The Merger Agreement—Conditions to the Merger. The parties to the Separation Agreement agree that the Distribution Effective Time will occur on the same date as the closing of the Merger.

Disclaimer

Except as expressly provided otherwise in any Transaction Document, each party, on behalf of itself and each of its affiliates, has agreed that no other party nor any of their respective affiliates is making any representation or warranty of any kind whatsoever, express or implied, to the other parties or any of their respective affiliates or to any other person in respect of the transactions contemplated by the Separation Agreement or any information that may have been exchanged or provided pursuant to the Separation Agreement or any other Transaction Document, and that all SpinCo Assets are being assigned and transferred, and all SpinCo Liabilities are being assumed, on an as is, where is basis, with no representation or warranty of any kind.

Mutual Release; Indemnification; Limitation of Liability

Both GE and SpinCo will release each other and specified related parties from any and all liabilities existing or arising from any acts or events occurring (or failing to occur) or any conditions existing or alleged to have existed, in each case, on or prior to the Distribution Effective Time. The Separation Agreement, however, provides the release described above will not limit or otherwise affect any person's rights or obligations pursuant to or contemplated by, or the ability to enforce, any surviving intercompany agreement or surviving intercompany account (as defined above under —SpinCo Liabilities).

TABLE OF CONTENTS

The Separation Agreement provides that, without limiting the indemnity provisions of the Additional Agreements, following the Distribution Effective Time, GE will indemnify, defend (or, where applicable, pay the defense costs for) and hold harmless SpinCo, its affiliates and their respective representatives and successors and assigns (the "SpinCo indemnitees") from and against, and will reimburse such SpinCo indemnitees with respect to, any and all liabilities, including damages, losses, deficiencies, obligations, penalties, judgments, settlements, claims, payments, fines and other costs and expenses of any and all actions, demands, assessments, judgments, settlements and compromises relating thereto and the reasonable costs and expenses of attorneys, accountants, consultants and other professionals fees and expenses incurred in the investigation or defense thereof or the enforcement of rights under the Separation Agreement (subject to the limitations in the Separation Agreement, "indemnifiable losses") of the SpinCo indemnitees to the extent arising out of, resulting from or related to (without duplication): (a) any Excluded Liabilities, including the failure of GE or any of its subsidiaries that is not a Transferred Subsidiary to assume any Excluded Liabilities or (b) any breach by GE or any of its subsidiaries that is not a Transferred Subsidiary of any obligations to be performed by such persons pursuant to the Separation Agreement after the Distribution Effective Time.

In addition, the Separation Agreement provides that, without limiting the indemnity provisions of the Additional Agreements, following the Distribution Effective Time, Wabtec will indemnify, defend (or, where applicable, pay the defense costs for) and hold harmless GE, its affiliates and their respective representatives and successors and assigns (the "GE indemnitees") from and against, and will reimburse such GE indemnitees with respect to, any and all indemnifiable losses of the GE indemnitees to the extent arising out of, resulting from or related to (without duplication): (a) any SpinCo Liabilities, including the failure of any member of SpinCo or any SpinCo Transferred Subsidiary to assume any SpinCo Liabilities, (b) any Direct Sale Liabilities, including the failure of Direct Sale Purchaser to assume any Direct Sale Liabilities, or (c) any breach by SpinCo, any Transferred Subsidiary, Wabtec or Direct Sale Purchaser of any obligations to be performed by such persons pursuant to the Separation Agreement after the Distribution Effective Time.

The Separation Agreement provides that, after the Distribution, the sole and exclusive remedy with respect to any breach of the Separation Agreement or any conveyance and assumption instrument entered into in connection with the Separation Agreement will be a claim for indemnification as described above, except that the foregoing will not impair any person's right to specific performance or equitable relief under any of the Transaction Documents.

Under the Separation Agreement, the amount of any indemnifiable losses will be reduced by:

- any insurance proceeds or third-party proceeds actually received by or on behalf of the applicable indemnitee corresponding to any such indemnifiable loss, in each case net of the costs of collection of such indemnifiable loss and any increase in premium attributable thereto, and, in the case of any insurance proceeds, net of any applicable deductible or retention; and

- any tax benefit actually realized by the applicable indemnitee arising from the incurrence or payment of any such indemnifiable loss (determined on a with and without basis and by treating the loss or deduction (or a carryforward thereof) attributable to such indemnifiable loss as the last item taken into account in determining the applicable indemnitee's tax liability).

All rights and obligations of GE and Wabtec with respect to indemnification for tax matters will be governed by the Tax Matters Agreement and will not be subject to the provisions of the Separation Agreement described in this section (see the section of this prospectus-information statement entitled "Other Agreements—Tax Matters Agreement").

The Separation Agreement provides for certain limitations in connection with indemnification sought by the parties for indemnifiable losses, including the following:

- no indemnitee will be entitled to payment or indemnification more than once with respect to the same matter; and

no party will have any right to set off any losses (including indemnifiable losses) against any payments to be made by any such party under any other agreement between the parties, including the Transaction Documents.

TABLE OF CONTENTS

The Separation Agreement provides each party will, and will cause its subsidiaries to, use commercially reasonable efforts to collect or recover, or allow the indemnifying party to collect or recover, or cooperate with each other in collecting or recovering, any insurance proceeds that may be collectible or recoverable with respect to indemnifiable losses. If an indemnifying party makes any payment for any indemnifiable losses pursuant to the provisions described above, such indemnifying party will be subrogated, to the extent of such payment, to all rights and remedies of the indemnitee to any insurance benefits or other claims of the indemnitee with respect to such indemnifiable losses and the matters giving rise to such indemnifiable losses.

If the indemnification described above is unavailable for any reason to an indemnitee in respect of any indemnifiable loss (other than, and to the extent resulting from, failure to provide notice with respect to any third-party claims in accordance with the Separation Agreement), then the indemnifying party will contribute to the indemnifiable losses incurred, paid or payable by such indemnitee as a result of such indemnifiable loss in such proportion as is appropriate to reflect the relative fault of Wabtec, Direct Sale Purchaser, SpinCo and each Transferred Subsidiary, on the one hand, and GE and each of its subsidiaries that is not Transferred Subsidiaries, on the other hand, in connection with the circumstances which resulted in such indemnifiable loss. Solely for purposes of determining relative fault under the contribution provisions in the Separation Agreement: (a) any fault associated with the conduct of any GE business other than GE Transportation prior to the Distribution Effective Time will be deemed to be allocated to GE and its subsidiaries that are not Transferred Subsidiaries, and no such fault will be deemed to be the fault of SpinCo or any Transferred Subsidiary; and (b) any fault associated with the conduct of GE Transportation prior to the Distribution Effective Time will be deemed to be the fault of SpinCo and the Transferred Subsidiaries, and no such fault will be deemed to be the fault of GE or any of its subsidiaries that are not Transferred Subsidiaries.

Further Assurances and Certain Additional Covenants

The Separation Agreement addresses additional obligations of the parties relating to, among other things, cash management, insurance, amendments to the Internal Reorganization step plan, access generally, financial statements and accounting, witness services, reimbursement, retention of books and records, confidentiality, privileged matters, ownership of information, further action regarding intellectual property rights and other agreements. Certain of these obligations and covenants are described below.

Further Assurances

Subject to the terms of the Merger Agreement and the Separation Agreement, the Separation Agreement requires that each party use reasonable best efforts to take, or cause to be taken, all actions and to do, or cause to be done, and to assist and cooperate with the other party in doing or causing to be done, all things necessary, proper or advisable under applicable laws to consummate the Transactions as soon as practicable after the date of the Separation Agreement and as may be otherwise required to consummate and make effective the Transactions.

GE Names and Marks

The Separation Agreement provides that the parties will enter into the Trademark License Agreement with respect to the licensing of certain GE Names and Marks (as defined below) as described below in Other Agreements—Trademark and Licensing Agreement. Except as otherwise provided in the Separation Agreement or the Trademark License Agreement, SpinCo and its affiliates will cease and discontinue all uses of the GE Names and Marks immediately upon the Distribution Effective Time. SpinCo, for itself and its affiliates, has agreed that the rights of SpinCo and the Transferred Subsidiaries and their respective affiliates to the GE Names and Marks pursuant to the terms of any trademark agreements or otherwise between GE or any of its affiliates, on the one hand, and SpinCo, any of the Transferred Subsidiaries or their respective affiliates, on the other, will terminate on the Distribution Date and be replaced by such rights as are provided by the Separation Agreement and the Trademark License Agreement.

Under the Separation Agreement, immediately as of the Distribution Date, SpinCo has agreed to, and to cause its affiliates to:

except as permitted under the Separation Agreement and the Trademark License Agreement, (A) cease all use of any of the GE Names and Marks on or in connection with all stationery, business cards,

TABLE OF CONTENTS

purchase orders, lease agreements, warranties, indemnifications, invoices and other similar correspondence and other documents of a contractual nature and (B) complete the removal of the GE Names and Marks from all product, services and technical information promotional brochures prior to expiration of the Trademark License Agreement;

with respect to assets or SpinCo Assets bearing any GE Names and Marks, use their commercially reasonable efforts to relabel such assets or SpinCo Assets or remove such GE Names and Marks from such assets or SpinCo Assets as promptly as practicable, and in any event prior to the expiration of the Trademark License Agreement;

not, expressly or by implication, do business as or represent themselves as GE or any of its affiliates;

with respect to assets managed, operated or leased after the Distribution Date, represent in writing to the owners or lessors of such assets that such assets are those of SpinCo and its affiliates and not those of GE and its affiliates;

except to the extent otherwise provided in the Trademark License Agreement, cooperate with GE and its affiliates in terminating any contracts pursuant to which GE or any of its subsidiaries that is not a Transferred Subsidiary or SpinCo or any of the Transferred Subsidiaries license any GE Names and Marks to customers in connection with GE Transportation;

take all necessary action to ensure that other users of any GE Names and Marks, whose rights terminate upon the Distribution Effective Time pursuant to the provisions of the Separation Agreement described above, will cease use of the GE Names and Marks, except as expressly authorized thereafter by GE.

except as contemplated by the Trademark License Agreement, promptly after the Distribution Date, but in any event no later than 10 business days after the Distribution Date, make all filings with any and all offices, agencies and bodies and take all other actions necessary to adopt new corporate names, registered names, and registered fictitious names of SpinCo and the Transferred Subsidiaries and their respective affiliates that do not consist in whole or in part of, and are not dilutive of or confusingly similar to, the GE Names and Marks (new corporate names), and upon receipt of confirmation from the appropriate registry that such name changes have been effected, provide GE with written proof that such name changes have been effected; and

use best efforts to adopt new corporate names as soon as possible after the Distribution Effective Time.

Under the Separation Agreement, GE Names and Marks means the names or marks owned, licensed or used by GE, any of its subsidiaries that are not Transferred Subsidiaries or any of their respective affiliates, including names that use or contain GENERAL ELECTRIC (in block letters or otherwise), the General Electric monogram, General Electric Company and GE, either alone or in combination with other words and all marks, trade dress, logos, monograms, domain names and other source identifiers confusingly similar to or embodying any of the foregoing either alone or in combination with other words, except those specified on an annex to the Separation Agreement.

Further Action Regarding Intellectual Property Rights

If, after the Distribution Date, GE or SpinCo identifies any item of (i) SpinCo intellectual property, (ii) SpinCo data/technology, (iii) SpinCo software, (iv) registrable intellectual property owned by GE or any of its subsidiaries that was not set forth on the schedules to the Separation Agreement listing the same but for which GE Transportation is responsible as reflected in GE's intellectual property rights docketing systems (it being understood that GE and SpinCo will discuss in good faith any identified misallocation of designations of responsibility within such docketing systems) (unscheduled registrable intellectual property) or (v) intellectual property rights (other than registrable intellectual property and the GE Names and Marks), data or technology owned by GE or any of its subsidiaries that is not used exclusively in GE Transportation or set forth on the schedules to the Separation Agreement listing the same but for which GE Transportation is responsible as reflected in GE's intellectual property rights docketing systems (it being understood that GE and SpinCo will discuss in good faith any identified misallocation of designations of responsibility within such docketing systems) (SpinCo docketed intellectual property/data/technology), in each case, that inadvertently was not previously transferred or set forth on the applicable annex to the Separation Agreement, as applicable, by GE, any of its

TABLE OF CONTENTS

subsidiaries that are not Transferred Subsidiaries or any of their affiliates to SpinCo, then, to the extent that GE has the right to do so and without paying additional consideration (other than a nominal fee (e.g., \$1)) to a third party, GE will (or will cause any of its subsidiaries that are not Transferred Subsidiaries or its affiliates to) transfer such SpinCo intellectual property, SpinCo data/technology, SpinCo software, unscheduled registrable intellectual property or SpinCo docketed intellectual property/data/technology to SpinCo pursuant to the terms of the Separation Agreement for no additional consideration, except that if such transfer requires payment of additional consideration, then SpinCo may elect to have such license so transferred at its own expense.

Further, until such time as the transfers described above have been effected, GE and its subsidiaries that are not Transferred Subsidiaries, on behalf of themselves and their affiliates, have granted to SpinCo and the SpinCo Transferred Subsidiaries, effective as of the Distribution Date, (i) a non-exclusive, royalty-free, fully paid-up, worldwide, irrevocable, sublicensable and transferable right and license (or sublicense, as the case may be) to fully use, practice and otherwise exploit such SpinCo intellectual property, SpinCo software, SpinCo data/technology, unscheduled registrable intellectual property, or SpinCo docketed intellectual property/data/technology controlled by GE or any of its subsidiaries that is not a Transferred Subsidiary, as applicable, and its affiliates and (ii) a covenant not to sue with respect to the foregoing activities.

In addition, if, after the Distribution Date, GE or SpinCo identifies any item of GE intellectual property, GE software or GE data/technology (other than unscheduled registrable intellectual property and SpinCo docketed intellectual property/data/technology) that was (i) transferred by GE or any of its subsidiaries that is not a Transferred Subsidiary or any of its affiliates or (ii) owned by SpinCo or a SpinCo Transferred Subsidiary prior to the Distribution Date and that was not transferred to GE or an affiliate of GE prior to the Distribution Date, SpinCo will, or will cause the SpinCo Transferred Subsidiary to, promptly transfer such GE intellectual property, GE software or GE data/technology to GE or its designated affiliate pursuant to the terms of the Separation Agreement for no additional consideration.

Further, until such time as the transfers described above have been effected, SpinCo, on behalf of itself and its affiliates, has granted to GE and its affiliates, effective as of the Distribution Date, (i) a non-exclusive, royalty-free, fully paid-up, worldwide, irrevocable, sublicensable and transferable right and license (or sublicense, as the case may be) to fully use, practice and otherwise exploit such GE intellectual property, GE software or GE data/technology controlled by SpinCo or its affiliates and (ii) a covenant not to sue with respect to the foregoing activities.

Third Party Licenses

Under the Separation Agreement, the parties have agreed that, to the extent that any intellectual property rights, software, technology or data included in SpinCo Assets or Direct Sale Assets is licensed or sublicensed from a third party under a contract (other than a contract constituting a SpinCo Asset), such intellectual property rights, software, technology or data is subject to all of the terms and conditions of the contract between GE or any of its subsidiaries that is not a Transferred Subsidiary and such third party pursuant to which such intellectual property rights, software, technology or data has been licensed or sublicensed to GE or any of its subsidiaries that is not a Transferred Subsidiary, as applicable, including limitations to the field or scope of use.

Factored Customer Receivables

Under the Separation Agreement, GE has agreed to cause GE Transportation not to have any accounts receivable of GE Transportation as of the Distribution Effective Time sold or otherwise transferred or divested by GE Transportation to any person or entity, or otherwise subject to any factoring arrangement, as of the Distribution Effective Time, other than Factored Customer Receivables (as defined above under —Separation of GE Transportation—Cash, Debt and Receivables Adjustment).

Access to Information

Subject to compliance with the terms of the Transaction Documents and to appropriate restrictions for privileged information or confidential information, until the later of the sixth anniversary of the Distribution Effective Time and the expiration of the applicable statute of limitations, if applicable, and subject to compliance with the terms of the Transaction Documents, upon the prior written reasonable request by GE or SpinCo, the applicable party will use commercially reasonable efforts to provide, as soon as reasonably practicable following the receipt of such request, reasonable access or, to the extent such information is reasonably practicable to identify and

TABLE OF CONTENTS

extract, copies of such information in the possession or control of such applicable party (or its affiliates), but only to the extent such requested information is not already in the possession or control of the requesting party or any of its affiliates and is necessary for a reasonable business purpose. GE and SpinCo have also agreed to make their respective personnel available during regular business hours to discuss the information exchanged pursuant to the foregoing and inform their respective representatives who have or have access to the other party's information provided pursuant to the foregoing of their obligation to hold such information confidential in accordance with the provisions of the Separation Agreement.

Matters related to the provision of tax records for tax matters will be governed by the Tax Matters Agreement and will not be subject to the provisions of the Separation Agreement described in this section (see the section of this prospectus-information statement entitled "Other Agreements—Tax Matters Agreement").

Insurance

From and after the Distribution Date, SpinCo and the Transferred Subsidiaries will cease to be in any manner insured by, entitled to any benefits or coverage under or entitled to seek benefits or coverage from or under any insurance policies of GE ("GE insurance policies") other than (i) any insurance policy issued exclusively in the name and for the benefit of SpinCo or any Transferred Subsidiary, (ii) with respect to any matters covered by an insurance policy that have been properly reported to the relevant insurer(s) prior to the Distribution Date, or (iii) for claims brought solely under certain insurance policies listed on a schedule to the Separation Agreement, for any claim, occurrence, injury, damage or loss that occurred or existed prior to the Distribution Date, in each case under clauses (i) through (iii) above subject to the terms and conditions of the relevant insurance policies and the Separation Agreement, except to the extent otherwise mandated by applicable law.

In addition, SpinCo and the Transferred Subsidiaries agreed to procure all contractual and statutorily obligated insurance at the Distribution Effective Time. In addition, the rights of SpinCo and the Transferred Subsidiaries under subparagraphs (ii) and (iii) of the preceding paragraph are subject to and conditioned upon the following:

SpinCo and the Transferred Subsidiaries (A) will be solely responsible for notifying any and all insurance companies of such claims and complying with all policy terms and conditions for pursuit and collection of such claims; (B) will not, without the written consent of GE, amend, modify or waive any rights of GE or other insureds under any such insurance policies and programs; and (C) will exclusively bear and be liable (and the GE will have no obligation to repay or reimburse SpinCo or any Transferred Subsidiary) for all uninsured, uncovered, unavailable or uncollectible amounts relating to or associated with all such claims.

With respect to coverage claims or requests for benefits asserted by SpinCo and the Transferred Subsidiaries under the insurance policies listed on a schedule to the Separation Agreement as described in subclause (iii) above, GE will have the right but not the duty to monitor and/or associate with such claims its sole cost and expense. SpinCo and the Transferred Subsidiaries will be liable for any fees, costs and expenses reasonably incurred by GE directly or indirectly through the insurers or reinsurers of the under the insurance policies listed on a schedule to the Separation Agreement as described in subclause (iii) above relating to any unsuccessful coverage claims pursued at SpinCo's written request. SpinCo and the Transferred Subsidiaries will not assign any under the insurance policies listed on a schedule to the Separation Agreement as described in subclause (iii) of the first paragraph of this section or any rights or claims under such policies.

Notwithstanding anything contained in the Separation Agreement:

nothing in the Separation Agreement will limit, waive or abrogate in any manner any rights of GE to insurance coverage for any matter, whether relating to SpinCo or any Transferred Subsidiary or otherwise; and GE will retain the exclusive right to control the GE insurance policies, including the right to exhaust, settle, release, commute, buy-back or otherwise resolve disputes with respect to any GE insurance policies and to amend, modify or

waive any rights under any such GE insurance policies, notwithstanding whether any such GE insurance policies apply to any liabilities or losses as to which SpinCo or any Transferred Subsidiary has made, or could in the future make, a claim for coverage;

TABLE OF CONTENTS

provided, that SpinCo and the Transferred Subsidiaries will cooperate with GE with respect to coverage claims and requests for benefits and sharing such information as is reasonably necessary in order to permit GE to manage and conduct its insurance matters as it deems appropriate.

The foregoing provisions will not limit, modify or in any way affect the rights and obligations of the parties under the indemnification provisions described above under —Mutual Release; Indemnification; *provided*, however, that any Insurance Proceeds actually collected with respect to a particular indemnifiable loss will be taken into account under and to the extent required by the indemnification provisions of the Separation Agreement. No payments due with respect to the above will be affected by, or be subject to set off against, any payments due pursuant to the cash and indebtedness adjustment provisions of the Separation Agreement discussed above under —Separation of GE Transportation—Cash, Debt and Receivables Adjustment. Whenever the insurance provisions of the Separation Agreement, as summarized in this section, require SpinCo or any Transferred Subsidiary to take any action after the closing of the Transactions, such requirement will be deemed to constitute an undertaking on the part of Wabtec to take such action or to cause SpinCo or such Transferred Subsidiary, as applicable, to take such action.

Termination

The Separation Agreement will terminate without further action at any time before the Distribution Effective Time upon termination of the Merger Agreement. If the Separation Agreement is so terminated, no party will have any liability of any kind to any other party or any other person on account of the Separation Agreement, except as provided in the Merger Agreement.

Assignment

The Separation Agreement and the rights and obligations under the Separation Agreement may not be assigned or delegated in whole or in part by any party by operation of law or otherwise without the express written consent of Wabtec, in the case of an attempted assignment or delegation by GE, or GE, in the case of an attempted assignment or delegation by Wabtec, Direct Sale Purchaser or SpinCo, except that Direct Sale Purchaser may assign or delegate any of its rights or obligations pursuant to this Agreement, in whole or in part, to one or more wholly owned subsidiaries of Wabtec (other than Merger Sub or any of its subsidiaries) without the prior consent of GE; provided that such assignment or delegation will not relieve Direct Sale Purchaser of its obligations under the Separation Agreement. Any attempted assignment that is not in accordance with this paragraph will be null and void.

Amendment and Waiver

Except as otherwise provided in the Separation Agreement with respect to the Internal Reorganization or amendments to the step plan for the Internal Reorganization provided by GE to Wabtec prior to the date of the Separation Agreement, no provision of the Separation Agreement may be amended or waived except by an instrument in writing signed by, in the case of an amendment, all of the parties to the Merger Agreement, or, in the case of a waiver, by the party or parties against whom the waiver is to be effective. For any amendments or waivers to the sections of the Separation Agreement relating to amendments and waivers, third-party beneficiaries, governing law, jurisdiction, waiver of jury trial and non-recourse to certain non-parties to the Merger Agreement that, in each case, adversely affect any of Wabtec's financing sources, the prior written consent of the affected financing sources will be required before such amendment or waiver is effective.

TABLE OF CONTENTS

OTHER AGREEMENTS

Wabtec, GE, SpinCo and Merger Sub and certain of their respective subsidiaries and stockholders, directors and officers, in each case as applicable, have entered into or, before the consummation of the Transactions, will enter into, certain other agreements relating to the Transactions and various interim and ongoing relationships among GE, SpinCo and Wabtec. The material terms of these agreements are summarized below.

Voting Agreement

In connection with the signing of the Merger Agreement, certain stockholders, directors and officers of Wabtec beneficially owning approximately 10.9% of the outstanding shares of Wabtec entered into the Voting Agreement with GE which will remain in effect until the earliest of (i) the date on which the applicable approval of the Share Issuance and the Wabtec Charter Amendment is obtained from Wabtec stockholders, (ii) the date on which the Merger Agreement is terminated in accordance with its terms, and (iii) one year after GE or Wabtec sends a notice of termination of the Merger Agreement that is not withdrawn prior to the end of such one-year period. This summary is qualified in its entirety by reference to the full text of the Voting Agreement, which is incorporated by reference into this prospectus-information statement. See [Where You Can Find More Information; Incorporation By Reference](#).

With respect to each stockholder party to the Voting Agreement, the Wabtec common stock covered by the Voting Agreement ([covered shares](#)) includes their existing shares (subject to certain permitted transfers), together with any shares of Wabtec common stock or other capital stock of Wabtec and any shares of Wabtec common stock or other capital stock of Wabtec issuable upon the conversion, exercise or exchange of securities that are as of the relevant date securities convertible into or exercisable or exchangeable for shares of Wabtec common stock or other capital stock of Wabtec, in each case that such specified stockholder has or acquires beneficial ownership of on or after May 20, 2018.

Each stockholder party to the Voting Agreement agreed that until expiration of the Voting Agreement, at any meeting of Wabtec stockholders, such stockholder will:

• appear or otherwise cause their covered shares to be counted as present for purposes of calculating a quorum; and
• vote (or cause to be voted), in person or by proxy, all of their covered shares:
in favor of the Share Issuance, the Wabtec Charter Amendment and any related action reasonably requested by GE;
against any action or agreement that would result in a breach of any covenant, representation or warranty or any other obligation or agreement of Wabtec in the Merger Agreement or of such stockholder in the Voting Agreement; and
against any Acquisition Proposal or Superior Proposal and against any other action, agreement or transaction involving Wabtec or its subsidiaries that would reasonably be expected to materially impede, interfere with, delay, postpone, adversely affect or otherwise materially adversely affect or prevent the consummation of the Merger or the other transactions contemplated by the Merger Agreement or the performance by Wabtec of its obligations under the Merger Agreement or by such stockholder of its obligations under the Voting Agreement.
Additionally, each applicable stockholder agreed (i) not to commence or participate in and (ii) to take all actions necessary to opt out of any claim against Wabtec, Merger Sub, GE, SpinCo or any of their respective affiliates relating to the Voting Agreement or the Merger Agreement or the consummation of the transactions contemplated thereby. Furthermore, each applicable stockholder agreed not to, at any time prior to expiration of the Voting Agreement (a) enter into any voting agreement or voting trust with respect to their covered shares, (b) grant a proxy, consent or power of attorney with respect to their covered shares, or (c) knowingly take any action that would make any representation or warranty of such stockholder untrue or incorrect or have the effect of preventing such stockholder from performing any of its obligations under the Voting Agreement.

Until the expiration of the Voting Agreement, each applicable stockholder agreed not to:

enter into agreement or take any action that violates or conflicts with (or would reasonably be expected to do the same) such stockholder's representations, warranties, covenants and obligations under the Voting Agreement, or

TABLE OF CONTENTS

take any action that could restrict or otherwise affect such stockholder's legal power, authority and right to comply with and perform its covenants and obligations under the Voting Agreement. Additionally, until expiration of the Voting Agreement, each applicable stockholder agreed not to request registration of the transfer of any of its covered shares or any certificate in respect thereof.

Until expiration of the Voting Agreement, subject to certain exceptions, each applicable stockholder is prohibited from transferring any of such stockholder's covered shares, beneficial ownership thereof or any other interest therein.

Nothing in the Voting Agreement limits or restricts a stockholder in his or her capacity as a director or officer of Wabtec from acting or voting in such capacity in such person's sole discretion or exercising such stockholder's fiduciary duties. No party may assign, delegate or otherwise transfer any of its rights or obligations under the Voting Agreement without the consent of the other parties.

Shareholders Agreement

In connection with the closing of the Transactions, Wabtec and GE will enter into a Shareholders Agreement governing the rights and obligations of Wabtec, GE and certain of GE's affiliates with respect to the shares of Wabtec common stock to be retained by GE following the completion of the Merger. The Shareholders Agreement sets out, among other things, standstill restrictions, a voting agreement, transfer restrictions and registration rights and procedures as further described below. This summary is qualified by reference to (i) the full text of the form of Shareholders Agreement, which is incorporated by reference into this prospectus-information statement, and (ii) the terms and conditions of the final Shareholders Agreement. See **Where You Can Find More Information; Incorporation By Reference**.

Pursuant to the Merger Agreement, GE will become the beneficial owner of a number of shares of Wabtec common stock in an amount equal to approximately 9.9% of Wabtec's outstanding common stock (the **Initial Shares**). The Initial Shares and any equity securities of Wabtec issued or issuable directly or indirectly to GE with respect to or on account of the Initial Shares (**subject shares**) are subject to the terms of the Shareholders Agreement.

Pursuant to the Shareholders Agreement, from the closing date of the Merger until the earlier of (i) the later of the 24-month anniversary of the closing date of the Merger and the 3-month anniversary of the date that GE and any of its permitted transferees that hold subject shares (**Stockholder Parties**) first cease to beneficially own any subject shares and (ii) a change of control of Wabtec (as defined below), the Stockholder Parties will not, and will cause all of their respective subsidiaries and controlled affiliates not to, directly or indirectly, unless approved by a majority of the Wabtec Board:

- acquire (or offer or agree to do the same) beneficial ownership of Wabtec common stock or any other security of Wabtec other than equity securities of Wabtec issued or issuable directly or indirectly with respect to or on account of the Initial Shares;

- make any statement or proposal to Wabtec or its stockholders regarding, or make any public announcement, proposal or offer or otherwise solicit or effect (whether directly or indirectly, publicly or otherwise):

- any business combination, merger, tender offer, exchange offer or similar transaction involving Wabtec or any of its subsidiaries that may reasonably be expected to result in a change of control;

- any restructuring, recapitalization, liquidation, dissolution or similar transaction involving Wabtec or any of its subsidiaries, including any material divestiture, break-up or spinoff;

- any acquisition of any equity securities of Wabtec or any of its subsidiaries or rights or options to acquire the same; or the composition of or election of any individual to the Wabtec Board;

- enter into any discussions, negotiations, arrangements or understandings with respect to the foregoing, or form, join or participate in a group with respect to Wabtec common stock in connection with any of the foregoing;

request, call or seek to call a meeting of Wabtec stockholders, nominate any individual for election to the Wabtec Board at any meeting of stockholders, submit any stockholder proposal to seek

TABLE OF CONTENTS

representation on the Wabtec Board or any other proposal to be considered by Wabtec stockholders, or recommend that any other Wabtec stockholders vote in favor of, or otherwise publicly comment favorably or unfavorably about, or solicit votes or proxies for, any such nomination or proposal submitted by another stockholder, or otherwise publicly seek to control or influence the Wabtec Board, management or policies of Wabtec;

• deposit any subject shares or any other Wabtec common stock in a voting trust or similar arrangement or subject such shares to any voting agreement, pooling arrangement or similar arrangement; or
• take any action which would reasonably be expected to require Wabtec to make a public announcement regarding any of the foregoing.

The foregoing limitations will not (i) preclude confidential proposals made by a Stockholder Party to the Wabtec Board or (ii) limit the activities of any person appointed to the Wabtec Board pursuant to the terms of the Merger Agreement taken in his or her capacity as a director of Wabtec.

For purposes of the Shareholders Agreement, a change of control of Wabtec includes an event(s) by which (i) any person or group directly or indirectly becomes the beneficial owner of 50% or more of outstanding Wabtec common stock, (ii) all or substantially all of the consolidated assets of Wabtec are sold, (iii) Wabtec is consolidated, merged, amalgamated, reorganized or otherwise enters into a similar transaction in which it is combined with another person, unless the persons who beneficially own the outstanding Wabtec common stock immediately before such transaction beneficially own a majority of the outstanding voting securities of the combined, resulting or surviving entity (or its parent) immediately thereafter, (iv) Wabtec stockholders approve of any plan or proposal for liquidation or dissolution, or (v) a majority of the Wabtec Board no longer consists of directors who were (i) a member of the Wabtec Board as of the date of the Shareholders Agreement, (ii) appointed to the Wabtec Board pursuant to the Merger Agreement or (iii) nominated or elected to the Wabtec Board with the approval of a majority of the then-existing Wabtec Board.

For as long as the Stockholder Parties hold subject shares, each Stockholder Party must vote all its subject shares in the same proportion as the votes cast by all Wabtec common stock not beneficially owned by the Stockholder Parties on such matter. So long as the Stockholder Parties, in the aggregate, hold at least 5% of the then-outstanding Wabtec common stock, Wabtec must meet with such Stockholder Parties representatives at such times as they may reasonably request.

Subject to certain exceptions, for a period of 90 days following the closing date of the Merger, the Stockholder Parties will not, directly or indirectly, offer, sell, contract to sell or otherwise dispose of any subject shares or any securities convertible into, or exercisable or exchangeable for subject shares, or publicly announce an intention to effect any such transaction. After such 90-day period, subject to certain exceptions, the subject shares will not be subject to transfer restrictions under the Shareholders Agreement except that the Stockholder Parties will be prohibited from transferring more than 1% of the outstanding Wabtec common stock to any person if such Stockholder Party actually knows (after reasonable inquiry) that the transferee holds 2% or more of outstanding Wabtec common stock prior to such transfer.

Pursuant to the Shareholders Agreement and subject to limited extensions, by no later than the third anniversary of the closing date of the Merger, the Stockholder Parties must sell all of the subject shares that they beneficially own.

The Shareholders Agreement will terminate with respect to each Stockholder Party at the time such Stockholder Party ceases to beneficially own any subject shares or, if earlier, upon the written agreement of Wabtec and such Stockholder Party.

Employee Matters Agreement

In connection with the Transactions, GE, SpinCo, Wabtec and Direct Sale Purchaser have agreed to enter into an Employee Matters Agreement with respect to the transfer of employees engaged in GE Transportation and related matters, including terms of employment, benefit plans and coverage and other compensation and labor matters. This summary is qualified by reference to (i) the full text of the form of Employee Matters Agreement, which is incorporated by reference into this prospectus-information statement, and (ii) the terms and conditions of the final Employee Matters Agreement, which will be entered into in connection with the completion of the Transactions. See Where You Can Find More Information; Incorporation By Reference.

TABLE OF CONTENTS

Offers of Employment and Continuing Employment

As of the closing date of the Merger, SpinCo will, or will cause one of its subsidiaries to, and Direct Sale Purchaser will cause a Direct Sale Transferred Subsidiary to, continue to employ each employee of SpinCo (or one of its subsidiaries) or a Direct Sale Transferred Subsidiary, as applicable (including accepting the employment of individuals whose employment automatically transfers to SpinCo, Direct Sale Purchaser or one of their respective subsidiaries as a result of certain transfer regulations), following the Distribution Date. In addition, Direct Sale Purchaser will, or will cause one of its subsidiaries to, offer employment to each other employee of GE or its affiliates who provides at least 80% of his or her business services in support of GE Transportation with such employment commencing on the closing date of the Merger (each, an Offer Employee). For Offer Employees who are inactive as of immediately prior to the Distribution, Direct Sale Purchaser will, or will cause one of its subsidiaries to, offer employment to each such inactive employee, provided that such inactive employee is able to commence, and actually commences, active employment with Direct Sale Purchaser (or one of its subsidiaries) no later than 12 months following the Distribution Date (or such longer period as required by applicable law). Each individual who continues or commences employment with Wabtec, SpinCo, Merger Sub or Direct Sale Purchaser in accordance with this paragraph is referred to herein as a Continuing Employee.

Terms and Conditions of Employment

For a period of 12 months following the closing date of the Merger, except where superseded by the terms of any collective bargaining agreement entered into on or after the closing date of the Merger, Wabtec and its subsidiaries (including SpinCo, Direct Sale Purchaser and any Direct Sale Transferred Subsidiary), or any of their respective affiliates, will provide to each Continuing Employee (i) at least the same salary or wages, same cash incentive compensation opportunities and same cash bonus opportunities as were provided to such Continuing Employee immediately prior to the Distribution, (ii) employee benefits having a comparable aggregate employer-provided value (including the value of tax qualified and non-tax qualified defined benefit plans and retiree health benefits) to those provided to such Continuing Employee immediately prior to the Distribution (excluding stock options and other equity awards, except as otherwise required by applicable law), and (iii) to the extent required by applicable law or a pension plan or bonus plan assumed by Wabtec or any of its subsidiaries or affiliates in connection with the Transactions, other material terms and conditions of employment as were provided to such Continuing Employee immediately prior to the Distribution.

In addition, Wabtec and its subsidiaries and affiliates will be required to (a) honor all obligations of GE and its affiliates to the Continuing Employees under any cash incentive or bonus program covering such employees as of immediately prior to the Distribution, (b) pay the Continuing Employees cash incentives or bonuses for the entire applicable performance measurement period which includes the Distribution in accordance with such programs, and (c) except where superseded by the terms of any collective bargaining agreement entered into on or after the closing date of the Merger, (x) provide vacation benefits to Continuing Employees that are at least as favorable as those provided by GE and its affiliates to such Continuing Employees immediately prior to the Distribution, (y) honor all obligations of GE, SpinCo and their respective affiliates for the accrued, unused vacation and paid time off of such Continuing Employees as of immediately prior to the Distribution, and (z) provide severance benefits to Continuing Employees who are laid off or terminated during the 12-month period following the closing date of the Merger with the same severance benefits that would have applied to the Continuing Employees under a severance or layoff plan of GE or its affiliates immediately prior to the closing date of the Merger (or, if higher, the severance benefits provided under the severance arrangements of Wabtec or one of its subsidiaries or affiliates applicable to similarly-situated employees) and to consider such employees for a *pro rata* bonus under the terms of a bonus plan of Wabtec, SpinCo or their respective affiliates for the year of termination.

Benefit Plan Assumption

Wabtec and its subsidiaries will assume certain (i) cash-based incentive programs covering the Continuing Employees, (ii) defined benefit pension and termination indemnity plans maintained outside of the United States (with reimbursement or indemnification by GE for certain underfunding with respect thereto), (iii) certain offer letters and employment contracts, and (iv) retention bonus agreements (provided that GE will reimburse Wabtec for any payments under such retention bonus agreements required to be paid by Wabtec that exceed \$32,500,000 in the aggregate).

TABLE OF CONTENTS

In addition, the parties will effect a transfer of Continuing Employees' accounts from any health or dependent care flexible spending account plan maintained by GE or its affiliates to the corresponding flexible spending account plans maintained by Wabtec or its subsidiaries.

Allocation of Liabilities

Wabtec and its subsidiaries will generally assume all liabilities relating to the Continuing Employees, as well as all pre-closing liabilities relating to employees of GE who are offered employment with Wabtec and its subsidiaries but who decline such offers of employment and all former employees who, immediately prior to their termination of employment, were employed by SpinCo or one of its subsidiaries or were providing at least 80% of their business services in support of GE Transportation. However, GE and its affiliates will retain all liabilities relating to the current collective bargaining agreements covering Continuing Employees who are based in the U.S. and any employee benefit plans, programs and arrangements that do not transfer to Wabtec or its subsidiaries in connection with the Transactions.

Wabtec and its subsidiaries will reimburse GE and its affiliates for any payments made with respect to claims incurred prior to the closing date of the Merger, by Continuing Employees who are based in the U.S. and their eligible spouses, dependents or qualified beneficiaries under any GE-sponsored benefit plans providing health, disability, workers' compensation, life insurance or similar benefits.

U.S. Labor Matters

Wabtec (including Direct Sale Purchaser and any of their respective subsidiaries or affiliates) will not assume any collective bargaining agreement between GE, or an affiliate of GE, and any labor organization representing any employees working for GE Transportation and employed in the United States (a U.S. CBA). If Wabtec or Direct Sale Purchaser is deemed to be a successor employer under the National Labor Relations Act, Wabtec will, or will cause Direct Sale Purchaser to, recognize and, if requested to, bargain in good faith as a successor employer with any labor organization that has been certified or recognized as the exclusive collective bargaining representative of any Continuing Employees who are Offer Employees.

SpinCo or a Direct Sale Transferred Subsidiary will assume each collective bargaining, works agreement or other agreement entered into between GE, or an affiliate of GE, and any labor union, works council or other labor organization representing any Continuing Employee employed outside of the United States (Non-U.S. CBAs), that covers any Continuing Employee employed outside of the United States, otherwise requires assumption by applicable law, or expressly states that such agreement applies to successors. With respect to each Non-U.S. CBA, GE and its affiliates must comply with certain obligations including (i) providing notice of the Distribution and Merger to each labor organization representing employees covered by Non-U.S. CBAs, if required under applicable law; (ii) ensuring that SpinCo or a Direct Sale Transferred Subsidiary recognizes and bargains in good faith with the applicable representative bodies in connection with the Transactions; (iii) complying with any consultation obligations in accordance with applicable law; and (iv) taking no actions in violation of applicable law pertaining to the protection of employee rights in the event of the transfer of undertakings. Wabtec and GE have agreed to cooperate in good faith to ensure that GE meets the foregoing obligations relating to each Non-U.S. CBA.

Prior to the effective time of the Merger, GE or one of its affiliates will comply with any notice and/or collective bargaining obligations under applicable law with respect to the Transactions, including advance notice to Wabtec of any material modifications to any U.S. CBA or Non-U.S. CBA; *provided* that, prior to the effective time of the Merger, GE retains the sole authority to agree to or implement any modifications.

Wabtec agrees to indemnify GE for any monetary losses suffered by GE or any of its affiliates as a result of pending or future claims asserted under any U.S. CBAs, with the exception of any claims asserted by Offer Employees (or labor organizations representing Offer Employees) pertaining to modification, termination or denial of any employee benefits that are not expressly allocated to SpinCo or a Direct Sale Transferred Subsidiary.

Non-U.S. Continuing Employees

Other than with respect to the collective bargaining agreements described above, the Employee Matters Agreement generally provides that SpinCo and Direct Sale Purchaser will, or will cause one of their respective affiliates to, in addition to meeting the requirements of the Employee Matters Agreement, comply with any

TABLE OF CONTENTS

additional obligations or standards required by applicable law governing the terms and conditions of employment of Continuing Employees based outside of the United States in connection with the Distribution. In addition, Wabtec will indemnify GE for certain severance or termination indemnities and related liabilities incurred by GE or its affiliates as a result of changes made after the Merger to any benefit plan or other employment terms and conditions for Continuing Employees who are resident outside of the U.S.

Non-Solicitation

GE and its subsidiaries will not, for the 12-month period following the closing date of the Merger, directly or indirectly solicit, induce or attempt to solicit or induce any Continuing Employee who was a member of GE's executive band or higher immediately prior to the Distribution to leave the employ of Wabtec or its subsidiaries or affiliates. Wabtec and its subsidiaries will not, for the 12-month period following the closing date of the Merger, directly or indirectly induce or attempt to induce to leave the employ of GE or its affiliates any person who at the time occupies, or at any time during the preceding 12 months occupied, a position: (i) assigned to the executive band or higher and working on matters relating to SpinCo, Direct Sale Transferred Subsidiary, the Merger or the Distribution or any subsidiary transferred pursuant to the Direct Sale, or (ii) in connection with the provision of services to Wabtec and its subsidiaries and affiliates pursuant to a transition services agreement.

Tax Matters Agreement

In connection with the Transactions, GE, SpinCo, Wabtec and Direct Sale Purchaser will enter into the Tax Matters Agreement that will govern the respective rights, responsibilities, and obligations of GE, Wabtec, SpinCo and their respective subsidiaries after the Distribution, the Merger and the Direct Sale with respect to tax liabilities and benefits, tax attributes, tax returns, tax contests and other tax matters. This summary is qualified by reference to (i) the full text of the form of Tax Matters Agreement, which is incorporated by reference into this prospectus-information statement, and (ii) the terms and conditions of the final Tax Matters Agreement. See [Where You Can Find More Information; Incorporation By Reference](#).

In general, the Tax Matters Agreement will govern the rights and obligations of GE, on the one hand, and SpinCo and Wabtec, on the other hand, after the Distribution with respect to taxes for tax periods (or portions thereof) ending on, before or after the Distribution Date. Subject to certain exceptions, under the Tax Matters Agreement:

GE generally will be responsible for (i) taxes of SpinCo and its subsidiaries, and taxes imposed on or in respect of the assets sold and the liabilities assumed pursuant to the Direct Sale, in each case, for tax periods (or portions thereof) ending on or before the Distribution Date, (ii) taxes arising with respect to the failure of the Distribution to qualify as a tax-free distribution to the GE stockholders pursuant to Section 355(a) of the Code or the failure of any of certain aspects of the Internal Reorganization to qualify for their intended tax-free treatment (except in certain cases where such tax liability arises (x) as a result of actions or failures to act, or breaches of the Tax Matters Agreement, by Wabtec, SpinCo or their subsidiaries, or (y) with respect to the assets of Wabtec, SpinCo or their subsidiaries, that affect, in each case, the intended tax treatment of the Distribution or Internal Reorganization), (iii) 100% of applicable transfer taxes relating to the Internal Reorganization and the SpinCo Transfer and 50% of other applicable transfer taxes, and (iv) taxes (other than transfer taxes) arising from the application of Section 355(e) of the Code to the Distribution and the making of elections under Section 336(e) of the Code with respect to the Distribution; and Wabtec and SpinCo generally will be responsible for (i) taxes of SpinCo and its subsidiaries, and taxes imposed on or in respect of the assets sold and the liabilities assumed pursuant to the Direct Sale, in each case, for tax periods (or portions thereof) ending after the Distribution Date, (ii) taxes arising (x) as a result of actions or failures to act, or breaches of the Tax Matters Agreement, by Wabtec, SpinCo or their subsidiaries, or (y) with respect to the assets of Wabtec, SpinCo or their subsidiaries, and affecting, in each case, the intended tax treatment of the Distribution or the Internal Reorganization, and (iii) 50% of applicable transfer taxes (except for transfer taxes relating to the Internal

Reorganization and the SpinCo Transfer).

Where the Tax Matters Agreement requires a party to pay an amount in respect of another person's taxes, such party also is generally required to pay related costs and expenses.

TABLE OF CONTENTS

In addition, the Tax Matters Agreement generally will prohibit SpinCo, Wabtec, and their subsidiaries from taking certain actions that could affect the intended tax treatment of the SpinCo Transfer, the Distribution, the Merger, or the Internal Reorganization, including the Merger's qualification as a reorganization within the meaning of Section 368(a) of the Code and the Distribution's qualification as a distribution that is tax-free to the GE stockholders pursuant to Section 355(a) of the Code. Among other things, subject to certain exceptions, for a two-year period following the Distribution Date, SpinCo, Wabtec, and their subsidiaries may not:

- cause or permit the cessation of the active conduct of certain of SpinCo's businesses, dispose of interests in any entity conducting such businesses, or change the U.S. tax classification of any such entity;
- redeem or repurchase any stock or stock rights of Wabtec, other than in certain open-market transactions; or
- merge, consolidate or amalgamate with any other person (other than pursuant to the Merger or mergers, consolidations or amalgamations in which SpinCo or Wabtec, as relevant, is the surviving party).

Subject to certain exceptions, the Tax Matters Agreement will also generally prohibit SpinCo, Wabtec, and their subsidiaries from taking any other action that would affect the intended tax treatment of the SpinCo Transfer, the Distribution, the Merger, or the Internal Reorganization or would increase the tax liability of GE or its affiliates with respect to tax periods (or portions thereof) ending on or before the Distribution Date. If SpinCo, Wabtec or any of their affiliates intends to take any of the restricted actions described in the Tax Matters Agreement, including the actions described above, Wabtec will be required to obtain an IRS ruling or an unqualified tax opinion reasonably satisfactory to GE to the effect that such action will not affect the intended tax treatment of the SpinCo Transfer, the Distribution, the Merger, or the Internal Reorganization (and GE will be required to cooperate in good faith in connection with Wabtec's efforts to obtain such IRS ruling or unqualified opinion). However, if SpinCo, Wabtec, or any of their affiliates takes any of the restricted actions described in the Tax Matters Agreement, including the actions described above, and such action results in tax-related losses to GE, then Wabtec may be required under the Tax Matters Agreement to indemnify GE for such losses, without regard to whether Wabtec has obtained such an IRS ruling or unqualified opinion.

GE and Wabtec intend that the Distribution will be tax-free to the GE stockholders pursuant to Section 355(a) of the Code but that the Distribution and/or certain related transactions will be taxable to GE. The Tax Matters Agreement (including portions thereof incorporated in the Merger Agreement) require or will require GE to take certain actions in support of this intended tax treatment, including using reasonable best efforts to obtain, prior to the closing of the Merger, an IRS ruling with respect to certain aspects of the Distribution that is reasonably satisfactory to GE and Wabtec, and selling certain stock of Wabtec received in the Merger in one or more public offerings meeting certain conditions within two years of the Distribution Date. In the event that GE cannot obtain such an IRS ruling, the parties intend to restructure the Distribution and related transactions and make appropriate revisions to the form of Tax Matters Agreement.

GE and Wabtec also intend that the Transactions will generally provide SpinCo, Direct Sale Purchaser and their respective domestic subsidiaries with increased tax bases in their assets equal, in most cases, to their fair market values as of the Distribution Date. These increased tax bases are expected to result in future reductions in Wabtec's tax liability that would not be realized by Wabtec if GE and Wabtec were to engage in a wholly tax-free transaction. The Tax Matters Agreement will require Wabtec to pay certain amounts, capped at a specified total, to GE as and when Wabtec realizes actual cash tax savings on account of such reductions in its tax liability. Wabtec's obligation to pay such amounts may be accelerated or increased upon the occurrence of certain specified events, including late payments by Wabtec, breaches by Wabtec of its obligations under the Tax Matters Agreement, or the occurrence of an insolvency, a bankruptcy or a similar proceeding, a default under a material lending arrangement, or a related event, in each case, with respect to Wabtec or its affiliates. GE will be required to repay certain amounts received under the Tax Matters Agreement on account of tax benefits of Wabtec that are later disallowed.

The Tax Matters Agreement will be binding on and inure to the benefit of any successor to any of the parties of the Tax Matters Agreement to the same extent as if such successor had been an original party to the Tax Matters Agreement.

TABLE OF CONTENTS

IP Cross License Agreement

Prior to the Distribution Effective Time, GE and SpinCo will enter into the IP Cross License Agreement, pursuant to which (i) GE will license to SpinCo certain intellectual property, software, technology, data and GE materials, and (ii) SpinCo will license to GE certain intellectual property, software, technology and data all as further described below. The IP Cross License Agreement will continue until terminated and may only be terminated upon mutual written agreement; however, the licenses granted thereunder survive termination.

Grants from GE to SpinCo

Pursuant to the IP Cross License Agreement, GE will grant to SpinCo the following rights and licenses (subject to the terms and conditions of any third party agreement pursuant to which applicable intellectual property, software, technology or data has been licensed to GE) along with certain covenants not to sue with respect to such rights and licenses:

GE will grant to SpinCo and its subsidiaries a non-exclusive, irrevocable, royalty-free, fully paid-up, worldwide, non-sublicensable and non-transferable (except as described below), perpetual right and license to use certain specified GE software solely as used (or contemplated to be used) by GE Transportation as of the date of the IP Cross License Agreement. The IP Cross License Agreement also prohibits marketing or reselling any element of such GE software;

GE will grant to SpinCo and its subsidiaries a non-exclusive, irrevocable, royalty-free, fully paid-up, worldwide, non-sublicensable and non-transferable (except as described below), perpetual right and license to use, improve, and commercialize certain specified GE intellectual property, GE technology, and GE data (collectively, the Specified GE Licensed Items) as used (or contemplated to be used) by GE Transportation as of the date of the IP Cross License Agreement, subject to certain restrictions;

GE will grant to SpinCo and its subsidiaries a non-exclusive, irrevocable, royalty-free, fully paid-up, worldwide, non-sublicensable and non-transferable (except as described below), perpetual right and license allowing SpinCo to use certain specified GE materials and create and develop improvements thereto; and

The licenses permit sublicensing to (i) an acquirer of all or substantially all of the assets of SpinCo and its subsidiaries to which the IP Cross License Agreement relates or (ii) customers or end-users in connection with products or services provided in substantially the same manner that such sublicenses were granted as of the Distribution Date.

Grants from SpinCo to GE and its Affiliates

Pursuant to the IP Cross License Agreement, SpinCo will grant to GE the following rights and licenses (subject to the terms and conditions of any third party agreement pursuant to which the applicable intellectual property, software, technology or data has been licensed to SpinCo) along with certain covenants not to sue with respect to such rights and licenses:

SpinCo will grant to GE and its affiliates a non-exclusive, irrevocable, royalty-free, fully paid-up, worldwide, non-sublicensable and non-transferable (except as described below), perpetual right and license to use certain specified SpinCo software, subject to certain restrictions;

SpinCo will grant to GE and its affiliates a non-exclusive, irrevocable, royalty-free, fully paid-up, worldwide, non-sublicensable and non-transferable (except as described below), perpetual right and license to use, improve, and commercialize certain specified SpinCo intellectual property, SpinCo technology and SpinCo data (collectively, the Specified SpinCo Licensed Items) subject to certain restrictions; and

The licenses permit sublicensing to an acquirer of any of the businesses, a line of business, or all or substantially all of the operations or assets of GE or such affiliates to which the IP Cross License Agreement relates.

Under the IP Cross License Agreement, each party will retain the sole right, but not the obligation, to protect the intellectual property, software, technology and data owned by such party.

The IP Cross License Agreement will place restrictions on SpinCo's use of the Jenbacher Type 6 Engine Platform and the intellectual property rights therein and on GE's use of the Powerhaul P616/P612 and the

TABLE OF CONTENTS

intellectual property rights therein. Additionally, pursuant to the IP Cross License Agreement, GE will agree not to assert certain claims it may have against SpinCo arising solely out of SpinCo's internal use of Six Sigma and LEAN software, documentation and materials owned by GE or any of its affiliates relating to the Six Sigma program. GE will also have certain obligations to assist SpinCo in its efforts to obtain non-exclusive licenses related to the Six Sigma program.

The IP Cross License Agreement is not assignable, in whole or in part, by SpinCo without the prior written consent of GE; except SpinCo may assign the IP Cross License Agreement (i) in whole but not in part, to an affiliate in connection with a corporate reorganization or (ii) in whole or in part to a subsidiary. GE is permitted, without the consent of SpinCo, to assign the IP Cross License Agreement or any of its rights and obligations thereunder to an affiliate that expressly assumes all of its obligations.

Trademark License Agreement

In connection with the Transactions, GE and SpinCo will enter into the Trademark License Agreement, effective as of the Distribution Date, pursuant to which GE will grant to SpinCo a license to use certain of the GE Names and Marks. Unless terminated or extended, the Trademark License Agreement will expire five years after the Distribution Date, but may be renewed by SpinCo, upon written notice to GE, for one additional five year period. All terms of the Trademark License Agreement will also remain in effect throughout any applicable grace period granted thereunder.

Under the Trademark License Agreement, GE will grant to SpinCo a personal, non-exclusive, non-transferable, non-assignable (except as described below), non-sublicensable (except to certain permitted subsidiaries as described below), license during the term of the Trademark License Agreement and any grace period to use certain of the GE Names and Marks only (i) as part of the new corporate name of SpinCo or certain of its subsidiaries or (ii) in connection with the manufacture by or for SpinCo or certain of its subsidiaries (including the right to have manufactured by vendors approved by GE) and the display, sale, marketing, advertising, promotion and distribution of certain licensed products. Licensed products include existing products and services bearing the applicable licensed GE Names and Marks that are sold in the licensed territory by GE Transportation under such GE Names and Marks as of the Distribution Date. SpinCo may request that the foregoing license be extended to cover additional products or services subject to GE's written approval.

The territory in which SpinCo will be permitted to use the licensed GE Names and Marks is worldwide, except for Cuba (unless SpinCo has a license or other authorization from the U.S. government permitting SpinCo's operation in Cuba with respect to the licensed products), Iran, North Korea, Syria and any other country(ies) that the U.S. government or GE reasonably determines is a state sponsor of terrorism and GE does not conduct business in such country(ies), upon written notice to SpinCo. The Trademark License Agreement also prohibits exercise of any rights granted under it with respect to any jurisdiction (i) in which the licensee group, its affiliates or GE is not permitted to conduct business, and (ii) to the extent that GE makes a policy determination that it and its affiliates will cease doing business in such jurisdiction.

The foregoing license will be royalty-free during the initial term and, if applicable, the renewal term. If the license is extended to cover additional products or services, it will be royalty-bearing at GE's then-current royalty rates.

Additionally, use of the licensed GE Names and Marks pursuant to the foregoing license must be in strict accordance with certain of GE's quality, safety, usage and other guidelines as well as other restrictions, covenants and approval rights granted to GE in the Trademark License Agreement.

Sublicensing of the rights and licenses will only be permitted when to one of SpinCo's direct or indirect subsidiaries engaged in the GE Transportation business as of the Distribution Date and which has executed an agreement to be

bound by all obligations of SpinCo under the Trademark License Agreement.

GE retains exclusive ownership of the licensed GE Names and Marks. All goodwill, rights or interests that might be acquired by the use of the licensed GE Names and Marks by the licensee group inure to the sole benefit of GE.

The Trademark License Agreement also governs the parties' rights and obligations with respect to registration as well as enforcement and defense of third party claims relating to the licensed GE Names and Marks. GE retains the sole right to protect the licensed GE Names and Marks in its sole discretion, including deciding whether and

TABLE OF CONTENTS

how to file and prosecute applications to register the licensed GE Names and Marks, whether to abandon such applications or registrations, and whether to discontinue payment of any maintenance or renewal fees with respect to any such registrations. GE retains the sole and exclusive right to determine whether or not action will be taken due to or against third party infringements or to otherwise terminate such infringements.

Should GE's trademark counsel render a legal opinion that concludes that use of the licensed GE Names and Marks becomes threatened as a result of a claim by a third party or applicable law or rule, regulation or policy of a governmental authority, then the licensee group must use its reasonable best efforts to cease use of the licensed GE Names and Marks upon notice from GE. In addition, in the event of any such opinion, GE's and SpinCo's respective trademark counsel will negotiate in good faith an amendment that modifies the Trademark License Agreement to the extent reasonably necessary to address the legal issue arising out of such third party claim or applicable law or rule, regulation or policy.

Except for liability for indemnification, GE's total liability under or related to the Trademark License Agreement is limited to \$1,000.

The Trademark License Agreement is not assignable, in whole or in part, by operation of law or otherwise without the prior written consent of both parties, except that GE is permitted to assign its rights and obligations to affiliates. Furthermore, the licensee group is prohibited from extending, sublicensing, conveying, pledging, encumbering, or otherwise disposing of the Trademark License Agreement or its rights or interest thereunder without the prior written consent of GE.

SpinCo will have the right to terminate the Trademark License Agreement upon six months' prior notice to GE. GE will have the right to terminate the Trademark License Agreement in the event of certain listed events including a change of control of SpinCo or certain of its subsidiaries without notice to and prior written consent of GE. For purposes of the Trademark License Agreement, change of control includes, with respect to SpinCo or the applicable subsidiary, the acquisition, directly or indirectly, of control of SpinCo or such subsidiary by a third party, either alone or pursuant to an arrangement or understanding with one or more persons.

The Trademark License Agreement also governs the parties' obligations with respect to recalls. Specifically, SpinCo bears any and all costs related to any product recall of licensed products, whether voluntary or required by a governmental authority or GE.

Transition Services Agreement

GE and SpinCo will enter into the Transition Services Agreement on the Distribution Date. Pursuant to the Transition Services Agreement, GE will provide SpinCo and its subsidiaries with certain services, including information technology, supply chain, financial, human resources and other specified services, as well as access to certain of GE's existing facilities. In addition, SpinCo will provide GE with certain limited post-Distribution services and facility access. The full scope of the transition services to be provided under the Transition Services Agreement will continue to be refined and supplemented by GE and SpinCo prior to the date of the Distribution.

The services provided by GE to SpinCo and by SpinCo to GE are generally planned to extend for an initial term of 18 to 24 months. In most cases, a recipient of a given service under the Transition Services Agreement can terminate the service prior to the applicable expiration date upon advanced notice given to the service provider (which, depending on the service, can be up to six months' prior notice), provided the recipient pays the additional costs incurred by the provider in connection with the early wind-down of the service. Certain individual services may be extended at no additional premium upon 60 days' prior written notice by the recipient and the provider will not unreasonably withhold its consent to any such extension requests, however, the total service period (including any extensions) with respect to

any service may not extend more than 24 months following the Distribution Date.

Services are generally provided at a base monthly service fee per service and the provider is permitted to increase a given service fee in the event that the provider's direct costs of providing such a service increases.

Additional Agreements

GE and SpinCo expect to enter into other commercial agreements or arrangements in connection with the separation of the operations of GE Transportation from GE, including, without limitation, agreements relating to certain research and development activities and co-location services.

TABLE OF CONTENTS

DEBT FINANCING

Overview

Wabtec and the other Borrowers entered into the Credit Agreement on June 8, 2018, which includes (i) a \$1.2 billion Revolving Credit Facility, (ii) a \$350.0 million Refinancing Term Loan and (iii) a \$400.0 million Delayed Draw Term Loan. Wabtec also obtained Bridge Commitments in respect of the Bridge Loan Facility in an amount not to exceed \$2.5 billion. On September 14, 2018, in accordance with the Commitment Letter, the Bridge Commitments were permanently reduced to \$0 in connection with Wabtec's issuance of \$500 million aggregate principal amount of the Floating Rate Notes, \$750 million aggregate principal amount of the 2024 Notes and \$1.25 billion aggregate principal amount of the 2028 Notes. The Credit Agreement is expected to have approximately \$812 million of unused availability immediately following consummation of the Transactions. In addition, the Credit Agreement contains an uncommitted accordion feature allowing Wabtec to request, in an aggregate amount not to exceed \$600.0 million, increases to the borrowing commitments under the Revolving Credit Facility or a new incremental term loan commitment.

The proceeds of the Refinancing Term Loan were used to refinance, in part, that certain Second Amended and Restated Refinancing Credit Agreement, dated as of June 22, 2016, by and among Wabtec, the other borrowers from time to time party thereto, the guarantors from time to time party thereto, the lenders from time to time party thereto, PNC Bank, National Association, as administrative agent, and the other agents from time to time party thereto. Wabtec will use funds available under the Delayed Draw Term Loan and the proceeds from the issuance of the New Wabtec Notes to pay the Direct Sale Purchase Price. The Revolving Credit Facility will be used for working capital needs and general corporate expenses.

The Credit Agreement

Guarantors

Pursuant to the Guarantee Agreement, dated as of June 8, 2018, by and among Wabtec, the subsidiary guarantors party from time to time thereto, and PNC Bank, National Association, as administrative agent, the obligations of the Borrowers under the Credit Agreement are guaranteed by certain of Wabtec's wholly owned subsidiaries, subject to certain carve-outs and exceptions.

Interest Rate; Commitment Fee

Wabtec will pay interest on the unpaid principal amount of each loan under the Credit Agreement at a rate per annum equal to (a) the sum of the alternate base rate plus an applicable margin for ABR loans or (b) LIBOR plus an applicable margin for LIBOR loans, which margins are subject to certain step-ups and step-downs based on the lower of the pricing corresponding to (i) Wabtec's Leverage Ratio (as defined below) or (ii) Wabtec's ratings by Moody's Investors Service, Inc., S&P Global Ratings or Fitch Ratings, Inc. of its senior unsecured non-credit enhanced long-term indebtedness for borrowed money (the Applicable Ratings), ranging from (i) 0.00% to 0.875% in the case of ABR loans and (ii) 1.00% to 1.875% in the case of LIBOR loans. Wabtec will pay to the Administrative Agent, for the account of each lender under the Revolving Credit Facility, an unused commitment fee calculated at the applicable rate based on the lower of the pricing corresponding to (x) Wabtec's Leverage Ratio or (y) Wabtec's Applicable Rating, ranging from 0.10% to 0.30%.

Repayment; Maturity

The Refinancing Term Loan amortizes in equal quarterly installments of 2.50% of the original principal amount of the Refinancing Term Loan, with the balance due on June 8, 2021. The Delayed Draw Term Loan will amortize in equal quarterly installments of 2.50% of the original principal amount of the Delayed Draw Term Loan, beginning after the funding of the Delayed Draw Term Loan and with the balance due on the third anniversary of such date. The Revolving Credit Facility will mature on June 8, 2023.

Prepayments

Voluntary prepayments of loans in whole or in part may be made at any time without premium or penalty, (i) on three business days' notice not later than 11:00 a.m. local time in the case of prepayment of LIBOR loans denominated in US Dollars, (ii) on four business days' notice not later than 11:00 a.m. local time in the case of prepayment of LIBOR loans denominated in an alternative currency or loans at the applicable average rate per

TABLE OF CONTENTS

annum for Canadian Dollar bankers acceptances as displayed on the applicable Bloomberg page (currently BTMM CA) (CDOR), and (iii) on one business day's notice not later than 11:00 a.m. local time in the case of prepayment of ABR loans; *provided* that prepayment of term or revolving LIBOR loans shall be subject to reimbursement for any related breakage costs. Voluntary prepayments will be applied ratably to the loans included in such prepayments.

The Credit Agreement requires that Wabtec (or the applicable borrower) make mandatory prepayments under the Revolving Credit Facility if, on any date, the aggregate revolving exposure exceeds 103% of the aggregate revolving commitment not later than three business days following such date. In addition, Wabtec (or the applicable borrower) shall make mandatory prepayments under the Revolving Credit Facility if, on any date, the aggregate revolving exposure exceeds the aggregate revolving commitment on the last day of any interest period for any LIBOR or CDOR revolving loan and not later than three business days following such date for any ABR revolving loan.

Representations; Covenants

The Credit Agreement contains customary representations and warranties by Wabtec and its subsidiaries, including customary use of materiality, material adverse effect, and knowledge qualifiers. Wabtec and its subsidiaries are also subject to (i) customary affirmative covenants that impose certain reporting obligations on Wabtec and its subsidiaries and (ii) customary negative covenants, including limitations on: indebtedness; liens; restricted payments; fundamental changes; business activities; transactions with affiliates; restrictive agreements; changes in fiscal year; and use of proceeds.

In addition, Wabtec is required to maintain (i) a ratio of EBITDA to interest expense of at least 3.00 to 1.00 over each period of four consecutive fiscal quarters ending on the last day of a fiscal quarter and (ii) a ratio of total debt, less unrestricted cash up to \$300.0 million, to EBITDA (Leverage Ratio), calculated as of the last day of a fiscal quarter for a period of four consecutive fiscal quarters, of 3.25 to 1.00 or less; *provided* that, in the event Wabtec completes the Direct Sale and the Merger or any other material acquisition in which the cash consideration paid exceeds \$500.0 million, the maximum Leverage Ratio permitted will be (x) 3.75 to 1.00 at the end of the fiscal quarter in which such acquisition is consummated and each of the three fiscal quarters immediately following such fiscal quarter and (y) 3.50 to 1.00 at the end of each of the fourth and fifth full fiscal quarters after the consummation of such acquisition.

Events of Default

Events of default under the Credit Agreement include the following (with customary qualifications and exceptions):

- nonpayment of principal, interest, fees or other amounts;
- nonpayment of other material indebtedness;
- non-compliance with loan documents, including violation of any covenants in the Credit Agreement;
- inaccuracy of representations and warranties;
- ERISA events;
- material judgments;
- actual or asserted invalidity of any loan documents;
- change of control; and
- bankruptcy, insolvency, or inability or refusal to pay debts as they become due.

The New Wabtec Notes

On September 14, 2018, Wabtec completed a public offering and sale of (i) \$500 million aggregate principal amount of its Floating Rate Senior Notes, (ii) \$750 million aggregate principal amount of its 2024 Notes and (iii) \$1.25 billion aggregate principal amount of its 2028 Notes. The offering and sale of the New Wabtec Notes was made pursuant to Wabtec's shelf registration statement (No. 333-219657) filed with the SEC.

TABLE OF CONTENTS

The New Wabtec Notes were issued pursuant to the New Wabtec Notes Indenture.

The Floating Rate Notes bear interest at a floating rate equal to the three-month LIBOR (as defined in the New Wabtec Notes Indenture) plus 1.05% per year and are payable quarterly on March 15, June 15, September 15 and December 15 of each year, commencing December 15, 2018. The 2024 Notes bear interest at 4.150% per year and the 2028 Notes bear interest at 4.700% per year, in each case, payable semi-annually on March 15 and September 15 of each year, commencing March 15, 2019. The interest rate payable on the New Wabtec Notes is subject to adjustment based on certain rating events.

The Floating Rate Notes will mature on September 15, 2021; the 2024 Notes will mature on March 15, 2024; and the 2028 Notes will mature on September 15, 2028.

Wabtec may redeem the Floating Rate Notes, in whole or in part, at any time on or after September 16, 2019 at a redemption price equal to 100% of the principal amount of the Floating Rate Notes to be redeemed, plus accrued and unpaid interest to, but not including, the date of redemption.

Wabtec may redeem the 2024 Notes at any time prior to February 15, 2024, in whole or in part, by paying a make-whole premium, as described in the New Wabtec Notes Indenture. At any time on or after February 15, 2024, Wabtec may redeem the 2024 Notes, in whole or in part, at a redemption price equal to 100% of the principal amount of the 2024 Notes to be redeemed, plus accrued and unpaid interest to, but not including, the date of redemption.

Wabtec may redeem the 2028 Notes at any time prior to June 15, 2028, in whole or in part, by paying a make-whole premium, as described in the New Wabtec Notes Indenture. At any time on or after June 15, 2028, Wabtec may redeem the 2028 Notes, in whole or in part, at a redemption price equal to 100% of the principal amount of the 2028 Notes to be redeemed, plus accrued and unpaid interest to, but not including, the date of redemption.

All payments with respect to the New Wabtec Notes are fully and unconditionally guaranteed, jointly and severally, on an unsecured basis by each of Wabtec's current and future subsidiaries that is a guarantor under the Credit Agreement or any other debt of Wabtec or any other guarantor.

If a change of control triggering event (as defined in the New Wabtec Notes Indenture) occurs, Wabtec must make an offer to purchase the New Wabtec Notes of each series at a price equal to 101% of their principal amount, plus accrued and unpaid interest to, but not including, the date of repurchase.

In the event (i) the Transactions have not closed by 5:00 p.m., New York City time, on August 20, 2019 (the Special Mandatory Trigger Date), or (ii) the Merger Agreement and the Separation Agreement are terminated, other than in connection with the consummation of the Transactions, at any time prior to the Special Mandatory Trigger Date, Wabtec will be required to redeem the New Wabtec Notes of each series, in whole at a special mandatory redemption price equal to 101% of the principal amount of such New Wabtec Notes, plus accrued and unpaid interest from the last date on which interest was paid or, if interest has not been paid, the issue date of such New Wabtec Notes, to, but not including, the payment date of such special mandatory redemption.

The New Wabtec Notes are subject to customary events of default, as set forth in the New Wabtec Notes Indenture. The New Wabtec Notes are subject to covenants that limit Wabtec's ability, and the ability of Wabtec's restricted subsidiaries, to (i) incur, suffer to exist or guarantee any debt secured by certain liens and (ii) enter into sale and leaseback transactions, in each case, subject to exceptions and qualifications, as set forth in the New Wabtec Notes Indenture.

The New Wabtec Notes are Wabtec's senior unsecured obligations and rank equally in right of payment with Wabtec's other senior unsecured indebtedness outstanding from time to time. The New Wabtec Notes are effectively subordinated to Wabtec's existing and future secured indebtedness to the extent of the assets securing that indebtedness and effectively subordinated to any existing and future indebtedness and other liabilities, including trade payables, of Wabtec's subsidiaries that do not guarantee the New Wabtec Notes. The guarantees of the New Wabtec Notes will be the senior unsecured obligations of each guarantor, ranking equally in right of payment with all existing and future unsecured and unsubordinated indebtedness of such guarantor. The

TABLE OF CONTENTS

guarantees of the New Wabtec Notes will be effectively subordinated to existing and future secured indebtedness of such guarantor to the extent of the value of any assets securing that indebtedness and effectively subordinated to the existing and future indebtedness and other liabilities of subsidiaries of such guarantor that do not guarantee the New Wabtec Notes.

The foregoing is a summary of the material terms of the New Wabtec Notes Indenture. Accordingly, the foregoing is qualified in its entirety by reference to the full text of the New Wabtec Notes Indenture. See [Where You Can Find More Information; Incorporation By Reference](#).

TABLE OF CONTENTS

INFORMATION ON WABTEC

Overview

Westinghouse Air Brake Technologies Corporation, doing business as Wabtec Corporation, is a Delaware corporation with headquarters in Wilmerding, Pennsylvania. George Westinghouse founded the original Westinghouse Air Brake Co. in 1869 when he invented the air brake. Westinghouse Air Brake Company was formed in 1990 when it acquired certain assets and operations from American Standard, Inc., now known as Trane. The company went public on the New York Stock Exchange in 1995. In 1999, the company merged with MotivePower Industries, Inc. and adopted the name Wabtec. In 2017, Wabtec acquired Faiveley Transport, a leading provider of value-added, integrated systems and services, principally for the global transit rail market. Today, Wabtec is one of the largest providers of value-added, technology-based equipment, systems and services for the global passenger transit and freight rail industries. Through its subsidiaries, Wabtec manufactures a range of products for locomotives, freight cars and passenger transit vehicles. Wabtec also builds new switcher and commuter locomotives, and provides aftermarket services. Wabtec has roughly 18,000 employees and facilities located throughout the world.

Wabtec provides its products and services through two principal business segments, the Transit Segment and the Freight Segment, both of which have different market characteristics and business drivers. The acquisition of Faiveley Transport significantly strengthened Wabtec's capabilities and presence in the worldwide transit market.

The Transit Segment primarily manufactures and services components for new and existing passenger transit vehicles, typically regional trains, high speed trains, subway cars, light-rail vehicles and buses; supplies rail control and infrastructure products including electronics, positive train control equipment, and signal design and engineering services; builds new commuter locomotives; and refurbishes passenger transit vehicles. Customers include public transit authorities and municipalities, leasing companies, and manufacturers of passenger transit vehicles and buses around the world. Demand in the transit market is primarily driven by general economic conditions, passenger ridership levels, government spending on public transportation, and investment in new rolling stock. The addition of Faiveley Transport's key products strengthened Wabtec's presence in the following areas: high-speed braking and door systems; heating, ventilation and air conditioning systems; pantographs and power collection; information systems; platform screen doors and gates; couplers; and aftermarket services, maintenance and spare parts. Geographically, Faiveley Transport significantly strengthened Wabtec's presence in the European and Asia Pacific transit markets.

The Freight Segment primarily manufactures and services components for new and existing locomotives and freight cars; supplies rail control and infrastructure products including electronics, positive train control equipment, and signal design and engineering services; overhauls locomotives; and provides heat exchangers and cooling systems for rail and other industrial markets. Customers include large, publicly traded railroads, leasing companies, manufacturers of original equipment such as locomotives and freight cars, and utilities. Demand is primarily driven by general economic conditions and industrial activity; traffic volumes, as measured by freight carloadings; investment in new technologies; and deliveries of new locomotives and freight cars.

For a more detailed description of the business of Wabtec, see Wabtec's annual report on Form 10-K for the year ended December 31, 2017, which is incorporated by reference in this prospectus-information statement. See [Where You Can Find More Information](#); Incorporation by Reference.

Wabtec's Business After the Consummation of the Transactions

The combination of GE Transportation with Wabtec's existing business is intended to add GE Transportation's global digital solutions and supplier relationships in the rail, mining, marine, stationary power and drilling industries to Wabtec's broad range of freight, transit and electronics solutions.

Wabtec expects the Transactions to have the following strategic benefits:

Increased Scale and Diversification of Wabtec's Product Portfolio with Focus on Transportation Industry. As a result of the Transactions, Wabtec expects the combined business to be one of the world's largest providers of technology-enabled equipment, systems and services for the locomotive, freight and passenger rail industries with approximately \$8.0 billion in revenue and 25,000 employees in 52 countries.

TABLE OF CONTENTS

Complementary Digital Technologies. GE Transportation will contribute a comprehensive digital portfolio and leading engineering and technical intellectual property to Wabtec, providing electronics and digital technologies that position the combined company to meet growing demand for train intelligence and network optimization.

Enhanced Aftermarket and Services Opportunities. The combined entity will have an installed base of over 22,500 locomotives and content on virtually all North American locomotives and freight cars, which enables significant opportunities in the high-margin aftermarket parts and services business and mitigates the combined company's exposure to cycles.

Significant Operating Synergies. The consummation of the Transactions is expected to generate \$250.0 million total run-rate operating synergies, driven by cost and revenue opportunities, within four years after closing.

Improved Financial Profile. The consummation of the Transactions will enhance Wabtec's margins and revenue growth opportunities with strong free cash flow generation to enable strategic deleveraging. The combination is also expected to generate a net tax benefit of approximately \$1.1 billion over the next 15 years.

Prior to the consummation of the Transactions, certain functions for GE Transportation have generally been performed under GE's centralized systems and, in some cases, under contracts that are also used for GE's other businesses which are not being sold in the Direct Sale or assigned to SpinCo as part of the Transactions. To enable Wabtec to manage an orderly transition in its operation of GE Transportation, GE or its subsidiaries and SpinCo or the SpinCo Transferred Subsidiaries will enter into the Additional Agreements relating to, among other things, intellectual property, employee matters, tax matters, research and development and transition services. See Other Agreements—Additional Agreements.

Wabtec's Liquidity and Capital Resources After the Consummation of the Transactions

Wabtec had current assets of \$2.27 billion, total assets of \$6.58 billion, current liabilities of \$1.57 billion and long-term debt of \$1.82 billion as of December 31, 2017. Following the consummation of the Transactions, Wabtec's total assets and liabilities will increase significantly.

On a pro forma basis (as described in Unaudited Pro Forma Condensed Combined Financial Statements), Wabtec would have had current assets of \$4.06 billion, total assets of \$21.53 billion, current liabilities of \$3.03 billion and long-term debt of \$4.70 billion as of December 31, 2017. Wabtec's cash from operations was \$188.8 million for the year ended December 31, 2017. Wabtec also expects its cash from operations to increase significantly as a result of the consummation of the Transactions and the integration of GE Transportation.

Wabtec believes that the combination of GE Transportation with Wabtec's existing business will result in anticipated realization of \$250.0 million total run-rate operating synergies, driven by cost and revenue opportunities, within four years after closing. If Wabtec is able to increase sales to new and existing customers and access new product and services markets as a result of the Transactions, Wabtec estimates that additional annualized synergies potentially may be achievable.

Wabtec expects to incur significant, one-time costs in connection with the Transactions, some of which will be capitalized, including approximately \$35.0 million of financing-related fees, approximately \$60.0 million of transaction-related costs (including advisory, legal, accounting and other professional fees) and approximately \$88.0 million of transition and integration-related costs (a portion of which will be incremental capital spending), which Wabtec management believes to be necessary to realize the anticipated synergies from the Transactions. The incurrence of these costs may have a material adverse effect on Wabtec's liquidity, cash flows and operating results in the periods in which they are incurred. The transition and integration-related costs will be incurred during the first three years following the consummation of the Transactions, and will primarily be funded through cash generated from operations. No assurances of the timing or amount of synergies able to be captured, or the costs necessary to achieve those synergies, can be provided.

Wabtec and the other Borrowers entered into the Credit Agreement on June 8, 2018, which includes (i) the \$1.2 billion Revolving Credit Facility, which replaced Wabtec's previous revolving credit facility, (ii) the \$350.0 million Refinancing Term Loan, which refinanced Wabtec's previous term loan, and (iii) the \$400.0 million Delayed Draw Term Loan. Wabtec also obtained Bridge Commitments in respect of the Bridge

TABLE OF CONTENTS

Loan Facility in an amount not to exceed \$2.5 billion. On September 14, 2018, in accordance with the Commitment Letter, the Bridge Commitments were permanently reduced to \$0 in connection with Wabtec's issuance of \$500 million aggregate principal amount of the Floating Rate Notes, \$750 million aggregate principal amount of the 2024 Notes and \$1.25 billion aggregate principal amount of the 2028 Notes. Wabtec will use funds available under the Delayed Draw Term Loan and the proceeds from the issuance of the New Wabtec Notes to pay the Direct Sale Purchase Price. See Debt Financing.

Wabtec anticipates that its primary sources of liquidity for working capital and operating activities, including any future acquisitions, will be cash from operations and borrowings under the Credit Agreement, which is expected to have \$812 million of unused availability immediately following the consummation of the Transactions. Wabtec expects that these sources of liquidity will be sufficient to make required payments of interest and principal on the outstanding Wabtec debt and to fund working capital and capital expenditure requirements, including the significant one-time costs relating to the Transactions described above, and the costs of future acquisitions. Wabtec expects that it will be able to comply with the financial and other covenants of its existing debt arrangements and the covenants under the agreements governing the Credit Agreement and the New Wabtec Notes.

For more information on GE Transportation's and Wabtec's existing sources of liquidity, see the section of this prospectus-information statement entitled Management's Discussion and Analysis of Financial Condition and Results of Operations for GE Transportation and the sections entitled Management's Discussion and Analysis of Financial Condition and Results of Operations included in Wabtec's current report on Form 8-K filed with the SEC on September 10, 2018, which is incorporated by reference in this prospectus-information statement. See Where You Can Find More Information; Incorporation by Reference.

Directors and Officers of Wabtec Before and After the Consummation of the Transactions

Board of Directors

The Wabtec Board currently consists of 12 directors. In connection with the Transactions, the size of the Wabtec Board will be increased to include three additional directors, each of whom is required to be independent as defined in the listing standards of the NYSE, to be designated as nominees by GE (subject to the nominees being reasonably acceptable to the Nominating and Corporate Governance Committee of the Wabtec Board). See The Merger Agreement—Post-Closing Wabtec Board of Directors and Officers.

Listed below is the biographical information for each person who is currently a member of the Wabtec Board:

Philippe Alfroid has over three decades of experience in executive and board positions in a variety of industries, including the transportation industry and large international companies. His knowledge of the transportation industry, understanding of Wabtec and his experience as a director of Faiveley Transport, S.A., make him well suited to provide guidance to the Wabtec Board while Faiveley has been integrated with Wabtec.

Raymond T. Betler currently is the President and Chief Executive Officer of Wabtec, a position he has held since May 2014. As a member of Wabtec's Executive Office since 2008 and as Chief Operating Officer from 2010 to 2014, he has helped to lead Wabtec on an unprecedented record of growth. His leadership, business acumen and more than three decades of experience in the transportation industry have played an important role in Wabtec's recent success. Through his service on corporate and non-profit boards, he has developed insight into corporate governance and public company issues.

Robert J. Brooks had an extensive career as an executive at Wabtec, including serving as its Chief Financial Officer for many years. His thorough knowledge of Wabtec and the rail industry, and his financial background and experience

have enabled him to provide an important executive and leadership perspective to the Wabtec Board and to Wabtec.

Erwan Faiveley was a member of the Board of Faiveley Transport, S.A., a leading provider of value-added, integrated systems and services that now is a wholly owned subsidiary of Wabtec, from January 2005 until December 2016. Mr. Faiveley also has served as President and Chairman of the Board of Financière Faiveley S.A. and Famille Faiveley Participations S.A.S. since January 2005, and is a Manager (Gérant) of Faivinvest S.C.A. Mr. Faiveley has over 11 years of experience in executive and board positions in the financial and transportation industry. His knowledge of the transportation industry and his experience as a director of Faiveley Transport, S.A. make him well suited to provide guidance to the Wabtec Board while Faiveley has been integrated with Wabtec.

TABLE OF CONTENTS

Emilio A. Fernandez has over 30 years of experience in executive positions in the railroad industry. His knowledge of the rail market, understanding of Wabtec's products and his overall business acumen provide the Wabtec Board with an executive and leadership perspective on Wabtec and the railroad industry in general.

Lee B. Foster, II has had an extensive career within the railroad industry, including 35 years with the L.B. Foster Co., a supplier to the railroad and transit industries, where he has served in a multitude of roles including President, CEO and Chairman, as well as Director. Mr. Foster brings to the Wabtec Board not only a solid background within the industry, but also his experience on various boards and committees, including the executive committee of DM&E and the audit and compensation committees of the private company Capital Guidance Ltd.

Linda S. Harty has extensive financial expertise, particularly in the areas of treasury, tax, decision support and acquisitions, which will serve as a valuable resource to Wabtec's Board and Wabtec's management team. Ms. Harty's insights and perspectives will be especially helpful as Wabtec continues to strengthen and grow while navigating a challenging global market. In addition, her service to the boards of other publicly traded companies provides further expertise and insight into corporate governance issues.

Brian B. Hehir has had an extensive career in global financial markets with over 30 years of experience working in investment banking, financing, corporate advisory services and capital markets. In this capacity, he advised clients on mergers and acquisitions and other corporate transactions, which are an integral part of Wabtec's growth strategy. His experience from the highly regulated investment banking industry also provides the Wabtec Board with a critical perspective on risk management.

Michael W.D. Howell has 35 years of experience from executive and board positions with various companies in the railroad business, such as Cummins Engine Company, Inc., GE Canada, Inc., General Electric Company, Inc., Railtrack Group PLC and Transport Initiatives Edinburgh Limited. His understanding of many aspects of the United States and international railroad industries, as well as his CEO and Chairman experience, provides the Wabtec Board with a broad and relevant background regarding the management and operations of a growing public company in the railroad industry.

William E. Kassling has experience as an officer and director of Wabtec, he has extensive knowledge of Wabtec and the industry, and has also served as a board member for other publicly traded companies, through which he has gained additional experience in corporate governance. With his vast experience, he provides the Wabtec Board with broad leadership insight on the management and operations of a public company.

Albert J. Neupaver was re-appointed Executive Chairman of Wabtec in May 2018. Prior to that, Mr. Neupaver served as Chairman of Wabtec since May 2017 and as Executive Chairman of Wabtec from May 2014 to May 2017. Previously, he served as Chairman and CEO from May 2013 to May 2014 and as Wabtec's President and CEO from February 2006 to May 2013. Prior to joining Wabtec, Mr. Neupaver served in various positions at AMETEK, Inc., a leading global manufacturer of electronic instruments and electric motors. Most recently he served as President of its Electromechanical Group for nine years.

Stéphane Rambaud-Measson has a wealth of experience in the transportation industry. Mr. Rambaud-Measson's experience as a multinational executive at various rail companies, including as the chief executive officer of Faiveley Transport, makes him well suited to provide guidance to the Wabtec Board while Faiveley has been integrated with Wabtec.

Executive Officers

The executive officers of Wabtec immediately prior to consummation of the Merger are generally expected to be the executive officers of Wabtec immediately following consummation of the Merger, with Albert J. Neupaver remaining as Wabtec's executive chairman and Raymond T. Betler remaining as Wabtec's president and CEO. Following consummation of the Transactions, Stéphane Rambaud-Measson will become president and CEO of Wabtec's Transit Segment and Rafael O. Santana, president and CEO of GE Transportation, will become president and CEO of Wabtec's Freight Segment. Listed below is the biographical information for each person who is currently an executive officer of Wabtec:

Albert J. Neupaver was re-appointed Executive Chairman of Wabtec in May 2018. Prior to that, Mr. Neupaver served as Chairman of Wabtec since May 2017 and as Executive Chairman of Wabtec from May 2014 to May 2017. Previously, he served as Chairman and CEO from May 2013 to May 2014 and as Wabtec's President

TABLE OF CONTENTS

and CEO from February 2006 to May 2013. Prior to joining Wabtec, Mr. Neupaver served in various positions at AMETEK, Inc., a leading global manufacturer of electronic instruments and electric motors. Most recently he served as President of its Electromechanical Group for nine years.

Raymond T. Betler was named President and Chief Executive Officer in May 2014. Previously, Mr. Betler was President and Chief Operating Officer since May 2013 and Wabtec's Chief Operating Officer since December 2010. Prior to that, he served as Vice President, Group Executive of Wabtec since August 2008. Prior to joining Wabtec, Mr. Betler served in various positions of increasing responsibility at Bombardier Transportation since 1979. Most recently, Mr. Betler served as President, Total Transit Systems from 2004 until 2008 and before that as President, London Underground Projects from 2002 to 2004.

Stephane Rambaud-Measson was named Executive Vice President and Chief Operating Officer in May 2017. Prior to that, Mr. Rambaud-Measson served as Executive Vice President, President and CEO, Transit Segment from December 2016. Previously, Mr. Rambaud-Measson was Chairman of the Management Board and Chief Executive Officer of Faiveley Transport from April 2014 until November 30, 2016. Prior to that position, he served as Executive Vice President of Faiveley Transport from March 2014 to April 2014. Prior to joining Faiveley Transport, Mr. Rambaud-Measson was Chief Executive Officer of Veolia Verkehr. Prior to that, Mr. Rambaud-Measson served in various management roles at Bombardier Transport including President of the Passengers Division beginning in 2008. Before that, in 2005, he was appointed President of Mainline & Metro after serving as Group Vice President Project Management and Administration, which he began in 2004.

Patrick D. Dugan was named Executive Vice President and Chief Financial Officer effective December 2016. Previously Mr. Dugan served as Senior Vice President and Chief Financial Officer since January 2014. Previously, Mr. Dugan was Senior Vice President, Finance and Corporate Controller from January 2012 until November 2013. He originally joined Wabtec in 2003 as Vice President, Corporate Controller. Prior to joining Wabtec, Mr. Dugan served as Vice President and Chief Financial Officer of CWI International, Inc. from December 1996 to November 2003. Prior to 1996, Mr. Dugan was a Manager with PricewaterhouseCoopers.

David L. DeNinno was named Executive Vice President, General Counsel and Secretary of Wabtec effective December 2016. Previously, Mr. DeNinno served as Sr. Vice President, General Counsel and Secretary since February 2012. Previously, Mr. DeNinno served as a partner at K&L Gates LLP since May 2011 and prior to that with Reed Smith LLP.

Scott E. Wahlstrom was named Executive Vice President, Human Resources effective December 2016. Previously, Mr. Wahlstrom served as Senior Vice President, Human Resources since January 2012. Prior to that, Mr. Wahlstrom has been Vice President, Human Resources, since November 1999. Previously, Mr. Wahlstrom was Vice President, Human Resources & Administration of MotivePower Industries, Inc. from August 1996 until November 1999.

John A. Mastalerz was named Senior Vice President of Finance, Corporate Controller and Principal Accounting Officer in July 2017. Previously, Mr. Mastalerz served as Vice President and Corporate Controller from January 2014 to July 2017. Prior to joining Wabtec, Mr. Mastalerz served in various executive management roles with the H.J. Heinz Company from January 2001 to December 2013, most recently as Corporate Controller and Principal Accounting Officer. Prior to 2001, Mr. Mastalerz was a Senior Manager with PricewaterhouseCoopers.

Paul I. Overby was named Vice President, Corporate Strategy in January of 2016. Prior to joining Wabtec, Mr. Overby was founder and President of Paul Overby Associates from 2009 and prior to that, Mr. Overby served in various executive management roles at Bombardier.

Timothy R. Wesley was named Vice President, Investor Relations and Corporate Communications in November 1999. Previously, Mr. Wesley was Vice President, Investor and Public Relations of MotivePower Industries, Inc. from August 1996 until November 1999.

TABLE OF CONTENTS

INFORMATION ON GE

GE is a global digital industrial company, transforming industry with software-defined machines and solutions that are connected, responsive and predictive. With products and services ranging from aircraft engines, power generation and oil and gas production equipment to medical imaging, financing and industrial products, GE serves customers in over 180 countries and employed approximately 313,000 people worldwide as of December 31, 2017. Since GE's incorporation in 1892, GE has developed or acquired new technologies and services that have considerably broadened and changed the scope of GE's activities.

GE's principal executive offices are located at 41 Farnsworth Street, Boston, Massachusetts, 02210, and its telephone number is (617) 443-3000. GE's internet address is <http://www.ge.com>. Please note that GE's internet address is included in this prospectus-information statement as an inactive textual reference only. The information contained on GE's website is not incorporated by reference into this prospectus-information statement or any future documents that may be filed with the SEC and should not be considered part of this document. GE makes available on this website, free of charge, its Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to those reports as soon as reasonably practicable after it electronically files or furnishes such materials with or to the SEC. Investors may access these filings in the Investor Relations section of GE's website.

For a more detailed description of the business of GE, please see GE's Annual Report on Form 10-K for the fiscal year ended December 31, 2017 filed with the SEC. The information contained on GE's filings and reports is not incorporated by reference into this prospectus-information statement and should not be considered part of this prospectus-information statement.

TABLE OF CONTENTS

INFORMATION ON GE TRANSPORTATION

Overview

GE Transportation is a leading global provider of products and solutions to transportation, logistics and other industrial markets. GE Transportation designs, engineers and manufactures diesel-electric locomotives, supplies associated aftermarket parts and services and provides digital solutions.

GE Transportation's culture of innovation and differentiated aftermarket solutions has allowed it to build a leading global installed base of diesel-electric locomotives, significant contracted services backlog and longstanding customer relationships. GE Transportation's products and services, which are globally recognized for their quality, reliability, fuel efficiency and emissions compliance, are important to GE Transportation's customers' operating and financial success and help enable them to operate with reliability and efficiency.

Leveraging GE Transportation's engineering history and heritage in diesel-electric locomotives, GE Transportation has continued to expand its technologies into new products, end markets and logistics applications. For example, GE Transportation uses its core locomotive manufacturing competencies to produce electric motors and premium propulsion systems for mining, marine, stationary power and drilling applications. GE Transportation also has used its engineering and software capabilities to build a digital business that delivers significant benefits across the transportation, logistics and mining landscape.

These attributes combined have fostered strong brand loyalty and generated longstanding customer relationships, which contribute to GE Transportation's leading market positions.

As of December 31, 2017, GE Transportation's North American installed base was more than 16,200 diesel-electric locomotives and kits, comprising the largest portion of GE Transportation's global installed base of more than 22,500 diesel-electric locomotives. As of December 31, 2017, GE Transportation had sales in more than 50 countries and eight primary manufacturing facilities and approximately 8,500 employees worldwide. For the year ended December 31, 2017, GE Transportation generated revenue of \$3,930 million and net earnings of \$374 million.

For over 110 years, GE Transportation has served the worldwide rail industry, which is a critical component of the global transportation system and the global economy. In North America, railroads carry approximately 28% of total freight, as measured by ton-miles, and over 40% of long distance freight travelling over 750 miles, which is more than any other mode of transportation. Rail is one of the most cost-effective, energy-efficient modes of transport, both domestically and internationally.

GE Transportation's North American customers are principally Class I railroads. GE Transportation's international customers are principally international freight railroads in Latin America, Russia/Commonwealth of Independent States (CIS), Australia, India and Sub-Saharan Africa, who depend on diesel-electric locomotives. GE Transportation's diverse product portfolio is designed to cater to the varying requirements of Class I and international railroads.

GE Transportation's customers' ongoing usage of locomotives and associated wear and tear on the equipment generate opportunities to support railroads with aftermarket parts and services. Railroads place a high value on reliability, fuel efficiency and minimal downtime. As a result, the availability of replacement parts and GE Transportation's maintenance and overhaul services are important value drivers for GE Transportation's customers and generate high-margin recurring revenue opportunities.

GE Transportation's business experienced significant headwinds in 2016 and 2017 due to a downturn in the U.S. freight rail industry. GE Transportation has recently undergone a set of transformation and restructuring initiatives,

including expanding GE Transportation's international footprint, optimizing GE Transportation's supply base and utilizing digitization and lean manufacturing to enhance the efficiency and effectiveness of GE Transportation's total supply chain. GE Transportation believes these initiatives have resulted in a more streamlined cost structure and optimized workforce to position GE Transportation for growth in the recovering U.S. freight rail market and in international markets.

TABLE OF CONTENTS

As part of GE Transportation's transformation and restructuring initiatives, it reorganized itself into three business segments, Equipment, Services and Digital, based on the different sales drivers and market characteristics of each.

Equipment (45% of 2017 total revenue): GE Transportation is the largest global manufacturer of diesel-electric locomotives used by freight railroads, and produces electric motors and premium propulsion systems for mining, marine, stationary power and drilling applications.

Services (48% of 2017 total revenue): GE Transportation provides aftermarket parts and services to its global installed base, including predictive maintenance, regular maintenance, and unscheduled maintenance and overhaul services for locomotives.

Digital (7% of 2017 total revenue): GE Transportation provides a comprehensive suite of software-enabled solutions designed to improve customer efficiency and productivity in the transportation and mining industries.

GE Transportation's Solutions

Equipment

GE Transportation's Equipment segment is the largest global manufacturer of diesel-electric locomotives for freight railroads. GE Transportation produces mission-critical products and solutions that help railroads reduce operating costs, decrease fuel use, minimize downtime and comply with emissions standards. In addition to locomotives, GE Transportation also produces a range of engines, electric motors and premium propulsion systems used in mining, marine, stationary power and drilling applications.

Locomotives

GE Transportation believes it has the world's most comprehensive, competitive and technically advanced diesel-electric locomotive portfolio with a global installed base of more than 22,500 locomotives in over 50 countries. GE Transportation also has numerous local partnerships in various jurisdictions which further support its product platform.

Customers choose diesel-electric locomotives based on many factors, including fuel efficiency, emissions compliance, reliability, tractive effort, price, total cost of ownership, aftermarket support and digital capabilities. GE Transportation believes customers are also trending towards signing multiyear equipment and service / parts agreements. For example, GE Transportation recently signed an agreement with Kazakhstan's state-run railroad, Kazakhstan Temir Zholy (KTZ), to supply 300 shunter locomotives over the next ten years and agreements with Canadian National Railway (CN) for 200 new locomotives and Kansas City Southern for 50 locomotives.

GE Transportation's current locomotive offerings include 24 different types of locomotives of varying features and capabilities such as axle weight, clearance and gross horsepower. GE Transportation believes the Evolution series, GE Transportation's primary locomotive offering, is the most technologically advanced, diesel-electric, heavy-haul locomotive in the world today. GE Transportation introduced the base Evolution series in 2005 and has since substantively evolved the locomotive to meet EPA Tier 4 emission standards. GE Transportation now has over 870 Tier 4 locomotives in the field with over 100-million miles of experience.

GE Transportation's sales, product management and engineering teams work together with its customers to optimize configurations for their requirements related to performance, reliability, lifecycle costs and other additions (e.g., Digital, signaling, etc.) that they may specifically require for their locomotive. However, GE Transportation strives to standardize its offerings as much as possible. For example, the engine family used in North America for the 33-tonnes/axle application is used in both Kazakhstan for the 23-tonnes/axle application and in South Africa for the 22-tonnes/axle application. Similarly, GE Transportation's new control systems and traction motors have been standardized across a significant portion of GE Transportation's portfolio.

New technologies will continue to evolve the diesel-electric space. GE Transportation continues to invest substantively and selectively in R&D to maintain its differentiation and market position. One key focus of GE Transportation's investments is control systems, which GE Transportation believes enable and support remote monitoring, predictive maintenance and asset optimization as well as connectivity between fleets and operations. Additionally, GE Transportation's investments are generally focused on new engine platforms, fuel efficiency, alternative fuel solutions and hybrid locomotives. Finally, GE Transportation believes GE Transportation's

TABLE OF CONTENTS

additional investment focus on additive technologies is going to help make GE Transportation's products lighter, more reliable and fuel efficient. GE Transportation believes its focus in these key investment areas will drive positive outcomes for its customers, primarily linked to operating ratio reduction and lifecycle cost savings, among others.

Mining, Marine and Stationary Power

Mining: GE Transportation has leveraged its core competencies in electric drives and propulsion to produce integrated, advanced propulsion systems used in off highway vehicle (OHV) mining applications. These solutions help enable mining customers to increase productivity, reduce maintenance costs and improve performance. GE Transportation's key mining original equipment manufacturer customers include Komatsu, NHL and BelAZ, who serve the world's largest mining end-customers such as Rio Tinto, Anglo American, Vale, BHP and others.

Marine: GE Transportation has adapted its locomotive engines for marine applications to produce fuel-efficient medium-speed diesel engines for fishing vessels, tugboats, ferries and offshore oil and gas support vessels. GE Transportation's marine engines meet the EPA's Tier 4 and IMO's Tier III emission standards without the use of selective catalytic reduction equipment or urea-based after-treatment, reducing key emissions by more than 70% compared to emissions from GE's Tier III locomotives, while maintaining fuel efficiency. These engines are increasingly being accepted in the market.

Stationary Power: GE Transportation provides fuel-efficient medium-speed diesel engines and generator setups (gensets) for continuous and emergency stand-by power applications. Medium-speed diesel generators deliver significantly lower life cycle cost due to reduced fuel consumption, less downtime (e.g., fewer oil changes) and significantly less required maintenance and overhauls compared with high-speed diesel generators. GE Transportation's primary stationary power industrial customers are based in Asia Pacific, Sub-Saharan Africa and the Middle East.

Services

Locomotive fleet performance is critical for all railroads. Operators strive to maximize the value of their assets over their entire lifecycle, which can be as many as four decades. For locomotives to remain competitive, available, reliable, safe and fuel efficient over such a long period, they require regular maintenance as well as technology upgrades. Operators also often need to adjust fleet haulage profiles to reflect changing market conditions (e.g., moving from build materials to containerized intermodal freight). These requirements translate into significant investments by railroads throughout the entire lifecycle of their locomotives.

GE Transportation has been strategically focused on the Services segment for more than two decades, providing an efficient supply of spare parts, repair instructions, on-site technical support by certified employees and predictive maintenance based on GE Transportation's suite of remote monitoring and diagnostics solutions. GE Transportation's installed base comprises approximately 22,500 locomotives globally with an average age of 10 to 15 years, which are distributed across all strategic markets (including North America, Brazil, Australia, Indonesia, South Africa and Kazakhstan). GE Transportation also has a dedicated global service footprint to support its customers' service requirements. Additionally, GE Transportation's vertically integrated locomotive offerings and comprehensive set of services and technology solutions are designed to help maintain the operational efficiency of GE Transportation's customers' fleets, which GE Transportation believes allows it to win business. GE Transportation supports railroads across the globe to help them achieve best in class cost of ownership, availability, reliability and safety for their locomotive fleets.

Approximately 80% of GE Transportation's Services revenues are generated in North America, in line with the distribution of its installed base, and around 70% of such revenues are generated from multi-year service agreements,

reflecting the long-term and stable nature of the partnership with its customers. Locomotive maintenance can be contracted under different models, ranging from fully transactional set-ups to multi-year contracts. GE Transportation's customers typically favor long-term agreements associated with performance guarantees for new locomotives and become more transactional as assets age. For locomotives not covered by multi-year contracts, GE Transportation has implemented a rigorous tracking of potential parts usage, which identifies what customers are buying compared to forecasts. GE Transportation has made servicing of transactional customers an important component of its Services segment.

Since 2014, GE Transportation has focused on the development of locomotive modernization offerings. This mid-life locomotive refresh, typically performed with the second engine overhaul, allows railroads to further

TABLE OF CONTENTS

maximize the value of their assets over their lifecycle. GE Transportation offers customized solutions that range from controls systems upgrades to complex restorations outfitted with state-of-the-art technologies, which potentially gives locomotives an additional 20 or more years of performance. This refresh ensures GE Transportation's locomotives remain competitive and prioritized for daily duties over competitor products. The solution is customized depending on a railroad's fleet strategies (e.g., better fuel consumption, alternative fleet re-purposing, improved tractive effort, step change in reliability and/or digital upgrade). Locomotive modernization has drawn strong interest from both North American and international customers, and as a result, GE Transportation has secured multi-year programs with a majority of Class I railroads and several major international customers resulting in a backlog of over 750 locomotives. Modernizations completed to date have helped GE Transportation's customers realize a 30% increase in reliability and a 50% increase in haul ability in their locomotives.

Digital

GE Transportation's Digital segment develops and works with its customers to implement a comprehensive set of software-enabled solutions that deliver significant benefits across the transportation and mining landscape.

Across global freight and mining industries, productivity and efficiency gains, and new business opportunities, should come largely from digital innovation. Digital tools are expected to improve efficiency of existing assets, connect disparate processes, optimize key chokepoints and entire systems, and open value across freight and mining. In industries characterized by in-house and boutique solution providers, the breadth and market presence of GE Transportation's Digital solutions have positioned GE Transportation as a key player for digital innovation. GE Transportation's Digital solutions incorporate numerous key next generation technologies, which GE Transportation believes positions itself to remain a leader with its customers and continue to contribute to new business models for growth in freight transportation and mining.

Focus Area	Train Performance	Transport Intelligence	Transport Logistics	Network Optimization	Digital Mine
Key Attributes	<ul style="list-style-type: none"> • Distributed locomotive power • Train 'cruise control' • Train remote control 	<ul style="list-style-type: none"> • Industrial/mobile Internet of Things (IoT) hardware & software • Edge-to-cloud, on and off-board analytics & rules • Asset performance management 	<ul style="list-style-type: none"> • Rail transportation management • Shipper transportation management • Port visibility and optimization 	<ul style="list-style-type: none"> • Rail network scheduling, dispatch, and optimization • Intermodal terminal management and optimization • Rail yard management and optimization 	<ul style="list-style-type: none"> • Safety systems • Operations performance management (OPM) • Asset performance management (APM)
Key Customer Benefits	<ul style="list-style-type: none"> • Longer, heavier trains • 90+% reduction in 'break-in-twos' • 7-13% fuel savings, 	<ul style="list-style-type: none"> • Asset reliability / decreased maintenance cost • Decreased operating costs • Lower spend for IoT management & analytics 	<ul style="list-style-type: none"> • Freight visibility across entities • Meaningful increase in port efficiency • Improved back-office and day of operation processes 	<ul style="list-style-type: none"> • Faster, more efficient rail networks • Reduced dwell / higher throughput 	<ul style="list-style-type: none"> • Collision avoidance • Higher blast yields • Higher asset reliability / decreased maintenance cost

- lower emissions
- Decrease manpower for yard shunting, mainline
- Reduced revenue leakage

GE Transportation's Digital solutions are utilized by all North American Class I railroads, a substantial majority of North American short line railroads and international freight rail systems on all continents (except Antarctica). Additionally, hundreds of mining clients and freight shippers in industrial applications such as oil & gas and agriculture use GE Transportation's solutions to improve productivity and efficiency, with the potential to serve over 2,300 mining sites globally.

Digital solutions have been sold utilizing GE Transportation's direct sales force and an enterprise license agreement or subscription-based model. Licenses typically include a long-term support contract providing recurring revenue. Post-sales implementation and support has traditionally been done through GE Transportation's own teams. Approximately 34% of Digital revenues are recurring through Software as a Service (SaaS) or software maintenance contracts. This component of GE Transportation's revenue is increasing as new products are increasingly subscription based. GE Transportation's non-recurring revenue comes from hardware, software, and implementation sales. GE Transportation is building a global partner and alliance program, which saw

TABLE OF CONTENTS

partner influenced sales in its first full-year (2017). The partner and alliance channel provide geographic scale, domain and local expertise, customer relationships in new markets, and a scalable pool of implementation resources. GE Transportation believes partner and alliance-influenced sales will become an increasingly important component of its growth strategy.

GE Transportation believes its global installed base and domain expertise gives it a significant competitive advantage in its target markets that increasingly look to digital solutions to transform their operations. GE Transportation's competition consists of fragmented and niche players or enterprise software providers without the domain expertise and focus to meet the demands of the freight transportation and mining industries.

GE Transportation's customers choose GE Transportation because it combines industry expertise, leading technologies and analytics, and solutions moving to an integrated suite of connected products. Where others have not delivered, GE Transportation has consistently brought high value products that have become industry standards. GE Transportation's installed base of IoT hardware and software, operational systems, and asset performance management systems and analytics positions GE Transportation to support the growing demand for digital solutions in its target markets.

GE Transportation's Business Transformation

The transportation industry and GE Transportation's business specifically experienced significant headwinds in 2016 and 2017 due to a downturn in the U.S. freight rail industry. GE Transportation believes its recent initiatives, including (i) expanding its international footprint, (ii) optimizing its supply base and (iii) utilizing digitization and lean manufacturing to enhance the efficiency and effectiveness of its total supply chain, have positioned GE Transportation for growth in the recovering U.S. freight rail market and in international markets.

GE Transportation's business has historically generated most of its revenues in North America, with more than 80% of GE Transportation's locomotive deliveries from 2014-2016 going to customers in that region. While North American locomotive deliveries are expected to remain an important driver of GE Transportation's business, in recent years GE Transportation has prioritized portfolio diversification by geography and product. GE Transportation's localization and partnership strategy has contributed to recent large international contracts, such as its \$2.5 billion contract for 1,000 locomotives with Indian Railways in 2015. In 2017, GE Transportation delivered 281 locomotives to international customers, over 1.5x its average from 2014-2016.

As part of GE Transportation's international growth, GE Transportation has invested in creating a flexible, truly global footprint that it believes differentiates itself with respect to its competition. Partnerships in India, Kazakhstan, Brazil, South Africa and Korea have enabled GE Transportation to manufacture locomotives in many different regions of the world. For example, GE Transportation now produces up to 100 locomotives a year in its Contagem, Brazil facility for use in Latin America and have recently acquired a 50% stake in local locomotive manufacturer Lokomotiv Kurastyru Zauyty (LKZ) in Kazakhstan to manufacture Evolution series locomotives for customers in Russia/CIS. This globalized approach leverages cost effective manufacturing with an aim to minimize the impact of industry-driven volume changes to GE Transportation's cost structure and capital investment requirements.

Complementing the globalization of GE Transportation's supply chain, GE Transportation now utilizes digitization and lean manufacturing strategies to enhance the efficiency and effectiveness of its global supply chain, as a part of what GE Transportation defines as its Brilliant Factory strategy. Through this strategy, GE Transportation seeks to drive improvements across its entire manufacturing process by reducing waste and removing overall inefficiencies (e.g., wait times, rework, downtime and bottlenecks). Brilliant Factory aims to streamline information and product flow to drive continued productivity and reduction to total manufacturing time.

GE Transportation's recent initiatives have reduced its variable cost by restructuring its footprint and workforce, reducing full-time employees and increasing the productivity of its business. Between 2016 and 2017, GE Transportation invested more than \$320 million in restructuring. The restructuring projects have been completed as of today. GE Transportation expects these investments in operating efficiency to propel the growth of its business as demand from Class I railroads continues to recover.

TABLE OF CONTENTS

GE Transportation's Competitive Strengths

GE Transportation believes the following key strengths have been instrumental to its success and positions it well to protect and continue to grow GE Transportation's business and market share:

Iconic Legacy and Strong Reputation with a History of over 110 Years of Innovation

The rail industry has been in operation for 150 years and GE Transportation has been at the forefront of shaping and transforming the rail landscape through various technologies such as engine technologies, microprocessor-based controls, DC to AC propulsion, the first locomotive to meet the EPA's stringent Tier 4 emission standards, and software-based asset and network optimization. GE Transportation believes that its technical, engineering and manufacturing expertise forms the foundation of its competency in innovation. GE Transportation has produced a succession of world-class locomotives and developed technologies designed to respond to changing customer requirements for innovation and compliance with advancing emission standards. GE Transportation believes its continued dedication to innovation not only enables it to uphold its responsibility to its customers and the wider community, but also positions GE Transportation favorably in its industry as innovation, reliability and integrated service models continue to be priorities for its customers.

Market Leader with Longstanding Customer Partnerships in a Critical Infrastructure Sector

For more than a century, rail has been a cornerstone of the global transportation system, and thus, the economy. Rail remains one of the most cost-effective, energy-efficient modes of transport, both domestically and internationally. As the largest global producer of diesel-electric locomotives, GE Transportation has a significant market share both in North America and globally. GE Transportation has been a trusted provider of mission-critical products to Class I railroads for a number of years. Internationally, GE Transportation has longstanding relationships with railroads in Brazil, South Africa, Australia, Indonesia and Kazakhstan. More recently, GE Transportation's strategy of adapting its business to localization, alliance or joint venture models has resulted in significant international opportunities, including a \$2.5 billion transaction in India and a \$1 billion framework agreement in Ukraine.

Significant Installed Base and Growing Services Business Drive Visible, Recurring Revenues

With an installed base among the largest in the industry and a unique service model, GE Transportation's Services business drives recurring revenues and strong customer partnerships. GE Transportation's installed base allows it to generate significant recurring revenues and strong customer partnerships by providing maintenance and overhaul services and replacement parts in the aftermarket. GE Transportation also provides aftermarket digital solutions designed to improve train performance, fuel efficiency and reliability, and provide upgrades and modernizations that support GE Transportation's customers throughout the lifecycle of their assets. GE Transportation's comprehensive service offering combines traditional maintenance with digital tools, making GE Transportation a key partner to GE Transportation's customers and helping them optimize their fleet performance and drive efficiency. GE Transportation's Services business is a key differentiator, which supports the sale of new locomotives and the continued growth of its fleet.

Leading Engineering and Solutions Capabilities

GE Transportation designs, develops and manufactures critical components and systems for the rail, mining and marine industries, which include proprietary propulsion systems, engine platforms and controls technology. These innovative and differentiated solutions serve as the building blocks for the rail, mining and marine industries, and help keep GE Transportation's global customers at the forefront of advancing technologies. When coupled with GE Transportation's advanced digital analytic capabilities, GE Transportation's solutions help drive increased locomotive

velocity, energy management, performance and reliability.

Leading the Digital Transformation of GE Transportation's Industries

GE Transportation's early investment in data analytics and software has allowed GE Transportation to become a strategic partner for customers looking to derive new value from assets and digitally transform their operations. Through these initiatives, the transportation industry, from mine to port, from shipper to receiver, from port to

TABLE OF CONTENTS

intermodal terminals to main line locomotives and railcars and across train yards and operation centers, has evolved to include digital solutions. The breadth of GE Transportation's Digital solutions gives customers confidence in GE Transportation's ability to address their current and future needs.

Streamlined Cost Structure and Operational Excellence Provide Operating Leverage and Support GE Transportation's Growth

GE Transportation's current manufacturing footprint is designed to leverage cost effective manufacturing and customer specific build requirements. This design allows GE Transportation the flexibility to drive margin improvement through productivity and customer delivery commitments across multiple product lines and global regions. This footprint has also been optimized through strategic alignment and utilizing global build partners, so as to allow for volume changes driven by industry dynamics, without significant impacts to GE Transportation's overall cost structure and/or additional capital investment requirements. GE Transportation has continuously evolved its supply footprint to now a true global supply base, where it can leverage the use of suppliers to optimize cost and/or lead time, while continuing to deliver to customer specifications.

Geographies

GE Transportation primarily serves the worldwide freight rail industry. In North America, railroads carry about 28% of total freight as measured by ton-miles, and over 40% of long distance freight travelling over 750 miles, which is more than any other mode of transportation. They also carry 40% of intercity freight as measured by ton-miles, more than any other mode of transportation. Through direct ownership and operating partnerships, U.S. railroads are part of an integrated network that includes railroads in Canada and Mexico, forming one of the world's most-efficient and lowest-cost freight rail service. There are more than 500 railroads operating in North America, with the largest seven railroads, referred to as Class I, accounting for more than 90% of the industry's revenues.

The Asia Pacific market is driven by continued urbanization in China and India. Investments in Australia remain centered around the mining and natural resource markets. Other key geographical markets include Russia/CIS, Africa and Brazil. With almost 28,000 locomotives, Russia/CIS is amongst the largest markets in the world. In addition, this region has a similarly sized shunter fleet which is substantially aged and in need of replacement.

GE Transportation continues to see new locomotive and modernization opportunities in markets such as Ukraine and Moldova, among others, and are well positioned to capture those opportunities. GE Transportation estimates the Brazilian market opportunity is between 50 and 100 locomotives per annum and is focused on the sugar, agriculture, minerals and mining space. African markets continue to grow, with a renaissance in South Africa stemming from new governmental interest to participate in Pan-African transportation growth opportunities. Nigeria has virtually no freight carried via rail, but given the current state of roads and other transportation infrastructure, an opportunity for growth may materialize. Mozambique, Ivory Coast, Ghana and Cameroon markets all present opportunities for growth as such countries modernize infrastructure.

Raw Materials and Suppliers

The cost of raw materials and components represents a substantial majority of the manufacturing costs of most of GE Transportation's equipment product lines. As a result, the management of raw materials and components purchasing is critical to GE Transportation's profitability. See Risk Factors—Risks Relating to Wabtec, Including GE Transportation, After the Transactions—Wabtec may be exposed to raw material shortages, supply shortages and fluctuations in raw material, energy and commodity prices.

GE Transportation enjoys generally strong relationships with its suppliers, which helps to ensure access to supplies when railcar demand is high.

Customers

GE Transportation's customers include all operators of GE locomotives globally. GE Transportation's customers are mainly standalone railroads or logistics divisions of mining or agriculture companies. They include a mix of privately owned and governmental companies, representing a total of approximately 100 different entities. For the fiscal year ended December 31, 2017, GE Transportation's top ten customers accounted for approximately 83% of GE Transportation's revenues. For the fiscal year ended December 31, 2017, BNSF comprised 17% of

TABLE OF CONTENTS

GE Transportation revenue. For the fiscal year ended December 31, 2016, BNSF, Union Pacific and CSX comprised 19%, 13% and 13% of GE Transportation revenue, respectively. For the fiscal year ended December 31, 2015, BNSF, Union Pacific and CSX comprised 17%, 12% and 12% of GE Transportation revenue, respectively. GE Transportation provides them with essential parts and maintenance services for their GE locomotives, helping them to successfully operate wherever they are in the world.

GE Transportation structures its services based on its customers specific needs, ranging from purely transactional parts and services supply, to multi-year agreements based on outcome guarantees (parts availability, locomotive availability and reliability).

Competition

GE Transportation believes it holds a leading market share for many of its core product lines globally. GE Transportation's market shares are typically higher in North America and lower in other regions of the world, depending on specific product lines and geographies.

GE Transportation operates in a highly competitive marketplace especially in periods of low market demand resulting in excess manufacturing capacity. Price competition is strong because GE Transportation has a relatively small number of customers and they are very cost-conscious. In addition to price, competition is based on product performance and technological leadership, quality, reliability of delivery, and customer service and support.

Employees

As of December 31, 2017, GE Transportation had approximately 8,500 full-time employees, with approximately 30% of the U.S. workforce and 28% of the global workforce unionized.

Regulation

The industries in which GE Transportation operate are subject to extensive regulation by various governmental, regulatory and industry authorities and by federal, state, local and foreign authorities. The primary regulatory and industry authorities involved in the issuance of regulations and standards for the rail industry in the U.S. are the Federal Railroad Administration (FRA), the Association of American Railroads (AAR) and U.S. Department of Transportation (USDOT). The FRA administers and enforces U.S. Federal laws and regulations relating to railroad safety. These regulations govern equipment and safety compliance standards for railcars and rail equipment used in interstate commerce. The AAR promulgates a wide variety of standards governing safety and design of equipment, relationships among railroads with respect to railcars in interchange and other matters. The AAR also certifies railcar manufacturers and component manufacturers that provide equipment for use on railroads in the U.S. New products must generally undergo AAR testing and approval processes. Because of these regulations, GE Transportation must maintain certifications with the AAR as a manufacturer of locomotives and components, and products that it sells must meet AAR and FRA standards. GE Transportation must also comply with the rules of the USDOT.

GE Transportation is also subject to oversight in other jurisdictions by foreign regulatory agencies. The governing bodies include Transport Canada in Canada, the International Union of Railways (UIC) and the European Railway Agencies (EUAR) in Europe. Also in Europe, the European Committees for Standardization (CEN and CENELEC) continually draft new European standards which cover, for example, the Reliability, Availability, Maintainability and Safety of railways systems. To guarantee interoperability in Europe, the European Union for Railway Agencies is responsible for defining and implementing Technical Standards of Interoperability, which covers areas such as infrastructure, energy, rolling stock, telematic applications, traffic operation and management subsystems, noise pollution and waste generation, protection against fire and smoke, and system safety. Most countries and regions in

which GE Transportation does business have similar rule-making bodies. In Russia, a GOST-R certificate of conformity is mandatory for all products related to the safety of individuals on Russian territory. In China, any product or system sold on the Chinese market must have been certified in accordance with national standards. In the local Indian market, most products are covered by regulations patterned after AAR and UIC standards.

TABLE OF CONTENTS

Effects of Seasonality

GE Transportation's business is not typically seasonal, although the third quarter results may be affected by vacation and scheduled plant shutdowns at several of its major customers during this period. Quarterly results can also be affected by the timing of projects in backlog and by project delays.

Environmental and Regulatory Matters

GE Transportation is subject to comprehensive federal, state, local and international environmental laws and regulations relating to the release or discharge of materials into the environment, the management, use, processing, handling, storage, transport or disposal of hazardous materials, or otherwise relating to the protection of human health and the environment. These laws and regulations not only exposes GE Transportation to liability for its own negligent acts, but also may expose GE Transportation to liability for the conduct of others or for its actions that complied with all applicable laws at the time these actions were taken. In addition, these laws may require significant expenditures to achieve compliance, and are frequently modified or revised to impose new obligations. Civil and criminal fines and penalties may be imposed for non-compliance with these environmental laws and regulations. GE Transportation's operations that involve hazardous materials also raise potential risks of liability under the common law.

Environmental operating permits are, or may be, required for GE Transportation's operations under environmental laws and regulations. These operating permits are subject to modification, renewal and revocation. GE Transportation regularly monitors and reviews its operations, procedures and policies for compliance with these laws and regulations. Despite these compliance efforts, risk of environmental liability is inherent in the operation of GE Transportation's business, as it is with other businesses engaged in similar industries. GE Transportation believes that its operations and facilities are in substantial compliance with applicable laws and regulations and that any noncompliance is not likely to have a material adverse effect on its operations or financial condition.

Future events, such as changes in or modified interpretations of existing laws and regulations or enforcement policies, or further investigation or evaluation of the potential health hazards of products or business activities, may give rise to additional compliance and other costs that could have a material adverse effect on GE Transportation's financial condition and operations. In addition, GE Transportation has in the past conducted investigation and remediation activities at properties that GE Transportation operates to address historic contamination. To date, such costs have not been material. Although GE Transportation believes GE Transportation has satisfactorily addressed all known material contamination through its remediation activities, there can be no assurance that these activities have addressed all historic contamination. The discovery of historic contamination or the release of hazardous substances into the environment could require GE Transportation in the future to incur investigation or remediation costs or other liabilities that could be material or that could interfere with the operation of GE Transportation's business.

In addition to environmental laws and regulations, the transportation of commodities by railcar raises potential risks in the event of a derailment or other accident. Generally, liability under existing law in the United States for a derailment or other accident depends on the negligence of the party, such as the railroad, the shipper or the manufacturer of the railcar or its components. However, for the shipment of certain hazardous commodities, strict liability concepts may apply.

TABLE OF CONTENTS**Principal Properties**

The following table provides certain summary information about the principal facilities owned or leased by GE Transportation as of December 31, 2017. GE Transportation believes that its facilities and equipment are generally in good condition and that, together with scheduled capital improvements, they are adequate for its present and immediately projected needs. Leases on the facilities are long-term and generally include options to renew. GE Transportation's corporate headquarters are located at the Chicago, Illinois site.

Location	Approximate Square Feet	Owned/Leased
Office Space		
Chicago, IL	53,972	Leased
Manufacturing Facilities		
Fort Worth, TX – Locomotive	923,266	Owned
Fort Worth, TX – Off-Highway Vehicle	249,700	Owned
Erie, PA – Manufacturing, Engineering, and Testing	4,200,000	Owned
Grove City, PA – Engine Remanufacturing	242,000	Owned
Grove City, PA – Main Engine	486,000	Owned
Contagem, Minas Gerais, Brazil	114,452	Leased

Intellectual Property

GE Transportation relies on a combination of trade secrets and other intellectual property, nondisclosure agreements and other protective measures to establish and protect its proprietary rights in its intellectual property. GE Transportation also follows the product development practices of its competitors to monitor any possible patent infringement by them, and to evaluate their strategies and plans.

GE Transportation has entered into a variety of license agreements as licensor and licensee. GE Transportation does not believe that any single license agreement is of material importance to its business or any of its business segments as a whole.

Legal Proceedings

GE Transportation is, from time to time, party to general legal proceedings and claims, which arise in the ordinary course of business. GE Transportation is also, from time to time, party to legal proceedings and claims in respect of environmental obligations, product liability, intellectual property and other matters which arise in the ordinary course of business and against which management believes meritorious defenses are available.

While it is not possible to quantify the financial impact or predict the outcome of all pending claims and litigation, management does not anticipate that the outcome of any current proceedings or known claims, either individually or in aggregate, will have a material adverse effect upon GE Transportation's financial position, results of operations or cash flows.

TABLE OF CONTENTS

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS FOR GE TRANSPORTATION

The following discussion and analysis of GE Transportation's financial condition and results of operations should be read in conjunction with GE Transportation's unaudited condensed combined financial statements and related notes and audited combined financial statements and related notes, each of which are included elsewhere in this prospectus-information statement. Some of the information contained in this discussion and analysis constitutes forward-looking statements that involve risks and uncertainties. Actual results could differ materially from those discussed in these forward-looking statements. Factors that could cause or contribute to these differences include, but are not limited to, those discussed below and elsewhere in this prospectus-information statement particularly under Cautionary Statement on Forward-Looking Statements and Risk Factors.

GE Transportation's historical financial statements included in this prospectus-information statement have been presented on a carve-out basis from GE's consolidated financial statements using the historical results of operations, cash flows, assets and liabilities of GE Transportation and include allocations of corporate expenses from GE. These allocations reflect significant assumptions, and the financial statements do not fully reflect what GE Transportation's financial position, results of operations or cash flows would have been had it been a stand-alone company during the periods presented. As a result, historical financial information is not necessarily indicative of GE Transportation's future results of operations, financial position or cash flows.

Overview

GE Transportation is a leading global provider of products and solutions to transportation, logistics and other industrial markets. GE Transportation designs, engineers and manufactures diesel-electric locomotives, supplies associated aftermarket parts and services and provides digital solutions. GE Transportation's culture of innovation and differentiated aftermarket solutions has allowed it to build a leading global installed base of diesel-electric locomotives, significant contracted services backlog and longstanding customer relationships. GE Transportation's products and services are important to GE Transportation's customers' operating and financial success and help enable them to operate with reliability and efficiency. Leveraging its heritage in diesel-electric locomotives, GE Transportation has continued to expand GE Transportation's technologies into new products, end markets and logistics applications. Leveraging its core competencies in locomotive manufacturing, GE Transportation produces electric motors and premium propulsion systems for mining, marine, stationary power and drilling applications. GE Transportation also has used its engineering and software capabilities to build a digital business that delivers significant benefits across the transportation and mining landscape. GE Transportation's products are globally recognized for their quality, reliability, fuel efficiency and emissions compliance, and GE Transportation believes it is known for its superior customer service. These attributes combined have fostered strong brand loyalty and generated longstanding customer relationships, which contribute to its leading market positions. As of June 30, 2018, GE Transportation's North American installed base was more than 16,200 diesel-electric locomotives and kits, comprising the largest portion of GE Transportation's global installed base of more than 22,500 diesel-electric locomotives and kits. As of June 30, 2018, GE Transportation had sales in more than 50 countries and eight primary manufacturing facilities and approximately 8,500 employees worldwide. For the six months ended June 30, 2018, GE Transportation generated revenue of \$1,774 million and net earnings of \$168 million.

For over 110 years, GE Transportation has served the worldwide freight and passenger rail industries, which are a critical component of the global transportation system and the global economy. In North America, railroads carry about 28% of total freight, as measured by ton-miles, and over 40% of long distance freight travelling over 750 miles, which is more than any other mode of transportation. Rail is one of the most cost-effective, energy-efficient modes of transport, both domestically and internationally. GE Transportation's North American customers are principally Class I railroads. GE Transportation's international customers are principally international freight and passenger railroads in

Latin America, Russia/CIS, Australia, India and Sub-Saharan Africa, who depend on diesel-electric locomotives. GE Transportation's diverse product portfolio is designed to cater to the varying requirements of Class I and international railroads. GE Transportation's customers' ongoing usage of locomotives and associated wear and tear on the equipment generate opportunities to support railroads with aftermarket parts and services. Railroads place a high value on reliability, fuel efficiency and minimal downtime. As a result, the availability of replacement parts and GE Transportation's maintenance and overhaul services are important value drivers for GE Transportation's customers and generate high-margin recurring revenue opportunities.

TABLE OF CONTENTS

GE Transportation's business experienced significant headwinds in 2016 and 2017 due to a downturn in the U.S. freight rail industry driven by commodity prices. GE Transportation has recently undergone a set of transformation and restructuring initiatives, including expanding its international footprint, optimizing its supply base and utilizing digitization and lean manufacturing to enhance the efficiency and effectiveness of its total supply chain. GE Transportation believes these initiatives have resulted in a more streamlined cost structure and optimized workforce to position it for growth in the recovering U.S. freight rail market and in international markets.

Factors Impacting GE Transportation's Performance

GE Transportation primarily serves the worldwide freight and transit rail industries. As such, its operating results are largely dependent on the level of activity, financial condition and capital spending plans of railroads and passenger transit agencies around the world, and transportation equipment manufacturers who serve those markets. Many factors influence these industries, including general economic conditions; traffic volumes, as measured by freight carloadings and passenger ridership; government spending on public transportation; and investment in new technologies. In general, trends such as increasing urbanization, a focus on sustainability and environmental awareness, an aging equipment fleet, and growth in global trade are expected to drive continued investment in freight and transit rail.

GE Transportation monitors a variety of factors and statistics to gauge market activity. Freight rail markets around the world are driven primarily by overall economic conditions and activity, while transit markets are driven primarily by government funding and passenger ridership. Changes in these market drivers can cause fluctuations in demand for GE Transportation's products and services.

According to the 2016 edition of a market study by UNIFE, the Association of the European Rail Industry, the accessible global market for railway products and services was more than \$100 billion, and was expected to grow at about 3.2% annually through 2021. The three largest geographic markets, which represented about 80% of the total accessible market, were Europe, North America and Asia Pacific. UNIFE projected above-average growth in Asia Pacific and Europe due to overall economic growth and trends such as urbanization and increasing mobility, deregulation, investments in new technologies, energy and environmental issues, and increasing government support. The largest product segments of the market were rolling stock, services and infrastructure, which represented almost 90% of the accessible market. UNIFE projected spending on rolling stock to grow at an above-average rate due to increased investment in passenger transit vehicles. UNIFE estimated that the global installed base of locomotives was about 114,000 units, with about 32% in Asia Pacific, about 25% in North America and about 18% in Russia/CIS.

In North America, railroads carry about 40% of long distance freight travelling over 750 miles, as measured by ton-miles, which is more than any other mode of transportation. Through direct ownership and operating partnerships, U.S. railroads are part of an integrated network that includes railroads in Canada and Mexico, forming what is regarded as the world's most-efficient and lowest-cost freight rail service. There are more than 500 railroads operating in North America, with the largest railroads, referred to as Class I, accounting for more than 90% of the industry's revenues. The railroads carry a wide variety of commodities and goods, including coal, metals, minerals, chemicals, grain, and petroleum. These commodities represent about 50% of total rail carloadings, with intermodal carloads accounting for the rest. Railroads operate in a competitive environment, especially with the trucking industry and the emergence of autonomous trucks, and are always seeking ways to improve safety, cost and reliability. New technologies offered by GE Transportation and others in the industry can provide some of these benefits. Demand for GE Transportation's locomotives, freight related products and services in North America is driven by a number of factors, including rail traffic, average railroad velocity and production of new locomotives and new freight cars. In the U.S., the passenger transit industry is dependent largely on funding from federal, state and local governments, and from fare box revenues. Demand for North American passenger transit products is driven by a number of factors, including government funding, deliveries of new subway cars and buses, and ridership. The U.S. federal government provides money to local transit authorities, primarily to fund the purchase of new equipment and infrastructure for

their transit systems. Demand for GE Transportation's services is affected by the number of parked locomotives, which hit historic highs in 2016 and has slightly recovered in 2017.

Growth in the Asia Pacific market has been driven mainly by the continued urbanization of China and India, and by investments in freight rail rolling stock and infrastructure in Australia to serve its mining and natural

TABLE OF CONTENTS

resources markets. India is making significant investments in rolling stock and infrastructure to modernize its rail system; for example, the country has awarded a 1,000-unit locomotive order to GE Transportation. UNIFE expected the increased spending in India to offset decreased spending on very-high-speed rolling stock in China.

Other key geographic markets include Russia/CIS and Africa-Middle East. With about 1.4 million freight cars and about 28,000 locomotives, Russia/CIS is among the largest freight rail markets in the world, and it is expected to invest in both freight and transit rolling stock. PRASA, the Passenger Rail Agency of South Africa, is expected to continue to invest in new transit cars and new locomotives. According to UNIFE, emerging markets were expected to grow at above-average rates as global trade led to increased freight volumes and urbanization led to increased demand for efficient mass-transportation systems. As this growth occurs, GE Transportation expects to have additional opportunities to provide products and services to both new customers and the installed base in these markets.

In its study, UNIFE also said it expected increased investment in digital tools for data and asset management, and in rail control technologies, both of which would improve efficiency in the global rail industry. UNIFE said data-driven asset management tools have the potential to reduce equipment maintenance costs and improve asset utilization, while rail control technologies have been focused on increasing track capacity, improving operational efficiency and ensuring safer railway traffic. GE Transportation offers integrated solutions to help customers make ongoing investments in these initiatives.

In 2018 and beyond, general global economic and market conditions will have an impact on GE Transportation's sales and operations. To the extent that these factors cause instability of capital markets amid a rising interest rate environment, shortages of raw materials or component parts, longer sales cycles, deferral or delay of customer orders or an inability to market GE Transportation's products effectively with a higher cost of capital, GE Transportation's business and results of operations could be materially adversely affected. In addition, GE Transportation faces risks inherent in global expansion and risk associated with its four-point growth strategy, including the level of investment in innovation that customers are willing to make, especially in integrated technologies developed by the industry and GE Transportation. When necessary, GE Transportation will modify its financial and operating strategies to reflect changes in market conditions and risks.

Presentation

Certain terms are used in this Management's Discussion and Analysis of Financial Condition and Results of Operations for GE Transportation as follows:

Equipment segment: GE Transportation's Equipment segment is a leading manufacturer of diesel-electric locomotives serving freight and passenger railroads. GE Transportation produces products and solutions that help railroads reduce operating costs, decrease fuel use, minimize downtime and comply with stringent emissions standards. In addition to locomotives, GE Transportation also produces a range of engines, electric motors and premium propulsion systems used in mining, marine, stationary power and drilling applications.

Services segment: GE Transportation's Services segment is responsible for supporting railroads in the operation of their fleet of GE Transportation locomotives in an efficient manner throughout their entire lifecycle in terms of safety, availability, reliability and economic performance. GE Transportation provides aftermarket parts and services to GE Transportation's global installed base, including predictive maintenance, regular maintenance, and unscheduled maintenance and overhaul services for locomotives. GE Transportation's offerings include supply of parts, technical support and locomotive modernizations. Commercially, locomotive maintenance can be contracted on a fully transactional basis or through multi-year contracts (Contractual Service Agreements or CSAs), where GE Transportation assumes certain service activities, and the related performance risks, in return for fixed and variable payments based on underlying utilization of the asset(s) covered.

•

Digital segment: GE Transportation's Digital segment combines a history of industrial leadership with cutting-edge data science and analytics acumen to create an efficient, productive and reliable digital-rail ecosystem, from mine to port, from shipper to receiver, from port to intermodal terminals to main line locomotives and railcars and across train yards and operation centers. GE Transportation's Digital segment develops and works with GE Transportation's customers to implement a comprehensive set of

TABLE OF CONTENTS

software-enabled solutions that deliver significant benefits across the transportation and mining landscape. Characterized by in-house and boutique solution providers, the breadth and market presence of GE Transportation's Digital solutions have positioned GE Transportation as a key player for digital innovation.

Sales (costs) of goods: Goods primarily consists of GE Transportation's Equipment segment, as well as part sales in GE Transportation's Services segment and some Digital segment products. Specifically, goods consist of locomotives, locomotive parts, modernizations, marine, stationary and drilling apparatuses and parts, mining equipment and parts, and digital equipment.

Sales (costs) of services: Services primarily consists of GE Transportation's Services segment, as well as some Digital segment products. Sales and costs of services consists of maintenance services, marine, stationary and drilling services, mining services, and digital services.

Results of Operations*Six Months Ended June 30, 2018 Compared to the Six Months Ended June 30, 2017*

The following table sets forth GE Transportation's income statement data for the six months ended June 30, 2018 and 2017:

TABLE OF CONTENTS

Sales of goods

Sales of goods for the six months ended June 30, 2018 was \$1,101,781 thousand, a decrease of \$210,379 thousand, or 16%, from \$1,312,160 thousand for the six months ended June 30, 2017, primarily driven by lower North American locomotive deliveries, partially offset by increased sales of locomotive parts, wheel shipments, and modernization shipments.

Sales of services

Sales of services for the six months ended June 30, 2018 was \$672,107 thousand, an increase of \$3,682 thousand, or 1%, from \$668,425 thousand for the six months ended June 30, 2017, primarily attributable to improved margins on long-term services contracts.

Total revenues

Total revenues for the six months ended June 30, 2018 was \$1,773,888 thousand, a decrease of \$206,697 thousand, or 10%, from \$1,980,585 thousand for the six months ended June 30, 2017, primarily due to a 59% decline in locomotive unit shipments, partially offset by a 133% increase in mining wheel unit shipments and locomotive spare parts up 44%.

Cost of goods sold

Cost of goods sold for the six months ended June 30, 2018 was \$881,336 thousand, a decrease of \$234,985 thousand, or 21%, from \$1,116,321 thousand for the six months ended June 30, 2017, in-line with the decline in locomotive deliveries in North America and reduction in restructuring charges of \$47,660 thousand, partly offset by increased volume on locomotive parts and mining wheels.

Cost of services sold

Cost of services sold for the six months ended June 30, 2018 was \$405,955 thousand, a decrease of \$40,290 thousand, or 9%, from \$446,245 thousand for the six months ended June 30, 2017. The decrease in cost of services sold was driven by lower volume on service contracts.

Gross profit

Gross profit for the six months ended June 30, 2018 was \$486,597 thousand, an increase of \$68,578 thousand, or 16%, from \$418,019 thousand for the six months ended June 30, 2017. The gross margin on both goods and services improved in the first half of 2018, attributable to increased services, mining and locomotive parts volume and lower restructuring charges, partially offset by lower locomotive shipments. In addition, the mix of goods versus services shifted favorably towards services, improving overall business margins to 27% compared to 21% for the six months ended June 30, 2017. Gross margin on sales of goods was 20% compared to 15% for the six months ended June 30, 2017, and gross margin on sales of services was 40% compared to 33% for the six months ended June 30, 2017.

Selling, general and administrative expenses

Selling, general and administrative expenses for the six months ended June 30, 2018 was \$264,770 thousand, an increase of \$36,057 thousand, or 16%, from \$228,713 thousand for the six months ended June 30, 2017, primarily attributable to costs associated with the Transactions.

Impairment of goodwill

There was no impairment of goodwill for the six months ended June 30, 2018 or for the six months ended June 30, 2017.

Non-operating benefit costs

Non-operating benefit costs for the six months ended June 30, 2018 was \$5,155 thousand, a decrease of \$6,107 thousand, or 54%, from \$11,262 thousand for the six months ended June 30, 2017, primarily attributable to a decrease in pension costs assessed by GE.

TABLE OF CONTENTS*Other (expense) income*

Other (expense) income for the six months ended June 30, 2018 was \$(4,362) thousand, a decrease of \$16,599 thousand, or 79%, from \$(20,961) thousand for the six months ended June 30, 2017, primarily driven by lower interest expense from receivables factoring. Additionally, there were favorable foreign exchange rate fluctuations.

Income taxes

The effective income tax rate was 21% and 36% in the six months ended June 30, 2018 and 2017, respectively. The rate for 2018 benefited from a lower U.S. statutory rate effective for years beginning in 2018 due to U.S. tax reform and favorable changes in mix of earnings. GE Transportation's operating results are included in the consolidated income tax returns of GE where allowable. The provision for income taxes represents federal, state and local, and non-U.S. taxes on income calculated on a separate tax return basis. As a separate stand-alone company, GE Transportation's tax profile may differ from historical results.

Net earnings

Net earnings for the six months ended June 30, 2018 was \$168,226 thousand, an increase of \$68,127 thousand, or 68%, from \$100,099 thousand for the six months ended June 30, 2017, primarily attributable to gross profit improvement, lower benefit costs and lower income tax expense.

Year Ended December 31, 2017 Compared to the Year Ended December 31, 2016

The following table sets forth GE Transportation's income statement data for the years ended December 31, 2017 and 2016:

	For the Year Ended December 31			
	2017	2016	Variation (\$)	Variation (%)

TABLE OF CONTENTS

Sales of goods

Sales of goods for the year ended December 31, 2017 was \$2,546,637 thousand, a decrease of \$499,909 thousand, or 16%, from \$3,046,546 thousand for the year ended December 31, 2016. Locomotive unit shipments were down 42%, driven by a 72% decrease of North America shipments, partially offset by a 36% increase in international locomotive shipments. Locomotive shipment decline was partially offset by an 82% increase in mining wheel shipments and a 24% increase in sales of locomotive spare parts.

Sales of services

Sales of services for the year ended December 31, 2017 was \$1,383,671 thousand, a decrease of \$176,374 thousand, or 11%, from \$1,560,045 thousand for the year ended December 31, 2016. Contractual services were down 11%, primarily driven by lower volume on existing long term maintenance contracts attributable to lower asset utilization by North American customers reducing the need for spare parts and maintenance. Though carload volumes improved slightly in 2017 and the number of parked locomotives declined, parking still remained near historically high levels and the environment for sales of services remained challenging. The decline in sales of services was partly offset by continued sales to the international installed base, as well as aftermarket digital product sales, which continued to see growth.

Total revenues

Total revenues for the year ended December 31, 2017 was \$3,930,308 thousand, a decrease of \$676,283 thousand, or 15%, from \$4,606,591 thousand for the year ended December 31, 2016. The Equipment segment was the largest contributor to the decline in revenues with a \$676,272 thousand decline, or 28%. International revenues increased as a percentage of total revenues over 2016, up to 45% of total revenues compared to 38% of total revenues in 2016.

Cost of goods sold

Cost of goods sold for the year ended December 31, 2017 was \$2,129,684 thousand a decrease of \$396,154 thousand, or 16%, from \$2,525,838 thousand for the year ended December 31, 2016. The decrease was due to the decrease in North America shipments discussed above and a \$36,766 thousand decrease in restructuring costs, partially offset by increased costs from increased international locomotive shipments, mining wheels and locomotive spare parts volume discussed above.

Cost of services sold

Cost of services sold for the year ended December 31, 2017 was \$877,390 thousand, a decrease of \$31,726 thousand, or 4%, from \$909,116 thousand for the year ended December 31, 2016. The decline was due to a 9% decrease in contractual services, primarily driven by lower volume on existing long term maintenance contracts.

Gross profit

Gross profit for the year ended December 31, 2017 was \$923,234 thousand, a decrease of \$248,403 thousand, or 21%, from \$1,171,637 thousand for the year ended December 31, 2016. Gross profit related to goods was down 20% primarily driven by softness in North American locomotive markets, partially offset by increased locomotive spare parts volume and lower restructuring charges. Gross Profit related to services were down 22% primarily driven by softness in the contractual services market for maintenance.

Selling, general and administrative expenses

Selling, general and administrative expense for the year ended December 31, 2017 was \$449,651 thousand, an increase of \$17,422 thousand, or 4%, from \$432,229 thousand for the year ended December 31, 2016. The increase is primarily attributable to costs from new acquisitions of \$8,941 thousand and restructuring costs of \$4,321 thousand.

Impairment of goodwill

There was no impairment of goodwill for the year ended December 31, 2017 compared to \$2,027 thousand for the year ended December 31, 2016, due in part to an improved global commodities market positively impacting the fair value of the reporting units.

TABLE OF CONTENTS*Non-operating benefit costs*

Non-operating benefit costs for the year ended December 31, 2017 was \$16,877 thousand, a decrease of \$1,578 thousand, or 9%, from \$18,455 thousand for the year ended December 31, 2016, primarily due to a decrease in severance charges, partly offset by an increase in health benefits for retirees.

Other (expense) income

Other (expense) income for the year ended December 31, 2017 was \$(24,307) thousand, an increase of \$12,898 thousand, or 113%, from \$(11,409) thousand for the year ended December 31, 2016, primarily attributable to a one-time sale of leased equipment in 2016.

Income taxes

The effective income tax rate was significantly reduced to 10% in the year ended December 31, 2017 from 24% in the year ended December 31, 2016. The decrease in the effective rate was primarily the result of newly enacted U.S. tax reform regulations.

Net earnings

Net earnings for the year ended December 31, 2017 was \$388,096 thousand, a decrease of \$151,993 thousand, or 28%, from \$540,089 thousand for the year ended December 31, 2016. The main contributing factor for the decrease in net earnings was the decline in North American locomotive sales, partly offset by recent growth in sales of mining equipment and parts.

TABLE OF CONTENTS

Sales of goods

Sales of goods for the year ended December 31, 2016 was \$3,046,546 thousand, a decrease of \$951,554 thousand, or 24%, from \$3,998,100 thousand for the year ended December 31, 2015, primarily attributable to the Equipment segment. North American locomotive deliveries as well the demand for replacement parts declined. Challenges in the coal and petroleum industries led to a decrease in carload volumes, which in turn led to a significant increase in the number of parked locomotives.

Sales of services

Sales of services for the year ended December 31, 2016 was \$1,560,045 thousand, an increase of \$136,666 thousand, or 10%, from \$1,423,379 thousand for the year ended December 31, 2015, primarily driven by the Services segment. North America maintenance and non-U.S. sales of services were both favorable compared to the prior year. Increased sales of services were also due in part to growth in sales of Digital.

Total revenues

Total revenues for the year ended December 31, 2016 was \$4,606,591 thousand, a decrease of \$814,888 thousand, or 15%, from \$5,421,479 thousand for the year ended December 31, 2015. The decline in total revenues was primarily attributable to the Equipment segment. Non-U.S. revenues increased as a percentage of total revenues over 2015, up to 38% of total revenues compared to 31% of total revenues in 2015.

Cost of goods sold

Cost of goods sold for the year ended December 31, 2016 was \$2,525,838 thousand, a decrease of \$637,960 thousand, or 20%, from \$3,163,798 thousand for the year ended December 31, 2015, primarily attributable to the associated costs related to declining North American locomotive deliveries and replacement parts.

Cost of services sold

Cost of services sold for the year ended December 31, 2016 was \$909,116 thousand, a decrease of \$22,629 thousand, or 2%, from \$931,745 thousand for the year ended December 31, 2015, primarily attributable to lower costs associated with the disposal of the signaling business in November 2015.

Gross profit

Gross profit for the year ended December 31, 2016 was \$1,171,637 thousand, a decrease of \$154,299 thousand, or 12%, from \$1,325,936 thousand for the year ended December 31, 2015. The decline in gross profit was primarily attributable to challenging market conditions in North America. Total gross margin remained at 25% from 2015. Gross margins on sales of goods fell to 17% in 2016, down from 21% in 2015. Gross margins on sales of services grew to 42% in 2016, up from 35% in 2015.

Selling, general and administrative expenses

Selling, general and administrative expenses for the year ended December 31, 2016 was \$432,229 thousand, an increase of \$17,741 thousand, or 4%, from \$414,488 thousand for the year ended December 31, 2015, primarily attributable to an increase of restructuring costs.

Impairment of goodwill

Impairment of goodwill for the year ended December 31, 2016 was \$2,027 thousand, a decrease of \$83,394 thousand, or 98%, from \$85,421 thousand for the year ended December 31, 2015. The suppression of the global commodities market and the resulting impact on the global mining investment environment led to a revision of expected cash flows for all reporting units in 2015, resulting in an impairment of goodwill. In 2016, the goodwill impairment for the Equipment segment was reversed due to a slight improvement in market conditions.

Non-operating benefit costs

Non-operating benefit costs for the year ended December 31, 2016 was \$18,455 thousand, an increase of \$2,206 thousand, or 14%, from \$16,249 thousand for the year ended December 31, 2015, primarily due to a decrease in pension and severance costs offset by an increase in health benefits for retirees.

TABLE OF CONTENTS*Other (expense) income*

Other (expense) income for the year ended December 31, 2016 was \$(11,409) thousand, a decrease of \$38,530 thousand, or 142%, from \$27,121 thousand for the year ended December 31, 2015, primarily attributable to foreign exchange fluctuations and partly offset by a one-time sale of leased equipment in 2016.

Income taxes

The effective income tax rate was reduced to 24% in the year ended December 31, 2016 from 42% in the year ended December 31, 2015. The decrease in the effective tax rate is primarily the result of foreign operations and foreign tax credits.

Net earnings

Net earnings for the year ended December 31, 2016 was \$540,089 thousand, an increase of \$52,465 thousand, or 11%, from \$487,624 thousand for the year ended December 31, 2015. The increase in net earnings was primarily due to improved margins in GE Transportation's services business, partly offset by declining margins for sales of goods.

Operating Activities

Cash provided by operating activities was \$76,436 thousand during the first six months of 2018, an increase of \$110,556 thousand, from \$(34,120) thousand during the prior year period. The increase was primarily due to increased earnings and an increase in accounts payable. The increase was partly offset by increases in inventory.

Investing Activities

Cash (used for) investing activities in the first six months of 2018 was \$(68,393) thousand, a reduction of \$75,580 thousand, from \$(143,973) thousand during the prior year period. The decrease was driven by reduced investment in property, plant and equipment and internal-use software, proceeds from the disposition of mining equipment, and decreased investment in associated companies.

Financing Activities

Cash provided by financing activities was \$20,548 thousand in the first six months of 2018, a decrease of \$208,678 thousand, from \$229,226 thousand during the prior year period. The decrease was primarily due to an increase of \$214,972 thousand in payments to GE when compared to the six months ending June 30, 2017 in addition to a decrease in other financing activities, partly offset by newly issued debt.

TABLE OF CONTENTS

Year Ended December 31, 2017 Compared to Year Ended December 31, 2016

Operating Activities

Cash provided by operating activities was \$322,004 thousand during the year ended December 31, 2017, a decrease of \$531,708 thousand, from \$853,712 thousand during the year ended December 31, 2016. Net income decreased \$160,160 thousand driven primarily by North American locomotive deliveries and services volume decline. Working Capital decreased by \$205,085 thousand driven primarily by progress payments (\$202,350 thousand). In addition, there was a \$150,152 thousand decrease related to deferred income taxes as a result of the U.S. tax reform.

Investing Activities

Cash (used for) investing activities was \$(200,956) thousand during the year ended December 31, 2017, a decrease of \$32,742 thousand, from \$(168,214) thousand in year ended December 31, 2016. This was mainly due to an increase in GE Transportation's non-U.S. manufacturing footprint and continued investment in GE Transportation's Digital business, partly offset by proceeds from the sale of assets as part of GE Transportation's restructuring activities.

Financing Activities

Cash (used for) financing activities was \$(171,062) thousand during the year ended December 31, 2017, an increase of \$454,524 thousand, from \$(625,586) thousand in the year ended December 31, 2016, mainly due to a substantial \$499,998 thousand reduction in payments to GE when compared to 2016. GE Transportation also made repayments of debt, which were partly offset by newly issued debt.

Year Ended December 31, 2016 Compared to Year Ended December 31, 2015

Operating Activities

Cash provided by operating activities was \$853,712 thousand during the year ended December 31, 2016, a decrease of \$21,522 thousand, from \$875,234 thousand during the year ended December 31, 2015. Positive cash flows from net earnings and inventory sell-downs were offset by negative working capital movements.

Investing Activities

Cash (used for) investing activities was \$(168,214) thousand during the year ended December 31, 2016, a decrease of \$57,661, from \$(225,875) thousand in year ended December 31, 2015. This was mainly due to a reduction of GE Transportation's capital expenditures, offset by GE Transportation's expansion of non-U.S. manufacturing capacity.

Financing Activities

Cash (used for) financing activities was \$(625,586) thousand during the year ended December 31, 2016, a decrease of \$2,816 thousand, from \$(622,770) thousand in the year ended December 31, 2015, mainly due to no new debt being issued in 2016, and a slightly reduced payment to GE.

Indebtedness

As of June 30, 2018, GE Transportation's borrowings consisted principally of two unsecured term loans, an unsecured loan facility and a series of unsecured loans.

Unsecured term loans

In November 2012, GE Transportation entered into two unsecured term loans with General Electric Europe Holdings C.V. for a total of \$131,545 thousand. The debt was related to the acquisition of Industrea Limited, a move that expanded GE Transportation's product offering to the underground mining space. The estimated fair value approximates the carrying value. The debt carried a 5.07% interest rate, paid annually for the first year, with the interest rate resetting on the anniversary of the loan to the mid-rate of the one year swap rate plus a credit spread of 200 basis points. In November 2015, GE Transportation extended both agreements by five years

TABLE OF CONTENTS

from the day of signing to a maturity date in November 2020 and amended the interest rate to the mid-rate of the one year swap rate plus a credit spread of 175 basis points. In May and November 2017, GE Transportation terminated both loans early utilizing cash pool resources.

Unsecured loan facility

In September 2017, GE Transportation entered into an unsecured loan facility agreement with Wipro GE Healthcare Private Limited to fund various ongoing projects and operational requirements. The loan has a total value of \$68,703 thousand, disbursed in three tranches. As of December 31, 2017 the first two tranches had been disbursed with a total value of \$44,256 thousand. The final tranche will be disbursed in January 2018. The loan carries an 8% annual interest rate, paid quarterly until the maturity of the loan in January 2020.

Unsecured loans

Beginning in September 2014, GE Transportation entered into a series of unsecured loans with BNDES, a Brazilian Development Bank. GE Transportation receives financing using local resources from this bank. The amounts outstanding under these loans as of December 31, 2017 and 2016 classified as short-term borrowings is \$0 and \$21,195 thousand, respectively. As of December 31, 2017, all of the BNDES loans had been paid in full and terminated. The weighted-average interest rate as of December 31, 2016 was 8.36%.

Off Balance Sheet Obligations

As of June 30, 2018 and December 31, 2017, GE Transportation had off-balance sheet credit exposure for unused letters of credit, bank guarantees, bid bonds and surety bonds of approximately \$679,779 thousand and \$532,196 thousand, respectively.

Contractual Obligations, Commitments and Contingencies

Future minimum lease payments on non-cancelable operating lease arrangements, net of amounts due under subleases, as of December 31, 2017, consist of the following:

In thousands		Payment Due by Period			
		Less than 1 year	1-3 years	3-5 years	More than 5 years
Contractual Obligations	Total				
Operating Leases	\$ 100,097	23,670	24,083	15,915	36,429

GE Transportation did not enter into any additional material operating leases during the six months ended June 30, 2018. Additionally, GE Transportation did not enter into any significant capital leases during the three years ended December 31, 2017 or in the six months ended June 30, 2018.

Quantitative and Qualitative Disclosure About Market Risk

GE Transportation's business involves buying, manufacturing and selling components and products across global markets. These activities expose GE Transportation to changes in foreign currency exchange rates and commodity prices which can adversely affect revenues earned and costs of its operating businesses. When the currency in which equipment is sold differs from the primary currency of the legal entity and the exchange rate fluctuates, it will affect the revenue earned on the sale. These sales and purchase transactions also create receivables and payables denominated in foreign currencies and exposure to foreign currency gains and losses based on changes in exchange

rates. Changes in the price of raw materials used in manufacturing can affect the cost of manufacturing. GE Transportation uses derivatives to mitigate or eliminate these exposures, where appropriate. Most derivative activity consists of currency exchange and commodity contracts.

Critical Accounting Estimates

The preparation of combined financial statements in conformity with U.S. GAAP requires GE Transportation's management to make estimates and judgments that affect the reported amounts of assets and liabilities, disclosure of any contingent assets or liabilities at the date of these combined financial statements and the reported amounts of revenue and expenses during the reporting period. GE Transportation bases its estimates and judgments on historical experience and on various other assumptions and information that it believes to be reasonable under the

TABLE OF CONTENTS

circumstances. Estimates and assumptions about future events and their effects cannot be perceived with certainty, and accordingly, these estimates may change as new events occur, as more experience is acquired, as additional information is obtained and as GE Transportation's operating environment changes. While GE Transportation believes that the estimates and assumptions used in the preparation of these combined financial statements are appropriate, actual results could differ from those estimates.

Estimates are used for, but are not limited to, determining the following: estimates of variable revenues and/or costs on long-term revenue generating contracts, recoverability of long-lived assets and inventory, valuation of goodwill; useful lives used in depreciation and amortization; income taxes and related valuation allowances; accruals for contingencies including warranties; actuarial assumptions used to determine costs on employee benefit plans, valuation assumptions for long term stock-based compensation expense, valuation and recoverability of receivables, valuation of derivatives and the fair value of assets acquired and liabilities assumed in acquisitions.

As GE Transportation's combined financial statements will be distributed to users of GE Transportation's financial statements on a carve-out basis for the first time in 2018, GE Transportation has applied the following new guidance for these combined financial statements.

Revenue from contracts with customers

Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers, (ASC 606), requires GE Transportation to make certain estimates that affect the amount and timing of revenue recognized in a given period, primarily related to equipment and service contracts that are recognized on an overtime basis (refer to Note 2 and Note 3 to GE Transportation's audited financial statements included elsewhere in this prospectus-information statement for further discussion of GE Transportation's accounting policy for these contracts). The most critical estimates relevant to GE Transportation's revenue accounting are related to GE Transportation's long-term CSAs as discussed below.

GE Transportation enters into CSA contracts with GE Transportation's customers, which require GE Transportation to provide preventative maintenance, asset overhaul / updates, and standby warranty-type services that include certain levels of assurance regarding asset performance and uptime throughout the contract periods, which generally range from 5 to 25 years. Contract modifications that extend or revise contract terms are not uncommon and generally result in GE Transportation's recognizing the impact of the revised terms prospectively over the remaining life of the modified contract (i.e., effectively like a new contract). GE Transportation's revenue recognition on CSAs requires estimates of both customer payments expected to be received over the contract term as well as the costs expected to be incurred to perform required maintenance services. GE Transportation routinely reviews estimates under product services agreements and regularly revise them to adjust for changes in outlook as described below.

GE Transportation recognizes revenue as it performs under these arrangements using an over-time accounting model based on costs incurred relative to total expected costs. Throughout the life of a contract, this measure of progress captures the nature of the timing and extent of GE Transportation's underlying performance activities as GE Transportation's stand-ready services often fluctuate between routine inspections and maintenance, unscheduled service events and major overhauls at pre-determined usage intervals. Customers generally pay GE Transportation based on the utilization of the asset (per hour of usage for example) or upon the occurrence of a major event within the contract such as an overhaul. As a result, a significant estimate in determining expected revenues of a contract is estimating how customers will utilize their assets over the term of the agreement. Changes in customer utilization can influence the timing and extent of overhauls and other service events over the life of the contract.

As a result, the revenue recognized each period is dependent on GE Transportation's estimate of how a customer will utilize their assets over the term of the agreement. GE Transportation generally uses a combination of both historical utilization trends as well as forward-looking information such as market conditions and potential asset retirements in

developing GE Transportation's revenue estimates. This estimate of customer utilization will impact both the total contract billings and costs to satisfy GE Transportation's obligation to maintain the equipment. To the extent required, GE Transportation limits the amount of variable consideration used to estimate GE Transportation's transaction price such that it is improbable that a significant revenue reversal will occur in future periods.

TABLE OF CONTENTS

To develop GE Transportation's cost estimates, GE Transportation considers the timing and extent of future maintenance and overhaul events, including the amount and cost of labor, spare parts and other resources required to perform the services. In developing GE Transportation's cost estimates, GE Transportation utilizes a combination of GE Transportation's historical cost experience and expected cost improvements. Cost improvements are only included in future cost estimates after savings have been observed in actual results or proven effective through an extensive regulatory or engineering approval process.

GE Transportation regularly assesses customer credit risk inherent in the carrying amounts of receivables and contract assets and estimated earnings, including the risk that contractual penalties may not be sufficient to offset GE Transportation's accumulated investment in the event of customer termination. GE Transportation gains insight into future utilization and cost trends, as well as credit risk, through GE Transportation's knowledge of the installed base of equipment and the close interaction with GE Transportation's customers that comes with supplying critical services and parts over extended periods.

Long-lived assets

GE Transportation reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the related carrying amounts may not be recoverable. Determining whether an impairment has occurred typically requires various estimates and assumptions, including determining which undiscounted cash flows are directly related to the potentially impaired asset, the useful life over which cash flows will occur, their amount, and the asset's residual value, if any. In turn, measurement of an impairment loss requires a determination of fair value, which is based on the best information available. GE Transportation derives the required undiscounted cash flow estimates from GE Transportation's historical experience and GE Transportation's internal business plans. To determine fair value, GE Transportation uses quoted market prices when available, GE Transportation's internal cash flow estimates discounted at an appropriate discount rate and independent appraisals, as appropriate.

See Note 2 to GE Transportation's audited financial statements included elsewhere in this prospectus-information statement for further information on impairment losses.

Goodwill and other identified intangible assets

GE Transportation tests goodwill for impairment annually each year. The impairment test consists of two steps: in step one, the carrying value of the reporting unit is compared with its fair value; in step two, which is applied when the carrying value is more than its fair value, the amount of goodwill impairment, if any, is derived by deducting the fair value of the reporting unit's assets and liabilities from the fair value of its equity, and comparing that amount with the carrying amount of goodwill. GE Transportation determines fair values for each of the reporting units using the market approach, when available and appropriate, or the income approach, or a combination of both. GE Transportation assesses the valuation methodology based upon the relevance and availability of the data at the time GE Transportation performs the valuation. If multiple valuation methodologies are used, the results are weighted appropriately.

Valuations using the market approach are derived from metrics of publicly traded companies or historically completed transactions of comparable businesses. The selection of comparable businesses is based on the markets in which the reporting units operate giving consideration to risk profiles, size, geography, and diversity of products and services. A market approach is limited to reporting units for which there are publicly traded companies that have the characteristics similar to GE Transportation's businesses.

Under the income approach, fair value is determined based on the present value of estimated future cash flows, discounted at an appropriate risk-adjusted rate. GE Transportation uses its internal forecasts to estimate future cash

flows and include an estimate of long-term future growth rates based on GE Transportation's most recent views of the long-term outlook for each business. Actual results may differ from those assumed in GE Transportation's forecasts. GE Transportation derives its discount rates using a capital asset pricing model and analyzing published rates for industries relevant to GE Transportation's reporting units to estimate the cost of equity financing. GE Transportation uses discount rates that are commensurate with the risks and uncertainty inherent in the respective businesses and in GE Transportation's internally developed forecasts.

Estimating the fair value of reporting units requires the use of estimates and significant judgments that are based on a number of factors including actual operating results. It is reasonably possible that the judgments and estimates described above could change in future periods.

TABLE OF CONTENTS

GE Transportation reviews identified intangible assets with defined useful lives and subject to amortization for impairment whenever events or changes in circumstances indicate that the related carrying amounts may not be recoverable. Determining whether an impairment loss occurred requires comparing the carrying amount to the sum of undiscounted cash flows expected to be generated by the asset. GE Transportation tests intangible assets with indefinite lives annually for impairment using a fair value method such as discounted cash flows.

See Notes 2 and 8 to GE Transportation's audited financial statements included elsewhere in this prospectus-information statement for further information.

Recent Accounting Pronouncements

In January 2017, the FASB issued ASU 2017-04, *Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill*. This ASU simplifies the measurement of goodwill impairment to a single-step test. The guidance removes step two of the goodwill impairment test, which requires a hypothetical purchase price allocation, and will now be the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. Under the revised guidance, failing step one will always result in goodwill impairment. The new guidance is effective for annual and interim goodwill impairment tests beginning after December 15, 2019 and early adoption is permitted. GE Transportation is currently evaluating the impact of the adoption of ASU 2017-04 on GE Transportation's combined financial statements.

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments-Credit Losses: Measurement of Credit Losses on Financial Instruments*. The ASU introduces a new accounting model, the Current Expected Credit Losses model (CECL), which requires earlier recognition of credit losses, while also providing additional transparency about credit risk. The CECL model utilizes a lifetime expected credit loss measurement objective for the recognition of credit losses for loans and other receivables at the time the financial asset is originated or acquired. The expected credit losses are adjusted each period for changes in expected lifetime credit losses. This model replaces the multiple existing impairment models under current U.S. GAAP, which generally require that a loss be incurred before it is recognized. The new standard will also apply to receivables arising from revenue transactions such as contract assets and accounts receivables and is effective for fiscal years beginning after December 15, 2019. GE Transportation continues to evaluate the effect of the standard on GE Transportation's combined financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases* (ASU 2016-02), creating ASC Subtopic 842, *Leases*. ASU 2016-02 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. ASU 2016-02 requires lessees to present a right-of-use asset and a corresponding lease liability on the balance sheet. Lessor accounting is substantially unchanged compared to the current accounting guidance. ASU 2016-02 is effective for annual reporting periods beginning after December 15, 2018, and for the interim and annual reporting periods thereafter, with early adoption permitted. GE Transportation is currently evaluating the impact of the adoption of ASU 2016-02 on GE Transportation's combined financial statements.

TABLE OF CONTENTS**SELECTED HISTORICAL FINANCIAL DATA**

The following selected combined financial data of GE Transportation and selected consolidated financial data of Wabtec are being provided to help you in your analysis of the financial aspects of the Transactions. You should read this information in conjunction with the financial information included elsewhere and incorporated by reference in this document. See Management's Discussion and Analysis of Financial Condition and Results of Operations for GE Transportation, Where You Can Find More Information; Incorporation by Reference, Information on the GE Transportation, Information on GE, Information on Wabtec and Unaudited Pro Forma Condensed Combined Financial Statements.

Selected Historical Combined Financial Data of GE Transportation

The following data of GE Transportation as of June 30, 2018, and for the six-month periods ended June 30, 2018 and June 30, 2017, have been derived from the unaudited combined financial statements of GE Transportation included elsewhere in this prospectus-information statement. The following data of GE Transportation as of December 31, 2017 and 2016, and for the three years in the period ended December 31, 2017, has been derived from the audited combined financial statements of GE Transportation included elsewhere in this prospectus-information statement. The data below as of December 31, 2015, 2014 and 2013 and for each of the years ended December 31, 2014 and 2013 has been derived from the historical consolidated financial statements of GE not included or incorporated by reference in this document. This information is only a summary and should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations for GE Transportation, the combined financial statements of GE Transportation and the notes thereto and the unaudited pro forma condensed combined financial statements of Wabtec and GE Transportation included elsewhere in this prospectus-information statement.

TABLE OF CONTENTS

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL STATEMENTS

The following unaudited pro forma condensed combined financial statements are presented to illustrate the estimated effects of the Transactions described in this prospectus-information statement under The Transactions.

The following unaudited pro forma condensed combined balance sheet as of June 30, 2018, and the unaudited pro forma condensed combined statements of income for the six months ended June 30, 2018 and the year ended December 31, 2017 (collectively, the Pro Forma Statements) have been prepared in compliance with the requirements of Regulation S-X under the Securities Act using accounting policies in accordance with U.S. GAAP. The unaudited pro forma condensed combined financial information is based on Wabtec's historical consolidated financial statements and GE Transportation's historical combined financial statements as adjusted to give effect to the Transactions, including the Merger.

Accounting policies used in the preparation of the Pro Forma Statements are based on the audited consolidated financial statements of Wabtec for the year ended December 31, 2017 and the unaudited condensed consolidated financial statements as of and for the six months ended June 30, 2018. Pro Forma adjustments have been made to GE Transportation's financial statements to align to Wabtec's accounting policies. Specifically, GE Transportation adopted Accounting Standards Update (ASU) No. 2014-09 Revenue from Contracts with Customers using the full retrospective method. Included as a pro forma adjustment in the unaudited pro forma condensed combined statement of income for the year ended December 31, 2017 is an adjustment to conform GE Transportation's method of adopting ASC 606 to Wabtec's method of adoption which was the modified retrospective method.

The Transactions have not been consummated. The pro forma adjustments are based on preliminary estimates and currently available information and assumptions that Wabtec management believes are reasonable. The notes to the Pro Forma Statements provide a discussion of how such adjustments were derived and presented in the Pro Forma Statements. Changes in facts and circumstances or discovery of new information may result in revised estimates. As a result, there may be material adjustments to the Pro Forma Statements. See note 7 to the Pro Forma Statements. Certain historical GE Transportation and Wabtec financial statement caption amounts have been reclassified or combined to conform to Wabtec's presentation and the disclosure requirements of the combined company. See note 6 to the Pro Forma Statements.

The Pro Forma Statements should be read in conjunction with the audited consolidated financial statements of Wabtec as of and for the year ended December 31, 2017, which are incorporated by reference herein from Wabtec's current report on Form 8-K filed with the SEC on September 10, 2018, Wabtec's interim financial statements as of and for the six-month period ended June 30, 2018, which are incorporated by reference herein from Wabtec's quarterly report on Form 10-Q filed with the SEC for the quarter ended June 30, 2018, and the audited combined financial statements of GE Transportation as of and for the year ended December 31, 2017 and GE Transportation's interim financial statements as of and for the six-month period ended June 30, 2018, which are, in each case, included elsewhere in this prospectus-information statement. GE Transportation's historical financial statements included in this prospectus-information statement have been presented on a carve-out basis from GE's consolidated financial statements using the historical results of operations, cash flows, assets and liabilities of GE Transportation and include allocations of corporate expenses from GE. These allocations reflect significant assumptions, and the financial statements do not fully reflect what GE Transportation's financial position, results of operations or cash flows would have been had it been a stand-alone company during the periods presented. As a result, historical financial information is not necessarily indicative of GE Transportation's future results of operations, financial position or cash flows. The note disclosure requirements of annual consolidated financial statements provide additional disclosures to that required for pro forma condensed combined financial information.

The unaudited Pro Forma Statements give effect to the Transactions as if they had occurred on January 1, 2017, for the purposes of the unaudited pro forma condensed combined statements of income for the six months ended June 30, 2018 and the year ended December 31, 2017. The unaudited Pro Forma Statements give effect to the Transactions as if they had occurred on June 30, 2018, for the purposes of the unaudited pro forma condensed combined balance sheet. In the opinion of Wabtec's management, these Pro Forma Statements include all material adjustments necessary to be in accordance with Article 11 of Regulation S-X under the Securities Act.

The Pro Forma Statements are presented for illustrative purposes only and may not be indicative of the results of operations that would have occurred if the events reflected therein had been in effect on the dates indicated or the results which may be obtained in the future. In preparing the Pro Forma Statements, no adjustments have been made to reflect the potential operating synergies and administrative cost savings or the costs of integration activities that could result from the combination of Wabtec and GE Transportation. Actual amounts recorded upon consummation of the Transactions will differ from the Pro Forma Statements, and the differences may be material.

TABLE OF CONTENTS

Westinghouse Air Brake Technologies Corporation Notes to Pro Forma Statements (Unaudited) (Expressed in U.S. dollars, unless otherwise indicated)

1. Description of the transaction

GE, Wabtec, SpinCo and Merger Sub, entered into the Merger Agreement on May 20, 2018, and GE, SpinCo, Wabtec and Direct Sale Purchaser entered into the Separation Agreement on May 20, 2018, which together provide for the combination of Wabtec and GE Transportation through a modified Reverse Morris Trust transaction structure. In connection with the Separation of GE Transportation from the remaining business of GE, GE will conduct the Internal Reorganization. The Transactions have been approved by the Wabtec Board and the GE Board.

In connection with the Direct Sale, certain assets of GE Transportation, potentially including the equity interests of certain pre-Transaction subsidiaries of GE that compose part of GE Transportation, will be sold to Direct Sale Purchaser for a cash payment of \$2.9 billion, and Direct Sale Purchaser will assume certain liabilities of GE Transportation in connection with this purchase. Thereafter, GE will transfer the SpinCo Business to SpinCo and its subsidiaries (to the extent not already held by SpinCo and its subsidiaries) in the SpinCo Transfer, and SpinCo will issue to GE additional shares of SpinCo common stock in the SpinCo Transfer. Following this issuance of additional SpinCo common stock to GE, GE will own 8,700,000,000 shares of SpinCo common stock, or such other amount as GE determines, subject to the consent of Wabtec not to be unreasonably withheld, conditioned or delayed, which will constitute all of the outstanding SpinCo common stock.

Following the Direct Sale and based on market conditions, corporate finance considerations and timing considerations, GE will distribute the Distribution Shares of SpinCo in a spin-off or a split-off transaction. Immediately after the Distribution and on the closing date of the Merger, Merger Sub will merge with and into SpinCo, whereby the separate corporate existence of Merger Sub will cease and SpinCo will continue as the surviving company and a wholly owned subsidiary of Wabtec. In the Merger, subject to adjustment in accordance with the Merger Agreement, each share of SpinCo common stock will be converted into the right to receive a number of shares of Wabtec common stock based on the exchange ratio set forth in the Merger Agreement, as described in the section of this prospectus-information statement entitled *The Merger Agreement—Merger Consideration*.

Upon consummation of the Merger and calculated based on Wabtec's outstanding common stock immediately prior to the Merger on a fully-diluted, as-converted and as-exercised basis, 50.1% of the outstanding shares of Wabtec common stock would be held collectively by GE and pre-Merger holders of GE common stock (with approximately 9.9% of the outstanding shares of Wabtec common stock expected to be held by GE) and 49.9% of the outstanding shares of Wabtec common stock would be held by pre-Merger Wabtec stockholders. The shares held by GE will be subject to GE's obligations under (x) the Tax Matters Agreement to sell a number of shares of Wabtec common stock within two years of the Distribution Date (as described in the section of this prospectus-information statement entitled *Other Agreements—Tax Matters Agreement*) and (y) the Shareholders Agreement to sell, subject to limited exceptions, all of the shares of Wabtec common stock GE beneficially owns within three years of the closing date of the Merger and prior thereto, to vote all of such shares in the proportion required under the Shareholders Agreement (as described in the section of this prospectus-information statement entitled *Other Agreements—Shareholders Agreement*). GE has the right to increase the percentage of the outstanding shares of Wabtec common stock to be held by pre-Merger GE stockholders (subject to a corresponding reduction in the percentage held by GE).

The estimated total value of the consideration to be paid by Wabtec in the Transactions is subject to the market price of shares of Wabtec common stock at the date of closing. Using Wabtec's closing stock price on the NYSE as of August 17, 2018, the total value of the consideration for the Transactions would be approximately \$14.2 billion, including the Direct Sale Purchase Price, contingent consideration, assumed debt and net of cash acquired. The following chart illustrates the impact of a 10% change in Wabtec's stock price on the transaction purchase price and

estimated goodwill (in millions):

	Purchase Price	Estimated Goodwill
As presented in the Pro Forma Combined results	\$ 14,164.6	\$ 9,254.9
10% Increase in Wabtec Common Stock Price	\$ 15,247.6	\$ 10,337.9
10% Decrease in Wabtec Common Stock Price	\$ 13,081.6	\$ 8,171.9

TABLE OF CONTENTS**2. Basis of presentation**

The Transactions have been accounted for as a business combination using the acquisition method in accordance with Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 805, Business Combinations. As the acquirer for accounting purposes, Wabtec has estimated the fair value of GE Transportation's assets acquired and liabilities assumed and conformed the accounting policies of GE Transportation to its own accounting policies.

The pro forma purchase price allocation is subject to change based on the market price of Wabtec common stock at the time of the Merger, finalization of purchase price adjustments and completion of Wabtec management's assessment of the fair values of the assets and liabilities acquired. Wabtec has not completed the final valuation necessary to determine the acquisition date fair market value of GE Transportation's net assets. As more information becomes available, Wabtec will complete a more detailed review of the preliminary allocation of the purchase price to reflect the acquisition date fair value of those assets and liabilities. As a result of that review, more information could become available that, when analyzed, could have a material impact on the Pro Forma Statements.

Estimated remaining transaction costs for Wabtec and GE Transportation are reflected as an adjustment to cash and retained earnings in the unaudited pro forma condensed combined balance sheet. Estimated remaining transaction costs for Wabtec and GE Transportation have not been reflected in the unaudited pro forma condensed combined statement of income on the basis that these expenses are directly related to the Transactions but are nonrecurring in nature. Total estimated transaction costs for Wabtec and GE Transportation are approximately \$100 million. Certain of GE Transportation's transaction costs will be borne by GE.

In addition, Wabtec expects to record post-combination compensation expense related to the acceleration of unvested stock compensation awards and other employee compensation arrangements directly related to the Merger. This amount is excluded from the unaudited pro forma condensed combined statements of income because it does not have a continuing impact on operations. At this point in time Wabtec is unable to provide a reasonable estimate of the total compensation expense related to the merger; therefore, no adjustment has been recorded to retained earnings in the unaudited pro forma condensed combined balance sheet.

3. Preliminary purchase price allocation

The Transactions have been accounted for as a business combination in accordance with Financial Accounting Standards Board ASC 805, Business Combinations. Under the acquisition method of accounting, Wabtec allocated purchase price to the tangible and intangible net assets acquired pursuant to the Direct Sale and the Merger based on the preliminary estimated fair values as of the assumed date of the Merger.

Wabtec has performed a preliminary valuation analysis of the fair market value of GE Transportation's assets and liabilities. The following table summarizes the allocation of the preliminary purchase price as of the assumed date of the Merger (in millions):

Cash and cash equivalents	\$ 0.0
Accounts receivable	495.2
Inventories	749.2
Other current assets	230.4
Property, plant and equipment	1,226.4
Goodwill	9,254.9
Trade names	300.0
Intellectual property	600.0
Backlog	2,000.0

Customer relationships	700.0
Other noncurrent assets	176.2
Total assets acquired	15,732.3
Current liabilities	(1,488.0)
Contingent consideration	(434.7)
Other noncurrent liabilities	(99.1)
Total liabilities assumed	(2,021.8)
Net assets acquired	\$ 13,710.5
Noncontrolling interest acquired	\$ (44.7)

TABLE OF CONTENTS

This preliminary purchase price allocation has been used to prepare pro forma adjustments in the Pro Forma Statements. The final purchase price allocation will be determined when Wabtec has completed the detailed valuations and necessary calculations. The final allocation could differ materially from the preliminary allocation used in the pro forma adjustments. The final allocation may include (1) changes in fair values of property, plant and equipment, (2) changes in allocations to intangible assets such as trade names, backlog, intellectual property, and customer relationships as well as goodwill and (3) other changes to assets and liabilities.

4. Financing transactions

Wabtec and the other Borrowers entered into the Credit Agreement on June 8, 2018, which includes (i) a \$1.2 billion Revolving Credit Facility, (ii) a \$350.0 million Refinancing Term Loan and (iii) a \$400.0 million Delayed Draw Term Loan. Wabtec also obtained Bridge Commitments in respect of the Bridge Loan Facility in an amount not to exceed \$2.5 billion. On September 14, 2018, in accordance with the Commitment Letter, the Bridge Commitments were permanently reduced to \$0 in connection with Wabtec's issuance of \$500 million aggregate principal amount of the Floating Rate Notes, \$750 million aggregate principal amount of the 2024 Notes and \$1.25 billion aggregate principal amount of the 2028 Notes. Wabtec will use funds available under the Delayed Draw Term Loan and the proceeds from the issuance of the New Wabtec Notes to pay the Direct Sale Purchase Price. Additionally, in the Merger, Wabtec will issue common stock valued (based on Wabtec's closing stock price on the NYSE as of August 17, 2018) at approximately \$10.8 billion.

5. Tax benefits

As a result of the Transactions, Wabtec will be able to deduct for tax purposes the stepped-up basis of certain assets acquired including, but not limited to, property, plant and equipment, trade names, intellectual property, customer relationships, backlog and goodwill. Wabtec estimates the fair value of these tax benefits created in the Transactions to be approximately \$1.5 billion. The final amount and timing of when these tax benefits may be realized could differ materially from the preliminary estimate.

Deferred taxes have not been reflected in the Pro Forma Statements because based on currently available information there are no significant book to tax differences on the acquired assets and assumed liabilities.

6. Reclassification adjustments

Certain reclassifications have been made to the historical presentation of GE Transportation to conform to the historical financial statement presentation of Wabtec. Specifically, Wabtec presents Engineering expense and Amortization expense as separate captions within the statement of income, while GE Transportation presents these expenses within the Cost of goods sold and Selling, general, and administrative expense captions within the statement of income. Reclassification adjustments have been made to conform the GE Transportation presentation of these expenses to the Wabtec financial statement presentation.

Additionally, certain other GE Transportation income statement and balance sheet accounts have been reclassified to conform to Wabtec's financial statement presentation. Reclassifications have also been made to the historical presentation of Wabtec to disclose the amount of revenue and costs related to goods and services.

These reclassification adjustments had no net impact on Income from operations, Income from operations before income tax, Net income, Net income attributable to Wabtec stockholders, Total current assets, Total assets, Total current liabilities, Total liabilities, Total group shareholders' equity, or Total equity.

7. Pro forma adjustments

The pro forma adjustments are based on our preliminary estimates and assumptions that are subject to change. The following adjustments have been reflected in the Pro Forma Statements:

Reflects adjustments to GE Transportation's historical financial statements to conform to Wabtec's adoption of ASC 606 using the modified retrospective method. GE Transportation adopted Accounting Standards Update (ASU) No. 2014-09 Revenue from Contracts with Customers using the full retrospective method. Additionally, reflects

a. adjustments to GE Transportation's historical financial statements to conform to Wabtec's revenue recognition policy for long term service contracts. Other adjustments may be required to conform to Wabtec's accounting policies, but they are not expected to be material. In addition, non-cash amortization expense from purchase price accounting will impact the results of operations.

TABLE OF CONTENTS

- Represents the payment by Wabtec related to the Direct Sale Purchase Price of \$2.9 billion of cash, less the GE
- b. Transportation cash and cash equivalents balance, after giving effect to the settlement of GE Transportation's loans payable to GE affiliates outside of GE Transportation of \$64.0 million.
- c. Represents additional borrowings of \$2.9 billion to finance the Direct Sale Purchase Price.
- Reflects the adjustment of \$294.7 million to increase the basis in the acquired property, plant and equipment to estimated fair value and eliminates GE Transportation's historical Accumulated depreciation of \$1,029.0 million against property, plant and equipment. The estimated useful lives range from three to forty years. The fair value and
- d. useful life calculations are preliminary and subject to change after Wabtec finalizes its review of the specific types, nature, age, condition and location of GE Transportation's property, plant and equipment. The following table summarizes the changes in the estimated depreciation expense (in millions):

	Year Ended December 31, 2017	Six Months Ended June 30, 2018
Estimated depreciation expense	\$ 132.1	\$ 64.9
Historical depreciation expense	(112.3)	(55.1)
Pro forma increase in depreciation expense	\$ 19.8	\$ 9.8

- Reflects the adjustment of historical intangible assets acquired by Wabtec to their estimated fair values. As part of the preliminary valuation analysis, Wabtec identified intangible assets, including trade names, intellectual property,
- e. backlog and customer relationships. The fair value of identifiable intangible assets is determined primarily using the income approach, which requires a forecast of expected future cash flows related to these intangibles.
- The following table summarizes the estimated fair values of GE Transportation's identifiable intangible assets, their estimated useful lives and their amortization on a linear basis (in millions):

	Estimated Fair Value	Useful Life in Years	Amortization Year Ended December 31, 2017	Six Months Ended June 30, 2018
Trade names	\$ 300.0	9	\$ 33.3	\$ 16.7
Intellectual property	600.0	12	50.0	25.0
Backlog	2,000.0	20	100.0	50.0
Customer relationships	700.0	20	35.0	17.5
	\$ 3,600.0		\$ 218.3	\$ 109.2
Historical amortization expense			(71.7)	(23.1)
Pro forma increase in amortization expense			\$ 146.6	\$ 86.1

- f. Reflects adjustment to remove GE Transportation's historical goodwill of \$282.6 million and record goodwill associated with the Transactions of \$9,254.9 million as shown in Note 3.
- g. Reflects the adjustment for the settlement of GE Transportation's loans payable to GE affiliates outside of GE Transportation in the amount of \$67.5 million which will be settled prior to the consummation of the Transactions.
- h. Reflects adjustment to eliminate GE Transportation's historical deferred tax assets and deferred tax liabilities in the amount of \$64.4 million and \$224.7 million, respectively.
- i. Represents the estimated fair value of contingent consideration of \$434.7 million related to payment of a fixed amount, \$470.0 million, to GE which is directly related to the timing of tax benefits expected to be realized

subsequent to the Transactions.

i. Reflects the income tax effect of pro forma adjustments based on an estimated combined tax rate of 29.5% and
j. 22.4% for the year ended December 31, 2017 and the six months ended June 30, 2018, respectively.

TABLE OF CONTENTS

Represents the net increase to interest expense resulting from interest on incurrence of an assumed \$2.9 billion of new debt to finance the Direct Share Purchase Price and other interest adjustments directly related to the Transactions, as follows (in millions):

	Year Ended December 31, 2017	Six Months Ended June 30, 2018
Interest expense on new debt	\$ 125.5	\$ 62.8
Elimination of interest on retired GET debt	(4.8)	(2.5)
Accretion of contingent consideration	8.8	4.4
Amortization of new debt issuance costs	4.2	2.1
Pro forma adjustments to interest expense	\$ 133.7	\$ 66.8

The effect of a 1/8 percent variance in the assumed interest rate related to the new debt would impact pro forma interest expense by approximately \$3.6 million and \$1.8 million for the year ended December 31, 2017 and the six months ended June 30, 2018, respectively.

Represents the estimated adjustment to step up GE Transportation's inventory to a fair value of approximately \$749.2 million, an increase of \$74.0 million from the carrying value. The fair value calculation is preliminary and subject to change. The fair value was determined based on the estimated selling price of the inventory less the remaining manufacturing and selling costs and a normal profit margin on those manufacturing and selling efforts. After the consummation of the Transactions, the step-up in inventory fair value of \$74.0 million will increase cost of sales over approximately 12 months as the inventory is sold. This increase is not reflected in the unaudited pro forma condensed combined statements of income because it does not have a continuing impact.

Represents the elimination of the historical equity of GE Transportation and the issuance of 98.5 million shares of Wabtec common stock as consideration in the Merger.

Represents the elimination of transaction costs of \$50.5 million directly related to the Transactions which will not have a recurring impact on operations.

TABLE OF CONTENTS**HISTORICAL PER SHARE DATA, MARKET PRICE AND DIVIDEND DATA****Comparative Historical and Pro Forma Per Share Data**

The following table sets forth certain historical and pro forma per share data for Wabtec. The Wabtec historical data has been derived from and should be read together with Wabtec's unaudited consolidated financial statements and related notes thereto contained in Wabtec's quarterly report on Form 10-Q filed with the SEC for the six-month period ended June 30, 2018 and Wabtec's audited consolidated financial statements and related notes thereto as of and for the year ended December 31, 2017, which are incorporated by reference herein from Wabtec's current report on Form 8-K filed with the SEC on September 10, 2018. See "Where You Can Find More Information; Incorporation by Reference." The pro forma data as of and for the six-month period ended June 30, 2018 and for the year ended December 31, 2017 has been derived from the unaudited pro forma condensed combined financial statements included elsewhere in this prospectus-information statement. See "Unaudited Pro Forma Condensed Combined Financial Statements."

This comparative historical and pro forma per-share data is being provided for illustrative purposes only. Wabtec and GE Transportation may have performed differently had the Transactions occurred prior to the periods or at the date presented. You should not rely on the pro forma per-share data presented as being indicative of the results that would have been achieved had Wabtec and GE Transportation been combined during the periods or at the date presented or of the future results or financial condition of Wabtec or GE Transportation to be achieved following the consummation of the Transactions.

Historical Common Stock Market Price and Dividend Data

Historical market price data for SpinCo and GE Transportation has not been presented as GE Transportation is currently operated by GE and SpinCo is a wholly owned subsidiary of GE and there is no established trading market in SpinCo common stock. Shares of SpinCo common stock do not currently trade separately from GE common stock.

Shares of Wabtec common stock currently trade on the NYSE under the symbol WAB. There were holders of record of Wabtec common stock at the close of business on , 2018. A number of Wabtec stockholders hold their shares in street name; therefore Wabtec believes that there are substantially more beneficial owners of Wabtec common stock. On May 18, 2018, the last trading day before the announcement of the Transactions, the last sale price of Wabtec common stock reported by the NYSE was \$95.19. The last sale price of Wabtec common stock reported by the NYSE on September 13, 2018 was \$112.12.

TABLE OF CONTENTS

The following table sets forth on a per share basis the cash dividend declared, and the high and low sales prices of Wabtec common stock as reported on the NYSE:

	Wabtec Common Stock		
	High	Low	Dividend
2018			
First Quarter	\$ 86.24	\$ 69.75	\$ 0.120
Second Quarter	\$ 104.21	\$ 78.80	\$ 0.120
Third Quarter (through September 13, 2018)	\$ 114.85	\$ 97.39	\$ N/A
2017			
First Quarter	\$ 88.87	\$ 74.06	\$ 0.100
Second Quarter	\$ 92.00	\$ 77.09	\$ 0.100
Third Quarter	\$ 93.81	\$ 69.20	\$ 0.120
Fourth Quarter	\$ 82.13	\$ 71.96	\$ 0.120
2016			
First Quarter	\$ 80.61	\$ 60.28	\$ 0.080
Second Quarter	\$ 88.46	\$ 66.14	\$ 0.080
Third Quarter	\$ 82.00	\$ 65.54	\$ 0.100
Fourth Quarter	\$ 89.18	\$ 74.32	\$ 0.100

Wabtec Dividend Policy

Wabtec currently intends to continue paying dividends on a quarterly basis, although the declaration of any future dividends will be determined by the Wabtec Board and will depend on many factors, including available cash, estimated cash needs, earnings, financial condition, operating results, and capital requirements, as well as limitations in Wabtec's contractual agreements, applicable law, regulatory constraints, industry practice and other business considerations that the Wabtec Board considers relevant. Wabtec's ability to declare and pay future dividends on Wabtec common stock may be restricted by the provisions of the DGCL and covenants in Wabtec's then-existing indebtedness arrangements.

TABLE OF CONTENTS

DESCRIPTION OF SPINCO COMMON STOCK

The following description of the material terms of the capital stock of SpinCo includes a summary of certain provisions of SpinCo's certificate of incorporation, which we refer to as SpinCo's certificate of incorporation, and bylaws, which we refer to as SpinCo's bylaws. The summaries and descriptions below do not purport to be complete statements of the relevant provisions of SpinCo's certificate of incorporation or SpinCo's bylaws.

SpinCo's authorized capital stock currently consists of 1,000 shares of common stock, par value \$0.01 per share, 100 shares of which are issued and outstanding and held by GE. A holder of SpinCo common stock is entitled to one vote for each share on all matters to be voted upon by the stockholders, and there are no cumulative voting rights. The holders of SpinCo common stock are entitled to receive ratably the dividends, if any, as may be declared from time to time by SpinCo's board of directors out of funds legally available for that purpose. If there is a liquidation, dissolution or winding up of SpinCo, holders of its common stock will be entitled to ratable distribution of its assets remaining after the payment in full of its liabilities. Holders of SpinCo common stock have no preemptive or conversion rights or other subscription rights, and there are no redemption or sinking fund provisions applicable to the SpinCo common stock.

Prior to the Distribution, SpinCo will amend its certificate of incorporation to increase the number of authorized shares of SpinCo common stock so that it equals or exceeds the number of Distribution Shares plus the number of shares of SpinCo common stock to be held by GE immediately prior to the consummation of the Merger. SpinCo will distribute the Distribution Shares *pro rata* to GE's stockholders on the record date of the Distribution. Holders of GE common stock will retain all of their shares of GE common stock, and the Transactions will not affect any rights of GE stockholders with respect to those shares.

In the Merger, each issued and outstanding share of SpinCo common stock will be converted into the right to receive a number of fully paid and non-assessable shares of Wabtec common stock equal to the exchange ratio set forth in the Merger Agreement. See The Merger Agreement—Merger Consideration. No trading market currently exists or ever will exist for SpinCo common stock. GE and GE stockholders will not be able to trade SpinCo common stock before or after it is converted into the right to receive Wabtec common stock in the Merger.

TABLE OF CONTENTS

DESCRIPTION OF WABTEC CAPITAL SECURITIES

The rights of holders of Wabtec's stock are governed by Delaware law, the Wabtec Charter and the Wabtec Bylaws. For information on how to obtain a copy of the Wabtec Charter and the Wabtec Bylaws, see Where You Can Find More Information; Incorporation by Reference

The following description of Wabtec's capital stock does not purport to be complete and is subject to, and qualified in its entirety by reference to, the complete text of the Wabtec Charter and the Wabtec Bylaws.

General

As of the date of this prospectus-information statement, Wabtec's authorized capital stock consists of 201,000,000 shares of capital stock, consisting of up to 200,000,000 shares of common stock, par value \$0.01 per share, and up to 1,000,000 shares of preferred stock, par value \$0.01 per share, in one or more series. As of August 1, 2018, there were 96,544,919 shares of Wabtec common stock issued and outstanding and Wabtec had reserved 2,774,197 additional shares of common stock for issuance under its stock compensation plans. As of the date of this prospectus-information statement, no shares of preferred stock have been issued.

Common Stock

Dividends. The holders of Wabtec common stock are entitled to receive dividends when, as and if declared by the Wabtec Board, out of funds legally available for their payment subject to the rights of holders of Wabtec preferred stock.

Voting Rights. The holders of Wabtec common stock are entitled to one vote per share on all matters submitted to a vote of Wabtec stockholders. There are no cumulative voting rights associated with Wabtec common stock.

Rights Upon Liquidation. In the event of Wabtec's voluntary or involuntary liquidation, dissolution or winding up, the holders of Wabtec common stock will be entitled to share equally in any of Wabtec's assets available for distribution after the payment in full of all debts and distributions and after the holders of all series of the outstanding shares of Wabtec preferred stock have received their liquidation preferences in full.

Miscellaneous. The outstanding shares of Wabtec common stock are fully paid and nonassessable. The holders of Wabtec common stock are not entitled to preemptive or redemption rights. There are no sinking fund provisions applicable to the common stock. Shares of Wabtec common stock are not convertible into shares of any other class of capital stock. Wells Fargo Shareowner Services is the transfer agent and registrar for the Wabtec common stock.

Stock Exchange Listing. Wabtec common stock is listed on the New York Stock Exchange and trades under the symbol WAB.

Preferred Stock

The Wabtec Charter expressly authorizes the Wabtec Board, subject to any limitations prescribed by law and without further stockholder action, to provide for the issuance of up to 1,000,000 shares of preferred stock in one or more series from time to time. In addition, the Wabtec Board is authorized to establish from time to time the number of shares to be included in each series of preferred stock and to fix the designation, relative rights, preferences, qualifications and limitations of the shares of each series of preferred stock.

As of the date of this prospectus-information statement, no shares of preferred stock have been issued.

Special Charter Provisions

The Wabtec Charter and the Wabtec Bylaws contain various provisions that may discourage or delay attempts to gain control of Wabtec. For example:

the Wabtec Board is classified into three classes, with one class elected each year to serve a three-year term; the Wabtec Bylaws require the Nominating and Corporate Governance Committee to nominate (a) William E. Kassling (so long as Mr. Kassling is able and willing to serve and members of his immediate family and their affiliates collectively and beneficially own at least 50% of the shares of

TABLE OF CONTENTS

common stock of Wabtec beneficially owned by Mr. Kassling immediately after the closing of the stock purchase transaction governed by the stock purchase agreement dated as of March 5, 1997 and described in the Current Report on Form 8-K filed by Wabtec on April 11, 1997) and (b) Emilio A. Fernandez (so long as Mr. Fernandez is able and willing to serve and Mr. Fernandez and his immediate family and their affiliates collectively and beneficially own at least 50% of the shares of common stock of Wabtec delivered by the Corporation pursuant to that certain Asset Purchase Agreement dated as of January 23, 1995 by and among Wabtec, Pulse Acquisition Corporation, Pulse Electronics, Incorporated and Pulse Embedded Computer Systems, Inc., which was filed as an exhibit to Wabtec's Registration Statement on Form S-1 (Registration No. 33-90866)). The Wabtec Corporate Governance Guidelines, amended as of May 15, 2018, provide for the resignation of directors from the Wabtec Board upon reaching the age of 75;

except as otherwise provided by applicable law, the Wabtec Charter or the Wabtec Bylaws may be altered, amended or repealed by the stockholders at any annual or special meeting or by action of the Wabtec Board; special meetings of the stockholders may be called at any time by the Chairman of the Wabtec Board, the Chief Executive Officer, a majority of the Wabtec Board or stockholders owning not less than 25% of the capital stock of Wabtec's issued and outstanding capital stock entitled to vote and may not be called by any other person or persons or in any other manner; and stockholders must provide advance notice if they wish to submit a proposal or nominate candidates for director at Wabtec's annual meeting of stockholders.

Other Contractual Provisions

Other contracts to which Wabtec is a party also contain provisions that may discourage or delay attempts to gain control of Wabtec. For example, pursuant to the terms of a shareholders agreement entered into in connection with Wabtec's acquisition of Faiveley Transport, two of Wabtec's directors, Erwan Faiveley and Philippe Alfroid, who were designated by the Faiveley shareholders, were appointed to the Wabtec Board upon completion of Wabtec's acquisition of Faiveley Transport and will continue to be nominated to the Wabtec Board so long as the former Faiveley shareholders beneficially own a certain percentage of the outstanding shares of Wabtec common stock. In addition, pursuant to the terms of that shareholders agreement, Stéphane Rambaud-Measson initially was appointed as an observer to the Wabtec Board in November 2016. Mr. Rambaud-Measson was appointed to the Wabtec Board in May 2017 in accordance with the terms of his employment agreement with Wabtec. Copies of the shareholders agreement and the employment agreement with Mr. Rambaud-Measson described above are exhibits to documents incorporated by reference into this prospectus-information statement. See [Where You Can Find More Information](#) for information on how to obtain copies of those agreements.

TABLE OF CONTENTS**OWNERSHIP OF WABTEC COMMON STOCK****Stock Ownership of Certain Beneficial Owners**

The following table shows stockholders who are known to Wabtec to be a beneficial owner of more than 5% of Wabtec common stock as of August 1, 2018.

<u>Name and Address of Beneficial Owner</u>	Beneficial Ownership⁽¹⁾	Percentage of Class
General Electric Company 41 Farnsworth Street Boston, Massachusetts 02210	10,644,415.45 ⁽²⁾	11.03 %
BlackRock, Inc. 55 East 52 nd Street New York, New York 10055	7,799,634 ⁽³⁾	8.08 %
The Vanguard Group 100 Vanguard Blvd. Malvern, Pennsylvania 19355	7,382,288 ⁽⁴⁾	7.65 %
Faiveley Family Interests 3, rue du 19 mars 196Z 92230 Gennevilliers, France	6,309,670 ⁽⁵⁾	6.54 %
Farallon Capital Partners, L.P. c/o Farallon Capital Management, L.L.C. One Maritime Plaza, Suite 2100 San Francisco, California 94111	5,409,481 ⁽⁶⁾	5.61 %
EdgePoint Investment Group Inc. 150 Bloor Street West, Suite 500 Toronto, Ontario M5S 2X9, Canada	5,143,571 ⁽⁷⁾	5.33 %

Under SEC regulations, a person who has or shares voting or investment power with respect to a security is considered a beneficial owner of the security. Voting power is the power to vote or direct the voting of shares, and (1) investment power is the power to dispose of or direct the disposition of shares. Unless otherwise indicated in the other footnotes below, each person has sole voting power and sole investment power as to all shares listed opposite such person's name.

Based solely upon the information in the Schedule 13D filed May 30, 2018, General Electric Company may be (2) deemed to have shared voting power and shared dispositive power with respect to 10,644,415.45 shares as a result of the Voting Agreement, which represents the aggregate number of shares beneficially owned by the parties to the Voting Agreement, as described under Other Agreements—Voting Agreement.

Based solely upon the information in the Schedule 13G/A filed January 23, 2018, BlackRock, Inc. has sole (3) dispositive power with respect to 7,799,634 shares and sole voting power with respect to 7,171,303 shares.

Based solely upon the information in the Schedule 13G/A filed February 9, 2018, The Vanguard Group has sole (4) dispositive power with respect to 7,299,017 shares, sole voting power with respect to 67,195 shares, shared dispositive power with respect to 83,271 shares and shared voting power with respect to 20,102 shares.

(5) Based solely upon the information in the Schedule 13D/A filed May 24, 2018, the Faiveley family members and entities described therein (collectively, the Faiveley Family Interests) have voting and dispositive power with respect to Wabtec common stock as follows: (i) Mr. Erwan Faiveley may be deemed to have sole power to direct the voting and disposition of 3,898 shares, and the shared power to direct the voting and disposition of 6,305,582 shares; (ii) Mr. Francois Faiveley may be deemed to have sole power to direct the voting and disposition of 190

shares, and the shared power to direct the voting and disposition of 6,305,582 shares; (iii) Financière Faiveley S.A. may be deemed to have the shared power to direct the voting and disposition of 6,305,582 shares; (iv) Famille Faiveley Participations S.A.S. may be deemed to have the shared power to direct the voting and disposition of 6,305,582 shares; and (v) Faivinvest S.C.A. may be deemed to have shared power to direct the voting and disposition of 6,305,582 shares.

Based solely upon the information in the Schedule 13G/A filed February 14, 2018. Farallon Capital Partners, L.P. (6) and its affiliates have, in the aggregate, shared dispositive power and shared voting power with respect to 5,409,481 shares.

Based solely upon the information in the Schedule 13G filed February 13, 2018. EdgePoint Investment Group Inc. (7) has shared dispositive power and shared voting power with respect to 5,143,571 shares.

TABLE OF CONTENTS**Stock Ownership of Directors and Officers**

Under the proxy rules of the SEC, a person beneficially owns Wabtec common stock if the person has the power to vote or dispose of the shares, or if such power may be acquired, by exercising Wabtec Options or otherwise, within 60 days. The table below shows the number of shares of Wabtec common stock beneficially owned as of August 1, 2018 by Wabtec's directors, Chief Executive Officer, Chief Financial Officer and the other named executive officers, and the directors and executive officers as a group. Each person has sole voting power and sole dispositive power with respect to the shares listed unless indicated otherwise.

<u>Named Executive Officer</u>	<u>Shares Owned</u>	<u>Percentage of Class</u>
Raymond T. Betler	301,029 ⁽¹⁾)(2)(3)	*
Patrick D. Dugan	68,815 ⁽¹⁾)(2)	*

William E. Kassling	1,103,378 ⁽¹⁾)(2)(5)(10)	1.15 %
Directors and Executive Officers as a Group (15 persons)	10,772,188 ⁽¹⁾)(2)	11.16 %

*Less than 1%

Includes shares of Wabtec Restricted Stock as follows: Mr. Betler 42,550; Mr. Dugan 27,750; Mr.

Rambaud-Measson 39,400; Mr. DeNinno 29,800; Mr. Wahlstrom 12,640; Mr. Neupaver 39,075; each

(1) non-employee director 1,620; and all directors and executive officers as a group 215,776. The restricted stockholders have sole voting power with respect to the shares of Wabtec Restricted Stock but do not have sole or shared dispositive power until the shares of Wabtec Restricted Stock vest.

Includes Wabtec Options that are exercisable on or within 60 days of August 1, 2018 as follows: Mr. Betler

(2) 115,865; Mr. Dugan 0; Mr. Rambaud-Measson 0; Mr. DeNinno 0; Mr. Wahlstrom 21,205; Mr. Neupaver 123,680; Mr. Brooks 8,000; Mr. Fernandez 8,000; Mr. Foster 4,000; Mr. Kassling 8,000; and all directors and executive officers as a group 296,220.

(3) Includes 131,670 shares owned by Mr. Betler. Also includes 53,494 shares owned by a grantor annuity trust established by Mr. Betler.

(4) Includes 82,872 shares owned by Mr. Brooks. Also includes 385,773 shares owned by Suebro, Inc., a Delaware holding company.

(5)

Includes certain shares pledged to financial institutions as collateral for credit arrangements at December 31, 2017 as follows. Mr. Kassling had a margin balance of approximately \$150,000, a reduction of approximately \$6.5 million from the prior year. Mr. Kassling has pledged 475,000 shares of Wabtec stock. Mr. Brooks had a margin balance of approximately \$11.6 million, a reduction of approximately \$1 million from the prior year. Mr. Brooks has pledged 374,804 shares of Wabtec stock. Additionally, there are also non-Wabtec shares pledged against the margin balance in the amount of \$8.3 million. Mr. Fernandez had a margin balance of approximately \$3.3 million. Mr. Fernandez has pledged 324,479 shares of Wabtec stock, which was a decrease of 500,000 shares of Wabtec stock pledged against the margin balance from the prior year. On February 29, 2016, the Wabtec Board adopted a policy prohibiting future pledges of Company stock as collateral for credit arrangements and requiring any such existing pledges to be eliminated by December 30, 2016 unless it is reasonably impracticable to do so and an extension is granted by the Board. During 2017, the Board approved an extension for Messrs. Kassling, Brooks and Fernandez based upon substantial ongoing progress made in unwinding the pledge agreements and will again review these outstanding pledges during 2018.

- (6) Includes 6,306,781 shares held by the Faiveley Family Interests as described in Footnote (5) to the table above.
- (7) Includes 855,546 shares owned by Mr. Fernandez. Also includes 514,350 shares owned by Mr. Fernandez's wife. Mr. Fernandez disclaims beneficial ownership of the shares held by his wife.
- (8) Includes 15,200 shares owned by Mr. Foster, 17,500 shares held by Lee B. Foster II Dynasty Trust and 37,406 shares held by the Lee B. Foster II Revocable Trust.
- (9) Includes 23,576 shares owned by Mr. Hehir. Also includes 3,000 shares held by the Brian P. Hehir and Janet S. Hehir Foundation for which Mr. Hehir serves as a trustee.
- (10) Includes 73,444 shares owned by Mr. Kassling. Also includes 1,018,654 shares owned by Davideco, a Delaware corporation, and 3,280 shares owned by Mr. Kassling's wife. Mr. Kassling disclaims beneficial ownership of the shares held by his wife.

TABLE OF CONTENTS

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires Wabtec's directors and executive officers to file reports of beneficial ownership and changes in beneficial ownership of Wabtec stock. Directors and officers must furnish Wabtec with copies of these reports. Based on these copies and directors' and executive officers' representations, Wabtec believes all directors and executive officers complied with the requirements of Section 16(a) for the year ended December 31, 2017 except that, due to administrative error, each executive officer was late in the reporting of the withholding of shares to cover tax obligations related to the vesting of shares of Wabtec Restricted Stock in March 2017.

Annual Report on Form 10-K

Wabtec will provide without charge to any stockholder, upon written or oral request, a copy of Wabtec's annual report on Form 10-K for the year ended December 31, 2017 without exhibits. Requests should be directed to Westinghouse Air Brake Technologies Corporation, 1001 Air Brake Avenue, Wilmerding, Pennsylvania 15148-0001, Attention: Corporate Secretary; telephone number: (412) 825-1000.

TABLE OF CONTENTS**COMPARISON OF RIGHTS OF STOCKHOLDERS BEFORE AND AFTER THE TRANSACTIONS**

Each of Wabtec and SpinCo is a Delaware corporation and subject to the provisions of the DGCL. GE is a New York corporation and subject to New York law, including the New York Business Corporation Law (the "NYBCL"). The rights of GE stockholders are governed by GE's restated certificate of incorporation, as amended by the certificate of amendment, dated December 2, 2015, as further amended by the certificate of amendment, dated January 19, 2016, and as further amended by the certificate of change of GE, dated September 1, 2016 (the "GE Charter"), and GE's by-laws, as amended and restated on June 9, 2017 (the "GE Bylaws"). The rights of the Wabtec stockholders are governed by the Wabtec Charter and the Wabtec Bylaws.

Following the Merger, GE stockholders will continue to own the shares of GE common stock that such holders owned prior to the Merger, subject to the same rights as prior to the Separation, the Distribution and the Merger, except that their shares of GE common stock will represent an interest in GE that no longer reflects the ownership and operation of GE Transportation. In addition, GE stockholders entitled to shares of SpinCo common stock in the Distribution will also own shares of Wabtec common stock after the Merger. Following the Merger, Wabtec stockholders will continue to own the shares of Wabtec common stock that such holders owned prior to the Merger, subject to the same rights as prior to the Separation, the Distribution and the Merger, except that their shares of Wabtec common stock will represent an interest in Wabtec that also reflects the ownership and operation of GE Transportation. In addition, if approved by Wabtec stockholders, the Wabtec Charter will be amended pursuant to the terms of the proposed Wabtec Charter Amendment.

The following description summarizes the material differences between the rights associated with GE common stock and Wabtec common stock that may affect GE stockholders who receive shares of Wabtec common stock in connection with the Distribution and the Merger. Since Wabtec stockholders will not receive additional shares of Wabtec common stock in connection with the Merger, the rights of such stockholders with respect to their shares of Wabtec common stock will not be impacted by the Merger. Although Wabtec and GE believe that this summary covers the material differences between the rights of the two groups of stockholders, this summary may not contain all of the information that is important to you and does not purport to be a complete discussion of stockholders' rights. The identification of specific differences is not intended to indicate that other differences do not exist.

You are urged to read carefully the relevant provisions of the DGCL and the NYBCL, as well as the GE Charter, the GE Bylaws, the Wabtec Charter and the Wabtec Bylaws, copies of which have been filed with the SEC. The Wabtec Charter and the Wabtec Bylaws are incorporated by reference into this prospectus-information statement. See "Where You Can Find More Information; Incorporation By Reference."

Comparison of Rights of Stockholders

Stockholder Right	Wabtec	GE
<i>Amendment of the Certificate of Incorporation</i>	The DGCL generally permits the adoption of amendments to the certificate of incorporation if those amendments are approved and declared advisable by the board of directors of the corporation and adopted by the holders of a majority of the outstanding shares of stock of the corporation, unless the certificate of incorporation requires a greater vote. The Wabtec Charter permits amendments to the Wabtec Charter in the manner prescribed by statute as of the date thereof	The NYBCL generally permits the adoption of amendments to the certificate of incorporation if those amendments are approved by a majority vote of the board of directors and by the affirmative vote of at least a majority of the outstanding shares of stock of the corporation, unless the certificate of incorporation requires a greater vote, which the GE Charter does

or thereafter.

not.

Stockholder Right	Wabtec	GE
<i>Amendment of the Bylaws</i>	Under the Wabtec Charter and the Wabtec Bylaws, the Wabtec Board is expressly authorized to alter, amend or repeal the Wabtec Bylaws or adopt new bylaws. Under the Wabtec Bylaws, Wabtec stockholders are expressly authorized to alter, amend or repeal the Wabtec Bylaws or adopt new bylaws at any annual or special meeting. All such amendments to the Wabtec Bylaws must be approved by either the holders of a majority of the outstanding capital stock entitled to vote thereon or by a majority of the Wabtec Board then in office. Notwithstanding the foregoing, Article VIII (Indemnification) of the Wabtec Bylaws shall not be altered, amended or repealed in whole or in part, unless such alteration, amendment or repeal is approved by the Wabtec stockholders pursuant to a vote which would be sufficient to adopt an amendment to the Wabtec Charter.	Under the GE Charter and the GE Bylaws, the GE Board and the GE stockholders are expressly authorized to alter, amend or repeal the GE Bylaws or adopt new bylaws, except that the GE Board is not authorized to amend or repeal any bylaw adopted by GE stockholders after April 20, 1948, unless such authority is granted to the GE Board by a specific provision of a bylaw adopted by the GE stockholders. All such amendments to the GE Bylaws must be approved by an affirmative vote of a majority of the votes cast in favor or against at a meeting of stockholders by the holders of shares entitled to vote thereon.
<i>Authorized Capital Stock</i>	Under the Wabtec Charter, without taking into account the proposed Wabtec Charter Amendment, the total number of shares of all classes of stock which Wabtec shall have authority to issue is 201,000,000 shares, consisting of (1) 200 million shares of common stock, each having a par value of one penny (\$.01); and (2) one million shares of preferred stock, each having a par value of one penny (\$.01). If approved by Wabtec stockholders, the proposed Wabtec Charter Amendment would amend the Wabtec Charter to increase the number of authorized shares of common stock from 200 million to 500 million.	Under the GE Charter, the total number of shares of all classes of stock which GE has the authority to issue is 13,250,000,000 shares, consisting of (1) 13,200,000,000 shares of common stock, each having a par value of \$0.06, and (2) 50,000,000 shares of preferred stock, each having a par value of \$1.00. As of June 30, 2018, there were 8,691,081,000 shares of GE common stock outstanding and 5,939,874 shares of GE preferred stock outstanding.
<i>Preferred Stock</i>	The Wabtec Charter expressly authorizes the Wabtec Board, subject to limitations prescribed by law and the provisions of the Wabtec Charter, to provide for the issuance from time to time in one or more series of any number of shares of preferred stock and, by filing a certificate pursuant to the DGCL, to establish the number of shares to be included in each such series, and to fix the designation, relative rights, preferences, qualifications and limitations of the shares of each such series.	The GE Charter expressly authorizes the GE Board, subject to limitations prescribed by law and the provisions of the GE Charter, to provide for the issuance from time to time in one or more series of any number of shares of preferred stock and, by filing a certificate pursuant to the NYBCL, to establish the number of shares to be included in each such series, and to fix the designation, relative rights, preferences and limitations of the shares of each such series.

Stockholder Right	Wabtec	GE
<i>Voting Rights</i>	<p>Under the Wabtec Bylaws, each Wabtec stockholder represented at a meeting of stockholders shall be entitled to cast one vote for each share of the capital stock entitled to vote thereat held by such stockholder. The Wabtec Bylaws provide that any question brought before any meeting of stockholders (for the avoidance of doubt, question does not include the election of directors) shall be decided by the vote of the holders of a majority of the stock represented and entitled to vote thereat.</p> <p>The DGCL provides that directors shall be elected by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors.</p> <p>The right to cumulate votes in the election of directors does not exist with respect to shares of Wabtec common stock.</p>	<p>Under the NYBCL, each GE stockholder represented at a meeting of stockholders shall be entitled to cast one vote for each share of the capital stock entitled to vote thereat held by such stockholder. Further, under the NYBCL, any action to be taken by a vote of the GE stockholders, other than the election of directors, must be authorized by the affirmative vote of majority of the votes cast in favor of or against such action at a meeting of stockholders by the holders of shares entitled to vote thereon.</p> <p>The GE Charter requires directors to be elected by the affirmative vote of a majority of the votes cast in favor of or against such election, except in a contested election. In a contested election, directors are elected by a plurality of the votes cast.</p> <p>The right to cumulate votes in the election of directors does not exist with respect to shares of GE common stock.</p>
<i>Number and Classification of the Board of Directors</i>	<p>The Wabtec Charter and the Wabtec Bylaws provide that the total number of Wabtec directors will be fixed from time to time by the Wabtec Board. The Wabtec Board is divided into three classes with staggered, three-year terms. Each class consists as nearly as possible of 1/3rd of the total number of directors then serving.</p>	<p>The GE Charter provides that the total number of GE directors will consist of no less than 10 directors. The GE Bylaws further provide that the total number of GE directors will be determined by a vote of a majority of the entire GE Board, except that the number of directors for any year may be fixed by GE stockholders at any annual statutory meeting by a majority vote of the outstanding shares entitled to vote thereon.</p> <p>The GE Board is not divided into classes.</p>
<i>Removal of Directors</i>	<p>Under the DGCL, directors may be removed only for cause and only by the holders of a majority of the voting power of the then outstanding shares of capital stock of Wabtec entitled to vote generally in the election of directors, voting together as a single class.</p>	<p>Under the NYBCL, directors may be removed for cause and, if the certification of incorporation or bylaws so provide, without cause, in each case, by an affirmative vote of a majority of votes cast in favor or against at a meeting of stockholders by the holders of shares entitled to vote thereon. The GE Charter and the GE Bylaws do not provide for the removal of directors without cause.</p>

TABLE OF CONTENTS

Stockholder Right	Wabtec	GE
<i>Vacancies on the Board of Directors</i>	Any vacancies in the Wabtec Board for any reason, including by reason of any increase in the number of directors, may be filled by the Wabtec Board, acting by the affirmative vote of a majority of the remaining directors then in office, even if less than a quorum, and any directors so elected shall hold office until the next election of the class for which such directors have been elected and until their successors are elected and qualify.	The GE Bylaws provide that any vacancy occurring in the GE Board may be filled for the unexpired term by the GE Board.
<i>Special Meetings</i>	The Wabtec Bylaws provide that special meetings of stockholders, for any purpose or purposes, may be called by (1) the Chairman of the Wabtec Board, if there be one, (2) the Chief Executive Officer, (3) directors constituting not less than half of the members of the Wabtec Board then in office or (4) stockholders owning not less than twenty-five percent (25%) of the capital stock of Wabtec issued and outstanding and entitled to vote, in each case by delivering a written request to the Secretary of Wabtec.	The GE Bylaws provide that special meetings of stockholders may be called by (1) the GE Board or (2) by the Secretary upon the written request of stockholders holding ten percent (10%) of the then issued stock of GE entitled to vote generally in the election of directors.
<i>Action by Written Consent</i>	The Wabtec Bylaws provide that any action required or permitted to be taken at any annual or special meeting of Wabtec stockholders may be taken without a meeting, without prior notice and without a vote, if a consent in writing, setting forth the action so taken, shall be signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted, and such written consent is delivered to Wabtec by delivery to its registered office in Delaware, its principal place of business or an officer or agent of Wabtec having custody of the book in which proceedings of meetings of stockholders are recorded. Prompt notice of the taking of the corporate action without a meeting by less than unanimous written consent shall be given to those stockholders who have not consented in writing.	The NYBCL provides that any action required or permitted to be taken by a vote of stockholders may be taken without a meeting on unanimous written consent, setting forth the action so taken, and signed by the holders of all outstanding shares entitled to vote on such action, unless the certificate of incorporation provides otherwise, which the GE Charter does not.

TABLE OF CONTENTS

Stockholder Right	Wabtec	GE
<i>Advance Notice Procedures for Stockholder Proposals or Director Nominations</i>	Under the Wabtec Bylaws, stockholders who wish to make a proposal or nominate directors at an annual meeting of stockholders must have given timely notice thereof in writing to the Secretary of Wabtec and such business must be a proper matter for stockholder action. To be timely, a stockholder's notice shall be delivered to the Secretary of Wabtec at the principal executive offices of Wabtec not later than the close of business on the 60 th day nor earlier than the close of business on the 120 th day prior to the first anniversary of the date of the preceding year's proxy statement for the annual meeting; <i>provided, however</i> , that in the event that the date of the annual meeting is more than 30 days before or more than 60 days after the first anniversary of the preceding year's annual meeting, notice by the stockholder to be timely must be so delivered not earlier than the close of business on the 120 th day prior to such annual meeting and not later than the close of business on the later of the 90 th day prior to such annual meeting or the 10 th day following the day on which public announcement of the date of such meeting is first made. The Wabtec Bylaws provide that in no event shall the public announcement of an adjournment of an annual meeting commence a new time period for the giving of a stockholder's notice as described above. Such stockholder's notice shall set forth (1) as to any business that the stockholder properly proposes to bring before the meeting, a brief description of the business desired to be brought before the meeting, the reasons for conducting such business at the meeting and any material interest in such business of such stockholder and the beneficial owner, if any, on whose behalf the proposal is made; (2) a representation that the stockholder intends to appear in person or by proxy at the meeting to raise the proposal specified in the notice; and (3) as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the proposal is made (A) the name and address of such stockholder, as they appear on Wabtec's books, and of such beneficial owner and (B) the class and number of shares of Wabtec which are owned beneficially and of record by such stockholder and such beneficial owner.	In general, a GE stockholder wishing to nominate a director or propose other business to be brought before the annual meeting of shareholders must notify GE in writing no later than the close of business on the 120 th day nor earlier than the 150 th day prior to the anniversary of the date GE commenced mailing of its proxy materials in connection with the most recent annual meeting of shareholders. This notice must contain specific information concerning the person to be nominated or the matters to be brought before the meeting as well as specific information concerning the shareholder submitting the proposal.

TABLE OF CONTENTS

Stockholder Right	Wabtec	GE
<i>Dividends</i>	The Wabtec Bylaws provide that dividends upon the capital stock of Wabtec may be declared by the Wabtec Board at any regular or special meeting, and may be paid in cash, in property, or in shares of the capital stock.	The NYBCL provides that a corporation may declare and pay dividends on its outstanding shares except when the corporation is insolvent or would be made insolvent as a result of the dividend.
<i>State Antitakeover Statute</i>	Wabtec is subject to Section 203 of the DGCL, which regulates corporate takeovers and generally prohibits a publicly-held Delaware corporation from engaging in a business combination, such as a merger, with a person or group owning 15% or more of the corporation's voting stock for a period of three years following the time the person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner.	GE is subject to Section 912 of the NYBCL, which regulates business combinations and generally prohibits an interested stockholder, defined generally as a person beneficially owning 20% or more of a corporation's outstanding voting stock, from engaging in a business combination with the corporation for five years after first becoming an interested stockholder, unless the board of directors approves the business combination or the transaction resulting in such person becoming an interested stockholder. After the five year period, the interested stockholder and the corporation may engage in a business combination if the business combination is approved by a majority of the outstanding voting stock not beneficially owned by the interested stockholder or if certain fair price requirements are met.
<i>Stockholder Rights Plan</i>	Wabtec does not maintain a stockholder rights plan.	GE does not maintain a stockholder rights plan.
<i>Limitation of Liability of Directors</i>	As permitted by the DGCL, the Wabtec Charter provides that no Wabtec director shall be personally liable to Wabtec or any of its stockholders for monetary damages for breach of a fiduciary duty as a director, except for liability (1) for any breach of the director's duty of loyalty to Wabtec or its stockholders, (2) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (3) pursuant to Section 174 of the DGCL or (4) for any transactions from which a director derived an improper personal benefit.	As permitted by the NYBCL, the GE Bylaws provide that no GE director shall be personally liable to GE or any of its stockholders for monetary damages for breach of duty as a director, except for liability where (1) a director's acts were committed in bad faith or result from active and deliberate dishonesty and, in either case, were material to the cause of action so adjudicated or (2) a director personally gained a financial profit or other advantage to which the director was not legally entitled.

TABLE OF CONTENTS

CERTAIN ANTI-TAKEOVER EFFECTS OF VARIOUS PROVISIONS OF DELAWARE LAW AND THE WABTEC CHARTER AND THE WABTEC BYLAWS

Provisions of the DGCL, the Wabtec Charter and the Wabtec Bylaws contain provisions that may have anti-takeover effects and could delay, defer or prevent a tender offer or takeover attempt that a stockholder might consider in its best interest, including those attempts that might result in a premium over the market price for the shares held by Wabtec stockholders.

Delaware Anti-Takeover Statute

Wabtec is subject to Section 203 of the DGCL, which regulates corporate takeovers and generally prohibits a publicly-held Delaware corporation from engaging in a business combination, such as a merger, with a person or group owning 15% or more of the corporation's voting stock for a period of three years following the time the person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner.

No Cumulative Voting

Wabtec stockholders do not have cumulative voting rights with respect to the election of directors.

Size of Board of Directors and Vacancies

The Wabtec Charter and the Wabtec Bylaws provide that the total number of Wabtec directors will be fixed from time to time by the Wabtec Board. Any vacancies in the Wabtec Board for any reason, including by reason of any increase in the number of directors, may be filled by the Wabtec Board, acting by the affirmative vote of a majority of the remaining directors then in office, even if less than a quorum, and any directors so elected shall hold office until the next election of the class for which such directors have been elected and until their successors are elected and qualify.

Staggered, Classified Board of Directors

Under the Wabtec Bylaws, the Wabtec Board is divided into three classes with staggered, three-year terms so that not all members of the Wabtec Board are elected at one time.

Removal for Cause

Under the DGCL, directors may be removed only for cause and only by the holders of a majority of the voting power of the then outstanding shares of capital stock of Wabtec entitled to vote generally in the election of directors, voting together as a single class.

Blank Check Preferred Stock

The Wabtec Charter authorizes the Wabtec Board to issue blank check preferred stock.

Calling of Annual Meetings

Under the Wabtec Bylaws, the annual meeting of stockholders for the election of directors to succeed those whose terms expire and for the transaction of such other business as may properly be brought before the meeting shall be scheduled by the Wabtec Board.

Advance Notice Requirements

The Wabtec Bylaws provide that written notice of the annual meeting of stockholders stating the place, date and hour of the meeting shall be given to each stockholder entitled to vote at such meeting not less than ten nor more than sixty days before the date of the meeting. Additionally, nominations of persons for election to the Wabtec Board and the proposal of business to be considered by the stockholders at an annual meeting of stockholders must be (1) specified in the notice of meeting (or any supplement thereto) given by or at the direction of the Wabtec Board or (2) otherwise properly brought before the meeting by or at the direction of the Wabtec Board.

TABLE OF CONTENTS

For nominations or other business to be properly brought before an annual meeting by a stockholder, the stockholder must have given timely notice thereof in writing to the Secretary of Wabtec and such business must be a proper matter for stockholder action. To be timely, a stockholder's notice shall be delivered to the Secretary of Wabtec at the principal executive offices of Wabtec not later than the close of business on the 60th day nor earlier than the close of business on the 120th day prior to the first anniversary of the date of the preceding year's proxy statement for the annual meeting; *provided, however*, that in the event that the date of the annual meeting is more than 30 days before or more than 60 days after the first anniversary of the preceding year's annual meeting, notice by the stockholder to be timely must be so delivered not earlier than the close of business on the 120th day prior to such annual meeting and not later than the close of business on the later of the 90th day prior to such annual meeting or the 10th day following the day on which public announcement of the date of such meeting is first made. The Wabtec Bylaws provide that in no event shall the public announcement of an adjournment of an annual meeting commence a new time period for the giving of a stockholder's notice as described above. Such stockholder's notice shall set forth (1) as to any business that the stockholder properly proposes to bring before the meeting, a brief description of the business desired to be brought before the meeting, the reasons for conducting such business at the meeting and any material interest in such business of such stockholder and the beneficial owner, if any, on whose behalf the proposal is made; (2) a representation that the stockholder intends to appear in person or by proxy at the meeting to raise the proposal specified in the notice; and (3) as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the proposal is made (A) the name and address of such stockholder, as they appear on Wabtec's books, and of such beneficial owner and (B) the class and number of shares of Wabtec which are owned beneficially and of record by such stockholder and such beneficial owner.

With respect to special meetings, only such business related to the purpose or purposes stated in the notice of the meeting shall be transacted.

Amendments to the Bylaws

Under the Wabtec Charter and the Wabtec Bylaws, the Wabtec Board is expressly authorized to alter, amend or repeal the Wabtec Bylaws or adopt new bylaws.

Authorized but Unissued Shares

Wabtec's authorized but unissued shares of common stock and preferred stock under the Wabtec Charter are available for future issuance without the approval of Wabtec stockholders. Wabtec may use additional shares for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of authorized but unissued shares of common stock and preferred stock could render more difficult or discourage an attempt to obtain control of Wabtec by means of a proxy contest, tender offer, merger or otherwise.

Limited Liability of Directors and Officers

As permitted by the DGCL, the Wabtec Charter provides that no Wabtec director shall be personally liable to Wabtec or any of its stockholders for monetary damages for breach of a fiduciary duty as a director, except for liability (1) for any breach of the director's duty of loyalty to Wabtec or its stockholders, (2) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (3) pursuant to Section 174 of the DGCL or (4) for any transactions from which a director derived an improper personal benefit.

TABLE OF CONTENTS

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

GE, SpinCo, Wabtec and certain of their respective subsidiaries, in each case as applicable, have entered into or before the consummation of the Transactions, will enter into, ancillary agreements relating to the Transactions and various interim and on-going relationships between GE, SpinCo, Wabtec and certain of their respective subsidiaries. See Other Agreements.

The Transaction—Interests of Wabtec's Directors and Executive Officers in the Transaction

Wabtec directors and executive officers have financial interests in the Transactions that are different from, or in addition to, the interests of Wabtec stockholders generally. The members of the Wabtec Board were aware of and considered these interests, among other matters, in deciding to approve the terms of the Merger Agreement and the Transactions, including the Merger, and in recommending to Wabtec stockholders that they vote to approve the Share Issuance and the Wabtec Charter Amendment. In considering the recommendations of the Wabtec Board that Wabtec stockholders vote to approve the Share Issuance and the Wabtec Charter Amendment, you should be aware of these interests.

Interests of Wabtec's Directors in the Transaction

The directors of Wabtec immediately prior to the consummation of the Merger are generally expected to be the directors of Wabtec immediately after the consummation of the Merger (although the size of the Wabtec Board will be increased to include three additional independent directors to be designated by GE, effective at the time of closing of the Merger). The directors of Wabtec would be entitled to accelerated vesting of certain equity incentive awards upon the consummation of the Merger.

Interests of Wabtec's Executive Officers in the Transaction

The executive officers of Wabtec immediately prior to consummation of the Merger are generally expected to be the executive officers of Wabtec immediately following consummation of the Merger, with Albert J. Neupaver remaining as Wabtec's executive chairman and Raymond T. Betler remaining as Wabtec's president and CEO. Following consummation of the Transactions, Stéphane Rambaud-Measson will become president and CEO of Wabtec's Transit Segment and Rafael O. Santana, president and CEO of GE Transportation, will become president and CEO of Wabtec's Freight Segment. In addition, the executive officers of Wabtec would be entitled to accelerated vesting of certain equity incentive awards upon the consummation of the Merger, and certain executive officers would be entitled to severance benefits upon a qualifying termination of employment in connection with the Merger that are greater than the severance benefits to which they are entitled without regard to the consummation of the Merger. For a further description and quantification of the benefits that Wabtec executive officers may receive as a result of these interests, including these enhanced severance benefits as well as the accelerated vesting of equity incentive awards in connection with the Merger, see The Transactions—Interests of Wabtec's Directors and Executive Officers in the Transactions.

TABLE OF CONTENTS

EXPERTS

The combined financial statements of GE Transportation as of December 31, 2017 and 2016, and for each of the three years in the period ended December 31, 2017, have been included in this prospectus-information statement in reliance upon the report of KPMG LLP, independent registered public accounting firm, and upon the authority of said firm as experts in accounting and auditing.

The consolidated financial statements of Westinghouse Air Brake Technologies Corporation appearing in Westinghouse Air Brake Technologies Corporation's Current Report (Form 8-K) dated September 10, 2018, as of December 31, 2017 and 2016, and for each of the three years in the period ended December 31, 2017 (including the schedule appearing therein), have been audited by Ernst & Young LLP, independent registered public accounting firm, as set forth in their report thereon, included therein, and incorporated herein by reference, which as to the year 2016 is based in part on the report of PricewaterhouseCoopers Audit, independent registered public accounting firm. The financial statements referred to above are incorporated herein by reference in reliance upon such reports given on the authority of such firm as experts in accounting and auditing.

The audited financial statements of Faiveley Transport S.A. as of December 31, 2016 and November 30, 2016, and the results of operations and cash flows for the period from November 30, 2016 to December 31, 2016, not separately incorporated by reference herein, have been audited by PricewaterhouseCoopers Audit, an independent registered public accounting firm, whose report thereon is incorporated by reference herein. The audited financial statements of Westinghouse Air Brake Technologies Corporation to the extent they relate to Faiveley Transport S.A. have been so included in reliance on the report of such independent registered public accounting firm given on the authority of said firm as experts in auditing and accounting.

TABLE OF CONTENTS

CERTAIN DEFINITIONS

Certain terms are used in this prospectus-information statement as follows (if any term is defined in a Transaction Document, such term as used in this prospectus-information statement is subject to, and qualified in its entirety by, the definition of such term in such Transaction Document, which definition is incorporated by reference into this prospectus-information statement):

2024 Notes means \$750 million aggregate principal amount of Wabtec's 4.150% Senior Notes due 2024 issued pursuant to the New Wabtec Notes Indenture;

2028 Notes means \$1.25 billion aggregate principal amount of Wabtec's 4.700% Senior Notes due 2028 issued pursuant to the New Wabtec Notes Indenture;

Additional Agreements means the Employee Matters Agreement, the Tax Matters Agreement, the Shareholders Agreement, the IP Cross License Agreement, the Trademark License Agreement, the Transition Services Agreement, the R&D Agreement and the India R&D Agreement;

Administrative Agent means PNC Bank, National Association, in its capacity as administrative agent under the Credit Agreement, or any successor administrative agent under the Credit Agreement;

Base Indenture means the Indenture, dated August 8, 2013, between Wabtec and Wells Fargo Bank, National Association, as trustee;

Borrowers means Wabtec, Wabtec Coöperatief U.A. and the other borrowers party to the Credit Agreement from time to time;

Code means the Internal Revenue Code of 1986, as amended;

Commitment Letter means the Commitment Letter dated May 20, 2018, between Goldman Sachs Bank USA and Wabtec, and any associated fee letters, in respect of loans in the aggregate principal amount of \$2.9 billion, together in each case with any amendments, supplements and joinders thereto including by the Commitment Parties;

Commitment Parties means, collectively, Goldman Sachs Bank USA, JPMorgan Chase Bank, N.A., Bank of America, N.A., PNC Bank, National Association, HSBC Bank USA, N.A., The Toronto-Dominion Bank, New York Branch, Branch Banking and Trust Company, SG Americas Securities, LLC Société Generale, Citibank, N.A., Credit Agricole Corporate and Investment Bank, MUFG Bank, Ltd., Citizens Bank, N.A., Wells Fargo Bank, N.A., BNP Paribas, The Bank of Nova Scotia, U.S. Bank National Association, The Huntington National Bank, First National Bank of PA, Dollar Bank, Federal Savings Bank, together with all additional lenders added to the Commitment Letter from time to time;

Credit Agreement means the credit agreement dated as of June 8, 2018, by and among the Borrowers, the other borrowing subsidiaries party thereto from time to time, the lenders party thereto from time to time, PNC Bank, National Association, as administrative agent, and the other parties thereto;

DGCL means the General Corporation Law of the State of Delaware, as amended;

Direct Sale means the sale of certain assets of GE Transportation, potentially including the equity interests of certain pre-Transaction subsidiaries of GE that compose part of GE Transportation, to Direct Sale Purchaser and the assignment of certain liabilities of GE Transportation to Direct Sale Purchaser, in each case, as described in the

Separation Agreement;

Direct Sale Purchase Price means the purchase price of \$2.9 billion for certain assets to be purchased in the Direct Sale;

Direct Sale Purchaser means Wabtec US Rail, Inc., a Delaware corporation and wholly owned subsidiary of Wabtec (collectively with its subsidiaries, as the context may require);

Distribution means the distribution by GE of the Distribution Shares to GE stockholders by way of a *pro rata* dividend or by way of an exchange offer and, with respect to any Distribution Shares that are not exchanged for in any such exchange offer, a *pro rata* dividend to the GE stockholders;

Distribution Date means the date on which the Distribution occurs;

TABLE OF CONTENTS

Distribution Effective Time means the time established by the GE Board as the effective time of the Distribution on the Distribution Date;

Distribution Shares means a number of shares of SpinCo common stock constituting not less than 80.25% of the outstanding shares of SpinCo common stock, as determined by GE in accordance with the requirements of the Separation Agreement;

Employee Matters Agreement means the Employee Matters Agreement to be entered into prior to the Distribution Effective Time among GE, SpinCo, Wabtec and Direct Sale Purchaser, the form of which is incorporated by reference into this prospectus-information statement;

ERISA means the Employee Retirement Income Security Act of 1974, as amended;

Exchange Act means the Securities Exchange Act of 1934, as amended, together with the rules and regulations promulgated thereunder;

Floating Rate Notes means \$1.25 billion aggregate principal amount of Wabtec's Floating Rate Senior Notes due 2021 issued pursuant to the New Wabtec Notes Indenture;

GAAP means generally accepted accounting principles in the United States;

GE means General Electric Company, a New York corporation, and, unless the context otherwise requires, its subsidiaries, which, after consummation of the Direct Sale, will not include any subsidiaries transferred in the Direct Sale, and, which after the Distribution, will not include SpinCo and the SpinCo Transferred Subsidiaries;

GE Board means the board of directors of GE;

GE common stock means the common stock, par value \$0.06 per share, of GE;

GE stockholders means the holders of GE common stock;

GE Tax Opinions means, collectively, (i) an opinion of Davis Polk & Wardwell LLP, tax counsel to GE (the "Davis Polk"), dated as of the closing date of the Merger, on the basis of customary assumptions and representations, to the effect that for U.S. federal income tax purposes the Merger will qualify as a reorganization within the meaning of Section 368(a) of the Code and that each of Wabtec, Merger Sub and SpinCo will be a party to the reorganization within the meaning of Section 368(b) of the Code (or, if Davis Polk is unwilling or unable to issue such opinion, a written opinion to the same effect of a nationally recognized law firm or accounting firm reasonably acceptable to Wabtec and GE) in form and substance reasonably acceptable to GE (the "GE Merger Tax Opinion") and (ii) an opinion of Davis Polk, dated as of the closing date of the Merger, on the basis of customary assumptions and representations, to the effect that for U.S. federal income tax purposes the (a) the SpinCo Transfer and Distribution, taken together, will qualify as a reorganization within the meaning of Section 368(a) of the Code and that each of GE and SpinCo will be a party to the reorganization within the meaning of Section 368(b) of the Code and (b) the Distribution will qualify as a distribution of the SpinCo common stock to GE stockholders pursuant to Section 355(a) of the Code (or, if Davis Polk is unwilling or unable to issue such opinion and certain conditions exist, a written opinion to the same effect of one of a specified list of law firms or accounting firms) in form and substance reasonably acceptable to GE (the "GE Distribution Tax Opinion");

GE Transportation means the transportation business of GE, which comprises GE's worldwide business of sourcing, manufacturing, developing, providing and selling transportation products and services for the railroad, mining,

marine, stationary power and drilling industries;

Goldman Sachs means Goldman Sachs & Co. LLC;

HSR Act means the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended;

India R&D Agreement means the Research & Development Agreement to be entered into prior to the Distribution Effective Time by and between John F. Welch Technology Center and SpinCo;

Internal Reorganization means the internal reorganization within GE of GE Transportation in anticipation of the Direct Sale, the SpinCo Transfer and the Distribution as contemplated by the Separation Agreement and the Merger Agreement;

TABLE OF CONTENTS

IP Cross License Agreement means the Intellectual Property Cross License Agreement to be entered into prior to the Distribution Effective Time by and between GE and SpinCo;

IRS means the United States Internal Revenue Service;

Merger means the merger of Merger Sub with and into SpinCo, whereby the separate corporate existence of Merger Sub will cease and SpinCo will continue as the surviving company and as a wholly owned subsidiary of Wabtec, as contemplated by the Merger Agreement;

Merger Agreement means the Agreement and Plan of Merger dated as of May 20, 2018, among GE, SpinCo, Wabtec and Merger Sub, which is incorporated by reference into this prospectus-information statement;

Merger Sub means Wabtec US Rail Holdings, Inc., a Delaware corporation and a wholly owned subsidiary of Wabtec;

New Wabtec Notes means, collectively, the 2024 Notes, the 2028 Notes and the Floating Rate Notes;

New Wabtec Notes Indenture means the Base Indenture, as supplemented by the Second Supplemental Indenture and the Ninth Supplemental Indenture;

Ninth Supplemental Indenture means the Ninth Supplemental Indenture, dated September 14, 2018, between Wabtec, the subsidiary guarantors party thereto and Wells Fargo Bank, National Association, as trustee;

NYSE means the New York Stock Exchange;

R&D Agreement means the Research & Development Agreement to be entered into prior to the Distribution Effective Time by and between GE, acting through its GE Global Research Center, and SpinCo;

SEC means the United States Securities and Exchange Commission;

Second Supplemental Indenture means the Second Supplemental Indenture, dated November 3, 2016, between Wabtec, the subsidiary guarantors party thereto and Wells Fargo Bank, National Association, as trustee;

Securities Act means the Securities Act of 1933, as amended, together with the rules and regulations promulgated thereunder;

Separation means the separation of GE Transportation from the remaining businesses of GE and its subsidiaries pursuant to the Separation Agreement;

Separation Agreement means the Separation, Distribution and Sale Agreement dated as of May 20, 2018, among GE, SpinCo, Wabtec and Direct Sale Purchaser, which is incorporated by reference into this prospectus-information statement;

Share Issuance means the issuance of shares of Wabtec common stock in the Merger;

Shareholders Agreement means the Shareholders Agreement, to be entered into as of the closing date of the Merger, between Wabtec and GE, the form of which is incorporated by reference into this prospectus-information statement;

SpinCo means Transportation Systems Holdings Inc., a Delaware corporation and a wholly owned subsidiary of GE;

SpinCo Business means the business and operations of GE Transportation, but not including the Direct Sale Assets or the Direct Sale Liabilities;

SpinCo common stock means the common stock, par value \$0.01 per share, of SpinCo;

SpinCo stockholders means the holders of SpinCo common stock;

SpinCo Transfer means the contribution of the SpinCo Business to SpinCo and its subsidiaries (to the extent not already held by SpinCo and its subsidiaries) pursuant to the Separation Agreement;

SpinCo Transferred Subsidiaries means each of the subsidiaries of GE that GE will contribute to SpinCo pursuant to the Separation Agreement, and each of their respective subsidiaries;

Spin-Off means the distribution by GE, on a *pro rata* basis, of the Distribution Shares of SpinCo common stock, par value \$0.01 per share, to GE stockholders;

TABLE OF CONTENTS

Stock Incentive Plans means Wabtec's 2000 Stock Incentive Plan and Wabtec's 2011 Stock Incentive Plan;

Tax Matters Agreement means the Tax Matters Agreement to be entered into prior to the Distribution Effective Time by and among GE, SpinCo, Wabtec and Direct Sale Purchaser, the form of which is incorporated by reference into this prospectus-information statement;

Trademark License Agreement means the General Electric Trademark License to be entered into prior to the Distribution Effective Time by and between GE and SpinCo;

Transaction Documents means the Separation Agreement, the Merger Agreement and the Voting Agreement, as well as the Additional Agreements, each of which have been entered into or will be entered into in connection with the Transactions;

Transactions means the transactions contemplated by the Merger Agreement and the Separation Agreement, which provide for, among other things, the Separation (including the Internal Reorganization), the Direct Sale, the SpinCo Transfer, the Distribution and the Merger, as described in The Transactions ;

Transferred Subsidiaries means any SpinCo Transferred Subsidiary or any subsidiary of GE to be transferred in the Direct Sale;

Transition Services Agreements means the Transition Services Agreement to be entered into at or prior to the Distribution Effective Time by and between the GE and SpinCo;

Trustee means Wells Fargo Bank, National Association;

Voting Agreement means the Voting and Support Agreement dated as of May 20, 2018 by and among GE and each of the Wabtec stockholders listed on Schedule 1 thereto, which is incorporated by reference into this prospectus-information statement;

Wabtec means Westinghouse Air Brake Technologies Corporation, a Delaware corporation, and, unless the context otherwise requires, its subsidiaries, which, after consummation of the Merger, will include SpinCo and the SpinCo Transferred Subsidiaries;

Wabtec Board means the board of directors of Wabtec;

Wabtec Bylaws means the Bylaws of Wabtec, as amended;

Wabtec Charter means the Restated Certificate of Incorporation of Wabtec, as amended;

Wabtec Charter Amendment means the proposed amendment to Wabtec's Charter to increase the number of authorized shares of common stock from 200 million to 500 million;

Wabtec common stock means the common stock, par value \$0.01 per share, of Wabtec;

Wabtec Option means each outstanding option to purchase shares of Wabtec common stock issued by Wabtec pursuant to the Stock Incentive Plans;

Wabtec Performance Unit means each performance unit issued by Wabtec pursuant to the Stock Incentive Plans;

Wabtec preferred stock means the preferred stock, par value \$0.01 per share, of Wabtec;

Wabtec Restricted Stock means each restricted share of Wabtec common stock issued by Wabtec pursuant to the Stock Incentive Plans;

Wabtec Restricted Stock Unit means each restricted stock unit issued by Wabtec pursuant to the Stock Incentive Plans;

Wabtec stockholders means the holders of Wabtec common stock; and

Wabtec Tax Opinion means an opinion of Jones Day, tax counsel to Wabtec, dated as of the closing date of the Merger, on the basis of customary assumptions and representations, to the effect that for U.S. federal income tax purposes the Merger will qualify as a reorganization within the meaning of Section 368(a) of the Code and that each of Wabtec, Merger Sub and SpinCo will be a party to the reorganization within the meaning of Section 368(b) of the Code (or, if Jones Day is unwilling or unable to issue such opinion, a written opinion to the same effect of a nationally recognized law firm or accounting firm reasonably acceptable to Wabtec and GE) in form and substance reasonably acceptable to Wabtec.

WHERE YOU CAN FIND MORE INFORMATION INCORPORATION BY REFERENCE

Wabtec and GE file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy materials that Wabtec and GE have filed with the SEC at the following SEC public reference room: 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference room.

Wabtec's and GE's SEC filings are also available to the public on the SEC's Internet website at www.sec.gov, which contains reports, proxy and information statements and other information regarding companies that file electronically with the SEC. In addition, Wabtec's SEC filings are also available to the public on Wabtec's website, www.wabtec.com, and GE's SEC filings are also available to the public on GE's website, www.ge.com. Information contained on Wabtec's website and GE's website is not incorporated by reference into this prospectus-information statement, and you should not consider information contained on that website as part of this prospectus-information statement.

Statements contained in this prospectus-information statement, or in any document incorporated by reference in this prospectus-information statement, regarding the contents of any contract or other document are not necessarily complete and each such statement is qualified in its entirety by reference to that contract or other document filed as an exhibit with the SEC. The SEC allows Wabtec to incorporate by reference into this prospectus-information statement documents Wabtec files with it. This means that Wabtec can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be a part of this prospectus-information statement, and later information that Wabtec files with the SEC will update and supersede that information. Wabtec incorporates by reference into this prospectus-information statement the documents listed below and any future filings Wabtec makes with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, including any filings after the date of this prospectus-information statement until the date of the special meeting. The information incorporated by reference is an important part of this prospectus-information statement. Any statement in a document incorporated by reference into this prospectus-information statement will be deemed to be modified or superseded for purposes of this prospectus-information statement to the extent a statement contained in this or any other subsequently filed document that is incorporated by reference into this prospectus-information statement modifies or supersedes such statement. Any statement so modified or superseded will be not deemed, except as so modified or superseded, to constitute a part of this prospectus-information statement.

• Wabtec's annual report on Form 10-K for the year ended December 31, 2017 filed with the SEC on February 26, 2018;
• Wabtec's quarterly reports on Form 10-Q for the three-month period ended March 31, 2018 filed with the SEC on May 4, 2018 and for the six-month period ended June 30, 2018 filed with the SEC on July 31, 2018;
• Wabtec's Current Reports on Form 8-K filed with the SEC on May 17, 2018, May 21, 2018, May 24, 2018, June 14, 2018, September 10, 2018 and September 14, 2018;
• Wabtec's Definitive Proxy Statement filed with the SEC on April 5, 2018; and
• The description of Wabtec common stock, par value \$0.01 per share, contained in Wabtec's Form 8-A filed with the SEC on May 19, 1995.

Notwithstanding the foregoing, Wabtec is not incorporating any document, portion thereof or information not deemed filed in accordance with SEC rules, including any information furnished pursuant to Item 2.02 or Item 7.01 of our Current Reports on Form 8-K, except to the extent specified otherwise in such Current Reports.

You can obtain a copy of any document incorporated by reference into this prospectus-information statement except for the exhibits to those documents from Wabtec. You may also obtain these documents from the SEC or through the SEC's website described above. Documents incorporated by reference are available from Wabtec without charge, excluding all exhibits unless specifically incorporated by reference as an exhibit into this prospectus-information statement. Requests should be directed to Westinghouse Air Brake Technologies Corporation, Wilmerding,

Pennsylvania 15148-0001, Attention: Corporate Secretary; telephone number: (412) 825-1000.

If you are a GE stockholder and you have any questions about the proposed transactions, please contact GE's Investor Relations Department at (617) 443-3400.

Report of Independent Registered Public Accounting Firm

To the Board of Directors
General Electric Company:

Opinion on the Combined Financial Statements

We have audited the accompanying combined statement of financial position of GE Transportation (a carve-out business of General Electric Company) (the Company) as of December 31, 2017 and 2016, the related combined statements of earnings, comprehensive income, changes in equity, and cash flows for each of the years in the three-year period ended December 31, 2017, and the related notes (collectively, the combined financial statements). In our opinion, the combined financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2017 and 2016, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2017, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These combined financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these combined financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the combined financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the combined financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the combined financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Company's auditor since 2017.

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

NOTE 1 DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

DESCRIPTION OF THE BUSINESS

GE Transportation (the Business, GET, our or we) is a carve-out business of General Electric Company (GE or Parent). We are a leading global provider of products and solutions to transportation, logistics and other industrial markets. We design, engineer and manufacture diesel-electric locomotives, supply associated aftermarket parts and services and provide digital solutions. Our culture of innovation and differentiated aftermarket solutions has allowed us to build a leading global installed base of diesel-electric locomotives, significant contracted services backlog and longstanding customer relationships. Our products and services are critical to our customers' operating and financial success and enable them to operate with reliability and efficiency. Leveraging our heritage in diesel-electric locomotives, we have continued to innovate to expand our technologies into new products, end markets and logistics applications. Leveraging our core competencies in locomotive manufacturing, we produce electric motors and premium propulsion systems for mining, marine, stationary power and drilling applications. We have combined industry leadership with engineering and software capabilities to build a digital business that is leading the transformation of the transportation and mining industries. We employ approximately 9,000 employees and serve customers across approximately 60 countries.

The Business is comprised of three reportable segments, which reflect the way performance is assessed and resources are allocated.

EQUIPMENT

Our Equipment segment is a leading producer of diesel-electric locomotives serving freight and passenger railroads. We produce mission-critical products and solutions that help railroads reduce operating costs, decrease fuel use, minimize downtime and comply with stringent emissions standards. In addition to locomotives, we also produce a range of engines, electric motors and premium propulsion systems used in mining, marine, stationary power and drilling applications. This segment represents approximately 45%, 53% and 59% of annual revenues in the years ended December 31, 2017, 2016 and 2015, respectively.

SERVICES

Our Services segment is responsible for supporting railroads in the operation of their fleet of GE Transportation locomotives in an efficient manner throughout their entire lifecycle in terms of safety, availability, reliability and economic performance. We provide aftermarket parts and services to our global installed base, including predictive maintenance, regular maintenance, and unscheduled maintenance and overhaul services for locomotives. Our offerings include supply of parts, technical support and locomotive modernizations. Commercially, locomotive maintenance can be contracted on a fully transactional basis or through multi-year contracts (Contractual Service Agreements or CSAs), where we assume certain service activities, and the related performance risks, in return for fixed and variable payments based on underlying utilization of the asset(s) covered. This segment represents approximately 48%, 41% and 37% of annual revenues in the years ended December 31, 2017, 2016 and 2015, respectively.

DIGITAL

Our Digital segment combines decades of industrial leadership with cutting-edge data science and analytics acumen to create an efficient, productive and reliable digital-rail ecosystem – from shipper to receiver – from ports to intermodal terminals – main line locomotives and railcars – to train yards and operation centers. Digital includes transport logistics, transport intelligence, network optimization, train performance and digital mine. Our Digital segment develops and works with our customers to implement a comprehensive set of software-enabled solutions that deliver significant benefits across the transportation and mining landscape. Across global freight and mining industries, productivity and efficiency gains – and new business opportunities – will come largely from digital innovation. Digital tools will improve efficiency of existing assets, connect disparate processes, optimize key chokepoints and entire systems, and open up value across freight and mining. In industries

F-8

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

characterized by in-house and boutique solution providers, the breadth and market presence of our Digital solutions have positioned us as a key player for digital innovation. This segment represents approximately 7%, 6% and 4% of annual revenues in the years ended December 31, 2017, 2016 and 2015, respectively.

On May 21, 2018, GE and Westinghouse Air Brake Technologies (Wabtec) Corporation announced that they had entered into a definitive agreement whereby Wabtec acquired the Business (the Proposed Transaction).

Under the agreement, which has been approved by the Boards of Directors of Wabtec and GE, GE will receive \$2.9 billion in cash at closing. GE shareholders will own approximately 40.2%, GE will own approximately 9.9%, and Wabtec shareholders will own approximately 49.9% of the combined company on a fully diluted basis. The transaction is expected to be tax free to the companies' respective shareholders.

BASIS OF PRESENTATION

These combined financial statements were prepared on a stand-alone basis derived from the consolidated financial statements and accounting records of GE. These combined financial statements as of December 31, 2017 and 2016 and for each of the years ended December 31, 2017, 2016 and 2015 are presented as carve-out financial statements and reflect the combined historical results of operations, comprehensive income, financial position and cash flows of the Business, in conformity with U.S. generally accepted accounting principles (U.S. GAAP). Refer below to *Recent Accounting Pronouncements Reflected in These Combined Financial Statements* for a summary of recent accounting pronouncements that were adopted and applied in these combined financial statements.

These combined financial statements consolidate all majority-owned subsidiaries. The noncontrolling interests have been shown in the Combined Statement of Financial Position as Equity attributable to noncontrolling interests.

All intercompany balances and transactions within the Business have been eliminated in these combined financial statements. As described in Note 4 Related Party Transactions, certain transactions between the Business and GE have been included in these combined financial statements.

The Combined Statement of Financial Position reflects, among other things, all of the assets and liabilities of GE and the Business that are specifically identifiable as being directly attributable to the Business, including Net parent investment as a component of equity. Net parent investment represents GE's historical investment in the Business and includes accumulated net earnings attributable to GE, the net effect of transactions with GE and GE entities, and cost allocations from GE that were not historically allocated to the Business.

GE uses a centralized approach to cash management and financing of its operations. These arrangements are not reflective of the manner in which the Business would have financed its operations had it been a stand-alone business separate from GE during the periods presented. Cash pooling arrangements are excluded from the asset and liability balances in the Combined Statement of Financial Position. These amounts have instead been reported as Net parent investment as a component of equity.

GE and its affiliates provide a variety of services to the Business. The Business may also sell products in the ordinary course of business to GE and its affiliates. The Combined Statement of Earnings includes expense allocations for services and certain support functions (GE Corporate Overhead) that are provided on a centralized basis within GE

such as legal, business development, human resources, corporate audit, treasury and various other GE corporate functions that are routinely allocated to the Business and reflected in the Combined Statement of Earnings in Selling, general and administrative expenses. In addition to GE Corporate Overhead allocations, Selling, general and administrative expenses that would have been incurred in the ordinary course of business if the Business operated as a stand-alone company, such as compensation and benefits for employees of the Business, were included based on either specific identification of direct expenses or an allocation using an approach related to the nature of the item (e.g., external revenue or headcount).

Where allocations of amounts were necessary, the Business believes the allocation of these amounts were determined on a reasonable basis, reflecting all of the costs of GE Transportation and consistently applied in the

F-9

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

periods presented. These allocated amounts, however, are not necessarily indicative of the actual amounts that might have been incurred or realized had the Business operated as a separate stand-alone entity during the periods presented. Consequently, these combined financial statements do not necessarily represent the results the Business would have achieved if the Business had operated as a separate stand-alone entity from GE during the periods presented.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) ESTIMATES AND ASSUMPTIONS

The preparation of combined financial statements in conformity with U.S. GAAP requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, disclosure of any contingent assets or liabilities at the date of these combined financial statements and the reported amounts of revenue and expenses during the reporting period. We base our estimates and judgments on historical experience and on various other assumptions and information that we believe to be reasonable under the circumstances. Estimates and assumptions about future events and their effects cannot be perceived with certainty, and accordingly, these estimates may change as new events occur, as more experience is acquired, as additional information is obtained and as our operating environment changes. While the Business believes that the estimates and assumptions used in the preparation of these combined financial statements are appropriate, actual results could differ from those estimates.

Estimates are used for, but are not limited to, determining the following: estimates of variable revenues and/or costs on long-term revenue generating contracts, recoverability of long-lived assets and inventory, valuation of goodwill, useful lives used in depreciation and amortization, income taxes and related valuation allowances, accruals for contingencies including warranties, actuarial assumptions used to determine costs on employee benefit plans, valuation assumptions for long term stock-based compensation expense, valuation and recoverability of receivables, valuation of derivatives and the fair value of assets acquired and liabilities assumed in acquisitions.

Our revenue recognition on long-term CSAs requires estimates of both customer payments expected to be received over the contract term as well as the costs expected to be incurred to perform required maintenance services. We routinely review estimates under CSAs and regularly revise them to adjust for changes in outlook, however these estimates may materially vary from actual payments and costs incurred over the life of the contracts.

(B) FOREIGN CURRENCY

Certain of our international operations have determined that the local currency is the functional currency whereas others have determined the U.S. dollar is their functional currency. When the functional currency is not the US dollar, the Business translates assets and liabilities to their U.S. dollar equivalents using rates that approximate the exchange rates in effect at the Combined Statement of Financial Position date, and the Business translates functional currency income and expense amounts to their U.S. dollar equivalents using rates that approximate average exchange rates for the period. The U.S. dollar effects that arise from changing translation rates from functional currencies are recorded in Accumulated other comprehensive loss in the Combined Statement of Financial Position.

Gains and losses from foreign currency transactions, such as those resulting from the settlement of monetary items in the non-functional currency and those resulting from remeasurements of monetary items, are included in Costs of revenues and Selling, general and administrative expenses. Gains (losses) of \$26,177 thousand, \$(18,735) thousand and \$27,076 thousand were incurred in the years ended December 31, 2017, 2016 and 2015, respectively.

(C) EQUITY-ACCOUNTED INVESTMENTS

Associated companies are entities in which we do not have a controlling financial interest, but over which we have significant influence, most often because we hold a voting interest of 20% to 50%. Associated companies are accounted for as equity method investments. Results of associated companies are presented on a one-line

F-10

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

basis. Investments in, and advances to, associated companies are presented in the caption Other assets in our Combined Statement of Financial Position. See Note 10 Other Assets. Income earned on these investments are presented in Other (expense) income in our Combined Statement of Earnings.

(D) ACQUISITIONS

Our combined financial statements include the operations of acquired businesses from the date of acquisition. The Business accounts for acquired businesses using the acquisition method of accounting, which requires, among other things, that assets acquired and liabilities assumed be recognized at their estimated fair values as of the acquisition date. Transaction costs are expensed as incurred. Any excess of the consideration transferred over the assigned values of the net assets acquired is recorded as goodwill. When the Business acquires net assets that do not constitute a business as defined in U.S. GAAP, no goodwill is recognized.

Amounts recorded for acquisitions can result from a complex series of judgments about future events and uncertainties and can rely on estimates and assumptions. For information about the risks associated with estimates and assumptions, see Note 2(A) Estimates and Assumptions.

There were no significant acquisitions that were completed during the years ended December 31, 2017, 2016 and 2015 that affected our combined financial statements. See Note 8 for information on changes in goodwill and intangible assets as a result of acquisitions.

(E) CASH AND EQUIVALENTS

Marketable securities with original maturities of three months or less are included in Cash and equivalents. Cash held in commingled accounts with our Parent, or its affiliates, are presented within Net parent investment.

As of December 31, 2017, \$80,228 thousand of Cash and equivalents were held in bank accounts and cannot be released, transferred or otherwise converted into a currency that is regularly transacted internationally, due to lack of market liquidity, capital controls or similar monetary or exchange limitations limiting the flow of capital out of the jurisdiction.

(F) CURRENT RECEIVABLES, NET

Current receivables, net are recorded at the invoiced amount, less an allowance for doubtful accounts, and do not bear interest. The Business maintains an allowance for doubtful accounts for estimated losses inherent in our accounts receivable portfolio. We establish an allowance for doubtful accounts based on various factors including the payment history and financial condition of our debtors and the economic environment. In addition, we consider current receivables aging, unless a specific reserve is established when customers are in bankruptcy or involved in legal disputes about amounts owed. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. See Note 5 Current Receivables, net.

(G) CONCENTRATION OF CREDIT RISK

For the year ended December 31, 2017, one customer accounted for more than 10% of our combined revenues. For the years ended December 31, 2016 and 2015, three customers each accounted for more than 10% of our combined revenues. Additionally, two customers accounted for approximately 14% and 13%, respectively, of gross customer receivables as of December 31, 2017 and one customer accounted for approximately 24% of gross customer receivables as of December 31, 2016. Although this concentration affects our overall exposure to credit risk, our

customer receivables are spread over a diverse group of customers across many countries, which mitigates this risk. We perform periodic credit evaluations of our customers' financial conditions, including monitoring our customers' payment history and current credit worthiness to manage this risk. We do not generally require collateral in support of our customer receivables, but we may require payment in advance or security in the form of a letter of credit or a bank guarantee. Our customer receivables do not represent a significant concentration of credit risk as of December 31, 2017 and 2016 due to the wide variety of customers and markets into which our equipment and services are sold and their dispersion across geographic regions. See Note 5 Current Receivables, net.

F-11

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

See Note 19 Segment Information and Major Customers for further details.

(H) CURRENT RECEIVABLES FACTORING PROGRAM

Some of the Business's accounts receivables are legally transferred through current receivables factoring programs established for GE and various GE subsidiaries administered by an operation of GE Capital called Working Capital Solutions (WCS). GE Transportation participates in three different WCS Accounts Receivable factoring programs: GE Accounts Receivable (GEAR), On Book, and Emerging Market Debtor Pool (EMDP). GE Transportation also utilizes external syndication, which is facilitated either internally or by WCS.

Under the factoring programs, WCS performs a risk analysis and allocates a nonrecourse credit limit for each customer. If the customer exceeds this credit limit, then the remaining amount is either factored with recourse or is not factored as certain jurisdictions do not allow factoring with recourse.

All transfers of receivables qualify as true sales in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Subtopic 860, *Transfers and Servicing* and are therefore derecognized from our Combined Statement of Financial Position. These factoring arrangements are for goods and services sold by GET to third parties in the ordinary course of business, and cash inflows received as part of the transaction are recorded as an operating cash inflow. See Note 4 Related Party Transactions.

The Business does not have any material off-balance-sheet credit exposure related to our customers. See Note 11 Borrowings.

(I) INVENTORIES

Inventories are stated at the lower of cost and net realizable values. Generally, production inventory including raw materials and work in process and finished goods inventory is valued at cost using a first-in, first-out (FIFO) basis.

As necessary, we record provisions and write-downs for excess, slow moving and obsolete inventory. To determine these amounts, we regularly review inventory quantities on hand and compare them to estimates of historical utilization, future product demand, market conditions, production requirements and technological developments.

Effective January 1, 2018, we voluntarily changed the cost flow assumption of the U.S. inventories that were previously measured on a last-in, first-out (LIFO) basis to FIFO basis. We believe the FIFO method is a preferable measure for our inventories as it is expected to better reflect the current value of inventory reported in the Combined Statement of Financial Position, improve the matching of cost of goods sold with related revenue and provide for greater consistency and uniformity across our operations with respect to the method of inventory valuation. The Business applied this change in accounting principle retrospectively to all prior periods presented herein in accordance with FASB ASC Topic 250, *Accounting Changes and Error Corrections*.

See Note 6 Inventories.

(J) RESTRUCTURING COSTS

Costs of restructuring are accounted for in accordance with FASB ASC 420, *Exit or Disposal Cost Obligations*, ASC 712, *Compensation - Nonretirement Postemployment Benefits* and other related pronouncements. ASC 420 requires that a liability for costs associated with an exit or disposal activity be recognized when the liability is incurred. ASC

712 requires employers to recognize the obligation to provide postemployment benefits if all of the following conditions are met: (a) if the obligation is attributable to employees' services already rendered, (b) employees' rights to those benefits accumulate or vest, (c) payment of the benefits is probable, and (d) the amount of the benefits can be reasonably estimated. If those four conditions are not met, the employer should account for postemployment benefits when it is probable that a liability has been incurred and the amount can be reasonably estimated. See Note 18 Restructuring and Other Activities for additional discussion.

F-12

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

(K)SEGMENT REPORTING

We conduct our operations through three operating and reportable segments, which are generally organized based on product lines. Operating segments represent components of an enterprise for which separate financial information is available that is regularly evaluated by the chief operating decision maker in determining how to allocate resources and in assessing performance. The chief operating decision maker uses a variety of measures to assess the performance of the Business as a whole, depending on the nature of the activity. Operating activities are managed through three reportable segments: Equipment, Services and Digital. The performance of these three segments is principally measured based on revenues and operating profit. See Note 19 Segment Information and Major Customers.

(L)PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment (P&E) is stated at cost and is depreciated over its estimated economic life. Subsequently, property, plant and equipment is measured at cost less accumulated depreciation and impairment losses.

P&E includes rotatable assets used to support sales in our Services segment and are presented in the line item Machinery and equipment within P&E. These assets represent already-repaired equipment exchanged for equipment to be serviced, which in turn is repaired and kept for another exchange. Repair costs on rotatable assets are expensed as incurred.

The Business incurs maintenance costs on our major equipment. Repair and maintenance costs are expensed as incurred. See Note 7 Property, Plant and Equipment, net.

(M)GOODWILL

Goodwill represents the excess of the purchase price over the fair value of identifiable net assets acquired in a business combination. Goodwill is assigned to specific reporting units, and the Business tests goodwill for impairment at the reporting unit level at least annually or more frequently when facts or circumstances indicate an impairment may have occurred. A reporting unit is an operating segment, or one level below that operating segment (the component level), if discrete financial information is prepared and regularly reviewed by segment management. The Business also tests goodwill for impairment when an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value. The Business uses quantitative assessment or qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the Business chooses to perform a qualitative assessment and concludes it is more likely than not that the fair value of a reporting unit is less than its carrying amount, a further quantitative fair value test is performed. The Business recognizes an impairment charge if the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill based on the results of our quantitative tests. The market and income approach are used for estimating the fair values for our reporting units. See Note 8 Goodwill and Intangible Assets.

(N)INTANGIBLE ASSETS, NET

All intangible assets of the Business other than goodwill are subject to amortization. The cost of intangible assets is amortized on a straight-line basis over their estimated useful lives. See Note 8 Goodwill and Intangible Assets.

INTERNAL USE SOFTWARE

Internal use software is software that is internally developed, purchased or modified to meet internal needs and for which no substantive plan exists to sell, lease or otherwise market the software externally. Software projects which

meet this scope include internal software we use in running our business and software products developed to support certain revenue streams in our Digital segment (e.g., SaaS offerings). All costs associated with project tasks classified in the preliminary project development or post-implementation/operation stage are expensed as incurred. Capitalization of application development stage costs begin after both of the following occur:

F-13

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

(a) preliminary project development stage is completed, and (b) management authorizes and commits to funding the software project, and it is probable that the project will be completed and the software will be used for the purpose for which it was intended. Capitalization ceases when the project is substantially complete. Capitalized amounts are generally amortized using the straight-line method over the asset's estimated economic life, which in most cases is five years, but does not exceed ten years.

EXTERNAL USE SOFTWARE

External use software is software that is (a) intended to be sold, licensed or marketed to our customers, or is (b) embedded and integral to our tangible products for which research and development has been completed. Costs that are related to the conceptual formulation and design of software are expensed as incurred. Costs that are incurred after technological feasibility has been established are capitalized as an intangible asset. Capitalized costs for software to be sold, leased, or otherwise marketed are amortized on an individual product basis. The annual amortization is the greater of the amount computed using (a) the ratio of current year gross revenues for a product to the total of current year and anticipated future gross revenues for that product, or (b) the straight-line method over the remaining estimated life of the product including the current year.

The Business performs reviews to ensure that unamortized capitalized software program costs remain recoverable from future revenue. See Note 8 Goodwill and Intangible Assets.

(O) TRADE PAYABLES ACCELERATED PAYMENT PROGRAM

The Business's North American operations, and certain of its suppliers, participate in accounts payable programs with GE Capital. Supplier invoices may be settled early by GE Capital to obtain early pay cash discounts. The Business settles its obligations by reimbursing GE Capital on the invoice's contractual due date. As the payables in the Trade Payables Services (TPS) program relate to operating activities incurred in the ordinary course of business and retain the principal characteristics of a trade payable, the results of this program are included within operating activities in our Combined Statement of Cash Flows. See Note 4 Related Party Transactions.

(P) RESEARCH AND DEVELOPMENT COSTS (R&D)

The Business conducts R&D activities to continually enhance our existing products and services, develop new products and services to meet our customer's changing needs and requirements and address new market opportunities. R&D costs are expensed as incurred and amounted to \$113,087 thousand, \$175,020 thousand and \$214,267 thousand for the years ended December 31, 2017, 2016 and 2015, respectively, and are included in Costs of revenues. This includes direct R&D expenses as well as expenses incurred with the use of services from GE Global Research. See Note 4 Related Party Transactions.

(Q) PENSION AND POSTRETIREMENT BENEFITS

Certain employees and retirees of the Business participate in pension and postretirement benefit plans sponsored by GE. These plans are accounted for in accordance with ASC Subtopic 715-80, *Compensation – Retirement Benefits: Multiemployer Plans* and Subtopic 715-20, *Compensation – Retirement Benefits: Defined Benefit Plans* respectively. See Note 17 Pension and Postretirement Benefit Plans.

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

(R) FAIR VALUE MEASUREMENTS

The following sections describe the valuation methodologies the Business uses to measure financial and non-financial instruments accounted for at fair value in accordance with the fair value hierarchy as set forth in ASC 820, *Fair Value Measurement and Disclosures*.

For financial assets and liabilities measured at fair value on a recurring basis, fair value is the price the Business would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets or liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical instruments in active markets.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

We maintain policies and procedures to value instruments using the best and most relevant data available. In addition, the Business performs reviews to assess the reasonableness of the valuations. This detailed review may include the use of a third-party valuation firm.

(S) RECURRING FAIR VALUE MEASUREMENTS

The following sections describe the valuation methodologies used to measure different financial instruments at fair value on a recurring basis.

FINANCIAL INSTRUMENTS – GENERAL

Our financial instruments include trade receivables, trade payables, short and long-term debt and derivative financial instruments. The estimated fair value of our financial instruments as of December 31, 2017 and 2016 approximates their carrying value as reflected in our combined financial statements. See Note 5 Current Receivables, net, Note 9 Prepaid Expenses and Other Current Assets, Note 10 Other Assets, Note 11 Borrowings and Note 14 Other Current Liabilities and Other Liabilities.

DERIVATIVES

The Business uses closing prices for derivatives included in Level 1, which are traded either on exchanges or liquid over-the-counter markets. The majority of our derivatives are valued using internal models and are included in Level 2. Derivative assets and liabilities included in Level 2 are currency exchange contracts, foreign currency forward contracts, and commodity swap contracts.

All derivatives held as of December 31, 2017 and 2016 were valued using Level 2 inputs. See Note 2(W) Derivative Instruments and Hedging Activities.

There were no transfers between Levels 1, 2 and 3 during the years ended December 31, 2017 and 2016.

(T)NON-RECURRING FAIR VALUE MEASUREMENTS

Certain assets are measured at fair value on a non-recurring basis. These assets are not measured at fair value on an ongoing basis, but are subject to fair value adjustments only in certain circumstances. These assets can include long-lived assets that have been reduced to fair value when they are held for sale, and equity method investments

F-15

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

and long-lived assets that are written down to fair value when they are impaired. Assets that are written down to fair value when impaired are not subsequently adjusted to fair value unless further impairment occurs. The following sections describe the valuation methodologies the Business uses to measure those assets not measured on an ongoing fair value basis.

The following sections describe the valuation methodologies the Business uses to measure those assets not measured on an ongoing fair value basis.

EQUITY METHOD INVESTMENTS

Equity method investments are valued using market observable data such as quoted prices when available. When market observable data is unavailable, investments are valued using a discounted cash flow model, comparative market multiples or a combination of both approaches as appropriate and other third-party pricing sources. These investments are included in Level 3.

LONG-LIVED ASSETS

Long-lived assets, such as property, plant and equipment and intangible assets subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Determining whether an impairment has occurred typically requires various estimates and assumptions, including determining which undiscounted cash flows are directly related to the potentially impaired asset, the useful life over which cash flows will occur, their amount and the asset's residual value, if any. In turn, measurement of an impairment loss requires a determination of fair value, which is based on the best information available. The required undiscounted cash flow estimates are derived from our historical experience and our internal business plans. To determine fair value, the Business uses quoted market prices when available, our internal cash flow estimates discounted at an appropriate discount rate, or independent appraisals, as appropriate. Fair values of long-lived assets are primarily derived internally and are based on observed sales transactions for similar assets. These assets are generally included in Level 3. See Note 18 Restructuring and Other activities for impairments recognized related to long-lived assets.

(U)INCOME TAXES

The Business is included in the consolidated U.S. federal, foreign and state income tax returns of GE, where applicable. The Business determines its current and deferred taxes based on the separate return method (i.e., as if the Business were a taxpayer separate from GE). All income taxes due to or due from the Business's Parent that have not been settled or recovered by the end of the period are reflected in Note 13 Income Taxes as such balances will be maintained and settled. Any differences between actual amounts paid or received by the Business and taxes accrued under the separate return method have been reflected in Net parent investment.

The Business accounts for taxes under the asset and liability method. Under this method, deferred income taxes are recognized for temporary differences between the financial statement and tax return bases of assets and liabilities as well as from net operating losses and tax credit carryforwards, based on enacted tax rates expected to be in effect when taxes are actually paid or recovered and other provisions of the tax law. The effect of a change in tax laws or rates on deferred tax assets and liabilities is recognized in income in the period in which such change is enacted. The Business currently intends to indefinitely reinvest earnings of our foreign subsidiaries with operations outside the U.S.

and, accordingly, has not provided U.S. income tax on such earnings. Future tax benefits are recognized to the extent that realization of such benefits is more likely than not, and a valuation allowance is established for any portion of a deferred tax asset that management believes it is not more likely than not to be realized.

Significant judgment is required in determining our tax expense and in evaluating our tax positions, including evaluating uncertainties. The Business operates in approximately 60 countries and our tax filings are subject to audit by the tax authorities in the jurisdictions where business is conducted. These audits may result in assessments of additional taxes that are resolved with the tax authorities or through the courts. The Business has

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

provided for the amounts believed that will ultimately result from these proceedings. The Business recognizes uncertain tax positions that are more likely than not to be sustained if the relevant tax authority were to audit the position with full knowledge of all the relevant facts and other information. For those tax positions that meet this threshold, the Business measures the amount of tax benefit based on the largest amount of tax benefit that the Business has a greater than 50% chance of realizing in a final settlement with the relevant authority. The Business classifies interest and penalties associated with uncertain tax positions as interest expense and provision for income taxes, respectively, on the Combined Statement of Earnings. The effects of tax adjustments and settlements from taxing authorities are presented in these combined financial statements in the period they are recorded.

Due to the enactment of U.S. tax reform, repatriations of foreign earnings will generally be free of U.S. federal tax, but may incur other taxes, such as withholding or state taxes. Indefinite reinvestment is determined by management's judgment about and intentions concerning the future operations of the Business. Most of these earnings have been reinvested in active non-U.S. business operations. At December 31, 2017, we have not changed our indefinite reinvestment decision as a result of U.S. tax reform, but will reassess this during the course of 2018; accordingly, we have not provided income tax on such earnings. It is not practicable to determine the income tax liability that would be payable if such earnings were not reinvested indefinitely.

Additionally, as part of U.S. tax reform, the U.S. has enacted a tax on base eroding payments from the U.S. and a minimum tax on foreign earnings (global intangible low-taxed income). Because aspects of the new minimum tax and the effect on our operations is uncertain and because aspects of the accounting rules associated with this provision have not been resolved, we have not made a provisional accrual for the deferred tax aspects of this provision and consequently have not made an accounting policy election on the deferred tax treatment of this tax.

(V) COMMITMENTS AND CONTINGENCIES

Liabilities for loss contingencies arising from product warranties, claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. See Note 15 Commitments and Contingencies.

(W) DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

Our business activities are conducted in diverse markets around the world. As a result, the Business is exposed to the impact of foreign currency exchange. See Note 4 Related Party Transactions. We use derivatives to manage a variety of risks, including risks related to commodity prices. The Business designates our derivative instruments as economic hedges and does not have any derivatives qualifying as hedges of fair value or cash flows. As the hedged item and the hedging derivative may not fully offset, there may be a net effect on earnings in each period due to differences in the timing of earnings recognition between the derivative and the hedged item. See Note 12 Derivatives and Hedging.

(X) RECENT ACCOUNTING PRONOUNCEMENTS REFLECTED IN THESE COMBINED FINANCIAL STATEMENTS

As our combined financial statements will be distributed to users of our financial statements on a carve-out basis for the first time in 2018, we have applied the following new guidance for these combined financial statements.

REVENUE FROM CONTRACTS WITH CUSTOMERS

In May 2014, the FASB issued a new comprehensive set of revenue recognition principles (ASU No. 2014-09, *Revenue from Contracts with Customers*) that supersedes most existing U.S. GAAP revenue recognition guidance (including ASC 605-35, *Revenue Recognition - Construction-Type and Production-Type Contracts*). The new standard became effective for annual reporting periods beginning after December 15, 2017. We have adopted the standard and applied it retrospectively to all periods presented. Refer to Note 3 Revenue Related to Contracts with Customers for more details.

F-17

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

CLASSIFICATION OF CERTAIN CASH RECEIPTS AND CASH PAYMENTS

In August 2016, the FASB issued ASU No. 2016-15, *Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments*. The standard addresses the classification and presentation of eight specific cash flow items that currently result in diverse practices including the requirement to present cash receipts from a transferor's beneficial interest in securitized trade receivables to be classified as cash inflows from investing activities. This pronouncement is effective for annual reporting periods beginning after December 15, 2017 and is applied on a retrospective basis. The Business has adopted the new guidance and applied it retrospectively to all periods presented in the Combined Statement of Cash Flows. The impact of adopting this standard did not have an effect on the Combined Statement of Cash Flows.

IMPROVEMENTS TO EMPLOYEE SHARE-BASED PAYMENT ACCOUNTING

On September 30, 2016, the Business adopted ASU 2016-09, *Improvements to Employee Share-Based Payment Accounting*, which was intended to simplify several aspects of the accounting for employee share-based payment transactions including the accounting for income taxes, forfeitures and statutory tax withholding requirements, as well as classification in the Combined Statement of Cash Flows. The Business adopted the standard on a prospective basis with the effect of adoption reflected for the interim periods after the year beginning January 1, 2016 as required by the standard. The primary effects of adoption were the recognition of excess tax benefits in our provision for income taxes rather than net parent investment and the reclassification of cash flows related to excess tax benefits from a financing activity to an operating activity for the periods beginning January 1, 2016. The Business will continue to estimate the number of awards that are expected to vest in our determination of the related periodic compensation cost. The impact of adopting this standard did not have a material effect on the provision for income taxes or the classification within the Combined Statement of Cash Flows.

IMPROVING THE PRESENTATION OF NET PERIODIC PENSION COST AND NET PERIODIC POSTRETIREMENT BENEFIT COST

In March 2017, the FASB issued ASU 2017-07, *Compensation—Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. This ASU requires an employer to report the service cost component of net periodic pension benefit cost in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period, with other cost components presented separately from the service cost component and outside of income from operations. Additionally, only the service cost component of net periodic pension benefit cost is eligible for capitalization when applicable. Provisions related to presentation of components of pension costs are to be applied retrospectively, while provisions related to cost capitalization must be applied prospectively. The provisions of this ASU are effective for annual periods beginning after December 15, 2017. The Business has adopted the new guidance and applied it retrospectively to all periods.

SIMPLIFYING OF THE MEASUREMENT OF INVENTORY

In July 2015, the FASB issued ASU 2015-11, *Inventory (Topic 330), Simplifying of the Measurement of Inventory*, which requires inventory not measured using the (LIFO) or retail inventory method, to change the measurement principle for inventory from the lower of cost or market to lower of cost and net realizable value. Net realizable value

is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Currently, inventory measured using these methods is required to be subsequently measured at the lower of cost or market with market defined as replacement cost, net realizable value or net realizable value less a normal profit margin. This ASU eliminates the requirement to consider replacement cost or net realizable value less an approximately normal profit margin when measuring inventory. This pronouncement is effective for annual reporting periods beginning after December 15, 2016 and is applied on a retrospective basis. The Business has adopted the new guidance and applied it retrospectively to all periods presented in the Combined Statement of Financial Position. The impact of adopting this standard did not have a material effect on the Combined Statement of Financial Position.

NOTES TO COMBINED FINANCIAL STATEMENTS

SIMPLIFYING THE ACCOUNTING FOR MEASUREMENT-PERIOD ADJUSTMENTS

On January 1, 2016, we adopted ASU 2015-16, *Simplifying the Accounting for Measurement-Period Adjustments*, which eliminated the requirement for an acquirer in a business combination to account for measurement-period adjustments retrospectively. The Business will recognize measurement-period adjustments when amounts are determined.

BALANCE SHEET CLASSIFICATION OF DEFERRED TAXES

In November 2015, the FASB issued 2015-17, *Income Taxes (Topic 740), Balance Sheet Classification of Deferred Taxes*. In order to simplify the presentation of deferred income taxes, this ASU requires that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The current requirement that deferred tax liabilities and assets of a tax-paying component of an entity be offset and presented as a single amount is not affected by this amendment. This ASU is effective for annual and interim reporting periods beginning after December 15, 2016 and is applied on a retrospective basis. The Business has adopted the new guidance and applied it retrospectively to all periods presented in the Combined Statement of Financial Position.

(Y)OTHER RECENT ACCOUNTING PRONOUNCEMENTS

In February 2016, the FASB issued ASU 2016-02, *Leases* (ASU 2016-02), creating ASC Subtopic 842, *Leases*. ASU 2016-02 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. ASU 2016-02 requires lessees to present a right-of-use asset and a corresponding lease liability on the balance sheet. Lessor accounting is substantially unchanged compared to the current accounting guidance. ASU 2016-02 is effective for annual reporting periods beginning after December 15, 2018, and for the interim and annual reporting periods thereafter, with early adoption permitted. The Business is currently evaluating the impact of the adoption of ASU 2016-02 on our financial position, results of operations and cash flows.

In January 2017, the FASB issued ASU 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*. This ASU provides a new framework that will assist in the evaluation of whether business combination transactions should be accounted as acquisition of a business or a group of assets, as well as specifying the minimum required inputs and processes necessary to be a business. The provisions of this ASU are effective for years beginning after December 15, 2017. Any future acquisitions and disposals will be accounted for under these provisions.

In January 2017, the FASB issued ASU 2017-04, *Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill*. This ASU simplifies the measurement of goodwill impairment to a single-step test. The guidance removes step two of the goodwill impairment test, which requires a hypothetical purchase price allocation, and will now be the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. Under the revised guidance, failing step one will always result in goodwill impairment. The new guidance is effective for annual and interim goodwill impairment tests beginning after December 15, 2019 and early adoption is permitted. The Business is currently evaluating the impact of the adoption of ASU 2017-04 on our financial position, results of operations and cash flows.

In October 2016, the FASB issued ASU 2016-16, *Accounting for Income Taxes: Intra-Entity Transfers of Assets Other Than Inventory*, which amends existing guidance on income taxes to require the accounting for the income tax effects of intercompany sales and transfers of assets other than inventory when the transfer occurs. As a result, the tax

expense from the intercompany sale of assets, other than inventory, and associated changes to deferred taxes will be recognized when the sale occurs even though the pre-tax effects of the transaction have not been recognized. The pronouncement is effective for annual periods beginning after December 15, 2017, and interim periods within those annual periods, with early adoption permitted at the beginning of an annual period for which no financial statements have already been issued. This amendment is to be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. The Business will apply it on a modified retrospective basis.

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments-Credit Losses: Measurement of Credit Losses on Financial Instruments*. The ASU introduces a new accounting model, the Current Expected Credit Losses model (CECL), which requires earlier recognition of credit losses, while also providing additional transparency about credit risk. The CECL model utilizes a lifetime expected credit loss measurement objective for the recognition of credit losses for loans and other receivables at the time the financial asset is originated or acquired. The expected credit losses are adjusted each period for changes in expected lifetime credit losses. This model replaces the multiple existing impairment models in current GAAP, which generally require that a loss be incurred before it is recognized. The new standard will also apply to receivables arising from revenue transactions such as contract assets and accounts receivables and is effective for fiscal years beginning after December 15, 2019. We continue to evaluate the effect of the standard on our combined financial statements.

NOTE 3 REVENUE RELATED TO CONTRACTS WITH CUSTOMERS

ADOPTION OF TOPIC 606 REVENUE FROM CONTRACTS WITH CUSTOMERS

All periods presented in the combined financial statements are presented under the FASB's new accounting standard codification *Topic 606 Revenue from Contracts with Customers* as we elected the full retrospective method of adoption. Changes in accounting on a retrospective basis requires entities to restate their financial information as if the new accounting was always followed unless it is impracticable to do so. Certain of our CSA terms exceed 20 years making it impractical to restate this selection of contracts since their inception due to data limitations. As a result, contract balances prior to January 1, 2010 for these contracts were unadjusted for the impacts of the new revenue standard. We adjusted these balances prospectively from January 1, 2010 following our new accounting policies and procedures under the new revenue standard.

For the purposes of the financial statement display of Revenues and Costs of revenues in our Combined Statement of Earnings, goods include all sales of tangible products, and services include all other sales, including other services activities.

PERFORMANCE OBLIGATION IDENTIFICATION

The Business recognizes revenue as it satisfies its performance obligations to our customers. A single contract may have multiple performance obligations comprising multiple promises to our customers. We determine our performance obligations based on our customer's intended use of our products and services including considering whether we are providing a significant integration service on our customer's behalf. Non-complex products principally result in each completed product being a separate performance obligation recognized at a point in time. Complex products or services principally result in a single performance obligation as our customer is either procuring a bundled offering that is managed or utilized on a combined basis (e.g., software development solutions in our digital business) or there are multiple complex goods or services in the contract, which are substantially the same and recognized over time (e.g., CSAs or certain highly customized locomotives). When there are multiple performance obligations, revenue is allocated based on the relative stand-alone selling price.

DETERMINATION OF WHEN REVENUE SHOULD BE RECOGNIZED

Revenue for each performance obligation is recognized when our customers obtain control of the underlying goods and services allowing them the ability to direct the use of and substantially obtain all of the remaining benefits. This

may occur at a point in time or over time. Non-complex equipment sales manufactured for a broad market, such as platform locomotives, spare parts and other high volume transactional orders are principally recognized at a point in time, which is generally when title transfers to the customer. Services and complex equipment manufactured to a customer's specification are principally recognized over time including CSAs, certain highly customized locomotives, premium propulsion systems, digital implementation projects and digital service offerings.

MANNER IN WHICH REVENUE IS RECOGNIZED FOR OVER TIME CONTRACTS

For those performance obligations recognized over time, we generally recognize revenue either using a straight-line or cost-to-cost measure. A cost-to-cost method is used when costs incurred directly correlates to the fulfillment of our performance obligation to our customers. Under this method of progress, we recognize revenue

F-20

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

based upon costs incurred at the estimated margin rate of the related performance obligation. Contract costs are generally accumulated in inventory, and therefore excluded from our measure of progress until the inventory practically or contractually cannot be utilized to fulfill another customer's contract. Contract costs include direct labor, materials and subcontractors' costs, as well as a reasonable allocation of indirect costs related to the service provided or good produced. Certain costs, such as non-recurring engineering, may also be specifically related to the contract, however, do not directly contribute to the transfer of control of the tangible product being created. These types of costs are accounted for as fulfillment costs and amortized proportionally to cost of sales rather than included in our measure of progress.

ESTIMATION PROCESS FOR CONTRACTS RECOGNIZED USING THE COST-TO-COST METHOD

The Business utilizes historical customer data, prior product performance data, statistical analysis, third party data, and internal management estimates to calculate contract-specific margins as our complex products require estimation of costs and certain of our arrangements, including CSAs, have variable billing terms based on customer utilization of the covered assets. While we believe our estimates and estimation processes are reasonable, there can be no assurances that changes in estimates will not occur in the future and such changes may be material. Changes in estimates are recorded in the current period based on a cumulative catch up approach, which recognizes the cumulative effect of the changes on current and prior periods based on the revised percentage of completion and estimated contract margin. The changes in estimates, principally within our CSA portfolio in Services, impacted revenue and operating income by approximately \$38,019 thousand, \$83,464 thousand and \$15,452 thousand for fiscal years ended 2017, 2016 and 2015, respectively. If our estimation process anticipates a loss on the performance obligation, we reserve for the loss that we expect to incur when it is evident.

MANNER IN WHICH CONTRACT MODIFICATIONS ARE TREATED

Contract modifications are routine in the performance of our complex equipment and CSAs. Modifications that do not change the scope or price of the contract are commonly accounted for as a change in estimate to our existing performance obligation. Contract modifications that significantly change the scope and/or price of our contracts, most commonly in our CSAs, are accounted for prospectively.

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS**CONTRACT AND OTHER DEFERRED ASSETS AND PROGRESS COLLECTIONS AND OTHER DEFERRED INCOME**

Contract assets reflect revenues earned in excess of billings on our long-term contracts related to our equipment and CSAs. Contract liabilities reflects billings in excess of revenue recognized on similar agreements. Other deferred assets are fulfillment costs that principally relate to contractually required non-recurring engineering incurred during the initial design phase of a contract, which is recoverable over revenues generated as part of our production efforts. Recoverable costs are capitalized and amortized to Costs of revenues based on their expected pattern of benefit of the customers' order. Amortization of fulfillment costs was approximately \$23,828 thousand, \$25,519 thousand and \$23,329 thousand for fiscal periods ended 2017, 2016 and 2015, respectively.

Revenue recognized that was included in the contract liability at the beginning of the period was \$570,651 thousand and \$425,347 thousand for fiscal years ended 2017 and 2016, respectively.

CONTRACT AND OTHER DEFERRED ASSETS, NET

Contract and other deferred assets and progress collections, considering current and non-current classification, as of December 31, 2017 and 2016, are as follows:

(in thousands)	At December 31,	
	2017	2016
Contractual service agreements ^(a)	\$ 416,199	\$ 368,321
Equipment contract revenue ^(b)	79,588	73,102
Deferred inventory costs ^(c)	39,655	24,199
Total contract and other deferred assets	\$ 535,442	\$ 465,532
Long-term contractual service agreements ^(a)	\$ 193,389	\$ 227,610
Long-term equipment contract revenue ^(b)	33,484	14,549
Long-term non-recurring engineering costs ^(d)	86,868	84,539
Other	7,651	30,533
Total long-term contract and other deferred assets	\$ 321,392	\$ 357,231
Progress collections ^(e)	\$ 564,971	\$ 660,036
Deferred income	27,456	29,910
Total progress collections and deferred income	\$ 592,427	\$ 689,946
Long-term progress collections ^(e)	\$ 20,740	\$ 6,743
Long-term deferred income	3,057	3,055
Total long-term progress collections and other deferred income	\$ 23,797	\$ 9,798
Total contract and other deferred assets, net	\$ 240,610	\$ 123,019

(a) Reflects revenues earned in excess of billings on our CSAs in our Services segment.

(b) Reflects revenues earned in excess of billings primarily on our long-term contracts to construct equipment principally in our Equipment and Digital segments.

(c) Represents cost deferral for shipped goods and other costs for which the criteria for revenue recognition has not yet been met.

Includes fulfillment costs incurred prior to production (e.g., engineering costs specific to an individual customer's (d)contract) for long-term equipment production contracts, primarily within our Equipment segment, which are allocated proportionately over the life of the contract.

(e)Includes billings in excess of revenue on our long-term equipment and CSAs.

The Contract assets and other deferred assets, net, increased by \$122,690 thousand from December 31, 2016, which was due to revenue recognized for work performed exceeding billings, principally in our long-term equipment and CSAs. The increase included \$38,019 thousand related to changes in contract estimates, principally in our CSAs.

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

REMAINING PERFORMANCE OBLIGATIONS

As of December 31, 2017, the aggregate amount of the transaction price allocated to the unsatisfied (or partially unsatisfied) performance obligations was \$15,519,353 thousand. This amount excludes highly probable but uncommitted purchases from our customers that are not legally enforceable. We expect to recognize revenue as we satisfy the remaining performance obligations as follows:

• Equipment - total remaining performance obligations of \$4,688,665 thousand of which 71% is expected to be satisfied within 5 year(s) and the remaining thereafter.

• Services - total remaining performance obligations of \$10,263,026 thousand of which 52% is expected to be satisfied within 5 year(s), 80% within 10 year(s) and the remaining thereafter.

• Digital - total remaining performance obligations of \$567,662 thousand of which 79% is expected to be satisfied within 5 year(s) and the remaining thereafter.

NOTE 4 RELATED PARTY TRANSACTIONS

As discussed in Note 1 Description of Business and Basis of Presentation, GE provides the Business with a number of services. Some of these services are provided directly by GE, and others are managed by GE through third-party service providers. The cost of certain of these services is either (a) recognized through our allocated portion of GE's Corporate Overhead, or (b) billed directly to the Business (such as most of our employee benefit costs). The cost of other services is included within the service itself, and the incremental cost for GE to provide the service is not discernible (such as payroll processing services included within the cost of payroll). In addition, we and our affiliates obtain a variety of goods (such as supplies and equipment) and services (such as GE Global Research Center) under various master purchasing and service agreements to which GE (and not the Business) is a party. We are billed directly for services we procure under these arrangements.

We receive an allocated share of GE's Corporate Overhead for certain services that GE provides to the Business, but which are not specifically billed to the Business, such as public relations, investor relations, treasury, and corporate internal audit services. Costs of \$27,163 thousand, \$28,249 thousand and \$32,599 thousand for the years ended December 31, 2017, 2016 and 2015, respectively, were recorded in our Combined Statement of Earnings for our allocated share of GE's Corporate Overhead. The Business has related party revenues of \$817 thousand, \$279 thousand and \$2,145 thousand for the years ended December 31, 2017, 2016 and 2015, respectively. The majority of these sales were made by the Equipment segment to other GE industrial business units.

These combined financial statements include additional related party transactions with GE and GE entities that include the following:

Amounts for due to / due from affiliates are recorded in Accounts payable and Current receivables, and are settled in cash. The Business has accounts payable resulting from amounts due to affiliates of \$48,057 thousand and \$70,008 thousand as of December 31, 2017 and 2016, respectively. The Business has current receivables resulting from amounts due from affiliates of \$21,259 thousand and \$9,295 thousand as of December 31, 2017 and 2016, respectively.

• The Business factors U.S. and non-U.S. receivables through WCS on a recourse and nonrecourse basis pursuant to various factoring and servicing agreements. The Business had factored receivables of \$146,221 thousand and \$216,967 thousand without recourse as of December 31, 2017 and 2016, respectively. The Business had factored receivables of \$3,989 thousand and \$4,509 thousand with recourse as of December 31, 2017 and 2016, respectively.

For agreements with recourse, the Business establishes a bad debt reserve based on the aging policy discussed in Note 2(F) Current Receivables. Historically, the Business has outsourced our servicing responsibilities to Global Operations AR CoE for a market-based fee and therefore no servicing asset or liability has been recorded on the Combined

F-23

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

Statement of Financial Position as of December 31, 2017 and 2016. Under the programs, the Business incurred interest expense and finance charges of \$19,943 thousand, \$12,866 thousand and \$6,355 thousand for the years ended December 31, 2017, 2016 and 2015, respectively, which are included in Other (expense) income.

The Business's North American operations participate in accounts payable programs with TPS. The Business's liability associated with the funded participation in the accounts payable programs, which is presented as accounts payable within the Combined Statement of Financial Position, was \$332,584 thousand and \$364,655 thousand as of December 31, 2017 and 2016, respectively.

The Business participates in GE Treasury centralized hedging and offsetting programs. See Note 12 Derivatives and Hedging.

Employees of the Business participate in pensions and benefit plans that are sponsored by GE. See Note 17 Pension and Postretirement Benefit Plans.

GE grants stock options, restricted stock units and performance share units to its group employees, including those of GE Transportation, under the GE Long-Term Incentive Plan. Compensation expense associated with this plan was \$4,794 thousand, \$6,881 thousand and \$8,986 thousand for the years ended December 31, 2017, 2016 and 2015, respectively.

Lease agreements are based on market terms. The Business incurs rent expense resulting from related party leases with GE or GE entities as lessor. See Note 16 Leases.

All adjustments relating to certain transactions among the Business, GE and GE entities, which include the transfer of the balance of cash and equivalents to GE, transfer of the balance of cash held in cash pooling arrangements to GE, settlement of intercompany debt between the Business and GE or other GE entities and pushdown of all costs of doing business that were paid on behalf of the Business by GE or GE entities, are classified as Net parent investment.

NOTE 5 CURRENT RECEIVABLES, NET

Current receivables, net, as of December 31, 2017 and 2016 consist of the following:

As of December 31 (In thousands)	2017	2016
Customer receivables	\$ 86,882	\$ 77,782
Due from GE	21,259	9,295
Sundry receivables	69,127	82,881
	177,268	169,958
Less allowance for doubtful accounts	(4,882)	(7,422)
Current receivables, net	\$ 172,386	\$ 162,536

Sundry receivables primarily consist of value added tax receivables.

NOTE 6 INVENTORIES

Inventories as of December 31, 2017 and 2016 consist of the following:

As of December 31 (In thousands)	2017	2016
Raw materials and work in process	\$ 268,261	\$ 405,154
Finished goods	292,182	335,804
Total inventories	\$ 560,443	\$ 740,958

Total property, plant and equipment, net		\$ 1,991,413	\$ 2,113,939	\$ 943,168	\$ 934,515
ELTO (net)		\$ 30,075	\$ 220,011	\$ 12,135	\$ 23,586

(a) Depreciable lives exclude land.

(b) Equipment leased to others (ELTO) is presented in the line item Machinery and equipment. This is equipment we own that is available to lease to customers and is stated at cost less accumulated depreciation.

In 2017, GE Transportation had an asset disposition as part of a sale to a customer with a carrying value of \$25,297 thousand and recognized a gain on the sale of \$203 thousand. The gain on sale is reflected in the Combined Statement of Earnings in Other (expense) income. This asset was included in our Services reportable segment. Based on estimated cash flows from the potential sale of the asset, an impairment loss of \$2,203 thousand was recorded during the year ended December 31, 2017. The impairment loss was recorded on the Combined Statement of Earnings in Selling, general and administrative expenses.

In 2016, GE Transportation sold locomotives categorized as ELTO with a carrying value of \$14,090 thousand and recognized a gain on the sale of \$11,476 thousand. The gain on sale is included in the Combined Statement of Earnings in Other (expense) income.

Total depreciation expense was \$112,283 thousand, \$171,776 thousand and \$172,454 thousand for the years ended December 31, 2017, 2016 and 2015, respectively. In addition, restructuring activities in the Business related to underground mining actions, structural cost actions in our Erie manufacturing plant, the exit of a legacy manufacturing facility for a discontinued product line, and the shutdown of our mining leasing business impacted the decline in original cost from 2016 to 2017. Refer to Note 18 Restructuring and other activities for additional details.

NOTE 8 GOODWILL AND INTANGIBLE ASSETS
GOODWILL

After initial recognition, goodwill is measured net of any accumulated impairment losses. Changes in the carrying amount of goodwill for the years ended December 31, 2017 and 2016, by reportable segment, are as follows:

(a) Goodwill is reported net of \$286,388 thousand of accumulated impairments at December 31, 2015, all of which occurred in the Equipment segment.

F-25

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

In performing the annual goodwill impairment test during 2017, we determined that the fair value of the reporting units was more than their carrying amounts. Therefore, no further impairment testing was required and no goodwill impairment was recognized during the fiscal year. As of December 31, 2017, we believe that goodwill is recoverable for all of the reporting units; however, there can be no assurance that the goodwill will not be impaired in future periods.

In 2016 and 2015, we recorded a \$2,027 thousand and \$85,421 thousand impairment charge, respectively, to a reporting unit within the Equipment reportable segment. The impairment charge was a direct result of a multi-year suppressed global commodities market and the related effect on the global mining investment environment that caused us to revise the expected cash flows of the reporting units. The impairment losses were recorded on the Combined Statement of Earnings in Impairment of goodwill and represented a complete impairment of goodwill in the Equipment reportable segment.

OTHER INTANGIBLE ASSETS

Intangible assets and accumulated amortization as of December 31, 2017 and 2016 consist of the following:

As of December 31 (In thousands)	Useful Life (in years)	2017			2016		
		Gross Carrying Amount	Accumulated Amortization	Net	Gross Carrying Amount	Accumulated Amortization	Net
Customer-related	11-20	\$ 21,860	\$ (7,636)	\$ 14,224	\$ 40,876	\$ (12,172)	\$ 28,704
Patents & technology	7-11	56,866	(21,419)	35,447	87,449	(49,747)	37,702
Capitalized software - internal-use	5	211,209	(116,151)	95,058	208,467	(93,348)	115,119
Capitalized software - external	5-10	130,245	(20,358)	109,887	88,325	(16,087)	72,238
Trademarks & other	18-30	286	(0)	286	6,887	(2,740)	4,147
Total		\$ 420,466	\$ (165,564)	\$ 254,902	\$ 432,004	\$ (174,094)	\$ 257,910

During 2017 and 2016, we recorded additions to intangible assets subject to amortization of \$61,882 thousand and \$72,400 thousand, respectively, primarily driven by capitalized software.

Amortization expense related to intangible assets subject to amortization was \$71,728 thousand, \$47,852 thousand and \$36,445 thousand for the years ended December 31, 2017, 2016 and 2015, respectively.

Estimated annual amortization for intangible assets over the next five calendar years consists of the following:

(In thousands)	2018	2019	2020	2021	2022
Estimated annual amortization expense	\$ 54,526	\$ 54,745	\$ 43,535	\$ 37,036	\$ 32,689

NOTE 9 PREPAID EXPENSES AND OTHER CURRENT ASSETS

Other assets as of December 31, 2017 and 2016 consist of the following:

As of December 31 (In thousands)	2017	2016
Associated companies	\$ 56,428	\$ 6,859
Other assets ^(a)	21,331	14,136
Total other assets	\$ 77,759	\$ 20,995

(a) Other assets consists of long-term prepaid expenses, advances to suppliers and non-current value added tax receivables.

NOTE 11 BORROWINGS**SHORT-TERM BORROWINGS**

Beginning in September 2014, the Business entered into a series of unsecured loans with BNDES, a Brazilian Development Bank. The Business receives financing using local resources from this bank. The amounts outstanding under these loans as of December 31, 2017 and 2016 classified as short-term borrowings is \$0 and \$21,195 thousand, respectively. As of December 31, 2017, all of the BNDES loans had been paid in full and terminated. The weighted-average interest rate as of December 31, 2016 was 8.36%. Interest expense recognized for these loans was \$1,824 thousand, \$5,183 thousand and \$2,336 thousand for the years ended December 31, 2017, 2016 and 2015, respectively. Interest expense is included within Other (expense) income in the Combined Statement of Earnings.

LONG-TERM BORROWINGS

In November 2012, the Business entered into two unsecured term loans with General Electric Europe Holdings C.V. for a total of \$131,545 thousand. The debt was related to the acquisition of Industree Limited, a move that expanded the Business's product offering to the underground mining space. The estimated fair value approximates the carrying value. The debt carried a 5.07% interest rate, paid annually for the first year, with the interest rate resetting on the anniversary of the loan to the mid-rate of the one year swap rate plus a credit spread of 200 basis points. In November 2015, the Business extended both agreements by five years from the day of signing to a maturity date in November 2020 and amended the interest rate to the mid-rate of the one year swap rate plus a credit spread of 175 basis points. In May and November 2017, the Business terminated both loans early utilizing cash pool resources. Interest included in interest expense for long-term borrowings, including the current portion, is \$2,377 thousand, \$5,950 thousand and \$8,043 thousand for the years ended December 31, 2017, 2016 and 2015, respectively. Interest expense is included within Other (expense) income in the Combined Statement of Earnings.

In September 2017, the Business entered into an unsecured loan facility agreement with Wipro GE Healthcare Private Limited to fund various ongoing projects and operational requirements. The loan has a total value of \$68,703 thousand, disbursed in three tranches. As of December 31, 2017 the first two tranches had been disbursed with a total value of \$44,256 thousand. The final tranche will be disbursed in January 2018. The loan carries an 8% annual interest rate, paid quarterly until the maturity of the loan in January 2020. Interest included in interest expense for long-term borrowings, including the current portion, is \$588 thousand, \$0 thousand and \$0 thousand for the years ended December 31, 2017, 2016 and 2015, respectively. Interest expense is included within Other (expense) income in the Combined Statement of Earnings.

Due to the nature and terms of the debt, the Business carries the debt at face value and did not recognize a discount or premium at issuance. The current portion of long-term debt is included in Short-term borrowings, and the non-current portion of the debt is included in Long-term borrowings. The amounts outstanding under the long-term borrowings as of December 31, 2017 and 2016 are reflected in the table below.

F-27

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS**LETTERS OF CREDIT**

As of December 31, 2017 and 2016, the Business has off-balance sheet credit exposure for unused letters of credit, bank guarantees, bid bonds, and surety bonds of approximately \$532,196 thousand and \$453,750 thousand, respectively.

Borrowings as of December 31, 2017 and 2016 consist of the following:

Short-term borrowings

As of December 31 (In thousands)	2017	2016
Current portion of long-term borrowings	\$ 45	\$ 120
Bank borrowings and other	—	21,620
Total short-term borrowings	\$ 45	\$ 21,740

Long-term borrowings

As of December 31 (In thousands)	2017	2016
	<i>Maturities</i>	
Long-term portion of borrowings	2019-2020 \$ 44,257	\$ 92,772
Total long-term borrowings	\$ 44,257	\$ 92,772

Total interest expense and other finance charges were \$21,805 thousand, \$20,002 thousand and \$14,712 thousand for the years ended December 31, 2017, 2016 and 2015, respectively. Interest expense includes expense related to current receivable factoring programs. See Note 4 Related Party Transactions.

NOTE 12 DERIVATIVES AND HEDGING

Economic hedges are not designated as hedged from an accounting standpoint (and therefore we do not apply hedge accounting to the relationship), but otherwise serve the same economic purpose as other hedging arrangements. We use economic hedges when we have exposures to currency exchange risk for which we are unable to meet the requirements for hedge accounting or when changes in the carrying amount of the hedged item are already recorded in earnings in the same period as the derivative-making hedge accounting unnecessary. Even though the derivative is an effective economic hedge, there may be a net effect on earnings in each period due to differences in the timing of earnings recognition between the derivative and the hedged item. Notional amounts outstanding are approximately \$332,821 thousand and \$240,589 thousand as of December 31, 2017 and 2016, respectively.

The following table provides information about the fair value of our derivatives, by contract type and the accounts in the Combined Statement of Financial Position in which the balances are presented:

	At December 31,			
	2017		2016	
(In thousands)	Prepaid expenses	Other current	Prepaid expenses	Other current

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS**NOTE 13 INCOME TAXES**

The tax provisions have been prepared on a separate return basis as if the Business was a separate group of companies under common ownership. The operations have been combined as if the Business was filing on a consolidated basis for U.S. Federal, U.S. state and non-U.S. income tax purposes, where allowable by law. The Business is subject to regulation under a wide variety of U.S. federal, U.S. state and non-U.S. tax laws, regulations and policies. Changes to these laws or regulations may affect our tax liability, return on investments and business operations.

COMBINED EARNINGS (LOSS) BEFORE INCOME TAXES

UNRECOGNIZED TAX POSITIONS

The Business is under continuous examination by the Internal Revenue Service (IRS), various U.S. state taxing authorities, and non-U.S. taxing authorities as part of the audit of GE's tax returns. The IRS is currently auditing GE's consolidated U.S. income tax returns for 2012-2013 and has begun the audit for 2014-2015. During 2015,

F-29

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

the IRS completed the audit of GE's consolidated U.S. income tax returns for 2010-2011, except for certain issues that were completed in 2016. We believe that there are no jurisdictions in which the outcome of unresolved issues or claims is likely to be material to the results of operations, financial position or cash flows. We further believe that we have made adequate provisions for all income tax uncertainties.

The balance of unrecognized tax benefits, the amount of related interest and penalties we have provided and what we believe to be the range of reasonably possible changes in the next 12 months were as follows:

UNRECOGNIZED TAX BENEFITS

Liability (In thousands)	2017	2016
Unrecognized tax benefits	\$ (5,717)	\$ (4,802)
Accrued interest on unrecognized tax benefits	(2,222)	(2,565)
Accrued penalties on unrecognized tax benefits	(1,446)	(1,629)
Reasonably possible reduction to the balance of unrecognized tax benefits in succeeding 12 months	—	—
Portion that, if recognized, would reduce tax expense and effective tax rate	(5,717)	(4,802)

UNRECOGNIZED TAX BENEFITS RECONCILIATION

(In thousands)	2017	2016
Balance at January 1	\$ (4,802)	\$ (4,465)
Additions for tax positions of the current year	—	—
Additions for tax positions of prior years	(1,320)	(561)
Reductions for tax positions of prior years	405	224
Settlements with tax authorities	—	—
Expiration of the statute of limitations	—	—
Balance at December 31	\$ (5,717)	\$ (4,802)

At December 31, 2017, we had \$5,717 thousand of unrecognized tax benefits. In addition, we have accrued interest and penalties of \$2,222 thousand and \$1,446 thousand, respectively. The amount of unrecognized tax benefits that would impact the effective tax rate would be \$5,717 thousand. Additionally, none of the amount of unrecognized tax benefits are expected to change in the next twelve months. We classify interest on tax deficiencies as interest expense; we classify income tax penalties as a provision for income taxes.

DEFERRED INCOME TAXES

Deferred income tax balances reflect the effects of temporary differences between the carrying amounts of assets and liabilities and their tax bases, as well as from net operating loss and tax credit carryforwards, and are stated at enacted tax rates expected to be in effect when taxes are actually paid or recovered. Deferred income tax assets represent amounts available to reduce income taxes payable on taxable income in future years. GE Transportation did not operate as a stand-alone entity in the past and, accordingly, tax losses, receivables and other deferred tax assets

included in the combined carve-out financial statements on a separate return basis may not be available upon separation of the Business from GE.

We regularly evaluate the recoverability of our deferred tax assets and establish a valuation allowance, if necessary, to reduce the deferred tax assets to an amount that is more likely than not to be realized (a likelihood of more than 50 percent). Significant judgment is required to determine whether a valuation allowance is necessary and the amount of such valuation allowance. In assessing the recoverability of our deferred tax assets at December 31, 2017, we considered all available evidence, including the nature of financial statement losses and reversing taxable temporary differences and future operating profits.

F-30

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

Aggregated deferred income tax amounts are summarized below.

DEFERRED INCOME TAX AMOUNTS

(In thousands)	2017	2016
Assets	\$ 6,770	\$ 1,322
Liabilities	(173,513)	(303,526)

Other	(11,684)	—
Total deferred income tax liability	\$ (173,513)	\$ (303,526)
Net deferred income tax liability	\$ (166,743)	\$ (302,204)

NET OPERATING LOSSES

At December 31, 2017 and 2016, the Business had net operating loss carryforwards of approximately \$191,063 thousand and \$181,672 thousand, respectively. The net operating loss carryforwards result in a deferred tax asset of \$56,783 thousand and \$54,098 thousand at December 31, 2017 and 2016. The majority of the net operating losses are located in Australia where losses can be carried forward indefinitely.

UNDISTRIBUTED EARNINGS

Substantially all of our undistributed earnings of our foreign subsidiaries are indefinitely reinvested. Due to the enactment of U.S. tax reform, repatriations of foreign earnings will generally be free of U.S. federal tax but may incur other taxes such as withholding or state taxes. Indefinite reinvestment is determined by management's intentions concerning the future operations of the Business. Most of these earnings have been reinvested in active non-U.S. business operations, and we do not intend to repatriate these earnings to fund U.S. operations. In addition, as a result of U.S. tax reform, substantially all of our prior unrepatriated foreign earnings were subject to U.S. tax, and accordingly we expect to have the ability to repatriate those earnings without incremental U.S. federal tax cost. As of December 31, 2017, the cumulative amount of indefinitely reinvested foreign earnings is approximately \$278,956 thousand. Computation of any deferred tax liability associated with these undistributed earnings and any other basis differences is not practicable.

F-31

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS**TAX REFORM**

On December 22, 2017, the U.S. enacted the Tax Cuts and Jobs Act (U.S. tax reform) that lowers the statutory tax rate on our U.S. earnings, taxes historic foreign earnings at a reduced rate of tax, creates a territorial tax system and enacts new taxes associated with global operations. The impact of U.S. tax reform has been recorded on a provisional basis as the legislation provides for additional guidance to be issued by the U.S. Department of the Treasury on several provisions including the computation of the transition tax on historic foreign earnings. Future guidance could impact the information required for and the calculation of the transition tax charge and could affect decisions on timing of various U.S. and foreign items which would further impact the final 2017 amounts included in the transition charge and the revaluation of deferred taxes. In addition, analysis performed and conclusions reached as part of the tax return filing process and additional guidance on accounting for tax reform could affect the provisional estimate.

The U.S. has also enacted a minimum tax on foreign earnings (global intangible low-taxed income). Because we have tangible assets outside the U.S. and pay a rate of foreign tax above the minimum tax rate, we are not expecting a significant increase in tax liability from this new U.S. minimum tax. Because aspects of the new law and the effect on our operations is uncertain and because aspects of the accounting rules associated with these taxes have not been resolved, our deferred tax may be affected by these or other newly enacted provisions of U.S. law. Pending further accounting guidance and analysis, we have not made a provisional accrual for the deferred tax effects of the tax on base eroding payments and the tax on global intangible low-taxed income.

Included in 2017 is a tax charge of \$5,454 thousand for the provisional estimate associated with the transition tax on historic foreign earnings under U.S. Tax Reform. Also, included in 2017 is a tax benefit of \$114,168 thousand for the provisional estimate associated with the U.S. tax rate change. We expect to finalize these amount during 2018 as additional guidance is released by the U.S. Department of the Treasury and as we make final decisions and computations based on that guidance. In addition, there may be additional guidance during 2018 on the tax on base erosion payments and the tax on global intangible lower-taxed income. As these amounts are updated and analysis and conclusions to be performed as part of the U.S. tax return process are completed, the effect of revaluation of deferred taxes will also be finalized.

NOTE 14 OTHER CURRENT LIABILITIES AND OTHER LIABILITIES
OTHER CURRENT LIABILITIES

Other current liabilities as of December 31, 2017 and 2016 consist of the following:

As of December 31 (In thousands)	2017	2016
Employee related liabilities ^(a)	\$ 90,801	\$ 105,796
Derivative liabilities	6,372	8,056
Discounts and allowances	14,132	2,593
Accrued taxes	47,113	41,642
Accrued costs for freight, utility & other	28,563	30,735
Warranties	49,564	25,672
Restructuring and sundry losses ^(b)	24,032	17,689

Other current liabilities ^(c)	22,146	9,118
Total other current liabilities	\$ 282,723	\$ 241,301

(a) Employee related liabilities are largely comprised of payroll, employee compensation and benefits, pension and other postretirement benefit obligations.

Restructuring accruals and accruals for legal costs arising from claims, assessments, litigation, fines and penalties (b) and other sources and are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. See Note 18 Restructuring and Other Activities.

(c) Other current liabilities primarily consists of professional fees and various other accruals.

F-32

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS**OTHER LIABILITIES**

Other liabilities as of December 31, 2017 and 2016 consist of the following:

As of December 31 (In thousands)	2017	2016
Employee related liabilities ^(a)	\$ 27,135	\$ 31,374
Sundry losses ^(b)	8,503	11,973
Warranties	30,753	75,820
Tax related liabilities ^(c)	7,163	6,431
Other liabilities ^(d)	18,637	16,891
Total other liabilities	\$ 92,191	\$ 142,489

(a) Employee related liabilities are largely comprised of long-term employee compensation programs.

(b) Consists of accruals for legal costs and various other accruals.

(c) Consists of reserves for uncertain tax positions.

(d) Other liabilities primarily consist of holdbacks and earn-outs.

NOTE 15 COMMITMENTS AND CONTINGENCIES**WARRANTY OBLIGATIONS**

As part of our product sales we provide standard warranty coverage to our customers as part of customary practices in the market to provide assurance that the equipment sold will comply with agreed upon specifications and such standard warranty at the time of sale is limited to fixing product defects. Issuance of a product warranty constitutes a commitment, which must be accrued as a loss contingency if expenditures under the warranty are both probable and reasonably estimable. The Business provides for estimated product warranty expenses when the related product sale is recognized. Additionally, we may elect certain corrective actions, at our expense, for certain product-related matters impacting our product portfolios. Warranty obligations are recognized for these matters when we commit to these corrective actions and they are estimable. Because warranty estimates are forecasts that are based on the best available information, primarily based on historical warranty claims experience and outstanding warranty period, claims costs may differ from amounts provided.

(In thousands)	2017	2016
Balance at January 1	\$ 101,492	\$ 120,172
Current year provisions	54,346	50,359
Utilizations and other	(75,521)	(69,039)
Balance at December 31	\$ 80,317	\$ 101,492

Approximately 38% and 75% of warranty costs as of December 31, 2017 and 2016, respectively, are expected to be incurred beyond 12 months and therefore are classified as a long-term liability in Other liabilities. Refer to Note 14 Other Current Liabilities and Other Liabilities.

GUARANTEES

The Business provides guarantees in the ordinary course of business. The Business believes the likelihood is remote that any such arrangements could have a significant adverse effect on these combined financial statements of the Business. The Business records liabilities for guarantees at estimated fair value, generally the amount of the premium received, or if we do not receive a premium, the amount based on appraisal, observed market values or discounted cash flows, which are zero as of December 31, 2017 and 2016. The Business has off-balance sheet credit exposure through standby letters of credit, bank guarantees, bid bonds, and surety bonds. See Note 11 Borrowings. In addition, our Parent may provide the Business with parent company guarantees in certain jurisdictions where we lack the legal structure to issue the requisite guarantees required on certain projects. We are charged by our Parent the fair market value of such guarantees.

F-33

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS**LITIGATION**

The Business is subject to a variety of legal proceedings and legal compliance risks in all parts of the world where the Business operates or buys or sells its equipment and services. The Business has adopted appropriate risk management and compliance programs to address these and other matters that may arise from time to time. The global and diverse nature of our business and the changing enforcement environments in which it operates, means the Business will continue to face legal and compliance risks, the nature and outcome of which cannot be predicted with certainty. Currently, management believes there are no legal contingencies that are likely to have a material effect on the Business's Combined Statements of Financial Position, Earnings, or Cash Flows.

In late November 2017, staff of the Boston office of the U.S. Securities & Exchange Commission (SEC) notified GE that they are conducting an investigation of GE's revenue recognition practices and internal controls over financial reporting related to long-term service agreements. We have provided documentation to Parent regarding our long-term service agreement practices. Parent is providing documents and other information requested by the SEC staff, and our Parent is cooperating with their ongoing investigation.

OTHER CONTRACTUAL COMMITMENTS

We also had commitments outstanding for purchase obligations, which represents take-or-pay contracts as well as purchase orders for goods and services utilized in the normal course of business such as capital expenditures, inventory and services under contracts.

At December 31, 2017, we had the following purchase commitments:

(In thousands)	2018	2019	2020	2021	2022
Purchase obligations	\$ 19,436	\$ 90	\$ —	\$ 22,669	\$ 1,300

OTHER LOSS CONTINGENCIES

Other loss contingencies are uncertain and unresolved matters that arise in the ordinary course of business and result from events or actions by others that have the potential to result in a future loss. Such contingencies include, but are not limited to, environmental obligations, litigation, regulatory proceedings, product quality and losses resulting from other events and developments.

When a loss is considered probable and reasonably estimable, a liability is recorded in the amount of GE Transportation's best estimate for the ultimate loss. When there appears to be a range of possible costs with equal likelihood, liabilities are based on the low end of such range. However, the likelihood of a loss, with respect to a contingency, is often difficult to predict and determining a meaningful estimate of the loss or a range of loss may not be practicable based on the information available and the potential effect of future events and decisions by third parties that will determine the ultimate resolution of the contingency. Moreover, it is not uncommon for such matters to be resolved over many years, during which time relevant developments and new information must be continuously evaluated to determine both the likelihood of potential loss and whether it is possible to reasonably estimate a range of possible loss. When a loss is probable but a reasonable estimate cannot be made, disclosure is provided.

Disclosure is also provided when it is reasonably possible that a loss will be incurred or when it is reasonably possible that the amount of a loss will exceed the recorded provision. GE Transportation regularly reviews all contingencies to determine whether the likelihood of loss has changed and to assess whether a reasonable estimate of the loss, or range of loss, can be made. As discussed above, development of a meaningful estimate of loss or a range of potential loss is complex when the outcome is directly dependent on negotiations with, or decisions by, third parties, such as regulatory agencies, the court system and other interested parties. Such factors bear directly on whether it is possible to reasonably estimate a range of potential loss and boundaries of high and low estimates.

F-34

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS**NOTE 16 LEASES****LEASE COMMITMENTS**

The Business is a lessee under various cancelable and non-cancelable operating lease arrangements for facilities, information technology, fleet, and other equipment having terms, which expire on various dates. Rent expense for third party leases was \$23,274 thousand, \$28,255 thousand and \$30,411 thousand for the years ended December 31, 2017, 2016 and 2015, respectively. We did not enter into any significant capital leases during the three years ended December 31, 2017.

Future minimum lease payments on non-cancelable operating lease arrangements, net of amounts due under subleases, as of December 31, 2017, consist of the following:

For the years ended December 31 (In thousands)	Total
Due in	
2018	\$ 23,670
2019	15,081
2020	9,002
2021	8,641
2022	7,274
2023 and thereafter	36,429
Total	\$ 100,097

This table excludes arrangements with GE and GE entities, which are cancelable at the option of the Business. Rent of approximately \$5,828 thousand was paid to GE for these leases for the year ended December 31, 2017, which was generally consistent with prior years. See Note 4 Related Party Transactions.

NOTE 17 PENSION AND POSTRETIREMENT BENEFIT PLANS

Certain employees are covered under GE's retirement plans (e.g. pension, retiree health and life insurance). In addition, certain Canadian employees participate in the GE Canada Defined Benefit Pension Plan as well as the Canada Postretirement Benefits.

The Business is allocated relevant participation costs for these GE employee benefit plans by GE. As such, the Business has not recorded any liabilities associated with our participation in this multi-employer plan in our Combined Statement of Financial Position as of December 31, 2017 and 2016.

Expenses associated with our employees' participation in the U.S. GE pension and postretirement benefit plans are \$77,965 thousand, \$86,285 thousand and \$108,647 thousand for the years ended December 31, 2017, 2016 and 2015, respectively. Expenses associated with our employees' participation in the GE Canada Defined Benefit Pension Plan and Canada Postretirement Benefits are \$1,019 thousand, \$1,015 thousand and \$1,792 thousand for the years ended December 31, 2017, 2016 and 2015, respectively.

NOTE 18 RESTRUCTURING AND OTHER ACTIVITIES

The Business plans for restructuring initiatives to be completed within one year from the date the plan is effective. Restructuring actions are an essential component of our improvement efforts to both existing operations and those recently acquired, and there have been several initiatives in recent years as we have right-sized our businesses for changing market conditions.

Restructuring and other charges relate primarily to workforce reductions, facility exit costs associated with the consolidation of sales, service and manufacturing facilities, and other asset write-downs. The Business continues to closely monitor the economic environment and may undertake further restructuring actions to more closely align our cost structure with earnings goals.

F-35

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

The Business's restructuring activities include consolidation of footprint and workforce reductions and realignment. In 2017 and 2016, restructuring activities were primarily in the U.S., Mexico, Canada, Australia, Chile and Brazil. In 2015, restructuring activities were primarily in the U.S., Canada, Mexico, Brazil and Australia. Restructuring expenses and related charges for the years ended December 31, 2017, 2016 and 2015 consist of the following:

(In Thousands)	For the years ended December 31		
	2017	2016	2015
Equipment			
Asset impairment	\$ 73,576	\$ 81,774	\$ 3,922
Contract termination costs	33	19,359	—
Employee separation expense	24,522	29,375	8,861
Total Equipment	\$ 98,131	\$ 130,508	\$ 12,783
Services			
Asset impairment	12,748	21,141	68
Contract termination costs	—	—	—
Employee separation expense	14,977	24,100	2,095
Total Services	\$ 27,725	\$ 45,241	\$ 2,163
Digital			
Asset impairment	17,971	1,544	—
Contract termination costs	—	—	—
Employee separation expense	1,021	600	39
Total Digital	\$ 18,992	\$ 2,144	\$ 39
Total	\$ 144,848	\$ 177,893	\$ 14,985

Restructuring costs are reflected in the Combined Statement of Earnings in Selling, general and administrative expenses and Costs of revenues. Liabilities related to restructuring are included in Other current liabilities. See Note 14 Other Current Liabilities and Other Liabilities.

NOTE 19 SEGMENT INFORMATION AND MAJOR CUSTOMERS
BASIS OF PRESENTATION

Our reportable segments are organized based on the nature of markets and customers. Segment accounting policies are the same as described and referenced in Note 2 Summary of Significant Accounting Policies.

Certain information concerning our segments for the years ended December 31, 2017, 2016 and 2015 is presented in the following tables. Consistent accounting policies have been applied by all segments within the Business, within all reporting periods. A description of our reportable segments as of December 31, 2017 have been provided in Note 1 Description of Business and Basis of Presentation.

SEGMENT REVENUES

Refer to the table below for total revenues by segment for the years ended December 31, 2017, 2016 and 2015.

	Total revenues		
	For the years ended December 31		
(In Thousands)	2017	2016	2015
Equipment	\$ 1,767,968	\$ 2,444,240	\$ 3,180,942
Services	1,886,955	1,891,540	1,999,740
Digital	320,406	344,854	339,423
Eliminations	(45,021)	(74,043)	(98,626)
Total revenues	\$ 3,930,308	\$ 4,606,591	\$ 5,421,479

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO COMBINED FINANCIAL STATEMENTS

Revenues from customers located in the United States were \$2,181,365 thousand, \$2,837,759 thousand and \$3,738,009 thousand for the years ending December 31, 2017, 2016 and 2015, respectively. Revenues from customers located outside the United States were \$1,748,943 thousand, \$1,768,832 thousand and \$1,683,470 thousand for the years ended December 31, 2017, 2016 and 2015, respectively.

OTHER SEGMENT INFORMATION

The Business uses segment profit to manage the Business and allocate resources. Management defines segment profit as operating income, plus interest income, less noncontrolling interest. Costs for corporate overhead functions are first attributed to the segments to the extent possible before being subject to various allocation methodologies. Refer to the table below for segment profit and a reconciliation to Net earnings attributable to Parent for the years ended December 31, 2017, 2016 and 2015.

	For the years ended December 31		
(In Thousands)	2017	2016	2015
Equipment	\$ (28,907)	\$ 142,508	\$ 130,407
Services	603,344	683,824	710,709
Digital	27,181	93,418	119,603
Segment profit	\$ 601,618	\$ 919,750	\$ 960,719
Non-operating benefit costs	(16,877)	(18,455)	(16,249)
Impairment of goodwill	—	(2,027)	(85,421)
Restructuring costs	(144,848)	(177,893)	(14,985)
Interest expense and other finance charges	(21,805)	(20,002)	(14,712)
Provision for income taxes	(44,303)	(167,428)	(349,275)
Net earnings attributable to Parent	\$ 373,785	\$ 533,945	\$ 480,077

The Business does not identify total assets by segment for internal purposes as the Business CODM (Chief Operating Decision Maker) does not assess performance, make strategic decisions, or allocate resources based on assets.

Refer to the table below for details on depreciation and amortization by segment for the years ended December 31, 2017, 2016 and 2015.

	Depreciation and amortization		
	For the years ended December 31		
(In Thousands)	2017	2016	2015
Equipment	\$ 119,657	\$ 166,405	\$ 146,305
Services	47,903	39,596	45,994
Digital	16,452	13,627	16,600
Total	\$ 184,012	\$ 219,628	\$ 208,899

MAJOR CUSTOMERS

For the year ended December 31, 2017, a single customer accounted for approximately 17% of combined revenues. For the years ended December 31, 2016 and 2015, three customers each accounted for approximately 19%, 13% and 13%, and 17%, 12% and 12% of combined revenues, respectively. These revenues are within the Equipment, Services, and Digital segments.

NOTE 20 SUBSEQUENT EVENTS

The Business performed an evaluation of subsequent events through June 4, 2018, the date these combined financial statements were issued, and determined there were no recognized or unrecognized subsequent events that would require an adjustment or additional disclosure in these combined financial statements. Refer to Note 1 Description of Business and Basis of Presentation for further detail on the Proposed Transaction announced on May 21, 2018.

TABLE OF CONTENTS

Independent Auditors' Review Report

To the Board of Directors
General Electric Company:

Report on the Financial Statements

We have reviewed the condensed combined statement of financial position of GE Transportation (a carve-out business of General Electric Company) (the Company) as of June 30, 2018 and December 31, 2017, and the related condensed combined statement of earnings, statement of comprehensive income, statement of changes in equity, and statement of cash flows for the three-month and six-month periods ended June 30, 2018 and June 30, 2017.

Management's Responsibility

The Company's management is responsible for the preparation and fair presentation of the combined financial information in accordance with U.S. generally accepted accounting principles; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with U.S. generally accepted accounting principles.

Auditors' Responsibility

Our responsibility is to conduct our review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information and in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States) (PCAOB). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America and in accordance with the auditing standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial information. Accordingly, we do not express such an opinion.

Conclusion

Based on our reviews, we are not aware of any material modifications that should be made to the combined financial information referred to above for it to be in accordance with U.S. generally accepted accounting principles.

Report on Combined Statement of Financial Position as of December 31, 2017

We have previously audited, in accordance with auditing standards generally accepted in the United States of America and in accordance with the auditing standards of the PCAOB, the combined statement of financial position as of December 31, 2017, and the related combined statement of earnings, statement of comprehensive income, statement of changes in equity, and statement of cash flows for the year then ended (not presented herein); and we expressed an unmodified audit opinion on those audited combined financial statements in our report dated June 4, 2018. In our opinion, the accompanying condensed combined statement of financial position of GE Transportation as of December 31, 2017, is consistent, in all material respects, with the audited combined financial statement from which it has been derived.

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

DESCRIPTION OF THE BUSINESS

GE Transportation (the Business, GET, our or we) is a carve-out business of General Electric Company (GE or Parent). We are a leading global provider of products and solutions to transportation, logistics and other industrial markets. We design, engineer and manufacture diesel-electric locomotives, supply associated aftermarket parts and services, and provide digital solutions. Our culture of innovation and differentiated aftermarket solutions has allowed us to build a leading global installed base of diesel-electric locomotives, significant contracted services backlog and longstanding customer relationships. Our products and services are critical to our customers' operating and financial success and enable them to operate with reliability and efficiency. Leveraging our heritage in diesel-electric locomotives, we have continued to innovate to expand our technologies into new products, end markets and logistics applications. Leveraging our core competencies in locomotive manufacturing, we produce electric motors and premium propulsion systems for mining, marine, stationary power and drilling applications. We have combined industry leadership with engineering and software capabilities to build a digital business that is leading the transformation of the transportation and mining industries. We employ approximately 9,000 employees and serve customers across approximately 60 countries.

The Business is comprised of three reportable segments, which reflect the way performance is assessed and resources are allocated. These reportable segments are Equipment, Services, and Digital.

On May 21, 2018, GE and Westinghouse Air Brake Technologies (Wabtec) Corporation announced that they had entered into a definitive agreement whereby Wabtec would acquire the Business (the Proposed Transaction).

Under the agreement, which has been approved by the Boards of Directors of Wabtec and GE, GE will receive \$2.9 billion in cash at closing. GE shareholders will own approximately 40.2%, GE will own approximately 9.9%, and Wabtec shareholders will own approximately 49.9% of the combined company on a fully diluted basis.

BASIS OF PRESENTATION

These condensed combined financial statements were prepared on a stand-alone basis derived from the consolidated financial statements and accounting records of GE. These unaudited condensed combined financial statements as of June 30, 2018 and for each of the three months and six months ended June 30, 2018 and 2017 are presented as carve-out financial statements and reflect the condensed combined historical results of earnings, comprehensive income, financial position and cash flows of the Business, in conformity with U.S. generally accepted accounting principles (U.S. GAAP). Refer below to *Recent Accounting Pronouncements Reflected in These Condensed Combined Financial Statements* for a summary of recent accounting pronouncements that were adopted and applied in these condensed combined financial statements.

These condensed combined financial statements consolidate all majority-owned subsidiaries of the Business. The noncontrolling interests have been shown in the Condensed Combined Statement of Financial Position as Equity attributable to noncontrolling interests.

All intercompany balances and transactions within the Business have been eliminated in these condensed combined financial statements. As described in Note 5 Related Party Transactions, certain transactions between the Business and

GE have been included in these condensed combined financial statements.

The Condensed Combined Statement of Financial Position reflects, among other things, all of the assets and liabilities of GE and the Business that are specifically identifiable as being directly attributable to the Business, including Net parent investment as a component of equity. Net parent investment represents GE's historical investment in the Business and includes accumulated net earnings attributable to GE, the net effect of transactions with GE and GE entities, and cost allocations from GE that were not historically allocated to the Business.

GE uses a centralized approach to cash management and financing of its operations. These arrangements are not reflective of the manner in which the Business would have financed its operations had it been a stand-alone

F-46

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)

business separate from GE during the periods presented. Cash pooling arrangements are excluded from the asset and liability balances in the Condensed Combined Statement of Financial Position. These amounts have instead been reported as Net parent investment as a component of equity.

GE and its affiliates provide a variety of services to the Business. The Business may also sell products in the ordinary course of business to GE and its affiliates. The Condensed Combined Statement of Earnings includes expense allocations for services and certain support functions (GE Corporate Overhead) that are provided on a centralized basis within GE such as legal, business development, human resources, corporate audit, treasury and various other GE corporate functions that are routinely allocated to the Business and reflected in the Condensed Combined Statement of Earnings in Selling, general and administrative expenses. In addition to GE Corporate Overhead allocations, Selling, general and administrative expenses that would have been incurred in the ordinary course of business if the Business operated as a stand-alone company, such as compensation and benefits for employees of the Business, were included based on either specific identification of direct expenses or an allocation using an approach related to the nature of the item (e.g., external revenue or headcount).

Where allocations of amounts were necessary, the Business believes the allocation of these amounts was determined on a reasonable basis, reflecting all of the costs of GE Transportation and consistently applied in the periods presented. These allocated amounts, however, are not necessarily indicative of the actual amounts that might have been incurred or realized had the Business operated as a separate stand-alone entity during the periods presented. Consequently, these condensed combined financial statements do not necessarily represent the results the Business would have achieved if the Business had operated as a separate stand-alone entity from GE during the periods presented.

INTERIM PERIOD PRESENTATION

These condensed combined financial statements and notes thereto are unaudited. These statements include all adjustments (consisting of normal recurring accruals) that we considered necessary to present a fair statement of our results of earnings, financial position and cash flows. The results reported in these condensed combined financial statements should not be regarded as necessarily indicative of results that may be expected for the entire year. It is suggested that these condensed combined financial statements be read in conjunction with the annual combined financial statements for the year ended December 31, 2017 and notes thereto.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The preparation of condensed combined financial statements in conformity with U.S. GAAP requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, disclosure of any contingent assets or liabilities at the date of these condensed combined financial statements and the reported amounts of revenue and expenses during the reporting period. We base our estimates and judgments on historical experience and on various other assumptions and information that we believe to be reasonable under the circumstances. Estimates and assumptions about future events and their effects cannot be perceived with certainty, and accordingly, these estimates may change as new events occur, as more experience is acquired, as additional information is obtained and as our operating environment changes. While the Business believes that the estimates and assumptions used in the preparation of these condensed combined financial statements are appropriate, actual results could differ from those estimates.

Estimates are used for, but are not limited to, determining the following: estimates of variable revenues and/or costs on long-term revenue generating contracts, recoverability of long-lived assets and inventory, valuation of goodwill, useful lives used in depreciation and amortization, income taxes and related valuation allowances, accruals for contingencies including warranties, actuarial assumptions used to determine costs on employee benefit plans, valuation assumptions for long term stock-based compensation expense, valuation and recoverability of receivables, valuation of derivatives and the fair value of assets acquired and liabilities assumed in acquisitions.

Our revenue recognition on long-term Contractual Service Agreements (CSAs) requires estimates of both customer payments expected to be received over the contract term as well as the costs expected to be incurred to

F-47

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)

perform required maintenance services. We routinely review estimates under CSAs and regularly revise them to adjust for changes in outlook, however these estimates may materially vary from actual payments and costs incurred over the life of the contracts.

Additionally, please refer to Note 2, Summary of Significant Accounting Policies, in the annual 2017 combined financial statements for the discussion of our significant accounting policies.

(A) RECENT ACCOUNTING PRONOUNCEMENTS REFLECTED IN THESE CONDENSED COMBINED FINANCIAL STATEMENTS

Our combined annual financial statements for the year ended December 31, 2017 included the adoption of the following new accounting standards that became effective for annual reporting periods beginning after December 15, 2017. As a result, these interim condensed combined financial statements are consistently presented in accordance with the following recently adopted standards:

ASU No. 2014-09, *Revenue from Contracts with Customers*. Refer to Note 3 Revenue Related to Contracts with Customers for more details.

ASU No. 2016-15, *Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments*. Refer to the combined annual financial statements for more details.

ASU 2016-09, *Improvements to Employee Share-Based Payment Accounting*. Refer to the combined annual financial statements for more details.

ASU 2017-07, *Compensation—Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. Refer to the combined annual financial statements for more details.

ASU 2015-11, *Inventory (Topic 330), Simplifying of the Measurement of Inventory*. Refer to the combined annual financial statements for more details.

ASU 2015-16, *Simplifying the Accounting for Measurement-Period Adjustments*. Refer to the combined annual financial statements for more details.

ASU 2015-17, *Income Taxes (Topic 740), Balance Sheet Classification of Deferred Taxes*. Refer to the combined annual financial statements for more details.

The following standards have been adopted within these interim condensed combined financial statements:

ASU 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*. This ASU provides a new framework that will assist in the evaluation of whether business combination transactions should be accounted as an acquisition of a business or a group of assets, as well as specifying the minimum required inputs and processes necessary to be a business. The provisions of this ASU are effective for years beginning after December 15, 2017. All disposals in the current period were accounted for under the provision of the new guidance.

ASU 2016-16, *Accounting for Income Taxes: Intra-Entity Transfers of Assets Other Than Inventory*. This standard amends existing guidance on income taxes to require the accounting for the income tax effects of intercompany sales and transfers of assets other than inventory when the transfer occurs. As a result, the tax expense from the intercompany sale of assets, other than inventory, and associated changes to deferred taxes will be recognized when the sale occurs even though the pre-tax effects of the transaction have not been recognized. The pronouncement is effective for annual periods beginning after December 15, 2017, and interim periods within those annual periods, with early adoption permitted at the beginning of an annual period for which no financial statements have already been issued. This amendment has been applied on a modified retrospective basis through a cumulative-effect adjustment

directly to retained earnings as of the beginning of the period of adoption, which did not have an impact on our historical results.

F-48

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)

ASU 2016-18, *Statement of Cash Flows: Restricted Cash*. This standard requires the changes in the total of cash and restricted cash to be presented in the statement of cash flows. In addition, when cash and restricted cash are presented on separate lines on the balance sheet, an entity is required to reconcile the totals in the statement of cash flows to the related line items in the balance sheet. While not a direct effect of the adoption of the standard, to simplify the reconciliation of the statement of cash flows to the cash balances presented in our statement of financial position, we have elected to present cash and restricted cash as a single line on the balance sheet, which did not have an impact on our historical results.

(B) OTHER RECENT ACCOUNTING PRONOUNCEMENTS

In January 2017, the FASB issued ASU 2017-04, *Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill*. This ASU simplifies the measurement of goodwill impairment to a single-step test. The guidance removes step two of the goodwill impairment test, which requires a hypothetical purchase price allocation, and will now be the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. Under the revised guidance, failing step one will always result in goodwill impairment. The new guidance is effective for annual and interim goodwill impairment tests beginning after December 15, 2019 and early adoption is permitted. The Business is currently evaluating the impact of the adoption of ASU 2017-04 on our combined financial statements.

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments-Credit Losses: Measurement of Credit Losses on Financial Instruments*. The ASU introduces a new accounting model, the Current Expected Credit Losses model (CECL), which requires earlier recognition of credit losses, while also providing additional transparency about credit risk. The CECL model utilizes a lifetime expected credit loss measurement objective for the recognition of credit losses for loans and other receivables at the time the financial asset is originated or acquired. The expected credit losses are adjusted each period for changes in expected lifetime credit losses. This model replaces the multiple existing impairment models under current U.S. GAAP, which generally require that a loss be incurred before it is recognized. The new standard will also apply to receivables arising from revenue transactions such as contract assets and accounts receivables and is effective for fiscal years beginning after December 15, 2019. We continue to evaluate the effect of the standard on our combined financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases* (ASU 2016-02), creating ASC Subtopic 842, *Leases*. ASU 2016-02 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. ASU 2016-02 requires lessees to present a right-of-use asset and a corresponding lease liability on the balance sheet. Lessor accounting is substantially unchanged compared to the current accounting guidance. ASU 2016-02 is effective for annual reporting periods beginning after December 15, 2018, and for the interim and annual reporting periods thereafter, with early adoption permitted. The Business is currently evaluating the impact of the adoption of ASU 2016-02 on our combined financial statements.

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)**CONTRACT AND OTHER DEFERRED ASSETS AND PROGRESS COLLECTIONS AND OTHER DEFERRED INCOME**

Contract assets reflect revenues earned in excess of billings on our long-term contracts related to our equipment and CSAs. Contract liabilities reflect billings in excess of revenue recognized on similar agreements. Other deferred assets are fulfillment costs that principally relate to contractually required non-recurring engineering incurred during the initial design phase of a contract, which is recoverable over revenues generated as part of our production efforts. Recoverable costs are capitalized and amortized to Costs of revenues based on their expected pattern of benefit of the customers' order. Amortization of fulfillment costs was approximately \$8,944 thousand and \$9,422 thousand for the three months ended June 30, 2018 and 2017, respectively, and \$12,553 thousand and \$15,198 thousand for the six months ended June 30, 2018 and 2017, respectively.

Revenue recognized that was included in the contract liability at the beginning of the period was \$119,741 thousand and \$124,560 thousand for the three months ended June 30, 2018 and 2017, respectively, and \$280,321 thousand and \$374,755 thousand for the six months ended June 30, 2018 and 2017, respectively.

CONTRACT AND OTHER DEFERRED ASSETS, NET

Contract and other deferred assets and progress collections, considering current and non-current classification, as of June 30, 2018 and December 31, 2017, are as follows:

	June 30, 2018	December 31, 2017
<i>(in thousands)</i>		
Contractual service agreements ^(a)	\$ 348,538	\$ 416,199
Equipment contract revenue ^(b)	201,336	79,588
Deferred inventory costs ^(c)	31,226	39,655
Total contract and other deferred assets	\$ 581,100	\$ 535,442
Long-term contractual service agreements ^(a)	\$ 268,122	\$ 193,389
Long-term equipment contract revenue ^(b)	37,680	33,484
Long-term non-recurring engineering costs ^(d)	95,131	86,868
Other	—	7,651
Total long-term contract and other deferred assets	\$ 400,933	\$ 321,392
Progress collections ^(e)	\$ 601,655	\$ 564,971
Deferred income	17,755	27,456
Total progress collections and deferred income	\$ 619,410	\$ 592,427
Long-term progress collections ^(e)	\$ 17,071	\$ 20,740
Long-term deferred income	262	3,057
Total long-term progress collections and other deferred income	\$ 17,333	\$ 23,797
Total contract and other deferred assets, net	\$ 345,290	\$ 240,610

- (a) Reflects revenues earned in excess of billings on our CSAs in our Services segment.
- (b) Reflects revenues earned in excess of billings primarily on our long-term contracts to construct equipment principally in our Equipment and Digital segments.
- (c) Represents cost deferral for shipped goods and other costs for which the criteria for revenue recognition has not yet been met.
- (d) Includes fulfillment costs incurred prior to production (e.g., engineering costs specific to an individual customer's contract) for long-term equipment production contracts, primarily within our Equipment segment.
- (e) Includes billings in excess of revenue on our long-term equipment and CSAs.

F-51

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)

Contract assets, net, increased by \$112,498 thousand from December 31, 2017 due to an increase in revenue recognized in excess of billings principally in our Equipment segment, offset by an increase in progress collections principally in our Equipment segment. The changes in estimates for the six months ended June 30, 2018 and 2017, principally within our CSA portfolio in Services, increased revenue and operating income by approximately \$27,058 thousand and \$25,533 thousand, respectively.

REMAINING PERFORMANCE OBLIGATIONS

As of June 30, 2018, the aggregate amount of the transaction price allocated to the unsatisfied (or partially unsatisfied) performance obligations was \$15,615,131 thousand. This amount excludes highly probable but uncommitted purchases from our customers that are not legally enforceable. We expect to recognize revenue as we satisfy the remaining performance obligations as follows:

• Equipment - total remaining performance obligations of \$5,377,356 thousand of which 73% is expected to be satisfied within 5 year(s) and the remaining thereafter.

• Services - total remaining performance obligations of \$9,761,717 thousand of which 49% is expected to be satisfied within 5 year(s), 78% within 10 year(s) and the remaining thereafter.

• Digital - total remaining performance obligations of \$476,057 thousand of which 82% is expected to be satisfied within 5 year(s) and the remaining thereafter.

NOTE 4 CASH, CASH EQUIVALENTS AND RESTRICTED CASH

As of June 30, 2018, \$109,716 thousand of cash and equivalents were held in bank accounts and cannot be released, transferred or otherwise converted into a currency that is regularly transacted internationally, due to lack of market liquidity, capital controls or similar monetary or exchange limitations limiting the flow of capital out of the jurisdiction.

NOTE 5 RELATED PARTY TRANSACTIONS

As discussed in Note 1 Description of Business and Basis of Presentation, GE provides the Business with a number of services. Some of these services are provided directly by GE, and others are managed by GE through third-party service providers. The cost of certain of these services is either (a) recognized through our allocated portion of GE's Corporate Overhead, or (b) billed directly to the Business (such as most of our employee benefit costs). The cost of other services is included within the service itself, and the incremental cost for GE to provide the service is not discernible (such as payroll processing services included within the cost of payroll). In addition, we and our affiliates obtain a variety of goods (such as supplies and equipment) and services (such as GE Global Research Center) under various master purchasing and service agreements to which GE (and not the Business) is a party. We are billed directly for services we procure under these arrangements.

We receive an allocated share of GE's Corporate Overhead for certain services that GE provides to the Business, but which are not specifically billed to the Business, such as public relations, investor relations, treasury, and corporate internal audit services. Costs of \$6,291 thousand and \$6,791 thousand for the three months ended June 30, 2018 and 2017, respectively and \$12,582 thousand and \$13,582 thousand for the six months ended June 30, 2018 and 2017, respectively, were recorded in our Unaudited Condensed Combined Statement of Earnings for our allocated share of GE's Corporate Overhead. The Business has related party revenues of \$3,122 thousand and \$156 thousand for the three months ended June 30, 2018 and 2017, respectively and \$3,755 thousand and \$359 thousand for the six months ended June 30, 2018 and 2017, respectively. The majority of these sales were made by the Equipment segment to other GE

industrial business units.

These condensed combined financial statements include additional related party transactions with GE and GE entities that include the following:

- Amounts for due to / due from affiliates are recorded in Accounts payable and Current receivables, and are settled in cash. The Business has accounts payable resulting from amounts due to affiliates of

F-52

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)

\$82,492 thousand and \$48,057 thousand as of June 30, 2018 and December 31, 2017, respectively. The Business has current receivables resulting from amounts due from affiliates of \$31,952 thousand and \$21,259 thousand as of June 30, 2018 and December 31, 2017, respectively.

The Business factors U.S. and non-U.S. receivables through its Working Capital Solutions (WCS), on a recourse and nonrecourse basis pursuant to various factoring and servicing agreements. The Business had factored receivables of \$134,370 thousand and \$146,221 thousand without recourse as of June 30, 2018 and December 31, 2017, respectively. The Business had factored receivables of \$3,477 thousand and \$3,989 thousand with recourse as of June 30, 2018 and December 31, 2017, respectively. For agreements with recourse, the Business establishes a bad debt reserve based on the aging policy. Historically, the Business has outsourced our servicing responsibilities to Global Operations AR CoE for a market-based fee, and therefore, no servicing asset or liability has been recorded on the Unaudited Condensed Combined Statement of Financial Position as of June 30, 2018 and December 31, 2017. Under the programs, the Business incurred interest expense and finance charges of \$3,787 thousand and \$8,514 thousand for the three months ended June 30, 2018 and 2017, respectively, and \$6,694 thousand and \$14,049 thousand for the six months ended June 30, 2018 and 2017, respectively, which are included in Other (expense) income.

The Business's North American operations participate in accounts payable programs with Trade Payables Services (TPS). The Business's liability associated with the funded participation in the accounts payable programs, which is presented as accounts payable within the Condensed Combined Statement of Financial Position, was \$411,878 thousand and \$332,584 thousand as of June 30, 2018 and December 31, 2017, respectively.

The Business participates in GE Treasury centralized hedging and offsetting programs. See Note 13 Derivatives and Hedging.

Employees of the Business participate in pensions and benefit plans that are sponsored by GE. See Note 18 Pension and Postretirement Benefit Plans.

GE grants stock options, restricted stock units and performance share units to its group employees, including those of GE Transportation, under the GE Long-Term Incentive Plan.

Lease agreements are based on market terms. The Business incurs rent expense resulting from related party leases with GE or GE entities as lessor. See Note 17 Leases.

All adjustments relating to certain transactions among the Business, GE and GE entities, which include the transfer of the balance of cash and equivalents to GE, transfer of the balance of cash held in cash pooling arrangements to GE, settlement of intercompany debt between the Business and GE or other GE entities and pushdown of all costs of doing business that were paid on behalf of the Business by GE or GE entities, are classified as Net parent investment.

NOTE 6 CURRENT RECEIVABLES, NET

Current receivables, net, as of June 30, 2018 and December 31, 2017 consist of the following:

	June 30,	December
<i>(In thousands)</i>	2018	31,
		2017
Customer receivables	\$ 123,950	\$ 86,882
Due from GE	31,952	21,259
Sundry receivables	60,037	69,127
	215,939	177,268
Less allowance for doubtful accounts	(8,412)	(4,882)

Current receivables, net **\$ 207,527 \$ 172,386**

Sundry receivables primarily consist of value added tax receivables.

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)

During the six months ended June 30, 2018, we recorded additions to intangible assets subject to amortization of \$19,040 thousand, primarily driven by capitalized software.

Amortization expense related to intangible assets subject to amortization was \$11,523 thousand and \$10,810 thousand for the three months ended June 30, 2018 and 2017 and \$23,074 thousand and \$24,316 thousand for the six months ended June 30, 2018 and 2017, respectively.

NOTE 10 PREPAID EXPENSES AND OTHER CURRENT ASSETS

Prepaid expenses and other current assets as of June 30, 2018 and December 31, 2017 consist of the following:

		December
	June 30,	31,
<i>(In thousands)</i>	2018	2017
Derivative assets	\$ 65	\$ 3,303
Miscellaneous deferred charges	33,944	36,807
Prepaid insurance and other	5,197	6,080
Income tax receivable	183,641	179,394
Other	7,579	696
Prepaid expenses and other current assets	\$ 230,426	\$ 226,280

NOTE 11 OTHER ASSETS

Other assets as of June 30, 2018 and December 31, 2017 consist of the following:

		December
	June 30,	31,
<i>(In thousands)</i>	2018	2017
Associated companies ^(a)	\$ 57,334	\$ 56,428
Other assets ^(b)	22,960	21,331
Total other assets	\$ 80,294	\$ 77,759

^(a) Associated companies are entities in which we do not have a controlling financial interest, but over which we have significant influence, most often because we hold a voting interest of 20% to 50%.

^(b) Other assets mainly consist of long-term prepaid expenses and non-current value added tax receivables.

NOTE 12 BORROWINGS

In September 2017, the Business entered into an unsecured loan facility agreement with Wipro GE Healthcare Private Limited to fund various ongoing projects and operational requirements. The loan had a total disbursement value of \$68,703 thousand, disbursed in three tranches. As of December 31, 2017 the first two tranches had been disbursed with a total value of \$44,256 thousand. The final tranche was disbursed in the first quarter of 2018. The loan carries an 8% annual interest rate, compounded quarterly and matures in three tranches due October 2019, November 2019, and January 2020. Interest included in interest expense for long-term borrowings, including the current portion, is \$1,256 thousand and \$0 thousand for the three months ended June 30, 2018 and 2017 and \$2,480 thousand and \$0 thousand for the six months ended June 30, 2018 and 2017, respectively. Interest expense is included within Other (expense)

income in the Unaudited Condensed Combined Statement of Earnings.

Due to the nature and terms of the debt, the Business carries the debt at face value and did not recognize a discount or premium at issuance. The current portion of long-term debt is included in Short-term borrowings, and the non-current portion of the debt is included in Long-term borrowings. The amounts outstanding under the long-term borrowings as of June 30, 2018 and December 31, 2017 are reflected in the table below.

F-55

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)**LETTERS OF CREDIT**

As of June 30, 2018 and December 31, 2017, the Business has off-balance sheet credit exposure for unused letters of credit, bank guarantees, bid bonds, and surety bonds of approximately \$679,779 thousand and \$532,196 thousand, respectively.

Borrowings as of June 30, 2018 and December 31, 2017 consist of the following:

Short-term borrowings

	June 30, 2018	December 31, 2017
(In thousands)		
Current portion of long-term borrowings	\$ 24	\$ 45
Total short-term borrowings	\$ 24	\$ 45

Long-term borrowings

	June 30, 2018	December 31, 2017
(In thousands)		
	Maturities	
Long-term portion of borrowings	2019-2020 \$ 67,509	\$ 44,257
Total long-term borrowings	\$ 67,509	\$ 44,257

Total interest expense and other finance charges were \$5,055 thousand and \$9,141 thousand for the three months ended June 30, 2018 and 2017 and \$9,381 thousand and \$15,353 thousand for the six months ended June 30, 2018 and 2017, respectively. Interest expense includes expense related to current receivable factoring programs. See Note 4 Related Party Transactions.

NOTE 13 DERIVATIVES AND HEDGING

Economic hedges are not designated as hedged from an accounting standpoint (and therefore we do not apply hedge accounting to the relationship), but otherwise serve the same economic purpose as other hedging arrangements. We use economic hedges when we have exposures to currency exchange risk for which we are unable to meet the requirements for hedge accounting or when changes in the carrying amount of the hedged item are already recorded in earnings in the same period as the derivative, making hedge accounting unnecessary. Even though the derivative is an effective economic hedge, there may be a net effect on earnings in each period due to differences in the timing of earnings recognition between the derivative and the hedged item. Notional amounts outstanding are approximately \$374,724 thousand and \$332,821 thousand as of June 30, 2018 and December 31, 2017, respectively.

The following table provides information about the fair value of our derivatives, by contract type and the accounts in the Unaudited Condensed Combined Statement of Financial Position in which the balances are presented:

June 30, 2018 December 31, 2017

	Prepaid expenses and other current assets		Prepaid expenses and other current liabilities	
<i>(In thousands)</i>				

Fair Value

Currency exchange and commodity contracts \$ 65 \$ 11,530 \$ 3,303 \$ 6,372

Derivative instruments are principally administered by GE and the gains are \$6,273 thousand and \$4,069 thousand for the three months ended June 30, 2018 and 2017 and \$8,140 thousand and \$9,507 thousand for the six months ended June 30, 2018 and 2017, respectively. These gains are included in Other (expense) income.

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)**NOTE 14 INCOME TAXES**

Our consolidated effective income tax rates were 21% and 36% during the six months ended June 30, 2018 and 2017, respectively. The rate for 2018 benefited from a lower U.S. statutory rate effective for years beginning in 2018 due to U.S. tax reform and favorable changes in mix of earnings.

On December 22, 2017, the U.S. enacted legislation commonly known as the Tax Cuts and Jobs Act (U.S. tax reform) that lowered the statutory tax rate on U.S. earnings to 21%, taxes historic foreign earnings at a reduced rate of tax, establishes a territorial tax system and enacts new taxes associated with global operations.

The impact of enactment of U.S. tax reform was recorded on a provisional basis as the legislation provides for additional guidance to be issued by the U.S. Department of the Treasury on several provisions. Guidance during 2018 could impact the information required for and the calculation of the foreign-derived intangible income (*FDII*), base erosion anti-abuse tax (*BEAT*) and global intangible low-taxed income (*GILTI*) provisions and could affect decisions that affect the tax on various U.S. and foreign items, which would further impact the final amounts included in these provisions and impact the revaluation of deferred taxes. In addition, analysis performed and conclusions reached as part of the tax return filing process and additional guidance on accounting for U.S. tax reform could affect the provisional amount.

Additionally, as part of tax reform, the U.S. has enacted a minimum tax on foreign earnings (*GILTI*). We have not made an accounting policy election on the deferred tax treatment and, consequently, we have not made an accrual for the deferred tax aspects of this provision.

In the next twelve months, we do not expect uncertain tax positions to materially change.

NOTE 15 OTHER CURRENT LIABILITIES AND OTHER LIABILITIES
OTHER CURRENT LIABILITIES

Other current liabilities as of June 30, 2018 and December 31, 2017 consist of the following:

	December	
	June 30,	31,
<i>(In thousands)</i>	2018	2017
Employee related liabilities ^(a)	\$ 122,861	\$ 90,801
Derivative liabilities	11,530	6,372
Discounts and allowances	11,119	14,132
Accrued taxes	48,258	47,113
Accrued costs for freight, utility & other	25,975	28,563
Warranties	23,132	49,564
Restructuring and sundry losses ^(b)	16,277	24,032
Other current liabilities ^(c)	25,095	22,146
Total other current liabilities	\$ 284,247	\$ 282,723

- (a) Employee related liabilities are largely comprised of payroll, employee compensation and benefits, pension and other postretirement benefit obligations.
Restructuring accruals and accruals for legal costs arising from claims, assessments, litigation, fines and penalties
- (b) and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.
- (c) Other current liabilities primarily consist of accruals related to prior acquisitions and investments, as well as various other miscellaneous accruals.

F-57

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)**OTHER LIABILITIES**

Other liabilities as of June 30, 2018 and December 31, 2017 consist of the following:

		December
	June 30,	31,
<i>(In thousands)</i>	2018	2017
Employee related liabilities ^(a)	\$ 21,237	\$ 27,135
Sundry losses	684	8,503
Warranties	43,094	30,753
Tax related liabilities ^(b)	6,041	7,163
Other liabilities ^(c)	17,696	18,637
Total other liabilities	\$ 88,752	\$ 92,191

(a)Employee related liabilities are largely comprised of long-term employee compensation programs.

(b)Consists of reserves for uncertain tax positions.

(c)Other liabilities primarily consist of holdbacks and earn-outs.

NOTE 16 COMMITMENTS AND CONTINGENCIES**WARRANTY OBLIGATIONS**

As part of our product sales we provide standard warranty coverage to our customers as part of customary practices in the market to provide assurance that the equipment sold will comply with agreed upon specifications and such standard warranty at the time of sale is limited to fixing product defects. Issuance of a product warranty constitutes a commitment, which must be accrued as a loss contingency if expenditures under the warranty are both probable and reasonably estimable. The Business provides for estimated product warranty expenses when the related product sale is recognized. Additionally, we may elect certain corrective actions, at our expense, for certain product-related matters impacting our product portfolios. Warranty obligations are recognized for these matters when we commit to these corrective actions and they are estimable. Because warranty estimates are forecasts that are based on the best available information, primarily based on historical warranty claims experience and outstanding warranty period, claims costs may differ from amounts provided.

<i>(In thousands)</i>	2018	2017
Balance at January 1	\$ 80,317	101,492
Current year provisions	20,803	25,128
Utilizations and other	(34,894)	(33,384)
Balance at June 30	\$ 66,226	93,236

Approximately 65% and 59% of the warranty provision as of June 30, 2018 and June 30, 2017, respectively, are expected to be consumed beyond 12 months and therefore, are classified as a long-term liability in Other liabilities. Refer to Note 15 Other Current Liabilities and Other Liabilities.

GUARANTEES

The Business provides guarantees in the ordinary course of business. The Business believes the likelihood is remote that any such arrangements could have a significant adverse effect on these condensed combined financial statements of the Business. The Business records liabilities for guarantees at estimated fair value, generally the amount of the premium received, or if we do not receive a premium, the amount based on appraisal, observed market values or discounted cash flows, which are zero as of June 30, 2018 and December 31, 2017. The Business has off-balance sheet credit exposure through standby letters of credit, bank guarantees, bid bonds, and surety bonds. See Note 12 Borrowings. In addition, our Parent may provide the Business with parent company guarantees in certain jurisdictions where we lack the legal structure to issue the requisite guarantees required on certain projects. We are charged by our Parent the fair market value of such guarantees.

TABLE OF CONTENTS

GE Transportation

(A carve-out business of General Electric Company)

NOTES TO THE CONDENSED COMBINED FINANCIAL STATEMENTS (UNAUDITED)

LITIGATION

The Business is subject to a variety of legal proceedings and legal compliance risks in all parts of the world where the Business operates or buys or sells its equipment and services. The Business has adopted appropriate risk management and compliance programs to address these and other matters that may arise from time to time. The global and diverse nature of our business and the changing enforcement environments in which it operates, means the Business will continue to face legal and compliance risks, the nature and outcome of which cannot be predicted with certainty. Currently, management believes there are no legal contingencies that are likely to have a material effect on the Business's Condensed Combined Statements of Financial Position, Earnings, or Cash Flows.

In late November 2017, staff of the Boston office of the U.S. Securities & Exchange Commission (SEC) notified GE that they are conducting an investigation of GE's revenue recognition practices and internal controls over financial reporting related to long-term service agreements. We have provided documentation to Parent regarding our long-term service agreement practices. Parent is providing documents and other information requested by the SEC staff, and our Parent is cooperating with their ongoing investigation.

NOTE 17 LEASES

LEASE COMMITMENTS

The Business is a lessee under various cancelable and non-cancelable operating lease arrangements for facilities, information technology, fleet, and other equipment having terms which expire on various dates. Rent expense for third party leases was \$6,351 thousand and \$5,539 thousand for the three months ended June 30, 2018 and 2017 and \$11,977 thousand and \$12,861 thousand for the six months ended June 30, 2018 and 2017, respectively. Rent of approximately \$181 thousand and \$499 thousand was charged by GE for these leases for the three months ended June 30, 2018 and 2017 and \$1,396 thousand and \$1,064 thousand for the six months ended June 30, 2018 and 2017, respectively, which was generally consistent with prior years. See Note 5 Related Party Transactions.

NOTE 18 PENSION AND POSTRETIREMENT BENEFIT PLANS

Certain employees are covered under GE's retirement plans (e.g. pension, retiree health and life insurance). In addition, certain Canadian employees participate in the GE Canada Defined Benefit Pension Plan as well as the Canada Postretirement Benefits.

The Business is allocated relevant participation costs for these GE employee benefit plans by GE. As such, the Business has not recorded any liabilities associated with our participation in this multi-employer plan in our Unaudited Condensed Combined Statement of Financial Position as of June 30, 2018 and December 31, 2017.

Expenses associated with our employees' participation in the U.S. GE pension and postretirement benefit plans are \$20,158 thousand and \$21,951 thousand for the three months ended June 30, 2018 and 2017 and \$39,709 thousand and \$41,415 thousand for the six months ended June 30, 2018 and 2017, respectively. Expenses associated with our employees' participation in the GE Canada Defined Benefit Pension Plan and Canada Postretirement Benefits are \$284 thousand and \$317 thousand for the three months ended June 30, 2018 and 2017 and \$569 thousand and \$550 thousand for the six months ended June 30, 2018 and 2017, respectively.

NOTE 19 SEGMENT INFORMATION

BASIS OF PRESENTATION

Our reportable segments are organized based on the nature of markets and customers. Segment accounting policies are the same as described and referenced in Note 2 Summary of Significant Accounting Policies of our annual financial statements.

Certain information concerning our segments for the three and six months ended June 30, 2018 and 2017 is presented in the following tables. Consistent accounting policies have been applied by all segments within the Business, within all reporting periods.

F-59

TABLE OF CONTENTS**GE Transportation**

(A carve-out business of General Electric Company)

Eliminations	(19,482)	(23,355)
Total revenues	\$ 1,773,888	\$ 1,980,585

OTHER SEGMENT INFORMATION

The Business uses segment profit to manage the Business and allocate resources. Management defines segment profit as operating income, plus interest income, less noncontrolling interest. Costs for corporate overhead functions are first attributed to the segments to the extent possible before being subject to various allocation methodologies. Refer to the table below for segment profit and a reconciliation to Net earnings attributable to Parent for the three months and six months ended June 30, 2018 and 2017.

For the three months ended June 30		
<i>(In thousands)</i>	2018	2017
Equipment	\$ (49,658)	\$ (9,506)
Services	164,160	151,860

The Business does not identify total assets by segment for internal purposes as the Business CODM (Chief Operating Decision Maker) does not assess performance, make strategic decisions, or allocate resources based on assets.

NOTE 20 SUBSEQUENT EVENTS

The Business performed an evaluation of subsequent events through August 7, 2018, the date these unaudited condensed combined financial statements were issued, and determined there were no recognized or unrecognized subsequent events that would require an adjustment or additional disclosure in these condensed combined financial statements. Refer to Note 1 Description of Business and Basis of Presentation for further detail on the Proposed Transaction announced on May 21, 2018.

TABLE OF CONTENTS

PART II INFORMATION NOT REQUIRED IN THE PROSPECTUS

Item 20. Indemnification of Directors and Officers

1. Section 145 of the Delaware General Corporation Law (DGCL). Section 145 of the DGCL provides that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding if the person acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation and with respect to any criminal action or proceeding, had no reasonable cause to believe the person's conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation, and with respect to any criminal action or proceeding, had reasonable cause to believe that the person's conduct was unlawful.

Section 145 also provides that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit, if the person acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability, but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

To the extent that a former or present director or officer of the corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to above, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.

Any such indemnification (unless ordered by a court) shall be made by the corporation only as authorized in the specific case upon a determination that the indemnification of the present or former director, officer, employee or agent is proper in the circumstances because such person has met the applicable standard of conduct set forth above. Such determination shall be made:

- (1) by a majority vote of the directors who were not parties to such action, suit or proceeding, even though less than a quorum; or
- (2) by a committee of such directors designated by a majority vote of such directors, even though less than a quorum; or
- (3) if there are no such directors, or, if such directors so direct, by independent legal counsel in a written opinion; or
- (4) by the stockholders.

Section 145 permits a Delaware business corporation to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation

as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against any liability asserted against such person and incurred by such person in any such capacity or arising out of such person's status as such, whether or not the corporation would have the power to indemnify such person against such liability.

II-1

TABLE OF CONTENTS

2. Section 102(b)(7) of the DGCL. Section 102(b)(7) of the DGCL provides that a corporation may set forth in its Certificate of Incorporation a provision eliminating or limiting the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, provided that such provision shall not eliminate or limit the liability of a director (i) for any breach of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the DGCL regarding the unlawful payment of dividends or approval of unlawful stock repurchases or redemptions, or (iv) for any transaction from which the director derived an improper personal benefit. No such provision shall eliminate or limit the liability of a director for any act or omission occurring prior to the date when such provision becomes effective (in the case of Wabtec, October 19, 1989). As noted in paragraph 3 below, Wabtec's Amended and Restated Certificate of Incorporation, as amended, includes a provision contemplated by Section 102(b)(7) of the DGCL.

3. Certificate of Incorporation Provision on Liability of Directors. The Restated Certificate of Incorporation of Wabtec, as amended, provides that no Wabtec director shall be personally liable to Wabtec or any of its stockholders for monetary damages for breach of a fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to Wabtec or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the DGCL, or (iv) for any transactions from which a director derived an improper personal benefit.

4. Indemnification By-Law. Section 1 of Article VIII of Wabtec's Amended and Restated By-Laws provides that Wabtec shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of Wabtec) by reason of the fact that he is or was a director or officer of Wabtec, or is or was a director or officer of the Wabtec enterprise, against expenses (including attorneys' fees), payments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of Wabtec, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by payment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of Wabtec, and, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

Section 2 of Article VIII of Wabtec's Amended and Restated By-Laws provides that Wabtec shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of Wabtec to procure a judgment in its favor by reason of the fact that he is or was a director or officer of Wabtec, or is or was a director or officer of Wabtec serving at the request of Wabtec as a director or officer of another corporation, partnership, joint venture, trust, employee benefit plan or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by him in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of Wabtec; except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to Wabtec unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Section 3 of Article VIII of Wabtec's Amended and Restated By-Laws provides that any indemnification under Article VIII (unless ordered by a court) shall be made by Wabtec only as authorized in the specific case upon a determination that indemnification of the director or officer is proper in the circumstances because he has met the applicable standard of conduct set forth in Section 1 or Section 2 of Article VIII, as the case may be. Such determination shall be

made (i) by a majority of the vote of the directors who are not parties to such action, suit or proceeding, even though less than a quorum, or (ii) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion, or (iii) by the stockholders. To the extent, however, that

II-2

TABLE OF CONTENTS

a director or officer of Wabtec has been successful on the merits or otherwise in defense of any action, suit or proceeding described above, or in defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith, without the necessity of authorization in the specific case.

Section 8 of Article VIII of Wabtec's Amended and Restated By-Laws provides that Wabtec may purchase or maintain insurance on behalf of any person who is or was a director or officer of Wabtec, or is or was a director of Wabtec serving at the request of Wabtec as a director or officer of another corporation, partnership, joint venture, trust, employee benefit plan or other enterprise against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not Wabtec would have the right or obligation to indemnify him against such liability.

5. Director and Officer Liability Insurance. Wabtec maintains director and officer liability insurance covering its directors and officers with respect to certain liabilities which they may incur in connection with their serving as such.

Item 21. Exhibits and Financial Statement Schedules

(a) Exhibits. See the Exhibit Index attached to this prospectus-information statement, which is incorporated herein.

(b) Financial Statement Schedules. The Financial Statement schedule, Valuation and Qualifying Accounts, for Wabtec is included in the financial statements of Wabtec, incorporated by reference in this registration statement.

Item 22. Undertakings

(a) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(b) The undersigned registrant hereby undertakes to deliver or cause to be delivered with the prospectus, to each person to whom the prospectus is sent or given, the latest annual report, to security holders that is incorporated in the prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 or Rule 14c-3 under the Securities Exchange Act of 1934; and, where interim financial information required to be presented by Article 3 of Regulation S-X is not set forth in the prospectus, to deliver, or cause to be delivered to each person to whom the prospectus is sent or given, the latest quarterly report that is specifically incorporated in the prospectus to provide such interim financial information.

(c) (1) The undersigned registrant hereby undertakes as follows: That prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145© of the Securities Act of 1933, the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form.

(2) The undersigned registrant undertakes that every prospectus (i) that is filed pursuant to paragraph (1) immediately preceding, or (ii) that purports to meet the requirements of section 10(a)(3) of the Securities Act of 1933 and is used in connection with an offering of securities subject to Rule 415 of the Securities Act of 1933, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to

be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(d) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification

II-3

TABLE OF CONTENTS

is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(e) The undersigned registrant hereby undertakes to respond to requests for information that is incorporated into the prospectus pursuant to Items 4, 10(b), 11 or 13 of this Form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

(f) The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-4 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Wilmerding, Commonwealth of Pennsylvania on September 20, 2018.

**WESTINGHOUSE AIR BRAKE
TECHNOLOGIES CORPORATION**

By: /s/ Patrick D. Dugan
Name: Patrick D. Dugan
Title: Executive Vice President and
Chief Financial Officer

POWER OF ATTORNEY

Each of the undersigned directors and officers of Westinghouse Air Brake Technologies Corporation, a Delaware corporation, do hereby constitute and appoint Patrick D. Dugan and David L. DeNinno, or either of them, the undersigned's true and lawful attorneys and agents, with full power of substitution and resubstitution in each, to do any and all acts and things in our name and on our behalf in our respective capacities as directors and officers and to execute any and all instruments for us and in our names in the capacities indicated below, which said attorneys and agents, or either of them, may deem necessary or advisable to enable said corporation to comply with the Securities Act, as amended, and any rules, regulations and requirements of the Securities and Exchange Commission, in connection with this registration statement, including specifically, but without limitation, power and authority to sign for us or any of us in our names in the capacities indicated below, any and all amendments (including post-effective amendments, whether pursuant to Rule 462(b) or otherwise) hereto, and each of the undersigned does hereby ratify and confirm all that said attorneys and agents, or either of them or any substitute, shall do or cause to be done by virtue hereof. This Power of Attorney may be executed in any number of counterparts.

Pursuant to the requirements of the Securities Act of 1933, this registration statement has been signed by the following persons in the capacities and on September 20, 2018.
