NEWTEK BUSINESS SERVICES, INC. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES:

BASIS OF PRESENTATION AND DESCRIPTION OF BUSINESS

The consolidated financial statements of Newtek Business Services, Inc. and Subsidiaries (the "Company" or "Newtek") included herein have been prepared by us pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") and include all majority owned subsidiaries or those which Newtek is considered to be the primary beneficiary of (as defined under FASB Interpretation No. FIN 46 ("FIN 46")). All intercompany balances and transactions have been eliminated in consolidation. The financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in our Form 10-K for the fiscal year ended December 31, 2003, as amended.

The unaudited consolidated financial statements of Newtek, reflect, in the opinion of management, all adjustments necessary to present fairly the

Edgar Filing: NEWTEK BUSINESS SERVICES INC - Form 10-Q

financial position of Newtek at March 31, 2004, the results of operations and its cash flows for the three months ended March 31, 2004. Results of operations for the interim periods may not be representative of results to be expected for a full year. All adjustments are of a normal recurring nature.

Newtek Business Services, Inc., is engaged in the business of providing financial products and business services to small and medium-sized businesses through ownership and/or operation of specific primary lines of business as well as organizing certified capital companies ("capcos") and investing funds made available under the capco programs in small businesses.

The following is a summary of each Capco or Capco fund, state of certification and date of certification:

CAPCO	STATE OF CERTIFICATION	DATE OF CERTIFICATION
-----	-----	-----
WA	New York	May 1998
WP	Florida	December 1998
WI	Wisconsin	October 1999
WLA	Louisiana	October 1999
WA II	New York	April 2000
WNY III	New York	December 2000
WC	Colorado	October 2001
WAP	Alabama	February 2004

The State of Louisiana has four "capco funds" which are all a part of and consolidated with the WLA Capco (the first fund). The second, Wilshire Louisiana Partners II, LLC (WLPPII), and the third, Wilshire Louisiana Partners III, LLC (WLPPIII), were formed in October 2001, and October 2002, respectively. The fourth, Wilshire Louisiana Partners IV, LLC (WLPPIV) was formed in October 2003. In general, the Capcos issue debt and equity instruments, generally warrants or shares of common stock ("Certified Capital"), to insurance company investors ("Certified Investors"). The Capcos then make targeted investments ("Investments in Qualified Businesses", as defined under the respective state statutes, or, "Qualified Businesses"), with the Certified Capital raised. Such investments may be accounted for as either consolidated subsidiaries, under the equity method or cost method of accounting, depending upon the nature of the investment and the Company's and/or the Capco's ability to control or otherwise exercise significant influence over the investee. Participation in each Capco program legally

NOTE 1- SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

entitles the Capco to receive (or earn) tax credits from the state upon satisfying quantified, defined investment percentage thresholds and time requirements. In order for the Capcos to maintain their state-issued certifications, the Capcos must make Investments in Qualified Businesses in accordance with these requirements. These state requirements are mirrored in the limitations agreed to by each Capco in its written agreements with its Certified Investors and limit the activities of the Capcos to conducting the business of a capco. Each Capco also has separate, legal contractual arrangements with the Certified Investors obligating the Capco to refrain from unauthorized activities, to use the proceeds from the notes only for Capco-authorized (i.e., "qualified") investments, to limit fees for professional services related to making, buying or selling investments to \$200,000 per Capco annually; and to pay interest on the aforementioned debt instruments whether or not it meets the statutory requirements for Investments in Qualified Businesses.

Edgar Filing: NEWTEK BUSINESS SERVICES INC - Form 10-Q

The Capco can satisfy this interest payment, at the Capco's discretion, by delivering tax credits in lieu of paying cash. The Capcos legally have the right to deliver the tax credits to the Certified Investors. The Certified Investors legally have the right to receive and use the tax credits and would, in turn, use these tax credits to reduce their respective state tax liabilities in an amount usually equal to 100% (WLA, WLPPII, and WLPPIII -110%) of their certified investment. The tax credits can be utilized over a ten-year period at a rate of 10% (WLA, WLPPII, and WLPPIII - 11%) per year and in some instances are transferable and can be carried forward.

During February 2004, Newtek closed on its twelfth capco, Wilshire Alabama Partners LLC, for total certified capital of \$11,111,111.

CASH AND CASH EQUIVALENTS

In the Company's Statement of Cash Flows, cash invested in consolidated entities is presented as a cash outflow, and cash in those entities is presented as an inflow, "Consolidation of majority owned entities."

The Company recognizes income from tax credits as its capcos make qualified investments and satisfy statutory investment percentage thresholds within specified time requirements. Newtek believes that the presentation in the statement of cash flows of gross investments made is appropriate since it provides disclosure of the aggregate amount of investment activity during the reporting period, thus providing the information relative to achieving the Company's investment thresholds and the corresponding recognition of income from tax credits.

STOCK - BASED COMPENSATION

The Company has elected to continue using Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," in accounting for employee stock options. With regard to stock options, no stock-based employee compensation cost is reflected in net (loss) income, as all options granted under this plan had an exercise price equal to the market value of the underlying common stock at the date of grant. Compensation expense on restricted shares granted to employees is measured at the fair market value on the date of grant and recognized in the consolidated statements of operations on a pro-rata basis over the service period which approximates the vesting period.

The following table summarizes the pro forma consolidated results of operations of the Company as though the fair value based accounting method in SFAS 148 "Accounting for Stock-based Compensation-Transition and Disclosure- an amendment of SFAS 123" had been used in accounting for employee stock options.

	-----	-----

7

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

For the three months ended March 31, 2004 and 2003, the weighted average fair value of each option granted is estimated on the date of grant using the Black Scholes model with the following assumptions: expected volatility ranging from 59-85%, risk-free interest rate ranging from 1.61% to 6.15%, respectively, expected dividends of \$0 and expected terms ranging from 1-6 years.

USE OF ESTIMATES

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expense during the reporting period. The most significant estimates are with respect to valuation of investments in qualified businesses, goodwill impairment valuation and loans receivable. Actual results could differ from those estimates.

NEW ACCOUNTING PRONOUNCEMENTS

In March 2004, the Emerging Issues Task Force ("EITF" or the "Task Force") reached a final consensus on Issue 03-6 "Participating Securities and the Two-Class Method under FASB Statement No. 128, Earnings per Share" which addresses a number of questions regarding the computation of earnings per share ("EPS") by companies that have issued securities other than common stock that contractually entitle the holder to participate in dividends and earnings of the company when, and if, it declares dividends on its common stock. The issue also provides further guidance in applying the two-class method of calculating EPS. It clarifies what constitutes a participating security and how to apply the two-class method of computing EPS once it is determined that a security is participating, including how to allocate undistributed earnings to such a security. The Company does not anticipate that adoptions of this standard will have a significant impact on the Company's financial position, results of operations or cash flows.

Edgar Filing: NEWTEK BUSINESS SERVICES INC - Form 10-Q

In March 2004, the EITF reached consensus on Issue No. 03-1, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments" regarding disclosures about unrealized losses on available-for-sale debt and equity securities accounted for under FASB Statements No. 115, "Accounting for Certain Investments in Debt and Equity Securities", and No. 124, "Accounting for Certain Investments Held by Not-for-Profit Organizations". The guidance for evaluating whether an investment is other-than-temporarily impaired should be applied in such evaluations made in reporting periods beginning after June 15, 2004. The disclosures are effective in annual financial statements for fiscal years ending after December 15, 2003, for investments accounted for under Statements 115 and 124. For all other investments within the scope of this Issue, the disclosures are effective in annual financial statements for fiscal years ending after June 15, 2004. The additional disclosures for cost method investments are effective for fiscal years ending after June 15, 2004. We do not expect that the implementation of EITF 03-1 will have a material effect on our financial statements.

RECLASSIFICATIONS

Certain prior period amounts have been reclassified to conform to current period presentation.

NOTE 2 - COMMON STOCK:

In the first quarter of 2004, Newtek sold 201,273 shares of common stock in private transactions, with proceeds totaling approximately \$942,000. During the same period there were 153,992 stock options exercised, with proceeds totaling approximately \$547,000. In connection with the funding of the Wilshire Alabama capco, 85,500 shares of stock were issued for approximately \$359,000. In addition, 2,000 shares of common stock were issued in consideration for consulting services rendered, valued at approximately \$14,000.

8

NOTE 3 - INVESTMENTS IN QUALIFIED BUSINESSES:

The following table is a summary of investments as of March 31, 2004, shown separately between their debt and equity components, and all terms of each are summarized. There are no expiration dates on any of the financial instruments, unless disclosed.

The various interests that the Company acquires in its qualified investments are accounted for under three methods: consolidation, equity method and cost method. The applicable accounting method is generally determined based on the Company's voting interest, or the economics of the transaction if the investee is determined to be a variable interest entity.
