## J \& J SNACK FOODS CORP. AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)
Note In the opinion of management, the accompanying unaudited consolidated financial statements contain all 1 adjustments (consisting of only normal recurring adjustments) necessary to present fairly the financial position and the results of operations and cash flows. Certain prior year amounts have been reclassified to conform to the current period presentation. These reclassifications had no effect on reported net earnings.

The results of operations for the three months and six months ended March 29, 2008 and March 31, 2007 are not necessarily indicative of results for the full year. Sales of our frozen beverages and frozen juice bars and ices are generally higher in the third and fourth quarters due to warmer weather.

While we believe that the disclosures presented are adequate to make the information not misleading, it is suggested that these consolidated financial statements be read in conjunction with the consolidated financial statements and the notes included in the Company's Annual Report on Form 10-K for the fiscal year ended September 29, 2007.

Note We recognize revenue from Food Service, Retail Supermarkets, The Restaurant Group and Frozen Beverage 2 products at the time the products are shipped to third parties. When we perform services under service contracts for frozen beverage dispenser machines, revenue is recognized upon the completion of the services on specified machines. We provide an allowance for doubtful receivables after taking into account historical experience and other factors.

Note Depreciation of equipment and buildings is provided for by the straight-line method over the assets' estimated 3 useful lives. Amortization of improvements is provided for by the straight-line method over the term of the lease or the assets' estimated useful lives, whichever is shorter. Amortized intangible assets arising from acquisitions are amortized by the straight-line method over periods ranging from 3 to 20 years.

Note 4 Our calculation of earnings per share in accordance with SFAS No. 128, "Earnings Per Share," is as follows:

Note The Company follows FASB Statement No. 123(R), "Share-Based Payment". Statement 123(R) requires that the 5 compensation cost relating to share-based payment transactions be recognized in financial statements. That cost is measured based on the fair value of the equity or liability instruments issued.

9

Statement $123(\mathrm{R})$ covers a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans.

In addition to the accounting standard that sets forth the financial reporting objectives and related accounting principles, Statement $123(\mathrm{R})$ includes an appendix of implementation guidance that provides expanded guidance on measuring the fair value of share-based payment awards.

At March 29, 2008, the Company has three stock-based employee compensation plans. Share-based compensation was recognized as follows:

|  | Three months ended |  |  |  | Six months ended |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\begin{gathered} \text { March } 29, \\ 2008 \end{gathered}$ |  | $\begin{gathered} \text { March } 31, \\ 2007 \end{gathered}$ |  | March 29,$2008$ |  | $\begin{gathered} \text { March 31, } \\ 2007 \end{gathered}$ |  |
| Stock Options | \$ | 296 | \$ | 239 | \$ | 532 | \$ | 339 |
| Stock purchase plan |  | 37 |  | 28 |  | 76 |  | 73 |
| Deferred stock issued to outside directors |  | 34 |  | 35 |  | 69 |  | 69 |
| Restricted stock issued to an employee |  | 25 |  | - |  | 50 |  |  |
|  | \$ | 392 | \$ | 302 | \$ | 727 | \$ | 481 |
| Per diluted share | \$ | . 02 | \$ | . 01 | \$ | . 04 | \$ | . 03 |
| The above compensation is net of tax benefits | \$ | 88 | \$ | 129 | \$ | 177 | \$ | 317 |

The Company anticipates that share-based compensation will not exceed $\$ 1,400,000$, net of tax benefits, or approximately $\$ .07$ per share for the fiscal year ending September 27, 2008.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes options-pricing model with the following weighted average assumptions used for grants in fiscal 2008 and 2007: expected volatility of 23\% and $27 \%$; risk-free interest rates of $3.54 \%$ and $4.57 \%$; dividend rate of $1.1 \%$ and $.9 \%$ and expected lives ranging between 5 and 10 years.

During the 2008 and 2007 six month periods, the Company granted 96,345 and 118,200 stock options, respectively. The weighted-average grant date fair value of these options was $\$ 7.98$ and $\$ 11.96$, respectively. 500 options were issued in the second quarter of 2008 and 10,000 options were issued in the second quarter of 2007.

Expected volatility for both years is based on the historical volatility of the price of our common shares over the past 50 to 53 months for 5 year options and 10 years for 10 year options. We use historical information to estimate expected life and forfeitures within the valuation model. The expected term of awards represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods within the expected life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Compensation cost is recognized using a straight-line method over the vesting or service period and is net of estimated forfeitures.

Note In June 2006, the FASB issued Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes, an 6 Interpretation of FASB Statement No. 109 (SFAS 109).

FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statements in accordance with SFAS 109. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

FIN 48 also provides guidance on financial reporting and classification of differences between tax positions taken in a tax return and amounts recognized in the financial statements.

We adopted FIN 48 on September 30, 2007, the first day of the 2008 fiscal year, and, as a result, recognized a $\$ 925,000$ decrease to opening retained earnings from the cumulative effect of adoption. As of March 29, 2008, the total amount of gross unrecognized tax benefits is $\$ 1,600,000$, all of which would impact our effective tax rate over time, if recognized. We recognize interest and penalties related to income tax matters as a part of the provision for income taxes. As of March 29, 2008, the Company had $\$ 505,000$ of accrued interest and penalties.

In addition to our federal tax return and tax returns for Mexico and Canada, we file tax returns in all states that have a corporate income tax with virtually all open for examination for three to four years.

In September 2006, the SEC staff issued Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements." SAB 108 was issued to provide consistency between how registrants quantify financial statement misstatements. We did not record any adjustment upon adoption in 2007 due to immateriality.

In September 2006, the FASB issued Statement No. 157, "Fair Value Measurements" (FAS 157). FAS 157 establishes a common definition for how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under generally accepted accounting principles. The statement is effective for our 2009 fiscal year. We are currently evaluating the provisions of FAS 157 to determine its impact on our financial statements.

On February 15, 2007, the FASB issued Statement No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities," (SFAS 159). The Fair value option established by SFAS 159 permits, but does not require, all entities to choose to measure eligible items at fair value at specified election dates. An entity would report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS 159 is effective for our 2009 fiscal year. We are currently assessing what the impact of the adoption of this standard would be on the Company's financial position and/or results of operations.

In December 2007, the FASB issued Statement 141 (revised 2007), "Business Combinations" (Statement 141R). When effective, Statement 141R will replace existing Statement 141 in its entirety.

Statement 141R is effective for our 2010 fiscal year. Both early adoption and retrospective application are prohibited. Statement 141R provides transition guidance for mutual entities because they do not currently apply either Statement 141 to combinations of mutual entities or Statement 142 to goodwill or intangible assets acquired in such combinations.

In December 2007, The FASB issued Statement 160, "Noncontrolling Interests in Consolidated Financial Statements: an amendment of ARB No. 51." Statement 160 replaces the existing minority-interest provisions of Accounting Research Bulletin (ARB) 51, "Consolidated Financial Statements," by defining a new term-noncontrolling interests-to replace what were previously called minority interests.

Statement 160 establishes noncontrolling interests as a component of the equity of a consolidated entity.
The underlying principle of the new standard is that both the controlling interest and the noncontrolling interests are part of the equity of a single economic entity: the consolidated reporting entity.

Statement 160 is effective for our 2010 fiscal year.
Early adoption is prohibited. A parent company is prohibited from changing the amounts recognized for acquisitions or dispositions of noncontrolling interests or for a loss of control of a subsidiary in previous periods. However, the parent must apply the disclosure and presentation provisions of Statement 160 retrospectively for all periods presented.

Note We principally sell our products to the food service and retail supermarket industries. We also distribute our 8 products directly to the consumer through our chain of retail stores referred to as The Restaurant Group. Sales and results of our frozen beverages business are monitored separately from the balance of our food service business and restaurant group because of different distribution and capital requirements. We maintain separate and discrete financial information for the four operating segments mentioned above which is available to our Chief Operating Decision Makers. We have applied no aggregate criteria to any of these operating segments in order to determine reportable segments. Our four reportable segments are Food Service, Retail Supermarkets, The Restaurant Group and Frozen Beverages. All inter-segment net sales and expenses have been eliminated in computing net sales and operating income (loss). These segments are described below.

## Food Service

The primary products sold by the food service group are soft pretzels, frozen juice treats and desserts, churros and baked goods. Our customers in the food service industry include snack bars and food stands in chain, department and discount stores; malls and shopping centers; fast food outlets; stadiums and sports arenas; leisure and theme parks; convenience stores; movie theatres; warehouse club stores; schools, colleges and other institutions. Within the food service industry, our products are purchased by the consumer primarily for consumption at the point-of-sale.

## Retail Supermarkets

The primary products sold to the retail supermarket industry are soft pretzel products, including SUPERPRETZEL, LUIGI'S Real Italian Ice, MINUTE MAID Juice Bars and Soft Frozen Lemonade, WHOLE FRUIT Sorbet, FRUIT-A-FREEZE frozen fruit bars, ICEE frozen novelties and TIO PEPE'S Churros. Within the retail supermarket industry, our frozen and prepackaged products are purchased by the consumer for consumption at home.

The Restaurant Group
We sell direct to the consumer through our Restaurant Group, which operates BAVARIAN PRETZEL BAKERY and PRETZEL GOURMET, our chain of specialty snack food retail outlets.

## Frozen Beverages

We sell frozen beverages to the food service industry, including our restaurant group, primarily under the names ICEE, SLUSH PUPPIE and ARCTIC BLAST in the United States, Mexico and Canada.

The Chief Operating Decision Maker for Food Service, Retail Supermarkets and The Restaurant Group and the Chief Operating Decision Maker for Frozen Beverages monthly review and evaluate operating income and sales in order to assess performance and allocate resources to each individual segment. In addition, the Chief Operating Decision Makers review and evaluate depreciation, capital spending and assets of each segment on a quarterly basis to monitor cash flow and asset needs of each segment. Information regarding the operations in these four reportable segments is as follows:

${ }^{(2)}$ Includes share-based compensation expense of $\$ 28$ and $\$ 54$ for the three and six months ended March 29, 2008, respectively and $\$ 14$ and $\$ 25$ for the three and six months ended March 29, 2008, respectively.
${ }^{(3)}$ Includes share-based compensation expense of $\$ 107$ and $\$ 198$ for the three and six months ended March 31, 2007, respectively and $\$ 87$ and $\$ 160$ for the three and six months ended March 31, 2007, respectively.

Note We follow SFAS No. 142 "Goodwill and Intangible Assets." SFAS No. 142 includes requirements to test goodwill 9 and indefinite lived intangible assets for impairment rather than amortize them; accordingly, we do not amortize goodwill.

Our four reporting units, which are also reportable segments, are Food Service, Retail Supermarkets, The Restaurant Group and Frozen Beverages.

The carrying amounts of acquired intangible assets for the Food Service, Retail Supermarkets, The Restaurant Group and Frozen Beverage segments as of March 29, 2008 are as follows:

17

|  | Gross <br> Carrying <br> Amount |  | Accumulated Amortization (in thousands) |  | Net Carrying Amount |  |

Amortized intangible assets are being amortized by the straight-line method over periods ranging from 3 to 20 years and amortization expense is reflected throughout operating expenses. There were no changes in the gross carrying amount of intangible assets for the three months ended March 29, 2008. Aggregate amortization expense of intangible assets for the three months ended March 29, 2008 and March 31, 2007 was $\$ 1,192,000$ and $\$ 1,107,000$, respectively and for the six months ended March 29, 2008 and March 31, 2007 was $\$ 2,384,000$ and $\$ 1,585,000$, respectively.

18

Estimated amortization expense for the next five fiscal years is approximately \$4,700,000 in 2008, \$4,500,000 in 2009 and 2010, $\$ 4,100,000$ in 2011 and $\$ 3,800,000$ in 2012. The weighted average amortization period of the intangible assets is 10.3 years.

Goodwill

The carrying amounts of goodwill for the Food Service, Retail Supermarket, Restaurant Group and Frozen Beverage segments are as follows:

The amortized cost, unrealized gains and losses, and fair market values of the Company's investment securities available for sale at September 29, 2007 are summarized as follows:

19

At March 29, 2008, we held $\$ 45.2$ million of Auction Market Preferred Stock ("AMPS") which are valued at par, our cost, and which are classified as long-term assets on our March 29, 2008 balance sheet under other assets as Auction Market Preferred Stock. On September 27, 2007, we held $\$ 41.2$ million of AMPS which were also valued at par but which were classified as short-term assets under the caption marketable securities.

The AMPS we own are senior equity securities of closed-end funds and have priority over the fund's common shares as to distribution of assets and dividends, as described in each fund's prospectus.

Under normal auction market conditions, dividends on the AMPS for each dividend period (generally 7 to 49 days) are set at a rate determined through an auction process that brings together bidders who seek to buy AMPS and holders of AMPS who seek to sell. Investors and potential investors typically had purchased the AMPS in an auction by submitting orders to a broker-dealer, typically, an investment bank. However, beginning in mid February, the auction process has not been supported by broker-dealers and auctions have failed and continue to fail. In the case of a failed auction, the dividends continue to be paid at the applicable "failure" rate for each security until an auction can establish a market clearing rate. For most of the funds we own, the specified "failure" rate is the current applicable LIBOR rate plus 125 basis points or $125 \%$ of the rate, whichever is greater. Other of the funds we own have different formulas which produce comparable dividend rates.

The assets of closed-end funds, which are valued on a daily basis, serve as the collateral for issuance of the AMPS. The AMPS must meet certain specified asset coverage tests, which include a requirement set forth under the Investment Company Act of 1940 that closed-end funds maintain asset coverage of at least $200 \%$ with respect to the AMPS and any other outstanding senior securities; i.e. closed-end funds must have at least $\$ 2$ of collateral for every $\$ 1$ of AMPS issued. If a fund doesn't meet the asset coverage test, then the fund must redeem the AMPS at par. Of the $\$ 45.2$ million of securities held by the Company, $\$ 40.2$ million is AAA rated and $\$ 5$ million is AA rated. The collateral held by the funds are generally municipal securities or common and preferred stock of public corporations.

Presently, we are unable to sell the AMPS and we do not believe the auction process for AMPS will be reestablished in the near term, if ever. Until a secondary market for AMPS is established or the AMPS are redeemed by the issuers, we will not be able to liquidate the AMPS and, accordingly, we have classified them as long-term assets.

Issuers of many of the closed-end funds who have issued AMPS have made public announcements of their intent to work toward redeeming the securities and a small portion of the type of security we own have been redeemed by the issuers since the auction process failed. Considering this, and that the AMPS are collateralized and continue to pay dividends, we have not recorded an impairment. We will continue to assess the need to record an impairment on a quarterly basis.

One of the funds of which we own $\$ 5$ million of AMPS has announced its intention to redeem the AMPS at par on May 23, 2008.

Proceeds from the sale of marketable securities were $\$ 2,500,000$ and $\$ 6,500,000$ in the three and six months ended March 29, 2008, respectively, with no gain or loss recorded. We use the specific identification method to determine the cost of securities sold.

Note On January 9, 2007 we acquired the assets of Hom/Ade Foods, Inc., a manufacturer and distributor of biscuits 11 and dumplings sold under the MARY B'S and private label store brands to the supermarket industry. Hom/Ade, headquartered in Pensacola, Florida, had prior annual sales of approximately $\$ 30$ million.

On January 31, 2007 we acquired the assets of Radar Inc., a manufacturer and seller of fig and fruit bars selling its products under the brand DADDY RAY'S. Headquartered and with its manufacturing facility in Moscow Mills, MO (outside of St. Louis), Radar, Inc. had prior annual sales of approximately $\$ 23$ million dollars selling to the retail grocery segment and mass merchandisers, both branded and private label.

These acquisitions are accounted for under the purchase method of accounting, and their operations are included in the consolidated financial statements from their respective acquisition dates.

The allocation of the purchase prices for the Hom/Ade and Radar acquisitions and other acquisitions which were made during the 2007 fiscal year is as follows:

|  | Hom/Ade |  | Radar <br> (in thousands) |  | Other |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Working Capital | $\$$ | 1,410 | $\$$ | 1,284 | $\$$ |
| Property, plant \& equipment |  | 233 | 5,750 | 989 |  |
| Trade Names | 6,220 | 1,960 | 1,442 |  |  |

| Goodwill |  | 476 |  | 1,287 | - |
|  |  | 25,890 | $\$$ | 21,120 | $\$$ |

Included in the purchase price for Hom/Ade is a pre-acquisition contingency which was settled in the first quarter of fiscal year 2008 for approximately $\$ 1.9$ million.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

## Liquidity and Capital Resources

Our current cash balances and cash expected to be provided by future operations are our primary sources of liquidity. We believe that these sources, along with our borrowing capacity, are sufficient to fund future growth and expansion. See Note 10 to these financial statements for a discussion of auction market preferred stock which previously we had considered to be a source of liquidity.

The Company's Board of Directors declared a regular quarterly cash dividend of $\$ .0925$ per share of its common stock payable on April 3, 2008 to shareholders of record as of the close of business on March 17, 2008.

In the three and six months ended March 29, 2008, we purchased and retired 74,025 shares of our common stock at a cost of $\$ 1,836,000$ under a million share buyback authorization approved by the Company's Board of Directors in February 2008.

In the three months ended March 29, 2008 and March 31, 2007, fluctuations in the valuation of the Mexican and Canadian currencies and the resulting translation of the net assets of our Mexican and Canadian subsidiaries caused a decrease of $\$ 95,000$ and an increase of $\$ 88,000$, respectively, in accumulated other comprehensive loss. In the six month periods, there was a decrease of $\$ 146,000$ in fiscal year 2008 and an increase of $\$ 15,000$ in fiscal year 2007.

On January 9, 2007 we acquired the assets of Hom/Ade Foods, Inc., a manufacturer and distributor of biscuits and dumplings sold under the MARY B'S and private label store brands to the supermarket industry. Hom/Ade, headquartered in Pensacola, Florida, had prior annual sales of approximately $\$ 30$ million.

On January 31, 2007 we acquired the assets of Radar Inc., a manufacturer and seller of fig and fruit bars selling its products under the brand DADDY RAY'S. Headquartered and with its manufacturing facility in Moscow Mills, MO (outside of St. Louis), Radar, Inc. had prior annual sales of approximately $\$ 23$ million selling to the retail grocery segment and mass merchandisers, both branded and private label.

On April 2, 2007, we acquired the WHOLE FRUIT Sorbet and FRUIT-A-FREEZE Fruit Bar brands, along with related assets. Selling primarily to the supermarket industry, sales for 2007 were less than $\$ 2.5$ million.

On June 25, 2007, we acquired the assets of an ICEE distributor in Kansas with annual sales of less than $\$ 1$ million.
These acquisitions were accounted for under the purchase method of accounting, and their operations are and will be included in the consolidated financial statements from their respective acquisition dates.

Our general-purpose bank credit line provides for up to a $\$ 50,000,000$ revolving credit facility. The agreement contains restrictive covenants and requires commitment fees in accordance with standard banking practice. There were no outstanding balances under this facility at March 29, 2008.

Results of Operations
Net sales increased $\$ 14,189,000$ or $11 \%$ for the three months to $\$ 144,229,000$ and $\$ 30,945,000$ or $13 \%$ to $\$ 275,127,000$ for the six months ended March 29, 2008 compared to the three and six months ended March 31, 2007. Adjusting for sales related to the acquisitions of Hom/Ade Foods and Radar in January 2007 and FRUIT-A-FREEZE and WHOLE FRUIT in April 2007, sales increased approximately $9 \%$ for the quarter and $5 \%$ for the three months.

## FOOD SERVICE

Sales to food service customers increased $\$ 10,163,000$ or $12 \%$ in the second quarter to $\$ 94,883,000$ and increased $\$ 24,092,000$ or $15 \%$ for the six months. Excluding the benefit of sales from acquisitions, sales increased $9 \%$ for the quarter and $4 \%$ for the six months. Soft pretzel sales to the food service market increased $4 \%$ to $\$ 25,065,000$ in the second quarter and increased $2 \%$ to $\$ 48,759,000$ in the six months. Italian ice and frozen juice treat and dessert sales increased $6 \%$ to $\$ 10,563,000$ in the three months and $6 \%$ to $\$ 18,675,000$ in the six months due almost entirely to sales of WHOLE FRUIT and FRUIT-A-FREEZE. Churro sales to food service customers increased $19 \%$ to $\$ 6,384,000$ in the second quarter and were up $12 \%$ to $\$ 11,927,000$ in the six months, with about $40 \%$ of the second quarter increase coming from sales to one customer. Sales of bakery products, excluding Hom/Ade and DADDY RAY'S, increased $\$ 5,051,000$ or $16 \%$ in the second quarter to $\$ 37,259,000$ and increased $\$ 3,882,000$ or $6 \%$ for the six months due primarily to increased sales to private label customers. The changes in sales throughout the food service segment were from a combination of volume changes and price increases.

## RETAIL SUPERMARKETS

Sales of products to retail supermarkets increased $\$ 1,362,000$ or $12 \%$ to $\$ 13,010,000$ in the second quarter and increased $19 \%$ or $\$ 3,718,000$ in the first half. Soft pretzel sales for the second quarter were up $7 \%$ to $\$ 7,821,000$ and were up $16 \%$ to $\$ 14,978,000$ for the six months. Sales of frozen juices and ices increased $\$ 925,000$ or $19 \%$ to $\$ 5,690,000$ in the second quarter and $27 \%$ to $\$ 9,621,000$ in the first half. The sales increases were due to case volume and price increases.

## THE RESTAURANT GROUP

Sales of our Restaurant Group decreased $46 \%$ to $\$ 384,000$ in the second quarter and $42 \%$ to $\$ 971,000$ for the six month period. The sales decreases were caused primarily by the closing of unprofitable stores over the past year. Sales of stores open for both year's six months were down about $6 \%$ from last year.

## FROZEN BEVERAGES

Frozen beverage and related product sales increased $9 \%$ to $\$ 35,952,000$ in the second quarter and $\$ 3,842,000$ or $6 \%$ to $\$ 66,210,000$ in the six month period. Beverage sales alone increased $3 \%$ to $\$ 21,618,000$ in the second quarter and were up $1 \%$ to $\$ 40,966,000$ in the six months. Gallon sales were down $7 \%$ for the three months and $5 \%$ for the six months in our base ICEE business. Two customers accounted for about one-half of the gallons' decrease in both periods. Service revenue increased $14 \%$ to $\$ 8,807,000$ in the second quarter and $18 \%$ to $\$ 16,894,000$ for the six months with one customer accounting for approximately $60 \%$ of the second quarter revenue increase. Sales of frozen carbonated beverage machines were $\$ 944,000$ higher this year than last in the three month period and for the six months, sales of machines were higher by $\$ 483,000$. Operating income for the six months was impacted by higher fuel costs of over $\$ 800,000$ and by several inventory adjustments totalling over $\$ 900,000$.

## CONSOLIDATED

Gross profit as a percentage of sales decreased to $28.01 \%$ in the three month period from $32.61 \%$ last year and decreased to $27.55 \%$ in the six month period from $31.80 \%$ a year ago. Higher commodity costs in excess of $\$ 13,000,000$ for the six months and $\$ 8,000,000$ for the three months compared to last year were the primary driver causing gross profit percentage to decline. We expect commodity cost increases of this magnitude or possibly more to impact our earnings for our third quarter. We are hopeful, although cautious due to the extreme volatility of the commodities markets, that the year over year increase in commodity costs will begin to decline beginning in our fourth quarter.

Total operating expenses increased $\$ 508,000$ in the second quarter but as a percentage of sales decreased to $24 \%$ from $26 \%$ last year. For the first half, operating expenses increased $\$ 3,446,000$ but as a percentage of sales decreased to $25 \%$ from $26 \%$ last year. Marketing expenses decreased almost 2 full percentage points to $12 \%$ of sales in the quarter and dropped to $12 \%$ of sales from $13 \%$ of sales for the six months. Lower spending in our food service and retail supermarket segments accounted for the decline, with lower advertising expense of about $\$ 1,000,000$ in our retail supermarket segment in the second quarter and $\$ 600,000$ in savings by not having a National Sales meeting this year in the first quarter driving the decline. Distribution expenses were $9 \%$ of sales in all periods and administrative expenses were $4 \%$ of sales in all periods.

Operating income decreased $\$ 2,515,000$ or $31 \%$ to $\$ 5,680,000$ in the second quarter and $\$ 5,314,000$ or $40 \%$ to $\$ 8,016,000$ in the first half.

Investment income increased by $\$ 154,000$ to $\$ 689,000$ in this year's second quarter due to higher levels of investment securities.

The effective income tax rate has been estimated at $37 \%$ for the second quarter this year compared to $39 \%$ for last year's quarter, and at $38 \%$ for both years' six month period. The decrease in the second quarter this year is due to recognition of previously unrecognized tax benefits.

Net earnings decreased $\$ 1,335,000$ or $25 \%$ in the current three month period to $\$ 3,998,000$ and decreased $35 \%$ to $\$ 5,895,000$ in the six months this year from $\$ 9,138,000$ last year.

Item 3.
