NOTE 1 - ORGANIZATION AND PRINCIPAL ACTIVITIES

Kandi Technologies, Corp. (formerly Stone Mountain Resources, Inc.) (the “Company”) was incorporated under the laws of the State of Delaware on March 31, 2004. On June 29, 2007, Stone Mountain Resources, Inc. changed its name to Kandi Technologies, Corp.

On June 29, 2007, pursuant to the share exchange agreement among Stone Mountain Resources, Inc. (“Stone Mountain”), Continental Development Limited, (“Continental”) and Excelvantage (Continental’s sole shareholder), Stone Mountain issued 12,000,000 shares of its common stock to Excelvantage, in exchange for 100% of the common stock of Continental. As a result of the share exchange, Continental became a wholly-owned subsidiary of Stone Mountain. The Company conducts its operations through its wholly owned subsidiary, Zhejiang Kandi Vehicles Co. Ltd., a People’s Republic of China (“PRC”) company.

The exchange transaction was accounted for as a reverse acquisition in accordance with Statements of Financial Accounting Standards (“SFAS”) No. 14 “Business Combinations.” Accordingly, the consolidated statements of income include the results of operations of Kandi Technologies, Inc. from the acquisition date through June 30, 2008.

The Company closed on its acquisition of 100% shares of Kandi Special Vehicles Co., Ltd. (“KSV”) on June 24, 2008. Kandi Special Vehicles Co., Ltd. became a wholly-owned subsidiary of the Company, in accordance with SFAS No. 14 “Business Combinations,” the consolidated statements of income include the result of operations of Kandi Special Vehicle Co., Ltd. from the acquisition date through June 30, 2008.

On May 9, 2008, the Company sold its wholly-owned subsidiary, Zhejiang Yongkang Top Import & Export Co., Ltd. (“Dingji”), to certain individuals. In accordance with SFAS 144, “Accounting for the Impairment or Disposal of Long-Lived Assets,” the results of operations of Dingji as of the disposal date May 9, 2008 are removed from the detail line items to the “discontinued operation” of the Company’s financial statements.

The primary operations of Kandi Technologies, Corp. and subsidiaries is the design, developing, manufacturing, and commercializing of all-terrain vehicles, go-karts, and specialized automobile related products for the People’s Republic of China and global export markets. Sales are made to dealers in Asia, North America, Europe and Australia.

NOTE 2 -BASIS OF PRESENTATION

The unaudited condensed consolidated financial statements as of June 30, 2008 and for the six months ended June 30, 2008 and 2007 of the Company have been prepared in accordance with generally accepted accounting principles for interim financial information and pursuant to the requirements for reporting on Rule 8.03 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. However, such information reflects all adjustments (consisting solely of normal recurring adjustments), which are, in the opinion of management, necessary for the fair presentation of the consolidated financial position and the consolidated results of operations. Results shown for interim periods are not necessarily indicative of the results to be obtained for a full year. The condensed consolidated balance sheet information as of December 31, 2007 was derived from the audited consolidated financial statements included in the Company's Annual Report Form 10-K. These interim condensed consolidated financial statements should be read in conjunction with that report.

NOTE 3 -PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Kandi Technologies, Corp. and the following subsidiaries:

- (i) Continental Development Ltd., ("Continental") (100% subsidiary of the Company)
- (ii) Zhejiang Kandi Vehicles Co. Ltd., ("Kandi") (100% subsidiary of Continental)
- (iii) Zhejiang Yongkong Import and Export Co. Ltd., ("Dingji") (100% subsidiary of Kandi)
(see below)
- (iv) Kandi Special Vehicle Co. Ltd., ("KSV") (100% subsidiary of the Company)

Inter-company accounts and transactions have been eliminated in consolidation.

As of May 9, 2008, Dingji was sold and is presented in the financial statements as a Discontinued Operation. See Note 19.

NOTE 4 -USE OF ESTIMATES

The preparation of the unaudited condensed consolidated financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods.

Management makes these estimates using the best information available at the time the estimates are made. Actual results could differ materially from those estimates.

NOTE 6—FOREIGN CURRENCY TRANSLATION

The accompanying condensed consolidated financial statements are presented in United States dollars. The functional currency of the Company is the Renminbi (RMB). The condensed consolidated financial statements are translated into United States dollars from RMB at period end exchange rates as to assets and liabilities and average exchange rates as to revenues and expenses. Capital accounts are translated into United States dollars from RMB at their historical exchange rates when the capital transactions occurred.

NOTE 7 -EARNINGS PER SHARE

Basic earnings per share are computed by dividing income available to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. There were no potentially dilutive securities for the six month ended June 30, 2008 and 2007.

NOTE 8 -FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial instruments include cash and cash equivalents, restricted cash, accounts receivable, notes receivable, prepayments and prepaid expenses, other receivables due from employees, accounts payable due to employees and to related parties, other payables and accrued liabilities, notes payable, short-term bank loans, and customer deposits. Management has estimated that the carrying amount approximates fair value due to their short-term nature.

NOTE 9 -NEW ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB issued SFAS No. 141 (R), Business Combinations, and SFAS No.160, Non-controlling Interests in Consolidated Financial Statements. SFAS No. 141 (R) requires an acquirer to measure the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree at their fair values on the acquisition date, with goodwill being the excess value over the net identifiable assets acquired. SFAS No.160 clarifies that a non-controlling interest in a subsidiary should be reported as equity in the consolidated financial statement. The calculation of earnings per share will continue to be based on income amounts attributable to the parent. SFAS No.141 (R) and SFAS No.160 are effective for financial statements issued for fiscal years beginning after December 15, 2008. Early adoption is prohibited. We have not yet determined the effect on our consolidated financial statements, if any, upon adoption of SFAS No.141 (R) or SFAS No. 160. We are aware that our accounting for minority interest will change and we are considering those effects now but believe the effects will only be a reclassification of minority interest from mezzanine equity to our stockholder's equity section in the balance sheet, in any case we do not believe the implementation of SFAS 160 will be material to our financial position, SFAS 141(R) will significantly affect the accounting for future business combinations and we will determine the accounting as new combinations are determined.

NOTE 9 –NEW ACCOUNTING PRONOUNCEMENTS (CONTINUED)

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements. This Statement establishes accounting and reporting standards that require the ownership interests in subsidiaries' non-parent owners be clearly presented in the equity section of the balance sheet; requires the amount of consolidated net income attributable to the parent and to the noncontrolling interest be clearly identified and presented on the face of the consolidated statement of income; requires that changes in a parent's ownership interest while the parent retains its controlling financial interest in its subsidiary be accounted for consistently; requires that when a subsidiary is deconsolidated, any retained noncontrolling equity investment in the former subsidiary be initially measured at fair value and the gain or loss on the deconsolidation of the subsidiary be measured using the fair value of any noncontrolling equity; requires that entities provide disclosures that clearly identify the interests of the parent and the interests of the noncontrolling owners. This Statement is effective as of the beginning of an entity's first fiscal year that begins after December 15, 2008. The Company has not determined the impact, if any, SFAS No. 160 will have on its financial statements.

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities" ("SFAS No. 161"), which amends SFAS No.133 and expands disclosures to include information about the fair value of derivatives, related credit risks and a company's strategies and objectives for using derivatives. SFAS No. 161 is effective for fiscal periods beginning on or after November 15, 2008. The Company is currently in the process of assessing the impact that SFAS No. 161 will have on the disclosures in its financial statements.

NOTE 16 -INCOME TAXES

(a) Corporation Income Tax (“CIT”)

Effective January 1, 2007, the Company adopted Financial Accounting Standards Board (“FASB”) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (“FIN 48”), an interpretation of FASB statement No. 109, Accounting for Income Taxes. The interpretation addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements.

Under FIN 48, we may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. FIN 48 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. As of June 30, 2008, the Company does not have a liability for unrecognized tax benefits. The Company files income tax returns in the U.S. federal jurisdiction and various states. The Company is subject to U.S. federal or state income tax examinations by tax authorities for years after 2005. During the periods open to examination, the Company has net operating loss and tax credit carry forwards for U.S. federal and state tax purposes that have attributes from close June 30, 2008 the Company was not aware of any pending income tax examinations by China tax authorities. The Company's policy is to record interest and penalties on uncertain tax provisions as income tax expense. As of June 30, 2008, the Company has no accrued interest or penalties related to uncertain tax positions.

On March 16, 2007, the National People’s Congress of China approved the Corporate Income Tax Law of the People’s Republic of China (the “new CIT law”), which went into effect on January 1, 2008. In accordance with the relevant tax laws and regulations of PRC, the applicable corporate income tax rate of the Company is 33%. However, according to certain rules in the tax laws, from the time that the Company has its first profitable tax year, a foreign-invested company is exempt from corporate income tax for the following two years of operations and is then entitled to a 50% tax reduction for the succeeding three years. The Company’s first profitable year for income tax purposes as a foreign-invested company was 2007. Dingji is a subsidiary of the Company and its applicable corporate income tax rate is 33%.

Revenues. For the three months ended June 30, 2008, our revenues increased approximately 12% from \$11,109,555 to \$12,424,373 relative to the same period ended June 30, 2007. The increase in revenues is attributable to increased sales of our go-karts.

Cost of Sales. Cost of sales increased from \$8,468,179 for the three months ended June 30, 2007 to \$9,139,131, or approximately 8%, for the same period in 2008. In terms of cost of sales as a percentage of net revenues, our cost of sales for this quarter in 2008 was approximately 74% of net revenues as compared to approximately 76% of net revenues for the same quarter in 2007. The main reason for the improvement in cost of sales was due to tighter cost controls and discounts obtained in raw materials because of the increase in purchase volume as sales increased.

Gross Profit. Gross profit increased approximately 24% from \$2,641,376 for the three months ended June 30, 2007 to \$3,285,242 for the three months ended June 30, 2008. This increase in gross profit was primarily due to the increased revenues and reduction in cost of sales.

Selling and Marketing Expenses. For the three months ended June 30, 2008, selling and marketing expenses increased approximately 67.6% from \$107,756 to \$180,596 relative to the three months ended June 30, 2007. The increase was primarily due to the expansion of our sales department.

General and Administrative Expenses. For the three months ended June 30, 2008, general and administrative expenses increased approximately 204% from \$142,060 to \$432,238 relative to the three months ended June 30, 2007. The increase was primarily due to the expansion of our admin department.

Research and Development Expenses. For the three months ended June 30, 2008, research and development expenses increased approximately 450% from \$40,749 to \$224,146 relative to the three months ended June 30, 2007. The increase is attributable to the expenses incurred in conjunction with the launch of our three wheeled motorcycle.

Discontinued Operation. For the three months ended June 30, 2008, discontinued operations income increased approximately 257% from \$(212,568) to \$334,030. Dingji was sold to certain individuals as of May 9, 2008. See Note 19.

Income Tax Provision. On March 16, 2007, the National People's Congress of the PRC adopted a new corporate income tax law in its fifth plenary session. The new corporate income tax law unifies the application, scope, tax rate, tax deduction and preferential policy for both domestic and foreign-invested enterprises. The new corporate income tax law became effective on January 1, 2008. Under the new law, the Company had a tax benefit of \$33,920 for the three months ended June 30, 2008, compared to a tax expenses of \$NIL for the same period of 2007.

Net Income. Net income increased approximately 28% from \$1,907,052 for the three months ended June 30, 2007 to \$2,436,451 for the three months ended June 30, 2008. This increase in net income was due primarily to the increase in both our revenues and gross profits.

Liquidity and Capital Resources

Cash Flows

Six Months ended June 30, 2008 and 2007

Net cash flow provided by operating activities was \$4,478,605 for the six months ended June 30, 2008 as compared to \$907,525 in cash flow used in operating activities in the same period of 2007. The increase of net cash flow provided in operating activities was mainly due to increased sales, the collection of outstanding loans and cash inflows generated by incremental operations.

Edgar Filing: Kandi Technologies Corp - Form 10-Q

Net cash flow used in investing activities was \$8,207,710 for the six months ended June 30, 2008 as compared to \$3,603,422 in the same period of 2007. Uses of cash flow for investing activities off set in the six months period ended June 30, 2008 included the construction of manufacturing facilities, the purchase of associated machinery and equipment, and repayment of notes receivables.

30

Net cash flow provided by financing activities was \$3,239,843 in the six months ended June 30, 2008, as compared to \$3,688,499 in the same period of 2007. The net cash flow provided by financing activities was mainly due to the collection of loan payments and interest owed to the Company for the six months ended June 30, 2008 and 2007.

Working Capital

Our working capital was \$(10,256,613) at June 30, 2008, as compared to \$294,624 at December 31, 2007. The decrease in working capital at June 30, 2008 was mainly attributed to the completed acquisition of Kandi Special Vehicles Ltd. ("KSV") on June 24, 2008. As a result, KSV is now a wholly-owned subsidiary of the Company with assets that include PRC land rights.

The Company currently generates its cash flow through operations and the Company believes that its cash flow generated from operations will be sufficient to sustain operations for the next twelve months. Also, from time to time, the Company may require extra funding through financing activities and investments for expansion.

Accounting Policies

Revenue Recognition

Revenue represents the invoiced value of goods sold, recognized upon the shipment of goods to customers. Revenue is recognized when all of the following criteria are met:

- Persuasive evidence of an arrangement exists;
- Delivery has occurred or services have been rendered;
- The seller's price to the buyer is fixed or determinable; and
- Collectibility is reasonably assured.

Use of Estimates

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods.

Management makes these estimates using the best information available at the time the estimates are made. Actual results could differ materially from those estimates.

Fair Value of Financial Instruments

The Company's financial instruments include cash and cash equivalents, restricted cash, accounts receivable, notes receivable due from related parties, prepayments and prepaid expenses, other receivables due from employees, accounts payable due to employees, other payables and accrued liabilities, notes payable, short-term bank loans, and customer deposits. Management has estimated that the carrying amount approximates fair value due to their short-term nature.

Recent Accounting Pronouncements

In December 2007, the FASB issued SFAS No. 141 (R), Business Combinations, and SFAS No.160, Non-controlling Interests in Consolidated Financial Statements. SFAS No. 141 (R) requires an acquirer to measure the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquire at their fair values on the acquisition date, with goodwill being the excess value over the net identifiable assets acquired. SFAS No.160 clarifies that a non-controlling interest in a subsidiary should be reported as equity in the consolidated financial statement. The calculation of earnings per share will continue to be based on income amounts attributable to the parent. SFAS No.141 (R) and SFAS No.160 are effective for financial statements issued for fiscal years beginning after December 15, 2008. Early adoption is prohibited. We have not yet determined the effect on our consolidated financial statements, if any, upon adoption of SFAS No.141 (R) or SFAS No. 160. We are aware that our accounting for minority interest will change and we are considering those effects now but believe the effects will only be a reclassification of minority interest from mezzanine equity to our stockholder's equity section in the balance sheet, in any case we do not believe the implementation of SFAS 160 will be material to our financial position, SFAS 141(R) will significantly affect the accounting for future business combinations and we will determine the accounting as new combinations are determined.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements. This Statement establishes accounting and reporting standards that require the ownership interests in subsidiaries' non-parent owners be clearly presented in the equity section of the balance sheet; requires the amount of consolidated net income attributable to the parent and to the noncontrolling interest be clearly identified and presented on the face of the consolidated statement of income; requires that changes in a parent's ownership interest while the parent retains its controlling financial interest in its subsidiary be accounted for consistently; requires that when a subsidiary is deconsolidated, any retained noncontrolling equity investment in the former subsidiary be initially measured at fair value and the gain or loss on the deconsolidation of the subsidiary be measured using the fair value of any noncontrolling equity; requires that entities provide disclosures that clearly identify the interests of the parent and the interests of the noncontrolling owners. This Statement is effective as of the beginning of an entity's first fiscal year that begins after December 15, 2008. The Company has not determined the impact, if any, SFAS No. 160 will have on its financial statements.

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities" ("SFAS No. 161"), which amends SFAS No.133 and expands disclosures to include information about the fair value of derivatives, related credit risks and a company's strategies and objectives for using derivatives. SFAS No. 161 is effective for fiscal periods beginning on or after November 15, 2008. The Company is currently in the process of assessing the impact that SFAS No. 161 will have on the disclosures in its financial statements.

Item 4T. Controls and Procedures.

The Company maintains a system of disclosure controls and procedures that is designed to ensure that information required to be disclosed by the Company in this Form 10-Q, and in other reports required to be filed under the Securities Exchange Act of 1934 (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the rules and forms for such filings. Management of the Company, under the direction of the Company's Chief Executive Officer and Chief Financial Officer, reviewed and performed an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15a(e) and 15d-15(e) under the Exchange Act) as of June 30, 2008. Based on that review and evaluation, the Chief Executive Officer and Chief Financial Officer, along with other key management of the Company, have determined that the disclosure controls and procedures were and are effective as designed to ensure that material information relating to the Company and its consolidated subsidiaries required to be disclosed by the Company by the Exchange Act, was recorded, processed, summarized and reported within the applicable time periods.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Securities Exchange Act of 1934. Under the supervision and with the participation of our management, including the principal executive officer and principal financial officer, we are conducting an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Prior to July 2007, the Company was a reporting shell company with no operations. In July 2007, as a result of the Exchange Agreement, the Company acquired Zhejiang Kandi Vehicles Co., Ltd. The operations of Zhejiang Kandi Vehicles Co., Ltd. represent primarily all the operations of the Company on a consolidated basis and is excluded from management's assessment of internal control over financial reporting. Due to the recent nature of the acquisition, it was not feasible for the Company to complete its review and assessment. The Company expects to complete the review of its internal control over financial reporting in 2008.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

There were no changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal controls over financial reporting that occurred during the second quarter of fiscal 2008 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
