From time to time we have been approached on a unsolicited basis by persons interesting in buying all or part of our existing operations and have engaged in discussions with them, none of which have led to an agreement. Additionally, we have held discussions with targets, including Gilman Ciocia, Inc. (“Gilman”) whom we acquired in October 2013. Our management and Board of Directors will continue to act to enhance stockholder value, while continuing to serve our clients’ needs.

Our fiscal 2013 was a year of change, progress and profitability. We completed two significant capital raises, simplified our capitalization structure, signed a strategic merger agreement with Gilman Ciocia, implemented a cost reduction program and initiated a revenue growth program. As a result of these efforts, we generated annual revenue growth of 8% to \$127.6 million compared to fiscal 2012, net income of \$1.6 million versus a loss in fiscal 2012 and a 173% increase in Adjusted EBITDA to \$4.1 million compared to fiscal 2012. As we move forward in fiscal 2014 and integrate the Gilman business into us (which integration is ahead of schedule), we have built on our momentum from the prior year's achievements of strengthening the balance sheet, simplifying the capital structure, improving margins and controlling fixed costs across all key business areas, with a strong focus on profitability. As we reported in mid-February, we enjoyed strong fiscal first quarter 2014 operating results: revenue of \$41.8 million which reflected a growth rate of 58% compared to the fiscal quarter of 2013, net income of \$0.7 million and Adjusted EBITDA of \$1.7 million. We have now recorded eight consecutive quarters of positive Adjusted EBITDA as well as four consecutive quarters of net income.

We are one of the leading independent full service brokerage firms and expect to continue to generate consistent profitability and drive value for our stockholders. We have more than 800 registered representatives combined with a diverse portfolio of financial products and services and we are well positioned to meet the needs of our retail and institutional clients.

BACKGROUND OF THE SOLICITATION

On January 31, 2013 and August 29, 2013, Iroquois and certain of its affiliates purchased shares of Common Stock from the Company in private placement transactions.

On September 23, 2013, Iroquois filed a Schedule 13G with respect to its ownership of shares of Common Stock.

On November 21, 2013, Iroquois filed a Schedule 13D (converting from a Schedule 13G) with respect to its ownership of shares of Common Stock and disclosed that it may have meetings or conversations with the Company and its management, members of the Company's Board, other stockholders and other persons, including potential strategic partners and others in the Company's industry, to discuss matters related to the Company, including transactions the Company could consider that may enhance or maximize stockholder value. Furthermore, by converting to a Schedule 13D, Iroquois indicated that it may, among other things, increase its ownership stake in the Company, influence control of the Company, and seek to have the Company undertake a change in control or other extraordinary transaction. Prior to filing the Schedule 13D with the SEC, Joshua Silverman and Richard Abbe, the founding members of Iroquois, called Mark D. Klein, Chief Executive Officer and Co-Executive Chairman of National, informing him that Iroquois was going to file a Schedule 13D. During this conversion, Messrs. Silverman and Abbe told Mr. Klein that such filing should not be viewed as a hostile act by Iroquois.

Over the course of Iroquois' accumulation of shares of Common Stock, the Company had several conversations with Iroquois in the normal course of the Company's investor relations activities.

In early December 2013, Mark Goldwasser, President of National, met with Messrs. Silverman and Abbe at Iroquois' office during which Mr. Goldwasser discussed National's business.

On December 9, 2013, Mr. Klein and Robert B. Fagenson, Co-Executive Chairman of National, met with Mr. Silverman at Mr. Klein's office during which Messrs. Klein and Fagenson discussed with Messrs. Silverman and Abbe their vision for the Company as it related to growth in revenues, profitability and value. Additionally, Messrs. Silverman and Abbe noted the recent merger and acquisition activity in the Company's industry.

On December 14, 2014, Mr. Goldwasser spoke with Messrs. Silverman and Abbe about National's business at a social event.

On January 9, 2014, Iroquois sent a proposed press release to National which provided, among other things, that National should commence a sale process. The press release was never issued by Iroquois.

On January 14, 2014, Messrs. Klein and Fagenson met at Iroquois' office with Messrs. Silverman and Abbe. During the course of the meeting, Messrs. Silverman and Abbe expressed their view that National should commence a sale process. Messrs. Klein and Fagenson asked if Iroquois would consider executing a confidentiality agreement so that National would not be subject to the legal restraints that currently prevent it from having a broader discussion with Iroquois. Iroquois declined to execute a confidentiality agreement. Messrs. Klein and Fagenson told Messrs. Silverman and Abbe the Board of National always acts in the best interests of all of National's stockholders and always looks to maximize stockholder value. Messrs. Klein and Fagenson thanked Messrs. Silverman and Abbe for their

continued interest in the Company.

On February 7, 2014, the Company received a notice from Iroquois, expressing that it may nominate three alternative candidates to stand for election to the Board of Directors at the Annual Meeting.

On February 7, 2014, Messrs. Klein and Fagenson had a conference call with Messrs. Silverman and Abbe during which the three alternative candidates for directors proposed by Iroquois were discussed. Messrs. Klein and Fagenson then indicated that they would take this discussion under advisement and would discuss these candidates with the full Board of Directors.

During the period from February 11, 2014 through February 23, 2014, Messrs. Klein and Fagenson had three telephone conversations with Messrs. Silverman and Abbe during which the contents of their Schedule 13D and the three alternative board candidates were discussed.

On March 6, 2014, Iroquois sent a letter to the Company and also issued a press release relating to, among other things, its nomination of directors.

On March 6, 2014, the full Board of Directors of National carefully considered the three individuals proposed for nomination by Iroquois, including all background information provided, and decided against including any such individuals in its slate of nominees for election at the upcoming annual meeting.

On March 7, 2014, Messrs. Klein and Fagenson had a conference call with Messrs. Silverman and Abbe during which the contents of the letter that Iroquois sent to the Board on March 6, 2014 and the press release that Iroquois issued on March 6, 2014 were discussed. During the discussion, Messrs. Klein and Fagenson reiterated the Company's strong financial performance and highlighted certain inaccuracies in the both the letter and the press release.

On March 10, 2014, National filed the preliminary form of their Proxy Statement with the SEC.

THE BOARD OF DIRECTORS STRONGLY URGES YOU NOT TO SIGN OR RETURN ANY [COLOR] PROXY CARD OR VOTING INSTRUCTION FORM THAT YOU MAY RECEIVE FROM IROQUOIS.

PROPOSAL 1 ELECTION OF DIRECTORS

Our Board of Directors currently consists of eleven (11) members and is divided into three (3) classes, one class of which is elected at each Annual Meeting of Stockholders to hold office for a three-year term and until successors of such class have been elected and qualified. The nominees to serve as class I directors of the Board of Directors are set forth below and each has consented to being named in this proxy statement and has agreed to serve if elected. In the event that a nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee who shall be designated by the present Board of Directors to fill the vacancy.

The Board of Directors has no reason to believe that any of the nominees for director will not be available to stand for election as a director. However, if some unexpected occurrence should require the substitution of some other person or persons for any one or more of the nominees, proxies may be voted for such substitute nominee or nominees as the Board of Directors may designate.

As noted elsewhere in this Proxy Statement, Iroquois has announced that it may nominate three nominees for election as class I directors at the Annual Meeting in opposition to certain of the nominees by our Board of Directors. Our Board does not endorse the election of any of Iroquois's nominees. While we do not know whether Iroquois will in fact solicit proxies or nominate persons for election as class I directors at the Annual Meeting, you may receive an opposing proxy statement and **[color]** proxy card and letters or other proxy solicitation materials from Iroquois or other persons or entities affiliated with Iroquois. Please be advised that we are not responsible for the accuracy of any information provided by or relating to Iroquois or its nominees contained in any proxy solicitation materials filed or disseminated by or on behalf of Iroquois or any other statements that Iroquois or its representatives may make.

We urge you to disregard any [color] proxy card or voting instruction form that you may receive from Iroquois and to sign and return only the **WHITE** Company proxy card that you receive from us. Even a “withhold” vote with respect to Iroquois’ nominees on its [color] proxy card will cancel any proxy previously given to the Company. If you previously signed a [color] proxy card sent to you by Iroquois, you can revoke that proxy and vote for the Board’s nominees on the **WHITE** proxy card as described above. Only your latest dated proxy will be counted.

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE “FOR” EACH OF THE DIRECTOR NOMINEES LISTED BELOW

Arrangements for Nominations to the Board

Mr. Plimpton was elected to the Board of Directors in 2010 pursuant to the terms of a Share Purchase Agreement dated July 21, 2010. Under the terms of the agreement, the Company agreed to take all actions necessary to appoint Mr. Plimpton as a member of the Board of Directors. Furthermore, Mr. Plimpton cannot be removed as a director of the Company by the Board other than as permitted by law. Mr. Plimpton has been an active participant in all material strategic discussions between the Company and potential buyers of the Company's business or potential targets.

Corporate Governance

The Company's business affairs are conducted under the direction of the Board of Directors in accordance with the Delaware General Corporation Law and the Company's Certificate of Incorporation and Bylaws. Members of the Board of Directors are informed of the Company's business through discussions with management, by reviewing materials provided to them and by participating in meetings of the Board of Directors and its committees. Certain corporate governance practices that the Company follows are summarized below.

Board Leadership Structure

The Board recognizes that one of its key responsibilities is to evaluate and determine its optimal leadership structure so as to provide independent oversight of management. The Board understands that there is no single, generally accepted approach to providing Board leadership and the right Board leadership structure may vary as circumstances warrant.

Since July 2012, Mark D. Klein and Robert B. Fagenson have each served as Executive Co-Chairman of the Board of the Company and as of January 25, 2013, Mr. Klein has also served as Chief Executive Officer. Messrs. Klein and Fagenson are involved in the Company's day-to-day operations and the strategic decision making at the Board level. Based on its most recent review of the Company's leadership structure, the Board continues to believe that this leadership structure is optimal for the Company because it provides the Company with strong and consistent leadership. The Board believes that having Messrs. Klein and Fagenson serving in these positions provides the Company with decisive and effective leadership.

In considering its leadership structure, the Board has taken a number of factors into account. A number of Board and committee processes and procedures, including regular executive sessions of non-management Directors and a regular review of the Company's and our executive officers' performance, provide substantial independent oversight of the Company's management's performance. The Board has the ability to change its structure, should that be deemed appropriate and in the best interest of the Company and its stockholders.

The Executive Co-Chairmen of the Board preside at all meetings of the stockholders and of the Board as a whole. The Executive Co-Chairmen perform such other duties, and exercise such powers, as from time to time shall be prescribed by the Company's Board of Directors.

Risk Oversight

Assessing and managing risk is the responsibility of our management. The Board of Directors oversees and reviews certain aspects of the Company's risk management efforts. The Board of Directors is involved in risk oversight through direct decision-making authority with respect to significant matters and the oversight of management by the Board of Directors and its committees. Among other areas, the Board is directly involved in overseeing risks related to the Company's overall strategy, including product, go-to-market and sales strategy, executive officer succession, business continuity, crisis preparedness and corporate reputational risks.

The committees of the Board execute their oversight responsibility for risk management as follows:

The Audit Committee has responsibility for overseeing the Company's internal financial and accounting controls, work performed by the Company's independent registered public accounting firm and the Company's internal audit function. As part of its oversight function, the Audit Committee regularly discusses with management and the Company's independent registered public accounting firm the Company's major financial and controls-related risk exposures and steps that management has taken to monitor and control such exposures. In addition, the Company, under the supervision of the Audit Committee, has established procedures available to all employees for the anonymous and confidential submission of complaints relating to any matter to encourage employees to report questionable activities directly to the Company's senior management and the Audit Committee.

The Compensation Committee is responsible for overseeing risks related to the Company's cash and equity-based compensation programs and practices.

The Corporate Governance Committee is responsible for overseeing risks related the Company's corporate governance. In this regard, the Corporate Governance Committee reviews transactions between the Company and its officers, directors, affiliates of officers and directors or other related parties for conflicts of interest.

The Nominating Committee is responsible for overseeing risks related to the composition and structure of the Board of Directors and its committees. In this regard the Nominating Committee conducts an annual evaluation of the Board and its committees, plans for Board member succession and executive officer succession plans.

Code of Ethics and Business Conduct

We have adopted the National Holdings Corporation Code of Ethics and Business Conduct (the "Code of Conduct"), a code of conduct that applies to our directors, officers and employees. The Code of Conduct was filed as an exhibit to our Annual Report on Form 10-K for the fiscal year ended September 30, 2003, and is publicly available on the SEC's website at www.sec.gov. If we make any substantive amendments to the Code of Conduct or grant any waiver, including any implicit waiver from a provision of the Code of Conduct to our directors or executive officers, we will disclose the nature of such amendment or waiver in a report on Form 8-K.

Independence

We are currently not listed on any national securities exchange, but in evaluating the independence of our directors, we have applied the independence standards of The Nasdaq Stock Market and those found in the Exchange Act. Under those standards, the Board of Directors has determined that all of the members of the current Board of Directors are independent except Messrs. Goldwasser, Sokolow, Klein, Fagenson and Ciocia.

Under SEC rules, companies are required to disclose whether their audit committees have an "audit committee financial expert" as defined in Item 407(d) of Regulation S-K under the Exchange Act. The Board of Directors has determined that Salvatore Giardina is a financial expert. The Audit Committee meets quarterly and on an on-needed basis. The Audit Committee met 9 times during the year ended September 30, 2013.

The Audit Committee has submitted the following report:

The Audit Committee reviewed the Company's audited financial statements as of and for the fiscal year ended September 30, 2013, with management and the Company's independent public accountants, RBSM LLP ("RBSM"). This review included the matters required to be discussed by Statement on Auditing Standards No. 61, "Communication with Audit Committees", as issued and amended by the Auditing Standards Board of the American Institute of Certified Public Accountants. The Audit Committee discussed with RBSM their independence from management and from the Company, and has received the written disclosures and the letter required by Independent Standards Board Standard No. 1, as adopted by the Public Company Accounting Oversight Board in Rule 3600T from RBSM confirming their independence.

Based on the above review and discussions, the Audit Committee recommended to the Board of Directors that the audited financial statements as of and for the fiscal year ended September 30, 2013, be included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2013.

During the two years ended September 30, 2012 and 2011 and through February 4, 2013, the Company did not consult with RBSM with respect to any of (i) the application of accounting principles to a specified transaction, either completed or proposed; (ii) the type of audit opinion that might be rendered on the Company's financial statements; or (iii) any matter that was either the subject of a disagreement (as defined in Item 304(a)(1)(iv) of Regulation S-K) or an event of the type described in Item 304(a)(1)(v) of Regulation S-K.

Audit Fees. Fees for services performed by RBSM during fiscal year 2013 relating to the audit of our consolidated annual financial statements, and the review of our consolidated quarterly financial statements included in our Forms 10-Q were approximately \$210,000. Fees for services performed by Sherb during fiscal year 2012 relating to the audit of our consolidated annual financial statements, and the review of our consolidated quarterly financial statements included in our Forms 10-Q were approximately \$225,000.

Audit-Related Fees. “Audit-related fees” include fees billed for assurance and related services that are reasonably related to the performance of the audit and not included in the “audit fees” mentioned above. There were no such fees paid in fiscal years 2012 or 2011.

Tax Fees. The fees billed in fiscal years 2013 and 2012 for tax compliance, tax advice or tax planning amounted to \$76,000 and \$58,000, respectively.

All Other Fees. There were no other fees paid.

Pre-Approval Policies. Pursuant to the rules and regulations of the SEC, before the Company’s independent public accountant is engaged to render audit or non-audit services, the engagement must be approved by the Company’s audit committee or entered into pursuant to the committee’s pre-approval policies and procedures. The policy granting pre-approval to certain specific audit and audit-related services and specifying the procedures for pre-approving other services is set forth in the Amended and Restated Charter of the Audit Committee. No representatives of Sherb are expected to attend the Annual Meeting, so stockholders will not have any opportunity to ask Sherb questions at the meeting.

PROPOSAL 2

TO APPROVE THE AMENDMENT TO OUR CERTIFICATE OF INCORPORATION TO INCREASE THE TOTAL NUMBER OF AUTHORIZED SHARES OF COMMON STOCK FROM 150,000,000 TO 250,000,000.

Background and Reasons For the Increase in Authorized Shares

Our certificate of incorporation currently provides for authorized capital stock consisting of 150,000,000 shares of Common Stock, par value \$0.02 per share, and 10,000,000 shares of preferred stock, par value \$0.02 per share, 50,000 of which has been designated as Series A Preferred Stock, 34,500 of which have been designated as Series C Preferred Stock, 100,000 of which have been designated as Series D Preferred Stock and 200,000 of which have been designated as Series E Preferred Stock. As of the Record Date, we had (1) 123,246,888 shares of Common Stock issued and outstanding, and had reserved an additional (i) 896,755 shares of Common Stock for issuance upon exercise of outstanding warrants, and (ii) 16,500,000 shares of Common Stock for issuance under our 2013 Omnibus Incentive Plan, 12,300,000 of which are reserved for outstanding options and 1,243,633 of which are reserved for outstanding restricted stock units, and (2) no shares of Preferred Stock issued and outstanding. We issued a significant number of shares of Common Stock in connection with our restructuring and recapitalization in fiscal year 2013 and

our acquisition of Gilman in the beginning of fiscal year 2014.

Our stockholders are being asked to approve an amendment to our certificate of incorporation to increase the total number of shares of Common Stock that we are authorized to issue from 150,000,000 shares to 250,000,000 shares. The additional shares of Common Stock for which authorization is sought would be part of the existing class of Common Stock and, if and when issued, would have the same rights and privileges as the shares of Common Stock presently outstanding. Such additional shares would not (and the shares of Common Stock presently outstanding do not) entitle the holders thereof to preemptive or cumulative voting rights. The number of authorized shares of our preferred stock will not be affected by this amendment to our certificate of incorporation and will be maintained at 10,000,000 shares.

Our board of directors has determined that it is advisable and in the best interest of the Company's stockholders for the Company to amend its certificate of incorporation to increase the total number of authorized shares of Common Stock from 150,000,000 to 250,000,000 shares. Accordingly, on March 6, 2014, our Board of Directors approved an amendment to our certificate of incorporation in substantially the form attached hereto as **Appendix A**, subject to stockholder approval, and directed that this amendment be submitted to a vote of our stockholders.

Our board of directors believes that the number of shares of Common Stock presently available for future issuance under our certificate of incorporation is insufficient to provide us with flexibility in issuing shares for future corporate purposes and has therefore proposed to increase the number of authorized shares to ensure that we have such flexibility, without further stockholder approval, except as may be required by any federal or state law, regulation or stock exchange rules. We may issue shares in the future in connection with, among other things, public or private stock offerings, acquisitions, equity incentives for employees, strategic investments, partnerships and similar transactions and payments of stock dividends, stock splits or other recapitalizations, or for any other corporate purposes. We do not have any current plans, intentions, commitments, arrangements, understanding or agreements, either oral or written, with respect to issuances of the additional authorized shares.

The additional shares of Common Stock being authorized by this amendment to our certificate of incorporation may be issued at times and under circumstances as to have a dilutive effect on earnings per share, book value per share or the percentage ownership interest of the present holders of our Common Stock, none of whom have preemptive rights under our certificate of incorporation to subscribe for additional securities that we may issue.

Anti-Takeover Effects

The proposed amendment to our certificate of incorporation to increase the number of our authorized shares of Common Stock could, under certain circumstances, have an anti-takeover effect. Our ability to issue additional shares could be used to thwart persons, or otherwise dilute the stock ownership of stockholders seeking to control the Company. The Board of Directors is not aware of any attempt to take control of the Company and the Board of Directors has not presented this proposal with the intent that it be utilized as a type of anti-takeover device.

No Dissenters' or Appraisal Rights

Under the Delaware General Corporation Law, stockholders will not be entitled to appraisal rights with respect to the proposed amendment to our certificate of incorporation to increase the number of our authorized shares of Common Stock, and we do not intend to independently provide stockholders with any such right.

Vote Required

The affirmative vote of the holders of a majority of the shares of the Common Stock issued and outstanding and entitled to vote is required to approve the amendment of our certificate of incorporation to increase the number of authorized shares of Common Stock from 150,000,000 to 250,000,000. Abstentions and “broker non-votes” will not be counted as having been voted on the proposals, and therefore will have the same effect as negative votes. The proposed amendment to our certificate of incorporation will become effective on the date such amendment is filed with the Secretary of State of the State of Delaware, which the Company anticipates doing as soon as practicable following approval of this proposal.

Unless required by law or any other stock exchange on which our Common Stock may in the future be listed, no further vote by the stockholders will be sought with respect to any issuance of shares of our Common Stock.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS VOTING “FOR” THE ADOPTION OF PROPOSAL TWO TO APPROVE THE AMENDMENT TO OUR CERTIFICATE OF INCORPORATION TO INCREASE THE TOTAL NUMBER OF AUTHORIZED SHARES OF COMMON STOCK FROM 100,000,000 SHARES TO 250,000,000 SHARES.

PROPOSAL 3

TO APPROVE THE AMENDMENT TO OUR CERTIFICATE OF INCORPORATION TO EFFECT A REVERSE STOCK SPLIT OF THE SHARES OF COMMON STOCK.

The Company’s Board of Directors has adopted a resolution approving and recommending to the Company’s stockholders for their approval a proposal to amend its certificate of incorporation to effect a reverse split of our outstanding shares of Common Stock within a range of one share of Common Stock for every eight shares of Common Stock to one share of Common Stock for every twenty shares of Common Stock, with the exact reverse split ratio to be decided and publicly announced by the Board of Directors prior to the effective time of the reverse stock split amendment. If the stockholders approve this Proposal No. 3, the Board of Directors will have the authority to decide, at any time prior to twelve months after the date of the Annual Meeting, whether to implement the reverse stock split and the precise ratio of the reverse stock split within a range of one-for-eight shares of our Common Stock to one-for-twenty shares of our Common Stock. If the Board of Directors decides to implement the reverse stock split,

the reverse stock split will become effective upon the filing of an amendment to our certificate of incorporation with the Secretary of State of the State of Delaware (“Reverse Split Amendment”).

If the stockholders approve this Proposal 3, the Board of Directors would carry out the reverse stock split only upon the Board of Directors’ determination that the reverse stock split would be in the best interests of the stockholders at that time. The Board of Directors believes that it is in the best interests of our stockholders for the Board of Directors to obtain the discretionary authority to implement a reverse stocks split in order to uplist to a national securities exchange such as the Nasdaq Stock Market or the New York Stock Exchange. An uplisting could make our Common Stock more attractive to a broader range of institutional and other investors. Many brokerage houses and institutional investors have adopted internal policies and practices that either prohibit or discourage them from investing in low-priced stocks or recommending such stocks to their customers because of the trading volatility often associated with such stocks.

The Board of Directors reserves the right, even after stockholder approval, to abandon or postpone the filing of the Reverse Split Amendment if the Board of Directors determines that it is not in the best interests of the Company and the stockholders. If the amendment effecting the reverse stock split proposal approved by the stockholders is not implemented by the Board of Directors within twelve months from the Annual Meeting, the proposal will be deemed abandoned, without any further effect. In that case, the Board of Directors may again seek stockholder approval at a future date for a reverse stock split if it deems a reverse stock split to be advisable at that time.

The form of the Reverse Split Amendment to accomplish the reverse stock split is attached to this Proxy Statement as **Appendix B**.

Background and Reasons For the Reverse Stock Split

Our Common Stock is currently quoted on the OTCQB Marketplace operated by the OTC Market Group, Inc., or OTCQB, under the trading symbol "NHLD". The following table sets forth the high and low closing sales prices for the Common Stock as reported on the OTCQB for the period from October 1, 2011 to March 7, 2014.

April 1, 2013/June 30, 2013	\$0.30	\$0.18

One of the initial listing requirements for a national securities exchange such as the NASDAQ Stock Market or the New York Stock Exchange is that the bid price of an applicant's common stock is at a specified minimum per share and that, after listing, for an issue to be eligible for continued listing, it may not appear that the aggregate market value of our Common Stock has become so reduced as to make further dealings on the New York Stock Exchange or the NASDAQ Stock Market inadvisable.

Our Board believes that we are at the threshold for listing on a national stock exchange provided we can achieve and maintain the required minimum per share bid price. Our Board recommends that the interest of the stockholders may be best served by a reverse split in order to increase the Common Stock bid price. We believe that the reverse stock split along with results of growth and operations could be a substantial basis for achieving the stock bid price necessary for a national stock exchange listing. However, there is no assurance that our stock price will achieve the minimum bid price amount and that our stock price will continue to meet the minimum requirement for continued

listing.

44

Because the current worldwide and United States financial situation is volatile, future economic prediction is uncertain. Because of this uncertainty, our Board is not able to predict the stock bid price at the effective date of the reverse split, if and when one is effected by the Board in its discretion. Our Board feels that it is in the best interests of the stockholders that a reverse stock split ratio and effective date are not set at this time, but rather that the Board has the authority to consider and implement a ratio out of a range of approved reverse stock split ratios and an effective date deadline that it can use to the best advantage of the Company. This is the reasoning as to why the Board set the reverse split limitations to effect the reverse stock split at ratios set forth in the ranges as provided in this Proposal 3, to be determined by the Board in its sole discretion.

In order to successfully list on a national securities exchange, the Company will also need to comply with additional quantitative (stockholders' equity, size of stockholder base, market value of securities, size of the public float, number of market makers, etc.) and qualitative (corporate governance, director independence, Board and Audit Committee composition, etc.) initial listing requirements and to continue meeting such requirements on an ongoing, continuous basis. The Company will only apply for an initial listing on a national securities exchange if and to the extent it believes it meets all applicable initial listing requirements. However, there is no assurance that we will be able to maintain such compliance with all requisite continued listing criteria.

Determination of Reverse Stock Split Ratio

The Board of Directors believes that stockholder approval of an amendment that would allow the Board of Directors to determine the exact reverse stock split ratio within a specified range of one-for-eight to one-for-twenty (rather than stockholder approval of a fixed reverse stock split ratio) provides the flexibility to achieve the desired results of the reverse stock split.

In determining the range of reverse stock split ratios to be submitted for stockholder approval, the Board of Directors considered numerous factors, including:

the potential devaluation of the Company's market capitalization as a result of a reverse stock split;

the projected impact of the reverse stock split ratio on the trading liquidity in our Common Stock and the Company's ability to list the Common Stock on a national securities exchange;

the historical and projected performance of our Common Stock and volume level before and after the reverse stock split;

prevailing market conditions;

general economic and other related conditions prevailing in the Company's industry and in the marketplace generally;

45

the Company's capitalization (including the number of shares of our Common Stock issued and outstanding); and

the prevailing trading prices for our Common Stock and its trading volume

The Board of Directors will consider the conditions, information and circumstances existing at the time when it determines whether to implement a reverse stock split and, if it decides to implement a reverse stock split, the precise reverse stock split ratio.

Principal Effects of Reverse Stock Split

A reverse stock split refers to a reduction in the number of outstanding shares of a class of a corporation's capital stock, which may be accomplished, as in this case, by reclassifying and combining all of the outstanding shares of our common stock into a proportionately smaller number of shares of common stock. For example, if the reverse stock split is approved by stockholders and the Board of Directors elects a one-for-ten reverse stock split, a stockholder holding 10,000 shares of common stock before the reverse stock split would hold 1,000 shares of Common Stock immediately after the reverse stock split. Each stockholder's proportionate ownership of our outstanding shares of Common Stock would remain the same.

Effect on Authorized, Issued and Outstanding, and Reserved Shares of Common Stock. Currently, we are authorized to issue up to a total of 150,000,000 shares of Common Stock of which 123,246,888 shares were issued and outstanding as of the Record Date ("Selected Example Date"). Under Proposal No. 2, we are seeking authority to increase our authorized shares of Common Stock to 250,000,000. The Reverse Split Amendment would not alter the number of shares of authorized Common Stock contemplated by Proposal No. 2, if approved.

The proposed reverse stock split will not alter the relative rights and preferences of existing stockholders or the number of shares of Common Stock authorized for issuance. All issued and outstanding shares of Common Stock will remain fully paid and non-assessable after the reverse stock split. The number of stockholders of record would not be affected by the reverse stock split. The reverse stock split will increase the number of authorized but unissued shares of Common Stock available for future issuance in proportion to the number of issued and outstanding shares. The Company has no current plans to issue any of these authorized but unissued shares that are not otherwise reserved for issuance as described below.

The following table sets forth (1) the number of shares of Common Stock that would be authorized (assuming Proposal 2 is approved prior to the reverse stock split); (2) the number of issued and outstanding shares of Common Stock and as a percentage of the authorized Common Stock; (3) the number of shares of Common Stock unissued and reserved for issuance pursuant to the Company's 2013 Omnibus Incentive Plan and outstanding warrants; and (4) the

number of unissued and unreserved shares of Common Stock following the effective date of a reverse stock split of our Common Stock as of the Selected Example Date (assuming Proposal 2 is approved prior to the reverse stock split). The actual reverse stock split ratio approved by the Board of Directors, if any, may be any ratio within the range of one-for-eight to one-for-twenty shares of Common Stock.

	Common Stock Authorized	Common Stock Issued and Outstanding (number of Shares and Percentage of Authorized)		Common Stock Unissued and Reserved(1)	Common Stock Unissued and Unreserved
Current	150,000,000	123,246,888	82.2 %	17,396,755	93,563,570
Assuming 1 for 8 reverse stock split	250,000,000	15,405,861	6.2 %	5,698,378	228,895,761
Assuming 1 for 10 reverse stock split	250,000,000	12,324,689	4.9 %	4,349,189	233,326,122
Assuming 1 for 12 reverse stock split	250,000,000	20,541,148	8.2 %	2,899,460	226,559,392
Assuming 1 for 14 reverse stock split	250,000,000	15,405,861	6.2 %	2,174,595	232,419,544
Assuming 1 for 16 reverse stock split	250,000,000	12,342,689	4.9 %	1,739,676	235,917,635
Assuming 1 for 18 reverse stock split	250,000,000	12,342,689	4.9 %	1,739,676	235,917,635
Assuming 1 for 20 reverse stock split	250,000,000	10,270,574	4.1 %	1,449,729	238,279,697

Effect on Authorized Preferred Stock. Currently the Company is authorized to issue up to a total of ten million (10,000,000) shares of preferred stock, par value \$0.02 per share, none of which are issued and outstanding. The proposed amendment to our certificate of incorporation will not impact the total authorized number of shares of preferred stock or the par value of the preferred stock.

Effect on Voting Rights. Proportionate voting rights and other rights of the holders of Common Stock would not be affected by the reverse stock split. For example, a holder of 1% of the voting power of the outstanding shares of Common Stock immediately prior to the effective time of the reverse stock split would continue to hold 1% of the voting power of the outstanding shares of Common Stock after the reverse stock split.

Effect on Par Value Shares and Accounting Matters. The reverse stock split will not affect the par value per share of our Common Stock, which will remain at \$0.02 per share. As a result, as of the effective time of the reverse stock split, the stated capital attributable to our Common Stock on the Company's balance sheet (which consists of the par value per share of our Common Stock multiplied by the aggregate number of the issued shares of Common Stock) will be reduced proportionately based on the reverse stock split ratio selected by the Board of Directors, and the additional paid-in capital account (which consists of the difference between the Company's stated capital and the aggregate amount paid to us upon the issuance of all currently issued shares of Common Stock) will be credited with the amount by which the stated capital is reduced. The per-share net income or loss and net book value of our Common Stock will be increased as a result of the reverse stock split because there will be fewer shares of Common Stock outstanding.

Effect on Outstanding Options and Warrants. The reverse stock split, if and when implemented, will affect outstanding options to purchase Common Stock. The Company's 2013 Omnibus Incentive Plan include provisions for

appropriate adjustments to the number of shares of Common Stock covered by the plan, as well as the per share exercise prices. If the Company's stockholders approve the reverse stock split, an outstanding stock option to purchase one share of Common Stock would thereafter evidence the right to purchase a fraction of a share of Common Stock consistent with the reverse stock split ratio designated by the Board of Directors (rounding any fractional shares up to the nearest whole share), and the exercise price per share would be a corresponding multiple of the previous exercise price (rounded down to the nearest cent). For example, if the Company effects a one-for-ten reverse stock split, a pre-split option for 10,000 shares of Common Stock with an exercise price of \$1.00 per share would be converted post-split into an option to purchase 1,000 shares of Common Stock with an exercise price of \$10.00 per share. Further, the number of shares of Common Stock authorized and reserved for issuance under the plans will be reduced in proportion to the exchange ratio of the reverse stock split.

The Company has outstanding warrants to purchase shares of Common Stock. Under the terms of the outstanding warrants, the reverse stock split will effect a reduction in the number of shares of Common Stock issuable upon exercise of the warrant in proportion to the exchange ratio of the reverse stock split and will effect a proportionate increase in the exercise price of the outstanding warrants.

As of the Selected Example Date, the Company had reserved or authorized for issuance approximately 17,396,755 shares of Common Stock pursuant to the Company's 2013 Omnibus Incentive Plan and outstanding warrants. The following table sets forth the effect on the number of these shares following the effective date of a reverse stock split of our Common Stock, using for purposes of this table the applicable number of shares as of the Selected Example Date. The actual reverse stock split ratio, if any, approved by the Board of Directors may be any number within the range of one-for-eight to one-for-twenty shares of Common Stock.

Implementation of Reverse Stock Split

Effective Time. If Proposal No. 3 is approved at the Annual Meeting and the Board of Directors elects, in its sole discretion, at any time prior to twelve months after the date of the Annual Meeting to implement the reverse stock split, the reverse stock split will become effective upon filing of the Reverse Split Amendment with the office of the Secretary of State of the State of Delaware. Except as explained below with respect to fractional shares, as of the effective time of the reverse stock split, not less than eight and not more than twenty shares, as applicable, of Common

Stock issued and outstanding immediately prior to that effective time will be, automatically and without any action on the part of the stockholders, reclassified as, and combined and changed into, one share of Common Stock in accordance with the ratio of the reverse stock split determined by the Board of Directors within the limits set forth in this Proposal No. 3. Any such determination will be made and publicly disclosed by the Board of Directors prior to the effective time of the reverse stock split.

Fractional Shares. No fractional shares will be issued in connection with the reverse stock split. In the event that the number of shares of post-split Common Stock for any stockholder includes a fraction, such fractional shares will be rounded up to the nearest whole share. Ownership percentages are not expected to change meaningfully as a result of rounding up fractional shares that result from the exchange. Similarly, no fractional shares will be issued on the exercise of outstanding options or rights, except as otherwise expressly specified in the documents governing such options or rights.

Exchange of Stock Certificates. If the reverse stock split is effected, stockholders holding certificated shares will be required to exchange their stock certificates for new uncertificated book entry shares (“New Book-Entry Shares”) representing the whole number of shares of Common Stock resulting from the reverse stock split. Stockholders of record on the effective date will be furnished the necessary materials and instructions for the surrender and exchange of share certificates at the appropriate time by the Company’s transfer agent. Stockholders will not have to pay any transfer fee or other fee in connection with such exchange. As soon as practicable after the effective date, the transfer agent will send a letter of transmittal to each stockholder advising the holder of the procedure for surrendering certificates representing the number of shares of Common Stock prior to the reverse stock split (“Old Stock Certificates”) in exchange for New Book-Entry Shares representing the number of shares of Common Stock resulting from the reverse stock split. As soon as practicable after the surrender to the transfer agent of any Old Stock Certificate, together with a duly executed letter of transmittal and any other documents the transfer agent may specify, the transfer agent will provide the person in whose name such Old Stock Certificate had been issued an account confirmation statement reflecting the New Book-Entry Shares registered in the name of such person. Stockholders should not submit any certificates until requested to do so. Shares of Common Stock held in brokerage accounts will be exchanged by your broker.

Until surrendered for exchange as contemplated herein, each Old Stock Certificate will be deemed at and after the effective time of the reverse stock split to represent the number of whole shares of Common Stock resulting from the reverse stock split, and any dividends or other distributions that may be declared after the effective date of the reverse stock split with respect to the number of whole post-reverse split shares of Common Stock represented by that certificate will be withheld by the Company until that certificate has been properly presented for exchange, at which time all such withheld dividends that have not yet been paid to a public official pursuant to relevant abandoned property or escheat laws will be paid to the holder thereof or the holder’s designee, without interest.

Any stockholder whose Old Stock Certificate has been lost, destroyed or stolen will be entitled to New Book-Entry Shares only after complying with the requirements that the Company and the transfer agent customarily apply in connection with lost, stolen or destroyed certificates.

No service charges, brokerage commissions or transfer taxes shall be payable by any holder of any Old Stock Certificate, except that if any New Book-Entry Shares are to be issued in a name other than that in which the Old Stock Certificates are registered, it will be a condition of such issuance that (1) the person requesting such issuance must pay to the Company any applicable transfer taxes or establish to the Company's satisfaction that these taxes have been paid or are not payable, (2) the transfer complies with all applicable federal and state securities laws, and (3) the surrendered certificate is properly endorsed and otherwise in proper form for transfer.

Stockholders who hold uncertificated book entry shares prior to the reverse stock split, either as record or beneficial owners, will have their holdings electronically adjusted by our transfer agent (and, for beneficial owners, by their brokers or banks that hold in "street name" for their benefit, as the case may be) to give effect to the reverse stock split. No additional action on the Company's part or on the part of any stockholder will be required in order to effect the reverse stock split for uncertificated book-entry shares existing prior to the reverse stock split.

Upon the reverse stock split becoming effective, the Company intends to treat shares of Common Stock held by stockholders in "street name," that is, through a bank, broker or other nominee, in the same manner as stockholders whose shares of Common Stock are registered in their names. Banks, brokers or other nominees will be instructed to effect the reverse stock split for their beneficial holders holding Common Stock in "street name." However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing the reverse stock split. If a stockholder holds shares of Common Stock with a bank, broker or other nominee and has any questions in this regard, the stockholder is encouraged to contact the stockholder's bank, broker or other nominee.

Stockholders should not destroy any stock certificate(s) and should not submit any stock certificate(s) until requested to do so.

Potential Anti-Takeover Effect

Our ability to issue additional shares could be used to thwart persons, or otherwise dilute the stock ownership of stockholders seeking to control the Company. The reverse stock split is not being recommended by the Board as part of an anti-takeover strategy.

No Dissenters' or Appraisal Rights

Under the Delaware General Corporation Law, stockholders are not entitled to appraisal rights with respect to the reverse stock split, and we do not intend to independently provide stockholders with any such right.

Certain Risks Associated with a Reverse Split of our Securities

There are numerous factors and contingencies that could affect our share price following a reverse split of our Common Stock, such as our reported results of operations in future periods, and general economic, market and industry conditions. Also, reverse splits are sometimes perceived by investors to imply that an issuer is having financial difficulties and, as a result, reverse splits sometimes cause the trading price of the resulting security to be lower than the pre-split share price or not to increase to or maintain its share price on a post-reverse split adjusted basis.

The following are some of the possible disadvantages of a reverse stock split:

The reduced number of outstanding shares of Common Stock resulting from a reverse stock split could adversely affect the liquidity of our Common Stock. Although the Board of Directors believes that a higher stock price may help generate investor interest, there can be no assurance that the reverse stock split will result in a per share price that will attract institutional investors or investment funds or that such share price will satisfy the investing guidelines of institutional investors or investment funds. As a result, the trading liquidity of our Common Stock may not necessarily improve.

A reverse stock split could result in a significant devaluation of the Company's market capitalization and the trading price of our Common Stock, on an actual or an as-adjusted basis, based on the experience of other companies that have accomplished reverse stock splits.

A reverse stock split may leave certain stockholders with one or more "odd lots," which are stock holdings in amounts of fewer than 100 shares of Common Stock. These odd lots may be more difficult to sell than shares of Common Stock in even multiples of 100. Additionally, any reduction in brokerage commissions resulting from the reverse stock split, as discussed above, may be offset, in whole or in part, by increased brokerage commissions required to be paid by stockholders selling odd lots created by the reverse stock split.

There can be no assurance that the market price per share of Common Stock after the reverse stock split will increase in proportion to the reduction in the number of shares of Common Stock outstanding before the reverse stock split.

The total market capitalization of our Common Stock after the proposed reverse stock split may be lower than the total market capitalization before the proposed reverse stock split and, in the future, the market price of our Common Stock following the reverse stock split may not exceed or remain higher than the market price prior to the proposed reverse stock split.

The increase in the ratio of authorized but unissued shares of Common Stock to issued shares of Common Stock resulting from the reverse stock split may be construed as having an anti-takeover effect by permitting the issuance of shares to purchasers who might oppose a hostile takeover bid or oppose any efforts to amend or repeal certain provisions of our certificate of incorporation or Bylaws.

Interests of Directors and Executive Officers

Our directors and executive officers have no substantial interests, directly or indirectly, in the matters set forth in this Proposal except to the extent of their ownership of shares of our Common Stock.

Certain Material U.S. Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of certain material U.S. federal income tax consequences of the reverse stock split. This summary is based upon the provisions of the Internal Revenue Code of 1986, as amended (the “Code”), Treasury regulations promulgated thereunder, administrative rulings and judicial decisions as of the date hereof, all of which may change, possibly with retroactive effect, resulting in U.S. federal income tax consequences that may differ from those discussed below. This discussion is included for general information purposes only and does not address all aspects of federal income taxation that may be relevant to stockholders that may be subject to special tax rules, including, without limitation: (i) holders subject to the alternative minimum tax; (ii) banks, insurance companies, or other financial institutions; (iii) tax-exempt organizations; (iv) dealers in securities or commodities; (v) regulated investment companies or real estate investment trusts; (vi) partnerships (or other flow-through entities for U.S. federal income tax purposes and their partners or members); (vii) traders in securities that elect to use a mark-to-market method of accounting for their securities holdings; (viii) U.S. Holders (as defined below) whose “functional currency” is not the U.S. dollar; (ix) persons holding our Common Stock as a position in a hedging transaction, “straddle,” “conversion transaction” or other risk reduction transaction; (x) persons who acquire shares of our Common Stock in connection with employment or other performance of services; (xi) U.S. expatriates; (xii) controlled foreign corporations; or (xiii) passive foreign investment companies. In addition, this summary does not address the tax consequences arising under the laws of any foreign, state or local jurisdiction and U.S. federal tax consequences other than federal income taxation. This discussion also assumes that the shares of our Common Stock were, and the shares of our Common Stock received pursuant to the reverse stock split will be, held as “capital assets” (as defined in the Code). If a partnership (including any entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds shares of our Common Stock, the tax treatment of a holder that is a partner in the partnership generally will depend upon the status of the partner and the activities of the partnership.

We have not sought, and will not seek, an opinion of counsel or a ruling from the Internal Revenue Service (“IRS”) regarding the United States federal income tax consequences of the reverse stock split and there can be no assurance the IRS will not challenge the statements set forth below or that a court would not sustain any such challenge. EACH HOLDER OF COMMON STOCK SHOULD CONSULT SUCH STOCKHOLDER’S TAX ADVISOR WITH RESPECT TO THE PARTICULAR TAX CONSEQUENCES OF THE REVERSE STOCK SPLIT TO SUCH STOCKHOLDER.

For purposes of the discussion below, a “U.S. Holder” is a beneficial owner of shares of our Common Stock that for U.S. federal income tax purposes is: (1) an individual citizen or resident of the United States; (2) a corporation

(including any entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state or political subdivision thereof; (3) an estate the income of which is subject to U.S. federal income taxation regardless of its source; or (4) a trust, the administration of which is subject to the primary supervision of a U.S. court and as to which one or more U.S. persons have the authority to control all substantial decisions of the trust, or that has a valid election in effect to be treated as a U.S. person. A “Non-U.S. Holder” is a beneficial owner (other than a partnership) of shares of our Common Stock who is not a U.S. Holder.

The reverse stock split is intended to constitute a reorganization within the meaning of Section 368(a) of the Code. Assuming the reverse stock split qualifies as a reorganization, no gain or loss should be recognized by a stockholder upon the reverse stock split. In general, the aggregate tax basis in the shares of our Common Stock received pursuant to the reverse stock split should equal the aggregate tax basis of the shares of our Common Stock surrendered (including any whole share in exchange for a fractional share). The stockholder's holding period in the shares of our Common Stock received should include the holding period in the shares of our Common Stock surrendered pursuant to the reverse stock split. Treasury regulations promulgated under the Code provide detailed rules for allocating the tax basis and holding period of the shares of our Common Stock surrendered to the shares of our Common Stock received pursuant to the reverse stock split. Holders of shares of our Common Stock acquired on different dates and at different prices should consult their tax advisors regarding the allocation of the tax basis and holding period of such shares.

TAX MATTERS ARE COMPLICATED, AND THE TAX CONSEQUENCES OF THE REVERSE STOCK SPLIT DEPEND UPON THE PARTICULAR CIRCUMSTANCES OF EACH STOCKHOLDER. ACCORDINGLY, EACH STOCKHOLDER IS ADVISED TO CONSULT THE STOCKHOLDER'S TAX ADVISOR WITH RESPECT TO ALL OF THE POTENTIAL TAX CONSEQUENCES TO THE STOCKHOLDER OF A REVERSE STOCK SPLIT.

Vote Required

The affirmative vote of a majority of the shares of our Common Stock issued and outstanding on the Record Date is required to approve the amendment to our certificate of incorporation to accomplish the reverse stock split of our Common Stock. Abstentions and "broker non-votes" will not be counted as having been voted on the proposals, and therefore will have the same effect as negative votes.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS VOTING "FOR" THE ADOPTION OF PROPOSAL THREE TO EFFECT A REVERSE STOCK SPLIT OF THE SHARES OF COMMON STOCK
