Total outstanding long-term debt	1,367	1,048

	(in thousands)	
Fiscal 2011	\$	390
Fiscal 2012		417
Fiscal 2013		560
Total payments	\$	1,367

Digerati analyzed the above note payable instruments for derivative accounting consideration and determined that the warrants issued to ATVF, Scott Crist, Roderick Ciaccioa & Vencore Solutions qualify as derivative instruments, due to the put right. Digerati estimated the fair market value of the put to be the difference between the potential cash settlement price per share and the exercise price, or approximately \$85,000 which is the maximum amount of potential cash settlement by Digerati. Because the maximum cash settlement was greater than the fair value of the warrants, Digerati recorded the maximum cash settlement of \$85,000 as a liability as of January 31, 2010. Additionally, Digerati analyzed the rest of the instruments for derivative accounting and determined that liability treatment was not applicable.

On October 12, 2010, three of the warrant holders exercised their put rights and as a result, the Company made payments to the related warrant holders amounting to \$75,000 which was charged to derivative liability and resulted in a remaining balance of \$10,000 as of April 30, 2011. The Company cancelled the related warrants as a result of the payment made for the put rights.

On December 21, 2010, Alfonso Torres waived the accrued interest on his note up to January 31, 2011. As a result, Digerati recognized a gain on forgiveness of accrued interest for \$92,000 during the quarter ended January 31, 2011.

On December 30, 2010, an investor relations firm hired by the Company entered into a debt purchase agreement with Alfonso Torres wherein it acquired \$100,000 of Digerati's outstanding debt. On January 7, 2011, Digerati entered into a debt settlement agreement with the investor relations firm in which Digerati issued 5,000,000 common shares to settle the \$100,000 of debt acquired from Alfonso Torres. The difference in the fair value of the shares issued and the amount of debt settled amounting to \$100,000 was recognized as a loss on debt extinguishment in the consolidated statements of operations.

As of April 30, 2011, the Company was in default of its notes with San Antonio National Bank and Thermo Credit, LLC due to its failure to meet certain debt covenant ratios. The Company was able to obtain waivers from the lenders for such defaults.

NOTE 3 – STOCK-BASED COMPENSATION

In September 2005, Digerati adopted its 2005 stock compensation plan. This plan, as amended, authorizes the grant of up to 17.5 million warrants, stock options, restricted common shares, non-restricted common shares and other awards to employees, Directors, and certain other persons. The plan is intended to permit Digerati to retain and attract qualified individuals who will contribute to the overall success of Digerati. Digerati's Board of Directors determines the terms of any grants under the plan. Exercise prices of all warrants, stock options and other awards vary based on the market price of the shares of common stock as of the date of grant. The warrants, stock options, restricted common stock, non-restricted common stock and other awards vest based on the terms of the individual grant.

During the nine months ended April 30, 2011, Digerati granted:

- 1,785,000 options to purchase common shares to various employees with exercise prices ranging from \$0.03 to \$0.05 per share and a term of 7 years. The options vest equally over a period of three years. The options have a fair market value of \$96,867.
- 3,150,000 options to purchase common shares to various employees with an exercise price of \$0.045 per share and a term of 7 years. The options vested upon issuance. The Company recognized stock-based compensation expense of \$136,742 equivalent to the fair market value of the options granted.

The fair market value of all options issued was determined using the Black-Scholes option pricing model which used the following assumptions:

Expected dividend yield	0.00%
Expected stock price volatility	218.67% - 223.86%
Risk-free interest rate	2.04% - 3.12%
Expected term	3.5 - 4.75 years

Digerati recognized approximately \$754,768 and \$20,505 in stock based compensation expense to employees and consultants during the nine months ended April 30, 2011 and 2010, respectively. Unamortized compensation cost totaled \$83,625 and \$5,784 at April 30, 2011 and April 30, 2010, respectively.

As of April 30, 2011, Digerati had 12,429,000 outstanding options with a weighted average exercise price of \$0.045, a weighted average remaining term of 5.27 years and an intrinsic value of \$534,535.

As of April 30, 2011, Digerati had outstanding warrants totaling 425,000 with a weighted average exercise price of \$0.18, a weighted average remaining term of 3.84 years and an intrinsic value of zero.

NOTE 4 – NON-STANDARDIZED PROFIT SHARING PLAN

We currently provide a Non-Standardized Profit Sharing Plan, adopted September 15, 2006. Under the plan our employees qualify to participate in the plan after one year of employment. ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

SPECIAL NOTE: This Quarterly Report on Form 10-Q contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. “Forward looking statements” are those statements that describe management’s beliefs and expectations about the future. We have identified forward-looking statements by using words such as “anticipate,” “believe,” “could,” “estimate,” “may,” “expect,” “plan,” and “intend.” Although we believe these expectations are reasonable, our operations involve a number of risks and uncertainties. Some of these risks include the availability and capacity of competitive data transmission networks and our ability to raise sufficient capital to continue operations. Additional risks are included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on October 8, 2010.

The following is a discussion of the consolidated financial condition and results of operations of Digerati for the three and nine months ended April 30, 2011 and 2010. It should be read in conjunction with our Consolidated Financial Statements, the Notes thereto, and the other financial information included in the Company’s Annual Report on Form 10-K for the year ended July 31, 2010. For purposes of the following discussion, fiscal 2011 or 2011 refers to the year ended July 31, 2011 and fiscal 2010 or 2010 refers to the year ended July 31, 2010.

Three Months ended April 30, 2011 Compared to Three Months ended April 30, 2010

Global VoIP Services. Global VoIP services revenue decreased by \$3,127,000, or 48%, from the quarter ended April 30, 2010 to the quarter ended April 30, 2011. VoIP minutes carried by our network decreased by 22% from approximately 129,668,211 minutes of voice traffic during the quarter ended April 30, 2010 to approximately 100,505,254 minutes of voice traffic during the quarter ended April 30, 2011. Our average revenue per minute decreased from \$0.050 during the quarter ended April 30, 2010 to \$0.034 for the quarter ended April 30, 2011. The decrease in revenue and the average revenue per minute is attributable primarily to the price pressure in our industry due to a reduction of international termination.

Cloud-based Hosted Services. Cloud-based hosted services revenue increased by \$50,000, or 208%, from the quarter ended April 30, 2010 to the quarter ended April 30, 2011. The increase in revenue between periods is primarily attributed to the increase in customers that are generating significant monthly recurring hosted services revenue. Cloud-based hosted services include fully hosted IP/PBX services, IP trunking, call center applications, prepaid services, interactive voice response auto attendant, call recording, simultaneous calling, voicemail to email conversion, SIP trunking and multiple other IP/PBX features in a hosted environment.

Cost of Services (exclusive of depreciation and amortization). The consolidated cost of services decreased by \$2,881,000 or 47%, from the quarter ended April 30, 2010 to the quarter ended April 30, 2011. The decrease in cost of services is a direct correlation to the decrease in Global VoIP services revenue. SG&A expenses increased by \$394,000, or 107%, from the quarter ended April 30, 2010 to the quarter ended April 30, 2011. Other income (expense). Other expenses increased by \$15,000, or 44% from the quarter ended April 30, 2010 to the quarter ended April 30, 2011. Cash Position: We had a cash balance of \$18,000 as of April 30, 2011. Net cash consumed by operating activities during the nine months ended April 30, 2011 was approximately \$379,000. Investing activities during the nine months ended April 30, 2011 consumed \$18,000, consisting of the acquisition of various servers and computers. Financing activities during the nine months ended April 30, 2011 provided \$342,000 in cash. We received proceeds of \$897,000 from various promissory notes during the nine months ended April 30, 2011. The cash consumed during the period is associated with the debt principal payments of \$407,000 related to various notes payable, the acquisition of a put option on certain warrants for \$75,000 and the payment of financing fees on the Thermo Credit note of \$73,000. Overall, our net operating, investing and financing activities during the nine months ended April 30, 2011 consumed \$55,000 of our available cash.

We are currently utilizing our available cash to fund any deficiencies in our cash flows from operations. On August 2, 2010, we entered into a \$750,000 revolving credit facility with Thermo Credit to finance our expected growth during the year ending July 31, 2011. In addition, during the nine months ended April 30, 2011 we received \$400,000 from Texas Ventures under two 24 month promissory notes. On May 10, 2011, we received \$200,000 from ATVF II under a 24 month promissory note.

Our current cash expenses are expected to be approximately \$157,000 per month, including wages, rent, utilities, corporate professional fees and debt service. We are currently using \$97,000 in cash generated from operations of our available cash to cover all monthly cash outflows. We anticipate that the \$200,000 received from ATVF on May 1, 2011 under a 24 month promissory note, the \$750,000 revolving credit facility with Thermo Credit, combined with our ability to raise additional cash from our funding sources and expected net cash flow generated from future operations, will be sufficient to fund our operations and capital asset expenditures for the next twelve months.

Our working capital deficit was \$454,000 as of April 30, 2011. This represents an improvement of \$136,000 from our working capital deficit at July 31, 2010 of \$590,000.
