We will pay for preparing, printing and mailing this information statement. Our costs are estimated at approximately \$7,500.

APPROVAL OF THE INCREASE IN AUTHORIZED SHARES OF COMMON STOCK

Our Board and the holders of a majority of our outstanding shares of Common Stock approved an increase in our number of authorized shares of our common stock, par value \$0.001 per share ("Common Stock"), from 200 million to 2 billion.

We intend to raise approximately \$250,000 through the sale of 25 million shares of common stock pursuant to a registration statement originally filed on April 14, 2011, and prior to this increase in the authorized shares of common stock there were an insufficient number of authorized shares available to move forward with this financing. Our Certificate of Incorporation currently provides us with the authority to issue up to 200,005,000 shares of stock, of

which 200,000,000 shares are designated as common stock, par value \$0.001 per share and 5,000 are designated as preferred stock, par value \$0.001 per share. As of June 22, 2011 (the date our shareholders approved this increase in authorized shares), and September 16, 2011, the latest practicable date, we had 139,444,940 shares of common stock issued and outstanding, and had issued 10,725,398 vested options and warrants.

---

In order to accommodate the number of shares being offered in the \$250,000 capital raise in a public offering pursuant to the registration statement originally filed with the SEC on April 14, 2011, and to have an adequate number of shares available to effect future offerings and for other purposes, such as strategic acquisitions of complementary product lines or business concerns, we obtained the consent of our shareholders to increase our authorized shares of common stock from 200 million shares to 2 billion shares.

We also intend to offer our warrant holders, for a period of 30 days following the date of effectiveness of this registration statement, the right to exercise their warrants at a reduced price of \$0.01 per share, which if fully exercised would result in an additional \$99,487 raised (with all warrants not so exercised reverting to their original exercise price at the end of the 30 day period).

Also, our preferred shareholders have agreed to waive our obligation to pay both existing, accrued dividends (in exchange for an increase in the per share stated value of the Series A preferred stock to \$6,860.34) and future dividends on their shares of preferred stock (after the date of effectiveness of this registration statement in conjunction with the reduction in their per share conversion price to \$0.01 as of the date of effectiveness in accordance with the terms of the preferred conversion feature of the Series A preferred stock). As a result of the post-offering reduction in exercise price of our warrants to \$0.01 per share for 30 days and the resulting permanent decrease in the conversion price of our Series A preferred stock from \$0.15 per share to \$0.01 per share, the number of shares of common stock which can be received by both our warrant holders and holders of Series A preferred stock before and after giving effect to the offering set forth in this prospectus are set forth in the below table (and without taking into account the change in the stated value of the Series A preferred stock). Note that given the high level of dilution to be experienced, it is likely that this will cause a material adverse effect upon the price at which shares of our Common Stock are quoted on the OTC Bulletin Board.

Security	Pre-Offering Per Share Exercise/Conversion Price	Number of Shares	Post-Offering per Share Exercise/Conversion Price	Number of Shares	Percentage Dilution to Common Stockholders as a Result of Decrease in Exercise/Conversion Price
Warrants	\$ .45	8,131,667	\$ .01(1)	8,131,667	0%
Series A preferred stock (2)	\$ .15	41,080,000	\$ .01	704,556,918	94.17%

(1) This \$0.01 exercise price shall only be in effect for 30 days from the date of effectiveness of this registration statement.

(2) Takes into effect the stated value per share of Series A preferred stock of \$6,860.34.

The board and our consenting stockholders believe it to be generally in the best interests of us and our stockholders to amend our Certificate of Incorporation, to increase the authorized number of shares of stock by 1,800,000,000, from 200,005,000 shares to 2,000,005,000 shares (the "Proposed Amendment"), all 1,800,000,000 shares of additional stock will be designated common stock. Therefore, by action of the board of directors taken on March 16, 2011, the board of directors adopted a proposed Certificate of Amendment to our certificate of incorporation, increasing the number of authorized shares of common stock from 200,000,000 shares to 2,000,000,000 shares, increasing the total number of authorized shares from 200,005,000 shares to 2,000,005,000 shares, which was approved by the stockholder holding the majority of our issued and outstanding shares on June 22, 2011.

The board of directors believes that the proposed increase in the number of authorized shares of common stock will provide us with the flexibility we need to conduct our business, as well as relieving us from the burden of accruing and eventually paying quarterly dividends to our Series A preferred stockholders. The board of directors also believes that this amendment will provide us with greater flexibility in capitalization, including potential future equity and/or convertible debt offerings (which would have a dilutive effect) and consideration for strategic acquisitions, by increasing authorized capital to allow issuance of additional shares of common stock, though except as stated above, there are no current finalized arrangements by us that would result in the issuance of the additional authorized shares, nor do we have any current plans to enter into a business combination or merger.

The additional shares of common stock for which authorization is sought will have the same terms and rights as the shares of common stock now authorized. Subject to applicable provisions of law, the proposed additional shares of common stock may be issued at such time and on such terms and conditions as the board may determine without further approval by the stockholders.

#### Possible Effects of Increase in Authorized Common Stock

The Board of Directors has the authority to issue the additional authorized shares of Common Stock, or any part thereof, without further action by the stockholders except as required by law or applicable requirements of self-regulatory organizations. In addition to the issuance of additional Common Stock, our Certificate of Incorporation, as amended, currently empowers the Board of Directors to authorize the issuance of one or more series of Preferred Stock without stockholder approval. The proposed increase in the authorized number of shares of Common Stock could have an anti-takeover effect, in that additional shares could be issued, within the limits imposed by applicable law, in one or more transactions that could discourage, delay or make more difficult a change in control or takeover of the Company, although this is not the present intent of the Board. For example, additional shares could be issued by us to dilute the stock ownership or voting rights of persons seeking to obtain control of the Company and thereby increase the cost of acquiring a given percentage of the outstanding stock. Similarly, the issuance of additional shares to certain persons allied with our management and/or Board could have the effect of making it more difficult to remove our current management and/or directors by diluting the stock ownership or voting rights of persons seeking to cause such removal. Although this Proposal to increase the authorized number of shares of Common Stock has been prompted by business considerations and not by the threat of any hostile takeover attempt (nor is the Board currently aware of any such attempts directed at the Company), stockholders should be aware that approval of the amendment to the Certificate of Incorporation could facilitate future efforts by us to deter or prevent changes in control of the Company, including transactions in which the stockholders might otherwise receive a premium for their shares over then-current market prices. In addition, the issuance of additional shares by us could have an effect on the potential realizable value of a stockholder's investment. In the absence of a proportionate increase in our earnings and book value (or decrease in our net loss), an increase in the aggregate number of outstanding shares of the Common Stock caused by the issuance of additional shares would dilute the earnings per share and book value per share (or increase the loss per share) of all outstanding shares of our capital stock. If such factors were reflected in the price per share of Common Stock, the potential realizable value of a stockholder's investment could be adversely affected. While authorization of the additional shares will not directly dilute the proportionate voting power or other rights of existing stockholders, future issuances of Common Stock enabled by authorization of the additional shares could reduce the proportionate ownership of existing holders of Common Stock, and, depending on the price at which such shares are issued, may be dilutive to the existing stockholders.

## SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

On September 16, 2011, we had 139,444,940 shares of common stock, and 1,027 shares of Series A preferred stock issued and outstanding. The following table sets forth certain information with respect to the beneficial ownership of our securities as of August 19, 2011, for (i) each of our directors and executive officers; (ii) all of our directors and executive officers as a group; and (iii) each person who we know beneficially owns more than 5% of our common stock.

Beneficial ownership data in the table has been calculated based on Commission rules that require us to identify all securities that are exercisable for or convertible into shares of our common stock within 60 days of September 16, 2011 and treat the underlying stock as outstanding for the purpose of computing the percentage of ownership of the holder.

Except as indicated by the footnotes following the table, and subject to applicable community property laws, each person identified in the table possesses sole voting and investment power with respect to all capital stock held by that person. The address of each named executive officer and director, unless indicated otherwise by footnote, is c/o Optex Systems Holdings' corporate headquarters.

Except as otherwise set forth below, the address of each of the persons listed below is Optex Systems Holdings' address.
