CONSIDERATION OF DIRECTOR NOMINEES

Director Qualifications

We believe the Board, to the extent that our limited resources permit, should encompass a diverse range of talent, skill and expertise sufficient to provide sound and prudent guidance with respect to the Company's operations and interests. Each director also is expected to: exhibit high standards of integrity, commitment and independence of thought and judgment; use his or her skills and experiences to provide independent oversight to the business of the Company; participate in a constructive and collegial manner; be willing to devote sufficient time to carrying out their duties and responsibilities effectively; devote the time and effort necessary to learn our business; and represent the long-term interests of all Stockholders.

The Board has determined that the Board of Directors as a whole must have the right diversity, mix of characteristics and skills for the optimal functioning of the Board in its oversight of the Company. The Board believes it should be comprised of persons with skills in areas such as: finance; real estate; banking; strategic planning; human resources and diversity; leadership of business organizations; and legal matters. The Board may also consider in its assessment of the Board's diversity, in its broadest sense, reflecting, but not limited to, age, geography, gender and ethnicity.

In addition to the targeted skill areas, the Board looks for a strong record of achievement in key knowledge areas that it believes are critical for directors to add value to the Board, including:

- Strategy – knowledge of the Company business model, the formulation of corporate strategies, knowledge of key competitors and markets;
- Leadership – skills in coaching and working with senior executives and the ability to assist the Chief Executive Officer;
- Organizational Issues – understanding of strategy implementation, change management processes, group effectiveness and organizational design;
- Relationships – understanding how to interact with investors, accountants, attorneys, management companies, analysts, and communities in which the Company operates;
- Functional Matter – understanding of finance and accounting, financial statements and auditing procedures, technical expertise, legal issues, information technology and marketing; and
- Ethics – the ability to identify and raise key ethical issues concerning the activities of the Company and senior management as they affect the business community and society.

Nomination Procedures

We have no nominating committee, and all nominating functions are handled directly by the full Board of Directors, which the Board believes is the most effective and efficient approach, based on the size of the Board and the current and anticipated operations and needs of the Company. As outlined above in selecting a qualified nominee, the Board considers such factors as it deems appropriate which may include: the current composition of the Board; the range of talents of the nominee that would best complement those already represented on the Board; the extent to which the nominee would diversify the Board; the nominee's standards of integrity, commitment and independence of thought and judgment; and the need for specialized expertise. Applying these criteria, the Board considers candidates for Board membership suggested by its members, as well as management and Stockholders. Stockholders of record may nominate directors in accordance with the Company's Bylaws which require among other items notice sent to the Company's Secretary not less than 60 days prior to a Stockholder meeting that will include the election of board members. No nominations other than those made by the Board were received for the Annual Stockholder Meeting.

Code of Ethics

We have adopted a Code of Ethics that applies to all of the Company's officers, directors and employees, including its Chief Financial Officer and Chief Executive Officer, which complies with the requirements of the Sarbanes-Oxley Act of 2002 and applicable Financial Industry Regulatory Authority ("FINRA") listing standards. Accordingly, the Code of Ethics is designed to deter wrongdoing, and to promote, among other things, honest and ethical conduct, full, timely, accurate and clear public disclosures, compliance with all applicable laws, rules and regulations, the prompt internal reporting of violations of the Code of Ethics, and accountability.

Corporate Governance

We have adopted Corporate Governance Guidelines applicable to our Board of Directors.

Director Independence

Our securities are not listed on a U.S. securities exchange and, therefore, is not subject to the corporate governance requirements of any such exchange, including those related to the independence of directors. However, at this time, after considering all of the relevant facts and circumstances, the Company's Board of Directors has determined that Messrs. Jenkins and Sierchio are independent from the Company's management and qualify as an "Independent Director" under the standards of independence under the applicable FINRA listing standards. This means that, in the judgment of the Board of Directors, each of Messrs. Jenkins and Sierchio (1) is not an officer or employee of the Company or its subsidiaries, or (2) has not had any direct or indirect relationship with the Company that would interfere with the exercise of his independent judgment in carrying out the responsibilities of a director. Upon the Company's listing on any national securities exchange or any inter-dealer quotation system, it will elect such independent directors as is necessary under the rules of any such securities exchange.

Certain Relationships

There are no family relationships among or between any of our officers and directors.

Our proposed business raises potential conflicts of interests between certain of our officers and directors and us. Certain of our directors are directors of other companies and, to the extent that such other companies may participate in ventures in which we may participate, our directors may have a conflict of interest in negotiating and concluding terms regarding the extent of such participation. In the event that such a conflict of interest arises at a meeting of our directors, a director who has such a conflict will abstain from voting for or against the approval of such participation or such terms. In appropriate cases, we will establish a special committee of independent directors to review a matter in which several directors, or management, may have a conflict. From time to time, several companies may participate in the acquisition, exploration and development of natural resource properties thereby allowing for their participation in larger programs, involvement in a greater number of programs and reduction of the financial exposure with respect to any one program. It may also occur that a particular company will assign all or a portion of its interest in a particular program to another of these companies due to the financial position of the company making the assignment.

In determining whether we will participate in a particular program and the interest therein to be acquired by it, the directors will primarily consider the potential benefits to us, the degree of risk to which we may be exposed and its financial position at that time. Other than as indicated, we have no other procedures or mechanisms to deal with conflicts of interest. We are not aware of the existence of any conflict of interest as described herein.

Compliance with Section 16(a) Beneficial Ownership Reporting Compliance, of the Exchange Act of 1934

Based on information provided to the Company, it is believed that all of the Company's directors, executive officers and persons who own more than 10% of the Company's common stock were in compliance with Section 16(a) of the Exchange Act of 1934 during the last fiscal year. During the year ended December 31, 2010, all of the Company's directors, executive officers and Company's common stock were in compliance with section 16(a) of the Exchange Act of 1934.

Legal Proceedings

During the past ten years none of our directors, executive officers, promoters or control persons has been:

- the subject of any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;
- convicted in a criminal proceeding or is subject to a pending criminal proceeding (excluding traffic violations and other minor offenses);
- subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities;

 - (iii) any law or regulation prohibiting mail or wire fraud or fraud in connection with any business entity.
- any federal or state judicial or administrative proceedings based on violations of federal or state securities, commodities, banking or insurance laws and regulations, or any settlement to such actions (excluding settlements between private parties); and
- any disciplinary sanctions or orders imposed by a stock, commodities or derivatives exchange or other self-regulatory organization.

Compensation of Directors

We do not pay director compensation to directors who are also our employees. Our Board of Directors determines the non-employee directors' compensation for serving on the Board and its committees. In establishing director compensation, the Board is guided by the following goals:

- Compensation should consist of a combination of cash and equity awards that are designed to fairly pay the directors for work required for a company of our size and scope;
- Compensation should align the directors' interests with the long-term interests of stockholders; and
- Compensation should assist with attracting and retaining qualified directors.

Non-employee directors receive \$2,000 per month for their services as directors plus \$500 for each board meeting attended in excess of five per year. Directors are entitled to participate in our 2001 Incentive Stock Option Plan. We also reimburse our directors for any actual expenses incurred to attend meetings of the Board.

The table below outlines director compensation for the fiscal year ended December 31, 2010.

Name	Fees earned or paid in cash (1)	Stock awards Aggregate Grant Date Fair Value	Option awards Aggregate Grant Date Fair Value	Non-equity incentive plan compensation	Nonqualified deferred compensation earnings	All other compensation	Total

Joseph Sierchio	\$ 10,000	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0	\$ 10,000

(1) The amounts in this column represent compensation for their roles as directors.

We have no other arrangements pursuant to which any our directors were compensated during the years ended December 31, 2010 and 2009 for services as a director.

Board Leadership Structure and Role in Risk Oversight

The Board believes full and open communication between it and management is essential for effective risk management and oversight. Members of our board meet regularly with our chief executive officer to discuss strategy and risks facing the company. Our Chief Executive Officer attends the quarterly board meetings and is available to address any questions or concerns raised by the board on risk management-related and any other matters. Our Chief Executive Officer is also asked to contribute to the agenda for these meetings, so that each functional division of the company can identify topics that may require board attention. Each quarter our chief executive officer presents to the board on strategic matters involving our operations and strategic initiatives and discusses with the board key strategies, challenges, risks, and opportunities for the company.

Management is responsible for the day-to-day management of risks the company faces, while the board, as a whole and through its committees, is responsible for the oversight of risk management. In its risk oversight role, the Board of Directors monitors whether the risk management processes that management has designed and implemented are

effective both as designed and as executed.

The President and Chief Executive Officer will distribute all stockholder communications to the intended recipients.

CORPORATE GOVERNANCE AND BOARD OF DIRECTORS MATTERS

The Company does not currently have any standing committees of the Board of Directors and, accordingly, there are no formal committee charters. The full Board of Directors is responsible for performing the functions of the: (i) Audit Committee, (ii) Compensation Committee and (iii) Nominating Committee. We do not have a policy requiring director attendance at shareholder meetings, but members of our Board of Directors are encouraged to attend. Two members of the Board of Directors attended the Company's most recent annual meeting.

DESCRIPTION OF OUR SECURITIES

General

We are authorized to issue up to 200,000,000 shares of common stock, \$0.00001 par value per share, and 10,000,000 shares of preferred stock having a par value of \$0.00001 per share.

As of the Record Date, a total of 63,075,122 shares of our common stock were issued and outstanding; no shares of preferred stock are issued and outstanding. All of the outstanding issued and capital stock is, and will be, fully paid and non-assessable.

Common Stock

The holders of our common stock are entitled to one vote per share on all matters to be voted on by the stockholders. Subject to preferences that may be applicable to any shares of preferred stock that may be outstanding from time to time, holders of common stock are entitled to receive ratably such dividends as may be declared by the Board of Directors out of funds legally available therefore. In the event we liquidate, dissolve or wind up, holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities and the liquidation preferences of any outstanding shares of preferred stock. Holders of common stock have no preemptive, conversion, or subscription rights. There are no redemption or sinking fund provisions applicable to the common stock. All the outstanding shares of common stock are, and all shares of common stock to be outstanding upon completion of this offering will be, fully paid and non-assessable.

Preferred Stock

Our Board of Directors has the ability to issue up to 10,000,000 shares of preferred stock in one or more series, without stockholder approval. Our Board of Directors may designate for the series:

- the number of shares and name of the series,
- the voting powers of the series, including the right to elect directors, if any,
- the dividend rights and preferences, if any,
- redemption terms, if any,

- liquidation preferences and the amounts payable on liquidation or dissolution, and
- the terms upon which such series may be converted into any other series or class of our stock, including the common stock and any other terms that are not prohibited by law.

It is impossible for us to state the actual effect it will have on common stock holders if the Board of Directors designates a new series of preferred stock. The effects of such a designation will not be determinable until the rights accompanying the series have been designated. The issuance of preferred stock could adversely affect the voting power, liquidation rights or other rights held by owners of common stock or other series of preferred stock. The Board of Directors' authority to issue preferred stock without stockholder approval could make it more difficult for a third party to acquire control of our Company, and could discourage any such attempt. We have no present plans to issue any additional shares of preferred stock.
