China
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: **86-755- 89896008**

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Not Applicable	Not Applicable

Securities registered pursuant to section 12(g) of the Act:

Common Stock, \$0.00001 par value
Title of Class

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
" Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. " Yes No

Note – Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Exchange Act from their obligations under those Sections.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes No

State the aggregate market value of the voting and non-voting common equity held by non-affiliates computed by reference to the price at which the common equity was last sold, or the average bid and asked price of such common equity, as of the last business day of the registrant's most recently completed second fiscal quarter.

Note. —If a determination as to whether a particular person or entity is an affiliate cannot be made without involving unreasonable effort and expense, the aggregate market value of the common stock held by non-affiliates may be calculated on the basis of assumptions reasonable under the circumstances, provided that the assumptions are set forth in this Form.

The aggregate market value of the voting and non-voting common stock of the issuer held by non-affiliates as of June 30, 2011 was approximately \$6,732,958 (8,416,197 shares of common stock held by non-affiliates) based upon the closing price of \$0.80 per share of common stock as quoted by OTC Bulletin Board on June 30, 2011.

APPLICABLE ONLY TO REGISTRANTS INVOLVED IN BANKRUPTCY

PROCEEDINGS DURING THE PRECEDING FIVE YEARS:

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Section 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

(APPLICABLE ONLY TO CORPORATE REGISTRANTS)

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

As of March 29, 2012 there are 21,308,247 shares of common stock, par value \$0.00001 issued and outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

List hereunder the following documents if incorporated by reference and the Part of the Form 10-K (e.g., Part I, Part II, etc.) into which the document is incorporated: (1) Any annual report to security holders; (2) Any proxy or information statement; and (3) Any prospectus filed pursuant to Rule 424(b) or (c) under the Securities Act of 1933. The listed documents should be clearly described for identification purposes (e.g., annual report to security holders for fiscal year ended December 24, 1980).

EXPLANATORY NOTE

This Amendment No. 1 to Form 10-K (this “Amendment”) amends the Transition Report on Form 10-K/A for the year ended December 31, 2011, filed on March 30, 2012 (the “Original 10-K”) of China Internet Café Holdings Group, Inc. (the “Company”). Specifically, the amendments include:

- Revision to Note 15 to the Financial Statements and Item 9A. Controls and Procedures.
- Revision to the number of shares of issued and outstanding common stock and Consolidated Statements Of Stockholders' Equity

This Amendment should be read in conjunction with the Original 10-K, and the Company’s other filings made with the Securities and Exchange Commission subsequent to the filing of the Original 10-K on March 30, 2012. The Original 10-K has not been amended or updated to reflect events occurring after March 30, 2012, except as specifically set forth in this Amendment.

CHINA INTERNET CAFE HOLDINGS GROUP, INC. AND SUBSIDIARIES

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and

Stockholders of China Internet Cafe Holdings Group, Inc.

and Subsidiaries

We have audited the accompanying consolidated balance sheets of China Internet Cafe Holdings Group, Inc. and Subsidiaries as of December 31, 2011 and 2010, and the related consolidated statements of income and comprehensive income, changes in stockholders' equity, and cash flows for each of the years in the two-year period ended December 31, 2011. China Internet Cafe Holdings Group, Inc. and Subsidiaries's management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of China Internet Cafe Holdings Group, Inc. and Subsidiaries as of December 31, 2011 and 2010, and the results of its operations and its cash flows for each of the years in the two-year period ended December 31, 2011 in conformity with accounting principles generally accepted in the United States of America.

CHINA INTERNET CAFE HOLDINGS GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2011 AND 2010

1. Organization, Recapitalization and Nature of Business

China Internet Cafe Holdings Group, Inc. (“China Internet Cafe”)

China Internet Cafe Holdings Group, Inc. (formerly known as China Unitech Group, Inc.) (“the Company”, “we”, “us”, “our”) was incorporated in the State of Nevada on March 14, 2006. The Company was a development company from incorporation on June 30, 2010. On July 2, 2010, the Company successfully closed a share exchange transaction with the shareholders of Classic Bond Development Limited, a British Virgin Islands corporation (“Classic Bond”). The Company will operate through its variable interest entities in China to execute the current business plan of those affiliates which involves the operation of a chain of China-based internet cafes.

On February 1, 2011, the Company changed its name from China Unitech Group, Inc. to China Internet Cafe Holdings Group, Inc.

Recapitalization of Classic Bond Development Limited

On July 2, 2010, the China Internet Cafe Holdings Group, Inc. (“China Internet Cafe”), entered into a share exchange transaction with Classic Bond Development Limited, a British Virgin Islands corporation (“Classic Bond”), and the shareholders of Classic Bond. Pursuant to the Share Exchange Agreement, China Internet Cafe acquired 100% of the issued and outstanding capital stock of Classic Bond in exchange for 19,000,000 newly issued shares of the Company’s common stock, which represented approximately 94% of the 20,200,000 issued and outstanding shares of common stock after the transaction and after the coincident cancellation of 4,973,600 shares of common stock held by the Company’s former majority stockholder which have a net effect of increase of 1,200,000 shares. The business, assets and liabilities did not change as a result of the reverse acquisition.

This share exchange transaction resulted in those shareholders obtaining a majority voting interest in the Company. Generally accepted accounting principles require that the Company whose shareholders retain the majority interest in a combined business be treated as the acquirer for accounting purposes, resulting in a reverse acquisition with Classic

Bond as the accounting acquirer and China Internet Cafe as the acquired party. Accordingly, the share exchange transaction has been accounted for as a recapitalization of Classic Bond whereby Classic Bond is deemed to be the continuing, surviving entity for accounting purposes, but through reorganization, has deemed to have adopted the capital structure of China Internet Cafe. The equity section of the accompanying financial statements has been restated to reflect the recapitalization of the Company due to the reverse acquisition as of the first day of the first period presented.

Accordingly, all references to common shares of Classic Bond's common stock have been restated to reflect the equivalent number of China Internet Cafe's common shares. In other words, the 2,000,000 Classic Bond shares outstanding are restated as 20,200,000 common shares, as of July 2, 2010. Each share of Classic Bond is restated to 10.10 shares of China Internet Cafe.

The book value of the net assets that for accounting purposes, were deemed to have been acquired by Classic Bond from China Internet Cafe, as of the date of acquisition (July 2, 2010) were \$3,333.

During the recapitalization, the Company incurred restructuring expenses of \$300,000, related legal and professional fee of \$ 129,033 and the interest expenses of \$6,053 related to the short term loan for paying restructuring expenses. All of these expenses amounting to \$435,086 in total which recorded as reorganizational expenses in statement of income.

Classic Bond Development Limited (“Classic Bond”)

Classic Bond Development Limited was incorporated on November 2, 2009 in the British Virgins Islands (“BVI”) with 50,000 authorized common stock with no par value. On November 2, 2009, 50,000 common stock at \$0.129 (HK\$1) each were issued for cash at \$6,452 (HK\$50,000) to several shareholders including Mr. Guo Dishan who is the 65% equity interest shareholder and the sole director of the Company.

On June 23, 2010, the Company further issued 1,950,000 shares of common stock to 42 individuals to raise fund of \$84,093 (HK\$651,721) for 651,721 shares and 1,308,954 shares associated with the reorganization of the Company at a value of \$167,519 (HK\$1,308,954) which is reflected as contributed capital by existing shareholders of Junlong and the total amount was \$251,612. At December 31, 2011 and 2010, the issued and outstanding of Common Stock were 21,124,967 and 20,200,000 shares.

Classic Bond is in the business of operating internet cafés, throughout the Longang District of Shenzhen in Province of Guangdong of People's Republic of China (“PRC”). The Company conducts its operations through the following subsidiaries: (a) a wholly-owned subsidiary of the Company located in the PRC: Shenzhen Zhonghefangda Network Technology Co., Ltd. (“Zhonghefangda”) and (b) an entity located in the PRC: Shenzhen Junlong Culture Communication Co., Ltd. (“Junlong”), which is controlled by the Company through contractual arrangements between Zhonghefangda and Junlong, as if Junlong were a wholly-owned subsidiary of the Classic Bond.

Shenzhen Zhonghefangda Network Technology Co., Ltd. (“Zhonghefangda”)

Zhonghefangda, Classic Bond’s wholly-owned subsidiary, was incorporated in People’s Republic of China (“PRC”) on June 10, 2010 with registered capital of \$129,032 (HK\$1 million). Zhonghefangda is engaged in provision of management and consulting services.

On June 11, 2010, to protect the Company’s shareholders from possible future foreign ownership restrictions, Zhonghefangda and Junlong entered into a series of agreements. Under these agreements Zhonghefangda obtained the ability to direct the operations of Junlong and to receive a majority of the residual returns. Therefore, management determined that Junlong became a variable interest entity (“VIE”) under the provisions of Financial Accounting Standards Board (“FASB”) ASC 810-10 and Zhonghefangda was determined to be the primary beneficiary of Junlong. Accordingly, beginning June 11, 2010, Zhonghefangda is able to consolidate the assets, liabilities, results of operations and cash flows of Junlong in the financial statements. Because the legal representatives and ultimate major stockholder of Zhonghefangda and Junlong is the same person, Mr. Guo Dishan, Zhonghefangda and Junlong were deemed, until June 11, 2010, to be under the common control.

On June 10, 2010, Classic Bond formed Shenzhen Zhonghefangda Network Technology Co., Ltd. (“Zhonghefangda”) and Mr. Guo Dishan is the legal representative of Zhonghefangda and thereafter Zhonghefangda becomes a wholly owned subsidiary of Classic Bond and the whole reorganization is completed.

Exclusive Management and Consulting Agreement

On June 11, 2010, Zhonghefangda signed exclusive management and consulting services agreement with Junlong. Pursuant to the agreement, Zhonghefangda agreed to provide management and consulting services to Junlong, upon request, in connection with the operation of the Business. The agreement provides that Junlong will compensate Zhonghefangda in consideration for its right to receive the aggregate net profit of Junlong for a period of twenty (20) years and for succeeding periods of the same duration until terminated by both parties under agreed conditions. Zhonghefangda will reimburse to Junlong the full amount of any net losses incurred by Junlong during the term of this agreement. As a result of entering into the exclusive management and consulting agreement, Zhonghefangda should be deemed to control Junlong as a Variable Interest Entity and should be consolidated in the accompanying financial statements.

Shenzhen Jun Long Culture Communication Co., Ltd. (“Junlong”)

Junlong is a Chinese enterprise organized in the People’s Republic of China (“PRC”) on December 26, 2003 in accordance with the Laws of the People’s Republic of China with the registered capital of \$0.136 million (equivalent to RMB 1 million). In 2001, the Chinese government imposed higher capital (RMB10 million for regional internet café chain and RMB50 million for national internet café chain) and facility requirements for the establishment of internet cafes. On August 19, 2004, Junlong was granted approval from Shenzhen Municipal People’s Government to increase its registered capital by \$1,230,500 from \$136,722 to \$1,367,222 million (increased by RMB 9 million, from RMB 1 million to RMB 10 million) The capital verification process has been completed.

In 2005, Junlong obtained internet cafe licenses to operate an internet café chain from the Ministry of Culture, and opened the internet first cafe in April, 2006 and our members can access the internet at our venues. We started our internet cafes in 2006 and we opened 7 internet cafes in 2006, 5 internet cafes opened in 2007, 11 internet cafes opened in 2008, 5 internet cafes opened in 2009 and 16 internet cafes opened in 2010, 13 internet cafes opened during the year of 2011. In total, we own 57 internet cafes within Shenzhen, Guangdong through December 31, 2011.

2. Summary of Significant Accounting Policies

(a) Basis of presentation

The Company’s accounting policies used in the preparation of the accompanying financial statements conform to accounting principles generally accepted in the United States of America (“US GAAP”) and have been consistently applied.

(b) Principle of consolidation

The consolidated financial statements include the accounts of China Internet Cafe Holdings Group, Inc., Classic Bond Development Limited, Zhonghefangda and the VIE-Junlong. All significant intercompany balances and transactions have been eliminated in the consolidation. The consolidated financial statements included herein, presented in accordance with United States generally accepted accounting principles and stated in US dollars, have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission.

(c) Use of estimates

In preparing financial statements in conformity with US GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reported periods. Actual results could differ from those estimates

Significant Estimates

These financial statements include some amounts that are based on management's best estimates and judgments. The most significant estimates relate to depreciation of property, plant and equipment, deferred revenue, impairment testing of long-lived assets and various contingent liabilities. It is reasonably possible that the above-mentioned estimates and others may be adjusted as more current information becomes available, and any adjustment could be significant in future reporting periods.

(d) Revenue recognition

Internet café members purchase prepaid IC cards which include stored value that will be deducted based on time usage of computer at the internet cafe. Revenues derived from the prepaid IC cards at the internet café are recognized when services are provided. This is based upon the usage of computer time at the internet cafe. Outstanding customer balances in the IC cards are included in deferred revenue on the balance sheets. The Company does not charge any service fees that cause a decrement to customer balances. There is no expiration date for IC cards.

The Company also records revenue from commission received from the sale of third parties on-line gaming cards, snacks and drinks. Commission revenue amounted to 20% of the value of the on-line gaming cards, snacks and drinks is recognized at the time the gaming cards, etc. are sold to customers. During the years ended December 31, 2011 and 2010, the commission income was \$249,430 and \$162,976, less than 1% of total revenue.

(e) Cost of revenue

Cost of revenue consists primarily of depreciation of each internet café's computer equipment and hardware and overhead associated with the internet cafes including rental payments, utilities, business taxes and surcharges. Our internet surfing business tax is 20% on gross revenue generated from our internet cafes. Our other surcharges are an education surcharge of 3%, city development surcharge of 1%, a culture development surcharge of 3%, and a snacks and drinks business tax of 5%. All surcharges are calculated on the basis of business tax amount.

(f) Credit risk

The Company may be exposed to credit risk from its cash at bank. An allowance has been considered for estimated irrecoverable amounts determined by reference to past default experience and the current economic environment. No allowance is considered necessary for the period.

(g) Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash accounts, interest bearing savings accounts and time certificates of deposit with a maturity of three months or less when purchased.

(h) Restricted cash

At December 31, 2011 and 2010, restricted cash of \$0 and \$945,280 (equivalent to RMB6,250,000) represented cash held by two escrow agents on behalf of the Company for registered capital.

(i) Inventory

Inventory represented the IC cards we purchased from IC cards manufacturer. Inventories are stated at the lower of cost or market value. Cost is determined using the first-in, first-out (FIFO) method.

(j) Fair Value of Financial Instruments

FASB accounting standard requires disclosing fair value to the extent practicable for financial instruments that are recognized or unrecognized in the balance sheet. The fair value of the financial instruments disclosed herein is not necessarily representative of the amount that could be realized or settled, nor does the fair value amount consider the tax consequences of realization or settlement.

For certain financial instruments, including cash, accounts payable, short-term loans, accruals and other payables, it was assumed that the carrying amounts approximate fair value because of the near term maturities of such obligations.

(k) Stock-Based Compensation

Our advisor assists the Company for ongoing corporate compliance and development are accounted for under ASC 505-50. ASC 505-50-30-11 (previously EITF 96-18) further provides that an issuer shall measure the fair value of the equity instruments in these transactions using the stock price and other measurement assumptions as of the earlier of the following dates, referred to as the measurement date:

- i. The date at which a commitment for performance by the counterparty to earn the equity instruments is reached (a performance commitment); and
- ii. The date at which the counterparty's performance is complete.

(l) Equipments deposits

The Company prepaid the equipments deposits to the computer suppliers for purchase of computer and equipments for the new internet cafes.

(m) Property, plant and equipment

Property, plant and equipment, comprising computer equipment and hardware, leasehold improvement, office furniture and vehicles are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives listed below.

	Estimated Useful Lives
Leasehold improvement	5 years
Cafe computer equipment and hardware	5 years
Cafe furniture and fixtures	5 years
Office furniture, fixtures and equipments	5 years
Motor vehicles	5 years

Leasehold improvement mainly results from the decoration expense. All of the Company's lease contracts state lease terms of 5 years and leasehold improvement is amortized over 5 years, which represents the shorter of useful life and lease term.

(n) Intangible Assets

Our intangible assets consist of definite-lived assets subject to amortization such as Business License and Customer Lists. The useful lives of the Business License are 9 to 15 years and we amortized the customer lists by 5 years. We calculate amortization of the definite-lived intangible assets on a straight-line basis over the useful lives of the related intangible assets.

Development cost of internal-use software is insignificant and has been recorded as expense in the period such cost occurs.

(o) Deferred Revenue

Deferred revenue represents unused balances of the prepaid amounts from the IC cards that are unused balance. The Outstanding customer balances are \$2,084,086 and \$579,822 as of December 31, 2011 and 2010, respectively, and are included in deferred revenue on the balance sheets. Management has evaluated the deferred revenue balance and has determined any potential revenue from the unused balance to be immaterial at the year ended December 31, 2011.

(p) Comprehensive income

The Company follows the FASB's accounting standard. Comprehensive income is defined as the change in equity of a company during a period from transactions and other events and circumstances excluding transactions resulting from investments from owners and distributions to owners. For the Company, comprehensive income for the periods presented includes net income and foreign currency translation adjustments.

(q) Income taxes

Income taxes are provided on an asset and liability approach for financial accounting and reporting of income taxes. Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purpose and is calculated using tax rates that have been enacted or substantively enacted at the balance sheet date. Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 740-10-50-2 requires deferred tax assets and liabilities be recognized for future tax consequence attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to be applied to taxable income in the years in which those temporary differences are expected to reverse. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statement of income in the period that includes the enactment date. A valuation allowance is provided for deferred tax assets if it is more likely than not these items will either expire before the Company is able to realize their benefits, or that future deductibility is uncertain. Losses incurred by the Company in prior years provide for a net operating loss carry-forward. However, due to the fact that all net operating losses are from the U.S. shell company which we currently anticipate insufficient income to utilize in the future, the assets balance has been fully reserved for.

(r) Consolidation of Variable Interest Entities

According to the requirements of Statement of Financial Accounting Standards No. 810-10, "Variable interest Entities", the Company has evaluated the economic relationships of its wholly owned subsidiary, Shenzhen Zhonghefangda Network Technology Co., Ltd. ("Zhonghefangda") with Junlong and has determined that it is required to consolidate Zhonghefangda and Junlong pursuant to the rules of FASB ASC Topic 810-10. Therefore Junlong is considered to be a VIE, as defined by FASB ASC Topic 810-10, of which Classic Bond is the primary beneficiary as a result of its wholly owned subsidiary Zhonghefangda. Classic Bond, as mentioned above, will absorb a majority of the economic risks and rewards of all of these VIE that are being consolidated in the accompanying financial statements.

The carrying amount of the VIEs' assets and liabilities are as follows:

	December 31, 2011	December 31, 2010
Current assets and Long term rental deposit	\$ 21,256,846	\$ 8,968,001
Property, plant and equipment	13,000,745	6,848,343
Intangible assets	161,083	191,087
Total assets	34,418,674	16,007,431
Total liabilities	(11,064,894)	(2,182,851)
Net assets	\$ 23,353,780	\$ 13,824,580

(s) Foreign currency translation

Assets and liabilities of the Company with a functional currency other than US\$ are translated into US\$ using period end exchange rates. Income and expense items are translated at the average exchange rates in effect during the period. Foreign currency translation differences are included as a component of Accumulated Other Comprehensive Income in Stockholders' Equity.

The exchange rates used to translate amounts in RMB into USD for the purposes of preparing the financial statements were as follows:

	12/31/2011	12/31/2010
Year end RMB : USD exchange rate	6.3523	6.6118
Average yearly RMB : USD exchange rate	6.4544	6.7788

The RMB is not freely convertible into foreign currency and all foreign exchange transactions must take place through authorized institutions. No representation is made that the RMB amounts could have been, or could be, converted into USD at the rates used in translation.

(t) Post-retirement and post-employment benefits

The Company contributes to a state pension plan in respect of its PRC employees. Other than the above, neither the Company nor its subsidiary provides any other post-retirement or post-employment benefits.

(u) Earnings per share (EPS)

Earnings per share is calculated in accordance with ASC 260-10 which requires the Company to calculate net income (loss) per share based on basic and diluted net income (loss) per share, as defined. Basic EPS excludes dilution and is computed by dividing net income (loss) by the weighted average number of shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. See Note 16.

(v) Retained earnings-appropriated

In accordance with the relevant PRC regulations and the Company's PRC articles of association, Junlong is required to allocate their respective net income to statutory surplus reserve.

(w) Statutory surplus reserves

In accordance with the relevant laws and regulations of the PRC and the articles of associations of the Company, Junlong is required to allocate 10% of their net income reported in the PRC statutory accounts, after offsetting any prior years' losses, to the statutory surplus reserve, on an annual basis. When the balance of such reserve reaches 50% of the respective registered capital of the subsidiaries, any further allocation is optional.

As of December 31, 2011 and 2010, the statutory surplus reserves of the subsidiary already reached 50% of the registered capital of the subsidiary and the Company did not have any further allocation on it.

The statutory surplus reserves can be used to offset prior years' losses, if any, and may be converted into registered capital, provided that the remaining balances of the reserve after such conversion is not less than 25% of registered capital. The statutory surplus reserve is non-distributable.

(x) Reclassification

Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation.

(y) Recent Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, which is a new accounting guidance to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. The guidance changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This guidance is effective for the Company's fiscal year beginning January 1, 2012. The Company is currently evaluating the impact of this guidance but believes the adoption of it will have no material effect on our consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income, which is a new guidance on the presentation of comprehensive income that will require a company to present components of net income and other comprehensive income in one continuous statement or in two separate, but consecutive statements. There are no changes to the components that are recognized in net income or other comprehensive income under current GAAP. This guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2011, with early adoption permitted. It is applicable to the Company's fiscal year beginning January 1, 2012. Currently, the Company evaluated the effect of ASU 2011-05 on its financial statements and has concluded that it would have no material impact on the Company's consolidated financial statements.

ASU 2011-05 was modified by the issuance of ASU 2011-12 - Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05 in December 2011, which indefinitely deferred certain provisions of ASU 2011-05, including the requirement to present reclassification adjustments out of accumulated other comprehensive income by component in both the statement in which net income is presented and the statement in which other comprehensive income is presented. This amendment is effective for both annual and interim financial statements beginning after December 15, 2011. The Company believes that its adoption of ASU

2011-12 will not have any material impact on its consolidated financial statements.

In December 2011, the FASB issued ASU 2011-11 - *Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities*, which requires entities to disclose both gross and net information about both instruments and transactions eligible for offset in the statement of financial position and instruments and transactions subject to an agreement similar to a master netting agreement. The objective of the disclosure is to facilitate comparison between those entities that prepare their financial statements on the basis of U.S. GAAP and those entities that prepare their financial statements on the basis of International Financial Reporting Standards ("IFRS"). This ASU is effective for fiscal years, and interim periods within those years, beginning on or after January 1, 2013. Retrospective presentation for all comparative periods presented is required. Its adoption of ASU 2011-11 is not expected to have material impact on its consolidated financial statements.

F-13

3. Business Acquisitions

Assets Acquisition of Langman internet café on April 6, 2010 and Chaosu internet café on April 16, 2010.

The Company acquired property, plant and equipment, other current assets and intangible assets of Langman internet café on April 6, 2010 and Chaosu internet café on April 16, 2010 for total gross consideration amount of \$497,457 (RMB3,400,000) and the Company paid the whole purchase consideration on July 28, 2010. The intangible assets are comprised of business licenses and customer lists. In accordance with the purchase method of accounting, the estimated fair market value of these assets has been included in the consolidated financial statements from the date of acquisitions.

The primary reason for business acquisitions of Langman and Chaosu are for the development of market ownership in Longgang district. Langman and Chaosu Internet cafes are located in the center of Longgang Center City. For each individual internet café has a coverage of 5kms, after the acquisition of these two cafes, Junlong has developed full coverage in Longgang Center City.

All intangible and tangible assets acquired, based on their appraised fair values, were as follows:

Property, plant, and equipment	\$346,003
Other current assets	10,973
Intangible assets	140,481
Net assets acquired	\$497,457

Assets Acquisition of Gainianshikong internet café on July 1, 2010.

The Company acquired property, plant and equipment, other current assets and intangible assets of Gainianshikong internet café on July 1, 2010 for total gross consideration amount of \$231,409 (RMB1,550,000) and the Company paid the whole purchase consideration on October 29, 2010. The intangible assets are comprised of business licenses and customer lists. In accordance with the purchase method of accounting, the appraised fair market value of these assets has been included in the consolidated financial statements from the date of acquisitions.

Acquisition of Gainianshikong internet café is for the expansion of business in Baoan District. Baoan is a recent fast developing district of west Shenzhen, which is next to Dongguan City of Guangdong.

All intangible and tangible assets acquired, based on their appraised fair values, were as follows:

Property, plant, and equipment	\$ 157,489
Other current assets	4,819
Intangible assets	69,101
Net assets acquired	\$ 231,409

These acquisitions were asset acquisitions, and there was no goodwill resulting from these acquisitions because the fairly market values were equal to the purchase prices.

4. Cash

Cash is summarized as follows:

	December 31, 2011	December 31, 2010
Cash at bank	\$ 19,609,650	\$ 3,811,136
Cash in hand	20,030	25,688
	\$ 19,629,680	\$ 3,836,824

Financial instruments that potentially subject the Company to significant concentration of credit risk consist primarily of cash and cash equivalents (Note 2). As of December 31, 2011 and 2010, \$19,585,062 and \$3,836,824 of the Company's cash and cash equivalents were held by major banks located in the PRC, which management believes are of high credit quality, and \$44,618 and \$0 of the Company's cash and cash equivalents were held by JP Morgan Chase bank in USA.

5. Restricted Cash

Bank deposits held by:

	December 31, 2011	December 31, 2010
Mr. Fangrong, Zheng – Anshun city in Guizhou province	\$ -	\$945,280
	\$ -	\$945,280

As December 31, 2010, the restricted cash represented the bank deposits of \$945,280 (equivalent to RMB6,250,000) held by an escrow agent on behalf of the Company for registered capital and operating cash flow purposes of a new subsidiary company to be established in Anshun city in Guizhou province.

Incorporation of Two New Subsidiary Companies

The Company was committed to establish two new subsidiary companies, which are located in Yiwu city, Zhejiang province and Anshun city, Guizhou province with the investment of approximately \$2.195 million (equivalent to RMB15 million) each, with total of \$4.39 million as registered capital and operating cash flow purposes. The registered capital of each subsidiary company will be \$0.439 million (RMB3,000,000). As of December 31, 2010, the Company paid approximately \$0.95 million (RMB6.25 million) in total to two escrow agents and the amounts were recorded under restricted cash.

The company decided to close down the subsidiary company located in Yiwu city, Zhejiang province and withdraw the investment of approximately \$737,59 (equivalent to RMB5,000,000) on 30th November, 2010 due to the change in the national expansion strategy.

6. Loan receivable

Loan receivable consists of:

	December 31, 2011	December 31, 2010
Name of Payee: Mr. Long Weijun		
Terms: Interest free, unsecured and repayment date is February 28, 2011	\$ -	\$2,419,916

The Company entered into a trust agreement with Mr. Long Weijun on 25th December 2010 and appointed Mr. Long Weijun as the General Manger of Yunnan subsidiary company. The Company was committed to establish a new subsidiary company located in Kunming city, Yunnan province with the total investment of approximately \$3.02 million (equivalent to RMB 20 million) with 1.51 million (equivalent to RMB 10 million) as registered capital and 1.51 million (equivalent to RMB 10 million) as capital proceeds. The initial proceed was released to Long Weijun on 31st December 2010 of total sum of \$2.42 million (equivalent to RMB 16 million), the rest \$0.6 million (equivalent to RMB 4 million) was released on 7th January 2011. On February 13, 2011, the Company entered into a termination agreement with Mr. Long Weijun to terminate the trust agreement signed on December 25, 2010. The total proceed of \$3.02 million (RMB 20 million) was returned to the Company on February 28, 2011.

7. Equipment Deposit

Equipment deposit consists of:

December 31, 2011	December 31, 2010
\$ 994,732	\$ 1,300,650

As of December 31, 2010, equipment deposit for purchase computers for 4 new internet cafés. Three of them were opened in March 2011 and one of them was opened in April, 2011. As of December 31, 2011, equipment deposit for purchase computers for three new internet cafes. They will be opened in May 2012.

8. Inventory

Inventory consists of:

December 31, 2011	December 31, 2010
-------------------------	-------------------------

Purchased IC cards	\$ 212,607	\$ 180,582
--------------------	------------	------------

There was no allowance made for obsolete or slow moving inventory as of December 31, 2011 and 2010.

9. Property, Plant and Equipment, net

Property, plant and equipment, net, consist of the following:

	December 31, 2011	December 31, 2010
Leasehold improvement	\$4,535,898	\$3,178,890
Cafe computers equipments and hardware	14,130,446	7,045,296

	December 31, 2011	December 31, 2010
Business tax payable	\$605,274	\$420,236
Income tax	582,406	483,006
Withhold individual income tax payable	1,300	4,022

Other tax payable	127,229	79,930
Total	\$1,316,209	\$ 987,194

13. Due To A Shareholder

	December	December
	31,	31,
	2011	2010

Mr. Guo Di Shan, a shareholder of the Company	\$2,135,218	\$ 465,741
---	-------------	------------

The amount due to Mr. Guo Di Shan is unsecured with no stated interest and payable on demand.

14. Cost of revenue

Cost of revenue consists of the following:

	For The Year Ended December 31,	
	2011	2010
Cost of revenue consists of		
Depreciation and amortization	\$2,368,935	\$1,615,096
Salary	2,446,447	1,746,098
Rent	1,886,295	1,089,910
Utility	2,143,416	1,541,090
Business tax and surcharge	7,841,367	4,839,276
Others	3,584,459	991,986
	\$20,270,919	\$11,823,456

15. Income Tax

The components of income before income taxes from continuing operations consisted of the following:

	2011 US\$	2010 US\$
Income (loss) subject to domestic income taxes only	685,681	(626,899)
Income (loss) subject to foreign income taxes only	11,608,737	8,192,862
	12,294,418	7,565,963

The Company is subject to U.S. federal and state income taxes. The Company's subsidiaries incorporated in the PRC are subject to enterprise income taxes in China. The provision for income taxes from continuing operations consisted of the following:

	2011 US\$	2010 US\$
Current:		
Federal	-	-
State	-	-
PRC	2,855,502	1,819,380
	2,855,502	1,819,380
Deferred:		
Federal	-	-
State	-	-
PRC	(69,405)	-
Total provision for income taxes	2,786,097	1,819,380

On March 16, 2007, the National People's Congress enacted a new enterprise income tax law ("New EIT Law"), which took effect on January 1, 2008. The New EIT Law applies a uniform 25% enterprise income tax rate to both foreign invested enterprises and domestic enterprises. While the New EIT Law equalizes the tax rates for foreign invested enterprises and domestic companies, preferential tax treatment would continue to be given to companies in certain encouraged economic sectors in PRC. Based on Circular 39—Circular on the Implementation of the Preferential Policies for Corporate Income Tax during the Transition Period, which was issued by the PRC State Council in 2007, enterprises that previously enjoyed a preferential tax rate, would transit to the statutory enterprise income tax rate of 25% over five years starting from January 1, 2008. During this transition period, for enterprises which previously enjoyed preferential tax rate of 15%, the applicable tax rate would increase to 18% for 2008, 20% for 2009, 22% for 2010, 24% for 2011 and 25% for 2012.

Prior to 2008, Junlong enjoyed a preferential tax rate of 15% as a foreign invested enterprise because it was located in Shenzhen Special Economic Zone. Under the New EIT Law, Junlong was no longer entitled to 15% preferential tax rate but still enjoyed the reduced transitional tax rate at 22% for 2010 and 24% for 2011.

The aggregate dollar effect of preferential tax rate is as follows:

	2011	2010
Aggregate dollar effect of tax holiday	(116,087)	(245,786)
Per share effect—basic	\$0.01	\$0.01
Per share effect—diluted	\$-	\$0.01

The following is a reconciliation of the difference between the actual provision for income taxes and the provision computed by applying the federal statutory rate on income from continuing operations before income taxes:

	2011 US\$	2010 US\$
Tax at federal statutory rate	3,073,604	1,891,491
Permanent differences	(560,095)	-
Loss not benefited	388,675	156,725
Prior year true ups	-	16,950
Tax holiday	(116,087)	(245,786)
	2,786,097	1,819,380

Deferred tax assets and liabilities are recognized for the expected future tax consequences of differences between the carrying amounts of assets and liabilities and their respective tax bases using enacted tax rates in effect for the year in which the differences are expected to reverse. Deferred taxes are comprised of the following:

	2011 US\$	2010 US\$
DTA:		
Deferred assets - others	69,405	-
Deferred assets - NOL	666,516	137,918
Total Deferred assets	735,921	137,918
Total Gross DTA	735,921	137,918
Valuation allowance	(666,516)	(137,918)
Net deferred assets	69,405	-

The Company has recorded a valuation allowance against all of its US deferred tax assets at December 31, 2011 and 2010. In accordance with ASC 740 Accounting for Income Taxes, based on all available evidence, including the Company's historical results and the forecast of its future income, it is more likely than not that its US entity will not

be able to realize its deferred tax assets, and that all of its PRC entities will be able to realize the deferred tax assets.

For U.S. federal income tax purposes, the Company has net operating loss, or NOL carry forwards of approximately \$0.69 million and \$0.16 million, at December 31, 2011 and 2010, respectively. The 2011 net operating loss carry forwards will expire after 20 years beginning 2029 and the 2010 net operating loss carry forwards will expire after 20 years beginning 2028, if not utilized. The Company has no net operating loss carry forwards for PRC enterprise income tax purposes, at December 31, 2011 and 2010, respectively.

F-19

On March 16, 2007, the PRC National People’s Congress passed the PRC Enterprise Income Tax Law (“New EIT Law”) which became effective on January 1, 2008. The New EIT Law applies a uniform 25% enterprise income tax rate to both foreign invested enterprises and domestic enterprises. The New EIT Law provides a five-year transition period from its effective date for those enterprises which were established before the promulgation date of the New EIT Law and which were entitled to a preferential tax treatment such as a reduced tax rate or a tax holiday. On December 26, 2007, the PRC State Council issued the Notice of the State Council Concerning Implementation of Transitional Rules for Enterprise Income Tax Incentives (“Circular 39”). Based on Circular 39, certain specifically listed categories of enterprises which enjoyed a preferential tax rate are eligible for a graduated rate increase to 25% over the 5-year period beginning from January 1, 2008.

Undistributed earnings of the Company’s PRC subsidiary amounted to approximately \$21 million as of December 31, 2011. Those earnings are considered to be permanently reinvested and accordingly, no deferred tax expense is recorded for U.S. federal and state income tax or applicable withholding taxes. The PRC tax authorities have clarified that dividend distributions made out of pre-January 1, 2008 retained earnings will not be subject to withholding taxes.

The Company and its subsidiaries are subject to taxation in the U.S. and the PRC. Our U.S. federal and state income tax returns are generally not subject to examination by the tax authorities for tax years before 2006. The tax authorities in the PRC may examine the tax returns of the Company three years after its fiscal year ended.

16. Earnings per Share

Basic earnings per share is computed by dividing net income attributable to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflects the potential dilution of securities by including other potential common stock, including convertible preferred stock, stock options and warrants, in the weighted average number of common shares outstanding for the period, if dilutive. The numerators and denominators used in the computations of basic and dilutive earnings per share are presented in the following table:

	For The Years Ended Dec 31,	
	2011	2010
BASIC		
Numerator for basic earnings per share attributable to the Company’s common stockholders:		
Net income	\$ 9,508,321	\$ 5,746,583
Dividend on preferred stock	(247,486)	-
Net income used in computing basic earnings per share	\$ 9,260,835	\$ 5,746,583

Edgar Filing: China Internet Cafe Holdings Group, Inc. - Form 10-K/A

Basic weighted average shares outstanding	21,025,803	19,601,644
Basic earnings per share	\$ 0.44	\$ 0.29

For The Years Ended Dec 31,
2011 2010

DILUTED

Numerator for diluted earnings per share attributable to the Company's common stockholders:

Net income	\$ 9,260,835	\$ 5,746,583
Dividend on preferred stock	247,486	-
Net income used in computing diluted earnings per share	\$ 9,508,321	\$ 5,746,583

Weighted average outstanding shares of common stock	20,990,725	19,601,644
Weighted average preferred stock	3,665,704	-
Diluted weighted average shares outstanding	24,691,507	19,601,644
Diluted earnings per share	\$ 0.39	\$ 0.29

Potential common shares outstanding as of December 31:

Series A preferred stock	4,274,703	-
Warrants	2,498,326	-
	6,773,029	-

During the year ended December 31, 2011, the average market price of the common stock during the period was less than the exercise price of the Warrants. Accordingly, the Warrants were anti-dilutive and have not been included in the calculation of diluted earnings per share.

17. Employee Benefits

The Company contributes to a state pension scheme organized by municipal and provincial governments in respect of its employees in PRC. The pension expense related to this plan, which is calculated at a range of 8% of the average monthly salary. The pension expense was \$ 13,833 and \$9,555 for the year ended December 31, 2011 and 2010, respectively.

18. Stockholders' Equity

Common Stock

On July 2, 2010, the China Internet Cafe Holdings Group, Inc. ("China Internet Cafe"), entered into a share exchange transaction with Classic Bond Development Limited, a British Virgin Islands corporation ("Classic Bond"), and the shareholders of Classic Bond. Pursuant to the Share Exchange Agreement, China Internet Cafe acquired 100% of the issued and outstanding capital stock of Classic Bond in exchange for 19,000,000 newly issued shares of the Company's common stock, which represented approximately 94% of the 20,200,000 issued and outstanding shares of common stock after the transaction and after the coincident cancellation of 4,973,600 shares of common stock held by the Company's former majority stockholder which have a net effect of increase of 1,200,000 shares. The business, assets and liabilities did not change as a result of the reverse acquisition.

As of December 31, 2011 and 2010, there are 21,124,967 and 20,200,000 shares of Common Stock issued and outstanding respectively.

Series A Preferred Stock

On February 16, 2011, the Company filed with the Secretary of State of Nevada a Certificate of Designation, Preferences and Rights for the 5% Series A Convertible Preferred Stock, par value \$0.00001 per share (the "Series A Preferred Stock"), as an amendment to its Articles of Incorporation.

For each outstanding share of Series A Preferred Stock, dividends are payable quarterly, at the rate of 5% per annum (\$0.675 per share), on or before each date that is thirty days following the last day of June, September, December and March of each year, commencing September 30, 2011. Dividends on the Series A Preferred Stock accrue and are cumulative from and after the date of initial issuance.

Upon liquidation of the Company, holders of Series A Preferred Stock are entitled to be paid, prior to any distribution to any holders of common stock, or any other class or series of stock issued hereafter or junior to the Series A Preferred Stock, an amount equal to \$1.35 per share plus the amount of any accrued but unpaid dividends thereon, as of the date of liquidation (the "Series A Liquidation Preference"). Until conversion, the Series A Preferred Stock has no voting rights other than with respect to matters that may adversely affect the rights of the holders of the Series A Preferred Stock.

Each share of Series A Preferred Stock may be converted at any time, at the option of the holder, into a number of fully paid and non-assessable shares of Common Stock equal to the quotient of (i) the Series A Liquidation Preference divided by (ii) the conversion price in effect as of the date of the Conversion Notice. The initial conversion price of the Series A Preferred Stock is \$1.35 per share. The conversion price is subject to adjustment for standard anti-dilution events, including stock splits or similar adjustments. In addition, for a period of 12 months following the effective date of the Registration Statement required to be filed under the Registration Rights Agreement discussed below, in the event the Company issues or sells any additional shares of Common Stock or any securities convertible into or exchangeable for, directly or indirectly, Common Stock at a price per share less than the then-applicable Conversion Price or without consideration, then the Conversion Price upon each such issuance will be reduced to the price determined by multiplying the Conversion Price by a fraction: (1) the numerator of which is equal to the sum of (i) the number of shares of outstanding Common Stock immediately prior to the issuance of such additional shares of Common Stock plus (ii) the number of shares of Common Stock which the aggregate consideration for the total number of such additional shares of Common Stock so issued would purchase at a price per share equal to the outstanding Conversion Price in effect immediately prior to such issuance; and (2) the denominator of which is equal to the number of shares of outstanding Common Stock immediately after the issuance of such additional shares of Common Stock.

The Series A Preferred Stock is not subject to mandatory redemption (except on liquidation) but is redeemable in certain circumstances:

If, upon the Company's receipt of a Conversion Notice, the Company cannot issue shares of Common Stock registered for resale under the Registration Statement for any reason, including, without limitation, because the Company (i) does not have a sufficient number of shares of Common Stock authorized and available, (ii) is otherwise prohibited by applicable law or by the rules or regulations of any stock exchange, interdealer quotation system or other self-regulatory organization with jurisdiction over the Company or its securities from issuing all of the Common Stock which is to be issued to a holder of Series A Preferred Stock pursuant to a Conversion Notice or (iii) subsequent to the effective date of the Registration Statement, fails to have a sufficient number of shares of Common Stock registered for resale under the Registration Statement, then the Company shall issue as many shares of Common Stock as it is able to issue in accordance with such holder's Conversion Notice and with respect to the unconverted Series A Preferred Stock, the holder, solely at such holder's option, can require the Company to redeem the shares that cannot be converted at their Series A Liquidation Preference of \$1.35 per share.

If an "Organic Change" occurs (defined as (i) a capital reorganization of the Company (other than by way of a stock split or combination of shares or stock dividends or distributions or similar events, or (ii) a merger or consolidation of the Company with or into another corporation where the holders of the Company's outstanding voting securities prior to such merger or consolidation do not own over 50% of the outstanding voting securities of the merged or consolidated entity, immediately after such merger or consolidation, or (iii) the sale of all or substantially all of the Company's properties or assets to any other person, the holders of the Series A Preferred Stock may request redemption at 110% of the Series A Liquidation Preference of \$1.35 per share. Because of the possible redemption conditions, the Series A Preferred Stock is classified as mezzanine equity.

In addition to the holder's right to convert the Series A Preferred Stock at any time, provided that the Common Stock underlying the Series A Preferred Stock is registered under an effective registration statement or is available for resale under Rule 144, without limitation, all outstanding shares of the Series A Preferred Stock will automatically convert into shares of Common Stock (subject to a restriction that the holder may not convert if it would result in them holding in excess of 9.99% of the then issued and outstanding shares of Common Stock, unless they waive such restriction in writing at least 61 days prior) at the earlier to occur of (i) the 24 month anniversary of the Closing Date, or (ii) at such time that the volume-weighted average price of the Company's Common Stock is equal to or greater than \$3.00 (as may be adjusted for any stock splits or combinations of the Common Stock) for a period of ten consecutive trading days and such Common Stock has an average daily trading volume, for ten consecutive trading days, equal to or greater than 50,000 shares.

As of December 31, 2011, there were 4,274,703 shares of Series A Preferred Stock outstanding, which were issued on February 22, 2011. No shares were outstanding at December 31, 2010.

19. Sale of Common Stock, Series A Preferred Stock and Warrants

Securities Purchase Agreement

On February 22, 2011 (the "Closing Date"), the Company completed a private placement (the "Offering") of 474,967 units at a purchase price of \$13.50 per unit, each unit consisting of: (i) nine shares of the Company's Series A Preferred Stock, convertible on a one to one basis into nine shares of the Company's common stock; (ii) one share of Common Stock; (iii) two three-year Series A Warrants (the "Series A Warrants"), each exercisable for the purchase of one share of Common Stock, at an exercise price of \$2.00 per share; and (iv) two three-year Series B Warrants (the "Series B Warrants"), each exercisable for the purchase of one share of Common Stock, at an exercise price of \$3.00 per share. The Company received aggregate gross proceeds of \$6,412,055. The Offering was conducted pursuant to a Securities Purchase Agreement (the "Agreement") between the Company and various accredited investors (the "Investors").

Because certain of the instruments issued in the Offering are derivative instruments which will be initially and continuously carried at fair value, we believe the aggregate proceeds received should be allocated following the principles implicit in the guidance at ASC 815-15-30-2. The proceeds are first allocated to those derivative instruments that will initially and continuously be carried at fair value. The remaining proceeds, if any, are then allocated between the non-derivative host contract and other non-derivative instruments on a relative fair value basis.

The Company reviewed the features of the Series A Preferred Stock, other than the conversion feature, and concluded that, on balance, the terms and features of the host contract should be considered to be more akin to a debt instrument. Accordingly, the embedded conversion option may be required to be bifurcated and accounted for as a derivative instrument unless it meets the exemption provided by ASC 815-10-15-74a.

The conversion price of the Series A Preferred Stock is subject to adjustment if the Company subsequently sells Common Stock at a lower price. Also, as described below for the Warrants, the conversion option is denominated in U.S. dollars, a currency other than the Company's functional currency. Accordingly, the embedded conversion option is not considered to be indexed only to the Company's common stock. In addition, the Company may be required to redeem the Series A Preferred Stock for cash if, on receipt of a conversion request, it is unable to issue shares registered for resale for any reason. In addition, the conversion price of the Series A Preferred Stock is subject to adjustment if the Company subsequently sells Common Stock at a lower price but there is no explicit limit on the number of shares that the Company may be required to issue. As a result of the foregoing, the exemption provided by ASC 815-10-15-74a is not available and the embedded conversion option has been bifurcated and accounted for as a derivative liability. Because the embedded conversion option has been bifurcated and accounted for as a derivative liability, no beneficial conversion option was required to be recognized.

Warrants

The Series A and Series B Warrants are exercisable at any time and from time to time at an exercise price of \$2.00 and \$3.00 per share, respectively, and expire on February 22, 2014. The holder may elect a cashless exercise of the Warrants beginning 12 months after the issuance date but only if the shares underlying the Warrants are not registered for sale.

The Warrants contain standard anti-dilution adjustments for stock splits and similar events but the exercise price is not otherwise subject to adjustment.

The Company may call the Series A and Series B Warrants for redemption at a redemption price of \$0.01 per Warrant share if the shares underlying the Warrants are registered for sale and the volume-weighted average price of the Company's Common Stock is equal to or greater than \$6.00 per share or \$9.00 per share, respectively, for a period of

ten consecutive trading days and such Common Stock has an average daily trading volume, for ten consecutive trading days, equal to or greater than 75,000 shares per day.

The Warrants are free-standing derivative instruments. Although the Company is a U.S. entity, the Company has no U.S. operations and all of its operations are conducted, through its subsidiaries, in the People's Republic of China. Accordingly, because the Company is fully invested in China and those operations in China represent the Company's only source of future revenues or income, the Company concluded that its functional currency should be considered to be the RMB. As a result, because the Warrants are denominated in U.S. dollars, they are denominated in a currency different from the Company's functional currency and therefore, in accordance with the guidance at ASC 815-40-15-7I, the Warrants are not considered to be indexed only to the Company's common stock. As a result, the exemption provided by ASC 815-10-15-74a is not available and the Warrants are recorded as a derivative liability.

F-23

Registration Rights Agreement

In connection with the Offering, the Company entered into a Registration Rights Agreement with the Investors, in which the Company agreed to file a registration statement to register for resale the Common Stock and the Common Stock issuable upon conversion of the Series A Preferred Stock and exercise of the Series A and Series B Warrants, within 45 calendar days of the Closing Date, and to have the registration statement declared effective within 150 calendar days of the Closing Date or within 180 calendar days of the Closing Date in the event of a full review of the registration statement by the Securities and Exchange Commission. If the Company does not comply with the foregoing obligations under the Registration Rights Agreement, the Company will be required to pay cash liquidated damages to each Investor, at the rate of 1% of the applicable subscription amount for each 30 day period or part thereof in which we are not in compliance; provided, that such liquidated damages will be capped at 10% of the subscription amount of each Investor and will not apply to any securities that may be sold pursuant to Rule 144 under the Securities Act, or which are subject to an SEC restriction with respect to Rule 415 under the Securities Act.

The required registration statement was filed by the required due date. However, the Company did not meet the deadline to render its S-1 registration statement effective. At December 31, 2011, the Company has accrued, \$448,844 for the estimated liquidated damages it expects to pay.

Placement Agent Fees

In connection with the Offering, the Company paid its placement agents (i) a cash fee of 7% of the gross proceeds from sale of the Units, (ii) a cash management fee of 1% and (iii) a 0.5% non-accountable expense allowance. In addition to these placement agent cash fees aggregating \$545,025, the Company paid \$181,415 in legal fees and other expense related to the Offering. After payment of the placement agent cash fees and legal and other expenses, the Company received net proceeds of \$5,675,614.

In addition, the placement agents received warrants to purchase such number of securities equal to 9% of the aggregate number of shares of common stock issuable in connection with the Units (the "Placement Agent Warrants"). The Placement Agent Warrants expire after three years and are exercisable at the following prices: (i) 427,740 Warrants - \$1.35 per share (ii) 85,494 Series A Warrants - \$2.00 per share and (iii) 85,494 Series B Warrants - \$3.00 per share. The terms of the Warrants, including anti-dilution protection for stock splits and similar events, are similar to the Warrants issued to the Investors, except that the 427,740 Warrants do not permit the Company to call the Warrants.

Securities Escrow Agreement

In connection with the Offering, we also entered into a Securities Escrow Agreement with the Investors and Mr. Dishan Guo (the “Stockholder”), the Company’s chairman and principal stockholder, pursuant to which the Stockholder placed in escrow one share of our Common Stock for each \$10 of Units sold to the Investors, equal to 641,205 shares of Common Stock (the “Escrow Shares”). The escrow agreement establishes a performance threshold for the Company based on net income (as defined and subject to certain non-cash adjustments) for the year ending December 31, 2011 of \$10,000,000. If the Company achieves 95% or more of the performance threshold, the shares will be returned to the Stockholder. If the Company’s net income is less than \$9,500,000, then the shares will be delivered to the Investors in the amount of 10% of the escrow shares for each full percentage point by which such performance threshold was not achieved, up to a maximum of the 641,205 shares placed in escrow.

The Stockholder’s agreement to place the shares in escrow was undertaken in his capacity as a major stockholder of the Company. In accordance with the guidance at ASC 718-10-S99-2, the Company does not believe the potential return of the shares to the Stockholder is compensatory because such return is not contingent on his continued employment with the Company. The Investors who may receive shares under the escrow arrangement have no relationship with the Company other than in their capacity as shareholders.

The shares are outstanding and are included in the weighted average shares outstanding for purposes of computing basic earnings per share.

Lock-up Agreement

On the Closing Date, the Company entered into a lock-up agreement (the “Lock-Up Agreement”) with the Stockholder whereby the Stockholder is prohibited from selling our securities that they directly or indirectly own (the “Lock-Up Shares”) until nine months after the Registration Statement is declared effective (the “Lock-Up Period”). In addition, the Stockholder further agreed that during the 12 months immediately following the Lock-Up Period, the Stockholder will not offer, sell, contract to sell, assign or transfer more than 0.833% of the Lock-Up Shares during each calendar month following the Lock-Up Period, other than engaging in a transfer in a private sale of the Lock-Up Shares if the transferee agrees in writing to be bound by and subject to the terms of the Lock-Up Agreement.

Accounting for Derivative Instruments

The Warrants and Placement Agent Warrants are derivative instruments as defined in ASC 815-10-15-83. ASC 815-10-15-74 provides that a contract that would otherwise meet the definition of a derivative instrument but that is both (a) indexed to a company’s own stock and (b) classified in stockholders’ equity in the statement of financial position would not be considered a derivative financial instrument. FASB ASC 815-40-15 and 815-40-25 provide guidance for determining whether those two criteria are met. For purposes of this evaluation, the Company has concluded that the Company’s functional currency is the Renminbi. Because the Warrants are denominated in U.S. Dollars, FASB ASC 815-40-15-7I provides that they are not considered to be indexed only to the Company’s Common Stock. Accordingly, the exemption in FASB ASC 815-10-15-74 is not available and the Warrants are classified as a derivative instrument liability.

The Series A Preferred Stock is a hybrid financial instrument that embodies the risks and rewards typically associated with both equity and debt instruments. Accordingly, we are required to evaluate the features of this contract to determine its nature as either an equity-type contract or a debt-type contract. We determined that the Series A Preferred Stock is generally more akin to a debt-type contract, principally due to its potential redemption requirements, its fixed rate quarterly dividend requirement and its lack of voting rights. This determination is subjective. However, in complying with the guidance provided in FASB ASC 815, we concluded, based upon the preponderance and weight of all terms, conditions and features of the host contract, that the Series A Preferred Stock was more akin to a debt instrument for purposes of considering the clear and close relationship of the embedded derivative features to the host contract. ASC 815 requires bifurcation when the embedded derivative features and the host contract have risks that are not clearly and closely related. Certain exemptions to this rule, such as that for conventional convertible instruments that are convertible into a fixed number of shares, were not available to us because the conversion price of the Series A Preferred Stock is not fixed and will be adjusted if the Company sells shares of Common Stock at a price lower than the conversion price. Also, because the conversion price of the Series A

Preferred Stock is denominated in U.S. Dollars, as for the warrants discussed above, the embedded conversion option is not considered to be indexed only to the Company's Common Stock. In addition, the Company may be required to redeem the Series A Preferred Stock if it is unable to deliver registered shares on conversion. Accordingly, the exemption in FASB ASC 815-10-15-74 is not available and the embedded conversion option, along with certain other features of the Series A Preferred Stock that have risks of equity, required bifurcation and classification in liabilities as a compound embedded derivative financial instrument.

Derivative financial instruments are initially measured at their fair value and are then re-valued at each reporting date, with changes in the fair value reported as charges or credits to income.

F-25

Valuation of Derivative Instruments

The Warrants and the Placement Agent Warrants were initially valued, using a binomial model, at \$649,821 and \$262,966, respectively, based on the quoted market price of the Common Stock of \$1.00 per share, a term equal to the remaining life of the Warrants, an expected dividend yield of 0%, a risk-free interest rate of 1.32% based on constant maturity rates published by the U.S. Federal Reserve applicable to the remaining life of the Warrants and estimated volatility of 85%, based on a review of the historical volatility of publicly-traded companies considered by management to be comparable to the Company.

The compound embedded derivative financial instrument related to the Series A Preferred Stock, consisting primarily of the embedded conversion option, was initially valued, using a binomial model, at \$1,604,794, based on the quoted market price of the Common Stock of \$1.00, a term equal to the expected life of the conversion option, an expected dividend yield of 0%, a risk-free interest rate of 0.78% based on constant maturity rates published by the U.S. Federal Reserve applicable to the expected life and estimated volatility of 85%.

After allocating a portion of the proceeds received to the fair value of the Warrants and the embedded derivative instrument in the Series A Preferred Stock, the remaining proceeds were allocated to the Common Stock component of the Units and the carrying value of the Series A Preferred Stock host contract.

At December 31, 2011, the Warrants, the Placement Agent Warrants and the embedded derivative instrument related to the Series A Preferred Stock were re-valued at \$84,951, \$44,545 and \$147,704, respectively, using a binomial model, based on the quoted market price of \$0.44, a term equal to the remaining life of the instruments, an expected dividend yield of 0%, risk-free interest rates of 0.14% to 0.27% based on constant maturity rates published by the U.S. Federal Reserve applicable to the remaining life of the instruments and estimated volatility of 85%. The aggregate change in the fair value of the derivative liabilities between February 22, 2011 and December 31, 2011 of \$2,240,380 has been credited to income.

Accounting for Series A Preferred Stock

\$3,682,473 of the proceeds received were allocated to the carrying value of the Series A Preferred Stock host contract. The 4,274,703 shares of Series A Preferred Stock have a liquidation value of \$5,770,849. Because the Series A Preferred Stock has conditions for its redemption that are outside our control, it is classified outside of Stockholders' Equity, in the mezzanine section of our balance sheet, in accordance with ASC 480-10-S99-3A. Because the Series A Preferred Stock is not currently redeemable and the Company currently believes that it is not probable that it will become redeemable, no adjustment of the carrying value of the Series A Preferred Stock has been recognized. If it becomes probable that the Series A Preferred Stock will be redeemed, it will be adjusted to its redemption value.

Placement Agent Fees

The placement agent cash fees of \$545,025, other expenses related to the sale of the Units of \$181,415 and the initial fair value of the Placement Agent Warrants of \$262,966, aggregating \$989,406, have been charged to additional paid-in capital.

Advisory Fees

On November 22, 2010, the Company entered into a 12 month Advisory Agreement with an affiliate of its placement agent, under which the affiliate agreed to render on-going financial advisory and investment banking services to the Company. As compensation for its services, the Company agreed to pay a monthly fee of \$10,000, payable on the first day of each month after the completion of a Transaction, as defined in the agreement between the Company and its placement agent. Payment of these fees commenced on March 1, 2011, following completion of the sale of the Units.

F-26

The Company also agreed to place in escrow for issuance to the affiliate a total of 400,000 shares of Common Stock, with 200,000 shares to be released following the completion of a Transaction, 100,000 shares to be released six months after the completion of a Transaction and 100,000 shares to be released 12 months after the completion of a Transaction. In accordance with ASC 505-50-25-7, the Company concluded that the value of the shares should be measured at the date the Transaction was completed because the shares are effectively fully vested as of that date and non-forfeitable and the agreement does not provide for any further specific performance criteria to be met. The Company valued the shares issued at \$1.00 per share (based on the quoted market price), resulting in compensation expense for the services rendered and to be rendered of \$400,000. The expense related to the services provided and to be provided was recognized over the period from November 22, 2010, the date from which services commenced under the agreement, to the one year anniversary, when the agreement expired. At December 31, 2011, the expense has been fully recognized.

In addition to the above fees, the Company issued 50,000 shares to its legal counsel, in consideration for their introducing the Company to the placement agent. The cost of these shares, which were valued at \$1.00 per share (determined as described above) were expensed during the year ended December 31, 2011.

Fair Value Considerations

As required by FASB ASC 820, assets and liabilities measured at fair value are classified in their entirety based on the lowest level of input that is significant to their fair value measurement. Our derivative financial instruments that are measured at fair value on a recurring basis under FASB ASC 815 are all measured at fair value using Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following represents a reconciliation of the changes in fair value of financial instruments measured at fair value using Level 3 inputs during the year ended December 31, 2011:

	Preferred – Embedded Derivative	Warrants	Total
Beginning balance, December 31, 2010	\$-	\$-	\$-
Issued – February 22, 2011	1,604,794	912,786	2,517,580
Fair value adjustments	(1,457,090)	(783,290)	(2,240,380)
Ending balance, December 31, 2011	\$147,704	\$129,496	\$277,200

Estimating fair values of derivative financial instruments requires the development of significant and subjective estimates that may, and are likely to, change over the duration of the instrument with related changes in internal and external market factors. In addition, valuation techniques are sensitive to changes in the estimated fair value of our common stock and our estimates of its volatility. Because derivative financial instruments are initially and subsequently carried at fair values, our income will reflect the volatility in these estimate and assumption changes.

20. Commitments and Contingencies

Operating Leases

In the normal course of business, the Company leases office space and internet cafes under operating leases agreements, which expire through 2016. The Company rents internet cafes venues and office space, primarily for regional sales administration offices that are conducive to administrative operations. The operating leases agreements generally contain renewal options that may be exercised in the Company's discretion after the completion of the base rental terms. In addition, many of the leases provide for regular increases to the base rental rate at specified intervals, which usually occur on an annual basis.

As of December 31, 2011, the Company was obligated under operating leases requiring minimum rentals as follows:

Fiscal year	
2012	\$2,015,003
2013	1,645,219
2014	1,543,118
2015	1,127,831
2016	185,300
	\$6,516,471

During the year ended December 31, 2011, rent expenses amounted to \$2,074,611, of which \$1,886,295 and \$188,316 was recorded as cost of sales and general and administrative expense, respectively.

During the year ended December 31, 2010, rent expenses amounted to \$1,153,802, of which \$1,089,910 and \$63,892 was recorded as cost of sales and general and administrative expense, respectively.

Purchase of Plant & Equipment of a total consideration of \$1.24 million

During the fiscal year ended December 31, 2011, the Company signed six contracts for leasehold improvement and to purchase of equipment for the three internet cafes under construction, totaling \$1,243,416 (representing RMB7,898,549). As of December 31, 2011, the Company paid \$994,732 (representing RMB6,318,839) was recorded in Equipments Deposits for those leasehold improvement and equipments not delivered yet.

Purchase of Plant & Equipment of a total consideration of \$1.74 million

During the fiscal year ended December 31, 2010, the Company signed two contracts for leasehold improvement and to purchase of plant and equipment for the four internet cafes under construction, totaling \$1,743,587 (representing RMB11,528,250). As of December 31, 2010, the Company paid \$1,300,650 (representing RMB8,599,635) was recorded in Equipments Deposits for those plant and equipments not delivered yet.

Social Benefits Coverage

We have obtained social benefits coverage for employees who work at the Junlong headquarters. For other employees, because of the high mobility of their work, and the difficulty of transferring social benefits coverage from one province to another, they usually work on a probationary basis and do not enter into long employment relationships with us. Because the cost of social benefits coverage is considerable compared to their total monthly income, the

Company allows the employees to decide whether or not to pay the social benefits coverage. It is reasonable to assume that the company is subject to administrative fines and penalties as a result of its failure to obtain social insurance for these employees.

21. Concentrations

The Company did not have any customer constituting greater than 10% of net sales for the years ended December 31, 2011 and 2010.

At December 31, 2011 and 2010, there was one supplier of consignment snacks and drinks with amount of \$100,480 and \$67,224 respectively, which accounted for 100% and 97% of the Company's account payable.

22. Operating Risk and Uncertainties

Interest rate risk

The interest rates and terms of repayment of bank and other borrowings are disclosed in Note 11. Other financial assets and liabilities do not have material interest rate risk.

Foreign currency risk

Most of the transactions of the Company were settled in Renminbi. In the opinion of the directors, the Company does not have significant foreign currency risk exposure.

Company's operations are substantially in foreign countries

Substantially all of the Company's services are provided in China. The Company's operations are subject to various political, economic, and other risks and uncertainties inherent in China. Among other risks, the Company's operations are subject to the risks of restrictions on transfer of funds; export duties, quotas, and embargoes; domestic and international customs and tariffs; changing taxation policies; foreign exchange restrictions; and political conditions and governmental regulations.

The Chinese government began tightening its regulation of internet cafes since 2001. In particular, a large number of unlicensed internet cafes have been closed. In addition, the Chinese government has imposed higher capital (RMB10,000,000 for regional internet café chain is required and RMB50,000,000 for national internet café chain) and facility requirements for the establishment of internet cafes. Furthermore, the Chinese government's policy, which encourages the development of a limited number of national and regional internet cafe chains and discourages the establishment of independent internet cafes, may slow down the growth of internet cafes. Recently, the Ministry of Culture, together with other government authorities, issued a joint notice suspending the issuance of new internet cafe chain licenses. Any intensified government regulation of internet cafes could restrict our ability to maintain and expand our internet cafes.

Currently, the Company uses only one internet service provider. However, there are other internet service providers available to the Company. The management of the Company believes that the risk of loss of internet services is not that high because of other service providers available to the Company.

23. Segment Information

The Company applies the provisions of ASC 280, "Disclosures about Segments of an Enterprise and Related Information". The Company views its operations and manages its business as one segment: the operation of internet café chain. Factors used to identify the Company's single operating segment include the organizational structure of the Company and the financial information available for evaluation by the chief operating decision-maker in making decisions about how to allocate resources and assess performance. The Company operates predominantly in one geographical area, the PRC.

24. Subsequent Events

As of December 31, 2011, the Company evaluated subsequent events for potential recognition and disclosure through the date of the financial statement issuance.

25. Additional Information - Condensed Financial Statements of the Company

The Company is required to include the condensed financial statements of the Company in accordance with Regulation S-X promulgated by the United States Securities and Exchange Commission. The separate condensed financial statements of the Company as presented below have been prepared in accordance Securities and Exchange Commission Regulation S-X Rule 5-04 and Rule 12-04 and present the Company's investments in its subsidiaries under the equity method of accounting. Subsidiaries income is included as the Company's "Share of income from subsidiaries" on the condensed statement of income and comprehensive income.

As of December 31, 2011 and 2010, there were no material contingencies, significant provisions for long-term obligations, or guarantees of the Company, except for those which have been separately disclosed in the Consolidated Financial Statements, if any.

Item 9A. Control and Procedures.

Evaluation of Disclosure Controls and Procedures

The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in the reports filed under the Securities Exchange Act, is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms. Disclosure controls are also designed with the objective of ensuring that this information is accumulated and communicated to the Company's management, including the Company's chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Pursuant to Rule 13a-15(b) under the Exchange Act, the Company carried out an evaluation with the participation of the Company's management, including Dishan Guo, the Company's chief executive officer, and chief financial officer, of the effectiveness of the Company's disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the fiscal year ended December 31, 2011. Based upon that evaluation, the Company's chief executive officer and chief financial officer concluded that the Company's disclosure controls and procedures were not effective as of December 31, 2011 as a result of the material weaknesses identified in our internal control over financial reporting. These material weaknesses are discussed in "Management's Report on Internal Control over Financial Reporting" below. Our management considers our internal control over financial reporting to be an integral part of our disclosure controls and procedures.

Management's Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over our financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act. The Company's management is also required to assess and report on the effectiveness of the Company's internal control over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act of 2002 ("Section 404"). Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of the Company's financial reporting for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes policies and procedures that: (i) pertain to maintaining records that in reasonable detail accurately and fairly reflect the Company's transactions; (ii) provide reasonable assurance that transactions are recorded as necessary for preparation of the Company's financial statements and that receipts and expenditures of company assets are made in accordance with management authorization; and (iii) provide reasonable assurance that unauthorized acquisition, use or disposition of company assets that could have a material effect on our financial statements would be prevented or detected on a timely basis.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

The Company's management assessed the effectiveness of our internal control over financial reporting as of December 31, 2011. In making this assessment, it used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control—Integrated Framework*, including the following five framework components: i) control environment, ii) risk assessment, iii) control activities, iv) information and communications, and v) monitoring.

Based on management's evaluation, our chief executive officer and chief financial officer concluded that, as a result of the material weakness described below, as of December 31, 2011, our internal control over financial reporting was not effective.

Specifically, our management identified certain matters involving internal control and our operations that it considered to be material weaknesses. As defined in the Exchange Act, a material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the registrant's annual or interim financial statements will not be prevented or detected on a timely basis. The material weakness identified by our management as of December 31, 2011, is described below:

We did not maintain sufficient personnel with an appropriate level of technical accounting knowledge, experience, and training in the application of GAAP commensurate with our complexity and our financial accounting and reporting requirements. This control deficiency is pervasive in nature. Further, there is a reasonable possibility that material misstatements of the financial statements including disclosures will not be prevented or detected on a timely basis as a result.

As a result of the material weakness identified above, our internal control over financial reporting was not effective as of December 31, 2011.

2012 Planned Remediation

We are committed to improving our financial organization. As part of this commitment, we will look to increase our personnel resources and technical accounting expertise within the accounting function by the end of fiscal 2011 to resolve non-routine or complex accounting matters. We have in the past, and will continue to engage outside consultants in the future as necessary in order to ensure proper treatment of non-routine or complex accounting matters.

Management believes that hiring additional knowledgeable personnel with technical accounting expertise will remedy the material weakness of having insufficient personnel with an appropriate level of technical accounting knowledge, experience, and training in the application of GAAP commensurate with our complexity and our financial accounting and reporting requirements.

We will continue to monitor and evaluate the effectiveness of our disclosure controls and procedures and our internal controls over financial reporting on an ongoing basis and are committed to taking further action and implementing additional enhancements or improvements, as necessary and as funds allow.

Changes in Internal Control over Financial Reporting

No changes in the Company's internal control over financial reporting have come to management's attention during the Company's last fiscal quarter that have materially affected, or are likely to materially affect, the Company's internal control over financial reporting.

Limitations on Controls

Management does not expect that the Company's disclosure controls and procedures or the Company's internal control over financial reporting will prevent or detect all error and fraud. Any control system, no matter how well designed and operated, is based upon certain assumptions and can provide only reasonable, not absolute, assurance that its objectives will be met. Further, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected.
