NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

Monmouth Real Estate Investment Corporation, together with its consolidated subsidiaries (MREIC, the Company, or we), operates as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. As of June 30, 2013 and September 30, 2012, rental properties consisted of seventy-four and seventy-two property holdings, respectively. These properties are located in twenty-six states: Alabama, Arizona, Colorado, Connecticut, Florida, Georgia, Illinois, Iowa, Kansas, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and Wisconsin. In addition, one of the properties that the Company currently owns is owned through a majority interest in a limited liability company, with which the Company consolidates its results of operations and financial condition. The Company also owns a portfolio of REIT investment securities.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended June 30, 2013 are not necessarily indicative of the results that may be expected for the year ending September 30, 2013. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company's annual report on Form 10-K for the fiscal year ended September 30, 2012.

Use of Estimates

In preparing the financial statements in accordance with US GAAP, management is required to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates and assumptions.

### Reclassification

Certain prior period amounts in the accompanying Consolidated Financial Statements have been reclassified to conform to the current period's presentation.

During fiscal 2011, the Quakertown, PA property was reclassified to Held for Sale, which resulted in \$19,628 of income for the nine months ended June 30, 2012, being reclassified into Discontinued Operations. On October 31, 2011, the Quakertown, PA property was sold. In addition, during fiscal 2013, the Greensboro, NC property was reclassified to Held for Sale, which resulted in \$(4,898) and \$(3,657) of income (loss) for the three months ended June 30, 2013 and 2012, respectively, and \$291,560 and \$(19,058) of income (loss) for the nine months ended June 30, 2013 and 2012, respectively, being reclassified into Discontinued Operations. Table of Contents

Lease Termination Income

Lease Termination Income is recognized in operating revenues when there is a signed termination agreement, all of the conditions of the agreement have been met, the tenant is no longer occupying the property and the termination consideration is probable of collection. Lease termination amounts are paid by tenants who want to terminate their lease obligations before the end of the contractual term of the lease by agreement with the Company.

In March 2012, the Company received \$3,222,283 in Lease Termination Income on its 388,671 square foot property located in St. Joseph, MO. Under the terms of this lease termination agreement, the tenant was required to pay the Company additional rent from September 1, 2012 through November 30, 2012 in the amount of \$111,113 per month (pro-rated for any area/time leased to another tenant). On May 8, 2012, the Company entered into a 5-year lease agreement for this space with another tenant for 256,000 square feet (representing approximately 66% of the space). In December 2012, the Company received \$113,784 in Lease Termination Income representing additional rent from September 1, 2012 through November 30, 2012 for the 34% portion of the space that was not re-leased.

In October 2012, the Company's tenant at its 160,000 square foot property located in Monroe, NC exercised its early termination option. The Company received a lump sum termination payment in October 2012 of \$576,946 which was calculated based on the period covering November 1, 2012 through July 31, 2013.

The Company's lease with its tenant at its 26,340 square foot location in Ridgeland (Jackson), MS has an early termination option which may be exercised at any time subsequent to December 2013 provided the Company is given six months notice. The rent per annum for this location is \$109,275 and the lease expires in July 2019. The Company does not anticipate that this tenant will exercise its early termination option. The Company does not have any other leases that contain an early termination option.

Stock Based Compensation

The Company accounts for stock options and restricted stock in accordance with ASC 718-10 which requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). This compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value for restricted stock awards is equal to the fair value of the Company's common stock on the grant date. Included in General and Administrative Expense in the accompanying Consolidated Statements of Operations are compensation costs of \$81,562 and \$196,019 which have been recognized during the three months ended June 30, 2013 and 2012, respectively and compensation costs of \$242,651 and \$322,715 which have been recognized during the nine months ended June 30, 2013 and 2012, respectively.

During the nine months ended June 30, 2013 and 2012, the following stock options were granted under the Company's Amended and Restated 2007 Stock Option and Stock Award plan (the Amended and Restated 2007 Plan):

Recent Accounting Pronouncements

In February 2013, the FASB issued ASU 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. ASU 2013-02 does not change the current requirements for reporting net income or other comprehensive income in financial statements. However, ASU 2013-02 requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under US GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under US GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under US GAAP that provide additional detail about those amounts. This ASU is effective prospectively, for reporting periods, beginning on or after December 15, 2012. The adoption of ASU 2013-02 did not have a material impact on our financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements

NOTE 2 – NET INCOME PER SHARE

Basic Net Income per Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding during the period. Diluted Net Income per Common Share is calculated by dividing Net Income attributable to Common Shareholders plus Interest Expense related to the Company's Convertible Subordinated Debentures (Debentures) by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method, plus the number of shares resulting from the possible conversion of the Debentures during the period. During the three months ended December 31, 2012, the Company redeemed all of its outstanding Debentures (see Note 6). Interest Expense of \$175,800 and \$527,400 for the three and nine months ended June 30, 2012, respectively, and 850,000 common shares to be issued upon the potential conversion of the outstanding Debentures as of June 30, 2012 were excluded from the calculation due to their antidilutive effect.

In addition, common stock equivalents of 184,813 and 227,986 shares are included in the diluted weighted average shares outstanding for the three months ended June 30, 2013 and 2012, respectively, and

Table of Contents

common stock equivalents of 191,623 and 152,887 shares are included in the diluted weighted average shares outstanding for the nine months ended June 30, 2013 and 2012, respectively. As of June 30, 2013 and 2012, no options to purchase shares of common stock were antidilutive.

Acquisitions and Building Expansions

On November 9, 2012, the Company purchased a 172,005 square foot industrial building located in Livonia, MI. The building is 100% net leased to FedEx Ground Packaging System, Inc. through March 31, 2022. The purchase price was \$14,350,000. The Company obtained a self-amortizing mortgage of \$9,500,000 at a fixed interest rate of 4.45% for 14 years and paid the remaining amount with Cash on hand. This mortgage matures on December 1, 2026. Annual rental income over the remaining term of the lease is approximately \$1,191,000. In connection with the acquisition, the Company completed its evaluation of the acquired lease. As a result of its evaluation, the Company has allocated \$650,000 to an Intangible Asset associated with the net fair value assigned to the acquired lease at the property. Therefore, \$394,490 of the reimbursement was applied as a reduction to the mortgage balance and the mortgage agreement was amended to reflect this reduction in principal. In addition, in accordance with the purchase and lease agreements, the reduction in purchase price resulted in the annual Rental Income over the remaining term of the lease to be adjusted from approximately \$1,965,000 to \$1,924,000. The Company is also required to disclose certain information about fair values of financial instruments. Estimates of fair value are made at a specific point in time based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only, and therefore cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of Cash and Cash Equivalents approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate Loans Payable and Subordinated Debentures (which have been fully redeemed as of June 30, 2013) approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. At June 30, 2013, the fair value (estimated based upon expected cash outflows discounted at current market rates) and carrying value of fixed rate Mortgage Notes Payable amounted to \$258,495,080 and \$247,615,974, respectively.

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto provided elsewhere herein and the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2012.

The Company is a REIT. The Company seeks to invest in well-located, modern industrial buildings leased primarily to investment grade tenants on long-term net leases. During the nine months ended June 30, 2013, the Company purchased three net-leased industrial properties, located in Livonia, MI; Olive Branch, MS and Roanoke, VA totaling approximately 891,000 square feet, for \$51,918,816. As of June 30, 2013, the Company owned seventy-three industrial properties and one shopping center with total square footage of approximately 9,383,000 square feet. In addition, the Company's average rent per occupied square foot for fiscal 2013 based on annualized base rent was approximately \$5.54. Total net real estate investments were \$522,046,066 as of June 30, 2013.

The Company's revenue primarily consists of Rental and Reimbursement Revenue from the ownership of industrial rental property. Net Operating Income from property operations (NOI) is defined as recurring Rental and Reimbursement Revenue, less Real Estate Taxes and Operating Expenses, such as insurance, utilities and repairs and maintenance. NOI increased \$1,089,099 or 11% for the three months ended June 30, 2013 as compared to the three months ended June 30, 2012 and increased \$3,012,892 or 10% for the nine months ended June 30, 2013 as compared to the nine months ended June 30, 2012. The increase was due to the additional income related to seven industrial properties purchased during fiscal 2012 (of which one was purchased subsequent to June 30, 2012) and three properties purchased during the nine months ended June 30, 2013 (of which one was purchased on June 18, 2013).

The Company's NOI for the three and nine months ended June 30, 2013 and 2012 is calculated as follows:

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>

NOI	\$11,362,954	\$10,273,855	\$33,721,391	\$30,708,499

The Company's revenue also includes Lease Termination Income, which amounted to \$690,730 and \$3,222,283 for the nine months ended June 30, 2013 and 2012, respectively. This income represents the payments from former tenants at our St. Joseph, MO and Monroe, NC properties terminating their lease obligations before the end of the contractual term of the leases. Other than the Company's lease with its tenant at its 26,340 square foot location in Ridgeland (Jackson), MS the Company does not have any other leases that contain an early termination option.

The Company has a concentration of FedEx Corporation (FDX) and FDX subsidiary-leased properties consisting of thirty-eight separate stand-alone leases. The percentage of FDX leased square footage to the total of the Company's rental space was 43% (11% to FDX and 32% to FDX subsidiaries) as of June 30, 2013. At the quarter end, no other tenant leased more than 5% of the Company's total square footage with the exception of Milwaukee Electric Tool Corporation which leased 7%. The only tenant that accounted for more than 5% of the Company's total Rental and Reimbursement Revenue for the nine months ended June 30, 2013 was FDX and its subsidiaries. Annualized Rental and Reimbursement

Table of Contents

Revenue from FDX and its subsidiaries is estimated to be approximately 53% (12% to FDX and 41% to FDX subsidiaries) of total rental and reimbursement revenue for fiscal 2013. This concentration is a risk shareholders should consider.

The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property investments.

On November 9, 2012, the Company purchased a 172,005 square foot industrial building located in Livonia, MI. The building is 100% net leased to FedEx Ground Packaging System, Inc. through March 31, 2022. The purchase price was \$14,350,000. The Company obtained a self-amortizing mortgage of \$9,500,000 at a fixed interest rate of 4.45% for 14 years and paid the remaining amount from Cash on hand. This mortgage matures on December 1, 2026. Annual Rental Income over the remaining term of the lease is approximately \$1,191,000. In connection with the acquisition, the Company completed its evaluation of the acquired lease. As a result of its evaluation, the Company has allocated \$650,000 to an Intangible Asset associated with the net fair value assigned to the acquired lease at the property.

On December 20, 2012, the Company purchased a newly constructed 615,305 square foot industrial building located in Olive Branch, MS. The building is 100% net leased to Milwaukee Electric Tool Corporation through March 31, 2023. The initial purchase price was \$28,000,000. The Company obtained a self-amortizing mortgage of \$17,500,000 at a fixed interest rate of 3.76% for 10 years and paid the remaining amount with a draw on its unsecured line of credit. During the three months ended March 31, 2013, the local municipality reimbursed the Company \$631,184 for costs related to a road that was built in conjunction with the construction of the building, resulting in the purchase price being adjusted to \$27,368,816. Per the terms of the mortgage agreement, 62.5% of any purchase price reduction was required to be used to pay down the mortgage balance. Therefore, \$394,490 of the reimbursement was applied as a reduction to the mortgage balance and the mortgage agreement was amended to reflect this reduction in principal. In addition, in accordance with the purchase and lease agreements, the reduction in purchase price resulted in the annual Rental Income over the remaining term of the lease to be adjusted from approximately \$1,965,000 to \$1,924,000. In connection with the acquisition, the Company completed its evaluation of the acquired lease. As a result of its evaluation, the Company has not allocated any amount to an Intangible Asset.

(1) Amount calculated based on the total cost divided by the square feet, divided by the renewal term

Of the total 896,813 square feet of gross leasable area originally set to expire during fiscal 2013, 837,388 square feet or 93% has been renewed. The lease renewals have been renewed for a weighted average term of 4.7 years and at an average lease rate of \$4.71 per square foot as compared to \$4.84 per square foot formerly, representing a weighted average reduction of 2.69%.

The one remaining lease located in White Bear Lake, MN leased to FedEx Express through November 30, 2012, representing 59,425 square feet or 7% of the expiring space, did not renew.

Effective March 31, 2013, we entered into a seven and half year lease with Tampa Bay Grand Prix at our 68,385 square foot facility located in Tampa FL, which was previously vacant. The tenant receives free rent for six months. Effective October 1, 2013, annual base rent will be \$256,443 or \$3.74 per square foot with 3% increases each year through the September 30, 2020 lease expiration.

Effective July 1, 2013, we entered into a six year lease with Holland 1916 Inc. at our 95,898 square foot facility located in Liberty, MO, which was previously vacant. Effective July 1, 2013, annual base rent is \$311,669 or \$3.25 per square foot with 2.5% increases each year through the June 30, 2019 lease expiration. Once this lease became effective, the Company's occupancy rate increased from 94.9% to 95.9%.

Rental Revenue increased \$1,022,226 or 10% for the three months ended June 30, 2013 as compared to the three months ended June 30, 2012 and increased \$2,720,306 or 8% for the nine months ended June 30, 2013 as compared to the nine months ended June 30, 2012. The increase for the three and nine months ended June 30, 2013 was due primarily to the

Table of Contents

increased rental income earned from the acquisition of seven properties during fiscal 2012 (of which one was purchased subsequent to June 30, 2012) and three properties purchased during the nine months ended June 30, 2013 (of which one was purchased on June 18, 2013).

Reimbursement Revenue increased \$488,311 or 26% for the three months ended June 30, 2013 compared to the three months ended June 30, 2012 and increased \$118,661 or 2% for the nine months ended June 30, 2013 as compared to the nine months ended June 30, 2012. Real Estate Tax Expense increased \$384,452 or 29% for the three months ended June 30, 2013 as compared to the three months ended June 30, 2012 and decreased \$434,381 or 10% for the nine months ended June 30, 2013 as compared to the nine months ended June 30, 2012. The increase for Reimbursement Revenue and Real Estate Tax Expense for the three months ended June 30, 2013 was primarily due to the increase in Real Estate Tax reimbursements from the tenants resulting from the increase in Real Estate Taxes due to our newly acquired buildings. The decrease for the nine months ended June 30, 2013 for both Reimbursement Revenue and Real Estate Taxes was due primarily to the Company's ability to obtain refunds and reductions in Real Estate Taxes in several jurisdictions. Our single tenant properties are subject to net leases which require the tenants to absorb the cost of Real Estate Taxes as well as insurance and the majority of repairs and maintenance. As such, the Company is reimbursed by the tenants for these Real Estate Taxes.

Lease Termination Income amounted to \$-0- and \$690,730 for the three and nine months ended June 30, 2013, respectively, as compared to \$-0- and \$3,222,283 for the three and nine months ended June 30, 2012, respectively. This income represents the payments from former tenants at our St. Joseph, MO and Monroe, NC properties terminating their lease obligations before the end of the contractual term of the leases by agreement with the Company in accordance with the terms of the Lease.

Operating Expenses increased \$260,456 or 12% for the nine months ended June 30, 2013 as compared to the nine months ended June 30, 2012. The increase in Operating Expenses for the nine months ended June 30, 2013 was due primarily to an increase in insurance costs of \$32,000, an increase in repair and maintenance costs of \$190,000 and an increase in utility costs of \$38,000. The increases were mainly due to the acquisitions in 2012 and 2013. Approximately \$210,000 of the increases in Operating Expenses is offset by Reimbursement Revenue from these new tenants.

General and Administrative Expense increased \$255,226 or 22% for the three months ended June 30, 2013 as compared to the three months ended June 30, 2012 and increased \$553,134 or 18% for the nine months ended June 30, 2013 as compared to the nine months ended June 30, 2012. The increase in General and Administrative Expense for the nine months ended June 30, 2013 was due primarily to increased salary and related expenses for recent hires of approximately \$120,000, professional fees associated with redeeming the Debentures of approximately \$125,000, annual increase in Directors' Fees of \$110,000 and increase in general professional fees of approximately \$50,000.

Interest and Dividend income increased \$111,095 or 15% for the three months ended June 30, 2013 as compared to the three months ended June 30, 2012 and increased \$397,288 or 15% for the nine months ended June 30, 2013 as compared to the nine months ended June 30, 2012. This increase was mainly due to a higher average carrying value of

Securities Available for Sale during the three and nine months ended June 30, 2013 as compared to the average carrying value of Securities Available for Sale during three and nine months ended June 30, 2012.

The Company recognized a Gain on Sale of securities of \$1,062,614 and \$680,068 for the three months ended June 30, 2013 and 2012, respectively and \$6,976,086 and \$5,677,783 for the nine months ended June 30, 2013 and 2012, respectively. In addition, the Company had net unrealized gains on its securities held for sale of \$4,142,389 as of June 30, 2013.

Discontinued Operations for the three and nine months ended June 30, 2013 include the operations of the property in Greensboro, NC, which was classified as held for sale as of December 31, 2012. On February 19, 2013, the Greensboro, NC property was sold for \$1,525,000. Changes in Financial Condition

The Company generated net Cash from Operating Activities of \$18,217,490 and \$21,348,526 for the nine months ended June 30, 2013 and 2012, respectively.

Net Real Estate Investments increased \$54,159,582 from September 30, 2012 to June 30, 2013. This increase was due mainly to the purchase of the industrial properties in Livonia, MI; Olive Branch, MS and Roanoke, VA totaling \$51,918,866, costs incurred in connection with expansions of our existing properties of \$10,227,941 and the purchase of land adjacent to our property located in Orion, MI for \$988,300 in connection with a 52,154 square foot expansion. The increase was partially offset by Depreciation Expense for the nine month period of \$9,583,380.

Securities Available for Sale decreased \$14,915,757 from September 30, 2012 to June 30, 2013. The decrease was due to the sales of securities with a cost basis of \$24,381,027 offset by purchases of securities totaling \$10,706,818 and a decrease in net unrealized gains of \$1,241,548.

Mortgage Notes Payable increased \$9,672,063 from September 30, 2012 to June 30, 2013. The increase was due mainly to the three mortgages of \$33,650,000 originated in connection with the acquisitions of the three industrial properties purchased in fiscal 2013. Details on the mortgages are as follows:

	Mortgage	Maturity	Interest
<u>Property</u>	<u>Originated</u>	<u>Date</u>	<u>Rate</u>
Livonia, MI	\$9,500,000	12/1/26	4.45%
Olive Branch, MS (1)	17,500,000	1/1/23	3.76%
Roanoke, VA	6,650,000	7/1/26	3.84%

(1) On February 27, 2013, the mortgage was amended to reduce the balance by 62.5% of the reduction in the purchase price of the acquisition requiring a one-time principal payment of \$394,490.

The increase in mortgages was partially offset by scheduled payments of principal of \$13,403,185, balloon payments on the Montgomery, IL; Ft. Myers, FL; Fayetteville, NC; Lakeland, FL; Augusta, GA and Burr Ridge, IL property mortgages of \$13,010,514, and a one-time principal payment of \$394,490 on

the Olive Branch, MS property mortgage. In addition, the Company refinanced the existing mortgage on its Tolleson, AZ property with a balance of \$5,169,748 at an interest rate of 5.8% due December 1, 2012. The new \$8,000,000 mortgage, which matures on November 1, 2022, is at a fixed interest rate of 3.95%.

The Company is scheduled to repay a total of approximately \$21,054,000 in mortgage principal payments in the next twelve months, consisting of balloon payments of approximately \$2,013,000 and regular monthly amortization payments of approximately \$19,041,000. The Company intends to make these principal payments from the funds raised from Cash from Operations, the DRIP, draws from the Facility and refinancings.

The Company's outstanding 8% Debentures decreased \$8,615,000 from September 30, 2012 to June 30, 2013. Pursuant to notice given, on October 29, 2012, the Company's subsidiary redeemed all of the 2013 and 2015 Debentures outstanding on November 30, 2012 for the full principal amount plus accrued interest to November 30, 2012. Between October 1, 2012 and November 30, 2012, \$3,500,000 of the Debentures were converted to 382,091 shares of common stock and the remaining \$5,115,000 of the Debentures were redeemed. There are no Debentures currently outstanding.

Loans Payable increased \$12,000,000 from September 30, 2012 to June 30, 2013. The increase was due to a draw on the unsecured line of credit of \$12,000,000. As of June 30, 2013, total Loans Payable of \$17,200,000 consisted of \$12,000,000 outstanding under the Company's current \$40,000,000 Facility, a \$2,700,000 loan from the Bank of Princeton and a \$2,500,000 loan from Two River Bank.

**Liquidity and Capital Resources**

Net Cash Provided by Operating Activities was \$18,217,490 and \$21,348,526 for the nine months ended June 30, 2013 and 2012, respectively. Dividends paid on common stock for the nine months ended June 30, 2013 and 2012 were \$18,829,004 and \$17,649,748, respectively (of which \$4,980,914 and \$1,230,696, respectively, was reinvested). The Company pays dividends from Cash Provided by Operating Activities.

As of June 30, 2013, the Company owned Securities Available for Sale of \$46,769,416 subject to term loans of \$5,200,000. These marketable securities provide the Company with additional liquidity as well as dividend income. As of June 30, 2013, the Company had a net unrealized gain on its portfolio of \$4,142,389. The dividends received from our investments continue to meet our expectations.

As of June 30, 2013, the Company owned seventy-four properties (seventy-three industrial properties and one shopping center), of which fifty-four carried mortgage loans with outstanding principal balances as of June 30, 2013 totaling \$247,615,974. The unencumbered properties could be refinanced to raise additional funds, although covenants

in the Company's Facility limit the amount of unencumbered properties which can be mortgaged. The Company had \$28 million available on its \$40 million Facility, (with an accordion feature up to \$60 million), as of June 30, 2013. The Facility matures June 30, 2016, with a one year extension option.

The Company's total net debt to total market capitalization was 31% and the Company's total net debt plus preferred equity to total market capitalization was 45% as of June 30, 2013.

During the nine months ended June 30, 2013, the Company paid \$3,059,178 in dividends on its outstanding Series A preferred shares. On July 1, 2013, the Company declared a dividend of \$0.4766 per share on the Company's Series A preferred shares payable September 16, 2013, to Series A preferred shareholders of record as of the close of business on August 15, 2013.

During the nine months ended June 30, 2013, the Company paid \$3,396,096 in dividends on its outstanding Series B preferred shares. On July 1, 2013, the Company declared a dividend of \$0.4922 per share on the Company's Series B preferred shares payable September 16, 2013, to Series B preferred shareholders of record as of the close of business on August 15, 2013.

The Company raised \$20,566,626 (including reinvestments of \$4,980,914) from the issuance of 2,048,313 common shares under the DRIP during the nine months ended June 30, 2013. During the nine

months ended June 30, 2013, the Company paid \$18,829,004 in total cash dividends or \$0.45 per common share to common shareholders, of which \$4,980,914 was reinvested in the DRIP. On July 1, 2013, the Company declared a dividend of \$0.15 per common share to be paid on September 16, 2013 to common shareholders of record as of the close of business on August 15, 2013.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its Facility or securities margin loans, refinance debt, or raise capital through the DRIP or capital markets.

The Company has been raising capital through its DRIP, registered direct placements and public offerings of common and preferred stock and investing in net leased industrial properties. The Company believes that funds generated from operations and from the DRIP, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next year.

The Company seeks to invest in well-located, modern buildings, leased primarily to investment grade tenants on long-term leases. In management's opinion, newly built facilities leased to FedEx Corporation (FDX) and its subsidiaries meet these criteria. The Company has a concentration of FedEx Corporation (FDX) and FDX subsidiary-leased properties consisting of thirty-eight separate stand-alone leases. The percentage of FDX leased square footage to the total of the Company's rental space was 43% (11% to FDX and 32% to FDX subsidiaries) as of June 30, 2013. At the quarter end, no other tenant leased more than 5% of the Company's total square footage with the exception of Milwaukee Electric Tool Corporation which leased 7%. The only tenant that accounted for more than 5% of the Company's total Rental and Reimbursement Revenue for the nine months ended June 30, 2013 was FDX and its subsidiaries. Annualized Rental and Reimbursement Revenue from FDX and its subsidiaries is estimated to be approximately 53% (12% to FDX and 41% to FDX subsidiaries) of total Rental and Reimbursement Revenue for fiscal 2013.

FDX and Milwaukee Electric Tool Corporation's ultimate parent, Techtronic Industries Company Limited are publicly-owned companies and information on the business operations and financial condition on each company is readily available to the Company's shareholders.

The Company intends to acquire additional net-leased industrial properties on long-term leases, primarily to investment grade tenants, and when needed, expand its current properties. The Company has historically and intends to continue to finance purchases of real estate and expansions primarily through mortgages, draws on its Facility, funds generated from the DRIP and available cash reserves. To the extent that funds or appropriate properties are not available, fewer acquisitions and expansions will be made.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

### **Funds From Operations and Core Funds From Operations**

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts (NAREIT), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America (US GAAP), excluding extraordinary items, as defined under US GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-US GAAP supplemental measure of REIT operating performance. We define Core Funds From Operations (Core FFO) as FFO plus acquisitions costs. FFO and Core FFO should be considered as a supplemental measure of operating performance used by REITs. FFO and Core FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO and Core FFO are significant components in understanding the Company's financial performance.

Table of Contents

FFO and Core FFO (i) do not represent Cash Flow from Operations as defined by US GAAP; (ii) should not be considered as an alternative to Net Income as a measure of operating performance or to Cash Flows from Operating, Investing and Financing Activities; and (iii) are not an alternative to cash flow as a measure of liquidity. FFO and Core FFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.

The Company's FFO and Core FFO for the three and nine months ended June 30, 2013 and 2012 are calculated as follows:
