## Edgar Filing: INTEGRATED DEVICE TECHNOLOGY INC - Form 8-K

99.1 attached hereto, is being furnished pursuant to "Item 12. Results of Operations and Financial Condition" of Form 8-K in accordance with SEC Release Nos. 33-8216 and 34-47583.

The information in this Current Report, including Exhibit 99.1, is being furnished and shall not be deemed "filed" for purposes of Section 18 of the Securities and Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section. On January 22, 2004, Integrated Device Technology, Inc. issued a press release announcing its financial results for the quarter ended December 28, 2003, its third quarter of fiscal year 2004. A copy of the press release is attached as Exhibit 99.1.

The Company's press release contains non-GAAP financial measures. Pursuant to the requirements of Regulation G, the Company has provided reconciliations within the press release of the non-GAAP financial measures to the most directly comparable GAAP financial measures included in the press release.

Non-GAAP Statements of Operations are presented in the press release. Non-GAAP Statements of Operations exclude certain costs, charges and gains that management believes are not directly related to the Company's ongoing operations. For example, for the nine months ended Q3 2004, the Company has excluded acquisition-related costs, restructuring charges, and costs associated with closing a fabrication facility as well as benefits from a non-recurring federal tax refund and the sale of the Company's last remaining equity holdings of PMC-Sierra. Management uses this information excluding these charges in evaluating results of the operations of the Company and believes that this information provides investors a valuable insight into the underlying results of operations of the Company and facilitates comparison between the Company and other companies.

The foregoing description is qualified in its entirety by reference to the Registrant's Press Release dated January 22, 2004, a copy of which is attached hereto as Exhibit 99.1.
