**Item 2.02 Results of Operations and Financial Condition**

On April 28, 2009, G&K Services, Inc. issued a press release announcing its financial results for the fiscal third quarter ended March 28, 2009. A copy of the press release is furnished as Exhibit 99.1 to this report. The press release contains non-GAAP financial measures which are the organic industrial rental growth rate, free cash flow and certain non-GAAP operating results which are reconciled to the third quarter and fiscal 2009 year-to-date earnings per diluted share on a GAAP basis to adjusted earnings per diluted share on a non-GAAP basis. The organic growth rate is calculated using industrial rental revenues, adjusted for foreign currency exchange rate differences and revenues from newly acquired locations. Management believes that by eliminating the impact of the U.S.-Canadian exchange rate and the effects of the company's recent business acquisitions, the organic growth rates better reflect the growth of the company's existing industrial rental business. The free cash flow result is calculated as cash flow from operations less capital expenditures. Management believes that organic growth and free cash flow are useful in analyzing the company's overall financial condition and the results of its operations. Management believes that certain non-GAAP operating results, which exclude non-cash impairment and certain other non-recurring charges, provide a more meaningful measure on which to compare the company's overall results of operations between periods.

The information in this Item 2.02 and Exhibit 99.1 shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended.

**Item 9.01 Financial Statements and Exhibits.**

(c) Exhibits.

99.1 Press Release dated April 28, 2009
