INTERNATIONAL ISOTOPES INC. AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Financial Statements

(1)

The Company and Basis of Presentation

International Isotopes Inc. (the Company) was formed as a Texas corporation in 1995. Its wholly owned subsidiaries are International Isotopes Idaho Inc., International Isotopes Fluorine Products Inc., and International Isotopes Transportation Services Inc., all of which are Idaho corporations. The Company's headquarters and all operations are located in Idaho Falls, Idaho.

Nature of Operations The Company's business consists of six major business segments: Nuclear Medicine Standards, Cobalt Products, Radiochemical Products, Fluorine Products, Radiological Services, and Transportation Services.

With the exception of certain unique products, the Company's normal operating cycle is considered to be one year. Due to the time required to produce some cobalt products, the Company's operating cycle for those products is considered to be three years. All assets expected to be realized in cash or sold during the normal operating cycle of business are classified as current assets. As of June 30, 2007, the Company had 26 full time employees.

Principles of Consolidation The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries International Isotopes Idaho Inc., International Isotopes Fluorine Products Inc., and International Isotopes Transportation Services Inc. All significant intercompany accounts and transactions have been eliminated in consolidation.

Interim Financial Information The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission.

Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments and reclassifications considered necessary for a fair and comparable presentation have been included and are of a normal recurring nature. Operating results for the six-month period ended June 30, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007. The accompanying financial statements should be read in conjunction with the Company's most recent audited financial statements.

Stock-based Compensation Plans Compensation expense charged against income for stock based awards during the three and six months ended June 30, 2007 was \$44,415 and \$88,467, respectively, as compared to \$22,072 and \$44,528 for the three and six months ended June 30, 2006, respectively, and is included in general and administrative expense in the accompanying financial statements.

A summary of the status of the stock options as of June 30, 2007 and changes during the six months ended June 30, 2007 is as follows:

Fixed Options	Shares	Weighted Average Exercise Price	Weighted Average Remaining Term	Aggregate Intrinsic Value
Outstanding at December 31, 2006	22,650,000	\$ 0.05	6.3	\$ 1,505,000
Outstanding at June 30, 2007	22,650,000	\$ 0.05	5.8	\$ 3,901,500
Exercisable at June 30, 2007	18,862,500	\$ 0.04	5.2	\$ 3,409,625

As of June 30, 2007, there was approximately \$117,341 of unrecognized compensation cost related to stock options that will be recognized over a weighted average period of 1.5 years.

(2)

Current Developments and Liquidity

Business Condition Since inception, the Company has suffered substantial losses. During the three and six-month periods ended June 30, 2007 the Company had a loss of \$351,448 and \$869,994 respectively compared to a loss of \$261,428 and \$403,421 during the same periods ended June 30, 2006. During the six-month period ended June 30, 2007, the Company's operations used cash of \$856,489 in operating activities. During the period ended June 30, 2006, the Company's operations used cash of \$137,365. The Company believes that continued growth in our major business segments, the start of the fluorine product sales, and proceeds raised through the sale of equity securities and conversion of warrants will lead to increased revenue and improved cash flow. Based upon these improvements to business conditions, management expects to generate sufficient cash flows to meet operational needs during 2007; however, there is no assurance that these cash flows will occur.

(3)

Net Loss Per Common Share - Basic and Diluted

At June 30, 2007, and 2006, the Company had the following common stock equivalents outstanding that were not included in the computation of diluted net loss per common share as their effect would have been anti-dilutive, thereby decreasing the net loss per common share:

	June 30,	
	2007	2006
Stock options	22,650,000	18,650,000
Warrants	30,727,720	15,009,903
850 shares of Series B redeemable		
convertible preferred stock	425,000	425,000
\$650,000 of convertible notes payable	--	8,125,000
	53,802,720	42,209,903

(4)

Inventories

Inventories consist of the following at June 30, 2007 and December 31, 2006

	June 30, 2007		December 31, 2006
Raw materials	\$ 263,337	\$	263,791
Work in progress	2,436,184		2,273,836
	\$ 2,699,521	\$	2,537,627

(5)

Stockholders Equity and Warrants

Private Placement

On March 21, 2007, the Company completed a private placement offering of 13,333,331 Units priced at \$0.09 per Unit for proceeds of \$1,200,000. Each Unit consisted of one share of common stock, one Class C warrant to purchase a share of common stock at \$0.10 per share and one Class D warrant to purchase a share of common stock at \$0.11 per share. The warrants expire in March 2011. The proceeds were allocated to the warrants based upon their fair value of \$2,460,000, and resulted in \$751,783 being allocated to the warrants and \$448,217 allocated to the shares of common stock. The fair value of the warrants, determined using the Black-Scholes Option Pricing Model, was calculated using the following assumptions: risk free interest rate of 4.43%, expected dividend yield of 0%, expected volatility of 133.76% and an expected life of 4 years.

The common shares and the shares underlying the warrants have registration rights, and the Company filed a registration statement covering the shares with the Securities and Exchange Commission which became effective on June 8, 2007.

Warrants

During the six months ended June 30, 2007, 5,392,933 Series B warrants were exercised for cash proceeds of \$269,538. At June 30, 2007, the Company had 4,061,058 Series B warrants outstanding.

On March 21, 2007, in conjunction with a Private Placement Offering, the Company issued 13,333,331 Class C warrants and 13,333,331 Class D warrants.

Subsequent to June 30, 2007, 3,964,981 Series B Warrants were exercised for cash proceeds of \$198,249.

Employee Stock Purchase Plan

Edgar Filing: INTERNATIONAL ISOTOPES INC - Form 10QSB

During the six months ended June 30, 2007, the Company issued 39,282 shares of common stock to employees for proceeds of \$3,802 in accordance with the employee stock purchase plan.

Subsequent to June 30, 2007, the Company issued 12,325 shares of common stock to employees for proceeds of \$1,572.

(6)

Notes Payable

During March 2007, the Company secured financing on equipment purchased for its transportation segment in the amount of \$32,499. The note bears interest at 8.99%, requires monthly payments of \$674, is due March 2012, and is secured by equipment.

During March 2007, the company re-negotiated the \$648,075 note payable. The new terms call for interest of 10.25% with 23 payments of \$9,711 beginning April 30, 2007. All unpaid principle and interest is due March 31, 2009.

In April 2007, the Company converted all of the \$650,000 convertible notes payable and \$23,614 of accrued interest at \$0.08 per share into 8,420,172 shares of common stock.

(7)

Acquisition of Interest in RadQual, LLC

During April 2007, the Company acquired an interest in RadQual, LLC. The Company acquired 5.5 units in RadQual, LLC, representing about 6% of the Company, for a total purchase price of \$330,000. \$275,000 was paid in cash and \$55,000 was paid in the form of shares of common stock of the Company. A total of 392,857 shares were issued valued at \$0.14 per share. The Company also has the option to purchase an additional 12.5 units in RadQual, LLC. that would raise the total ownership to just over 20%. The option is exercisable for \$55,000 per unit if paid in cash or \$60,000 per unit with \$50,000 being paid in cash and \$10,000 payable in the form of the Company's common stock. This option expires December 31, 2008. This investment will be accounted for at cost.

(8)

Other Income

The Company was awarded a grant by the National Science Foundation (NSF) Small Business Innovation Research program of approximately \$100,000 to complete a Phase I investigation into the use of germanium tetrafluoride as a fluorinating agent for development of new and more efficient processes for production of hydrofluorocarbon (HFC) refrigerants. Under this NSF program, the Company will conduct experiments intended to obtain evidence for germanium tetrafluoride fluorination by halogen exchange to determine whether production of HFC refrigerants is possible. As of June 30, 2007, the Company had received approximately \$66,000 from this grant.

(9)

Commitments and Contingencies

Dependence on Third Parties

The production of HSA Cobalt is dependent upon the U.S. Department of Energy, and its prime operating contractor, who controls the reactor operations. Nuclear Medicine Standard's manufacturing is conducted under an exclusive contract with another of our customers, RadQual, LLC, who in turn has an agreement in place with a major distributor. In April 2007, the Company acquired a 6 % interest in RadQual, LLC and has an option to acquire up to about 20%.of that company. A change in the contractual relationship with the DOE for cobalt production or the loss of the RadQual customer, or their distributors, could adversely affect operating results by causing a delay in production or lead to a reduction in sales.

Contingencies

Because all of the Company's business segments involve radioactive materials the Company is required to have an operating license from the Nuclear Regulatory Commission (NRC) and specially trained staff to handle these materials. The Company has amended the NRC license numerous times to address changes in the quantities of material being handled, and to describe the types of activities being conducted in the facility, and has obtained an

additional license for the Fluorine Products subsidiary operations. Additional processing capabilities and license amendments could be implemented that would permit processing of other reactor-produced radioisotopes by the Company, but our current licenses do not restrict the volume of business operations currently performed or projected to be performed in the coming year. An irrevocable, automatic renewable letter of credit against a Certificate of Deposit at Texas State Bank has been used to provide the financial assurance required by the NRC for these licenses.

Litigation

The Company was named as a defendant in a lawsuit filed by a former employee. The plaintiff has alleged that the Company breached his employment contract, by failing to provide six months continuation pay upon his termination. In April 2007, the lawsuit was settled by the Company for a cash payment of \$43,000.

(10)

Segment Information

Segment information has been prepared in accordance with SFAS No. 131, Disclosure About Segments of an Enterprise and Related Information.

The Company has six reportable segments which include; Nuclear Medicine, Cobalt Products, Radiochemical Products, Fluorine Products, Radiological Services, and Transportation Services. Information regarding the operations and assets of these reportable business segments is contained in the following table:

Sale of Product	Three Months ended June 30,		Six Months ended June 30,

Subsequent Events

A total of 3,964,981 Series B warrants were exercised for proceeds of \$198,249.

Under the employee stock purchase plan, 12,325 shares of common stock were issued for proceeds of \$1,572.

Subsequent to June 30, 2007, the Company issued 1,000,000 options to purchase common stock at a price of \$0.40 a share to an employee. Of these options, 200,000 vested immediately.

Subsequent to June 30, 2007, an employee exercised options to purchase 1,500,000 shares of common stock and the company issued 1,414,285 shares of common stock under a cashless exercise.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF OPERATIONS

This Quarterly Report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, including statements regarding industry prospects and future results of operations or financial position, made in this Quarterly Report are forward looking. In particular, statements regarding growth in our business segments; increased cash flow to meet operational needs; improvement in our financial strength, debt ratio and attractiveness to investors and lenders; future liquidity requirements; NRC licensing requirements; the outcome of pending litigation; and the consequences of the loss of any of our major customers are forward looking. Forward-looking statements reflect management's current expectations, plans or projections. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. Certain risks and uncertainties that could cause our actual results to differ significantly from management's expectations are described in the risk factors set forth in our annual report on Form 10-KSB for the fiscal year ended December 31, 2006 filed with the securities and Exchange Commission on March 26, 2007. These factors, describe some but not all of the factors that could cause actual results to differ significantly from management's expectations. The Company will not publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Readers are urged, however, to review the factors set forth in reports that we file from time to time with the Securities and Exchange Commission.

RESULTS OF OPERATIONS

Three-month and six-month periods ended June 30, 2007 and 2006.

Revenues for the three and six-month period ended June 30, 2007 were \$1,203,305 and \$2,105,937 as compared to \$985,895 and \$2,182,838 for the same periods in 2006, an increase of \$217,410 and a decrease of \$76,901 or approximately 22% and 3% respectively. The 22% increase in revenue for the three month period was attributable to increased sales of cobalt products, radiological, and transportation services. The 3% decline in revenue for the six-month period comparison was attributable to the timing of cobalt sales in 2007 compared to 2006. The timing of large cobalt product sales during the course of the calendar year has a significant impact upon period comparisons. Excluding cobalt product sales, revenues for the three-month period ended June 30, 2007, were \$1,028,290 as compared to \$897,351 for the same period in 2006, which represents an increase of \$130,939 or 15%. Excluding cobalt product sales, revenues for the six-month period ended June 30, 2007, were \$1,891,897 as compared to \$1,701,208 for the same period in 2006, which represents an increase of \$190,689 or 11%. Management believes that excluding sales of cobalt products from the period comparisons of revenues provides useful information to investors. Please refer to the following tables for a further analysis of this measure:

Three-Month Financial Measure Reconciliation

	Period ended June 30, 2007	Period ended June 30, 2006
Total Revenues	\$1,203,305	\$985,895
Cobalt Products Revenues	\$ 175,015	\$ 88,544
Total Revenues Excluding Cobalt Products Revenues	\$1,028,290	\$897,351

Six-Month Financial Measure Reconciliation

	Period ended June 30, 2007	Period ended June 30, 2006
Total Revenues	\$2,105,937	\$2,182,838
Cobalt Products Revenues	\$ 214,040	\$ 481,630
Total Revenues Excluding Cobalt Products Revenues	\$1,891,897	\$1,701,208

Gross profit for the three and six-month period ended June 30, 2007, was \$555,417 and \$929,030 compared to \$496,385 and \$1,067,720 for the same periods in 2006. These represent increases of \$59,032, or 12%, and a decrease of \$138,690, or 13%, for the three and six month periods respectively. Operating expenses increased to \$865,112 and \$1,785,937 for the three and six-month period ended June 30, 2007 compared to \$711,030 and \$1,384,495 for the same periods of 2006. This represents an increase of \$154,082, or 22%, and \$401,442, or 29%, for the three and six-month periods respectively. Salaries and contract labor expenses for the three and six-month periods ended June 30, 2007 were \$358,560 and \$694,822 as compared to \$288,624 and \$579,241 for the same periods of 2006. General administrative expenses totaled \$496,491 and \$1,072,196 for the three and six-month periods ended June 30, 2007 as compared to \$405,939 and \$773,996 for the same periods of 2006. The increase in operating expense is attributed to the addition of full time staff to support our new International Isotopes Transportation Services Inc. subsidiary, facility operational expense related to the Fluorine Products segment, increased stock option expense, and litigation settlement.

Our net loss for the three and six-month periods ended June 30, 2007 was \$351,448 and \$869,994 compared to a loss of \$261,428 and \$403,421 for the same periods in 2006.

Interest expense for the three and six-month period ended June 30, 2007 was \$43,835 and \$85,975 as compared to \$50,013 and \$92,654 for the same periods in 2006. The reduction in interest expense was attributable to a reduction in the principal balance owed.

LIQUIDITY AND CAPITAL RESOURCES

On June 30, 2007, we had cash and cash equivalents of \$124,179. For the six-months ended June 30, 2007, net cash used in operating activities was \$856,489. We used \$507,486 for investing activities. Financing activities provided \$1,318,452 from exercise of series B warrants and issuance and sale of Company stock. As of June 30, 2007, we had drawn \$150,000 against the Texas State Bank line of credit with an additional \$100,000 available on the line of credit.

Our future liquidity and capital funding requirements will depend on numerous factors, including, contract manufacturing agreements, commercial relationships, technological developments, market factors, available credit, and voluntary warrant redemption by shareholders. We have an open line of credit for \$250,000 with Texas State Bank that currently has \$150,000 drawn down. We have 30,727,720 Series B, Class C and Class D warrants still outstanding.

On March 21, 2007, we completed a private placement offering of 13,333,331 Units priced at \$0.09 per Unit for proceeds of \$1,200,000. Each Unit consisted of one share of common stock, one Class C warrant to purchase a share of common stock at \$0.10 per share and one Class D warrant to purchase a share of common stock at \$0.11 per share. The proceeds were allocated to the warrants based upon their fair value of \$2,460,000, and the balance of the proceeds was allocated to the shares of common stock. The common shares and the shares underlying the warrants have registration rights. A registration statement was filed with the Securities and Exchange Commission on May 7, 2007 and became effective on June 8, 2007.

In April 2007, we converted all of the \$650,000 convertible notes payable and \$23,614 of accrued interest at \$0.08 per share into 8,420,172 shares of common stock. The Company had originally completed the Note purchase agreement with certain of our principal investors and directors in January 2005.

LITIGATION

A former employee filed a lawsuit against the Company in 2006 alleging that the Company breached his employment contract, by failing to provide six months continuation pay upon his termination. In April 2007, the lawsuit was settled for a cash payment of \$43,000.

MATERIAL CHANGES

In January, 2007, we were awarded a grant by the National Science Foundation (NSF) Small Business Innovation Research program of approximately \$100,000 to complete a Phase I investigation into the use of germanium tetrafluoride as a fluorinating agent for development of new and more efficient processes for production of hydrofluorocarbon (HFC) refrigerants. Under this NSF program, we will conduct experiments intended to obtain evidence for germanium tetrafluoride fluorination by halogen exchange to determine whether production of HFC refrigerants is possible.

During April 2007, the Company entered into an Option Purchase Agreement with one of the owners and founders of RadQual LLC. Under the terms of this Agreement, the Company purchased units representing about 6% of RadQual LLC and has an option to purchase additional units that would represent a total of just over 20% of RadQual. RadQual LLC is a privately held company that markets a wide range of nuclear medicine reference and calibration standards under the trademark name of Benchmark™. We have been the sole contract manufacturer of the Benchmark products since 2001.

ITEM 3. DISCLOSURE, CONTROLS, AND PROCEDURES

As of the end of the period covered by this report, the Company conducted an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based on this evaluation, the principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of June 30, 2007.

There was no change in the Company's internal controls over financial reporting during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to affect the Company's internal control over financial reporting.

Our principal executive officer and principal financial officer do not expect that our disclosure controls or our internal controls will prevent all error and all fraud. Although our disclosure controls and internal controls were designed to provide reasonable assurance of achieving their objectives, and our principal executive officer and principal financial officer have determined that our disclosure controls and procedures are effective at doing so, a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based partly on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

PART II. OTHER INFORMATION

Item 6. Exhibits

3(i)

Second Amended and Restated Articles of Incorporation (incorporated by reference to Appendix C to the Company's definitive proxy statement on Schedule 14A filed on May 1, 2006).

3(ii)

Bylaws (incorporated by reference to Exhibit 3.2 to the Company's Registration Statement on Form SB-2 filed on May 1, 1997 (Registration No. 333-26269)).

31.1

Certification under Section 302 of the Sarbanes-Oxley Act of 2002 for Chief Executive Officer.

31.2

Certification under Section 302 of the Sarbanes-Oxley Act of 2002 for Chief Financial Officer.

32

Certification by the Chief Executive and Chief Financial Officer Pursuant to 18 U.S.C. Section 1350 Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

SIGNATURES

In accordance with the requirements of the Exchange Act the small business issuer caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

International Isotopes Inc.
